It is expressly agreed and understood that the total amount to be paid by the City under this Agreement shall not exceed the amount stipulated in Section 3 of this Agreement. Drawdowns for the payment of eligible expenses are reimbursement only and shall be made against the line item budgets specified in Exhibit C herein and in accordance with any City policy concerning payments.

b. Financial Management System Certification

Payments may be contingent upon certification of the Subrecipient's financial management system in accordance with the standards specified in 2 CFR Part 200, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The entire amount of allowable grant expenses (including those to be paid with program income) shall be supported by source documentation (e.g., invoices, time sheets, receipts, etc.). The City reserves the right to request any additional documentation, as it deems necessary.

c. Reimbursement Schedule

The Subrecipient may requisition a reimbursement of expenses for project costs. Such reimbursement requests must include proof of payment of the requested expense. Request for salary reimbursement must be within 30 days from end of pay period. Other requests dated within 60 days from date of service/purchase will be accepted. Final request must be submitted by June 15, 2026.

C. PROGRAM INCOME

The Subrecipient shall report all program income (as defined at 24 CFR 570.500(a)) generated by activities carried out with CDBG funds. The documentation, reporting and use of program income by the Subrecipient shall comply with the requirements set forth at 24 CFR 570.504 and 2 CFR Part 200 for activities permitted under this agreement. Requests for funds shall be reduced by the amount of any such program income balances on hand. Any program income on hand when this Agreement expires, or received after this Agreement's expiration, shall, at the City's discretion, be returned to the City or used by the Subrecipient for eligible activities as identified in an agreement that becomes effective upon expiration of this Agreement. Any interest earned from funds held in a revolving fund account is not program income and shall be remitted to the City which will, in turn, remit it to HUD.

D. UNIFORM ADMINISTRATIVE REQUIREMENTS

1. Accounting Standards

The Subrecipient agrees to comply with 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and agrees to adhere to the accounting principles and procedures required therein, use adequate internal controls, and maintain necessary source documentation for all costs incurred.

2. Cost Principles

The Subrecipient shall administer its program in conformance with 2 CFR Part 200, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, as applicable. These principles shall be applied for all costs incurred.

3. Procurement

The Subrecipient shall have its own procurement policies and procedures. Said policies shall meet the requirements of 2 CFR Part 200 Subpart D Procurement Standards. The Subrecipient shall follow Management Standards as modified by 24 CFR 570.502.

4. Copyright

If this Agreement results in any copyrightable material or inventions, the City and/or federal government reserves the right to royalty-free, non-exclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use the work or materials for government purposes.

E. OTHER PROGRAM REQUIREMENTS

1. General Compliance

The Subrecipient agrees to comply with the requirements of 24 CFR 570. The Subrecipient also agrees to comply with all other applicable federal, state and local laws, regulations, and policies governing its operations and the funds provided under this Agreement. The Subrecipient agrees to remain current on all applicable taxes, assessments and other governmental charges and to maintain all Subrecipient owned property(ies) in compliance with all applicable City Codes. The Subrecipient further agrees to use funds available under this Agreement to supplement rather than supplant funds otherwise available.

2. Independent Contractor

Nothing contained in this Agreement is intended to, or shall be construed in any manner, as creating or establishing the relationship of employer/employee between the parties. The Subrecipient shall at all times remain an "independent contractor" with respect to the services to be performed under this Agreement. Except for the benefits and stipulated amounts indicated under this Agreement, the City shall be exempt from payment of all Unemployment Compensation, FICA, retirement, life and/or medical insurance and Workers' Compensation Insurance as the Subrecipient is an independent contractor.

The Subrecipient shall be responsible for hiring all program personnel. All such personnel shall be considered to be employees of the Subrecipient.

3. Hold Harmless and Indemnification

The Subrecipient, its agents and any assignees shall agree to hold harmless and indemnify the City and its agents, officials and employees against all suits, claims, damages, and losses, including attorney fees that may be based on any injury to person or property due to negligent acts, errors or omissions of the Subrecipient.

4. Worker's Compensation

The Subrecipient shall provide Worker's Compensation Insurance coverage for its employees per Iowa State Code, Chapter 85.

5. Insurance & Bonding

The Subrecipient shall comply with the bonding and insurance requirements of 2 CFR 200 and any applicable state and local requirements for insurance and bonding. The Subrecipient must carry insurance in accordance with City of Dubuque Insurance Schedule G attached as Exhibit E. The Subrecipient's contractors and subcontractors must carry insurance in accordance with City of Dubuque Insurance Schedule F attached at Exhibit F and list the City of Dubuque and Subrecipient as additional insureds. The Subrecipient is responsible for providing the Certificate of Insurance with all required endorsements for all contractors and subcontractors to the City of Dubuque upon request.

For construction or facility improvement contracts or subcontracts entered by the Subrecipient for the purpose of executing the scope of work in Exhibit A, the City may accept the bonding policy and requirements of the Subrecipient provided that the City has made a determination that the City's interest is adequately protected. If such a determination has not been made, the minimum requirements must be as outlined in the City of Dubuque's Administrative Policy 3.02 Public Improvement Contracts and Goods and Services Purchasing Policy – Procedure V. A-D.

6. City Recognition

The Subrecipient shall insure recognition of the role of the City in providing services through this Agreement. All activities, facilities, and items used pursuant to this Agreement shall be prominently labeled as to funding source. In the event that a program funded through CDBG is described in literature, newspaper articles, TV reports, social media, and other public medium, the Subrecipient must give credit to the City and the CDBG program.

7. Amendments

The City or Subrecipient may amend this Agreement at any time provided that such amendments make specific reference to this Agreement and are executed in writing and signed by a duly authorized representative of both organizations. The deadline for amendments in any program year is June 15, unless extended at the sole discretion of the City in extraordinary circumstances. Such amendments shall not invalidate this Agreement, nor relieve or release the City or Subrecipient from its obligations under this Agreement.

The City may amend this Agreement to conform with federal, state or local governmental guidelines, policies and available funding amounts, or for other reasons. If such amendment results in a change in the funding, the scope of services, or schedule of the activities to be undertaken as part of this Agreement, such modifications will be incorporated only by written amendment signed by both City and Subrecipient.

8. Relocation, Property Acquisition and One-For-One Housing Replacement

The Subrecipient agrees to comply with (a) the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA), and implementing regulations at 49 CFR Part 24 and 24 CFR 570.606(b); (b) the requirements of 24 CFR 570.606(c) governing the Residential Anti-displacement and Relocation Assistance Plan under section 104(d) of the HCD Act; and (c) the requirements in 24 CFR 570.606(d) governing optional relocation policies. The Subrecipient shall provide relocation assistance to displaced persons as defined by 24 CFR 570.606(b)(2) that are displaced as a direct result of acquisition, rehabilitation, demolition or conversion for a CDBG-assisted project. The Subrecipient also agrees to comply with applicable Recipient ordinances, resolutions and policies concerning the displacement of persons from their residences.

9. Federal, State, and Local Law Applicability

By virtue of the federal funding provided for under this agreement, the parties hereto shall be bound by and adhere to all applicable federal, state, and local laws, rules, policies, orders and directions, including by way of specification but not limited to the following:

- Title VI of the Civil Rights Act of 1964, as amended;
- The Fair Housing Act – Title VIII of the Civil Rights Act of 1968, as amended;
- Section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended;
- Section 109 of Title I of the Housing and Community Development Act of 1974, as amended;
- Section 504 of the Rehabilitation Act of 1973,
- The Americans with Disabilities Act of 1990, as amended;
- Section 3 of the Housing & Community Development Act of 1968 (12 U.S.C. 1701u);
- The Age Discrimination Act of 1975, as amended;
- Executive Order 11063, as amended by Executive Order 12259 (implemented in 24 CFR Part 107);
- Executive Order 11246 (as amended by Executive Orders 11375 and 12086) – Equal Opportunity Under HUD contracts and HUD-assisted construction Contracts;
- Age Discrimination in Employment Act of 1967, as amended.
- Chapter 216 of the Iowa Civil Rights Act of 1965, as amended

- The Equal Pay Act of 1963, as amended.
- The Civil Rights Act of 1991, as amended
- Davis-Bacon Act, as amended, where applicable under Section 110 of the Housing and Community Development Act of 1974, as amended;
- Contract Work Hours and Safety Standards Act;
- Copeland Anti-Kickback Act;
- Iowa Civil Rights Act of 1965, as amended;
- Dubuque Civil Rights Ordinance, City of Dubuque Code of Ordinances, Title 8, and.
- Others as applicable

and shall include compliance with these provisions in every subcontract or purchase order, specifically or by reference, so that such provisions will be binding upon each of its own subcontractors.

10. Nondiscrimination

No person shall be excluded from or denied the benefits of Subrecipient's service or programs or be denied employment on the basis of race, color, religion, creed, sex, sexual orientation, gender identity, national origin, ancestry, age, mental or physical disability, marital status or familial status. The Subrecipient will take affirmative action to ensure that all employment practices are free from such discrimination and state that it is an Equal Opportunity or Affirmative Action employer.

11. W/MBE

The Subrecipient will use its best efforts to afford minority – and women-owned business enterprises (at least fifty-one (51) percent owned and controlled by minority group member or women) the maximum practicable opportunity to participate in the performance of this Agreement.

12. Land Covenants

This contract is subject to the requirements of Title VI of the Civil Rights Act of 1964 and 24 CFR 570.601 and 570.602. In regard to the sale, lease, or other transfer of land acquired, cleared or improved with assistance provided under this contract, the Subrecipient shall cause or require a covenant running with the land to be inserted in the deed or lease for such transfer, prohibiting discrimination as herein defined, in the sale, lease or rental, or in the use or occupancy of such land, or in any improvements erected or to be erected thereon, providing that the Recipient and the United States are beneficiaries of and entitled to enforce such covenants. The Subrecipient, in undertaking its obligation to carry out the program assisted hereunder, agrees to take such measures as are necessary to enforce such covenant, and will not itself so discriminate.

13. Assignability

The Subrecipient shall not assign or transfer any interest in this Agreement without the prior written consent of the City thereto; provided, however, that claims for money due or to become due from to the subrecipient from the City under this Agreement may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the City. No real property acquired, improved or otherwise invested in with CDBG funds, including loan portfolios attributable to the use of CDBG funds, may be assigned, transferred or sold without the prior written consent of the City thereto.

14. Conflict of Interest

The Subrecipient agrees to abide by the provisions of 24 CFR 570.611 and 2 CFR Part 200 with respect to conflicts of interest. Requests for exceptions, as permitted by federal regulations, must be made in the manner prescribed by the City.

15. Hatch Act

The Subrecipient agrees that no funds provided, nor personnel employed under this Agreement, shall be in any way or to any extent engaged in the conduct of political activities in violation of Chapter 15 of Title V of the U.S.C.

16. Lobbying

The Subrecipient hereby certifies that:

a. No federal funds appropriated under this agreement have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement;

b. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

c. It will require that the language of paragraph (d) of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all Subrecipients shall certify and disclose accordingly;

d. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S.C. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for such failure.

17. Restrictions

The Subrecipient is prohibited from using CDBG funds or personnel employed in the administration of the program for political purposes, or to engage in other partisan political activities, sectarian, or religious activities or nepotism activities.

18. Environmental Standards

The Subrecipient agrees to comply with the policies of the National Environmental Policy Act of 1969. The purpose of this Act is to attain the widest use of the environment without degradation, risk to health or safety or other undesirable and unintended consequences. The Subrecipient agrees to comply with 24 CFR Part 58; 24 CFR 570.604; and Section 104(g) HCD.

19. Air, Water and Solid Waste

The Subrecipient agrees to comply with the following requirements insofar as they apply to the performance of this Agreement:

- The Clean Air Act, 42 U.S.C. 7401, et seq., as amended.
- Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251, et seq., as amended, 1318 relating to inspection, monitoring, entry, reports, and information, as well other requirements specified in said Section 114 and Section 308, and all regulations and guidelines issued thereunder.
- Environmental Protection Agency (EPA) regulations pursuant to 40 CFR Part 50, as amended.
- The Safe Drinking Water Act of 1974 (42 U.S.C. 201, 300 (f) et seq., and 21 U.S.C. 349) as amended;
- 42, U.S.C. 6901 et seq., as amended.

20. Flood Disaster Protection

In accordance with the requirements of the Flood Disaster Protection Act of 1973, the Subrecipient shall assure that for activities located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, flood insurance under the National Flood Insurance Program is obtained and maintained as a condition of financial assistance for acquisition or construction purposes, including rehabilitation.

21. Lead-Based Paint

The Subrecipient agrees that any construction or rehabilitation of residential structures with assistance provided under this Agreement shall be subject to HUD Lead-Based Paint Regulations. Such regulations pertain to all CDBG-assisted housing and require that all owners, prospective owners, and tenants of properties constructed prior to 1978 be properly notified that such properties may include lead-based paint. Such notification shall point out the hazards of lead-based paint and explain the symptoms, treatment and precautions that should be taken when dealing with lead-based paint poisoning and the advisability and availability of blood lead level screening for children under seven (7). The notice should also point out that if lead-based paint is found on the property, abatement measures may be undertaken. The regulations further require that, depending on the amount of federal funds applied to a property, paint testing, risk assessment, treatment and/or abatement may be conducted.

22. Historic Preservation

The Subrecipient agrees to comply with the Historic Preservation requirements set forth in the National Historic Preservation Act of 1966, as amended and the procedures set forth by the Advisory Council on Historic Preservation Procedures for Protection of Historic Properties, insofar as they apply to the performance of this agreement.

In general, this requires concurrence from the State Historic Preservation Office for all rehabilitation and demolition of historic properties that are fifty (50) years old or older or that are included on a federal, state, or local historic property list.

23. Buy America, Build America

The Subrecipient must comply with the requirements of the Build America, Buy America (BABA) Act, 41 USC 8301 note, and all applicable rules and notices, as may be amended, if applicable to the Subrecipient's infrastructure project. Pursuant to HUD's Notice, "Public Interest Phased Implementation Waiver for FY 2022 and 2023 of Build America, Buy America Provisions as Applied to Recipients of HUD Federal Financial Assistance" (88 FR 17001), any funds obligated by HUD on or after the applicable listed effective dates, are subject to BABA requirements, unless excepted by a waiver.

F. REMEDIES FOR NON-COMPLIANCE AND TERMINATION

1. Remedies for Noncompliance

If the City at any time determines the Subrecipient materially fails to comply with any term of this Agreement, or with any of the rules, regulations, or provisions referred to herein, the City may use any or all of the remedies allowed under 2 CFR Part 200.338 and 200.339 to ensure compliance. The City may also impose additional specific award conditions as needed at any time to ensure compliance in accordance with 2 CFR Part 200.207. Possible remedies include:

a. Warning

Issuance of a written warning citing the violation that has occurred, and a deadline when the violation must be remedied if it is still occurring.

b. Withholding Payment

Withholding of funds by the City until the Subrecipient is found to be in compliance by the City.

c. Grant Adjustment

Adjustment in the payment method or reduction of the grant to the Subrecipient when there is noncompliance and the violation cited has not been remedied as specified.

d. Reimbursement

Reimbursement by the Subrecipient with non-CDBG funds for CDBG funds which have not been spent in accordance with this Agreement.

e. Termination

Termination of funds in whole or in part by the City if the Subrecipient materially fails to comply with any term or condition of this Agreement or with any of the rules, regulations or provisions referred to herein, or for cause as allowed in 2 CFR Part 200.339. In the event of termination of this award, in accordance with 2 CFR Part 200.340(c), the information required under the Federal Funding Accountability and Transparency Act (FFATA) must be provided to the Federal Web site established to fulfill the requirements of FFATA, and update or notification must be provided to any other relevant governmentwide systems or entities of any indications of poor performance as required by 41 U.S.C. 417b and 31 U.S.C. 3321 and implementing guidance at 2 CFR Part 77. Additionally, the requirements for Suspension and Debarment at 2 CFR Part 180 may apply.

f. Nonparticipation

Prohibition of the Subrecipient from future participation in the CDBG program if the Subrecipient has not complied with the action administered by the City.

g. Termination for Convenience

This Agreement may be terminated in whole or in part by either party upon providing the other party a written, ninety (90) day notice, in which case the City and Subrecipient shall agree upon the termination conditions, including the effective date, the disposition of agreement amounts, and in the case of partial termination the portion to be terminated. However, if, in the case of partial termination, the City determines that the remaining portion of the award will not accomplish the purposes for which the award was made, and the award is terminated in its entirety, Subrecipient shall promptly repay to the City the full grant amount or that portion of the amount which has been disbursed to Subrecipient prior to such termination.

h. Termination due to Loss of Funds

This Agreement will terminate in full or in part, at the discretion of the City, in the event the City suffers a loss of funding or termination of the federal funds which permits it to fund this grant. In the event the City suffers such a loss of funding, the City will give the Subrecipient as much written notice as possible which will set forth the effective date of full or partial termination, or if a change in funding is required, setting forth the change in funding and the changes in approved budget.

G. REVERSION OF ASSETS

1. Program Assets Reversion

Upon the expiration of this Agreement, the Subrecipient shall transfer to the City any CDBG funds on hand at the time of expiration and any accounts receivable attributable to the use of CDBG funds. All program assets (unexpended program income, property, equipment, etc.) shall revert to the City upon termination of this Agreement, unless addressed under another agreement as provided in Section C.

2. Real Property Reversion

Any real property under the Subrecipient's control that was acquired or improved in whole or in part with CDBG funds (including CDBG funds provided to the Subrecipient in the form of a loan) in excess of $25,000 shall comply with either of the following:

a. National Objective Compliance

Used to meet one of the national objectives in 24 CFR 570.208 until five years after expiration of this Agreement, or for such longer period of time as determined to be appropriate by the City; or

b. National Objective Noncompliance

Not used in accordance with Section G (2) (a) of this Agreement, in which event the Subrecipient shall pay to the City an amount equal to the current market value of the property less any portion of the value attributable to expenditures of non-CDBG funds for the acquisition of, or improvement to, the property. The payment is program income to the City. (No payment is required after the period of time specified in Section G (2) (a) of this Agreement.)

H. MISCELLANEOUS

1. Subrecipient Legal Authority

By using this Agreement, the Subrecipient warrants and represents that it has the requisite authority and capacity to perform all terms and conditions on Subrecipient's part to be performed hereunder.

2. Waiver

a. No conditions or provisions of this Agreement can be waived unless approved by the City in writing.
b. The City's failure to insist upon the strict performance of any provision of this Agreement or to exercise any right based upon breach will not constitute a waiver of any rights under this Agreement.

3. Designation of Officials

City designates the City Manager or the City Manager's designee as its authorized representative with respect to the work to be performed under this Agreement including, but not limited to, the ability to execute any changes in the terms, conditions, or amounts specified in this Agreement .

The Board Chair of the Subrecipient or designee is the official authorized to execute any changes in the terms, conditions or amounts specified in this Agreement.

4. Special Conditions for Release of Funds

Funding of the amount stipulated in Section 3 and Exhibit C of this Agreement will not be released to the Subrecipient by the City until the Subrecipient demonstrates compliance with the Section D (1).

5. Code of Conduct

The City expects that Subrecipients and any subcontractors of Subrecipients to demonstrate courtesy, consideration and promptness in dealing with the public, program participants, the City, and other governmental agencies.

6. Agreement Coverage

This instrument along with any Exhibits and the grant application contain the entire agreement between the parties. Any statements, inducements or promises not contained will not be binding upon the parties. This Agreement will be binding upon the successors in office of the respective parties.

7. Severability

If any provision of this Agreement is held invalid, the remainder of the Agreement shall not be affected thereby and all other parts of this Agreement shall nevertheless be in full force and effect.

8. Notice to Proceed

The City will issue a Notice to Proceed to the Subrecipient to incur costs relative to the program implementation.

9. Exhibits

All Exhibits are hereby incorporated into this Agreement.

10. Notices

Notices required by this Agreement shall be in writing and delivered via mail, commercial courier, or personal delivery or sent by facsimile or other electronic means. Any notice delivered or sent as aforesaid shall be effective on the date of delivery or sending. All notices and other written communications under this Agreement shall be addressed to the individuals in the capacities indicated below, unless otherwise modified by subsequent written notice.

11. Compliance with Laws. Subrecipient shall be responsible for laws at the federal, state, and local level.

12. Governing Law

This Agreement is a contract executed under and to be construed under the laws of the State of Iowa. Any legal action arising out of or related to this Agreement shall be brought in a court of competent jurisdiction in Dubuque County, Iowa.

13. Section Headings and Subheadings

The section headings and subheadings contained in this Agreement are included for convenience only and shall not limit or otherwise affect the terms of this Agreement.

14. Contractor Warranties/Guarantees

Contractors shall guarantee and warranty the work done pursuant to a CDBG project for a period of two (2) years. In addition, Contractor shall furnish property owners with all manufacturers' and suppliers' written guarantees and warranties covering materials and equipment furnished under the contract.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the day of April 6, 2026.

INSURANCE SCHEDULE G

City of Dubuque Insurance Requirements for Vendors (Suppliers, Service Providers)

CITY OF DUBUQUE INSURANCE SCHEDULE G

1. Vendor shall furnish a signed certificate of insurance to the City of Dubuque, Iowa, for the coverage required in Exhibit I prior to contract commencement. Each certificate shall be prepared on the most current ACORD form approved by the Iowa Insurance Division or an equivalent. Each certificate shall include a statement under Description of Operations as to why the certificate was issued. Vendor Service Agreement dated: April 6, 2026.

2. All policies of insurance required hereunder shall be with an insurer authorized to do business in Iowa and all insurers shall have a rating of A or better in the current A.M. Best's Rating Guide.

3. Each certificate shall be furnished to: City of Dubuque, Finance Department, 50 W. 13th Street, Dubuque, Iowa, 52001.

4. The Vendor shall be required to carry the minimum coverage/limits, or greater if required by law or other legal agreement, in Exhibit I. Failure to provide the required minimum coverage shall not be deemed a waiver of such requirements by the City of Dubuque.

5. Failure to obtain or maintain the required insurance shall be considered a material breach of this agreement.

6. All required endorsements shall be attached to certificate.

7. Whenever a specific ISO form is listed, the current edition of the form must be used unless an equivalent form is approved by the Chief Financial Officer. The Vendor must identify or list in writing all deviations and exclusions from the ISO form.

8. If Vendor's limits of liability are higher than the required minimum limits then the Vendor's limits shall be this agreement's required limits.

9. Vendor shall require all subcontractor's and sub-subcontractors to obtain and maintain during the performance of work insurance for the coverages described in this Insurance Schedule and shall obtain certificates of insurance from all such subcontractors and sub-subcontractors. Vendor agrees that it shall be liable for the failure of a subcontractor and sub-subcontractor to obtain and maintain such coverage. The City of Dubuque may request a copy of such certificates from the Vendor.

10. Vendor shall be responsible for deductibles/self-insured retention for payment of all policy premiums and other costs associated with the insurance policies required below.

11. All certificates of insurance must include agent's name, phone number, and email address.

12. The City of Dubuque reserves the right to require complete, certified copies of all required insurance policies, including endorsements, required by this Schedule at any time.

13. The City of Dubuque reserves the right to modify these requirements, including limits, based on changes in risk or other special circumstances during the term of the agreement, subject to written mutual agreement of the parties.

CITY OF DUBUQUE INSURANCE SCHEDULE G

(continued)

EXHIBIT I

A. COMMERCIAL GENERAL LIABILITY

General Aggregate Limit	$2,000,000
Products-Completed Operations Aggregate Limit	$1,000,000
Personal and Advertising Injury Limit	$1,000,000
Each Occurrence	$1,000,000
Fire Damage Limit (any one occurrence)	$50,000
Medical Payments	$5,000

1) Coverage shall be written on an occurrence, not claims made, form. The general liability coverage shall be written in accord with ISO form CG 00 01 or business owners from BP 00 02. All deviations from the standard ISO commercial general liability form CG 00 01, or business owners from BP 00 02, shall be clearly identified.
2) Include ISO endorsement form CG 25 04 "Designated Location(s) General Aggregate Limit."
3) Include endorsement indicating that coverage is primary and non-contributory.
4) Include Preservation of Governmental Immunities Endorsement (sample attached).
5) Include additional insured endorsement for:

   The City of Dubuque, including all its elected and appointed officials, all its employees and volunteers, all its boards, commissions and/or authorities and their board members, employees and volunteers. Use ISO form CG 20 10 (Ongoing Operations) or its equivalent.
6) Policy shall include Waiver of Right to Recover from Others Endorsement.
7) Policy shall include cancellation and material change endorsement providing thirty (30) days advance written notice of cancellation, non-renewal, reduction in insurance coverage and/or limits and ten (10) days written notice of non-payment of premium shall be sent to: City of Dubuque, Finance Department, 50 West 13th Street, Dubuque, Iowa, 52001.

Coverage A	Statutory – State of Iowa	
Coverage B	Employers Liability	
	Each Accident	$100,000
	Each Employee - Disease	$100,000
	Policy Limit – Disease	$500,000

Policy shall include Waiver of Right to Recover from Others endorsement.

OR

If, by Iowa Code Section 851.A, the Vendor is not required to purchase Workers' Compensation Insurance, the Vendor shall have a copy of the State's Nonelection of Workers' Compensation or Employers' Liability Coverage form on file with the Iowa Workers' Compensation Insurance Commissioner, as required by Iowa Code Section 87.22. Completed form must be attached.

C. POLLUTION LIABILITY

Coverage Required: ____ Yes X No

Pollution liability coverage shall be required if the lessee, contracting party, or permittee has any pollution exposure for abatement of hazardous or contaminated materials including, but not limited to petroleum products, the removal of lead, asbestos, or PCBs. Pollution product and completed operations coverage shall also be covered.

Each Coverage	$2,000,000
Policy Aggregate	$4,000,000

1) Policy to include job site and transportation coverage.

2) Include additional insured for:
   The City of Dubuque, including all its elected and appointed officials, all its employees and volunteers, all its boards, commissions and/or authorities and their board members, employees and volunteers. Use ISO form CG 20 10 (Ongoing Operations) or its equivalent and CG 20 37 (Competed Operations).

INSURANCE - SCHEDULE G

(continued)

3) Include Preservation of Governmental Immunities Endorsement.

4) Provide evidence of coverage for 5 years after completion of project.

5) Include endorsement indicating that coverage is primary and non-contributory.

6) Policy shall include Waiver of Right to Recovery from Others Endorsement.

D. PROFESSIONAL LIABILITY

Coverage Required: ____ Yes X No

If the required policy provides claims-made coverage:

1) The retroactive date must be shown and must be before the date of the agreement.

2) Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the work or services.

3) If coverage is cancelled or non-renewed and no replaced with another claims-made policy form with a retroactive date prior to the date of the agreement, the contractor must provide "extended reporting" coverage for a minimum of five (5) years after completion of the work services.

E. CYBER LIABILITY/BREACH $1,000,000

Coverage Required: ____ Yes X No

Coverage for First and Third-Party Breach Liability, including but not limited to lost data and restoration, loss of income and cyber breach of information.

F. UMBRELLA/EXCESS $1,000,000

X Yes ____ No

The General Liability, Automobile Liability, and Employers Liability Insurance requirements may be satisfied with a combination of primary and Umbrella or Excess Liability Insurance. If the Umbrella or Excess Insurance policy does not follow the form of the primary policies, it shall include the same endorsements as required of the primary policies including Waiver of Subrogation and Primary and Non-contributory in favor of the City.

Iowa Code Chapter 670, Liability of Governmental Subdivisions, provides cities with certain immunities which may be available to you. Naming the City of Dubuque as an additional insured on your insurance as is requested by this insurance schedule may result in your waiver of those immunities. If you would like to preserve those immunities, please use this endorsement or an equivalent form. The preservation of immunities is for your benefit.

PRESERVATION OF GOVERNMENTAL IMMUNITIES ENDORSEMENT

1. Nonwaiver of Governmental Immunity. The insurer expressly agrees and states that the purchase of this policy and the including of the City of Dubuque as an additional insured does not waive any of the defenses of governmental immunity available to the City of Dubuque, Iowa, under Code of Iowa Section 670.4 as it is now exists and as it may be amended from time to time.

2. Claims Coverage. The insurer further agrees that this policy of insurance shall cover only those claims not subject to the defense governmental immunity under the Code of Iowa Section 670.4 as it now exists and as it may be amended from time to time. Those claims not subject to Code of Iowa Section 670.4 shall be covered by the terms and conditions of this insurance policy.

3. Assertion of Government Immunity. City of Dubuque, Iowa, shall be responsible for asserting any defense of governmental immunity, and may do so at any time and shall do so upon the timely written request of the insurer.

4. Non-Denial of Coverage. The insurer shall not deny coverage under this policy and the insurer shall not deny any of the rights and benefits accruing to the City of Dubuque under this policy for reasons of governmental immunity unless and until a court of competent jurisdiction has ruled in favor of the defense(s) of governmental immunity asserted by the City of Dubuque, Iowa.

5. No Other Change in Policy. The above preservation of governmental immunities shall not otherwise change or alter the coverage available under the policy.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: Michael C. Van Milligen, City Manager

FROM: Gus Psihoyos, City Engineer

SUBJECT: Acceptance of Grant Easement for Sanitary Sewer Utility across Rhomberg Property off Old Mill Road in Dubuque as Part of Phase One of the Old Mill Road Lift Station Project

DATE: March 27, 2026

INTRODUCTION

The purpose of this memorandum is to seek acceptance of a grant easement for sanitary sewer utility from Ricky R. Rhomberg across Parts of Lot 1 of the Subdivision of Lot 1 of Mineral Lot 512, and Lot 2 of the Subdivision of Mineral Lot 507, and Lot 10 of Mineral Lot 501, all in the City of Dubuque, Iowa, as part of the ongoing Phase One of the Old Mill Road Lift Station Project.

BACKGROUND

Phase One of the Old Mill Road Lift Station Project consists of the lift station, site improvements and gravity and force main sanitary sewer. Phase Two will consist of the installation of the remaining gravity and force main sanitary sewer, from the new lift station to WRRC, which is currently under construction. This separation between phases will allow for a clear contractual responsibility between the two project phases. The new gravity sewers and force main piping will be placed within existing right of way and recently acquired private property easements.

DISCUSSION

The easement is necessary for the construction of Phase One of the Old Mill Rd. Lift Station Project. The attached Grant of Easement for Sanitary Sewer Utility shows the location of the permanent easements and temporary construction easements across the Rhomberg property. The subject Rhomberg property lies just east of the proposed lift station building site on Old Mill Road. The property owner has executed the grant of easement.

The City agreement with Rhomberg also includes the vacation of a portion of an existing City sanitary sewer easement on the west side of the Rhomberg property which is no longer needed. The City will set and hold a public hearing for this action in the near future in a separate council document.

RECOMMENDATION

I recommend accepting the Grant Easement for Sanitary Sewer Utility through, under and across Parts of Lot 1 of the Subdivision of Lot 1 of Mineral Lot 512, and Lot 2 of the Subdivision of Mineral Lot 507, and Lot 10 of Mineral Lot 501, all in the City of Dubuque, Iowa, as shown on Exhibit A on the attached Grant of Easement.

ACTION TO BE TAKEN

I respectfully request acceptance of the Grant Easement for Sanitary Sewer Utility from Ricky R. Rhomberg through the adoption of the enclosed resolution.

Prepared by Nate Kieffer, CE III, PE/PLS

Prepared by: Nate Kieffer, City of Dubuque, 50 W. 13th Street, Dubuque, IA 52001 (563) 589-4270

RESOLUTION NO. -26

ACCEPTING A GRANT OF EASEMENT FOR SANITARY SEWER UTILITY THROUGH, UNDER AND ACROSS PARTS OF LOT 1 OF THE SUBDIVISION OF LOT 1 OF MINERAL LOT 512, AND LOT 2 OF THE SUBDIVISION OF MINERAL LOT 507, AND LOT 10 OF MINERAL LOT 501, ALL IN THE CITY OF DUBUQUE, IOWA

Whereas, as property owner, Ricky R. Rhomberg has executed a Grant Easement for Sanitary Sewer Utility through, under and across Parts of Lot 1 of the Subdivision of Lot 1 of Mineral Lot 512, and Lot 2 of the Subdivision of Mineral Lot 507, and Lot 10 of Mineral Lot 501, all in the City of Dubuque, Iowa

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1. The City Council of the City of Dubuque, Iowa, hereby approves of, accepts and consents to the Grant Easement for Sanitary Sewer Utility through, under and across Parts of Lot 1 of the Subdivision of Lot 1 of Mineral Lot 512, and Lot 2 of the Subdivision of Mineral Lot 507, and Lot 10 of Mineral Lot 501, all in the City of Dubuque, Iowa from Ricky R. Rhomberg, a copy of which is attached hereto.

Section 2. The Mayor is hereby authorized and directed to execute and acknowledge on behalf of the City of Dubuque any instruments in connection herewith.

Passed, approved and adopted this 6th of April, 2026.

GRANT OF EASEMENT FOR SANITARY SEWER UTILITY

For good and valuable consideration, the receipt whereof is hereby acknowledged, Ricky R. Rhomberg, ("Grantor"), of Dubuque County, State of Iowa, for himself, his successors and assigns, does hereby grant, sell and convey to the CITY OF DUBUQUE, IOWA, ("Grantee"), a municipal corporation, its agents and contractors, from the date hereof, rights of ways and easements through, under and across the following described real estate situated in Dubuque, Iowa, to wit:

> Parts of Lot 1 of the Subdivision of Lot 1 of Mineral Lot 512, and Lot 2 of the Subdivision of Mineral Lot 507, and Lot 10 of Mineral Lot 501, all in the City of Dubuque, Iowa, as shown on Exhibit A attached hereto and by reference made a part hereof.

Sanitary Sewer Utility Easement shall be as shown on the attached Exhibit A for the purpose of constructing and maintaining gravity sanitary sewer and sanitary sewer force main utilities and other appurtenances, along with the right, privilege and authority to construct, reconstruct, maintain, operate, repair, patrol and remove said improvements. Said easement shall also include the right to cut, trim or remove trees, bushes and roots as may be required incident to rights given herein.

Together with the right to enter upon said property and occupy the temporary easement area as shown on the attached Exhibit A during the period of construction until the project is accepted by the City Council.

It is understood and agreed that the Grantee herein shall restore to like conditions the disturbed area due to the construction, maintenance or repair of said sanitary sewer and appurtenances.

Grantor and his successors and assigns shall not erect any structure over or within the easement area without obtaining the prior written approval of the City

Engineer. Grantor shall not change the grade, elevation, and contour or perform any construction or excavation that will diminish the lateral support or integrity of said improvements without obtaining the prior written consent of the City Engineer. In no case shall the ground surface or creek be altered in any way that would cause the sanitary sewer force main pipe to have less than five feet of cover over the pipe without written permission of the City.

Grantor agrees that any future improvements placed within said easement by Grantor, and his successors and assigns, excluding turf grass, may be removed and not replaced by the City of Dubuque in the process of maintaining, repairing or reconstructing the sanitary sewer main utility. City of Dubuque will not be responsible for the replacement, repair, or relocation of any future improvements, besides turf grass, that encroach in the proposed easement.

To have and to hold unto the said City of Dubuque, Iowa, forever, and the undersigned does hereby expressly covenant that he is the owner in fee of said real estate and has good right to execute this agreement, and that the Grantee, its agents or contractors, shall at all times have free access to and egress from and over said real estate to maintain or repair said sanitary sewer utility thereon or therein. Said easement shall be binding on all subsequent property owners, its successors and assigns.

Dated at Dubuque, Iowa this 9th day of March, 2026.

Ricky R. Rhomberg

RE: Chaplain Schmitt Island Trail Connection Project
Acceptance of Public Improvement Construction Contract
Project Number: 5544000004
Iowa DOT Project No. EDP-2100 (704)--7Y-31

INTRODUCTION

The enclosed resolution provides for the acceptance of the Public Improvement Construction Contract for the Chaplain Schmitt Island Trail Connection Project, Iowa DOT Project No. EDP-2100(704)--7Y-31.

BACKGROUND

In October of 2022 the City Council approved a funding agreement with the Iowa Department of Transportation to construct a 10-foot-wide multi-use trail along Admiral Sheehy Drive from 16th street to the Veteran's Memorial on Chaplain Schmitt Island. The funding agreement allowed the City of Dubuque to use $615,000 in a Community Project Funding Grant resulting from the work of Congresswoman Ashley Hinson. The project construction documents follow the Iowa DOT Standard Specifications. The trail project complements the design elements incorporated as part of the Veteran's Memorial and the Chaplain Schmitt Island Development Master Plan. Engineering staff coordinated with Leisure Services, and the DRA Chaplain Schmitt Island Development team on the design of the trail and trailhead. The Engineering Department completed the construction document development and was responsible for construction administration and inspection.

DISCUSSION

The Chaplain Schmitt Island Trail Connection project provided for the installation of a 10-foot-wide multi-use trail along Admiral Sheehy Drive from 16th street to the Veteran's Memorial on Chaplain Schmitt Island and includes the following elements:

- Excavation to allow for the installation of the trail
- Installation of base stone for the trail
- Installation of a 10 foot-wide 6-inch thick concrete trail
- Installation of retaining walls needed due to topography to accommodate the trail. This includes decorative railing matching what is used at the Veteran's Memorial.

- Installation of a 6-inch thick decorative concrete trail head plaza
- Installation of parking to accommodate ADA parking near the trail and trailhead.
- Installation of decorative lighting to illuminate the trail and trailhead.
- Installation of an emergency phone tower
- Restoration of disturbed area with topsoil and seed.

RECOMMENDATION

I recommend that the City Council accept the Public Improvements and authorize the payment of $658,028.21 to Midwest Concrete, Inc. of Peosta, Iowa for the Chaplain Schmitt Island Trail Connection Project.

BUDGET IMPACT

The project cost for the Chaplain Schmitt Island Trail Connection Project is summarized in the following table:

Description	Estimate	Award	Final Cost	
Construction Contract	$ 823,253.00	$ 696,632.33	$ 658,028.21	(1)
Contingency	82,325.00	35,000.00		
Engineering Design Services		104,000.00	104,000.00	
Professional Services – Material Testing			13,445.91	
Contract Admin / Construction Engineering	135,837.00	55,000.00	147,682.13	
Total Project Cost	**$ 1,041,415.00**	**$ 890,632.33**	**$ 923,156.25**	

The current project funding summary is as follows:

Project Code	Funding Source	Amount	
5544000004	Community Project Funding Grant	$ 526,422.57	(1)
	Schmitt Island Trail	396,733.68	
Total Project Funding		**$ 923,156.25**	

(1) Construction cost only eligible for grant funding at 80% reimbursement $658,028.21 x 80% = $526,422.57.

REQUESTED ACTION

The City Council is requested to adopt the attached resolution to accept the Public Improvement Construction Contract and to authorize the final payment of the contract amount of $658,028.21 to Midwest Concrete, Inc., of Peosta, IA, for the Chaplain Schmitt Island Trail Connection Project.

RESOLUTION NO.

ACCEPTING THE CHAPLAIN SCHMITT ISLAND TRAIL CONNECTION PROJECT AND AUTHORIZING FINAL PAYMENT TO THE CONTRACTOR

WHEREAS, the Chaplain Schmitt Island Trail Connection Project (the Project) which included the installation of a ten-foot wide six-inch-thick concrete trail; and

WHEREAS, the Public Improvement Contract for the Project has been completed by the contractor, Midwest Concrete, Inc. (Contractor), and the City Engineer has examined the work and recommends that the Project be accepted; and

WHEREAS, the final contract amount for the Project is $658,028.21; and

WHEREAS, the Contractor has previously been paid $638,287.36, leaving a balance of $19,740.85; and

WHEREAS, the City Council finds that the recommendation of the City Engineer should be accepted.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1. The recommendation of the City Engineer is approved, and the Project is hereby accepted.

Section 2. The Chief Financial Officer is hereby directed to pay the balance of the retainage of $19,740.85 as provided in Iowa Code Chapter 573, and to pay such retainage in accordance with the provisions of Iowa Code Chapter 573 or Iowa Chapter 26.13.

Passed, approved and adopted this 6th day of April 2026.

TO: Michael C. Van Milligen, City Manager

FROM: Adrienne N. Breitfelder, City Clerk

SUBJECT: Approval of Retail Tobacco Permit and Device Retailer Permit Applications

DATE: April 2, 2026

Pursuant to Iowa Code §453A.47A and §453E.3, a retail permit is required to sell tobacco, tobacco products, alternative nicotine products, vapor products, or devices at any place of business or through delivery sales within the state of Iowa. All permits expire annually on June 30 and are classified as either device retailer permits, or retail tobacco permits, with the latter covering tobacco, tobacco products, alternative nicotine products, and vapor products. The Iowa Department of Revenue (IDOR) administers the retail permitting requirements outlined in these sections and coordinates with local governments on permit approvals. The City Clerk's Office is responsible for processing all permit applications for businesses located within city limits. Once a completed application is received, it is approved by the City Council before it is submitted to the IDOR for further action.

Upon confirmation that the City Clerk's Office has received the completed applications, I recommend approving the Retail Tobacco Permits and Devise Retailer Permits, as applicable effective as indicated and expiring on June 30, 2026, for the following retailers.

FROM: Jill M. Connors, Economic Development Director

SUBJECT: Resolution Setting a Public Hearing on a Collateral Assignment of Development Agreement by and between the City of Dubuque, Iowa and HG APT LLC Assigning Rights to Bellevue State Bank for the Redevelopment of 2901 Central Avenue

DATE: March 30, 2026

INTRODUCTION

This memorandum presents for City Council review and approval a Resolution setting a public hearing on a Collateral Assignment of Development Agreement by and between the City of Dubuque, Iowa and HG APT LLC assigning rights to Bellevue State Bank for the redevelopment of 2901 Central Avenue.

BACKGROUND

On September 5, 2023, the Dubuque City Council entered into a Development Agreement with HG APT LLC by Resolution No. 290-23. The Development Agreement included a downtown housing creation grant of $180,000 ($10,000 x 8 units), a downtown rehabilitation grant of $35,000, and a fifteen-year tax increment financing award estimated to not exceed $393,194. Tax Increment Financing (TIF) incentives provide a reimbursement of a portion of the additional property tax revenue generated by a development project, calculated on the incremental increase in assessed value, and applied after the project has been fully completed.

DISCUSSION

HG APT LLC has successfully completed the redevelopment of 2901 Central Avenue including the creation of 18 new market rate rental units. All apartments are occupied and the building façade is a point of pride for the corridor. HG APT LLC intends to refinance the construction costs with Bellevue State Bank. As part of the refinancing arrangement,

HG APT LLC is assigning its rights and obligations under the Development Agreement, including the TIF incentive to Bellevue State Bank. Collateral assignments of Development Agreements are a common practice of community development.

BUDGET IMPACT

There is no impact to the budget as these incremental property tax rebates have already been authorized and incorporated into the terms of the Development Agreement.

RECOMMENDATION

I respectfully request City Council adopt the attached Resolution setting a public hearing for April 20, 2026 on the Collateral Assignment of Development Agreement by and between the City of Dubuque, Iowa and HG APT LLC assigning rights to Bellevue State Bank for the redevelopment of 2901 Central Avenue.

COLLATERAL ASSIGNMENT OF DEVELOPMENT AGREEMENT

THIS COLLATERAL ASSIGNMENT OF DEVELOPMENT AGREEMENT (this **"Assignment")** is made as of March 6, 2026, by and among **HG APT LLC,** an Iowa limited liability company **("Borrower/Developer" further known as "Assignor")** in favor of **Bellevue State Bank ("Lender").**

RECITALS

A. Borrower owns, or will own, the property located at 2901 Central Avenue, located in the City of Dubuque, State of Iowa (the **"Property").** Borrower intends to develop the Property as a 18-unit multi-family apartment project located on the Property with other related improvements (collectively, the **"Project")**

B. Subject to the terms and conditions of that certain Loan Agreement between Borrower and Lender of even date herewith (the **"Loan Agreement"),** Lender has made a term loan to the Borrower (the **"Term Loan"),** as evidenced by a Term Note dated October 22, 2025.

C. Borrower and the City of Dubuque (the **"City")** entered into that certain Development Agreement, dated June 22, 2023, pursuant to which the City has agreed to provide Economic Development Grants to Borrower or Developer estimated up to a principal amount of $393,194.00 (the **"TIF Payments").**

D. Lender requires Assignor to execute and deliver this Assignment as collateral for the Loans.

AGREEMENTS

NOW, THEREFORE, in consideration of the foregoing and of the mutual promises contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by Borrower, Borrower hereby agrees as follows:

1. Assignment. As security for Borrower's obligations under the Notes, the Loan Agreement and the other documents evidencing or securing the Loans (collectively, the **"Loan Documents")** (collectively, the **"Obligations"),** Assignor hereby collaterally assigns to Lender all of its right, title, and interest in and to the Development Agreement, including all of Assignor's rights to receive the TIF Payments thereunder, it being understood and agreed that, if and when the Obligations are satisfied in full, then this Assignment shall terminate.

2. Lender's Rights Upon Default. If a default occurs under the Loan Documents beyond any applicable notice and cure period (an **"Event of Default"),** then Lender may at its option upon written notice to Borrower and the City, but without any obligation to do so, elect to assume Assignor's rights and obligations under the Development Agreement, in which case Lender shall have all of the rights and obligations of Assignor under the Development Agreement from, and after the date of notice to the City. Prior to the occurrence of an Event of Default and the written election by Lender to assume Assignor's rights and obligations under the

Development Agreement, nothing in this Agreement shall be construed as an assumption by Lender of any liability or obligation of Assignor under the Development Agreement. Nothing herein constitutes a release by the City of Assignor from its obligations under the Development Agreement even if Lender elects to assume Assignor's rights and obligations thereunder, and to the extent the Developer Agreement is not performed by Lender, Assignor remains responsible to the City for all of its obligations under the Development Agreement.

3. Performance of Assignor. Assignor shall faithfully abide by, perform and discharge each of Assignor's obligations, covenants and agreements under the Development Agreement and shall take such actions as may be necessary or required under the Development Agreement to cause the Minimum Investment in the Project and the prompt commencement of TIF Payments to Borrower thereafter. Without the prior written consent of Lender, Assignor shall not (a) modify or in any way alter the terms of the Development Agreement, (b) pledge or assign the Development Agreement, (c) waive any of its rights under the Development Agreement, (d) terminate or surrender the Development Agreement, or (d) cause or permit the TIF Payments to be made to any party but Borrower of Lender. Developer hereby acknowledges and agrees and directs the City that all TIF Payments shall be paid to Borrower (not to Developer).

4. TIF Loan Proceeds. Borrower shall, immediately upon receipt of any TIF Payments from the City, deposit such funds into Borrower's operating account established with Lender; which funds may be used to pay Project Operating Expenses or disbursed only in accordance with Borrower's Operating Agreement. Upon notice from Lender to the City, with a copy to Borrower, of an Event of Default under the Loan Documents or otherwise upon Lender's request, Borrower and Developer authorize and direct the City to make the TIF Payments due to Borrower to Lender directly. The City shall have no obligation to verify any of the information in such notice.

5. **Grant Loan Proceeds.** Borrower shall, immediately upon receipt of any Grant Payments from the City, deposit such funds into Borrower's operating account established with Lender; which funds may be used to pay Project Operating Expenses or disbursed only in accordance with Borrower's Operating Agreement. Upon notice from Lender to the City, with a copy to Borrower, of an Event of Default under the Loan Documents or otherwise upon Lender's request, Borrower and Developer authorize and direct the City to make the Grant Payments due to Borrower to Lender directly. The City shall have no obligation to verify any of the information in such notice.

6. Protect Security. At Borrower's sole cost and expense, Borrower shall appear and defend any action or proceeding arising under, during, out of or in any manner connected with the Development Agreement or the obligations, duties or liabilities of Assignor under the evelopment Agreement, and shall pay any reasonable costs and expense of Lender, including reasonable attorneys' fees, in any such action or proceeding in which Lender decides, in its sole discretion, to appear.

7. Representations and Covenants. Assignor represents and warrants that (a) Assignor has the full right to collaterally assign the Development Agreement; (b) the

Development Agreement is valid, is in full force and effect and has not been modified or amended; (c) Lender shall have a first priority lien and security interest in and to the Development Agreement and the TIF Payments, there are no outstanding assignments or pledges of the Development Agreement or TIF Payments and Assignor shall not make any further assignments or pledges of the Development Agreement or TIF Payments during the term of the loans without the consent of Lender; and (e) there are no existing defaults, rights of setoff, or claims for additional payments under the Development Agreement.

8. Authorization. Upon an Event of Default, Assignor irrevocably constitutes and appoints Lender its true and lawful attorney-in-fact in Assignor's name or in Lender's name, or otherwise, to enforce all rights of Assignor under the Development Agreement, and such power, being coupled with an interest, is irrevocable.

9. No Liability For Lender. Subject to the Provisions of Section 2, Lender shall not be obligated to perform or discharge and does not by this Assignment, undertake to perform or discharge any obligation, duty or liability under the Development Agreement.

10. Assignor Holds Lender Hannless. Assignor shall indemnify and hold Lender harmless of and from (a) any and all liability, loss or damage which it incurs under the Development Agreement or by reason of this Assignment; and (b) any and all claims and demands which are asserted against it by reason of any alleged obligations or undertakings on its part to perform or discharge any of the terms, covenants or agreements contained in the Development Agreement. The amount of all such liabilities, losses, damages, claims and demands, and the cost of defending against them, including costs, expenses and reasonable attorneys' fees, are secured by this Assignment and constitute part of the Obligations. Assignor shall reimburse Lender for such amounts immediately upon demand.

11. Security Interest in Agreements. In addition, Assignor hereby grants to Lender a security interest in Assignor's right, title, and interest in the Development Agreement and the TIF Payments, if and to the extent that a security interest may be granted therein under the Uniform Commercial Code, and Assignor acknowledges that Lender shall have all of the rights and remedies with respect thereto provided for by the Uniform Commercial Code, in addition to the other rights and remedies herein granted to Lender, in the event of the occurrence of an Event of Default.

12. Successors and Assigns. This Assignment shall be binding upon Assignor and its successors and assigns, and shall insure to the benefit of Lender, its successors and assigns. Assignor shall not assign its obligations or interests under the TIF Agreement or under this Assignment without Lender's prior written consent.

13. Governing Law. This Assignment shall be governed by the laws of the State of Iowa.

14. Validity Clause. This Assignment shall confer to Lender the rights and benefits described in this Assignment to the full extent allowable by law. The unenforceability or invalidity of any of the provisions of this Assignment shall not render any other provision or

provisions unenforceable or invalid. Any provision found to be unenforceable shall be severable from this Assignment without invalidating the remainder of such provision or the remaining provisions of this Assignment.

15. Notices And Approvals. Any notice that either party may desire or may be required to give to any other party shall be in writing and shall be delivered as required under the Loan Documents, and, with respect to Assignor, shall be sent to the following address: c/o Bellevue State Bank, 200 S 2nd Street, Bellevue, Iowa 52031.

16. Counterparts. This Assignment may be signed in one or more counterparts, each of which shall be deemed to be an original and all of which together shall constitute one instrument. The signature of a party to this Assignment transmitted by facsimile or electronic mail to the other party shall be deemed an original signature.

CONSENT OF CITY AND ESTOPPEL

THIS CONSENT OF CITY AND ESTOPPEL is made by the City of Dubuque (the "City") for the benefit of Bellevue State Bank ("Lender") with respect to that certain Development Agreement, dated June 22,2023, between HG APT LLC **("Borrower/Developer" further known as "Assignor"),** and the City (the "TIF Agreement").

1. Payment Direction. Upon written request of Lender, City agrees to make all Economic Development Grants (TIF Payments) (as defined in the Development Agreement) directly to Lender at the following address: Bellevue State Bank, 200 S 2nd St, Bellevue, Iowa 52031 until Lender further notifies the City that the Obligations have been paid in full and the Assignment terminated.

2. Consent to Assignment. The City hereby consents to the foregoing Collateral Assignment of Development Agreement (the "Assignment") and agrees that if Lender notifies the City in writing that Lender is exercising its right to assume Assignor's rights and obligations under the Development Agreement, the City shall continue to perform its obligations under the terms of the TIF Agreement in the manner specified in the therein as if Lender were originally a party to the Development Agreement. Lender's obligations under the foregoing Assignment are not personal obligations or binding on any of Lender's assets, except Lender's interest in the Property, if any.

3. No Release. Nothing in the foregoing Assignment constitutes a release by the City of Assignor from its obligations under the Development Agreement even if Lender elects to assume Assignor's rights and obligations thereunder, and to the extent the Development Agreement is not performed by Lender, Assignor remains responsible to the City for all of its obligations under the Development Agreement.

3. Notice and Cure Rights. The City shall provide Lender with copies of any notices given to Assignor under the Development Agreement, in the same manner and at the same time as required thereunder to the following address: Bellevue State Bank, 200 S 2nd St, Bellevue, Iowa 52031. City agrees that Lender shall have the right to cure any default by Assignor under the Development Agreement and City agrees to accept any cure of such a default by Lender as if such cure were tendered or performed by Assignor.

4. Estoppel. City represents and warrants to Lender that as of the date hereof: (i) the Development Agreement is and remains in full force and effect, (ii) no default currently exists under the Development Agreement and no condition exists which, with the passage of time, would constitute a default under the Agreement or would prevent the payment of the Economic Development Grants in accordance with the Development Agreement.

5. No Amendment. City agrees that it shall not, without the prior written consent of the Lender, amend or modify or consent to any modification or amendment of the Development Agreement.

6. Conflict. Assignor acknowledges that City's consent is granted only insofar as said terms and conditions do not conflict with the terms of the Development Agreement. Any conflict between the terms of the Assignment and Development Agreement shall be resolved pursuant to the language of the Development Agreement.

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the Dubuque City Council will conduct a public hearing on the 20th day of April, 2026, at 6:30 p.m., in the Historic Federal Building, 350 W. 6th Street, 2nd floor, Dubuque, Iowa, at which meeting the City Council proposes to approve a Collateral Assignment of Development Agreement by and between the City of Dubuque, Iowa and HG APT LLC to Bellevue State Bank, LLC, for the property located at 2901 Central Avenue.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April, 2026.

RESOLUTION NO. ___-26

FIXING THE DATE FOR A PUBLIC HEARING OF THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA ON A COLLATERAL ASSIGNMENT OF DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE, IOWA AND HG APT LLC, TO BELLEVUE STATE BANK FOR PROPERTY AT 2901 CENTRAL AVENUE

Whereas, the City of Dubuque, Iowa (City), and HG APT LLC entered into a Development Agreement (the "Agreement") dated September 5, 2023; and

Whereas, the Agreement provides for certain incentives to HG APT LLC for the completion of the Minimum Improvements; and

Whereas, HG APT LLC intends to assign the rights to those certain incentives as collateral to Bellevue State Bank under a Collateral Assignment of Development Agreement attached hereto; and

Whereas, the City Council of the City of Dubuque finds that consent to the Collateral Assignment of Development Agreement is in the best interests of the City of Dubuque; and

Whereas, before said consent may be given, Iowa Code Section 364.7 requires that the City Clerk publish a notice of the City's intent to consent and of the time and place of the meeting at which the City Council proposes to take action thereon and at which meeting the City Council shall receive oral and/or written objections from any resident or property owner of said City to such proposed action.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA THAT:

Section 1. The City Clerk is hereby authorized and directed to cause a notice to be published as prescribed by Iowa Code Section 364.7 of a public hearing on the City's intent to approve the Collateral Assignment of Development Agreement by and between HG APT LLC and Bellevue State Bank, to be held on the 20th day of April, 2026 at 6:30 p.m. The official agenda will be posted the Friday before the meeting and will contain listening, viewing, and public input options. The City Council agenda may be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Section 2. The City Council will meet at said time and place for the purpose of taking action on the matter of approving the Collateral Assignment of Development Agreement by and between HG APT LLC and Bellevue State Bank

Section 3. The City Clerk is hereby directed to cause at least one publication to be made of a notice of said meeting, in a newspaper, printed wholly in the English language, published at least once weekly, and having general circulation in said City, said publication to be not less than four

days nor more than twenty days before the date of said meeting on the issuance of said Obligations.

Section 4. That the notice of the meeting shall be in substantially the form attached hereto.

Passed, approved, and adopted this 6th day of April, 2026.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Resolution Setting a Public Hearing on a Proposed Development Agreement by and between the City of Dubuque, Iowa and Iron Creek Group, LLC Providing for the Issuance of Urban Renewal Tax Increment Revenue Grant Obligations Pursuant to the Development Agreement

DATE: April 1, 2026

Assistant Economic Development Director Ian Hatch is recommending City Council adopt the attached Resolution setting a public hearing for April 20, 2026, on a proposed Development Agreement by and between the City of Dubuque, Iowa and Iron Creek Group, LLC providing for the issuance of Urban Renewal Tax Increment Revenue Grant Obligations.

Iron Creek Group, LLC submitted an application for housing creation and the rehabilitation of the façade of 1222-1240 Locust Street. The applicant is proposing a $600,000 project that will create eight new residential rental units and restore the building façade.

The key elements of the Development Agreement include the following:

1. Developer will make a capital investment of approximately $600,000 to rehabilitate the property.
2. Developer must create 8 residential rental units.
3. Developer will receive 15 years of tax increment financing incentives in the form of semi-annual rebates. Tax increment financing incentives are estimated to not exceed $78,777.
4. City to award a Downtown Housing Incentive Grant in an amount of $80,000 ($10,000 x 8 units)
5. City to award a Downtown Rehabilitation Grant not to exceed $35,000.
6. City of Dubuque will amend the Greater Downtown Urban Renewal District Plan to accommodate the issuance of tax increment financing incentives.

I concur with the recommendation and respectfully request Mayor and City Council approval.

SUBJECT: Resolution Setting a Public Hearing on a Proposed Development Agreement by and between the City of Dubuque, Iowa and Iron Creek Group, LLC Providing for the Issuance of Urban Renewal Tax Increment Revenue Grant Obligations Pursuant to the Development Agreement

DATE: March 31, 2026

INTRODUCTION

This memorandum is a request for the City Council to adopt the attached Resolution setting a public hearing for April 20, 2026 on a proposed Development Agreement by and between the City of Dubuque, Iowa and Iron Creek Group, LLC providing for the issuance of Urban Renewal Tax Increment Revenue Grant Obligations.

BACKGROUND

The property at 1222-1240 Locust Street is largely vacant and underutilized. The existing units are dilapidated and poorly organized throughout the space. Iron Creek Group, LLC, operated by Flint Drake, intends to completely rehabilitate the structure by taking the existing units down to the studs and creating four new two-bedroom units and four new one-bedroom units. Plans also include new HVAC, electrical, flooring, and lighting and restoration of the building façade utilizing historic tax credits.

DISCUSSION

Iron Creek Group, LLC submitted an application for housing creation and the rehabilitation of the façade of 1222-1240 Locust Street. The applicant is proposing a $600,000 project that will create eight new residential rental units and restore the building façade.

The key elements of the Development Agreement include the following:

1. Developer will make a capital investment of approximately $600,000 to rehabilitate the property.
2. Developer must create 8 residential rental units.
3. Developer will receive 15 years of tax increment financing incentives in the form of semi-annual rebates. Tax increment financing incentives are estimated to not exceed $78,777.
4. City to award a Downtown Housing Incentive Grant in an amount of $80,000 ($10,000 x 8 units)
5. City to award a Downtown Rehabilitation Grant not to exceed $35,000.
6. City of Dubuque will amend the Greater Downtown Urban Renewal District Plan to accommodate the issuance of tax increment financing incentives.

The Development Agreement requires Developer to accept applications from prospective tenants with housing choice vouchers (issued under the U.S. HUD's Section 8 voucher program or a similar program) that are otherwise qualified prospective tenants.

RECOMMENDATION/ ACTION STEP

I recommend the City Council adopt the attached Resolution setting an April 20, 2026 public hearing on the Development Agreement including the issuance of Urban Renewal Tax Increment Revenue Grant Obligations.

DEVELOPMENT AGREEMENT
BY AND BETWEEN
THE CITY OF DUBUQUE, IOWA
AND
IRON CREEK GROUP, LLC

This Development Agreement (Agreement) dated for reference purposes the 30 day of March, 2026 is made and entered into by and between the City of Dubuque, Iowa (City), and Iron Creek Group, LLC (Developer).

WHEREAS, Developer is the owner of the real estate locally known as 1222-1240 Locust Street, Dubuque, Iowa and legally described as follows (the Property):

> The Southerly 32 feet of the Northerly 64 feet of Lot 477A, and The Northerly 32 feet of Lot 477A in the City of Dubuque, Iowa, according to the United States Commissioners' Map thereof

; and

WHEREAS, the Property is located in the Greater Downtown Urban Renewal District (the District) which has been so designated by City Council Resolution 123-67, on May 18, 1967 as a slum and blighted area (the Project Area) defined by Iowa Code Chapter 403 (the Urban Renewal Law); and

WHEREAS, Developer will undertake the redevelopment of a building (the Building) located on the Property (the Project) and will be operating the same during the term of this Agreement; and

WHEREAS, it is in the City's best interest to preserve the Building; and

WHEREAS, pursuant to Iowa Code Section 403.6(1), and in conformance with the Urban Renewal Plan for the Project Area adopted on May 18, 1967, and last amended on February 16, 2026, City has the authority to enter into contracts and agreements to implement the Urban Renewal Plan, as amended; and

WHEREAS, the Dubuque City Council believes it is in the best interests of the City to encourage Developer in the development of the Property by providing certain incentives as set forth herein.

NOW, THEREFORE, the parties to this Development Agreement, in consideration of the promises, covenants and agreements made by each other, do hereby agree as follows:

SECTION 1. REPRESENTATIONS AND WARRANTIES

1.1 Representations and Warranties of City. In order to induce Developer to enter into this Agreement, City hereby represents and warrants to Developer that to the best of City's knowledge:

(1) City has duly obtained all necessary approvals and consents for its execution, delivery and performance of this Agreement and that it has full power and authority to execute, deliver and perform its obligations under this Agreement. City's attorney shall issue a legal opinion to Developer at the time of closing confirming the representations contained herein, in the form attached hereto as Exhibit A.

(2) City shall exercise its best efforts to cooperate with Developer in the development process.

(3) City shall exercise its best efforts to resolve any disputes arising during the development process in a reasonable and prompt fashion.

(4) The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and the fulfillment of or compliance with the terms and conditions of this Agreement are not prevented by, limited by, in conflict with, or result in a violation or breach of, the terms, conditions or provisions of the charter of City, any evidence of indebtedness, agreement or instrument of whatever nature to which City is now a party or by which it or its property is bound, or constitute a default under any of the foregoing.

(5) There are no actions, suits or proceedings pending or threatened against or affecting City in any court or before any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the financial position or operations of City, or which affects the validity of the Agreement or City's ability to perform its obligations under this Agreement.

(6) No ordinance or hearing is now before any local governmental body that either contemplates or authorizes any public improvements or special tax levies, the cost of which may be assessed against the Property. To the best of City's knowledge, there are no plans or efforts by any government agency to widen, modify, or re-align any street or highway providing access to the Property and there are no pending or intended public improvements or special assessments affecting

the Property which will result in any charge or lien be levied or assessed against the Property.

(7) The representations and warranties contained in this section shall be correct in all respects on and as of the Closing Date with the same force and effect as if such representations and warranties had been made on and as of the Closing Date.

(8) As of the date of this Agreement there has been prepared and approved by City an Urban Renewal Plan for the Project Area consisting of the Urban Renewal Plan for the Greater Downtown Urban Renewal Plan, most recently approved by City Council of City on April 21, 2025, and as subsequently amended through and including the date hereof, attached as Exhibit E (the Urban Renewal Plan). A copy of the Urban Renewal Plan, as constituted on the date of this Agreement and in the form attached hereto, has been recorded among the land records in the office of the Recorder of Dubuque County, Iowa.

1.2 Representations and Warranties of Developer. The Developer makes the following representations and warranties:

(1) Developer is a limited liability corporation duly organized and validly existing under the laws of the State of Iowa and has all requisite power and authority to own and operate its properties, to carry on its business as now conducted and as presently proposed to be conducted, and to enter into and perform its obligations under this Agreement.

(2) This Agreement has been duly authorized, executed and delivered by Developer and, assuming due authorization, execution and delivery by City, is in full force and effect and is a valid and legally binding instrument of Developer enforceable in accordance with its terms, except as the same may be limited by bankruptcy, insolvency, reorganization or other laws relating to or affecting creditors' rights generally. Developer's counsel shall issue a legal opinion to City, at the time of closing, confirming the representations contained herein, in the form attached hereto as Exhibit B.

(3) The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and the fulfillment of or compliance with the terms and conditions of this Agreement are not prevented by, limited by, in conflict with, or result in a violation or breach of, the terms, conditions or provisions of the articles of incorporation or the bylaws of Developer or any contractual restriction, evidence of indebtedness, agreement or instrument of whatever nature to which Developer is now a party or by which it or its property is bound, or constitute a

default under any of the foregoing.

(4) There are no actions, suits or proceedings pending or threatened against or affecting Developer in any court or before any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the business, financial position or result of operations of Developer or which affects the validity of the Agreement or Developer's ability to perform its obligations under this Agreement.

(5) Developer will perform its obligations under this Agreement in accordance with the material terms of this Agreement, the Urban Renewal Plan and all local, state and federal laws and regulations.

(6) Developer will use its best efforts to obtain, or cause to be obtained, in a timely manner, all material requirements of all applicable local, state, and federal laws and regulations which must be obtained or met.

(7) Developer has firm commitments for permanent financing for the Project in an amount sufficient, together with equity commitments, to successfully complete the requirements of this Agreement and shall provide evidence thereof to City prior to the Public Hearing.

1.3 Closing. The closing shall take place on the Closing Date which shall be the 5th day of May, 2026, or other such date as the parties shall agree in writing but in no event shall the Closing date be later than the 28th day of May 2026. Consummation of the closing shall be deemed an agreement of the parties to this Agreement that the conditions of closing shall have been satisfied or waived.

1.4 Conditions to Closing. The closing of the transaction contemplated by this Agreement and all the obligations of Developer under this Agreement are subject to fulfillment, on or before the Closing Date, of the following conditions:

(1) The representations and warranties made by City in Section 1.1 shall be correct as of the Closing Date with the same force and effect as if such representations were made at such time. At the closing, City shall deliver a certificate to that effect in the form of Exhibit C.

(2) Developer shall have the right to terminate this Agreement at any time prior to the consummation of the closing on the Closing Date if Developer determines in its sole discretion that conditions necessary for the successful completion of the Project contemplated herein have not been satisfied in Developer's sole discretion. Upon

the giving notice of termination by Developer to City, this Agreement shall be deemed null and void.

(3) Developer and City shall be in material compliance with all the terms and provisions of this Agreement.

(4) Developer shall have furnished City with evidence, prior to the Public Hearing, in a form satisfactory to City (such as a letter of commitment from a bank or other lending institution), that Developer has firm financial commitments in an amount sufficient, together with equity commitments, to complete the Minimum Improvements (as defined herein) in conformance with the Construction Plans (as defined herein), or City shall have received such other evidence of Developer's financial ability as City in its reasonable judgment City requires.

(5) Developer's counsel shall issue a legal opinion to City confirming the representations contained herein in the form attached hereto as Exhibit B.

1.5 City's Obligations at Closing. At or prior to the Closing Date, City shall deliver to Developer such other documents as may be required by this Agreement, all in a form satisfactory to Developer.

SECTION 2. DEVELOPMENT ACTIVITIES

2.1 Required Minimum Improvements. Developer will make a capital investment of approximately Six Hundred Thousand Dollars ($600,000) to improve the Building (the Minimum Improvements). The Minimum Improvements include creating eight (8) new residential units and rehabilitating the façade including doors and windows.

2.2 Plans for Construction of Minimum Improvements. Plans and specifications with respect to the development of the Property and the construction of the Minimum Improvements thereon (the Construction Plans) shall be in conformity with Urban Renewal Plan, this Agreement, and all applicable state and local laws and regulations, including but not limited to any covenants, conditions, restrictions, reservations, easements, liens and charges, recorded in the records of Dubuque County, Iowa. Developer shall submit to City, for approval by City, plans, drawings, specifications, and related documents with respect to the improvements to be constructed by Developer on the Property. All work with respect to the Minimum Improvements shall be in substantial conformity with the Construction Plans approved by City.

2.3 Timing of Improvements. Developer hereby agrees that construction of the Minimum Improvements on the Property shall begin by June 1, 2026, and shall be substantially

completed by June 1, 2027. The time for the performance of these obligations shall be suspended due to unavoidable delays meaning delays, outside the control of the party claiming its occurrence in good faith, which are the direct result of strikes, other labor troubles, unusual shortages of materials or labor, unusually severe or prolonged bad weather, acts of God, fire or other casualty to the Minimum Improvements, litigation commenced by third parties which, by injunction or other similar judicial action or by the exercise of reasonable discretion directly results in delays, or acts of any federal, state or local government which directly result in extraordinary delays. The time for performance of such obligations shall be extended only for the period of such delay.

2.4 Certificate of Completion. Promptly following the request of Developer upon completion of the Minimum Improvements, City shall furnish Developer with an appropriate instrument so certifying. Such certification (the Certificate of Completion) shall be in the form attached as Exhibit G and shall be a conclusive determination of the satisfaction of Developer's obligations to make the Minimum Improvements under this Agreement and completion of the Minimum Improvements by Developer as required by this Agreement.

2.5 Security Cameras. Developer shall install security cameras on the exterior of all buildings on the Property and register said cameras with the "Secure Dubuque Personal Surveillance System" described at https://cityofdubuque.org/2980/Secure-Dubuque.

SECTION 3. CITY PARTICIPATION

3.1 Economic Development Grants to Developer. For and in consideration of Developer's obligations hereunder, and in furtherance of the goals and objectives of the urban renewal plan for the Project Area and the Urban Renewal Law, City agrees, subject to Developer being and remaining in compliance with the terms of this Agreement, to make thirty (30) consecutive semi-annual payments (such payments being referred to collectively as the Economic Development Grants) to Developer:

November 1, 2029	May 1, 2030
November 1, 2030	May 1, 2031
November 1, 2031	May 1, 2032
November 1, 2032	May 1, 2033
November 1, 2033	May 1, 2034
November 1, 2034	May 1, 2035
November 1, 2035	May 1, 2036
November 1, 2036	May 1, 2037
November 1, 2037	May 1, 2038
November 1, 2038	May 1, 2039

November 1, 2039	May 1, 2040
November 1, 2040	May 1, 2041
November 1, 2041	May 1, 2042
November 1, 2042	May 1, 2043
November 1, 2043	May 1, 2044

pursuant to Iowa Code Section 403.9 of the Urban Renewal Law, in amounts equal to a portion of the tax increment revenues collected by City under Iowa Code Section 403.19 (without regard to any averaging that may otherwise be utilized under Iowa Code Section 403.19 and excluding any interest that may accrue thereon prior to payment to Developer) during the preceding six-month period in respect of the Minimum Improvements constructed by Developer (the Developer Tax Increments). For purposes of calculating the amount of the Economic Development Grants provided in this Section, the Developer Tax Increments shall be only those tax increment revenues collected by City in respect of the increase in the taxable value of the Property above the assessed value on January 1, 2026 of Two Hundred Seven Thousand One Hundred Dollars ($207,100) (the Baseline Valuation). The Developer Tax Increments shall not include (i) any property taxes collected for the payment of bonds and interest of each taxing district, (ii) any taxes for the regular and voter-approved physical plant and equipment levy, (iii) the remaining actual amount of tax increment revenues collected by City in respect of the valuations of the Property prior to January 1, 2026 and (iv) any other portion required to be excluded by Iowa law, and thus such incremental taxes will not include all amounts paid by Developer as regular property taxes.

3.2 To fund the Economic Development Grants, City shall certify to the County prior to December 1, 2027 its request for the available Developer Tax Increments resulting from the assessments imposed by the County as of January 1 of that year and each year thereafter until and including January 1, 2045, to be collected by City as taxes are paid during the following fiscal year and which shall thereafter be disbursed to the Developer on November 1 and May 1 of that fiscal year. (Example: if City certifies in December, 2027, the Economic Development Grants in respect thereof would be paid to the Developer on November 1, 2029, and May 1, 2030.)

3.3 The Economic Development Grants shall be payable from and secured solely and only by the Developer Tax Increments paid to City that, upon receipt, shall be deposited and held in a special account created for such purpose and designated as the Iron Creek TIF Account of City. City hereby covenants and agrees to maintain its TIF ordinance in force during the term hereof and to apply the incremental taxes collected in respect of the Minimum Improvements and allocated to the Iron Creek TIF Account to pay the Economic Development Grants, as and to the extent set forth in Section 3.1 hereof. The Economic Development Grants shall not be payable in any manner by other tax increments revenues,

or by general taxation or from any other City funds. City makes no representation with respect to the amounts that may be paid to Developer as the Economic Development Grants in any one year and under no circumstances shall City in any manner be liable to Developer so long as City timely applies the Developer Tax Increments actually collected and held in the Iron Creek TIF Account (regardless of the amounts thereof) to the payment of the Economic Development Grants to Developer as and to the extent described in this Section.

3.4 City shall be free to use any and all tax increment revenues collected in respect of other properties within the Project Area and the remaining actual amount of the property taxes paid by Developer to City, or any available Developer Tax Increments resulting from the termination of the annual Economic Development Grants under Section 3.1 hereof, for any purpose for which such tax increment revenues may lawfully be used pursuant to the provisions of the Urban Renewal Law, and City shall have no obligations to Developer with respect to the use thereof.

3.5 Downtown Housing Incentive.

(1) City agrees to provide to Developer on the terms and conditions set forth in the Downtown Housing Incentive Program attached hereto as Exhibit F, a grant in an amount not to exceed Eighty Thousand Dollars ($80,000.00) (the Grant).

(2) Grant funds will not be disbursed to Developer until City has issued a Certificate of Completion for the Project. The Grant shall be paid in Ten Thousand Dollar ($10,000.00) payments for each apartment that receives a Certificate of Completion up to a maximum of eight apartments. Prior to the disbursement of any funds, Developer shall provide evidence satisfactory to City that the Minimum Improvements have been completed in accordance with the Plans and other documentation submitted to City with the Downtown Housing Assistance application.

3.6. Downtown Rehabilitation Grant. City agrees to provide a matching (1:1) grant not to exceed Thirty-Five Thousand Dollars ($35,000) to reimburse Developer for documents costs related to the following eligible activities:

(1) Planning & Design predevelopment costs, architectural and engineering fees and other authorized soft costs associated with the rehabilitation of the Development Property on the terms and conditions set forth by the State Historic Preservation Office, as set forth in Exhibit I.

(2) Façade documented costs that improve the overall appearance of the Development Property, provided the Project meets the criteria of the Façade Grant

Program and on the terms and conditions set forth by the State Historic Preservation Office, as set forth in Exhibit I.

(3) Financial Consultant documented costs related to hiring a financial consultant to evaluate the Project's feasibility on the terms and conditions set forth in Exhibit I.

3.7. Payment of the Grant. The Grant shall be payable as follows:

(1) Any and all portions of the Grant shall be funded solely and only from available Program funds;

(2) Prior to the release of any grant funds, (i) Grant Recipient shall have submitted documentation of its eligible expenses under the corresponding grant program, and (ii) City shall have issued a Certificate of Completion; and

(3) The Grant funds shall be disbursed directly to Grant Recipient.

SECTION 4. NON- APPROPRIATION / LIMITED SOURCE OF FUNDING.

4.1 Non-Appropriation.

(1) Notwithstanding anything in this Agreement to the contrary, the obligation of City to pay any installment of the Economic Development Grants from the pledged tax increment revenues shall be an obligation limited to currently budgeted funds, and not a general obligation or other indebtedness of City or a pledge of its full faith and credit within the meaning of any constitutional or statutory debt limitation, and shall be subject in all respects to the right of non-appropriation by the City Council of City as provided in this Section. City may exercise its right of non-appropriation as to the amount of the installments to be paid during any fiscal year during the term of this Agreement without causing a termination of this Agreement. The right of non-appropriation shall be exercised only by resolution affirmatively declaring City's election to non-appropriate funds otherwise required to be paid in the next fiscal year under this Agreement.

(2) In the event the City Council of City elects to not appropriate sufficient funds in the budget for any future fiscal year for the payment in full of the installments on the Economic Development Grants due and payable in that future fiscal year, then City shall have no further obligation to Employer or Developers for the payment of any installments due in that future fiscal year which cannot be paid with the funds then appropriated for that purpose.

(3) Developer acknowledges and agrees that the State of Iowa retains the authority to amend, modify, or repeal laws governing property tax, tax increment financing (TIF), and any related rebate mechanisms. City makes no representations or warranties regarding the continuation of current state law or the availability of rebates in their present form. In the event that any legislative or regulatory action by the State of Iowa alters or limits the availability, calculation, distribution, or administration of rebates, City shall have no obligation to compensate Developer for any resulting reduction, loss, or elimination of rebates. Developer assumes all risk associated with potential changes to applicable state law.

4.2 The right of non-appropriation reserved to City in this Section is intended by the parties, and shall be construed at all times, so as to ensure that City's obligation to pay future installments on the Economic Development Grants shall not constitute a legal indebtedness of City within the meaning of any applicable constitutional or statutory debt limitation prior to the adoption of a budget which appropriates funds for the payment of that installment or amount. In the event that any of the provisions of this Agreement are determined by a court of competent jurisdiction to create, or result in the creation of, such a legal indebtedness of City, the enforcement of the said provision shall be suspended, and the Agreement shall at all times be construed and applied in such a manner as will preserve the foregoing intent of the parties, and no event of default shall be deemed to have occurred as a result thereof. If any provision of this Agreement or the application thereof to any circumstance is so suspended, the suspension shall not affect other provisions of this Agreement which can be given effect without the suspended provision, and to this end the provisions of this Agreement are severable.

SECTION 5. COVENANTS OF DEVELOPER

5.1 The Minimum Improvements shall conform to the U.S. Secretary of the Interior's Standards for Rehabilitation.

5.2. Operation of Property.

(1) Housing Vouchers. For and in consideration of the Grant offered under this Agreement, during the operation of the Development Property as a rental residential property, as allowable by the Department of Housing and Urban Development, Developer shall accept, or cause to be accepted, applications from prospective tenants with housing vouchers issued under the U.S. HUD's Section 8 voucher program or a similar program who are otherwise qualified prospective tenants. Developer shall not deny any tenant a lease based on a public assistance source of income. A public assistance source of income means income and support derived

from any tax supported federal, state or local funds, including, but not limited to, social security, supplemental security income, temporary assistance for needy families, family investment program, general relief, food stamps, and unemployment compensation, housing choice voucher subsidies and similar rent subsidy programs. This Section 5.2 shall survive the termination of this Agreement. If Developer or Developer's successors or assigns violates the requirements of this Section 5.2 as determined by the City Manager in the City Manager's sole discretion after the termination of this Agreement, Developer or Developer's successors or assigns shall not be eligible for any City financial assistance programs.

(2) Short-Term Rental. For and in consideration of the Grant offered under this Agreement, during the operation of the Development Property as residential rental property and during the term of this Agreement, no residential rental unit shall be leased to any tenant for an initial term of fewer than thirty (30) days, and no portion of the Development Property may be used for short-term rental purposes. Developer agrees to include similar prohibitions regarding short-terms rentals in each lease agreement for each residential rental unit of the Development Property during the term of this Agreement. Developer further agrees to include such prohibitions in each and every lease agreement for any residential rental unit of the Development Property for so long as any single residential rental unit of the Development Property remains subject to the terms and conditions of this Agreement.

5.3 Books and Records. During the term of this Agreement, Developer shall keep at all times and make available to City upon reasonable request proper books of record and account in which full, true and correct entries will be made of all dealings and transactions of or in relation to the business and affairs of Developer in accordance with generally accepted accounting principles consistently applied throughout the period involved, and Developer shall provide reasonable protection against loss or damage to such books of record and account.

5.4 Real Property Taxes. Developer shall pay or cause to be paid, when due, all real property taxes and assessments payable with respect to all and any parts of the Property unless Developer's obligations have been assumed by another person pursuant to the provisions of this Agreement.

5.5 No Other Exemptions. During the term of this Agreement, Developer agrees not to apply for any state or local property tax exemptions which are available with respect to the Property or the Minimum Improvements located thereon that may now be, or hereafter become, available under state law or city ordinance during the term of this Agreement, including those that arise under Iowa Code Chapters 404 and 427, as amended.

5.6 Insurance Requirements.

(1) Upon completion of construction of the Minimum Improvements and up to the Termination Date, Developer shall maintain, or cause to be maintained, at its cost and expense property insurance against loss and/or damage to the Building (including the Minimum Improvements) under an insurance policy written with the "special perils" form and in an amount not less than the full insurable replacement cost of the Building (including the Minimum Improvements), listing City as lender loss payable. Developer shall furnish to City proof of insurance in the form of a certificate of insurance

(2) The term "replacement cost" shall mean the actual replacement cost of the building with Minimum Improvements (excluding foundation and excavation costs and costs of underground flues, pipes, drains and other uninsurable items) and equipment, and shall be reasonably determined from time to time at the request of City, but not more frequently than once every three (3) years.

(3) Developer shall notify City immediately in the case of damage exceeding Fifty Thousand Dollars ($50,000) in amount to, or destruction of, the Minimum Improvements or any portion thereof resulting from fire or other casualty. Net proceeds of any such insurance (Net Proceeds), shall be paid directly to Developer as its interests may appear, and Developer shall forthwith repair, reconstruct and restore the Minimum Improvements to substantially the same or an improved condition or value as they existed prior to the event causing such damage and, to the extent necessary to accomplish such repair, reconstruction and restoration, Developer shall apply the Net Proceeds of any insurance relating to such damage received by Developer to the payment or reimbursement of the costs thereof, subject, however, to the terms of any mortgage encumbering title to the Property (as its interests may appear). Developer shall complete the repair, reconstruction and restoration of Minimum Improvements whether or not the Net Proceeds of insurance received by Developer for such purposes are sufficient.

5.7 Preservation of Property. During the term of this Agreement, Developer shall maintain, preserve and keep, or cause others to maintain, preserve and keep, the Minimum Improvements in good repair and working order, ordinary wear and tear accepted, and from time to time shall make all necessary repairs, replacements, renewals and additions.

5.8 Non-Discrimination. In carrying out the project, Developers shall not discriminate against any employee or applicant for employment because of age, color, familial status, gender identity, marital status, mental/physical disability, national origin, race, religion/creed, sex, or sexual orientation.

5.9 Conflict of Interest. Developer agrees that no member, officer or employee of City, or its designees or agents, nor any consultant or member of the governing body of City, and no other public official of City who exercises or has exercised any functions or responsibilities with respect to the project during his or her tenure, or who is in a position to participate in a decision-making process or gain insider information with regard to the project, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed in connection with the project, or in any activity, or benefit therefrom, which is part of this project at any time during or after such person's tenure. In connection with this obligation, Developer shall have the right to rely upon the representations of any party with whom it does business and shall not be obligated to perform any further examination into such party's background.

5.10 Non-Transferability. Until such time as the Minimum Improvements are complete (as certified by City under Section 2.4), this Agreement may not be assigned by Developer nor may the Property be transferred by Developer to another party. Thereafter, with the prior written consent of City, which shall not be unreasonably withheld, Developer shall have the right to assign this Agreement, and upon assumption of the Agreement by the assignee, Developer shall no longer be responsible for its obligations under this Agreement.

5.11 No change in Tax Classification. Developer agrees that it will not take any action to change, or otherwise allow, the classification of the Property for property tax purposes to become other than commercial property and to be taxed as such under Iowa law. This restriction shall terminate upon the termination of this Agreement. However, Developer may apply for a reclassification of the Property in the event Iowa law is modified to allow a building containing four apartments within one building to be classified as residential for property tax purposes.

5.12 Restrictions on Use. Developer agrees for itself, and its successors and assigns, and every successor in interest to the Property or any part thereof, for the duration of this Agreement, that they, and their respective successors and assigns, shall:

(1) Devote the Property to, and only to and in accordance with, the uses specified in the Urban Renewal Plan (and City represents and agrees that use of the Property as a restaurant and upper-story housing, is in full compliance with the Urban Renewal Plan) (however, Developer shall not have any liability to City to the extent that a successor in interest shall breach this covenant and City shall seek enforcement of this covenant directly against the party in breach of same); and

(2) Not discriminate upon the basis of race, religion, color, sex, sexual orientation, gender identity, national origin, age or disability in the sale, lease, rental,

use or occupancy of the Property or any improvements erected or to be erected thereon, or any part thereof (however, Developer shall not have any liability to City to the extent that a successor in interest shall breach this covenant and City shall seek enforcement of this covenant directly against the party in breach of same).

5.13 Compliance with Laws. Developer shall comply with all laws, rules and regulations relating to its businesses, other than laws, rules and regulations the failure to comply with or the sanctions and penalties resulting therefrom, would not have a material adverse effect on the business, property, operations, financial or otherwise, of Developer.

SECTION 6. EVENTS OF DEFAULT AND REMEDIES

6.1 Events of Default Defined. The following shall be Events of Default under this Agreement and the term Event of Default shall mean, whenever it is used in this Agreement, any one or more of the following events:

(1) Failure by Developer to pay or cause to be paid, before delinquency, all real property taxes assessed with respect to the Minimum Improvements and the Property.

(2) Failure by Developer to cause the construction of the Minimum Improvements to be commenced and completed pursuant to the terms, conditions and limitations of this Agreement.

(3) Transfer of any interest by Developer of the Minimum Improvements in violation of the provisions of this Agreement prior to the issuance of the final Certificate of Completion.

(4) Failure by Developer or City to substantially observe or perform any other material covenant, condition, obligation or agreement on its part to be observed or performed under this Agreement.

6.2. Remedies on Default by Developer. Whenever any Event of Default referred to in Section 5.1 of this Agreement occurs and is continuing, City, as specified below, may take any one or more of the following actions after the giving of written notice by City to Developer (and the holder of any mortgage encumbering any interest in the Property of which City has been notified of in writing) of the Event of Default, but only if the Event of Default has not been cured within sixty (60) days following such notice, or if the Event of Default cannot be cured within sixty (60) days and Developer does not provide assurances to City that the Event of Default will be cured as soon as reasonably possible thereafter:

(1) City may suspend its performance under this Agreement until it receives assurances from the Developer deemed adequate by City, that the Developer will cure its default and continue its performance under this Agreement;

(2) Until the Closing Date, City may cancel and rescind this Agreement;

(3) Until issuance of the Certificate of Completion, City shall be entitled to recover from Developer the sum of all amounts expended by City in connection with the funding of the Downtown Rehab Loan/Grant and Economic Development Grant to Developer and City may take any action, including any legal action it deems necessary, to recover such amounts from the Developer;

(4) City may withhold the Certificate of Completion; or

(5) City may take any action, including legal, equitable or administrative action, which may appear necessary or desirable to collect any payments due under this Agreement or to enforce performance and observance of any obligation, agreement, or covenant under this Agreement.

6.3 No Remedy Exclusive. No remedy herein conferred upon or reserved to City is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law or in equity or by statute. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient.

6.4 No Implied Waiver. In the event any agreement contained in this Agreement should be breached by any party and thereafter waived by any other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other concurrent, previous or subsequent breach hereunder.

6.5 Agreement to Pay Attorneys' Fees and Expenses. If any action at law or in equity, including an action for declaratory relief or arbitration, is brought to enforce or interpret the provisions of this Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs of litigation from the other party. Such fees and costs of litigation may be set by the court in the trial of such action or by the arbitrator, as the case may be, or may be enforced in a separate action brought for that purpose. Such fees and costs of litigation shall be in addition to any other relief that may be awarded.

6.6 Remedies on Default by City. If City defaults in the performance of this Agreement, Developer may take any action, including legal, equitable or administrative action that may appear necessary or desirable to collect any payments due under this Agreement, to recover expenses of Developer, or to enforce performance and observance of any obligation, agreement, or covenant of City under this Agreement. Developer may suspend their performance under this Agreement until they receive assurances from City, deemed adequate by Developer, that City will cure its default and continue its performance under this Agreement.

SECTION 7. GENERAL TERMS AND PROVISIONS

7.1 Notices and Demands. Whenever this Agreement requires or permits any notice or written request by one party to another, it shall be deemed to have been properly given if and when delivered in person or three (3) business days after having been deposited in any U.S. Postal Service and sent by registered or certified mail, postage prepaid, addressed as follows:

If to Developer: Flint Drake
Iron Creek Group, LLC
300 Main Street, Suite 323
Dubuque, Iowa 52001

With copy to: Drake Law Firm, P.C.
Attn: Flint Drake
300 Main Street, Suite 323
Dubuque, IA 52001

If to City: City Manager
50 W. 13th Street
Dubuque, Iowa 52001
Phone: (563) 589-4110
Fax: (563) 589-4149

With copy to: City Attorney
City Hall
50 W. 13th Street
Dubuque IA 52001

or at such other address with respect to either party as that party may, from time to time designate in writing and forward to the other as provided in this Section.

7.2 Binding Effect. This Agreement shall be binding upon and shall inure to the benefit of City and Developer and their respective successors and assigns.

7.3 Force Majeure. A party shall be excused from its obligations under this Agreement if and to the extent and during such time as the party is prevented, impeded, or hindered, unable to perform its obligations or is delayed in doing so due to events or conditions outside of the party's reasonable control and after the party has taken reasonable steps to avoid or mitigate such event or its consequences (each a "Force Majeure Event") including, without limitation in any way, as the result of any acts of God, war, fire, or other casualty, riot, civil unrest, extreme weather conditions, terrorism, strikes and/or labor disputes, pandemic, epidemic, quarantines, government stay-at-home orders, municipal and other government orders, failure of Internet, or other matter beyond the control of such party. Upon the occurrence of a Force Majeure Event, the party incurring such Force Majeure Event will promptly give notice to the other party identifying the Force Majeure Event, explaining how it impacts performance and the estimated duration, identifying the relief requested, agreeing to limit damages to the other party and to immediately resume performance upon termination of the Force Majeure Event, and agreeing to supplement the notice as more information becomes available, and thereafter the parties shall meet and confer in good faith in order to identify a cure of the condition affecting its performance as expeditiously as possible. No obligation to make a payment required by this Agreement is excused by a Force Majeure Event. The nonperforming party shall not be entitled to any damages or additional payments of any kind for any such delay.

7.4 Termination Date. This Agreement and the rights and obligations of the parties hereunder shall terminate on December 31, 2044 (the Termination Date).

7.5 Execution by Facsimile. The parties agree that this Agreement may be transmitted between them by facsimile machine. The parties intend that the faxed signatures constitute original signatures and that a faxed Agreement containing the signatures (original or faxed) of all the parties is binding on the parties.

7.6 Memorandum of Development Agreement. Developer shall promptly record a Memorandum of Development Agreement in the form attached hereto as Exhibit D in the office of the Recorder of Dubuque County, Iowa. Developer shall pay the costs for so recording.

7.7 Legal Compliance. Developer is responsible for compliance with all applicable laws, statutes, rules, regulations, and ordinances which may apply to the performance of Developer's obligations under this Agreement, including but not limited to the laws outlined in Exhibit H, and hereby represents and warrants that Developer is in compliance with the same as of the Closing Date and further represents that during the Term Developer will

remain in compliance. Developer shall require all contractors and subcontractors providing services under this Agreement shall also certify compliance with this Section.

Developer further represents and warrants that Developer has obtained all necessary business permits and licenses that may be required to carry out the obligations pursuant to this Agreement, including any permits and licenses that might be required by the state or locality in which Developer performs the Services, and Developer agrees to maintain, at Developer's sole expense, such required permits and licenses for the duration of the term(s) of this Agreement.

IN WITNESS WHEREOF, City has caused this Agreement to be duly executed in its name and behalf by its Mayor and attested to by its City Clerk and Developer has caused this Agreement to be duly executed on or as of the first above written.

OPINION OF DEVELOPER'S COUNSEL

Mayor and City Councilmembers
City Hall
13th and Central Avenue
Dubuque IA 52001

Re: Development Agreement Between the City of Dubuque, Iowa and

Dear Mayor and City Councilmembers:

We have acted as counsel for Iron Creek Group, LLC, in connection with the execution and delivery of a certain Development Agreement (Development Agreement) between Developer and the City of Dubuque, Iowa (City) dated for reference purposes the ___ day of _____, 20__.

We have examined the original certified copy, or copies otherwise identified to our satisfaction as being true copies, of the Development Agreement and such other documents and records as we have deemed relevant and necessary as a basis for the opinions set forth herein.

Based on the pertinent law, the foregoing examination and such other inquiries as we have deemed appropriate, we are of the opinion that:

1. Developer is a limited liability company organized and existing under the laws of the State of Iowa and has full power and authority to execute, deliver and perform in full the Development Agreement. The Development Agreement has been duly and validly authorized, executed and delivered by Developer and, assuming due authorization, execution and delivery by City, is in full force and effect and is a valid and legally binding instrument of Developer enforceable in accordance with its terms, except as the same may be limited by bankruptcy, insolvency, reorganization or other laws relating to or affecting creditors' rights generally.

2. To our actual knowledge with no duty to inquire, the execution, delivery and performance by Developer of the Development Agreement and the carrying out of the terms thereof, will not result in violation of any provision of, or in default under, the articles of incorporation and bylaws of Developer, any indenture, mortgage, deed of trust, indebtedness, agreement, judgment, decree, order, statute, rule, regulation or restriction to which Developer is a party or by which Developer's property is bound or subject.

3. To our actual knowledge with no duty to inquire, there are no actions, suits or proceedings pending or threatened against or affecting Developer in any court or before

any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the business (present or prospective), financial position or results of operations of Developer or which in any manner raises any questions affecting the validity of the Agreement or the Developer's ability to perform Developer's obligations thereunder.

This opinion is rendered for the sole benefit of the City of Dubuque and no other party may rely on this opinion.

This opinion is rendered and valid as of the date of this letter and we have no duty to update this opinion for any matters which come to our knowledge after the date of this letter.

Sincerely,

EXHIBIT C

(DATE)

Dear _____:

I am the City Manager of the City of Dubuque, Iowa and have acted in that capacity in connection with the execution and delivery of a certain Development Agreement between Iron Creek Group, LLC (Developer) and the City of Dubuque, Iowa (City) dated for reference purposes the ___ day of _____, 20__.

On behalf of the City of Dubuque, I hereby represent and warrant to Developer that:

(1) City has duly obtained all necessary approvals and consents for its execution, delivery and performance of this Agreement and that it has full power and authority to execute, deliver and perform its obligations under this Agreement. City's attorney shall issue a legal opinion to Developer at time of closing confirming the representation contained herein, in the form attached hereto as Exhibit B.

(2) City shall exercise its best efforts to cooperate with Developer in the development process.

(3) City shall exercise its best efforts to resolve any disputes arising during the development process in a reasonable and prompt fashion.

(4) The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and the fulfillment of or compliance with the terms and conditions of this Agreement are not prevented by, limited by, in conflict with, or result in a violation or breach of, the terms, conditions or provisions of the charter of City, any evidence of indebtedness, agreement or instrument of whatever nature to which City is now a party or by which it or its property is bound, or constitute a default under any of the foregoing.

(5) There are no actions, suits or proceedings pending or threatened against or affecting City in any court or before any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the financial position or operations of City or which affects the validity of the Agreement or City's ability to perform its obligations under this Agreement.

(6) No ordinance or hearing is now or before any local governmental body that either contemplates or authorizes any public improvements or special tax levies, the cost of which may be assessed against the Property. To the best of City's knowledge, there are no plans or efforts by any government agency to widen, modify, or re-align any street or highway providing access to the Property and there are no pending or intended public improvements or special assessments affecting the Property which will result in any charge or lien be levied or assessed against the Property.

(7) The representations and warranties contained in this article shall be correct in all respects on and as of the Closing Date with the same force and effect as if such representations and warranties had been made on and as of the Closing Date.

Sincerely,

Michael C. Van Milligen
City Manager

Return to: Barry A. Lindahl 300 Main Street Suite 330 Dubuque IA 52001 563 583-4113

MEMORANDUM OF DEVELOPMENT AGREEMENT

A Development Agreement by and among the City of Dubuque, Iowa, an Iowa municipal corporation, of Dubuque, Iowa, and Iron Creek Group, LLC was made regarding the following described premises:

The Southerly 32 feet of the Northerly 64 feet of Lot 477A, and The Northerly 32 feet of Lot 477A in the City of Dubuque, Iowa, according to the United States Commissioners' Map thereof

The Development Agreement is dated for reference purposes the ____ day of _____, 20__, and contains covenants, conditions, and restrictions concerning the sale and use of said premises.

This Memorandum of Development Agreement is recorded for the purpose of constructive notice. In the event of any conflict between the provisions of this Memorandum and the Development Agreement itself, executed by the parties, the terms and provisions of the Development Agreement shall prevail. A complete counterpart of the Development Agreement, together with any amendments thereto, is in the possession of the City of Dubuque and may be examined at its offices as above provided.

Dated this ____ day of _____, 20__.

Downtown Housing Incentive Program Eligibility Guidelines

Project Location & Type

Create new multifamily housing units (rental or for-sale condos) within the Greater Downtown Urban Renewal District.

Be a rehabilitation of an existing structure.

Have clearly defined start and completion timelines.

Eligible Unit Types

Newly Created Units: Created in a portion of a structure never previously used as housing.

Rehabilitated Long-Vacant Units: A previously existing housing unit vacant for more than 3 years and undergoing full rehabilitation that corrects all code deficiencies and deterioration.

Rehabilitation Standards

Bring the structure into full compliance with the 2021 IPMC and 2021 IBC.

Correct all unsafe, unsanitary, damaged, or deteriorated conditions, including structural, electrical, mechanical, and plumbing systems.

Repair or replace components that are defective or beyond service life; cosmetic-only improvements do not qualify.

Meet all life-safety, egress, and habitability requirements.

Use durable, long-term residential materials.

Submit a comprehensive scope of work addressing all code corrections, subject to City approval.

Building Configuration

Units must generally be located above a first-floor commercial component.

Design Review Requirements

Reimbursement covers labor and materials that significantly improve appearance following City of Dubuque Architectural Guidelines or Downtown Design Guidelines, as applicable.

Existing noncompliant signage must be brought into compliance as part of the project.

A detailed rendering/drawing with dimensions, materials, and architectural details must be submitted.

Deviation from the approved plan may disqualify the project.

Additional City Requirements

City may require soundproofing, lighting, security, or other standards based on a neighborhood impact review.

Property owners must certify that all properties they own in Dubuque comply with all applicable City ordinances.

Funding Limits

Up to $10,000 per residential unit.

Up to $750,000 per taxing parcel.

No developer fee may be paid until all City assistance is fully disbursed.

Funds are disbursed after project completion and issuance of all Certificates of Occupancy/Completion.

Minimum Project Size

Projects must create at least 2 new housing units.

Application Review

Applications are reviewed when complete.

Funds are awarded to projects that meet all criteria and are ready to commence within 12 months.

EXHIBIT G

CERTIFICATE OF COMPLETION

CERTIFICATE OF COMPLETION

WHEREAS, the City of Dubuque, Iowa, a municipal corporation (the "Grantor"), has granted incentives to Iron Creek Group, LLC (the "Grantee"), in accordance with a Development Agreement dated as of [Date] (the "Agreement"), by and among the Grantor, and the Grantee (collectively, the "Agreement"), certain real property located within the Greater Downtown Urban Renewal District of the Grantor and as more particularly described as follows:

> The Southerly 32 feet of the Northerly 64 feet of Lot 477A, and The Northerly 32 feet of Lot 477A in the City of Dubuque, Iowa, according to the United States Commissioners' Map thereof

(the "Development Property"); and

WHEREAS, said Agreement incorporated and contained certain covenants and conditions with respect to the rehabilitation of the Development Property, and obligated the Grantee to construct certain Minimum Improvements (as defined therein) in accordance with the Agreement; and

WHEREAS, the Grantee has to the present date performed said covenants and conditions insofar as they relate to the construction of the Minimum Improvements in a manner deemed sufficient by the Grantor to permit the execution and recording of this certification; and

NOW, THEREFORE, pursuant to Section 2.4 of the Agreement, this is to certify that all covenants and conditions of the Agreement with respect to the obligations of the Grantee, and its successors and assigns, to construct the Minimum Improvements on the Development Property have been completed and performed by the Grantee to the satisfaction of the Grantor and such covenants and conditions are hereby satisfied.

The County Recorder of Dubuque County is hereby authorized to accept for recording and

to record the filing of this instrument, to be a conclusive determination of the satisfaction of the covenants and conditions as set forth in said Agreement, and that the Agreement shall otherwise remain in full force and effect.

EXHIBIT I

PLANNING AND DESIGN GRANT PROGRAM, FAÇADE GRANT PROGRAM, AND FINANCIAL CONSULTANT GRANT PROGRAM

Downtown Rehabilitation Grant Program

PROGRAM GUIDELINES

(2024)

The Downtown Rehabilitation Grant Program is designed to further the goals and objectives of the Greater Downtown Urban Renewal Plan by creating the financial incentives needed to eliminate conditions of blight, encourage revitalization efforts and to retain or create employment opportunities and/or new housing units within the district. This program will address building code deficiencies as part of each approved project.

Eligible Applicants: Owners of property within the Greater Downtown Urban Renewal District (map attached).

Grant Award: The grant is a 1:1 matching grant up to a maximum of Thirty-Five Thousand Dollars ($35,000).

Eligible Activities and Assistance:

Façade Costs – to provide assistance on labor or material costs for front (or occasionally other major) façade renovations to restore a building's historic appearance or eliminate inappropriate additions or alterations to improve overall appearance.

Financial Consultant Costs – to provide assistance on hiring a financial consultant used to analyze the feasibility of a project.

Planning & Design Grant Program – to provide assistance on pre-development costs associated with a project.

FOR MORE INFORMATION, please contact:
City of Dubuque Economic Development Department
50 West 13th Street, Dubuque, Iowa 52001
(563) 589-4393

General Conditions:

- Property must be located in Greater Downtown Urban Renewal District (see attached

map) and with timely commencement & completion dates identified.

- Projects must be the rehabilitation of an existing structure.
- Property must be classified for tax purposes as a commercial or multi-residential property.
- All existing code deficiencies within a scope of a project must be corrected and new improvements must comply with all applicable codes and ordinances.
- Owner of property must certify that all property in the City of Dubuque, for which the owner has any interest, complies with all applicable City of Dubuque ordinances and regulations, including, but not limited to, housing, building, zoning, fire, health, and vacant and abandoned building regulations.
- Exterior alterations are subject to design review and approval. The Historic District Guidelines shall apply to projects located in Historic Preservation Districts. The Downtown Design Guidelines shall apply to all other project locations. Projects which conform to the applicable guidelines may be reviewed and approved by the City Planner. Projects that do not strictly conform to the applicable guidelines will be forwarded to the Historic Preservation Commission (HPC) for consideration. Substantial rehabilitation projects may also be considered by the HPC. The process for review is at the discretion of the City Planner. Guidelines can be viewed and downloaded at http://cityofdubuque.org/1295/Design-Guidelines.
- Any signs on the property that do not comply with City zoning regulations and design guidelines must be included in the design review and improved to comply with applicable City Codes. Submittal must include the design materials and colors that will be used on the sign face, how the sign will be displayed, and any lighting proposed.
- A detailed rendering/drawing of the proposed project must be included. The plans should include dimensions and architectural details and label materials. Plans prepared by a design professional (e.g. architect or draftsperson) are required. Applications without detailed drawings will not be considered complete. Only preliminary eligibility may be determined until professional drawings are submitted.
- Applicant will not be reimbursed for personal labor costs or labor costs of family members, nor can these costs be counted in the total project costs.
- Projects may not receive the maximum amount of each form of assistance more than once.
- Deviation from an approved project plan shall disqualify the project from the program.
- City funded projects may be required to meet sound proofing, lighting, security, or other standards – as determined by the City of Dubuque, in its sole discretion, following an internal neighborhood impact study – particularly when units are located in mixed-use neighborhoods.
- Applications will be reviewed quarterly by the Economic Development and Planning department with funda awarded to projects that meet the program criteria and are ready to commence within three months.

FAÇADE INFORMATION

This program provides funding in the Greater Downtown Urban Renewal District for front (or occasionally other major) façade renovation to restore the façade to its historic appearance or improve the overall appearance. This assistance is intended to address historically inappropriate exteriors. It is not intended to address normal building maintenance.

Specific Conditions:

- Reimbursement is for labor and material costs associated with façade improvements, including but not limited to, rehabilitating or improving windows, paint, signage, or awnings to significantly transform overall appearance.
- Landscaping or screening with fencing or retaining walls may be a reimbursable expense if a determination is made that property is improved adjacent to public right-of-way.
- In order to receive reimbursement for repointing, a mortar analysis sample may be requested for each façade that will be repointed. The applicant must adhere to the results of that analysis in their rehabilitation work as part of their approved project plan. The City may request verification that the new mortar matches the results of the mortar analysis.
- Language from the National Park Service Technical Preservation Services Briefs may be attached as a condition for a building permit if the applicant chooses to perform repointing on the project.
- Reimbursable expenditures must be documented.
- Funding will be disbursed upon completion of work at a 1:1 match of qualified costs.

Approval Process:

1. Design review by the City Planning Department and/or the Historical Preservation Commission is required for exterior work on the project.
2. Grant applications will be reviewed by City staff Review Committee and approved by the City Manager.
3. Funding will be disbursed upon staff review of documented expenditures and inspection of a completed project.

FINANCIAL CONSULTANT INFORMATION

This program provides funding in the Greater Downtown Urban Renewal District for hiring a financial consultant to analyze the feasibility of projects.

Specific Conditions:

- Reimbursement is for fees associated with hiring a professional financial consultant (i.e. accountant, attorney, tax credit consultant)
- Reimbursable expenditures must be documented.
- This financial consultant funding shall not exceed ten percent (10%) of total project costs.
- The rehabilitation project must be completed for the Financial Consultant costs to be reimbursed.
- Funding will be disbursed upon completion of work at a 1:1 match of qualified costs.

Approval Process:

1. Design review by the City Planning Department and/or the Historical Preservation Commission is required for exterior work on the project.
2. Grant applications will be reviewed by City staff Review Committee and approved by the City Manager.
3. Funding will be disbursed upon staff review of documented expenditures and inspection of a completed project.

PLANNING & DESIGN INFORMATION

This program provides funding in the Greater Downtown Urban Renewal District for hiring architects, engineers or other professional services used prior to construction.

Grant Specific Conditions:

- Reimbursement is for architectural and engineering fees, feasibility studies, environmental assessments or other related soft costs.
- Reimbursable expenditures must be documented.
- Owner / developer fees are not permitted as reimbursable expenditures.
- The planning and design funding shall not exceed ten percent (10%) of total project costs.
- Funding will be disbursed upon completion of the project at a 1:1 match of qualified costs.

Approval Process:

1. Design review by the City Planning Department and/or the Historical Preservation Commission is required for exterior work on the project.
2. Grant applications will be reviewed by City staff Review Committee and approved by the City Manager.
3. Funding will be disbursed upon staff review of documented expenditures and inspection of a completed project.

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the City Council of the City of Dubuque Iowa will conduct a public hearing on the 20th day of April, 2026, at 6:30 p.m., in the Historic Federal Building, 350 W. 6th Street, 2nd floor, Dubuque, Iowa, at which meeting the City Council proposes to take action to approve a Development Agreement between the City of Dubuque, Iowa and Iron Creek Group, LLC, a copy of which is now on file at the Office of the City Clerk, City Hall, 50 W 13th Street, Dubuque, Iowa, providing for the issuance of economic development grants (Urban Renewal Tax Increment Revenue Grant Obligations) described therein in order to carry out the purposes and objectives of the Urban Renewal Plan for the Greater Downtown Urban Renewal Area Economic Development District, including the funding of economic development grants for Iron Creek Group, LLC, under the terms and conditions of the Urban Renewal Plan for the Greater Downtown Urban Renewal Area Economic Development District. The aggregate amount of the Urban Renewal Tax Increment Revenue Grant Obligations cannot be determined at the present time but is not expected to exceed $78,777.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April, 2026.

Adrienne N. Breitfelder, CMC, City Clerk

Ian C. Hatch, Assistant Economic Development Director, 1300 Main Street, Dubuque, IA 52001, (563) 589-4105
Return to Adrienne N. Breitfelder, City Clerk, 50 W. 13th St., Dubuque, IA 52001, (563) 589-4100

RESOLUTION NO. ___-26

FIXING THE DATE FOR A PUBLIC HEARING OF THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA ON A DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE, IOWA AND IRON CREEK GROUP, LLC, INCLUDING THE PROPOSED ISSUANCE OF URBAN RENEWAL TAX INCREMENT REVENUE OBLIGATIONS RELATING THERETO, AND PROVIDING FOR THE PUBLICATION OF NOTICE THEROF

Whereas, Iron Creek Group, LLC is the owner of the property legally described as follows:

> The Southerly 32 feet of the Northerly 64 feet of Lot 477A, and The Northerly 32 feet of Lot 477A in the City of Dubuque, Iowa, according to the United States Commissioners' Map thereof

locally known as 1222-1240 Locust Street (the Property); and

Whereas, the City of Dubuque and Iron Creek Group, LLC have tentatively entered into a Development Agreement, subject to the approval of the City Council, including the issuance of Urban Renewal Tax Increment Revenue Obligations, a copy of which is now on file at the Office of the City Clerk, City Hall, 50 W 13th Street, Dubuque, Iowa for the development of the Property; and

Whereas, the City Council has tentatively determined that it would be in the best interests of the City to approve the Development Agreement with Iron Creek Group, LLC; and

Whereas, it is deemed necessary and advisable that City should authorize Urban Renewal Tax Increment Revenue Obligations, as provided by Iowa Code Chapter 403, pursuant to the Development Agreement; and

Whereas, before said Obligations may be approved, Iowa Code Chapter 403 requires that the City Clerk publish a notice of the proposal and of the time and place of the meeting at which the City Council proposes to take action thereon and at which meeting the City Council shall receive oral and/or written objections from any resident or property owner of said City to such proposed action.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA THAT:

Section 1. The City Clerk is hereby authorized and directed to cause a notice to be published as prescribed by Iowa Code Section 403.9 of a public hearing on the City's intent to approve the Development Agreement by and between City of Dubuque and Iron Creek Group, LLC, including the issuance of Urban Renewal Tax Increment Revenue Obligations, to be held on the 20th day of April, 2026 at 6:30 p.m. The official agenda will be posted the Friday before the meeting and will contain listening, viewing, and public input options. The City Council agenda may be accessed

at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Section 2. The City Council will meet at said time and place for the purpose of taking action on the matter of approving the Development Agreement and the issuance of Urban Renewal Tax Increment Revenue Obligations relating thereto with Iron Creek Group, LLC, the proceeds of which Obligations will be used to carry out certain of the special financing activities described in the Urban Renewal Plan for the Greater Downtown Urban Renewal District, consisting of the funding of economic developments grants to Iron Creek Group, LLC pursuant to the Development Agreement. It is expected that the aggregate amount of the Tax Increment Revenue Obligations to be issued will be approximately $78,777.

Section 3. The City Clerk is hereby directed to cause at least one publication to be made of a notice of said meeting, in a newspaper, printed wholly in the English language, published at least once weekly, and having general circulation in said City, said publication to be not less than four days nor more than twenty days before the date of said meeting on the issuance of said Obligations.

Section 4. That the notice of the proposed action to issue said Obligations shall be in substantially the form attached hereto.

Passed, approved, and adopted this 6th day of April, 2026.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Resolution Setting a Public Hearing on a Proposed Development Agreement by and between the City of Dubuque, Iowa and Miller Development, LLC Providing for the Issuance of Urban Renewal Tax Increment Revenue Grant Obligations Pursuant to the Development Agreement

DATE: April 1, 2026

Assistant Economic Development Director Ian Hatch is recommending City Council adopt the attached Resolution setting a public hearing for April 20, 2026, on a proposed Development Agreement by and between the City of Dubuque, Iowa and Miller Development, LLC providing for the issuance of Urban Renewal Tax Increment Revenue Grant Obligations.

Miller Development, LLC submitted an application for housing creation and the rehabilitation of the façade of 730 Main Street. The applicant is proposing an $850,000 project that will create four new residential rental units, rehabilitate the first-floor commercial space, and restore the building façade.

The key elements of the Development Agreement include the following:

1. Developer will make a capital investment of approximately $850,000 to rehabilitate the property.
2. Developer must create 4 residential rental units.
3. Developer will receive 15 years of tax increment financing incentives in the form of semi-annual rebates. Tax increment financing incentives are estimated to not exceed $110,620.
4. City to award a Downtown Housing Incentive Grant in an amount of $40,000 ($10,000 x 4 units)
5. City to award a Downtown Rehabilitation Grant not to exceed $35,000.
6. City of Dubuque will amend the Greater Downtown Urban Renewal District Plan to accommodate the issuance of tax increment financing incentives.

I concur with the recommendation and respectfully request Mayor and City Council approval.

SUBJECT: Resolution Setting a Public Hearing on a Proposed Development Agreement by and between the City of Dubuque, Iowa and Miller Development, LLC Providing for the Issuance of Urban Renewal Tax Increment Revenue Grant Obligations Pursuant to the Development Agreement

DATE: March 31, 2026

INTRODUCTION

This memorandum is a request for the City Council to adopt the attached Resolution setting a public hearing for April 20, 2026 on a proposed Development Agreement by and between the City of Dubuque, Iowa and Miller Development, LLC providing for the issuance of Urban Renewal Tax Increment Revenue Grant Obligations.

BACKGROUND

The property at 730 Main Street has been vacant since 2022 and largely used as a storage facility. Miller Development, LLC, operated by local developer, Chirs Miller, has previously rehabilitated several mixed-use properties throughout Dubuque, including 249 W 1st Street and 799 Main Street. Miller Development has extensive experience navigating state and federal tax credits, housing creation, and façade restoration.

DISCUSSION

Miller Development, LLC submitted an application for housing creation and the rehabilitation of the façade of 730 Main Street. The applicant is proposing an $850,000 project that will create four new residential rental units, rehabilitate the first-floor commercial space, and restore the building façade.

The key elements of the Development Agreement include the following:

1. Developer will make a capital investment of approximately $850,000 to rehabilitate the property.
2. Developer must create 4 residential rental units.
3. Developer will receive 15 years of tax increment financing incentives in the form of semi-annual rebates. Tax increment financing incentives are estimated to not exceed $110,620.
4. City to award a Downtown Housing Incentive Grant in an amount of $40,000 ($10,000 x 4 units)
5. City to award a Downtown Rehabilitation Grant not to exceed $35,000.
6. City of Dubuque will amend the Greater Downtown Urban Renewal District Plan to accommodate the issuance of tax increment financing incentives.

The Development Agreement requires Developer to accept applications from prospective tenants with housing choice vouchers (issued under the U.S. HUD's Section 8 voucher program or a similar program) that are otherwise qualified prospective tenants.

RECOMMENDATION/ ACTION STEP

I recommend the City Council adopt the attached Resolution setting an April 20, 2026 public hearing on the Development Agreement including the issuance of Urban Renewal Tax Increment Revenue Grant Obligations.

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the City Council of the City of Dubuque Iowa will conduct a public hearing on the 20th day of April, 2026, at 6:30 p.m., in the Historic Federal Building, 350 W. 6th Street, 2nd floor, Dubuque, Iowa, at which meeting the City Council proposes to take action to approve a Development Agreement between the City of Dubuque, Iowa and Miller Companies, LLC, a copy of which is now on file at the Office of the City Clerk, City Hall, 50 W 13th Street, Dubuque, Iowa, providing for the issuance of economic development grants (Urban Renewal Tax Increment Revenue Grant Obligations) described therein in order to carry out the purposes and objectives of the Urban Renewal Plan for the Greater Downtown Urban Renewal Area Economic Development District, including the funding of economic development grants for Miller Companies, LLC, under the terms and conditions of the Urban Renewal Plan for the Greater Downtown Urban Renewal Area Economic Development District. The aggregate amount of the Urban Renewal Tax Increment Revenue Grant Obligations cannot be determined at the present time but is not expected to exceed $110,620.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April, 2026.

Adrienne N. Breitfelder, CMC, City Clerk

DEVELOPMENT AGREEMENT
BY AND BETWEEN
THE CITY OF DUBUQUE, IOWA
AND
MILLER COMPANIES, LLC

This Development Agreement (Agreement) dated for reference purposes the _____ day of _____, 2026 is made and entered into by and between the City of Dubuque, Iowa (City), and Miller Companies, LLC (Developer).

WHEREAS, Developer is the owner of the real estate locally known as 730 Main Street, Dubuque, Iowa and legally described as follows (the Property):

> The Southerly 37 ½ feet of Lot 26, in the City of Dubuque, Iowa, according to the United States Commissioners' Map of the Survey of the Town of Dubuque, Iowa

; and

WHEREAS, the Property is located in the Greater Downtown Urban Renewal District (the District) which has been so designated by City Council Resolution 123-67, on May 18, 1967 as a slum and blighted area (the Project Area) defined by Iowa Code Chapter 403 (the Urban Renewal Law); and

WHEREAS, Developer will undertake the redevelopment of a building (the Building) located on the Property (the Project) and will be operating the same during the term of this Agreement; and

WHEREAS, it is in the City's best interest to preserve the Building; and

WHEREAS, pursuant to Iowa Code Section 403.6(1), and in conformance with the Urban Renewal Plan for the Project Area adopted on May 18, 1967, and last amended on February 16, 2026, City has the authority to enter into contracts and agreements to implement the Urban Renewal Plan, as amended; and

WHEREAS, the Dubuque City Council believes it is in the best interests of the City to encourage Developer in the development of the Property by providing certain incentives as set forth herein.

NOW, THEREFORE, the parties to this Development Agreement, in consideration of the promises, covenants and agreements made by each other, do hereby agree as follows:

SECTION 1. REPRESENTATIONS AND WARRANTIES

1.1 Representations and Warranties of City. In order to induce Developer to enter into this Agreement, City hereby represents and warrants to Developer that to the best of City's knowledge:

(1) City has duly obtained all necessary approvals and consents for its execution, delivery and performance of this Agreement and that it has full power and authority to execute, deliver and perform its obligations under this Agreement. City's attorney shall issue a legal opinion to Developer at the time of closing confirming the representations contained herein, in the form attached hereto as Exhibit A.

(2) City shall exercise its best efforts to cooperate with Developer in the development process.

(3) City shall exercise its best efforts to resolve any disputes arising during the development process in a reasonable and prompt fashion.

(4) The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and the fulfillment of or compliance with the terms and conditions of this Agreement are not prevented by, limited by, in conflict with, or result in a violation or breach of, the terms, conditions or provisions of the charter of City, any evidence of indebtedness, agreement or instrument of whatever nature to which City is now a party or by which it or its property is bound, or constitute a default under any of the foregoing.

(5) There are no actions, suits or proceedings pending or threatened against or affecting City in any court or before any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the financial position or operations of City, or which affects the validity of the Agreement or City's ability to perform its obligations under this Agreement.

(6) No ordinance or hearing is now before any local governmental body that either contemplates or authorizes any public improvements or special tax levies, the cost of which may be assessed against the Property. To the best of City's knowledge, there are no plans or efforts by any government agency to widen, modify, or re-align any street or highway providing access to the Property and there are no pending or intended public improvements or special assessments affecting the Property which will result in any charge or lien be levied or assessed against the Property.

(7) The representations and warranties contained in this section shall be correct in all respects on and as of the Closing Date with the same force and effect as if such representations and warranties had been made on and as of the Closing Date.

(8) As of the date of this Agreement there has been prepared and approved by City an Urban Renewal Plan for the Project Area consisting of the Urban Renewal Plan for the Greater Downtown Urban Renewal Plan, most recently approved by City Council of City on April 21, 2025, and as subsequently amended through and including the date hereof, attached as Exhibit E (the Urban Renewal Plan). A copy of the Urban Renewal Plan, as constituted on the date of this Agreement and in the form attached hereto, has been recorded among the land records in the office of the Recorder of Dubuque County, Iowa.

1.2 Representations and Warranties of Developer. The Developer makes the following representations and warranties:

(1) Developer is a limited liability corporation duly organized and validly existing under the laws of the State of Iowa and has all requisite power and authority to own and operate its properties, to carry on its business as now conducted and as presently proposed to be conducted, and to enter into and perform its obligations under this Agreement.

(2) This Agreement has been duly authorized, executed and delivered by Developer and, assuming due authorization, execution and delivery by City, is in full force and effect and is a valid and legally binding instrument of Developer enforceable in accordance with its terms, except as the same may be limited by bankruptcy, insolvency, reorganization or other laws relating to or affecting creditors' rights generally. Developer's counsel shall issue a legal opinion to City, at the time of closing, confirming the representations contained herein, in the form attached hereto as Exhibit B.

(3) The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and the fulfillment of or compliance with the terms and conditions of this Agreement are not prevented by, limited by, in conflict with, or result in a violation or breach of, the terms, conditions or provisions of the articles of incorporation or the bylaws of Developer or any contractual restriction, evidence of indebtedness, agreement or instrument of whatever nature to which Developer is now a party or by which it or its property is bound, or constitute a default under any of the foregoing.

(4) There are no actions, suits or proceedings pending or threatened against or affecting Developer in any court or before any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the business, financial position or result of operations of Developer or which affects the validity of the Agreement or Developer's ability to perform its obligations under this Agreement.

(5) Developer will perform its obligations under this Agreement in accordance with the material terms of this Agreement, the Urban Renewal Plan and all local, state and federal laws and regulations.

(6) Developer will use its best efforts to obtain, or cause to be obtained, in a timely manner, all material requirements of all applicable local, state, and federal laws and regulations which must be obtained or met.

(7) Developer has firm commitments for permanent financing for the Project in an amount sufficient, together with equity commitments, to successfully complete the requirements of this Agreement and shall provide evidence thereof to City prior to the Public Hearing.

1.3 Closing. The closing shall take place on the Closing Date which shall be the 5th day of May, 2026, or other such date as the parties shall agree in writing but in no event shall the Closing date be later than the 28th day of May 2026. Consummation of the closing shall be deemed an agreement of the parties to this Agreement that the conditions of closing shall have been satisfied or waived.

1.4 Conditions to Closing. The closing of the transaction contemplated by this Agreement and all the obligations of Developer under this Agreement are subject to fulfillment, on or before the Closing Date, of the following conditions:

(1) The representations and warranties made by City in Section 1.1 shall be correct as of the Closing Date with the same force and effect as if such representations were made at such time. At the closing, City shall deliver a certificate to that effect in the form of Exhibit C.

(2) Developer shall have the right to terminate this Agreement at any time prior to the consummation of the closing on the Closing Date if Developer determines in its sole discretion that conditions necessary for the successful completion of the Project contemplated herein have not been satisfied in Developer’s sole discretion. Upon the giving notice of termination by Developer to City, this Agreement shall be deemed null and void.

(3) Developer and City shall be in material compliance with all the terms and provisions of this Agreement.

(4) Developer shall have furnished City with evidence, prior to the Public Hearing, in a form satisfactory to City (such as a letter of commitment from a bank or other lending institution), that Developer has firm financial commitments in an amount sufficient, together with equity commitments, to complete the Minimum Improvements (as defined herein) in conformance with the Construction Plans (as defined herein), or City shall have received such other evidence of Developer's financial ability as City in its reasonable judgment City requires.

(5) Developer's counsel shall issue a legal opinion to City confirming the representations contained herein in the form attached hereto as Exhibit B.

1.5 City's Obligations at Closing. At or prior to the Closing Date, City shall deliver to Developer such other documents as may be required by this Agreement, all in a form satisfactory to Developer.

SECTION 2. DEVELOPMENT ACTIVITIES

2.1 Required Minimum Improvements. Developer will make a capital investment of approximately Eight Hundred Fifty Thousand Dollars ($850,000) to improve the Building (the Minimum Improvements). The Minimum Improvements include creating four (4) new residential units and rehabilitating the façade including doors and windows.

2.2 Plans for Construction of Minimum Improvements. Plans and specifications with respect to the development of the Property and the construction of the Minimum Improvements thereon (the Construction Plans) shall be in conformity with Urban Renewal Plan, this Agreement, and all applicable state and local laws and regulations, including but not limited to any covenants, conditions, restrictions, reservations, easements, liens and charges, recorded in the records of Dubuque County, Iowa. Developer shall submit to City, for approval by City, plans, drawings, specifications, and related documents with respect to the improvements to be constructed by Developer on the Property. All work with respect to the Minimum Improvements shall be in substantial conformity with the Construction Plans approved by City.

2.3 Timing of Improvements. Developer hereby agrees that construction of the Minimum Improvements on the Property shall begin by June 1, 2026, and shall be substantially completed by December 31, 2026. The time for the performance of these obligations shall be suspended due to unavoidable delays meaning delays, outside the control of the party

claiming its occurrence in good faith, which are the direct result of strikes, other labor troubles, unusual shortages of materials or labor, unusually severe or prolonged bad weather, acts of God, fire or other casualty to the Minimum Improvements, litigation commenced by third parties which, by injunction or other similar judicial action or by the exercise of reasonable discretion directly results in delays, or acts of any federal, state or local government which directly result in extraordinary delays. The time for performance of such obligations shall be extended only for the period of such delay.

2.4 Certificate of Completion. Promptly following the request of Developer upon completion of the Minimum Improvements, City shall furnish Developer with an appropriate instrument so certifying. Such certification (the Certificate of Completion) shall be in the form attached as Exhibit G and shall be a conclusive determination of the satisfaction of Developer's obligations to make the Minimum Improvements under this Agreement and completion of the Minimum Improvements by Developer as required by this Agreement.

2.5 Security Cameras. Developer shall install security cameras on the exterior of all buildings on the Property and register said cameras with the "Secure Dubuque Personal Surveillance System" described at https://cityofdubuque.org/2980/Secure-Dubuque.

SECTION 3. CITY PARTICIPATION

3.1 Economic Development Grants to Developer. For and in consideration of Developer's obligations hereunder, and in furtherance of the goals and objectives of the urban renewal plan for the Project Area and the Urban Renewal Law, City agrees, subject to Developer being and remaining in compliance with the terms of this Agreement, to make thirty (30) consecutive semi-annual payments (such payments being referred to collectively as the Economic Development Grants) to Developer:

November 1, 2028	May 1, 2029
November 1, 2029	May 1, 2030
November 1, 2030	May 1, 2031
November 1, 2031	May 1, 2032
November 1, 2032	May 1, 2033
November 1, 2033	May 1, 2034
November 1, 2034	May 1, 2035
November 1, 2035	May 1, 2036
November 1, 2036	May 1, 2037
November 1, 2037	May 1, 2038
November 1, 2038	May 1, 2039
November 1, 2039	May 1, 2040

November 1, 2040	May 1, 2041
November 1, 2041	May 1, 2042
November 1, 2042	May 1, 2043

pursuant to Iowa Code Section 403.9 of the Urban Renewal Law, in amounts equal to a portion of the tax increment revenues collected by City under Iowa Code Section 403.19 (without regard to any averaging that may otherwise be utilized under Iowa Code Section 403.19 and excluding any interest that may accrue thereon prior to payment to Developer) during the preceding six-month period in respect of the Minimum Improvements constructed by Developer (the Developer Tax Increments). For purposes of calculating the amount of the Economic Development Grants provided in this Section, the Developer Tax Increments shall be only those tax increment revenues collected by City in respect of the increase in the taxable value of the Property above the assessed value on January 1, 2026 of One Hundred Eighteen Thousand Six Hundred Dollars ($118,600) (the Baseline Valuation). The Developer Tax Increments shall not include (i) any property taxes collected for the payment of bonds and interest of each taxing district, (ii) any taxes for the regular and voter-approved physical plant and equipment levy, (iii) the remaining actual amount of tax increment revenues collected by City in respect of the valuations of the Property prior to January 1, 2026 and (iv) any other portion required to be excluded by Iowa law, and thus such incremental taxes will not include all amounts paid by Developer as regular property taxes.

3.2 To fund the Economic Development Grants, City shall certify to the County prior to December 1, 2027 its request for the available Developer Tax Increments resulting from the assessments imposed by the County as of January 1 of that year and each year thereafter until and including January 1, 2045, to be collected by City as taxes are paid during the following fiscal year and which shall thereafter be disbursed to the Developer on November 1 and May 1 of that fiscal year. (Example: if City certifies in December, 2027, the Economic Development Grants in respect thereof would be paid to the Developer on November 1, 2028, and May 1, 2029.)

3.3 The Economic Development Grants shall be payable from and secured solely and only by the Developer Tax Increments paid to City that, upon receipt, shall be deposited and held in a special account created for such purpose and designated as the Miller Companies TIF Account of City. City hereby covenants and agrees to maintain its TIF ordinance in force during the term hereof and to apply the incremental taxes collected in respect of the Minimum Improvements and allocated to the Miller Companies TIF Account to pay the Economic Development Grants, as and to the extent set forth in Section 3.1 hereof. The Economic Development Grants shall not be payable in any manner by other tax increments revenues, or by general taxation or from any other City funds. City makes no representation with respect to the amounts that may be paid to Developer as the

Economic Development Grants in any one year and under no circumstances shall City in any manner be liable to Developer so long as City timely applies the Developer Tax Increments actually collected and held in the Miller Companies TIF Account (regardless of the amounts thereof) to the payment of the Economic Development Grants to Developer as and to the extent described in this Section.

3.4 City shall be free to use any and all tax increment revenues collected in respect of other properties within the Project Area and the remaining actual amount of the property taxes paid by Developer to City, or any available Developer Tax Increments resulting from the termination of the annual Economic Development Grants under Section 3.1 hereof, for any purpose for which such tax increment revenues may lawfully be used pursuant to the provisions of the Urban Renewal Law, and City shall have no obligations to Developer with respect to the use thereof.

3.5 Downtown Housing Incentive.

(1) City agrees to provide to Developer on the terms and conditions set forth in the Downtown Housing Incentive Program attached hereto as Exhibit F, a grant in an amount not to exceed Forty Thousand Dollars ($40,000.00) (the Grant).

(2) Grant funds will not be disbursed to Developer until City has issued a Certificate of Completion for the Project. The Grant shall be paid in Ten Thousand Dollar ($10,000.00) payments for each apartment that receives a Certificate of Completion up to a maximum of four apartments. Prior to the disbursement of any funds, Developer shall provide evidence satisfactory to City that the Minimum Improvements have been completed in accordance with the Plans and other documentation submitted to City with the Downtown Housing Assistance application.

3.6. Downtown Rehabilitation Grant. City agrees to provide a matching (1:1) grant not to exceed Thirty-Five Thousand Dollars ($35,000) to reimburse Developer for documents costs related to the following eligible activities:

(1) Planning & Design predevelopment costs, architectural and engineering fees and other authorized soft costs associated with the rehabilitation of the Development Property on the terms and conditions set forth by the State Historic Preservation Office, as set forth in Exhibit I.

(2) Façade documented costs that improve the overall appearance of the Development Property, provided the Project meets the criteria of the Façade Grant Program and on the terms and conditions set forth by the State Historic Preservation Office, as set forth in Exhibit I.

(3) Financial Consultant documented costs related to hiring a financial consultant to evaluate the Project's feasibility on the terms and conditions set forth in Exhibit I.

3.7. Payment of the Grant. The Grant shall be payable as follows:

(1) Any and all portions of the Grant shall be funded solely and only from available Program funds;

(2) Prior to the release of any grant funds, (i) Grant Recipient shall have submitted documentation of its eligible expenses under the corresponding grant program, and (ii) City shall have issued a Certificate of Completion; and

(3) The Grant funds shall be disbursed directly to Grant Recipient.

SECTION 4. NON- APPROPRIATION / LIMITED SOURCE OF FUNDING.

4.1 Non-Appropriation.

(1) Notwithstanding anything in this Agreement to the contrary, the obligation of City to pay any installment of the Economic Development Grants from the pledged tax increment revenues shall be an obligation limited to currently budgeted funds, and not a general obligation or other indebtedness of City or a pledge of its full faith and credit within the meaning of any constitutional or statutory debt limitation, and shall be subject in all respects to the right of non-appropriation by the City Council of City as provided in this Section. City may exercise its right of non-appropriation as to the amount of the installments to be paid during any fiscal year during the term of this Agreement without causing a termination of this Agreement. The right of non-appropriation shall be exercised only by resolution affirmatively declaring City's election to non-appropriate funds otherwise required to be paid in the next fiscal year under this Agreement.

(2) In the event the City Council of City elects to not appropriate sufficient funds in the budget for any future fiscal year for the payment in full of the installments on the Economic Development Grants due and payable in that future fiscal year, then City shall have no further obligation to Employer or Developers for the payment of any installments due in that future fiscal year which cannot be paid with the funds then appropriated for that purpose.

(3) Developer acknowledges and agrees that the State of Iowa retains the authority to amend, modify, or repeal laws governing property tax, tax increment financing (TIF), and any related rebate mechanisms. City makes no representations or warranties regarding the continuation of current state law or the availability of rebates in their present form. In the event that any legislative or regulatory action by the State of Iowa alters or limits the availability, calculation, distribution, or administration of rebates, City shall have no obligation to compensate Developer for any resulting reduction, loss, or elimination of rebates. Developer assumes all risk associated with potential changes to applicable state law.

4.2 The right of non-appropriation reserved to City in this Section is intended by the parties, and shall be construed at all times, so as to ensure that City's obligation to pay future installments on the Economic Development Grants shall not constitute a legal indebtedness of City within the meaning of any applicable constitutional or statutory debt limitation prior to the adoption of a budget which appropriates funds for the payment of that installment or amount. In the event that any of the provisions of this Agreement are determined by a court of competent jurisdiction to create, or result in the creation of, such a legal indebtedness of City, the enforcement of the said provision shall be suspended, and the Agreement shall at all times be construed and applied in such a manner as will preserve the foregoing intent of the parties, and no event of default shall be deemed to have occurred as a result thereof. If any provision of this Agreement or the application thereof to any circumstance is so suspended, the suspension shall not affect other provisions of this Agreement which can be given effect without the suspended provision, and to this end the provisions of this Agreement are severable.

SECTION 5. COVENANTS OF DEVELOPER

5.1 The Minimum Improvements shall conform to the U.S. Secretary of the Interior's Standards for Rehabilitation.

5.2. Operation of Property.

(1) Housing Vouchers. For and in consideration of the Grant offered under this Agreement, during the operation of the Development Property as a rental residential property, as allowable by the Department of Housing and Urban Development, Developer shall accept, or cause to be accepted, applications from prospective tenants with housing vouchers issued under the U.S. HUD's Section 8 voucher program or a similar program who are otherwise qualified prospective tenants. Developer shall not deny any tenant a lease based on a public assistance source of income. A public assistance source of income means income and support derived from any tax supported federal, state or local funds, including, but not limited to,

social security, supplemental security income, temporary assistance for needy families, family investment program, general relief, food stamps, and unemployment compensation, housing choice voucher subsidies and similar rent subsidy programs. This Section 5.2 shall survive the termination of this Agreement. If Developer or Developer's successors or assigns violates the requirements of this Section 5.2 as determined by the City Manager in the City Manager's sole discretion after the termination of this Agreement, Developer or Developer's successors or assigns shall not be eligible for any City financial assistance programs.

(2) Short-Term Rental. For and in consideration of the Grant offered under this Agreement, during the operation of the Development Property as residential rental property and during the term of this Agreement, no residential rental unit shall be leased to any tenant for an initial term of fewer than thirty (30) days, and no portion of the Development Property may be used for short-term rental purposes. Developer agrees to include similar prohibitions regarding short-terms rentals in each lease agreement for each residential rental unit of the Development Property during the term of this Agreement. Developer further agrees to include such prohibitions in each and every lease agreement for any residential rental unit of the Development Property for so long as any single residential rental unit of the Development Property remains subject to the terms and conditions of this Agreement.

5.3 Books and Records. During the term of this Agreement, Developer shall keep at all times and make available to City upon reasonable request proper books of record and account in which full, true and correct entries will be made of all dealings and transactions of or in relation to the business and affairs of Developer in accordance with generally accepted accounting principles consistently applied throughout the period involved, and Developer shall provide reasonable protection against loss or damage to such books of record and account.

5.4 Real Property Taxes. Developer shall pay or cause to be paid, when due, all real property taxes and assessments payable with respect to all and any parts of the Property unless Developer's obligations have been assumed by another person pursuant to the provisions of this Agreement.

5.5 No Other Exemptions. During the term of this Agreement, Developer agrees not to apply for any state or local property tax exemptions which are available with respect to the Property or the Minimum Improvements located thereon that may now be, or hereafter become, available under state law or city ordinance during the term of this Agreement, including those that arise under Iowa Code Chapters 404 and 427, as amended.

5.6 Insurance Requirements.

(1) Upon completion of construction of the Minimum Improvements and up to the Termination Date, Developer shall maintain, or cause to be maintained, at its cost and expense property insurance against loss and/or damage to the Building (including the Minimum Improvements) under an insurance policy written with the "special perils" form and in an amount not less than the full insurable replacement cost of the Building (including the Minimum Improvements), listing City as lender loss payable. Developer shall furnish to City proof of insurance in the form of a certificate of insurance

(2) The term "replacement cost" shall mean the actual replacement cost of the building with Minimum Improvements (excluding foundation and excavation costs and costs of underground flues, pipes, drains and other uninsurable items) and equipment, and shall be reasonably determined from time to time at the request of City, but not more frequently than once every three (3) years.

(3) Developer shall notify City immediately in the case of damage exceeding Fifty Thousand Dollars ($50,000) in amount to, or destruction of, the Minimum Improvements or any portion thereof resulting from fire or other casualty. Net proceeds of any such insurance (Net Proceeds), shall be paid directly to Developer as its interests may appear, and Developer shall forthwith repair, reconstruct and restore the Minimum Improvements to substantially the same or an improved condition or value as they existed prior to the event causing such damage and, to the extent necessary to accomplish such repair, reconstruction and restoration, Developer shall apply the Net Proceeds of any insurance relating to such damage received by Developer to the payment or reimbursement of the costs thereof, subject, however, to the terms of any mortgage encumbering title to the Property (as its interests may appear). Developer shall complete the repair, reconstruction and restoration of Minimum Improvements whether or not the Net Proceeds of insurance received by Developer for such purposes are sufficient.

5.7 Preservation of Property. During the term of this Agreement, Developer shall maintain, preserve and keep, or cause others to maintain, preserve and keep, the Minimum Improvements in good repair and working order, ordinary wear and tear accepted, and from time to time shall make all necessary repairs, replacements, renewals and additions.

5.8 Non-Discrimination. In carrying out the project, Developers shall not discriminate against any employee or applicant for employment because of age, color, familial status, gender identity, marital status, mental/physical disability, national origin, race, religion/creed, sex, or sexual orientation.

5.9 Conflict of Interest. Developer agrees that no member, officer or employee of City, or its designees or agents, nor any consultant or member of the governing body of City, and no other public official of City who exercises or has exercised any functions or responsibilities with respect to the project during his or her tenure, or who is in a position to participate in a decision-making process or gain insider information with regard to the project, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed in connection with the project, or in any activity, or benefit therefrom, which is part of this project at any time during or after such person's tenure. In connection with this obligation, Developer shall have the right to rely upon the representations of any party with whom it does business and shall not be obligated to perform any further examination into such party's background.

5.10 Non-Transferability. Until such time as the Minimum Improvements are complete (as certified by City under Section 2.4), this Agreement may not be assigned by Developer nor may the Property be transferred by Developer to another party. Thereafter, with the prior written consent of City, which shall not be unreasonably withheld, Developer shall have the right to assign this Agreement, and upon assumption of the Agreement by the assignee, Developer shall no longer be responsible for its obligations under this Agreement.

5.11 No change in Tax Classification. Developer agrees that it will not take any action to change, or otherwise allow, the classification of the Property for property tax purposes to become other than commercial property and to be taxed as such under Iowa law. This restriction shall terminate upon the termination of this Agreement. However, Developer may apply for a reclassification of the Property in the event Iowa law is modified to allow a building containing four apartments within one building to be classified as residential for property tax purposes.

5.12 Restrictions on Use. Developer agrees for itself, and its successors and assigns, and every successor in interest to the Property or any part thereof, for the duration of this Agreement, that they, and their respective successors and assigns, shall:

(1) Devote the Property to, and only to and in accordance with, the uses specified in the Urban Renewal Plan (and City represents and agrees that use of the Property as a restaurant and upper-story housing, is in full compliance with the Urban Renewal Plan) (however, Developer shall not have any liability to City to the extent that a successor in interest shall breach this covenant and City shall seek enforcement of this covenant directly against the party in breach of same); and

(2) Not discriminate upon the basis of race, religion, color, sex, sexual orientation, gender identity, national origin, age or disability in the sale, lease, rental, use or occupancy of the Property or any improvements erected or to be erected

thereon, or any part thereof (however, Developer shall not have any liability to City to the extent that a successor in interest shall breach this covenant and City shall seek enforcement of this covenant directly against the party in breach of same).

5.13 Compliance with Laws. Developer shall comply with all laws, rules and regulations relating to its businesses, other than laws, rules and regulations the failure to comply with or the sanctions and penalties resulting therefrom, would not have a material adverse effect on the business, property, operations, financial or otherwise, of Developer.

SECTION 6. EVENTS OF DEFAULT AND REMEDIES

6.1 Events of Default Defined. The following shall be Events of Default under this Agreement and the term Event of Default shall mean, whenever it is used in this Agreement, any one or more of the following events:

(1) Failure by Developer to pay or cause to be paid, before delinquency, all real property taxes assessed with respect to the Minimum Improvements and the Property.

(2) Failure by Developer to cause the construction of the Minimum Improvements to be commenced and completed pursuant to the terms, conditions and limitations of this Agreement.

(3) Transfer of any interest by Developer of the Minimum Improvements in violation of the provisions of this Agreement prior to the issuance of the final Certificate of Completion.

(4) Failure by Developer or City to substantially observe or perform any other material covenant, condition, obligation or agreement on its part to be observed or performed under this Agreement.

6.2. Remedies on Default by Developer. Whenever any Event of Default referred to in Section 5.1 of this Agreement occurs and is continuing, City, as specified below, may take any one or more of the following actions after the giving of written notice by City to Developer (and the holder of any mortgage encumbering any interest in the Property of which City has been notified of in writing) of the Event of Default, but only if the Event of Default has not been cured within sixty (60) days following such notice, or if the Event of Default cannot be cured within sixty (60) days and Developer does not provide assurances to City that the Event of Default will be cured as soon as reasonably possible thereafter:

(1) City may suspend its performance under this Agreement until it receives assurances from the Developer deemed adequate by City, that the Developer will cure its default and continue its performance under this Agreement;

(2) Until the Closing Date, City may cancel and rescind this Agreement;

(3) Until issuance of the Certificate of Completion, City shall be entitled to recover from Developer the sum of all amounts expended by City in connection with the funding of the Downtown Rehab Loan/Grant and Economic Development Grant to Developer and City may take any action, including any legal action it deems necessary, to recover such amounts from the Developer;

(4) City may withhold the Certificate of Completion; or

(5) City may take any action, including legal, equitable or administrative action, which may appear necessary or desirable to collect any payments due under this Agreement or to enforce performance and observance of any obligation, agreement, or covenant under this Agreement.

6.3 No Remedy Exclusive. No remedy herein conferred upon or reserved to City is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law or in equity or by statute. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient.

6.4 No Implied Waiver. In the event any agreement contained in this Agreement should be breached by any party and thereafter waived by any other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other concurrent, previous or subsequent breach hereunder.

6.5 Agreement to Pay Attorneys' Fees and Expenses. If any action at law or in equity, including an action for declaratory relief or arbitration, is brought to enforce or interpret the provisions of this Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs of litigation from the other party. Such fees and costs of litigation may be set by the court in the trial of such action or by the arbitrator, as the case may be, or may be enforced in a separate action brought for that purpose. Such fees and costs of litigation shall be in addition to any other relief that may be awarded.

6.6 Remedies on Default by City. If City defaults in the performance of this Agreement, Developer may take any action, including legal, equitable or administrative action that may appear necessary or desirable to collect any payments due under this Agreement, to recover expenses of Developer, or to enforce performance and observance of any obligation, agreement, or covenant of City under this Agreement. Developer may suspend their performance under this Agreement until they receive assurances from City, deemed adequate by Developer, that City will cure its default and continue its performance under this Agreement.

SECTION 7. GENERAL TERMS AND PROVISIONS

7.1 Notices and Demands. Whenever this Agreement requires or permits any notice or written request by one party to another, it shall be deemed to have been properly given if and when delivered in person or three (3) business days after having been deposited in any U.S. Postal Service and sent by registered or certified mail, postage prepaid, addressed as follows:

If to Developer: Chris Miller
Miller Companies, LLC
1204 Timber Hyrst Court
Dubuque, Iowa 52003

With copy to: Drake Law Firm, P.C.
Attn: Flint Drake
300 Main Street, Suite 323
Dubuque, IA 52001

If to City: City Manager
50 W. 13th Street
Dubuque, Iowa 52001
Phone: (563) 589-4110
Fax: (563) 589-4149

With copy to: City Attorney
City Hall
50 W. 13th Street
Dubuque IA 52001

or at such other address with respect to either party as that party may, from time to time designate in writing and forward to the other as provided in this Section.

7.2 Binding Effect. This Agreement shall be binding upon and shall inure to the benefit of City and Developer and their respective successors and assigns.

7.3 Force Majeure. A party shall be excused from its obligations under this Agreement if and to the extent and during such time as the party is prevented, impeded, or hindered, unable to perform its obligations or is delayed in doing so due to events or conditions outside of the party's reasonable control and after the party has taken reasonable steps to avoid or mitigate such event or its consequences (each a "Force Majeure Event") including, without limitation in any way, as the result of any acts of God, war, fire, or other casualty, riot, civil unrest, extreme weather conditions, terrorism, strikes and/or labor disputes, pandemic, epidemic, quarantines, government stay-at-home orders, municipal and other government orders, failure of Internet, or other matter beyond the control of such party. Upon the occurrence of a Force Majeure Event, the party incurring such Force Majeure Event will promptly give notice to the other party identifying the Force Majeure Event, explaining how it impacts performance and the estimated duration, identifying the relief requested, agreeing to limit damages to the other party and to immediately resume performance upon termination of the Force Majeure Event, and agreeing to supplement the notice as more information becomes available, and thereafter the parties shall meet and confer in good faith in order to identify a cure of the condition affecting its performance as expeditiously as possible. No obligation to make a payment required by this Agreement is excused by a Force Majeure Event. The nonperforming party shall not be entitled to any damages or additional payments of any kind for any such delay.

7.4 Termination Date. This Agreement and the rights and obligations of the parties hereunder shall terminate on December 31, 2043 (the Termination Date).

7.5 Execution by Facsimile. The parties agree that this Agreement may be transmitted between them by facsimile machine. The parties intend that the faxed signatures constitute original signatures and that a faxed Agreement containing the signatures (original or faxed) of all the parties is binding on the parties.

7.6 Memorandum of Development Agreement. Developer shall promptly record a Memorandum of Development Agreement in the form attached hereto as Exhibit D in the office of the Recorder of Dubuque County, Iowa. Developer shall pay the costs for so recording.

7.7 Legal Compliance. Developer is responsible for compliance with all applicable laws, statutes, rules, regulations, and ordinances which may apply to the performance of Developer's obligations under this Agreement, including but not limited to the laws outlined in Exhibit H, and hereby represents and warrants that Developer is in compliance with the same as of the Closing Date and further represents that during the Term Developer will

remain in compliance. Developer shall require all contractors and subcontractors providing services under this Agreement shall also certify compliance with this Section.

Developer further represents and warrants that Developer has obtained all necessary business permits and licenses that may be required to carry out the obligations pursuant to this Agreement, including any permits and licenses that might be required by the state or locality in which Developer performs the Services, and Developer agrees to maintain, at Developer's sole expense, such required permits and licenses for the duration of the term(s) of this Agreement.

IN WITNESS WHEREOF, City has caused this Agreement to be duly executed in its name and behalf by its Mayor and attested to by its City Clerk and Developer has caused this Agreement to be duly executed on or as of the first above written.

OPINION OF DEVELOPER'S COUNSEL

Mayor and City Councilmembers
City Hall
13th and Central Avenue
Dubuque IA 52001

Re: Development Agreement Between the City of Dubuque, Iowa and

Dear Mayor and City Councilmembers:

We have acted as counsel for Miller Companies, LLC, in connection with the execution and delivery of a certain Development Agreement (Development Agreement) between Developer and the City of Dubuque, Iowa (City) dated for reference purposes the ___ day of _____, 20__.

We have examined the original certified copy, or copies otherwise identified to our satisfaction as being true copies, of the Development Agreement and such other documents and records as we have deemed relevant and necessary as a basis for the opinions set forth herein.

Based on the pertinent law, the foregoing examination and such other inquiries as we have deemed appropriate, we are of the opinion that:

1. Developer is a limited liability company organized and existing under the laws of the State of Iowa and has full power and authority to execute, deliver and perform in full the Development Agreement. The Development Agreement has been duly and validly authorized, executed and delivered by Developer and, assuming due authorization, execution and delivery by City, is in full force and effect and is a valid and legally binding instrument of Developer enforceable in accordance with its terms, except as the same may be limited by bankruptcy, insolvency, reorganization or other laws relating to or affecting creditors' rights generally.

2. To our actual knowledge with no duty to inquire, the execution, delivery and performance by Developer of the Development Agreement and the carrying out of the terms thereof, will not result in violation of any provision of, or in default under, the articles of incorporation and bylaws of Developer, any indenture, mortgage, deed of trust, indebtedness, agreement, judgment, decree, order, statute, rule, regulation or restriction to which Developer is a party or by which Developer's property is bound or subject.

3. To our actual knowledge with no duty to inquire, there are no actions, suits or proceedings pending or threatened against or affecting Developer in any court or before

any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the business (present or prospective), financial position or results of operations of Developer or which in any manner raises any questions affecting the validity of the Agreement or the Developer's ability to perform Developer's obligations thereunder.

This opinion is rendered for the sole benefit of the City of Dubuque and no other party may rely on this opinion.

This opinion is rendered and valid as of the date of this letter and we have no duty to update this opinion for any matters which come to our knowledge after the date of this letter.

Sincerely,

EXHIBIT C

(DATE)

Dear _____:

I am the City Manager of the City of Dubuque, Iowa and have acted in that capacity in connection with the execution and delivery of a certain Development Agreement between Miller Companies, LLC (Developer) and the City of Dubuque, Iowa (City) dated for reference purposes the ___ day of _____, 20__.

On behalf of the City of Dubuque, I hereby represent and warrant to Developer that:

(1) City has duly obtained all necessary approvals and consents for its execution, delivery and performance of this Agreement and that it has full power and authority to execute, deliver and perform its obligations under this Agreement. City's attorney shall issue a legal opinion to Developer at time of closing confirming the representation contained herein, in the form attached hereto as Exhibit B.

(2) City shall exercise its best efforts to cooperate with Developer in the development process.

(3) City shall exercise its best efforts to resolve any disputes arising during the development process in a reasonable and prompt fashion.

(4) The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and the fulfillment of or compliance with the terms and conditions of this Agreement are not prevented by, limited by, in conflict with, or result in a violation or breach of, the terms, conditions or provisions of the charter of City, any evidence of indebtedness, agreement or instrument of whatever nature to which City is now a party or by which it or its property is bound, or constitute a default under any of the foregoing.

(5) There are no actions, suits or proceedings pending or threatened against or affecting City in any court or before any arbitrator or before or by any governmental body in which there is a reasonable possibility of an adverse decision which could materially adversely affect the financial position or operations of City or which affects the validity of the Agreement or City's ability to perform its obligations under this Agreement.

(6) No ordinance or hearing is now or before any local governmental body that either contemplates or authorizes any public improvements or special tax levies, the cost of which may be assessed against the Property. To the best of City's knowledge, there are no plans or efforts by any government agency to widen, modify, or re-align any street or highway providing access to the Property and there are no pending or intended public improvements or special assessments affecting the Property which will result in any charge or lien be levied or assessed against the Property.

(7) The representations and warranties contained in this article shall be correct in all respects on and as of the Closing Date with the same force and effect as if such representations and warranties had been made on and as of the Closing Date.

Sincerely,

Michael C. Van Milligen
City Manager

MEMORANDUM OF DEVELOPMENT AGREEMENT

Prepared by: Barry A. Lindahl 300 Main Street Suite 330 Dubuque IA 52001 563 583-4113
Return to: Barry A. Lindahl 300 Main Street Suite 330 Dubuque IA 52001 563 583-4113

MEMORANDUM OF DEVELOPMENT AGREEMENT

A Development Agreement by and among the City of Dubuque, Iowa, an Iowa municipal corporation, of Dubuque, Iowa, and Miller Companies, LLC was made regarding the following described premises:

The Southerly 37 ½ feet of Lot 26, in the City of Dubuque, Iowa, according to the United States Commissioners' Map of the Survey of the Town of Dubuque, Iowa

The Development Agreement is dated for reference purposes the ____ day of _____, 20__, and contains covenants, conditions, and restrictions concerning the sale and use of said premises.

This Memorandum of Development Agreement is recorded for the purpose of constructive notice. In the event of any conflict between the provisions of this Memorandum and the Development Agreement itself, executed by the parties, the terms and provisions of the Development Agreement shall prevail. A complete counterpart of the Development Agreement, together with any amendments thereto, is in the possession of the City of Dubuque and may be examined at its offices as above provided.

Downtown Housing Incentive Program Eligibility Guidelines

Project Location & Type

Create new multifamily housing units (rental or for-sale condos) within the Greater Downtown Urban Renewal District.

Be a rehabilitation of an existing structure.

Have clearly defined start and completion timelines.

Eligible Unit Types

Newly Created Units: Created in a portion of a structure never previously used as housing.

Rehabilitated Long-Vacant Units: A previously existing housing unit vacant for more than 3 years and undergoing full rehabilitation that corrects all code deficiencies and deterioration.

Rehabilitation Standards

Bring the structure into full compliance with the 2021 IPMC and 2021 IBC.

Correct all unsafe, unsanitary, damaged, or deteriorated conditions, including structural, electrical, mechanical, and plumbing systems.

Repair or replace components that are defective or beyond service life; cosmetic-only improvements do not qualify.

Meet all life-safety, egress, and habitability requirements.

Use durable, long-term residential materials.

Submit a comprehensive scope of work addressing all code corrections, subject to City approval.

Building Configuration

Units must generally be located above a first-floor commercial component.

Design Review Requirements

Reimbursement covers labor and materials that significantly improve appearance following City of Dubuque Architectural Guidelines or Downtown Design Guidelines, as applicable.

Existing noncompliant signage must be brought into compliance as part of the project.

A detailed rendering/drawing with dimensions, materials, and architectural details must be submitted.

Deviation from the approved plan may disqualify the project.

Additional City Requirements

City may require soundproofing, lighting, security, or other standards based on a neighborhood impact review.

Property owners must certify that all properties they own in Dubuque comply with all applicable City ordinances.

Funding Limits

Up to $10,000 per residential unit.

Up to $750,000 per taxing parcel.

No developer fee may be paid until all City assistance is fully disbursed.

Funds are disbursed after project completion and issuance of all Certificates of Occupancy/Completion.

Minimum Project Size

Projects must create at least 2 new housing units.

Application Review

Applications are reviewed when complete.

Funds are awarded to projects that meet all criteria and are ready to commence within 12 months.

EXHIBIT G

CERTIFICATE OF COMPLETION

CERTIFICATE OF COMPLETION

WHEREAS, the City of Dubuque, Iowa, a municipal corporation (the "Grantor"), has granted incentives to Miller Companies, LLC (the "Grantee"), in accordance with a Development Agreement dated as of [Date] (the "Agreement"), by and among the Grantor, and the Grantee (collectively, the "Agreement"), certain real property located within the Greater Downtown Urban Renewal District of the Grantor and as more particularly described as follows:

The Southerly 37 ½ feet of Lot 26, in the City of Dubuque, Iowa, according to the United States Commissioners' Map of the Survey of the Town of Dubuque, Iowa

(the "Development Property"); and

WHEREAS, said Agreement incorporated and contained certain covenants and conditions with respect to the rehabilitation of the Development Property, and obligated the Grantee to construct certain Minimum Improvements (as defined therein) in accordance with the Agreement; and

WHEREAS, the Grantee has to the present date performed said covenants and conditions insofar as they relate to the construction of the Minimum Improvements in a manner deemed sufficient by the Grantor to permit the execution and recording of this certification; and

NOW, THEREFORE, pursuant to Section 2.4 of the Agreement, this is to certify that all covenants and conditions of the Agreement with respect to the obligations of the Grantee, and its successors and assigns, to construct the Minimum Improvements on the Development Property have been completed and performed by the Grantee to the satisfaction of the Grantor and such covenants and conditions are hereby satisfied.

The County Recorder of Dubuque County is hereby authorized to accept for recording and to record the filing of this instrument, to be a conclusive determination of the satisfaction of

the covenants and conditions as set forth in said Agreement, and that the Agreement shall otherwise remain in full force and effect.

LEGAL COMPLIANCE

a) Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21;

b) The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

c) Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex);

d) Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;

e) The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq), (prohibits discrimination on the basis of age);

f) Airport and Airway Improvement Act of 1982, (49 U.S.C. § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);

g) The Civil Rights Restoration Act of 1987, (PL 100-209); (broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964 to include that entities that receive federal funding must comply with civil rights legislation, including the Civil Rights Act of 1964, the Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973, in all operations, not just in the program or activity receiving federal funding);

h) Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 - 12189) as implemented by Department of Transportation regulations at 49 C.F.R. Parts 37 and 38;

i) The Federal Aviation Administration’s Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

j) Section 1557of the Affordable Care Act (prohibits discrimination on the basis of national origin);

k) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. § 1681 et seq.) (prohibits discrimination because of sex in education programs or activities);

l) Drug Abuse Office and Treatment Act of 1972, as amended (21 U.S.C. § 1101 et seq.); and

m) Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970, as amended (42 U.S.C. § 4541, et seq.).

EXHIBIT I

PLANNING AND DESIGN GRANT PROGRAM, FAÇADE GRANT PROGRAM, AND FINANCIAL CONSULTANT GRANT PROGRAM

Downtown Rehabilitation Grant Program

PROGRAM GUIDELINES

(2024)

The Downtown Rehabilitation Grant Program is designed to further the goals and objectives of the Greater Downtown Urban Renewal Plan by creating the financial incentives needed to eliminate conditions of blight, encourage revitalization efforts and to retain or create employment opportunities and/or new housing units within the district. This program will address building code deficiencies as part of each approved project.

Eligible Applicants: Owners of property within the Greater Downtown Urban Renewal District (map attached).

Grant Award: The grant is a 1:1 matching grant up to a maximum of Thirty-Five Thousand Dollars ($35,000).

Eligible Activities and Assistance:

Façade Costs – to provide assistance on labor or material costs for front (or occasionally other major) façade renovations to restore a building's historic appearance or eliminate inappropriate additions or alterations to improve overall appearance.

Financial Consultant Costs – to provide assistance on hiring a financial consultant used to analyze the feasibility of a project.

Planning & Design Grant Program – to provide assistance on pre-development costs associated with a project.

FOR MORE INFORMATION, please contact:
City of Dubuque Economic Development Department
50 West 13th Street, Dubuque, Iowa 52001
(563) 589-4393

General Conditions:

- Property must be located in Greater Downtown Urban Renewal District (see attached

map) and with timely commencement & completion dates identified.

- Projects must be the rehabilitation of an existing structure.
- Property must be classified for tax purposes as a commercial or multi-residential property.
- All existing code deficiencies within a scope of a project must be corrected and new improvements must comply with all applicable codes and ordinances.
- Owner of property must certify that all property in the City of Dubuque, for which the owner has any interest, complies with all applicable City of Dubuque ordinances and regulations, including, but not limited to, housing, building, zoning, fire, health, and vacant and abandoned building regulations.
- Exterior alterations are subject to design review and approval. The Historic District Guidelines shall apply to projects located in Historic Preservation Districts. The Downtown Design Guidelines shall apply to all other project locations. Projects which conform to the applicable guidelines may be reviewed and approved by the City Planner. Projects that do not strictly conform to the applicable guidelines will be forwarded to the Historic Preservation Commission (HPC) for consideration. Substantial rehabilitation projects may also be considered by the HPC. The process for review is at the discretion of the City Planner. Guidelines can be viewed and downloaded at http://cityofdubuque.org/1295/Design-Guidelines.
- Any signs on the property that do not comply with City zoning regulations and design guidelines must be included in the design review and improved to comply with applicable City Codes. Submittal must include the design materials and colors that will be used on the sign face, how the sign will be displayed, and any lighting proposed.
- A detailed rendering/drawing of the proposed project must be included. The plans should include dimensions and architectural details and label materials. Plans prepared by a design professional (e.g. architect or draftsperson) are required. Applications without detailed drawings will not be considered complete. Only preliminary eligibility may be determined until professional drawings are submitted.
- Applicant will not be reimbursed for personal labor costs or labor costs of family members, nor can these costs be counted in the total project costs.
- Projects may not receive the maximum amount of each form of assistance more than once.
- Deviation from an approved project plan shall disqualify the project from the program.
- City funded projects may be required to meet sound proofing, lighting, security, or other standards – as determined by the City of Dubuque, in its sole discretion, following an internal neighborhood impact study – particularly when units are located in mixed-use neighborhoods.
- Applications will be reviewed quarterly by the Economic Development and Planning department with funda awarded to projects that meet the program criteria and are ready to commence within three months.

FAÇADE INFORMATION

This program provides funding in the Greater Downtown Urban Renewal District for front (or occasionally other major) façade renovation to restore the façade to its historic appearance or improve the overall appearance. This assistance is intended to address historically inappropriate exteriors. It is not intended to address normal building maintenance.

Specific Conditions:

- Reimbursement is for labor and material costs associated with façade improvements, including but not limited to, rehabilitating or improving windows, paint, signage, or awnings to significantly transform overall appearance.
- Landscaping or screening with fencing or retaining walls may be a reimbursable expense if a determination is made that property is improved adjacent to public right-of-way.
- In order to receive reimbursement for repointing, a mortar analysis sample may be requested for each façade that will be repointed. The applicant must adhere to the results of that analysis in their rehabilitation work as part of their approved project plan. The City may request verification that the new mortar matches the results of the mortar analysis.
- Language from the National Park Service Technical Preservation Services Briefs may be attached as a condition for a building permit if the applicant chooses to perform repointing on the project.
- Reimbursable expenditures must be documented.
- Funding will be disbursed upon completion of work at a 1:1 match of qualified costs.

Approval Process:

1. Design review by the City Planning Department and/or the Historical Preservation Commission is required for exterior work on the project.
2. Grant applications will be reviewed by City staff Review Committee and approved by the City Manager.
3. Funding will be disbursed upon staff review of documented expenditures and inspection of a completed project.

FINANCIAL CONSULTANT INFORMATION

This program provides funding in the Greater Downtown Urban Renewal District for hiring a financial consultant to analyze the feasibility of projects.

Specific Conditions:

- Reimbursement is for fees associated with hiring a professional financial consultant (i.e. accountant, attorney, tax credit consultant)
- Reimbursable expenditures must be documented.
- This financial consultant funding shall not exceed ten percent (10%) of total project costs.
- The rehabilitation project must be completed for the Financial Consultant costs to be reimbursed.
- Funding will be disbursed upon completion of work at a 1:1 match of qualified costs.

Approval Process:

1. Design review by the City Planning Department and/or the Historical Preservation Commission is required for exterior work on the project.
2. Grant applications will be reviewed by City staff Review Committee and approved by the City Manager.
3. Funding will be disbursed upon staff review of documented expenditures and inspection of a completed project.

PLANNING & DESIGN INFORMATION

This program provides funding in the Greater Downtown Urban Renewal District for hiring architects, engineers or other professional services used prior to construction.

Grant Specific Conditions:

- Reimbursement is for architectural and engineering fees, feasibility studies, environmental assessments or other related soft costs.
- Reimbursable expenditures must be documented.
- Owner / developer fees are not permitted as reimbursable expenditures.
- The planning and design funding shall not exceed ten percent (10%) of total project costs.
- Funding will be disbursed upon completion of the project at a 1:1 match of qualified costs.

Approval Process:

1. Design review by the City Planning Department and/or the Historical Preservation Commission is required for exterior work on the project.
2. Grant applications will be reviewed by City staff Review Committee and approved by the City Manager.
3. Funding will be disbursed upon staff review of documented expenditures and inspection of a completed project.

RESOLUTION NO. ___-26

FIXING THE DATE FOR A PUBLIC HEARING OF THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA ON A DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE, IOWA AND MILLER COMPANIES, LLC, INCLUDING THE PROPOSED ISSUANCE OF URBAN RENEWAL TAX INCREMENT REVENUE OBLIGATIONS RELATING THERETO, AND PROVIDING FOR THE PUBLICATION OF NOTICE THEROF

Whereas, Miller Companies, LLC is the owner of the property legally described as follows:

> The Southerly 37 ½ feet of Lot 26, in the City of Dubuque, Iowa, according to the United States Commissioners' Map of the Survey of the Town of Dubuque, Iowa

locally known as 730 Main Street (the Property); and

Whereas, the City of Dubuque and Miller Companies, LLC have tentatively entered into a Development Agreement, subject to the approval of the City Council, including the issuance of Urban Renewal Tax Increment Revenue Obligations, a copy of which is now on file at the Office of the City Clerk, City Hall, 50 W 13th Street, Dubuque, Iowa for the development of the Property; and

Whereas, the City Council has tentatively determined that it would be in the best interests of the City to approve the Development Agreement with Miller Companies, LLC; and

Whereas, it is deemed necessary and advisable that City should authorize Urban Renewal Tax Increment Revenue Obligations, as provided by Iowa Code Chapter 403, pursuant to the Development Agreement; and

Whereas, before said Obligations may be approved, Iowa Code Chapter 403 requires that the City Clerk publish a notice of the proposal and of the time and place of the meeting at which the City Council proposes to take action thereon and at which meeting the City Council shall receive oral and/or written objections from any resident or property owner of said City to such proposed action.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA THAT:

Section 1. The City Clerk is hereby authorized and directed to cause a notice to be published as prescribed by Iowa Code Section 403.9 of a public hearing on the City's intent to approve the Development Agreement by and between City of Dubuque and Miller Companies, LLC, including the issuance of Urban Renewal Tax Increment Revenue Obligations, to be held on the 20th day of April, 2026 at 6:30 p.m. The official agenda will be posted the Friday before the meeting and will contain listening, viewing, and public input options. The City Council agenda may be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Section 2. The City Council will meet at said time and place for the purpose of taking action on the matter of approving the Development Agreement and the issuance of Urban Renewal Tax Increment Revenue Obligations relating thereto with Miller Companies, LLC, the proceeds of which Obligations will be used to carry out certain of the special financing activities described in the Urban Renewal Plan for the Greater Downtown Urban Renewal District, consisting of the funding of economic developments grants to Miller Companies, LLC pursuant to the Development Agreement. It is expected that the aggregate amount of the Tax Increment Revenue Obligations to be issued will be approximately $110,620.

Section 3. The City Clerk is hereby directed to cause at least one publication to be made of a notice of said meeting, in a newspaper, printed wholly in the English language, published at least once weekly, and having general circulation in said City, said publication to be not less than four days nor more than twenty days before the date of said meeting on the issuance of said Obligations.

Section 4. That the notice of the proposed action to issue said Obligations shall be in substantially the form attached hereto.

Passed, approved, and adopted this 6th day of April, 2026.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Consent to Assignment of Development Agreement By and Between the City of Dubuque, Iowa and Carmac Management, Inc. to Linseed Lofts, LLC

DATE: March 31, 2026

Senior Counsel Barry Lindahl is recommending City Council adopt the resolution setting a public hearing for April 20, 2026, for the Consent to Assignment of a Development Agreement by and between the City of Dubuque, Iowa and Carmac Management, Inc. to Linseed Lofts, LLC.

The property at 151 East 9th Street has transferred through several related entities over the years to support the project's use of tax credits. Carmac Management, Inc., the current Developer, has completed the project and the property is now fully operational, though tax-increment financing payments and other obligations under the Development Agreement remain. Carmac has reached an agreement to sell the property to Linseed Lofts, LLC and, as part of that sale, will transfer all of its rights and responsibilities under the Development Agreement to Linseed Lofts, LLC.

I concur with the recommendation and respectfully request Mayor and City Council approval.

MEMO

TO: City Manager Michael C. Van Milligen

DATE: March 26, 2026

RE: Consent to Assignment of Development Agreement By and Between the City of Dubuque, Iowa and Carmac Management, Inc. to Linseed Lofts, LLC

Attached to this Memorandum is an Assignment of Development Agreement executed by Carmac Management, Inc. (Carmac), and Linseed Lofts, LLC.

The City and Wilmac Property Company (Wilmac) entered into a Development Agreement dated March 7, 2013, for the property at 151 East 9th Street, which Development Agreement was assigned by Wilmac to Betty Building, LLC (Betty) by an Assignment dated October 6, 2014 and further assigned by Betty to Carmac Management, Inc. by an Assignment dated November 2, 2021. All of these transfers were between related entities and were necessary to facilitate the use of tax credits for the project.

Carmac is now the Developer. Carmac has completed the project contemplated by the Development Agreement and the property is fully operational. Tax increment financing payments and continuing obligations of the Developer remain under the Development Agreement.

Carmac has entered into an agreement to sell the property subject to the Development Agreement to Linseed Lofts, LLC. As a part of that transaction Carmac has agreed to assign its rights and obligations under the Development Agreement to Linseed Lofts, LLC and that entity has agreed to accept all such rights and obligations.

The attached Assignment accomplishes this assignment, subject to the City's agreement and consent. Carmac Management, Inc. has requested City Council approval and consent to the Assignment of the Development Agreement and authorizing the Mayor to execute the Assignment on behalf of the City of Dubuque.

I request that City Council adopt the attached Resolution setting a public hearing for April 20, 2026, on the Assignment.

MEMORANDUM

TO: Barry Lindahl, Senior Counsel

RE: Assignment of Development Agreement by and between Carmac Management, Inc. and Linseed Lofts,LLC

FROM: Drake Law Firm, PC

Barry:

Attached to this Memorandum is an Assignment of Development Agreement executed by Carmac Management, Inc, and Linseed Lofts, LLC.

The City and Wilmac Property Company (Wilmac) entered into a Development Agreement dated March 7, 2013, for the property at 151 E. 9th St., Dubuque, Iowa, which Development Agreement was assigned by Wilmac to Betty Building, LLC (Betty) by an Assignment dated October, 2014 and further assigned by Betty to Carmac Management, Inc. by an Assignment dated October, 2021. All of these transfers were between related entities and were necessary to facilitate the use of tax credits for the project.

Carmac is now the Developer. Carmac has completed the project contemplated by the Development Agreement and the property is fully operational. Tax increment financing payments and continuing obligations of the Developer remain under the Development Agreement.

Carmac has entered into an agreement to sell the property subject to the Development Agreement to Linseed Lofts, LLC. As a part of that transaction Carmac has agreed to assign its rights and obligations under the Development Agreement to Linseed Lofts, LLC and that entity has agreed to accept all such rights and obligations.

The attached Assignment accomplishes this assignment, subject to the City's agreement and consent. On behalf of Carmac Management, Inc., we request that the City Council approve and consent to the Assignment of the Development Agreement and authorize the mayor to execute the Assignment on behalf of the City of Dubuque.

Please advise of any additional questions. Thank you.

ASSIGNMENT OF DEVELOPMENT AGREEMENT

This Assignment of Development Agreement is entered into this 19th day of March, 2026 by and between , Carmac Management, Inc. ("Carmac"), Linseed Lofts, LLC ("Buyer") and the City of Dubuque, Iowa ("City").

RECITALS

A. City and Wilmac Property Company ("Wilmac") entered into a Development Agreement dated March 7, 2013 which agreement was assigned by Wilmac to Betty Building, LLC ("Betty") by an Assignment dated October, 2014 and further assigned by Betty to Carmac by Assignment dated in October, 2021 (the "Development Agreement");

B. Pursuant to the terms of the Development Agreement Wilmac was to provide certain improvements to real estate owned by Wilmac, such property locally known as 151 East 9th St., Dubuque, Iowa and legally described as: City Lot 379 and the South 15 feet of City Lot 380 in Dubuque, Iowa (the "Property"). Subject to the requirements and restrictions of that Development Agreement City agreed to take certain actions to aid in the rehabilitation of the Property.

C. In order to facilitate rehabilitation of the Property, and in particular to accommodate the use of historic tax credits, the Property was deeded to Betty at the time of the initial Assignment. The recapture period for the historic tax credit transaction passed, the ownership structure was simplified and the underlying Property was deeded to Carmac. Carmac has now agreed to sell the underlying Property to Buyer and Carmac desires to assign all of its rights and obligations under the Development Agreement to Buyer and Buyer desires to accept such rights and obligations;

D. The parties desire to set forth their agreement regarding such assignment in writing.

Therefore, in consideration of the mutual terms and covenants herein, the parties agree as follows:

AGREEMENT

1. Assignment. Carmac does hereby assign, transfer and convey to Buyer each and every right and obligation of Carmac in and under the Development Agreement, including the right to receive tax increment financing payments, effective April 1, 2026.

2. Acceptance. Buyer does hereby accept all rights and obligations of Carmac under the Development Agreement and agrees to be bound by such agreement and to be responsible for every obligation of Developer thereunder.

3. Consent. City does hereby consent to the assignment as set forth herein and releases

Betty from any obligations that accrue under the terms of the Development Agreement after the date hereof.

4. Miscellaneous. This agreement is binding upon the parties hereto and their successors and permitted assigns and shall be governed by and construed under the laws of the state of Iowa.

RESOLUTION NO. ____-26

FIXING THE DATE FOR A PUBLIC HEARING OF THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA ON THE CONSENT TO ASSIGNMENT OF A DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE, IOWA AND CARMAC MANAGEMENT, INC. TO LINSEED LOFTS, LLC AND PROVIDING FOR THE PUBLICATION OF NOTICE THEREOF

WHEREAS, the City of Dubuque and Wilmac Property Company (Wilmac) entered into a Development Agreement dated March 7, 2013, for the property at 151 East 9th Street, which Development Agreement was assigned by Wilmac to Betty Building, LLC (Betty) by an Assignment dated October 6, 2014 and further assigned by Betty to Carmac Management, Inc. (Carmac) by an Assignment dated November 2, 2021; and

WHEREAS, Carmac is now the Developer and has completed the project contemplated by the Development Agreement and the property is fully operational; and

WHEREAS, Carmac has entered into an agreement to sell the property subject to the Development Agreement to Linseed Lofts, LLC; and

WHEREAS, as a part of that transaction Carmac has agreed to assign its rights and obligations under the Development Agreement to Linseed Lofts, LLC and that entity has agreed to accept all such rights and obligations; and

WHEREAS, Carmac has requested that the City Council approve and consent to the Assignment of the Development Agreement; and

WHEREAS, the City Council finds that consent to the Assignment is in the best interests of the City of Dubuque.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA THAT:

Section 1. The City Clerk is hereby authorized and directed to cause a notice to be published as prescribed by Iowa Code Section 403.9 of a public hearing on the City's intent to

approve the attached Assignment of Development Agreement by and between City of Dubuque and Carmac Management, Inc. to be held on the 20th day of April 2026 at 6:30 p.m. for the purpose of receiving public input and comment regarding the proposed Assignment of Development Agreement.

Section 2. The City Council will meet at said time and place for the purpose of taking action on the matter of approving the consent to the Assignment of Development Agreement.

Section 3. The City Clerk is hereby directed to cause at least one publication to be made of a notice of said meeting, in a newspaper, printed wholly in the English language, published at least once weekly, and having general circulation in said City, said publication to be not less than four days nor more than twenty days before the date of said meeting on the issuance of said Obligations.

Section 4. That the notice of the meeting shall be in substantially the form attached hereto.

Passed, approved and adopted this 6th day of April, 2026.

MEMO

TO: City Manager Michael C. Van Milligen

DATE: March 26, 2026

RE: Consent to Assignment of Development Agreement By and Between the City of Dubuque, Iowa and Outfly Development, LLC to Verena Ct Exchange, LLC

Attached to this Memorandum is an Assignment of Development Agreement executed by Outfly Development, LLC ("Outfly") and Verena Ct Exchange, LLC.

The City and Outfly entered into a Development Agreement dated the 6th day of October, 2025 related to the purchase by Outfly of the property legally described as Lot 3 of Dubuque Industrial Center South Third Addition in the City of Dubuque, Iowa (Parcel A) and Lot 2 of Dubuque Industrial Center South Third Addition in the City of Dubuque, Iowa (Parcel B) (the Development Property).

Outfly is selling other property to a third-party purchaser and using funds from the sale to acquire the Development property and construct the Minimum Improvements required under the Development Agreement.

In order to save substantial taxes related to the sale of the existing property, Outfly will use an IRS section 1031 tax deferred exchange. As part of that exchange, Outfly has created a new entity, Verena Ct Exchange, LLC. That new entity will use the funds from the sale of the other property to acquire the Development Property.

Verena Ct Exchange, LLC will be the owner of the Development Property and will assume the role of Developer under the Development Agreement. Verena Ct Exchange, LLC will be affiliated with and controlled by the same individuals as Outfly Development, LLC. Outfly Development, LLC will continue to manage the development of the project through this structure. Verena Ct Exchange, LLC will hold title to the Development Property during the exchange period, after which ownership of Verena Ct Exchange, LLC will be transferred to Outfly Development, LLC upon completion of the exchange. This assignment is administrative in nature and does not alter the scope of the project, the obligations of the Developer, or the financial capacity supporting the project. The same principals will remain responsible for performance under the Development Agreement.

OFFICE OF THE CITY ATTORNEY DUBUQUE, IOWA
SUITE 330, HARBOR VIEW PLACE, 300 MAIN STREET DUBUQUE, IA 52001-6944
TELEPHONE (563) 583-4113 / FAX (563) 583-1040 / EMAIL balesq@cityofdubuque.org

The attached Assignment accomplishes the assignment contemplated above, subject to the City's agreement and consent.

Outfly Development, LLC, is requesting that the City Council consent to the Assignment of the Development Agreement and authorize the Mayor to execute the Assignment on behalf of the City of Dubuque.

I request that City Council adopt the attached Resolution setting a public hearing for April 20, 2026, on the Assignment.

MEMORANDUM

TO: Barry Lindahl, Senior Counsel

RE: Assignment of Development Agreement - Outfly Development

FROM: Drake Law Firm, PC

Barry:

Attached to this Memorandum is an Assignment of Development Agreement executed by Outfly Development, LLC ("Outfly") and Verena Ct Exchange, LLC.

The City and Outfly entered into a Development Agreement dated the 6th day of October, 2025 related to the purchase by Outfly of the Property legally described as Lot 3 of Dubuque Industrial Center South Third Addition in the City of Dubuque, Iowa (Parcel A) and Lot 2 of Dubuque Industrial Center South Third Addition in the City of Dubuque, Iowa (Parcel B).

Outfly is selling other property to a third party purchaser and using funds from the sale to acquire the above City property and construct the Minimum Improvements required under the Development Agreement. In order to save substantial taxes related to the sell of the existing property, Outfly will use an IRS section 1031 tax deferred exchange. As part of that exchange, Outfly has created a new entity, Verena Ct Exchange, LLC. That new entity will use the funds from the sale of the existing land to acquire the real estate subject to the Development Agreement.

Verena Ct Exchange, LLC will be the owner of the real estate and will assume the role of Developer under the Development Agreement. Verena Ct Exchange, LLC will be affiliated with and controlled by the same individuals as

Outfly Development, LLC. Outfly Development, LLC will continue to manage the development of the project through this structure. Verena Ct Exchange, LLC will hold title to the property during the exchange period, after which ownership of Verena Ct Exchange, LLC will be transferred to Outfly Development, LLC upon completion of the exchange. This assignment is administrative in nature and does not alter the scope of the project, the obligations of the Developer, or the financial capacity supporting the project. The same principals will remain responsible for performance under the Development Agreement.

The attached Assignment accomplishes the assignment contemplated above, subject to the City's agreement and consent. On behalf of Outfly Development, LLC, we request that the City Council approve and consent to the Assignment of the Development Agreement and authorize the mayor to execute the Assignment on behalf of the City of Dubuque.

Please advise of any additional questions. Thank you.

RESOLUTION NO. ____-26

FIXING THE DATE FOR A PUBLIC HEARING OF THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA ON THE CONSENT TO ASSIGNMENT AND ASSUMPTION OF A DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE, IOWA AND OUTFLY DEVELOPMENT, LLC TO VERENA CT EXCHANGE, LLC AND PROVIDING FOR THE PUBLICATION OF NOTICE THEREOF

Whereas, the City of Dubuque and Outfly Development, LLC (Outfly) entered into a Development Agreement dated the 6th day of October, 2025 related to the purchase by Outfly of the property legally described as Lot 3 of Dubuque Industrial Center South Third Addition in the City of Dubuque, Iowa (Parcel A) and Lot 2 of Dubuque Industrial Center South Third Addition in the City of Dubuque, Iowa (Parcel B) (the Development Property); and

Whereas, Outfly now desires to assign the Development Agreement to Verena Ct Exchange, LLC to facilitate an IRS section 1031 tax deferred exchange with Verena Ct Exchange, LLC pursuant to the Assignment and Assumption OF Development Agreement attached hereto; and

Whereas, Verena Ct Exchange, LLC will be the owner of the Development Property and will assume the role of Developer under the Development Agreement and will be affiliated with and controlled by the same individuals as Outfly Development, LLC; and

Whereas, after the required exchange period, ownership of Verena Ct Exchange, LLC will be transferred to Outfly Development, LLC which will then be the Developer; and

Whereas, Outfly Development, LLC, has requested that the City Council consent to the Assignment of the Development Agreement; and

Whereas, the City Council finds that it is in the bests interests of the City of Dubuque to consent to the Assignment.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA THAT:

Section 1. The City Clerk is hereby authorized and directed to cause a notice to be published as prescribed by Iowa Code Section 403.9 of a public hearing on the City's intent to approve the attached Assignment and Assumption of Development Agreement by and between City of Dubuque and Outfly Development, LLC to be held on the 20th day of April 2026 at 6:30 p.m. for the purpose of receiving public input and comment regarding the proposed Assignment and Assumption of Development Agreement.

Section 2. The City Council will meet at said time and place for the purpose of taking action on the matter of approving the consent to the Assignment and Assumption of Development Agreement.

Section 3. The City Clerk is hereby directed to cause at least one publication to be made of a notice of said meeting, in a newspaper, printed wholly in the English language, published at least once weekly, and having general circulation in said City, said publication to be not less than four days nor more than twenty days before the date of said meeting on the issuance of said Obligations.

Section 4. That the notice of the meeting shall be in substantially the form attached hereto.

Passed, approved and adopted this 6th day of April, 2026.

SUBJECT: 2026 Public Works Asphalt Overlay Program
Sidewalk Curb Ramp Project - Bid Package 4
Initiate Public Bidding Process and Setting Date for a Public Hearing
Project No. 5421000002

DATE: March 31, 2026

INTRODUCTION

This memorandum requests the City Council approval and authorizes the initiation of the public improvement construction bidding process and sets a public hearing date for April 20, 2026, for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4.

BACKGROUND

Since 1990, the City of Dubuque has installed pedestrian access ramps around the City of Dubuque to conform with the American with Disabilities Act (ADA). The pedestrian access ramps allow people with mobility challenges to access the City's sidewalk system. The design standards for these ramps have evolved over time as more ramps have been installed and standards have changed.

Since 2011, The City of Dubuque follows the Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way (PROWAG) standard. These are the most current standards to use for facilities in public right-of-way and addressed issues brought up since the original ADA standards were developed. Both the Iowa Department of Transportation (Iowa DOT) and the Federal Highway Administration (FHWA) adopted PROWAG and require all cities that receive federal or state funding to follow these standards.

DISCUSSION

The 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4 will provide for the replacement of 38 access curb ramps, adjacent street pavement work, curb and gutter replacement, sidewalks, 2 storm sewer intakes and landscape restoration work. This project is in coordination with the Public Works Asphalt Overlay program at the following locations:

- Stafford Street from E. 22nd Street to Garfield Avenue - 8 Ramps
- Humboldt Street from High Bluff Street to Garfield Avenue - 5 Ramps
- Schiller Street and Garfield Avenue Intersection - 2 Ramps
- Farley Street and High Bluff Street Intersection - 4 Ramps
- Fengler Street from High Bluff Street to Garfield Avenue - 3 Ramps

- Ann Street and Garfield Avenue Intersection - 4 Ramps
- Dock Street from Rhomberg Avenue to Garfield Avenue - 5 Ramps
- Marshall Street and Garfield Avenue Intersection - 3 Ramps
- Decatur Street from Prescott Street to Garfield Avenue - 4 Ramps

PROJECT SCHEDULE

The project development schedule for the project will be as follows:

Initiate Public Bidding Process	April 6, 2026
Publish Notice to Bidders, Advertise for Bids	April 10, 2026
Notice of Public Hearing on Plans and Specs	April 10, 2026
Public Hearing on Plans and Specs	April 20, 2026
Receipt of Bid Proposals	April 23, 2026
Award Construction Contract	May 4, 2026
Completion Date	August 21, 2026

RECOMMENDATION

I recommend preliminary approval of the proposed plans, specifications, form of contract and construction estimate for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4. I further recommend establishing the date of the public hearing and authorizing the Engineering Department to advertise for bids for the project.

BUDGET IMPACT

The estimate of probable cost for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4 is summarized in the following table:

PROJECT COSTS	ESTIMATE
Construction Contract	$ 257,000.00
Contingency	25,700.00
Engineering Design and Administration	22,000.00
Total Project Cost	**$ 304,700.00**

The proposed funding for the project is summarized in the following table:

Project Number	Fund Description	Fund Amount
5421000002	PW Curb Ramp Program	$ 304,700.00
Total Construction Project Funding		**$ 304,700.00**

ACTION TO BE TAKEN

I respectfully request that the City Council grant preliminary approval of the construction plans and specifications; and establish April 20, 2026, as the date of the public hearing; and hereby authorized to advertise for bid proposals for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4 through adoption of the attached resolution.

RESOLUTION NO. ____ -26

2026 PUBLIC WORKS ASPHALT OVERLAY PROGRAM
SIDEWALK CURB RAMP PROJECT - BID PACKAGE 4

PRELIMINARY APPROVAL OF PLANS, SPECIFICATIONS, FORM OF CONTRACT, AND ESTIMATED COST; SETTING DATE OF PUBLIC HEARING ON PLANS, SPECIFICATIONS, FORM OF CONTRACT, AND ESTIMATED COST; AND ORDERING THE ADVERTISEMENT FOR BIDS

WHEREAS, the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4 will include providing all labor, equipment, and materials to install 38 ADA accessible curb ramps along Stafford Street, Humboldt Street, Schiller Street, Farley Street, Fengler Street, Ann Street, Dock Street, Marshall Street and Decatur Street. In relation to the curb ramp work, adjacent pavement, sidewalks, storm sewer and landscape restoration work.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

The proposed plans, specifications, form of contract and estimated cost for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4 in the estimated construction amount $257,000, are hereby preliminarily approved and ordered filed in the office of the City Clerk for public inspection.

A public hearing will be held on the 20th day of April, 2026, at 6:30 p.m. in the Historic Federal Building Council Chambers 350 W. 6th Street, Dubuque, Iowa, at which time interested persons may appear and be heard for or against the proposed plans and specifications, form of contract and estimated cost of said Project, and the City Clerk be and is hereby directed to cause the attached notice of the time and place of such hearing to be published in a newspaper having general circulation in the City of Dubuque, Iowa, which notice shall be published not less than four days nor more than twenty days prior to the date of such hearing. At the hearing, any interested person may appear and file objections to the proposed plans, specifications, form of contract, or estimated cost of the Project.

The 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4, is hereby ordered to be advertised for bids for construction.

The amount of security to accompany each bid shall be in an amount which shall conform to the provisions of the Notice to Bidders hereby approved.

The City Engineer is hereby directed to advertise for bids for the construction of the improvements herein provided, by publishing the Notice to Bidders to be published on the City of Dubuque website and a contractor plan room service with statewide

circulation, which notice shall be published not less than thirteen but not more than forty-five days before the date for filing bids before 2:00 p.m. on the 23rd day of April, 2026. Bids shall be opened and read by the City Clerk at said time and will be submitted to the City Council for final action at 6:30 p.m. on the 4th day of May, 2026, in the Historic Federal Building Council Chambers 350 West 6th Street, Dubuque, Iowa.

Passed, approved and adopted this 6th day of April 2026.

Attest: Brad M. Cavanagh, Mayor

Adrienne N. Breitfelder, City Clerk

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the Dubuque City Council will conduct a public hearing on the 20th day of April, 2026, at 6:30 p.m., in the Historic Federal Building, 350 W. 6th Street, 2nd floor, Dubuque, Iowa, at which meeting the City Council proposes to hear the plans, specifications, form of contract and estimated cost for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4.

Scope of project: The 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 4 will provide for the replacement of 38 access curb ramps, adjacent street pavement work, curb and gutter replacement, sidewalks, 2 storm sewer intakes and landscape restoration work.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April 2026.

DATE: April 1, 2026

SUBJECT: Public Works Concrete Banding and Crack Sealing Project
Initiate Public Bidding Process and Setting Date for a Public Hearing

INTRODUCTION

This memorandum requests the City Council authorize initiating the bidding process and set a public hearing on April 20, 2026, for the Public Works Concrete Banding and Crack Sealing Project.

DISCUSSION

This project includes the rehabilitation of approximately 0.52 centerline miles of concrete pavement along Pennsylvania Avenue and approximately 0.88 centerline miles of concrete pavement along Loras Boulevard. Rehabilitation will consist of providing 4" sealant for any cracks or joints under 3" in width. For any cracks or joints over 3" in width a 6" mastic banding will be provided.

PROJECT SCHEDULE

The proposed schedule for the project is as follows:

Initiate Public Bidding Process & Notice of Public Hearing	April 6, 2026
Publish Notice to Bidders, Advertise for Bids	April 8, 2026
Pre Bid Meeting	April 20, 2026
Public Hearing on Plans & Specifications	April 20, 2026
Receipt of Bid Proposals (Bid-Letting)	April 23, 2026
Award Construction Contract	May 4, 2026
Substantial Completion	July 11, 2026
Final Project Completion Date	July 15, 2026

BUDGET IMPACT

The estimate of probable cost for the Public Works Concrete Banding and Crack Sealing Project is summarized as follows:

Description	Estimate
Construction	$ 228,494.00
Contingency (10%)	$ 22,849.40
Engineering (10%)	$ 22,849.40
Total Project Cost	**$ 274,192.80**

The construction of the Public Works Concrete Banding and Crack Sealing Project will be covered by the funding sources as described below:

Project No.	Fund Description	Fund Amount
5521000034-110-67990	Pave Press Joint Seal	$45,000.00
5521000034-310-67990	Pave Press Joint Seal	$200,000.00

Any project construction overages would be covered through a future budget amendment request through the CIP and amounts shown below, if needed.

Fund Future Budget Amendment Project Contingency Funding		
5521000018-110-67990	Pavement Rehabilitation	$300,000.00
5521000018-310-67990	Pavement Rehabilitation	$600,000.00

ACTION STEP

I respectfully request the City Council authorize the public bidding process and set a public hearing for April 20, 2026, and to preliminarily approve the plans, specifications, form of contract and estimated cost for the Public Works Concrete Banding and Crack Sealing Project through the adoption of the attached resolution.

RE: Setting a Public Hearing for the Residential Parking Permit District Amendment – District A

INTRODUCTION

This memorandum requests the City Council set a public hearing for April 20, 2026, to approve the amendment of the Residential Parking Permit District (RPPD) for District A along Grace Street.

BACKGROUND

In 1985, the City adopted an ordinance providing for the establishment of Residential Parking Permit Districts. The purpose of such districts is to reduce traffic congestion resulting from the use of parking within residential districts by persons not residing within the district, to protect the residents of these districts from an unreasonable burden in gaining access to their residences, to preserve the character of such districts as residential districts, and other various purposes. A Residential Parking Permit District designation can be made only after a petition of residents representing 60 percent (60%) of the dwelling units in a proposed area is received, a parking study is conducted by the City Engineer, and a public hearing is held by the City Council.

To be eligible for a RPPD designation, the proposed district must include at least four (4) block faces or contain 50 parking spaces, must have at least 80 percent (80%) of the curbside parking utilized during peak periods, and must have at least 25 percent (25%) of such utilization by non-residents of the area. A petition may be considered for an area which contains less than four (4) adjacent block faces or fifty (50) curb parking spaces if there are extenuating conditions that render such requirement unreasonable. Upon the recommendation of the City Manager, such requirement may be waived by the City Council if it finds that the proposed residential district is isolated or separated from other residential areas by topographical features or by commercial area. Upon designation as an RPPD, no one can park curbside in the district during the restricted hours without a residential or guest parking permit.

Amendments to an existing district are governed by established procedures to ensure consistency and neighborhood support. Requests to expand or reduce a district must be submitted to the City Manager through a petition signed by an adult representative of at

least 60 percent (60%) of the affected residential dwelling units. Changes to the days or times of restrictions must follow the same standards required for creating a new district. Proposed boundary adjustments must generally include a minimum of two block faces, unless unique circumstances make that requirement impractical. Any approved expansion will adopt the same parking restriction days and times as the existing district to maintain uniformity.

DISCUSSION

The petition, which was submitted on December 8, 2025, represents in excess of 60 percent (60%) of the dwelling units along Grace Street between Ida Street and N. Grandview Avenue as is required under the ordinance. This proposed area is from 1830 Grace Street, where the last RPPD sign is placed, to 1730 Grace Street. This would be classified as shorter than two block faces, although from the City's parking study of this area indicates that during the requested time period, at least 80 percent (80%) of the curbside spaces were utilized, and at least 25 percent (25%) of such curbside parking spaces were utilized by non-resident parkers. The existing RPPD hours are 7:30 a.m. to 11 p.m. except Sundays and holidays. The petition, therefore, meets the requirements of the RPPD amendment ordinance.

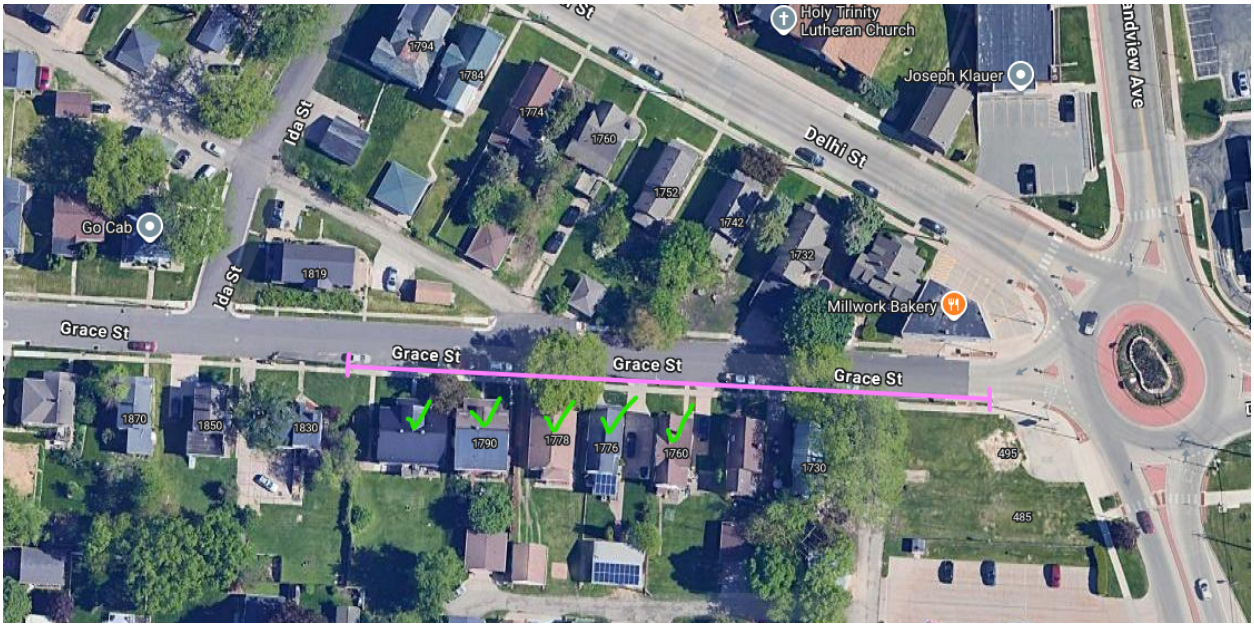

Figure 1. Proposed extension of District A along Grace St.

Attached is the cover letter that accompanied the petition and the petition request from the requester at 1808 Grace Street.

BUDGET IMPACT

The estimate of probable cost for the amendment to District A is summarized in the following table:

Description	Cost Estimate
Signage – additional installation	$250.00
Total Cost Estimate	**$ 250.00**

RECOMMENDATION

I respectfully request the City Council set a public hearing for April 20, 2026, to approve the amendment for the RPPD for District A along Grace Street.

RESOLUTION NO.

RESOLUTION SETTING A PUBLIC HEARING ON AMENDING RESIDENTIAL PARKING PERMIT DISTRICT A TO INCLUDE GRACE STREET FROM NORTH GRANDVIEW AVENUE TO NORTH ALGONA STREET

WHEREAS, Section 9-14-321.733 of the Code of Ordinances (the Code) established Residential Parking Permit District A; and

WHEREAS, the City Manager, pursuant to Section 9-14-321.722(E) of the Code, received a petition containing the signatures of an adult member of at least sixty percent (60%) of the dwelling units in the residential area proposed for expansion to the district, requesting that Residential Parking Permit District A be expanded to include the following area:

Grace Street, from North Grandview Avenue to North Algona Street (the area); and

WHEREAS, pursuant to Section 9-14-321.722(B) of the Code, the City Manager caused a parking study of the area identified in the petition to be conducted; and

WHEREAS, the study met the conditions of Section 9-14-321.722(B)(5) of the Code; and

WHEREAS, the City Manager, in accordance with Section 9-14-321.722(C) of the Code, recommends that Residential Parking Permit District A be amended to include the area identified in the petition, subject to the required public hearing.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA, AS FOLLOWS:

Section 1. That the City Clerk be authorized and directed to publish a notice of a public hearing on expanding Residential Parking Permit District A to include Grace Street, from North Grandview Avenue to North Algona Street, to be held on April 20, 2026, at 6:30 p.m.

Section 2. The City Council will meet and said time and place for the purpose of taking action on the matter of the petition received to amend Residential Parking Permit District A.

Passed, approved and adopted this _6th day of _April__, _2026____.

Attest: Brad M. Cavanagh, Mayor

Adrienne N. Breitfelder, City Clerk

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the Dubuque City Council will conduct a public hearing on the 20 day of April, 2026, at 6:30 p.m., in the Historic Federal Building, 350 W. 6th Street, 2nd floor, Dubuque, Iowa, at which meeting the City Council proposes to adopt the Residential Parking Permit District Amendment for District A.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April 2026.

Adrienne N. Breitfelder, CMC, City Clerk

I, Abraham Grutz, am typing this cover letter to clarify why I would like to extend district A reserved parking to the end of Grace St.

This petition is very important to my neighbors and myself as well as my 57 year old mother. There are no shortage of reasons why moving this sign would be beneficial for the whole block.

Living by a school, greatly reduces the number of parking spots in front of my house when I get off work. Almost every day, not including summer and major holidays, I expect there to be no spots. Either these students will double park, or park bumper to bumper leading to being boxed in. I've had to call into work multiple times because of this.

Neighbors of mine have had to call the cops to get vehicles towed away because they're driveways will sometimes also be blocked because everyone tries to squeeze in. even if the vehicles don't block their driveways, they park extremely close which makes it really difficult to see around and pull out. This also makes it impossible for our trash to be picked up by the city. When we pull our trash into the street to make sure it gets taken, these students will move them.. This happened three weeks in a row. I live in one of about three houses or so on the street, without a driveway. So I greatly depend on open spots for my mother, other neighbors in the apartment building and myself. When there are no spaces, this forces us to park in the church parking lot on Grandview. This gets frustrating, especially when my mother with health problems needs to walk a couple hundred feet to get home. You can only park on one side of the street.

In the winter, I fear shoveling out spaces in front of my house, knowing full well they will be taken by these students. That goes for all of my neighbors. So I was told when getting petition signed. They were all overjoyed when I came by with this petition.

This is all an even bigger hassle when in the winter, snow banks take up even more spaces. Realistically in the winter, with all of the snow banks, and driveway entrances, you maybe could fit ten vehicles on the street. All year round, the whole street, starting at my house and up is completely vacant. When you get to my house, there are a huge, overwhelming cluster of vehicles. This does not make sense to me.

This ordeal, is extremely important to my whole block. If this petition gets passed, it would save me and my neighbors a lot of stress.

CITY OF DUBUQUE, IOWA

PETITION FOR RESIDENTIAL PARKING PERMIT DISTRICT AMENDMENT

AREA ADDITION

We, the undersigned citizens, respectfully petition the City Council to amend Resident Parking Permit District "A" by ADDING an area to this existing district as established in City Ordinance.

Amendment to existing district is as follows:

Street(s) within existing District "A" include:

Grace St between 1998 Grace St and 1850 Grace St.

District "A" has the following day/time parking restrictions:

7:30A - 11P except Sundays + Holidays.

Street(s) to be ADDED to existing District "A" include:

Continue along Grace St from 1830 Grace St to end at N. Grandview Ave, (1730 Grace St.)

We sign with the knowledge that the ADDED area will inherit the same days/times for parking restrictions as established within the current district. If approved, participation in the program is manadatory, only those vehicles with a permit shall be permitted to park curbside in the district during the restricted hours.

All existing criteria of City Ordinance will remain in affect, which include the following:

An annual fee shall be charged per vehicle for a Residential Parking Permit; not more than two (2) Residential Parking Permits shall be issued to any dwelling unit; and only vehicles with a permit shall be allowed to park curb side in the district between the hours identified above and as identified by City Council. Guest Permits will be issued in accordance with the City of Dubuque Code of Ordinances.
(The annual fee and Code of Ordinance is subject to change by City Council action)

Information to be submitted include:

- *Cover letter explaining request;*
- *Map showing the boundaries of the proposed area to be ADDED to the existing district;*
- *Petition that includes signatures from one adult member of at least sixty percent (60%) of the dwelling units in the area to be ADDED.*

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Grant of Easement to Holy Family Catholic Schools, Dubuque, Iowa

DATE: March 31, 2026

City Engineer Gus Psihoyos is recommending City Council set a public hearing on April 20, 2026, for disposal of City interest by the granting of a Storm Water Detention Basin and Sports Field Easement to Holy Family Catholic Schools (HFCS), Dubuque, Iowa, as part of a proposed Wahlert campus improvements project.

HCFS is currently planning a large-scale campus improvement project affecting most of the Wahlert campus north of the existing school building complex. The improvements include site grading, new tennis courts, baseball fields, football field, track and field facilities, practice field, and storm water detention facilities. Due to space limitations and the existing storm water drainage patterns of the area, HCFS is requesting an easement over a portion of the western side of the Veteran's Memorial Park property for the proposed storm water detention basin and sports field encroachments (please see Area Map attached to this memo). Portions of the private improvements are proposed to be located on City park property between the HFCS eastern property boundary and the park's frisbee golf course.

HFCS will be responsible for all maintenance associated with the private improvements on City property. City is reserving the right to install utilities in the easement area, as long as they do not interfere with the HFCS easement uses. The attached exhibits show the City owned property and the proposed easement to HFCS.

Parks and Recreation and Engineering department staff have reviewed the plan and determined that the proposed easement area is not needed for any current or future plans for the park. The proposed storm water detention facility will benefit the City park property in that the runoff will be controlled which will help reduce the erosion/washout issues that the west side of the park is currently experiencing.

I concur with the recommendation and respectfully request Mayor and City Council approval.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: Michael C. Van Milligen, City Manager

FROM: Gus Psihoyos, City Engineer

SUBJECT: Grant of Easement to Holy Family Catholic Schools, Dubuque, Iowa

DATE: March 30, 2026

INTRODUCTION

This is in response to a request from Holy Family Catholic Schools, Dubuque, Iowa (HFCS) for the granting of a Storm Water Detention Basin and Sports Field Easement across City owned property in Veterans Memorial Park as part of a proposed Wahlert campus improvements project.

DISCUSSION

HCFS is currently planning a large-scale campus improvement project affecting most of the Wahlert campus north of the existing school building complex. The improvements include site grading, new tennis courts, baseball fields, football field, track and field facilities, practice field, and storm water detention facilities. Due to space limitations and the existing storm water drainage patterns of the area, HCFS is requesting an easement over a portion of the western side of the Veteran's Memorial Park property for the proposed storm water detention basin and sports field encroachments (please see Area Map attached to this memo). Portions of the private improvements are proposed to be located on City park property between the HFCS eastern property boundary and the park's frisbee golf course.

HFCS will be responsible for all maintenance associated with the private improvements on City property. City is reserving the right to install utilities in the easement area, as long as they do not interfere with the HFCS easement uses. The attached exhibits show the City owned property and the proposed easement to HFCS.

Parks and Recreation and Engineering department staff have reviewed the plan and determined that the proposed easement area is not needed for any current or future plans for the park. The proposed storm water detention facility will benefit the City park property in that the runoff will be controlled which will help reduce the erosion/washout issues that the west side of the park is currently experiencing.

RECOMMENDATION

I would recommend that the Grant of a Storm Water Detention Basin and Sports Field Easement to HFCS over the City owned property in Veterans Memorial Park be forwarded to City Council to be set for public hearing.

ACTION REQUESTED

The attached resolution should be submitted to the City Council for consideration and to set a public hearing on April 20th, 2026 for disposal of City interest by the granting of a Storm Water Detention Basin and Sports Field Easement to Holy Family Catholic Schools, Dubuque, Iowa.

RESOLUTION NO.___-26

RESOLUTION OF INTENT TO DISPOSE OF CITY INTEREST BY GRANT OF STORM WATER DETENTION BASIN AND SPORTS FIELD EASEMENT TO HOLY FAMILY CATHOLIC SCHOOLS, DUBUQUE, IOWA, ACROSS PART OF LOT 2 OF THE NE 1/4 OF THE SE 1/4 IN SECTION 15, TOWNSHIP 89 NORTH, RANGE 2 EAST AND PART OF LOT 1 OF MINERAL LOT 383, ALL IN THE CITY OF DUBUQUE, IOWA

Whereas, Holy Family Catholic Schools, Dubuque, Iowa (HFCS) has requested a Grant of Storm Water Detention Basin and Sports Field Easement across PART OF LOT 2 OF THE NE1/4 OF THE SE1/4 IN SECTION 15, TOWNSHIP 89 NORTH, RANGE 2 EAST AND PART OF LOT 1 OF MINERAL LOT 383 ALL IN THE CITY OF DUBUQUE, IOWA, for a storm water detention basin and sports field; and

Whereas, Origin Design has prepared and submitted to the City Council an exhibit showing the easement area for the proposed storm water detention basin and sports field across PART OF LOT 2 OF THE NE1/4 OF THE SE1/4 IN SECTION 15, TOWNSHIP 89 NORTH, RANGE 2 EAST AND PART OF LOT 1 OF MINERAL LOT 383 ALL IN THE CITY OF DUBUQUE, IOWA.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1. That the City of Dubuque intends to grant Storm Water Detention Basin and Sports Field Easement to HFCS across PART OF LOT 2 OF THE NE1/4 OF THE SE1/4 IN SECTION 15, TOWNSHIP 89 NORTH, RANGE 2 EAST AND PART OF LOT 1 OF MINERAL LOT 383 ALL IN THE CITY OF DUBUQUE, IOWA, as shown on the attached Exhibit A.

Section 2. That a public hearing on the intent to dispose of City interest by Grant of Storm Water Detention Basin and Sports Field Easement to HFCS PART OF LOT 2 OF THE NE1/4 OF THE SE1/4 IN SECTION 15, TOWNSHIP 89 NORTH, RANGE 2 EAST AND PART OF LOT 1 OF MINERAL LOT 383 ALL IN THE CITY OF DUBUQUE, IOWA, is hereby set for the 20th day of April 2026, at the Historic Federal Building (and/or by virtual means), 350 W. 6th Street, Dubuque, Iowa, beginning at 6:30 p.m., and the City Clerk be and is hereby authorized and directed to cause a notice of public hearing on the intent to dispose of said interest to be published in the manner as prescribed by law.

Passed, approved and adopted this 6th day of April 2026.

GRANT OF STORM WATER DETENTION BASIN AND SPORTS FIELD EASEMENT

For and in consideration of the sum of One Dollar ($1.00) and other good and valuable consideration, the receipt whereof is hereby acknowledged, the City of Dubuque ("Grantor"), of Dubuque County, State of Iowa, does hereby grant, sell and convey to Holy Family Catholic Schools, Dubuque, Iowa ("Grantee"), its lessees, licensees, successors and assigns, from the date hereof, an easement through, under and across the following described real estate situated in Dubuque, Iowa, to wit:
PART OF LOT 2 OF THE NE1/4 OF THE SE1/4 IN SECTION 15, TOWNSHIP 89 NORTH, RANGE 2 EAST AND PART OF LOT 1 OF MINERAL LOT 383 ALL IN THE CITY OF DUBUQUE, IOWA

Said easement shall be as shown on the attached Easement Exhibit A, for the purpose of constructing and maintaining a storm water detention basin facility and sports practice field, and appurtenances, fencing and security, trees, landscaping, as shown in the approved Site Plan on file with the City Engineer (the Improvements), along with the right, privilege and authority to survey, inspect, construct, reconstruct, alter, maintain, repair, replace, patrol and remove said Improvements. Said easement shall also include the right to cut, trim or remove trees, bushes and roots as may be required incident to rights given herein. Along with the right to occupy the temporary easement area(s) as shown on the attached Easement Exhibit A until the completion of the project Improvements. The temporary easement shall expire after completion and inspection of the Improvements by City.

Grantee is solely responsible for the maintenance of the Improvements in the easement area and shall keep the area in an orderly fashion, including turf

maintenance and mowing. Grantee, its successors and assigns, agrees to pay for any damage caused to the land, fences, or other personal property of Grantor from the construction or maintenance of said Improvements. Notwithstanding the foregoing, Grantor shall be solely responsible for the maintenance of the any Improvements it constructs in the non-exclusive easement area. Grantor, its successors and assigns, agrees to pay for any damage caused to Grantee's Improvements from the construction or maintenance of any such additional improvements by Grantor in the easement area.

If either party fails to maintain their respective Improvements, as defined above, after written notice to the such party, the non-defaulting party may take such action as it deems necessary and submit any costs and expenses for such maintenance to the defaulting party, which party shall reimburse the non-defaulting party for such costs and expenses promptly upon receipt of a statement for such costs and expenses.

The City reserves unto itself the perpetual right for the purpose of erecting, installing, constructing, reconstructing, maintaining, owning, operating and repair of storm and sanitary sewers, watermain, gas, telephone, television, fiber optics cable, and electrical lines above or below said private Improvements as such utilities would not interfere with the existence and maintenance of the Improvements.

Indemnification. Grantee shall defend, indemnify and hold harmless Grantor, its officers, agents and employees from and against any claim and cost of any kind, including without limitation, attorneys' fees and consulting fees, arising out any surveying, inspection, construction, reconstruction, alteration, replacement, maintenance, repair, patrol or removal of said Improvements. This obligation shall survive the termination of this Grant of Easement. Grantor shall defend, indemnify and hold harmless Grantee, its officers and employees from and against any claim and cost of any kind, including without limitation, attorneys' fees and consulting fees, arising out Grantor's negligence in the performance of this Grant of Easement.

Insurance. Grantee shall provide insurance as set forth in the attached Insurance Schedule during surveying, inspection, construction, reconstruction, alteration replacement, maintenance, repair, patrol or removal of said Improvements.

Modification and Termination. This agreement may not be modified or terminated except by written agreement of the parties.

To have and to hold unto the said Grantee forever, and the undersigned does hereby expressly covenant that Grantor is the owner in fee of said real estate and has good right to execute this Grant of Embankment Easement.

INSURANCE SCHEDULE

CITY - INSURANCE SCHEDULE A

1. Lessee shall furnish a signed certificate of insurance to the City of Dubuque for the coverage required in Exhibit I prior to the lease, license, or permit commencement. All lessees of City property and right of way licensees or permittees shall submit an updated certificate annually. Each certificate shall be prepared on the most current ACORD form approved by the Iowa Insurance Division or an equivalent. Each certificate shall include a statement under Description of Operations as to why the certificate was issued. Lease Agreement dated _____.

2. All policies of insurance required hereunder shall be with an insurer authorized to do business in Iowa and all insurers shall have a rating of A or better in the current A.M. Best's Rating Guide.

3. Each certificate shall be furnished to: City of Dubuque, Finance Department, 50 W. 13th Street, Dubuque, Iowa, 52001.

4. The lessee, licensee, or permittee shall be required to carry the minimum coverage/limits, or greater if required by law or other legal agreement, in Exhibit I. Failure to provide the required minimum coverage shall not be deemed a waiver of such requirements by the City of Dubuque.

5. Failure to obtain or maintain the required insurance shall be considered a material breach of the lease, license, or permit.

6. All required endorsements shall be attached to the certificate. The certificate is due before the contract/agreement can be approved.

7. Whenever a specific ISO form is referenced the current edition of the form must be used unless an equivalent form is approved by the Chief Financial Officer. The lessee, licensee, or permittee must identify and list in writing all deviations and exclusions from the ISO form.

8. If lessee's, licensee's, or permittee's limits of liability are higher than the required minimum limits then the lessee's, licensee's, or permittee's limits shall be this agreement's required limits.

9. Lessee, licensee, or permittee shall require all subcontractors and subcontractors to obtain and maintain during the performance of work insurance for the coverages described in this Insurance Schedule and shall obtain certificates of insurance from all such subcontractors and sub-subcontractors. Lessee, licensee, or permittee agrees that it shall be liable for the failure of a subcontractor and sub-subcontractor to obtain and maintain such coverage. The City of Dubuque may request a copy of such certificates from the lessee, licensee, or permittee.

10. Lessee, license, and permittees shall be responsible for deductibles and self-insured retention for payment of all policy premiums and other costs associated with the insurance policies required below.

11. All certificates of insurance must include the agent's name, phone number, and email address.

12. The City of Dubuque reserves the right to require complete, certified copies of all required insurance policies, including endorsements, required by this Schedule at any time.

13. The City of Dubuque reserves the right to modify these requirements, including limits, based on changes in risk or other special circumstances during the term of the agreement, subject to written mutual agreement attached hereto.

INSURANCE SCHEDULE A (continued)

EXHIBIT I

A. COMMERCIAL GENERAL LIABILITY

All deviations from the standard ISO commercial general liability form CG 00 01, or business owners form BP 0002, shall be clearly identified.
2) Include ISO endorsement form CG 25 04 "Designated Location(s) General Aggregate Limit."
3) Include endorsement indicating that coverage is primary and noncontributory.
4) Include Preservation of Governmental Immunities Endorsement (sample attached).
5) Include additional insured endorsement for:
   The City of Dubuque, including all its elected and appointed officials, all its employees and volunteers, all its boards, commissions and/or authorities and their board members, employees and volunteers. Use ISO form CG 20 10 (ongoing operations) or its equivalent.
6) Policy shall include Waiver of Right to Recover from Others Endorsement.
7) Policy shall include cancellation and material change endorsement providing thirty (30) days advance written notice of cancellation, non-renewal, reduction in insurance coverage and/or limits and ten (10) days written notice of non-payment of premium shall be sent to: City of Dubuque, Finance Department, 50th W. 13th Street, Dubuque, Iowa, 52001.

B. WORKERS' COMPENSATION & EMPLOYERS LIABILITY

Statutory benefits covering all employees injured on the job by accident or disease as prescribed by Iowa Code Chapter 85.

Coverage A	Statutory – State of Iowa	
Coverage B	Employers Liability	
	Each Accident	$100,000
	Each Employee - Disease	$100,000
	Policy Limit – Disease	$500,000

Policy shall include Waiver of right to Recover from Others Endorsement.

INSURANCE SCHEDULE A

(continued)

Coverage B limits shall be greater if required by the umbrella/excess insurer.

OR

If, by Iowa Code Section 85.1A, the lessee, licensee, or permittee is not required to purchase Workers' Compensation Insurance, the lessee, licensee, or permittee shall have a copy of the State's Nonelection of Workers' Compensation or Employers' Liability Coverage form on file with the Iowa Workers' Compensation Insurance Commissioner, as required by Iowa Code Section 87.22. Completed form must be attached.

C. AUTOMOBILE LIABILITY

Coverage Required: _____ Yes _____ No

Combined Single Limit $1,000,000

Coverage shall include all owned, non-owned, and hired vehicles. If permittees do not own any vehicles, coverage is required on non-owned and hired vehicles.

1) Policy shall include Waiver of Right to Recover from Others Endorsement.

D. POLLUTION LIABILITY

Coverage Required: _____ Yes _____ No

Pollution liability coverage shall be required if the lessee, contracting party, or permittee has any pollution exposure for abatement of hazardous or contaminated materials including, but not limited to, petroleum products, the removal of lead, asbestos, or PCBs. Pollution product and completed operations coverage shall also be covered.

Each Occurrence	$2,000,000
Policy Aggregate	$4,000,000

1) Policy to include job site and transportation coverage.
2) Include additional insured for:
   The City of Dubuque, including all its elected and appointed officials, all its employees and volunteers, all its boards, commissions and/or authorities and their board members, employees and volunteers. Use ISO from GC 20 10 (ongoing operations) or its equivalent and CG 20 37 (completed operations) or its equivalent.
3) Include Preservation of Governmental Immunities Endorsement.
4) Provide evidence of coverage for 5 years after completion of project.
5) Include endorsement indicating that coverage is primary and non-contributory.
6) Policy shall include Waiver of Right to Recovery from Others Endorsement.

INSURANCE SCHEDULE A

(continued)

E. PROPERTY INSURANCE REQUIRED BY LEASE, LICENSE, OR PERMIT

Include the City of Dubuque as Lendor Loss Payable.

F. RIGHT-OF-WAY WORK ONLY:

UMBRELLA/EXCESS $1,000,000

_____ Yes _____ No

The General Liability, Automobile Liability, and Employers Liability insurance requirements may be satisfied with a combination of primary and Umbrella or Excess Liability Insurance. If the Umbrella or Excess Insurance policy does not follow the form of the primary policies, it shall include the same endorsements as required of the primary policies including Waiver of Subrogation AND Primary and Non-contributory in favor of the City.

G. FLOOD INSURANCE:

_____ Yes _____ No

If Required Coverage: $ _____

Iowa Code Chapter 670, Liability of Governmental Subdivisions, provides cities with certain immunities which may be available to you. Naming the City of Dubuque as an additional insured on your insurance as is requested by this Insurance Schedule may result in your waiver of those immunities. If you would like to preserve those immunities, please use this endorsement or an equivalent form. The preservation of immunities is for your benefit.

PRESERVATION OF GOVERNMENTAL IMMUNITIES ENDORSEMENT

1. Nonwaiver of Governmental Immunity. The insurer expressly agrees and states that the purchase of this policy and the including of the City of Dubuque, Iowa, as an additional insured does not waive any of the defenses of governmental immunity available to the City of Dubuque, Iowa under Code of Iowa Section 670.4 as it is now exists and as it may be amended from time to time.

2. Claims Coverage. The insurer further agrees that this policy of insurance shall cover only those claims not subject to the defense governmental immunity under the Code of Iowa Section 670.4 as it now exists and as it may be amended from time to time. Those claims not subject to Code of Iowa Section 670.4 shall be covered by the terms and conditions of this insurance policy.

3. Assertion of Government Immunity. City of Dubuque, Iowa shall be responsible for asserting any defense of governmental immunity, and may do so at any time and shall do so upon the timely written request of the insurer.

4. Non-Denial of Coverage. The insurer shall not deny coverage under this policy and the insurer shall not deny any of the rights and benefits accruing to the City of Dubuque, Iowa under this policy for reasons of governmental immunity unless and until a court of competent jurisdiction has ruled in favor of the defense(s) of governmental immunity asserted by the City of Dubuque, Iowa.

5. No Other Change in Policy. The above preservation of governmental immunities shall not otherwise change or alter the coverage available under the policy.

Schedule - ADDITIONAL PROTECTED PERSON(S)

City of Dubuque
50 W. 13th Street
Dubuque, IA 52001

Remarks:
Coverage only extends to City of Dubuque including all its elected & appointed officials, all its employees & volunteers, all its boards, commissions and/or authorities & their board members, employees & volunteers for claims arising out of Holy Family Catholic Schools grant agreement for storm water detention basin and sports field easement. Coverage is primary and non-contributory. Holder of Certificate is included as additional protected, but only with respect to liability arising from negligence of Holy Family Catholic Schools. Any cancellation or material change will be conveyed to the City of Dubuque within 30 days of event.

However, the following limitations apply to coverage:

1. The maximum limits of coverage provided by Catholic Mutual Relief Society of America to the ***Additional Protected Person(s)*** named in this endorsement shall not exceed the coverage dollar amount specifically required by contract or agreement and agreed to by the ***Protected Person(s)***. In the absence of specific coverage limits within a referenced contract or agreement, the limits of liability afforded to the ***Additional Protected Person(s)*** must be listed on a separate Certificate of Coverage form attached to this endorsement. All limits of liability extended by this endorsement are inclusive of both Section II Coverage D and Section VII coverages (if applicable).
2. Unless specifically agreed to by contract or agreement, the coverage extended to the ***Additional Protected Person(s)*** by this endorsement is excess and non-contributory over any other available coverage or insurance.
3. This endorsement does not apply to any ***Occurrence*** outside the specific date(s) of a facility use agreement or terms of a lease.
4. This endorsement does not extend coverage to the ***Additional Protected Person(s)*** for ***Occurrences*** which cannot be attributed to primary acts or omissions of the ***Protected Person(s)***.
5. Provided that a premises is utilized by the ***Protected Person(s)*** in a manner consistent with its intended purpose and in accordance with the applicable contract, agreement, or lease, this endorsement does not extend coverage to the ***Additional Protected Person(s)*** for premises defects or other ***Occurrences*** which could not be discovered by the ***Protected Person(s)*** with reasonable diligence.
6. The limited coverage afforded to the ***Additional Protected Person(s)*** by this endorsement only applies to the extent permissible by law and shall not apply to non-delegable duties unless specifically agreed to by contract or agreement.

This extension of coverage shall not enlarge the scope of coverage provided to the ***Certificate Holder*** under this Certificate nor increase the limit of liability thereunder. Unless otherwise agreed by contract or agreement, coverage extended under this endorsement to the ***Additional Protected Person(s)*** will not precede the effective date of this endorsement or extend beyond the cancellation date.

TO: Michael C. Van Milligen, City Manager

FROM: Matthew K. Kalcevich, Parks and Recreation Director

SUBJECT: Setting a Public Hearing for a Lease Agreement by and Between the City of Dubuque, Iowa and the Dubuque Children's Zoo Boosters, Inc.

DATE: April 1, 2026

INTRODUCTION

The purpose of this memo is to request the City Council to adopt the attached resolution to set a public hearing for April 20, 2026, for a Lease Agreement between the City of Dubuque, Iowa and the Dubuque Children's Zoo Boosters, Inc.

BACKGROUND

The City's current lease agreement with Dubuque Children's Zoo Boosters, Inc. is in full effect and expires on April 30, 2026.

DISCUSSION

The Dubuque Children's Zoo Boosters, Inc. leases approximately 10 acres of FDR Park on North Cascade Road to operate the Storybook Hill Children's Zoo. This area has been leased to the Zoo Boosters for many years. The Zoo has become one of the treasures of the community.

The current lease agreement executed in 2019 is a (1) one-year lease with five (5) one-year renewal terms and will expire on April 30, 2026. The proposed lease is a (1) one-year lease with five (5) one-year renewal terms and would expire on April 30, 2032, if annually renewed.

The proposed lease agreement was reviewed, updated, and approved by the City's Legal Department. The proposed lease agreement has also been reviewed, approved, and signed by the Dubuque Children's Zoo Boosters, Inc.

The Parks and Recreation Commission reviewed the proposed lease agreement and unanimously approved at their March 10, 2026, meeting.

ACTION REQUESTED

I respectfully request the City Council adopt the attached resolution setting a public hearing for April 20, 2026, for a Lease Agreement between the City of Dubuque, Iowa and the Dubuque Children's Zoo Boosters, Inc.

RESOLUTION NO. -26

SETTING A PUBLIC HEARING TO CONSIDER THE LEASE AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE AND DUBUQUE CHILDREN'S ZOO BOOSTERS, INC. FOR REAL PROPERTY LOCATED IN THE CITY OF DUBUQUE, IOWA

WHEREAS, the City of Dubuque, Iowa (City) has tentatively entered into a Lease Agreement with Dubuque Children's Zoo Boosters, Inc. subject to City Council approval, under which Dubuque Children's Zoo Boosters, Inc. will lease the following-described real property on 14000 N Cascade Road in Dubuque County, Iowa (the Property):

Franklin Delano Roosevelt Park: Lot 1 of the west half of the northeast one-quarter of Section 4, Township 88 North, Range 2 East of fifth principal meridian in Dubuque County, Iowa and Mineral Lots 272 and 273, Lot 1 of Mineral Lot 271, Lot 1 of Mineral Lot 274, and Lot 1 of Mineral Lot 276 in Dubuque Township, Dubuque County, Iowa; and

WHEREAS, Dubuque Children's Zoo Boosters, Inc. desires to lease the property for a term of one-year with five (5) renewable one-year terms during the lease period and continue to operate the children's zoo; and

WHEREAS, it is deemed to be in the best interest of both parties and to the public in general that the Dubuque Children's Zoo Boosters, Inc. lease and operate the children's zoo; and

WHEREAS, the City Council finds that it is in the best interest of the City of Dubuque to approve the Lease Agreement, subject to the required public hearing.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA, AS FOLLOWS:

Section 1. The City Clerk is hereby authorized and directed to cause this Resolution and a Notice to be published as prescribed by Iowa Code Section 364.7 of a public hearing on the City Council's intent to approve the proposed Lease Agreement, to be held on the 20th day of April, 2026 at 6:30 p.m., to be held at 350 West 6th Street, for the purpose of receiving public input and comment regarding the proposed Lease Agreement between the City of Dubuque and Dubuque Children's Zoo Boosters, Inc.

Section 2. The City Council will meet at said time and place for the purpose of taking action on the matter of authorizing the Lease Agreement by and between the City of Dubuque, Iowa and Dubuque Children's Zoo Boosters, Inc.

Section 3. The City Clerk is hereby directed to cause at least one publication to be made of a notice of said meeting, in a newspaper, printed wholly in the English language, published at least once weekly, and having general circulation in said City, said publication to be not less than four days nor more than twenty days before the date of said meeting.

Passed, approved and adopted this 6th day of April, 2026.

Attest:

Brad M. Cavanagh, Mayor

Adrienne N. Breitfelder, City Clerk

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the City Council of the City of Dubuque, Iowa, will hold a public hearing on the 20th day of April, 2026 at 6:30 p.m. in the Historic Federal Building, 350 West 6th Street, second floor, Dubuque, Iowa, at which meeting the City Council proposes to approve a Lease Agreement between the City of Dubuque, Iowa and the Dubuque Children's Zoo Boosters, Inc.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April, 2026.

Adrienne N. Breitfelder, CMC, City Clerk

LEASE AGREEMENT
BETWEEN
THE CITY OF DUBUQUE, IOWA
AND
DUBUQUE CHILDREN'S ZOO BOOSTERS, INC.

THIS LEASE AGREEMENT, dated for reference purposes the _____ day of _____, 2026, is made and entered into by and between the City of Dubuque, Iowa (the "City"), whose address for the purpose of this Lease Agreement is 2200 Bunker Hill Road, Dubuque, Iowa, and Dubuque Children's Zoo Boosters, Inc. (Zoo Boosters), whose address for the purpose of this Lease Agreement is 1610 Lori Ct., Dubuque, Iowa.

WHEREAS, City is the owner of a public facility known, called, and named Franklin D. Roosevelt Park (the "Park"); and

WHEREAS, Zoo Boosters desires to lease a section of the Park shown on Exhibit A (the "Leased Premises") from City to operate a children's zoo (the "Zoo"); and

WHEREAS, it is deemed to be in the best interest of both parties to this Lease Agreement and to the public in general that Zoo Boosters lease the Leased Premises.

NOW, THEREFORE, the parties hereto mutually agree as follows:

SECTION 1. TERM OF LEASE AGREEMENT. This Lease Agreement is for a term of one (1) year commencing May 1, 2026, and terminating at midnight on April 30, 2027. This Lease Agreement shall automatically renew upon expiration from year-to-year, for a total of five (5) one-year renewal terms, upon the same terms and conditions, unless either party gives due and timely written notice of its desire to terminate this Lease Agreement pursuant to Section 13.2 of this Lease Agreement.

SECTION 2. RENT. The annual rental of one dollar ($1.00) must be paid to City by Zoo Boosters on or before the 1st day of May, 2026, and on or before May 1 of each renewal term.

SECTION 3. USE OF THE LEASED PREMISES. Zoo Boosters agree that during the term of the Lease Agreement, the Leased Premises will be used exclusively for zoo purposes. Animals displayed at the Leased Premises are limited to domestic/farm type animals. No animals may remain at the Leased Premises between October 1st and May 1st of each year of this Lease Agreement. Zoo Boosters may not allow the Leased Premises to be used by any other individuals, groups, organizations, or agencies without the prior written permission from City's Parks and Recreation Director.

SECTION 4. GROUNDS AND BUILDING MAINTENANCE.

4.1 Zoo Boosters is responsible for parking lot maintenance, well maintenance, and repair, septic system maintenance and repair, and playground and picnic area

development and maintenance at the Leased Premises and removal of trash from the Leased Premises. City will not provide trash pickup.

4.2 Zoo Boosters is responsible for all grounds maintenance and improvements, including but not limited to grass cutting, walkway, tree, flowerbed, and general grounds maintenance at the Leased Premises. Zoo Boosters must install, repair, and maintain fencing sufficient to prevent livestock from entering or exiting the Leased Premises.

4.3 Zoo Boosters is responsible for all building maintenance and improvements, including but not limited to interior and exterior building repair and painting, heating system maintenance, plumbing, electric, roof repair and maintenance, and pest control at the Leased Premises.

4.4 Any improvements made by Zoo Boosters must remain on the Leased Premises upon termination of this Lease Agreement, and will then become the property of City. Any proposed material improvements or modifications to the Leased Premises must be submitted in writing to the Parks and Recreation Director for approval, which approval may not be unreasonably withheld.

4.5 All improvements made by Zoo Boosters must be built, erected and maintained in strict conformity with all applicable federal, state, and municipal statutes and ordinances, and rules and regulations of the City of Dubuque Park and Recreation Commission.

SECTION 5. UTILITIES AND REFUSE. Zoo Boosters must pay the costs of all utilities serving the Leased Premises and must keep the Leased Premises free of litter and trash at all times.

SECTION 6. STAFFING. Zoo Boosters must provide competent and qualified staff under appropriate supervision to plan and implement its activities and to care for the Zoo.

SECTION 7. MANAGEMENT AND CONTROL. Zoo Boosters has the sole management authority and control of the Leased Premises.

SECTION 8. MONIES AND CONTRIBUTIONS. Zoo Boosters must use all monies and contributions derived from the use of the Leased Premises to operate, maintain, and improve the Zoo.

SECTION 9. CARE AND DISPLAY OF ANIMALS.

9.1 Zoo Boosters agree to comply with all federal, state, and local laws for the care of animals displayed at the Zoo. All federal, state, and local licenses or permits for the confinement and exhibition of animals must be obtained by Zoo Boosters and copies thereof must be furnished to City.

9.2 All animals must be displayed in a cage or pen in such a manner as to prevent human contact. The cage or pen must be fenced in such a manner to prevent humans from reaching into the cage or pen. The petting of animals by visitors to the Zoo must be

strictly prohibited, except for the petting of goats and horses, which may be displayed in such a way to allow petting. Any animal found dead must be removed by Zoo Boosters from the Leased Premises immediately.

SECTION 10. INSURANCE. Zoo Boosters must maintain at all times during the term of this Lease Agreement insurance as set forth in the attached Insurance Schedule A.

SECTION 11. INDEMNITY. Zoo Boosters agrees to indemnify and hold harmless City, its officers, and employees, from any and all damages or claims whatsoever, to persons or property, arising out of this Lease Agreement or by reason of Zoo Boosters' use or misuse of the Leased Premises.

SECTION 12. ASSIGNABILITY. Zoo Boosters may not assign or transfer any interest in this Lease Agreement without the prior written approval of City. Such prohibition includes contracts with third parties for the custody, management, or operation of the Leased Premises or any part thereof.

SECTION 13. TERMINATION.

13.1 In the event either party fails to keep, perform, or observe in a timely and proper manner any of its covenants or obligations under this Lease Agreement and any such violation is not cured or remedied within thirty (30) days after the date the party receives written notice from the other party of such failure or violation, or, if it is not practicable to cure or remedy such failure or violation within such thirty-day period, within such longer period as is reasonable under the circumstances, and as is specified in such notice, then, in such event, the other party may, at its option, terminate this Lease Agreement by written notice to the other. Upon termination, City has the right to enter the Leased Premises and assume exclusive use and control thereof.

13.2 This Lease Agreement may also be terminated by either party for any reason with or without cause upon sixty (60) days written notice delivered to the other party.

13.3 Upon termination of this Lease Agreement for any cause whatsoever, Zoo Boosters, at the option of City, agrees to surrender possession of the Leased Premises in its condition as when first leased or to restore the leased premises to substantially the same condition, ordinary wear and tear excepted.

SECTION 14. INSPECTIONS. City reserves the right to conduct periodic inspections of the Leased Premises for the purpose of determining whether the terms and conditions of this Lease Agreement are being promptly and faithfully performed by Zoo Boosters.

City of Dubuque Insurance Requirements for Lessees of City Property and Right of Way Licensees or Permittees

INSURANCE SCHEDULE A

1. Lessee shall furnish a signed certificate of insurance to the City of Dubuque, Iowa for the coverage required in Exhibit I prior to the lease, license, or permit commencement. All lessees of City property and right of way licensees or permittees shall submit an updated certificate annually. Each certificate shall be prepared on the most current ACORD form approved by the Iowa Insurance Division or an equivalent. Each certificate shall include a statement under Description of Operations as to why the certificate was issued. Lease Agreement dated _____.

2. All policies of insurance required hereunder shall be with an insurer authorized to do business in Iowa and all insurers shall have a rating of A or better in the current A.M. Best's Rating Guide.

3. Each certificate shall be furnished to the Finance Department of the City of Dubuque.

4. The lessee, licensee, or permittee shall be required to carry the minimum coverage/limits, or greater if required by law or other legal agreement, in Exhibit I. Failure to provide the required minimum coverage shall not be deemed a waiver of such requirements by the City of Dubuque.

5. Failure to obtain or maintain the required insurance shall be considered a material breach of the lease, license, or permit.

6. All required endorsements shall be attached to the certificate. The certificate is due before the contract/agreement can be approved.

7. Whenever a specific ISO form is referenced the current edition of the form must be used unless an equivalent form is approved by the Chief Financial Officer. The lessee, licensee, or permittee must identify and list in writing all deviations and exclusions from the ISO form.

8. If lessees, licensees, or permittee limits of liability are higher than the required minimum limits then the lessee's, licensee's, or permittee's limits shall be this agreement's required limits.

9. Lessee, licensee, or permittee shall require all subcontractors and subcontractors to obtain and maintain during the performance of work insurance for the coverages described in this Insurance Schedule and shall obtain certificates of insurance from all such subcontractors and sub-subcontractors. Lessee, licensee, or permittee agrees that it shall be liable for the failure of a subcontractor and sub-subcontractor to obtain and maintain such coverage. The City may request a copy of such certificates from the lessee, licensee, or permittee.

10. Lessee, license & permittees shall be responsible for deductibles and self-insured retention and for payment of all policy premiums and other costs associated with the insurance policies required below.

11. All certificates of insurance must include the agent's name, phone number and email address.

12. The City of Dubuque reserves the right to require complete, certified copies of all required insurance policies, including endorsements, required by this Schedule at any time.

13. The City of Dubuque reserves the right to modify these requirements, including limits, based on changes in risk or other special circumstances during the term of the agreement, subject to the written mutual agreement attached hereto.

INSURANCE SCHEDULE A (Continued)

EXHIBIT I

A) COMMERCIAL GENERAL LIABILITY

General Aggregate Limit	$2,000,000
Products-Completed Operations Aggregate Limit	$1,000,000

All deviations from the standard ISO commercial general liability form CG 0001, or Business owners form BP 00 02, shall be clearly identified.
2) Include ISO endorsement form CG 25 04 "Designated Location(s) General Aggregate Limit."
3) Include endorsement indicating that coverage is primary and non-contributory.
4) Include Preservation of Governmental Immunities Endorsement (Sample attached).
5) Include additional insured endorsement for:
   The City of Dubuque, including all its elected and appointed officials, all its employees and volunteers, all its boards, commissions and/or authorities and their board members, employees and volunteers. Use ISO form CG 20 10 (Ongoing operations) or its equivalent.
6) Policy shall include Waiver of Right to Recover from Others Endorsement.
7) Policy shall include cancellation and material change endorsement providing thirty (30) days advance written notice of cancellation, non-renewal, reduction in insurance coverage and/or limits and ten (10) days written notice of non-payment of premium shall be sent to: City of Dubuque Finance Department, 50 West 13th Street Dubuque, Iowa 52001

B) WORKERS' COMPENSATION & EMPLOYERS LIABILITY

Statutory Benefits covering all employees injured on the job by accident or disease as prescribed by Iowa Code Chapter 85.

Coverage A	Statutory—State of Iowa	
Coverage B	Employers Liability	
	Each Accident	$100,000
	Each Employee-Disease	$100,000
	Policy Limit-Disease	$500,000

Policy shall include Waiver of Right to Recover from Others endorsement.

Coverage B limits shall be greater if required by the umbrella/excess insurer.

OR

If, by Iowa Code Section 85.1A, the lessee, licensee, or permittee is not required to purchase Workers' Compensation Insurance, the lessee, licensee, or permittee shall have a copy of the State's Nonelection of Workers' Compensation or Employers' Liability

Coverage form on file with the Iowa Workers' Compensation Insurance Commissioner, as required by Iowa Code Section 87.22. Completed form must be attached.

C) AUTOMOBILE LIABILITY

Coverage required: ___ Yes X No

Combined Single Limit $1,000,000

Coverage shall include all owned, non-owned, and hired vehicles. If permittees do not own any vehicles, coverage is required on non-owned and hired vehicles.

1) Policy shall include Waiver of Right to Recover from Others endorsement.

D) POLLUTION LIABILITY

Coverage required: ___ Yes X No

Pollution liability coverage shall be required if the lessee, contracting party, or permittee has any pollution exposure for the abatement of hazardous or contaminated materials including, but not limited to, petroleum products, the removal of lead, asbestos, or PCBs. Pollution products and completed operations coverage shall also be covered.

Each occurrence	$2,000,000
Policy Aggregate	$4,000,000

1) Policy to include job site and transportation coverage.
2) Include additional insured for:
   The City of Dubuque, including all its elected and appointed officials, all its employees and volunteers, all its boards, commissions and/or authorities and their board members, employees and volunteers. Use ISO form CG 2010. (Ongoing operations) or its equivalent and CG2037(completed operations) or its equivalent.
3) Include Preservation of Governmental Immunities Endorsement.
4) Provide evidence of coverage for 5 years after completion of project.
5) Include endorsement indicating that coverage is primary and non-contributory.
6) Policy shall include waiver of right to recovery from others endorsement.

E) PROPERTY INSURANCE REQUIRED BY LEASE, LICENSE, OR PERMIT

___ Yes X No

Amount $_____

Include the City of Dubuque as Lender Loss Payable.

F) RIGHT-OF-WAY WORK ONLY:

UMBRELLA/EXCESS $1,000,000

___ Yes X No

The General Liability, Automobile Liability and Employer's Liability insurance requirements may be satisfied with a combination of primary and Umbrella or Excess Liability Insurance. If the Umbrella or Excess Insurance policy does not follow the form of

the primary policies, it shall include the same endorsements as required of the primary policies including but not limited to Waiver of Subrogation AND Primary and Non-contributory in favor of the City.

G) FLOOD INSURANCE

___ Yes No

If Required Coverage $_____

Iowa Code Chapter 670, Liability of Governmental Subdivisions, provides cities with certain immunities which may be available to you. Naming the City of Dubuque as an additional insured on your insurance as is requested by this Insurance Schedule may result in your waiver of those immunities. If you would like to preserve those immunities, please use this endorsement or an equivalent form. The preservation of immunities is for your benefit.

PRESERVATION OF GOVERNMENTAL IMMUNITIES ENDORSEMENT

1. Nonwaiver of Governmental Immunity. The insurer expressly agrees and states that the purchase of this policy and the including of the City of Dubuque, Iowa as an Additional Insured does not waive any of the defenses of governmental immunity available to the City of Dubuque, Iowa under Code of Iowa Section 670.4 as it now exists and as it may be amended from time to time.

2. Claims Coverage. The insurer further agrees that this policy of insurance shall cover only those claims not subject to the defense of governmental immunity under the Code of Iowa Section 670.4 as it now exists and as it may be amended from time to time. Those claims not subject to Code of Iowa Section 670.4 shall be covered by the terms and conditions of this insurance policy.

3. Assertion of Government Immunity. The City of Dubuque, Iowa shall be responsible for asserting any defense of governmental immunity and may do so at any time and shall do so upon the timely written request of the insurer.

4. Non-Denial of Coverage. The insurer shall not deny coverage under this policy and the insurer shall not deny any of the rights and benefits accruing to the City of Dubuque, Iowa under this policy for reasons of governmental immunity unless and until a court of competent jurisdiction has ruled in favor of the defense(s) of governmental immunity asserted by the City of Dubuque, Iowa.

No Other Change in Policy. The above preservation of governmental immunities shall not otherwise change or alter the coverage available under the policy.

RE: 2026 Pavement Marking Project
Initiate Public Bidding Process and Setting Date for a Public Hearing
(Project Code 5521000013)

INTRODUCTION

This memorandum requests the City Council authorize initiating the public bidding process and set a public hearing for April 20, 2026, for the 2026 Pavement Marking Project.

BACKGROUND

The pavement marking program is vital to our transportation system as it provides safety to drivers and pedestrians on the public road system. Well-defined crosswalk stripping for example provides areas where pedestrians can traverse a roadway safely.

The City contracts for a city-wide pavement marking project to furnish, install, maintain, and remove permanent pavement markings to include lines, symbols and legends on City streets as directed by the Engineering Department.

DISCUSSION

The Pavement Marking Project is completed annually due to a more rapid deterioration on higher volume, high vehicular movement roadways. Pavement markings are applied using waterborne paint with a service life of approximately two (2) years.

As part of a cooperative Maintenance Agreement with the Iowa Department of Transportation (Iowa DOT), the City will include portions of Iowa DOT jurisdictional pavement markings with the City's annual pavement marking program. The Maintenance Agreement includes all symbols and legends and a portion of center lines on Iowa DOT routes within the City. The Iowa DOT will reimburse the City for their share of project costs after the project is completed and accepted.

Additionally, as a part of the Central Ave. and White St. Design Phase 1: Pavement Marking Restriping project along the one-way pair from 4th St to 22nd St., the lines and symbols along the corridor have been removed from the 2026 Pavement Marking Project. These lines and symbols will be physically removed and replaced with new lane lines, symbols and additional markings in a separate pavement marking project later this calendar year using this same funding source.

PROJECT SCHEDULE

The schedule for the project will be as follows:

Initiate Bidding	April 6, 2026
Publish Notice to Bidders, Advertisement for Bids	April 10, 2026
Publish Notice of Hearing on Plans & Specifications	April 10, 2026
Public Hearing	April 20, 2026
Receipt of Bids	April 23, 2026
Award of Contract	May 4, 2026
Completion Date	November 18, 2026

BUDGET IMPACT

The estimate of probable cost for the 2026 Pavement Marking Project is summarized in the following table:

Description	Cost Estimate
Construction - City Pavement Markings	$ 190,000.00
Construction - Iowa DOT Pavement Markings	24,000.00
Engineering Design and Administration	5,000.00
Total Construction Cost Estimate	**$ 219,000.00**

The proposed project funding is summarized as follows:

Project Code	Fund Description	Fund Amount
5521000013	Pavement Markings (FY26)	$ 36,715.00
	Pavement Markings (FY27)	185,285.00
	Iowa DOT Funding	24,000.00
Total Project Funding		**$ 219,000.00**

RECOMMENDATION

I respectfully request the City Council set a public hearing for April 20, 2026, for the 2026 Pavement Marking Project and authorize the public bidding process and set a public hearing for April 20, 2026, and approve the preliminary plans, specifications, form of contract and estimated cost for the 2026 Pavement Marking Project through the adoption of the attached resolution.

Prepared by: Justine Hull, Traffic Engineer

Return to Adrienne N. Breitfelder, City Clerk, 50 W. 13th St., Dubuque, IA 52001, (563) 589-4100

RESOLUTION NO. ____ -26

2026 PAVEMENT MARKING PROJECT

PRELIMINARY APPROVAL OF PLANS, SPECIFICATIONS, FORM OF CONTRACT, AND ESTIMATED COST; SETTING DATE OF PUBLIC HEARING ON PLANS, SPECIFICATIONS, FORM OF CONTRACT, AND ESTIMATED COST; AND ORDERING THE ADVERTISEMENT FOR BIDS

WHEREAS, the 2026 Pavement Marking Project will include providing all labor, equipment, and materials to furnish, install, maintain, and remove permanent pavement markings to include lines, symbols and legends on City streets and a portion of center lines on Iowa DOT highway routes within the City.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

The proposed plans, specifications, form of contract and estimated cost for the 2026 Pavement Marking Project in the estimated construction amount $214,000, are hereby preliminarily approved and ordered filed in the office of the City Clerk for public inspection.

A public hearing will be held on the 20th day of April, 2026, at 6:30 p.m. in the Historic Federal Building Council Chambers 350 W. 6th Street, Dubuque, Iowa, at which time interested persons may appear and be heard for or against the proposed plans and specifications, form of contract and estimated cost of said Project, and the City Clerk be and is hereby directed to cause the attached notice of the time and place of such hearing to be published in a newspaper having general circulation in the City of Dubuque, Iowa, which notice shall be published not less than four days nor more than twenty days prior to the date of such hearing. At the hearing, any interested person may appear and file objections to the proposed plans, specifications, form of contract, or estimated cost of the Project.

The 2026 Pavement Marking Project, is hereby ordered to be advertised for bids for construction.

The amount of security to accompany each bid shall be in an amount which shall conform to the provisions of the Notice to Bidders hereby approved.

The City Engineer is hereby directed to advertise for bids for the construction of the improvements herein provided, by publishing the Notice to Bidders to be published on the City of Dubuque website and a contractor plan room service with statewide circulation, which notice shall be published not less than thirteen but not more than forty-five days before the date for filing bids before 2:00 p.m. on the 23rd day of April, 2026. Bids shall be opened and read by the City Clerk at said time and will be submitted

to the City Council for final action at 6:30 p.m. on the 4th day of May, 2026, in the Historic Federal Building Council Chambers 350 West 6th Street, Dubuque, Iowa.

Passed, approved and adopted this 6th day of April 2026.

Attest: Brad M. Cavanagh, Mayor

Adrienne N. Breitfelder, City Clerk

CITY OF DUBUQUE, IOWA
OFFICIAL NOTICE

PUBLIC NOTICE is hereby given that the Dubuque City Council will conduct a public hearing on the 20th day of April 2026, at 6:30 p.m., in the Historic Federal Building, 350 W. 6th Street, 2nd floor, Dubuque, Iowa, at which meeting the City Council proposes to authorize initiating the public bidding process for the 2026 Pavement Marking Project.

At the meeting, the City Council will receive oral and written comments from any resident or property owner of said City to the above action. The official City Council agenda will be posted the Friday before the meeting and will contain public input options. The agenda can be accessed at https://dubuqueia.portal.civicclerk.com/ or by contacting the City Clerk's Office at 563-589-4100, ctyclerk@cityofdubuque.org.

Written comments on the public hearing may be submitted to the City Clerk's Office by email at ctyclerk@cityofdubuque.org or by mail to City Hall, 50 W. 13th St., Dubuque, IA 52001, before the scheduled hearing. The City Council will review all written comments at the time of the hearing.

Documents related to the public hearing are on file in the City Clerk's Office and may be viewed Monday through Friday between 8:00 a.m. and 5:00 p.m.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Published by order of the City Council given on the 6th day of April 2026.

ARTICLE B. HOUSING COMMISSION

SECTION:

2-5B-1: Commission Created

2-5B-2: Purpose

2-5B-3: Internal Organization And Rules

2-5B-4: Procedures For Operation

2-5B-5: Membership

2-5B-6: Oath

2-5B-7: Terms

2-5B-8: Vacancies

2-5B-9: Officers/Organization

2-5B-10: Meetings

2-5B-11: Compensation

2-5B-12: Removal

2-5B-13: Powers

2-5B-14: Project Approval

2-5B-15: Monitor Housing Program; Conduct Hearings On Grievances

2-5B-1: COMMISSION CREATED:
There is hereby created the housing commission. (Ord. 67-15, 10-19-2015)

2-5B-2: PURPOSE:
The purpose of the commission is to undertake and carry out studies and analysis of housing needs and the meeting of such needs; to recommend proposed projects in the area of low and moderate income housing for the citizens of the city; to monitor the city's housing programs; and to conduct grievances regarding the rental assistance program, except in the area of property maintenance code enforcement. (Ord. 31-16, 6-20-2016, eff. 7-1-2016)

2-5B-3: INTERNAL ORGANIZATION AND RULES:
The commission may adopt rules and regulations to govern its organizational procedures as may be necessary and which are not in conflict with this code or the Iowa Code. (Ord. 67-15, 10-19-2015)

2-5B-4: PROCEDURES FOR OPERATION:
All administrative, personnel, accounting, budgetary, and procurement policies of the city govern the commission in all its operations. (Ord. 67-15, 10-19-2015)

2-5B-5: MEMBERSHIP:

A. Number: The commission comprises ten (10) residents of the city.

B. Special Qualifications:

1. At least three (3) members must be appointed specifically on the basis of experience in real estate development, banking, finance, accounting, funds management, or other related areas of expertise.

2. One (1) member must be a person who is a recipient of tenant based rental assistance under section 8 of the United States Housing Act of 1937, whose name appears on a lease of section 8 property. If such member ceases to be a recipient of rental assistance under section 8, the term of such member is deemed terminated and a new member who meets the requirements of this subsection must be appointed for the remainder of the term.

3. The remaining members are at-large members.

4. Cross-Representation:

a. One (1) member must be appointed by the commission, with city council approval, to serve on the community development advisory commission.

b. One (1) member must be appointed by the commission, with city council approval, to serve on the long range planning advisory commission. (Ord. 74-15, 12-7-2015; amd. Ord. 5-21, 2-15-2021; Ord. 54-23, 12-4-2023; Ord. 33-24, 6-17-2024)

2-5B-6: OATH:
Each person, upon appointment to the commission, must execute an oath of office at the first meeting of the commission

following the appointment or at the city clerk's office any time prior to the first meeting of the commission. (Ord. 67-15, 10-19-2015; Ord. 33-24, 6-17-2024)

2-5B-7: TERMS:
The term of office for commissioners is three (3) years or until such commissioner's successor is appointed and qualified. The terms of the cross representative appointees to the community development advisory commission and the long range planning advisory commission must coincide with their terms on the housing commission. (Ord. 67-15, 10-19-2015; amd. Ord. 5-21, 2-15-2021)

2-5B-8: VACANCIES:
Vacancies must be filled in the same manner as original appointments. (Ord. 67-15, 10-19-2015)

2-5B-9: OFFICERS/ORGANIZATION:
The commissioners must choose annually a chairperson and vice chairperson, each to serve a term of one year. The chairperson must appoint a secretary, who need not be a member of the commission. The commissioners must fill a vacancy among its officers for the remainder of the officer's unexpired term. (Ord. 67-15, 10-19-2015)

2-5B-10: MEETINGS:
A. Regular Meetings: The commission must meet quarterly.

B. Special Meetings: Special meetings may be called by the chairperson or at the written request of a majority of the commissioners.

C. Open Meetings: All meetings must be called and held in conformance with the Iowa open meetings law.

D. Attendance:

1. In the event a commissioner has been absent for three (3) or more consecutive meetings of the commission, without being excused by the chairperson, such absence will be grounds for the commission to recommend to the city council that the position be declared vacant and a replacement appointed.

2. Attendance must be entered upon the minutes of all meetings.

E. Minutes: A copy of the minutes of all regular and special meetings of the commission must be filed with the city council within ten (10) working days after approval by the commission, or by the next regularly scheduled city council meeting, whichever is later.

F. Quorum: Six (6) commissioners constitute a quorum for the transaction of business. The affirmative vote of a majority of the commissioners present and voting is necessary for the adoption of any motion or resolution. (Ord. 67-15, 10-19-2015; amd. Ord. 38-21, 11-1-2021; Ord. 33-24, 6-17-2024)

2-5B-11: COMPENSATION:
Commissioners serve without compensation, provided that they may receive reimbursement for necessary travel and other expenses while on official commission business within the limits established in the city administrative policies and budget. (Ord. 67-15, 10-19-2015)

2-5B-12: REMOVAL:
Except as provided in subsection2-5B-10D1 of this chapter, the city council may remove any commissioner for good cause. (Ord. 67-15, 10-19-2015)

2-5B-13: POWERS:
The commission has the following powers, duties, and responsibilities:

A. To contribute as appropriate in the planning, coordinating, and review of housing development;

B. To conduct public hearings to ensure meaningful citizen input in the planning, implementation, and assessment of the city's housing programs;

C. To provide for and encourage the participation of low and moderate income persons in the planning, implementation, and assessment of housing programs;

D. To provide input into the community planning process and to assist in accomplishing a coordinated and consistent housing development program of the city in accordance with present and future housing needs;

E. To request and review ongoing surveys assessing housing needs and identifying future community housing needs, particularly the needs of persons of low and moderate income;

F. To support the efforts of the city council and other city commissions in the assessment of the general housing needs of the community;

G. To undertake from time to time other specific ongoing housing planning which may be referred to it by the city council;

H. To research and recommend to the city council policies and programs facilitating the development of affordable housing;

I. To undertake public information efforts to educate citizens of the availability of federal, state, and locally funded housing assistance programs;

J. To assist in the preparation of the housing element of the city comprehensive plan and the annual consolidated plan; and

K. Undertake such additional duties, upon the request of the City Council. (Ord. 67-15, 10-19-2015; amd. Ord. 54-23, 12-4-2023)

2-5B-14: PROJECT APPROVAL:
Any proposed low rent housing project is subject to the approval of the city council and any project requiring a referendum as provided in the Iowa Code must be submitted to the voters of the city in accordance with the Iowa Code. (Ord. 67-15, 10-19-2015)

2-5B-15: MONITOR HOUSING PROGRAM; CONDUCT HEARINGS ON GRIEVANCES:
The commission monitors the city's housing program and conducts hearings on grievances arising out of the operation of such program with the exception of property maintenance code enforcement which is handled by the housing board of appeals. (Ord. 31-16, 6-20-2016, eff. 7-1-2016)

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Hold a Public Hearing for and approve the adoption of the Public Housing Authority (PHA) Annual Plan for Federal Fiscal Year 2026.

DATE: April 1, 2026

Housing & Community Development Director Maddy Haverland is recommending City Council input on the Public Housing Authority Annual Plan and approve the adoption of the Public Housing Authority Annual Plan for Federal Fiscal Year 2026.

The Annual Plan was reviewed by the Housing Commission on January 27, 2026, where the commission was given the opportunity to review the plan and provide input and comments.

The Resident Advisory Board, comprised of all residents on assisted housing, reviewed the Annual Plan and had the opportunity to provide input and comments at their meeting held on February 18, 2026.

The PHA Annual Plan describes how the PHA operates and the services it provides. The plan is used to inform HUD, assisted families, and the public about the PHA's mission, goals, and priorities while outlining how the PHA serves low-, very low-, and extremely low-income households.

I concur with the recommendation and respectfully request Mayor and City Council approval.

DATE: March 30, 2026

RE: Hold a Public Hearing for and approve the adoption of the Public Housing Authority (PHA) Annual Plan for Federal Fiscal Year 2026.

INTRODUCTION

The City of Dubuque is a Public Housing Authority (PHA) that provides housing assistance to residents. A PHA is required to submit an Annual Plan to the U.S. Department of Housing and Urban Development (HUD) each fiscal year.

DISCUSSION

The City Council is required to hold the public hearing prior to approving the PHA Annual Plan before it is submitted to HUD.

The Annual Plan was reviewed by the Housing Commission on January 27, 2026, where the commission was given the opportunity to review the plan and provide input and comments.

The Resident Advisory Board, comprised of all residents on assisted housing, reviewed the Annual Plan and had the opportunity to provide input and comments at their meeting held on February 18, 2026.

The FFY 2026 PHA Annual Plan includes a report on the PHA's progress in meeting its Mission and Goals described in its 5-Year PHA Plan. This Federal Fiscal Year 2026 highlights the following successes in working towards achieved the goals and objectives in the 5-Year PHA Plan:

PHA Goal: Increase Homeownership Readiness

- Focused on improving homeownership readiness through education, engagement, and financial stability.
- Facilitated tenant education workshops for the "Back to Work" group, covering homeowner responsibilities and long-term planning.

- Conducted targeted outreach to HCV participants to increase enrollment in the FSS Program (NLSP) and support self-sufficiency.
- Achieved multiple FSS participant graduations with escrow, reflecting progress in employment, goal-setting, and financial empowerment.
- Increased FSS escrow earnings, helping households build savings for future homeownership costs such as down payments and closing costs.

PHA Goal: De-Concentration of Poverty

- Strengthened program oversight and participant outcomes to expand access to higher-opportunity areas.
- Collaborated with HUD through monthly HCV data reviews, achieving full voucher utilization while maintaining budget compliance.
- Implemented updated participant briefings to clarify program rules and improve leasing outcomes.
- Supported a CDBG-funded security deposit assistance program to reduce upfront leasing barriers.
- Increased voucher leasing success rates from 40% to 70%, with growth in SAFMR 52002.
- Expanded housing opportunities through new developments in SAFMR districts outside historically concentrated voucher areas.

PHA Goal: Support Childcare Initiatives in the Community

- Supported expanded access to childcare through the opening of multiple new daycare centers in the City of Dubuque.
- Participated in monthly meetings with community partners to address childcare affordability.
- Coordinated resources, shared data, and developed strategies to reduce cost barriers for families.
- Strengthened family stability and workforce participation through improved childcare availability.

The PHA Annual Plan describes how the PHA operates and the services it provides. The plan is used to inform HUD, assisted families, and the public about the PHA's mission, goals, and priorities while outlining how the PHA serves low-, very low-, and extremely low-income households.

RECOMMENDATION

I respectfully request the Mayor and City Council hold a public hearing on April 6, 2026, to receive input on the PHA Annual Plan and approve the adoption of the PHA Annual Plan.

RESOLUTION NO._____

RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE THE CERTIFICATION BY STATE OR LOCAL OFFICE OF PUBLIC HOUSING AGENCY (PHA) PLAN'S CONSISTENCY WITH THE CONSOLIDATED PLAN AND APPROVAL OF THE PHA FEDERAL FISCAL YEAR 2026 ANNUAL PLAN

WHEREAS, the City of Dubuque is designated as a Public Housing Authority; and

WHEREAS, the City of Dubuque maintains and creates a Public Housing Authority Annual Plan each fiscal year; and

WHEREAS, the Housing Commission reviewed & approved the Annual Plan on January 27, 2026; and

WHEREAS, Resident Advisory Board (RAB) reviewed the Annual Plan on February 18, 2026; and

Whereas, the City Council held a public hearing to receive comment on the proposed Public Housing Authority Federal Fiscal Year 2026 Annual Plan on April 6, 2026.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1: That the Mayor is hereby authorized and directed to certify the PHA Federal Fiscal Year 2026 Annual Plan's Consistency with the Consolidated Plan; and

Section 2: That the Director of Housing and Community Development is hereby authorized to submit the PHA Annual Plan and the Certification as required by the U.S. Department of Housing and Urban Development.

Passed, approved and adopted this 6th day of April 2026.

_____
Brad M. Cavanagh, Mayor

Attest:

_____
Adrienne N. Breitfelder, City Clerk

Status: Created

Streamlined Annual PHA Plan *(HCV Only PHAs)*	**U.S. Department of Housing and Urban Development** **Office of Public and Indian Housing**	**OMB No. 2577-0226** **Expires 9/30/2027**

Purpose. The 5-Year and Annual PHA Plans provide a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services. They also inform HUD, families served by the PHA, and members of the public of the PHA's mission, goals, and objectives for serving the needs of low-, very low-, and extremely low- income families.

Applicability. The Form HUD-50075-HCV is to be completed annually by **HCV-Only PHAs**. PHAs that meet the definition of a Standard PHA, Troubled PHA, High Performer PHA, Small PHA, or Qualified PHA do not need to submit this form. Where applicable, separate Annual PHA Plan forms are available for each of these types of PHAs.

Definitions.

(1) ***High-Performer PHA*** - A PHA that owns or manages more than 550 combined public housing units and housing choice vouchers (HCVs) and was designated as a high performer on both the most recent Public Housing Assessment System (PHAS) and Section Eight Management Assessment Program (SEMAP) assessments if administering both programs, SEMAP for PHAs that only administer tenant-based assistance and/or project-based assistance, or PHAS if only administering public housing.
(2) ***Small PHA*** - A PHA that is not designated as PHAS or SEMAP troubled, that owns or manages less than 250 public housing units and any number of vouchers where the total combined units exceed 550.
(3) ***Housing Choice Voucher (HCV) Only PHA*** - A PHA that administers more than 550 HCVs, was not designated as troubled in its most recent SEMAP assessment and does not own or manage public housing.
(4) ***Standard PHA*** - A PHA that owns or manages 250 or more public housing units and any number of vouchers where the total combined units exceed 550, and that was designated as a standard performer in the most recent PHAS and SEMAP assessments.
(5) ***Troubled PHA*** - A PHA that achieves an overall PHAS or SEMAP score of less than 60 percent.
(6) ***Qualified PHA*** - A PHA with 550 or fewer public housing dwelling units and/or HCVs combined and is not PHAS or SEMAP troubled.

A. PHA Information.

A.1

PHA Name: City of Dubuque **PHA Code:** IA087
PHA Plan for Fiscal Year Beginning: (MM/YYYY): 07/2026
PHA Inventory (Based on Annual Contributions Contract (ACC) units at time of FY beginning, above)
Number of Housing Choice Vouchers (HCVs) 1113
PHA Plan Submission Type: ☑ Annual Submission ☐ Revised Annual Submission

Public Availability of Information. In addition to the items listed in this form, PHAs must have the elements listed below readily available to the public. A PHA must identify the specific location(s) where the proposed PHA Plan, PHA Plan Elements, and all information relevant to the public hearing and proposed PHA Plan are available for inspection by the public. Additionally, the PHA must provide information on how the public may reasonably obtain additional information of the PHA policies contained in the standard Annual Plan but excluded from their streamlined submissions. At a minimum, PHAs must post PHA Plans, including updates, at each Asset Management Project (AMP) and main office or central office of the PHA and should make documents available electronically for public inspection upon request. PHAs are strongly encouraged to post complete PHA Plans on their official websites and to provide each resident council with a copy of their PHA Plans.
How the public can access this PHA Plan: The City of Dubuque Housing & Community Development Department PHA Plan, Plan Elements, and PHA Policies are available for review online at https://www.cityofdubuque.org/1484/Administrative-Plans as well as in person at the following locations: City Clerk's Office, City Hall, 50 West 13th Street; and the Housing & Community Development Department 350 W 6th Street, Suite 312, Dubuque, IA 52001.

☐ **PHA Consortia:** (Check box if submitting a joint Plan and complete table below)

Participating PHAs	PHA Code	Program(s) in the Consortia	Program(s) not in the Consortia	No. of Units in Each Program

B. Plan Elements.

B.1 Revision of Existing PHA Plan Elements.

a) Have the following PHA Plan elements been revised by the PHA since its last Annual Plan submission?

Y N

DRAFT

- [x] Statement of Housing Needs and Strategy for Addressing Housing Needs.
- [x] Deconcentration and Other Policies that Govern Eligibility, Selection, and Admissions.
- [x] Financial Resources.
- [x] Rent Determination.
- [x] Operation and Management.
- [x] Informal Review and Hearing Procedures.
- [x] Homeownership Programs.
- [x] Self Sufficiency Programs and Treatment of Income Changes Resulting from Welfare Program Requirements.
- [x] Substantial Deviation.
- [x] Significant Amendment/Modification.

(b) If the PHA answered yes for any element, describe the revisions for each element(s):

B.2 **New Activities.**

(a) Does the PHA intend to undertake any new activities related to the following in the PHA's applicable Fiscal Year?

Y	N	
☐	☑	Project-Based Vouchers

(b) If Project-Based Voucher (PBV) activities are planned for the applicable Fiscal Year, provide the projected number of PBV units and general locations, and describe how project-basing would be consistent with the PHA Plan.

B.3 **Progress Report.**

Provide a description of the PHA's progress in meeting its Mission and Goals described in its 5-Year PHA Plan.

Mission: The City of Dubuque Housing & Community Development Department's mission is to provide decent, safe and affordable rental housing and to provide opportunities that promote self-sufficiency, economic independence, and homeownership opportunities for eligible Housing Choice Voucher participants. PHA Goal: Increase homeownership readiness: Progress toward increasing homeownership readiness by focusing on education, engagement, and financial stability. Staff facilitates a tenant education workshop for the "Back to Work" group working to equip participants with the knowledge and skills needed to be successful homeowners, from understanding housing responsibilities to long-term planning. Staff engages in targeted outreach to HCV Participants to recruit into the FSS Program (NLSP) as a means to gain momentum towards self-sufficiency. PHA had numerous FSS Program Participants graduate with escrow, reflecting deeper engagement in goal-setting, employment advancement, and financial empowerment. As a result of this increased success and earned income growth, FSS escrow earnings also rose, helping more households build savings that can be applied toward future homeownership expenses such as down payments and closing costs. PHA Goal: Support childcare initiatives in the community: Our PHA has helped to advance the goal of supporting childcare initiatives in the community through both expanded access and collaborative problem-solving. Multiple new daycare centers have opened in the City of Dubuque, increasing the availability of childcare options for working families and helping to meet growing demand. In addition, staff meet monthly with other community organizations to address the affordability of childcare, aligning resources, sharing data, and developing strategies to reduce cost barriers for families. Together, these efforts strengthen the local childcare system and support family stability and workforce participation. PHA Goal: De-concentration of poverty: Progress toward the de-concentration of poverty by strengthening program oversight, improving participant outcomes, and expanding housing opportunities in higher-opportunity areas. Staff worked closely with HUD through monthly reviews of Housing Choice Voucher (HCV) program data, achieving full voucher utilization while carefully balancing the HUD-allocated budget. An updated participant briefing was rolled out to provide clearer guidance on program rules and expectations, supporting smoother leasing outcomes. The City also supported a security deposit assistance program funded through CDBG, reducing upfront cost barriers for voucher holders. As a result of these combined efforts, the voucher leasing success rate increased from 40% to 70%, with notable growth in lease-ups within SAFMR 52002. Additionally, new housing developments were created in SAFMR districts outside historically concentrated voucher areas, further expanding access to diverse neighborhoods and advancing long-term de-

DRAFT

	concentration goals.
B.4	**B.4 Capital Improvements.** - Not Applicable
B.5	**Most Recent Fiscal Year Audit.** (a) Were there any findings in the most recent FY Audit? Y☐ N☑ N/A☐ (b) If yes, please describe:
C.	**Other Document and/or Certification Requirements.**
C.1	**Resident Advisory Board (RAB) Comments.** (a) Did the RAB(s) have comments to the PHA Plan? Y☐ N☑ (b) If yes, comments must be submitted by the PHA as an attachment to the PHA Plan. PHAs must also include a narrative describing their analysis of the RAB recommendations and the decisions made on these recommendations.
C.2	**Certification by State or Local Officials.** Form HUD 50077-SL, *Certification by State or Local Officials of PHA Plans Consistency with the Consolidated Plan*, must be submitted by the PHA as an electronic attachment to the PHA Plan.
C.3	**Civil Rights Certification/ Certification Listing Policies and Programs that the PHA has Revised since Submission of its Last Annual Plan.** Form HUD-50077-ST-HCV-HP, *PHA Certifications of Compliance with PHA Plan, Civil Rights, and Related Laws and Regulations* *Including PHA Plan Elements that Have Changed,* must be submitted by the PHA as an electronic attachment to the PHA Plan.
C.4	**Challenged Elements.** If any element of the PHA Plan is challenged, a PHA must include such information as an attachment with a description of any challenges to Plan elements, the source of the challenge, and the PHA's response to the public. (a) Did the public challenge any elements of the Plan? Y☐ N☑ (b) If yes, include Challenged Elements.

This information collection is authorized by Section 511 of the Quality Housing and Work Responsibility Act, which added a new section 5A to the U.S. Housing Act of 1937, as amended, which introduced the Annual PHA Plan. The Annual PHA Plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public for serving the needs of low- income, very low- income, and extremely low- income families.

Public reporting burden for this information collection is estimated to average 4.52 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions to reduce this burden, to the Reports Management Officer, REE, Department of Housing and Urban Development, 451 7th Street, SW, Room 4176, Washington, DC 20410-5000. When providing comments, please refer to OMB Approval No. 2577-0226. HUD may not collect this information, and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

Privacy Notice. The United States Department of Housing and Urban Development is authorized to solicit the information requested in this form by virtue of Title 12, U.S. Code, Section 1701 et seq., and regulations promulgated thereunder at Title 12, Code of Federal Regulations. Responses to the collection of information are required to obtain a benefit or to retain a benefit. The information requested does not lend itself to confidentiality.

Certification by State or Local Official of PHA Plans Consistency with the Consolidated Plan or State Consolidated Plan

I, **Brad M. Cavanagh** (*Official's Name*), the **Mayor** (*Official's Title*) certify that the 5-Year PHA Plan for fiscal years **2026-2030** and/or Annual PHA Plan for fiscal year **2026** of the **IA087 - City of Dubuque** (*PHA Name*) is consistent with the Consolidated Plan or State Consolidated Plan including any applicable fair housing goals or strategies to:

City of Dubuque
Local Jurisdiction Name

pursuant to 24 CFR Part 91 and 24 CFR Part 903.15.

Provide a description of how the PHA Plan's contents are consistent with the Consolidated Plan or State Consolidated Plan.

The City of Dubuque's 5-Year PHA Plan and Consolidated Plan monitor the distribution and types of affordable housing across census tracts. These plans guide efforts to ensure affordable housing is accessible and equitably available to all residents. The City's activities and goals support the integration of affordable housing throughout the community. Both plans include targeted strategies to expand housing opportunities for Housing Choice Voucher applicants and participants, with a focus on increasing affordability and access.

I/We, the undersigned, certify under penalty of perjury that the information provided above is true and correct. WARNING: Anyone who knowingly submits a false claim or makes a false statement is subject to criminal and/or civil penalties, including confinement for up to 5 years, fines, and civil and administrative penalties. (18 U.S.C. §§ 287, 1001, 1010, 1012, 1014; 31 U.S.C. §3729, 3802).

Name of Authorized Official: **Brad M. Cavanagh**	Title: **Mayor**

Certifications of Compliance with PHA Plan and Related Regulations *(Standard, Troubled, HCV-Only, and High Performer PHAs)*	**U.S. Department of Housing and Urban Development** Office of Public and Indian Housing **OMB No. 2577-0226** **Expires 09/30/2027**

PHA Certifications of Compliance with PHA Plan, Civil Rights, and Related Laws and Regulations including PHA Plan Elements that Have Changed

Acting on behalf of the Board of Commissioners of the Public Housing Agency (PHA) listed below, as its Chairperson or other authorized PHA official if there is no Board of Commissioners, I approve the submission of the 5-Year and/or X Annual PHA Plan, hereinafter referred to as "the Plan," of which this document is a part, and make the following certification and agreements with the Department of Housing and Urban Development (HUD) for the PHA fiscal year beginning 07/2026, in which the PHA receives assistance under 42 U.S.C. 1437f and/or 1437g in connection with the submission of the Plan and implementation thereof:

1. The Plan is consistent with the applicable comprehensive housing affordability strategy (or any plan incorporating such strategy) for the jurisdiction in which the PHA is located (24 CFR § 91.2).
2. The Plan contains a signed certification by the appropriate State or local official (form HUD-50077-SL) that the Plan is consistent with the applicable Consolidated Plan, which includes any applicable fair housing goals or strategies, for the PHA's jurisdiction and a description of the way the PHA Plan is consistent with the applicable Consolidated Plan (24 CFR §§ 91.2, 91.225, 91.325, and 91.425).
3. The PHA has established a Resident Advisory Board or Boards, the membership of which represents the residents assisted by the PHA, consulted with this Resident Advisory Board or Boards in developing the Plan, including any changes or revisions to the policies and programs identified in the Plan before they were implemented, and considered the recommendations of the Resident Advisory Board (24 CFR 903.13). The PHA has included in the Plan submission a copy of the recommendations made by the Resident Advisory Board or Boards and a description of the way the Plan addresses these recommendations.
4. The PHA provides assurance as part of this certification that:
    i. The Resident Advisory Board had an opportunity to review and comment on the changes to the policies and programs before implementation by the PHA;
    ii. The changes were duly approved by the PHA Board of Directors (or similar governing body); and
    iii. The revised policies and programs are available for review and inspection, at the principal office of the PHA during normal business hours. Where possible, PHAs should make documents available electronically, for public inspection upon request.
5. The PHA made the proposed Plan and all information relevant to the public hearing available for public inspection at least 45 days before the hearing, published a notice that a hearing would be held and conducted a hearing to discuss the Plan and invited public comment. The PHA ensured all notices and meetings provided effective communication with persons with disabilities and further provided meaningful language access for persons with Limited English Proficiency (LEP).
6. The PHA certifies that it will carry out the public housing program of the agency in conformity with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-2000d-4), the Fair Housing Act (42 U.S.C. 3601-19), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), Title II of the Americans with Disabilities Act (42 U.S.C. 12101 et seq.), the Violence Against Women Act (34 U.S.C. § 12291 et seq.), and other applicable civil rights requirements, and that it will affirmatively further fair housing in the administration of all HUD programs. In addition, if it administers a Housing Choice Voucher Program, the PHA certifies that it will administer the program in conformity with Title VI of the Civil Rights Act of 1964, the Fair Housing Act, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act, the Violence Against Women Act, and other applicable civil rights requirements, and that it will affirmatively further fair housing in the administration of all HUD programs.
7. The PHA will affirmatively further fair housing, in compliance with the Fair Housing Act, 24 CFR § 5.150 et seq., 24 CFR § 903.7(o), and 24 CFR § 903.15, which means that it will take meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living

patterns, transforming racially or ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws (24 CFR § 5.151). Pursuant to 24 CFR § 903.15(c)(2), a PHA's policies should be designed to reduce the concentration of tenants and other assisted persons by race, national origin, and disability. PHA policies should include affirmative steps stated in 24 CFR § 903.15(c)(2)(i) and 24 CFR § 903.15(c)(2)(ii). Furthermore, under 24 CFR § 903.7(o), a PHA must submit a civil rights certification with its Annual and 5-year PHA Plans, except for qualified PHAs who submit the Form HUD-50077-CR as a standalone document. The PHA certifies that it will take no action that is materially inconsistent with its obligation to affirmatively further fair housing.

8. For PHA Plans that include a policy for site-based waiting lists:
    - The PHA regularly submits required data to HUD's 50058 PIC/IMS Module and/or its successor system: the Housing Information Portal (HIP) in an accurate, complete and timely manner (as specified in PIH Notice 2011-65);
    - The system of site-based waiting lists provides for full disclosure to each applicant in the selection of the development in which to reside, including basic information about available sites; and an estimate of the period of time the applicant would likely have to wait to be admitted to units of different sizes and types at each site;
    - Adoption of a site-based waiting list would not violate any court order or settlement agreement or be inconsistent with a pending complaint brought by HUD;
    - The PHA shall take reasonable measures to assure that such a waiting list is consistent with affirmatively furthering fair housing; and
    - The PHA provides for review of its site-based waiting list policy to determine if it is consistent with civil rights laws and certifications, as specified in 24 CFR 903.7(o)(1).
9. The PHA will comply with the prohibitions against discrimination based on age pursuant to the Age Discrimination Act of 1975.
10. In accordance with the Fair Housing Act, the PHA will not base a determination of eligibility for housing on marital status and will not otherwise discriminate because of sex.
11. The PHA will comply with the Architectural Barriers Act of 1968 and 24 CFR Part 41, 'Policies and Procedures for the Enforcement of Standards and Requirements for Accessibility by the Physically Handicapped' for people with physical disabilities.
12. The PHA will comply with the requirements of Section 3 of the Housing and Urban Development Act of 1968, Employment Opportunities for Low-or Very-Low Income Persons, and with its implementing regulation at 24 CFR Part 135.
13. The PHA will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and implement the regulations at 49 CFR Part 24 as applicable.
14. The PHA will take appropriate affirmative action to award contracts to minority and women's business enterprises under 24 CFR 5.105(a).
15. The PHA will provide the responsible entity or HUD any documentation that the responsible entity or HUD needs to carry out its review under the National Environmental Policy Act and other related authorities in accordance with 24 CFR Part 58 or Part 50, respectively.
16. With respect to public housing the PHA will comply with Davis-Bacon or HUD determined wage rate requirements under Section 12 of the United States Housing Act of 1937 and the Contract Work Hours and Safety Standards Act.
17. The PHA will keep records in accordance with 2 CFR 200.302 and facilitate an effective audit to determine compliance with program requirements.
18. The PHA will comply with the Lead-Based Paint Poisoning Prevention Act**,** the Residential Lead-Based Paint Hazard Reduction Act of 1992, and 24 CFR Part 35.
19. The PHA will comply with the policies, guidelines, and requirements of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Financial Assistance, including but not limited to submitting the assurances required under 24 CFR §§ 1.5, 3.115, 8.50, and 107.25 by submitting an SF-424, including the required assurances in SF-424B or D, as applicable.
20. The PHA will undertake only activities and programs covered by the Plan in a manner consistent with its Plan and will utilize covered grant funds only for activities that are approvable under the regulations and included in its Plan.
21. All attachments to the Plan have been and will continue to always be available at all locations that the PHA Plan is available for public inspection. All required supporting documents have been made available for public inspection along with the Plan and additional requirements at the primary business office of the PHA and at all other times and locations identified by the PHA in its PHA Plan and will continue to be made available at least at the primary

business office of the PHA and, where possible, should be made available for public inspection in an electronic format.

22. The PHA certifies that it is following all applicable Federal statutory and regulatory requirements, including the Declaration of Trust(s).

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Conducting a Public Hearing for the Jule's-Iowa Department of Transportation Consolidated Funding

DATE: March 31, 2026

Director of Transportation Services Ryan Knuckey is recommending City Council adopt the attached resolution approving the annual Jule Consolidated Funding Application to the Iowa Department of Transportation (IDOT).

This annual application requires that, along with other documents, a Certificate of Cost Allocation Plan, and an Authorizing Resolution be submitted. The Jule, as the public transit agency operated by the City of Dubuque, receives a portion of its annual operating funds from the IDOT/Office of Public Transit (OPT) and/or Federal Transit Administration (FTA). The timely submittal of the Consolidated Funding Application is critical to ensuring the release of funds.

The following funding/revenue amounts are budgeted and will be received if the Consolidated Funding Application and required documentation are submitted.

The State Operating Allocation and 5310 funding is determined by combining annual fixed-route and paratransit service ridership, revenue miles and operating expenses, which is weighted along with locally generated revenue/financial support. The total population of each city or region is portioned as a percentage of Iowa's total population, which is weighted to a percentage of formula funding. The Jule's share of funding for FY27 is 1.729%.

In FY27, the IDOT/OPT has projected that The Jule's State Operating Allocation will be $341,921 and the Section 5310 formula allocation will be $100,499 for a projected total of $442,420 in FY27 allocated funding.

The Jule has vehicles eligible for replacement from statewide federal 5339 capital assistance for transit funds in FY27 for a total cost of $2,114,290. Approval will allow The Jule to apply for bus replacements with assistance of 85% from state funding and 15% city match to replace buses that are past their useful life per DOT/FTA guidelines. The Jule has vehicles that qualify for this funding, but the funding is not guaranteed.

I concur with the recommendation and respectfully request Mayor and City Council approval.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: Mike Van Milligen, City Manager

FROM: Ryan Knuckey, Director of Transportation Services

SUBJECT: Conducting a Public Hearing for the Jule's-Iowa Department of Transportation Consolidated Funding

DATE: **March 23, 2026**

PURPOSE

This memorandum requests the City Council conduct a public hearing to adopt the attached resolution approving the annual Jule Consolidated Funding Application to the Iowa Department of Transportation (IDOT).

BACKGROUND

To receive the state operating and maintenance allocations for fiscal year 2027 (FY27), The Jule is required to submit a Consolidated Funding Application. This annual application requires that, along with other documents, a Certificate of Cost Allocation Plan, and an Authorizing Resolution be submitted. The Jule, as the public transit agency operated by the City of Dubuque, receives a portion of its annual operating funds from the IDOT/Office of Public Transit (OPT) and/or Federal Transit Administration (FTA). The timely submittal of the Consolidated Funding Application is critical to ensuring the release of funds.

DISCUSSION

By signing the Authorizing Resolution, City Council states that it (1) authorizes Ryan Knuckey, Director of Transportation Services, to apply for The Jule's annual operating and maintenance allocations from IDOT and (2) has sufficient non-federal funds or sufficient in-kind match to provide local match.

BUDGET IMPACTS

The following funding/revenue amounts are budgeted and will be received if the Consolidated Funding Application and required documentation are submitted.

The State Operating Allocation and 5310 funding is determined by combining annual fixed-route and paratransit service ridership, revenue miles and operating expenses, which is weighted along with locally generated revenue/financial support. The total population of each city or region is portioned as

a percentage of Iowa's total population, which is weighted to a percentage of formula funding. The Jule's share of funding for FY27 is 1.729%.

In FY27, the IDOT/OPT has projected that The Jule's State Operating Allocation will be $341,921 and the Section 5310 formula allocation will be $100,499 for a projected total of $442,420 in FY27 allocated funding.

The Jule has vehicles eligible for replacement from statewide federal 5339 capital assistance for transit funds in FY27 for a total cost of $2,114,290. Approval will allow The Jule to apply for bus replacements with assistance of 85% from state funding and 15% city match to replace buses that are past their useful life per DOT/FTA guidelines. The Jule has vehicles that qualify for this funding, but the funding is not guaranteed.

RECOMMENDATION/ACTION STEP

It is recommended that the City Council conduct a public hearing to adopt the resolution approving The Jule's IDOT Consolidated Funding application as submitted.

Prepared by Ryan Knuckey, Transportation Services 950 Elm Street, Dubuque, IA 52001, 563-589-4341
Return to Adrienne Breitfelder, City Clerk, 50 W. 13th St., Dubuque, IA 52001, 563-589-4100

RESOLUTION NO. -26

AUTHORIZING RESOLUTION: APPROVAL OF CONSOLIDATED FUNDING APPLICATION TO IOWA DOT

Whereas, the City of Dubuque provides fixed-route and paratransit services for the citizens of Dubuque; and

Whereas, the Iowa Department of Transportation (IDOT) is a pass-through funding entity for federal capital and operating funds; and

Whereas, the City of Dubuque has historically applied through the IDOT for these funds; and

Whereas, pursuant to published notice, a public hearing was held on the proposed approval of the consolidated funding application on April 6, 2026, at 6:30 p.m. in the Historic Federal Building, 350 W. 6th Street, Dubuque, Iowa; and

Whereas, the City Council finds that the applying for the funds to be beneficial to the continued provision of transit service for the citizens of Dubuque.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1. The City Council of the City of Dubuque, Iowa hereby endorses the application to the IDOT, which includes a City match.

Section 2. The IDOT application will include requests and mandatory certifications by the City of Dubuque as follows:

From the State Transit Assistance Program:
1.729% of formula funds
Total: $341,921

From federal funds for transit in non-urbanized areas and/or for transit serving primarily elderly persons and persons with disabilities:
$100,499

From statewide federal 5339 capital assistance for transit:
$2,114,290

We understand acceptance of federal transit assistance involves an agreement to comply with certain labor protection provisions.

We certify that the City of Dubuque/The Jule has sufficient non-federal funds or sufficient in-kind match to provide required local match for capital

projects and at time of delivery will have the funds to operate and maintain vehicles and equipment purchased under this contract.

We request that State Transit Assistance formula funding be advanced as allowed by law, to improve system cash flow.

Section 3. That Ryan Knuckey, Director of Transportation Services, is authorized on behalf of the City Council, to apply for financial assistance and to enter into related contract(s) with the IDOT.

Passed, adopted and approved this 6th day of April 2026.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Petition to Vacate a Portion of West 6th Street Right of Way known as City Lot 61B, in the City of Dubuque, Iowa
For Vacating Petition (Agreement Between City of Dubuque and Gronen Development, Inc. for the Mixed-use Building Project at the Corner of West 5th and Main Streets)

DATE: April 1, 2026

City Engineer Gus Psihoyos is recommending City Council adopt the resolution for vacating of city interest in the street right of way property described as City Lot 61B, in the City of Dubuque, Iowa.

The City executed a Development Agreement with Gronen Development, Inc. last year on March 17, 2025, for the development of a mixed-use building at the corner of 5th and Main Streets. The project will provide 8,000 square feet of first-floor commercial space and at least eighty (80) rental residential units at an investment of approximately $24,000,000.

Since the execution of the Development Agreement, the Gronen team has worked with City staff and identified an additional small area of land (which we are referring to as the "Notch") that is required to "square off" the northeast corner of the property. In order for the City to convey that property, a First Amendment to the Development Agreement is required. The Amendment has been prepared in order to allow for the following:

- Adding new land to the project (the "Notch").
- Establishing easement areas and revocable and irrevocable license areas.
- Imposing new infrastructure, utility, and permitting obligations.
- Establishing required bonding, inspections, and platting procedures.
- Creating mechanisms for early site access.

Included in the licenses to be granted for private improvements on public right of way are two electric meter banks and two electric transformers (one meter bank and transformer on the north side of the building in the West 6th Street right of way and one meter bank and transformer on the west side of the building in the alley right of way). Per the First Amendment document, if the City requires relocation of the transformers or meter banks to accommodate a public improvement project, the City will assume the cost of the relocation.

I concur with the recommendation and respectfully request Mayor and City Council approval.

SUBJECT: Petition to Vacate a Portion of West 6th Street Right of Way known as City Lot 61B, in the City of Dubuque, Iowa
For Vacating Petition (Agreement Between City of Dubuque and Gronen Development, Inc. for the Mixed-use Building Project at the Corner of West 5th and Main Streets)

DATE: March 30, 2026

INTRODUCTION

This is in response to a request from Gronen Development, Inc. (Gronen) for the vacating of a portion of the West 6th Street right of way, said right of way area legally described as City Lot 61B, in the City of Dubuque, Iowa.

BACKGROUND

The City executed a Development Agreement with Gronen Development, Inc. last year on March 17, 2025 for the development of a mixed-use building at the corner of 5th and Main Streets. The project will provide 8,000 square feet of first-floor commercial space and at least eighty (80) rental residential units at an investment of approximately $24,000,000.

DISCUSSION

Since the execution of the Development Agreement, the Gronen team has worked with City staff and identified an additional small area of land (which we are referring to as the "Notch") that is required to "square off" the northeast corner of the property. In order for the City to convey that property, a First Amendment to the Development Agreement is required. The Amendment has been prepared in order to allow for the following:

- Adding new land to the project (the "Notch").
- Establishing easement areas and revocable and irrevocable license areas.
- Imposing new infrastructure, utility, and permitting obligations.
- Establishing required bonding, inspections, and platting procedures.
- Creating mechanisms for early site access.

Included in the licenses to be granted for private improvements on public right of way are two electric meter banks and two electric transformers (one meter bank and transformer on the north side of the building in the West 6th Street right of way and one meter bank and transformer on the west side of the building in the alley right of way). Per the First Amendment document, if the City requires relocation of the transformers or

meter banks to accommodate a public improvement project, the City will assume the cost of the relocation.

All other terms and conditions of the original Development Agreement remain unchanged. The City Council approved the First Amendment to the Development Agreement with Gronen at its March 23, 2026 meeting.

In this area of the original City of Dubuque, the adjacent lot owners own to the centerline of the street and the City holds only a right of way easement. The City of Dubuque has dedicated and reserved the subject right of way areas unto itself prior to this current vacation of the “Notch” property to Gronen. At its March 16, 2026 meeting, the City Council approved the acceptance of the dedication and reservation of the right of way areas around the future Gronen property for street right of way and public utility purposes (platted as City Lots 62A and 62B).

As part of the agreement, the property owner is responsible for the surveying and platting of the proposed division of the property and right of way vacation as well as all costs for publication and filing fees. The attached plat shows the portion of the street right of way area proposed to be vacated and conveyed to Gronen (the “Notch”) to facilitate the mixed-use building development. The portion of the street right of way area to be vacated is to be known as City Lot 61B, in the City of Dubuque, Iowa. The street and alley right of way areas to be vacated need to be platted. Origin Design has prepared the attached vacation plat. The City Council approved the platting of Lot 61B and the setting of a public hearing to vacate and dispose of the property at its March 23, 2026, meeting. Copies of the recorded vacation plat and public hearing resolution are attached to this memo.

RECOMMENDATION

I am recommending the vacating of city interest in the street right of way property described as City Lot 61B, in the City of Dubuque, Iowa through adoption of the enclosed resolution.

ACTION TO BE TAKEN

I respectfully request that the vacating of the street right of way property described as City Lot 61B, in the City of Dubuque, Iowa be approved through the adoption of the enclosed resolution.

RESOLUTION NO. -26

RESOLUTION VACATING A PORTION OF CITY LOT 62A, IN THE CITY OF DUBUQUE, IOWA, BEING A PART THE WEST 6TH STREET RIGHT OF WAY, LEGALLY DESCRIBED AS LOT 61B, IN THE CITY OF DUBUQUE, IOWA

Whereas, the City of Dubuque has entered into an agreement with Gronen Development Inc (Gronen) for the vacation of City Owned property comprised of a portion of City Lot 62A, in the City of Dubuque, Iowa, being a part of the West 6th Street Right of Way to accommodate the construction of Gronen's proposed mixed use building development; and

Whereas, Gronen has requested the vacation of said portion of the West 6th Street right of way to facilitate the future conveyance of said property to Gronen per said agreement; and

Whereas, Origin Design has prepared and submitted to the City Council a plat showing the proposed vacated portion of City Lot 62A, in the City of Dubuque, Iowa, being a part of the West 6th Street Right of Way, and assigned a lot number thereto, to be known as Lot 61B, in the City of Dubuque, Iowa; and

Whereas, pursuant to resolution and published notice of time and place of hearing, published in the Telegraph Herald, a newspaper of general circulation published in the City of Dubuque, Iowa on the 27th day of March 2026, the City Council of the City of Dubuque, Iowa met on the 6th day of April 2026, at 6:30 p.m. in the Historic Federal Building Council Chambers (second floor), 350 West 6th Street, Dubuque, Dubuque County, Iowa to consider the request to vacate; and

Whereas, the City Council of the City of Dubuque, Iowa overruled any and all objections, oral or written to the request to vacate; and

Whereas, the City Council of the City of Dubuque, Iowa, has determined that the proposed vacation of City Lot 61B, in the City of Dubuque, Iowa, should be approved.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1. That the real estate described as City Lot 61B in the City of Dubuque, Iowa, be and the same is hereby vacated.

Passed, approved and adopted this 6th day of April, 2026

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Approving a First Amendment to Development Agreement between the City of Dubuque, Iowa and Gronen Development, Inc.

DATE: March 18, 2026

Economic Development Director Jill Connors is recommending City Council adopt the attached resolution approving the First Amendment to Development Agreement by and between the City of Dubuque, Iowa and Gronen Development, Inc. for the construction of a mixed-use building at the corner of 5th and Main Streets.

Since the execution of the Development Agreement, the Gronen team has worked with City staff and identified an additional small area of land (which we are referring to as the "Additional Property") that is required to "square off" the northeast corner of the property. In order for the City to convey that property, a First Amendment to the Development Agreement is required. The Amendment has been prepared in order to allow for the following:

- Adding new land to the project (the "Additional Property").
- Establishing easement areas and revocable and irrevocable license areas.
- Imposing new infrastructure, utility, and permitting obligations.
- Establishing required bonding, inspections, and platting procedures.
- Creating mechanisms for early site access.

All other terms and conditions of the original Development Agreement remain unchanged.

I concur with the recommendation and respectfully request Mayor and City Council approval.

TO: Michael C. Van Milligen, City Manager

FROM: Jill Connors, Economic Development Director

SUBJECT: Approving a First Amendment to Development Agreement between the City of Dubuque, Iowa and Gronen Development, Inc.

DATE: March 17, 2026

INTRODUCTION

This memorandum presents for City Council consideration a resolution approving a First Amendment to Development Agreement by and between the City of Dubuque, Iowa and Gronen Development, Inc.

BACKGROUND

The City executed a Development Agreement with Gronen Development, Inc. on March 17, 2025 for the development of a mixed-use building at the corner of 5th and Main Streets. The project will provide 8,000 square feet of first-floor commercial space and at least eighty (80) rental residential units at an investment of approximately $24,000,000.

DISCUSSION

Since the execution of the Development Agreement, the Gronen team has worked with City staff and identified an additional small area of land (which we are referring to as the "Additional Property") that is required to "square off" the northeast corner of the property. In order for the City to convey that property, a First Amendment to the Development Agreement is required. The Amendment has been prepared in order to allow for the following:

- Adding new land to the project (the "Additional Property").
- Establishing easement areas and revocable and irrevocable license areas.
- Imposing new infrastructure, utility, and permitting obligations.
- Establishing required bonding, inspections, and platting procedures.
- Creating mechanisms for early site access.

All other terms and conditions of the original Development Agreement remain unchanged.

RECOMMENDATION

I recommend the City Council adopt the attached resolution approving the attached First Amendment to Development Agreement for the construction of a mixed-use building at the corner of 5th and Main Streets.

FIRST AMENDMENT
TO
DEVELOPMENT AGREEMENT
BY AND BETWEEN
THE CITY OF DUBUQUE, IOWA
AND
GRONEN DEVELOPMENT, INC.

This First Amendment to Development Agreement, dated for reference purposes the 23rd day of March, 2026, is made and entered into by and between the City of Dubuque, Iowa (City) and Gronen Development, Inc. (Developer).

WHEREAS, City and Developer entered into a Development Agreement dated for reference purposes the 17th day of March, 2025 with respect to real estate legally described as:

BLK 17 DUBUQUE DOWNTOWN PLAZA, City of Dubuque, Iowa, as shown on the attached Exhibit A;

(the Initial Property); and

WHEREAS, Developer desires to acquire additional real estate adjoining the Initial Property described as follows:

That portion of the 6th Street right of way as shown on the attached Exhibit A

(the Additional Property); and

WHEREAS, the parties desire to amend the Development Agreement to include the Additional Property in the definition of the Property within the Development Agreement and to otherwise modify the Development Agreement to accommodate the Additional Property; and

WHEREAS, the parties desire to amend the Development Agreement to include additional terms and conditions related to the development contemplated by that Agreement; and

WHEREAS, the parties have reached agreement on the terms of a First Amendment and desire to set forth their agreement regarding the amendment in writing.

THEREFORE, IN CONSIDERATION OF THE MUTUAL TERMS AND CONDITIONS HEREIN AND IN THE DEVELOPMENT AGREEMENT, THE PARTIES AGREE AS FOLLOWS:

SECTION 1. The first Whereas clause is amended to read as follows:

WHEREAS, City is the owner of the following real estate located in the City of Dubuque, County of Dubuque, State of Iowa, consisting of approximately .69 acres:

BLK 17 DUBUQUE DOWNTOWN PLAZA, to include the Additional Property after completion of the platting process

shown on Exhibit A attached hereto (the "Property");

There shall be no additional Purchase Price under Section 1.1 of the Development Agreement for the Additional Property. However, the Developer shall be required to relocate at Developer's sole cost and expense a city utility box located on the Additional Property.

SECTION 2. Section 10.1 is amended to read as follows**:**

10.1 Minimum Improvements. Developer will make a capital investment of approximately Twenty-Four Million Dollars ($24,000,000.00) to improve the Property (the "Minimum Improvements"). The Minimum Improvements include creating eight thousand (8,000) square feet of first-floor commercial space and at least eighty (80) rental residential units. The Minimum Improvements shall also include the following:

(1) Relocating the City-owned lighting controller cabinet from the location on the Additional Property to a location to be mutually agreed upon by City and Developer prior to the relocation. The relocation shall include the lighting controller cabinet and all wiring, conduit and appurtenances associated with that cabinet in such a manner as to ensure its continued operation and functionality following relocation. If the relocation is to private property of the Developer, Developer and City shall agree upon the terms of an Easement Agreement related to location of the utility box and ingress and egress for City related to maintenance, repair and replacement of the utility box, all prior to the closing of the Development Agreement.

(2) City shall coordinate with Mediacom to ensure relocation (removal from the Property) of the Mediacom fiberoptic cable or other lines prior to the date of Closing.

(3) Portions of Developer's project will encroach upon property owned by the City, including City right of way property. City shall grant an irrevocable license for placement of such items on City property.

(a) Those items to be granted an irrevocable license include, but may not be limited to: below ground / building foundation (alley, 5th Street, 6th Street, and Main Street Rights of Way) and above ground building (5th Street and Main Street Rights of Way), structural eyebrows/facia.

(b) Revocable license shall be granted for pedestrian area lighting located on the north façade of the building (to the extent it encroaches onto City property), transformer and meter bank located in the 6th Street right of way and a meter bank located in the alley immediately west of the Initial Property, and protective bollards on the west side of the Building. If City requires relocation of the transformer or meter banks to accommodate a public improvement project, City shall assume the cost of such relocation.

(c) Developer to provide boundary survey grade encroachment exhibits for the Development Agreement to be approved by Council and recorded.

(4) There is located upon the Property an irrigation/water utility, including water pump and associated electric conduit, in the southwest corner of the Property and an existing storm sewer line running through the Property. City agrees to abandon the irrigation/water utility, including water pump and associated electric conduit, and an existing storm sewer line, and Developer agrees to be responsible for removing them at Developer's cost.

(5) Public Improvements. Developer shall construct, at Developer's cost, a new sanitary sewer manhole, storm sewer, storm intakes, pavement, curbing, planter, and landscaping in the 6th Street pedestrian plaza, sidewalk and curbing replacement on the east (Main Street) and south (5th Street) sides of the Property, and repaving of the disturbed areas of the alley adjacent to and west of the Property, consistent with the approved civil project plans, and shall dedicate the Public Improvements to City for ownership and maintenance.

(6) Developer Improvements. Developer shall provide appropriate private lighting improvements on the north façade of the Building to adequately and safely light the 6th street pedestrian plaza area adjacent to the property. City, at its sole discretion, shall review and approve the private lighting design. Developer shall, in perpetuity, own and maintain the private lighting improvements.

SECTION 3. The following Section is hereby added to the Agreement**:**

SECTION 19. PLANS AND PERMITS.

19.1 Developer must obtain and submit to City copies of all applicable permits necessary for the Public Improvements prior to commencing work.

19.2. Developer must obtain all applicable permits and licenses required for working in the City right-of-way, if applicable.

19.3. Developer must submit to City final design plans that meet current City standards, for the Public Improvements prior to commencing work. City will review and approve such plans before work on the Public Improvements commences. If such plans are not approved, City will provide feedback regarding the modifications necessary for approval.

SECTION 4. The following Section is hereby added to the Agreement**:**

SECTION 20. BONDS.

20.1. Developer must obtain a construction bond or other suitable security for one hundred ten percent (110%) of the estimated total construction cost of the Public Improvements.

20.2. Developer must obtain a maintenance bond or other acceptable security for twenty-five percent (25%) of the estimated total construction cost of the Public Improvements. Developer must maintain this maintenance bond for two (2) years after date that the City Council accepts the completed Public Improvements.

SECTION 5. The following Section is hereby added to the Agreement**:**

SECTION 21. INSPECTIONS AND ACCEPTANCE.

21.1. City will inspect the public improvements work throughout its implementation and at its completion to ensure compliance with the approved plans and specifications. Developer must pay to the City an inspection fee in the amount of three percent (3%) of the estimated total construction cost for the public improvements.

21.2. City will conduct a final inspection upon the completion of the Public Improvements. If the inspection establishes that the Public Improvements have been completed in accordance with the approved plans and City requirements and specifications, the Public Improvements will be accepted by City Council, thus starting the two (2) year warranty period.

21.3 Repair of damage to alley. Developer agrees to repair any damage to the adjacent City alley caused by Developer's work at the Property.

SECTION 5. The following Section is hereby added to the Agreement**:**

SECTION 22. AGREEMENT REGARDING PLATTING PROCESS.

22.1 City and Developer agree that there is included within the Property areas

upon which City currently has an easement for public right of way (the "Right of Way Property"), as shown on Exhibit A attached hereto. City shall, at its cost, obtain a survey that separates the Right of Way Property from the balance of the Property and record such survey. The Right of Way Property shall be retained by City at closing. Thereafter or concurrently therewith, Developer shall, at its cost, obtain a survey that vacates the right of way area of the Additional Property in order to create a lot of record which can be deeded to Developer by City. Thereafter or concurrently therewith, Developer shall, at its cost, obtain a survey that incorporates the Additional Property with the Initial Property into one lot, which lot shall be the Property conveyed to Developer by City pursuant to the terms of this Agreement.

SECTION 6. The following Section is hereby added to the Agreement:

SECTION 23. SITE ACCESS AGREEMENT.

23.1 The parties agree that if Gronen determines to commence construction work prior to the Closing Date the parties shall enter into a Site Access Agreement , upon terms mutually agreeable to the parties, which Agreement shall allow Developer access to the Property prior to Closing to begin site preparation and construction activities.

SECTION 7. All other terms and conditions of the Development Agreement shall remain in full force and effect.

RESOLUTION NO. 96-26

APPROVING A FIRST AMENDMENT TO DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF DUBUQUE AND GRONEN DEVELOPMENT, INC.

Whereas, the City of Dubuque, Iowa (City) is the owner of the following described real property:

BLK 17 DUBUQUE DOWNTOWN PLAZA, City of Dubuque, Iowa

(the Property)

; and

WHEREAS, City has entered into a Development Agreement with Gronen Development, Inc. for the development of the Property; and

WHEREAS, City is also the owner of the following described real property:

That portion of the 6th Street right of way as shown on the attached Exhibit A

(the Additional Property)

; and

WHEREAS, the City Council, by Resolution No. 86-26, dated March 16, 2026, declared its intent to enter into a First Amendment to Development Agreement by and between the City of Dubuque, Iowa, and Gronen Development, Inc.; and

WHEREAS, pursuant to published notice, a public hearing was held on the proposed First Amendment to Development Agreement on March 23, 2025 at 6:00 p.m.; and

WHEREAS it is the determination of the City Council that approval of the Development Agreement for redevelopment of the Property by Gronen Development, Inc., according to the terms and conditions set out in the Development Agreement, is in the public interest of the City of Dubuque..

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

Section 1. The City of Dubuque intends to dispose of its interest in the foregoing-described Additional Property by Special Warranty Deed to Gronen Development, Inc. pursuant to the proposed First Amendment to Development Agreement.

Section 2. That the Mayor is hereby authorized and directed to execute the Development Agreement on behalf of the City of Dubuque and the City Clerk is authorized and directed to attest to his signature.

Section 3. That the City Manager is authorized to take such actions as are necessary to comply with the terms of the Development Agreement as herein approved.

Passed, approved and adopted this 23rd day of March, 2026.

Brad M. Cavanagh, Mayor

SUBJECT: 2026 Public Works Asphalt Overlay Program
Sidewalk Curb Ramp Project - Bid Package 3
Award Public Improvement Contract
Project No. 5421000002

DATE: March 31, 2026

Assistant City Engineer Robert Schiesl is recommending City Council award the Public Improvement Construction Contract for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3 to Midwest Concrete, Inc in the amount of $264,271.00 through adoption of the attached resolution.

The 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3 will provide for the replacement of 45 access curb ramps, adjacent street pavement work, curb and gutter replacement, sidewalks, 1 storm sewer intake and landscape restoration work. This project is in coordination with the Public Works Asphalt Overlay program at the following locations:

- 28th St. from Jackson St. to Washington St. - 6 Ramps
- 29th St. from Jackson St. to Washington St. - 8 Ramps
- 30th St. & Jackson St. - 3 Ramps
- Diagonal St. & Traut Terrace - 2 Ramps
- Broadway St. from 24th St. to 28th St. - 12 Ramps
- Fulton St. & Monroe St. - 3 Ramps
- Argyle St. from Goethe St. to Groveland Pl. - 5 Ramps
- Windsor Ave. from Goethe St. to Euclid St. - 6 Ramps

I concur with the recommendation and respectfully request Mayor and City Council approval.

SUBJECT: 2026 Public Works Asphalt Overlay Program
Sidewalk Curb Ramp Project - Bid Package 3
Award Public Improvement Contract
Project No. 5421000002

DATE: March 30, 2026

INTRODUCTION

The purpose of this memorandum is to provide the City Council with information related to the recommendation for awarding the Public Improvement Construction Contract for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3.

BACKGROUND

Since 1990, the City of Dubuque has installed pedestrian access ramps around the City of Dubuque to conform with the American with Disabilities Act (ADA). The pedestrian access ramps allow people with mobility challenges to access the City's sidewalk system. The design standards for these ramps have evolved over time as more ramps have been installed and standards have changed.

Since 2011, The City of Dubuque follows the Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way (PROWAG) standard. These are the most current standards to use for facilities in public right-of-way and addressed issues brought up since the original ADA standards were developed. Both the Iowa Department of Transportation (Iowa DOT) and the Federal Highway Administration (FHWA) adopted PROWAG and require all cities that receive federal or state funding to follow these standards.

DISCUSSION

The 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3 will provide for the replacement of 45 access curb ramps, adjacent street pavement work, curb and gutter replacement, sidewalks, 1 storm sewer intake and landscape restoration work. This project is in coordination with the Public Works Asphalt Overlay program at the following locations:

- 28th St. from Jackson St. to Washington St. - 6 Ramps
- 29th St. from Jackson St. to Washington St. - 8 Ramps
- 30th St. & Jackson St. - 3 Ramps
- Diagonal St. & Traut Terrace - 2 Ramps

- Broadway St. from 24th St. to 28th St. - 12 Ramps
- Fulton St. & Monroe St. - 3 Ramps
- Argyle St. from Goethe St. to Groveland Pl. - 5 Ramps
- Windsor Ave. from Goethe St. to Euclid St. - 6 Ramps

BID RESULTS

The City received sealed bids on March 26, 2026, for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3. Midwest Concrete, Inc submitted the low base bid in the amount of $264,271.00 which is 11.1% below the estimate of probable cost. A summary of the bid proposals received is as follows:

Contractor Name	Bid Amount
Midwest Concrete, Inc	$ 264,271.00
Valentine Construction Co, LLC	$ 273,653.00
Dietz Enterprises, LLC	$ 303,974.00
Tschiggfrie Excavating Co	$ 392,899.00

RECOMMENDATION

I recommend that the public improvement contract for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3, be awarded to Midwest Concrete, Inc of Peosta, IA in the amount of $264,271.00.

BUDGET IMPACT

The estimate of probable cost for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3 is summarized in the following table:

PROJECT COSTS	ESTIMATE	AWARD
Construction Contract	$ 298,000.00	$ 264,271.00
Contingency	29,800.00	29,800.00
Engineering Design and Administration	25,000.00	25,000.00
Total Project Cost	**$ 352,800.00**	**$ 319,071.00**

The proposed funding for the project is summarized in the following table:

Project Number	Fund Description	Fund Amount
5421000002	PW Curb Ramp Program	$ 319,071.00
Total Construction Project Funding		**$ 319,071.00**

ACTION TO BE TAKEN

I respectfully request that the City Council award the Public Improvement Construction Contract for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3 to Midwest Concrete, Inc in the amount of $264,271.00 through adoption of the attached resolution.

RESOLUTION NO. _____ -26

AWARDING PUBLIC IMPROVEMENT CONTRACT FOR THE 2026 PUBLIC WORKS ASPHALT OVERLAY PROGRAM, SIDEWALK CURB RAMP PROJECT - BID PACKAGE 3

WHEREAS, sealed proposals have been submitted by contractors for the 2026 Public Works Asphalt Overlay Program, Sidewalk Curb Ramp Project - Bid Package 3, (the Project) pursuant to Resolution No. 65-26 and Notice to Bidders published on the City of Dubuque, Iowa website and plan room service with statewide circulation on the 6th day of March 2026; and

WHEREAS, said sealed bid proposals were opened and read on the 26th day of March 2026 and it has been determined that Midwest Concrete, Inc of Peosta, IA, in the bid amount of $264,271.00, is the lowest responsive, responsible bidder for the Project.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DUBUQUE, IOWA:

SECTION 1. That a Public Improvement Contract for the Project is hereby awarded to Midwest Concrete, Inc and the City Manager is hereby directed to execute a Public Improvement Contract on behalf of the City of Dubuque for the Project.

Passed, approved, and adopted this 6th day of April 2026.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: RFP Comprehensive Fire Station Location and Facilities Study Recommendation

DATE: March 31, 2026

Fire Chief Amy Scheller is recommending City Council approval to move forward with Wendel, Five Bugles Design, in partnership with Mitchell Associates Architects, to complete the Fire Department's Fire Station Location and Facilities Study for $97,500.

This study will provide a data driven framework to guide long-term capital planning, facility investment, station location, and service delivery improvements.

I concur with the recommendation and respectfully request Mayor and City Council approval.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: Mike Van Milligen, City Manager

FROM: Amy Scheller, Fire Chief

SUBJECT: RFP Comprehensive Fire Station Location and Facilities Study Recommendation

DATE: March 25, 2026

INTRODUCTION:

This memo respectfully requests approval to proceed with the selected consultant team to conduct a comprehensive Fire Station Building Condition Assessment and Station Location Study for the City of Dubuque Fire Department. This study will provide a data-driven framework to guide long-term capital planning, facility investment, station location, and service delivery improvements. The RFP outlined a two-part study to be conducted by a qualified firm:

1. Building Condition Assessment:
   A comprehensive evaluation of each facility's structural integrity, building systems (mechanical, electrical, HVAC, plumbing), code and ADA compliance, deferred maintenance, and space utilization.

2. Station Location Study:
   A professional analysis of station placement and response coverage using GIS and emergency response modeling tools. The study will validate the City's internal analytics which include current response and station location software and planning development and growth projections. The selected consultant would provide recommendations for optimal station distribution/ location and long-term facility planning which would consider the current condition and location of current stations as well as future projections for station locations. This would confirm current locations or recommend a modification to current locations which could include combining stations, moving stations, adding stations, or removing stations.

DISCUSSION:

On November 17th of 2025 the department requested and was approved to issue a Request for Proposal (RFP) to identify a qualified consulting firm to conduct a Comprehensive Fire Station Location and Facilities Study. This project directly supports

the 2025–2027 City Council Goals and Priorities**,** which identify the completion of a comprehensive fire station facilities and location study as a top priority. The department was also approved to reallocate funds from project 1315000028 with a balance of $188,000 at the same November council meeting and limited the proposal request amounts to $120,000.

On November 18, 2025, the RFP review committee was approved by the city manager under AP 3.09 consisting of the following individuals:

Fire Chief, Amy Scheller
Deputy Fire Chief, Kevin Esser
Assistant Fire Marshal, Derek Paulson
911 Emergency Communications Manager, Jessica George-Rethwish
Project Manager, Jim Bousley
CFO, Finance Manager, or purchasing and Risk Manager as identified by the CFO
Planning Services Director, Wally Wernimont
GIS Specialist, Nikki Rosemeyer
Data Analyst, Braden Daniels

On December 1, 2025, the City of Dubuque issued a formal Request for Proposals (RFP) seeking qualified consultants to complete a comprehensive evaluation of fire station conditions and a station location study.

The RFP outlined a structured and competitive procurement process and clearly defined expectations for:

- Facility condition assessments of all six fire stations
- Analysis of station locations relative to service demand and response performance
- Validation of existing response modeling and GIS-based data
- Development of recommendations for modernization, relocation, or replacement
- Creation of a final report to support long-term capital improvement planning

The schedule of events for the project includes the following activities:

Activity	**Date**
RFP Issued	December 1, 2025
Deadline for Submitting Questions	January 15, 2026
Distribution of Responses to Questions	January 22, 2026
RFP Due Date	February 5, 2026
Anticipated Evaluation and Award	February 25, 2026
Anticipated Implementation	March 2026
Report Completion	August 2026
Presentation to City Manager / City Council	September 2026

A total of eleven (11) high quality firms submitted proposals.

An RFP review committee consisting of eight (8) members representing Fire, Engineering, Dispatch, Finance, GIS, Data/Analytics, and Planning conducted a comprehensive evaluation. Each member independently reviewed and scored proposals based on established criteria. The data analyst provided oversight and documentation of the scoring during the initial review.

Following initial scoring, the committee identified a shortlist of four (4) firms for further evaluation.

Formal presentations and interviews were conducted over two separate dates in early March 2026. Following these presentations, the committee completed final evaluations and reached consensus on the top-ranked proposer. The data analyst provided oversight and confirmed the scoring results of the final proposers.

The RFP committee recommends moving forward with:
Wendel, Five Bugles Design, in partnership with Mitchell Associates Architects.

The selected team brings significant national expertise and specialized fire service knowledge, including:

- Over 140 years of combined public safety experience and more than 400 public safety projects completed nationwide
- Experience in evaluating over 150 public safety facilities and conducting hundreds of feasibility, location, and programming studies
- Dedicated emergency services designers, including current and former fire service professionals, providing real-world operational insight
- National leadership in public safety response, station location, facility design, including participation on NFPA technical committees and industry recognition

Importantly, this team demonstrated a strong capability to independently validate and enhance the City’s existing deployment and response modeling. As outlined in the RFP, the selected consultant will perform an independent review of current response performance data, GIS modeling, and service demand trends to confirm or refine existing station locations and deployment strategies.

Their approach includes:

- Advanced GIS-based response modeling and travel-time analysis
- Independent validation of existing analytical tools and assumptions
- Identification of gaps in coverage and response reliability
- Development of optimized station location scenarios based on current demand and projected future growth and development patterns

This ensures that recommendations are not only data-driven but also forward-looking, positioning the Fire Department to meet evolving service demands across all areas of the community.

In addition, the consultant team brings extensive experience in facilitating complex public safety planning discussions with elected officials, staff, and the community. Their proposal highlights a structured and transparent engagement approach that includes:

- Public meetings, stakeholder workshops, and neighborhood engagement sessions
- Clear, visual communication tools to explain service impacts and options
- Collaboration with City leadership to support informed decision-making
- Assistance in communicating recommendations in a manner that is understandable, transparent, and actionable for the public and City Council.

This level of engagement is critical for a project of this magnitude, where future facility decisions will have long-term community and financial impacts.

PROJECT OVERVIEW

Consistent with the RFP, the study will include:

- Comprehensive condition assessments of all six existing fire stations
- Evaluation of station functionality, compliance, and long-term viability
- Analysis of current deployment effectiveness and response performance
- Review and validation of existing GIS and response modeling data
- Identification of service gaps and future system needs
- Development of data-driven recommendations for station relocation, renovation, or replacement which could include combining stations or adding a 7th fire station if needed
- Phased implementation strategies aligned with capital improvement planning

The study will leverage City-provided data including incident response data, GIS mapping, demographic trends, and the Fire Department's Standard of Cover.

This project is critical to ensuring the Fire Department remains aligned with:

- Community growth and changing service demand patterns
- Industry best practices and response performance standards
- CPSE accreditation and continuous improvement efforts
- Long-term capital planning and financial stewardship

Equally important, this study will provide clear, defensible, and transparent recommendations that can be effectively communicated to stakeholders, supporting informed policy decisions and community understanding of future fire station investments and timelines for collaboration and sustainability with competing needs of the city.

The recommended proposers cost was $22,500 under the RFP project cap amount of $120,000.

To support this initiative, the Fire Department proposed and was approved to reallocate existing funds from CIP Project #1315000028 (All Fire Stations Tuckpointing) with an available balance of $188,638.

RECOMMENDATION:

It is recommended that the City approve moving forward with Wendel, Five Bugles Design, in partnership with Mitchell Associates Architects, to complete the Fire Station Location and Facilities Study for $97,500.

This consultant team provides the experience, technical expertise, and facilitation capability necessary to deliver a comprehensive, forward-looking, and community-informed plan for the City of Dubuque.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Support of a Town Clock Lighting Partnership with Dubuque Forward

DATE: April 1, 2026

Andy Butler of Dubuque Forward has approached the City with a concept to light the Town Clock. This would be through funding and efforts led by Dubuque Forward with the City being the recipient of the proposed improvements.

Park and Recreation Director Matt Kalcevich advises, “That after several meetings and discussions of Dubuque Forward and City staff, which included a lighting designer and potential contracting partner, the city expanded conversations to include multiple departments to review the concept. The feedback about this concept has been positive. However, several areas of concern need to be evaluated including the provision of power, sensitivity with installation, availability of replacement parts, light pollution, and the warranty.” It is anticipated that these can be quickly resolved.

A vote of support by the City Council would allow work on the project to proceed, in relation to a timeline requested by Dubuque Forward to possibly have the project ready to be fully activated by July 4, 2026. While any delay would miss the July 4 target date, the project could proceed at a slower pace.

Asssistant City Planner Chris Happ Olson advises, “When time is allowed, we would take something as visually prominent as this to our Historic Preservation Commission for an advisory review, as it is on a City structure and a visible icon from the downtown and bluff neighborhoods, although the structure is in no formal district that would trigger this type of historic review. The timing to go to City Council by April 6 doesn’t support such a review, as the Commission already met in March.

“In my opinion, whether this structure is considered to be National Register eligible would be debatable. Erring on the side of caution, when I review this, the nature of the work proposed does not appear to visually change the physical structure, other than its visibility at night. When combined with the proposed modification’s reversibility, the change appears to have negligible impact on that resource.”

“Based on this, I feel that staff review, with no adverse effect on a potentially historic structure, is sufficient.”

Consistent with the proposal from Dubuque Forward, Dubuque Forward would be responsible for all implementation expenses and would purchase spare replacement parts for city inventory. The city would then be responsible for all maintenance and electrical expenses. The maintenance and electrical expenses are anticipated to be minimal for the foreseeable future.

I respectfully recommend Mayor and City Council authorization to proceed with this project and authorization to sign the final agreement that will be completed soon, consistent with the described understanding, so the project can be completed by July 4, 2026.

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007•2012•2013 2017★2019

TO: Michael C. Van Milligen, City Manager

FROM: Matthew K. Kalcevich, Parks and Recreation Director

SUBJECT: Support of a Town Clock Lighting Partnership with Dubuque Forward

DATE: **April 1, 2026**

INTRODUCTION

This is a request for support from the City Council to proceed with planning and the structuring of a formal agreement with Dubuque Forward to provide support for a project to light the Town Clock located Downtown on Main Street.

BACKGROUND

In the Fall of 2025, Dubuque Forward approached the City with a concept to light the Town Clock. This would be through funding and efforts led by Dubuque Forward with the City being the recipient of the proposed improvements.

After several meetings and discussions of Dubuque Forward and City staff, which included a lighting designer and potential contracting partner, the city expanded conversations to include multiple departments to review the concept.

DISCUSSION

This idea has been part of a review by various city departments going back over 10+ years. The feedback about this concept has been positive. However, several areas of concern need to be evaluated including the provision of power, sensitivity with installation, availability of replacement parts, light pollution, and the warranty.

A vote of support by the City Council would allow work on the project to proceed, in relation to a timeline requested by Dubuque Forward to possibly have the project ready to be fully activated by July 4, 2026.

Dubuque Forward would be responsible for all implementation expenses and would

purchase spare replacement parts for city inventory. The city would then be responsible for all maintenance and electrical expenses. The electrical expenses are anticipated to be minimal. Staff are seeking authorization to sign the final agreement, consistent with this understanding, so the project can be completed by July 4, 2026.

ACTION REQUESTED

I respectfully request City Council support of this action to work toward finalizing an agreement and therefore empowering city staff to conduct the required assessment and planning of logistics for the lighting of the Town Clock, in full connection with the proposal by Dubuque Forward.

TOWN CLOCK

Lighting Design Study

March 20, 2026

Table of Contents

1 Project Overview
1.1.1.The Ask
1.1.2.The Team
2 Design
3 Fixture Costs
4 Total Project Budget + estimated operating costs
5 Schedule

1. Project Overview

Dubuque Forward has initiated a design study to illuminate the historic Town Clock on Main Street. As a longstanding landmark and visual anchor of downtown, the Town Clock serves as a symbol of the community; enhancing its presence at night will create a meaningful visual impact for both residents and visitors.

To advance this effort, Dubuque Forward has partnered with CSLA Lighting, the design team behind the successful illumination of the former St. Mary's steeple—now known as Steeple Square. Their proven experience ensures a thoughtful, high-quality lighting approach that highlights the Town Clock's historic and civic importance.

1.1.1. The Ask

Dubuque Forward will lead the efforts to raise private funds to pay for the material and labor needed to install the lighting as outlined in the following material. It is estimated that the cost of the project will be approximately $85,000. Dubuque Forward will purchase "attic stock" for the fixtures, controllers and power supplies to ensure any maintenance or replacement is done with like kind and quality of material.

Upon completion, the completed project will be turned over to the city.

The city will then be responsible for the ongoing utility costs and maintenance. A&G has compiled an estimate of ongoing utility costs based on the fixtures being used. This estimate is included in the supporting documentation and is anticipated to be less than $500 per year.

The goal is to complete the project so that a Grand Lighting Ceremony can be held the weekend of July 4th. The timing is tight but very doable with all of the public and private teams working closely together.

1.1.2 The Team

Dubuque Forward: Andy Butler, Sam Mulgrew, Emily Sewell, Anna Their, Nelson Klavitter, Mike Stickley
Crescent Electric: Pat Faley

Quoted By: Walters, Nikki

Notes

* SPARE FIXTURES AND COMPONENTS ARE NOT INCLUDED UNLESS OTHERWISE NOTED.
General pricing you can use for estimating:
SPARE DRIVERS - if required will be $100 PER DRIVER
SPARE LED BOARDS/MODULES - if required will be $100 EACH
SPARE LENSING - if required will be $100 PER 4FT LENS
* The terms are per each Manufacturer's published terms and conditions of sale and subject to manufacturer changes.
In general, if specification requires WARRANTY TO START at any time other than FIXTURE SHIPMENT DATE - i.e. SUBSTANTIAL COMPLETION DATE - an ADDITIONAL 1YR WARRANTY may be required - MUST ADD 10% to ALL quoted prices for ADDITIONAL
YEAR WARRANTY COVERAGE
* Errors and omissions are subject to correction. CSLA is *not responsible for fixture and control device counts.
* Shipment schedules are established by Manufacturer. Any lead time shown are estimates.
* Custom products require a deposit and payment in full prior to shipping with no returns or cancellations allowed.
* Quotes are based on one release per Manufacturer. Split shipments will be subject to freight charges.
* POLE PRICING IS CONTINGENT ON THE TOTAL QUANTITY OF POLES QUOTED AND ONE SHIPMENT TO ONE LOCATION. ANY CHANGE IN THE TOTAL QUANTITY WILL REQUIRE A REQUOTE AS POLE FREIGHT IS INCLUDED UNLESS OTHERWISE NOTED. Acuity poles do *not* count towards freight prepaid for Acuity fixtures. Pre-shipment of anchor bolts will be plus freight.
* CSLA does not take responsibility for accuracy of submittals unless they are done by CSLA or reviewed by CSLA prior to submitting.
* A set of submittals marked “Approved as Noted”, or CSLA Release Waiver Form, will be required for all project orders.
* Most linear products and poles will require Factory Drawings to be approved. Distributor Hold For Release PO is required to get factory drawings - which can take 1-2 weeks. Order will not be released to production until factory drawings are approved. Standard catalog cuts/specs will NOT be accepted.
* CSLA is not responsible for labor charges. A labor estimate must be submitted and approved by manufacturer prior to work being performed. Chargebacks not honored without prior written approval from Manufacturer.
* Material for suspending or mounting fixtures and equipment is not included unless specifically noted or called out in part number.

Freight/Order Terms

Lumenpulse:	For Lumenpulse and Area orders under $20K, freight charges will be a flat 10% of order value. For Point Source (Lumencore downlights, cylinders, spots, and track) under $3K, freight charges will be a flat 10% of order value. Orders over the $20K and $3K thresholds, respectively, will continue to have standard freight charges prepaid. Expedited freight and/or special handling charges will continue to be managed on a case-by-case basis. **** POLES ARE ALWAYS "PLUS FREIGHT" **** Note: An additional fee of $100.00 will apply for any shipment to a construction site. All shipment and delivery dates on Lumenpulse orders are a best approximation of probable shipment and delivery dates and are not guaranteed. Lumenpulse shall not be liable for costs, expenses or damages incurred by any party due to shipment or delivery after any estimated date. Any change in an order will automatically involve a reschedule of the shipment and delivery date.	Freight Minimum:	$20,000	Qualifies: Yes

Special Terms

Lumenpulse	BAA, Buy American, minimum order value must be US$50,000 or more.

4 - Total Project Budget + Estimated Operating Costs

I have attached a High-Level Budget including labor and material for the following per plans, specifications, and/or conversation.

Inclusions:

- Install:
  - DYNAMIC WHITE OPTION (per Quote #26-33076-0, provided on 3/6/2026 = **$42,877.00**)
    - *((**Add 5%, or $2,143.85**) to budget amount below if A&G is to supply these fixtures)*
    - SECOND LEVEL LIGHTING
      - 8 FIXTURE - LBS-120-DWH-NAS-STDFINISH-DMX/RDMUL-10FT-BK-N/A
    - CLOCK LEVEL
      - 8 FIXTURE - LBS-120-DWH-NS-STDFINISH-DMX/RDM-UL-10FT-BK-N/A
      - 4 FIXTURE - LOGN-4W-48V-48-DWH-10X30-CLSTDFINISH-UCTL-UL-UMASN-STDFINISHKITOF2-N/A
    - ROOF & SPIRE LEVEL
      - 12 FIXTURE - LOGN-4W-48V-48-DWH-WW-HFRSTDFINISH-UCTL-UL-UMASN-STDFINISHKITOF2-N/A
    - BASE LIGHTING
      - 1 FIXTURE - LBL-120-DWH-NS-STDFINISH-DMX/RDM-UL-10FT-BK-N/A
      - 5 MISCELLANEOUS MATERIAL/CONDUIT, WIRE, BREAKERS
    - CONTROLS
      - I have included (1) J-box, (1) astronomical timer & contactor to operate these lights
- Bucket Truck
- Boom Lift
- Permit & Inspection

Exclusions:

- Taxes
- Traffic Control and/or Baricades
- Security, Performance, and Maintenance Bonds
- Builders Risk Insurance
- Engineering and Design fees
- Arc Flash and Coordination Study
- Private Utility Locates
- Job site office and trailer wiring
- Demolition
  - Structural and site electrical

- Cutting, patching, and painting of any new and existing surfaces for installation of new electrical and to gain access to existing electrical
- Relocation of existing electrical conduits and feeders
- Supplying or installing:
    - Painting of Conduit
    - Spare parts (Attic Stock) if not specified in plans
- Suppling and installing wiring for:
    - Lightning protection system
- Night or weekend work

The estimated Electrical Budget for this project is $85,000.00

Energy Usage Estimate

Formula used (ON average 12 hours per day):
kWh/year per fixture = (Watts × 4,380) ÷ 1000
Yearly cost = kWh × $0.10

Yearly usage and cost by fixture:

Fixture Model	Qty	Watts (each)	kWh/Fixture/Year	Total kWh/year	Yearly Cost
LBS-120-DWH-NAS	8	14 W	61.32	490.6	$49.06
LBS-120-DWH-NS	8	14 W	61.32	490.6	$49.06
LOGN-4W-48-10x30	4	16 W	70.08	280.3	$28.03
LOGN-4W-48-WW-HFR	12	16 W	70.08	841.0	$84.10
LBL-120-DWH-NS	1	120 W	525.6	525.6	$52.56

Total system energy:

Metric	Value
Total fixtures	33
Estimated yearly energy	2,628 kWh
Estimated yearly cost	**$262.80 (usage only, meter fees not included)**

TERMS AND CONDITIONS SECTION

NOTICE:

- **Due to the volatility of increasing rise in copper, aluminum, steel and PVC products A&G Electric reserves the right to review and adjust all material pricing on a daily basis.** Current contract is based on the daily market rate for goods and commodities reflected by the submitted date of this proposal. A&G Electric reserves the right to increase said contract accordingly to reflect the market rates on the day of receipt of the Purchase Order. Changes will be shown in documentation through, invoices and/or receipts for such goods and commodities if applicable. Pricing is subject to the terms of a mutually acceptable contract.

- **A&G Electric shall have the option to withdraw this proposal if not accepted within 10 days from its date.**

- Due to circumstances out of our control and the volatility in material and equipment costs, as well as delivery dates, because of unforeseen events, such as strikes/disruptions in the transportation sector, natural disasters, and changes in law (for example, tariffs), our pricing is based on current market conditions at the time of this proposal. Should our costs increase or delivery dates change as a result of such events, we reserve the right to adjust the contract price and/or receive an extension of time due to delayed delivery dates accordingly.

- Due to the effects of COVID-19 and the threat of other future pandemics, material lead time, material pricing, and manpower scheduling is subject to change in the event of adverse situations caused by pandemic effects. We appreciate your business and will work closely with you to minimize any possible impacts to your project.

PROPRIETARY INFORMATION:

- Estimate pricing, part numbers, scope of work, and/or engineering are proprietary and shall be considered confidential between A&G Electric and the intended recipient of these documents.

EXCAVATION:

- A&G Electric is not responsible for any excavation or excavated areas unless specifically included within the scope of work.
    - If excavation is specifically included, this proposal is based on normal soil conditions for trenching, augering and/or excavation.
        - If anything besides normal soil conditions is encountered (such as contamination, rock, debris, old foundations, high water, or unstable soil conditions) additional charges will be added respectively.
    - All excavation spoils are to remain on site.
        - If specifically included within scope of work, any removal is based on CLEAN, uncontaminated soil.
            - Remediation, special hauling fees, treatment charges, or special permits relating to contaminated soils is not included.

GENERAL:

- Unless otherwise noted, this estimate is subject to this TERMS AND CONDITIONS SECTION.
    - A&G Electric reserves the right to increase said estimate accordingly to reflect the market rates on the day of receipt of the Purchase Order if beyond the quote expiration date.
- Work is to be performed during a standard 8-hour workday between 7:00 AM and 3:30 PM, Monday through Friday.

TERMS:

- A deposit of **50%** of the estimated price is required at the time of purchase for all orders **$2,500.00** and above. This deposit will be applied to the final invoice.
- Payments are due every 30 days as the work progresses. A 1.5% service charge will be applied to all outstanding account balances over **30** days past due.

PRE-LIEN NOTICE OF RIGHT TO CLAIM A MECHANIC'S LIEN:

- We are looking forward to a successful project, and we promote communication and cooperation to avoid misunderstandings or disputes. Pursuant to Iowa Code Chapter 572, this notice serves as a pre-lien notification to inform you that A&G Electric is providing labor, materials, or services for the improvement of the property listed above. This notification preserves our right to file a mechanic's lien against the property should payment not be received as agreed.

EXECUTION:

- No contract for sale exists and material will not be ordered without the AUTHORIZATION SECTION signed below and returned to A&G Electric.

Subject: RE: Lighting Proposal for the Town Clock

When time is allowed, we would take something as visually prominent as this to our Historic Preservation Commission for an advisory review, as it is on a City structure and a visible icon from the downtown and bluff neighborhoods, although the structure is in no formal district that would trigger this type of historic review. The timing to go to City Council by April 6 doesn't support such a review, as the Commission already met in March.

In my opinion, whether this structure is considered to be National Register eligible would be debatable. Erring on the side of caution, when I review this, the nature of the work proposed does not appear to visually change the physical structure, other than its visibility at night. When combined with the proposed modification's reversibility, the change appears to have negligible impact on that resource.

This is the area of the code where this type of project comes under review:

16-10-1: HISTORIC PRESERVATION COMMISSION:

M. Powers: The commission has the following powers, duties, and responsibilities:

15. To serve as an advisory design review body to the city council for review of public works projects which have historic preservation implications in historic districts, individually designated historic properties, or for alteration of landmarks, landmark sites or structures, that would result in a material change in appearance or be visible from the public way.

16. To serve as an advisory review body to the city council for the review of public planning, design, construction, and maintenance needs in conservation planning areas upon request from the city council. (Ord. 40-15, 6-1-2015; amd. Ord. 31-24, 6-17-2024)

Based on this, I feel that staff review, with no adverse effect on a potentially historic structure, is sufficient.

Please let me know if you have any questions.
Sincerely,

Chris

Subject: Lighting Proposal for the Town Clock

This sender is trusted.

Mike,

Dubuque Forward has been working on an initiative that was originally envisioned b Nelson Klavitter to light the Town Clock. The attached proposal outlines the ask, the timelines, the team involved, and the work that's been done to date.

Our goal is to have a grand lighting ceremony the weekend of July 4. That schedule is very tight, but also very doable if we work together to get this done.

After you've reviewed the proposal, please let me know if you have any questions. Obviously, city planning, engineering, and historical reviews all need to happen in addition to council approval. Dubuque Forward is prepared to move ahead quickly so it would be fantastic if this was something that could make it to the April 6 Council agenda. This project will highlight an amazing element of Dubuque and be additive to all of the activity under way.

Have a great weekend!

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Jeffris Challenge Grant – Eagle Point Park

DATE: March 31, 2026

Planning Services Director Wally Wernimont and Parks and Recreation Director Matt Kalcevich are recommending City Council approval to inform the Jeffris Family Foundation of the City's intent to apply for a Capital Campaign Challenge Grant. This grant would support the restoration campaign for the Alfred Caldwell-designed buildings at Eagle Point Park, a collaborative effort between the Parks and Recreation and Planning Services Departments.

I concur with the recommendation and respectfully request Mayor and City Council approval.

SUBJECT: Jeffris Challenge Grant – Eagle Point Park

DATE: March 31, 2026

INTRODUCTION

The following memo is to request approval to inform the Jeffris Family Foundation of the City's intent to apply for a Capital Campaign Challenge Grant. This grant would support the restoration campaign for the Alfred Caldwell-designed buildings at Eagle Point Park, a collaborative effort between the Parks and Recreation and Planning Services Departments.

BACKGROUND

As part of the Capital Improvement Program (CIP) the Parks and Recreation Department received $75,000 to conduct a structural assessment of the Alfred Caldwell–designed structures at Eagle Point Park, including the Bridge Complex, Veranda Rooms, and the Indian Room, along with their immediate surroundings. Because the property is listed on the National Register of Historic Places and designated as a City Landmark, the Parks and Recreation Department consulted the Planning Services Department for its expertise in historic preservation.

Planning Services determined that a comprehensive Historic Structures Report (HSR) would exceed the available $75,000 budget. Staff subsequently identified a $50,000 matching grant opportunity through the Jeffris Family Foundation to help fund the study.

At its March 4, 2024 meeting, the City Council approved using the $75,000 as matching funds for the Jeffris grant. As part of the application process, a detailed budget and selection of a qualified consultant were required. Planning and Park & Recreation staff reviewed a proposal from Wiss, Janney, Elstner Associates, Inc. (WJE), a firm with specialized experience in preparing HSRs and particular expertise in Alfred Caldwell–designed structures.

On April 15, 2024, the City Council approved Resolution No. 90-24, authorizing staff to submit the grant application to the Jeffris Family Foundation for $50,000 and permitting

the City Manager to execute a grant agreement totaling $125,000 ($50,000 Grant + $75,000 CIP).

The City of Dubuque was subsequently awarded the $50,000 grant. WJE then proceeded with the Historic Structures Report under the guidance of both the Planning Services and Parks and Recreation Departments. The resulting HSR included recommendations for restoration, further investigation (structural, material and environmental), and implementation cost estimates.

At their April 21, 2025 meeting, the City Council authorized the Planning Services Director and Parks and Recreation Director to provide the report to the Jeffris Family Foundation and close out the HSR grant. In addition, the City Council received and filed the document as a requirement of the grant process. Link to Historic Structures Report.

As part of City Council approval of Budget Amendment #1, the Parks and Recreation Department engaged WJE to take on the structural and material scope, with assistance from Planning and Engineering, while Environmental Management Services of Iowa (EMSI) took on the environmental scope. All investigations are complete.

Jeffris has expressed interest in supporting the capital phase of restoration with a Jeffris Family Foundation Champaign Challenge Grant. The challenge grant is a matching grant to support the preservation of historic buildings. It requires local fundraising commitments first, then provides additional funds once those goals are met to help complete restoration projects. For every 2 dollars fundraised, the foundation would give 1 dollar as a match, i.e., if we raise $1 million, we can receive an additional $500,000 with their grant.

Their process is unusual in that they do not consider solicitations but instead work from an internal pool of potential projects. Their quarterly board meeting is coming up and to be eligible for the grant, they require a response in a notice of intent to apply by April 10. If invited, they will require an application, and awards will be made at the board's July meeting.

DISCUSSION

Jeffris has requested the following information as part of the notice of intent to apply:

1) ***Scope of Work*** – Identified in the Historic Structure Report Summary from WJE, including restoration work at the Bridge, Veranda and Indian rooms along with their immediate environs.

2) ***Budget Estimate Range*** – Included with the above work a list of probable costs for today's economy. When taken into account that we'll implement this work after we finish our fundraising challenge by 2029, we estimate the project to be $1,971,492. Based on this, we are estimating a range up to $2,267,215, which is the estimate plus a 15% contingency.

3) ***Partnering to assure skills and capacity to raise the necessary match*** -

At its January 20, 2026 meeting, City Council approved distributing a Request for Qualifications (RFQ) to engage a fundraising consultant for the Alfred Caldwell restoration project. After reviewing three firms, staff recommends the Collective Agency as the preferred consultant. They presented a comprehensive approach, including forming a “friends” group to support donor outreach. The emerging Friends of Dubuque Parks organization could provide peer donors and volunteers, supporting the Eagle Point project and future park initiatives. Final approval of the consultant would occur only if awarded the Challenge Grant.

BUDGET IMPACT

Jeffris has strict rules about the use of their funds, which are specifically designed to be a challenge opportunity for the grantee. Therefore, if awarded, the City will be required to raise at minimum two dollars for every one dollar granted. The Jeffris Family Foundation can grant up to a million dollars toward one project, but that is rare. WJE helped us develop an estimate of probable costs during the HSR development. For discussion purposes, if the project is $1,971,492, we would be required to raise $1,314,328 for the $657,164 grant. Specifications include that the City cannot use budgeted funds as a match toward the challenge and that any match toward the challenge would need to be secured following the foundation’s grant award.

In addition to those construction costs, we anticipate we’ll have a fundraising consultant cost of approximately $140,000 that we’ll need to budget for FY2027-FY2029 to support that campaign.

Timeline	Phase Title	Consultant	Cost	Budget Source
2025	Historic Structures Report (HSR)	Wiss Janney Elstner & Julia Bachrach	$125,000	$50,000 Jeffris Family Foundation, $75,000 Parks & Rec budget
2025-2026	Additional Investigation	Wiss Janney Elstner; EMSI, City Staff	$40,000 WJE; $1,800 EMSI	Parks & Rec budget
2026-2029	Fundraising Consultant for 3 year capital campaign	RFQ provided three proposed qualifying firms, with Collective Agency standing out	$140,040 Cost to hire this consultant needs to be budgeted over FY27-FY29	Parks & Rec CIP (see attached CIP)
2029-2031	Restoration – project implementation	*Contractor to be chosen after campaign*	Estimated range: Between $1,971,492 and $2,267,215	Grants, individual and corporate donors, foundations

TIMELINE

Our goal is to report back to the Jeffris Foundation in the first full week of April to confirm our capacity and interest, as their deadline is April 10. Awards are expected in July, followed by a three-year fundraising campaign, with the restoration project commencing thereafter.

COMMITMENT TO EAGLE POINT PARK

Survey work and protection of historic properties help bolster the City's position as a Certified Local Government. Eagle Point Park, recognized for its state-wide significance and protected as a Dubuque Landmark Site, is an unparalleled example of Caldwell's work. These properties require specialized restoration expertise and fundraising capacity beyond the City staff's resources.

The City remains strongly committed to maintaining and improving Eagle Point Park, with a combination of new initiatives and ongoing projects. Highlights of current and planned investments include:

- **New Position – Park Maintenance Technician:** $82,136; offset by eliminating temporary positions totaling $39,345, for a net annual cost of $42,791.
- **Shiras Pavilion Roof Replacement:** $97,000
- **Renovate/Resurface Tennis Courts:** $302,000
- **Trim Trees / Bluff Clearing:** $150,000
- **Terrace Room Roof Replacement:** $40,000
- **Veranda Room Roof Replacement**: $51,000

In addition, ongoing CIP projects and carryovers at Eagle Point Park include:

- **Stone Work:** $99,606
- **Replace Walkways:** $82,715
- **Log Cabin Improvements**: $71,000

These initiatives reflect a comprehensive approach to preserving the park's historic structures and enhancing recreational amenities for the community, which is important to demonstrate as we undertake a capital campaign for restoration.

RECOMMENDATION

I respectfully request approval to submit the notice of intent to apply for the Challenge Grant to Jeffris Family Foundation, including the scope of work, budget range, and proposed partnership for fundraising.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for match funding for an approximate $600,000 challenge grant for bricks and mortar improvements from the Jeffris Family Foundation. A historic structures report was completed for the Bridge Complex, Indian Room and Veranda Rooms at Eagle Point Park. The challenge grant program provides funds for restoration of these structures of up to $1 million dollars requiring locally raised matching funds at 2:1($2 Local:$1 Foundation). FY2027, FY2028, and FY2029 provide funding for hiring a fundraising partner to raise the funds and FY2030 and FY2031 is for construction.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20% or DRA funding

PROJECT ADDRESS/SERVICE AREA

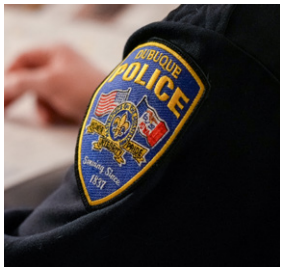
2025 DUBUQUE POLICE DEPARTMENT ANNUAL REPORT



Mission Statement

Enhancing community livability by providing equitable community service and protection through integrity, compassion, and competence.

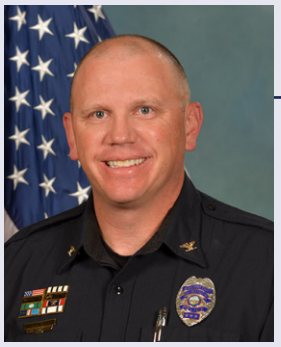
GUIDING PRINCIPLES

ACT WITH **INTEGRITY**

ACT WITH **COMPASSION**

ACT WITH **COMPETENCE**

ACT WITH **OPEN MINDS**



Police Chief Jeremy Jensen

CHIEF'S MESSAGE

The Dubuque Police Department is committed to delivering exceptional police services through strong community partnerships. Our annual report serves both the department and the public by highlighting trends, guiding resource decisions, and identifying opportunities to better support our community.

The report affirms that Dubuque remains a safe community. This city is among the safest in Iowa...a state which continues to rank among the safest in the nation. The information included in these pages also reflects our commitment to transparency, professionalism, and service with integrity and care. As I prepare to retire later this year, I am proud of the work we have accomplished together and grateful for the community's continued trust and support.

Dubuque's Approach to PUBLIC SAFETY

The goal of the City's approach to public safety is to make Dubuque the safest community possible with the understanding that community safety is not just about injury prevention and crime prevention; it is about increasing well-being and building a vibrant, engaged, and equitable community.

The Dubuque Police Department has an authorized staff of **109 sworn officers** and **12 civilian positions** across six divisions:

- Administration & Staff Services
- Community-Oriented Policing
- Criminal Investigations
- Emergency Operations
- Patrol
- Records

Working to ensure residents experience an increased sense of well-being, a sustainable quality of life, a reduction in the numbers and cost of injuries, the preservation of income and assets, and improved perceptions of safety is a top priority for Dubuque city government.

Accredited for Over 30 Years

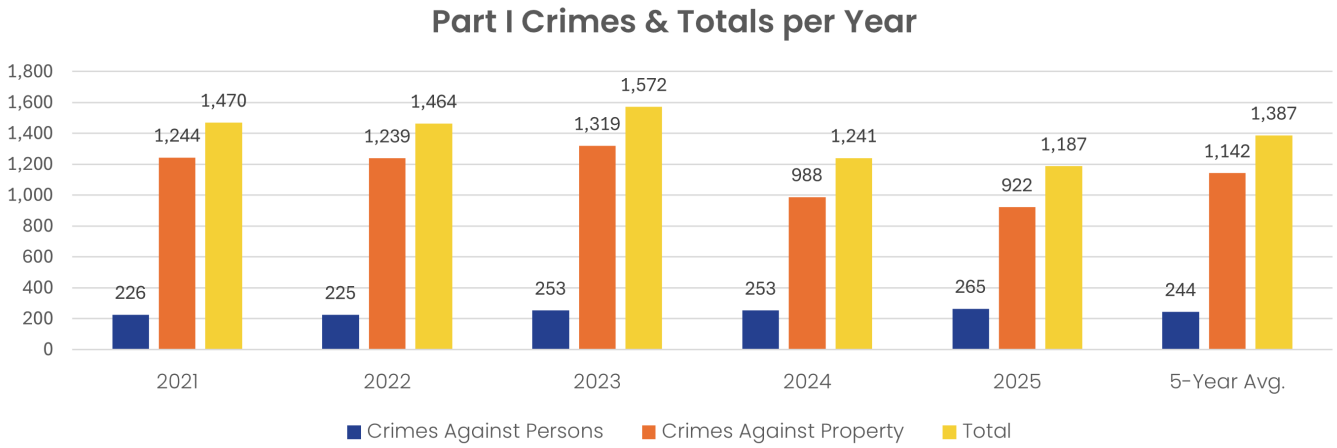
The Dubuque Police Department has been accredited by the **Commission on Accreditation of Law Enforcement Agencies (CALEA)** since 1993. The department has to demonstrate compliance with 459 standards to retain accredited status. Accreditation is an important achievement as it tells the citizens and persons dealing with the department that it is operating consistent with best practice professional standards.

Committed to the
DUBUQUE COMMUNITY

Enhancing Trust Through Responsive Service and Protection

Part I Crimes

The U.S. Federal Bureau of Investigation's Uniform Crime Reporting (UCR) Program collects data about Part I offenses in order to measure the level and scope of crime occurring throughout the nation. The program collects data on these offenses because they are serious crimes, they occur with regularity in all areas of the country, and they are likely to be reported to police.



Total Part I Crimes in Dubuque **fell by more than 24%** from 2023 to 2025. In 2025, the total number of Part I Crimes **decreased by 4.4%** from 2024 and was **14.4% lower** than the five-year average.

	2024	2025
Aggravated Assault	159	160
Sexual Assault	79	91
Robbery	14	14
Murder	1	0
Total	253	265

	2024	2025
Theft of Motor Vehicle	55	53
Arson	6	4
Burglary	270	236
Theft	657	629
Total	988	922

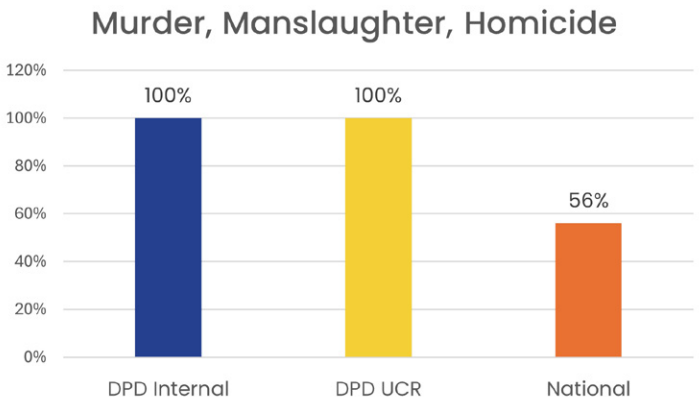
A robbery happens to a person and a burglary happens to a place (home, garage, car, etc.). **The combined total of burglaries and thefts in Dubuque fell by 6.7% from 2024 to 2025.**

The Dubuque Police Department excels in solving crimes, continuing to surpass national clearance rate averages.

The department's **internal clearance rates** include cases deemed unfounded, as well as those suspended due to exhausted leads, halting further investigation. These figures are displayed in the blue columns labeled **"DPD Internal"** in the following charts. The **UCR clearance rate** more closely matches how national statistics are gathered. These figures are displayed in the yellow columns labeled **"DPD UCR."** Even with the difference in methodology, Dubuque Police still exceed the national standard in most types of crimes.

The **national** crime clearance rate for **Crimes Against Persons** is ***48%***. The **Dubuque Police Department's** clearance rate for these crimes is ***56%***.

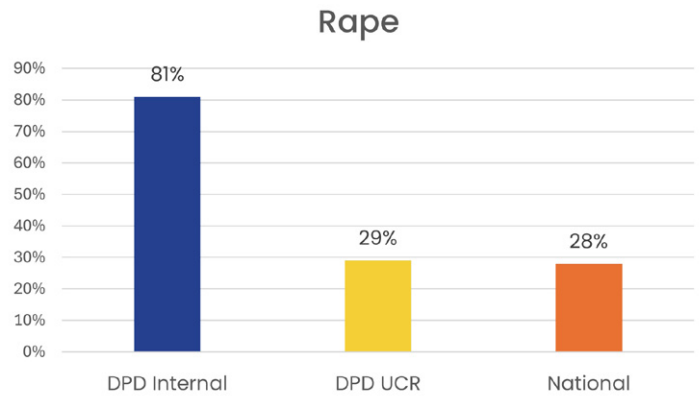
The **national** crime clearance rate for **Crimes Against Property** is ***14%***. The **Dubuque Police Department's** clearance rate for these crimes is ***37%***.

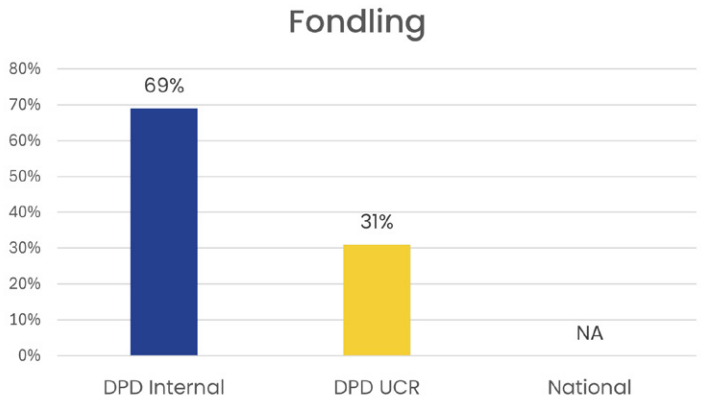


Dubuque Police made an arrest in the only case involving murder, negligent homicide, or manslaughter in the city in 2025. The national clearance rate for these types of crimes is 56%.

Clearance Rate

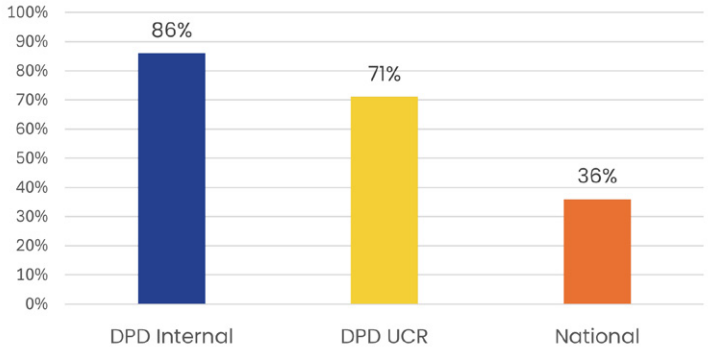
A law enforcement term for the percentage of cases that are "solved" or "closed" by an agency. The rates are determined by taking the number of closed cases divided by the total number of cases. The higher the percentage, the more effective the agency is at closing cases.





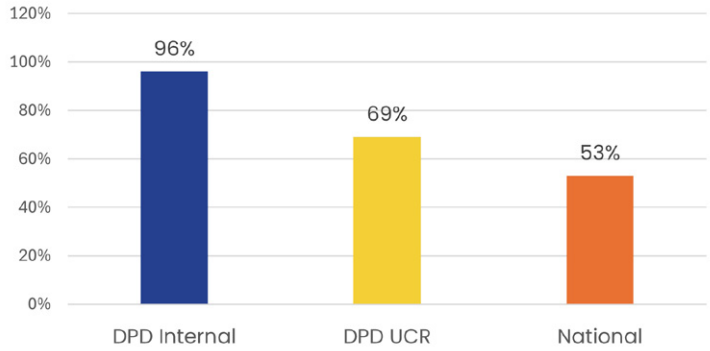
The FBI recently changed how sexual assault crimes are categorized, separating them into the categories of rape and fondling. There were 59 rapes reported in Dubuque in 2025 and 32 cases of fondling. National data for fondling cases is not yet widely available.

Robbery



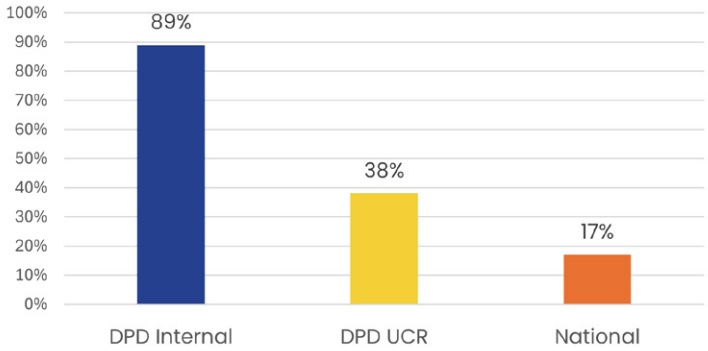
Percentages based on 14 robbery cases in 2025.

Aggravated Assault



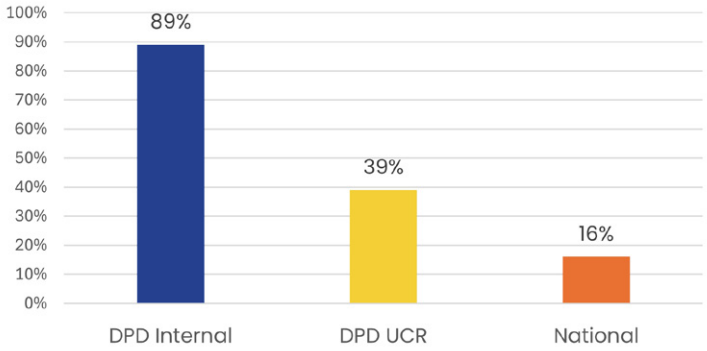
160 cases of aggravated assault were reported in 2025.

Burglary/Breaking & Entering



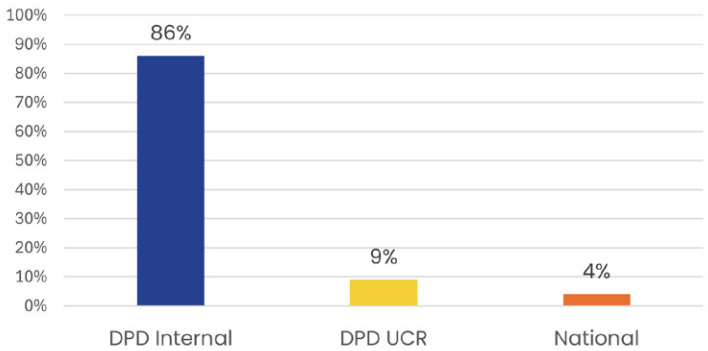
Total 2025 cases of burglary/breaking & entering was 151.

Larceny/Theft



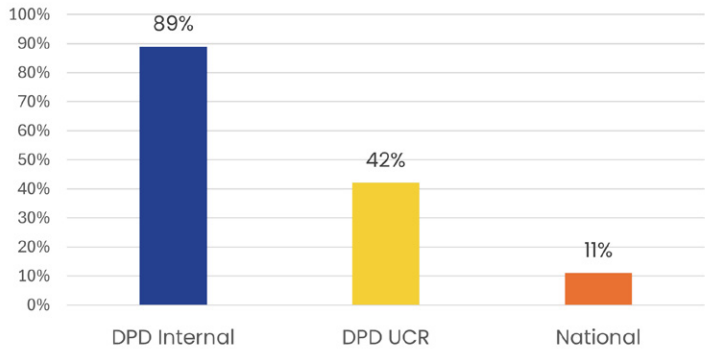
DPD investigated 629 cases of larceny/theft in 2025.

Motor Vehicle Burglary



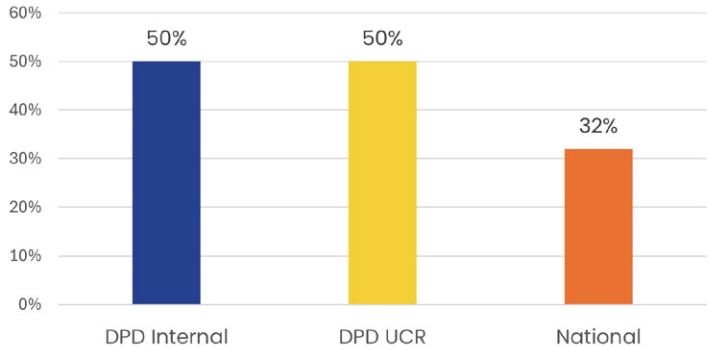
Cases of burglary to a motor vehicle totaled 85 in 2025.

Motor Vehicle Theft



2025 saw a total of 53 reported motor vehicle thefts.

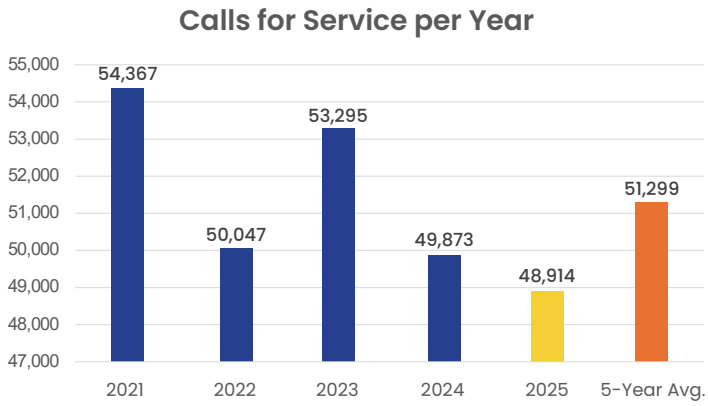
Arson



There were four cases of arson reported in Dubuque in 2025.

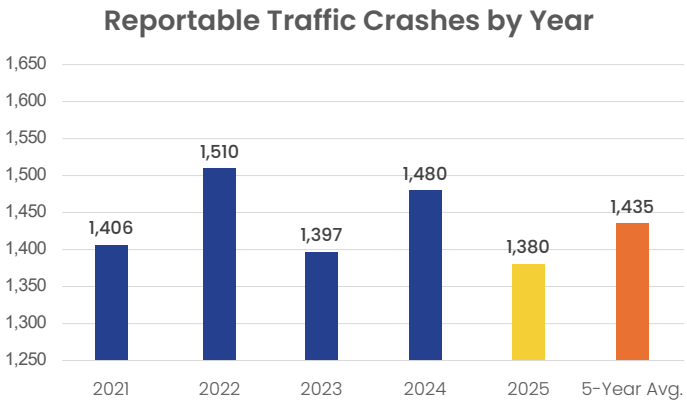
Calls for Service

Calls for service in 2025 were **down by nearly 2% from 2024**, and were approximately **4.7% below the five-year average**. Because of the 24/7 nature of law enforcement, the Dubuque Police Department continues to respond to calls for service ranging from nuisance calls to the Part I crimes listed in the chart on page 3.



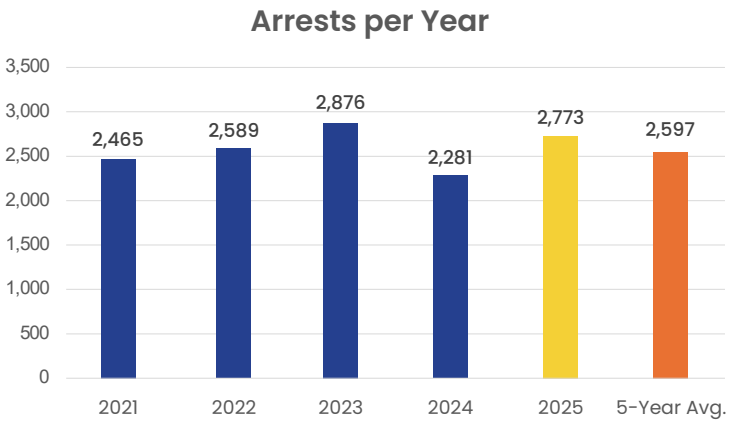
Traffic Crashes

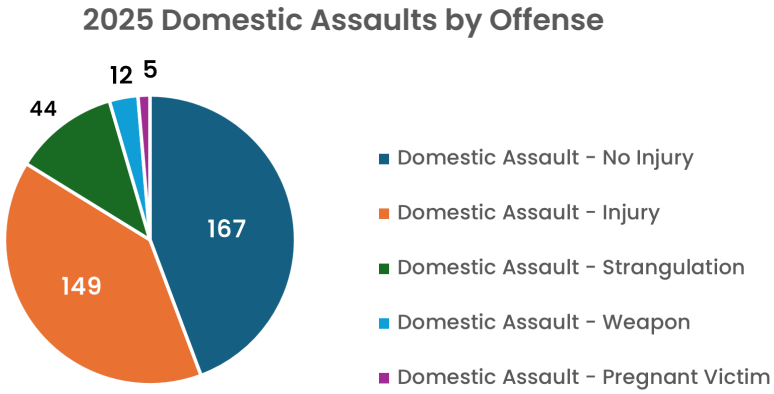
Traffic crashes consist of property damage, personal injury, and fatality crashes. **In 2025, there were three fatality crashes, representing a significant decrease from 2024 (seven).** Ten other crashes resulted in serious injuries. Overall, 297 injuries were reported. Speed, distracted driving, and following too closely were contributing factors in a majority of crashes.



Arrests

Data includes custodial arrests as well as arrests when suspects were cited and released. This does not include simple misdemeanor traffic violations. Arrests range from simple misdemeanors such as public intoxication to Class A felonies such as murder.





Secure Dubuque

Secure Dubuque is a community partnership program that gives residents the option to register their home surveillance system with the Dubuque Police Department. In the event a crime occurs in the area, footage from the system could be of assistance to the department, increasing the efficiency of the investigation. Personal surveillance systems can include security cameras and doorbell cameras. To learn more, visit www.cityofdubuque.org/SecureDubuque

Submit a Tip

If you would like to report criminal or suspicious activity to police, or have information about a crime that police are investigating, submit a tip at www.cityofdubuque.org/Police. In a non-emergency situation, call 563-589-4415. As always, if the situation is an emergency, call 911.

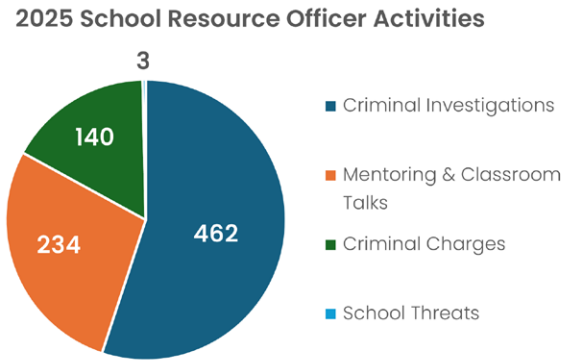
COMMUNITY ORIENTED POLICING

The Dubuque Police Department subscribes to the Community-Oriented Policing philosophy of working directly with residents to address crime, perceptions of police, and overall quality of life through positive police interactions.

The department's Community Policing Division includes three bicycle patrol unit officers, six School Resource Officers, two Crisis Intervention Officers and a civilian liaison, and a crime prevention and public information unit.

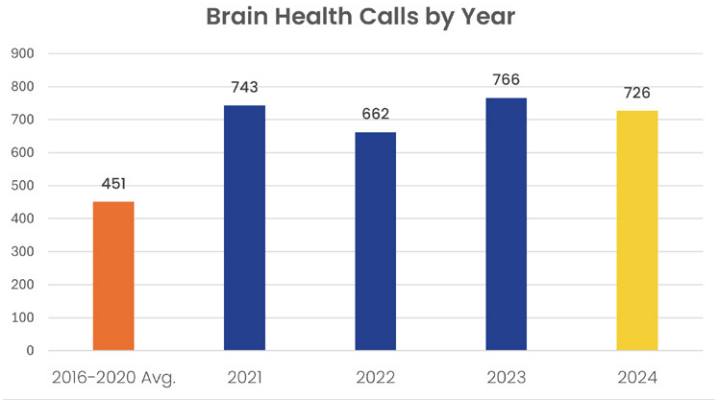
School Resource Officers

Six School Resource Officers (SROs) serve the public schools in the Dubuque city limits, as well as Holy Family Catholic Schools on a limited basis. They provide counseling and mentoring to students, while also addressing crimes committed on campus. SROs are considered vital members of their school's administrative team. Dubuque Community Schools cover 50% of the funding for the SROs.



Crisis Intervention Team

The Dubuque Police Department's Crisis Intervention Team (CIT) aims to use the Secondary Responder model to assist individuals who may be experiencing a brain health or substance abuse crisis. In situations where a subject is dealing with these issues, a secondary responder trained to specifically deal with mental health, substance abuse, and homelessness provides assistance and follow-up.



FIRST-YEAR EFFORTS OF THE

PRECISION POLICING CENTER

The Dubuque Police Department's Precision Policing Center (PPC) was established in late 2024 to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. It is staffed by four civilian positions: three Technicians and one Crime Analyst. The PPC helps the department leverage new technology and utilize real-time data. The center saw significant success in its first full year of operation, including:

- **694 Exports:** An "export" is when a camera technician saves traffic or safety camera video so it can be used by officers as evidence.
- **322 Cases:** Precision Policing Center technicians spent more than 1,300 hours reviewing camera footage for officers to use in a total of 322 cases.
- **Prosecutions:** Camera technicians from the PPC worked with the Dubuque County Attorney's Office to provide video evidence related to the prosecution of 141 cases.
- **School Cases:** Beginning in September, technicians were assigned to assist the Dubuque Community School District in securing video footage related to school bus violations.

Professional Standards

All allegations of employee misconduct or complaints made against the Department, including anonymous complaints, are appropriately received, recorded, and investigated.

Complaints which are less serious in nature, such as alleged rudeness, tardiness, etc. are referred to and investigated by the employee's immediate supervisor.

Complaints of a serious nature, such as, allegations of criminal misconduct, corruption, excessive force, breach of civil rights, or ongoing negative behavior are referred to the Police Chief, Assistant Chief, or Professional Standards Supervisor for formal investigation. Fifty-two complaint cases were completed in 2025:

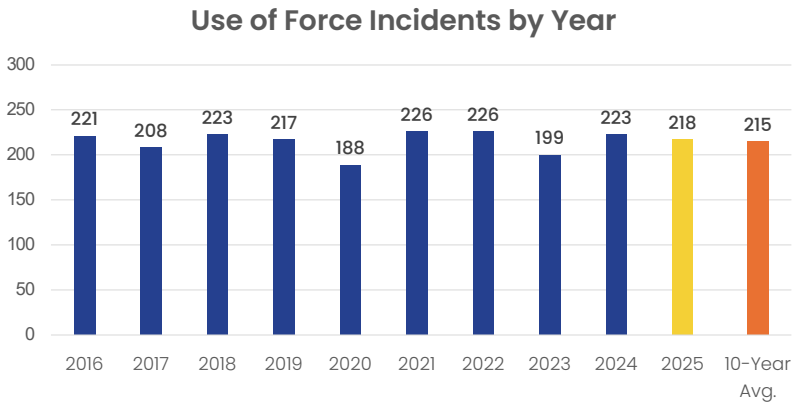
- 48 cases were initiated by citizens, and four were Formal Investigations ordered by the Chief of Police.
- 48 cases remained at the Inquiry or Informal Complaint level. Eight of these cases were founded.
- 41 of the 52 complaints were for poor job performance.
- 40 of the 52 complaints were deemed unfounded once the investigation had concluded.

Due to the use of body worn cameras and in-car camera systems, Professional Standards investigators are able to accurately review most officer/citizen interactions.

Use of Force

Dubuque Police Department policy states a Use of Force Report is to be applied under the following circumstances:

> *All incidents requiring the application of force involving lethal or less-lethal weapons will be reported in writing to the chief of police. A Reportable Use of Force report will be submitted in all cases where an injury or death results from, or is alleged to have resulted from, actions by an employee of the department whether through the use of lethal, less-lethal, or weaponless physical force; or when physical force is used at a level greater than soft hand techniques or simple handcuffing.*
>
> *Officers will file a use of force report through their immediate commanding officer, detailing any incident in which the officer draws and displays a departmental firearm. A use of force report will generally not be required in instances where an officer draws a weapon as a safety precaution, such as during a building search.*

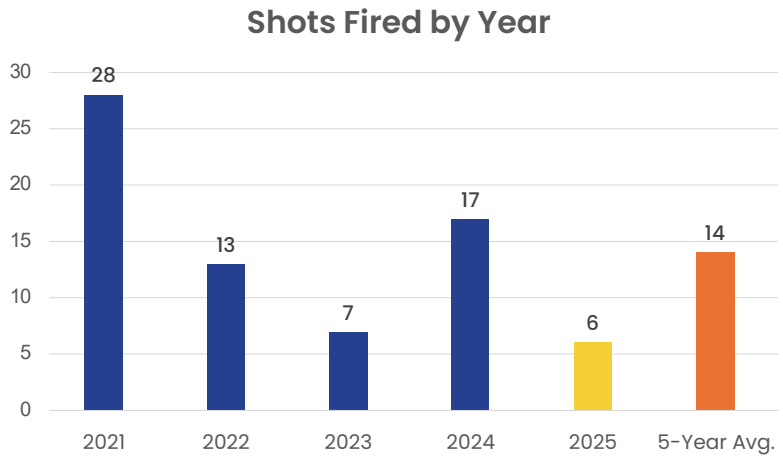


2025 Percentage of Arrests Involving Use of Force	
Arrests without Use of Force	92.2%
Arrests with Use of Force	7.8%

Incidents of Shots Fired

In 2025, the Dubuque Police Department responded to 6 incidents of shots fired. **This figure represents the lowest total since 2020.** Maintaining a low number of shots fired incidents is a result of several factors, including an extensive public safety camera network and diligent police work. This is far below other similar-sized cities in the Midwest.

Additionally, a Dubuque police officer is assigned as a Task Force Officer (TFO) to the Bureau of Alcohol, Tobacco, and Firearms. In 2025, this officer investigated 52 Federal firearms violations.



Dubuque Drug Task Force (DDTF)

The Dubuque Police Department is in a joint drug task force with the Dubuque County Sheriff's Department. While marijuana accounts for the majority of drug investigations, opioids and drug overdoses constitute additional issues of concern.

The most concerning drug currently is fentanyl, which is being found in all types of drugs and is being made to look like common over-the-counter drugs or even candy. Fentanyl was a contributing factor in all of the opioid death cases in 2024. However, the continued investigative focus on fentanyl contributed to a **65% decrease in overdoses and a 33% reduction in opioid deaths from 2024.**

Drug Investigations - 2025

General Investigations	279
Overdose Investigations	7
Overdose Death Investigations	2

In addition to investigations, DDTF made **12 educational presentations** to the public.

Dubuque Police Department
2025 AWARDS

Each year, the Dubuque Police Department awards department personnel who demonstrate exemplary service in the line of duty, achieve certifications, and celebrate milestone service anniversaries.

Police Supporter Recognition (Citizen Award)

Dan Arensdorf

In the spring of 2018, Arensdorf began allowing DPD and other Dubuque County law enforcement agencies to conduct firearms training at a quarry on his property. These trainings ensure officers stay qualified and proficient with their firearms. In the years since 2018, Dubuque Police have been able to conduct additional trainings at the Arensdorf property, including those for snipers, tactical teams, K9s, and drones. While firearms trainings have since moved to the department's permanent shooting range, DPD continues to utilize Arensdorf's property for training for the department's Underwater Search and Rescue Team. During a period when the quarry was drained, Arensdorf even took it upon himself to acquire vehicles that could be placed in the pond before the area was refilled with water. Because of Arensdorf's assistance, the realistic nature of these trainings help keep officers prepared to face the challenges of modern law enforcement.

Assistant Police Chief Joe Messerich presents Dan Arensdorf with the Police Supporter Recognition Award.

Certificate of Merit

Lt. Kane Hoffmann

Lt. Hoffmann coordinated the presentation of a multi-agency driver education and safety program at multiple schools around the Dubuque area, reaching hundreds of driving-age students with a powerful and personal message about the consequences of distracted driving and excessive speed. Lt. Hoffmann devoted countless hours of his own time to meet with schools, collaborate with community partners, and attend similar presentations to strengthen the outreach and impact. He worked closely with family members of local crash victims, demonstrating empathy, compassion, and a sincere commitment to honoring their experiences. His ability to balance sensitivity toward those families while connecting with students and communicating critical safety messages exemplifies the department's values of service and integrity.

Officer Alyssa Klawitter

Officer Klawitter was recognized for two efforts during 2025. Over the summer, she created "go bags" for victims of domestic violence. These kits provided essentials so victims leaving a violent situation could have access to essential hygiene items while staying somewhere else. Klawitter coordinated organization and distribution of the bags with the Dubuque County Attorney's Office, as well as local non-profits like Resources Unite, the Dubuque Rescue Mission, and the Red Basket Project.

In the fall, Klawitter investigated a theft report which led to the arrests of three subjects accused of fraudulently soliciting donations outside of a Dubuque grocery store. The investigation revealed additional victims in the Dubuque area, as well as in Chicago. Each suspect faces multiple felony counts.

Life Saving

Cpl. Joel Cross and Officer Brendan Nugent

Cross and Nugent were called to a medical emergency at Capri College in downtown Dubuque. Nugent immediately began chest compressions while Cross retrieved the medical bag, including an Automated External Defibrillator (AED). A pulse was found, and the patient was handed off to the Dubuque Fire Department for continued life-saving measures.

Cpl. Justin Stair, Officer Brandon Barbour, and Officer Sage Schroeder

The trio was dispatched to the Dubuque Railroad Bridge for a report of a toddler on the bridge. Officers were able to locate and remove her from the bridge. The child's parents were also found nearby, where the mother was suicidal and threatening to jump into the river. Cpl. Stair and Officer Barbour secured the mother and spoke with her until Fire Department personnel arrived to lift her to safety.

Officers Dakota Bierer and Evan Hingtgen

The officers were sent to a home where a medical emergency had been reported. After finding an unresponsive subject on a couch in the home, they move the patient to the floor and began performing CPR. An AED was applied and delivered a shock to the patient. Officers continued CPR until additional responders arrived and took the patient to a local hospital, where they survived the emergency.

Officer Nathan Goedken

Officer Goedken was dispatched to a report of a child not breathing. The boy was not responsive, so Goedken began chest compressions, which led to the boy beginning to breathe on his own. The boy was taken by Dubuque Fire Department ambulance to the hospital, where he eventually was able to sit upright and communicate with hospital staff.

Officer Austin Manders

On Christmas Eve, Officer Manders was called to a chaotic physical disturbance on W. 5th St. After separating the parties involved, Manders learned one of the individuals had sustained a gunshot wound. After requesting an ambulance, Manders moved the patient to a safe area and began treating the would by applying pressure and a chest seal. The patient was taken by ambulance to a hospital, where they underwent surgery and required several days of care, but has since made a full recovery.

Officer Joshua Vauthier

Officer Vauthier was called to a motor vehicle crash, with one subject reportedly being ejected from the vehicle and lying in the road. Once on scene, Vauthier determined one of the vehicles involved had struck a utility pole, which ejected the subject through the sunroof. The patient was unresponsive and had shallow, irregular breathing. Vauthier began chest compressions and continued CPR until responders from the Dubuque Fire Department took over medical care.

Patriot Award

Worn by members of the Dubuque Police Department in recognition of their continued dedication in the defense and protection of the United States.

- *Officer Kaitlyn Frick*
- *Officer Cassandra Holmes*
- *Officer Joseph Kimball*
- *Officer Marcus Leitzen*
- *Officer Camerin McClain*
- *Officer Jared Ostwinkle*

Join the **Dubuque Police Department!**

2025 DUBUQUE POLICE DEPARTMENT ANNUAL REPORT

Chief Jeremy Jensen

Why do people want to live, work and play in Dubuque?

DUBUQUE IS A SAFE CITY!

People & Technology

SAFETY COMES FROM INVESTMENT!

INVESTING IN PEOPLE

- Investing in quality officers.
- Investing in experts (sworn and non-sworn staff).
- Investing in the community (citizens police academy, explorers, community involvement in safety).

INVESTING IN TECHNOLOGY

- The traffic camera system.
- Precision Policing Center (PPC)
- State of the art computer hardware and software

- CALEA certified.
- Continuously certified since 1993 (first in Iowa)
- 459 standards reviewed over 4 years (100 plus each year).
- Industry best practices.

INVESTING IN ACCOUNTABILITY

CRIME STATS

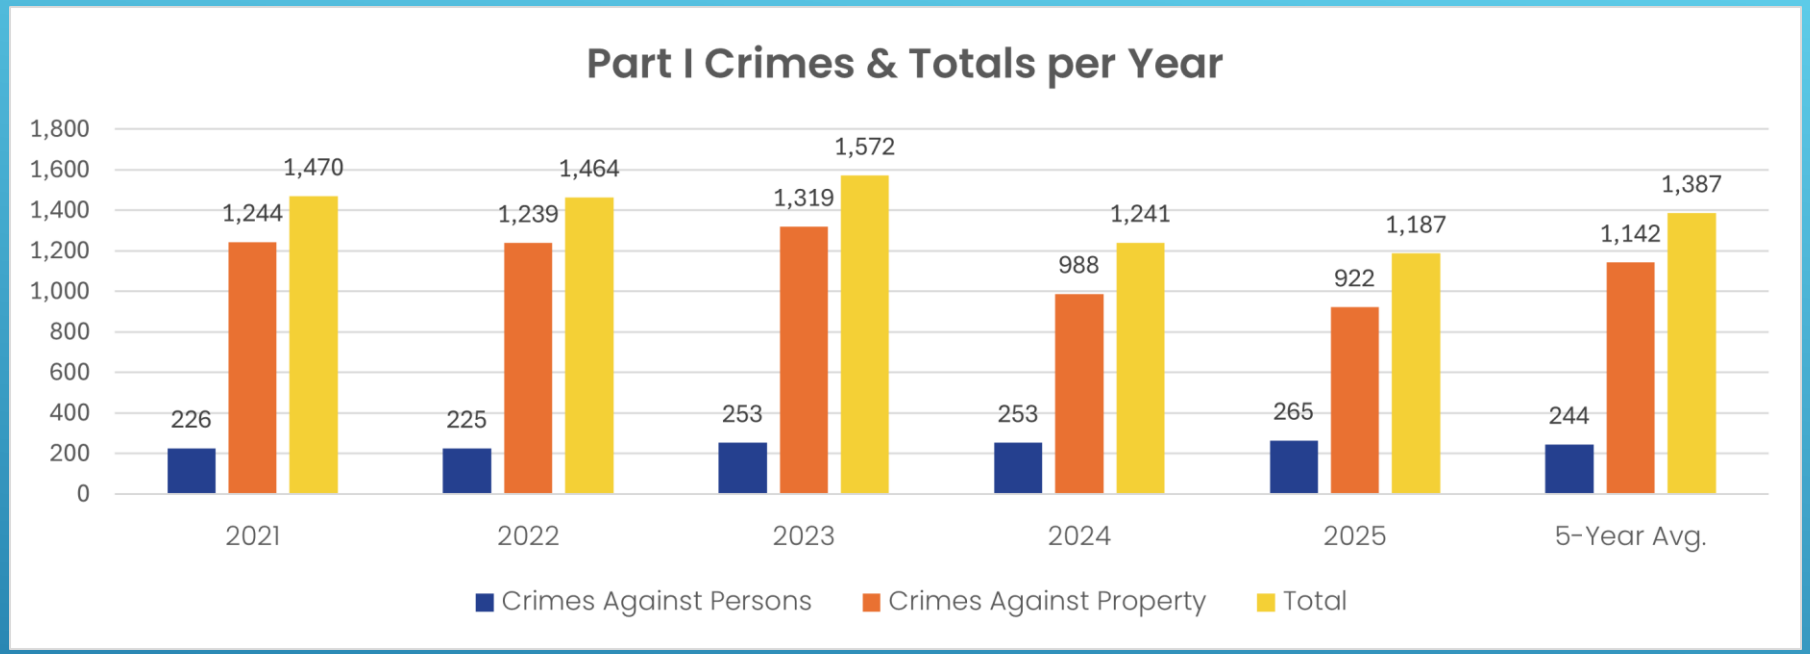
- First year of the Crime Analyst.
- Crime states are incredibly nuanced and not reported exactly the same form city to city.
- Our goal is consistency within Dubuque.

53,295 (2023)

49,873 (2024)

48,914 (2025)

CALLS FOR SERVICE



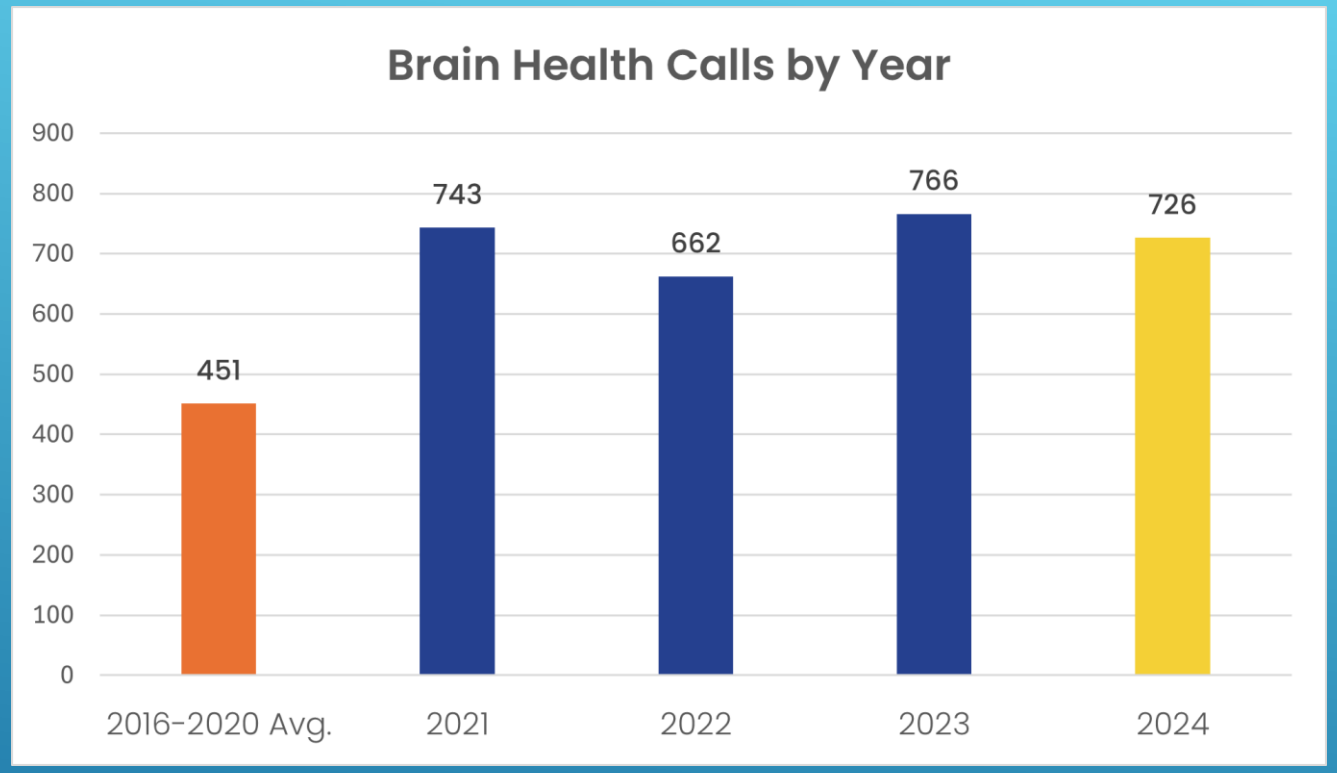
PART 1 CRIMES

"You are going to get caught in Dubuque."

SHOTS FIRED

CLEARANCE RATES

- Clearance rates are nuanced.
- Clear cases accurately.
- They look different this year.
- Not all crimes reported in a year are cleared in that year.



BRAIN HEALTH

Technology and non-sworn staff.

FORCE MULTIPLIERS

PRECISION POLICING CENTER

- 4 non-sworn staff (currently)
- 322 cases
- 1300 hours
- Making cases on their own

- Speed and accuracy.
- Ask the victims!

CAMERAS

It is all about a safe community!

FROM: Antonio J. Mouzon, Community Impact & Neighborhood Support Director

SUBJECT: Work Session Request for Updates on Economic Mobility Progress

DATE: April 2, 2026

INTRODUCTION

The purpose of this memorandum is to request a City Council work session to provide updates regarding Economic Mobility through the Office of Community Impact and Neighborhood Support. This session is proposed for April 20, 2026 from 5:15 p.m. to 6:00 p.m.

BACKGROUND

The Office of Community Impact and Neighborhood Support was established to foster a thriving Dubuque community by advancing system-level strategies and direct community engagement. Since its inception, the department has expanded to include the functions of the former Economic Mobility Department, strengthening its capacity to address community needs holistically. The office now oversees key initiatives including Economic Mobility, the Multicultural Family Center, AmeriCorps programs, volunteerism and community service infrastructure, neighborhood support efforts, and equitable fine and fee prevention services. This integrated approach enhances collaboration, leverages resources, and improves the City's ability to support residents in achieving stability and access to opportunity.

DISCUSSION

This session will highlight key initiatives focused on advancing upward mobility through a comprehensive, systems-level approach. The discussion will emphasize cross-sector collaboration efforts that align City services with community partners to maximize impact and reduce duplication. It will also outline engagement frameworks designed to strengthen relationships with residents, elevate community voice, and ensure programs are responsive to evolving needs. Additionally, the session will explore strategies that address barriers to stability and opportunities such as access to resources, social connectedness, and service navigation, while reinforcing pathways for long-term success. Collectively, these efforts are intended to support the development of a more connected, resilient, and vibrant community.

ACTION REQUESTED

I respectfully request that a City Council work session be scheduled on April 20, 2026, at 5:15 p.m. to introduce the Economic Mobility work of the Office of Community Impact and review the progress since the departments were consolidated.

FIVE-YEAR GOALS

- Healthy and Safe Community
- Financially Responsible, High-Performance City Organization:
  Sustainable, Equitable, and Effective Service Delivery
- Robust Local Economy:
  Diverse Businesses and Jobs with Economic Prosperity
- Livable Neighborhoods and Housing:
  Great Place to Live
- Sustainable Environment:
  Preserving and Enhancing Natural Resources
- Connected Community:
  Equitable Transportation, Technology Infrastructure, and Mobility
- Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

2025-2027 Priorities:

Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other Projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

The theme for the Fiscal Year 2027 budget recommendation is a comprehensive, future-focused investment in Dubuque's core infrastructure and community assets – prioritizing safety, streets, and access to quality services. The budget aims to ensure that Dubuque remains a safe, healthy, and vibrant place while preparing for growth and evolving community needs.

For Fiscal Year 2027 I respectfully recommend a 1.00% increase in the property tax rate, which increases the property tax rate from $10.0637 in FY26 to $10.1648 in FY 27. This would represent a 3.00% or $26.68 property tax increase for the average Dubuque homeowner.

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$10.0637	$10.1648	1.00%	$0.10
Property Tax Asking	$29,872,253	$31,940,934	6.93%	$2,068,681

Since 1989, the average homeowner has averaged an annual increase in costs in the City portion of their property taxes of +1.52%, or about +$9.92 a year. If the State had been fully funding the Homestead Tax Credit, the increase would have averaged about +$7.32 a year.

Based on the information the city has today, it appears if the City Council approves this recommendation the City of Dubuque would still have the lowest property tax rate of the eleven cities in the State of Iowa with a population over 50,000.

In the current fiscal year, FY2026, the average of the other 10 cities was 55% higher than Dubuque's property tax rate, and the highest city, Waterloo, had a rate 116% higher than Dubuque.

I asked city assessor Troy Patzner for some information about the assessed value of residential properties in the North End. He responded as follows:

"The below data shows the percentage change of value on residential from three different revaluation cycles, 2015, 2021, and 2025. I had the north end neighborhoods separated from the rest of the City. It looks like in 2015 the north end hardly changed at +.3%, as compared to the rest of the city which went up 3.14% as compared to ten years later when they increased slightly more than the rest of the city neighborhoods at 9.66%."

Assessed Value Changes

Area	Assessment 2024/2025 % Change	Assessment 2020/2021 % Change	Assessment 2014/2015 % Change
North End	+9.66 %	+9.48 %	+0.30 %
Rest of City	+8.98 %	+10.25 %	+3.14 %

Some of the increase in assessed value in the North End can be attributed to the fact that the city and others have been investing hundreds of millions of dollars in the North End. Some significant examples include the $250 million invested in the Bee Branch Creek Watershed Flood Mitigation Project, millions of dollars into Comiskey Park, a new roundabout at Kerper Boulevard and Kerper Court, new sanitary sewers on Kerper Boulevard, millions of dollars into Crescent Community Health Center, $80 million in Chaplin Schmidt Island, soon to be almost $50 million in the 14th St. Railroad Overpass and Elm Street and 16th Street complete streets. The city also had financial assistance programs to help those who had experienced flooding replace furnaces, water heaters, and repair homes. All of this has led to the homes increasing in value, which means one of the most valuable assets a resident possesses is becoming more valuable.

For FY2027 there are $2,968,870 in general fund improvement package requests. This budget recommendation includes $597,760 for recurring improvement packages and $1,120,636 for non-recurring improvement packages. The non-recurring improvement packages are funded by Inflation Reduction Act rebate in the amount of $188,737 for the Climate Action Coordinator and the energy savers program, and $931,899 of non-recurring improvement packages are funded from the $5.3 million in internal loan repayments from the Greater Downtown TIF and Dubuque Industrial Center TIF Districts. The additional nine firefighters recommended are funded by a Federal SAFER grant and previously approved ambulance fee increases. The remaining $349,684 in recommended recurring improvement packages are funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. If the City Council does not approve claiming only 75% of the Downtown TIF revenues beginning in Fiscal Year 2028 we will need to eliminate all but the 9 new Firefighters from the recurring improvement packages and cut $702,793 from the Fiscal Year 2027 general fund operating budget. In the case of the 9 new Firefighter positions they would be funded from a Federal SAFER Grant, ambulance fees, and eventually property taxes.

The current recommendation for Fiscal Year 2027 is a 3% increase in property tax cost to the average homeowner, which generates $2.1 million in additional property tax revenue over Fiscal Year 2026. Each 1% reduction in the cost increase represents approximately $300,000 less in property tax revenue.

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %
Commercial: $150,000 value & below	433	381	$716.01	$679.03	-$36.98	-5.2 %
Commercial: $150,001-$300,000 value	232	225	$2,074.61	$2,051.27	-$23.34	-1.1 %
Commercial: $300,001-$450,000	147	167	$3,433.21	$3,423.52	-$9.69	-0.3 %
Commercial: Avg. Value = $624,927	588	636	$4,253.76	$5,023.81	$770.05	18.1 %

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Industrial: $150,000 value & below	8	8	$716.01	$679.03	-$36.98	-5.2 %
Industrial: $150,001-$300,000 value	11	9	$2,074.61	$2,051.27	-$23.34	-1.1 %
Industrial: $300,001-$450,000	4	3	$3,433.21	$3,423.52	-$9.69	-0.3 %
Industrial: Avg. Value = $731,693	58	58	$5,090.27	$6,000.54	$910.27	+17.9 %

If the City Council chooses an amount of less than 3%, it could impact the recommendations to fund improvement packages, and the ability of the city to fund programs that provide grants to outside agencies.

In the March 23, 2026, property tax public hearing interest was expressed in lowering the property tax increase. In Fiscal Year 2027 we face many special opportunities and challenges. I ask that we not add to the challenges side of this equation, potentially squandering the opportunities, by using one-time revenues, to pay for recurring expenses. Doing this without a long-term funding plan only digs a budget hole to dig out of in future budget years. It creates a future self-inflicted budget crisis. Using general fund reserves to pay for recurring expenses is one of the way that using one-time revenues to pay for recurring expenses is a poor financial planning strategy. **I respect the right of the Mayor and City Council to reduce budget expenditures to reduce the recommended property tax levy. I just ask that those reductions be recurring general fund expenditures.**

What needs to be ever present in our minds is that the State of Iowa elected leaders have made it clear that they intend to enact property tax reform legislation that will negatively affect the Fiscal Year 2028 (beginning July 1, 2027) local government budgets. We do not want to do anything in Fiscal Year 2027 that will create additional funding issues in Fiscal Year 2028.

I am recommending increases in the Enterprise Funds as follows:

Enterprise Fund Utility Rates

	FY 2026 Rate	Recommended FY 2027 Rate	% Change
Water*	$22.50	$23.17	3 %
Sanitary Sewer	$31.84	$34.73	9 %
Curbside Collection	$18.11	$19.74	9 %
Stormwater	$11.03	$12.02	9 %

*3,200 gallons per month is the average residential user with a 5/8 inch water meter.

One important point is that low-income customers receive a 50% discount on their base city utility rates.

During Fiscal Year 2026 the position of Economic Mobility and Neighborhood Support Director became vacant when Anderson Sainci was promoted to the Director of Strategic Partnership position. The Economic Mobility and Neighborhood Support Department was evaluated. I have eliminated the position of Economic Mobility and Neighborhood Support Director. I have also eliminated the Department of Economic Mobility and Neighborhood Support, while ensuring those important responsibilities are still being carried out.

The Department of Economic Mobility and Neighborhood Support Administrative Support Professional also provided support to the Information Technology Department and to the Human Rights Department. The position has been transferred to the Information Technology Department and will continue to provide support to the Information Technology Department and the Human Rights Department. The Administrative Support Professional also now provides support to the 911 Emergency Communications Department.

The Department of Economic Mobility and Neighborhood Support Community Engagement Coordinator Temwa Phiri responsible for neighborhood support has been transferred to the Community Impact Department. That department will now be called the Community Impact and Neighborhood Support Department.

The Department of Economic Mobility and Neighborhood Support grant funded position of Economic Mobility Special Assistant, held by Corrine Rothblum, has also been transferred to the Community Impact and Neighborhood Support Department.

I am recommending that beginning in Fiscal Year 2028 the city begin claiming only 75% of the Downtown TIF District revenues. From the unclaimed 25% taxing bodies would begin receiving on an annual basis the following:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

In Fiscal Year 2027 the Downtown Urban Renewal TIF District would repay to the City of Dubuque internal loans in the amount of $5,060,682 and Dubuque Industrial Center TIF District would repay internal loans in the amount of $332,307 for a total of $5,392,989. These funds would be used as follows:

Fiscal Year 2027 general fund operating expenses - $1,808,693
Fiscal Year 2027 general fund non-recurring improvement packages - $929,712
Fiscal year 2027-2030 internal loans to Refuse Collections Fund - $587,638
Fiscal year 2027 internal loans to Garage Service Fund - $180,693

The remaining $1.9 million would be held in reserve in case needed to help transition the city budget in Fiscal Year 2028 from any Fiscal Year 2028 State of Iowa property tax reform legislation.

If the City Council chooses to not add to the City reserves to be prepared for Fiscal Year 2028 State of Iowa Property Tax Reform, I would ask that any use of these funds be for non-recurring expenses.

The reduction in Downtown TIF revenues beginning in Fiscal Year 2028 by only claiming 75% is:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	—%
2028	$10,162,871	-$3,361,348	-24.85%
2029	$10,137,372	-$3,386,847	-33.33%
2030	$10,111,873	-$3,412,346	-33.66%
2031	$10,111,873	-$3,412,346	-33.75%

Even with the reduction in revenues available to the Downtown TIF District, the budget recommendation was able to increase funding for the Central/White Street Corridor Project, maintain funding for the 14th Street Railroad Overpass Project and create a new program to assist with filling up vacant downtown commercial spaces. Unfortunately, there did need to be some project funding reductions like for Five Flags and for developer incentives.

Project Funding

Project	FY2026-FY2030	FY2026-FY2031	$ Change
Five Flags Renovation	$23,464,000	$7,055,088	-$16,408,912
Downtown Rehab Grant Program	$5,500,000	$5,504,390	$4,390
Downtown Storefront Retention Program	$—	$400,000	$400,000
Central/White Street	$8,170,000	$11,170,000	$3,000,000
14th Street Overpass	$39,351,910	$51,183,326	$11,831,416
East-West Corridor	$1,240,275	$6,000,321	$4,760,046
Total	$77,726,185	$81,313,125	$3,586,940

General Obligation (GO) debt is an important part of the Fiscal Year 2027 budget recommendation:

New General Obligation Debt

General Obligation Debt	FY2027	FY2028	FY2029	FY2030	FY2031	Total
New G.O. Debt	$12,991,499	$16,756,114	$15,288,879	$16,520,648	$15,114,208	$76,671,348

Much of this General Obligation debt is Essential Corporate Purpose debt and can be issued by a vote of the City Council. Some of this debt can be issued by a vote of the City Council, but is subject to a reverse referendum where residents can circulate a petition and then a referendum vote is required. Some of the G.O. debt would be recommended as a voter referendum.

There are many decisions to be made over the next few years on major projects that will require debt that the scope, scale, and cost of the project are not known at this time. The most significant item that is in this category is the implementation of the Parks and Recreation Master Plan that was recently adopted by the Mayor and City Council. The Aquatics Center feasibility study has already begun, and other studies are recommended to begin with approval of this budget.

Some of these capital projects will require a voter referendum. Following is a list of voter referendums in Dubuque County since 1979:

Year	Bond	P/F
1979	Courthouse bond and addition	failed
1979	NICC Levy	failed
1980	NICC Levy	passed
1982	DUBUQUE-TAX LEVY FOR PARK ON CITY ISLAND	passed
1984	City Bond Dog Racing	passed
1984	NICC Levy	passed
1985	Dubuque Band Levy	failed
1986	DBQ school tax levy	passed
1986	LOST & Service Tax	failed
1987	Wheel Tax	failed
1988	Local sales and service	passed
1988	E991	passed
1988	WD Bond	failed
1989	Dubuque Pool	passed
1989	GAMBLING	passed
1989	WD Bond	failed
1990	WD Bond	failed
1990	Dubuque School Instructional support levy	failed
1991	WD Bond	passed
1991	DBQ Hotel tax	passed
1992	DBQ Golf Bond	failed
1993	DBQ Library tax	failed
1993	DBQ Gas Company	passed
1993	Interstate Power Company	passed
1994	DBQ school tax levy	passed
1994	NICC Levy	passed
1994	Gambling Boat	passed
1994	E911 surcharge	passed
1995	DBQ school tax levy	failed
1996	DBQ School renewal of physical plant levy	passed
1997	NICC Levy	failed
1997	DCSD Support Levy	failed
1998	NICC Levy	passed
1999	LOST & Service Tax	failed
2000	County Jail Bond	passed
2000	WD Bond	failed
2000	WD Levy and Bond	failed
2000	$4 million City/County Jail Expansion	passed
2003	Baseball Stadium	failed
2005	Establish Municipal Utility	passed
2022	County Conservation Measure	failed
2023	School Board - Public Measure	failed
2025	School Board - Public Measure HB	failed

The City is also using the Iowa Finance Authority State Revolving Loan Fund (SRF) low interest debt program for sewer and water projects.

A recent report from McKinsey and Company talks about the current State of potable water and sanitary sewer water infrastructure. The report says “As critical water infrastructure ages, maintenance expenditures go up.” The report further says, “…our research shows the U.S. water utility sector faced an estimated $110 billion annual funding gap in 2024, primarily driven by significant investments in aging infrastructure, operating expenses, and water-quality regulations. By 2030, this gap could increase to approximately $194 billion.”

In 2025 the American Society for Civil Engineers issued a report title, “A comprehensive Assessment of American’s Infrastructure.” They issued a national report card:

Drinking Water “C-“: Funding gap = $309 billion
Public Parks “C-“: Funding gap = $44 billion
Solid Waste “C+”: Funding gap = $16 billion
Transit “D”: Funding gap = $152 billion
Stormwater “D”/ Wastewater “D+” (including sanitary sewer): Combined funding gap=$690 billion

Nationally, as the City of Dubuque faces locally, the biggest funding challenges are in wastewater and stormwater.

While there are several major capital improvement projects in this budget recommendation, some that have already been mentioned, the Catfish Creek sanitary sewer projects, the stormwater projects on 17th/Locust Street, the 14th Street railroad overpass, and the digging of a new deep well for the water department are some of the largest.

If the City Council feels the projected stormwater rate increase needs to be lowered, we could look at delaying some stormwater projects as we pursue federal grant funding opportunities.

The City’s top priority in operating the Water & Resource Recovery Center is to consistently meet its permit requirements and protect the environment and public health. At the same time, wastewater collection and treatment systems will inherently generate some level of odor. Organic material begins to decompose in the sewer system before it reaches the facility, and the biological processes used to remove pollutants naturally produce gases that can at times be detected offsite. Odor conditions can also fluctuate due to weather patterns, the characteristics of incoming wastewater, and normal variations in treatment system performance. While odors cannot be fully eliminated, the City is committed to minimizing their frequency, intensity, and duration through a comprehensive, multi-faceted approach.

That approach focuses on controlling odor at its source through targeted chemical dosing, improving the reliability of treatment infrastructure, enhancing operational practices and data-driven decision-making, and advancing long-term planning. The following outlines the actions the City has already taken and the additional investments proposed in FY27 to continue reducing odor impacts while maintaining reliable treatment performance.

The City has implemented targeted chemical dosing strategies to directly reduce odor-causing compounds within the treatment process. Hydrogen peroxide dosing at the primary clarifiers is achieving approximately a 50 percent reduction in hydrogen sulfide, with limited additional benefit observed at higher doses. In parallel, ferric chloride dosing within the anaerobic digesters has reduced hydrogen sulfide concentrations from approximately 13,000 ppm to as low as 490 ppm, over a 90% reduction, and decreased struvite formation potential from approximately 330 pounds per day to around 40 pounds per day, again approaching a 90% reduction. Dosing is currently at approximately 140 gallons per day and is being incrementally increased toward an optimal range of 160 to 200 gallons per day. The goal is to have zero struvite formation. The City has budgeted approximately $460,000 annually for this program and is continuing to evaluate more cost-effective upstream dosing opportunities, including hydrogen peroxide application prior to digestion and at the Terminal Street Lift Station, to further reduce hydrogen sulfide loading to the facility.

Improving equipment and system reliability remains a central focus, as many odor issues are tied to treatment systems not operating as designed. A key example is the activated sludge system, where challenges have contributed to elevated hydrogen sulfide emissions since last fall. Current efforts are focused on restoring all mixers to full operation and preparing to clean the worst-performing of the three treatment trains to stabilize process performance.

Building on this work, the Fiscal Year 2027 budget includes an improvement package to clean all three activated sludge trains over a three-year period, with funding of $42,500 annually to complete one train each year. This planned approach is intended to increase treatment efficiency, improve oxygen transfer, and reduce conditions that contribute to odor formation.

The City is also advancing a proactive approach to digester management, with Fiscal Year 2026 funding supporting the cleaning of Digester #4 in June 2026. The Fiscal Year 2027 budget establishes annual funding to clean one digester each year. Routine cleaning, combined with ongoing chemical control, is expected to reduce future costs while improving performance and minimizing odor potential.

The Fiscal Year 2027 budget also includes targeted investments to further improve system reliability and reduce the risk of odor-generating conditions. This includes $1,380,000 to improve overall system resiliency. These funds will allow the City to restore redundant systems and to maintain an inventory of critical spare parts to avoid extended outages caused by long procurement times. In addition, the budget includes $135,000 for process control monitoring improvements—specifically dissolved oxygen monitoring within the activated sludge system—to provide real-time visibility into system performance and support timely operational adjustments. The budget also includes $40,000 for real-time influent monitoring to better detect and respond to changes in incoming wastewater that could interfere with treatment processes. Together, these investments strengthen the City’s ability to proactively manage the treatment system and reduce the likelihood of process upsets that contribute to odors.

The City is also advancing a comprehensive Facility Plan update that will guide how the WRRC meets community needs over the next two decades, with odor mitigation incorporated as a key consideration in evaluating future treatment and infrastructure options. In addition to long-term planning, this effort includes a focused evaluation of existing systems to ensure they are operating as intended and that operators have the knowledge and tools needed to effectively manage the treatment process. This includes enhanced training, improved process control strategies, and the development of data dashboards to better understand system performance in real time. In parallel, the City has transitioned from paper-based records to digital systems and is expanding its use of software integrated with SCADA data. SCADA (Supervisory Control and Data Acquisition) is a computer-based system that allows operators to monitor, control, and respond to equipment and processes in real time—helping ensure systems like the wastewater treatment plant running safely and efficiently. These efforts are strengthening data-driven decision-making and improving the City's ability to proactively identify and respond to conditions that could contribute to odor events.

In addition, the City is making a significant investment in modernizing electrical controls across the WRRC through a $7.2 million program designed to enhance system reliability and operational performance. Phase 1 is already underway, with approximately $2.36 million under contract to replace motor control centers—the "brains" of the facility—in two of the seven process control buildings. The FY27–31 budget continues this progress by funding upgrades to the remaining buildings, positioning the WRRC with a strong, modern control foundation that supports consistent operations and long-term service to the community.

The City is also advancing the Hauled High Strength Waste Improvements Project, an $8.1 million investment that will strengthen how hauled waste is received and integrated into the treatment process. This project will provide dedicated infrastructure and controls to ensure these waste streams are introduced in a manner that supports stable, effective operation of the anaerobic digesters as they were designed to function. The project is fully funded through hauled waste user fees and a federal grant, aligning system improvements directly with the users of the service while enhancing overall treatment reliability and performance.

Together, these efforts, supported by the Fiscal Year 2027 budget, position the City to respond to odor challenges in the short term while proactively managing and reducing them over the long term, all while maintaining reliable, compliant treatment operations.

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

The City Council at their December 1, 2025, meeting approved adding five Firefighter/Paramedic positions in the current fiscal year (FY 2026). The authorized strength of the Dubuque Fire Department, including civilian and sworn positions, was 92.16 FTE in FY 2022 and is 109.16 FTE as of FY 2026, an 18.5% (17 FTE) increase in staffing over that four-year period. The addition of nine additional positions in FY 2027 will make it a 28% (26 FTE) increase in staffing since Fiscal Year 2022.

The city will apply for a SAFER grant later this calendar year when the application process opens, then it is expected it would be several months before the city would learn of the results of the application. The results could be that all nine of the positions receive SAFER grant funding, some of the positions receive grant funding, or none of the positions receive grant funding. Based on Fire Chief Amy Scheller's experience in the SAFER grant process she believes Dubuque will have a very competitive application. If the city does not receive the SAFER grant in calendar year 2026 (FY 2027) to help with funding the nine new Firefighter/Paramedic positions the City Council has the options of reapplying for the SAFER grant in calendar year 2027 (FY 2028), phasing implementation of the nine new Firefighter/Paramedic positions (since the Fire Department has three 24 hour shifts that would most likely be three positions a year, one on each shift, for three years, leaving open the option to apply for a SAFER grant in future years for the positions not added in the first and/or second year), or decide to modify the funding plan to maintain the hiring schedule through a mid-fiscal year amendment of the FY 2027 city budget, which would take an evaluation of other approved general fund expenses. I am sure there are other options that could be explored.

The Parks and Recreation Master Plan identifies the need for seven additional positions to fully support its implementation. While adding all seven positions was not financially feasible in Fiscal Year 2027, the budget recommends moving forward with two park maintenance technician positions at this time. These technicians would take responsibility for comprehensive park maintenance across the system.

Including the position added for Eagle Point Park in the current fiscal year, this brings the total to three new park maintenance positions within a two-year period—demonstrating continued progress toward meeting the maintenance and service goals outlined in the Master Plan.

In Dubuque Public Safety is a Citywide Commitment.

Public safety in Dubuque is not the work of one department or a single set of responders. It is a shared responsibility woven into the daily operations of every service area across the City. From infrastructure and clean water to communications, planning, and community engagement, each department plays a crucial role in creating a safe, resilient, and thriving Dubuque. Together, their efforts demonstrate that safety is not only about reacting to emergencies—it is about preventing them, preparing for them, and creating the conditions that allow people to live their lives with confidence, stability, and trust.

Safety in the Air, on the Ground, and Throughout Daily Life

At the Dubuque Regional Airport, safety begins long before a plane takes off or lands. Staff complete rigorous daily inspections, manage weather and wildlife hazards, maintain critical systems, and collaborate with pilots and emergency responders to ensure 24/7 protection for travelers. This proactive approach exemplifies how safety is embedded into operations, not simply responded to in moments of crisis.

That same focus on prevention is found across the City. Public Works crews keep roads clear in severe weather, maintain stormwater and sewer systems, and care for the fleet that emergency responders depend on. Water Department staff run hundreds of tests every day to ensure clean drinking water, protect public health, and ensure firefighting capacity. At the Water & Resource Recovery Center, millions of gallons of wastewater are safely treated daily while programs like Industrial Pretreatment and FOG prevent hazardous backups and protect people, property, and the Mississippi River.

These systems—airfield safety, streets and utilities, water and wastewater—may operate largely out of public view, but they are the backbone of a safe and functioning community. When they work well, residents can move, work, and live without disruption. When incidents do occur, this strong foundation ensures that responders can act quickly and effectively.

Safety Through Law, Regulation, and Responsible Growth

Many of the City's departments protect residents by shaping safe environments long before emergencies or hazards occur. Planning Services enforces the Unified Development Code to maintain safe building practices, guide responsible land use, and ensure emergency access. Floodplain regulation, subdivision review, and zoning enforcement keep people out of harm's way and reduce long-term risks.

Similarly, the City Attorney's Office plays a vital behind-the-scenes role by enforcing building, nuisance, and animal control codes; supporting criminal and civil proceedings; reviewing contracts and specifications for public safety components; and providing guidance across departments. The City Clerk's Office contributes through civil service hiring processes that ensure police and fire roles are filled with qualified professionals, by overseeing background checks, and by coordinating safe community events.

Housing & Community Development reinforces safety through rental licensing, inspections, and environmental health programs—addressing lead hazards, structural issues, and fire risks. Their work helps reduce unsafe living conditions while improving long-term housing stability, a factor closely tied to overall community safety.

Sustainability efforts, too, are essential to public safety. They address the long-term threats of extreme weather, air quality, and climate impacts. By protecting resources, lowering risks, and strengthening resilience, sustainability work ensures that Dubuque remains safe not only today but for generations.

Safety Through Community Connection, Equity, and Support

Several departments focus on the human and social aspects of safety. The Community Impact & Neighborhood Support Department builds stability by reducing financial stress, connecting residents to resources, and supporting neighborhood-led improvements. These upstream interventions can prevent crises, reduce involvement with the legal system, and strengthen protective factors within families and neighborhoods.

The Human Rights Department promotes psychological and physical safety by enforcing anti-discrimination laws, reducing threats and harassment, ensuring access to housing and services, and building trust between residents and City government. When people feel protected and respected, they are more likely to cooperate with authorities, report concerns, and participate in community life.

The Carnegie-Stout Public Library provides safe public space for all residents—a place to learn, connect, cool down, warm up, or simply rest. Its educational programs and inclusive environment foster emotional, social, and economic stability.

Parks and Recreation also contributes by maintaining safe, welcoming outdoor spaces. Parks offer physical activity, mental relief, and community connection. Through collaboration with police, engineering, public works, and other departments, park safety is supported year-round.

These departments highlight that safety is not only physical; it is also social, emotional, and environmental. When residents have stable housing, welcoming spaces, and equitable treatment, public safety strengthens across the entire community.

Safety in Emergency Response, Technology, and Coordination

Several City departments are directly involved in emergency response. The Dubuque Fire Department responds to thousands of calls annually, from medical emergencies to hazardous materials incidents, while also conducting inspections, fire prevention programs, and rigorous training. Investments in equipment, staffing, and modernized tools ensure firefighters remain prepared for both routine calls and complex events.

The Dubuque Police Department protects residents through law enforcement, problem solving, community partnerships, and the use of technology to address crime and neighborhood concerns. Highly trained personnel and strong community relationships are central to their mission.

The 911 Emergency Communications Center is the first critical link in any emergency. Dispatchers gather essential information, coordinate multi-agency responses, use advanced technology to pinpoint locations, and provide lifesaving instructions until help arrives. They also support after-hours communications for multiple City departments and maintain vital situational awareness through citywide cameras and cross-jurisdictional connections.

Communications staff support emergency response by coordinating crisis messaging, issuing public alerts, staffing the Emergency Operations Center, and managing the AlertIowa notification system. Their work ensures residents receive timely, accurate, and accessible information when it matters most.

Information Technology protects the digital infrastructure that all of these departments rely on—safeguarding against cyber threats, maintaining communications systems, supporting public safety software, and ensuring uninterrupted connectivity between departments.

Transportation Services supports community safety by providing reliable transit that reduces congestion, improves mobility for vulnerable residents, and offers safe travel during severe weather.

Together, these departments form Dubuque's operational readiness network—preventing harm, responding to emergencies, and ensuring continuity during crises.

A Community Protected by Everyone

What becomes clear across every department is a shared philosophy: **public safety is everyone's responsibility.**

It is expressed through:
- the engineering controls that prevent crashes and floods
- the code enforcement that ensures safe housing
- the communications that keep residents informed during crises
- the economic and social programs that reduce instability
- the infrastructure that moves water, protects roads, and maintains technology
- the emergency responders who arrive when every second counts
- the parks, libraries, and public spaces that offer refuge and belonging

Safety is not the work of one department—it is the woven fabric of all City operations. Because of this collective effort, Dubuque is not just safer in emergencies; it is safer every day, in ways many may never see but all benefit from.

The City of Dubuque is a Community Built on Service, Safety, Stewardship & Shared Purpose.

Across Dubuque's government, one theme rises above all else: **people serving people.** From the moment person becomes a resident to the moment water flows safely from a tap, dozens of teams work together — often quietly, often unseen — to keep our community moving, thriving, and welcoming. These departments form an interconnected ecosystem of service, each contributing to a Dubuque built intentionally, compassionately, and with an eye toward the future.

At our **regional airport**, staff operate not just a transportation hub, but a gateway to opportunity. Their work helps businesses recruit talent, supports medical transport when minutes matter, and welcomes visitors home with professionalism and hospitality. The airport connects Dubuque to the wider world — and connects the world to us.

In **City Clerk services**, residents find their first point of contact with local government — a place to access public records, participate in council proceedings, pursue licenses and permits, and engage in meaningful civic involvement. The Clerk's Office safeguards the historical record of our governing body while creating clear pathways for the public to understand, influence, and participate in their government.

The **Communications Office** ensures that residents receive timely, trustworthy, accessible information amid today's whirlwind of noise, rumors, and viral misinformation. Their work protects the credibility of local government, helps residents understand and access city services, and keeps transparency at the forefront even in a fast-moving digital environment.

Through **Community Impact & Neighborhood Support**, Dubuque embraces a bigger vision: that opportunity should never be accidental. This department aligns data, resident voice, and neighborhood engagement to remove barriers and help families move toward stability and long-term economic mobility. Their mission is not just to run programs, but to strengthen the entire ecosystem of community support.

The **Economic Development Department** works quietly but powerfully behind the scenes — turning ideas into storefronts, revitalizing underused spaces, supporting local entrepreneurs, and aligning public tools with private investment. Their work helps shape a local economy rooted in resilience, creativity, and shared prosperity.

Our **911 Emergency Communications** team — the dispatchers who answer calls in crisis — serve with empathy, professionalism, and genuine human care. In a newly improved communications center, they continue to support residents with focus and compassion, inspired by the community they serve.

In the **Engineering Department**, staff act as the city's in-house engineering firm, designing and maintaining streets, sidewalks, traffic systems, sewers, stormwater networks, and fiber infrastructure. Much of their work may be invisible to residents, but it shapes every trip made in Dubuque and ensures that movement throughout the city is safe, efficient, and reliable.

For the **Fire Department**, the heart of their message is simple: their greatest strength is their people. Highly trained, deeply compassionate, and unwaveringly dedicated, these individuals show up on the worst days of people's lives with skill, steadiness, and humanity. They see people, not incidents — and their service reflects Dubuque's core values: integrity, responsibility, and care.

The **Housing & Community Development Department** works directly with residents to improve safety, stability, and quality of life. Through permitting, inspections, rental licensing, rehabilitation, and neighborhood revitalization, they build trust through personal interaction and help ensure that every person has access to safe, supported housing.

The **Health Services team** protects community wellbeing through food inspections, animal control, and investigations that prevent illness and injury before they occur. Their efforts reduce avoidable healthcare costs, prevent disease, and promote a healthier, safer community — much of it quietly, diligently, and behind the scenes.

Human Resources supports the people who support the public. They recruit talented employees, provide training, ensure compliance with employment laws, and help maintain safe, respectful, workplaces. Their mission is to build a capable workforce that delivers reliable, high-quality service citywide, while creating a sense of belonging.

Dubuque's **Office of Human Rights** ensures that every resident has access to safety, dignity, fairness, and equal opportunity. Going beyond enforcing nondiscrimination laws, the office provides education, outreach, dispute resolution, and guidance that fosters a community where everyone belongs.

The **Information Technology Department** serves as the city's hidden backbone — the "wizard behind the curtain" ensuring systems run smoothly, securely, and reliably. They solve problems before disruptions occur, strengthen cybersecurity, and make digital complexity feel seamless for residents and staff.

The **Carnegie-Stout Public Library**, approaching its 125th anniversary, continues to be a cornerstone of literacy, learning, curiosity, and safe public space. It nurtures psychological, social, and economic wellbeing through accessible resources, programming, and a welcoming environment.

In **Parks & Recreation**, the city is turning community feedback into a decade-long plan to enhance quality of life. The new master plan invites residents to dream, imagine, and collaborate as the department invests in spaces and programs that bring joy, health, and connection.

Planning Services blends data, imagination, and community input to guide how Dubuque grows. Like urban storytellers, they help shape neighborhoods that feel connected and welcoming, ensure development is safe and sustainable, and paint the next strokes of the city's evolving landscape.

The **Police Department** remains committed to disciplined operational excellence, strong partnerships, strategic innovation, and high-quality personnel — all in pursuit of keeping Dubuque as one of the safest places to live in the country.

In **Public Works**, deeply skilled operators, technicians, and field staff maintain the physical backbone of the city. Their work is essential, demanding, and often invisible — from clearing storm drains to maintaining streets to ensuring emergency response is possible. They steward the infrastructure that keeps Dubuque functioning, safe, and resilient.

Sustainability touches every aspect of daily life, from air and water quality to transportation, health, biodiversity, waste, and food systems. The city's sustainability work encourages residents to think broadly about how the community can thrive while protecting long-term environmental health.

The city's transportation system, **The Jule**, connects people to possibility. Every bus route expands access to jobs, education, services, and opportunity. In FY27, The Jule continues its commitment to sustainability and community connection — because when mobility expands, community wellbeing expands with it.

The **Water Department** works with precision and scientific rigor to ensure safe, clean, reliable drinking water. Through extensive daily and monthly testing, they safeguard public health, support essential amenities, and ensure Dubuque meets the highest standards of safety and emergency readiness.

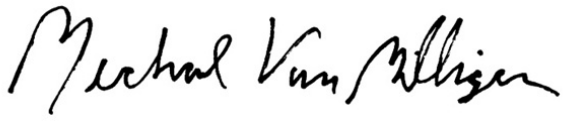
Without the **Finance Department** nothing runs. Managing a $250 million annual budget, paying bills, making payroll, purchasing goods, and keeping employees safe is a big and important job. In addition to financial responsibilities, the Finance Department oversees the implementation of the City's organization-wide safety program. The City is committed to providing a safe and healthy workplace for all employees, and safety is treated as a core value at every level of operations. To strengthen this commitment, the City has established a multi-department safety committee and completed a comprehensive review of all safety policies and procedures to ensure alignment with OSHA standards and best practices.

The **Water & Resource Recovery Center** operates around the clock, using chemistry, biology, engineering, and continual monitoring to protect the environment and public health. Their team blends technical excellence with a commitment to workplace culture, investing in reliability, innovation, and people as they prepare for the future.

Finally, the **City Attorney's Office** and the **City Manager's Office** work closely with the Mayor and City Council to ensure departments have the tools they need to carry out the goals and priorities established by the City Council.

There will be seven City Council special meetings prior to the adoption of the FY 2027 budget before the state-mandated deadline of April 30, 2026. I want to thank Chief Financial Officer Jennifer Larson, Assistant City Manager Cori Burbach, Public Information Officer Randy Gehl, Budget Manager Laura Bendorf, Budget/Financial Analyst Shannon Soppe, Budget/Financial Analyst Nikesh Shah, Budget/Financial Analyst Nathan Kelleher, and Executive Assistant Stephanie Valentine for all their hard work and dedication in preparation of this budget recommendation.

I respectfully recommend Mayor and City Council adoption of the Fiscal Year 2027 Budget recommendation, and I look forward to the multiple public input meetings to come.



Michael C. Van Milligen

THE CITY OF DUBUQUE

Masterpiece on the Mississippi

Fiscal Year 2027 Recommended Budget Presentation

April 6, 2026

Agenda

- Budget theme & Council priorities
- Property tax recommendation & impacts
- North End valuation trends & investments
- Improvement packages & revenue scenarios
- Enterprise fund rate proposals
- Organizational changes
- TIF funding
- Capital improvements & GO debt
- Water/Wastewater & WRRC investments
- Public Safety staffing
- Closing recommendation

FY2027 Budget Theme

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Future-focused investment in:

- Safety
- Streets
- Access to essential services

Built on:

- 2025–2027 Mayor & City Council Goals and Priorities (adopted Sept. 2025)

Five-Year Goals

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Healthy and Safe Community
- Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery
- Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity
- Livable Neighborhoods and Housing: Great Place to Live
- Sustainable Environment: Preserving and Enhancing Natural Resources
- Connected Community: Equitable Transportation, Technology Infrastructure, and Mobility
- Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Top Priorities

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priorities

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

FY2027 Property Tax Recommendation

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Recommended Rate:

- 1.00% rate increase
- FY26: $10.0637
- FY27: $10.1648

Average Homeowner Impact:

- +3.00% cost increase
- +$26.68 per year

Property Tax Asking

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

	FY2026	FY2027	Change
Property Tax Asking	**$29,872,253**	**$31,940,934**	**+6.93% (+$2,068,681)**

Residential Property Example

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Average Residential Value: $213,211

- FY26 City Taxes: $889.20
- FY27 City Taxes: $915.87
- +$26.67 (+3.0%)

Long-Term Context:

- Since 1989: +1.52% average annual increase ($9.92/year)
- With full Homestead Credit funding: +$7.32/year

Commercial Property Impacts

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Property Value	$ Change	% Change
$150,000 or less	-$36.98	-5.2%
$150,001–$300,000	-$23.34	-1.1%
$300,001–$450,000	-$9.69	-0.3%
Avg. = $624,927	+$770.05	+18.1%

Industrial Property Impacts

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Property Value	$ Change	% Change
$150,000 or less	-$36.98	-5.2%
$150,001–$300,000	-$23.34	-1.1%
$300,001–$450,000	-$9.69	-0.3%
Avg. = $731,693	+$910.27	+17.9%

Dubuque's Statewide Position

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Lowest property tax rate among Iowa cities with >50,000 population
- Average of other 10 cities: 55% higher
- Highest city tax rate (Waterloo): 116% higher

North End Assessment Trends

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Percent Change by Assessment Cycle

	North End	Rest of City
2024/2025	+9.66%	+8.98%
2020/2021	+9.48%	+10.25%
2014/2015	+0.30%	+3.14%

North End Investments

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Bee Branch Watershed Project ($250M)
- Comiskey Park
- Kerper Blvd roundabout & sanitary sewer upgrades
- Crescent Community Health Center
- Chaplain Schmidt Island ($80M)
- 14th St Railroad Overpass ($50M)
- 16th Street Complete Streets
- Flood-related repair assistance programs

Considerations for Lowering Recommended Property Tax Increase

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- FY2027 opportunities and challenges
- Using one-time revenues for recurring expenses is poor financial strategy
- Pending Property Tax Reform Impacts

Enterprise Fund Utility Rates

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

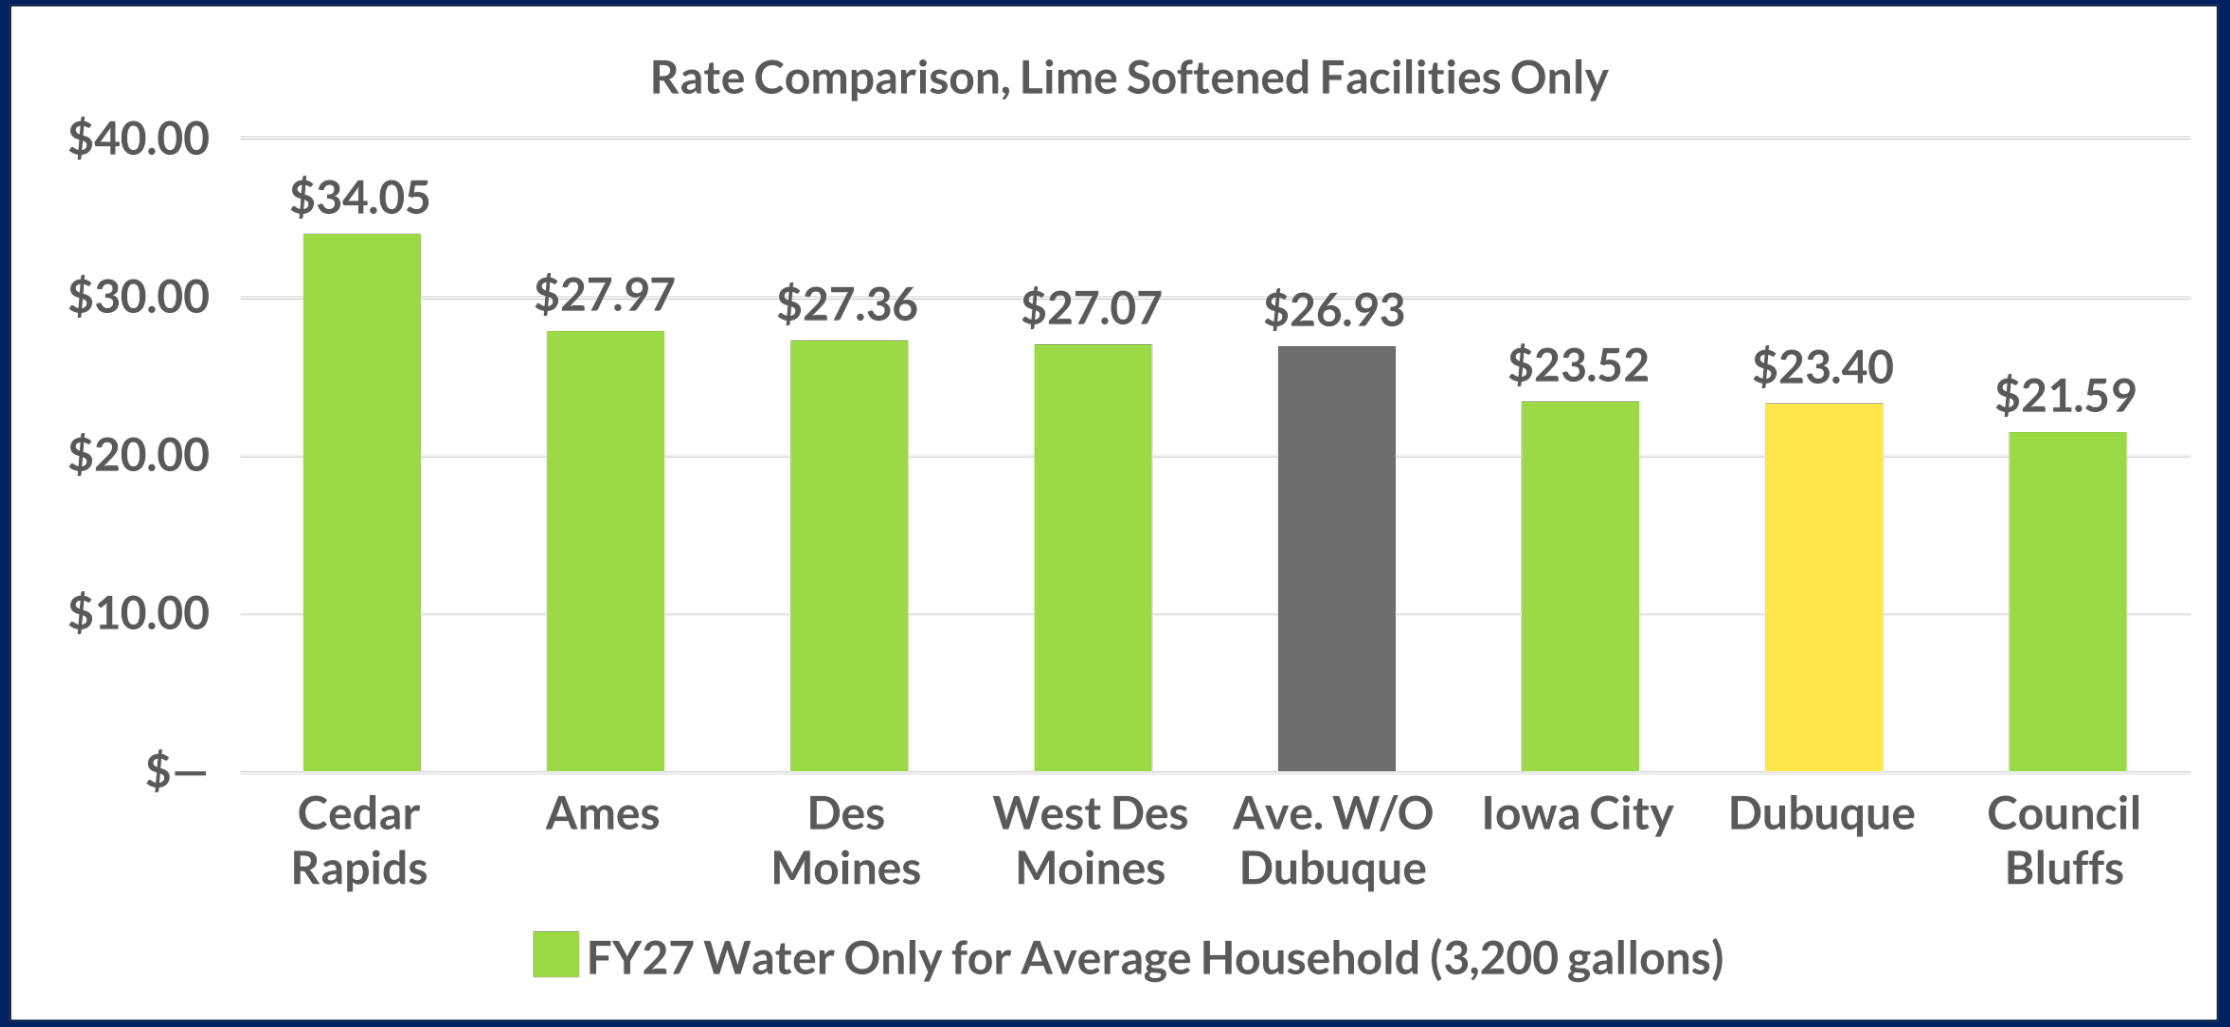
	FY2026 Rate	Recommended FY2027 Rate	$ Change per Month	% Change
Water*	$22.50	$23.17	$1.26	3%
Sanitary Sewer*	$31.84	$34.73	$2.89	9%
Refuse	$18.11	$19.74	$1.63	9%
Stormwater	$11.03	$12.02	$0.99	9%
Total			$6.77	

**3,200 gallons per month is the average residential user with a 5/8 inch water meter.*

Low-income customers are eligible for a 50% discount on their base city utility rates.

FY2027 Water Rate Comparison

THE CITY OF DUBUQUE
Masterpiece on the Mississippi



FY2027 Water Rate Comparison

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Dubuque has the 2nd lowest rate
- Highest rate (Cedar Rapids) is 45.51% higher than Dubuque's rate
- Average rate is 12.92% higher than Dubuque

Sanitary Sewer Comparison

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Average monthly fee based on the average use of 3,200 gallons per month

The average monthly fee in Dubuque is 14.6% lower than the highest (Ankeny)

The average fee for all the other cities is 9.6% lower than Dubuque

Rank	City	Sanitary Utility Fee
11	Ankeny (FY26)	$40.97
10	Des Moines	$38.32
9	Davenport	$38.19
8	Cedar Rapids	$35.91
7	**Dubuque**	**$34.73**
6	Sioux City	$32.87
5	Ames	$30.34
4	Waterloo	$28.01
3	West Des Moines	$25.25
2	Iowa City	$23.86
1	Council Bluffs*	$20.17
	Average without Dubuque	$31.39

**Council Bluffs subsidizes their sanitary sewer fee with Local Options Sales Tax revenue*

Sanitary Sewer: Annual Rate Increase Comparison

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Average Annual Rate Increase FY20 – FY27

Including the 9% rate increase in FY27, the average annual rate increase for Dubuque is fourth highest over the past 7 years.

The average annual rate increase for all of the other cities is 5.2%, which is 19% lower than Dubuque.

Rank	City	Avg. Annual Increase
1	Sioux City	8.8%
2	Council Bluffs*	7.5%
3	Cedar Rapids	6.5%
4	**Dubuque**	**6.4%**
5	Waterloo	5.8%
6	Ames	4.0%
7	Davenport	2.1%
8	Iowa City	1.7%
	Average without Dubuque	5.2%

**Council Bluffs subsidizes their sanitary sewer fee with Local Options Sales Tax revenue*

Refuse Rate

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Comparisons not available

Collection Vehicle Replacements:

- Requesting to switch all semi-automated side loaders to fully automated.
- Currently have 6 automated side-loaders (ASL)
- Purchasing 3 more ASLs over the next 5 years
- $375,000 grappler truck (large item collections) requested in F2027 to replace 2007 truck.

Stormwater Rate Comparison

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Dubuque has the 2nd highest rate
- Dubuque's rate is 41% lower than the highest
- Average is 35% lower than Dubuque

Rank	City	Stormwater Fee
10	Des Moines	$20.45
9	**Dubuque**	**$12.02**
8	West Des Moines	$9.90
7	Cedar Rapids	$8.26
6	Ankeny	$7.50
5	Iowa City	$5.50
4	Waterloo	$5.25
3	Ames	$5.20
2	Sioux City*	$4.88
1	Davenport	$3.25
	Average without Dubuque	$7.80

Stormwater Utility Fee Subsidies & Credits

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Type of Subsidy or Credit	FY2027 Estimated
Property Tax Exempt Properties (388)	$542,371
Low-to-Moderate Income Properties (662)	$39,103
Residential Farm Properties (19)	$21,403
Private Detention Basin Credits (6)	$7,028
Fiscal Year Estimated Total	**$609,905**

Since the establishment of the City's Stormwater Management Utility in 2003, the budget has included a general fund subsidy for property tax exempt organizations (50%), low-to-moderate income residents (50%), and residential farms (75%). The City also offers stormwater credits to customers who apply for and maintain private detention basins.

FY2025 Utility Base Rate 50% Low-Income Reduction Accounts by Month

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

	July	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	June

Solid Waste	$55,831.82
FY2025 Total Reduced Fees	$164,0121.83

FY2027 Improvement Packages

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Total requests: $2,968,870
- $659,063 recurring
- $974,917 non-recurring (funded by internal loan repayments)
- Recurring funding dependent on Downtown TIF capture changing to 75% starting FY28

Revenue Scenarios

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Avg. Homeowner Increase	Added Revenue
0%	$1,144,004
1%	$1,453,605
2%	$1,763,207
3% (Recommended)	$2,068,681

Organizational Updates

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Elimination of Economic Mobility & Neighborhood Support Department
- Administrative Support Professional → IT, Human Rights, and 911
- Temwa Phiri → Community Impact & Neighborhood Support
- Corrine Rothblum → Community Impact & Neighborhood Support

Downtown TIF Funding

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Recommendation:

Beginning in FY2028, City only claims 75% of revenues. Unclaimed 25% would go to taxing bodies.

Downtown TIF Funding

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75%	$1,284,104
City of Dubuque	36.26%	$1,233,420
Dubuque County	19.96%	$678,959
Northeast Iowa Community College	2.75%	$93,544
Sunnycrest Manor County Hospital	1.89%	$64,290
Dubuque Agricultural Extension	0.41%	$13,947
Dubuque City Assessor	0.98%	$33,336
Total	100.00 %	$3,401,600

TIF Funding

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

FY2027: Would repay to the City of Dubuque internal loans of $5,060,682 and Dubuque Industrial Center TIF District internal loans of $332,307 for a total of $5,392,989. These funds would be used as follows:

- FY2027 general fund recurring operating expenses: $702,793
- FY2027 general fund recurring improvement packages: $349,784
- FY2027 general fund non-recurring improvement packages: $929,712
- FY2027-2030 internal loans to Refuse Collections Fund: $587,638
- FY2027 internal loan to Garage Service Fund: $180,693

Remaining $2.6 million would be held in reserve in case needed to help transition the city budget in FY2028 from any FY2028 State of Iowa property tax reform legislation.

Downtown TIF Funding

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Reduction in Downtown TIF Revenues beginning in FY2028 by only claiming 75%:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	— %
2028	$10,162,871	-$3,361,348	-24.85 %
2029	$10,137,372	-$3,386,847	-33.33 %
2030	$10,111,873	-$3,412,346	-33.66 %
2031	$10,111,873	-$3,412,346	-33.75 %

GO Debt Plan (FY27–FY31)

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Fiscal Year	GO Debt
FY27	$12,991,499
FY28	$16,756,114
FY29	$15,288,879
FY30	$16,520,648
FY31	$15,114,208
Total	$76,671,348

New GO Debt

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Much is Essential Corporate Purpose debt and can be issued by a vote of the City Council.
- Some can be issued by a vote of the City Council, but is subject to a reverse referendum where residents can circulate a petition and then a referendum vote is required.
- Some would be recommended as a voter referendum.
- Major project decisions will occur over the next few years that may require debt financing, but scope, scale, and costs are not yet determined.
- Some of these capital projects will require a voter referendum.

National Infrastructure Pressures

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

McKinsey (2024):

- Water utilities funding gap: $110B → $194B by 2030

ASCE (2025):

- Drinking Water: C- | $309B gap
- Public Parks: C- | $44B
- Solid Waste: C+ | $16B
- Transit: D | $152B
- Wastewater/Stormwater: D & D+ | Combined $690B gap

Chemical Dosing Results:

- H_2O_2 dosing: 50% H_2S reduction
- Ferric chloride: 13,000 ppm → 490 ppm; struvite 330 lb/day → 40 lb/day

Infrastructure Investments:

- Activated sludge cleaning: $42,500/yr (3-year cycle)
- Digester cleaning: annual funding; Digester #4 cleaning in June 2026
- System resiliency upgrades: $1,380,000
- DO monitoring: $135,000
- Influent monitoring: $40,000

Controls Modernization:

- Electrical controls: $7.2M total (Phase 1: $2.36M underway)

Hauled High-Strength Waste Improvements:

- $8.1M, fully funded by users

Fire Department Staffing

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- FY22: **92.16 FTE** → FY26: **109.16 FTE**
- **+17 FTE** (+18.5%) over 4 years
- FY27 proposal: **+9 Firefighter/Paramedic positions *(28.2% increase since FY2022)***
- SAFER grant application in 2026
- Alternatives if grant not awarded: phased hiring (3/year), reapply in FY28, or budget amendment

Parks & Recreation Staffing

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- FY27: **+2 Park Maintenance Technicians**
- Total added in two years (incl. Eagle Point Park position): **3**

Major Capital Projects

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- Catfish Creek sanitary sewer improvements
- 17th/Locust Street stormwater upgrades
- 14th Street Railroad Overpass
- New deep well for Water Department
- Option: Delay/phase some projects if Council wants lower utility rates (pending grants)

Public Safety as a Citywide Commitment

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Safety involves every department, including:

- Airport
- Public Works, Engineering, Water, WRRC
- Planning, Legal, City Clerk
- Housing & Community Development, Human Rights
- Library, Parks & Recreation
- Police, Fire, 911
- Communications, IT, Transit

Recommendation & Next Steps

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Recommendation:

Adopt the FY27 Budget to protect safety, streets, and essential services while preparing for FY28 state property tax reforms.

Next Steps:

- 8 Public input sessions
- Detailed enterprise rate modeling
- Continued grant pursuit
- Project planning and scheduling

Public Meetings

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- **Tuesday, April 7:** Engineering, Public Works, Water, Water & Resource Recovery Center

- **Thursday, April 9:** Housing & Community Development, Planning Services, Economic Development, Purchase of Services, Transportation Services

Public Meetings

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

- **Monday, April 13:** Carnegie-Stout Public Library, Five Flags Civic Center, Grand River Conference Center, ImOn Ice Center, Recreation, Parks

- **Wednesday, April 15:** Human Resources, Information Technology, Communications, Finance

- **Thursday, April 16:** City Manager's Office, City Council, City Clerk's Office, City Attorney's Office

Public Meetings

- **Tuesday, April 21:** Dubuque Regional Airport, Office of Human Rights, Community Impact & Neighborhood Support, Multicultural Family Center

- **Wednesday, April 22:** Police, Fire, Emergency Management, Emergency Communications, Health Services

- **Tuesday, Apri. 28:** Public Hearing to Adopt the FY2027 Budget

CITY OF DUBUQUE, IOWA
Fiscal Year 2027-2031 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2027-2031 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 28, 2026, at the same time as the public hearing on the Fiscal Year 2027 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the $1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City was successful in obtaining several large grants and now will be implementing those projects, especially the Bee Branch Flood Mitigation Project, 16th Street Pumping Station, and the 14th Street Overpass project.

A particular emphasis in this five-year CIP is modernization of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond. In the current fiscal year (FY 2026), the City will have allocated $22,026,250 and in this new five-year CIP, the City will have allocated an additional $74,871,571 for a total of $96,897,821 from July 2025 through December 2031.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $221,888,207 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements , for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. The greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	$(13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58%
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Total New Debt	**$ 26,579,333**	**$ 43,133,602**	**$ 45,254,925**	**$ 35,996,472**	**$ 25,669,405**	**$ 176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the change in debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	$ 26,579,333	$ 43,133,602	$ 45,254,925	$ 35,996,472	$ 25,669,405	$ 176,633,737
Retired Debt	-$25,371,787	-$28,057,116	-$29,480,446	-$30,454,045	-$28,910,190	-$142,273,584
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027**. In FY 16 the City was at 86.13% of statutory debt limit, so **33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The history of the City's use of the statutory debt limit is as follows:

FY15	FY16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
83.87%	86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	36.48%	35.85%	34.10%	35.58%

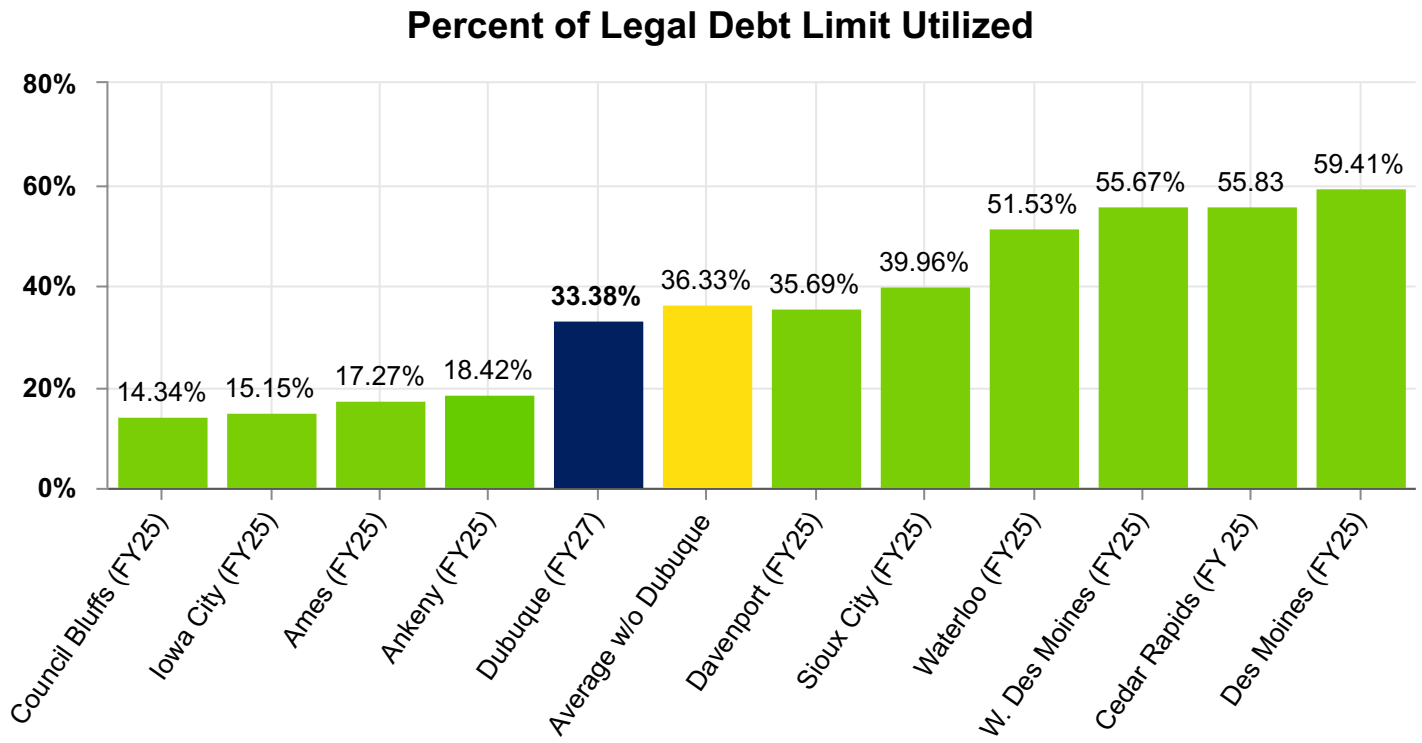
The five year projection of the City's use of the statutory debt limit from Fiscal Year 2027–2031 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2027 is as follows:

FY 27	FY 28	FY 29	FY 30	FY 31
33.38%	34.45%	34.96%	35.31%	35.59%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$ 964,798,967	$ 573,230,000	59.41 %
10	Cedar Rapids (FY 25)	$ 767,559,335	$ 428,550,000	55.83 %
9	W. Des Moines (FY25)	$ 551,635,692	$ 307,090,000	55.67 %
8	Waterloo (FY25)	$ 267,626,798	$ 137,905,065	51.53 %
7	Sioux City (FY25)	$ 367,743,172	$ 146,935,000	39.96 %
6	Davenport (FY25)	$ 493,660,291	$ 176,195,000	35.69 %
5	**Dubuque (FY27)**	**$ 358,374,258**	**$ 119,617,156**	**33.38 %**
4	Ankeny (FY25)	$ 529,988,951	$ 97,645,000	18.42 %
3	Ames (FY25)	$ 328,345,527	$ 56,710,000	17.27 %
2	Iowa City (FY25)	$ 435,367,793	$ 65,945,000	15.15 %
1	Council Bluffs (FY25)	$ 427,559,692	$ 61,320,000	14.34 %
	Average w/o Dubuque			**36.33 %**

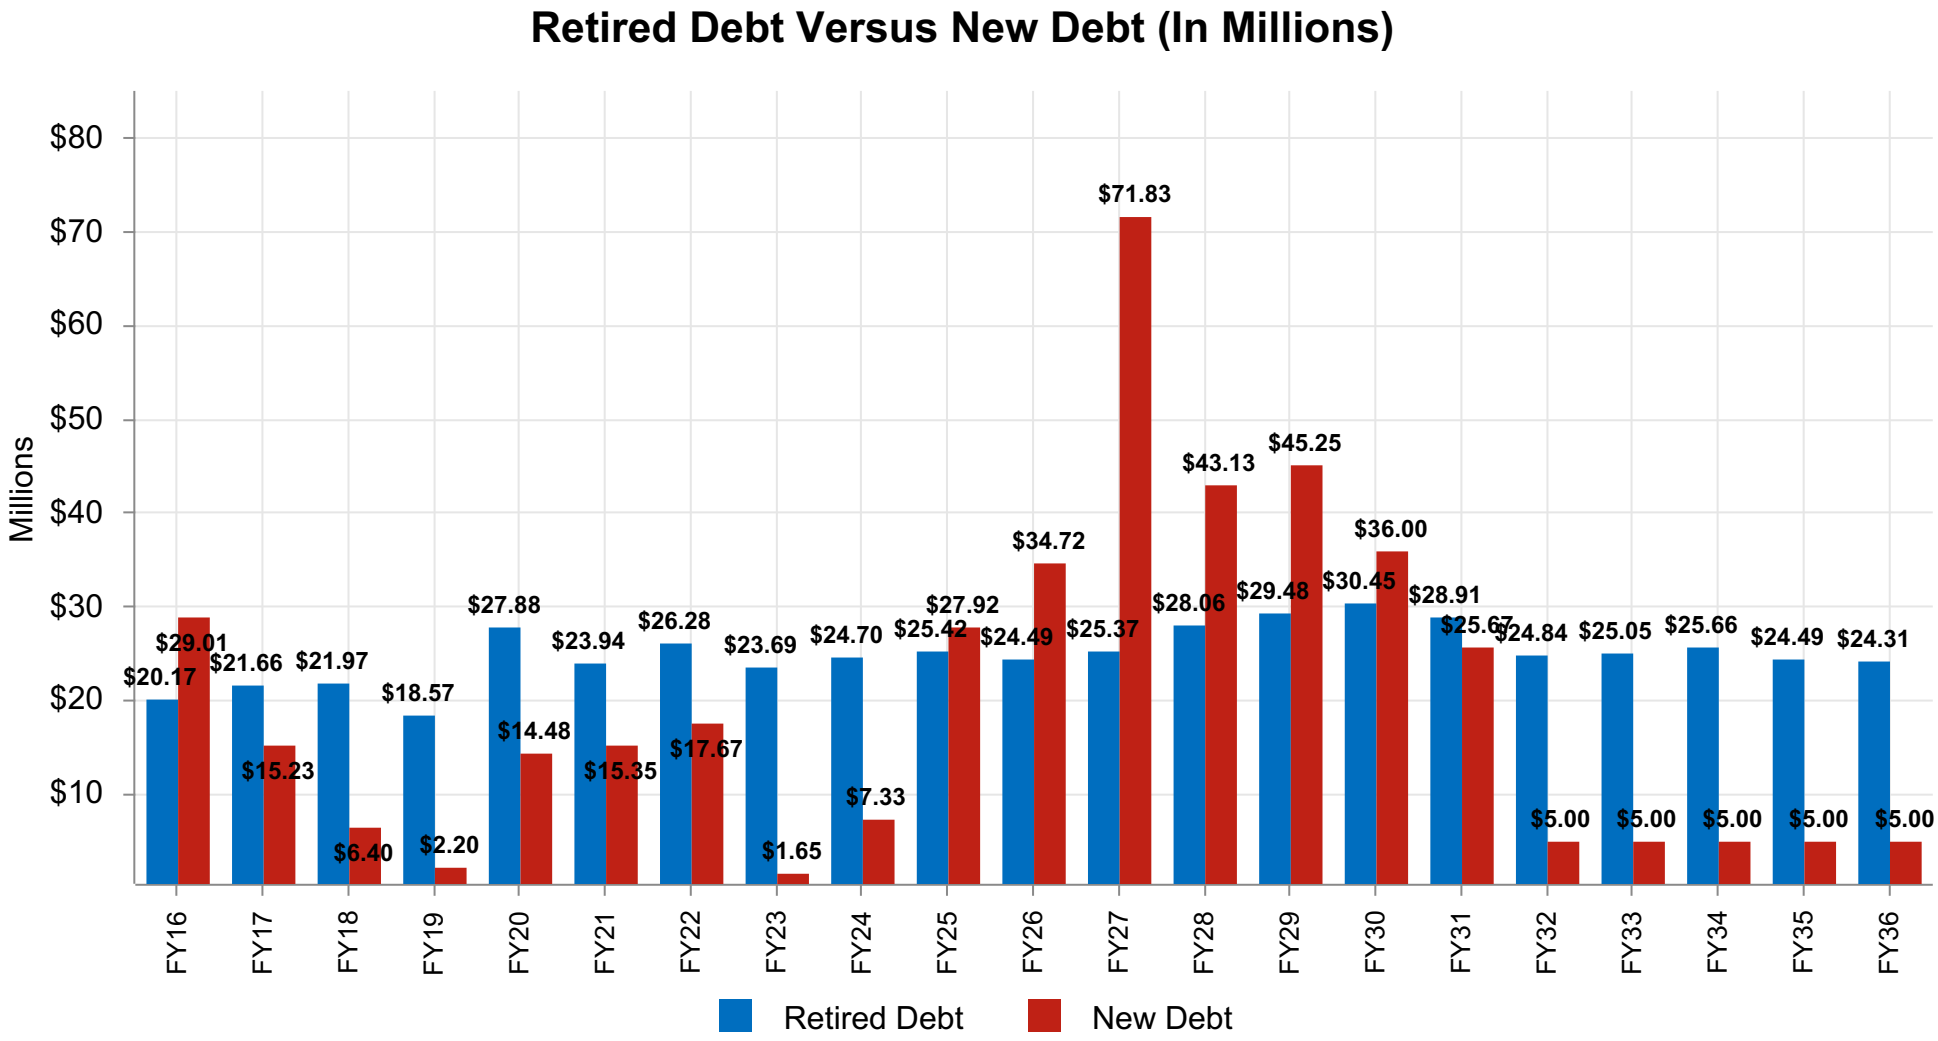


Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities. **The average (36.33%) is 8.84% higher than Dubuque (33.38%).**

Retired Debt Versus New Debt

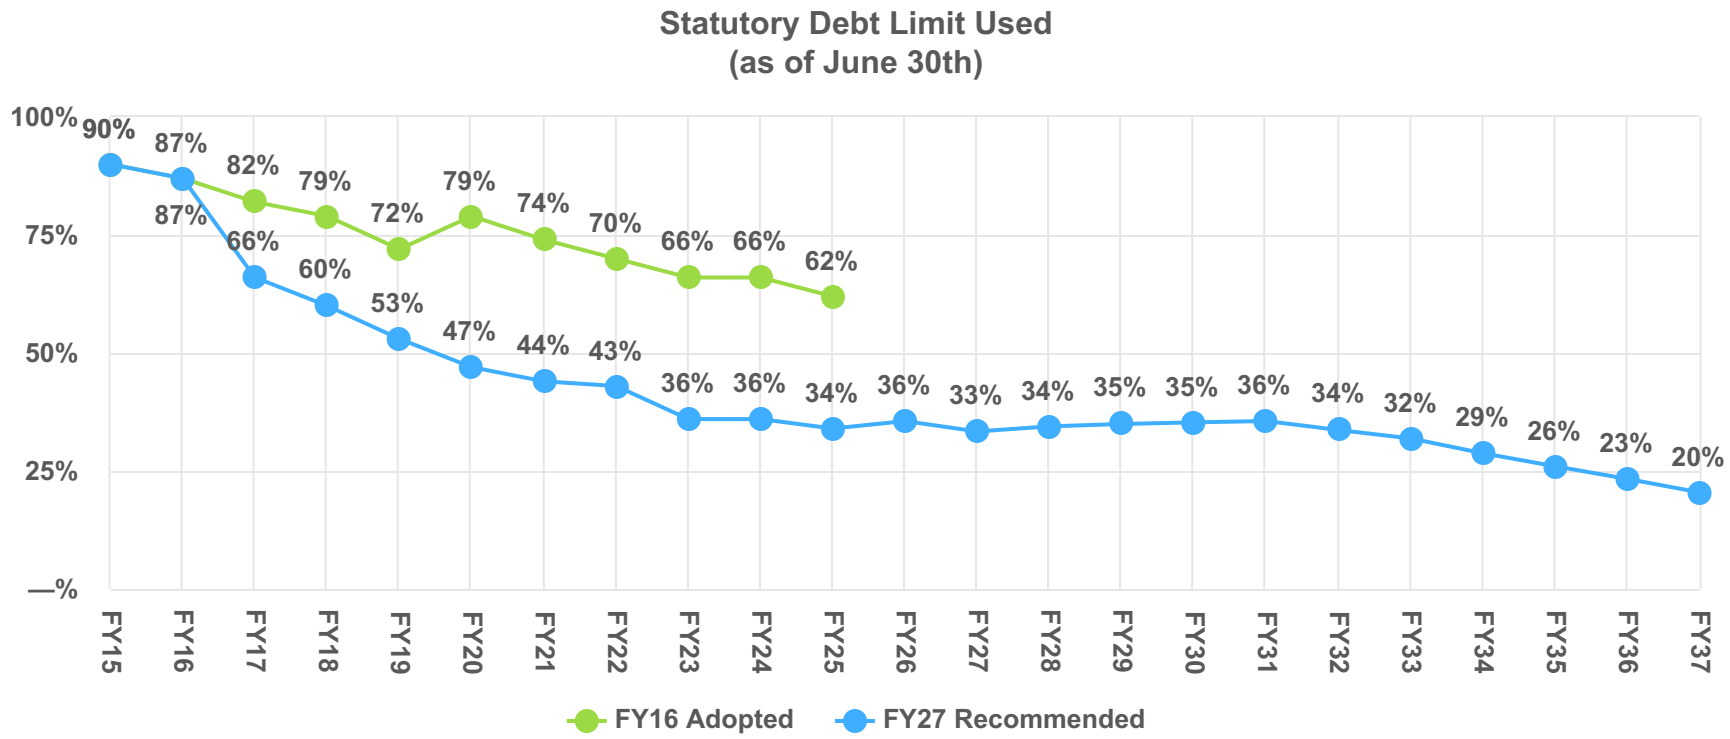
The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

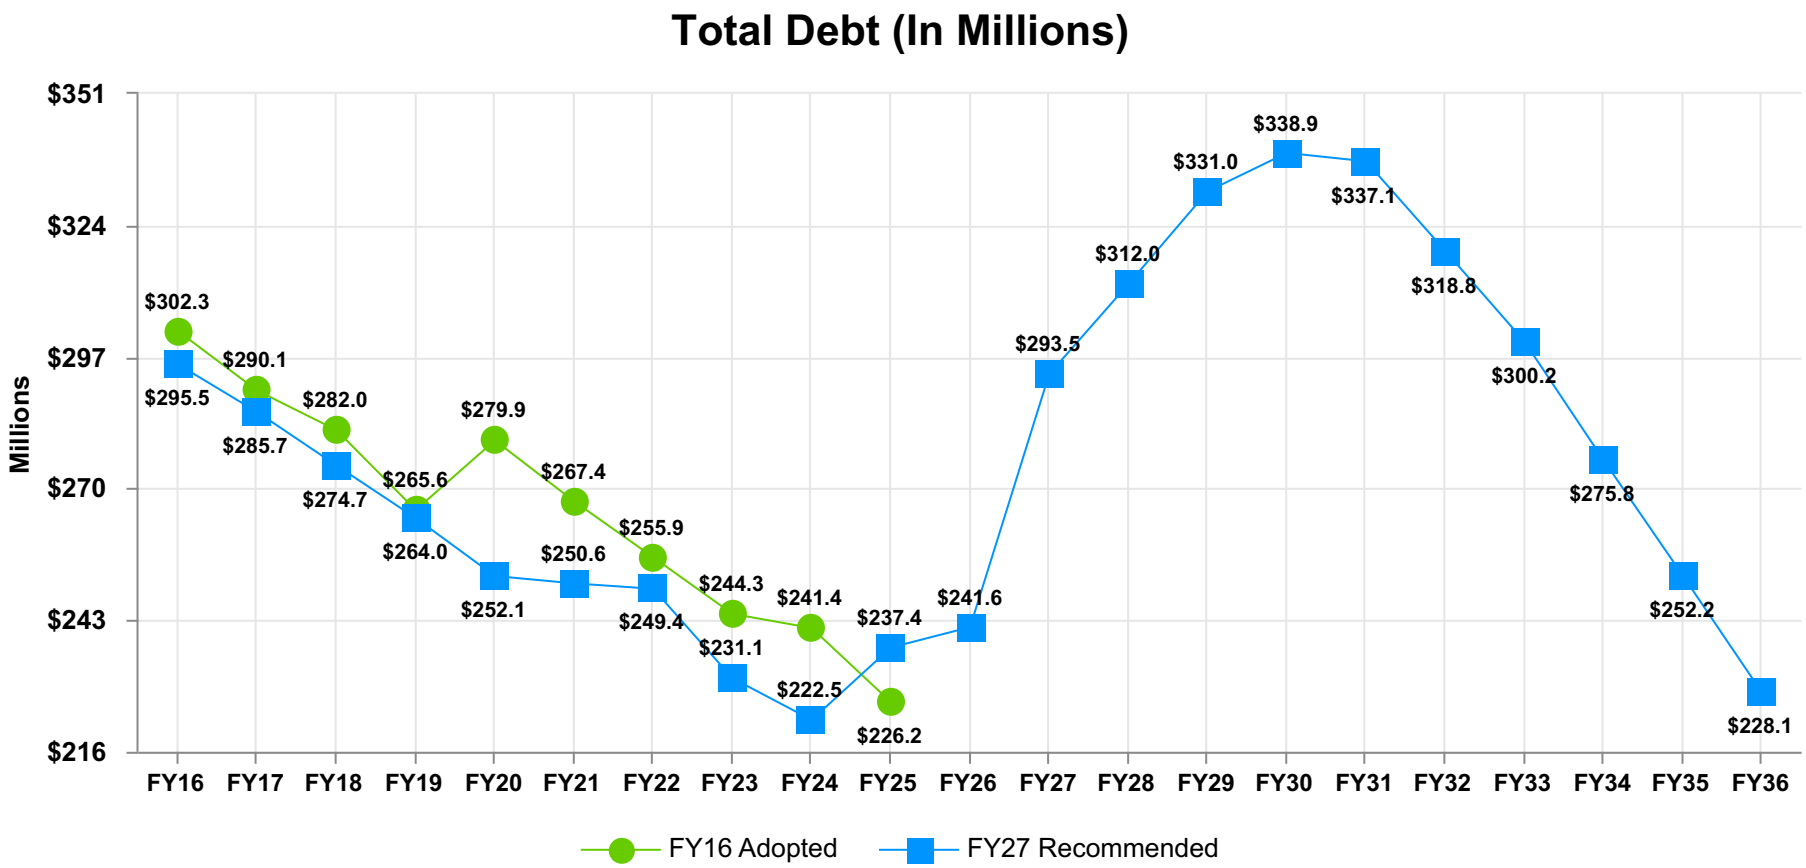


Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS mitigation, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements. However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit. Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit.** This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.



By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $337.15 million (35.59% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit or** $228.14 million total amount of debt.



General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 35% General Fund Operating Reserve for “AA” rated cities.

In January 2025, Moody’s Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody’s credit analysis states, “the City of Dubuque’s local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs.” According to Moody’s, the Aa2 issuer rating for the City of Dubuque’s bonds reflects the city’s healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody’s Investor Service upgraded the City’s outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody’s Investors Service (“Moodys”) released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

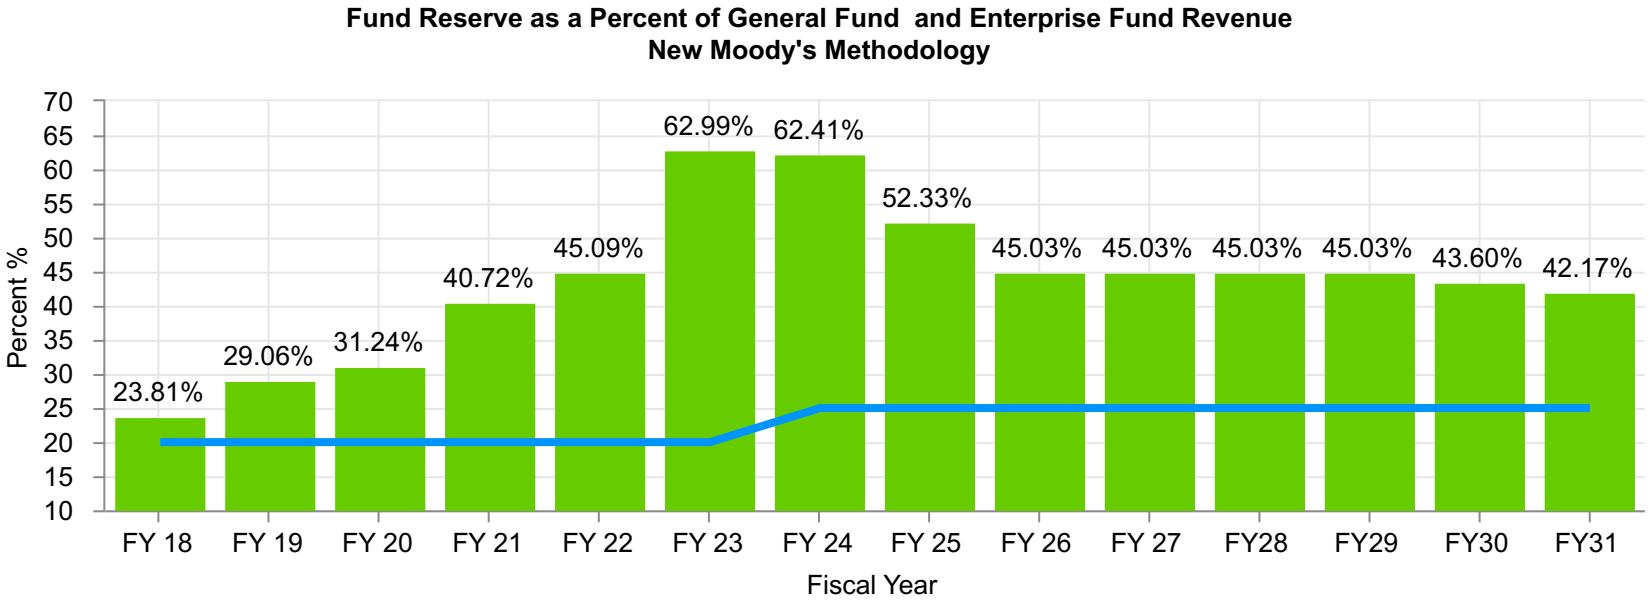
Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio (“AFBR”) = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio (“LR”) = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody’s under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody’s calculated the City’s AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City’s general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City’s ratings.

In May 2021, Moody’s Investor Service upgraded the City’s Water Enterprise’s outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	40.53%	52.33%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2026	27.00%	45.03%	Decrease due to spend down of American Rescue Plan Act funds.



The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve balance is projected to be $25,412,743 on June 30, 2026. The general fund reserve balance exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed on a cash basis. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031
Contribution	$4,419,668	$—	$—	$—	$—	$—	$—	$—
City's Spendable General Fund Cash Reserve Fund Balance	$43,826,193	$38,026,193	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743
% of Projected Revenue (Cash Basis)	51.19%	40.53%	27.00%	27.00%	27.00%	27.00%	27.00%	27.00%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low annual interest rate based on 75% of the average daily Bloomberg BVAL General Obligation Municipal AAA ("BVAL") for the calendar month immediately preceding the effective date. In addition there is an annual servicing fee of 0.25%**. The interest rate effective until March 31, 2026 is 3.15% with the 0.25% servicing fee included.

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes. This program no longer exists.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs were reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

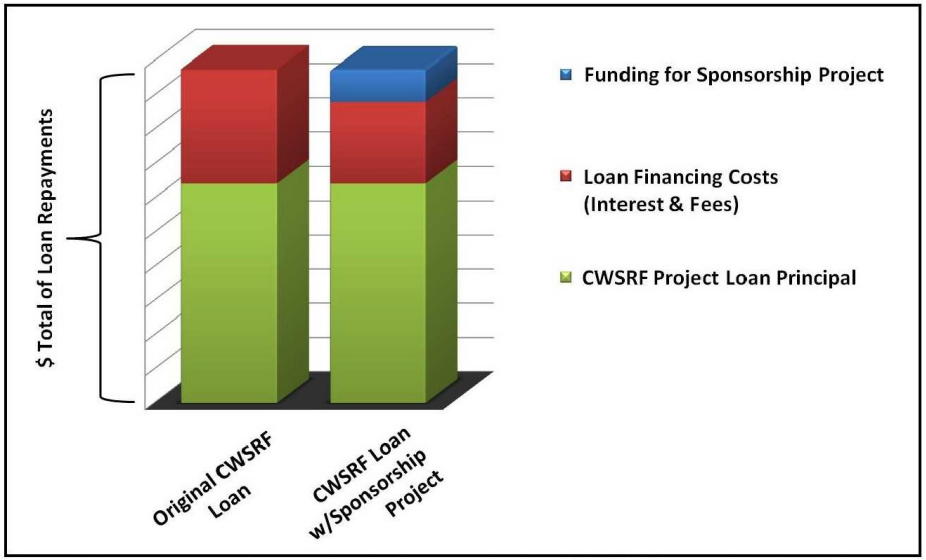


Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded $9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from $64,885,000 to $75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of $11.4 million. The State of Iowa has discontinued the sponsored project option for future debt issuances.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of $29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was $5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded $1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the $1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to $30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.38 million less than the original loan.**

In May 2018, the City was awarded $1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the $1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to $17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.05 million less than the original loan.**

In February 2019, the City was awarded $276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the $276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted**. On a gross basis, the borrowing costs for the new loan were $278,000 less than if there was not a sponsorship project included.**

The United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, requires all lead service lines to be removed from the system within a ten year period, effective November 1, 2027. Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. On

November 15, 2021, the Bipartisan Infrastructure Law (BIL) was signed by President Biden, which includes $50 billion to the Environmental Protection Agency (EPA) to strengthen the nation's drinking water and wastewater systems—the single largest investment in clean water that the federal government has ever made. The BIL funds are being administered locally through the Iowa Department of Natural Resources' State Revolving Fund (Iowa SRF) program, with 49% of construction costs being forgivable. The City of Dubuque is taking part in a unique opportunity to assist approximately 585 homes in three phases (owner occupied or rented) within the city with the functional replacement of private lead-water service lines by trenching or pull-through methods to prevent the potential for drinking water contamination at a house-by-house level. Phase 1 of the pilot program is 100% voluntary and is open to those residents with a verified drinking water lead service line meeting the socioeconomic guidelines established by the Bipartisan Infrastructure Law. In September 2025, the City was awarded a 0% interest State Revolving Fund Loan in the amount of $1,941,000 for the Private Lead Service Line Replacement Pilot Program - Phase 1. The non-premise related construction costs are 49% forgivable at the completion of Phase I.The scope of work in the first phase includes the replacement of approximately 200 lead service lines identified throughout the City's water distribution service area. The nature of the replacements will vary by site, ranging from full replacements (public water main to interior plumbing) to partial replacements (a portion of the service line between the public water main and the interior plumbing). Work will be conducted within the City's right-of-way and on private properties with authorization from property owners.

Phase 2 of the Private Lead Line Replacement Program will be voluntary enrollment with a target of approximately 67 lead service lines replaced each year. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced.he city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. Phase 3 of the Private Lead Line Replacement Program will be mandatory with an estimated 605 lead service lines replaced annually. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

In March 2026, the State of Iowa passed rules possibly allowing the City of Dubuque to obtain some forgivable SRF loan dollars to do PFAS related projects.

The five-year CIP adopted through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and will be $352,840,562. This is a $1,246,009 (0.35%) increase.

FY 2026-2030 Capital Improvement Program (CIP) compared to the FY 2027-2031 Capital Improvement Program is as follows:

	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
FY26 CIP	$91,803,749	$64,823,518	$69,843,768	$74,478,605	$50,644,913	—	$351,594,553
FY27 CIP	—	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$352,840,562
$ Difference	—	+$15,810,220	+$8,840,154	+$12,693,285	+$10,980,084	—	$1,246,009
% Change	—	+24.39%	+12.66%	+17.04%	+21.68%	—	0.35%

Further information about the changes to capital improvement projects can be found on pages xxii-xxxv.

Fiscal Year 2027 will be the twentieth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. T**he City's has been able to garner support from local, state, and**

federal partners with over $169 million in outside funding to help offset the cost of the overall $250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Construction
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12A	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.
12B	17th Street / W. Locust Street Reconstruction	Complete Design in ‘26, Construct in ‘27

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated $582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the **Dubuque Five-Year (2025-2027) City Council Goals and 2025-2027 Policy Agenda, established by the City Council August, 2025.**

Dubuque Five-Year City Council Goals

Healthy and Safe Community
Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity
Livable Neighborhoods and Housing: Great Place to Live
Sustainable Environment: Preserving and Enhancing Natural Resources
Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility
Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Policy Agenda 2025 - 2027

Top Priority (in alphabetical order)

- Commercial Air Service Future: Strategy an Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priority

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2027 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2027-2031 CIP is substantially the same as previous fiscal years. First, an index referencing the 2027-2031 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2025 and the adopted budget in Fiscal Year 2026. In Section A of the project form entitled “Expenditure Items”, project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled “Project Financing”, the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled “Impact – Operations,” the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2032". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2032" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2031." If a project is annual, the "2032" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque's commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2028 through Fiscal Year 2031 projects, as well as to add projects for Fiscal Year 2032.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available.

Notable FY2027 Capital Improvement Projects

Department	Project Title	Total City Investment FY2027-FY2031	Page
Fire	Outdoor Warning Siren Repair/Replace	$54,000	5
Fire	Fire Station Expansion	$8,791,700	6
Fire	2027 Ambulance Replacement (1914)	$500,000	9
Fire	Portable Radio Replacements	$490,000	12
Fire	2030 Fire Engine Replacement (1910)	$1,288,408	13
Fire	2030 Ambulance Replacement (1915)	$635,000	14
Fire	2031 Ambulance Replacement (130010)	$665,000	15
Parks	Jeffris Grant	$2,060,394	22
Civic Center	Five Flags Building Improvements	$5,844,678	29
Conference Center	Roof Restoration	$1,383,000	44
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000	48
Water	Admiral Sheehy Drive Water Main Loop	$686,400	49
Water	Central Ave Booster Station	$1,020,000	50
Water	Water Main Extension Central Ave	$965,000	52
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000	69
Water	Private Lead Line Replacement Program	$1,050,000	79
Water	Private Lead Service Line Replacement Program	$4,050,000	81
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000	86

Department	Project Title	Total City Investment FY2027-FY2031	Page
Water	Source Water PFAS Reduction Project	$1,121,199	87
Water	Water Meter Replacement Program	$687,750	96
Water	Water Storage Maintenance Program	$3,336,000	97
Water	West End Annexation Phase II	$2,000,000	101
Water	Southwest Arterial 16" Water Main Extension	$2,475,000	104
W&RRC	Bar Screen Replacement	$2,500,000	107
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000	109
W&RRC	Industrial Controls Upgrade	$6,114,700	111
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550	123
Airport	Reconstruct Taxiway A	$9,969,994	128
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000	130
Airport	Taxiway D Extension	$2,940,000	133
Airport	Taxiway J Improvements	$7,145,600	134
Public Works	Asphalt Milling Program	$873,547	135
Public Works	Curb Ramp Program	$4,883,000	136
Publics Works	Concrete Street Section Repair Program	$1,641,038	139
Public Works	NW Arterial Should Paving Project	$2,311,247	145
Engineering	Storm Sewer General Replacements	$1,500,000	209
Engineering	Stormwater Management Program	$800,000	211
Engineering	Detention Basin Maintenance & Repair	$1,000,000	216
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112	220
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000	223
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221	235
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630	237

Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200	345
Housing	Assistance for Homeownership	$1,026,082	348
Housing	Homeowner Rehabilitation Program	$2,476,588	350
Housing	Healthy Homes Production Grant	$1,326,250	353
Housing	Lead and Healthy Homes Grant	$3,136,600	355
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000	358
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759	368
Information Technology	Network Switch Replacement	$607,500	364
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906	372

There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs ($87,131,865). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	DLEC Upgrades and Maintenance	$ 208,300
Fire	Install HVAC Systems at Fire Station 5 and 6	$ 100,000
Parks	Chaplain Schmitt Island Environmental Restoration	$ 430,000
Parks	Eagle Point Park / Jeffris Grant	$ 2,060,394
Parks	Eagle Point Park Master Plan	$ 165,000
Parks	Park Office - Replace Roof	$ 12,000
Parks	Trail Maintenance/Repair	$ 100,000
Parks	Mechanic Shop-Replace Roof	$ 35,000
Recreation	Community Center Master Plan	$ 80,000
Recreation	Bunker Hill Administrative Office Lead Remediation Project	$ 30,000
Recreation	Bunker Hill Basement Leak Repair and Planter Box Removal	$ 30,000
Recreation	F&S Site Repair/Replacement-Leak Repair	$ 30,000
Recreation	Marina-Dock Fuel & Electrical System	$ 50,000
Conference Center	HVAC System Evaluation	$ 35,000
Water	8th St 20" Transmission Water Main Connection (Jackson to Central)	$ 277,000
Water	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water	$ 1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$ 686,400
Water	Central Avenue Booster Station	$ 1,020,000
Water	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	$ 245,000
Water	Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection)	$ 965,000
Water	Water Distribution System Master Plan	$ 200,000
Water	Distribution System Regulatory Monitoring/Flushing Stations	$ 150,000
Water	Water District Metered Zone (DMZ) Pilot	$ 180,000
Water	Eagle Point Water Treatment Plant Lime Sludge Drain Sediment Trap - Water	$ 50,000
Water	Eagle Point Water Treatment Plant Railroad Building Study	$ 20,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$ 205,000
Water	Grove Terrace Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 130,000

Department	New Project	Total CIP
Water	Harvard St Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 140,000
Water	Hempstead St Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 320,000
Water	Hwy 20/Dodge St Water Main Relocation - Devon Drive to Concord St	$ 1,000,000
Water	Water Distribution System Hydraulic Modeling	$ 50,000
Water	JFK Tower Interior Piping and Expansion Joint Replacement	$ 50,000
Water	Leak Detection Survey	$ 130,000
Water	North Grandview Ave Water Repairs	$ 80,000
Water	Water Main Extension Olympic Heights Rd (Pressure Zone 3 and 5 Connection)	$ 617,000
Water	Water Main Extension Pennsylvania Ave (Annex Agreement WM A)	$ 545,000
Water	Private Lead Service Line Replacement Program (City-Wide)	$ 4,050,000
Water	Rockdale Road Reconstruction (Old Mill to Twin Valley Drive) - Water	$ 400,000
Water	Water Main Extension Seippel Rd and Pennsylvania Ave (Annex Agreement WM B)	$ 585,000
Water	Source Water PFAS Reduction Project-Granular Activated Carbon Filter Rehabilitation	$ 10,900,000
Water	South Algona 12" Water Main Replacement (St Joseph to Lombard St)	$ 793,000
Water	Water Repairs Sunnyslope Street Project	$ 390,000
Water	Water Main Replacement W 8th St (Bluff St to Hill St)	$ 395,000
Water	Safety Equipment for Water Distribution Staff	$ 57,600
Water	Water Treatment Plant South Plan Flow Meter Replacement	$ 60,000
Water	Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Extension	$ 2,475,000
Water & Resource Recovery Center	WRRC Compressed Air System Improvements	$ 69,500
Water & Resource Recovery Center	Process Control Instrumentation Improvements - Dissolved Oxygen Monitoring	$ 135,000
Water & Resource Recovery Center	WRRC Influent and Effluent Monitoring Improvements	$ 40,000
Water & Resource Recovery Center	WRRC Treatment System Infrastructure Restoration and Reliability Improvements	$ 2,047,550
Water & Resource Recovery Center	WRRC Safety Program Development	$ 106,000
Airport	Taxiway D Extension (formerly Taxiway H)	$ 2,940,000

Department	New Project	Total CIP
Airport	Taxiway J Improvements	$ 7,145,600
Public Works	Tri-top Catch Basin Replacement Project	$ 335,162
Public Works	Municipal Services Center Access System Replacement	$ 85,000
Public Works	Municipal Services Center Fleet Maintenance Bay Extension	$ 100,000
Public Works	NW Arterial Shoulder Paving Project	$ 2,311,247
Public Works	Hawthorne Street Boat Ramp Repair	$ 407,532
Public Works	3255 - Wheel Loader Purchase	$ 305,865
Public Works	2730 - Portable Jet	$ 50,000
Public Works	Mechanical Sweeper Replacement	$ 290,466
Public Works	New CCTV Camera	$ 40,000
Public Works	2727-Off-Road Vehicle	$ 25,000
Public Works	Off Road Vehicle CCTV Slide-in Unit	$ 145,000
Public Works	Fleet Service Sweeper	$ 25,000
Landfill	Landfill Permit Renewal Project	$ 55,204
Landfill	Landfill Website Redesign Project	$ 20,000
Landfill	Landfill Alternative Energy Project	$ 50,000
Landfill	3C Wheel Loader	$ 275,000
Landfill	Sweeper	$ 95,000
Landfill	Brush Mower	$ 15,000
Landfill	3451 Hook Truck	$ 335,223
Landfill	Water Truck	$ 200,000
Engineering	Confined Space Drone	$ 100,000
Engineering	General Stormwater Detention Basin Maintenance & Repair	$ 1,000,000
Engineering	Schmitt Island Stormwater Rehabilitation	$ 450,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater	$ 5,300,000
Engineering	North Catfish Creek Trail Stabilization	$ 500,000
Engineering	Pebble Cove Drainage Basin Improvements	$ 240,000
Engineering	Harvest View Storm Sewer Improvements	$ 320,000
Engineering	Primrose Court Storm Sewer Repair	$ 120,000
Engineering	Manhole Inspection Equipment (2 Cameras)	$ 28,000
Engineering	Kerper Boulevard Sanitary Sediment Trap	$ 80,000

Department	New Project	Total CIP
Engineering	JFK Yiannias Place Sanitary Sewer Relocation	$ 550,000
Engineering	Key West Sanitary Lift Station Replacement	$ 1,535,000
Engineering	Sanitary Basin Analysis - Steger Heights Area (SSAMP Service Area 3-8-1-1)	$ 1,540,000
Engineering	Sanitary Basin Analysis - Quigley's Sub Area (SSAMP Service Area 3-8-0-1B-1)	$ 1,520,000
Engineering	Sanitary Basin Analysis - South Port & Terminal St LS	$ 10,800,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary	$ 1,100,000
Engineering	US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements, Iowa Department of Transportation	$ 6,000,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street	$ 4,765,000
Engineering	Port of Dubuque Streets Extension	$ 100,000
Engineering	Safe Routes to School	$ 120,000
Engineering	NW Arterial Trail Drainage	$ 150,000
Engineering	Pedestrian Safety with Permanent Bollards/Barricades	$ 152,000
Engineering	Way finding Signage	$ 40,000
Engineering	Chavenelle Street Light Replacement Project	$ 182,850
Engineering	Iowa St Streetlight Replacement Project	$ 138,000
Engineering	City Hall - Radon Mitigation System	$ 161,000
Economic Development	Downtown Storefront Activation Program	$ 400,000
Planning	Downtown Master Plan Update	$ 150,000
City Manager's Office	Municipal Solar Project - MFC	$ 176,300
City Manager's Office	Municipal Solar Project - Library	$ 122,672
	TOTAL	**$ 87,131,865**

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total $8,619,951. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP
Fire	Fire Department Bunk Room Remodel(s)	$ 1,489,918
Parks	Eagle Point Park - Riverfront Pavilion Restoration	$ 230,000
Parks	All Parks - Renovate Water Systems	$ 57,000
Parks	Eagle Point Park - Restroom Renovation	$ 124,900
Parks	Eagle Point Park - Stone Work	$ 105,000
Parks	Eagle Point Park - Renovate Log Cabin	$ 60,000
Recreation	Sutton Pool Zero Depth Survey & Remediation	$ 60,000
Conference Center	Banquet Chair Replacement	$ 313,500
Conference Center	Paint Exterior Metal	$ 132,000
Conference Center	Concrete Restoration, Raising & Caulk	$ 240,000
Conference Center	Replace Fabric Wall Covering	$ 227,000
Conference Center	Replace Carpet	$ 485,000
Library	Library Landscaping and Plaza Redesign	$ 103,601
Water & Resource Recovery Center	High Strength Waste Receiving and Storage	$ 939,984
Engineering	Pine Street Extension from 7th to 9th	$ 1,980,000
Engineering	Decorative Concrete Maintenance Program	$ 300,000
Engineering	Hillcrest Road Sidewalk	$ 250,000
Engineering	Port of Dubuque Security Camera Expansion	$ 60,000
Engineering	City Facility Integrated Access Control and Security System Upgrade	$ 270,126
Engineering	City Hall Landscape Enhancement Project	$ 29,500
Housing & Community Development	Washington Neighborhood Homebuyer Program	$ 952,422
Planning	Historic Preservation Technical Assistance Program	$ 110,000
City Manager's Office	Municipal Energy Reinvestment Fund	$ 20,000
City Manager's Office	Renew DBQ: Low-Income Solar Pilot Project	$ 80,000
	Total	**$ 8,619,951**

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP ($67,599,429). CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP
Police	Rescue Vehicle	$451,829
Fire	Fire Department Dock/Boathouse	$450,000
Fire	Update Hendrix Storage Building 880 Central (LOT 1024482020)	$510,000
Fire	Kitchen Remodel at Fire Station 2	$187,500
Parks	Pebble Cove Park Development	$360,000
Parks	Second Dog Park Planning	$60,000
Parks	Ham House Improvements	$90,000
Parks	Murphy Park-Bennett Pavilion Roof Replacement	$165,000
Parks	Hillcrest Park - Replace Play Unit	$225,000
Parks	Allison Henderson - Replace Roof	$20,000
Parks	EB Lyons Carpet Replacement	$85,000
Parks	Silver Oaks Park Development	$320,000
Parks	Ecological Restoration	$50,000
Parks	EB Lyons Center - Stain, Patio, Ridge Beam	$170,000
Parks	Chaplain Schmitt Island-Landscaping	$50,000
Parks	Chaplain Schmitt Island-Entrance Sign	$72,500
Parks	Flora Park-Tennis Courts Replace Lights/ADA Access	$225,000
Parks	Ham House Exterior Repairs	$135,000
Parks	Hilltop Park - Replace Play Unit	$221,000
Parks	Marshall Park - Replace Play Unit	$230,000
Parks	Teddy Bear Park - Play Equipment	$205,000
Parks	Paint Railings	$60,000
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	$83,000
Parks	North Fork Trail Park Development	$305,000
Parks	Eagle Point Park - Accessible Walkway to the Log Cabin Pavilion	$405,000
Parks	Eagle Point Park Trail Project- Invasive Remediation	$93,000
Parks	Eagle Point Park - Light Trolley Line Trail	$165,000
Parks	Eagle Point Park - Native American Room Restoration	$122,000

Department	New Project Not Funded	Total CIP
Parks	Eagle Point Park - Develop Wading Pool Replacement Plans	$440,000
Parks	Valley High Park - Replace Play Unit	$210,000
Parks	Pinard Park-Replace Playground	$194,000
Parks	Linwood Cemetery- Assessment	$110,000
Parks	Pave Parking Lots	$95,000
Parks	Murphy Park - Replace Roof on Rest Room Building by the Tennis Courts	$17,000
Parks	EPP-Replace Roof on Eagles View Pavilion	$56,000
Parks	Greenhouse Shop Roof Replacement	$75,000
Parks	Forestry Building - Replace Roof	$87,000
Parks	HWY 20 Trees/Invasive Removal	$55,000
Parks	Chaplain Schmitt Island Campground Entrance Enhancement	$52,500
Parks	EB Lyons Center - Roof Rehabilitation	$60,000
Parks	Comprehensive Street Tree Inventory	$250,000
Parks	Network Switches - Parks	$25,000
Parks	HVAC Upgrade - Greenhouse	$15,000
Parks	HVAC Upgrade - Forestry	$25,000
Parks	Mini Track Loader	$58,000
Parks	Park Signage Study	$55,000
Parks	Trail Connection Study	$60,000
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement - Shade Structures	$125,000
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement-Diving Boards	$70,000
Recreation	Flora and Sutton Swimming Pools Renovate Locker Rooms	$726,000
Recreation	Flora and Sutton Swimming Pools Water Playground Replacements	$315,000
Recreation	Flora & Sutton Pool Operational Projects - Electrical	$50,000
Recreation	F&S Pool Operations - UV Replacement	$85,000
Recreation	F&S Pool Operations - Chemical Distribution System Replacement	$60,000

Department	New Project Not Funded	Total CIP
Recreation	F&S Pool Operations - Water Slide Pump Replacements	$85,000
Recreation	Bunker Hill Golf Course - Range Project	$230,000
Recreation	Bunker - Sand Trap Repair/Removal	$50,000
Recreation	Port of Dubuque - Signage Replacement	$20,000
Recreation	Comiskey Building Restroom Expansion	$112,500
Recreation	McAleece Irrigation Renovation	$100,000
Recreation	Marina Dock Pedestal Replacements	$75,000
Recreation	Marina Gas Dock Fuel Tank Monitoring System Replacement	$19,000
Recreation	McAleece Scoreboard Replacements	$36,000
Recreation	McAleece Softball Field Repair	$54,000
Recreation	Flora & Sutton Pool Water Slide Complete Restoration	$470,000
Recreation	Mobile Special Event Trailer	$37,000
Recreation	Parks & Recreation Fee Study	$35,000
Conference Center	Security Camera System	$175,000
Conference Center	Furniture and Decor Replacement	$84,000
Conference Center	Wi-Fi Upgrades	$99,000
Conference Center	Access Control System	$55,000
Conference Center	Elevator Passenger and Freight Car Replacement	$267,500
Conference Center	AV Rental Upgrades	$32,500
Conference Center	Trash Compactor Rehab	$38,000
Conference Center	Window Panel Replacements	$20,300
Ice Center	Security Camera System Replacement	$216,000
Ice Center	Ice Resurfacer Refurbish	$62,500
Ice Center	Locker Room Ventilation Replacement	$429,050
Ice Center	ASME Storage Tank Replacement	$13,750
Ice Center	New Northwest Corner Service Bar	$271,000
Ice Center	TPO Roof Replacement	$191,500
Ice Center	Addition-New Women's Locker Room	$40,500
Library	Bookdrop Waterproofing	$59,740
Library	3rd Floor Mechanical Room Water Pipe Replacements	$140,195
Library	Refrigerant Leak Detection Upgrade	$21,360

Department	New Project Not Funded	Total CIP
Library	Rear Exterior Painting	$38,588
Library	Sidewalk Replacement Around Library	$113,191
Water	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Water	$2,400,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000
Airport	Terminal Apron Lighting Conversion	$43,000
Airport	Westside Airfield Development	$1,179,000
Airport	AFFF Transition Plan	$258,400
Public Works	Vacuum Street Sweeper Replacement	$361,613
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Stormwater	$10,605,000
Engineering	N Booth St Property Acquisition	$1,000,000
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Sanitary	$2,570,000
Engineering	N.Grandview - Kane to W. 32nd Reconstruction	$2,100,000
Engineering	Embassy West Dr. and Camelot Dr. Reconstruction	$1,800,000
Engineering	Sunnyslope Dr. and Hummingbird Dr. Reconstruction	$1,770,000
Engineering	N.Star Dr. - Long View Dr. - Angel View Dr. - Little Valley Dr. Reconstruction	$1,890,000
Engineering	Colonel Dr. - Camelot Dr. East of Embassy West Dr. Reconstruction	$1,940,000
Engineering	Pennsylvania Ave. Reconstruction - Sandpiper Ln. to Bergfeld Trail	$5,820,000
Engineering	Kerper Blvd Trail (12th - 16th)	$425,000
Engineering	Cedar Cross Road Reconstruction	$5,000,000
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Street	$10,070,000
Engineering	Mobility Improvements Implementation	$144,000
Engineering	Port of Dubuque Recognition Wall	$40,000
Engineering	City Hall First Floor Renovation	$588,138
Engineering	City Hall Annex Renovation	$993,775
Engineering	Traffic Center Aux Cooling	$15,000
Engineering	Old Engine House - Rock Fall Protection	$55,000
Engineering	City-wide Facilities Assessment	$110,000

Department	New Project Not Funded	Total CIP
Engineering	City Hall Elevator Modernization	$161,000
Economic Development	Arts & Culture Master Plan Update	$100,000
Economic Development	Greater Downtown Infill Housing Creation Grant Program	$2,500,000
Information Technology	Enterprise Firewall Replacement	$212,000
Information Technology	IT Office Security Alarm	$50,000
Information Technology	Data Center Second UPS	$350,000
Information Technology	Data Center Cabinet Card Access Controls	$65,000
Information Technology	Data Center Second Generator	$150,000
Information Technology	JOTC AV Equipment Replacement	$50,000
	Total	**$67,599,429**

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2027-2031 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer Jennifer Larson; Budget Manager Laura Bendorf; Budget/Financial Analysts Shannon Soppe, Nikesh Shah, and Nathan Kelleher; Assistant City Manager Cori Burbach, Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; Finance A/R & A/P Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

ATTACHMENTS – PROVIDE OVERVIEW OF THE FISCAL YEAR 2027-2031 CAPITAL IMPROVEMENT PROGRAM

Attachment 1

FISCAL YEARS 2027-2031 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2027	2028	2029	2030	2031	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	15,000	15,000	15,000	15,000	—	60,000	0.02 %
Homeownership Loan Repayments	5,000	5,000	5,000	5,000	—	20,000	0.01 %
Historic Preservation Loan Repayments	7,000	5,000	5,000	5,000	—	22,000	0.01 %
Washington Neighborhood Loan Repayments	30,000	30,000	30,000	30,000	30,000	150,000	0.04 %
Insurance and Other Reimbursements	10,000	10,000	10,000	10,000	10,000	50,000	0.01 %
Golf Revenue	40,000	10,000	—	—	—	50,000	0.01 %
Subtotal Current Revenue	**107,000**	**75,000**	**65,000**	**65,000**	**40,000**	**352,000**	**0.10 %**
Cable TV	1,700	1,900	3,600	—	1,700	8,900	0.00 %
Internal Service Funds-City Garage	286,950	1,950	6,750	1,950	25,950	323,550	0.09 %
Landfill Fund	1,479,181	530,519	714,726	1,266,601	852,640	4,843,667	1.37 %
Transit Fund	408,660	1,580	11,590	—	—	421,830	0.12 %
Parking Enterprise Fund	—	14,154	22,810	8,500	8,500	53,964	0.02 %

The State Mandated Budget Program Areas and the City Departments/Activities that fall under each of these areas are as follows:

Public Safety – Police, Emergency Communication Center, Fire, Disaster Services, Health Services: Animal Control, Public Works: Flood Control, Housing: Code Inspection and Construction Services
Public Works – Airport, Public Works, Engineering
Health and Social Services – Human Rights, Health Services, Purchase of Services
Culture and Recreation – Parks, Civic Center, Conference Center, Ice Center, Recreation, AmeriCorps, Multicultural Family Center, Library, Arts and Cultural Affairs
Community and Economic Development - Economic Development, Housing and Community Development, Planning Services, Purchase of Services
General Government – Engineering: Facilities Management: City Hall/Annex Maintenance/Grand River Center Maintenance, City Council, City Manager, Communications, Human Resources, Sustainability, City Clerk, Finance, Media Services, City Attorney , Information Technology
Business Type – Water, Water Resource & Recovery Center, Parking, Transit, Public Works: Landfill, Refuse, Salt Operations, Engineering: Sewer, Stormwater

FISCAL YEAR 2027 - 2031 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

Goal	Project	Description	Departments	CIP Page
Healthy & Safe Community	Fire Department Building Maintenance	Updates to restore six fire stations to preventative maintenance-level condition	Fire	3
Healthy & Safe Community	Outdoor Warning Siren Repair/Replace	Upgrades to 17-unit outdoor warning siren system	Fire	5
Healthy & Safe Community	Fire Station Expansion/Relocation	Implements fire station location plan for improved emergency response	Fire	6
Healthy & Safe Community	Fire Engine and Ambulance Replacements	Scheduled replacements for reliable emergency response fleet	Fire	8,9,11,13, 14,15
Healthy & Safe Community	Portable Radio Replacements	Modernizing communication equipment for first responders	Fire/Police/Airport	12
Financially Responsible, High-Performance City	Enterprise Asset Management System (Water, Sanitary, Stormwater, Roadways, Fiber)	Citywide CMMS for asset optimization and service delivery	Multiple Depts.	62, 210, 234, 292, 332
Financially Responsible, High-Performance City	Leak Detection Equipment and Survey	Investments in technology to reduce water loss and improve efficiency	Water	72, 73
Financially Responsible, High-Performance City	Network Switch Replacement	Regular replacement of network infrastructure for cybersecurity	IT Dept.	365, 371
Robust Local Economy	8th Street 20" Transmission Water Main Connection	Infrastructure expansion to support economic development	Water	48
Robust Local Economy	Central Avenue Booster Station	Enhancing water supply reliability for economic growth	Water	50
Robust Local Economy	Workforce Development	Partnership with GDDC for workforce retention, recruitment, creation	Economic Develop	343
Robust Local Economy	Downtown Storefront Activation Program	Financial assistance to activate vacant storefronts	Economic Develop	341
Livable Neighborhoods & Housing	Low/Mod Income Area Park Improvements	Upgrades to parks in low/moderate income areas	Parks	19
Livable Neighborhoods & Housing	Homeowner Rehabilitation Program	Loans for maintenance and rehabilitation of owner-occupied homes	Housing	351
Livable Neighborhoods & Housing	Assistance for Homeownership	Programs to support affordable homeownership	Housing	349
Livable Neighborhoods & Housing	Healthy Homes Production Grant & Lead and Healthy Homes Grant	Addressing housing-related health hazards	Housing	354, 356
Sustainable Environment	Source Water PFAS Reduction Projects	Water treatment investments for safe drinking water	Water	86, 87

Goal	Project	Description	Departments	CIP Page
Sustainable Environment	Municipal Solar Projects (MFC & Library)	Solar arrays on city facilities to reduce energy costs and emissions	City Manager's Office	361, 363
Sustainable Environment	Bee Branch Gate & Pump Replacement Project	Major stormwater infrastructure to mitigate flooding	Engineering/ Stormwater	220
Sustainable Environment	Landfill Waste Minimization Grant Project	Grants for waste reduction, recycling, composting	Public Works	183
Connected Community	14th Street Overpass (B2E2 Project)	Multimodal corridor improvements, rail crossing elimination	Engineering/Street	265
Connected Community	East-West Corridor Capacity Improvements	Upgrades to University Avenue and related corridors	Engineering/Street	270
Connected Community	Public Electric Vehicle Chargers	EV charging infrastructure at key downtown locations	Engineering/Traffic	300
Connected Community	Smart Parking System	Technology for improved parking management and wayfinding	Transportation Services	345
Diverse Arts, Culture, Parks, Recreation	Five Flags Building Improvements	Upgrades to arena, theater, lobby for cultural/ recreational use	Civic Center	29
Diverse Arts, Culture, Parks, Recreation	Chaplain Schmitt Island Environmental Restoration	Restoration of natural areas as part of development plan	Parks	20
Diverse Arts, Culture, Parks, Recreation	Eagle Point Park Master Plan & Improvements	Comprehensive planning and upgrades for signature park	Parks	23
Diverse Arts, Culture, Parks, Recreation	Community Center Master Plan	Planning for expanded indoor recreation and programming	Parks	34
Policy Agenda Top Priority	DLEC Upgrades and Maintenance	Law Enforcement Center upgrades for operational readiness	Police	1
Policy Agenda Top Priority	Old Mill Road Lift Station & Force Main (Phases 1–4)	Major sanitary sewer investments	Engineering/ Sanitary Sewer	235, 237, 239, 241
Policy Agenda Top Priority	Bee Branch Gate & Pump Replacement Project	Stormwater management investments	Engineering/ Stormwater	220
Policy Agenda Top Priority	Pavement Rehabilitation, ADA Curb Ramp Program, etc.	Street maintenance/rehabilitation program	Engineering/Street	275, 136
Policy Agenda High Priority	Central Avenue White Street Corridor Master Plan	Central Avenue revitalization	Engineering/Street	267
Policy Agenda High Priority	Downtown Master Plan Update	Comprehensive downtown planning	Planning Services	358
Policy Agenda High Priority	Chaplain Schmitt Island Development	Environmental, water, sanitary, and stormwater improvements	Multiple Depts.	20, 49, 222, 243
Policy Agenda High Priority	Parks and Recreation Master Plan Adoption	Community Center, Eagle Point Park, and other park improvements	Parks	23, 34
Policy Agenda High Priority	WRRC Plant Nutrient Reduction Improvements	Water Resource and Recovery Center upgrades	Water & Resource Recovery Center	109

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2025 - 2027 Management in Progress and Major Projects by the City Council and are included in the 2027 CIP budget according to one of the Council's goals.

2025 - 2027 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Business Incentives Policy/Processes Review
- Chaplain Schmitt Island Development: Hotel Project

- Comprehensive Hotel Attraction/Incentive Policy
- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions
- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing: Great Place to Live

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming

- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods and Housing: Great Place to Live

- (none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Auburn St and Custer St Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St and Central Ave
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No.7 Rehabilitation
- Water Department New Deep Well No. 7 Rehabilitation (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- 14th St Railroad Overpass and 16th St Corridor Complete Streets Improvements

- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System
- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

Source of Funds and Important Details

The Fiscal Year 2027-2031 CIP presents a financial plan that reflects a $287,495 general fund property tax levy supported annual debt service for the purchase of a replacement pumper truck ($1,035,000) and the franchise fee litigation settlement judgment bond ($2,800,000). The Fire Station Expansion/Relocation project included in the Fiscal Year 2027-2031 CIP will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time. It is anticipated that other borrowing from non-utility funds can and will be minimized by using other sources of funds such as sales tax revenue.

The following important details are about the source of funds:

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over $163 million in outside funding to help offset the cost of the overall $254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach $9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes includes an additional $5,121,112 for the Flood Mitigation Gate and Pump Replacement, a key component of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Combined with funding allocated in prior fiscal years (FY24-FY26), the total project investment is $28,456,106.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes $12,275,000 shared across four funding sources to complete final design work in Fiscal Year 2027 and begin construction in Fiscal Year 2028 for the 17th/W. Locust Street Reconstruction Project, part of the Bee Branch Creek Restoration Project (Phase 12B of the Bee Branch Watershed Flood Mitigation Project). Design for this project was largely completed in the late 2010s and early 2020s, but progress was paused due to funding challenges during the COVID-19 pandemic.

Fiscal Year 2027 will be the nineteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

Water
Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The Fiscal Year 2027-2031 CIP anticipates $4,174,231 in Fiscal Year 2027, $3,623,407 in Fiscal Year 2028, $1,793,632 in Fiscal Year 2029, $2,312,622 in Fiscal Year 2030, and $1,676,919 in Fiscal Year 2031.

Water State Revolving Fund Loans will be used to finance water projects in FY 2027-2031 as follows: $0 FY 2027; $7,302,707 FY 2028; $11,563,870 FY 2029; $6,806,000 FY 2030; and $2,055,000 FY 2031. The debt service related to the total $27,727,577 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, West End Annexation Phase II, 17th/Locust St Reconstruction Phase 4 (Heeb to Kirkwood), Private Lead Service Line Replacement Program (City-Wide), Central Ave Booster Station, Central Ave Water Main Extension, South Algona 12" Water Main Replacement, Water Main Replacement W 8th St (Bluff to Hill), Water Storage Rehabilitation Program, HWY 20/Dodge St Water Main Relocation - Devon Drive to Concord Street, Water Main Extension Olympic Heights Road, and Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Installation.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Water Fund will support 18.01% of administrative overhead.

The water fees in FY 2027 are recommended to increase 3.0%.

Sewer
Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines. The Fiscal Year 2027-2031 CIP anticipates $26,300,608 in Fiscal Year 2027, $19,579,781 in Fiscal Year 2028, $19,532,176 in Fiscal Year 2029, $15,269,824 in Fiscal Year 2030 and $11,750,197 in Fiscal Year 2031.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2027-2031 as follows: $12,232,834 FY 2027; $17,579,781 FY 2028; $17,132,176 FY 2029; $12,669,824 FY 2030; and $8,500,197 FY 2031. The debt service related to the total $68,114,812 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Catfish Creek Sewer shed Interceptor Improvements (South Fork and Middle Fork), South West Arterial Middle Interchange Sewer Extension, Old Mill Road Lift Station & Force Main Phases (1 and 2), Track Line Sewer Reconstruction, Schmitt Island Sanitary Improvements, Grove Terrace Sanitary Sewer Reconstruction, Cooper Pl & Maiden Ln Sanitary Sewer Reconstruction, Harvard Sanitary Sewer, Hempstead Reconstruction, Knob Hill-Duggan Drive Sanitary Sewer Reconstruction, JFK Yiannias Pl Sanitary Sewer Relocation, Key West Sanitary Lift Station Replacement, Sanitary Basin Analysis - Steger Heights, Quigley's Sub and South Port/Terminal St, 17th/Locust St Reconstruction Phase 4, W&RRC Plant Nutrient Reduction Improvements, W&RRC Industrial Control Upgrade, W&RRC Headworks Bar Screen Replacement, and W&RRC Treatment System Infrastructure Restoration and Reliability Improvements.

The sewer fees in FY 2027 are recommended to increase 9.0%.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Sanitary Sewer Fund will support 18.01% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A $4.15 million Greater Downtown TIF borrowing is anticipated in FY 2027-2031 for parking ramp major maintenance. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related debt in the downtown as follows: $2,014,000 in FY 2027; $2,010,750 in FY 2028; $2,012,625 in FY 2029; $2,013,875 in FY 2030; and $2,014,125 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2027, the Parking Fund will support 2.86% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The Fiscal Year 2027-2031 CIP anticipates $460,000 in FY 2027, $469,250 in FY 2028; $423,679 in FY 2029; $646,544 in FY 2030; and $772,500 in FY 2031. The Solid Waste Collection Fund is anticipated to have a deficit balance of $587,638 at the close of FY 2027, which will be offset by an internal loan from a portion of the $5.3 million loan repayment from the Greater Downtown TIF fund to the General Fund. The Solid Waste Collection Fund will begin repaying the General Fund in the Fiscal Year that there is no longer a deficit balance, which is estimated to be FY 2031.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: $460,000 in FY 2027; $463,250 in FY 2028; $408,879 in FY 2029; $640,544 in FY 2030 ; $766,500 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Solid Waste Fund will support 18.75% of the administrative overhead.

The solid waste collection fees in FY 2027 are recommended to increase 9%.

GENERAL FUND

The current revenue amount of $352,000 (0.10% of CIP Total) during the five-year period represents $50,000 in golf funds for improvements to the Bunker Hill Golf Course, $22,000 in Historic Preservation Loan repayments, $60,000 in Rental Dwelling Rehab Repayments, $150,000 in Washington Neighborhood Loan Repayments, $50,000 in insurance and other reimbursements, and $20,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax (20%)” totals $844,281 and represents 0.24% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax/Street Projects (30 percent)” and totals $16,417,822, or 4.65% of the total CIP.

GAMING

DRA payments represent 0% in FY 2027 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations ($0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections ($0 or 0.00% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2029, 10% in FY 2030 and 15% in FY 2031. **In Fiscal Year 2027, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Years 2024-2026 which is a change from past practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois. Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

FEDERAL FUNDING

Community Development Block Grant (CDBG)
The Fiscal year 2027-2031 CIP anticipates that Community Development Block Grant (CDBG) funds will be $650,000 in FY 2027; $650,000 in 2028; $450,000 in FY 2029; $450,000 in FY 2030; and $200,000 in FY 2031 (0.68% of the total CIP).

Federal Aviation Administration (FAA)
The FAA funding of $18,140,035 (5.14% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2027-2031 budget includes Reconstruct Taxiway A, Taxiway J Improvements, Taxiway D Extension, and Update Airport Pavement Management System.

Federal Lead Paint/Healthy Homes Grant (0.83% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Lead Paint/Healthy Homes Grant funds will be $1,900,000 in FY 2027; $1,036,600 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.83% of the total CIP).

Healthy Homes Production Grant (0.32% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Healthy Homes Production Grant funds will be $2,995,200 in FY 2027; $1,658,050 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.32% of the total CIP).

Federal Assistance
Federal Assistance funding of $45,351,606 (12.85% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2027-2031 budget includes Bee Branch Creek Gate and Pump Replacement, Public Electric Vehicle Chargers, Electric Buses, 14th Street Overpass, and East-West Corridor Capacity Improvements.

Federal STP Funds
Federal STP Funds funding of $14,845,453 (4.21% of the total CIP) includes DMATS funds for 14th Street Overpass, STREETS Phase 2, and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax
Road Use Tax Funds (RUTF) of $3,174,227 (0.90% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031, all used for operations.

Sales Tax Increment Revenue
The City secured a $98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, $50,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (0.69% of Total CIP)
State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of $2,445,000 are anticipated over the five-year program.

Iowa Finance Authority funding of $1,013,268 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District
In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2027-2031 CIP includes $1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, $182,850 for the Chavenelle Street Light Replacement Project.

Annexation Initiatives
As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)
With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer (SRO) Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic pausing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers were approved. In late 2024, the Precision Policing Center (PPC) was established. It is expected to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. This is also supporting officer safety. The PPC is staffed by five non-sworn (civilian) employees in three roles: three Precision Policing Center Technicians, one Crime Analyst, and one Criminal Computer Forensics.

Fire Station and Additional Firefighters/Paramedics
An additional west end fire station is currently projected to be designed in FY 2030 and built in FY 2031.In April 2026, the City began a study of all stations and future needs. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City well to develop an annexation plan and begin the process of annexation in the future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, and furniture. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 an additional EMS Captain and an additional EMS Bureau Chief were approved. In FY 2026, 5 firefighter/paramedic positions were added and additional employees may be added in future years. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Water and Sanitary Sewer Service
The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements and replacing undersized sanitary sewers along with new lift stations. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of $2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District
This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Now that the City will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, resources for these capital projects are significantly reduced. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following charts shows the amount of TIF revenue reduction in GDTIF due to claiming 25% less in TIF revenue:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$ 13,524,219	$ —	— %
2028	$ 10,162,871	$ -3,361,348	-24.85 %
2029	$ 10,137,372	$ -3,386,847	-33.33 %
2030	$ 10,111,873	$ -3,412,346	-33.66 %
2031	$ 10,111,873	$ -3,412,346	-33.75 %

Claiming 25% less in Greater Downtown TIF revenue will provide additional general fund levy tax dollars due to the growth that the improvements created in the GDTIF District. The additional general fund levy tax dollars estimated to be returned to all taxing bodies in Fiscal Year 2028 based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 1,284,104
City of Dubuque	36.26 %	$ 1,233,420
Dubuque County	19.96 %	$ 678,959
Northeast Iowa Community College	2.75 %	$ 93,544
Sunnycrest Manor County Hospital	1.89 %	$ 64,290
Dubuque Agricultural Extension	0.41 %	$ 13,947
Dubuque City Assessor	0.98 %	$ 33,336
Total	100.00 %	$ 3,401,600

The following are projects included in the FY 2027-2031 CIP:

Downtown Master Plan Update (page 357) - This project ($150,000) provides for the preparation of a Downtown Master Plan that will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core.

Jackson Park Restroom Building (page 24) - This project ($100,000) provides for additional funding for the Jackson Park restroom building. Initial funding was approved in FY 2020, but due to COVID-19, the project was put on hold.

Five Flags Building Improvements (page 29) – This project ($5,869,457) provides funding for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. With existing funds of $1,206,410, there is $5,869,457 available. This is a substantial decrease from the approximately $24 million previously available.

Five Flags Marquee Replacement (page 30) – This project ($133,500) provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The life expectancy is 7-9 years. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

Five Flags Boiler Replacement (page 31) – This project ($410,000) provides funding for replacement of three 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient.

Five Flags Recirculating Pump Replacement (page 32) – This project ($40,700) provides for the replacement of two recirculating pumps that are responsible for keeping the warm water for sinks readily available by circulating the hot water.

Five Flags Emergency Generator Replacement (page 33) – This project ($870,400) provides for replacement of the emergency standby generator located at 5th Street which provides power to critical systems inside of the building during a sudden loss of power. The current generator was installed in 2000 and is nearing the end of life expectancy of 30 years. A new generator would be more efficient and environmentally friendly.

Grand River Center Dishwasher and Water Softener Replacement (page 43) - This project ($263,000) provides for a dishwasher and water softener replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

Grand River Center Roof Restoration (page 44) - This project ($1,383,000) provides for restoration of the roof on the Grand River Center. The roof was installed in 2002 and restoration is critical to prevent expensive damage if the roof begins leaking.

Grand River Center HVAC System Evaluation (page 45) - This project ($35,000) provides for a consultant to evaluate the HVAC system, software, and controllers. The current system is original to the building, outdated, and difficult to service.

Port of Dubuque Street Extension (page 281) - The city is moving forward with further development in the Port of Dubuque. Specifically, there is approximately 13 acres of vacant property on the north side of 5th Street. These funds ($100,000) will provide money to create an entry road to that site and to plan for the potential future realignment of Ice Harbor Drive to line up with that entry road.

Railroad Crossing Safety Improvements and Quiet Zone Implementation (page 297) - This project ($833,104) provides funding to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within jurisdictional areas.

Federal Building Renovation (page 334) - This project ($8,645,473) provides funding in FY27 for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY28 and FY29 provides funding for the second phase of HVAC upgrades.

Downtown Bike Lockers (page 336) - This project ($30,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team.

Greater Downtown Rehabilitation and Housing Incentive Program (page 338) – This program ($1,970,403) consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing. This is a substantial reduction from previous available funding.

Downtown Storefront Activation Program (page 340) - This new project ($400,000) provides for $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

Smart Parking System Implementation (page 344) - This project ($1,490,175) provides funds for way finding signage throughout the City of Dubuque. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

Parking Ramp Major Maintenance Repairs (page 345) - This project ($9,161,567) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical & plumbing repairs.

Municipal Parking Lot Maintenance (page 346) - This project ($196,182) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces of municipal parking lots.

Homeowner Rehabilitation Program (page 350) - This project ($2,741,588) provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978.

Downtown ADA Assistance Program (page 352) - This project ($185,000) provides assistance to residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafés, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property.

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income(LMI) residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City

initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expired in FY 2025 and all certified debt has been collected.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 589,631
City of Dubuque	36.26 %	$ 566,358
Dubuque County	19.96 %	$ 311,763
Northeast Iowa Community College	2.75 %	$ 42,953
Sunnycrest Manor County Hospital	1.89 %	$ 29,521
Dubuque Agricultural Extension	0.41 %	$ 6,404
Dubuque City Assessor	0.98 %	$ 15,307
Total	100.00 %	$ 1,561,937

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2026.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 226,916
City of Dubuque	36.26 %	$ 217,960
Dubuque County	19.96 %	$ 119,980
Northeast Iowa Community College	2.75 %	$ 16,530
Sunnycrest Manor County Hospital	1.89 %	$ 11,361
Dubuque Agricultural Extension	0.41 %	$ 2,465
Dubuque City Assessor	0.98 %	$ 5,891
Total	100.00 %	$ 601,103

South Pointe Housing TIF District
In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2031 due to a three year extension.

Rustic Point Housing TIF District
In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2028.

N Grandview Housing TIF District
In FY 2021, the City created a housing TIF district in the North Grandview subdivision off of North Grandview Avenue. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in 2033.

MISCELLANEOUS SOURCES

Private Participation (1.10% of Total CIP)
Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance ($467,157); Street Lighting and Traffic Signal Knockdown insurance reimbursements ($50,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project ($1,000,000); Milling sales from the Asphalt Milling Program ($375,000); Private Marina Companies contribution for Harbor Area Maintenance Dredging ($200,000); Jeffris Family Foundation contribution for the restoration of Eagle Point Park structures ($1,852,354); and IDOT reimbursement for the Pavement Marking program ($125,000).

Special Assessments (0.08% of Total CIP)
Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The $285,000 amount breaks down: (a) $250,000 for sidewalk lien special assessments, and (b) $35,000 for green alleys (non Bee Branch) special assessments.

RESIDENT'S GUIDE

to the
RECOMMENDED
FISCAL YEAR 2027 Budget

CITY MISSION STATEMENT

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

2040 VISION STATEMENT

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy, and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

City of Dubuque
Iowa

For the Fiscal Year Beginning

July 01, 2025

Executive Director

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to City of Dubuque, Iowa, for its Annual Budget for the fiscal year beginning July 1, 2025. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

This City of Dubuque has been awarded this honor for the past 20 years in a row.

CITY MANAGER'S BUDGET MESSAGE

This page intentionally left blank.

BUDGET INTRODUCTION

Attached for your review is the

Fiscal Year 2027 Recommended Budget.

The Budget and Fiscal Policy Guidelines are developed and adopted by City Council early in the budgeting process in order to provide targets or parameters within which the budget recommendation is to be formulated.

The budget recommendation presented by the City Manager may not meet all of these targets due to changing conditions and updated information during budget preparation. To the extent the adopted budget varies from the guidelines, an explanation is provided following the Budget Transmittal Message.

The following Fiscal Year 2027 Budget Transmittal Message is written in March as recommended by the City Manager to the Honorable Mayor and City Council.

A series of Budget Hearings take place following the presentation of the recommended budget, to allow for public input and analysis.

This budget was presented on April 6, 2026
to the Honorable Mayor and City Council.

This page intentionally left blank.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Fiscal Year 2027 Recommended Budget

DATE: April 3, 2026

The strong foundation of this budget recommendation is the Mayor and City Council Goals and Priorities adopted in September, 2025:

FIVE-YEAR GOALS

- Healthy and Safe Community
- Financially Responsible, High-Performance City Organization:
  Sustainable, Equitable, and Effective Service Delivery
- Robust Local Economy:
  Diverse Businesses and Jobs with Economic Prosperity
- Livable Neighborhoods and Housing:
  Great Place to Live
- Sustainable Environment:
  Preserving and Enhancing Natural Resources

  Equitable Transportation, Technology Infrastructure, and Mobility
- Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

2025-2027 Priorities:

Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other Projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

The theme for the Fiscal Year 2027 budget recommendation is a comprehensive, future-focused investment in Dubuque's core infrastructure and community assets – prioritizing safety, streets, and access to quality services. The budget aims to ensure that Dubuque remains a safe, healthy, and vibrant place while preparing for growth and evolving community needs.

For Fiscal Year 2027 I respectfully recommend a 1.00% increase in the property tax rate, which increases the property tax rate from $10.0637 in FY26 to $10.1648 in FY 27. This would represent a 3.00% or $26.68 property tax increase for the average Dubuque homeowner.

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$10.0637	$10.1648	1.00%	$0.10
Property Tax Asking	$29,872,253	$31,940,934	6.93%	$2,068,681

Since 1989, the average homeowner has averaged an annual increase in costs in the City portion of their property taxes of +1.52%, or about +$9.92 a year. If the State had been fully funding the Homestead Tax Credit, the increase would have averaged about +$7.32 a year.

Based on the information the city has today, it appears if the City Council approves this recommendation the City of Dubuque would still have the lowest property tax rate of the eleven cities in the State of Iowa with a population over 50,000.

In the current fiscal year, FY2026, the average of the other 10 cities was 55% higher than Dubuque's property tax rate, and the highest city, Waterloo, had a rate 116% higher than Dubuque.

I asked city assessor Troy Patzner for some information about the assessed value of residential properties in the North End. He responded as follows:

"The below data shows the percentage change of value on residential from three different revaluation cycles, 2015, 2021, and 2025. I had the north end neighborhoods separated from the rest of the City. It looks like in 2015 the north end hardly changed at +.3%, as compared to the rest of the city which went up 3.14% as compared to ten years later when they increased slightly more than the rest of the city neighborhoods at 9.66%."

Assessed Value Changes

Area	Assessment 2024/2025 % Change	Assessment 2020/2021 % Change	Assessment 2014/2015 % Change
North End	+9.66 %	+9.48 %	+0.30 %
Rest of City	+8.98 %	+10.25 %	+3.14 %

Some of the increase in assessed value in the North End can be attributed to the fact that the city and others have been investing hundreds of millions of dollars in the North End. Some significant examples include the $250 million invested in the Bee Branch Creek Watershed Flood Mitigation Project, millions of dollars into Comiskey Park, a new roundabout at Kerper Boulevard and Kerper Court, new sanitary sewers on Kerper Boulevard, millions of dollars into Crescent Community Health Center, $80 million in Chaplin Schmidt Island, soon to be almost $50 million in the 14th St. Railroad Overpass and Elm Street and 16th Street complete streets. The city also had financial assistance programs to help those who had experienced flooding replace furnaces, water heaters, and repair homes. All of this has led to the homes increasing in value, which means one of the most valuable assets a resident possesses is becoming more valuable.

For FY2027 there are $2,968,870 in general fund improvement package requests. This budget recommendation includes $597,760 for recurring improvement packages and $1,120,636 for non-recurring improvement packages. The non-recurring improvement packages are funded by Inflation Reduction Act rebate in the amount of $188,737 for the Climate Action Coordinator and the energy savers program, and $931,899 of non-recurring improvement packages are funded from the $5.3 million in internal loan repayments from the Greater Downtown TIF and Dubuque Industrial Center TIF Districts. The additional nine firefighters recommended are funded by a Federal SAFER grant and previously approved ambulance fee increases. The remaining $349,684 in recommended recurring improvement packages are funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. If the City Council does not approve claiming only 75% of the Downtown TIF revenues beginning in Fiscal Year 2028 we will need to eliminate all but the 9 new Firefighters from the recurring improvement packages and cut $702,793 from the Fiscal Year 2027 general fund operating budget. In the case of the 9 new Firefighter positions they would be funded from a Federal SAFER Grant, ambulance fees, and eventually property taxes.

The current recommendation for Fiscal Year 2027 is a 3% increase in property tax cost to the average homeowner, which generates $2.1 million in additional property tax revenue over Fiscal Year 2026. Each 1% reduction in the cost increase represents approximately $300,000 less in property tax revenue.

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %
Commercial: $150,000 value & below	433	381	$716.01	$679.03	-$36.98	-5.2 %
Commercial: $150,001-$300,000 value	232	225	$2,074.61	$2,051.27	-$23.34	-1.1 %
Commercial: $300,001-$450,000	147	167	$3,433.21	$3,423.52	-$9.69	-0.3 %
Commercial: Avg. Value = $624,927	588	636	$4,253.76	$5,023.81	$770.05	18.1 %

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Industrial: $150,000 value & below	8	8	$716.01	$679.03	-$36.98	-5.2 %
Industrial: $150,001-$300,000 value	11	9	$2,074.61	$2,051.27	-$23.34	-1.1 %
Industrial: $300,001-$450,000	4	3	$3,433.21	$3,423.52	-$9.69	-0.3 %
Industrial: Avg. Value = $731,693	58	58	$5,090.27	$6,000.54	$910.27	+17.9 %

If the City Council chooses an amount of less than 3%, it could impact the recommendations to fund improvement packages, and the ability of the city to fund programs that provide grants to outside agencies.

In the March 23, 2026, property tax public hearing interest was expressed in lowering the property tax increase. In Fiscal Year 2027 we face many special opportunities and challenges. I ask that we not add to the challenges side of this equation, potentially squandering the opportunities, by using one-time revenues, to pay for recurring expenses. Doing this without a long-term funding plan only digs a budget hole to dig out of in future budget years. It creates a future self-inflicted budget crisis. Using general fund reserves to pay for recurring expenses is one of the way that using one-time revenues to pay for recurring expenses is a poor financial planning strategy. **I respect the right of the Mayor and City Council to reduce budget expenditures to reduce the recommended property tax levy. I just ask that those reductions be recurring general fund expenditures.**

What needs to be ever present in our minds is that the State of Iowa elected leaders have made it clear that they intend to enact property tax reform legislation that will negatively affect the Fiscal Year 2028 (beginning July 1, 2027) local government budgets. We do not want to do anything in Fiscal Year 2027 that will create additional funding issues in Fiscal Year 2028.

I am recommending increases in the Enterprise Funds as follows:

Enterprise Fund Utility Rates

	FY 2026 Rate	Recommended FY 2027 Rate	% Change
Water*	$22.50	$23.17	3 %
Sanitary Sewer	$31.84	$34.73	9 %
Curbside Collection	$18.11	$19.74	9 %
Stormwater	$11.03	$12.02	9 %

*3,200 gallons per month is the average residential user with a 5/8 inch water meter.

One important point is that low-income customers receive a 50% discount on their base city utility rates.

During Fiscal Year 2026 the position of Economic Mobility and Neighborhood Support Director became vacant when Anderson Sainci was promoted to the Director of Strategic Partnership position. The Economic Mobility and Neighborhood Support Department was evaluated. I have eliminated the position of Economic Mobility and Neighborhood Support Director. I have also eliminated the Department of Economic Mobility and Neighborhood Support, while ensuring those important responsibilities are still being carried out.

The Department of Economic Mobility and Neighborhood Support Administrative Support Professional also provided support to the Information Technology Department and to the Human Rights Department. The position has been transferred to the Information Technology Department and will continue to provide support to the Information Technology Department and the Human Rights Department. The Administrative Support Professional also now provides support to the 911 Emergency Communications Department.

The Department of Economic Mobility and Neighborhood Support Community Engagement Coordinator Temwa Phiri responsible for neighborhood support has been transferred to the Community Impact Department. That department will now be called the Community Impact and Neighborhood Support Department.

The Department of Economic Mobility and Neighborhood Support grant funded position of Economic Mobility Special Assistant, held by Corrine Rothblum, has also been transferred to the Community Impact and Neighborhood Support Department.

I am recommending that beginning in Fiscal Year 2028 the city begin claiming only 75% of the Downtown TIF District revenues. From the unclaimed 25% taxing bodies would begin receiving on an annual basis the following:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

In Fiscal Year 2027 the Downtown Urban Renewal TIF District would repay to the City of Dubuque internal loans in the amount of $5,060,682 and Dubuque Industrial Center TIF District would repay internal loans in the amount of $332,307 for a total of $5,392,989. These funds would be used as follows:

Fiscal Year 2027 general fund operating expenses - $1,808,693
Fiscal Year 2027 general fund non-recurring improvement packages - $929,712
Fiscal year 2027-2030 internal loans to Refuse Collections Fund - $587,638
Fiscal year 2027 internal loans to Garage Service Fund - $180,693

The remaining $1.9 million would be held in reserve in case needed to help transition the city budget in Fiscal Year 2028 from any Fiscal Year 2028 State of Iowa property tax reform legislation.

If the City Council chooses to not add to the City reserves to be prepared for Fiscal Year 2028 State of Iowa Property Tax Reform, I would ask that any use of these funds be for non-recurring expenses.

The reduction in Downtown TIF revenues beginning in Fiscal Year 2028 by only claiming 75% is:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	—%
2028	$10,162,871	-$3,361,348	-24.85%
2029	$10,137,372	-$3,386,847	-33.33%
2030	$10,111,873	-$3,412,346	-33.66%
2031	$10,111,873	-$3,412,346	-33.75%

Even with the reduction in revenues available to the Downtown TIF District, the budget recommendation was able to increase funding for the Central/White Street Corridor Project, maintain funding for the 14th Street Railroad Overpass Project and create a new program to assist with filling up vacant downtown commercial spaces. Unfortunately, there did need to be some project funding reductions like for Five Flags and for developer incentives.

Project Funding

Project	FY2026-FY2030	FY2026-FY2031	$ Change
Five Flags Renovation	$23,464,000	$7,055,088	-$16,408,912
Downtown Rehab Grant Program	$5,500,000	$5,504,390	$4,390
Downtown Storefront Retention Program	$—	$400,000	$400,000
Central/White Street	$8,170,000	$11,170,000	$3,000,000
14th Street Overpass	$39,351,910	$51,183,326	$11,831,416
East-West Corridor	$1,240,275	$6,000,321	$4,760,046
Total	$77,726,185	$81,313,125	$3,586,940

General Obligation (GO) debt is an important part of the Fiscal Year 2027 budget recommendation:

New General Obligation Debt

General Obligation Debt	FY2027	FY2028	FY2029	FY2030	FY2031	Total
New G.O. Debt	$12,991,499	$16,756,114	$15,288,879	$16,520,648	$15,114,208	$76,671,348

Much of this General Obligation debt is Essential Corporate Purpose debt and can be issued by a vote of the City Council. Some of this debt can be issued by a vote of the City Council, but is subject to a reverse referendum where residents can circulate a petition and then a referendum vote is required. Some of the G.O. debt would be recommended as a voter referendum.

There are many decisions to be made over the next few years on major projects that will require debt that the scope, scale, and cost of the project are not known at this time. The most significant item that is in this category is the implementation of the Parks and Recreation Master Plan that was recently adopted by the Mayor and City Council. The Aquatics Center feasibility study has already begun, and other studies are recommended to begin with approval of this budget.

Some of these capital projects will require a voter referendum. Following is a list of voter referendums in Dubuque County since 1979:

Year	Bond	P/F
1979	Courthouse bond and addition	failed
1979	NICC Levy	failed
1980	NICC Levy	passed
1982	DUBUQUE-TAX LEVY FOR PARK ON CITY ISLAND	passed
1984	City Bond Dog Racing	passed
1984	NICC Levy	passed
1985	Dubuque Band Levy	failed
1986	DBQ school tax levy	passed
1986	LOST & Service Tax	failed
1987	Wheel Tax	failed
1988	Local sales and service	passed
1988	E991	passed
1988	WD Bond	failed
1989	Dubuque Pool	passed
1989	GAMBLING	passed
1989	WD Bond	failed
1990	WD Bond	failed
1990	Dubuque School Instructional support levy	failed
1991	WD Bond	passed
1991	DBQ Hotel tax	passed
1992	DBQ Golf Bond	failed
1993	DBQ Library tax	failed
1993	DBQ Gas Company	passed
1993	Interstate Power Company	passed
1994	DBQ school tax levy	passed
1994	NICC Levy	passed
1994	Gambling Boat	passed
1994	E911 surcharge	passed
1995	DBQ school tax levy	failed
1996	DBQ School renewal of physical plant levy	passed
1997	NICC Levy	failed
1997	DCSD Support Levy	failed
1998	NICC Levy	passed
1999	LOST & Service Tax	failed
2000	County Jail Bond	passed
2000	WD Bond	failed
2000	WD Levy and Bond	failed
2000	$4 million City/County Jail Expansion	passed
2003	Baseball Stadium	failed
2005	Establish Municipal Utility	passed
2022	County Conservation Measure	failed
2023	School Board - Public Measure	failed
2025	School Board - Public Measure HB	failed

The City is also using the Iowa Finance Authority State Revolving Loan Fund (SRF) low interest debt program for sewer and water projects.

A recent report from McKinsey and Company talks about the current State of potable water and sanitary sewer water infrastructure. The report says “As critical water infrastructure ages, maintenance expenditures go up.” The report further says, “…our research shows the U.S. water utility sector faced an estimated $110 billion annual funding gap in 2024, primarily driven by significant investments in aging infrastructure, operating expenses, and water-quality regulations. By 2030, this gap could increase to approximately $194 billion.”

In 2025 the American Society for Civil Engineers issued a report title, “A comprehensive Assessment of American’s Infrastructure.” They issued a national report card:

Drinking Water “C-“: Funding gap = $309 billion
Public Parks “C-“: Funding gap = $44 billion
Solid Waste “C+”: Funding gap = $16 billion
Transit “D”: Funding gap = $152 billion
Stormwater “D”/ Wastewater “D+” (including sanitary sewer): Combined funding gap=$690 billion

Nationally, as the City of Dubuque faces locally, the biggest funding challenges are in wastewater and stormwater.

While there are several major capital improvement projects in this budget recommendation, some that have already been mentioned, the Catfish Creek sanitary sewer projects, the stormwater projects on 17th/Locust Street, the 14th Street railroad overpass, and the digging of a new deep well for the water department are some of the largest.

If the City Council feels the projected stormwater rate increase needs to be lowered, we could look at delaying some stormwater projects as we pursue federal grant funding opportunities.

The City’s top priority in operating the Water & Resource Recovery Center is to consistently meet its permit requirements and protect the environment and public health. At the same time, wastewater collection and treatment systems will inherently generate some level of odor. Organic material begins to decompose in the sewer system before it reaches the facility, and the biological processes used to remove pollutants naturally produce gases that can at times be detected offsite. Odor conditions can also fluctuate due to weather patterns, the characteristics of incoming wastewater, and normal variations in treatment system performance. While odors cannot be fully eliminated, the City is committed to minimizing their frequency, intensity, and duration through a comprehensive, multi-faceted approach.

That approach focuses on controlling odor at its source through targeted chemical dosing, improving the reliability of treatment infrastructure, enhancing operational practices and data-driven decision-making, and advancing long-term planning. The following outlines the actions the City has already taken and the additional investments proposed in FY27 to continue reducing odor impacts while maintaining reliable treatment performance.

The City has implemented targeted chemical dosing strategies to directly reduce odor-causing compounds within the treatment process. Hydrogen peroxide dosing at the primary clarifiers is achieving approximately a 50 percent reduction in hydrogen sulfide, with limited additional benefit observed at higher doses. In parallel, ferric chloride dosing within the anaerobic digesters has reduced hydrogen sulfide concentrations from approximately 13,000 ppm to as low as 490 ppm, over a 90% reduction, and decreased struvite formation potential from approximately 330 pounds per day to around 40 pounds per day, again approaching a 90% reduction. Dosing is currently at approximately 140 gallons per day and is being incrementally increased toward an optimal range of 160 to 200 gallons per day. The goal is to have zero struvite formation. The City has budgeted approximately $460,000 annually for this program and is continuing to evaluate more cost-effective upstream dosing opportunities, including hydrogen peroxide application prior to digestion and at the Terminal Street Lift Station, to further reduce hydrogen sulfide loading to the facility.

Improving equipment and system reliability remains a central focus, as many odor issues are tied to treatment systems not operating as designed. A key example is the activated sludge system, where challenges have contributed to elevated hydrogen sulfide emissions since last fall. Current efforts are focused on restoring all mixers to full operation and preparing to clean the worst-performing of the three treatment trains to stabilize process performance.

Building on this work, the Fiscal Year 2027 budget includes an improvement package to clean all three activated sludge trains over a three-year period, with funding of $42,500 annually to complete one train each year. This planned approach is intended to increase treatment efficiency, improve oxygen transfer, and reduce conditions that contribute to odor formation.

The City is also advancing a proactive approach to digester management, with Fiscal Year 2026 funding supporting the cleaning of Digester #4 in June 2026. The Fiscal Year 2027 budget establishes annual funding to clean one digester each year. Routine cleaning, combined with ongoing chemical control, is expected to reduce future costs while improving performance and minimizing odor potential.

The Fiscal Year 2027 budget also includes targeted investments to further improve system reliability and reduce the risk of odor-generating conditions. This includes $1,380,000 to improve overall system resiliency. These funds will allow the City to restore redundant systems and to maintain an inventory of critical spare parts to avoid extended outages caused by long procurement times. In addition, the budget includes $135,000 for process control monitoring improvements—specifically dissolved oxygen monitoring within the activated sludge system—to provide real-time visibility into system performance and support timely operational adjustments. The budget also includes $40,000 for real-time influent monitoring to better detect and respond to changes in incoming wastewater that could interfere with treatment processes. Together, these investments strengthen the City’s ability to proactively manage the treatment system and reduce the likelihood of process upsets that contribute to odors.

The City is also advancing a comprehensive Facility Plan update that will guide how the WRRC meets community needs over the next two decades, with odor mitigation incorporated as a key consideration in evaluating future treatment and infrastructure options. In addition to long-term planning, this effort includes a focused evaluation of existing systems to ensure they are operating as intended and that operators have the knowledge and tools needed to effectively manage the treatment process. This includes enhanced training, improved process control strategies, and the development of data dashboards to better understand system performance in real time. In parallel, the City has transitioned from paper-based records to digital systems and is expanding its use of software integrated with SCADA data. SCADA (Supervisory Control and Data Acquisition) is a computer-based system that allows operators to monitor, control, and respond to equipment and processes in real time—helping ensure systems like the wastewater treatment plant running safely and efficiently. These efforts are strengthening data-driven decision-making and improving the City's ability to proactively identify and respond to conditions that could contribute to odor events.

In addition, the City is making a significant investment in modernizing electrical controls across the WRRC through a $7.2 million program designed to enhance system reliability and operational performance. Phase 1 is already underway, with approximately $2.36 million under contract to replace motor control centers—the "brains" of the facility—in two of the seven process control buildings. The FY27–31 budget continues this progress by funding upgrades to the remaining buildings, positioning the WRRC with a strong, modern control foundation that supports consistent operations and long-term service to the community.

The City is also advancing the Hauled High Strength Waste Improvements Project, an $8.1 million investment that will strengthen how hauled waste is received and integrated into the treatment process. This project will provide dedicated infrastructure and controls to ensure these waste streams are introduced in a manner that supports stable, effective operation of the anaerobic digesters as they were designed to function. The project is fully funded through hauled waste user fees and a federal grant, aligning system improvements directly with the users of the service while enhancing overall treatment reliability and performance.

Together, these efforts, supported by the Fiscal Year 2027 budget, position the City to respond to odor challenges in the short term while proactively managing and reducing them over the long term, all while maintaining reliable, compliant treatment operations.

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

The City Council at their December 1, 2025, meeting approved adding five Firefighter/Paramedic positions in the current fiscal year (FY 2026). The authorized strength of the Dubuque Fire Department, including civilian and sworn positions, was 92.16 FTE in FY 2022 and is 109.16 FTE as of FY 2026, an 18.5% (17 FTE) increase in staffing over that four-year period. The addition of nine additional positions in FY 2027 will make it a 28% (26 FTE) increase in staffing since Fiscal Year 2022.

The city will apply for a SAFER grant later this calendar year when the application process opens, then it is expected it would be several months before the city would learn of the results of the application. The results could be that all nine of the positions receive SAFER grant funding, some of the positions receive grant funding, or none of the positions receive grant funding. Based on Fire Chief Amy Scheller's experience in the SAFER grant process she believes Dubuque will have a very competitive application. If the city does not receive the SAFER grant in calendar year 2026 (FY 2027) to help with funding the nine new Firefighter/Paramedic positions the City Council has the options of reapplying for the SAFER grant in calendar year 2027 (FY 2028), phasing implementation of the nine new Firefighter/Paramedic positions (since the Fire Department has three 24 hour shifts that would most likely be three positions a year, one on each shift, for three years, leaving open the option to apply for a SAFER grant in future years for the positions not added in the first and/or second year), or decide to modify the funding plan to maintain the hiring schedule through a mid-fiscal year amendment of the FY 2027 city budget, which would take an evaluation of other approved general fund expenses. I am sure there are other options that could be explored.

The Parks and Recreation Master Plan identifies the need for seven additional positions to fully support its implementation. While adding all seven positions was not financially feasible in Fiscal Year 2027, the budget recommends moving forward with two park maintenance technician positions at this time. These technicians would take responsibility for comprehensive park maintenance across the system.

Including the position added for Eagle Point Park in the current fiscal year, this brings the total to three new park maintenance positions within a two-year period—demonstrating continued progress toward meeting the maintenance and service goals outlined in the Master Plan.

In Dubuque Public Safety is a Citywide Commitment.

Public safety in Dubuque is not the work of one department or a single set of responders. It is a shared responsibility woven into the daily operations of every service area across the City. From infrastructure and clean water to communications, planning, and community engagement, each department plays a crucial role in creating a safe, resilient, and thriving Dubuque. Together, their efforts demonstrate that safety is not only about reacting to emergencies—it is about preventing them, preparing for them, and creating the conditions that allow people to live their lives with confidence, stability, and trust.

Safety in the Air, on the Ground, and Throughout Daily Life

At the Dubuque Regional Airport, safety begins long before a plane takes off or lands. Staff complete rigorous daily inspections, manage weather and wildlife hazards, maintain critical systems, and collaborate with pilots and emergency responders to ensure 24/7 protection for travelers. This proactive approach exemplifies how safety is embedded into operations, not simply responded to in moments of crisis.

That same focus on prevention is found across the City. Public Works crews keep roads clear in severe weather, maintain stormwater and sewer systems, and care for the fleet that emergency responders depend on. Water Department staff run hundreds of tests every day to ensure clean drinking water, protect public health, and ensure firefighting capacity. At the Water & Resource Recovery Center, millions of gallons of wastewater are safely treated daily while programs like Industrial Pretreatment and FOG prevent hazardous backups and protect people, property, and the Mississippi River.

These systems—airfield safety, streets and utilities, water and wastewater—may operate largely out of public view, but they are the backbone of a safe and functioning community. When they work well, residents can move, work, and live without disruption. When incidents do occur, this strong foundation ensures that responders can act quickly and effectively.

Safety Through Law, Regulation, and Responsible Growth

Many of the City's departments protect residents by shaping safe environments long before emergencies or hazards occur. Planning Services enforces the Unified Development Code to maintain safe building practices, guide responsible land use, and ensure emergency access. Floodplain regulation, subdivision review, and zoning enforcement keep people out of harm's way and reduce long-term risks.

Similarly, the City Attorney's Office plays a vital behind-the-scenes role by enforcing building, nuisance, and animal control codes; supporting criminal and civil proceedings; reviewing contracts and specifications for public safety components; and providing guidance across departments. The City Clerk's Office contributes through civil service hiring processes that ensure police and fire roles are filled with qualified professionals, by overseeing background checks, and by coordinating safe community events.

Housing & Community Development reinforces safety through rental licensing, inspections, and environmental health programs—addressing lead hazards, structural issues, and fire risks. Their work helps reduce unsafe living conditions while improving long-term housing stability, a factor closely tied to overall community safety.

Sustainability efforts, too, are essential to public safety. They address the long-term threats of extreme weather, air quality, and climate impacts. By protecting resources, lowering risks, and strengthening resilience, sustainability work ensures that Dubuque remains safe not only today but for generations.

Safety Through Community Connection, Equity, and Support

Several departments focus on the human and social aspects of safety. The Community Impact & Neighborhood Support Department builds stability by reducing financial stress, connecting residents to resources, and supporting neighborhood-led improvements. These upstream interventions can prevent crises, reduce involvement with the legal system, and strengthen protective factors within families and neighborhoods.

The Human Rights Department promotes psychological and physical safety by enforcing anti-discrimination laws, reducing threats and harassment, ensuring access to housing and services, and building trust between residents and City government. When people feel protected and respected, they are more likely to cooperate with authorities, report concerns, and participate in community life.

The Carnegie-Stout Public Library provides safe public space for all residents—a place to learn, connect, cool down, warm up, or simply rest. Its educational programs and inclusive environment foster emotional, social, and economic stability.

Parks and Recreation also contributes by maintaining safe, welcoming outdoor spaces. Parks offer physical activity, mental relief, and community connection. Through collaboration with police, engineering, public works, and other departments, park safety is supported year-round.

These departments highlight that safety is not only physical; it is also social, emotional, and environmental. When residents have stable housing, welcoming spaces, and equitable treatment, public safety strengthens across the entire community.

Safety in Emergency Response, Technology, and Coordination

Several City departments are directly involved in emergency response. The Dubuque Fire Department responds to thousands of calls annually, from medical emergencies to hazardous materials incidents, while also conducting inspections, fire prevention programs, and rigorous training. Investments in equipment, staffing, and modernized tools ensure firefighters remain prepared for both routine calls and complex events.

The Dubuque Police Department protects residents through law enforcement, problem solving, community partnerships, and the use of technology to address crime and neighborhood concerns. Highly trained personnel and strong community relationships are central to their mission.

The 911 Emergency Communications Center is the first critical link in any emergency. Dispatchers gather essential information, coordinate multi-agency responses, use advanced technology to pinpoint locations, and provide lifesaving instructions until help arrives. They also support after-hours communications for multiple City departments and maintain vital situational awareness through citywide cameras and cross-jurisdictional connections.

Communications staff support emergency response by coordinating crisis messaging, issuing public alerts, staffing the Emergency Operations Center, and managing the AlertIowa notification system. Their work ensures residents receive timely, accurate, and accessible information when it matters most.

Information Technology protects the digital infrastructure that all of these departments rely on—safeguarding against cyber threats, maintaining communications systems, supporting public safety software, and ensuring uninterrupted connectivity between departments.

Transportation Services supports community safety by providing reliable transit that reduces congestion, improves mobility for vulnerable residents, and offers safe travel during severe weather.

Together, these departments form Dubuque's operational readiness network—preventing harm, responding to emergencies, and ensuring continuity during crises.

A Community Protected by Everyone

What becomes clear across every department is a shared philosophy: **public safety is everyone's responsibility.**

It is expressed through:
- the engineering controls that prevent crashes and floods
- the code enforcement that ensures safe housing
- the communications that keep residents informed during crises
- the economic and social programs that reduce instability
- the infrastructure that moves water, protects roads, and maintains technology
- the emergency responders who arrive when every second counts
- the parks, libraries, and public spaces that offer refuge and belonging

Safety is not the work of one department—it is the woven fabric of all City operations. Because of this collective effort, Dubuque is not just safer in emergencies; it is safer every day, in ways many may never see but all benefit from.

The City of Dubuque is a Community Built on Service, Safety, Stewardship & Shared Purpose.

Across Dubuque's government, one theme rises above all else: **people serving people.** From the moment person becomes a resident to the moment water flows safely from a tap, dozens of teams work together — often quietly, often unseen — to keep our community moving, thriving, and welcoming. These departments form an interconnected ecosystem of service, each contributing to a Dubuque built intentionally, compassionately, and with an eye toward the future.

At our **regional airport**, staff operate not just a transportation hub, but a gateway to opportunity. Their work helps businesses recruit talent, supports medical transport when minutes matter, and welcomes visitors home with professionalism and hospitality. The airport connects Dubuque to the wider world — and connects the world to us.

In **City Clerk services**, residents find their first point of contact with local government — a place to access public records, participate in council proceedings, pursue licenses and permits, and engage in meaningful civic involvement. The Clerk's Office safeguards the historical record of our governing body while creating clear pathways for the public to understand, influence, and participate in their government.

The **Communications Office** ensures that residents receive timely, trustworthy, accessible information amid today's whirlwind of noise, rumors, and viral misinformation. Their work protects the credibility of local government, helps residents understand and access city services, and keeps transparency at the forefront even in a fast-moving digital environment.

Through **Community Impact & Neighborhood Support**, Dubuque embraces a bigger vision: that opportunity should never be accidental. This department aligns data, resident voice, and neighborhood engagement to remove barriers and help families move toward stability and long-term economic mobility. Their mission is not just to run programs, but to strengthen the entire ecosystem of community support.

The **Economic Development Department** works quietly but powerfully behind the scenes — turning ideas into storefronts, revitalizing underused spaces, supporting local entrepreneurs, and aligning public tools with private investment. Their work helps shape a local economy rooted in resilience, creativity, and shared prosperity.

Our **911 Emergency Communications** team — the dispatchers who answer calls in crisis — serve with empathy, professionalism, and genuine human care. In a newly improved communications center, they continue to support residents with focus and compassion, inspired by the community they serve.

In the **Engineering Department**, staff act as the city's in-house engineering firm, designing and maintaining streets, sidewalks, traffic systems, sewers, stormwater networks, and fiber infrastructure. Much of their work may be invisible to residents, but it shapes every trip made in Dubuque and ensures that movement throughout the city is safe, efficient, and reliable.

For the **Fire Department**, the heart of their message is simple: their greatest strength is their people. Highly trained, deeply compassionate, and unwaveringly dedicated, these individuals show up on the worst days of people's lives with skill, steadiness, and humanity. They see people, not incidents — and their service reflects Dubuque's core values: integrity, responsibility, and care.

The **Housing & Community Development Department** works directly with residents to improve safety, stability, and quality of life. Through permitting, inspections, rental licensing, rehabilitation, and neighborhood revitalization, they build trust through personal interaction and help ensure that every person has access to safe, supported housing.

The **Health Services team** protects community wellbeing through food inspections, animal control, and investigations that prevent illness and injury before they occur. Their efforts reduce avoidable healthcare costs, prevent disease, and promote a healthier, safer community — much of it quietly, diligently, and behind the scenes.

Human Resources supports the people who support the public. They recruit talented employees, provide training, ensure compliance with employment laws, and help maintain safe, respectful, workplaces. Their mission is to build a capable workforce that delivers reliable, high-quality service citywide, while creating a sense of belonging.

Dubuque's **Office of Human Rights** ensures that every resident has access to safety, dignity, fairness, and equal opportunity. Going beyond enforcing nondiscrimination laws, the office provides education, outreach, dispute resolution, and guidance that fosters a community where everyone belongs.

The **Information Technology Department** serves as the city's hidden backbone — the "wizard behind the curtain" ensuring systems run smoothly, securely, and reliably. They solve problems before disruptions occur, strengthen cybersecurity, and make digital complexity feel seamless for residents and staff.

The **Carnegie-Stout Public Library**, approaching its 125th anniversary, continues to be a cornerstone of literacy, learning, curiosity, and safe public space. It nurtures psychological, social, and economic wellbeing through accessible resources, programming, and a welcoming environment.

In **Parks & Recreation**, the city is turning community feedback into a decade-long plan to enhance quality of life. The new master plan invites residents to dream, imagine, and collaborate as the department invests in spaces and programs that bring joy, health, and connection.

Planning Services blends data, imagination, and community input to guide how Dubuque grows. Like urban storytellers, they help shape neighborhoods that feel connected and welcoming, ensure development is safe and sustainable, and paint the next strokes of the city's evolving landscape.

The **Police Department** remains committed to disciplined operational excellence, strong partnerships, strategic innovation, and high-quality personnel — all in pursuit of keeping Dubuque as one of the safest places to live in the country.

In **Public Works**, deeply skilled operators, technicians, and field staff maintain the physical backbone of the city. Their work is essential, demanding, and often invisible — from clearing storm drains to maintaining streets to ensuring emergency response is possible. They steward the infrastructure that keeps Dubuque functioning, safe, and resilient.

Sustainability touches every aspect of daily life, from air and water quality to transportation, health, biodiversity, waste, and food systems. The city's sustainability work encourages residents to think broadly about how the community can thrive while protecting long-term environmental health.

The city's transportation system, **The Jule**, connects people to possibility. Every bus route expands access to jobs, education, services, and opportunity. In FY27, The Jule continues its commitment to sustainability and community connection — because when mobility expands, community wellbeing expands with it.

The **Water Department** works with precision and scientific rigor to ensure safe, clean, reliable drinking water. Through extensive daily and monthly testing, they safeguard public health, support essential amenities, and ensure Dubuque meets the highest standards of safety and emergency readiness.

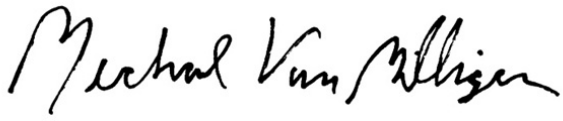
Without the **Finance Department** nothing runs. Managing a $250 million annual budget, paying bills, making payroll, purchasing goods, and keeping employees safe is a big and important job. In addition to financial responsibilities, the Finance Department oversees the implementation of the City's organization-wide safety program. The City is committed to providing a safe and healthy workplace for all employees, and safety is treated as a core value at every level of operations. To strengthen this commitment, the City has established a multi-department safety committee and completed a comprehensive review of all safety policies and procedures to ensure alignment with OSHA standards and best practices.

The **Water & Resource Recovery Center** operates around the clock, using chemistry, biology, engineering, and continual monitoring to protect the environment and public health. Their team blends technical excellence with a commitment to workplace culture, investing in reliability, innovation, and people as they prepare for the future.

Finally, the **City Attorney's Office** and the **City Manager's Office** work closely with the Mayor and City Council to ensure departments have the tools they need to carry out the goals and priorities established by the City Council.

There will be seven City Council special meetings prior to the adoption of the FY 2027 budget before the state-mandated deadline of April 30, 2026. I want to thank Chief Financial Officer Jennifer Larson, Assistant City Manager Cori Burbach, Public Information Officer Randy Gehl, Budget Manager Laura Bendorf, Budget/Financial Analyst Shannon Soppe, Budget/Financial Analyst Nikesh Shah, Budget/Financial Analyst Nathan Kelleher, and Executive Assistant Stephanie Valentine for all their hard work and dedication in preparation of this budget recommendation.

I respectfully recommend Mayor and City Council adoption of the Fiscal Year 2027 Budget recommendation, and I look forward to the multiple public input meetings to come.



Michael C. Van Milligen
City Manager

DIFFERENCES OF FISCAL YEAR 2027 RECOMMENDED BUDGET FROM MAXIMUM PROPERTY TAX DOLLARS RESOLUTION

Tax Asking

The proposed property tax dollars resolution approved by the City Council on March 23, 2026 totaled $31,281,296 (including the debt service levy of $282,630). The recommended tax asking was unchanged from the proposed property tax dollars tax asking.

Property Tax Paid by Average Homeowner

The proposed property tax dollars resolution included a 3.00% increase for the average homeowner property tax payment for the City portion of their property tax bill assuming the Homestead Property Tax Credit is fully funded. The recommendation included in this budget provides a 3.00% increase.

Property Tax Paid by Average Commercial Property

The proposed property tax dollars resolution included a 18.10% increase for the average commercial property owner. The recommendation included in this budget is a 18.10% increase for the average commercial property owner.

Property Tax Paid by Average Industrial Property

The proposed property tax dollars resolution included a 17.88% increase for the average industrial property owner. The recommendation included in this budget is a 17.88% increase for the average industrial property owner.

Tax Rate

The Fiscal Year 2027 “City” portion of the tax rate is being increased by $0.10108 from the Fiscal Year 2026 rate of $10.06372 to a tax rate of $10.16480 per $1,000 of taxable assessed valuation. The proposed property tax dollars resolution established by City Council included a rate of $10.16480. The recommendation included in this budget is a rate of $10.16480 (1.00% more than FY 2026).

MANAGEMENT PHILOSOPHY

Mike Van Milligen
Dubuque City Manager

As a leader, it is my responsibility to not only manage tasks and processes but also to understand and support the emotional well-being of our team members. Emotional intelligence is the cornerstone of effective leadership. Through self-awareness, managing our own emotions, and exercising empathy for ourselves and others, we create a work environment where everyone feels valued and understood. This approach not only fosters collaboration and innovation but also drives long-term success. Let us lead with empathy, nurture a culture of trust, and empower our teams to thrive both personally and professionally.

Dubuque
2007•2012•2013
2017★2019

Dubuque is a **Five-Time All-America City Winner**

ABOUT MIKE

I learned my secrets to success from my parents:

- Work hard
- Have a good attitude
- Be humble and kind
- Make good choices
- Family is all about love and respect

"The conductor of an orchestra does not make a sound. He depends, for his power, on his ability to make other people powerful."

- Benjamin Zander, Conductor, Boston Philharmonic

Guiding Principles

1. Be curious.

Curiosity leads to a culture of learning and continuous improvement for our self and our organization.

- Be approachable and open to the input of others.
- Being curious about various cultural approaches and backgrounds allows us to improve communication, navigate conflict, and helps everyone feel like they belong.
- Strive to continually improve methods, process and policies

2. Be problem solvers.

Team members' approaches to issues should be to focus on what can be done to solve the problem.

- Create processes that allow for creativity and innovation.
- Be willing to ask for help and create a culture that supports risk-taking.
- Adapt decision-making processes to include a variety of voices and communication styles.
- Be data-driven and focus on improving community outcomes for all.

3. Develop Partnerships

Team members can be more effective by developing partnerships with other departments, residents, and other organizations.

- Form teams that capitalize on individuals' strengths.
- Develop shared goals, objectives, and decision-making processes.
- Form partnerships that reflect the variety of backgrounds and interests in the community we serve.

4. Hold each other accountable.

Two-way accountability involves both parties taking personal responsibility for their actions and commitments in a constructive and supportive manner.

- Relationships are built at the speed of trust.
- Self-accountability involves holding ourselves to a high standard and demonstrating the behaviors and characteristics we desire.
- Mutual accountability requires consistent communication, and creates an environment where feedback is welcomed and the team works together towards common objectives.

Dubuque operates under the council-manager form of local government.
The City Council are elected by residents and hold policy-making power. They appoint a professional, non-partisan city manager to oversee the day-to-day operations of the city. The council-manager form of government was adopted by citizen referendum in 1920.

BUDGET PROCESS

This page intentionally left blank.

OVERVIEW OF BUDGETING

INTRODUCTION

The review and adoption of the budget is the single most important thing that a City Council does each year. The budget sets the tempo, capabilities, commitments and direction of the city government for an entire year. It is the yardstick against which the city operations can be evaluated. But what is a budget?

The purpose of this narrative is to identify:

a) what a budget is;

b) why we prepare a budget;

c) alternative types of budgets;

d) major characteristics of the Dubuque budget system; and

e) roles and responsibilities in preparing the annual budget.

WHAT IS A BUDGET?

A budget is several things:

1. The budget is a fiscal plan setting out anticipated revenue and expenditures for accomplishing a variety of services over a given time frame. The fiscal plan includes:

   a) an explanation of the services, activities, programs and projects to be provided by the City to the residents;

   b) the resultant expenditure requirements; and

   c) the resources available for meeting the expenditure requirements.

2. The budget is a process concerned with the allocation of available resources among alternatives and competing departments, activities and programs. Cities rarely have enough money to be able to appropriate all the funds requested to all departments and activities and, as a result, there is considerable competition for whatever money is available. Budgeting, as a process, is concerned with developing an acceptable mix or balance between costs and services and represents the decisions made with respect to:

   a) quality and quantity of activities and projects to be undertaken; and

   b) financing of those activities and projects.

3. The budget is a policy document which:

   a) establishes the authority to spend funds, and levy and collect property taxes;

   b) represents a commitment to provide a specific level of service within a given amount of resources; and establishes criteria (objectives, measures and dollar limits) for evaluating and controlling expenditures, revenue collections and performance. Through the budget, policies are made, put into effect, and controlled.

4. The budget is a legal requirement. State law requires the City Manager to prepare the annual budget and the City Council to adopt the annual budget and certify it to the County Auditor by April 30th of each year preceding the beginning of the fiscal year on July 1st. The budget must be on a program - performance basis and show:

   a) expenditures for each program;

   b) income from sources other than property taxes;

   c) amount to be raised by the property taxation and the property tax rate expressed in dollars per thousand of assessed value; and

   d) comparisons between expenditures in each program and between levels of service.

WHY DO WE BUDGET? WHY IS IT IMPORTANT?

Why do we go through the agony and the work? There are several reasons:

1. To meet the legal requirement.
2. To establish spending and income-raising authority.
3. To establish a work program for the fiscal year (objectives) and present it to the public.
4. To manage and control resources and their use.
5. To assure the proper mix of costs and services.
6. To assure the most effective and efficient use of available resources.
7. To set the tempo and direction of the city government.
8. To prioritize policies and objectives.
9. To link dollars with results.

ALTERNATIVE TYPES OF BUDGETS

Line-Item Budget

The most commonly used budget format in local government today is the line-item budget. A line- item budget is one which allocates money for specific expense items or objects of expenditure without reference to the purpose, activities or program they will serve. This type of budget lists expenditures by such categories as full-time salaries, overtime, office supplies, postage, travel, rental expense, maintenance of buildings and grounds, office furniture and equipment, etc. The principal advantage of a line-item budget is that it is easy to prepare and facilitates expenditure control. However, this form of budget tells very little about the purposes, activities and programs of the city it serves. For example, it shows the amount of money that has been budgeted for personnel, but it does not show the nature of the services such personnel are to provide.

Furthermore, the traditional line-item approach does not show comparative costs and benefits of competing programs, thus making it difficult for the City Council and management to evaluate individual activities and allocate resources. These characteristics limit its usefulness as a device for giving direction and purpose to public service activities and programs.

Program Budget

Local governments usually spend money to accomplish something more than purchasing goods and services. They are also concerned about programs, missions, or functions. A budget organized on the basis of its intended purpose is called a program budget. A program budget allocates money to functions or activities rather than to specific items of costs. A municipal budget of this type lists expenditures for such cost categories as protective services, leisure time opportunities, and administration.

Few, if any, budgets are prepared exclusively on a program basis. Instead, program costs are usually broken into line items.

The primary advantage of a program budget is that it shows the broad goals and purposes for which we are spending money and allows for setting priorities. The disadvantage is that it does not show the level of services that will be produced by the functions for which money has been allocated. This characteristic weakens its value as a tool for managing the quality and quantity of public service programs.

Performance Budgeting

Performance budgeting goes a step further than program budgeting by requiring the breakdown of service into workload or units of performance and the assigning of unit costs. A system of work measurement is used to evaluate productivity and effectiveness.

The principal advantage of the performance type budget is that it shows both the activities of the city and the service levels of those activities and their respective costs. Thus, it can be a useful tool for regulating in a positive way, both the quality and quantity of city services. This characteristic makes the performance type budget the most useful of those types mentioned so far. However, it is also the most difficult to prepare. There are three reasons for this. First, it is difficult to define the units by which the work of the department or an activity or program can be measured. Second, even when the work unit can be defined, it may not be easy to establish a system, which will supply a reliable measure of the work output. And third, it requires much thought and study to establish acceptable service levels for various activities and programs.

Zero Base Budgeting

Traditional budgeting, whether line-item or program-oriented, tends to focus on how much you spent last year as a beginning point for budget preparation. That is to say that it is incremental, it adds an increment on top of last year's spending level generally without challenge and without consideration of alternatives or trade-offs.

Zero Base Budgeting (ZBB) is a system whereby each activity or program, regardless of whether it is a new or existing program, must be justified in its entirety each time a new budget is formulated. Rather than using the previous year's budget as a base, ZBB assumes no base; all activities old and new must be explained and justified each year. The agency starts at zero.

ZBB measures the desirability, need and beneficiaries of services as well as the reasonableness of the proposed costs, alternatives to the activity, and trade-offs between partial achievement of goals and the ability to fund all proposed budget expenditures. ZBB accomplishes this by dividing all the proposed activities or services of the governmental body into units of manageable size, subjecting them to detailed examination, and ranking them according to their importance.

Revenues are matched against the list of services according to their rank. High-priority services are funded first. If money runs out, the low-priority services are not funded.

The characteristics of ZBB can be summarized as follows:

1. Scrutiny of old or existing activities as closely as new or proposed activities;

2. Reallocation of resources from low-priority activities to high-priority activities;

3. Emphasis on alternatives (levels of expenditures and services and methods of providing services); and

4. Allowance for budget reduction or expansion in a planned, logical manner.

Dubuque Budget Approach

The budget system being utilized by the City of Dubuque incorporates aspects of each of the several budget alternative types discussed here. The major characteristics of our budget system are:

1. It has line items for control and fiscal management purposes.

2. It is organized by program, department and fund.

3. It attempts to identify, analyze, and articulate the fundamental purposes and objectives of the Dubuque City government. This approach is intended to place emphasis upon commitments, accomplishments, and activities performed rather than upon items purchased and to provide for the establishment of priorities. It attempts to identify, quantify, and analyze the demands on and accomplishments of organizational units in terms of established goals, objectives, and purposes. Are we achieving our goals and living up to our promises? This requires the establishment of workload and demand indicators and evaluation criterion. It is performance that counts.

4. It attempts to identify all costs of each department, activity, and program, including capital expenditure, debt service, and employee benefit costs. What does an activity or department really cost?

5. It presents alternative service and funding levels for all activities in the operating budget. The purpose is to provide the City Council with the widest possible range of alternatives to maximize their opportunity for making policy decisions, assigning priorities and allocating scarce resources to accomplish their policy objectives.

   The City's budget approach involves the preparation of three budget documents. **The Policy Budget,** the **Capital Improvement Program (CIP) Budget**, and the **Resident's Guide**.

   The Policy Budget includes the City department detail, by defining goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted. The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

   The Capital Improvement Program (CIP) Budget represents the City of Dubuque's five year physical development effort, attempts to address a variety of needs, which the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP Budget reflects the City's comprehensive plan and the goals and priorities established by the City Council. The first year of the five-year CIP Budget goes into the budget for the next year and deserves the most attention. The CIP Budget is updated each year so that City Council has the opportunity to change the next four years and add a new year.

   The Resident's Guide pulls the entire budget together through visuals, narratives and summaries. It explains the budget, provides revenue, expenditure and personnel summaries and provides the City Council vision, goals and priorities on which the budget is based.

ROLES AND RESPONSIBILITIES

Budget preparation and administration is a shared responsibility between the City Council, City Manager, Finance Department, department manager, division manager, and supervisor. Each plays an important role in the fiscal management system and the quality of and satisfaction derived from the fiscal management system is a direct result of the efforts of the several participants. Lack of attention, failure to follow procedures and/or poor follow through at any level can undermine the best fiscal management system.

Let's look at the roles each plays.

City Council

In a very real sense, budget preparation and administration begins and ends with the City Council. The City Council has the following responsibilities:

1. Establish City goals and major performance objectives.
2. Approve guidelines for preparing the annual operating budget.
3. Establish through adoption of an annual budget what services and the level of services to be provided and how they will be financed.
4. Establish rules for the conduct of the City's fiscal operations.
5. Monitor progress toward achievement of objectives.
6. Require independent audit of fiscal records and transactions.

The City Manager

The City Manager is responsible to the City Council for the day-to-day operation and administration of the City government. In terms of fiscal management, the City Manager has the following responsibilities:

1. Develop policy guidelines for City Council review and adoption.
2. Develop Maximum Property Tax Levy Resolution for City Council review and adoption.
3. Prepare and submit an annual operating budget and a five-year Capital Improvement Budget premised upon Council guidelines and goals and major performance objectives.
4. Ensure the adopted budget is properly administered.
5. Supervise the performance of all contracts for work to be done by the City. Authorize and direct the purchase of all supplies and materials used by the City.
6. Keep Council fully advised on financial conditions of the City.
7. Establish rules for conduct of fiscal operations for which they are responsible.

Finance Department

The Finance Department becomes an extension of the City Manager's Office for purposes of performing the delegated responsibilities. The responsibilities of the Finance Department include the following:

1. Administer the approved budget on a day-to-day basis to see that funds are being expended for the purposes approved and that all claims are supported by proper documentation.
2. Supervise sale of bond issues.
3. Administer centralized payroll system.
4. Administer decentralized purchase order system.
5. Assist the City Manager’s Office in preparing the budget.

Department Managers, Division Managers, and Supervisors

The critical role in the fiscal management system is performed by department managers and their division managers and supervisors. The fiscal management system will be only as good as they make it. Their role includes:

1. Responsibility for the efficient and effective operation of the activities and tasks under their direction. Line supervisors are expected to control costs and achieve results.
2. Responsibility for preparation of budget requests, which emphasize objectives and service levels as well as traditional line item explanations and justifications for various funding levels and development of measures for evaluating progress toward objectives. What is the level of accomplishment, which can be expected from various funding levels, and how do we measure it? It is absolutely essential in our approach to budget preparation that accomplishments, objectives, and estimated costs be established by those in the organization who know the most about it and can be held accountable. Those are the department managers and their division managers and supervisors.
3. Responsibility for recommending and explaining needs and opportunities for service changes; reductions as well as expansions.
4. Responsibility for providing the planned and approved service level within budget limitations.
5. Responsibility for day-to-day department and activity budget administration.

BUDGET CYCLE

The budget cycle is a sequence of events covering the life of a budget from beginning to end; from the City Manager's review of prior year accomplishments and future initiatives, to the City Council approval of the final budget amendment. The budget cycle is approximately twelve months long. The critical dates are spelled out in State law: April 30th is when the budget for the following fiscal year must be adopted by the City Council; and July 1st as the beginning of the fiscal year. Throughout the entire budget cycle, public input is encouraged to insure the adopted budget is resident-based. The budget cycle can be summarized as follows:

SPRING	**City Council** formulates negotiation strategy for collective bargaining.
JULY - AUGUST	**City Manager** recommends budget carryover amendment for City Council approval at a public hearing. **City Manager,** along with Department Managers, review fiscal year accomplishments and identify future initiatives for City Council consideration during goal setting.
SEPTEMBER - OCTOBER	**City Council** holds 2-day goal setting to develop Vision and Mission statements, identify 5 year goals and establish Policy agenda including Top Priorities for upcoming fiscal year and Management Agenda/ special projects.
SEPTEMBER OCTOBER	**City departments** prepare Capital Improvement project information and budget requests for review by City Manager.
OCTOBER NOVEMBER DECEMBER	**City departments** prepare operating budget and other budget requests for review by City Manager. **City Manager** holds Public Input meetings to review issues and priorities for the capital budget and the operating budget.
JANUARY FEBRUARY	**City Manager, Chief Financial Officer, and Budget Manager** analyze, review and balance capital and operating budget requests and prepare final budget recommendation.
MARCH	**City Manager** presents draft Policy guidelines and Maximum Property Tax Resolution to City Council for City Council approval.
MARCH APRIL	**City Council** holds public meetings to review recommended budget by department. Meetings are held in the evening and are available for live viewing on City Channel Dubuque.
APRIL	**City Council** holds final public hearing on the recommended budget. The meeting is held in the evening and is available for live viewing on City Channel Dubuque. **City Council** adopts budget and city staff certifies budget by April 30 in compliance with State law.
APRIL MAY	**Budget Manager** reviews budgeted revenues and expenses and recommends adjustments to more accurately reflect the anticipated revenues and expenses for the fiscal year ending June 30. **City Council** reviews and approves an amended fiscal year budget and city staff certifies the budget amendments by May 31 in compliance with State law.

BUDGET AMENDMENT PROCESS

Budget estimates may be amended and increased as the need arises to permit appropriation and expenditure of unexpended cash balances on hand and unanticipated revenues. Such amendment may be considered and adopted at any time during the fiscal year covered by the budget (but prior to May 31) by filing the amendments and upon publishing them and giving notice of the public hearing in the manner required in the State Code. Within ten days of the decision or order of the City Council, the proposed amendment of the budget is subject to protest, hearing on the protest, appeal to the state appeal board, and review by that body. A local budget must be amended by May 31 of the current fiscal year-to allow time for a protest hearing to be held and a decision to be rendered before June 30.

Except as specifically provided elsewhere in the Iowa Administrative Code rules, all appropriation transfers between programs or funds are budget amendments and shall be prepared as provided in Iowa Code section 384.16. The program reference means any one of the following nine major areas of public service that the City Finance Committee requires cities in Iowa to use in defining its program structure: Public Safety, Public Works, Health & Social Services, Culture & Recreation, Community & Economic Development, General Government, Debt Service/Capital Improvement Projects, Business Type, and Non-Program.

BUDGET ACCOUNTING BASIS

The operating budget of the City of Dubuque is written so that available resources and anticipated expenditures are equal. The City's accounting and budget records for general governmental operations are maintained on a modified accrual basis, with the revenue being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities incurred. Accounting records for the Enterprise and Internal Service Funds are maintained on the accrual basis, while the budget records are maintained on the modified accrual basis.

Differences between budgetary policies and Generally Accepted Accounting Principles (GAAP) in the Enterprise and Internal Service Funds exist for several reasons. One reason is that existing procedures have worked well and continue to work well for administrative and control purposes. Some other reasons for differences between budget and GAAP are the treatment of interfund transfers, departmental capital outlay, debt service principal payments, and depreciation. The City's budgeting practices include interfund transfers as revenue and expenditures, while GAAP classifies interfund transactions as other financing sources and uses. Also City management desires an operating statement budget line item for each anticipated cash outflow, including debt service and capital outlay. If the City budgeted the enterprise funds on a full accrual basis, capital outlay and debt service payments would not be reported in the operating statement.

Depreciation expense, which is recognized in the accounting records, is not budgeted. Not providing for depreciation in the budget is a policy decision that has not adversely affected the funds.

FUND ACCOUNTING BASIS

The accounts of the City are organized on the basis of funds and groups of accounts, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, equities, revenues and expenditures or expenses.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Employee Benefits Fund* is used to account for pension and related employee benefit costs for those employees paid wages from the General Fund.

The *Community Development Fund* is used to account for the use of Community Development Block Grant funds as received from federal and state governmental agencies.

The *Street Construction Fund* is used to account for the resources and costs related to street capital improvements.

The *General Construction Fund* is used to account for the resources and costs related to nonassignable capital improvements.

The City reports the following major proprietary funds:

The *Sewage Disposal Works Fund* is used to account for the operations of the City's sewage disposal works and services.

The *Water Utility Fund* is used to account for the operations of the City's water facilities and services.

The *Stormwater Utility Fund* is used to account for the operations of the City's stormwater services.

The *Parking Facilities Fund* is used to account for the operations of the City-owned parking ramps and other parking facilities.

The *America's River Project* is used to account for the construction of all projects covered by the Vision Iowa Grant, including all matching funds.

The City reports the following non-major governmental funds:

Airport Construction Fund - This fund is used to account for the resources and costs related to airport capital improvements.

Sales Tax Construction Fund - This fund is used to account for the resources and costs related to capital improvements financed through the local option sales tax.

Road Use Tax Fund - This fund is used to account for state revenues allocated to the City for maintenance and improvement of City streets.

Section VIII Housing Fund - This fund is used to account for the operations of federal Section VIII existing, voucher, and moderate rehabilitation projects.

Tort Liability Fund - This fund is used to collect a special property tax levy which is then transferred to the General Fund. The General Fund accounts for the administration and payment of damage claims against the City.

Special Assessments Fund - This fund is used to account for the financing of public improvements that are deemed to benefit primarily the properties against which special assessments are levied and to accumulate monies for the payment of principal and interest on the outstanding long-term debt service.

Tax Increment Financing Fund - This fund is used to account for the receipt of property taxes, for the payment of projects within the tax increment financing district, and for the payment of remaining principal and interest costs on the tax increment financing districts' long-term debt service.

Cable TV Fund - This fund is used to account for the monies and related costs as set forth in the cable franchise agreement between the City of Dubuque and the cable franchisee.

Library Expendable Gifts Trust - This fund is used to account for contributions given to the library to be spent for specific purposes.

IFA Housing Trust - This fund is used to account for funds received under the Iowa Finance Authority State Housing Trust Fund Program.

Debt service fund – This fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Ella Lyons Peony Trail Trust Fund - This fund is used for dividends and maintenance cost related to the City Peony Trail, per trust agreement.

Library Gifts Trust Fund - This fund is used to account for testamentary gifts to the City.

The City reports the following non-major proprietary funds:

Refuse Collection Fund - This fund is used to account for the operations of the City's refuse collection services.

Transit System Fund - This fund is used to account for the operations of the City's bus and other transit services.

Governmental Fund Types (Budgetary)

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position. The following are the City's governmental fund types:

- **The General Fund** is the principal operating fund of the City and accounts for all financial transactions not accounted for in other funds. The general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are financed through revenues received by the General Fund.
- **Special Revenue Funds** are used to account for revenues derived from specific taxes, governmental grants, or other revenue sources, which are restricted to finance particular functions or activities of the City. The City's special revenue funds include such funds as Road Use Tax, Community Development, UDAG Repayments, Section 8 Housing, Lead Paint Grant, State Rental Rehab, Cable TV, Special Assessment, Expendable Library Gifts Trust, Tort Liability, Employee Benefits, and TIF funds.
- **Debt Service Funds** are used to account for the accumulation of resources for, and the payment of, principal, interest, and other related costs of the City's general obligation debt. The City uses this fund to pay some of the debt service paid from other funds with the revenue transferred in.

- **Permanent Funds** are used to account for resources that are legally restricted to the extent that only the earnings, and not principal, may be used for purposes that support the reporting of governmental programs. The City's permanent funds include: Lyons Peony Trust and Library Gifts Trusts.
- **Capital Improvement Funds** are used to account for financial resources segregated for the acquisition or construction of major capital facilities. (Even if a capital project fund is used, not all capital acquisitions need be accounted for in the fund). For example, the routine purchases of capitalizable items (e.g., police vehicles, copy equipment) are typically budgeted and reported in the General Fund or other governmental fund.

Proprietary Fund Types (Budgetary)

The City also has proprietary fund types, which are different from governmental fund types in that their focus is on the determination of net income or loss. The revenue from these funds is assumed to be adequate to fund the operation of the funds. The City's proprietary funds are as follows:

- **Enterprise Funds** are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through use charges or where the periodic determination of net income or loss is deemed appropriate. The City's enterprise funds include Water, Sewer, Stormwater, Refuse/Solid Waste, Transit, Parking and America's River Project.
- The **Internal Service Fund** accounts for the financing of goods and/or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost reimbursement basis. The City's Internal Service Funds include Engineering Service, Garage Service, General Service and Stores/Printing.

Self-Insurance Funds (Non-Budgetary)

- The **Self Insurance Funds** are considered Internal Service Funds, are not budgeted, but are summarized in the audited financial statements. These include Health Insurance Reserve and Workers' Compensation Insurance Reserve.

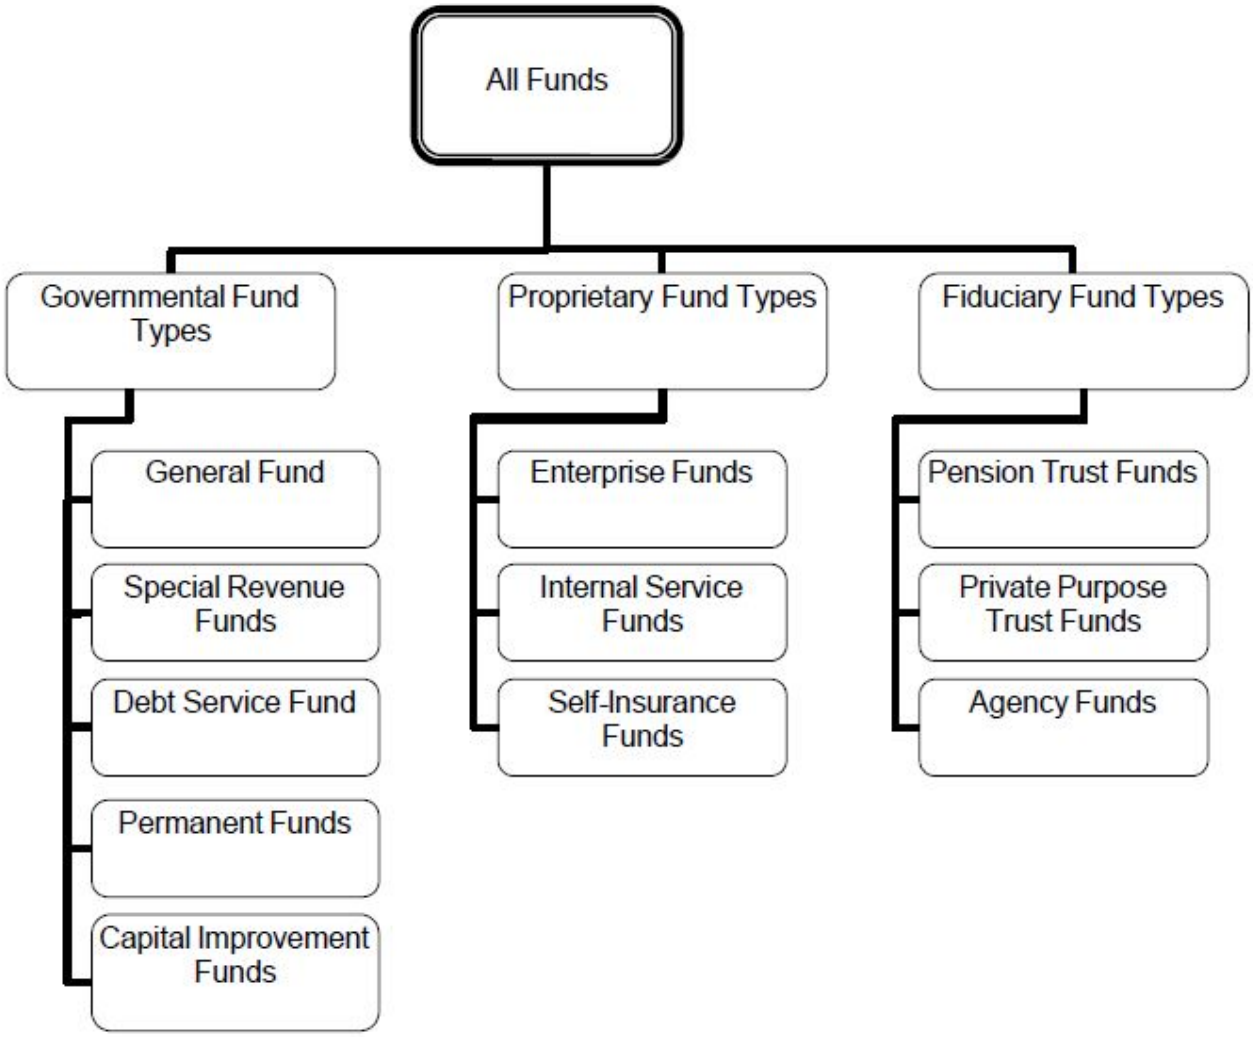
Fiduciary Fund Types (Non-Budgetary)

The City also has fiduciary fund types, which account for assets in a trustee or custodial capacity:

- **Pension Trust Funds** account for assets of pension plans held by a government in a trustee capacity. The City of Dubuque has no such funds.
- **Private Purpose Trust Funds** account for trust arrangements, including those for escheat property, where principal and income benefit individuals, private organizations, or other governments. The major use of private purpose funds is for escheat property. The City has no such funds.
- **Agency Funds** account for those assets held solely in a custodial capacity by the City as an agent for individuals, private organizations, other governmental units, and/or other funds. The City's Agency Funds include the Cable Equipment Fund (monies received from Mediacom through the Cable Franchise Agreement for distribution), and the Dubuque Metropolitan Area Solid Waste Agency General and DNR Planning. These funds are not budgeted.

FUND - DEPARTMENT RELATIONSHIP

The various funds are grouped by type in the budget. The following fund types are used by the City:



The following table shows each City department and its associated funds.

		Special Revenue																Construction						Enterprise									Internal Service				Perm-anent		Debt

KEY TERMS FOR UNDERSTANDING DUBUQUE'S BUDGET

Program

Programs are presented as general statements, which define a major purpose of City government. Each program is divided into several departments and activities representing a separate and significant segment of the program of which it is an integral part. The state budget law requires that the budget be certified on a program basis. The City of Dubuque uses the following nine programs:

1. **Public Safety:** Police Department, Emergency Communication Center, Fire Department, Disaster Services, Health Services-Animal Control activity, Public Works-Flood Control activity, Building Services-Inspection activities.
2. **Public Works:** Airport Department, Public Works Department, Engineering Department.
3. **Health and Social Services:** Human Rights Department, Health Services Department, Purchase of Services.
4. **Culture and Recreation:** Parks Division, Recreation Division, Ice Center Division, Civic Center Division, Conference Center, Library Department, Economic Development-Arts and Cultural Affairs activity.
5. **Community and Economic Development:** Economic Development Department, Housing and Community Development Department, Planning Services, Purchase of Services, Community Impact-Neighborhood Development activity.
6. **General Government:** Building Services-City Hall/Annex Maintenance, City Council, City Manager, City Clerk, Finance Department, Cable TV Division, City Attorney Department, Information Technology Department.
7. **Debt Service** and **Capital Projects** in programs 1-6 for governmental funds.
8. **Business Type (includes business type operating, capital and debt service):** Water Department, Water Resources and Recovery Department, Parking Division, Transit Division, Public Works-Landfill activities and Garage internal service fund activities, Engineering-Sewer and Stormwater activities, Finance-Utility Meter Reads activity and Stores internal service fund activities.
9. **Non-Program:** City Manager-Health and Worker's Compensation Insurance Reserve fund activities and Public Works-Dubuque Metropolitan Area Solid Waste activities.

* Prior to Fiscal Year 2004, the State of Iowa, City Finance Committee changed the number of programs from 4 to 9 on the expenditure side.

Operating Budget

The Operating Budget represents the various recurring activities and services provided by the several departments in the City government. The Operating Budget provides those services normally associated with the City government (e.g., police, fire, street maintenance, recreation) and involves expenditures which benefit the current fiscal year. (That is, items purchased are used up during the current fiscal period.) Expenditures in the Operating Budget are for such categories as Employee Expense, Supplies and Services, and Debt Service. Funding of the Operating Budget includes property taxes, shared state and federal revenues, fees, fines, licenses, permits, user charges and cash balances.

Capital Budget

The Capital Budget represents major "permanent" capital improvement projects requiring the nonrecurring expenditures of public funds for the acquisition of property or easement, construction, renovation or replacement of a physical asset of the City and any studies, engineering or surveys which are an integral part thereof. The Capital Budget is multi-year in scope, is updated annually and includes project-funding information. The first year of the Capital Budget (or Capital Improvement Program) is included with the Operating Budget for the same year to arrive at a total or gross budget amount. Capital budget financing comes primarily from bond proceeds, state and federal grants, Road Use Tax funds, Dubuque Racing Association profit distribution, and utility depreciation funds.

Expenditure Category

Expenditure category or classification is the basis for classifying and codifying costs. Categories of expense include: (a) Employee Expense; (b) Supplies and Services; (c) Capital Outlay (Machinery and Equipment); (d) Debt Service; and (e) Capital Improvements. Categories of expense consist of various expense accounts. For example, Employee Expense is divided into expense accounts such as full-time, part-time & seasonal employees, overtime pay, holiday pay, social security expense and health insurance. Supplies and Services include accounts such as postage, telephone expense, office supplies, dues and memberships, utility expense - electricity, motor vehicle expense - fuel, library books, and architectural services.

Revenue Category

Revenue category or classification is a basis for classifying and codifying revenue. There are eight major categories or revenue, each divided into specific revenue items.

The eight major categories of revenue are as follows:

1. Taxes
2. Licenses and permits
3. Use of Money and Property
4. Intergovernmental Revenue
5. Charges for services
6. Special Assessments
7. Miscellaneous Revenue
8. Other Financing Sources

An example of the specific revenue items would include the following items in the licenses and permits revenue category: business licenses, cigarette licenses, beer permits, building permits, plumbing permits, heating permits, etc.

Alternative Budget Levels

The Dubuque budget system utilizes a variation of the zero-based budget (ZBB) approach utilizing three alternative funding or budget levels: Maintenance Budget Level, Base Budget Level and Improvement Level.

Each alternative funding level includes specific objectives to be accomplished (service levels to be offered) and associated costs. The budget decision becomes one of selecting alternatives, which maximize the achievements of City objectives according to established priorities within the context of limited resources and City Council policy.

BUDGET IN BRIEF

This page intentionally left blank.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

BUDGET IN BRIEF

The City Council will approve the fiscal year 2027 operating and capital budgets on April 28, 2026. The recommended FY 27 budget is balanced and includes a 3.00% property tax increase to the average homeowner for the City portion of their taxes.

The keys to the City of Dubuque's financial success include a continued growth in assessed property valuation (5.89% in FY 27); efficient operation with a 16.18% increase in the City's workforce since the 1980's; increased use of Federal and State grants; diversified revenue streams; minimal property tax supported debt; increased public and private partnerships; entrepreneurial City Council policy decisions; and caring residents, committed elected officials, hard-working not-for-profits, and talented city employees.

The City's five-year capital improvement plan (CIP) continues to allocate funding for the maintenance and refurbishment of city facilities. The approved five-year CIP totals $352,840,562.

This budget in brief is intended to provide the residents of Dubuque with an overview of the approved operating and capital budgets. Throughout this document, you will find highlighted sections noting the location of detailed information in the approved budget document. Detailed information related to the approved budget can also be found on the City's website at www.cityofdubuque.org.

Fee Increases for Fiscal Year 2027

Various fee increases will be implemented beginning on July 1, 2026. These fee increases are intended to provide additional revenues to maintain and expand the level of service in various areas. The following is a summary of the increased fees:

Water, Sewer, & Stormwater Increases - Fee increases for water, sewer, and stormwater will be effective July 1, 2026: sewer rates will increase by $2.88 per month for an average residential customer, water rates will increase by $0.67 per month for an average residential customer; solid waste collection rates will increase by $1.63 per month for an average residential customer; and stormwater rates will increase $0.99 per month per standard family unit (SFU) equivalent.

Recreation Fee Increases - Annual golf fee increases/decreases to maintain 100% self-support guideline $50 increase to the season cart passes.

City Clerk Fee Increases - Increase multiple business license and permit fees to accurately reflect the cost of providing service.

FY27 RECOMMENDED BUDGET

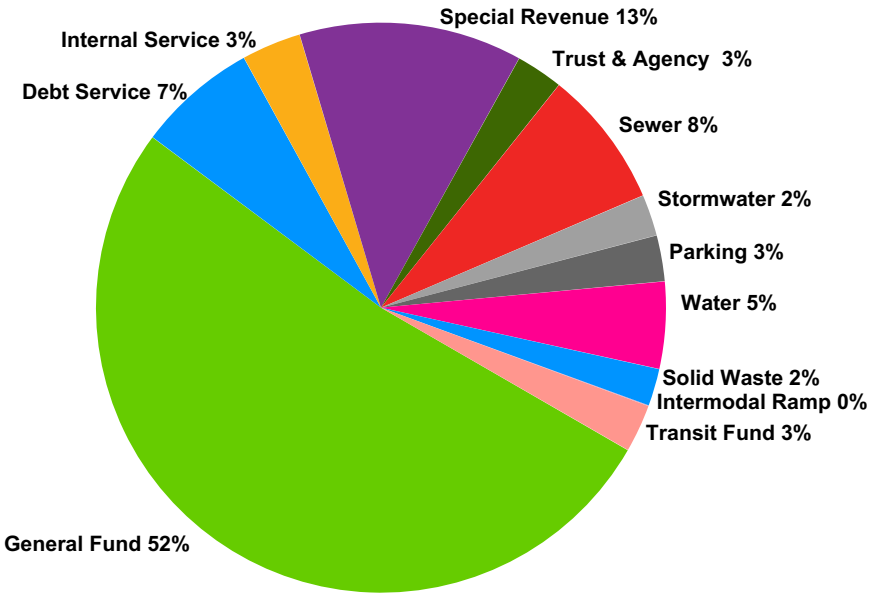
The City's recommended budget provides estimated revenues and expenditures for programs and services to be provided during the fiscal year from July 1, 2026 through June 30, 2027. A separate capital budget includes appropriations for infrastructure related to projects, such as roads, buildings, and equipment that may require more than one fiscal year to complete or to acquire.

OPERATING & CAPITAL BUDGET SUMMARY					
OPERATING	$	184,630,982	CAPITAL	$	80,633,738
General Fund	$	95,693,628	General Fund	$	776,154
Special Revenue Funds	$	23,379,614	Special Revenue Funds	$	4,460,468
Debt Service Fund	$	12,584,115	Capital Projects Funds	$	32,698,414
Enterprise Funds	$	41,842,039	Enterprise Funds	$	40,932,571
Internal Service Funds	$	6,204,411	Internal Service Funds	$	286,950
Trust & Agency Funds	$	4,927,175	Trust & Agency Funds	$	1,479,181

APPROPRIATED BUDGET BY FUND

The City's total appropriated operating budget of $184.6 million is made up of the general, special revenue, debt service, enterprise, internal service, and trust and agency funds. A complete self-contained budget, including both revenues and expenses, is prepared for each of these funds.

FY27 Operating Appropriations by Fund



Transfers from one fund to another, such as a transfer from the general fund to a capital project fund to offset costs of a capital project, are shown as an expense (or transfer) for the entity fund providing the funding and as revenue to the fund receiving the transfer. In order to determine the actual amount of expenditures authorized by the budget, the transfer amount must be excluded.

All funds are balanced in fiscal year 2027. The City's general fund is balanced in fiscal year 2027.

Utility funds are balanced in fiscal year 2027 as a result of rate increases.

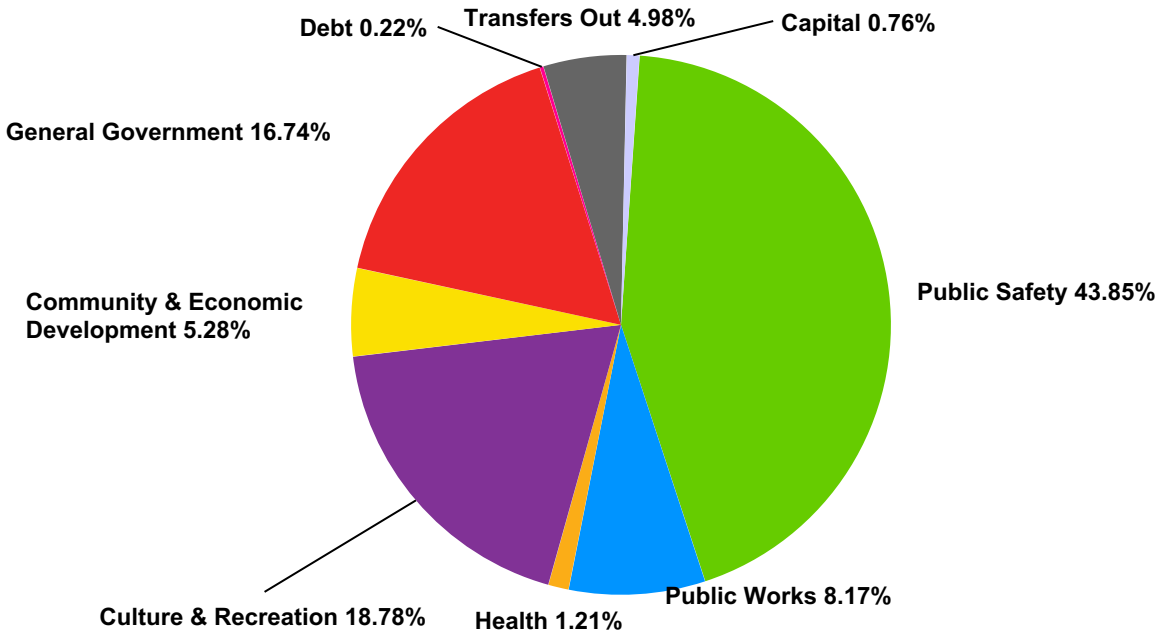
For additional information on the amount of funding included for each fund, total funding by department, and detailed information on reserves, see the Financial Summaries section.

How General Fund Money is Spent

The general fund is the operating fund of the City for general service departments. The general fund has an operating budget of $95.7 million and a capital budget of $0.8 million. This fund encompasses the bulk of activities that are traditionally considered basic governmental services such as public safety, culture & recreation, health & social services, and general government.

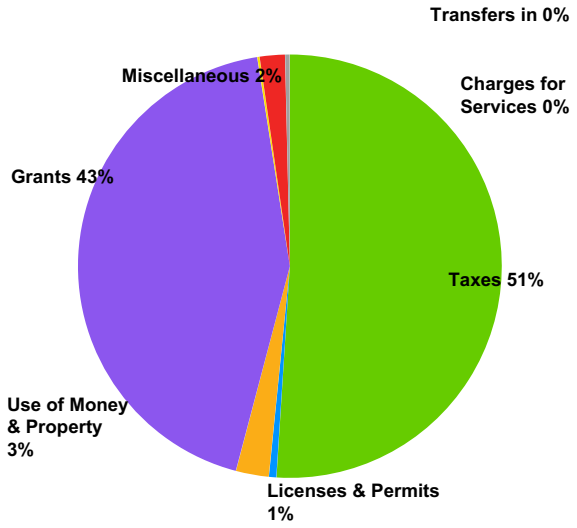
43.8 %	PUBLIC SAFETY	(animal control, building inspections, crime prevention, emergency management, flood control, fire, police, etc.)
18.8 %	CULTURE & RECREATION	(AmeriCorps, arts & cultural affairs, civic center, conference center, library, marina, parks, recreation, etc.)
16.7 %	GENERAL GOVERNMENT	(city attorney & legal services, city clerk, city council, city hall & general buildings, city manager, finance, information technology, etc.)
8.2 %	PUBLIC WORKS	(airport, maintenance of streets, bridges, and sidewalks, snow removal, street cleaning, street lighting, traffic control, etc.)
5.3 %	COMMUNITY & ECONOMIC DEVELOPMENT	(economic development, housing and community development, neighborhood development, planning and zoning, etc.)
5.0 %	TRANSFERS OUT	(to funds other than General Fund)
0.8 %	CAPITAL PROJECTS	(City infrastructure improvements or major equipment purchases)
1.2 %	HEALTH & SOCIAL SERVICES	(community health, health regulation and inspection, human rights, etc.)
0.2 %	DEBT SERVICE	(government capital projects, tax-increment financing [TIF] capital projects)

FY27
How General Fund Money is Spent

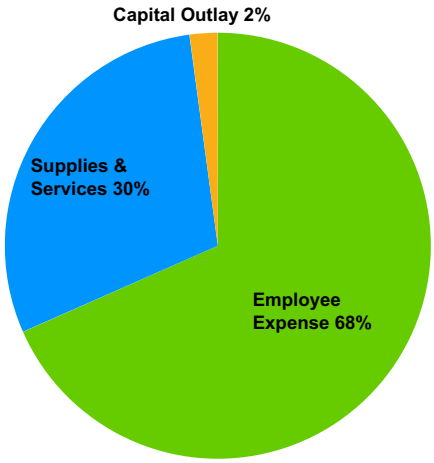


GENERAL FUND REVENUE & EXPENDITURES

General Fund Operating Sources



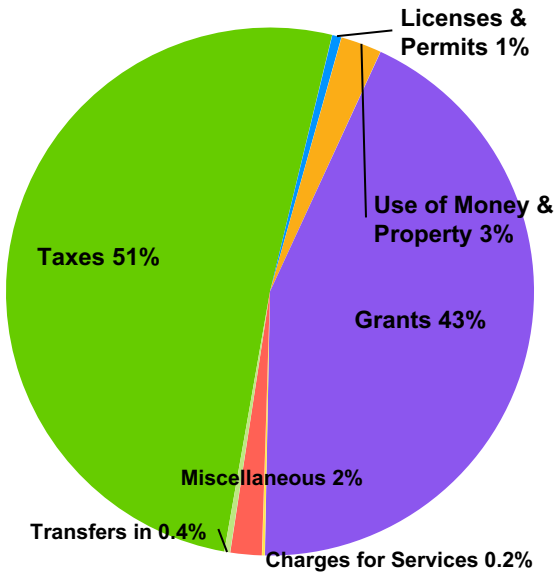
General Fund Operating Uses



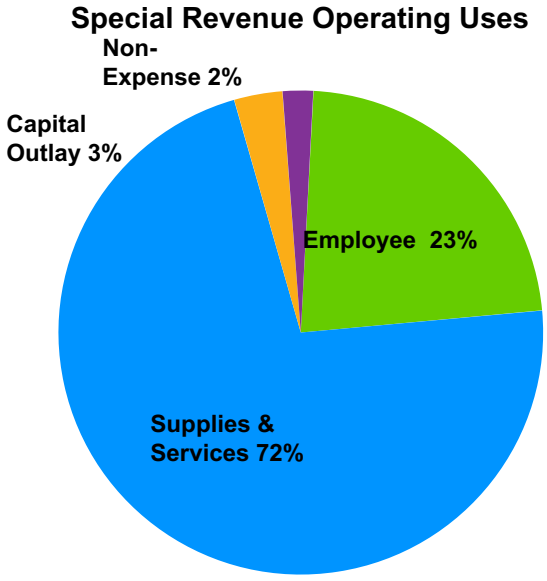
SPECIAL REVENUE FUNDS

The special revenue funds have an operating budget of $23.4 million and a capital budget of $4.5 million. Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The City's special revenue funds include: Employee Benefits; Community Development; Road Use Tax; Section 8 Housing; Tort Liability; Special Assessments; Tax Increment Financing; HUD Disaster Relief; Housing Trust; Cable TV; and Library Expendable Gifts.

Special Revenue Operating Sources



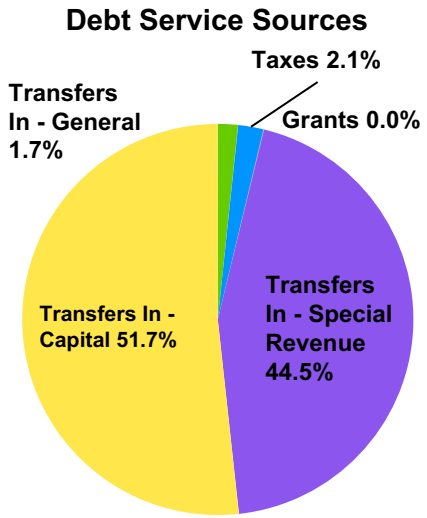
Special Revenue Operating Uses

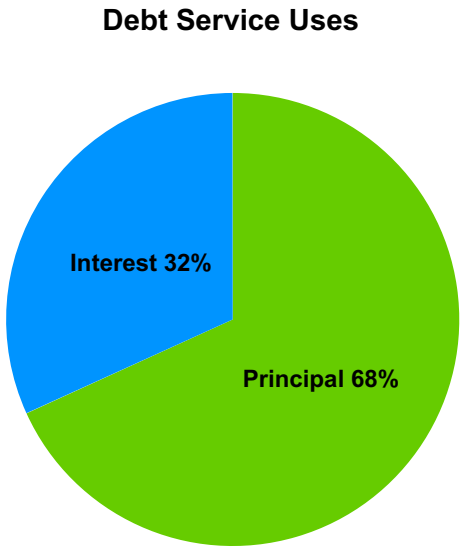


Special Revenue Funds budgets are shown in the Financial Summaries section.

DEBT SERVICE FUND

The debt service fund has an operating budget of $12.6 million. The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.





Additional information on the Debt Service Fund is shown in the Debt Summaries section.

ENTERPRISE FUNDS

Enterprise funds are expected to be self-supporting and expected to be funded entirely from user fees for services. Except for Transit, no tax revenues are used for these activities in the FY 2027 budget. A transfer from the general fund to the Transit fund is budgeted to fund transit operations in the City. Each utility transfers revenue to the general fund for general government services. Transfers from the utilities in FY 2027 to support general government services total $10,429,057.

- Sewer Utility $2,468,674
- Stormwater Utility $2,325,790
- Parking $390,583
- Water Utility $2,468,673
- Solid Waste $2,031,622
- Landfill $743,715

Enterprise Funds budgets are shown in the Financial Summaries section.

INTERNAL SERVICE FUNDS

Internal service funds provide goods or services to other department within the City, with full costs to be recovered. An example of this would be the City's Garage Service. These expenses are included in both the department budget providing the service, as well as in the budget of the department receiving the service. To avoid double counting, the appropriated budget includes only the budgets for the departments receiving internal services (Engineering Service $2,555,457 and Garage Service $3,648,954).

STAFFING CHANGES

The City of Dubuque has 795.44 (FTE) employees budgeted in FY 2027. This represents a net increase of 19.58 FTE's from FY 2026. Since 1981, the city has minimized the number of positions added. The recommended budget provides funding for a net increase of 19.58 FTE's related to general fund departments. Funding has been changes to include the following changes to FTE's:

- Airport had the following changes: removed one part-time Laborer (-0.23 FTE) and one part-time custodian (-0.68 FTE).
- The City Attorney's Office had the following changes: removed full-time Civil Rights Specialist (-1.00 FTE), full-time Paralegal (-1.00 FTE), and full-time Legal Administrative Assistant (-1.00 FTE). Added full-time Assistant City Attorney I (+1.00 FTE), full-time Administrative Support Professional (+1.00 FTE), and full-time Lead Administrative Support Professional (+1.00 FTE).
- The Communications Office had the following change: removed the Geographic Information Systems (GIS) division (-2.25 FTE).
- Community Impact added one full-time Community Engagement Coordinator (+1.00 FTE), one part-time Program Member Support (+0.50 FTE) and added one limited term, full-time Economic Mobility Opportunity Specialist (+1.00 FTE).
- Economic Development eliminated one Economic Development Intern (-0.25 FTE).
- Office of Economic Mobility had the following changes: removed one full-time Director of Economic Mobility (-1.00 FTE), one full-time Data Analyst (-1.00 FTE), one full-time Community Engagement Coordinator (-1.00 FTE), and one full-time Administrative Support Professional (-1.00 FTE).
- Engineering had the following changes: added three full-time Traffic Signal Technicians (+3.00 FTE) and one full-time Engineering Technician (+1.00 FTE). Removed OSHA Intern (-0.25 FTE) and Architect Intern (-0.50 FTE) positions.
- Fire added nine full-time Firefighter/Paramedic (+14.00 FTE) positions.
- Finance added two part-time Purchasing & Safety Interns (+0.80 FTE) positions.
- Health Services had the following changes: removed one full-time Environmental Sanitarian (-1.00 FTE) and added one full-time Lead Environmental Sanitarian (+1.00 FTE).
- The Housing department added one limited-term full-time Housing Inspector (+1.00 FTE), one full-time Grants Supervisor (+1.00 FTE) and one full-time Administrative Support Professional (+1.00 FTE).

- The Human Resources Department had the following changes: added a full-time Human Resources Employment Specialist (+1.00 FTE) and removed a part-time Human Resources Employment Specialist (-0.75 FTE).
- The Information Technology department had the following changes: added one full-time Data Analyst (+1.00 FTE), Geographic Information division (+2.25 FTE), and one full-time Administrative Support Professional (+1.00 FTE).
- Parks division added one full-time Environmental Justice Tree Coordinator (+1.00 FTE) and two full-time Maintenance Technicians (+2.00 FTE).
- Parking had the following changes: reduced Parking Revenue Collector (-0.23 FTE), removed a part-time Parking Enforcement Officer (-0.50 FTE) and added a part-time Custodian (+0.15 FTE).
- Police eliminated a part-time Records Clerk (-0.54 FTE) position.
- The Public Works department removed three full-time Traffic Signal Technicians (-3.00 FTE).
- Recreation eliminated temporary Recreation Leader and Coordinator (-0.58 FTE) positions.
- The Transit division reduced part-time Bus Operators (-0.75 FTE) and added a part-time Bus Attendant (+0.50 FTE).
- The Water & Resource Recovery Center had the following changes: added an Engineering Intern (+.40 FTE) through the FY 2026 budget process and added a temporary increase in Equipment Mechanics (+0.08 FTE).

Total FTE's FY 2026	**775.86**

HOW IS THE BUDGET FUNDED?

Property Taxes

General fund, transit, payroll benefit costs, and general liability insurance expenses are supported by property tax dollars. The property tax rate for fiscal year 2027 is $10.16480 per $1,000 of taxable valuation. It is estimated that a total of $31,940,934 will be received from property taxes in FY 2027. This is increase from fiscal year 2026. For FY 2027 there is a 3.00% or $26.67 property tax increase for the City portion of property taxes paid by the average homeowner.

Other Taxes

Other taxes that the City collects include local option sales tax, hotel/motel tax, and tax on agricultural land. In 2027, approximately $12,540,866 will be received in local option sales tax. This decreased (2.83)% under FY 2026. Of this amount, 50% is for property tax relief ($6,372,758), 20% is for City facilities maintenance ($2,549,103), and 30% is for special assessment relief ($3,823,655). In 2027 approximately $3,513,001 will be received in hotel/motel tax. By resolution, 50% of this amount is to be used for promotion and encouragement of tourism and convention business and the remaining 50% goes into the General Fund for property tax relief.

Licenses and Permits

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous. The City estimates $4,706,776 in licenses and permits in FY 2027. Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas & 5% electric). The FY 2027 projection for cable franchise fees is $256,734 and utility franchise fee projection is $7,102,341. The utility franchise fees are all used for property tax relief.

Use of Money and Property

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue, which is estimated at $21,265,760 in FY 2027. The gaming related leases generate the most revenue. The lease with the Dubuque Racing Association (DRA) includes collection of 1.5% of coin-in (1% prior to 1/1/22), 4.8% of gross revenue from table games, 0.5% of sports wagering, and a distribution of profit from the DRA of 50%. Diamond Jo also pays a parking lease. City Council's policy is to use 100% of the DRA distribution of profit to support the Capital Improvement Budget and the total received from DRA operating and taxes is split 100% for property tax relief and —% for capital projects. Gaming leases are projected to be $7,079,186 in FY 2027. Riverfront leases are expected to generate $4,374,313 in FY 2027.

Intergovernmental Revenue

Intergovernmental revenues are projected to decrease (5.14)% from FY 2026. The city is estimated to receive $53,729,895 in Federal and State grants, State Road Use Tax Funds, and County Contributions. Prior years included large increases due to American Rescue Plan Act Funds.

Charges for Services

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, Transit, Parking and Landfill. Rate increases have been incorporated into all utilities (as shown on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising, additional capital projects to support additional debt service and to meet revenue bond covenants. Utility charges are projected to be $48,776,628. Other charges for services include copy charges, sales of maps and publications, street, sidewalk, and curb repairs, special Police services, Library services, Recreation programs, etc. Other charges for services are estimated at $12,958,497 in FY 2027.

Special Assessments

Special assessments are an additional tax levied on private property for public improvements that enhance the value of the property. In FY 2027, special assessment revenue is estimated at $40,000.

Miscellaneous Revenue

This category includes internal charges for services, proceeds from bonds, and revenues of a non-recurring nature. Miscellaneous revenues are estimated at $40,584,173 in FY 2027.

RECOMMENDED CAPITAL IMPROVEMENT PLAN

The City of Dubuque's Capital Improvement Plan (CIP) represents the City's five-year plan for capital improvements and totals $352,840,562. Appropriations of funding are made on an annual basis. The capital budget is therefore the first year of the five-year CIP. The approved capital budget for fiscal year 2027 totals $80,633,738.

The recommended CIP reflects the City's comprehensive plan and the goals and priorities established by the City Council. Funding required to meet the capital needs for FY 2027 totals $80.6 million. Approximately 32.96% ($26.6 million) of this will be provided by issuance of new debt, primarily for sewer utility related projects ($12.2 million) and Greater Downtown TIF related projects ($6.1 million). Another funding source representing approximately 26.87% of total sources is operating receipts. Operating receipts come from current year revenues and essentially represent the amount of "cash" or pay as you go financing provided by each enterprise operation.

A major focus of the capital budget and capital improvement plan is the maintenance and refurbishment of existing city facilities. To this end, significant resources are dedicated for these types of projects including, Bee Branch Creek Watershed, Airport, Fire facilities, Civic Center, Grand River Center and Street, Sanitary and Water Improvements.

The following page provides a listing of some of the highlighted projects in the fiscal year 2027 capital budget.

The Capital Budget in the Resident's Guide includes a summary by department of all projects planned through FY 2031.

FY27 RECOMMENDED CAPITAL BUDGET HIGHLIGHTS

Department	Project Title	Total City Investment FY2027-FY2031
Fire	Outdoor Warning Siren Repair/Replace	$54,000
Fire	Fire Station Expansion	$8,791,700
Fire	2027 Ambulance Replacement (1914)	$500,000
Fire	Portable Radio Replacements	$490,000
Fire	2030 Fire Engine Replacement (1910)	$1,288,408
Fire	2030 Ambulance Replacement (1915)	$635,000
Fire	2031 Ambulance Replacement (130010)	$665,000
Parks	Jeffris Grant	$2,060,394
Civic Center	Five Flags Building Improvements	$5,844,678
Conference Center	Roof Restoration	$1,383,000
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Ave Booster Station	$1,020,000
Water	Water Main Extension Central Ave	$965,000
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Private Lead Line Replacement Program	$1,050,000
Water	Private Lead Service Line Replacement Program	$4,050,000
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	Source Water PFAS Reduction Project	$1,121,199
Water	Water Meter Replacement Program	$687,750
Water	Water Storage Maintenance Program	$3,336,000
Water	West End Annexation Phase II	$2,000,000
Water	Southwest Arterial 16" Water Main Extension	$2,475,000
W&RRC	Bar Screen Replacement	$2,500,000
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000
W&RRC	Industrial Controls Upgrade	$6,114,700
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550
Airport	Reconstruct Taxiway A	$9,969,994
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000
Airport	Taxiway D Extension	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Asphalt Milling Program	$873,547
Public Works	Curb Ramp Program	$4,883,000
Publics Works	Concrete Street Section Repair Program	$1,641,038
Public Works	NW Arterial Should Paving Project	$2,311,247
Engineering	Storm Sewer General Replacements	$1,500,000
Engineering	Stormwater Management Program	$800,000

Department	Project Title	Total City Investment FY2027-FY2031
Engineering	Detention Basin Maintenance & Repair	$1,000,000
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630
Engineering	Old Mill Road Lift Station & Force Main - Phase 3	$19,891,034
Engineering	Old Mill Road Lift Station & Force Main - Phase 4	$19,506,258
Engineering	Schmitt Island Sanitary Improvements	$4,000,000
Engineering	South West Arterial Interchange Sewer Extension	$4,829,838
Engineering	Sanitary Basis Analysis - South Port & Terminal St LS	$10,800,000
Engineering	Track Line Sanitary Sewer Reconstruction	$3,500,000
Engineering	14th St Overpass	$36,144,000
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation Improvements 11th - 22nd Street	$9,770,000
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	$6,000,000
Engineering	East - West Corridor Capacity Improvements	$18,600,000
Engineering	17th/Locust Street Reconstruction Phase 4	$4,765,000
Engineering	Bridge Repairs/Maintenance	$2,640,000
Engineering	Fiber Infrastructure Management System	$330,000
Engineering	Traffic Signal Network Communications Program	$445,000
Engineering	STREETS Traffic Control Project Phase 2	$1,029,000
Engineering	Federal Building Renovation	$5,395,000
Economic Development	Downtown Rehab Grant Program	$1,700,000
Economic Development	Workforce Development	$1,857,500
Transportation	Smart Parking System	$780,000
Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200
Housing	Assistance for Homeownership	$1,026,082
Housing	Homeowner Rehabilitation Program	$2,476,588
Housing	Healthy Homes Production Grant	$1,326,250
Housing	Lead and Healthy Homes Grant	$3,136,600
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759
Information Technology	Network Switch Replacement	$607,500
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906

THE CITY OF DUBUQUE

Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007 • 2012 2013 • 2017

Dubuque is Iowa's oldest city and is among the oldest settlements west of the Mississippi River. The first permanent settler to the area was French-Canadian fur trader Julien Dubuque. When he arrived in 1785, the Mesquakie (Fox) Indians occupied the region which included an abundant amount of lead mines. On June 1, 1833, the land was opened for settlement by the United States government under the Black Hawk Purchase Treaty and came to be known as the city of Dubuque.

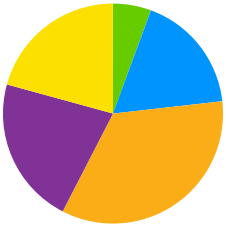
Dubuque has long been a historical and cultural center with its numerous historic sites, architectural Historic Districts with well-preserved buildings and homes, a revitalized main street, history and art museums, live theaters, ballet troupes, a symphony, three private colleges, two seminaries, a Bible college, libraries and a local history research center, recreational and sports venues, beautiful parks, a state park and nature interpretive center, miles of hiking and biking trails and the great Mississippi River.

Recent recognitions include being named an Iowa Thriving Community for using innovative solutions to enhance housing offerings to residents of all income levels, one of the 100 Best Communities for Young People, the Most Livable Small City in the US, an Iowa Great Place, an All-America City five times between 2007 and 2019, and a LEED- Certified City (Leadership in Energy and Environmental Design). Dubuque scored 100 out of 100 on the 2021 Municipal Equality Index, issued by the Human Rights Campaign (HRC), based on the inclusiveness of its laws, policies, and services for lesbian, gay, bisexual, transgender, and queer (LGBTQ) residents. Dubuque was named the 2024 Iowa Community of Character by the Robert D. and Billie Ray Center at Drake University as part of its annual Iowa Character Awards, which annually recognize Iowa individuals, organizations, and communities which demonstrate the six pillars of CHARACTER COUNTS®: trustworthiness, respect, responsibility, fairness, caring, and good citizenship.Dubuque is truly a "Masterpiece on the Mississippi."

ACCORDING TO THE 2024 AMERICAN COMMUNITY SURVEY (ACS), THE CITY OF DUBUQUE'S DEMOGRAPHICS INCLUDE THE FOLLOWING:

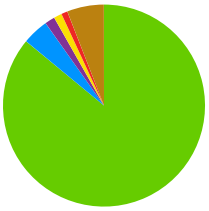
AGE

- Under 5 Years 5.8%
- 5-19 Years 17.5%
- 20-44 Years 34%
- 45-64 Years 22.3%
- 65 years and better 20.4%



RACE

- White or Caucasian 85.9%
- Black or African American 4.2%
- American Indian and Alaska Native 0%
- Asian 1.6%
- Hawaiian & Other Pacific Islander 1.3%
- Some Other Race 1.0%
- Two or More Races 5.9%



POPULATION

Total Population: 59,174
- Female Population: 50.5%
- Male Population: 49.5%

Average Household Size: 2.12
- Family Households: 49.6%
- Non-Family Households: 50.4%

Average Family Size: 2.80
Median Age: 38.1 years

HOUSING

Total Housing Units: 27,832
- Housing Occupancy: 93.9%
- Owner-Occupied: 65.8%
- Renter-Occupied: 34.2%

INCOME

- Median Household Income: $65,845
- Median Family Income: $89,443
- Families below poverty: 7.8%
- Individuals below poverty: 12.7%

DUBUQUE'S LOCATION

Situated at the intersection of Iowa, Illinois, and Wisconsin, the community of Dubuque, Iowa, stands among the Mississippi River bluffs as a metropolitan service area for seven surrounding counties.

Dubuque is connected by four-lane highways to Davenport, Des Moines, Madison and Minneapolis. The majority of the way to Chicago is also four-lane highway. Dubuque is centrally located amongst several major metropolitan areas.

The Dubuque Regional Airport serves both business and leisure travelers. Private and corporate jets also make use of the great central location of the airport as well.

Land Area: 32.0 square miles
Riverfront shoreline: 8.8 miles

Current Land Use

A review of existing land use within the Dubuque city limits (as of 2017) shows a balance of development among commercial, industrial, and institutional uses. (See Figure 9-2)

- Residential uses, separated as single-family and multi-family categories when combined are 5,355 acres, or 31% of Dubuque's total land area.
- Large swaths of agricultural land, particularly in the western portion of Dubuque, total 3,529 acres. Many of these agricultural properties were annexed into the city with the intent of being developed for another use in the future.
- An Existing Land Use Map can be found in Figure 9.1.

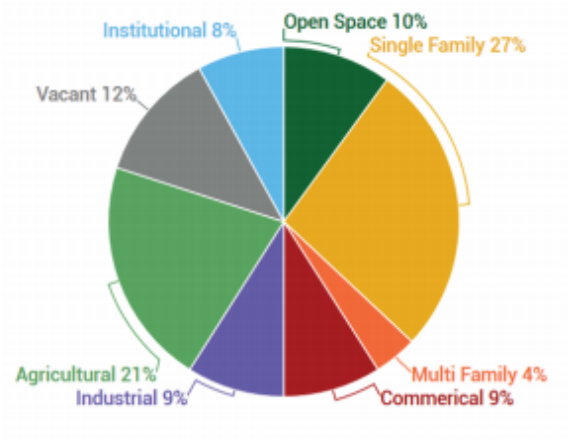
Current Zoning

Existing land use and current zoning are similar, but not the same. Within the city limits of Dubuque, land is 100% zoned -- including vacant land. Most land is zoned for its current use, but not always.

- Using the same broad categories examined for existing land use, the most prevalent zoning is 8,105 acres (48%) of single-family residential (which includes the small amount of two-family residential).
- The rest of the current zoning in Dubuque is divided about equally among agricultural with 3,067 acres (18%), commercial at 2,629 acres (15%), and industrial with 2,253 acres (13%). Multi-family zoning encompasses only 636 acres (4%) and institutional only 314 acres (2%).
- A breakdown of current zoning is shown in Figure 9.3. A current zoning map can be found in the Appendix.

FIGURE 9.2

Current Land Use in Acres



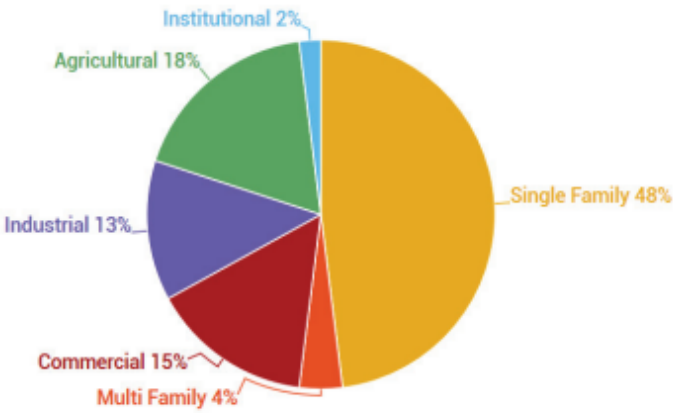
10% Open Space (1,777 Acres)
9% Industrial (1,438 Acres)
27% Single Family (4,661 Acres)
21% Agricultural (3,529 Acres)
4% Multi Family (694 Acres)
8% Institutional (1,286 Acres)
9% Commercial (1,507 Acres)
12% Vacant (2,110 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

FIGURE 9.3

Current Zoning in Acres



18% Agricultural (3,067 Acres)
15% Commercial (2,629 Acres)
48% Single Family (8,105Acres)
13% Industrial (2,253 Acres)
4% Multi Family (636 Acres)
2% Institutional (314 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

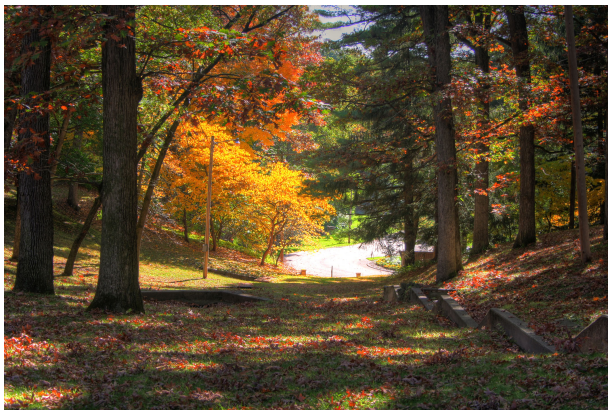
RECREATION OPPORTUNITIES

55 parks with 1,247 acres
31 park shelters
15 tennis courts
9 pickle ball courts
6 combination volleyball/pickle ball courts
22 restroom buildings
4 accessible fishing piers
3 skate parks
1 pet park
288 units of play equipment
1 disc golf course
1 in-line hockey rink
10 softball fields
1 all-inclusive baseball field
1 baseball field
4,500 street trees
45 miles of on/off street trails
1,000 picnic tables
7 basketball courts
8 half basketball courts
2 amphitheaters
17 horseshoe pits
1 splash pad



CULTURAL AMENITIES

In Dubuque there are over 45 non-profit arts and cultural organizations that provide year-round cultural programming in Dubuque and the surrounding area. Dubuque is home to a world-class Symphony Orchestra and Arboretum, two Smithsonian Affiliates - the Dubuque Museum of Art and the National Mississippi River Museum and Aquarium, the Julien Dubuque International Film Festival (JDIFF), multiple community theater groups including Grand Opera House, Bell Tower, Rising Star and Fly By Night. There are on average over 125 special events throughout the year from community festivals to outdoor music venues to parades and neighborhood events.

WORKFORCE

Today there are over 12,000 employees working in downtown Dubuque. Dubuque leads the State in downtown rehabilitation and development with over $896 million of public and private investment since 1985.

According to the latest data from Iowa Workforce Development (December 2025), Dubuque's employment is at 60,600. Dubuque County's unemployment rate for December 2025 was 3.4% while Iowa's rate was 3.5% and the nation's was 4.4%.

The top ten employers in the area employ less than 21% of the total workforce. Peninsula Gaming Co. LLC, the greatest revenue source among all taxpayers, contributes approximately 2% of the City's taxable valuation.

City of Dubuque Mayor and City Council Non-profit & Partner Board Representation

As elected officials, the Mayor and City Council serve as a City Council Representative on a number of local, not-for-profit and partner organizations. Appointments must be outlined in the organizations' Bylaws, Articles of Agreement, or other applicable contracts. These appointments are affirmed every year by the City Council at an official meeting.

Dubuque County Conference Board

City of Dubuque
Boards and Commissions

Individuals serving on Boards and Commissions play an important role in advising the City Council on matters of interest to our community and its future. The City Clerk's Office accepts applications for any Board or Commission at any time, and the application stays active for one year from the date of receipt in the Clerk's Office. Applicants must be a resident of the City of Dubuque. Some boards and commissions may require compliance with the State of Iowa Gender Balance Law.

2025-2027 CITY COUNCIL GOALS & PRIORITIES

The Dubuque City Council completed its annual goal-setting sessions on Thursday, Sept. 25, 2025. Over the course of three evening sessions, City Council members affirmed the 15-year vision statement and mission statement and identified seven five-year goals for the city. They also identified top and high priorities for a 2025-2026 policy agenda as well as in-progress projects and capital projects for 2025-2026.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

POLICY AGENDA

Policy agenda items are issues that need direction or a policy decision by the City Council, or need a major funding decision by the City Council, or issues that need City Council leadership in the community or with other governmental bodies. The policy agenda is divided into top priorities and high priorities.

2025 - 2027 Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

2025 - 2027 High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

VISION & MISSION

2040 Vision Statement

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

Mission Statement

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

FIVE-YEAR GOALS

- **Healthy and Safe Community**
- **Financially Responsible, High-Performance City Organization:** Sustainable, Equitable, and Effective Service Delivery
- **Robust Local Economy:** Diverse Businesses and Jobs with Economic Prosperity
- **Livable Neighborhoods and Housing:** Great Place to Live
- **Sustainable Environment:** Preserving and Enhancing Natural Resources
- **Connected Community:** Equitable Transportation, Technology Infrastructure, and Mobility
- **Diverse Arts, Culture, Parks, and Recreation Experiences and Activities**

MANAGEMENT IN PROGRESS & MAJOR PROJECTS

Under each City Council goal are items listed as **Management in Progress** and **Major Projects**. These are items and projects that are underway and budgeted. Staff is implementing and providing updates to City Council.

Healthy and Safe Community

Management in Progress

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System Implementation
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Major Projects

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High-Performance City Organization

Management in Progress

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation Plan
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Major Projects

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy

Management in Progress

- Business Incentives Policies and Processes Review
- Chaplain Schmitt Island Development: Hotel Project
- Comprehensive Hotel Attraction/Incentive Policy

(Continued on page 4.)

- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions
- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing

Management in Progress

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/ Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment

Management in Progress

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Major Projects

- Auburn St. and Custer St. Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St. and Central Ave.
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No. 7 Rehabilitation
- Water Department New Deep Well No. 11 (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community

Management in Progress

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System and Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Major Projects

- 14th St. Railroad Overpass and 16th St. Corridor Complete Streets Improvements
- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks, & Recreation Experiences & Activities

Management in Progress

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming
- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System
- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

COUN008-102125

LINKING LONG- AND SHORT-TERM GOALS

LONG-TERM GOAL	SHORT-TERM GOAL	IMPLEMENTATION DEPARTMENT
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity	8th Street 20" Transmission Water Main Connection (Jackson to Central)	Water
	Central Ave Booster Station	Water
	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	Water
	Water Main Extension Central Ave	Water
	Water Distribution System Master Plan	Water
	Water Distribution System Hydraulic Modeling	Water
	Water Main Extension Olympic Heights Rd	Water
	Water Main Extension Pennsylvania Ave	Water
	Water Main Extension Seippel Rd and Pennsylvania Ave	Water
	West End Annexation Phase II	Water
	Southwest Arterial 16" Water Main Extension	Water
	Riverfront Leasehold Management	Engineering
	Downtown Storefront Activation Program	Economic Development
	Workforce Development	Economic Development

LONG-TERM GOAL	SHORT-TERM GOAL	IMPLEMENTATION DEPARTMENT
Healthy and Safe Community	Exterior Building Maintenance	Fire
	Outdoor Warning Siren Repair/Replace	Fire
	Fire Station Expansion	Fire
	2027 Fire Engine Replacement (1907)	Fire
	2027 Ambulance Replacement (1914)	Fire
	2028 Fire Engine Replacement (1905)	Fire
	Portable Radio Replacements	Fire
	2031 Fire Engine Replacement (1910)	Fire
	2030 Ambulance Replacement (1915)	Fire
	2031 Ambulance Replacement (130010)	Fire
	Vehicle 4903 Replacement	Water
	Vehicle 4908 Replacement	Water
	Vehicle 4920 Replacement	Water
	Safety Equipment for Water Distribution Staff	Water
	Confined Space Drone	Engineering
	Manhole Inspection Equipment	Engineering
	Kerper Boulevard Sanitary Sediment Trap	Engineering

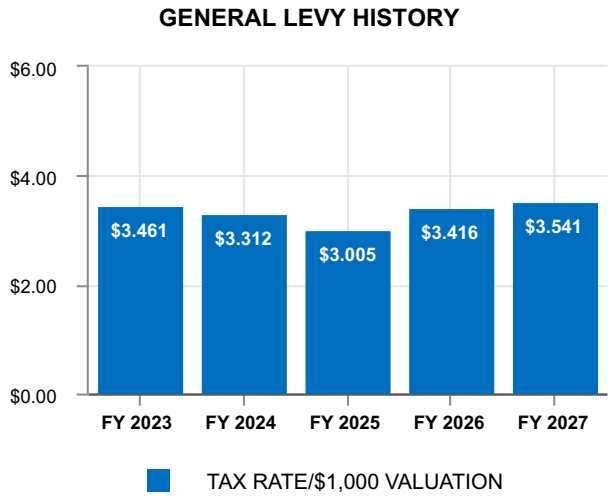
Total Uses and Fund Balance	$ 402,686,266	$ 421,365,423	$ 405,791,172

REVENUE CATEGORY EXPLANATIONS

PROPERTY TAXES

All property taxes collected for the City are levied on the assessed valuation of real and personal property as determined by the City Assessor. For Fiscal Year 2027, the total tax collection of $31,940,934 is a 6.93% increase as compared to FY 2026. The total tax collection includes $10,396 for agricultural land. The overall levy is made up of five parts as described below.

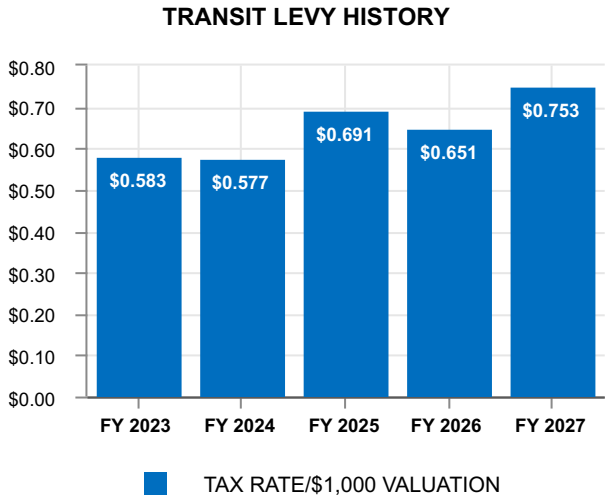
GENERAL LEVY HISTORY



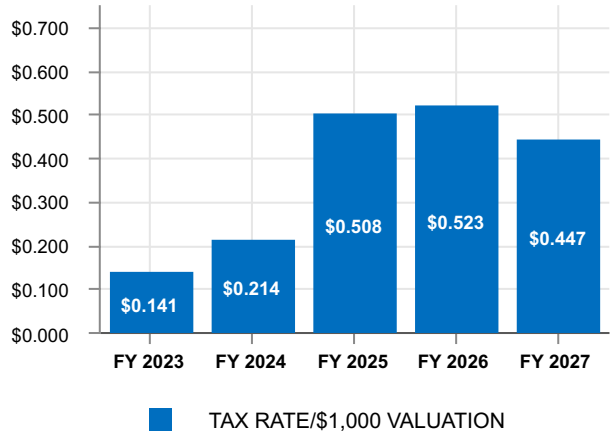
The **General Levy** for the general fund is limited by the State of Iowa to 2% or 3% growth each year, depending on the trigger hit, except for specific levies authorized outside the limit. The City of Dubuque general levy for FY 2027 is just $3.54090, which is up from $3.41552 the year before. The General Levy is certified with the State of Iowa at the maximum levy allowed by moving eligible Employee Trust & Agency expenses (allowable in the Trust & Agency Levy) into the General Levy.

The State of Iowa requires this shift to maximize the General Levy first. Also, 50% of the one cent local option sales tax and 100% of the gaming revenues (taxes and lease) is applied for property tax relief which has created a savings in the total City tax rate of $3.17042/$1,000 valuation.

Outside of the General Fund levy, a **Transit Levy** can be used without the vote of the electors to fund the operations of a municipal transit system. This levy may not exceed 95 cents/$1,000 valuation. The levy is collected in the General Fund, and then transferred to the Transit Fund. The FY 2027 levy of 0.752860 cents will generate $2,361,869 which is a 8.92% increase from FY 2026.



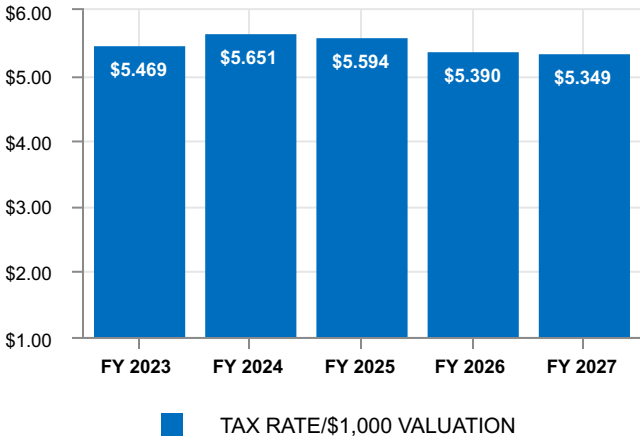
TORT LIABILITY LEVY HISTORY



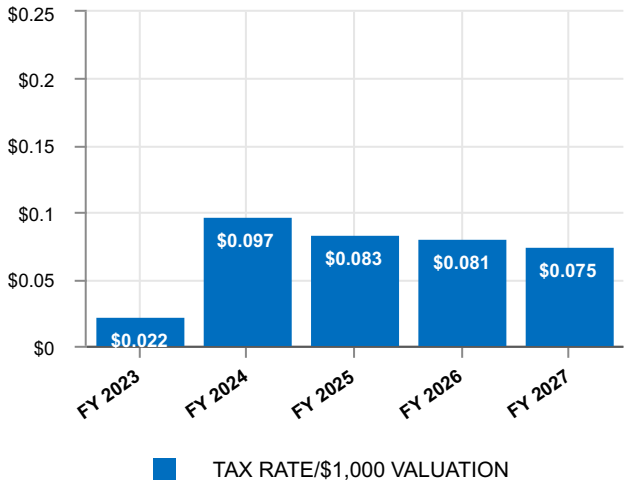
Outside of the General Fund levy, a **Tort Liability Levy** can be used without the vote of the electors to fund the cost of general liability insurance to the total amount necessary. The levy is collected in the Tort Liability fund and then transferred into the General Fund to pay general liability insurance expense. The FY 2027 levy of 0.44658 cents generates $1,401,004. The City is a member of the Iowa Community Assurance Pool (ICAP) which is a local government risk-sharing pool in the State of Iowa. The tort liability levy request changes based on risk adjustments received from ICAP.

The **Trust and Agency Levy** is available for payroll benefit costs (as defined by the City Finance Committee) including Retirement (IPERS), Municipal Fire and Police Retirement (MFPRSI), Police Pensions, Social Security/ Medicare, Police and Fire medical costs, Health Insurance, Worker's Compensation, Life Insurance, and Unemployment. The total payroll benefit costs allowable in this levy are $16,782,114. The trust and agency levy has decreased to $5.34942 in FY 2027 .

TRUST & AGENCY LEVY HISTORY



DEBT SERVICE LEVY HISTORY

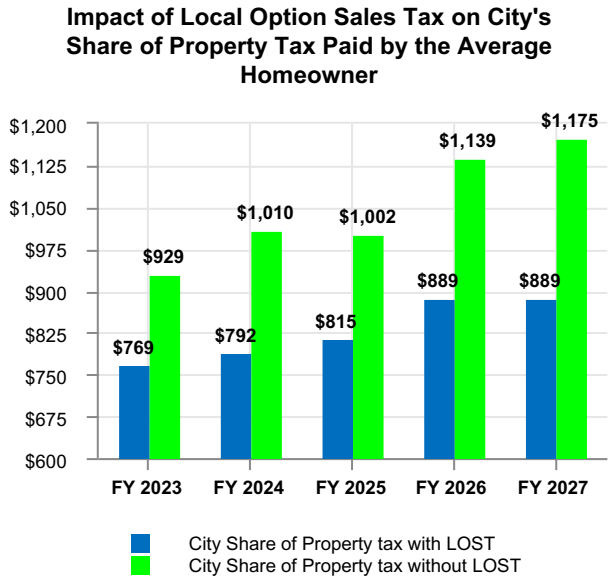


The final portion of the levy is for **Debt Service**. This levy is restricted to General Obligation (GO) bond debt and judgments. The City of Dubuque has a GO bond issuance for the replacement of fire trucks and an ambulance for $1,355,500 and a franchise fee judgment bond ifor $2,800,000 with debt service abated by the debt service levy of $287,495 in FY 2027.

OTHER TAXES

Local Option Sales Tax (LOST)

Beginning April 1, 1988, an additional 1% local option sales tax is applied to all goods and services delivered within the City of Dubuque, to which the State of Iowa sales tax already applies. This was approved by the voters in February of 1988. Of the total received, 50% of the funds are marked for property tax relief; 20% for City facilities maintenance (upkeep of City-owned property, transit equipment, riverfront and wetland development, and economic development); and 30% for special assessment relief (street special assessments and the maintenance and repair of streets). Annually the State sends the City an estimate of the amount of local option sales tax it will receive monthly for the year. The amount is 95% of the estimated collection and then in November, the City will receive an adjustment to actual for the prior year. This estimate along with actual receipt and sales growth trends, are used to budget. The budget for FY 2027 decreased 1.24% compared to FY 2026, which reflects stabilized sales growth.



In FY 2027 approximately $6,372,758 will be generated for property tax relief. This translates into a reduction of the City share of property tax paid by the Average Homeowner of $259.30. This chart illustrates the amount the total levy would have to be if the Local Option Sales Tax had not been approved.

Hotel/Motel Tax

Beginning in November of 1991, a referendum was passed to increase hotel/motel tax from 5% to 7% (limit). This tax is levied upon the occupancy of any room furnished by a hotel/motel in the City. By Resolution, 50% of the hotel/motel tax is to be used for promotion and encouragement of tourism and convention business. City Council's policy is to provide 50% of the past 4 quarters actual receipts to the Convention & Visitors Bureau (CVB) in the next fiscal year's budget. The remaining 50% goes into the General Fund for property tax relief.

Hotel/motel tax has increased gradually over the years until FY 2004, when a 35% increase was realized. This was due to the addition of several new hotel/motels in Dubuque. FY 2027 is budgeted with a decrease of 10.16% under FY 2026, which reflects the actual trend.

Other Taxes

Other taxes include tax on agricultural land (state levy limit is $3.00375), military service, county monies & credits, gaming taxes (Greyhound Park and Casino para-mutual and slot machine tax and Diamond Jo riverboat tax on bets), mobile home tax, and tax increment property tax revenues.

LICENSES AND PERMITS

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous.

Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas and 5% electric) – with a increase of 12.91% in FY 2027. The Fiscal Year 2027 projection for Cable Franchise Fees is $256,734. The Utility Franchise Fees from Electric and Natural Gas FY 2027 projection is $7,102,341, all for property tax relief.

USE OF MONEY AND PROPERTY

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue. The gaming related leases generate the most revenue. In 1984, the residents of Dubuque approved a referendum allowing dog racing. In 1987, this expanded to include riverboat gaming and in 1994 slot machines at the dog track. The Greyhound Park and Casino expanded with a bigger and better facility and in June 2005, slot machines were added to go from 600 to 1,000 and in March 2006, table games were added.

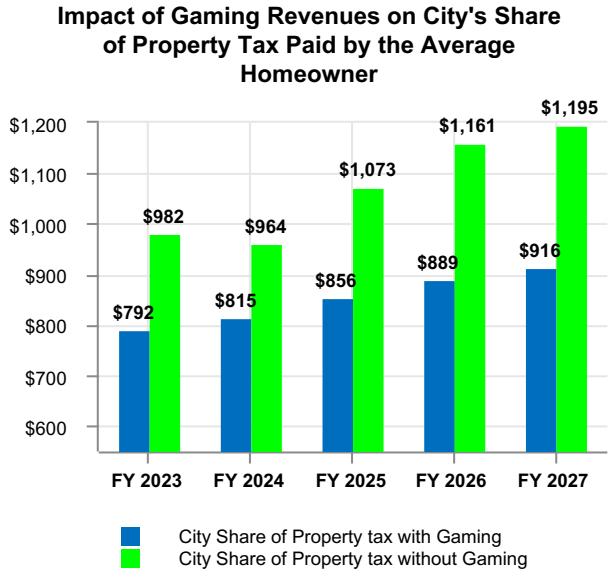
Effective April 1, 2004 the lease with the Dubuque Racing Association (DRA) was revised to collect 1% of coin-in and unadjusted drop from .5% previously, and its end date changed from 2009 to 2018. The City receives a distribution of profit from the DRA annually that was previously split 40% to the City, 30% to local charities and 30 % retained by the DRA. A lease amendment in FY 2010 changed this split to 50% City / 50% Charities / DRA. In addition, this lease amendment changed the unadjusted drop from .5% for table games to 4.8% of adjusted gross receipts.

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055. The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5%t of coin in from slot machines (previously 1%), 4.8% of gross revenue from table games, and 0.5% of sports wagering. Diamond Jo admissions are also collected through their lease.

In Fiscal Year 2022, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. The split of annual distribution was changed from 50% City/ 50% charity to one third City, one third charity, one third Chaplain Schmitt Island Development Fund. In addition, the amended lease has an expiration date of December 31, 2036.

In Fiscal Year 2023, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows $1.5 million of cash reserve fund as a down payment of a construction loan in FY23. The DRA is required to establish a debt reserve fund equal to one year of debt payments, almost $7 million.

City Council policy is to use 100% of the DRA distribution of profit to support the Capital Improvement budget, however in Fiscal Years 2024-2027, 100% of DRA distribution of profit was used for the operating budget. City Council policy for the total received from the DRA operating lease and taxes, and the Diamond Jo admissions and taxes, is to split it 100% for property tax relief in the General Fund and 0% to support the Capital Improvement program.



In 2027, 100% of the total or approximately $6,372,758 is projected to be generated and reduce the amount paid by the average homeowner by $279.59. This chart illustrates the total the average homeowner would have to pay without the contribution of gaming revenue. FY 2027 and beyond gaming projections include the impact of the renovated Q Casino and additional casinos opening in Illinois, Wisconsin, and Iowa.

INTERGOVERNMENTAL REVENUE

Intergovernmental revenues include Federal grants and reimbursements, State grants and reimbursements, State shared revenues, and County or other local grants and reimbursements. Many of these revenues are construction project related and thus significantly increase and decrease with the timing of projects. Federal and State grants received by the City are listed on the 'Summary of How Budgeted Expenditures are Funded by Source of Income" under the Financial Summaries tab.

In FY 03/04, the State of Iowa discontinued State shared recurring revenues (liquor tax, personal property tax replacement, municipal assistance, and state funded monies and credits) due to a budget crisis at the State level. This caused a shortfall of $1,051,625 in the City of Dubuque's General Fund. Then in FY 04/05 the bank franchise tax was eliminated by the State causing a shortfall of $145,000. This was addressed by making cuts, shifting funding and increasing revenues by adding a 2% gas and electric franchise fee.

The Iowa Department of Transportation (IDOT) provides annual projections on the amount of Road Use Tax Funds the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031.

CHARGES FOR SERVICES

Utility Charges

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, and Landfill. Rate increases have been incorporated in all utilities (as listed on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising (fuel, gas/ electric, supplies), additional capital projects, to support additional debt service, and to meet revenue bond covenants.

Other Charges for Services

This includes revenue from all charges for current services exclusive of utilities, such as:

General Government - Copy charges, sale of maps and publications, zoning adjustment fees, sub plat review fees, plan check fees, and temporary use fees.

Highways/Streets/Sanitation – Street, sidewalk, and curb repairs, engineering and inspection fees, and weed cutting charges.

Public Safety – Special Police services and ambulance fees.

Municipal Enterprises – Library services, transit services, airport charges and fuel sales, and parking meters and lot collections.

Recreation – Recreation programs, golf course fees, aquatics, and park fees.

SPECIAL ASSESSMENTS

Special Assessments are an additional tax levied on private property for public improvements that enhance the value of the property. Principal and interest payments received on special assessments are included in this revenue category.

OTHER FINANCING SOURCES

Other financing sources includes proceeds from sale of bonds and State Revolving Fund (SRF) loans.

TRANSFERS IN

This is for the transfer of money between City funds.

MISCELLANEOUS REVENUE

Internal Charges

These are the charges for labor, equipment, materials, printing, and messenger service which City departments pay to internal services departments or to other City departments.

Miscellaneous Revenue

This includes revenues of a non-recurring nature which are not assigned above.

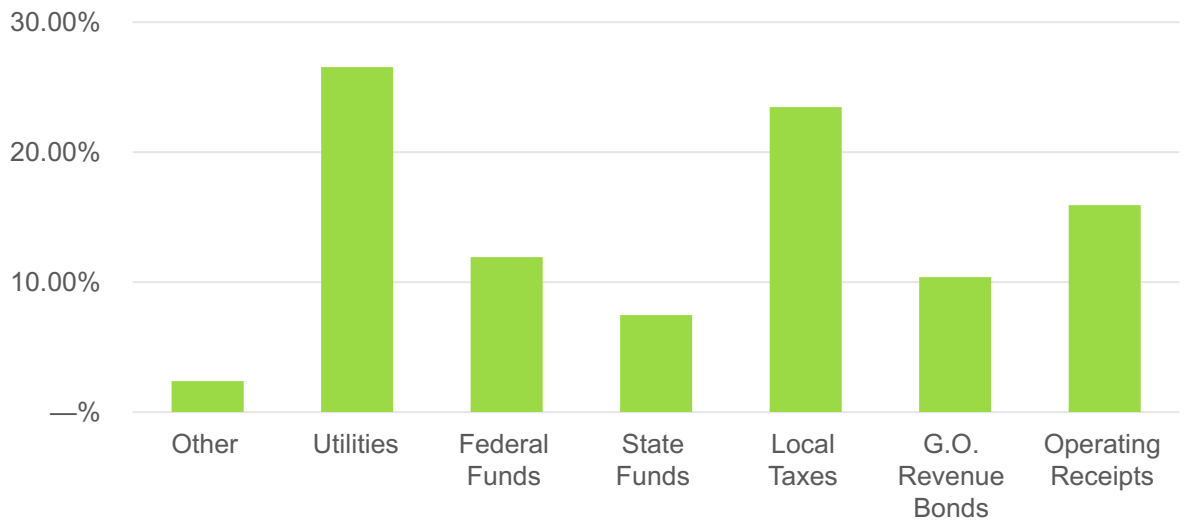
REVENUE HIGHLIGHTS

REVENUE PROJECTIONS

The revenue projection process starts with five year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year's actual and current year-to-date amounts are used to project both the current year and next four year's revenues. Information received from the State, County, and Iowa League of Municipalities is utilized to project recent trends and anticipated amounts. The City Manager and the Chief Financial Officer review estimates, with input from the Human Resources Director, to make informed judgments on all revenues city wide. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer reviews all detail, discusses with Departments, makes appropriate adjustments and prepares the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

WHERE THE MONEY COMES FROM
FY 2027 RECOMMENDED
TOTAL BUDGET



Total Recommended Budget $265,322,342

*Excludes Transfers

The major resource assumptions used in preparing the Fiscal Year 2027 Recommended budget include the following:

a) **Cash Balance.** Unencumbered funds or cash balances of $200,000 will be available in FY 2027 and each succeeding year to support the operating budget.

b) **Interest Revenue.** Interest revenue decreased from $2,300,097 in FY 2026 to $1,620,974 in FY 2027. The FY 2027 budget is based on projected general fund cash balance, and projected declining interest rates.

c) **Sales Tax Revenue.** By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2027. Sales tax receipts are projected to decrease 0.74% under FY 2026 actual of $12,465,961 based on FY 2026 revised revenue estimate which includes actuals through February 2026, and then increase at an annual rate of 2.00% percent per year beginning in FY 2028. The following chart shows the past four years of actual sales tax funds and projected FY 2027 for the General Fund:

Sales Tax Funds	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
PY Q4	$475,037	$451,920	$574,416	$635,746	$654,818
Quarter 1	$1,177,196	$1,545,777	$1,592,834	$1,610,911	$1,659,238
Quarter 2	$1,522,885	$1,596,421	$1,605,397	$1,302,193	$1,341,258
Quarter 3	$1,443,097	$1,524,508	$1,490,640	$1,576,480	$1,623,774
Quarter 4	$1,110,593	$979,209	$969,694	$1,061,815	$1,093,669
Reconciliation	$371,388	$—	$—	$—	$—
Total	$ 6,100,196	$ 6,097,835	$ 6,232,981	$ 6,187,145	$ 6,372,757
% Change	**-4.00%**	**-0.04%**	**+2.22%**	**-0.74%**	**+3.00%**

d) **Hotel/Motel Tax Revenue.** Hotel/motel tax receipts are projected to increase 5.00% ($167,286) over FY 2026 re-estimated receipts of $3,345,715, and then increase at an annual rate of 3.00% per year.

e) **FTA Revenue.** Federal Transportation Administration (FTA) transit operating assistance decreased from $598,167 in FY 2026 to $443,500 in FY 2027. The FY 2027 budget is based on the revised FY 2026 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

f) **Ambulance Revenue.** Ambulance Ground Emergency Medical Transport Payments increased from $2,413,018 in FY 2026 to $2,714,947 in FY 2027. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2021. FY 2027 is based on calculated projections using historical averages. This revenue is projected using the first quarter of performance in FY 2025 and the previous 11 quarters of performance. Based on that formula, the 3-year quarterly average growth of Medicaid transports is 0.8%. The projected number of transports for FY 2025 is 1,084 and for FY 2026 is 1,092. The FY 2024 actual was 1,075. Based on the unaudited FY 2024 cost report, the FY 2026 revenue per transport is estimated to be $2,209.18. This line item is offset by GEMT Pay to Other Agency expense for local match of $904,973 resulting in net revenue of $1,809,974.

Ambulance Fees increased from $1,756,870 in FY 2026 to $2,778,351 in FY 2027 based on calculated projections using historical averages and Council approved advanced life support and basic life support service fees to match the third-party cost report. The FY 2025 actual was $2,026,670.

As the City Council approved in 2025, these funds are being used to add five firefighter positions in Fiscal Year 2026 and should the City receive a SAFER grant, nine more firefighter positions in Fiscal Year 2027.

g) **Miscellaneous Revenue.** Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2026.

h) **Building Fee Revenue.** Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase $101,389 from $1,099,857 in FY 2026 to $1,201,246 in FY 2027.

i) **DRA Revenue.** Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to decrease $134,176 from $7,213,362 in FY 2026 to $7,079,186 in FY 2027 based on revised projections from the DRA. This follows a $192,217 decrease from budget in FY 2026 and a $2,283,319 increase from budget in FY 2025.

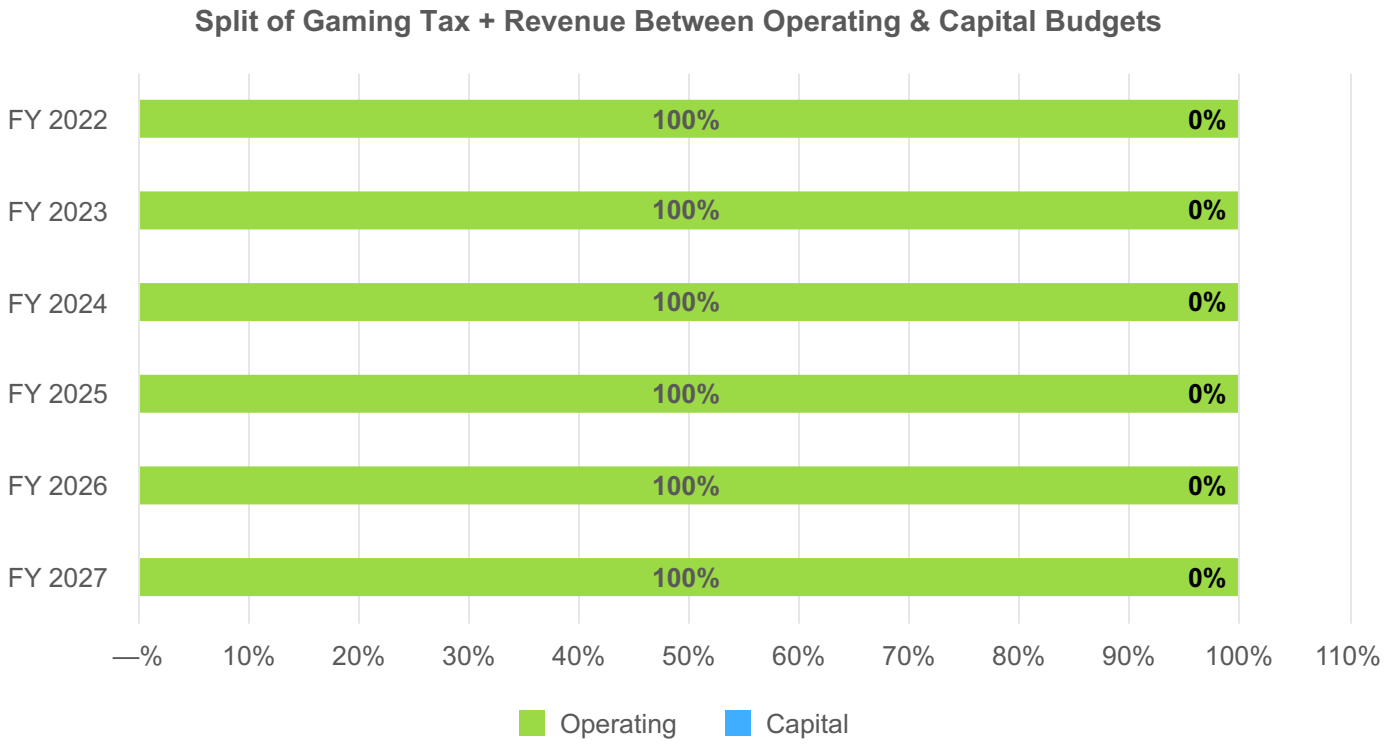
The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease Payments	$ Change	% Change
FY 2027 Projected	$7,079,186	$ 127,716	2%
FY 2026 Revised	$6,951,470	$ (261,892)	-4%
FY 2026 Budget	$7,213,362	$ 349,629	5%
FY 2025 Actual	$6,863,733	$ 589,707	9%
FY 2024 Actual	$6,274,026	$ (917,449)	-13%
FY 2023 Actual	$7,191,475	$ 583,944	9%
FY 2022 Actual	$6,607,531	$ 2,645,535	67%
FY 2021 Actual	$3,961,996	$ (1,187,192)	-23%
FY 2020 Actual	$5,149,188	$ 293,177	6%
FY 2019 Actual	$4,856,011	$ 18,879	0%
FY 2018 Actual	$4,837,132	$ (195,083)	-4%
FY 2017 Actual	$5,032,215	$ (155,297)	-3%
FY 2016 Actual	$5,187,512	$ (158,104)	-2%

The Diamond Jo payment related to the revised parking agreement increased from $687,003 in FY 2026 to $731,657 in 2027 based on estimated Consumer Price Index adjustment.

j) **DRA Gaming.** The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2027 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2022– FY2027:



k) Diamond Jo Revenue. The Diamond Jo Patio lease ($25,000 in FY 2027) and the Diamond Jo parking privileges ($731,657 in FY 2027) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

l) Residential Rollback. The residential rollback factor will decrease from 47.4316% in 2026 to 44.5345% or a 6.11% decrease in FY 2027. The rollback has been estimated to remain the same from Fiscal Years 2028 through 2031.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2027, residential property had more growth than agricultural property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average residential property value increased 8.50%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from $93,207 to $94,952 (+1.87%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This increased taxable value for the average homeowner ($91,067 taxable value in FY 2026 and $94,952 taxable value in 2027) results in more taxes to be paid per $1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 44.5345 percent in Fiscal Year 2027. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2026, the City's tax rate would have been $6.18 per $1,000 of assessed value instead of $10.06 in FY 2026.

m) State Equalization Order/Property Tax Reform. There was not an equalization order for commercial, industrial or multi-residential property in Fiscal Year 2027. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average commercial and industrial property values increased 16%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from $540,594 to $624,927 (+16%). This revaluation of industrial property resulted in the taxable value for the average industrial calculation to increase from $632,952 to $731,693 (+16%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2027 State backfill for property tax loss is estimated to be $484,830 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds).**

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2027	$ (97,981)
2028	$ (97,981)
2029	$ (97,981)
2030	$ (97,981)
Total	**$ (391,924)**

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties ($432,475 Commercial / $599,500 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of $148 in FY 2015, $693 in FY 2016, $982 in FY 2017, $959 in FY 2018, $843 in FY 2019, $861 in FY 2020, $779 in FY 2021, $780 in FY 2022, and $722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.

The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the first-tier assessment limitation in FY27 is estimated to be $170,000.

n) **Multi-Residential Property Class/Eliminated State Shared Revenue.** Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239
FY 2018	82.50%	$ 472,127
FY 2019	78.75%	$ 576,503
FY 2020	75.00%	$ 691,640
FY 2021	71.25%	$ 952,888
FY 2022	67.50%	$ 752,366
FY 2023	63.75%	$ 662,821
FY 2024	54.65%	$ 1,186,077
Total		**$ 5,625,661**

This annual loss in tax revenue of $1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost $5,625,661 in total, meaning landlords paid that much less in property taxes. The State did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

A. Machinery and Equipment Tax Replacement in FY 2003 (-$200,000)
B. Personal Property Tax Replacement in FY 2004 (-$350,000)
C. Municipal Assistance in FY 2004 (-$300,000)
D. Liquor Sales Revenue in FY 2004 (-$250,000)
E. Bank Franchise Tax in FY 2005 (-$145,000)
F. Alcohol License Revenue in FY 2023 (-$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

o) **Taxable Value** FY 2027 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+3.51 %
Commercial	+15.63 %
Industrial	+8.22 %
Overall	+5.89 %

*Overall taxable value increased 5.89% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2027.

p) Greater Downtown Tax Increment Financing

- In Fiscal Year 2027, $5,392,989 million in internal loans will be repaid by the Greater Downtown Tax Increment Financing Fund and the Dubuque Industrial Center Tax Increment Financing Fund to the General Fund. $702,793 of the repayment is recommended to be used for general property tax relief in Fiscal Year 2027. $931,899 of the internal loan repayment is recommended to fund non-recurring improvement packages. and $349,684 is recommend to fund recurring improvement packages in the general fund. $587,638 will be used as an internal loan to the Refuse Collection enterprise fund. $180,693 will be used as an internal loan to the Garage Services internal service fund.The balance will be reserved for the Fiscal Year 2028 budget process as the City needs to be prepared for property tax reform being considered in the State legislative session.

◦ Beginning in Fiscal Year 2028, the Greater Downtown Tax Increment Financing District will no longer collect 100% of revenues. Instead, the Greater Downtown TIF District will begin collecting 75% of revenues. The remaining 25% will be returned to the general funds of all taxing bodies (Dubuque Community School District, City of Dubuque, Dubuque County, Northeast Iowa Community College, and Independent). Based on Fiscal Year 2027 valuations and the Fiscal Year 2026 consolidated tax rate, collecting only 75% in the Greater Downtown TIF District will annually return approximately $1.3 million to Dubuque Community School District, $1.2 million annually to the City of Dubuque, $678 thousand annually to Dubuque County, $93 thousand annually to Northeast Iowa Community College, and $111 thousand annually to Independent taxing bodies. This also means that beginning in Fiscal Year 2028, the Greater Downtown TIF District will have $3,250,000 less each year for programs and projects.

q) Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by $101,268 in FY 2027 to $4,374,313 due to the estimated consumer price index.

r) Franchise Fees. Natural Gas franchise fees are based on FY 2025 actual of $1,743,494. Also, Electric franchise fees are based on FY 2026 budget of $5,075,053 plus rate increases of 5.6%. The franchise fee revenues are projected to increase at an annual rate of 4 percent per year from FY 2028 through FY 2031.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

s) Property Tax Rate. For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2027.

t) Police & Fire Protection. FY 2027 reflects the fifteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2027, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

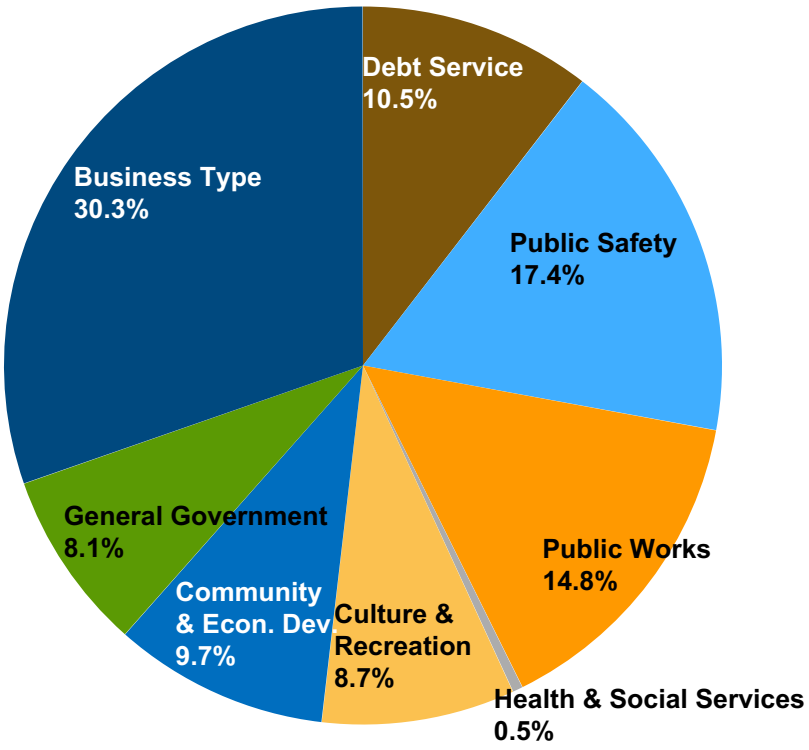
EXPENDITURE HIGHLIGHTS

EXPENDITURE PROJECTIONS

The expenditure projection process starts with 5 year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year actuals and current year-to-date amounts are used to project both the current year and next four year's revenues. The City Manager and the Chief Financial Officer review estimates, with input from the Finance Director, to make informed judgments on expenditure trends and economic conditions. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer, Budget Manager, and Budget Analysts review all details, discusses with Departments, makes appropriate adjustments and prepare the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, Budget Manager, Budget Analysts, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

HOW THE MONEY IS SPENT
RECOMMENDED FY2027 BUDGET



TOTAL RECOMMENDED BUDGET $265,322,342

*Excludes transfers and non-program expense for self-insurance, Metro Landfill accounts & Agency Fund accounts.

The major requirement assumptions used in preparing the Fiscal Year 2027 recommended budget include the following:

Employee Expense ($+5,393,056/ +6.40% over FY 2026 Adopted Budget)

a) **Pension Systems.**

i) The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.56% percent in FY 2026 to 21.86% percent in FY 2027 (general fund savings of $80,480 for Police and $75,845 for Fire or a total savings of $156,325.

ii) The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2026 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2026 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b) **Collective Bargaining.** The already approved collective bargaining agreements for Dubuque Professional Fire Fighters Association includes a 4% increase, International Union of Operating Engineers includes a 3.25% wage increase, the Dubuque Police Protective Association includes a 5% wage increase, and the Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 include a 3% increase. Non-represented employees include a 3.00% wage increase. Fiscal Year 2027 includes the cost of the multi-year implementation of the classification and compensation study. A classification and compensation study analyzes the job positions (not individuals) in an organization. The purpose of a classification and compensation study is to ensure jobs with comparable minimum qualifications, job responsibilities, supervisory expectations, working conditions and environments are grouped closely in a compensation plan. Salary ranges are competitive within the identified market, and to equip the human resources team to consistently administer classification and compensation programs on an ongoing basis. The City's strategy through this study has been to recommend a new compensation strategy in which the City is competitive at the 50% percentile of employers. Total cost of the wage increases for collective bargaining and non-represented employees, and continued classification and compensation study implementation is $3,509,780 to the General Fund.

c) **Health Insurance.** The City portion of health insurance expense is projected to increase from $1,119 per month per contract to $1,175 per month per contract (based on 662 contracts) in FY 2027 (increase of $589,333 to the general fund). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings.There was a decrease of $639,758 in prescription drug cost in FY 2022. Based on FY 2026 actual experience, Fiscal Year 2027 is projected to have a 5.35% increase in health insurance costs. Estimates for FY 2028 were increased 5.36%; FY 2029 were increased 5.37%; FY 2030 were increased 5.38%; and FY 2031 were increased 5.38%. Effective January 1, 2027, employee contributions will increase.

d) **Five-Year Retiree Sick Leave Payout.** FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2026 was $288,742 as compared to FY 2027 of $228,836, based on qualifying employees officially giving notice of retirement.

e) **50% Sick Leave Payout.** Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2026 was $128,496 as compared to FY 2027 of $141,764, based on FY 2026 year-to-date expense.

f) **Parental Leave.** Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

Supplies and Service ($-1,399,126 / (2.23)% under 2026 Adopted Budget)

g) **Supplies & Services.** General operating supplies and services are estimated to increase 2% over actual in FY 2025. A 2% increase is estimated in succeeding years.

h) **Electricity.** Electrical energy expense is estimated to increase 4% over FY 2025 actual expense, then 2% per year beyond.

i) **Natural Gas.** Natural gas expense is estimated to increase 0% over FY 2025 actual then 2% per year beyond.

j) **Travel Dubuque.** The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k) **Equipment & Machinery.** Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget, then remain constant per year beyond.

l) **Debt Service.** Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m) **Unemployment.** Unemployment expense in the General Fund decreased from $23,824 in FY 2026 to $27,007 in FY 2027 based on estimated premium for FY 2026.

n) **Motor Vehicle Fuel.** Motor vehicle fuel is estimated to decrease 30% under the FY 2026 budget based on the City fuel island fully operational in FY 2027and no longer purchasing from retail gas stations, then increase 2.0% per year beyond.

o) **Motor Vehicle Maintenance.** Motor vehicle maintenance is based on the FY 2026 budget, then increase 2.0% per year and beyond.

p) Public Transit. The increase in property tax support for Transit from FY 2026 to FY 2027 is $434,533, which reflects a decrease in Federal Transportation Administration Operating revenue ($154,667); a decrease in Federal Transportation Administration Capital ($344,329), an increase in employee expense ($111,155); decrease in supplies and services ($120,569); a reduction in equipment replacements ($99,615), a decrease in passenger fare revenue ($2,579).

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
2027 Projection	$ 2,361,869	22.55 %
2026 Budget	$ 1,927,336	(1.74)%
2025 Actual	$ 1,961,488	26.70 %
2024 Actual	$ 1,548,127	(1.52)%
2023 Actual	$ 1,571,981	(1.83)%
2022 Actual	$ 1,601,290	(2.09)%
2021 Actual	$ 1,635,441	4.94 %
2020 Actual	$ 1,558,460	(0.82)%
2019 Actual	$ 1,571,307	(0.10)%
2018 Actual	$ 1,572,825	34.10 %
2017 Actual	$ 1,172,885	24.41 %
2016 Actual	$ 942,752	(13.00)%

q) Shipping & Postage. Postage rates for FY 2027 are estimated to increase 5% over FY 2025 actual expense and proposed cost increases by United States Postal Service. A 3.0 percent increase is estimated in succeeding years.

r) Insurance. Insurance costs are estimated to change as follows:

- Workers Compensation is decreasing 44.18% based on rate change.
- General Liability is decreasing 3.06% based on rate change.
- Damage claims is decreasing 6.86% based on a three year average.
- Property insurance is increasing based on FY 2026 actual over 2%.

s) Housing. The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease $69,521 in FY 2027. The budgeted administrative cost of the Housing Choice Voucher Program decreased from $1,129,462 in FY 2026 to $988,895 in FY 2027. Administrative revenue of the Housing Choice Voucher Program decreased from $912,012 in FY 2026 to $827,089 in FY 2027. The resulting Housing Choice Voucher Program deficit decreased from $217,450 in FY 2026 to $161,806 in FY 2027. This deficit is funded by property taxes.

t) Communications Department. In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, was no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position was recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions were recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

u) Communications Department. In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, will no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position is recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions are recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

v) Greater Dubuque Development Corporation. Greater Dubuque Development Corporation support of $836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2027, with $26,500 for Targeted Neighborhood Reinvestment strategy paid from the Greater Downtown TIF. In FY 2028 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

Capital Outlay ($-673,867 / (14.67)% under FY 2026 Adopted Budget)

w) Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget based on equipment replacement schedules, then remain constant per year beyond

Debt Service ($-1,545,954 / (5.27)% under FY 2026 Adopted Budget)

x) Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement

*These projections do not include any anticipated tax burden shifts as a result of state-issued equalization orders or rollback factors.
The projections for the cost of municipal services are based on average water usage for residential single family is 3,200 gallons per month and assessed value on the home in FY 2027 of $196,508 (before rollback). State increased property taxes to the average homeowner by underfunding the Homestead property tax credit. FY 2020-2027 residential property tax projections assume Homestead property tax credit funded 100%, which has happened since FY 2014. The Utility Franchise Fee for gas and electric is calculated for all years using the FY 2015 electric gas rates for average residential customers.

RATES AND COMPARISONS

Water Rate Comparison for Largest Iowa Cities with Water Softening

Rank	City	Water Rate
7	Cedar Rapids (FY27)	34.05
6	Ames (FY27)	27.97

City Property Tax Rate Comparison for Eleven Largest Iowa Cities

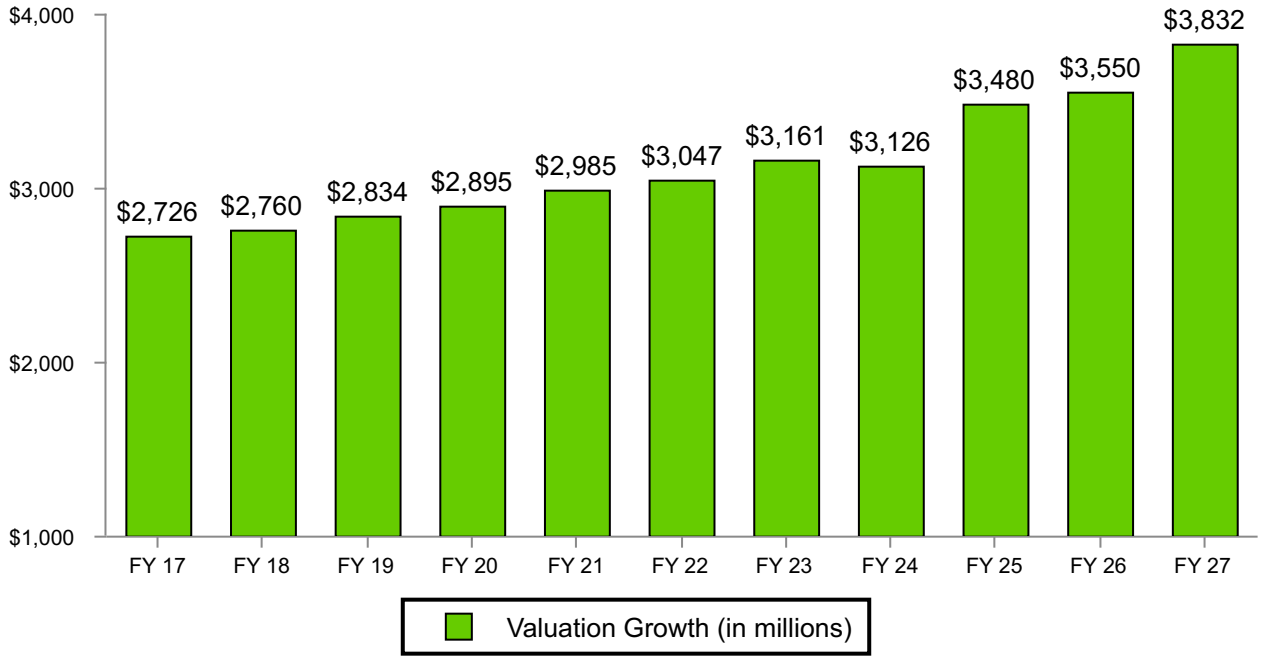
Rank	City	Tax Rate
11	Waterloo (FY27)	$ 24.02
10	Des Moines (FY27)*	$ 17.56
9	Council Bluffs (FY27)	$ 17.48
8	Cedar Rapids (FY27)	$ 16.66
7	Davenport (FY27)	$ 16.58
6	Sioux City (FY27)	$ 15.60
5	Iowa City (FY27)	$ 15.43
4	West Des Moines (FY27)*	$ 11.75
3	Ankeny (FY27)*	$ 10.53
2	Ames (FY27)	$ 10.27
1	**Dubuque (FY27)**	**$ 10.16**
	AVERAGE w/o Dubuque	$ 15.59

Dubuque has the LOWEST property tax rate as compared to the eleven largest cities in the state. The highest rate (Waterloo (FY27)) is 136.28% higher than Dubuque's rate, and the average is 53.35% higher than Dubuque. Dubuque's adopted FY 2027 property tax is $10.16 (increase of 1.00% from FY 2026)

*Includes the transit tax levy adopted by the Des Moines Area Regional Transit Authority for comparability.

VALUATION GROWTH

History of Taxable Debt Valuation (in millions)



The FY 2027 budget is based upon a 7.93% increase ($281,377,081) to the taxable debt valuation for the City. Without Tax Increment Financing there is a 5.89% increase in the taxable valuation for all other levies (General Fund property tax levy). The total taxable debt valuation of $3,831,798,549 is made up of the following components:

Valuation by Class of Property	Taxable Debt Valuation	Percentage of Valuation	Change from Prior Year
Residential & Ag property	$ 2,139,000,770	55.82 %	3.51 %
Ag Land & building	3,458,250	0.09 %	— %
Commercial property	1,485,347,469	38.76 %	15.63 %
Industrial property	168,152,430	4.39 %	8.22 %
Railroad bridge	4,777,321	0.12 %	2.91 %
Other	566,419	0.01 %	(0.76)%
Utilities	65,123,490	1.70 %	(6.46)%
Less: Veterans credit	(31,169,350)	(0.81)%	1.00 %
Ag Land & building	(3,458,250)	(0.09)%	— %
Total	$ 3,831,798,549	100 %	7.93 %
Tax Increment Financing (TIF)	($694,617,071)		18.16 %
Taxable Levy	$ 3,137,181,478		5.89 %

Utilities - Excise Tax

Legislation in FY 2001 changed the taxation of utilities from a property tax to an excise tax. The City's tax rate/$1,000 is first calculated on a valuation which includes utilities, then those calculated rates are used against a valuation figure with utilities removed. The excise tax makes up the difference in each levy.

Rollback

The growth in the valuation for the City of Dubuque continues to be impacted by the State of Iowa rollback adjustment. The State adjusts taxable valuations based upon a formula using the growth of the value of agricultural land. In the late 1980's the rollback was 80.6%, meaning only 80.6% of the value was taxable. For FY 2027 the State issued rollback for residential property is 46.34%.

Comparison for Eleven Largest Iowa Cities
Taxable Value per Capita

Rank	City	Taxes Per Capita	Tax Rate	2020 Census Population	Taxable Value With Gas & Electric
11	West Des Moines	$ 1,419.67	$ 11.7500	68,723	8,303,317,423
10	Council Bluffs	$ 1,232.24	$ 17.4800	62,799	4,426,964,995
8	Waterloo	$ 1,115.87	$ 24.0178	67,314	3,127,420,037
9	Cedar Rapids	$ 1,061.86	$ 16.6562	137,710	8,779,262,836

FISCAL YEAR 2027

SUMMARY OF ALL DECISION (IMPROVEMENT) PACKAGES WITH PROPERTY TAX IMPACT

There were 145 improvement level decision packages requested in Fiscal Year 2027, of which 117 were recommended for funding.

The recurring general fund expenditures total $597,760 and will also impact future budget years. The non-recurring general fund expenditures total $2,187. The remaining improvement packages adopted for funding from non-property tax support total $1,507,077.

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
RECURRING DECISION PACKAGE COSTS				**GENERAL FUND**	
City Attorney's Office	Annual and recurring license that would give the City Attorney's Office direct access to Police Department records. Records are often needed for traffic court, simple misdemeanors and municipal infractions.	R	600	469	131
City Clerk	Business license and permits fee increases. These updates are intended to reflect administrative time and compliance oversight required to manage these licenses and permits.	R	—	2,145	(2,145)
City Manager's Office	Growing Sustainable Communities Conference elimination due to significant cost increases and reduced momentum in sponsorships.	R	(91,145)	79,302	(11,843)
Community Impact	Increase city's financial support for Community Impact Administrative Support position by 0.58 FTE. Historically, this portion of the position has been funded by the AmeriCorps grant. Due to the expanding of the department, additional duties have emerged that are unrelated to the AmeriCorps operational needs.	R	43,157		43,157
Economic Development	SlideRoom Grant Application Software is essential for managing applications and post-grant reports for Arts & Cultural Affairs grant programs. This software ensures a fair and efficient process.	R	3,000		3,000
Economic Development	Bringing in a Arts Grants Consultant for grant eligibility and financial review process. Hiring a consultant would eliminate the need for a 0.25 FTE intern position and provide cost savings.	R	(7,417)		(7,417)
Emergency Communications	911 Public Safety Applicants testing software upgrade. This softwares allows to administer an unlimited number of online tests to applicants at home.	R	2,368	1,184	1,184
Emergency Communications	Software to track training requirements for 911 Dispatch staff	R	3,000	1,500	1,500
Emergency Communications	Emergency Communications Vehicle. Due to the new center location, staff are traveling more for in-person meetings. 75% of the vehicle use would be for City purposes and 25% for the Emergency Communications purposes.	R	40,000	5,000	35,000
Engineering	Full size cargo van equipped with storage racking, tools and supplies for Facilities Maintenance.	R	62,000		62,000
Engineering	1.0 FTE Maintenance worker for all City Buildings. Current staffing levels are not sufficient to maintain buildings in a safe, reliable, and cost-effective manner.	R	86,439		86,439
Engineering	1.0 FTE Custodian I for the Bright Minds Campus on Chavenelle Rd location. A portion of the costs for this position will be shared between other tenants of the facility.	R	77,793	40,581	37,212
Engineering	New truck for the Engineering Technician position. The addition of this truck will ensure the new Engineering Technician position can perform duties efficiently and safely without relying on shared or personal vehicles.	R	49,500		49,500

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Engineering	Increased funding for the partnership with the East Central Intergovernmental Association to maintain Dubuque's traffic modeling system.	R	50,000		50,000
Fire	New Position for Fire Code Official / Fire Prevention & Plan Review Manager. The cost of this package includes wage, benefits, vehicle, equipment and office set up. This position is designed to strengthen citywide fire and life safety code compliance, improve efficiency in the development review process, and enhance collaboration amount key departments and private stakeholders.	R	195,202		195,202
Fire	Addition of a new Computer Workstation at Fire station 4. There are currently two shared computer workstations, one used by the company officer who manages daily station operations, administrative duties, and incident reporting, and a second shared amount the four firefighter paramedics assigned to the station.	R	2,075		2,075
Fire	Annual Generator Maintenance. The generators were purchased in FY2025 and were under warranty for one year and will now transition to regular annual service. Each generator will receive an annual check and service to replace worn parts which will keep each generator functioning.	R	3,120		3,120
Fire	Firefighter 1: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 2: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 3: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 4: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 5: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 6: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Fire	Firefighter 7: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 8: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 9: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Incorporating Scenario-based assessments promotional testing process which occurs once every two years. The addition of an assessment center component will enhance the evaluation of candidates by requiring them to demonstrate practical leadership and decision-making skills in simulated environments.	R	9,000		9,000
Fire	Creation of Dubuque Fire Explorer Post Program for youth ages 14-18. Initially submitted as recurring but recommended as non-recurring.	R	10,000		10,000
Health	CitizenServe Permitting and Inspection (7) software licenses. This software can be configured to reflect City of Dubuque health and animal control codes, associated citations, fines and reporting.	R	10,500		10,500
Health	Part-Time Animal Control Officer to enhance weekday and weekend service coverage and support the successful implementation of the City's new animal licensing program. Currently, the program operates with two full-time Animal Control Officers.	R	50,822		50,822
Housing	Two ICC Premium Complete subscriptions, which provide full online access to ICC's code library. Premium Complete access includes all published ICC code books, many referenced standards, official code interpretations, and advanced search tools. It also allows printing of code sections to share with citizens, providing clearer communications and helping them better understand applicable code requirements.	R	1,300		1,300
Housing	Housing and Community Development Administrative Support Professional (Requests in General Fund and Lead Fund).	R	69,548		69,548
Information Technology	User Technology Support Specialist to support the increased demand for IT infrastructure and support services. Timely and effective technical support is crucial to maintain productivity and minimize disruptions. The IT department currently has two User Technology Support Specialists.	R	91,867		91,867
Information Technology	Lead Applications Network Analyst. This position primarily focuses on all City application support with increased software and artificial intelligence use. The IT department currently has three Lead Applications Network Analysts, with two of these positions primarily focused on public safety.	R	105,435		105,435

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Information Technology	IT Service Management Software - combines several pieces of software that IT currently uses under one umbrella. This new software includes advanced security features to protect our data, safeguard against cyber threats, and ensure compliance with industry standards. It automates routine tasks such as software updates, patch management, and device provisioning, reducing manual workload and minimizing downtime.	R	141,197	75,000	66,197
Information Technology	Addition of a second IT vehicle. The current vehicle is checked out and shared between 18 staff members. A second vehicle would alleviate more staff needing to use their personal vehicles and claiming mileage costs. With the IT staff relocation to the new offices, this issue is compounded with staff need to drive additional distance to every City building, incurring more mileage.	R	40,000		40,000
Parks	1,510 (.72 FTE) additional hours for temporary Park Rangers during the park season. Currently there is one Park Ranger scheduled for evenings Monday through Thursday and two Park Rangers scheduled for evenings on Friday, Saturday and Sunday. The increased hours would provide for two Park Rangers on Monday through Thursday evenings and additional daytime hours on Saturdays and Sundays. The hours would also decrease time needed by the Police Department to respond to calls that park rangers can handle.	R	39,865		39,865
Parks	1.0 FTE Forestry Technician. The Forestry Laborer positions have been difficult to fill due the requirement of a commercial drivers license to operate the forestry equipment. This does not allow for forestry staff to efficiently perform their duties especially during storm response. The Forestry activity has seen an increased workload due to more frequent storms, tree plantings, and additional training and work requirements. There are currently Forestry Technicians (2.0 FTE) in the Forestry Activity. Funds are also budgeted for (2) Temporary Forestry Laborers (1.0 FTE).	R	73,586		73,586
Parks	1.0 FTE Maintenance Technician responsible for all areas of park maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Assistant Field Operations Manager to ease the administrative burden and support the Parks Division Manager as recommended by the Parks and Recreation Comprehensive Master Plan.	R	106,120		106,120
Parks	1.0 FTE Maintenance Technician responsible for all areas of park maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Maintenance Technician responsible for all areas of trail maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Assistant Horticulturist to support the landscaped areas in roundabouts, new parks and City owned landscape improvements. This position is recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Police	New Crime Analyst Intern Position (0.25 FTE). Several instructors with various colleges in the area have reached out inquiring about internships in criminal analytics. In 2025, a full-time Crime Analyst position was created to improve data-driven decision-making. As this position has grown, a growing need has been identified that could be filled by an intern position.	R	9,011		9,011

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Public Works	Fleet A/C Machine (R-1234yf). Around 2013–2017, most new vehicles began adopting R-1234yf, a low-global-warming-potential (GWP) refrigerant replacing R-134a. The city-owned vehicles that fall within this category, currently require a dealer due to city equipment not being compatible.	R			—
Public Works	Street Maintenance overtime for Barricades/Bollards during Special Events	R	10,000		10,000
Public Works	Fleet Service Coordinator (1.0 FTE). The responsibilities for this position would be split from the Fleet Purchasing & Service Coordinator to improve workflow reliability, strengthen communication and align Public Works with APWA Accreditation standards.	R	79,462		79,462
Public Works	Fleet A/C Machine (R-1234yf). Around 2013–2017, most new vehicles began adopting R-1234yf, a low-global-warming-potential (GWP) refrigerant replacing R-134a. The city-owned vehicles that fall within this category, currently require a dealer due to city equipment not being compatible.	R	9,750		9,750
Recreation	Golf cart passes increased $50 (from $650 to $700). These passes are sold separately from the annual Golf Pass which covers the pass holder's daily rounds.	R	—	2,600	(2,600)
Recreation	Reallocation and reduction of temporary employee expenses (-0.50 FTE). Within the budget activities of Youth Sports, Recreation Classes, and Therapeutic Recreation, the program are being corrected based on current operations.	R	(26,659)		(26,659)
Recreation	Mobile Event Trailer - 0.1 FTE and income increase. Since the addition of the mobile Rec & Roll trailer program, the department consistently receives inquiries as to the option to rent out the trailer. This IP depends on the approval of the related CIP for an additional Rec & Roll Trailer.	R	2,641	2,700	(59)
Recreation	Full-time Community Outreach & Public Communications Coordinator (1.0 FTE, NB-11). Recommended from Parks & Rec master plan. This position is needed due to citizens not being aware of Parks and Recreation offerings.	R	106,668		106,668
Transportation Services - Transit	Part-time Bus Attendant Position (0.50 FTE, NB-05). This position is needed due to safety concerns with students on the afternoon buses.	R	26,251		26,251
	TOTAL GENERAL FUND RECURRING PACKAGES		**2,754,578**	**936,583**	**1,976,599**
NON-RECURRING DECISION PACKAGE COSTS				**GENERAL FUND**	
Human Resources	Temporary Office Assistant position (0.50 FTE) to support the City's transition to digitized personnel records. If this is recommended, the improvement package request for a third-party provider to digitize records is no longer needed.	N	29,160	22,809	6,351
Information Technology	Copilot Licensing - 200 additional licenses. 100 licenses were purchased and approved previously, but demand for licenses has far exceeded the initial purchase. Initially submitted as recurring but recommended as non-recurring.	N	2,187		2,187
	TOTAL GENERAL FUND NON-RECURRING PACKAGES		**31,347**	**22,809**	**8,538**
	TOTAL RECURRING AND NON-RECURRING TAX SUPPORTED		**$ 2,785,925**	**$ 959,392**	**$ 1,985,137**

1. Use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program.
2. Tax Increment & Reserve Fund use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program and to repay internal loans for developing the City's industrial parks / technology parks.
3. UDAG Repayments Fund use of fund balance will be used for Economic Development initiatives.
4. Section 8 Fund use of balance is reserved for housing assistance payments.
5. Cable TV & Equipment Fund use of fund balance will be used for future capital projects.
6. Expendable Library Gift Trusts Fund use of fund balance will be used for programs and speakers at the Library.
7. Increase in fund balance is required to maintain the operating reserve requirement of 25% of operating expenditures.
8. Stormwater Operation Fund use of fund balance represents spending down cash balance due to debt being issued for the Bee Branch project at a much slower time line which reduced debt service costs and increased fund balance.
9. Refuse Collection Fund use of fund balance will be used for future capital projects.
10. Service Fund Charges addition to fund balance will be used to purchase equipment in future years.
11. Salt Operations Fund addition to fund balance will be used to fund future capital purchases.
12. Passenger Facility Charge Fund balance will be used to pay for debt issued for the new Airport terminal project.
13. Customer Facility Charge Fund balance will be used to pay for parking lot improvements at the Airport.
14. Expendable Police Gift Trusts Fund use of fund balance will be used for maintenance of 1948 Stylemaster and canine expenses.
15. Veteran's Memorial Fund balance will be used for maintenance of the Veteran's Memorial.
16. Special Assessments fund balance is expected to be zero, revenues are transferred to the funds that paid for projects.
17. State Rental Rehab Fund will decline as capital projects spend down the fund balance.
18. Airport Construction Fund balance will be used for future capital projects.
19. The Transit Fund is expected to decrease as one time funding from prior grants are expended on capital projects.
20. The Intermodal Fund is expected to increase due to heightened usage of the ramp.
21. Police Evidence Fund will fluctuate based on active cases in the Police Department.

DISTRIBUTION OF COMMUNITY DEVELOPMENT FUNDS

1

FY 27 ANNUAL PLAN
Pre-Allocation

FOR USE OF PROGRAM YEAR 2026

COMMUNITY DEVELOPMENT BLOCK GRANT

(CDBG) FUNDS

For Inclusion in the Fiscal Year 2027 City Budget.
This document is subject to revision due to the estimated allocation amount.

***Contingency Provision:** If Actual Allocation is an increase from Pre-Allocation, funds up to 15% of previous year program income and the current year entitlement, will increase the allocation of Neighborhood Recreation Programs. If Actual Allocation is a decrease from Pre-Allocation, funds will decrease the allocation of Housing Rehabilitation Services and Staff.

PREPARED BY THE CITY OF DUBUQUE HOUSING & COMMUNITY DEVELOPMENT DEPARTMENT

CITY OF DUBUQUE, IOWA
FY 2027 ANNUAL ACTION PLAN
FOR THE USE OF PROGRAM YEAR 2026
COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS

The City of Dubuque distinguishes between four different but complementary areas of program development in its overall CDBG program: Administration, Housing Development, Neighborhood Development, and Public Facilities. The following description of activities summarizes the projects to be completed in the FY 2027 Annual Action Plan with the use of CDBG funds.

RESOURCES

CDBG Estimated Entitlement FY 2027 **$1,037,080**

Program Income **$194,868**
Program income projections are based on forecast for loan repayments based on the loan portfolio and program income generated from CDBG funded programs.

TOTAL RESOURCES **$1,231,948**

ADMINISTRATION **$246,390**

CDBG regulations limit expenditure on planning and administrative funds to 20% of the current year program income plus the current entitlement. The proposed resources for administration support the plan's current requirements.

CDBG Planning, Monitoring, & Budgeting **$90,000**
Staff support for general management. Oversight and coordination of the Community Development Block Grant program; assures compliance with federal regulations and reporting requirements.

Housing & Community Development Administration **$156,390**
On-going staff support for general management, oversight, and coordination of the Community Development Block Grant housing programs.

Priority:	High
Objective/Outcome:	Provide Decent Affordable Housing/Affordability

HOUSING DEVELOPMENT **$630,000**

Housing Activities **$250,000**
This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential Activities include homeowner rehab, roof replacement, and accessibility improvements.

National Objective:	Low- and Moderate-Income Housing
Location:	City wide
Proposed Accomplishments:	20 Housing Units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Lead & Healthy Homes Grant Match (2024) **$100,000**
This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential activities include lead assessment and lead paint reduction of abatement with forgivable loans to low- and moderate-income residents. This activity is match funding for the Lead and Healthy Homes Grant awarded in FY25.

National Objective:	Low- and Moderate-Income Housing

Location:	City wide
Proposed Accomplishments:	20 Housing units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Healthy Homes Grant Match (2024) **$100,000**

This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential activities include roof replacement with forgivable loans to low- and moderate-income residents. This activity is match funding for the Healthy Homes Grant awarded in FY25.

National Objective:	Low- and Moderate-Income Housing
Location:	City wide
Proposed Accomplishments:	20 Housing units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Housing Rehabilitation Services and Staff **$180,000**

This project includes staff support for program management activities, technical assistance, and loan packaging for the city's Community Development programs.

Priority:	High
Objective/Outcome:	Decent Housing/Affordability

NEIGHBORHOOD DEVELOPMENT $155,558

Public Services activities are restricted to 15% of the previous year program income and the current year entitlement. Public Service activities in this plan represent 15% of the proposed expenditures.

Neighborhood Recreation Programs- Public Services **$146,848**

This project includes enhanced recreation programing offered in low- and moderate-income areas and to low and moderate income residents. Potential activities include expanded after-school programs, community partnerships, and scholarships.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide
Proposed Accomplishments:	300 Persons
Priority:	High
Objective/Outcome:	Suitable Living/Accessibility

Zoning Enforcement **$8,710**

This project provides funding for inspection/enforcement staff services to low/mod income areas for zoning ordinance infractions and to provide support for neighborhood clean-up efforts. Potential activities include staff enforcement for zoning ordinance infractions, and/or housing inspection staff.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide, Low and Mod Area
Proposed Accomplishments:	100 Housing Units
Priority:	High
Objective/Outcome:	Suitable Living/Sustainability

PUBLIC FACILITIES $200,000

Low-Mod Area Park Updates **$200,000**

New playground equipment at low- and moderate- income area parks based on community input.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide, Low and Mod Area
Proposed Accomplishments:	Park Design/Community Input
Priority:	High
Objective/Outcome:	Suitable Living/Sustainability

Grand Total: CDBG Funding Proposed for FY 2027	**$1,231,948**

DEBT MANAGEMENT

This page intentionally left blank.

DEBT SERVICE FUND

The Debt Service Fund is a legally required fund. The fund administers the payments for all of the City's general obligation debt. Revenue bonds, other than those from tax increment revenues, are administered in the enterprise fund that is securing the debt.

For the majority of projects funded through general obligation debt, the City usually issues twenty-year general obligation bonds. In Fiscal Year 2027, there is anticipated to be an additional $12,991,499 in general obligation debt issued that would apply against the statutory debt limit and $13,959,099 in principal retired will be applied against the statutory debt limit.

In fiscal year 2027, debt service expense related to general obligation bonds that counts against the statutory debt limit will increase 6.18% under fiscal year 2026 in the debt service fund. New general obligation bond debt which counts against the statutory debt limit planned to be issued (non-enterprise fund) in fiscal year 2027 is as follows:

Department	Project	Amount of Debt Issue	FY 2027 Debt Service
Airport	Reconstruct Taxiway Alpha - LOST 20%	$804,999	
Economic Development	Downtown Rehabilitation Grant Program - GDTIF	$800,000	
Engineering Facilities	Federal Building Renovation - GDTIF	$1,365,000	
Engineering - Facilities	Radon Mitigation - City Hall- LOST 20%	$20,000	$1,522
Engineering - Misc	Sidewalk Program - Assessable- LOST 20%	$10,000	$760
Engineering - Streets	14th Street Overpass - LOST 30%	$552,108	
Engineering - Streets	Central Ave White St Corridor Master Plan Design and Implementation Improvements 4th-22nd St - LOST 30%	$330,000	
Engineering - Streets	East - West Corridor Capacity Improvements- LOST 30%	$100,000	
Fire	2027 Ambulance Replacement (1914) - LOST 20%	$500,000

Recreation	Marina - Dock Fuel & Electrical System Rehab - LOST 20%	$50,000	
Recreation	Marina Gas Dock Network Switch - LOST 20%	$30,000	
Transportation - Parking	Ramp Major Maintenance - GDTIF	$1,085,000	
	GRAND TOTAL	**$12,991,499**	**$ 2,282**

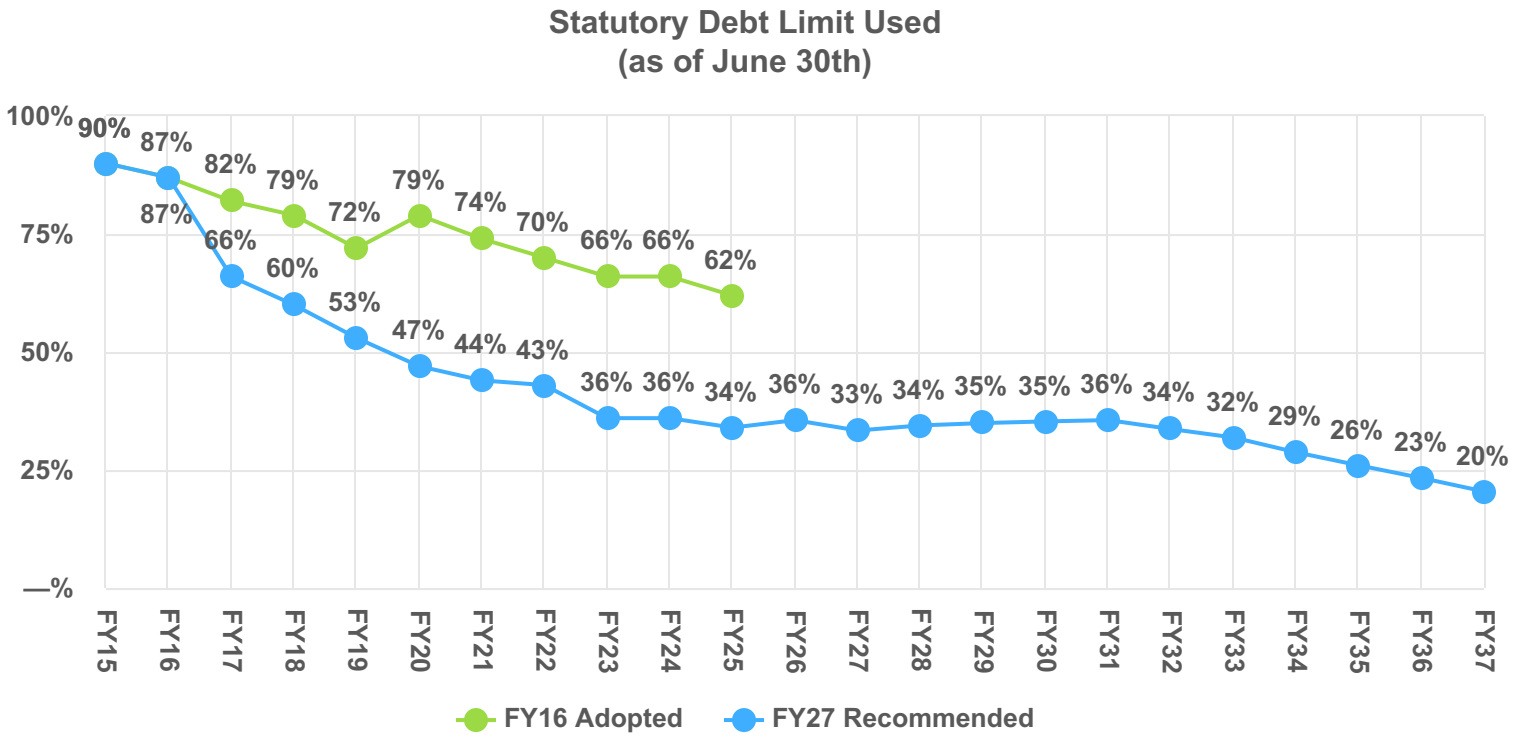
Most of the new debt issued in fiscal year 2027 will be issued in April, which delays principal payments until fiscal year 2028.

The debt service property tax levy finances the bond and interest payments that are not being secured from other revenue sources. The levy rate for debt service will decrease by -0.01 to 0.07503 in fiscal year 2027. The debt service property tax levy represents the repayment of bonds related to the Fire Department pumper truck replacement and the franchise fee litigation judgment bond.

Funding sources other than property taxes are also used to repay general obligation debt. The City's general obligation debt is also funded by other revenues including water, sewer and tax increment financing. One percent of the City's general obligation debt service is funded from the debt service property tax levy. Other revenues being used to repay debt service are shown as transfers in.

Statutory Debt Limit

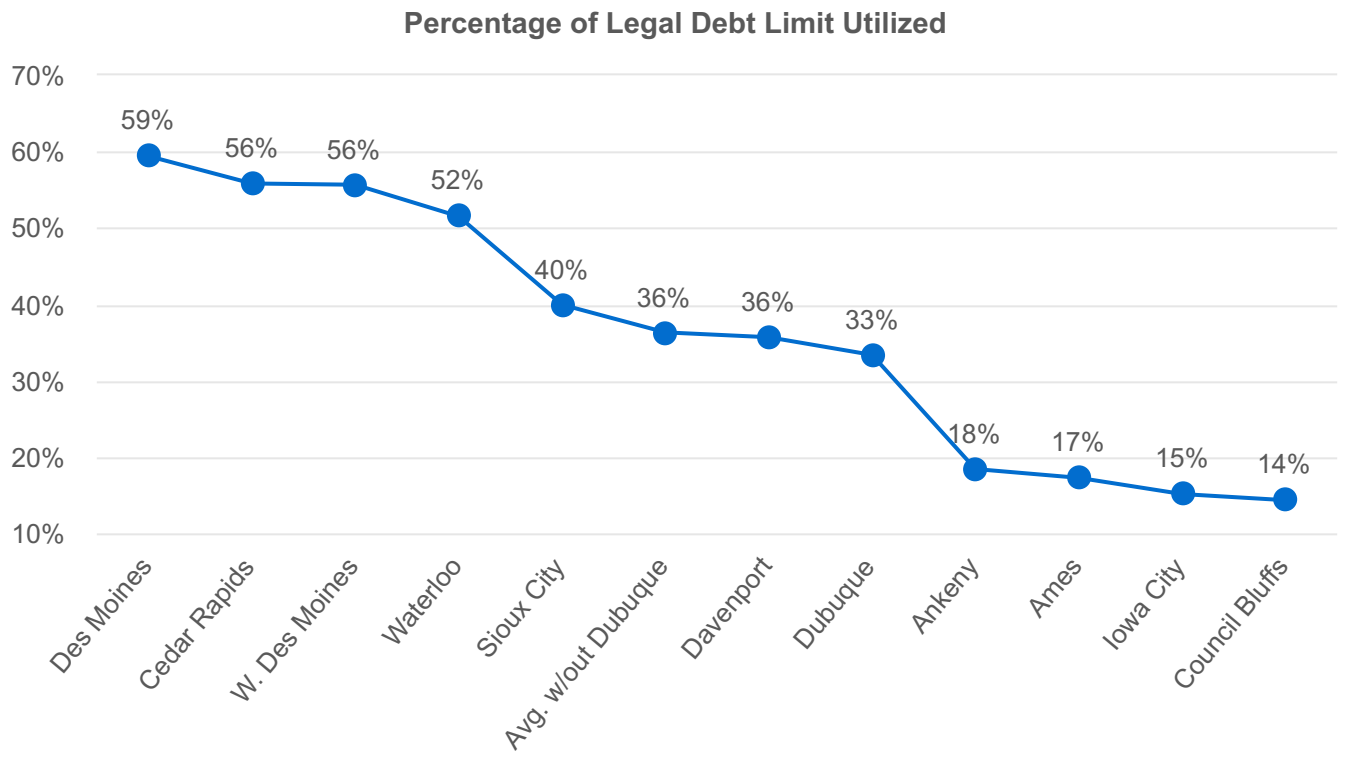
In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements.However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit. Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016**.



The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$964,798,967	$573,230,000	59.41%
10	Cedar Rapids (FY 25)	$551,635,692	$307,090,000	55.67%
9	W. Des Moines (FY25)	$767,559,335	$428,550,000	55.83%
8	Waterloo (FY25)	$267,626,798	$137,905,065	51.53%
7	Sioux City (FY25)	$493,660,291	$176,195,000	35.69%
6	Davenport (FY25)	$367,743,172	$146,935,000	39.96%
5	Dubuque (FY27)	$358,374,258	$115,136,523	33.38%
4	Ankeny (FY25)	$529,988,951	$97,645,000	18.42%
3	Ames (FY25)	$328,345,527	$56,710,000	17.27%
2	Iowa City (FY25)	$435,367,793	$65,945,000	15.15%
1	Council Bluffs (FY25)	$427,559,692	$61,320,000	14.34%
	Average w/o Dubuque			36.33%



STATUTORY DEBT CAPACITY

FISCAL YEAR 2027 RECOMMENDED BUDGET

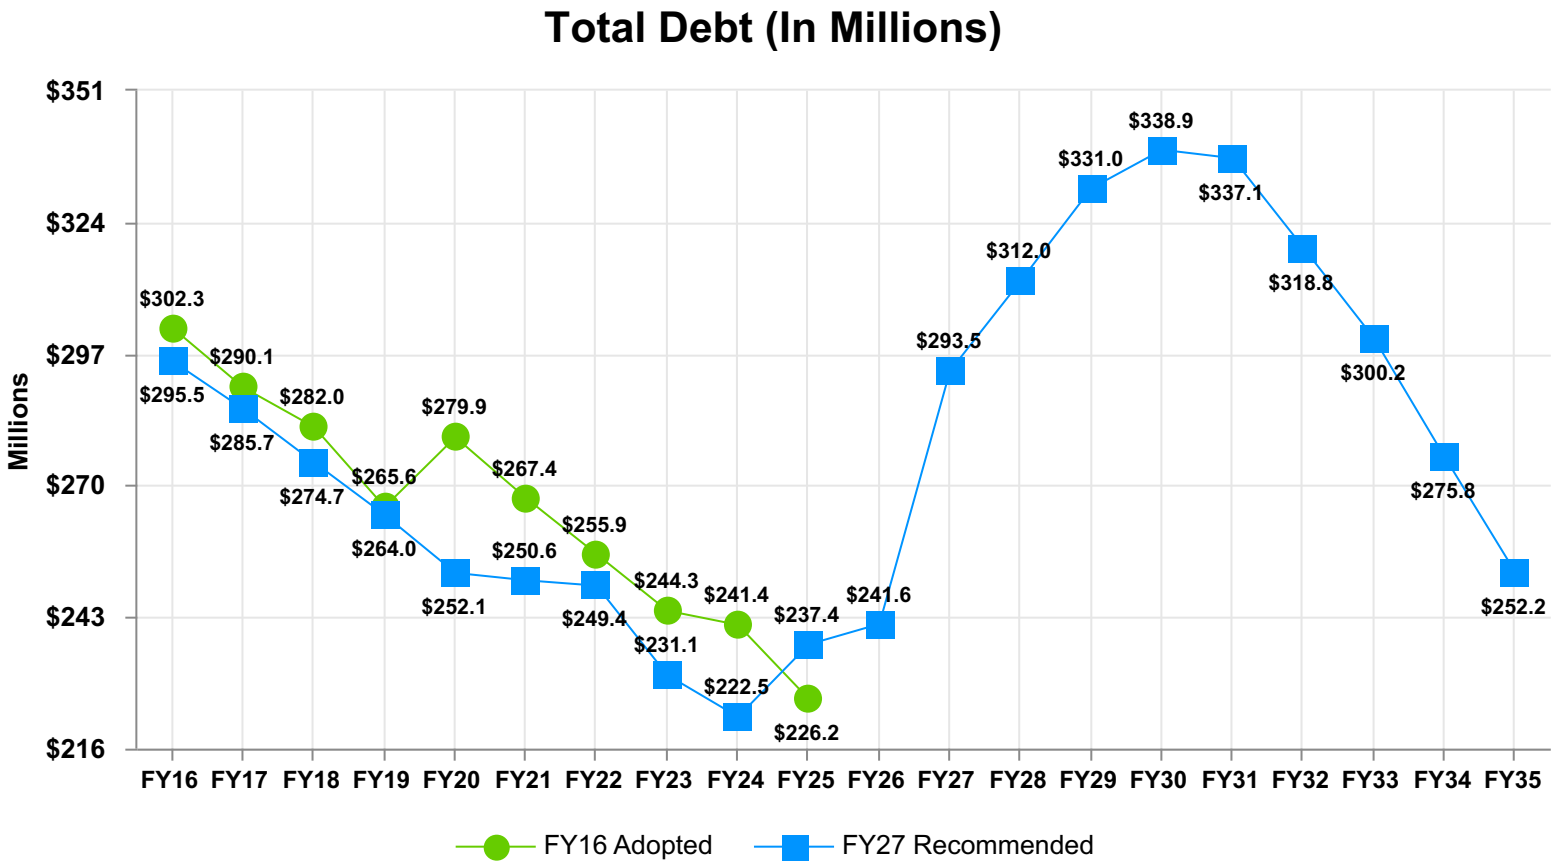
The Iowa Constitution (Article XI, Section 3) stipulates that the debt of a community may not exceed five percent of the Actual Assessed Value of Taxable Property (debt levy) within the city or town.

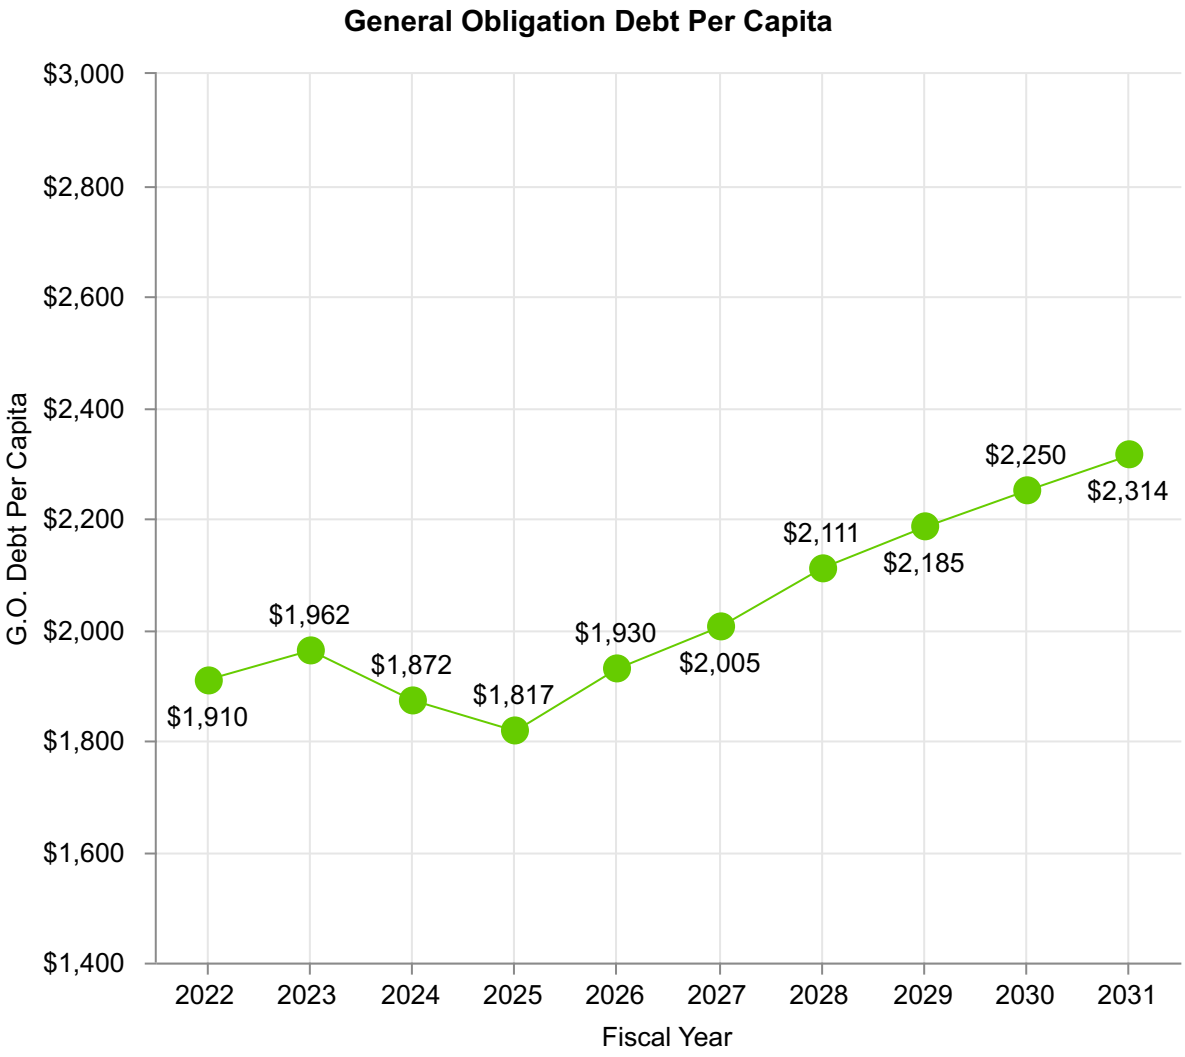
General Obligations, TIF debt (bonds, notes and rebates), and leases paid from the general fund are included as indebtedness of the City under the statutory debt limit.

		January 1, 2025 FY 2027
ASSESSED VALUE OF REAL PROPERTY	$	6,749,381,987
Less Veterans' Exemption		(31,169,350)
Subtotal		6,718,212,637
UTILITIES ASSESSED VALUE		449,272,514
TOTAL ASSESSED VALUE OF TAXABLE PROPERTY		7,167,485,151
		June 30, 2027
STATUTORY DEBT (5% OF TOTAL ASSESSED VALUE)		358,374,258
Less Outstanding G.O. Debt, TIF Debt & Lease Obligations paid from General Fund		119,617,156
STATUTORY DEBT CAPACITY	$	238,757,102
PERCENT OF LEGAL DEBT MARGIN UTILIZED		33.38 %

Total Debt Outstanding

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $338.87 million (35.31% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit**, and the projection is to be at $252.16 million (26.00% of statutory debt limit) within 10 years.





General Obligation Debt Per Capita reflects all general obligation bonds, both tax supported and enterprise fund supported.

City of Dubuque
Summary of Bonded Indebtedness

Description	Date of Issue	Average Interest Rate	Year of Final Payment	Amount of Issue	Principal Outstanding 6/30/26	Principal Due FY 2027	Interest Due FY 2027	Principal Outstanding 6/30/27

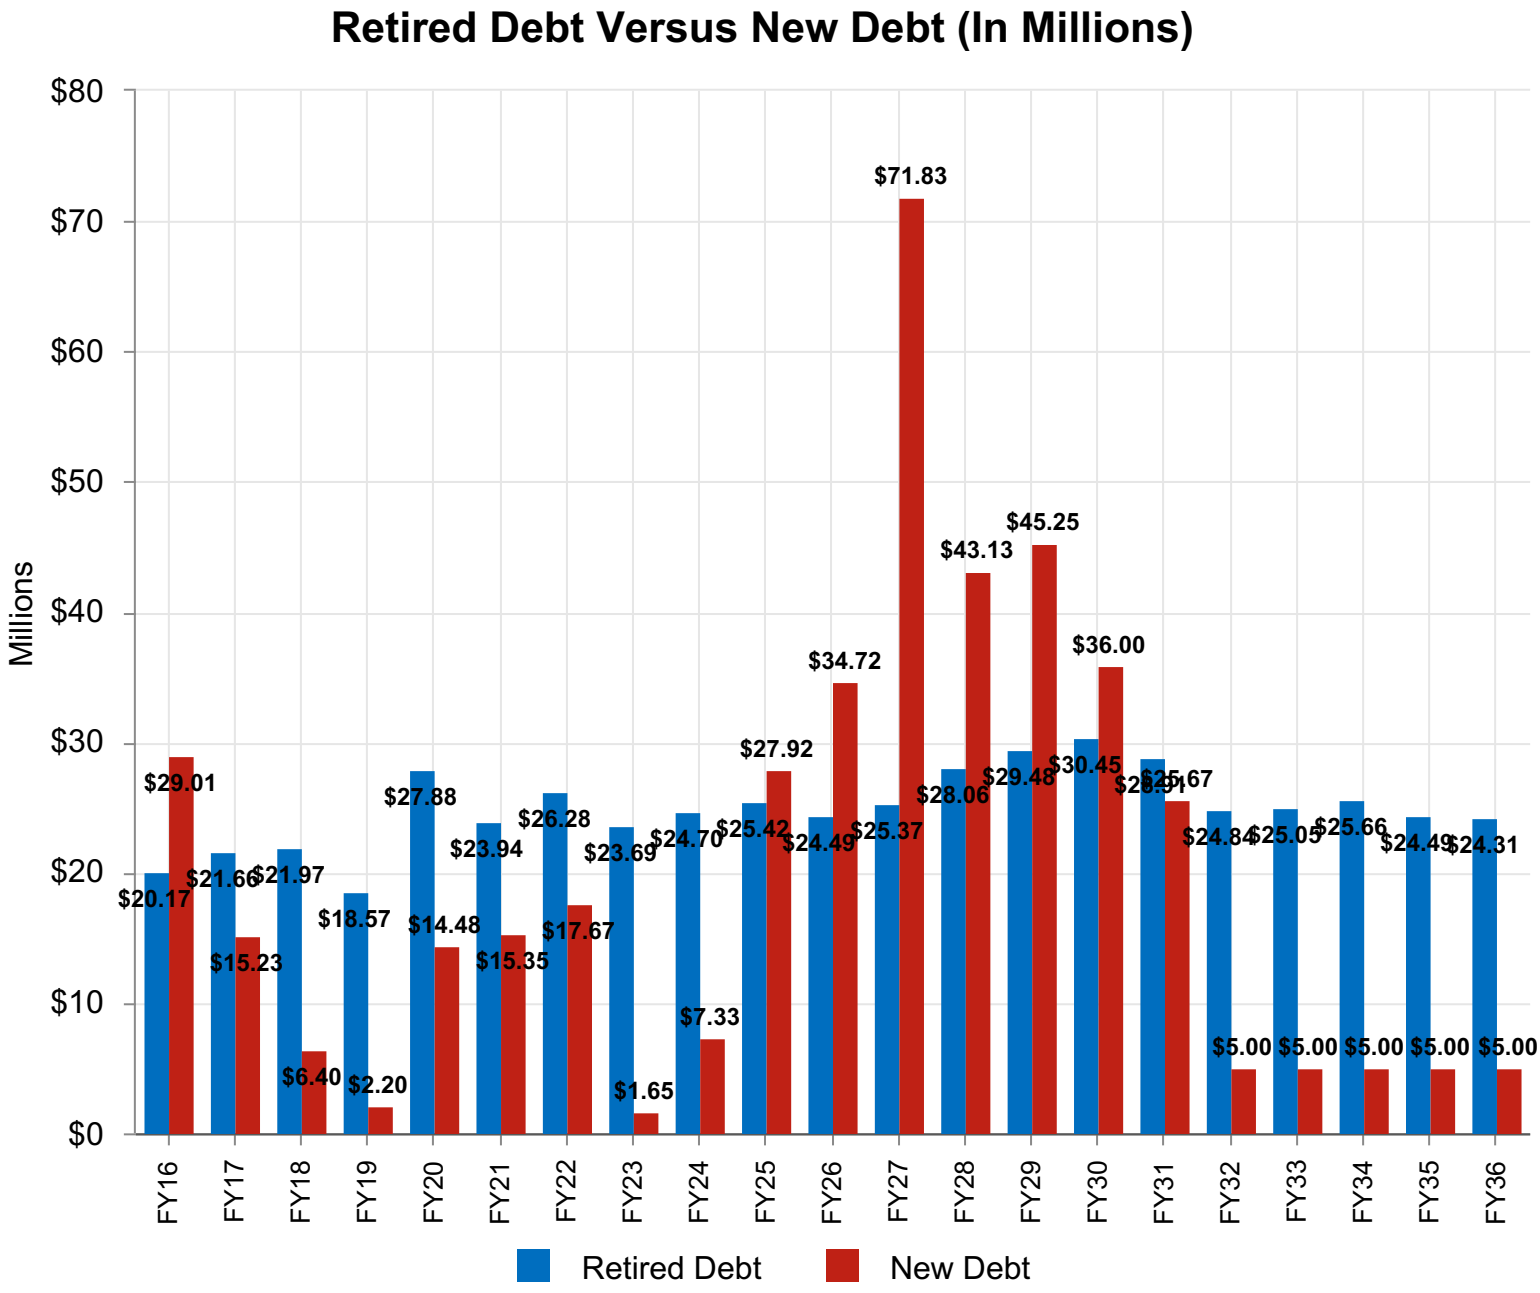
Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:



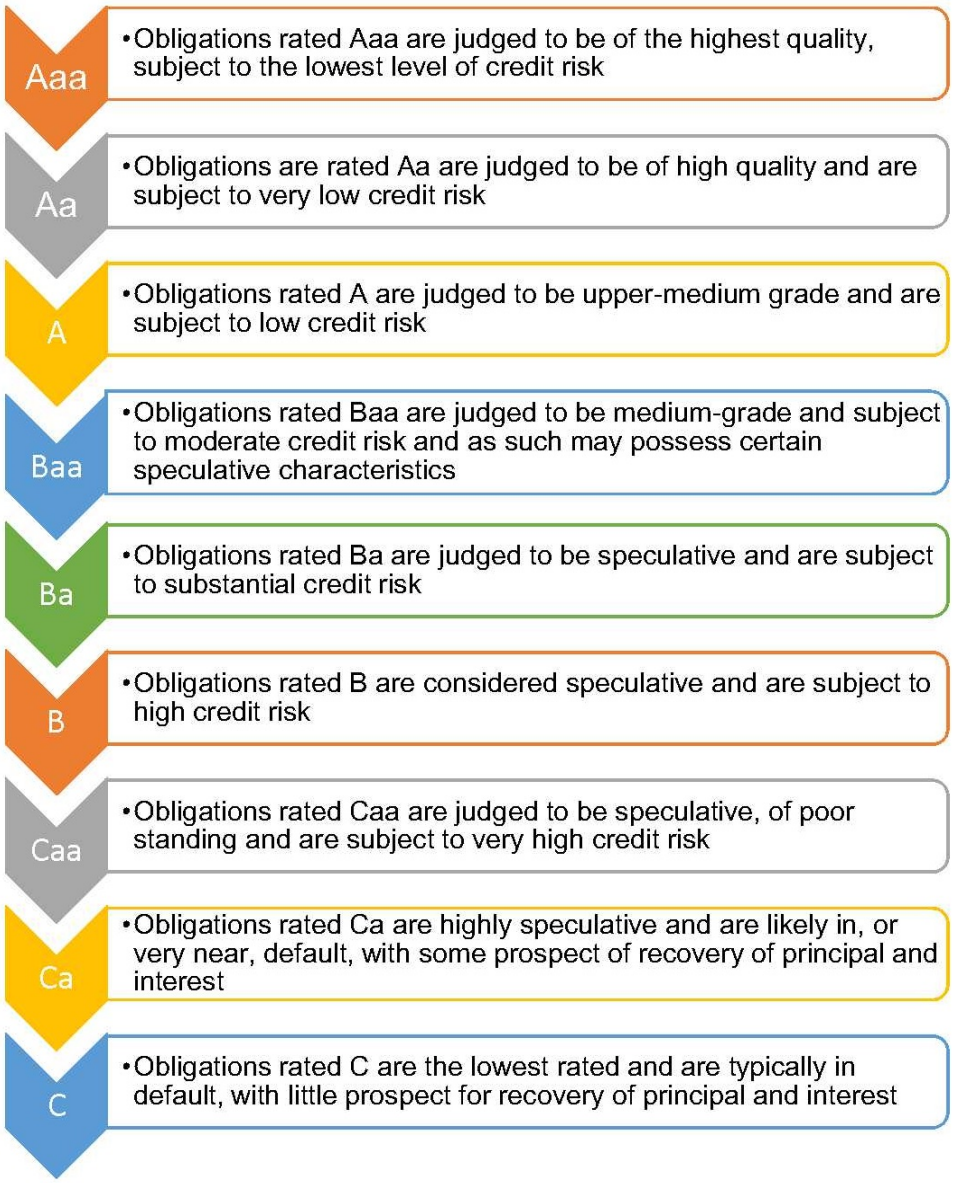
Bond Rating

The City's General Obligation Debt ratings with Moody's Investors Service is Aa2. In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1.

Credit Strengths:

- Regional economic center
- Solid resident income and full value per capita
- Financial operations are strong
- Revenue raising flexibility remains strong

Moody's Investors Service Rating Scale



FY 2027 Moody's Investors Service Bond Ratings Comparison for Iowa Cities

Ranking	City	Rating
1	Iowa City	AAA
	West Des Moines	AAA
	Cedar Falls	AAA
2	Cedar Rapids	Aa1
	Ames	Aa1
	Ankeny	Aa1
	Clive	Aa1
	Urbandale	Aa1
	Marion	Aa1
3	**Dubuque**	**Aa2**
	Des Moines	Aa2
	Davenport	Aa2
	Waterloo	Aa2
	Sioux City	Aa2
	Bettendorf	Aa2
	Council Bluffs	Aa2

In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City's available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

CAPITAL BUDGET

This page intentionally left blank.

CAPITAL IMPROVEMENTS PROGRAM (CIP)

The City's five-year Capital Improvement Program (CIP), contained in a separate document, and is used to plan for major changes to the City's infrastructure and other capital improvements. Departments propose projects in the fall and a draft of the CIP is developed before operational budgets are submitted. The CIP by department is reviewed with the operating budgets during budget hearings with City Council in February. The CIP is approved in March with the operating budget.

The CIP document has a page for every project and the format includes description of the project, City Council Goals & Priority outcome, funding restrictions, effect on operations, and relationship to other projects. The CIP recommendation reflects the City's comprehensive plan and the goals and priorities established by City Council.

The FY 2027 recommended capital projects are incorporated into the budget as capital programs. They are found at the end of each applicable program section. Projects which have an effect on operations are noted. The City's CIP Policies are shown in the Policy Budget documents.

The five-year CIP recommended through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and is $352,840,562. This is a $1,246,009, or 0.35% increase.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $176,633,737 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, street improvement), East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements, for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. By far the greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	($13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017.01
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58 %
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the net reduction of debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	$26,579,333	$43,133,602	$45,254,925	$35,996,472	$25,669,405	$176,633,737
Retired Debt	-$25,371,787	-$28,057,116	-$29,480,446	-$30,454,045	-$28,910,190	-$142,273,584
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

Capital improvement activities have been established in the City's budget to separate CIP projects and project expense (i.e., Storm Sewer Capital Improvement Activity, Street Capital Improvement Activity, Park Capital Improvement Activity) from operating expense (i.e., supplies, insurance salaries). The State of Iowa budget law requires that a city's budget be prepared and certified on a program basis. This means that each activity must fall under one of the State mandated budget program areas.

Table 1 below shows a summary of the five-year CIP by State Program. This is a increase of $1,246,009 from the FY 2026-2030 total CIP budget of $351,594,553.

TABLE 1 - FISCAL YEAR 2027-2031 CIP CAPITAL IMPROVEMENT PROGRAM

CITY OF DUBUQUE, IOWA

Fiscal Year 2027-2031 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2027-2031 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 28, 2026, at the same time as the public hearing on the Fiscal Year 2027 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the $1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City was successful in obtaining several large grants and now will be implementing those projects, especially the Bee Branch Flood Mitigation Project, 16th Street Pumping Station, and the 14th Street Overpass project.

A particular emphasis in this five-year CIP is modernization of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond. In the current fiscal year (FY 2026), the City will have allocated $22,026,250 and in this new five-year CIP, the City will have allocated an additional $74,871,571 for a total of $96,897,821 from July 2025 through December 2031.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $221,888,207 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements , for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. The greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	($13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017.01
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58%
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Total New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the net reduction of debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**
Retired Debt	**-$25,371,787**	**-$28,057,116**	**-$29,480,446**	**-$30,454,045**	**-$28,910,190**	**-$142,273,584**
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027. In FY 16 the City was at 86.13% of statutory debt limit, so 33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	36.48%	35.85%	34.10%	35.58%

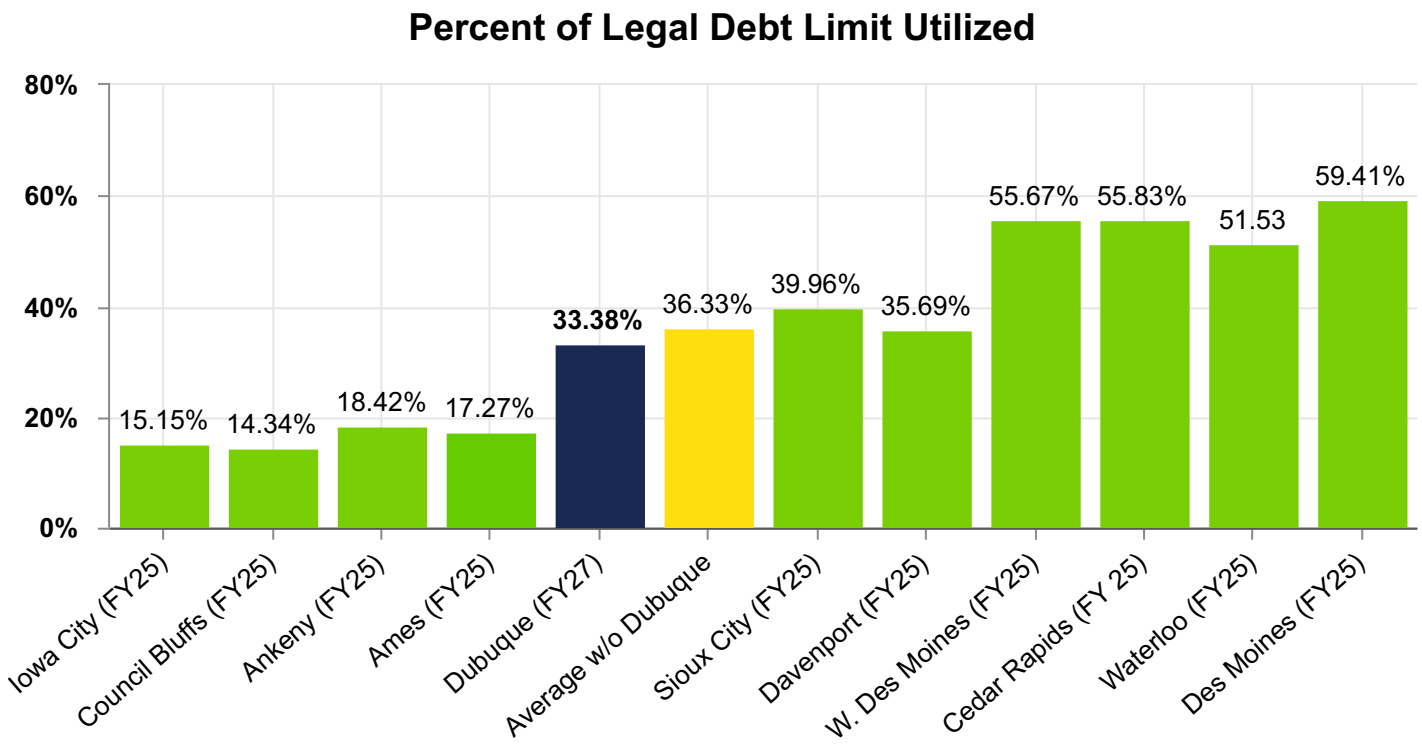
The five year projection of the City's use of the statutory debt limit from Fiscal Year 2027–2031 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2027 is as follows:

FY 27	FY 28	FY 29	FY 30	FY 31
33.38%	33.38%	34.45%	34.96%	35.59%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$964,798,967	$573,230,000	59.41%
10	W. Des Moines (FY25)	$551,635,692	$307,090,000	55.67%
9	Cedar Rapids (FY 25)	$767,559,335	$428,550,000	55.83%
8	Waterloo (FY25)	$267,626,798	$137,905,065	51.53%
7	Davenport (FY25)	$493,660,291	$176,195,000	35.69%
6	Sioux City (FY25)	$367,743,172	$146,935,000	39.96%
5	Dubuque (FY27)	$358,374,258	$115,136,523	33.38%
4	Ankeny (FY25)	$529,988,951	$97,645,000	18.42%
3	Ames (FY25)	$328,345,527	$56,710,000	17.27%
2	Iowa City (FY25)	$435,367,793	$65,945,000	15.15%
1	Council Bluffs (FY25)	$427,559,692	$61,320,000	14.34%
	Average w/o Dubuque			36.33%

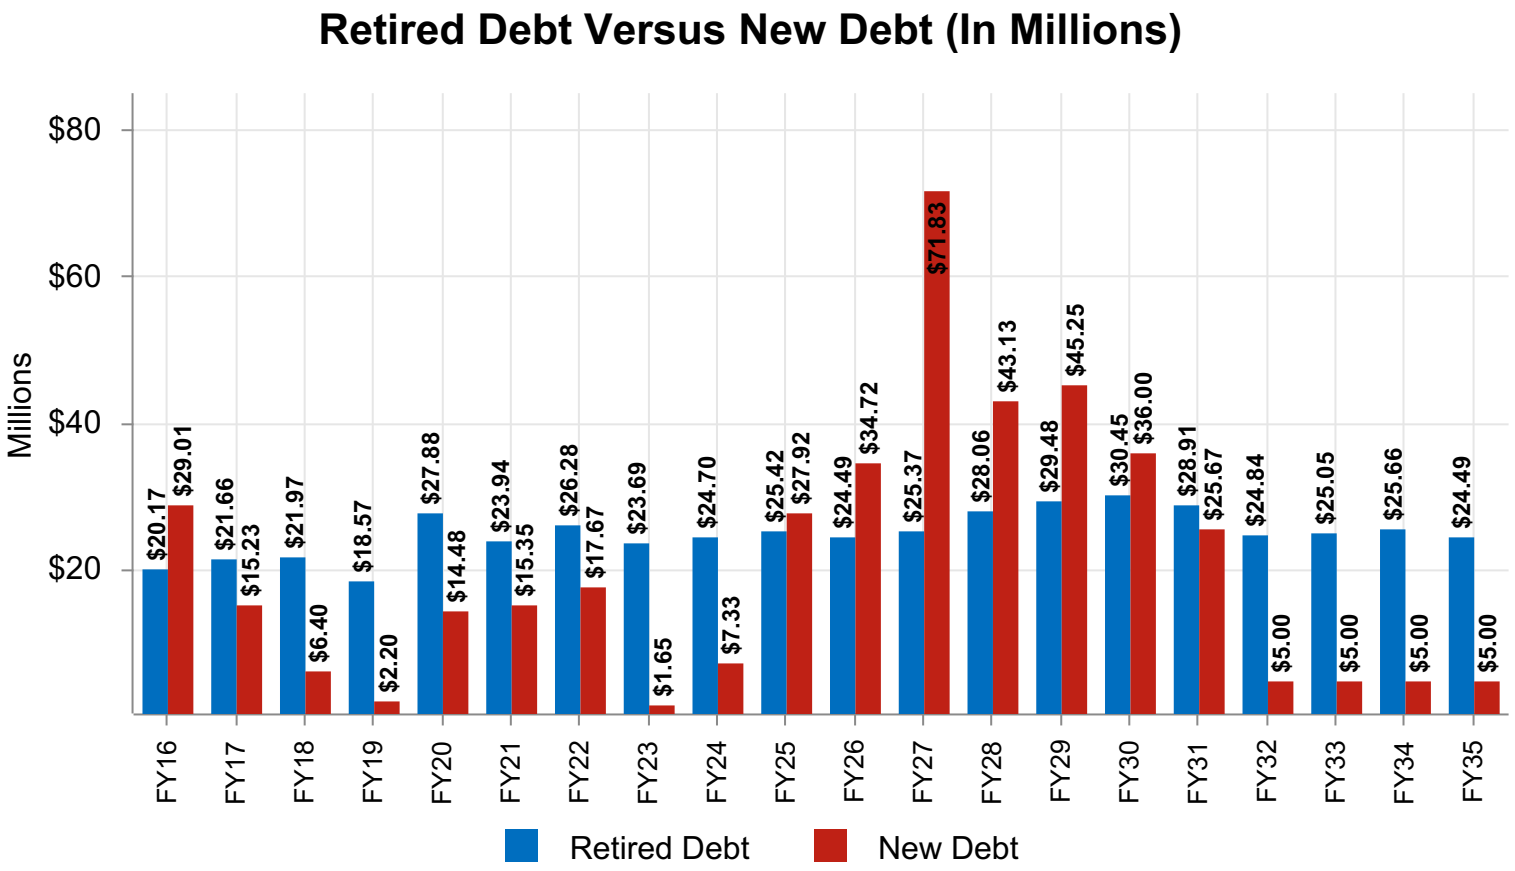


Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities. **The average (36.33%) is 8.84% higher than Dubuque (33.38%).**

Retired Debt Versus New Debt

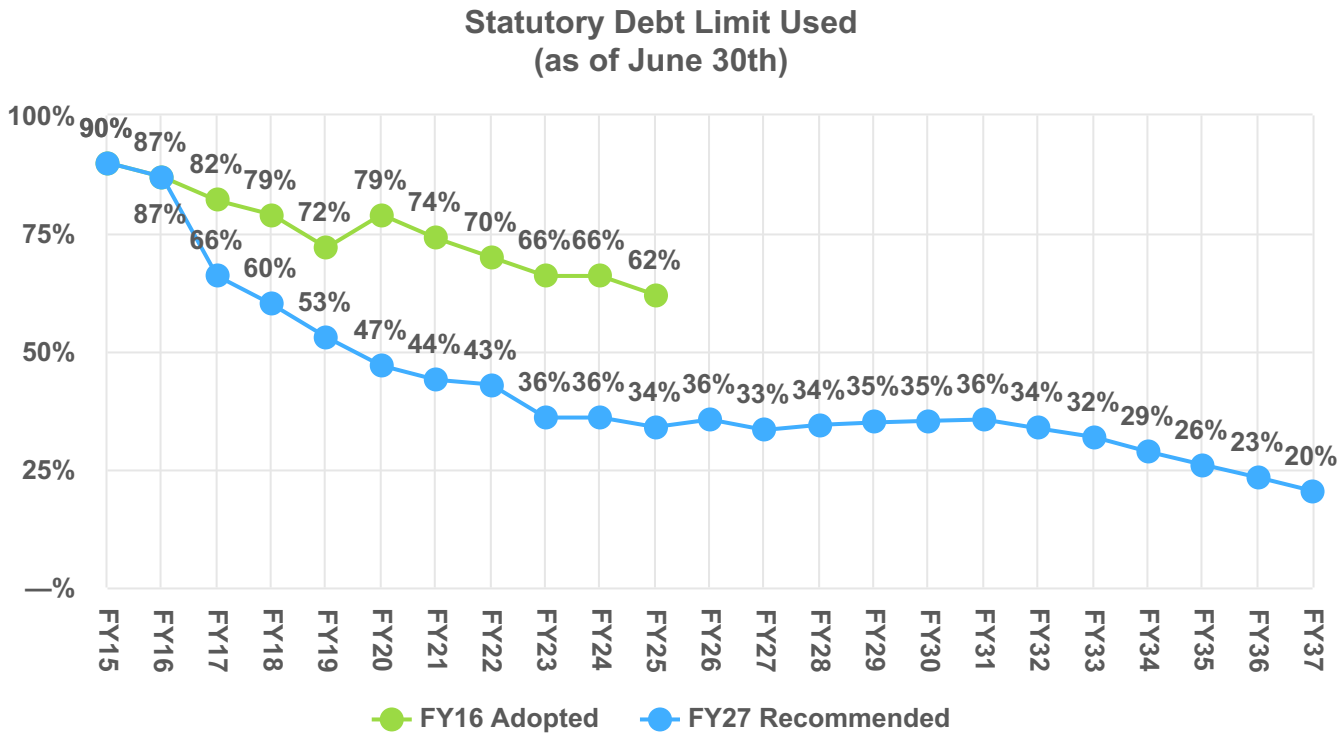
The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

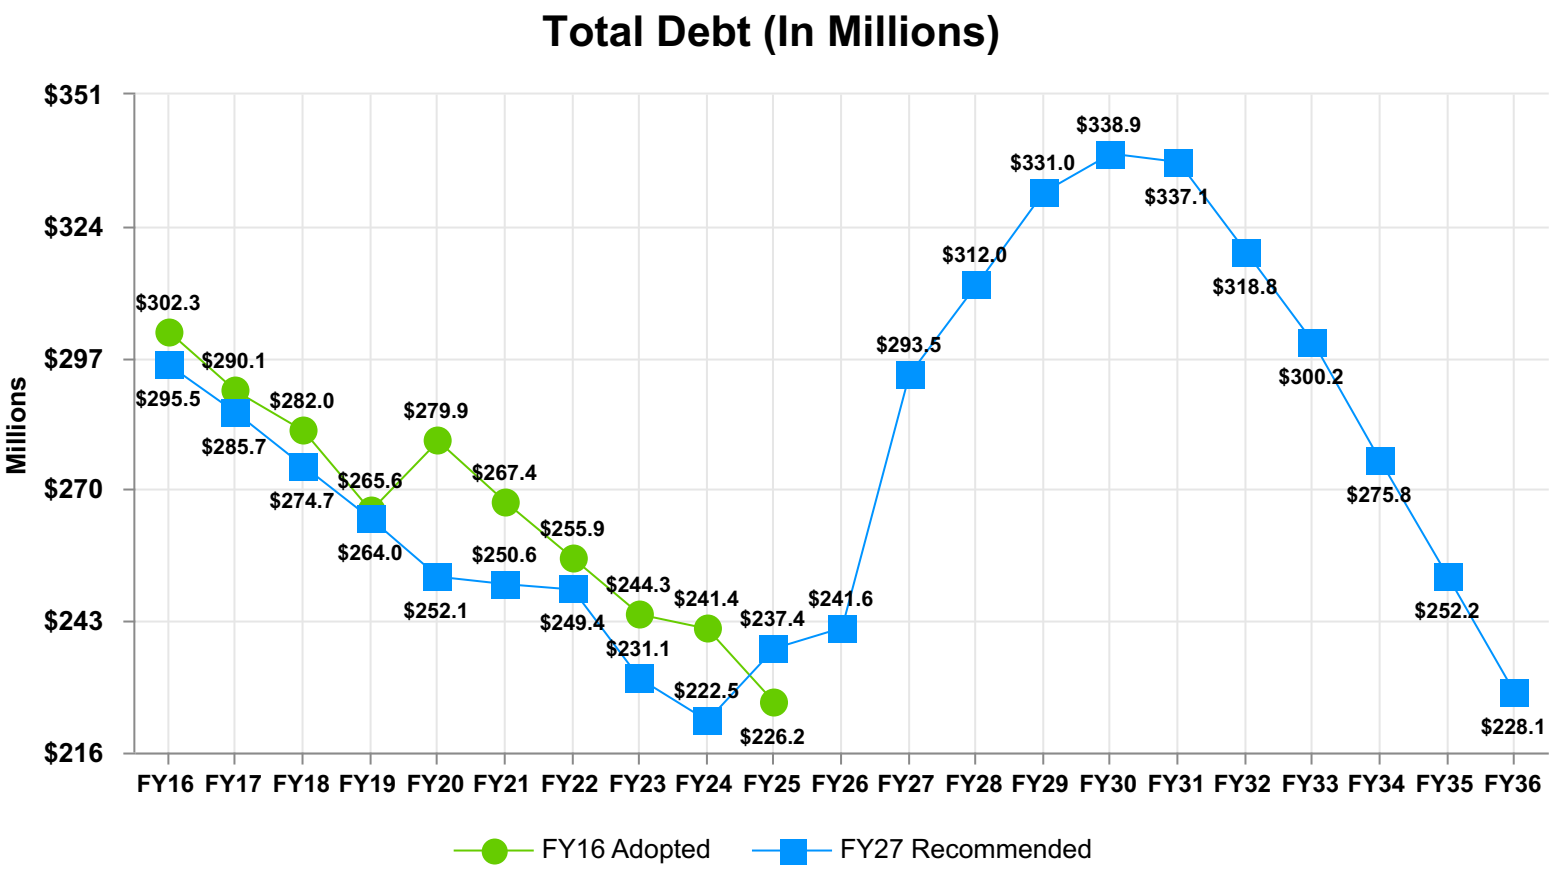


Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS mitigation, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements. However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit.** Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.



By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $337.15 million (35.59% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit or $228.14 million total amount of debt.**



General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 35% General Fund Operating Reserve for "AA" rated cities.

In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moodys") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

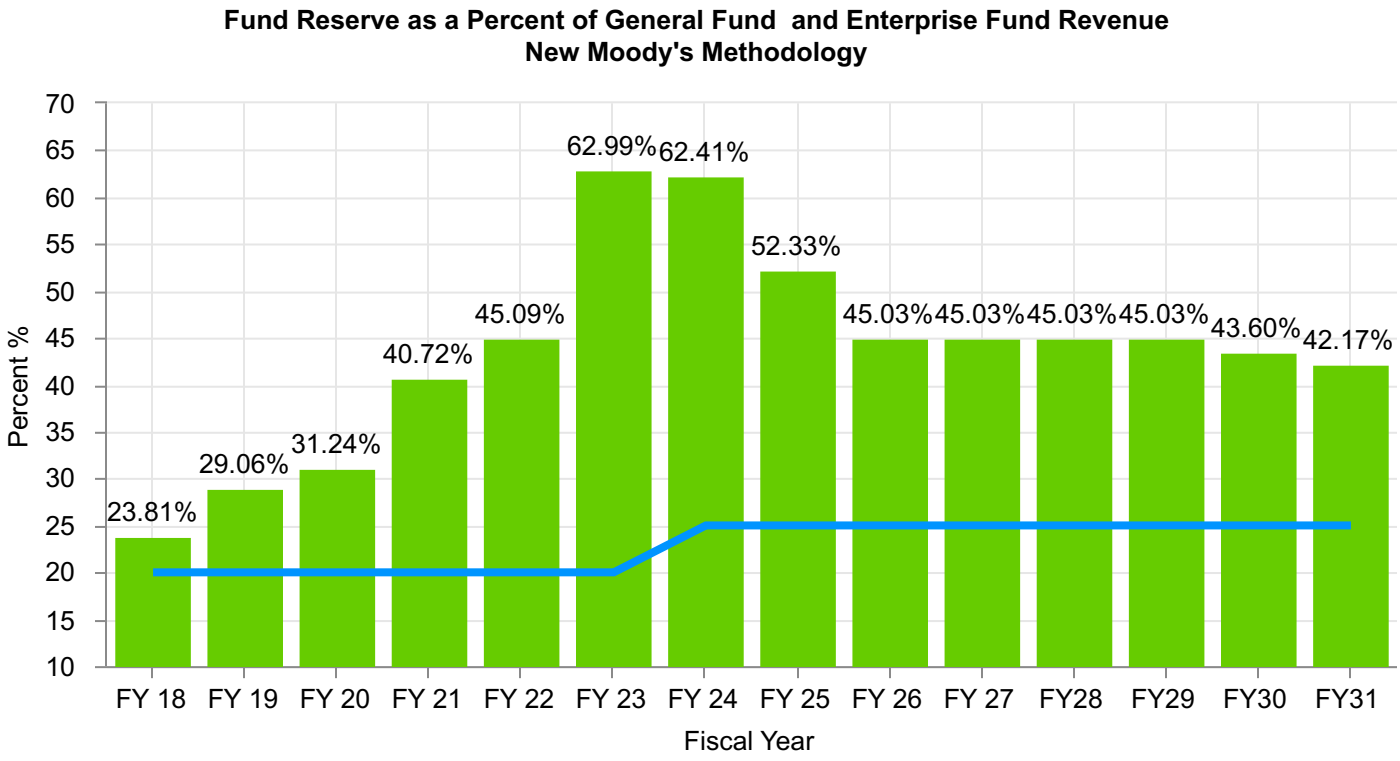
Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	40.53%	52.33%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2026	27.00%	45.03%	Decrease due to spend down of American Rescue Plan Act funds.



The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve balance is projected to be $25,412,743 on June 30, 2026. The general fund reserve balance exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed on a cash basis. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.

	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031
Contribution	$4,419,668	$—	$—	$—	$—	$—	$—	$—
City's Spendable General Fund Cash Reserve Fund Balance	$43,826,193	$38,026,193	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743
% of Projected Revenue (Moody's)	51.19%	40.53%	27.00%	27.00%	27.00%	27.00%	27.00%	27.00%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low annual interest rate based on 75% of the average daily Bloomberg BVAL General Obligation Municipal AAA ("BVAL") for the calendar month immediately preceding the effective date. In addition there is an annual servicing fee of 0.25%.** The interest rate effective until March 31, 2026 is 3.15% with the 0.25% servicing fee included.

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes. This program no longer exists.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs were reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

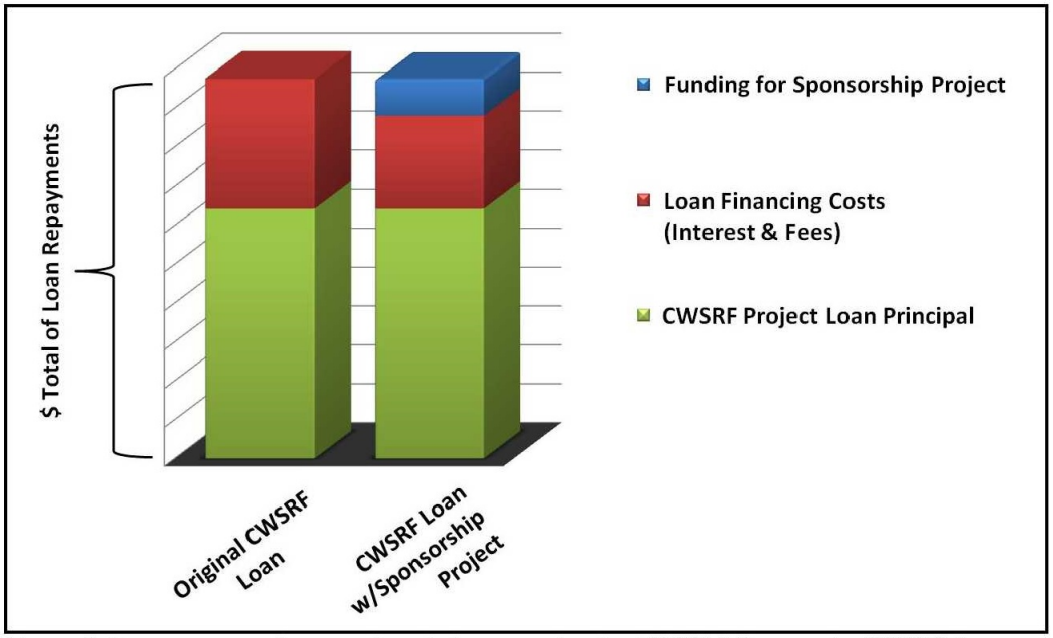


Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded $9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from $64,885,000 to $75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of $11.4 million. The State of Iowa has discontinued the sponsored project option for future debt issuances.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of $29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was $5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded $1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the $1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to $30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.38 million less than the original loan.**

In May 2018, the City was awarded $1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the $1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to $17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.05 million less than the original loan.**

In February 2019, the City was awarded $276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the $276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted. **On a gross basis, the borrowing costs for the new loan were $278,000 less than if there was not a sponsorship project included.**

The United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, requires all lead service lines to be removed from the system within a ten year period, effective November 1, 2027. Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. On November 15, 2021, the Bipartisan Infrastructure Law (BIL) was signed by President Biden, which includes $50 billion to the Environmental Protection Agency (EPA) to strengthen the nation's drinking water and wastewater systems—the single largest investment in clean water that the federal government has ever made. The BIL funds are being administered locally through the Iowa Department of Natural Resources' State Revolving Fund (Iowa SRF) program, with 49% of construction costs being forgivable. The City of Dubuque is taking part in a unique opportunity to assist approximately 585 homes in three phases (owner occupied or rented) within the city with the functional replacement of private lead-water service lines by trenching or pull-through methods to prevent the potential for drinking water contamination at a house-by-house level. Phase 1 of the pilot program is 100% voluntary and is open to those residents with a verified drinking water lead service line meeting the socioeconomic guidelines established by the Bipartisan Infrastructure Law. In September 2025, the City was awarded a 0% interest State Revolving Fund Loan in the amount of $1,941,000 for the Private Lead Service Line Replacement Pilot Program - Phase 1. The non-premise related construction costs are 49% forgivable at the completion of Phase I.The scope of work in the first phase includes the replacement of approximately 200 lead service lines identified throughout the City's water distribution service area. The nature of the replacements will vary by site, ranging from full replacements (public water main to interior plumbing) to partial replacements (a portion of the service line between the public water main and the interior plumbing). Work will be conducted within the City's right-of-way and on private properties with authorization from property owners.

Phase 2 of the Private Lead Line Replacement Program will be voluntary enrollment with a target of approximately 67 lead service lines replaced each year. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced.he city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. Phase 3 of the Private Lead Line Replacement Program will be mandatory with an estimated 605 lead service lines replaced annually. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

In March 2026, the State of Iowa passed rules possibly allowing the City of Dubuque to obtain some forgivable SRF loan dollars to do PFAS related projects.

The five-year CIP adopted through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The adopted five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and will be $352,840,562. This is a $1,246,009 (0.35%) increase.

FY 2026-2030 Capital Improvement Program (CIP) compared to the FY 2027-2031 Capital Improvement Program is as follows:

	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
FY26 CIP	$91,803,749	$64,823,518	$69,843,768	$74,478,605	$50,644,913	$ —	$351,594,553
FY27 CIP	$ —	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$352,840,562
$ Difference	—	+$15,810,220	+$8,840,154	+$12,693,285	+$10,980,084	—	+$1,246,009
% Change	—	+24.39%	+12.66%	+17.04%	+21.68%	—	+0.35%

Further information about the changes to capital improvement projects can be found on pages xxi-xxiv.

Fiscal Year 2027 will be the twentieth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Proposed	$ 12.02

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. The City's has been able to garner support from local, state, and federal partners with over $169 million in outside funding to help offset the cost of the overall $250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Construction
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12A	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.
12B	17th Street / W. Locust Street Reconstruction	Complete Design in ‘26, Construct in ‘27

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated $582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the Dubuque Five-Year (2025-2027) City Council Goals and 2025-2027 Policy Agenda, established by the City Council August, 2025.

Dubuque Five-Year City Council Goals

Healthy and Safe Community

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity

Livable Neighborhoods and Housing: Great Place to Live

Sustainable Environment: Preserving and Enhancing Natural Resources

Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Policy Agenda 2025 - 2027

Top Priority (in alphabetical order)

- Commercial Air Service Future: Strategy an Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priority

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2027 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2027-2031 CIP is substantially the same as previous fiscal years. First, an index referencing the 2027-2031 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2025 and the adopted budget in Fiscal Year 2026. In Section A of the project form entitled “Expenditure Items”, project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled “Project Financing”, the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled “Impact – Operations,” the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2032". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2032" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2031." If a project is annual, the "2032" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque’s commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2028 through Fiscal Year 2031 projects, as well as to add projects for Fiscal Year 2032.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available.

Notable FY2027 Capital Improvement Projects

Department	Project Title	Total City Investment FY2027-FY2031
Fire	Outdoor Warning Siren Repair/Replace	$54,000
Fire	Fire Station Expansion	$8,791,700
Fire	2027 Ambulance Replacement (1914)	$500,000
Fire	Portable Radio Replacements	$490,000
Fire	2030 Fire Engine Replacement (1910)	$1,288,408
Fire	2030 Ambulance Replacement (1915)	$635,000
Fire	2031 Ambulance Replacement (130010)	$665,000
Parks	Jeffris Grant	$2,060,394
Civic Center	Five Flags Building Improvements	$5,844,678
Conference Center	Roof Restoration	$1,383,000
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Ave Booster Station	$1,020,000
Water	Water Main Extension Central Ave	$965,000
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Private Lead Line Replacement Program	$1,050,000
Water	Private Lead Service Line Replacement Program	$4,050,000
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	Source Water PFAS Reduction Project	$1,121,199
Water	Water Meter Replacement Program	$687,750
Water	Water Storage Maintenance Program	$3,336,000
Water	West End Annexation Phase II	$2,000,000
Water	Southwest Arterial 16" Water Main Extension	$2,475,000
W&RRC	Bar Screen Replacement	$2,500,000
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000
W&RRC	Industrial Controls Upgrade	$6,114,700
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550
Airport	Reconstruct Taxiway A	$9,969,994
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000
Airport	Taxiway D Extension	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Asphalt Milling Program	$873,547
Public Works	Curb Ramp Program	$4,883,000
Publics Works	Concrete Street Section Repair Program	$1,641,038
Public Works	NW Arterial Should Paving Project	$2,311,247
Engineering	Storm Sewer General Replacements	$1,500,000
Engineering	Stormwater Management Program	$800,000
Engineering	Detention Basin Maintenance & Repair	$1,000,000
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221

Department	Project Title	Total City Investment FY2027-FY2031
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630
Engineering	Old Mill Road Lift Station & Force Main - Phase 3	$19,891,034
Engineering	Old Mill Road Lift Station & Force Main - Phase 4	$19,506,258
Engineering	Schmitt Island Sanitary Improvements	$4,415,252
Engineering	South West Arterial Interchange Sewer Extension	$4,829,838
Engineering	Sanitary Basis Analysis - South Port & Terminal St LS	$10,800,000
Engineering	Track Line Sanitary Sewer Reconstruction	$3,500,000
Engineering	14th St Overpass	$36,144,000
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation Improvements 11th - 22nd Street	$9,770,000
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	$6,000,000
Engineering	East - West Corridor Capacity Improvements	$18,600,000
Engineering	17th/Locust Street Reconstruction Phase 4	$4,765,000
Engineering	Bridge Repairs/Maintenance	$2,640,000
Engineering	Fiber Infrastructure Management System	$330,000
Engineering	Traffic Signal Network Communications Program	$445,000
Engineering	STREETS Traffic Control Project Phase 2	$1,029,000
Engineering	Federal Building Renovation	$5,395,000
Economic Development	Downtown Rehab Grant Program	$1,700,000
Economic Development	Workforce Development	$1,857,500
Transportation	Smart Parking System	$780,000
Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200
Housing	Assistance for Homeownership	$1,026,082
Housing	Homeowner Rehabilitation Program	$2,476,588
Housing	Healthy Homes Production Grant	$1,326,250
Housing	Lead and Healthy Homes Grant	$3,136,600
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759
Information Technology	Network Switch Replacement	$607,500
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906

There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs ($87,131,865). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	DLEC Upgrades and Maintenance	$208,300
Fire	Install HVAC Systems at Fire Station 5 and 6	$100,000
Parks	Chaplain Schmitt Island Environmental Restoration	$430,000
Parks	Eagle Point Park / Jeffris Grant	$2,060,394
Parks	Eagle Point Park Master Plan	$165,000
Parks	Park Office - Replace Roof	$12,000
Parks	Trail Maintenance/Repair	$100,000

Department	New Project	Total CIP
Parks	Mechanic Shop-Replace Roof	$35,000
Recreation	Community Center Master Plan	$80,000
Recreation	Bunker Hill Administrative Office Lead Remediation Project	$30,000
Recreation	Bunker Hill Basement Leak Repair and Planter Box Removal	$30,000
Recreation	F&S Site Repair/Replacement-Leak Repair	$30,000
Recreation	Marina-Dock Fuel & Electrical System	$50,000
Conference Center	HVAC System Evaluation	$35,000
Water	8th St 20" Transmission Water Main Connection (Jackson to Central)	$277,000
Water	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Avenue Booster Station	$1,020,000
Water	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	$245,000
Water	Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection)	$965,000
Water	Water Distribution System Master Plan	$200,000
Water	Distribution System Regulatory Monitoring/Flushing Stations	$150,000
Water	Water District Metered Zone (DMZ) Pilot	$180,000
Water	Eagle Point Water Treatment Plant Lime Sludge Drain Sediment Trap - Water	$50,000
Water	Eagle Point Water Treatment Plant Railroad Building Study	$20,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000
Water	Grove Terrace Sanitary Sewer Reconstruction (Consent Decree) - Water	$130,000
Water	Harvard St Sanitary Sewer Reconstruction (Consent Decree) - Water	$140,000
Water	Hempstead St Sanitary Sewer Reconstruction (Consent Decree) - Water	$320,000
Water	Hwy 20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Water Distribution System Hydraulic Modeling	$50,000
Water	JFK Tower Interior Piping and Expansion Joint Replacement	$50,000
Water	Leak Detection Survey	$130,000
Water	North Grandview Ave Water Repairs	$80,000
Water	Water Main Extension Olympic Heights Rd (Pressure Zone 3 and 5 Connection)	$617,000
Water	Water Main Extension Pennsylvania Ave (Annex Agreement WM A)	$545,000
Water	Private Lead Service Line Replacement Program (City-Wide)	$4,050,000
Water	Rockdale Road Reconstruction (Old Mill to Twin Valley Drive) - Water	$400,000
Water	Water Main Extension Seippel Rd and Pennsylvania Ave (Annex Agreement WM B)	$585,000

Department	New Project	Total CIP
Water	Source Water PFAS Reduction Project-Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	South Algona 12" Water Main Replacement (St Joseph to Lombard St)	$793,000
Water	Water Repairs Sunnyslope Street Project	$390,000
Water	Water Main Replacement W 8th St (Bluff St to Hill St)	$395,000
Water	Safety Equipment for Water Distribution Staff	$57,600
Water	Water Treatment Plant South Plan Flow Meter Replacement	$60,000
Water	Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Extension	$2,475,000
Water & Resource Recovery Center	WRRC Compressed Air System Improvements	$69,500
Water & Resource Recovery Center	Process Control Instrumentation Improvements - Dissolved Oxygen Monitoring	$135,000
Water & Resource Recovery Center	WRRC Influent and Effluent Monitoring Improvements	$40,000
Water & Resource Recovery Center	WRRC Treatment System Infrastructure Restoration and Reliability Improvements	$2,047,550
Water & Resource Recovery Center	WRRC Safety Program Development	$106,000
Airport	Taxiway D Extension (formerly Taxiway H)	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Tri-top Catch Basin Replacement Project	$335,162
Public Works	Municipal Services Center Access System Replacement	$85,000
Public Works	Municipal Services Center Fleet Maintenance Bay Extension	$100,000
Public Works	NW Arterial Shoulder Paving Project	$2,311,247
Public Works	Hawthorne Street Boat Ramp Repair	$407,532
Public Works	3255 - Wheel Loader Purchase	$305,865
Public Works	2730 - Portable Jet	$50,000
Public Works	Mechanical Sweeper Replacement	$290,466
Public Works	New CCTV Camera	$40,000
Public Works	2727-Off-Road Vehicle	$25,000
Public Works	Off Road Vehicle CCTV Slide-in Unit	$145,000
Public Works	Fleet Service Sweeper	$25,000
Landfill	Landfill Permit Renewal Project	$55,204
Landfill	Landfill Website Redesign Project	$20,000
Landfill	Landfill Alternative Energy Project	$50,000
Landfill	3C Wheel Loader	$275,000
Landfill	Sweeper	$95,000
Landfill	Brush Mower	$15,000
Landfill	3451 Hook Truck	$335,223
Landfill	Water Truck	$200,000
Engineering	Confined Space Drone	$100,000
Engineering	General Stormwater Detention Basin Maintenance & Repair	$1,000,000
Engineering	Schmitt Island Stormwater Rehabilitation	$450,000

Department	New Project	Total CIP
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater	$5,300,000
Engineering	North Catfish Creek Trail Stabilization	$500,000
Engineering	Pebble Cove Drainage Basin Improvements	$240,000
Engineering	Harvest View Storm Sewer Improvements	$320,000
Engineering	Primrose Court Storm Sewer Repair	$120,000
Engineering	Manhole Inspection Equipment (2 Cameras)	$28,000
Engineering	Kerper Boulevard Sanitary Sediment Trap	$80,000
Engineering	JFK Yiannias Place Sanitary Sewer Relocation	$550,000
Engineering	Key West Sanitary Lift Station Replacement	$1,535,000
Engineering	Sanitary Basin Analysis - Steger Heights Area (SSAMP Service Area 3-8-1-1)	$1,540,000
Engineering	Sanitary Basin Analysis - Quigley's Sub Area (SSAMP Service Area 3-8-0-1B-1)	$1,520,000
Engineering	Sanitary Basin Analysis - South Port & Terminal St LS	$10,800,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary	$1,100,000
Engineering	US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements, Iowa Department of Transportation	$6,000,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street	$4,765,000
Engineering	Port of Dubuque Streets Extension	$100,000
Engineering	Safe Routes to School	$120,000
Engineering	NW Arterial Trail Drainage	$150,000
Engineering	Pedestrian Safety with Permanent Bollards/Barricades	$152,000
Engineering	Way finding Signage	$40,000
Engineering	Chavenelle Street Light Replacement Project	$182,850
Engineering	Iowa St Streetlight Replacement Project	$138,000
Engineering	City Hall - Radon Mitigation System	$161,000
Economic Development	Downtown Storefront Activation Program	$400,000
Planning	Downtown Master Plan Update	$150,000
City Manager's Office	Municipal Solar Project - MFC	$176,300
City Manager's Office	Municipal Solar Project - Library	$122,672
	TOTAL	$87,131,865

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total $8,619,951. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP	
Fire	Fire Department Bunk Room Remodel(s)	$1,489,918	
Parks	Eagle Point Park - Riverfront Pavilion Restoration	$230,000	
Parks	All Parks - Renovate Water Systems	$57,000	*
Parks	Eagle Point Park - Restroom Renovation	$124,900	*
Parks	Eagle Point Park - Stone Work	$105,000	*
Parks	Eagle Point Park - Renovate Log Cabin	$60,000	*
Recreation	Sutton Pool Zero Depth Survey & Remediation	$60,000	*
Conference Center	Banquet Chair Replacement	$313,500	
Conference Center	Paint Exterior Metal	$132,000	*
Conference Center	Concrete Restoration, Raising & Caulk	$240,000	*
Conference Center	Replace Fabric Wall Covering	$227,000	*
Conference Center	Replace Carpet	$485,000	*
Library	Library Landscaping and Plaza Redesign	$103,601	
Water & Resource Recovery Center	High Strength Waste Receiving and Storage	$939,984	
Engineering	Pine Street Extension from 7th to 9th	$1,980,000	
Engineering	Decorative Concrete Maintenance Program	$300,000	
Engineering	Hillcrest Road Sidewalk	$250,000	
Engineering	Port of Dubuque Security Camera Expansion	$60,000	
Engineering	City Facility Integrated Access Control and Security System Upgrade	$270,126	*
Engineering	City Hall Landscape Enhancement Project	$29,500	*
Housing & Community Development	Washington Neighborhood Homebuyer Program	$952,422	
Planning	Historic Preservation Technical Assistance Program	$110,000	
City Manager's Office	Municipal Energy Reinvestment Fund	$20,000	
City Manager's Office	Renew DBQ: Low-Income Solar Pilot Project	$80,000	
	Total	**$8,619,951**	
	Total Deferred Maintenance	*$1,790,526*	

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP ($67,599,429). CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP	
Police	Rescue Vehicle	$451,829	
Fire	Fire Department Dock/Boathouse	$450,000	
Fire	Update Hendrix Storage Building 880 Central (LOT 1024482020)	$510,000	*
Fire	Kitchen Remodel at Fire Station 2	$187,500	
Parks	Pebble Cove Park Development	$360,000	
Parks	Second Dog Park Planning	$60,000	
Parks	Ham House Improvements	$90,000	
Parks	Murphy Park-Bennett Pavilion Roof Replacement	$165,000	*

Department	New Project Not Funded	Total CIP	
Parks	Hillcrest Park - Replace Play Unit	$225,000	*
Parks	Allison Henderson - Replace Roof	$20,000	*
Parks	EB Lyons Carpet Replacement	$85,000	
Parks	Silver Oaks Park Development	$320,000	
Parks	Ecological Restoration	$50,000	
Parks	EB Lyons Center - Stain, Patio, Ridge Beam	$170,000	
Parks	Chaplain Schmitt Island-Landscaping	$50,000	
Parks	Chaplain Schmitt Island-Entrance Sign	$72,500	
Parks	Flora Park-Tennis Courts Replace Lights/ADA Access	$225,000	*
Parks	Ham House Exterior Repairs	$135,000	*
Parks	Hilltop Park - Replace Play Unit	$221,000	*
Parks	Marshall Park - Replace Play Unit	$230,000	*

	Total	$67,599,429	

Department	New Project Not Funded	Total CIP	
	Total Deferred Maintenance	$6,755,908	

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2027-2031 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer Jennifer Larson; Budget Manager Laura Bendorf; Budget/Financial Analysts Shannon Soppe, Nikesh Shah, and Nathan Kelleher; Assistant City Manager Cori Burbach, Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; Finance A/R & A/P Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

Attachment 1

FISCAL YEARS 2027-2031 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2027	2028	2029	2030	2031	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	$ 15,000	$ 15,000	$ 15,000	$ 15,000	$ —	$ 60,000	0.02 %

FISCAL YEAR 2027-2031 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

Goal	Project	Description	Departments	CIP Page
Healthy & Safe Community	Fire Department Building Maintenance	Updates to restore six fire stations to preventative maintenance-level condition	Fire	3
Healthy & Safe Community	Outdoor Warning Siren Repair/Replace	Upgrades to 17-unit outdoor warning siren system	Fire	5
Healthy & Safe Community	Fire Station Expansion/ Relocation	Implements fire station location plan for improved emergency response	Fire	6
Healthy & Safe Community	Fire Engine and Ambulance Replacements	Scheduled replacements for reliable emergency response fleet	Fire	8,9,11,13, 14,15
Healthy & Safe Community	Portable Radio Replacements	Modernizing communication equipment for first responders	Fire/Police/ Airport	12
Financially Responsible, High-Performance City	Enterprise Asset Management System (Water, Sanitary, Stormwater, Roadways, Fiber)	Citywide CMMS for asset optimization and service delivery	Multiple Depts.	62, 210, 234, 292, 332
Financially Responsible, High-Performance City	Leak Detection Equipment and Survey	Investments in technology to reduce water loss and improve efficiency	Water	72, 73
Financially Responsible, High-Performance City	Network Switch Replacement	Regular replacement of network infrastructure for cybersecurity	IT Dept.	365, 371
Robust Local Economy	8th Street 20" Transmission Water Main Connection	Infrastructure expansion to support economic development	Water	48
Robust Local Economy	Central Avenue Booster Station	Enhancing water supply reliability for economic growth	Water	50
Robust Local Economy	Workforce Development	Partnership with GDDC for workforce retention, recruitment, creation	Economic Develop	343
Robust Local Economy	Downtown Storefront Activation Program	Financial assistance to activate vacant storefronts	Economic Develop	341
Livable Neighborhoods & Housing	Low/Mod Income Area Park Improvements	Upgrades to parks in low/moderate income areas	Parks	19
Livable Neighborhoods & Housing	Homeowner Rehabilitation Program	Loans for maintenance and rehabilitation of owner-occupied homes	Housing	351
Livable Neighborhoods & Housing	Assistance for Homeownership	Programs to support affordable homeownership	Housing	349
Livable Neighborhoods & Housing	Healthy Homes Production Grant & Lead and Healthy Homes Grant	Addressing housing-related health hazards	Housing	354, 356
Sustainable Environment	Source Water PFAS Reduction Projects	Water treatment investments for safe drinking water	Water	86, 87

Sustainable Environment	Municipal Solar Projects (MFC & Library)	Solar arrays on city facilities to reduce energy costs and emissions	City Manager's Office	361, 363
Sustainable Environment	Bee Branch Gate & Pump Replacement Project	Major stormwater infrastructure to mitigate flooding	Engineering/ Stormwater	220
Sustainable Environment	Landfill Waste Minimization Grant Project	Grants for waste reduction, recycling, composting	Public Works	183
Connected Community	14th Street Overpass (B2E2 Project)	Multimodal corridor improvements, rail crossing elimination	Engineering/ Street	265
Connected Community	East-West Corridor Capacity Improvements	Upgrades to University Avenue and related corridors	Engineering/ Street	270
Connected Community	Public Electric Vehicle Chargers	EV charging infrastructure at key downtown locations	Engineering/ Traffic	300
Connected Community	Smart Parking System	Technology for improved parking management and wayfinding	Transportation Services	345
Diverse Arts, Culture, Parks, Recreation	Five Flags Building Improvements	Upgrades to arena, theater, lobby for cultural/recreational use	Civic Center	29
Diverse Arts, Culture, Parks, Recreation	Chaplain Schmitt Island Environmental Restoration	Restoration of natural areas as part of development plan	Parks	20
Diverse Arts, Culture, Parks, Recreation	Eagle Point Park Master Plan & Improvements	Comprehensive planning and upgrades for signature park	Parks	23
Diverse Arts, Culture, Parks, Recreation	Community Center Master Plan	Planning for expanded indoor recreation and programming	Parks	34
Policy Agenda Top Priority	DLEC Upgrades and Maintenance	Law Enforcement Center upgrades for operational readiness	Police	1
Policy Agenda Top Priority	Old Mill Road Lift Station & Force Main (Phases 1–4)	Major sanitary sewer investments	Engineering/ Sanitary Sewer	235, 237, 239, 241
Policy Agenda Top Priority	Bee Branch Gate & Pump Replacement Project	Stormwater management investments	Engineering/ Stormwater	220
Policy Agenda Top Priority	Pavement Rehabilitation, ADA Curb Ramp Program, etc.	Street maintenance/rehabilitation program	Engineering/ Street	275, 136
Policy Agenda High Priority	Central Avenue White Street Corridor Master Plan	Central Avenue revitalization	Engineering/ Street	267
Policy Agenda High Priority	Downtown Master Plan Update	Comprehensive downtown planning	Planning Services	358
Policy Agenda High Priority	Chaplain Schmitt Island Development	Environmental, water, sanitary, and stormwater improvements	Multiple Depts.	20, 49, 222, 243
Policy Agenda High Priority	Parks and Recreation Master Plan Adoption	Community Center, Eagle Point Park, and other park improvements	Parks	23, 34
Policy Agenda High Priority	WRRC Plant Nutrient Reduction Improvements	Water Resource and Recovery Center upgrades	Water & Resource Recovery Center	109

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2025 - 2027 Management in Progress and Major Projects by the City Council and are included in the 2027 CIP budget according to one of the Council's goals.

2025 - 2027 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Business Incentives Policy/Processes Review
- Chaplain Schmitt Island Development: Hotel Project
- Comprehensive Hotel Attraction/Incentive Policy
- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions

- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing: Great Place to Live

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming
- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods and Housing: Great Place to Live

- (none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Auburn St and Custer St Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St and Central Ave
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No.7 Rehabilitation
- Water Department New Deep Well No. 7 Rehabilitation (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- 14th St Railroad Overpass and 16th St Corridor Complete Streets Improvements
- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System

- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

SOURCE OF FUNDS AND IMPORTANT DETAILS

The Fiscal Year 2027-2031 CIP presents a financial plan that reflects a $287,495 general fund property tax levy supported annual debt service for the FY 2010 purchase of a replacement pumper truck ($1,035,000) and the FY 2016 franchise fee litigation settlement judgment bond ($2,800,000). The Fire Station Expansion/Relocation project included in the Fiscal Year 2027-2031 CIP will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time. It is anticipated that other borrowing from non-utility funds can and will be minimized by using other sources of funds such as sales tax revenue.

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over $163 million in outside funding to help offset the cost of the overall $254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach $9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes includes an additional $5,121,112 for the Flood Mitigation Gate and Pump Replacement, a key component of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Combined with funding allocated in prior fiscal years (FY24-FY26), the total project investment is $28,456,106.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes $12,275,000 shared across four funding sources to complete final design work in Fiscal Year 2027 and begin construction in Fiscal Year 2028 for the 17th/W. Locust Street Reconstruction Project, part of the Bee Branch Creek Restoration Project (Phase 12B of the Bee Branch Watershed Flood Mitigation Project). Design for this project was largely completed in the late 2010s and early 2020s, but progress was paused due to funding challenges during the COVID-19 pandemic.

Fiscal Year 2027 will be the nineteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The Fiscal Year 2027-2031 CIP anticipates $4,174,231 in Fiscal Year 2027, $3,623,407 in Fiscal Year 2028, $1,793,632 in Fiscal Year 2029, $2,312,622 in Fiscal Year 2030, and $1,676,919 in Fiscal Year 2031.

Water State Revolving Fund Loans will be used to finance water projects in FY 2027-2031 as follows: $0 FY 2027; $7,302,707 FY 2028; $11,563,870 FY 2029; $6,806,000 FY 2030; and $2,055,000 FY 2031. The debt service related to the total $27,727,577 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, West End Annexation Phase II, 17th/Locust St Reconstruction Phase 4 (Heeb to Kirkwood), Private Lead Service Line Replacement Program (City-Wide), Central Ave Booster Station, Central Ave Water Main Extension, South Algona 12" Water Main Replacement, Water Main Replacement W 8th St (Bluff to Hill), Water Storage Rehabilitation Program, HWY 20/Dodge St Water Main Relocation - Devon Drive to Concord Street, Water Main Extension Olympic Heights Road, and Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Installation.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Water Fund will support 18.01% of administrative overhead.

The water fees in FY 2027 are recommended to increase 3.0%.

Sewer

Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines. The Fiscal Year 2027-2031 CIP anticipates $26,300,608 in Fiscal Year 2027, $19,579,781 in Fiscal Year 2028, $19,532,176 in Fiscal Year 2029, $15,269,824 in Fiscal Year 2030 and $11,750,197 in Fiscal Year 2031.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2027-2031 as follows: $12,232,834 FY 2027; $17,579,781 FY 2028; $17,132,176 FY 2029; $12,669,824 FY 2030; and $8,500,197 FY 2031. The debt service related to the total $68,114,812 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Catfish Creek Sewer shed Interceptor Improvements (South Fork and Middle Fork), South West Arterial Middle Interchange Sewer Extension, Old Mill Road Lift Station & Force Main Phases (1 and 2), Track Line Sewer Reconstruction, Schmitt Island Sanitary Improvements, Grove Terrace Sanitary Sewer Reconstruction, Cooper Pl & Maiden Ln Sanitary Sewer Reconstruction, Harvard Sanitary Sewer, Hempstead Reconstruction, Knob Hill-Duggan Drive Sanitary Sewer Reconstruction, JFK Yiannias Pl Sanitary Sewer Relocation, Key West Sanitary Lift Station Replacement, Sanitary Basin Analysis - Steger Heights, Quigley's Sub and South Port/Terminal St, 17th/Locust St Reconstruction Phase 4, W&RRC Plant Nutrient Reduction Improvements, W&RRC Industrial Control Upgrade, W&RRC Headworks Bar Screen Replacement, and W&RRC Treatment System Infrastructure Restoration and Reliability Improvements.

The sewer fees in FY 2027 are recommended to increase 9.0%.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Sanitary Sewer Fund will support 18.01% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A $4.15 million Greater Downtown TIF borrowing is anticipated in FY 2027-2031 for parking ramp major maintenance. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related debt in the downtown as follows: $2,014,000 in FY 2027; $2,010,750 in FY 2028; $2,012,625 in FY 2029; $2,013,875 in FY 2030; and $2,014,125 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2027, the Parking Fund will support 2.86% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The Fiscal Year 2027-2031 CIP anticipates $460,000 in FY 2027, $469,250 in FY 2028; $423,679 in FY 2029; $646,544 in FY 2030; and $772,500 in FY 2031. The Solid Waste Collection Fund is anticipated to have a deficit balance of $587,638 at the close of FY 2027, which will be offset by an internal loan from a portion of the $5.3 million loan repayment from the Greater Downtown TIF fund to the General Fund. The Solid Waste Collection Fund will begin repaying the General Fund in the Fiscal Year that there is no longer a deficit balance, which is estimated to be FY 2031.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: $460,000 in FY 2027; $463,250 in FY 2028; $408,879 in FY 2029; $640,544 in FY 2030 ; $766,500 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Solid Waste Fund will support 18.75% of the administrative overhead.

The solid waste collection fees in FY 2027 are recommended to increase 9%.

GENERAL FUND

The current revenue amount of $352,000 (0.10% of CIP Total) during the five-year period represents $50,000 in golf funds for improvements to the Bunker Hill Golf Course, $22,000 in Historic Preservation Loan repayments, $60,000 in Rental Dwelling Rehab Repayments, $150,000 in Washington Neighborhood Loan Repayments, $50,000 in insurance and other reimbursements, and $20,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax (20%)” totals $844,281 and represents 0.24% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax/Street Projects (30 percent)” and totals $16,417,822, or 4.65% of the total CIP.

GAMING

DRA payments represent 0% in FY 2027 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations ($0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections ($0 or 0.00% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2029, 10% in FY 2030 and 15% in FY 2031. **In Fiscal Year 2027, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Years 2024-2026 which is a change from past practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois. Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

FEDERAL FUNDING

Community Development Block Grant (CDBG)
The Fiscal year 2027-2031 CIP anticipates that Community Development Block Grant (CDBG) funds will be $650,000 in FY 2027; $650,000 in 2028; $450,000 in FY 2029; $450,000 in FY 2030; and $200,000 in FY 2031 (0.68% of the total CIP).

Federal Aviation Administration (FAA)
The FAA funding of $18,140,035 (5.14% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2027-2031 budget includes Reconstruct Taxiway A, Taxiway J Improvements, Taxiway D Extension, and Update Airport Pavement Management System.

Federal Lead Paint/Healthy Homes Grant (0.83% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Lead Paint/Healthy Homes Grant funds will be $1,900,000 in FY 2027; $1,036,600 in 2028; $— in FY 2029; $— in FY 2030; and $— in FY 2031 (0.83% of the total CIP).

Healthy Homes Production Grant (0.32% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Healthy Homes Production Grant funds will be $2,995,200 in FY 2027; $1,658,050 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.32% of the total CIP).

Federal Assistance
Federal Assistance funding of $45,351,606 (12.85% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2027-2031 budget includes Bee Branch Creek Gate and Pump Replacement, Public Electric Vehicle Chargers, Electric Buses, 14th Street Overpass, and East-West Corridor Capacity Improvements.

Federal STP Funds
Federal STP Funds funding of $14,845,453 (4.21% of the total CIP) includes DMATS funds for 14th Street Overpass, STREETS Phase 2, and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax

Road Use Tax Funds (RUTF) of $3,174,227 (0.90% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031, all used for operations.

Sales Tax Increment Revenue

The City secured a $98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, $50,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (0.69% of Total CIP)

State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of $2,445,000 are anticipated over the five-year program.

Iowa Finance Authority funding of $1,013,268 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District

In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2027-2031 CIP includes $1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, $182,850 for the Chavenelle Street Light Replacement Project.

Annexation Initiatives

As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)

With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer (SRO) Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic pausing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers were approved. In late 2024, the Precision Policing Center (PPC) was established. It is expected to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. This is also supporting officer safety. The PPC is staffed by five non-sworn (civilian) employees in three roles: three Precision Policing Center Technicians, one Crime Analyst, and one Criminal Computer Forensics.

Fire Station and Additional Firefighters/Paramedics

An additional west end fire station is currently projected to be designed in FY 2030 and built in FY 2031.In April 2026, the City began a study of all stations and future needs. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City well to develop an annexation plan and begin the process of annexation in the future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, and furniture. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 an additional EMS Captain and an additional EMS Bureau Chief were approved. In FY 2026, 5 firefighter/paramedic positions were added and additional employees may be added in future years. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Water and Sanitary Sewer Service

The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements and replacing undersized sanitary sewers along with new lift stations. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of $2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District

This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Now that the City will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, resources for these capital projects are significantly reduced. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following charts shows the amount of TIF revenue reduction in GDTIF due to claiming 25% less in TIF revenue:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	— %
2028	$10,162,871	-$3,361,348	-24.85 %
2029	$10,137,372	-$3,386,847	-33.33 %
2030	$10,111,873	-$3,412,346	-33.66 %
2031	$10,111,873	-$3,412,346	-33.75 %

Claiming 25% less in Greater Downtown TIF revenue will provide additional general fund levy tax dollars due to the growth that the improvements created in the GDTIF District. The additional general fund levy tax dollars estimated to be returned to all taxing bodies in Fiscal Year 2028 based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

The following are projects included in the FY 2027-2031 CIP:

Downtown Master Plan Update (page 357) - This project ($150,000) provides for the preparation of a Downtown Master Plan that will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core.

Jackson Park Restroom Building (page 24) - This project ($100,000) provides for additional funding for the Jackson Park restroom building. Initial funding was approved in FY 2020, but due to COVID-19, the project was put on hold.

Five Flags Building Improvements (page 29) – This project ($5,869,457) provides funding for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. With existing funds of $1,206,410, there is $5,869,457 available. This is a substantial decrease from the approximately $24 million previously available.

Five Flags Marquee Replacement (page 30) – This project ($133,500) provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The life expectancy is 7-9 years. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

Five Flags Boiler Replacement (page 31) – This project ($410,000) provides funding for replacement of three 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient.

Five Flags Recirculating Pump Replacement (page 32) – This project ($40,700) provides for the replacement of two recirculating pumps that are responsible for keeping the warm water for sinks readily available by circulating the hot water.

Five Flags Emergency Generator Replacement (page 33) – This project ($870,400) provides for replacement of the emergency standby generator located at 5th Street which provides power to critical systems inside of the building during a sudden loss of power. The current generator was installed in 2000 and is nearing the end of life expectancy of 30 years. A new generator would be more efficient and environmentally friendly.

Grand River Center Dishwasher and Water Softener Replacement (page 43) - This project ($263,000) provides for a dishwasher and water softener replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

Grand River Center Roof Restoration (page 44) - This project ($1,383,000) provides for restoration of the roof on the Grand River Center. The roof was installed in 2002 and restoration is critical to prevent expensive damage if the roof begins leaking.

Grand River Center HVAC System Evaluation (page 45) - This project ($35,000) provides for a consultant to evaluate the HVAC system, software, and controllers. The current system is original to the building, outdated, and difficult to service.

Port of Dubuque Street Extension (page 281) - The city is moving forward with further development in the Port of Dubuque. Specifically, there is approximately 13 acres of vacant property on the north side of 5th Street. These funds ($100,000) will provide money to create an entry road to that site and to plan for the potential future realignment of Ice Harbor Drive to line up with that entry road.

Railroad Crossing Safety Improvements and Quiet Zone Implementation (page 297) - This project ($833,104) provides funding to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within jurisdictional areas.

Federal Building Renovation (page 334) - This project ($8,645,473) provides funding in FY27 for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY28 and FY29 provides funding for the second phase of HVAC upgrades.

Downtown Bike Lockers (page 336) - This project ($30,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team.

Greater Downtown Rehabilitation and Housing Incentive Program (page 338) – This program ($1,970,403) consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing. This is a substantial reduction from previous available funding.

Downtown Storefront Activation Program (page 340) - This new project ($400,000) provides for $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

Smart Parking System Implementation (page 344) - This project ($1,490,175) provides funds for way finding signage throughout the City of Dubuque. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

Parking Ramp Major Maintenance Repairs (page 345) - This project ($9,161,567) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical & plumbing repairs.

Municipal Parking Lot Maintenance (page 346) - This project ($196,182) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces of municipal parking lots.

Homeowner Rehabilitation Program (page 350) - This project ($2,741,588) provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978.

Downtown ADA Assistance Program (page 352) - This project ($185,000) provides assistance to residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafés, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income(LMI) residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expired in FY 2025 and all certified debt has been collected.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$589,631
City of Dubuque	36.26 %	$566,358
Dubuque County	19.96 %	$311,763
Northeast Iowa Community College	2.75 %	$42,953
Sunnycrest Manor County Hospital	1.89 %	$29,521
Dubuque Agricultural Extension	0.41 %	$6,404
Dubuque City Assessor	0.98 %	$15,307
Total	100.00 %	$1,561,937

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2026.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$226,916
City of Dubuque	36.26 %	$217,960
Dubuque County	19.96 %	$119,980
Northeast Iowa Community College	2.75 %	$16,530
Sunnycrest Manor County Hospital	1.89 %	$11,361
Dubuque Agricultural Extension	0.41 %	$2,465
Dubuque City Assessor	0.98 %	$5,891
Total	100.00 %	$601,103

South Pointe Housing TIF District

In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/ Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2031 due to a three year extension.

Rustic Point Housing TIF District

In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/ Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2028.

N Grandview Housing TIF District

In FY 2021, the City created a housing TIF district in the North Grandview subdivision off of North Grandview Avenue. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in 2033.

MISCELLANEOUS SOURCES

Private Participation (1.10% of Total CIP)
Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance ($467,157); Street Lighting and Traffic Signal Knockdown insurance reimbursements ($50,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project ($1,000,000); Milling sales from the Asphalt Milling Program ($375,000); Private Marina Companies contribution for Harbor Area Maintenance Dredging ($200,000); Jeffris Family Foundation contribution for the restoration of Eagle Point Park structures ($1,852,354); and IDOT reimbursement for the Pavement Marking program ($125,000).

Special Assessments (0.08% of Total CIP)
Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The $285,000 amount breaks down: (a) $250,000 for sidewalk lien special assessments, and (b) $35,000 for green alleys (non Bee Branch) special assessments.

POLICY GUIDELINES

This page intentionally left blank.

CITY OF DUBUQUE

BUDGET & FISCAL POLICY GUIDELINES

FISCAL YEAR 2027

Operating Budget Guidelines

The Policy Guidelines are developed and adopted by City Council during the budgeting process to provide targets or parameters within which the budget recommendation will be formulated, in the context of the City Council Goals and Priorities established in August 2025. The final budget presented by the City Manager may not meet all these targets due to changing conditions and updated information during budget preparation. To the extent the recommended budget varies from the guidelines, an explanation will be provided in the printed budget document. By State law, the budget that begins July 1, 2026 must be adopted by April 30, 2026.

A. RESIDENT PARTICIPATION

GUIDELINE

To encourage resident participation in the budget process, City Council will hold multiple special meetings in addition to the budget public hearing for the purpose of reviewing the budget recommendations for each City department and requesting public input following each departmental review.

The budget will be prepared in such a way as to maximize its understanding by residents. Copies of the recommended budget documents will be accessed via the following:

1. The City Clerk's office, located in City Hall (printed)
2. The government documents section at the Carnegie Stout Public Library (printed)
3. On the City's website at www.cityofdubuque.org/budget (digital)

Opportunities are provided for resident input prior to formulation of the City Manager's recommended budget and will be provided again prior to final Council adoption, both at City Council budget special meetings and at the required budget public hearing.

Timeline of Public Input Opportunities

The Budget Office conducts year-round community outreach with Balancing Act using print and digital marketing and presentations.

- **November:** The City Manager hosted an evening public budget input meeting.

Open Budget

dollarsandcents.cityofdubuque.org

During Fiscal Year 2016, the City launched a web based open data platform. The City of Dubuque's Open Budget application provides an opportunity for the public to explore and visually interact with Dubuque's operating and capital budgets. This application is in support of the five-year organizational goal of a financially responsible city government and high-performance organization and allows users with and without budget data experience, to better understand expenditures in these categories.

During Fiscal Year 2017, an additional module was added to the open data platform which included an interactive checkbook which will allow residents to view the City's payments to vendors. The final step will be adding performance measures to the open data platform to allow residents to view outcomes of the services provided by the City.

Balancing Act

During Fiscal Year 2019, the City of Dubuque launched a new interactive budget simulation tool called Balancing Act. The online simulation invites community members to learn about the City's budget process and submit their own version of a balanced budget under the same constraints faced by City Council, respond to high-priority budget input questions, and leave comments.

Taxpayer Receipt

During Fiscal Year 2019, the City launched an online application which allows users to generate an estimate of how their tax dollars are spent. The tool uses data inputted by the user such as income, age, taxable value of home, and percentage of goods purchased within City limits. The resulting customized receipt demonstrates an estimate of how much in City taxes the user contributes to Police, Fire, Library, Parks, and other city services. This tool is in support of the City Council goal of a financially responsible and high-performance organization and addresses a Council-identified outcome of providing opportunities for residents to engage in City governance and enhance transparency of City decision-making.

B. SERVICE OBJECTIVES AND SERVICE LEVELS

GUIDELINE

The budget will identify specific objectives to be accomplished during the budget year, July 1 through June 30, for each activity of the City government. The objectives serve as a commitment to the citizens from the City Council and City organization and identify the level of service which the citizen can anticipate.

C. TWO TYPES OF BUDGET DOCUMENTS TO BE PREPARED

GUIDELINE

Two types of budget documents will be prepared for public dissemination. The recommended City operating budget for Fiscal Year 2027 will consist of a Recommended City Council Policy Budget that is a collection of information that has been prepared for department hearings and a Residents Guide to the Recommended FY 2027 Budget. These documents will be available on the Friday proceeding the Budget Presentation to City Council. In FY 2027, that date is April 3, 2026.

1. **Recommended City Council Policy Budget** The purpose of this documents is to focus attention on policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions. The document will emphasize objectives, accomplishments and associated costs for the budget being recommended by the City Manager.

   The Recommended City Council Policy Budget will include the following information for each department:

   - Highlights of prior year's accomplishments and Future Year's Initiatives
   - A financial summary
   - A summary of improvement packages requested and recommended significant line items
   - Capital improvement projects in the current year and those recommended over the next five years
   - Organizational chart for larger departments and major goals, objectives and performance measures for each cost center within that department

- Line item expense and revenue financial summaries.

2. **The Residents Guide** This section of the Recommended FY 2027 Budget will be a supplementary composite of tables, financial summaries and explanations. It will include the operating and capital budget transmittal messages and the adopted City Council Budget Policy Guidelines. Through graphs, charts and tables it presents financial summaries which provide an overview of the total operating and capital budgets.

D. ADOPT A BALANCED BUDGET

GUIDELINE

The City will adopt a balanced budget in which expenditures will not be allowed to exceed reasonable estimated resources. The City will pay for all current expenditures with current revenues.

E. BALANCE BETWEEN SERVICES AND TAX BURDEN

GUIDELINE

The budget should reflect a balance between services provided and the burden of paying taxes and/or fees for those services. It is not possible or desirable for the City to provide all the services requested by individual residents. The City must consider the ability of residents to pay for services in setting service levels and priorities.

F. MAINTENANCE EXISTING LEVEL OF SERVICE

GUIDELINE

To the extent possible with the financial resources available, the City should attempt to maintain the existing level of services. As often as reasonably possible, each service should be tested against the following questions:

a) Is this service truly necessary?
b) Should the City provide it?
c) What level of service should be provided?
d) Is there a better, less costly way to provide it?
e) What is its priority compared to other services?
f) What is the level of demand for the service?
g) Should this service be supported by property tax, user fees, or a combination?

G. IMPROVE PRODUCTIVITY

GUIDELINE

Continue efforts to stretch the value of each tax dollar and maximize the level of City services purchased with tax dollars through continual improvements in efficiency and effectiveness. Developing innovative and imaginative approaches for old tasks, reducing duplication of service effort, creative application of new technologies, and more effective organizational arrangements are approaches to this challenge.

H. USE OF VOLUNTEERS

DISCUSSION

To respect residents who must pay taxes, the City must seek to expand resources and supplement service-delivery capacity by continuing to increase direct resident involvement with service delivery. Residents are encouraged to assume tasks previously performed or provided by City government. This may require the City to change and expand the approach to service delivery by providing organizational skills and training and coordinating staff, office space, meeting space, equipment, supplies and materials rather than directly providing more expensive full-time City staff. Activities in which residents can continue to take an active role include: Library, Recreation, Parks, Five Flags Center, and Police.

GUIDELINE

Future maintenance of City service levels may depend partially or largely on volunteer resident staffs. Efforts shall continue to identify and implement areas of City government where (a) volunteers can be utilized to supplement City employees to maintain service levels (i.e., Library, Recreation, Parks, Police) or (b) service delivery can be adopted by to non-government groups and sponsors -- usually with some corresponding financial support.

I. RESTRICTIONS ON INITIATING NEW SERVICE

GUIDELINE

New service shall only be considered: (a) when additional revenue or offsetting reduction in expenditures is proposed; or (b) when mandated by state or federal law.

J. SALARY INCREASES OVER THE AMOUNT BUDGETED SHALL BE FINANCED FROM BUDGET REDUCTIONS IN THE DEPARTMENT(S) OF THE BENEFITING EMPLOYEES

DISCUSSION

The recommended budget includes salary amounts for all City employees. However, experience shows that budgeted amounts are often exceeded by fact finder and/or arbitrator awards. Such "neutrals" do not consider the overall financial capabilities and needs of the community and the fact that the budget is carefully balanced and fragile. Such awards have caused overdrawn budgets, deferral of necessary budgeted expenditures, expenditure of working balances and reserves, and have generally reduced the financial condition or health of the City government. To protect the financial integrity of the City government, it is recommended the cost of any salary adjustment over the amount financed in the budget is paid for by reductions in the budget of the department(s) of the benefiting employees.

The City has five collective bargaining agreements. The current contracts expire as follows:

Bargaining Unit	Contract Expires
Teamsters Local Union No. 120	June 30, 2030
Teamsters Local Union No. 120 Bus Operators	June 30, 2030
Dubuque Professional Firefighters Association	June 30, 2027
Dubuque Police Protective Association	June 30, 2029
International Union of Operating Engineers	June 30, 2029

GUIDELINE

Salary increases over the amount budgeted for salaries shall be financed from operating budget reductions in the department(s) of the benefiting employees.

K. THE AFFORDABLE CARE ACT

GUIDELINE

The Affordable Care Act is a health care law that aims to improve the current health care system by increasing access to health coverage for Americans and introducing new protections for people who have health insurance. The Affordable Care Act (ACA) was signed into law on March 23, 2010. Under the ACA, employers with more than 50 full-time equivalent employees must provide affordable "minimum essential coverage" to full-time equivalent employees. The definition of a full-time equivalent employee under the Affordable Care Act is any employee that works 30 hours per week or more on average over a twelve-month period (1,660 hours or more). There is a twelve-month monitoring period for part-time employees. If a part-time employee meets or exceeds 30 hours per week on average during that twelve-month period, the City must provide health insurance. On July 2, 2013, the Treasury Department announced that it postponed the employer shared responsibility mandate for one year. Based on the initial requirements of the Affordable Health Care Act, the Fiscal Year 2014 budget provided for insurance coverage effective February 1, 2014 for several part-time employees. In addition, the Fiscal Year 2014 budget provided for making several part- time positions full-time on June 1, 2014. Due to the delay of the employer shared responsibility mandate for the Affordable Health Care Act, the City delayed providing insurance coverage for eligible part-time employees and delayed making eligible part- time positions full-time until January 1, 2015.The Standard Measurement Period was delayed from January 1, 2013 through December 31, 2013 to December 1, 2013 through November 30, 2014 with the first provision of health insurance date being January 1, 2015.

The impact of the Affordable Care Act on the City of Dubuque included changing nine part-time positions to full-time (Bus Operators (4), Police Clerk Typist (1), Building Services Custodians (3), and Finance Cashier (1) in Fiscal Year 2016. In addition, nine part-time positions were offered health insurance benefits due to working more than1,560 hours (Bus Operators (4), Golf Professional, Assistant Golf Professional, Golf Maintenance Worker, Parks Maintenance Worker , and Water Meter Service Worker). The number of these part-time positions with health insurance benefits has been reduced as employees in these positions accept other positions or leave employment with the City of Dubuque. As of March 17, 2026, there are no part-time positions with health insurance benefits that remains.

L. BALANCE BETWEEN CAPITAL AND OPERATING EXPENSES

GUIDELINE

The provision of City services in the most economical and effective manner requires a balance between capital (with emphasis upon replacement of equipment and capital projects involving maintenance and reconstruction) and operating expenditures. This balance should be reflected in the budget each year.

M. USER CHARGES

DISCUSSION

User charges or fees represent a significant portion of the income generated to support the operating budget. It is the policy that user charges or fees be established when possible so those who benefit from a service or activity also help pay for it. Municipal utility funds have been established for certain activities, which are intended to be self- supporting Enterprise Funds. Examples of utility funds operating as Enterprise Funds include Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund. In other cases, a user charge is established after the City Council determines the extent to which an activity must be self-supporting. Examples of this arrangement are fees for swimming, golf, recreation programs, and certain inspection programs such as rental inspections and building permits.

The Stormwater User Fund is fully funded by stormwater use fees. The General Fund will continue to provide funding for the stormwater fee subsidies which provide a 50% subsidy for the stormwater fee charged to property tax exempt properties and low-to- moderate income residents and a 75% subsidy for residential farms. The General Fund will also continue to provide funding for the refuse, water, and sanitary sewer fee subsidies which provide a 50% subsidy for the fees charged to low-to-moderate income residents.

GUIDELINE

User fees and charges should be established where possible so that those who utilize or directly benefit from a service, activity or facility also help pay for it.

User fees and charges for each utility enterprise fund (Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund) shall be set at a level that fully supports the total direct and indirect cost of the activity, including the cost of annual depreciation of capital assets, the administrative overhead to support the system and financing for future capital improvement projects.

	Percent Self-Supporting			
Activity	**FY 2024 Actual**	**FY 2025 Actual**	**FY 2026 Adopted**	**FY 2027 Rec'd**
Adult Athletics	77.2%	84.3%	61.7%	51.1%

N. ADMINISTRATIVE OVERHEAD RECHARGES

DISCUSSION

While the Enterprise Funds have contributed to administrative overhead, the majority has been provided by the General Fund. This is not reasonable and unduly impacts property taxes, which causes a subsidy to the Enterprise Funds. Prior to FY 2013, the administrative overhead was charged by computing the operating expense budget for each enterprise fund and dividing the result by the total City-wide operating expense budget which resulted in the following percentages of administrative overhead charged to each enterprise fund: Water 5.32%; Sanitary Sewer 4.84%; Stormwater 0.55%; Solid Waste 2.83%; Parking 1.71%; and Landfill 2.71%. The adopted Fiscal Year 2013 budget changed the administrative overhead to be more evenly split between the general fund and enterprise funds and is phased in over many years.

The Fiscal Year 2018 administrative overhead formula was recommended modified. The modification removed Neighborhood Development, Economic Development and Workforce Development from all recharges to utility funds. In addition, the Landfill calculation is modified to remove Geographic Information Systems and Planning Services. The Fiscal Year 2027 administrative overhead formula is recommended to be modified to include the Landfill in Communication Department recharges.

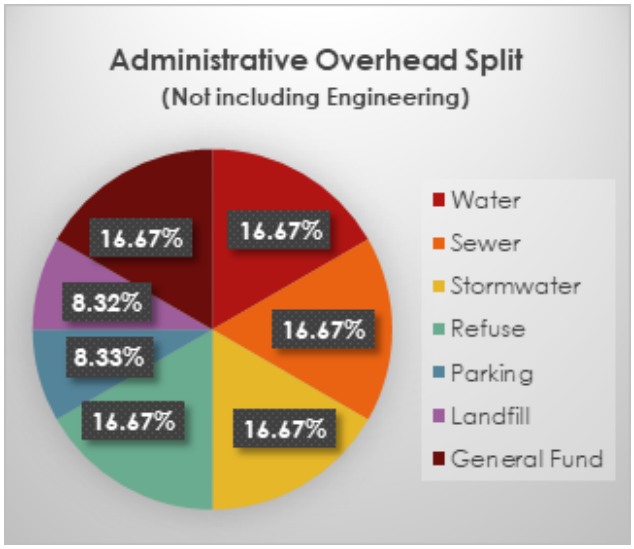
In Fiscal Year 2027, the general fund is recommended to support $2,841,058 in administrative overhead using the recharge method adopted in Fiscal Year 2013 and revised in Fiscal Year 2018.

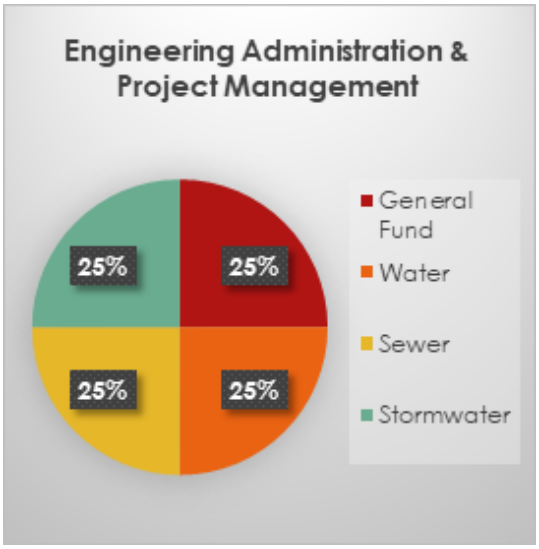
GUIDELINE

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Planning, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

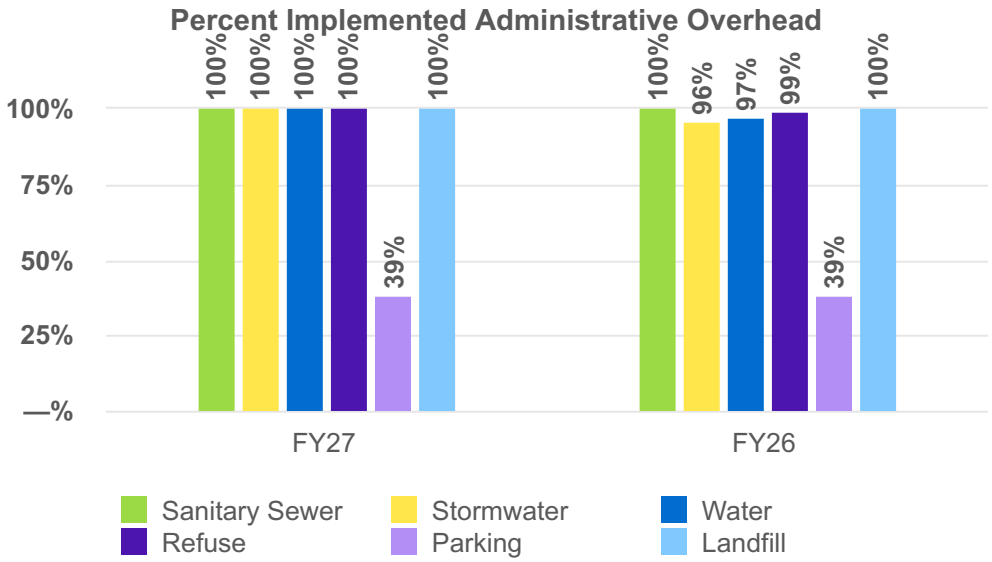
Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses. In Fiscal Year 2027, the Communications Department is also recharged to the Landfill.

When the overhead recharges are fully implemented, the split of the cost of administrative overhead excluding Engineering will be as follows:





The implementation percent of the administrative overhead recharges in Fiscal Year 2026 as compared to Fiscal Year 2027 is as follows:



O. OUTSIDE FUNDING

DISCUSSION

The purpose of this guideline is to establish the policy that the City should aggressively pursue outside funding to assist in financing its operating and capital budgets.

However, the long-term commitments required for such funding must be carefully evaluated before any agreements are made. Commitments to assume an ongoing increased level of service or level of funding once the outside funding ends must be minimized.

GUIDELINE

To minimize the property tax burden, the City of Dubuque will make every effort to obtain federal, state and private funding to assist in financing its operating and capital budgets. However, commitments to guarantee a level of service or level of funding after the outside funding ends shall be minimized. Also, any matching funds required for capital grants will be identified.

P. GENERAL FUND OPERATING RESERVE (WORKING BALANCE)

DISCUSSION

An operating reserve or working balance is an amount of cash, which must be carried into a fiscal year to pay operating costs until tax money, or other anticipated revenue comes in. Without a working balance, there would not be sufficient cash in the fund to meet its obligations and money would have to be borrowed. Working balances are not available for funding a budget; they are required for cash flow (i.e., to be able to pay bills before taxes are collected).

Moody's Investor Service recommends a factor of 35 percent for “AA” rated cities. In January 2025, Moody’s Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody’s credit analysis states, “the City of Dubuque’s local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs.” According to Moody’s, the Aa2 issuer rating for the City of Dubuque’s bonds reflects the city’s healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City’s available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody’s Investor Service upgraded the City’s outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody’s Investors Service (“Moodys”) released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio (“AFBR”) = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio (“LR”) = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody’s under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody’s calculated the City’s AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City’s general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City’s ratings.

In May 2021, Moody’s Investor Service upgraded the City’s Water Enterprise’s outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As % of General Fund revenues)	New Moody's Calculation	Reason for change from previous FY
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	43.07%	58.14%	Decrease due to spend down of American Rescue Plan Act funds.

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which are adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy. Per the policy for the General Fund, the City will maintain a minimum fund balance of at least 20 percent of the sum of (a) annual operating expenditures not including interfund transfers in the General Fund less (b) the amounts levied in the Trust and Agency fund and the Tort Liability Fund ("Net General Fund Operating Cost"). The City may increase the minimum fund balance by a portion of any operating surplus above the carryover balance of $200,000 that remains in the General Fund at the close of each fiscal year. The City continued to add to the General Fund minimum balance when additional funds were available until 20 percent of Net General Fund Operating Cost was reached in Fiscal Year 2017. **During Fiscal Year 2024, the General Fund minimum balance was increased to 25 percent.**

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be $26,946,677 on June 30, 2026 as compared to the general fund reserve balance on an accrual basis of $25,412,743. The general fund reserve balance on an accrual basis exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

GUIDELINE

The guideline of the City of Dubuque is to maintain a General Fund working balance or operating reserve of 25% (27% to maintain a margin of error of 2%) in FY 2026 and beyond. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2023. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

General Fund Reserve Projections:

Fiscal Year	Contribution	City's Spendable General Fund Cash Reserve	% of Projected Revenue	Moody's New Methodology
FY2021	$ 500,000	$ 31,089,468	40.72 %	
FY2022	$	$ 41,259,518	49.16 %	45.09 %
FY2023	$ 2,717,339	$ 48,403,917	55.82 %	62.99 %
FY2024	$ 4,419,668	$ 43,826,193	51.19 %	62.41 %
FY2025	$ 415,247	$ 38,147,743	40.53 %	52.33 %
FY2026	$ 1,823,234	$ 25,412,743	27.00 %	45.03 %
FY2027	$	$ 25,412,743	27.00 %	45.03 %
FY2028	$	$ 25,412,743	27.00 %	45.03 %
FY2029	$	$ 26,388,917	27.00 %	45.03 %
FY2030	$	$ 25,412,743	27.00 %	43.60 %

* Capital projects and large equipment purchases that are not completed in the year budgeted will temporarily increase the amount of fund balance remaining at the end of the fiscal year. After resources are allocated to the next fiscal year to complete unfinished capital projects and equipment purchases, **any amount of general fund reserve balance over 27% creates resources for additional capital projects or other mid-year expenses.**

Q. STATE LEGISLATIVE ANTICIPATION RESERVE FUND

DISCUSSION

The State Legislative Anticipation Reserve Fund is a new fund and is being established in Fiscal Year 2027 using $2.4 million generated from the repayment of internal loans to the City's General Fund from the Greater Downtown TIF (GDTIF) Fund.

This reserve is being created in recognition of the significant property tax reform proposals being considered during the current State legislative session. Because these reforms could materially affect the City's future revenue structure, it is financially prudent to maintain an additional reserve to help absorb any potential impacts. Retaining this balance through the FY 2028 budget cycle ensures the City can respond responsibly should legislative changes reduce or otherwise alter revenues.

The actual total repayment was $5.3 million, with $1.2 million for property tax relief, $2,187 used to fund non-recurring General Fund improvement requests, and to make a $675,554 internal loan to the Refuse Collection enterprise fund.

If the City Council elects to use any portion of the State Legislative Anticipation Reserve Fund before FY 2028, such use must be limited strictly to non-recurring expenses. This preserves the integrity of the reserve by ensuring one-time funds are not used to support ongoing operational costs, maintaining long-term fiscal sustainability.

GUIDELINE

The guideline of the City of Dubuque is to maintain a State Legislative Anticipation Reserve Fund through Fiscal Year 2028. The reserve balance is funded with one-time revenue from the repayment of internal loans to the General Fund from the GDTIF Fund in the amount of $4.1 million.

R. USE OF UNANTICIPATED, UNOBLIGATED, NONRECURRING INCOME

DISCUSSION

Occasionally, the City receives income that was not anticipated and was not budgeted. Often, this money is non-recurring and reflects a one-time occurrence which generated the unanticipated increase in income.

Non-recurring income generally will not be spent on recurring expenses. This would result in a funding shortfall in the following budget year before even starting budget preparation. However, eligible non-recurring expenditures would include capital improvements and equipment purchases.

GUIDELINE

Nonrecurring unobligated income shall generally only be spent for nonrecurring expenses. Capital improvement projects and major equipment purchases tend to be nonrecurring expenditures.

S. USE OF "UNENCUMBERED FUND BALANCES"

DISCUSSION

Historically, 100% of a budget is not spent by the end of the fiscal year and a small unencumbered balance remains on June 30th. In addition, income sometimes exceeds revenue estimates or there are cost savings resulting in some unanticipated balances at the end of the year. These amounts of unobligated, year-end balances are "carried over" into the new fiscal year to help finance it.

The FY 2026 General Fund budget, which went into effect July 1, 2025, anticipated a "carryover balance" of $200,000 or approximately 0.7 percent of the City tax asking. For multi-year budget planning purposes, these guidelines assume a carryover balance of $200,000 in FY 2027 through FY 2031.

GUIDELINE

Carryover General Fund balance shall generally be used to help finance the next fiscal year budget and reduce the demand for increased taxation. The available carryover General Fund balance shall be anticipated not to exceed $200,000 for FY 2027 and beyond through the budget planning period. Any amount over that shall usually be programmed in the next budget cycle as part of the capital improvement budgeting process.

T. PROPERTY TAX DISCUSSION

I. ASSUMPTIONS - RESOURCES

1. Local, Federal and State Resources

a) **Cash Balance.** Unencumbered funds or cash balances of $200,000 will be available in FY 2027 and each succeeding year to support the operating budget.

b) **Interest Revenue.** Interest revenue decreased from $2,300,097 in FY 2026 to $1,620,974 in FY 2027. The FY 2027 budget is based on projected general fund cash balance, and projected declining interest rates.

c) **Sales Tax Revenue.** By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2027. Sales tax receipts are projected to decrease 0.74% under FY 2026 actual of $12,465,961 based on FY 2026 revised revenue estimate which includes actuals through February 2026, and then increase at an annual rate of 2.00% percent per year beginning in FY 2028. The following chart shows the past four years of actual sales tax funds and projected FY 2027 for the General Fund:

Sales Tax Funds	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
PY Q4	$ 475,037	$ 475,037	$ 451,920	$ 574,416	$ 635,746
Quarter 1	1,177,196	1,177,196	1,545,777	1,592,834	1,610,911
Quarter 2	1,522,885	1,522,885	1,596,421	1,605,397	1,302,193
Quarter 3	1,443,097	1,443,097	1,524,508	1,490,640	1,576,480
Quarter 4	1,110,593	1,110,593	979,209	969,694	1,061,815
Reconciliation	371,388	371,388	—	—	—
Total	$ 6,100,196	$ 6,097,835	$ 6,232,981	$ 6,187,145	$ 6,372,757
% Change	**-4.00%**	**-0.04%**	**+2.22%**	**-0.74%**	**+3.00%**

d) **Hotel/Motel Tax Revenue.** Hotel/motel tax receipts are projected to increase 5.00% ($167,286) over FY 2026 re-estimated receipts of $3,345,715, and then increase at an annual rate of 3.00% per year.

e) **FTA Revenue.** Federal Transportation Administration (FTA) transit operating assistance decreased from $598,167 in FY 2026 to $443,500 in FY 2027. The FY 2027 budget is based on the revised FY 2026 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

f) **Ambulance Revenue.** Ambulance Ground Emergency Medical Transport Payments increased from $2,413,018 in FY 2026 to $2,714,947 in FY 2027. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2021. FY 2027 is based on calculated projections using historical averages. This revenue is projected using the first quarter of performance in FY 2025 and the previous 11 quarters of performance. Based on that formula, the 3-year quarterly average growth of Medicaid transports is 0.8%. The projected number of transports for FY 2025 is 1,084 and for FY 2026 is 1,092. The FY 2024 actual was 1,075. Based on the unaudited FY 2024 cost report, the FY 2026 revenue per transport is estimated to be $2,209.18. This line item is offset by GEMT Pay to Other Agency expense for local match of $904,973 resulting in net revenue of $1,809,974.

Ambulance Fees increased from $1,756,870 in FY 2026 to $2,778,351 in FY 2027 based on calculated projections using historical averages and Council approved advanced life support and basic life support service fees to match the third-party cost report. The FY 2025 actual was $2,026,670.

As the City Council approved in 2025, these funds are being used to add five firefighter positions in Fiscal Year 2026 and should the City receive a SAFER grant, nine more firefighter positions in Fiscal Year 2027.

g) **Miscellaneous Revenue.** Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2026.

h) **Building Fee Revenue.** Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase $101,389 from $1,099,857 in FY 2026 to $1,201,246 in FY 2027.

i) **DRA Revenue.** Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to decrease $134,176 from $7,213,362 in FY 2026 to $7,079,186 in FY 2027 based on revised projections from the DRA. This follows a $192,217 decrease from budget in FY 2026 and a $2,283,319 increase from budget in FY 2025.

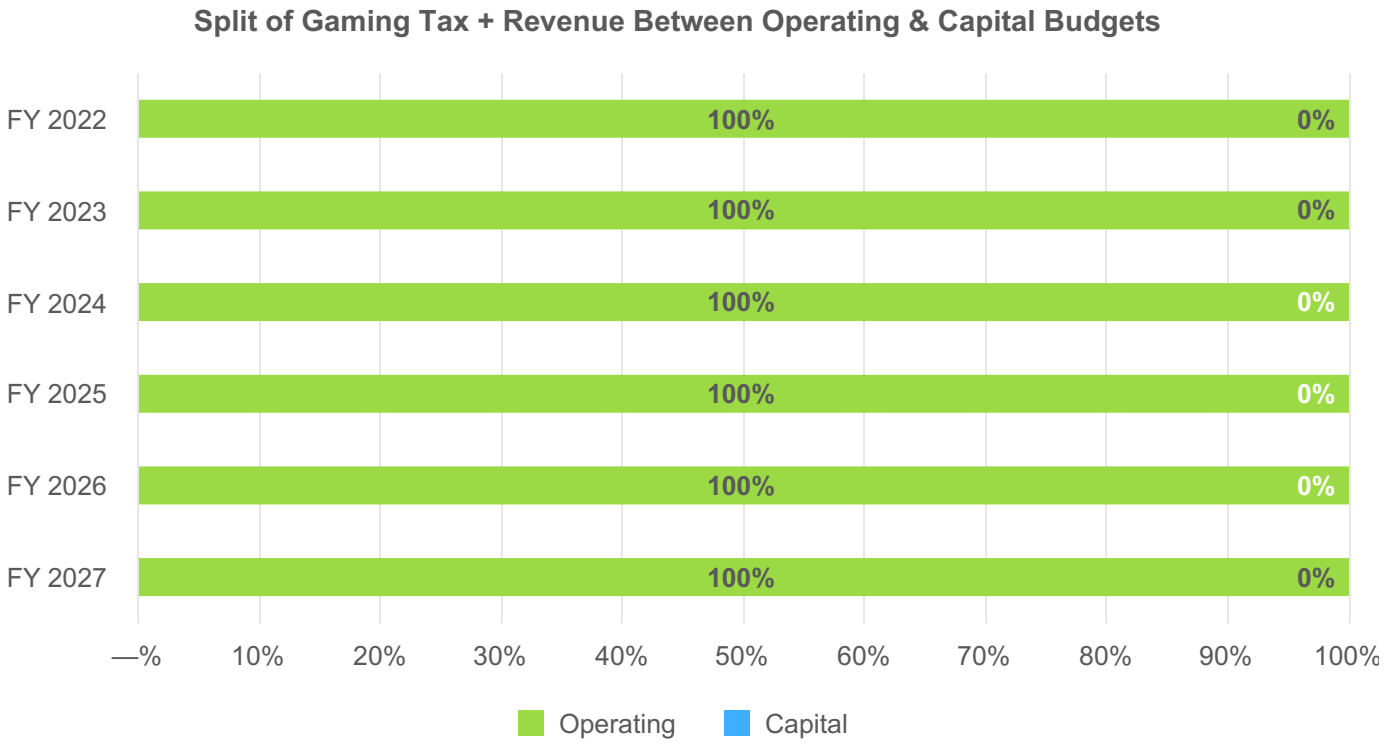
The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease Payments	$ Change	% Change
FY 2027 Projected	$ 7,079,186	$ 127,716	1.84%
FY 2026 Revised	$ 6,951,470	$ (261,892)	-3.63%
FY 2026 Budget	$ 7,213,362	$ 349,629	5.09%
FY 2025 Actual	$ 6,863,733	$ 589,707	9.40%
FY 2024 Actual	$ 6,274,026	$ (917,449)	-12.76%
FY 2023 Actual	$ 7,191,475	$ 583,944	8.84%
FY 2022 Actual	$ 6,607,531	$ 2,645,535	66.77%
FY 2021 Actual	$ 3,961,996	$ (1,187,192)	-23.06%
FY 2020 Actual	$ 5,149,188	$ 293,177	6.04%
FY 2019 Actual	$ 4,856,011	$ 18,879	0.39%
FY 2018 Actual	$ 4,837,132	$ (195,083)	-3.88%
FY 2017 Actual	$ 5,032,215	$ (155,297)	-2.99%
FY 2016 Actual	$ 5,187,512	$ (158,104)	-3.00%

The Diamond Jo payment related to the revised parking agreement increased from $687,003 in FY 2026 to $731,657 in 2027 based on estimated Consumer Price Index adjustment.

j) **DRA Gaming.** The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2027 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2022– FY2027:



k) **Diamond Jo Revenue.** The Diamond Jo Patio lease ($25,000 in FY 2027) and the Diamond Jo parking privileges ($731,657 in FY 2027) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

2. Property Taxes

l) **Residential Rollback.** The residential rollback factor will decrease from 47.4316% in 2026 to 44.5345% or a 6.11% decrease in FY 2027. The rollback has been estimated to remain the same from Fiscal Years 2028 through 2031.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2027, residential property had more growth than agricultural property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average residential property value increased 8.50%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from $93,207 to $94,952 (+1.87%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This increased taxable value for the average homeowner ($91,067 taxable value in FY 2026 and $94,952 taxable value in 2027) results in more taxes to be paid per $1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 44.5345 percent in Fiscal Year 2027. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2026, the City's tax rate would have been $6.18 per $1,000 of assessed value instead of $10.06 in FY 2026.

m) **State Equalization Order/Property Tax Reform.** There was not an equalization order for commercial, industrial or multi-residential property in Fiscal Year 2027. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average commercial and industrial property values increased 16%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from $540,594 to $624,927 (+16%). This revaluation of industrial property resulted in the taxable value for the average industrial calculation to increase from $632,952 to $731,693 (+16%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2027 State backfill for property tax loss is estimated to be $484,830 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds)**.

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2027	$ (97,981)
2028	(97,981)
2029	(97,981)
2030	(97,981)
Total	**$ (391,924)**

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties ($432,475 Commercial / $599,500 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of $148 in FY 2015, $693 in FY 2016, $982 in FY 2017, $959 in FY 2018, $843 in FY 2019, $861 in FY 2020, $779 in FY 2021, $780 in FY 2022, and $722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.

The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2027 is estimated to be $170,000.

n) Multi-Residential Property Class/Eliminated State Shared Revenue.

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239
FY 2018	82.50%	472,127
FY 2019	78.75%	576,503
FY 2020	75.00%	691,640
FY 2021	71.25%	952,888
FY 2022	67.50%	752,366
FY 2023	63.75%	662,821
FY 2024	54.65%	1,186,077
Total		**$ 5,625,661**

This annual loss in tax revenue of $1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost $5,625,661 in total, meaning landlords paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class, so the City continues to lose these revenues.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

a) Machinery and Equipment Tax Replacement in FY 2003 (-$200,000)
b) Personal Property Tax Replacement in FY 2004 (-$350,000)
c) Municipal Assistance in FY 2004 (-$300,000)
d) Liquor Sales Revenue in FY 2004 (-$250,000)
e) Bank Franchise Tax in FY 2005 (-$145,000)
f) Alcohol License Revenue in FY 2023 (-$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

o) Taxable Value. FY 2027 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+3.51 %
Commercial	+15.63 %
Industrial	+8.22 %
Overall	+5.89 %

*Overall taxable value increased +5.89% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2027.

p) Greater Downtown Tax Increment Financing

- In Fiscal Year 2027, $5.3 million in internal loans will be repaid by the Greater Downtown Tax Increment Financing Fund to the General Fund. $1.2 million of the repayment is recommended to be used for general property tax relief and recurring improvement packages in the general fund in Fiscal Year 2027. A portion of the remaining $4.1 million is recommended to fund non-recurring improvement packages of $2,187 in the general fund. $675,554 will be used as an internal loan to the Refuse Collection enterprise fund. The balance will be reserved for the Fiscal Year 2028 budget process as the City needs to be prepared for property tax reform being considered in the State legislative session.

- Beginning in Fiscal Year 2028, the Greater Downtown Tax Increment Financing District will no longer collect 100% of revenues. Instead, the Greater Downtown TIF District will begin collecting 75% of revenues. The remaining 25% will be returned to the general funds of all taxing bodies (Dubuque Community School District, City of Dubuque, Dubuque County, Northeast Iowa Community College, and Independent). Based on Fiscal Year 2027 valuations and the Fiscal Year 2026 consolidated tax rate, collecting only 75% in the Greater Downtown TIF District will annually return approximately $1.3 million to Dubuque Community School District, $1.2 million annually to the City of Dubuque, $661 thousand annually to Dubuque County, $81 thousand annually to Northeast Iowa Community College, and $81 thousand annually to Independent taxing bodies. This also means that beginning in Fiscal Year 2028, the Greater Downtown TIF District will have $3,250,000 less each year for programs and projects.

r) Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by $101,268 in FY 2027 to $4,374,313 due to the estimated consumer price index increase.

3. Fees, Tax Rates & Services

s) Franchise Fees. Natural Gas franchise fees are based on FY 2025 actual of $1,743,494. Also, Electric franchise fees are based on FY 2026 budget of $5,075,053 plus rate increases of 5.6%. The franchise fee revenues are projected to increase at an annual rate of 4 percent per year from FY 2028 through FY 2031.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

t) **Property Tax Rate.** For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2027.

u) **Police & Fire Protection.** FY 2027 reflects the fifteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2027, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

II. ASSUMPTIONS - REQUIREMENTS

a) **Pension Systems.**

- The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.56% percent in FY 2026 to 21.86% percent in FY 2027 (general fund savings of $80,480 for Police and $75,845 for Fire or a total savings of $156,325).
- The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2026 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2026 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b) **Collective Bargaining and Non-Represented.** The already approved collective bargaining agreements for Dubuque Professional Fire Fighters Association includes a 4% increase, International Union of Operating Engineers includes a 3.25% wage increase, the Dubuque Police Protective Association includes a 5% wage increase, and the Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 include a 3% increase. Non-represented employees include a 3.00% wage increase. Fiscal Year 2027 includes the cost of the multi-year implementation of the classification and compensation study. A classification and compensation study analyzes the job positions (not individuals) in an organization. The purpose of a classification and compensation study is to ensure jobs with comparable minimum qualifications, job responsibilities, supervisory expectations, working conditions and environments are grouped closely in a compensation plan. Salary ranges are competitive within the identified market, and to equip the human resources team to consistently administer classification and compensation programs on an ongoing basis. The City's strategy through this study has been to recommend a new compensation strategy in which the City is competitive at the 50% percentile of employers. Total cost of the wage increases for collective bargaining and non-represented employees, and continued classification and compensation study implementation is $3,509,780 to the General Fund.

c) **Health Insurance.** The City portion of health insurance expense is projected to increase from $1,119 per month per contract to $1,175 per month per contract (based on 662 contracts) in FY 2027 (increase of $589,333 to the general fund). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings.There was a decrease of $639,758 in prescription drug cost in FY 2022. Based on FY 2026 actual experience, Fiscal Year 2027 is projected to have a 5.35% increase in health insurance costs. Estimates for FY 2028 were increased 5.36%; FY 2029 were increased 5.37%; FY 2030 were increased 5.38%; and FY 2031 were increased 5.38%. Effective January 1, 2027, employee contributions will increase.

d) **Five-Year Retiree Sick Leave Payout.** FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2026 was $288,742 as compared to FY 2027 of $228,836, based on qualifying employees officially giving notice of retirement.

e) **50% Sick Leave Payout.** Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2026 was $128,496 as compared to FY 2027 of $141,764, based on FY 2026 year-to-date expense.

f) **Parental Leave.** Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

g) **Supplies & Services.** General operating supplies and services are estimated to increase 2% over actual in FY 2025. A 2% increase is estimated in succeeding years

h) **Electricity.** Electrical energy expense is estimated to increase 4% over FY 2025 actual expense, then 2% per year beyond.

i) **Natural Gas.** Natural gas expense is based on FY 2025 actual then 2% per year beyond.

j) **Travel Dubuque.** The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k) **Equipment & Machinery.** Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget based on equipment replacement schedules, then remain constant per year beyond.

l) **Debt Service.** Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m) **Unemployment.** Unemployment expense in the General Fund decreased from $23,824 in FY 2026 to $27,007 in FY 2027 based on estimated premium for FY2026.

n) **Motor Vehicle Fuel.** Motor vehicle fuel is estimated to decrease 30% under the FY 2026 budget based on the City fuel island fully operational in FY 2027and no longer purchasing from retail gas stations, then increase 2.0% per year beyond.

o) **Motor Vehicle Maintenance**. Motor vehicle maintenance is based on the FY 2026 budget, then increase 2.0% per year and beyond.

p) **Public Transit.** The increase in property tax support for Transit from FY 2026 to FY 2027 is $434,533, which reflects a decrease in Federal Transportation Administration Operating revenue ($154,667); a decrease in Federal Transportation Administration Capital ($344,329), an increase in employee expense ($111,155); decrease in supplies and services ($120,569); a reduction in equipment replacements ($99,615), a decrease in passenger fare revenue ($2,579).

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
2027 Projection	$ 2,361,869	22.55 %
2026 Budget	$ 1,927,336	(1.74)%
2025 Actual	$ 1,961,488	26.70 %
2024 Actual	$ 1,548,127	(1.52)%
2023 Actual	$ 1,571,981	(1.83)%
2022 Actual	$ 1,601,290	(2.09)%
2021 Actual	$ 1,635,441	4.94 %
2020 Actual	$ 1,558,460	(0.82)%
2019 Actual	$ 1,571,307	(0.10)%
2018 Actual	$ 1,572,825	34.10 %
2017 Actual	$ 1,172,885	24.41 %
2016 Actual	$ 942,752	(13.00)%

q) **Shipping & Postage.** Postage rates for FY 2027 are estimated to increase 5% over FY 2025 actual expense and proposed cost increases by United States Postal Service. A 3.0 percent increase is estimated in succeeding years.

r) **Insurance.** Insurance costs are estimated to change as follows:

- Workers Compensation is decreasing 44.18% based on rate change.
- General Liability is decreasing 3.06% based on rate change.
- Damage claims is decreasing 6.86% based on a three year average.
- Property insurance is increasing based on FY 2026 actual over 2%.

s) **Housing.** The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease $69,521 in FY 2027. The budgeted administrative cost of the Housing Choice Voucher Program decreased from $1,129,462 in FY 2026 to $988,895 in FY 2027. Administrative revenue of the Housing Choice Voucher Program decreased from $912,012 in FY 2026 to $827,089 in FY 2027. The resulting Housing Choice Voucher Program deficit decreased from $217,450 in FY 2026 to $161,806 in FY 2027. This deficit is funded by property taxes.

t) **Communications Department.** In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, was no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position was recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions were recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

u) **Greater Dubuque Development Corporation.** Greater Dubuque Development Corporation support of $836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2027, with $26,500 for Targeted Neighborhood Reinvestment strategy paid from the Greater Downtown TIF. In FY 2028 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

PROPERTY TAX IMPACT

The recommended Fiscal Year 2027 property tax rate increased 1.38% and will have the following impact:

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$ 10.0637	$ 10.1648	1.00%	$ 0.10
Property Tax Asking	$ 29,872,253	$ 31,940,934	6.93%	$ 2,068,681

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %
Commercial: $150,000 value & below	433	381	$716.01	$679.03	-$36.98	-5.2 %
Commercial: $150,001-$300,000 value	232	225	$2,074.61	$2,051.27	-$23.34	-1.1 %
Commercial: $300,001-$450,000	147	167	$3,433.21	$3,423.52	-$9.69	-0.3 %
Commercial: Avg. Value = $624,927	588	636	$4,253.76	$5,023.81	$770.05	18.1 %

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Industrial: $150,000 value & below	8	8	$716.01	$679.03	-$36.98	-5.2 %

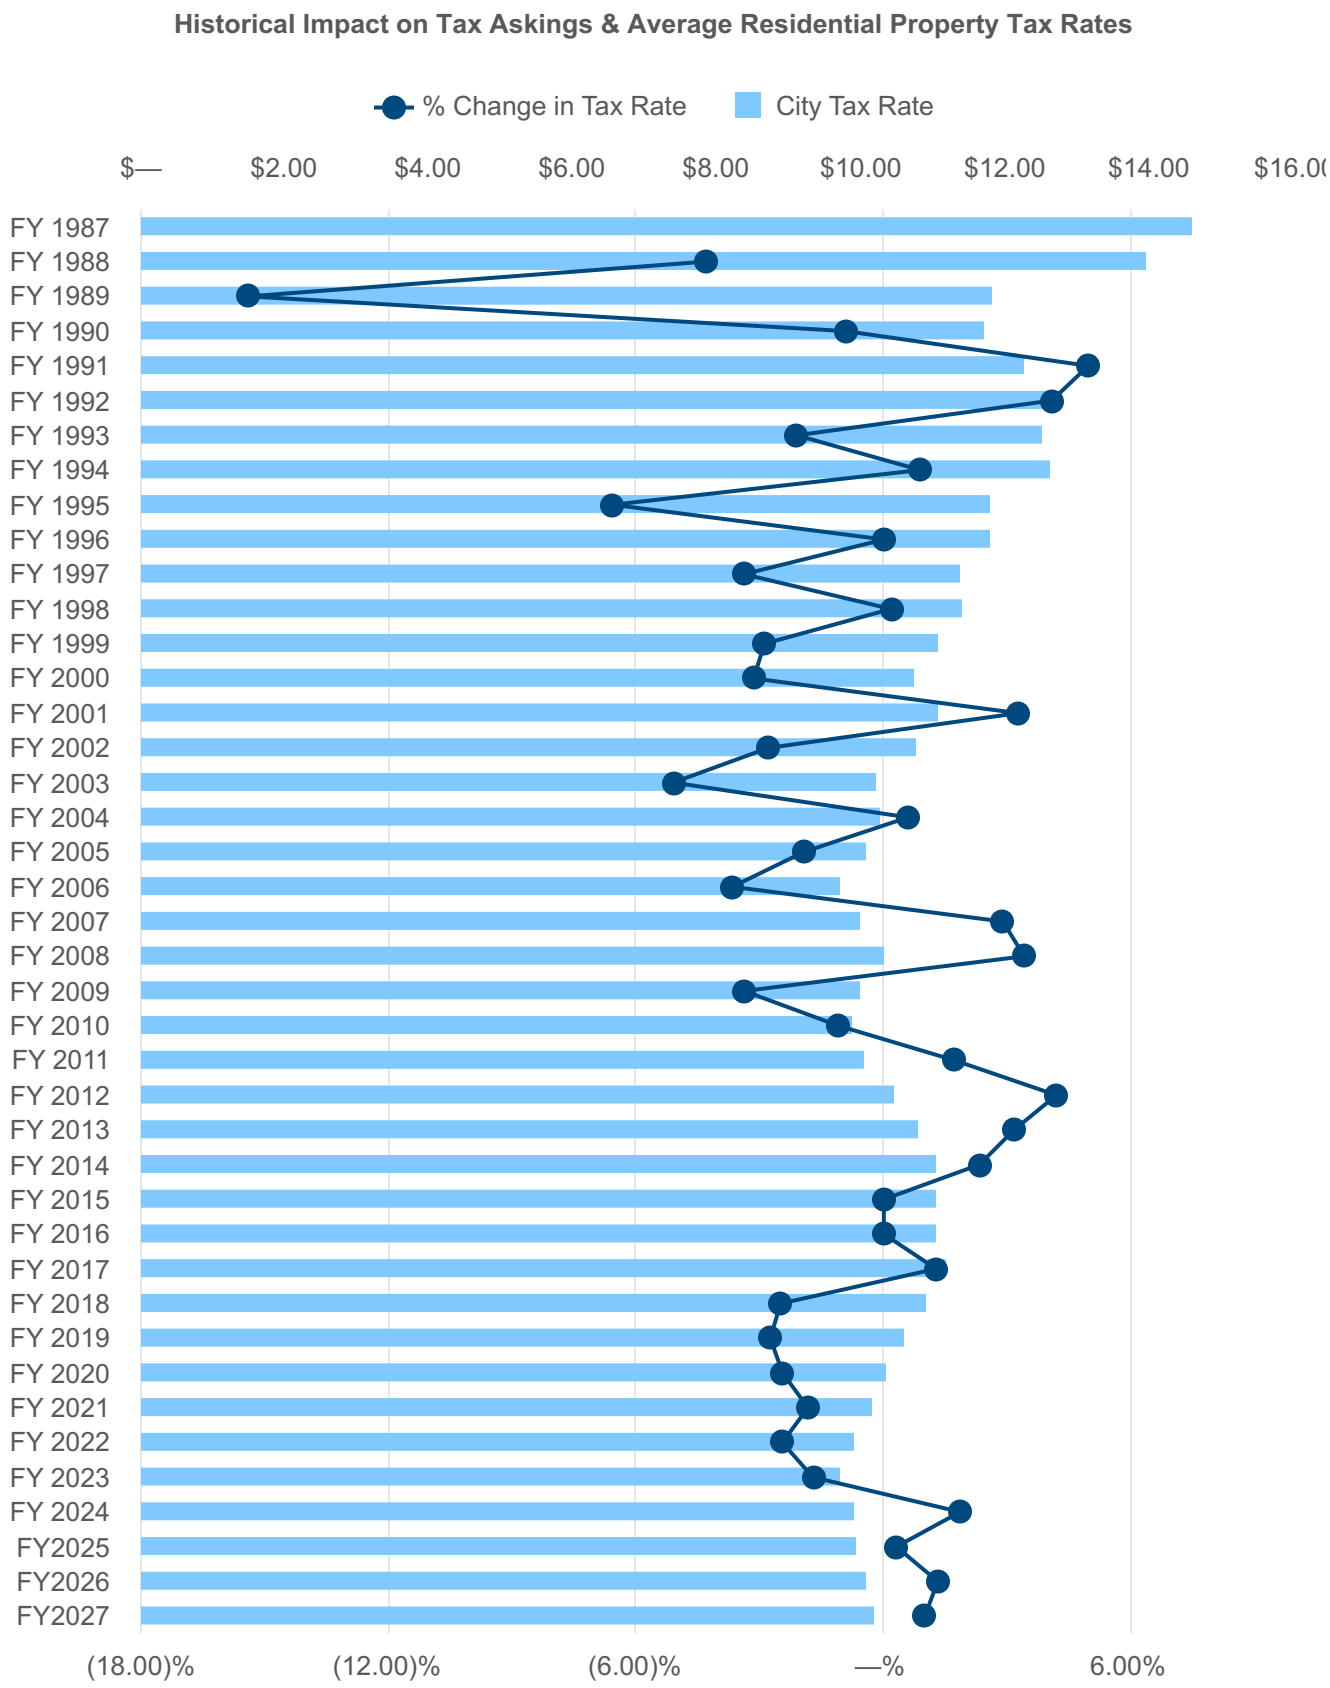
Industrial: $300,001-$450,000	4	3	$3,433.21	$3,423.52	-$9.69	-0.3 %
Industrial: Avg. Value = $731,693	58	58	$5,090.27	$6,000.54	$910.27	+17.9 %

Historical Impact on Tax Askings and Average Residential Property Tax Rates

The following is a historical City tax rate comparison. The average percent change in tax rate from 1987–2027 is -0.83%. The average annual change over the last five years is +0.56%.

The following pages show historical and projected property tax impacts.

Historical Impacts on Tax Askings & Average Residential Property Tax Rates:

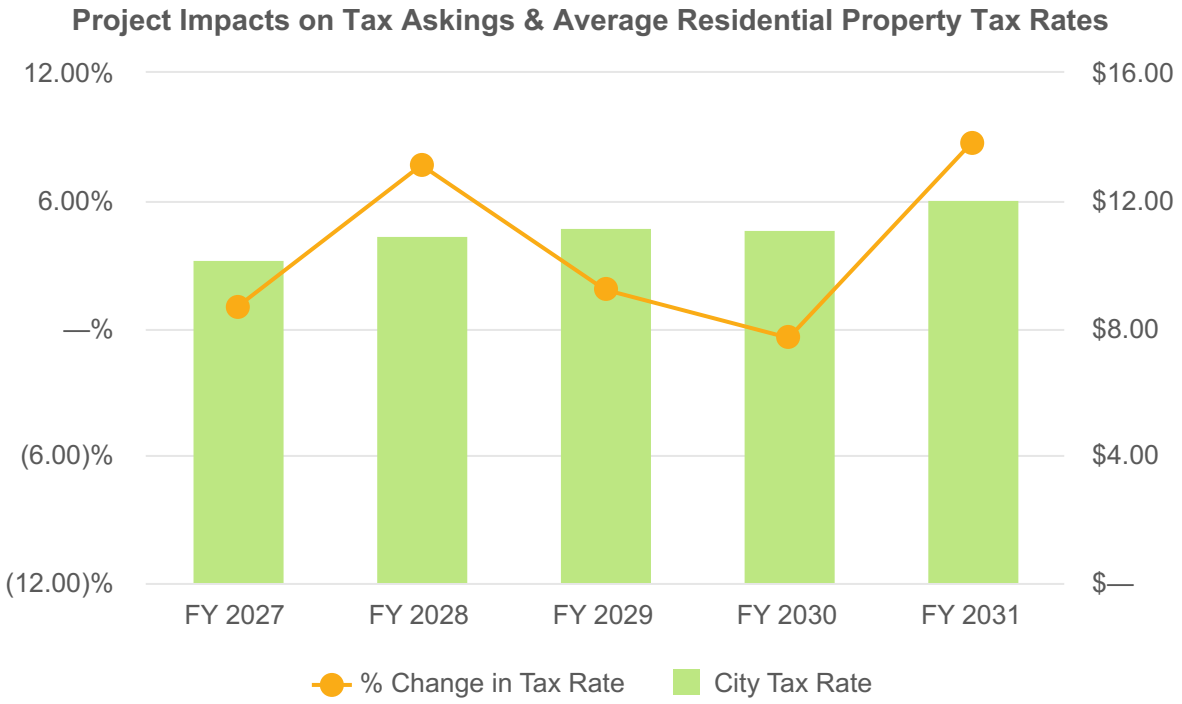


Historical City tax rates and % change in tax rate:

Fiscal Year	City Tax Rate	% Change in Tax Rate
FY 1987	14.5819	
FY 1988	13.9500	-4.33%
FY 1989	11.8007	-15.41%
FY 1990	11.6891	-0.95%
FY 1991	12.2660	+4.94%
FY 1992	12.7741	+4.14%
FY 1993	12.4989	-2.15%
FY 1994	12.6059	+0.86%
FY 1995	11.7821	-6.54%
FY 1996	11.7821	0.00%
FY 1997	11.3815	-3.40%
FY 1998	11.4011	+0.17%
FY 1999	11.0734	-2.87%
FY 2000	10.7160	-3.23%
FY 2001	11.0671	+3.28%
FY 2002	10.7608	-2.77%
FY 2003	10.2120	-5.10%
FY 2004	10.2730	+0.60%
FY 2005	10.0720	-1.96%
FY 2006	9.6991	-3.70%
FY 2007	9.9803	+2.90%
FY 2008	10.3169	+3.37%
FY 2009	9.9690	-3.37%
FY 2010	9.8577	-1.12%
FY 2011	10.0274	+1.72%
FY 2012	10.4511	+4.23%
FY 2013	10.7848	+3.19%
FY 2014	11.0259	+2.24%
FY 2015	11.0259	0.00%
FY 2016	11.0259	0.00%
FY 2017	11.1674	+1.28%
FY 2018	10.8922	-2.46%
FY 2019	10.5884	-2.79%
FY 2020	10.3314	-2.43%
FY 2021	10.1440	-1.81%
FY 2022	9.8890	-2.51%
FY 2023	9.7169	-1.74%
FY 2024	9.9014	+1.90%
FY 2025	9.9264	+0.25%
FY 2026	10.0637	+1.38%
FY 2027	10.1648	+1.00%
1987 - 2027 Average Change		**-0.83%**
2023-2027 Average Change		**+0.56%**

From Fiscal Year 1987 through Fiscal Year 2027, the average annual change in the property tax rate is a decrease of 0.83%. Over the last five years, the average annual change in the property tax rate is a decrease of 0.56%.

Projected Impacts on Tax Askings and Average Residential Property Tax Rates



Projected City tax rates and % change in tax rate:

Fiscal Year	City Tax Rate	% Change in Tax Rate
FY 2027	10.1648	1.00%
FY 2028	10.9432	7.66%
FY 2029	11.1398	1.80%
FY 2030	11.0878	-0.47%
FY 2031	12.0583	8.75%

IMPACT ON AVERAGE RESIDENTIAL PROPERTY - EXAMPLE

Actual - Historical		City Tax Calculation	Actual Percent Change	Change if HTC 100% Funded	Dollar Change
FY 1989	"City" Property Tax	$ 453.99	-11.40%		$ -58.39

* Denotes year of State-issued equalization orders.
^ Impact to average homeowner if the State funds the Homestead Property Tax Credit at 62%.
(1) The FY 2006 property tax calculation considers the 6.2% valuation increase for the average residential homeowner as determined by the reappraisal.
(2) Offsets the impact of the State reduced Homestead Property Tax Credit in FY 2005 & 2006.
(3) The City adopted a budget in FY 2011 and 2012 that provided no increase to the average homeowner. The State of Iowa underfunded the Homestead Property Tax Credit in both years costing the average homeowner an additional $18.59 in FY 2012 and $11.51 in FY 2013. This provided no additional revenues to the City, as this money would have come to the City from the State if they appropriated the proper amount of funds.

Homestead Property Tax Credit

The Homestead Property Tax Credit was established by the state legislature to reduce the amount of property tax collected. The intent of the credit was to be a form of tax relief and provide an incentive for home ownership. The State Homestead Property Tax Credit works by discounting the tax collected on the first $4,850 of a property's taxable value. This has no impact on what the City receives from property tax collections, but provides tax relief for the average homeowner.

Beginning FY 2004, the State of Iowa did not fully fund the State Homestead Property Tax Credit resulting in the average homeowner paying the unfunded portion. Again, this has no impact on what the City receives, however as a result has caused the average homeowner to pay more taxes.

*Net of Business Property Tax Credit

The average annual dollar change in commercial property taxes from 1989-2026 is a increase of $46.40. The average annual dollar change over the last five years is a increase of +$216.89.

Projected impact on average commercial property:

PROJECTED		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2027	“City” Property Tax	$5,023.81	+$770.05	+18.10%
FY 2028	“City” Property Tax	$5,408.69	+$384.88	+7.66%
FY 2029	“City” Property Tax	$5,505.84	+$97.15	+1.80%
FY 2030	“City” Property Tax	$5,505.84	+$97.15	+1.76%
FY 2031	“City” Property Tax	$5,959.77	+$479.63	+8.71%

(1) The FY 2006 property tax calculation considers the 19.9% valuation increase for industrial property as determined by the reappraisal.
(2) The Business Property Tax Credit was $148 and rollback to 95% in FY 2015.
(3) The Business Property Tax Credit was $693 and rollback to 90% in FY 2016.
(4) The Business Property Tax Credit was $982 and rollback to 90% in FY 2017.
(5) The Business Property Tax Credit was $959 and rollback to 90% in FY 2018.
(6) The Business Property Tax Credit was $843 and rollback to 90% in FY 2019.
(7) The Business Property Tax Credit was $861 and rollback to 90% in FY 2020.
(8) The Business Property Tax Credit was $779 and rollback to 90% in FY 2021.
(9) The Business Property Tax Credit was $780 and rollback to 90% in FY 2022.
(10) The Business Property Tax Credit was $722 and rollback to 90% in FY 2023.
(11)From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. Beginning in FY 2024, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated. The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2024 is estimated to be $587,446.

IMPACT ON MULTI-RESIDENTIAL PROPERTY - EXAMPLE

ACTUAL – HISTORICAL		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2015	"City" Property Tax	$2,349.34		
FY 2016	"City" Property Tax	$2,225.69	-$123.65	-5.26%
FY 2017	"City" Property Tax	$2,160.39	-$65.30	-2.93%
FY 2018	"City" Property Tax	$2,015.48	-$144.91	-6.71%
FY 2019	"City" Property Tax	$1,870.21	-$145.27	-7.21%
FY 2020	"City" Property Tax	$1,737.92	-$132.29	-7.07%
FY 2021	"City" Property Tax	$1,896.65	+$158.73	+9.13%
FY 2022	"City" Property Tax	$1,751.66	-$144.99	-7.64%
FY 2023	"City" Property Tax	$1,625.55	-$126.11	-7.20%
FY 2024	"City" Property Tax	$1,419.97	-$205.58	-12.65%
Average FY 2016-FY 2024			**-$103.26**	**-5.28%**

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa will not backfill property tax loss from the rollback on multi-residential property. The rollback will occur as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239.03
FY 2018	82.50%	472,126.87
FY 2019	78.75%	576,503.10
FY 2020	75.00%	691,639.58
FY 2021	71.25%	952,887.71
FY 2022	67.50%	752,366.11
FY 2023	63.75%	662,820.79
FY 2024	+54.65%	1,186,077.35
Total		$ 5,625,661.00

*54.65% = Current residential rollback

This annual loss in tax revenue of $1,186,077 from multi-residential property when fully implemented in FY 2024 will not be backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City will lose $5,625,661 in total, meaning landlords will have paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

HISTORY OF INCREASES IN PROPERTY TAX ASKINGS

Year	Tax Askings	% Change in Tax Askings	Impact on Homeowner**

**Does not reflect State unfunded portion of Homestead Credit.

IMPACT ON TAX ASKINGS AND AVERAGE RESIDENTIAL PROPERTY

To maintain the current level of service based on the previous assumptions would require the following property tax asking increases:

Fiscal Year	"City" Property Tax Askings	% Change in Tax Askings	% Impact on Avg. Residential Property	$ Impact on Avg. Residential Property
FY 2027	$31,940,934	+6.93%	+3.00%	+$26.67
FY 2028	$35,051,083	+9.74%	+7.66%	+$70.17
FY 2029	$36,391,827	+3.83%	+1.80%	+$17.71
FY 2030	$36,830,993	+1.21%	-0.47%	-$4.69
FY 2031	$41,128,960	+11.67%	+2.32%	+$23.59

GUIDELINE

The recommended guideline is a 3.00% or $26.67 increase for the average residential property owner assuming the Homestead Property Tax Credit is fully funded. A one percent increase in the tax rate will generate approximately $315,717.

These guidelines include an estimated $597,760 for recurring and $2,187 for non-recurring improvement packages funded by a portion of the $5.3 million in internal loans repaid to the General Fund by the Greater Downtown TIF District and increased ambulance fees. Future years of the recurring improvement packages will be funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. The amount of improvement packages funded may change as the FY2027 budget is not yet finalized.

Iowa House File 718 passed during the 2023 legislative sessions, replaces previous changes made through Iowa Senate File 634 passed during the 2019 legislative sessions, makes changes to Iowa city and county budgets and taxes for Fiscal Year 2025 and later. Additional steps have been added to the budget approval process. The City of Dubuque is specifically impacted by the following steps of this new legislation:

1. Limits the General Fund levy by constraining growth by 2% or 3% each year, depending on the trigger hit:

   Non-TIF taxable growth under 3%, no reduction
   Non-TIF taxable growth over 3% but less than 6%, 2% reduction factor applied
   Non-TIF taxable growth over 6%, 3% reduction factor is applied

   The City of Dubuque Non-TIF taxable growth for FY2027 is 5.89%, the General Fund levy is constrained by a growth reduction factor of 2%. The General Fund levy for FY2027 is $7.78547 instead of the maximum levy of $8.10.

   Although the City is restricted to $7.63281 in the General Fund levy, the City has the flexibility to levy up to $16.8 million or a levy rate of $5.3643 in the Special Revenue Levies for employee benefits. In Fiscal Year 2026, the Special Revenue levy was $1.02401 and totaled $3.0 million. Any reduction in the General Fund levy can be in the Special Revenue levies.

2. March 5: Cities must file a report with Iowa Department of Management containing information specified by new law to be contained in mailings.

3. March 20: County Auditor must send each property owner or taxpayer with the county by regular mail an individual statement with the specified information broken out by political subdivision comprising the taxpayer's district.

4. Taxpayer Statements must include:

    - Total Current Year Tax Rate and Dollars
    - Combined effective property tax rate for the city calculated using the sum of the current fiscal year's actual property tax certified for levy of all of city's levies
    - Proposed Budget Year Tax Rate and Dollars
    - If the Proposed Budget Property Tax Dollars exceed the current fiscal year's actual property tax dollars, a detailed statement of the major reasons for the increase, including the specific purposes or programs for which the city is proposing an increase
    - An example comparing the amount of property taxes on a residential property with an actual value of $100,000 in the current fiscal year and such amount on the residential property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
    - An example comparing the amount of property taxes on a commercial property with an actual value of $100,000 in the current fiscal year and such amount on the commercial property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
    - The city's percentage of total property taxes certified for levy in the owner's or taxpayer's taxing district in the current fiscal year amount all taxing authorities.
    - The date, time, and location of the city's public hearing on the information contained in the statements.
    - Information on how to access the city's internet site, the city's statements, and other budget documents for prior fiscal years.

5. Public hearing on proposed property tax amounts for the budget year and new taxpayer statements.

    - In addition to public hearing to adopt the budget.
    - Replaces maximum property tax dollars public hearing held in prior years.
    - Must be separate from any other meeting of City Council, including any other meeting or hearing related to the budget.
    - City Council can decrease, but not increase, the proposed property tax amount to be included in the budget.

6. Budget Certification deadline to Iowa Department of Management is April 30th instead of March 31st.

    - If City is issuing new debt that uses the debt service levy, budget must be adopted by April 15th.

CAPITAL IMPROVEMENT BUDGET GUIDELINES

U. INTEGRATION OF CAPITAL RESOURCES

GUIDELINE

To obtain maximum utilization, coordination and impact of all capital improvement resources available to the City, state and federal block and categorical capital grants and funds shall be integrated into a comprehensive five-year Capital Improvement Program (CIP) for the City of Dubuque.

V. INTEGRITY OF CIP PROCESS

GUIDELINE

The City shall make all capital improvements in accordance with an adopted Capital Improvement Program (CIP). If conditions change and projects must be added and/or removed from the CIP, the changes require approval by the City Council.

W. RENOVATION AND MAINTENANCE

GUIDELINE

Capital improvement expenditures should concentrate on renovating and maintaining existing facilities to preserve prior community investment.

X. NEW CAPITAL FACILITIES

GUIDELINE

Construction of new or expanded facilities which would result in new or substantially increased operating costs will be considered only if:

1) their necessity has been clearly demonstrated

2) their operating cost estimates and plans for providing those operating costs have been developed

3) they can be financed in the long term; and

4) they can be coordinated and supported within the entire system.

Y. COOPERATIVE PROJECTS

GUIDELINE

Increased efforts should be undertaken to enter mutually beneficial cooperative capital improvement projects with the county, school district and private groups. Examples include cost-sharing to develop joint-use facilities and cost-sharing to improve roads and bridges are examples.

Z. USE OF GENERAL OBLIGATION BONDS

DISCUSSION

The Iowa Constitution limits the General Obligation debt of any city to 5% of the actual value of the taxable property within the city. The Iowa legislature has determined that the value for calculating the debt limit shall be the actual value of the taxable property prior to any "rollback" mandated by state statute.

On October 15, 2012, the City Council adopted a formal Debt Management Policy for the City of Dubuque. An amendment to this policy was adopted by City Council on December 15, 2025. Prior to adoption of the formal policy, the City had already been practicing much of the policy, although the formal policy included some new additions. The most significant components of the Debt Management Policy include an internal policy of maintaining the City's general obligation outstanding debt at no more than 95% (except as a result of disasters) of the limit prescribed by the State constitution as of June 30th of each year. It is projected as of June 30, 2026 the City will be at 35.58%. City will not use short-term borrowing to finance operating needs except in the case of an extreme financial emergency which is beyond its control or reasonable ability to forecast. Currently there is no such debt, and none will be recommended in this process.

Bond Financing Stipulations

Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:

- Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:
- Bond financing should not be used if the aggregate cost of projects to be financed by the bond issue is less than $500,000
- City will consider long-term financing for the construction, acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five years
- City shall strive to repay 20 percent of the principal amount of its general obligation debt within five years and at least 40 percent within ten years.
- The City shall strive to repay 40 percent of the principal amount of its revenue debt within ten years.

Bond Ratings In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City's available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moodys") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

General Obligation Debt

Fiscal Year 2026 Debt

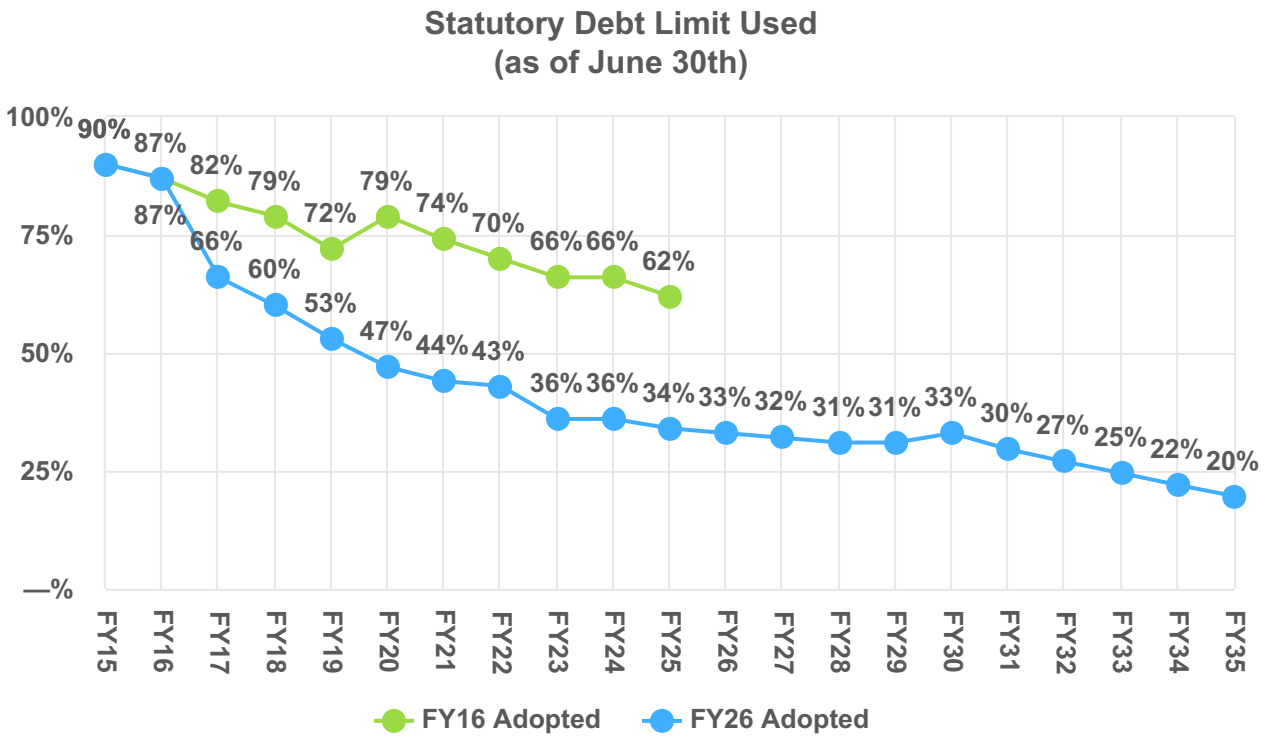
FY 2026 Debt Limit: The FY 2024 assessable value of the community for calculating the statutory debt limit is $6,472,591,693, which at 5%, indicates a total General Obligation debt capacity of $323,629,585, which at 5%, indicates a total General Obligation debt capacity of $323,629,585.

Based on Outstanding G.O. debt (including tax increment debt, remaining payments on economic development TIF rebates, and general fund lease agreement) on June 30, 2026 will be $115,136,523 (35.58% of the statutory debt limit) leaving an available debt capacity of $208,493,062 (64.42%).

It should be noted that most of the City of Dubuque's outstanding debt is not paid for with property taxes (except TIF), but is abated from other revenues. Exceptions include one issuance for the replacement of a Fire Pumper truck in the amount of $1,410,000 with debt service of $83,700 in FY 2026 and one issuance for the franchise fee litigation settlement in the amount of $2,800,000 with debt service of $145,000 in FY 2026. Included in the debt is $4,379,506 of property tax rebates to businesses creating and retaining jobs and investing in their businesses.

Statutory Debt Limit

Fiscal Year	Statutory Debt Limit	Amount of Debt Subject to Statutory Debt Limit	% Debt Limit Used
2026	$323,629,585	$115,136,523	35.58%

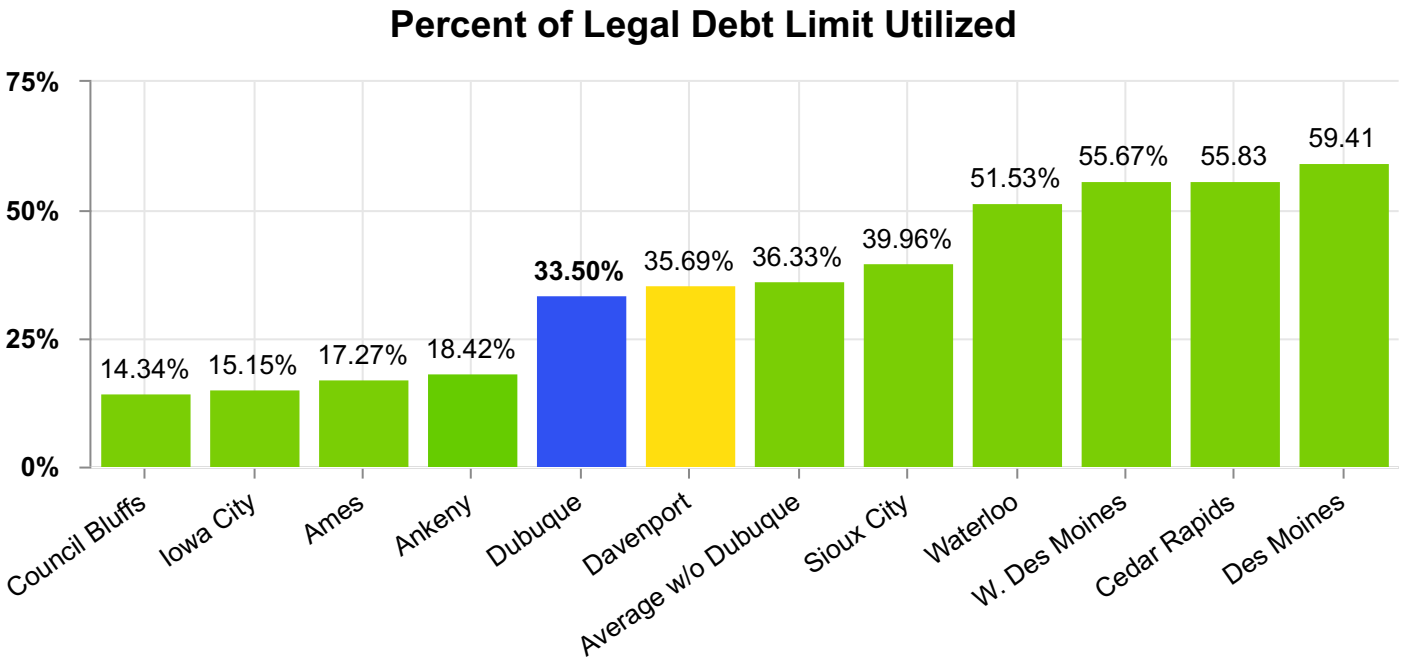


The City also has debt that is not subject to the statutory debt limit. This debt includes revenue bonds. Outstanding revenue bonds payable by water, sewer and stormwater fees on June 30, 2026 will have a balance of $126,443,555. The total City indebtedness as of June 30, 2026, is projected to be $241,580,078. The total City indebtedness as of June 30, 2025, was $237,396,942. **In FY 2026, the City will have a projected $4,183,136 or 1.76% more in debt.** The City is using debt to accomplish necessary projects and to take advantage of the attractive interest rates in the current market.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2026 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

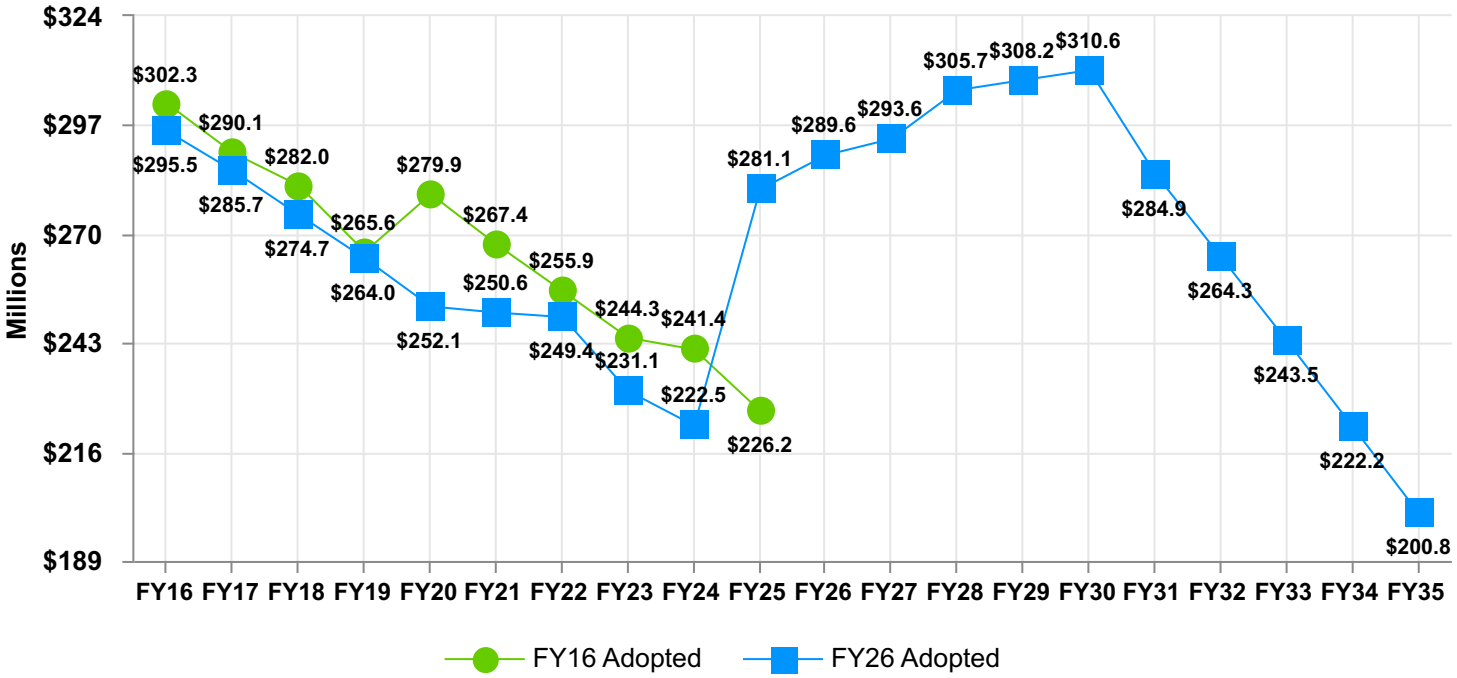
Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$ 964,798,967	$ 573,230,000	59.41 %
10	Cedar Rapids (FY 25)	$ 767,559,335	$ 428,550,000	55.83 %
9	W. Des Moines (FY25)	$ 551,635,692	$ 307,090,000	55.67 %
8	Waterloo (FY25)	$ 267,626,798	$ 137,905,065	51.53 %
7	Sioux City (FY25)	$ 367,743,172	$ 146,935,000	39.96 %
6	Davenport (FY25)	$ 493,660,291	$ 176,195,000	35.69 %
5	**Dubuque (FY27)**	**$ 358,374,258**	**$ 119,617,156**	**33.38 %**
4	Ankeny (FY25)	$ 529,988,951	$ 97,645,000	18.42 %
3	Ames (FY25)	$ 328,345,527	$ 56,710,000	17.27 %
2	Iowa City (FY25)	$ 435,367,793	$ 65,945,000	15.15 %
1	Council Bluffs (FY25)	$ 427,559,692	$ 61,320,000	14.34 %
	Average w/o Dubuque		$ 205,152,507	36.33 %



Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000. The average of the other cities (36.33%) is 8.8% higher than Dubuque (33.38%).

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $310.62 million (32.90% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2035 show the City of Dubuque at 19.66% of the statutory debt limit**, and the projection is to be at $200.79 million (19.66% of statutory debt limit) within 10 years.

Total Debt (In Millions)



The escalation observed in Fiscal Year 2025 is attributable to the City's decision to issue budgetary debt for both Fiscal Year 2024 and Fiscal Year 2025 within a single fiscal period. This approach resulted in a significant increase in the aggregate debt reported for Fiscal Year 2025.

Part of the City's FY 2014 debt was in the form of a grant from the Iowa Flood Mitigation Program. Through a new state program, the City is able to issue $28.25 million in revenue bonds payable from the 5 percent State Sales Tax increment for projects in the Bee Branch Watershed allowing the City to complete the Bee Branch Creek Restoration, construct permeable alleys, replace the Bee Branch flood gates, complete North End Storm Sewers, construct a Flood Control Maintenance Facility, install Water Plant Flood Control and complete 17th Street Storm Sewer over the next twenty years.

The ten year history of the City's use of the statutory debt limit is as follows:

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027**. In FY 16 the City was at 86.13% of statutory debt limit, so **33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	39.36%	40.07%	34.85%	33.50%

As we approach the preparation of the FY 2027-2031 Capital Improvement Program (CIP) the challenge is not the City's capacity to borrow money but (a) how to identify, limit, and prioritize projects which justify the interest payments and; (b) how to balance high-priority projects against their impact on the property tax rate.

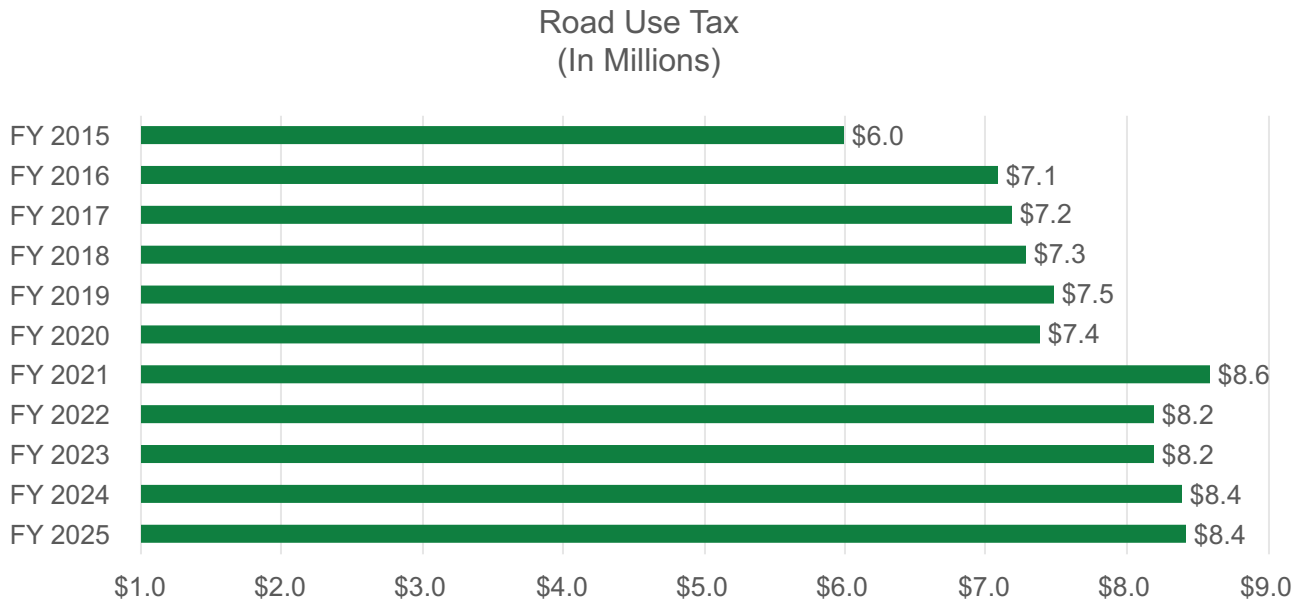
GUIDELINE

There are many high priority capital improvement projects which must be constructed during the FY 2027 - FY 2031 period. The potential of partially forgivable State Revolving Fund Loans and an increase in grant funding may impact the need to borrow for projects. As in the past, debt will be required on several major capital projects, including the Bee Branch Watershed Project, Airport Improvements, Park Improvements, Sidewalk and Street Improvements, Sanitary Sewer Fund, Parking Fund, and Water Fund. Borrowings will also include smaller projects and equipment replacements such as Park developments and Public Works equipment. These smaller borrowings will be for a term not exceeding the life of the asset and not less than six years in accordance to the Debt Management Policy. Alternative sources of funds will always be evaluated (i.e. State Revolving Loan Funds) to maintain the lowest debt service cost.

AA. ROAD USE TAX FUND

DISCUSSION

Actual Road Use Tax Fund receipts are as follows:



The FY 2026 budget was based on receiving $8,400,000 in Road Use Tax funds. In FY 2026, 100% of the Road Use Tax income is in the operating budget. The State of Iowa increased the gas tax 10 cents per gallon in FY 2016.

With increases in City DMATS and State Road Use Tax funds, the City will be able to substantially add to the number of street lights and continue with major road improvements.

GUIDELINE

It is preferable to shift Road Use Tax funds to the capital budget for street maintenance and repair to reduce the need to borrow funds for routine street maintenance and improvements. This shift cannot occur until there are increased revenues or reduced expense that would allow this shift without a property tax impact. The City does use 30% of the local option sales tax for street projects and maintenance of City buildings.

BB. COMMERCIAL AND INDUSTRIAL DEVELOPMENT

GUIDELINE

Current City, commercial and industrial development efforts should be continued to (a) preserve current jobs and create new job opportunities and (b) enlarge and diversify the economic base. Financing these efforts and programs should continue to be a high priority.

CC. HOUSING

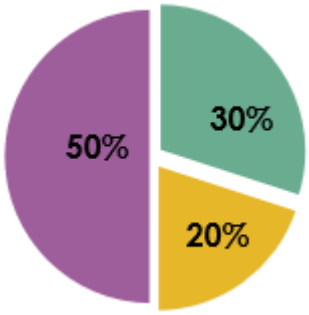
GUIDELINE

To maintain an adequate supply of safe and decent housing, the City should strive to preserve existing single family and rental housing that is not substandard and provide opportunities for development of new housing, including owner occupied, within the City's corporate limits for all residents, particularly for people of low and moderate income. Workforce rental housing is becoming increasingly important and the City provides incentives for building rehabilitations. In 2023, the City Council adopted housing incentive programs through the use of Tax Abatement and Tax Increment Financing.

DD. SALES TAX

GUIDELINE

Sales Tax revenue shall be used according to the following split:



Sales Tax 50%: Property Tax Relief

Sales Tax 30%:
(a) The reduction by at least 75% of street special assessments.
(b) The maintenance and repair of streets.

Sales Tax 20%:
(a) The upkeep of City-owned property such as sidewalks, steps, storm sewers, walls, curbs, traffic signals and signs, bridges, buildings, and facilities (e.g. Airport, Five Flags Center, Library, Law Enforcement Center, City Hall, Fire Stations, Parks, and Swimming Pools).
(b) Transit equipment, such as buses
(c) Riverfront and wetland development
(d) Economic Development Projects

EE. NET CASH PROCEEDS (SURPLUS DISTRIBUTION) FROM THE DUBUQUE RACING ASSOCIATION

DISCUSSION

The contract with the Dubuque Racing Association calls for distribution at the end of its fiscal year, December 31st, of 50 percent of its net cash operating funds to the City of Dubuque. In early-February, the City receives payment of proceeds to be distributed. These proceeds are then allocated for capital improvements, with the highest priority given to reducing the City's annual borrowing.

The Dubuque Racing Association provides the City with projections of future distributions. Since gaming is a highly volatile industry, the estimates are discounted prior to including them in the City's Five-Year CIP.

The February 2027 DRA distributions will be used in Fiscal Year 2027 to fund property tax relief. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2027 operations. All of DRA distributions were used in operations in Fiscal Years 2024 through 2026. A change from past use of DRA distributions, 0% of the February 2027 projections of operating surplus have been anticipated as resources to support the Fiscal Year 2027 capital improvement projects. The estimates received from the DRA will be reduced by 5 percent for FY 2029 resources, 10 percent for FY 2030, and 15 percent for FY 2031 resources, to provide a margin of error in case the estimates are not realized.

GUIDELINE

$1,286,001 of February 2027 DRA distributions will be used for FY2027 property tax relief. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2027 operations.In Fiscal Year 2026 and beyond, the City anticipates distribution of a significant amount of net cash proceeds for use in the Capital Improvement Program. These amounts will be budgeted in the Five-Year CIP in the year they are received and will be used to reduce required General Obligation borrowing. The three out-years will be discounted by 5 percent, 10 percent, and 15 percent respectively.

FF. EMPHASIS ON INITIATIVES THAT REDUCE FUTURE OPERATING BUDGET EXPENSE

GUIDELINE

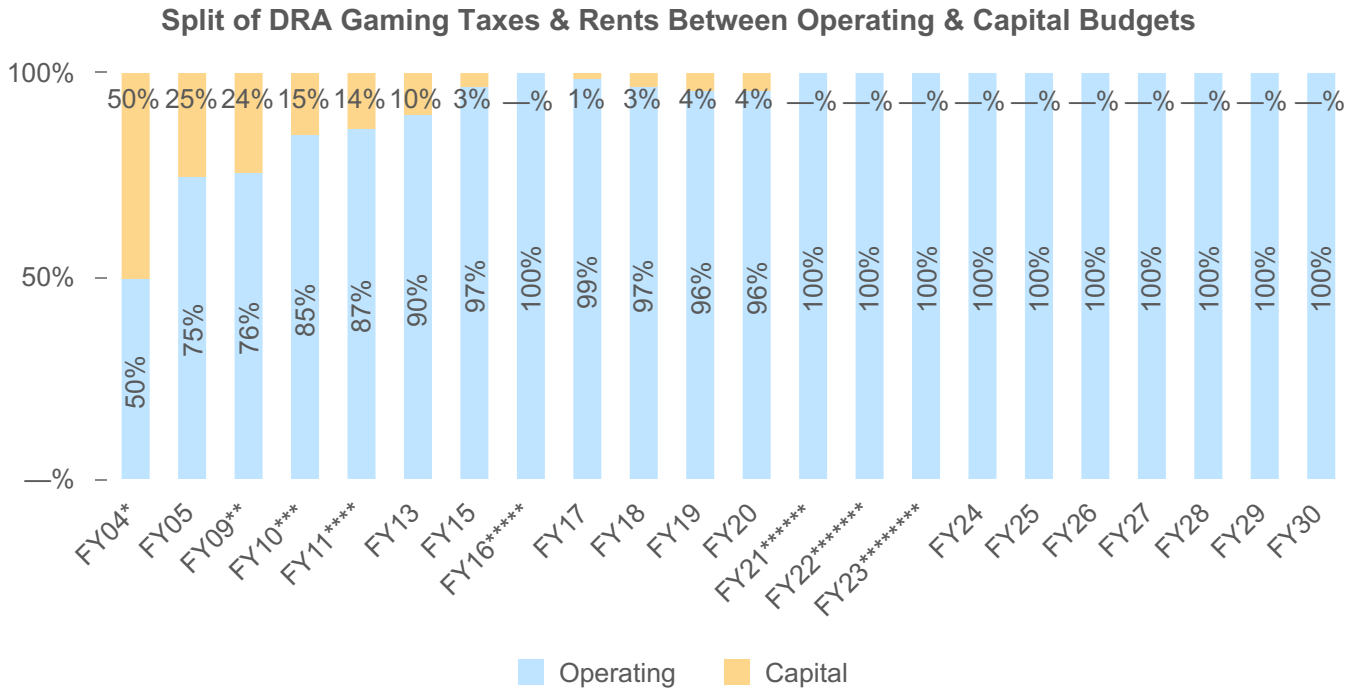
Capital improvement expenditures that will reduce future maintenance and operating expense will receive priority funding and these types of initiatives will be encouraged in all departments and funding sources as a means of maximizing the use of available resources. This emphasis reflects fiscally responsible long-range planning efforts.

GG. USE OF GAMING-RELATED RECEIPTS

DISCUSSION

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

The following shows the historical split of DRA gaming taxes and rents between the City’s operating and capital budgets:



Notable Changes:

***FY 2004** A new lease took effect with the Dubuque Racing Association for lease of the Dubuque Greyhound Park and Casino. This new lease was negotiated after the FY 2005 budget was approved and raised the lease payment from 0.5% of coin-in to 1% of coin-in. This new lease and the expansion of gaming at Dubuque Greyhound Park and Casino, from 600 gaming positions to 1,000 gaming positions, effective August 1, 2005, provided additional revenues to the City of Dubuque.

****FY 2009** The Diamond Jo expanded to a land-based barge casino facility and increased to 1,100 slots on December 1, 2008. This expansion was projected to decrease the Q gaming market and correspondingly the coin-in by just over 21 percent. Based on the projected market share loss, the City did not receive a distribution of cash flows from the Dubuque Racing Association (DRA) in Fiscal Years 2009 and 2010.

*****FY 2010** The operating portion of the split now includes the debt service required on the 2002 general obligation bonds for the America's River Project that was previously considered as part of the capital portion of the DRA lease. Debt obligations are considered a continuing annual expense and are more accurately reflected as part of the operating portion of the DRA lease.

******FY 2011** DRA distributions restarted in FY 2011 instead of the projected year of FY 2012.

*******FY 2016** A reduction in revenue in the Greater Downtown TIF urban renewal area resulted in reduced revenues to make debt payments and it was necessary for the general fund to support $84,104 in FY 2015 and $78,242 in FY 2016 of debt service payments, which were funded by reducing the amount of gaming revenues from taxes and DRA lease that goes to capital recommended in FY 2016.

********FY 2021** A lease amendment took effect with the Dubuque Racing Association for the lease of the Q Casino. This lease amendment added a payment equal to 0.5% of monthly sports wagering conducted on Q Sportsbook retail or Q advance deposit sports wagering internet site.

*******FY 2022** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the amended lease has an expiration date of December 31, 2036.

********FY 2023** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows $1.5 million of cash reserve fund as a down payment of a construction loan in FY23. The DRA is required to establish a debt reserve fund equal to one year of debt payments, almost $7 million.

The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5 percent of coin in from slot machines, 4.8 percent of gross revenue from table games, and 0.5 percent of sports wagering.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois.

Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

The 50¢ per patron tax previously received from the Diamond Jo was replaced by a $500,000 fixed payment based on their revised parking agreement which expires June 16, 2029.

GLOSSARY

This page intentionally left blank.

28E Agreement: Chapter 28, Section E of the Iowa Code which establishes intergovernmental agreements for two or more governmental agencies to cooperate on an issue/activity.

Accounting System: Records and procedures which are used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis of Accounting: A basis of accounting in which transactions are recognized at the time they are incurred, as opposed to when cash is received or spent.

Activity: A specific type of work or group of tasks performed by one or more organized units of the government. An example would be Street Maintenance.

Ad Valorem Taxes: Commonly referred to as property taxes, are levied on both real and personal property according to the property's valuation and tax rate.

Allot: To divide an appropriation into amounts which may be encumbered or expended during an allotment period.

Alternatives: This term means other possible activities or uses of funding besides those already decided upon or being considered. It also suggests the comparison between two or more possible approaches toward fulfilling the same purpose, goal or objective.

Amortization: The gradual elimination of an asset or liability, such as a bond premium, over a specified period of time.

Annualize: Taking changes that occurred mid- year and calculating their cost for a full year, for the purpose of preparing an annual budget.

Appropriation: A legal authorization to incur obligations and to make expenditures for specific purposes.

Assessed Valuation: A value established for real property for use as a basis for levying property taxes.

Assessment Ratio: The ratio at which the tax rate is applied to the tax base.

Assets: Resources owned or held by the City which has a monetary value.

Attrition: A method of achieving a reduction in personnel by not refilling the positions vacated through resignation, reassignment, transfer, retirement, or means other than layoffs.

Audit: Examination by an independent party of the City's financial books, records, accounts, funds, and securities for purposes of determining evidence of the accuracy and correctness of financial statements and ensuring management has effectively and efficiently performed responsibilities.

Authorized Positions: Employee positions which are authorized in the adopted budget to be filled during the year.

Balanced Budget: Occurs when planned expenditures equal anticipated revenues.

Base Budget: Cost of continuing the existing levels of service in the current budget year.

Bond Funds: Resources derived from issuance of bonds for specific purposes and related Federal project grants used to finance capital expenditures.

Bond Rating: A rating (made by an established bond rating company) from a schedule of grades indicating the probability of timely repayment of principal and interest on bonds issued. City of Dubuque has an Aa2 rating from Moody's Investor Services.

Bond: A long-term promise to pay a sum of money (the face amount of the bond) on a specific date(s) (the bond maturity date) at a specified interest rate.

Bonding Capacity - Debt Capacity: The State limit for general obligation debt is 5% of assessed valuation.

Bond Refinancing: The payoff and re-issuance of bonds, to obtain better interest rates and/or bond conditions.

Budget: A plan of financial operation and estimated expenditures for a specific period of time, and the monies to be used to finance the expenditures. The City of Dubuque Operating Budget is a plan for the period form July 1 through June 30.

Budget Amendment: Any change in expenditure budgets, which result in a net increase or decrease in the total dollar amount budgeted at the fund level.

Budgetary Basis: This refers to the basis of accounting used to estimate financing sources and uses in the budget. This generally takes one of three forms: GAAP, cash, or modified accrual.

Budget Calendar: The schedule of key dates or milestones, which the City follows in the preparation and adoption of the budget.

Budget Carryover: Funds unused during a financial year which are transferred to the budget for the following year.

Budgetary Control: The control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

Budget Document (Program and Financial Plan): The official written statement prepared by the City staff reflecting the decisions made by the Council in their budget deliberations.

Budget Message: The City Manager's summary of the salient issues of the budget he is recommending to the City Council for their adoption. The message highlights the City Manager's views of the major aspects of the budget and provides the city Council with an overview of the major fiscal policies incorporated in the recommended budget, or which may impact future recommended budgets.

Capital Assets: Asset of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Expenditures: Purchases of building, improvements other than buildings, machinery, and equipment with a value over $500 and a useful life in excess of one year.

Capital Improvements: Expenditures related to the acquisition, expansion or rehabilitation of an element of the government's physical plant; sometimes referred to as infrastructure.

Capital Improvement Program (CIP): A long- range plan for providing the capital outlays necessary to insure that adequate services are provided to the residents of the City. The plan includes improvements to, or the acquisition of, structural improvements and major equipment purchases.

Capital Improvement Projects: The specific projects that make up the Capital Improvements Program. The projects involve the construction, purchase, or renovation of city facilities or property. They are generally nonrecurring major improvements to the City's physical plant, which necessitate long-term financing and are permanent in nature.

Capital Outlay: Expenditures for fixed assets, such as equipment, remodeling, minor building improvements, and vehicles, that are funded from the operating budget. Since long-term financing is not necessary and expenditures of this type are of such recurring character, these items are not part of the Capital Improvement Program.

Capital Project: A major expenditure for a public improvement that is of such magnitude as to be considered a part of the City's five-year Capital Improvement Program. Such expenditures typically include City infrastructure construction projects, and would normally have an estimated useful life of a minimum of 10-15 years. Capital projects are summarized in the City's Operating Budget and detailed in the City's Capital Improvement Program document.

Capital Projects Funds: These funds account for the financial resources to be used for the acquisition and/or construction of major facilities (usually over $10,000), other than those financed by proprietary funds. Each year the City appropriates money for the work to be completed that fiscal year; fund balances are designated for the completion of the projects over a period of years. Examples are fire stations, streets, water and sewer lines, etc. These funds use the modified accrual basis of accounting. Revenues are recognized in Capital Projects Funds when they become measurable and available to finance expenditures for the current period (such as when bonds are sold). Expenditures are recognized when the related liability is incurred.

Capital Reserve: An account used to segregate a portion of the government's equity to be used for future capital program expenditures. The amount of capital reserve is roughly equal to the government's annual equipment depreciation and an amount identified as being needed for future capital acquisition.

Cash: For purposes of our financial management system, cash refers to money, revenue, or fund balances available in the City treasury for financing an activity or project.

Cash Basis of Accounting: The basis of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Clearing Account: An intermediary account used to initially accumulate direct expenditures for subsequent charging to other officially reported accounts. These accounts are used in situations in which allocations are made to the reporting accounts on a percentage basis, and usually involve the ultimate distribution of expenses to a number of different accounts.

Collective Bargaining Agreement: A legal contract between the employer and a verified representative of a recognized bargaining unit for specific terms and conditions of employment (e.g., hours, working conditions, salary, fringe benefits, and matters affecting health and safety of employees.)

Commission of Accreditation for Law Enforcement Agencies (CALEA): Credentialing authority (accreditation), based in the United States, whose primary mission is to accredit public safety agencies, namely law enforcement agencies, training academies, communications centers, and campus public safety agencies.

Commodities: Items or supplies needed for routine maintenance and operations. They include cleaning, maintenance and office supplies, repair materials, minor equipment, and tools.

Community Development Block Grant (CDBG): A grant that is funded by the federal government through the Housing and Urban Development agency to the State of Iowa and then administered through the Iowa Department of Economic Development.

Community Orientated Policing Services (COPS): component of the U.S. Department of Justice responsible for advancing the practice of community policing by the nation's state, local, territorial, and tribal law enforcement agencies through information and grant resources.

Comprehensive Annual Financial Report (CAFR): the financial report of a state, municipal or other governmental entity that complies with the accounting requirements promulgated by the Government Accounting Standards Board (GASB). GASB provides standards for the content of a CAFR in its annually updated publication Codification of Governmental Accounting and Financial Reporting Standards. A CAFR is compiled by a state, municipal or other governmental accounting staff and audited by an external American Institute of Certified Public Accountants (AICPA) certified accounting firm utilizing GASB requirements. It is composed of three sections: introductory, financial and statistical. It combines the financial information of fund accounting and enterprise authorities accounting.

Constant or Real Dollars: The presentation of dollar amounts adjusted for inflation to reflect the real purchasing power of money as compared to a certain point in time in the past.

Consumer Price Index: A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e. economic inflation).

Contingency Funds: A reserve of monies set aside within the General Fund for emergency or unexpected expenditures. This is also called the Emergency Reserve.

Contractual Services: Services rendered to a government by private firms, individuals, or other governmental agencies. Examples include utilities, rent, maintenance agreement, and professional consulting services.

Cost-of-living Adjustment (COLA): an increase in salaries to offset the adverse effect of inflation on compensation.

Debt Retirement/Redemption: The expenditure of funds for the retirement of all, or a portion of, the principal amount of a long-term financial obligation of the City.

Debt Service Fund: The fund which accounts for the payment of interest and principal on all general obligation debt other than that payable from special assessments and revenue debt issued for a governmental enterprise.

Dedicated Tax: A tax levy to support a specific government program or purpose.

Deferred Compensation: Income deferred until retirement age.

Deficit: the excess of an entity's liabilities over its assets or the excess of expenditures or expenses over revenues during a single accounting period.

Department: The basic organizational unit of government which is functionally unique in its delivery of services.

Depreciation: Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence.

Development-related fees: Those fees and charges generated by building, development and growth in a community. Included are building and street permits, development review fees, and zoning, platting and subdivision fees.

Direct Revenues: Revenues earned by a specific General Fund division in the course of performing their assigned duties.

Disbursement: The expenditure of monies from an account.

Distinguished Budget Presentation Awards Program: A voluntary awards program administered by the Government Finance Officers Association to encourage governments to prepare effective budget documents.

Division: A major administrative organizational unit of the City which indicates overall management responsibility of one or more activities.

Employee (or Fringe) Benefits: Contributions made by a government to meet commitments or obligations for employee fringe benefits. Included are the government's share of costs for Social Security and the various pension, medical, and life insurance plans.

Encumbrances: Obligations in the form of purchase orders, contracts or salary commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved by an accounting entry.

Enterprise Fund: Those funds established to finance and account for acquisition, operation and maintenance of governmental operations which are predominantly self-supporting by user charges. Such operations must be run in a manner similar to private business. Examples are the Water Utility Operation and Solid Waste Collection.

Entitlements: Payments to which local governmental units are entitled, pursuant to an allocation formula determined by the agency providing the monies, usually the state or the federal government.

Expenditures: Funds spent in accordance with budgeted appropriations on goods and services obtained.

Expense: Charges incurred (whether paid immediately or unpaid) for operations, maintenance, interest or other charges.

Federal Emergency Management Agency (FEMA): Coordinates the federal government's role in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters, whether natural or man-made, including acts of terror.

Fiscal Policy: A government's policies with respect to revenues, spending, and debt management as these relate to government services, programs and capital investment. Fiscal policy provides an agreed-upon set of principles for the planning and programming of government budgets and their funding.

Fiscal Year (FY): The 12-month period to which the operating budget applies, and the period of time at the end of which the government determines it financial condition. For the City of Dubuque, this is July 1 through June 30.

Fixed Assets: Assets of a long-term character, which are intended to be held or used, such as land, buildings, machinery, furniture and other equipment.

Full Faith and Credit: A pledge of a government's taxing power to repay debt obligations.

Full-Time Equivalent (F.T.E.): A measure of authorized personnel calculated by equating 2,080 hours of work per year with the F.T.E. of one position.

Function: A group of related activities aimed at accomplishing a major service or regulatory program for which a government is responsible (e.g. public safety).

Fund: An accounting term referring to a group of accounts recording all financial resources together with correspondence liabilities, which has a distinct balance and is used to segregate specific activities and functions from those of other groups of accounts.

Fund Balance: The balance that remains in a fund on a given date after all expenditures have been made. This balance shows the fund equity.

General Fund: The fund used to account for all financial resources and liabilities that are not required to be accounted for in another fund.

General Obligation Bonds: Bonds backed by the full faith and credit of the issuing government. Repayment of these bonds is based on the government's ability to tax its residents for such purposes.

General Revenues: Revenues deposited in the General Fund and shared by the General Fund divisions.

Generally Accepted Accounting Principles (GAAP): Accounting principles that are commonly used in preparing financial statements and generally accepted by the readers of those statements.

Geographic Information System (GIS): System designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data.

Global Positioning System (GPS): Satellite-based radio navigation system owned by the United States Government and operated by the United States Air Force. It is a global navigation satellite system that provides geolocation and time information to a GPS receiver anywhere on or near the Earth where there is unobstructed line of sight to four or more GPS satellites.

Goal: A desirable end, condition, accomplishment and/or development, the attainment of which may never be fully realized, towards which organizational effort is expended according to assigned responsibilities, available resources and prepared plans. Goals are attained by means of objectives. Goals are broadly stated and useful in evaluating resource allocation decisions. For example, the Goal for the Park Areas and Maintenance Activity of the Park Division of Parks and Recreation s Department is to develop and maintain safe, clean, functional and attractive park and recreational facilities to meet the passive and active leisure time needs for all residents and visitors.

Government Accounting Standards Board (GASB): They are the authoritative source of GAAP for state and local government.

Governmental Funds: Funds generally used to account for tax-supported activities. There are five different types of governmental funds: the general fund, special revenue funds, debt service funds, capital project funds, and permanent funds.

Grant: A contribution by a government or other organization to support a particular function. Grants may be classified as either operational or capital, depending upon the grantee.

Improvement Package: One or more objectives of an activity, which represents a standalone alternative or decision. For example, the Base Level Increment of a particular activity may have twelve objectives. Some of these objectives may be interrelated and the twelve objectives may represent only four choices or stand alone improvement packages. You may have one improvement package with one objective, two improvement packages with four objectives each and one improvement package with three objectives. The important thing is that the improvement package includes one or more stand alone objectives and is not dependent upon the approval of any other improvement package.

Indirect Cost: A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

Infrastructure: The physical assets of a government (e.g. streets, water, sewer, public buildings, and parks).

Interfund Transfers: A transfer from a fund receiving the revenue, to a fund through which the authorized expenditure is to be made. An example would be a transfer of revenue from the Road Use Tax Fund to the Street Construction Fund.

Intergovernmental Revenue: Funds received from federal, state and other local government sources in the form of grants, shared revenues, and payments in lieu of taxes.

Internal Service Charges: Goods or services provided by one department to others within the same government or to other governments, on a user fee basis, with full costs to be recovered. An example of this would be the City's Garage Service.

International City/County Management Association (ICMA): Advances professional local government through leadership, management, innovation, and ethics. Provides member support; publications; data and information; peer and results-orientated assistance; and training and professional development to over 11,000 city, town, and county managers, their staffs, and other individuals and organizations throughout the world.

Iowa Communities Assurance Pool (ICAP): The organization the City holds membership to cover its liability insurance.

Iowa Department of Natural Resources (IDNR): Agency that manages fish and wildlife programs, ensures the health of Iowa's forests and prairies, and provides recreational opportunities in Iowa's state parks. The DNR carries out state and federal laws that protect air, land and water through technical assistance, permitting and compliance programs. The IDNR also encourages the enjoyment and stewardship of natural resources among Iowans through outreach and education.

Iowa Department of Transportation (IDOT): Agency that is responsible for the organization, construction, and maintenance of the primary highway system. Located in Ames, IA, the IDOT is also responsible for licensing drivers and programming and planning for aviation, rail and public transit.

Iowa Economic Development Authority (IEDA): Mission is to strengthen economic and community vitality by building partnerships and leveraging resources to make Iowa the choice for people and business. Two main divisions, business development and community development. IEDA administers several state and federal programs to meet its goal of assisting individuals, communities and businesses.

Iowa League of Cities (ILC): Through membership services, research, publications, trainings and other collaborations, the Iowa League of Cities provides guidance and serves as the resource for member cities.

Iowa Municipal Finance Officers Association (IMFOA): An association of city clerks and municipal finance officers in Iowa. The purpose of IMFOA is to conduct regular instructional and informational meetings, as often as deemed necessary by the Board of Directors, for the purpose of educating municipal officers in the keeping of public records and for any other purpose deemed to be in the best interest of the public.

Lapsing Appropriation: An appropriation made for a certain period of time, generally for the budget year. At the end of the specified period, and unexpected or unencumbered balance lapses or ends, unless otherwise provided by law.

Levy: The amount of taxes, assessments or service charges imposed by a government. The maximum General Fund property tax levy allowed in Iowa is $8.10 per $1,000 of assessed valuation. Other levies may be imposed in addition to this.

Liabilities: Debts or other legal obligations arising out of transactions in the past, which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

Line-item Budget: A budget prepared along departmental lines that focuses on what is to be bought.

Local Option Sales Tax: A tax approved by a majority of the City’s registered voters, which collects revenue according to a percentage of the value of goods and services delivered within the corporate limits. In Dubuque, the local option sales tax applies to those goods and services to which the State of Iowa sales tax applies.

Long-term Debt: Debt with maturity of more than one year after the date of issuance.

Major Fund: Governmental fund or enterprise fund reported as a separate column in a governmental entity's basic fund financial statements and subject to a separate opinion in the independent auditor's report.

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each $1,000 of assessed property valuation.

Modified Accrual Accounting: The accrual basis of accounting modified to the governmental fund type spending measurement focus. Under it, revenues are recognized when they become both “measurable” and “available to finance expenditures of the current period.” Expenditures are recognized when the related fund liability is incurred except for: (1) prepaid insurance and similar items; (2) accumulated unpaid vacation, sick pay, and other employee benefit amounts which need not be recognized in the current period, but for which larger-than- normal accumulations must be disclosed in the notes to the financial statements; and (3) principal and interest on long-term debt which are generally recognized when due.

Municipal Fire and Police Retirement System of Iowa (MFPRSI): Provides pension benefits for municipal police officers and fire fighters in Iowa. MFPRSI is a defined benefit public retirement system created by Iowa statute.

Net Budget: The legally adopted budget less all interfund transfers and interdepartmental charges.

Nominal Dollars: The presentation of dollar amounts not adjusted for inflation. Adjusting for inflation would be done to reflect the real purchasing power of money today.

Non-Major Fund: Funds are considered non-major funds if they are less than 10% of Borough assets, liabilities, revenues and expenditures.

Object of Expenditure: An expenditure classification, referring to the lowest and most detailed level of classification, such as electricity, office supplies, asphalt, and furniture.

Objective: A statement of results to be accomplished during the fiscal year in support of the broader goal. Objectives are major steps towards accomplishing established goals. An Objective should state the result to be achieved or accomplished, the time frame, the cost and the action step.

Obligations: Amounts which a government may be legally required to meet out of its resources. They include not only actual liabilities, but also encumbrances not yet paid.

Operating Budget: The City’s financial plan that outlines proposed expenditures for the coming fiscal year and estimates the revenues which will be used to finance them.

Operating Expenses: Those expenses from a fund which are directly related to accomplishing the fund’s primary functions. Payroll would be one example of an operating expense.

Operating Revenues: Funds that the government receives as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services.

Other Post-Employment Benefits (OPEB): All types of post-employment benefits not offered as an integral part of a pension plan, as well as all forms of post-employment health care.

Output Indicator: A unit of work accomplished, without reference to the resources required to do the work (e.g. number of permits issued, number of refuse collections made, or number of burglary arrests made). Output indicators do not reflect the effectiveness or efficiency of the work performed.

Pay-as-you-go Basis: A term used to describe a financial policy by which capital outlays are financed from current revenues rather than through borrowing.

Pay Plan: Classifications and corresponding salary ranges of positions within the City government.

PILOT: Payment in lieu of taxes. These are payments, primarily from enterprise fund operations, that reimburse the general fund for the property tax that would have been paid if the enterprise funds were for-profit companies.

Performance Budget: A budget wherein expenditures are based primarily upon measurable performance of activities and work programs.

Performance Indicators: Specific quantitative and qualitative measures of work performed as an objective of specific departments or programs.

Performance Measures: Numbers that transmit some information about the quality or quantity of services provided by the City government. The primary reasons for attempting to measure performance are to (1) Provide information for making better decisions; (2) Report on progress made toward established objectives; (3) Improve performance, suggest improvements and change priorities; and (4) Serve as an early warning device by indicating problem areas when they first begin to develop.

Permanent Fund: Fund for resources that are restricted to the extent that only earnings, and not principal, may be used for the benefit of the state or its citizenry. Permanent funds include endowments where the funds or property donated to the City are required by contract, agreement, or trust instrument to be maintained in tact.

Personal Services: A General Fund expenditure category that includes all wages and benefits paid to employees.

Post-Employment Benefits: Payments made directly to former employees or their beneficiaries, or to third parties on their behalf as compensation for services rendered while they were still active employees.

Prior-Year Encumbrance: Obligations from previous fiscal years in the form of purchase orders, contacts or salary commitments which are chargeable to an appropriation, and for which a part of the appropriation is reserved. They cease to be encumbrance when the obligations are paid or otherwise terminated.

Program: A grouping of related work tasks or activities into a large organizational unit. An example of a program is the Public Safety Program.

Program Budget: A budget which allocates money to the functions or activities of a government rather than to specific items of cost or to specific departments.

Program Performance Budget: A method of budgeting whereby the services provided to the residents are broken down in identifiable service programs or performance units. A unit can be a department, a division, or a work group. Each program has an identifiable service or output and objectives to effectively provide the service. The effectiveness and efficiency of providing the service by the program is measured by performance indicators.

Program Revenue (Income): Revenues earned by a program, including fees for services, license and permit fees, and fines.

Property Taxes: An ad valorem tax levied on both real and personal property according to the property's valuation and the tax rate.

Proprietary Funds: Funds that focus on the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. There are two types of proprietary funds: enterprise funds and internal service funds.

Public Transit Fund: This fund is a subfund of the General Fund, and is used to account for the receipt and disbursement of property taxes generated by the levy authorized under Section 384.12(19) of the Code of Iowa. The purpose of the levy is to aid Jule Transit.

Purchasing Card (P-Card): This is the City's procurement card program of credit cards for individual City employees.

Purpose: A broad statement of the goals, in terms of meeting public service needs, that a department is organized to meet.

Refunding: The issuance of long term debt in exchange for, or to provide funds for, the retirement of long-term debt already outstanding. Refunding is essentially the “refinancing” of long-term debt.

Reserves: Amounts used to hold certain portions of a fund or types of assets as unappropriated for expenditures, or as legally set aside for a specific purpose.

Resolution: A special or temporary order of a legislative body; and order of a legislative body requiring less legal formality than an ordinance or statute.

Resources: Total amounts available for appropriation including estimated revenues, fund transfers, and beginning balances.

Revenue: Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, shared revenues, and interest income.

Revenue Bonds: Bonds which are repaid in both principal and interest from the earnings of an enterprise fund operation. Storm Water Utility Revenue Bonds would be one example.

Revitalize Iowa’s Sound Economy: (RISE) grant that is funded by the Iowa Department of Transportation for the purpose of providing infrastructure for economic development projects.

Risk Management: The identification and control of risk and liabilities incurred by a local government to conserve resources from accidental loss.

Road Use Tax Fund: This fund accounts for the receipt of state revenues, allocated to the City by the State under a formula, for expenditure within the City for street maintenance/improvement/supervision.

Rollback: The State of Iowa annually adjusts the rollback percentage which is the percentage of the residential assessed valuation which is taxable.

Service Lease: A lease under which the lessor maintains and services the asset.

Service Level: Services or products which comprise actual or expected output of a given program. Focus on results, not measures of workload.

Services and Charges: A category of expenditures used for the purchase of services provided by individuals, businesses or agencies that are not in the direct employ of the City.

Sinking Funds: These funds are used to accumulate monies in order to have adequate amounts available to make required periodic debt service payments. Sinking funds are used in enterprise funds that have outstanding long- term debt.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A levy against a property to pay for all or part of the cost of an improvement benefiting that property.

Special Revenue Funds: Special revenue funds are used to account to the proceeds of specific revenue sources that are legally restricted to expenditures for particular purposes.

Subsidy: Financial aid given to a governmental unit by another governmental unit.

Supplies and Services: Expendable materials and operating supplies necessary to conduct departmental operations.

Target Budget: Desirable expenditure levels provided to departments in developing the coming year's recommended budget. Based on the prior year's adopted budget, excluding one- time expenditures, projected revenues, and reserve requirements.

Tax Increment Financing Funds: These funds are used to account for receipt of property taxes allocated to various tax increment financing districts and used to pay the principal and interest on tax increment debt, as well as to make major infrastructure expenditures.

Tax Levy: The resultant product when the tax rate per $1,000 is multiplied by the tax base.

Tax Rate: The amount of tax stated in terms of a unit of the tax base, for example, dollars per $1,000 of assessed valuation.

Taxes: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people. This term does not include specific charges made against particular persons or property for current or permanent benefit, such as special assessments.

Tort Liability: A tort is a wrong against an individual or property that is neither a crime nor a violation of contract. A court could find the City liable or responsible when a tort occurs on City property, as a result of the actions of a City employee, or the function of a City operated activity. The City levies a special tax to purchase tort liability and to cover the cost of tort damages for which the City is found responsible.

Transfers: Involves the movement of money between City funds.

Trust and Agency Funds: Funds used to account for assets held by the government in a trustee capacity, for individuals or other groups associated with the government. Agency monies or assets are held by a government. Agency monies or assets are held by a government acting as an agent acting as an agent for others, i.e. Landfill.

Unamortized Premium and Discount: when bonds are sold, the difference in the price above par or face value (premium) or below par (discount) is recognized over the life of the bonds. The amount of the premium or discount not yet recognized is called the unamortized premium or discount.

Unencumbered Balance: The amount of an appropriation that is neither expended nor encumbered. It is essentially the amount of money still available for future purposes.

Unreserved Fund Balance: The portion of a fund's balance that is not restricted for a specific purpose and is available for general appropriations.

User Charges: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

Variable Cost: A cost that increases/decreases with increases/decreases in the amount of service provided such as the payment of a salary.

Valuation: The official value established for various properties within set State guidelines, for taxation purposes. The assessed valuation of property is that portion of the property's value upon which taxes are levied.

Working Cash: Excess of readily available assets over current liabilities or cash on hand equivalents which may be used to satisfy cash flow needs.

Workload Indicator: A unit of work to be done (e.g. number of permit applications received, the number of households receiving refuse collection service, or the number of burglaries to be investigated).

Work Years: The amount of personnel resources required for a program expressed in terms of the "full-time equivalent" number of employees. One "work year" is equal to one full- time, year round employee. For most categories, this equals 2,080 hours per year (40 hours per week times 52 weeks). The number of hours a part-time employee is budgeted to work during the year is divided by 2,080 to arrive at the equivalent number of "work years" for the position.

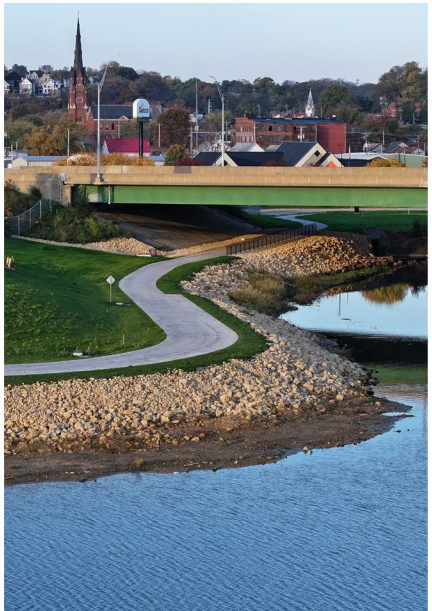
CAPITAL IMPROVEMENT PROGRAM

2027

THE CITY OF DUBUQUE
Masterpiece on the Mississippi



Recommended for Fiscal Years

2027 - 2031

CITY OF DUBUQUE

CITY OF DUBUQUE, IOWA
Fiscal Year 2027-2031 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2027-2031 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 28, 2026, at the same time as the public hearing on the Fiscal Year 2027 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the $1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City was successful in obtaining several large grants and now will be implementing those projects, especially the Bee Branch Flood Mitigation Project, 16th Street Pumping Station, and the 14th Street Overpass project.

A particular emphasis in this five-year CIP is modernization of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond. In the current fiscal year (FY 2026), the City will have allocated $22,026,250 and in this new five-year CIP, the City will have allocated an additional $74,871,571 for a total of $96,897,821 from July 2025 through December 2031.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $221,888,207 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements , for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. The greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	$(13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58%
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Total New Debt	**$ 26,579,333**	**$ 43,133,602**	**$ 45,254,925**	**$ 35,996,472**	**$ 25,669,405**	**$ 176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the change in debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	$ 26,579,333	$ 43,133,602	$ 45,254,925	$ 35,996,472	$ 25,669,405	$ 176,633,737
Retired Debt	-$25,371,787	-$28,057,116	-$29,480,446	-$30,454,045	-$28,910,190	-$142,273,584
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027**. In FY 16 the City was at 86.13% of statutory debt limit, so **33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The history of the City's use of the statutory debt limit is as follows:

FY15	FY16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
83.87%	86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	36.48%	35.85%	34.10%	35.58%

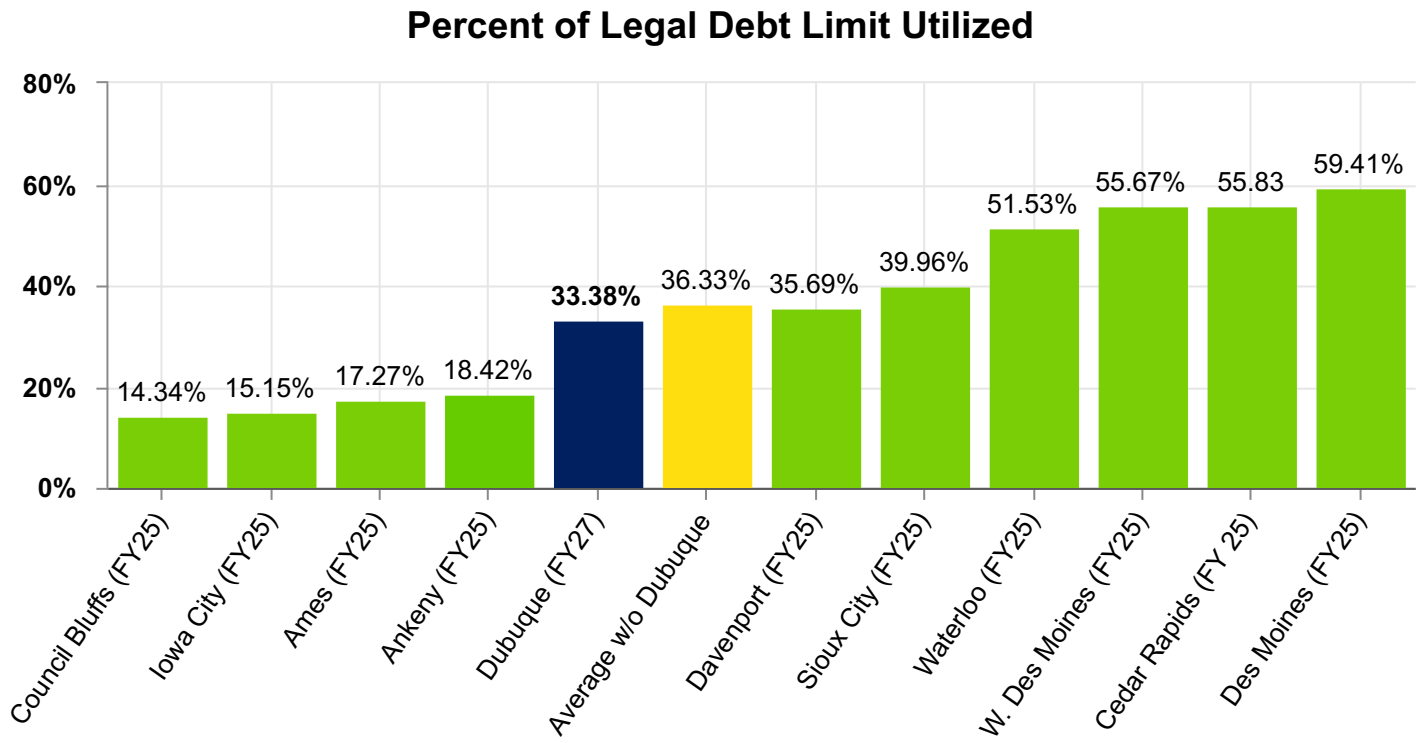
The five year projection of the City's use of the statutory debt limit from Fiscal Year 2027–2031 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2027 is as follows:

FY 27	FY 28	FY 29	FY 30	FY 31
33.38%	34.45%	34.96%	35.31%	35.59%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$ 964,798,967	$ 573,230,000	59.41 %
10	Cedar Rapids (FY 25)	$ 767,559,335	$ 428,550,000	55.83 %
9	W. Des Moines (FY25)	$ 551,635,692	$ 307,090,000	55.67 %
8	Waterloo (FY25)	$ 267,626,798	$ 137,905,065	51.53 %
7	Sioux City (FY25)	$ 367,743,172	$ 146,935,000	39.96 %
6	Davenport (FY25)	$ 493,660,291	$ 176,195,000	35.69 %
5	**Dubuque (FY27)**	**$ 358,374,258**	**$ 119,617,156**	**33.38 %**
4	Ankeny (FY25)	$ 529,988,951	$ 97,645,000	18.42 %
3	Ames (FY25)	$ 328,345,527	$ 56,710,000	17.27 %
2	Iowa City (FY25)	$ 435,367,793	$ 65,945,000	15.15 %
1	Council Bluffs (FY25)	$ 427,559,692	$ 61,320,000	14.34 %
	Average w/o Dubuque			**36.33 %**

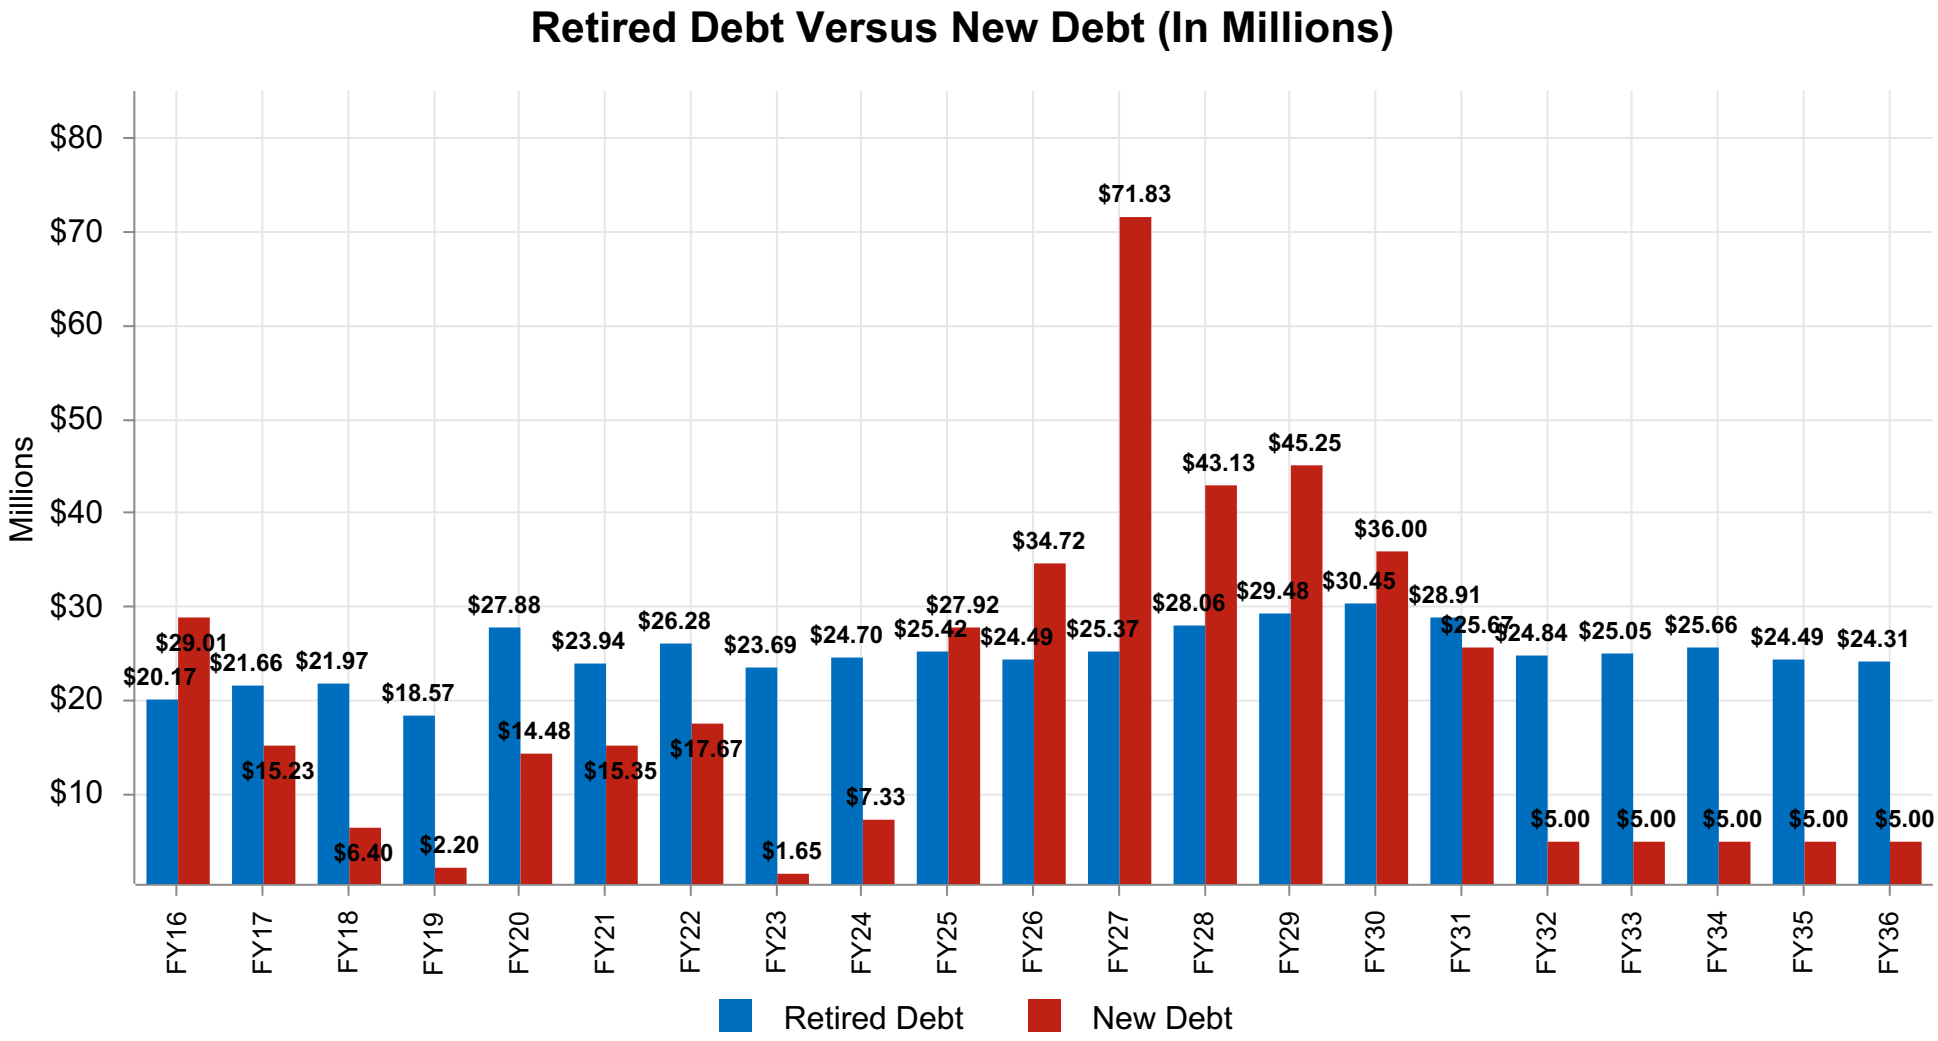


Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities. **The average (36.33%) is 8.84% higher than Dubuque (33.38%).**

Retired Debt Versus New Debt

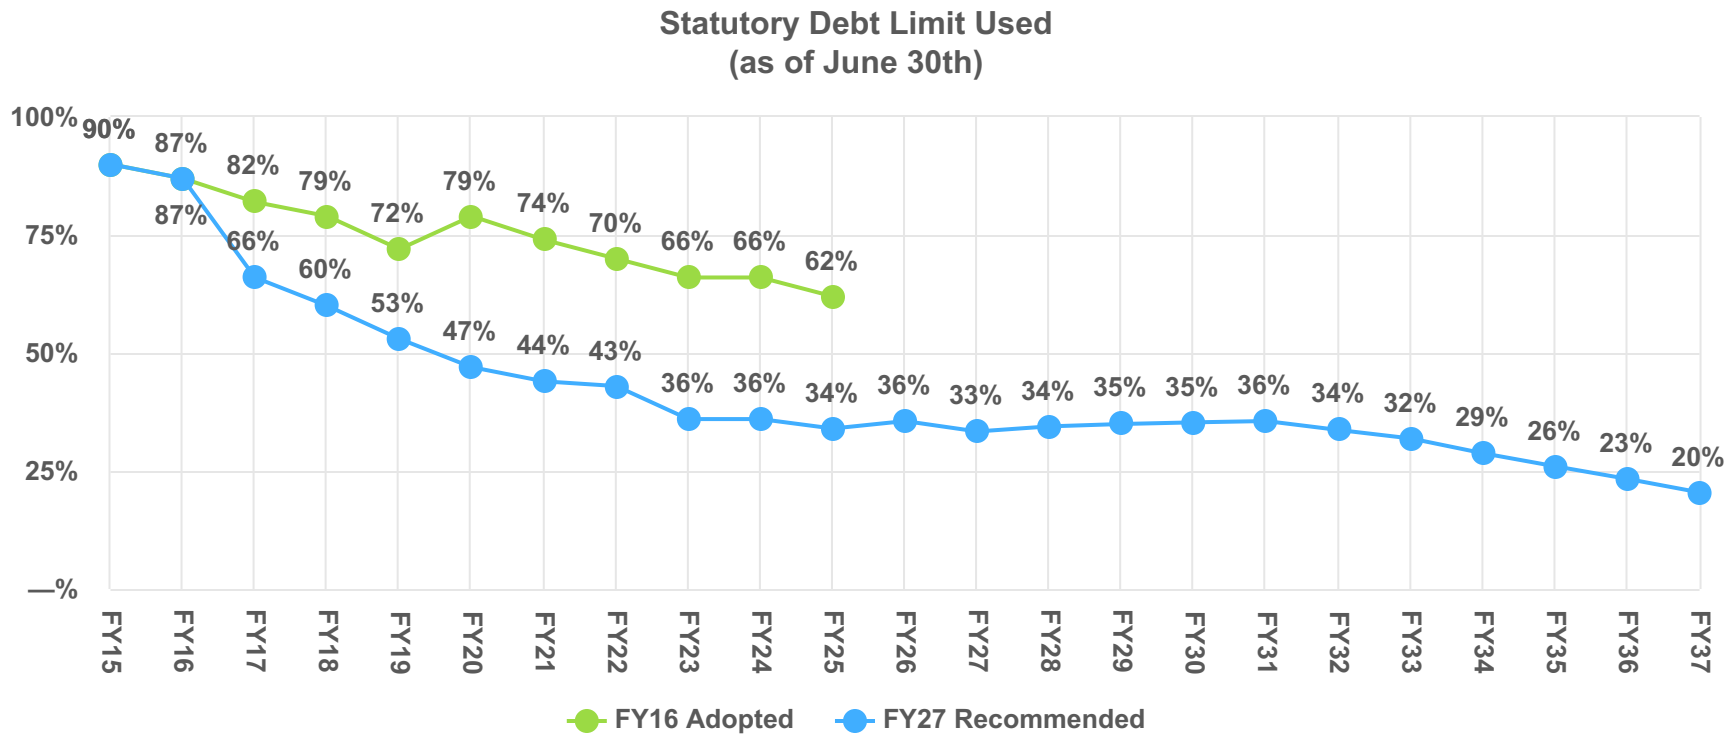
The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

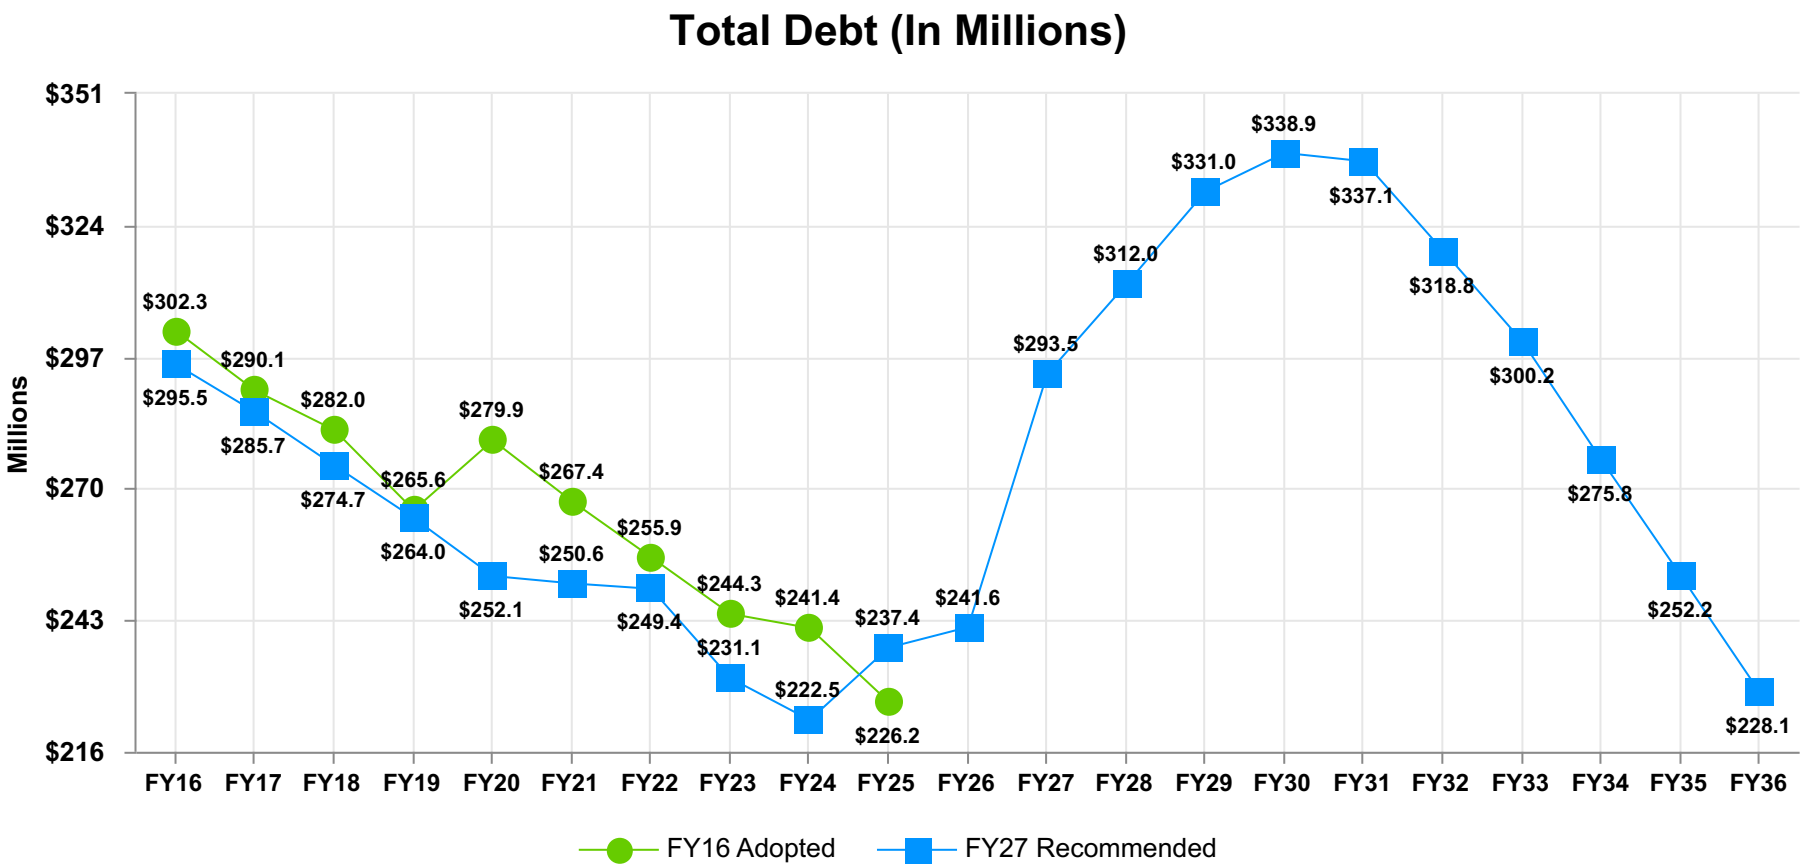


Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS mitigation, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements. However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit. Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit.** This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.



By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $337.15 million (35.59% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit or** $228.14 million total amount of debt.



General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 35% General Fund Operating Reserve for “AA” rated cities.

In January 2025, Moody’s Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody’s credit analysis states, “the City of Dubuque’s local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs.” According to Moody’s, the Aa2 issuer rating for the City of Dubuque’s bonds reflects the city’s healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody’s Investor Service upgraded the City’s outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody’s Investors Service (“Moodys”) released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

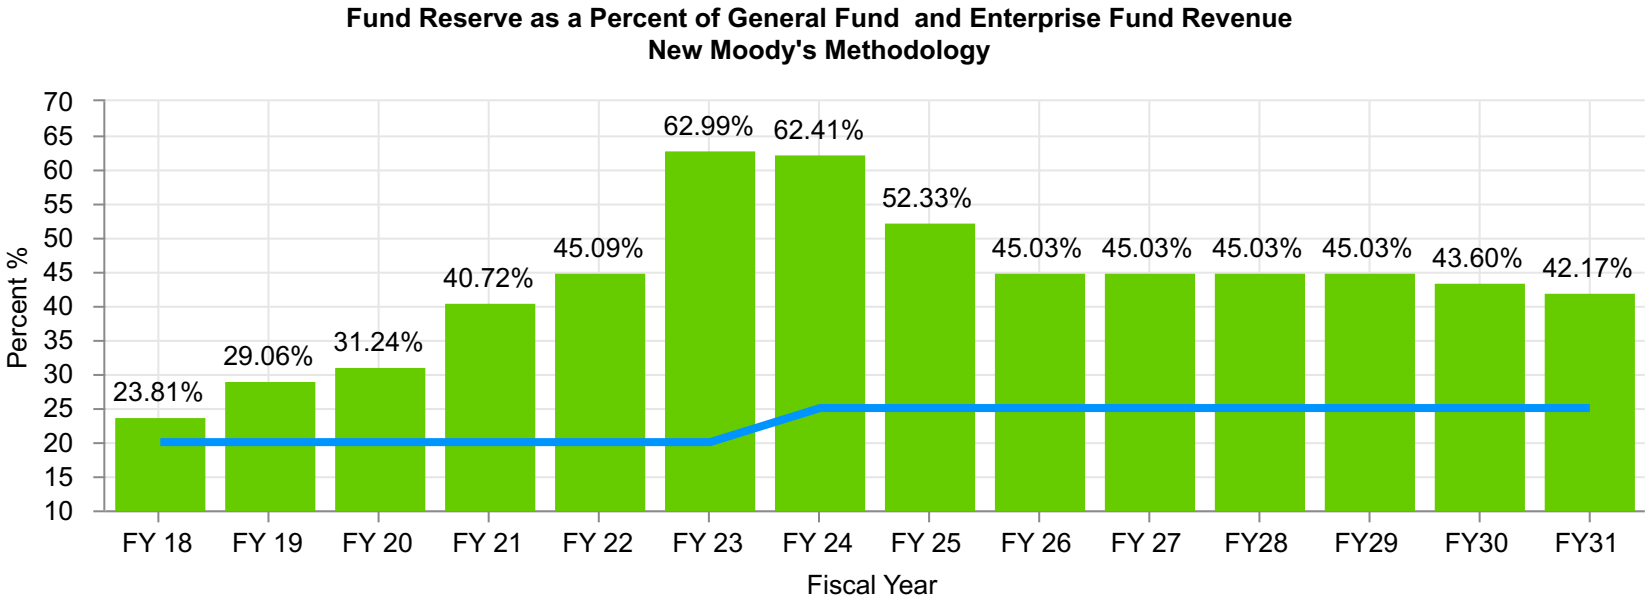
Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio (“AFBR”) = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio (“LR”) = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody’s under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody’s calculated the City’s AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City’s general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City’s ratings.

In May 2021, Moody’s Investor Service upgraded the City’s Water Enterprise’s outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	40.53%	52.33%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2026	27.00%	45.03%	Decrease due to spend down of American Rescue Plan Act funds.



The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve balance is projected to be $25,412,743 on June 30, 2026. The general fund reserve balance exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed on a cash basis. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031
Contribution	$4,419,668	$—	$—	$—	$—	$—	$—	$—
City's Spendable General Fund Cash Reserve Fund Balance	$43,826,193	$38,026,193	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743
% of Projected Revenue (Cash Basis)	51.19%	40.53%	27.00%	27.00%	27.00%	27.00%	27.00%	27.00%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low annual interest rate based on 75% of the average daily Bloomberg BVAL General Obligation Municipal AAA ("BVAL") for the calendar month immediately preceding the effective date. In addition there is an annual servicing fee of 0.25%**. The interest rate effective until March 31, 2026 is 3.15% with the 0.25% servicing fee included.

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes. This program no longer exists.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs were reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

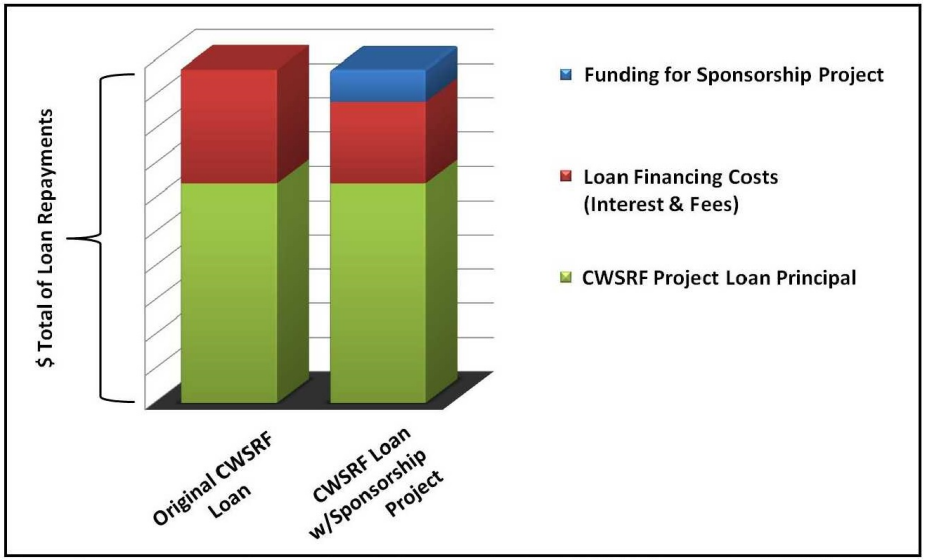


Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded $9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from $64,885,000 to $75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of $11.4 million. The State of Iowa has discontinued the sponsored project option for future debt issuances.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of $29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was $5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded $1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the $1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to $30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.38 million less than the original loan.**

In May 2018, the City was awarded $1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the $1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to $17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.05 million less than the original loan.**

In February 2019, the City was awarded $276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the $276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted**. On a gross basis, the borrowing costs for the new loan were $278,000 less than if there was not a sponsorship project included.**

The United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, requires all lead service lines to be removed from the system within a ten year period, effective November 1, 2027. Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. On

November 15, 2021, the Bipartisan Infrastructure Law (BIL) was signed by President Biden, which includes $50 billion to the Environmental Protection Agency (EPA) to strengthen the nation's drinking water and wastewater systems—the single largest investment in clean water that the federal government has ever made. The BIL funds are being administered locally through the Iowa Department of Natural Resources' State Revolving Fund (Iowa SRF) program, with 49% of construction costs being forgivable. The City of Dubuque is taking part in a unique opportunity to assist approximately 585 homes in three phases (owner occupied or rented) within the city with the functional replacement of private lead-water service lines by trenching or pull-through methods to prevent the potential for drinking water contamination at a house-by-house level. Phase 1 of the pilot program is 100% voluntary and is open to those residents with a verified drinking water lead service line meeting the socioeconomic guidelines established by the Bipartisan Infrastructure Law. In September 2025, the City was awarded a 0% interest State Revolving Fund Loan in the amount of $1,941,000 for the Private Lead Service Line Replacement Pilot Program - Phase 1. The non-premise related construction costs are 49% forgivable at the completion of Phase I.The scope of work in the first phase includes the replacement of approximately 200 lead service lines identified throughout the City's water distribution service area. The nature of the replacements will vary by site, ranging from full replacements (public water main to interior plumbing) to partial replacements (a portion of the service line between the public water main and the interior plumbing). Work will be conducted within the City's right-of-way and on private properties with authorization from property owners.

Phase 2 of the Private Lead Line Replacement Program will be voluntary enrollment with a target of approximately 67 lead service lines replaced each year. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced.he city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. Phase 3 of the Private Lead Line Replacement Program will be mandatory with an estimated 605 lead service lines replaced annually. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

In March 2026, the State of Iowa passed rules possibly allowing the City of Dubuque to obtain some forgivable SRF loan dollars to do PFAS related projects.

The five-year CIP adopted through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and will be $352,840,562. This is a $1,246,009 (0.35%) increase.

FY 2026-2030 Capital Improvement Program (CIP) compared to the FY 2027-2031 Capital Improvement Program is as follows:

	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
FY26 CIP	$91,803,749	$64,823,518	$69,843,768	$74,478,605	$50,644,913	—	$351,594,553
FY27 CIP	—	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$352,840,562
$ Difference	—	+$15,810,220	+$8,840,154	+$12,693,285	+$10,980,084	—	$1,246,009
% Change	—	+24.39%	+12.66%	+17.04%	+21.68%	—	0.35%

Further information about the changes to capital improvement projects can be found on pages xxii-xxxv.

Fiscal Year 2027 will be the twentieth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

The Stormwater Utility was formed on July 1, 2003, to update and expand the City’s aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. T**he City’s has been able to garner support from local, state, and**

federal partners with over $169 million in outside funding to help offset the cost of the overall $250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Construction
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12A	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.
12B	17th Street / W. Locust Street Reconstruction	Complete Design in ‘26, Construct in ‘27

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated $582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the **Dubuque Five-Year (2025-2027) City Council Goals and 2025-2027 Policy Agenda, established by the City Council August, 2025.**

Dubuque Five-Year City Council Goals

Healthy and Safe Community
Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity
Livable Neighborhoods and Housing: Great Place to Live
Sustainable Environment: Preserving and Enhancing Natural Resources
Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility
Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Policy Agenda 2025 - 2027

Top Priority (in alphabetical order)

- Commercial Air Service Future: Strategy an Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priority

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2027 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2027-2031 CIP is substantially the same as previous fiscal years. First, an index referencing the 2027-2031 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2025 and the adopted budget in Fiscal Year 2026. In Section A of the project form entitled “Expenditure Items”, project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled “Project Financing”, the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled “Impact – Operations,” the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2032". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2032" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2031." If a project is annual, the "2032" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque's commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2028 through Fiscal Year 2031 projects, as well as to add projects for Fiscal Year 2032.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available.

Notable FY2027 Capital Improvement Projects

Department	Project Title	Total City Investment FY2027-FY2031	Page
Fire	Outdoor Warning Siren Repair/Replace	$54,000	5
Fire	Fire Station Expansion	$8,791,700	6
Fire	2027 Ambulance Replacement (1914)	$500,000	9
Fire	Portable Radio Replacements	$490,000	12
Fire	2030 Fire Engine Replacement (1910)	$1,288,408	13
Fire	2030 Ambulance Replacement (1915)	$635,000	14
Fire	2031 Ambulance Replacement (130010)	$665,000	15
Parks	Jeffris Grant	$2,060,394	22
Civic Center	Five Flags Building Improvements	$5,844,678	29
Conference Center	Roof Restoration	$1,383,000	44
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000	48
Water	Admiral Sheehy Drive Water Main Loop	$686,400	49
Water	Central Ave Booster Station	$1,020,000	50
Water	Water Main Extension Central Ave	$965,000	52
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000	69
Water	Private Lead Line Replacement Program	$1,050,000	79
Water	Private Lead Service Line Replacement Program	$4,050,000	81
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000	86

Department	Project Title	Total City Investment FY2027-FY2031	Page
Water	Source Water PFAS Reduction Project	$1,121,199	87
Water	Water Meter Replacement Program	$687,750	96
Water	Water Storage Maintenance Program	$3,336,000	97
Water	West End Annexation Phase II	$2,000,000	101
Water	Southwest Arterial 16" Water Main Extension	$2,475,000	104
W&RRC	Bar Screen Replacement	$2,500,000	107
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000	109
W&RRC	Industrial Controls Upgrade	$6,114,700	111
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550	123
Airport	Reconstruct Taxiway A	$9,969,994	128
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000	130
Airport	Taxiway D Extension	$2,940,000	133
Airport	Taxiway J Improvements	$7,145,600	134
Public Works	Asphalt Milling Program	$873,547	135
Public Works	Curb Ramp Program	$4,883,000	136
Publics Works	Concrete Street Section Repair Program	$1,641,038	139
Public Works	NW Arterial Should Paving Project	$2,311,247	145
Engineering	Storm Sewer General Replacements	$1,500,000	209
Engineering	Stormwater Management Program	$800,000	211
Engineering	Detention Basin Maintenance & Repair	$1,000,000	216
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112	220
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000	223
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221	235
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630	237
Engineering	Old Mill Road Lift Station & Force Main - Phase 3	$19,891,034	239
Engineering	Old Mill Road Lift Station & Force Main - Phase 4	$19,506,258	241
Engineering	Schmitt Island Sanitary Improvements	$4,415,252	243
Engineering	Sanitary Basis Analysis - South Port & Terminal St LS	$10,800,000	253
Engineering	Track Line Sanitary Sewer Reconstruction	$3,500,000	257

Department	Project Title	Total City Investment FY2027-FY2031	Page
Engineering	14th St Overpass	$36,144,000	264
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation Improvements 11th - 22nd Street	$9,770,000	266
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	$6,000,000	268
Engineering	East - West Corridor Capacity Improvements	$18,600,000	269
Engineering	17th/Locust Street Reconstruction Phase 4	$4,765,000	280
Engineering	Bridge Repairs/Maintenance	$2,640,000	288
Engineering	Fiber Infrastructure Management System	$330,000	309
Engineering	Traffic Signal Network Communications Program	$445,000	325
Engineering	STREETS Traffic Control Project Phase 2	$1,029,000	332
Engineering	Federal Building Renovation	$5,395,000	334
Economic Development	Downtown Rehab Grant Program	$1,700,000	338
Economic Development	Workforce Development	$1,857,500	342
Transportation	Smart Parking System	$780,000	344
Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200	345
Housing	Assistance for Homeownership	$1,026,082	348
Housing	Homeowner Rehabilitation Program	$2,476,588	350
Housing	Healthy Homes Production Grant	$1,326,250	353
Housing	Lead and Healthy Homes Grant	$3,136,600	355
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000	358
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759	368
Information Technology	Network Switch Replacement	$607,500	364
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906	372

There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs ($87,131,865). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	DLEC Upgrades and Maintenance	$ 208,300
Fire	Install HVAC Systems at Fire Station 5 and 6	$ 100,000
Parks	Chaplain Schmitt Island Environmental Restoration	$ 430,000
Parks	Eagle Point Park / Jeffris Grant	$ 2,060,394
Parks	Eagle Point Park Master Plan	$ 165,000
Parks	Park Office - Replace Roof	$ 12,000
Parks	Trail Maintenance/Repair	$ 100,000
Parks	Mechanic Shop-Replace Roof	$ 35,000
Recreation	Community Center Master Plan	$ 80,000
Recreation	Bunker Hill Administrative Office Lead Remediation Project	$ 30,000
Recreation	Bunker Hill Basement Leak Repair and Planter Box Removal	$ 30,000
Recreation	F&S Site Repair/Replacement-Leak Repair	$ 30,000
Recreation	Marina-Dock Fuel & Electrical System	$ 50,000
Conference Center	HVAC System Evaluation	$ 35,000
Water	8th St 20" Transmission Water Main Connection (Jackson to Central)	$ 277,000
Water	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water	$ 1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$ 686,400
Water	Central Avenue Booster Station	$ 1,020,000
Water	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	$ 245,000
Water	Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection)	$ 965,000
Water	Water Distribution System Master Plan	$ 200,000
Water	Distribution System Regulatory Monitoring/Flushing Stations	$ 150,000
Water	Water District Metered Zone (DMZ) Pilot	$ 180,000
Water	Eagle Point Water Treatment Plant Lime Sludge Drain Sediment Trap - Water	$ 50,000
Water	Eagle Point Water Treatment Plant Railroad Building Study	$ 20,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$ 205,000
Water	Grove Terrace Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 130,000

Department	New Project	Total CIP
Water	Harvard St Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 140,000
Water	Hempstead St Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 320,000
Water	Hwy 20/Dodge St Water Main Relocation - Devon Drive to Concord St	$ 1,000,000
Water	Water Distribution System Hydraulic Modeling	$ 50,000
Water	JFK Tower Interior Piping and Expansion Joint Replacement	$ 50,000
Water	Leak Detection Survey	$ 130,000
Water	North Grandview Ave Water Repairs	$ 80,000
Water	Water Main Extension Olympic Heights Rd (Pressure Zone 3 and 5 Connection)	$ 617,000
Water	Water Main Extension Pennsylvania Ave (Annex Agreement WM A)	$ 545,000
Water	Private Lead Service Line Replacement Program (City-Wide)	$ 4,050,000
Water	Rockdale Road Reconstruction (Old Mill to Twin Valley Drive) - Water	$ 400,000
Water	Water Main Extension Seippel Rd and Pennsylvania Ave (Annex Agreement WM B)	$ 585,000
Water	Source Water PFAS Reduction Project-Granular Activated Carbon Filter Rehabilitation	$ 10,900,000
Water	South Algona 12" Water Main Replacement (St Joseph to Lombard St)	$ 793,000
Water	Water Repairs Sunnyslope Street Project	$ 390,000
Water	Water Main Replacement W 8th St (Bluff St to Hill St)	$ 395,000
Water	Safety Equipment for Water Distribution Staff	$ 57,600
Water	Water Treatment Plant South Plan Flow Meter Replacement	$ 60,000
Water	Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Extension	$ 2,475,000
Water & Resource Recovery Center	WRRC Compressed Air System Improvements	$ 69,500
Water & Resource Recovery Center	Process Control Instrumentation Improvements - Dissolved Oxygen Monitoring	$ 135,000
Water & Resource Recovery Center	WRRC Influent and Effluent Monitoring Improvements	$ 40,000
Water & Resource Recovery Center	WRRC Treatment System Infrastructure Restoration and Reliability Improvements	$ 2,047,550
Water & Resource Recovery Center	WRRC Safety Program Development	$ 106,000
Airport	Taxiway D Extension (formerly Taxiway H)	$ 2,940,000

Department	New Project	Total CIP
Airport	Taxiway J Improvements	$ 7,145,600
Public Works	Tri-top Catch Basin Replacement Project	$ 335,162
Public Works	Municipal Services Center Access System Replacement	$ 85,000
Public Works	Municipal Services Center Fleet Maintenance Bay Extension	$ 100,000
Public Works	NW Arterial Shoulder Paving Project	$ 2,311,247
Public Works	Hawthorne Street Boat Ramp Repair	$ 407,532
Public Works	3255 - Wheel Loader Purchase	$ 305,865
Public Works	2730 - Portable Jet	$ 50,000
Public Works	Mechanical Sweeper Replacement	$ 290,466
Public Works	New CCTV Camera	$ 40,000
Public Works	2727-Off-Road Vehicle	$ 25,000
Public Works	Off Road Vehicle CCTV Slide-in Unit	$ 145,000
Public Works	Fleet Service Sweeper	$ 25,000
Landfill	Landfill Permit Renewal Project	$ 55,204
Landfill	Landfill Website Redesign Project	$ 20,000
Landfill	Landfill Alternative Energy Project	$ 50,000
Landfill	3C Wheel Loader	$ 275,000
Landfill	Sweeper	$ 95,000
Landfill	Brush Mower	$ 15,000
Landfill	3451 Hook Truck	$ 335,223
Landfill	Water Truck	$ 200,000
Engineering	Confined Space Drone	$ 100,000
Engineering	General Stormwater Detention Basin Maintenance & Repair	$ 1,000,000
Engineering	Schmitt Island Stormwater Rehabilitation	$ 450,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater	$ 5,300,000
Engineering	North Catfish Creek Trail Stabilization	$ 500,000
Engineering	Pebble Cove Drainage Basin Improvements	$ 240,000
Engineering	Harvest View Storm Sewer Improvements	$ 320,000
Engineering	Primrose Court Storm Sewer Repair	$ 120,000
Engineering	Manhole Inspection Equipment (2 Cameras)	$ 28,000
Engineering	Kerper Boulevard Sanitary Sediment Trap	$ 80,000

Department	New Project	Total CIP
Engineering	JFK Yiannias Place Sanitary Sewer Relocation	$ 550,000
Engineering	Key West Sanitary Lift Station Replacement	$ 1,535,000
Engineering	Sanitary Basin Analysis - Steger Heights Area (SSAMP Service Area 3-8-1-1)	$ 1,540,000
Engineering	Sanitary Basin Analysis - Quigley's Sub Area (SSAMP Service Area 3-8-0-1B-1)	$ 1,520,000
Engineering	Sanitary Basin Analysis - South Port & Terminal St LS	$ 10,800,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary	$ 1,100,000
Engineering	US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements, Iowa Department of Transportation	$ 6,000,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street	$ 4,765,000
Engineering	Port of Dubuque Streets Extension	$ 100,000
Engineering	Safe Routes to School	$ 120,000
Engineering	NW Arterial Trail Drainage	$ 150,000
Engineering	Pedestrian Safety with Permanent Bollards/Barricades	$ 152,000
Engineering	Way finding Signage	$ 40,000
Engineering	Chavenelle Street Light Replacement Project	$ 182,850
Engineering	Iowa St Streetlight Replacement Project	$ 138,000
Engineering	City Hall - Radon Mitigation System	$ 161,000
Economic Development	Downtown Storefront Activation Program	$ 400,000
Planning	Downtown Master Plan Update	$ 150,000
City Manager's Office	Municipal Solar Project - MFC	$ 176,300
City Manager's Office	Municipal Solar Project - Library	$ 122,672
	TOTAL	**$ 87,131,865**

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total $8,619,951. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP
Fire	Fire Department Bunk Room Remodel(s)	$ 1,489,918
Parks	Eagle Point Park - Riverfront Pavilion Restoration	$ 230,000
Parks	All Parks - Renovate Water Systems	$ 57,000
Parks	Eagle Point Park - Restroom Renovation	$ 124,900
Parks	Eagle Point Park - Stone Work	$ 105,000
Parks	Eagle Point Park - Renovate Log Cabin	$ 60,000
Recreation	Sutton Pool Zero Depth Survey & Remediation	$ 60,000
Conference Center	Banquet Chair Replacement	$ 313,500
Conference Center	Paint Exterior Metal	$ 132,000
Conference Center	Concrete Restoration, Raising & Caulk	$ 240,000
Conference Center	Replace Fabric Wall Covering	$ 227,000
Conference Center	Replace Carpet	$ 485,000
Library	Library Landscaping and Plaza Redesign	$ 103,601
Water & Resource Recovery Center	High Strength Waste Receiving and Storage	$ 939,984
Engineering	Pine Street Extension from 7th to 9th	$ 1,980,000
Engineering	Decorative Concrete Maintenance Program	$ 300,000
Engineering	Hillcrest Road Sidewalk	$ 250,000
Engineering	Port of Dubuque Security Camera Expansion	$ 60,000
Engineering	City Facility Integrated Access Control and Security System Upgrade	$ 270,126
Engineering	City Hall Landscape Enhancement Project	$ 29,500
Housing & Community Development	Washington Neighborhood Homebuyer Program	$ 952,422
Planning	Historic Preservation Technical Assistance Program	$ 110,000
City Manager's Office	Municipal Energy Reinvestment Fund	$ 20,000
City Manager's Office	Renew DBQ: Low-Income Solar Pilot Project	$ 80,000
	Total	**$ 8,619,951**

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP ($67,599,429). CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP
Police	Rescue Vehicle	$451,829
Fire	Fire Department Dock/Boathouse	$450,000
Fire	Update Hendrix Storage Building 880 Central (LOT 1024482020)	$510,000
Fire	Kitchen Remodel at Fire Station 2	$187,500
Parks	Pebble Cove Park Development	$360,000
Parks	Second Dog Park Planning	$60,000
Parks	Ham House Improvements	$90,000
Parks	Murphy Park-Bennett Pavilion Roof Replacement	$165,000
Parks	Hillcrest Park - Replace Play Unit	$225,000
Parks	Allison Henderson - Replace Roof	$20,000
Parks	EB Lyons Carpet Replacement	$85,000
Parks	Silver Oaks Park Development	$320,000
Parks	Ecological Restoration	$50,000
Parks	EB Lyons Center - Stain, Patio, Ridge Beam	$170,000
Parks	Chaplain Schmitt Island-Landscaping	$50,000
Parks	Chaplain Schmitt Island-Entrance Sign	$72,500
Parks	Flora Park-Tennis Courts Replace Lights/ADA Access	$225,000
Parks	Ham House Exterior Repairs	$135,000
Parks	Hilltop Park - Replace Play Unit	$221,000
Parks	Marshall Park - Replace Play Unit	$230,000
Parks	Teddy Bear Park - Play Equipment	$205,000
Parks	Paint Railings	$60,000
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	$83,000
Parks	North Fork Trail Park Development	$305,000
Parks	Eagle Point Park - Accessible Walkway to the Log Cabin Pavilion	$405,000
Parks	Eagle Point Park Trail Project- Invasive Remediation	$93,000
Parks	Eagle Point Park - Light Trolley Line Trail	$165,000
Parks	Eagle Point Park - Native American Room Restoration	$122,000

Department	New Project Not Funded	Total CIP
Parks	Eagle Point Park - Develop Wading Pool Replacement Plans	$440,000
Parks	Valley High Park - Replace Play Unit	$210,000
Parks	Pinard Park-Replace Playground	$194,000
Parks	Linwood Cemetery- Assessment	$110,000
Parks	Pave Parking Lots	$95,000
Parks	Murphy Park - Replace Roof on Rest Room Building by the Tennis Courts	$17,000
Parks	EPP-Replace Roof on Eagles View Pavilion	$56,000
Parks	Greenhouse Shop Roof Replacement	$75,000
Parks	Forestry Building - Replace Roof	$87,000
Parks	HWY 20 Trees/Invasive Removal	$55,000
Parks	Chaplain Schmitt Island Campground Entrance Enhancement	$52,500
Parks	EB Lyons Center - Roof Rehabilitation	$60,000
Parks	Comprehensive Street Tree Inventory	$250,000
Parks	Network Switches - Parks	$25,000
Parks	HVAC Upgrade - Greenhouse	$15,000
Parks	HVAC Upgrade - Forestry	$25,000
Parks	Mini Track Loader	$58,000
Parks	Park Signage Study	$55,000
Parks	Trail Connection Study	$60,000
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement - Shade Structures	$125,000
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement-Diving Boards	$70,000
Recreation	Flora and Sutton Swimming Pools Renovate Locker Rooms	$726,000
Recreation	Flora and Sutton Swimming Pools Water Playground Replacements	$315,000
Recreation	Flora & Sutton Pool Operational Projects - Electrical	$50,000
Recreation	F&S Pool Operations - UV Replacement	$85,000
Recreation	F&S Pool Operations - Chemical Distribution System Replacement	$60,000

Department	New Project Not Funded	Total CIP
Recreation	F&S Pool Operations - Water Slide Pump Replacements	$85,000
Recreation	Bunker Hill Golf Course - Range Project	$230,000
Recreation	Bunker - Sand Trap Repair/Removal	$50,000
Recreation	Port of Dubuque - Signage Replacement	$20,000
Recreation	Comiskey Building Restroom Expansion	$112,500
Recreation	McAleece Irrigation Renovation	$100,000
Recreation	Marina Dock Pedestal Replacements	$75,000
Recreation	Marina Gas Dock Fuel Tank Monitoring System Replacement	$19,000
Recreation	McAleece Scoreboard Replacements	$36,000
Recreation	McAleece Softball Field Repair	$54,000
Recreation	Flora & Sutton Pool Water Slide Complete Restoration	$470,000
Recreation	Mobile Special Event Trailer	$37,000
Recreation	Parks & Recreation Fee Study	$35,000
Conference Center	Security Camera System	$175,000
Conference Center	Furniture and Decor Replacement	$84,000
Conference Center	Wi-Fi Upgrades	$99,000
Conference Center	Access Control System	$55,000
Conference Center	Elevator Passenger and Freight Car Replacement	$267,500
Conference Center	AV Rental Upgrades	$32,500
Conference Center	Trash Compactor Rehab	$38,000
Conference Center	Window Panel Replacements	$20,300
Ice Center	Security Camera System Replacement	$216,000
Ice Center	Ice Resurfacer Refurbish	$62,500
Ice Center	Locker Room Ventilation Replacement	$429,050
Ice Center	ASME Storage Tank Replacement	$13,750
Ice Center	New Northwest Corner Service Bar	$271,000
Ice Center	TPO Roof Replacement	$191,500
Ice Center	Addition-New Women's Locker Room	$40,500
Library	Bookdrop Waterproofing	$59,740
Library	3rd Floor Mechanical Room Water Pipe Replacements	$140,195
Library	Refrigerant Leak Detection Upgrade	$21,360

Department	New Project Not Funded	Total CIP
Library	Rear Exterior Painting	$38,588
Library	Sidewalk Replacement Around Library	$113,191
Water	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Water	$2,400,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000
Airport	Terminal Apron Lighting Conversion	$43,000
Airport	Westside Airfield Development	$1,179,000
Airport	AFFF Transition Plan	$258,400
Public Works	Vacuum Street Sweeper Replacement	$361,613
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Stormwater	$10,605,000
Engineering	N Booth St Property Acquisition	$1,000,000
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Sanitary	$2,570,000
Engineering	N.Grandview - Kane to W. 32nd Reconstruction	$2,100,000
Engineering	Embassy West Dr. and Camelot Dr. Reconstruction	$1,800,000
Engineering	Sunnyslope Dr. and Hummingbird Dr. Reconstruction	$1,770,000
Engineering	N.Star Dr. - Long View Dr. - Angel View Dr. - Little Valley Dr. Reconstruction	$1,890,000
Engineering	Colonel Dr. - Camelot Dr. East of Embassy West Dr. Reconstruction	$1,940,000
Engineering	Pennsylvania Ave. Reconstruction - Sandpiper Ln. to Bergfeld Trail	$5,820,000
Engineering	Kerper Blvd Trail (12th - 16th)	$425,000
Engineering	Cedar Cross Road Reconstruction	$5,000,000
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Street	$10,070,000
Engineering	Mobility Improvements Implementation	$144,000
Engineering	Port of Dubuque Recognition Wall	$40,000
Engineering	City Hall First Floor Renovation	$588,138
Engineering	City Hall Annex Renovation	$993,775
Engineering	Traffic Center Aux Cooling	$15,000
Engineering	Old Engine House - Rock Fall Protection	$55,000
Engineering	City-wide Facilities Assessment	$110,000

Department	New Project Not Funded	Total CIP
Engineering	City Hall Elevator Modernization	$161,000
Economic Development	Arts & Culture Master Plan Update	$100,000
Economic Development	Greater Downtown Infill Housing Creation Grant Program	$2,500,000
Information Technology	Enterprise Firewall Replacement	$212,000
Information Technology	IT Office Security Alarm	$50,000
Information Technology	Data Center Second UPS	$350,000
Information Technology	Data Center Cabinet Card Access Controls	$65,000
Information Technology	Data Center Second Generator	$150,000
Information Technology	JOTC AV Equipment Replacement	$50,000
	Total	**$67,599,429**

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2027-2031 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer Jennifer Larson; Budget Manager Laura Bendorf; Budget/Financial Analysts Shannon Soppe, Nikesh Shah, and Nathan Kelleher; Assistant City Manager Cori Burbach, Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; Finance A/R & A/P Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

ATTACHMENTS – PROVIDE OVERVIEW OF THE FISCAL YEAR 2027-2031 CAPITAL IMPROVEMENT PROGRAM

Attachment 1

FISCAL YEARS 2027-2031 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2027	2028	2029	2030	2031	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	15,000	15,000	15,000	15,000	—	60,000	0.02 %
Homeownership Loan Repayments	5,000	5,000	5,000	5,000	—	20,000	0.01 %
Historic Preservation Loan Repayments	7,000	5,000	5,000	5,000	—	22,000	0.01 %
Washington Neighborhood Loan Repayments	30,000	30,000	30,000	30,000	30,000	150,000	0.04 %
Insurance and Other Reimbursements	10,000	10,000	10,000	10,000	10,000	50,000	0.01 %
Golf Revenue	40,000	10,000	—	—	—	50,000	0.01 %
Subtotal Current Revenue	**107,000**	**75,000**	**65,000**	**65,000**	**40,000**	**352,000**	**0.10 %**
Cable TV	1,700	1,900	3,600	—	1,700	8,900	0.00 %

The State Mandated Budget Program Areas and the City Departments/Activities that fall under each of these areas are as follows:

Public Safety – Police, Emergency Communication Center, Fire, Disaster Services, Health Services: Animal Control, Public Works: Flood Control, Housing: Code Inspection and Construction Services
Public Works – Airport, Public Works, Engineering
Health and Social Services – Human Rights, Health Services, Purchase of Services
Culture and Recreation – Parks, Civic Center, Conference Center, Ice Center, Recreation, AmeriCorps, Multicultural Family Center, Library, Arts and Cultural Affairs
Community and Economic Development - Economic Development, Housing and Community Development, Planning Services, Purchase of Services
General Government – Engineering: Facilities Management: City Hall/Annex Maintenance/Grand River Center Maintenance, City Council, City Manager, Communications, Human Resources, Sustainability, City Clerk, Finance, Media Services, City Attorney , Information Technology
Business Type – Water, Water Resource & Recovery Center, Parking, Transit, Public Works: Landfill, Refuse, Salt Operations, Engineering: Sewer, Stormwater

FISCAL YEAR 2027 - 2031 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

Goal	Project	Description	Departments	CIP Page
Healthy & Safe Community	Fire Department Building Maintenance	Updates to restore six fire stations to preventative maintenance-level condition	Fire	3
Healthy & Safe Community	Outdoor Warning Siren Repair/Replace	Upgrades to 17-unit outdoor warning siren system	Fire	5
Healthy & Safe Community	Fire Station Expansion/Relocation	Implements fire station location plan for improved emergency response	Fire	6
Healthy & Safe Community	Fire Engine and Ambulance Replacements	Scheduled replacements for reliable emergency response fleet	Fire	8,9,11,13, 14,15
Healthy & Safe Community	Portable Radio Replacements	Modernizing communication equipment for first responders	Fire/Police/Airport	12
Financially Responsible, High-Performance City	Enterprise Asset Management System (Water, Sanitary, Stormwater, Roadways, Fiber)	Citywide CMMS for asset optimization and service delivery	Multiple Depts.	62, 210, 234, 292, 332
Financially Responsible, High-Performance City	Leak Detection Equipment and Survey	Investments in technology to reduce water loss and improve efficiency	Water	72, 73
Financially Responsible, High-Performance City	Network Switch Replacement	Regular replacement of network infrastructure for cybersecurity	IT Dept.	365, 371
Robust Local Economy	8th Street 20" Transmission Water Main Connection	Infrastructure expansion to support economic development	Water	48
Robust Local Economy	Central Avenue Booster Station	Enhancing water supply reliability for economic growth	Water	50
Robust Local Economy	Workforce Development	Partnership with GDDC for workforce retention, recruitment, creation	Economic Develop	343
Robust Local Economy	Downtown Storefront Activation Program	Financial assistance to activate vacant storefronts	Economic Develop	341
Livable Neighborhoods & Housing	Low/Mod Income Area Park Improvements	Upgrades to parks in low/moderate income areas	Parks	19
Livable Neighborhoods & Housing	Homeowner Rehabilitation Program	Loans for maintenance and rehabilitation of owner-occupied homes	Housing	351
Livable Neighborhoods & Housing	Assistance for Homeownership	Programs to support affordable homeownership	Housing	349
Livable Neighborhoods & Housing	Healthy Homes Production Grant & Lead and Healthy Homes Grant	Addressing housing-related health hazards	Housing	354, 356
Sustainable Environment	Source Water PFAS Reduction Projects	Water treatment investments for safe drinking water	Water	86, 87

Goal	Project	Description	Departments	CIP Page
Sustainable Environment	Municipal Solar Projects (MFC & Library)	Solar arrays on city facilities to reduce energy costs and emissions	City Manager's Office	361, 363
Sustainable Environment	Bee Branch Gate & Pump Replacement Project	Major stormwater infrastructure to mitigate flooding	Engineering/ Stormwater	220
Sustainable Environment	Landfill Waste Minimization Grant Project	Grants for waste reduction, recycling, composting	Public Works	183
Connected Community	14th Street Overpass (B2E2 Project)	Multimodal corridor improvements, rail crossing elimination	Engineering/Street	265
Connected Community	East-West Corridor Capacity Improvements	Upgrades to University Avenue and related corridors	Engineering/Street	270
Connected Community	Public Electric Vehicle Chargers	EV charging infrastructure at key downtown locations	Engineering/Traffic	300
Connected Community	Smart Parking System	Technology for improved parking management and wayfinding	Transportation Services	345
Diverse Arts, Culture, Parks, Recreation	Five Flags Building Improvements	Upgrades to arena, theater, lobby for cultural/ recreational use	Civic Center	29
Diverse Arts, Culture, Parks, Recreation	Chaplain Schmitt Island Environmental Restoration	Restoration of natural areas as part of development plan	Parks	20
Diverse Arts, Culture, Parks, Recreation	Eagle Point Park Master Plan & Improvements	Comprehensive planning and upgrades for signature park	Parks	23
Diverse Arts, Culture, Parks, Recreation	Community Center Master Plan	Planning for expanded indoor recreation and programming	Parks	34
Policy Agenda Top Priority	DLEC Upgrades and Maintenance	Law Enforcement Center upgrades for operational readiness	Police	1
Policy Agenda Top Priority	Old Mill Road Lift Station & Force Main (Phases 1–4)	Major sanitary sewer investments	Engineering/ Sanitary Sewer	235, 237, 239, 241
Policy Agenda Top Priority	Bee Branch Gate & Pump Replacement Project	Stormwater management investments	Engineering/ Stormwater	220
Policy Agenda Top Priority	Pavement Rehabilitation, ADA Curb Ramp Program, etc.	Street maintenance/rehabilitation program	Engineering/Street	275, 136
Policy Agenda High Priority	Central Avenue White Street Corridor Master Plan	Central Avenue revitalization	Engineering/Street	267
Policy Agenda High Priority	Downtown Master Plan Update	Comprehensive downtown planning	Planning Services	358
Policy Agenda High Priority	Chaplain Schmitt Island Development	Environmental, water, sanitary, and stormwater improvements	Multiple Depts.	20, 49, 222, 243
Policy Agenda High Priority	Parks and Recreation Master Plan Adoption	Community Center, Eagle Point Park, and other park improvements	Parks	23, 34
Policy Agenda High Priority	WRRC Plant Nutrient Reduction Improvements	Water Resource and Recovery Center upgrades	Water & Resource Recovery Center	109

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2025 - 2027 Management in Progress and Major Projects by the City Council and are included in the 2027 CIP budget according to one of the Council's goals.

2025 - 2027 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Business Incentives Policy/Processes Review
- Chaplain Schmitt Island Development: Hotel Project

- Comprehensive Hotel Attraction/Incentive Policy
- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions
- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing: Great Place to Live

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming

- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods and Housing: Great Place to Live

- (none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Auburn St and Custer St Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St and Central Ave
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No.7 Rehabilitation
- Water Department New Deep Well No. 7 Rehabilitation (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- 14th St Railroad Overpass and 16th St Corridor Complete Streets Improvements

- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System
- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

Source of Funds and Important Details

The Fiscal Year 2027-2031 CIP presents a financial plan that reflects a $287,495 general fund property tax levy supported annual debt service for the purchase of a replacement pumper truck ($1,035,000) and the franchise fee litigation settlement judgment bond ($2,800,000). The Fire Station Expansion/Relocation project included in the Fiscal Year 2027-2031 CIP will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time. It is anticipated that other borrowing from non-utility funds can and will be minimized by using other sources of funds such as sales tax revenue.

The following important details are about the source of funds:

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over $163 million in outside funding to help offset the cost of the overall $254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach $9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes includes an additional $5,121,112 for the Flood Mitigation Gate and Pump Replacement, a key component of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Combined with funding allocated in prior fiscal years (FY24-FY26), the total project investment is $28,456,106.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes $12,275,000 shared across four funding sources to complete final design work in Fiscal Year 2027 and begin construction in Fiscal Year 2028 for the 17th/W. Locust Street Reconstruction Project, part of the Bee Branch Creek Restoration Project (Phase 12B of the Bee Branch Watershed Flood Mitigation Project). Design for this project was largely completed in the late 2010s and early 2020s, but progress was paused due to funding challenges during the COVID-19 pandemic.

Fiscal Year 2027 will be the nineteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The Fiscal Year 2027-2031 CIP anticipates $4,174,231 in Fiscal Year 2027, $3,623,407 in Fiscal Year 2028, $1,793,632 in Fiscal Year 2029, $2,312,622 in Fiscal Year 2030, and $1,676,919 in Fiscal Year 2031.

Water State Revolving Fund Loans will be used to finance water projects in FY 2027-2031 as follows: $0 FY 2027; $7,302,707 FY 2028; $11,563,870 FY 2029; $6,806,000 FY 2030; and $2,055,000 FY 2031. The debt service related to the total $27,727,577 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, West End Annexation Phase II, 17th/Locust St Reconstruction Phase 4 (Heeb to Kirkwood), Private Lead Service Line Replacement Program (City-Wide), Central Ave Booster Station, Central Ave Water Main Extension, South Algona 12" Water Main Replacement, Water Main Replacement W 8th St (Bluff to Hill), Water Storage Rehabilitation Program, HWY 20/Dodge St Water Main Relocation - Devon Drive to Concord Street, Water Main Extension Olympic Heights Road, and Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Installation.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Water Fund will support 18.01% of administrative overhead.

The water fees in FY 2027 are recommended to increase 3.0%.

Sewer
Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines. The Fiscal Year 2027-2031 CIP anticipates $26,300,608 in Fiscal Year 2027, $19,579,781 in Fiscal Year 2028, $19,532,176 in Fiscal Year 2029, $15,269,824 in Fiscal Year 2030 and $11,750,197 in Fiscal Year 2031.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2027-2031 as follows: $12,232,834 FY 2027; $17,579,781 FY 2028; $17,132,176 FY 2029; $12,669,824 FY 2030; and $8,500,197 FY 2031. The debt service related to the total $68,114,812 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Catfish Creek Sewer shed Interceptor Improvements (South Fork and Middle Fork), South West Arterial Middle Interchange Sewer Extension, Old Mill Road Lift Station & Force Main Phases (1 and 2), Track Line Sewer Reconstruction, Schmitt Island Sanitary Improvements, Grove Terrace Sanitary Sewer Reconstruction, Cooper Pl & Maiden Ln Sanitary Sewer Reconstruction, Harvard Sanitary Sewer, Hempstead Reconstruction, Knob Hill-Duggan Drive Sanitary Sewer Reconstruction, JFK Yiannias Pl Sanitary Sewer Relocation, Key West Sanitary Lift Station Replacement, Sanitary Basin Analysis - Steger Heights, Quigley's Sub and South Port/Terminal St, 17th/Locust St Reconstruction Phase 4, W&RRC Plant Nutrient Reduction Improvements, W&RRC Industrial Control Upgrade, W&RRC Headworks Bar Screen Replacement, and W&RRC Treatment System Infrastructure Restoration and Reliability Improvements.

The sewer fees in FY 2027 are recommended to increase 9.0%.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Sanitary Sewer Fund will support 18.01% of the administrative overhead.

Parking
Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A $4.15 million Greater Downtown TIF borrowing is anticipated in FY 2027-2031 for parking ramp major maintenance. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related debt in the downtown as follows: $2,014,000 in FY 2027; $2,010,750 in FY 2028; $2,012,625 in FY 2029; $2,013,875 in FY 2030; and $2,014,125 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2027, the Parking Fund will support 2.86% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The Fiscal Year 2027-2031 CIP anticipates $460,000 in FY 2027, $469,250 in FY 2028; $423,679 in FY 2029; $646,544 in FY 2030; and $772,500 in FY 2031. The Solid Waste Collection Fund is anticipated to have a deficit balance of $587,638 at the close of FY 2027, which will be offset by an internal loan from a portion of the $5.3 million loan repayment from the Greater Downtown TIF fund to the General Fund. The Solid Waste Collection Fund will begin repaying the General Fund in the Fiscal Year that there is no longer a deficit balance, which is estimated to be FY 2031.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: $460,000 in FY 2027; $463,250 in FY 2028; $408,879 in FY 2029; $640,544 in FY 2030 ; $766,500 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Solid Waste Fund will support 18.75% of the administrative overhead.

The solid waste collection fees in FY 2027 are recommended to increase 9%.

GENERAL FUND

The current revenue amount of $352,000 (0.10% of CIP Total) during the five-year period represents $50,000 in golf funds for improvements to the Bunker Hill Golf Course, $22,000 in Historic Preservation Loan repayments, $60,000 in Rental Dwelling Rehab Repayments, $150,000 in Washington Neighborhood Loan Repayments, $50,000 in insurance and other reimbursements, and $20,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax (20%)” totals $844,281 and represents 0.24% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax/Street Projects (30 percent)” and totals $16,417,822, or 4.65% of the total CIP.

GAMING

DRA payments represent 0% in FY 2027 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations ($0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections ($0 or 0.00% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2029, 10% in FY 2030 and 15% in FY 2031. **In Fiscal Year 2027, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Years 2024-2026 which is a change from past practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois. Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

FEDERAL FUNDING

Community Development Block Grant (CDBG)
The Fiscal year 2027-2031 CIP anticipates that Community Development Block Grant (CDBG) funds will be $650,000 in FY 2027; $650,000 in 2028; $450,000 in FY 2029; $450,000 in FY 2030; and $200,000 in FY 2031 (0.68% of the total CIP).

Federal Aviation Administration (FAA)
The FAA funding of $18,140,035 (5.14% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2027-2031 budget includes Reconstruct Taxiway A, Taxiway J Improvements, Taxiway D Extension, and Update Airport Pavement Management System.

Federal Lead Paint/Healthy Homes Grant (0.83% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Lead Paint/Healthy Homes Grant funds will be $1,900,000 in FY 2027; $1,036,600 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.83% of the total CIP).

Healthy Homes Production Grant (0.32% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Healthy Homes Production Grant funds will be $2,995,200 in FY 2027; $1,658,050 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.32% of the total CIP).

Federal Assistance
Federal Assistance funding of $45,351,606 (12.85% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2027-2031 budget includes Bee Branch Creek Gate and Pump Replacement, Public Electric Vehicle Chargers, Electric Buses, 14th Street Overpass, and East-West Corridor Capacity Improvements.

Federal STP Funds
Federal STP Funds funding of $14,845,453 (4.21% of the total CIP) includes DMATS funds for 14th Street Overpass, STREETS Phase 2, and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax
Road Use Tax Funds (RUTF) of $3,174,227 (0.90% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031, all used for operations.

Sales Tax Increment Revenue
The City secured a $98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, $50,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (0.69% of Total CIP)
State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of $2,445,000 are anticipated over the five-year program.

Iowa Finance Authority funding of $1,013,268 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District
In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2027-2031 CIP includes $1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, $182,850 for the Chavenelle Street Light Replacement Project.

Annexation Initiatives
As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)
With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer (SRO) Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic pausing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers were approved. In late 2024, the Precision Policing Center (PPC) was established. It is expected to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. This is also supporting officer safety. The PPC is staffed by five non-sworn (civilian) employees in three roles: three Precision Policing Center Technicians, one Crime Analyst, and one Criminal Computer Forensics.

Fire Station and Additional Firefighters/Paramedics
An additional west end fire station is currently projected to be designed in FY 2030 and built in FY 2031.In April 2026, the City began a study of all stations and future needs. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City well to develop an annexation plan and begin the process of annexation in the future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, and furniture. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 an additional EMS Captain and an additional EMS Bureau Chief were approved. In FY 2026, 5 firefighter/paramedic positions were added and additional employees may be added in future years. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Water and Sanitary Sewer Service
The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements and replacing undersized sanitary sewers along with new lift stations. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of $2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District
This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Now that the City will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, resources for these capital projects are significantly reduced. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following charts shows the amount of TIF revenue reduction in GDTIF due to claiming 25% less in TIF revenue:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$ 13,524,219	$ —	— %
2028	$ 10,162,871	$ -3,361,348	-24.85 %
2029	$ 10,137,372	$ -3,386,847	-33.33 %
2030	$ 10,111,873	$ -3,412,346	-33.66 %
2031	$ 10,111,873	$ -3,412,346	-33.75 %

Claiming 25% less in Greater Downtown TIF revenue will provide additional general fund levy tax dollars due to the growth that the improvements created in the GDTIF District. The additional general fund levy tax dollars estimated to be returned to all taxing bodies in Fiscal Year 2028 based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 1,284,104
City of Dubuque	36.26 %	$ 1,233,420
Dubuque County	19.96 %	$ 678,959
Northeast Iowa Community College	2.75 %	$ 93,544
Sunnycrest Manor County Hospital	1.89 %	$ 64,290
Dubuque Agricultural Extension	0.41 %	$ 13,947
Dubuque City Assessor	0.98 %	$ 33,336
Total	100.00 %	$ 3,401,600

The following are projects included in the FY 2027-2031 CIP:

Downtown Master Plan Update (page 357) - This project ($150,000) provides for the preparation of a Downtown Master Plan that will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core.

Jackson Park Restroom Building (page 24) - This project ($100,000) provides for additional funding for the Jackson Park restroom building. Initial funding was approved in FY 2020, but due to COVID-19, the project was put on hold.

Five Flags Building Improvements (page 29) – This project ($5,869,457) provides funding for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. With existing funds of $1,206,410, there is $5,869,457 available. This is a substantial decrease from the approximately $24 million previously available.

Five Flags Marquee Replacement (page 30) – This project ($133,500) provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The life expectancy is 7-9 years. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

Five Flags Boiler Replacement (page 31) – This project ($410,000) provides funding for replacement of three 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient.

Five Flags Recirculating Pump Replacement (page 32) – This project ($40,700) provides for the replacement of two recirculating pumps that are responsible for keeping the warm water for sinks readily available by circulating the hot water.

Five Flags Emergency Generator Replacement (page 33) – This project ($870,400) provides for replacement of the emergency standby generator located at 5th Street which provides power to critical systems inside of the building during a sudden loss of power. The current generator was installed in 2000 and is nearing the end of life expectancy of 30 years. A new generator would be more efficient and environmentally friendly.

Grand River Center Dishwasher and Water Softener Replacement (page 43) - This project ($263,000) provides for a dishwasher and water softener replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

Grand River Center Roof Restoration (page 44) - This project ($1,383,000) provides for restoration of the roof on the Grand River Center. The roof was installed in 2002 and restoration is critical to prevent expensive damage if the roof begins leaking.

Grand River Center HVAC System Evaluation (page 45) - This project ($35,000) provides for a consultant to evaluate the HVAC system, software, and controllers. The current system is original to the building, outdated, and difficult to service.

Port of Dubuque Street Extension (page 281) - The city is moving forward with further development in the Port of Dubuque. Specifically, there is approximately 13 acres of vacant property on the north side of 5th Street. These funds ($100,000) will provide money to create an entry road to that site and to plan for the potential future realignment of Ice Harbor Drive to line up with that entry road.

Railroad Crossing Safety Improvements and Quiet Zone Implementation (page 297) - This project ($833,104) provides funding to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within jurisdictional areas.

Federal Building Renovation (page 334) - This project ($8,645,473) provides funding in FY27 for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY28 and FY29 provides funding for the second phase of HVAC upgrades.

Downtown Bike Lockers (page 336) - This project ($30,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team.

Greater Downtown Rehabilitation and Housing Incentive Program (page 338) – This program ($1,970,403) consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing. This is a substantial reduction from previous available funding.

Downtown Storefront Activation Program (page 340) - This new project ($400,000) provides for $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

Smart Parking System Implementation (page 344) - This project ($1,490,175) provides funds for way finding signage throughout the City of Dubuque. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

Parking Ramp Major Maintenance Repairs (page 345) - This project ($9,161,567) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical & plumbing repairs.

Municipal Parking Lot Maintenance (page 346) - This project ($196,182) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces of municipal parking lots.

Homeowner Rehabilitation Program (page 350) - This project ($2,741,588) provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978.

Downtown ADA Assistance Program (page 352) - This project ($185,000) provides assistance to residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafés, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property.

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income(LMI) residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City

initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expired in FY 2025 and all certified debt has been collected.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 589,631
City of Dubuque	36.26 %	$ 566,358
Dubuque County	19.96 %	$ 311,763
Northeast Iowa Community College	2.75 %	$ 42,953
Sunnycrest Manor County Hospital	1.89 %	$ 29,521
Dubuque Agricultural Extension	0.41 %	$ 6,404
Dubuque City Assessor	0.98 %	$ 15,307
Total	100.00 %	$ 1,561,937

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2026.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 226,916
City of Dubuque	36.26 %	$ 217,960
Dubuque County	19.96 %	$ 119,980
Northeast Iowa Community College	2.75 %	$ 16,530
Sunnycrest Manor County Hospital	1.89 %	$ 11,361
Dubuque Agricultural Extension	0.41 %	$ 2,465
Dubuque City Assessor	0.98 %	$ 5,891
Total	100.00 %	$ 601,103

South Pointe Housing TIF District
In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2031 due to a three year extension.

Rustic Point Housing TIF District
In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2028.

N Grandview Housing TIF District
In FY 2021, the City created a housing TIF district in the North Grandview subdivision off of North Grandview Avenue. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in 2033.

MISCELLANEOUS SOURCES

Private Participation (1.10% of Total CIP)
Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance ($467,157); Street Lighting and Traffic Signal Knockdown insurance reimbursements ($50,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project ($1,000,000); Milling sales from the Asphalt Milling Program ($375,000); Private Marina Companies contribution for Harbor Area Maintenance Dredging ($200,000); Jeffris Family Foundation contribution for the restoration of Eagle Point Park structures ($1,852,354); and IDOT reimbursement for the Pavement Marking program ($125,000).

Special Assessments (0.08% of Total CIP)
Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The $285,000 amount breaks down: (a) $250,000 for sidewalk lien special assessments, and (b) $35,000 for green alleys (non Bee Branch) special assessments.

PROJECT DESCRIPTION/JUSTIFICATION

Dubuque Law Enforcement Center (DLEC) Upgrades and Maintenance: Dubuque County Sheriff Joe Kennedy is advising the DLEC will need some major maintenance upgrades in FY27. The DLEC Memorandum of Understanding (MOU) states the City will pay for 29.3% of major projects. The HVAC system is failing and is using technology from the original 1970's build. Total cost of this project is estimated at $600,000 with the City's contribution being $176,000. Additionally, the carpet in the 855 Central building is 20 years old and worn out. This is shared space with the County. The City's contribution to this is $13,200. The County is going to a Countywide door card reader system which will match the City's door card reader system. The City's contribution to this is $19,100. This CIP represents only the City's portion of the funding.

The total cost to the City is $208,300:

- $176,000 HVAC Upgrades
- $13,200 Carpet
- $19,100 Card Reader System

RELATIONSHIP TO OTHER PROJECTS

This is not related to any other Capital Improvement Projects

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%)

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds updates to restore the Fire Department's six stations—each over 50 years old—to a preventative maintenance-level condition. While the operating budget covers routine upkeep, this CIP addresses deferred repairs and upgrades needed to bring the facilities back to a sustainable standard. The project will include a station condition assessment which will complement the annual safety inspection reporting to establish priority projects and group high level maintenance projects for increased efficiency in project management and funding.

Notable progress at Stations 4 and 6 has brought them close to maintenance-level condition. The department will now focus on the remaining four stations, using lessons learned to address critical needs and prioritize projects for maximum impact.

Annual fire station condition and safety inspections guide funding decisions by identifying deficiencies and prioritizing updates. Projects include window and door replacements, garage door repairs, flooring, siding, painting, trim, caulking, tuckpointing, landscaping, driveways or sidewalks, kitchen and bathroom upgrades, office furniture, and workspace improvements.

This work aligns with the Fire Department's strategic plan, supporting operational readiness, resiliency, workforce retention, health and safety, job satisfaction, and pride. Once all facilities reach preventative maintenance-level status, the CIP will be scaled back or closed.

Allocating an average of $16,000 per building for these targeted updates prevents further deterioration and ensures the department's facilities remain safe, efficient, and ready to support emergency operations for years to come.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION

This project seeks to continue a multi-year effort to maintain and enhance the City of Dubuque's 17-unit outdoor warning siren system. Now in its fourth year, the program focuses on extending the service life of critical components and ensuring reliable outdoor warning coverage for the community. Maintaining this system is essential to supporting public safety and keeping residents informed during emergencies.

Completed work includes replacing siren modules, wiring, and backup batteries; upgrading electrical and control components; improving cabinet enclosures; and refining maintenance and testing procedures. As part of the program, any usable components that have been replaced have been inventoried, refurbished, and stored to establish a cache of spare parts for the older siren systems, improving the ability to complete emergency repairs quickly and cost-effectively until all are upgraded.

Future efforts will continue modernizing the system, expanding the spare-parts inventory, upgrading cabinets, and evaluating siren locations to confirm optimal coverage across the city. This ongoing investment ensures the outdoor warning network remains dependable, sustainable, and capable of supporting public safety for years to come.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

The Dubuque Fire Department (DFD) is requesting funding to move from data analysis to implementation of a fire station location/ re-location plan. Specifically, this CIP requests funding to engage a specialized fire station planning and construction expert in FY2027, secure or hold strategic parcels of land for future stations in FY2028, and begin architecture, engineering, construction procurement, and technology updates with this firm (if continuation is confirmed) in FY2029.

Over the past several years, the City of Dubuque has invested in a series of studies to evaluate fire station locations, coverage areas, response data and community growth trends including the 2006 Matrix Fire Station Location Study, Darkhorse Software analysis, City Planning and Development data, 2018 Annexation Study growth projections, and the Imagine Dubuque Master Plan. These analyses confirm that strategically located stations and modernized infrastructure are essential to maintaining fast, balanced, and reliable emergency services as the community grows and the City of Dubuque is in a position to confirm the information and data by moving into the implementation phase. Specifically by contracting with an expert station location, feasibility, project management, architecture, construction company. Moving from evaluation to implementation ensures that Dubuque is prepared to address future needs, preserve response times, and enhance community safety.

This project funds the identification and contracting of a station location, design, and construction expert in FY2027 to confirm data analysis to location study exercises, guide feasibility, site selection, design, and construction. The expert resource will confirm data, validate site and station needs, and ensure all planning follows national best practices and process and manage all aspects of the fire station(s) location/ construction project. The project will also fund the acquisition or holding of strategic parcels of land for future fire station(s); advance architecture, engineering, and construction procurement; and support critical technology updates including CAD, mapping, and GIS to reflect future coverage areas. Staffing models will be reassessed one year before any new or relocated station opens to ensure adequate personnel and apparatus are in place.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY 2007	TOTAL PROJECT COST
13 - Fire	1C - Public Safety	Fire Station Expansion/Relocation	PROJECT NO: 1315000005	$ 8,791,700

PROJECT DESCRIPTION/JUSTIFICATION (continued)

Currently, the DFD operates six stations balanced across the city and responds to about 8,000 incidents annually, deploying 18,500 fire vehicle units roughly 25 daily incidents requiring 58 vehicle responses. Our current average response time for all emergency incidents is 7 minutes and 49 seconds, compared to our goal of 6 minutes for EMS calls and 6 minutes 20 seconds for fire incidents (which allows for additional time to don protective gear). Maintaining and improving these response times, reducing property loss, and saving lives remain at the core of our Strategic Plan and Standard of Cover documents and this station location CIP request.

By moving forward with this CIP initiative, the City will ensure the long-term ability to maintain and improve response times, safeguard quality of life, and uphold Dubuque's reputation for reliable, balanced public safety services. This approach provides a clear roadmap: confirm and engage expertise in FY2027, secure land and design by FY2028, and target construction completion and operational readiness in FY2030. The project will strengthen resiliency, ensure modern and sustainable fire stations, and position the DFD to meet the community's growing needs well into the future.

This project will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA Distribution/Gaming**, or by increasing property taxes through a referendum vote or reverse referendum.**

PROJECT ADDRESS/SERVICE AREA

Fire Station coverage area will include all areas from John F Kennedy RD./Cedar Cross RD. & Kelly Lane West and South to City Limits.

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of fire engine 1907 in accordance with the department's established 20-year service-life schedule for pumpers. The program ensures safe, reliable, and mission-ready apparatus while minimizing long-term maintenance costs.

The scheduled replacement involves the department's 2007 Simon rescue pumper (Vehicle 1907), which has served 17 years in front-line service and 3 years in reserve. After a comprehensive evaluation, the vehicle was recommended for replacement to maintain reliability and operational readiness. This replacement was approved for CIP funding in Fiscal Year 2027, with authorization to pre-pay in Fiscal Year 2026. Pre-payment secures the build slot, accommodates the extended 18–24-month build time, and achieves an estimated $90,000 cost reduction compared to future pricing.

The requested funding reflects the pre-payment adjustment that occurred in FY2026 while maintaining $20,000 in contingency funds to cover potential change orders, modifications, upfitting, and other costs related to final delivery and commissioning. This approach ensures timely, cost-effective procurement and a reliable fleet to meet the community's emergency response needs. Pre-payment vehicle cost was $845,060.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

Entire City as fire department fleet replacements

$ —	$ —	TOTAL	$ 500,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of an ambulance in accordance with the department's established 10–12-year service-life schedule. The program is designed to ensure safe, reliable, and mission-ready ambulances while minimizing long-term maintenance costs and keeping pace with changing industry standards.

The ambulance slated for replacement is the department's 2016 AEV Ambulance (Vehicle 1914), which has served eight years in front-line service and an additional two years in reserve. Following a comprehensive evaluation, the vehicle was recommended for replacement to maintain reliability and operational readiness.

The replacement ambulance will also include a new power cot and load system as these components approach their end of service life. By integrating these systems into the build process, vendors can install and validate them during construction, reducing in-service time and eliminating multiple post-delivery steps. The department intends to continue incorporating these major systems into future replacement CIPs to improve efficiency and ensure consistency across the fleet.

The current environment for ordering and building ambulances has changed significantly in recent years. Build times now extend to at least 18 months, and vendors frequently implement multiple price increases annually. These conditions make budgeting and delivery prediction more difficult. Identifying vehicles scheduled for replacement and obtaining approval from Vehicle Services in advance allows the department to order in a staggered manner, preventing large spikes in replacement requests and costs.

$ —	$ 950,000	TOTAL	$ —	$ 20,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of fire engine 1905 in accordance with the department's established 20-year service-life schedule for pumpers. The program ensures safe, reliable, and mission-ready apparatus while minimizing long-term maintenance costs.

The scheduled replacement involves the department's 2008 Simon rescue pumper (Vehicle 1905), which has served 17 years in front-line service and three years in reserve. After a comprehensive evaluation, the vehicle was recommended for replacement to maintain reliability and operational readiness. This replacement is approved for CIP funding in Fiscal Year 2028, with authorization to pre-pay in Fiscal Year 2027. Pre-payment secures the build slot, accommodates the extended 18–24-month build time, and achieves an estimated cost reduction compared to future pricing.

Both the FY2027 (1907) and FY2028 (1905) engine replacements were purchased and funded together in FY2026 to maximize pre-payment savings and secure production slots. Because of extended build timelines, the exact delivery date will be finalized later in the process, but current expectations are for delivery in FY2028.

The requested funding reflects the pre-payment adjustment while maintaining $20,000 in contingency funds to cover potential change orders, modifications, upfitting, and other costs related to final delivery and commissioning. This approach ensures timely, cost-effective procurement and a reliable fleet to meet the community's emergency response needs.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

Entire City as fire department fleet replacements

DEPARTMENT: 13 - Fire		STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: Portable Radio Replacements			YEAR FIRST SUBMITTED: FY 2025 PROJECT NO: 1315000033		TOTAL PROJECT COST $ 929,571

$ 1,741	$ 437,830	TOTAL	$ 490,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) supports the phased replacement of the City's inventory of portable radios. The Fire Department has successfully completed its portion of the project across Fiscal Years 2025 and 2026, replacing its full inventory of end-of-service-life portable radios. This included all portable radios assigned to fire response vehicles, staff officers, and reserve units to ensure operational readiness and consistent technology across the department.
With the Fire Department's portable radios now modernized, the project has transitioned to the Police Department and the Airport to replace their aging radios using the remaining allocated funds across Fiscal Years 2026 and 2027. This coordinated approach allows all first responders to maintain compatible, reliable communication equipment while absorbing costs over multiple years.
The project scope includes antennas, P25 trunking and Phase 2 features, over-the-air programming, chargers, belt clips, batteries, radios, speaker microphones, and standard programming. By updating these systems in a unified, phased approach, the City is ensuring that its public safety agencies remain equipped with current, interoperable communications technology.

$ —	$ —	TOTAL	$ —	$ —	$ —	$ —	$ 1,288,408	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of fire apparatus in accordance with the department's established 20-year service-life schedule for pumpers. The program is designed to ensure safe, reliable, and mission-ready apparatus while minimizing long-term maintenance costs.

This engine will replace the department's 2010 Simon rescue pumper (Vehicle 1910) in 2031. The vehicle will have served 17 years in front-line capacity and another three years in reserve at the time of replacement. Due to extended lead times, the purchasing process now requires orders to be placed before the vehicle is added to the manufacturer's build list and assigned a production number. This step is typically completed 18–36 months in advance and often spans multiple budget years.

The current environment for ordering and building fire apparatus has changed significantly in recent years. Departments can no longer order and receive delivery within 12 months; build times now range from 18–24 months and in some cases extend to 36–48 months. Vendors also implement multiple price increases each year, making it more challenging to budget and predict delivery costs. To address this, the department identifies vehicles scheduled for replacement and seeks approval from Vehicle Services in advance, allowing for staggered orders to prevent large spikes in replacement requests and expenditures.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 635,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of an ambulance in accordance with the department's established 10–12-year service-life schedule. The program is designed to ensure safe, reliable, and mission-ready ambulances while minimizing long-term maintenance costs.

This ambulance will replace the department's 2017 Dodge Ram AEV Ambulance (Vehicle 1915), which will have served eight years in front-line capacity and an additional two to six years in reserve by the time of replacement. This strategy maintains a reliable and modern ambulance fleet capable of meeting the community's emergency medical needs while controlling costs and reducing downtime.

The replacement ambulance will also include a new power cot and load system as these components approach their end of service life. By integrating these systems into the build process, vendors can install and validate them during construction, reducing in-service time and eliminating multiple post-delivery steps. The department intends to continue incorporating these major systems into future replacement CIPs to improve efficiency and ensure consistency across the fleet.

The current environment for ordering and building apparatus has changed significantly in recent years. Departments can no longer order and receive delivery within 12 months; build times for ambulances are now at least 18 months. Vendors also implement multiple price increases each year, creating challenges for budgeting and predicting delivery costs. To address this, the department identifies vehicles scheduled for replacement and secures approvals from Vehicle Services in advance, allowing for staggered orders and preventing large spikes in replacement requests and expenditures.

$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) requests funding to install comprehensive heating, ventilation, and air conditioning (HVAC) systems at Fire Station 5 and Fire Station 6. Currently, neither building is equipped with a centralized HVAC system, and personnel must rely on window-mounted air conditioning units to maintain tolerable conditions within the stations, including dormitory areas. This approach limits climate control, energy efficiency, and indoor air quality, affecting both the comfort and health of on-duty personnel and the longevity of the facilities.

The Department has a unique opportunity to leverage existing HVAC components already in its possession. These components were purchased during emergency repairs at Fire Headquarters and include compressors that are only two years old with many years of useful service life remaining. By integrating these components into the new systems for Stations 5 and 6, the City can reduce costs while upgrading both stations to modern HVAC standards.

Additionally, this project provides the chance to coordinate with the upcoming station bunk room improvements. Installing the appropriate ductwork and system infrastructure now will ensure seamless integration with the bunk room project, minimize future disruptions, and optimize both projects for cost-effectiveness and efficiency.

When complete, both Fire Station 5 and Fire Station 6 will feature modern, reliable HVAC systems that enhance energy efficiency, improve indoor air quality, and provide a safer, more comfortable environment for fire department personnel. This proactive investment addresses long-standing facility gaps while maximizing available resources and aligning with ongoing station upgrades.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the repair and improvement of neighborhood parks located in the low/moderate income areas. These improvements would include the addition of safety elements (lighting, fencing, shelter, cameras, etc), address accessibility issues (pathways, non-compliant play features, parking, water, etc.) and the replacement/repair of play amenities that are well beyond their lifecycle. Many of these park spaces are utilized by the department for neighborhood programs. These programs provide safe places and spaces for youth in our community to learn throughout the summer months as well as develop relationships with their peers and City staff. These programs range in time from a couple of hours to full-day activity/supervision. In addition, many of these programs offer 2 free meals per day. Parks with play structures in poor condition or a lack of amenities typically have little to no participants. The result is the need to move City staffing resources to parks with greater participation and need. Parks without suitable shelter are cancelled due to rain. Other than not having that fun place to go, another result of this cancellation is that meals will not be distributed to participants on those days. Investing in these park spaces would encourage participation in programs and promote passive recreation by neighborhood individuals increasing interaction amongst community members and decreasing the opportunity for negative activity within these park spaces.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the planning and grant writing consultant services related to environmental restoration of the Heron Pond and King Rail Woods identified projects outlined in the Chaplain Schmitt Island Development Plan. A certified arborist would identify higher quality trees to remain, removal of invasive species and weedy species with replanting of native, drought and flood tolerant species as examples of work to be planned and permitted as necessary. This planning would allow for shovel ready projects that can be applied for REAP grants. The state grant is yet to be approved and recieved.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for replacing water lines throughout Eagle Point Park. The water system at Eagle Point park is failing. The galvanized piping in the system has begun to fail and there are numerous leaks throughout the park. Replacement of these lines is necessary to not only conserve water but to keep the correct water pressure within the system. A small portion (phase 1) of the water lines were replaced in FY19 with savings from two capital projects and use of other current capital projects related to Eagle Point Park. The remaining phases need to be completed. Funding was approved in FY2025 but later removed.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to hire a consultant to create a master plan for Eagle Point Park. The Park and Recreation Comprehensive Master Plan recommends a separate master plan be created for Eagle Point Park. The master plan would provide for recommendations related to the maintenance and upkeep of the many different amenities the park offers. Short, mid and long term recommendations would provide a road map for operating and capital funding purposes.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for additional funding for the Jackson Park restroom building. $250,000 in funding was approved in FY2020 for the construction of the restroom building. Initial design was completed and approved by the Planning Department and the Parks and Recreation Commission. Due to Covid-19, the project was put on hold. Estimates for the restroom building in January of 2025 was $330,000 not including the installation of the utilities needed for the project . This project has been a City Council Goal and Priority and needs to be completed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Jackson Park Restrooms # 3043000025.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by G.O. Debt(GDTIF)

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacing water lines in Murphy Park. The water system at Murphy Park needs to be updated and replaced. There are areas where new backflow devices need to be installed and water lines replaced. A consultant will be hired to streamline the water system configuration and make recommendations for costs related to upgrades and water line replacement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project is restricted to Water Construction Fund, Sales Tax Fund (20%) and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. This would be used on the current facility at its current footprint in its current state. The building is in need of numerous upgrades including roof replacement, HVAC equipment systems and controls, upgrades to concession stands and seating, upgrades to building technology, and more. All projects listed have been submitted previously as individual projects with the oldest continuously submitted in the budget process since 2003 and the majority have been submitted and cut from the budget for 20 years. Civic Center opened its doors in 1979, alongside the restored Theater with $3.7 million bond. Additional upgrades and renovations were completed in 2005 for just over $2.0 million. Now that the city will be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, the CIP has been reduced from previous allocation of approximately $24 million.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The current marquee is beyond the life expectancy of 7-9 years and has been in need of many repairs the last year. Light panels continue to go out. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to hire a parks and recreation consulting firm to develop a community center master plan for the department. As referenced in the Council adopted Parks & Recreation Comprehensive Master Plan, there is a strong need for expanded programming and passive indoor recreation. Currently the department does not have nor manages a large community indoor space. In order to meet these needs, the plan recommends the addition of a community recreation center(s). This study would focus on community engagement around the development of a center(s), what programs and services would meet the most needs of the community, potential location, design and cost elements based on this feedback as well as how such a facility could be funded for construction followed by operation.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME

$ 11,232	$ —	TOTAL	$ 30,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for construction of asphalt cart paths on areas heavily used by motorized carts. With the increasing use of golf carts, several sections of the golf course, particularly the grass areas, are being damaged. As a result of the grass being destroyed, erosion takes place causing an increase in maintenance expense. Asphalt paths enable the City to regulate usage of carts on the golf course and reduce maintenance costs. Phasing the project as proposed will allow the areas of greatest need to be constructed each year. The paths constructed in previous fiscal years greatly improved both the appearance and ability to maintain those areas. Repair of existing cart paths as needed is also included in this project.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the removal of over 20 trees located within the field of play at the Bunker Hill Golf Course. There are currently 24 trees throughout the golf course which have been identified by the Departments Urban Forester as either a safety hazard and/or potential detriment to the golf course itself. Due to the location and size of the many of these trees, the department will have to contract with a local tree service for their removal. This project is also in partnership with Dubuque Trees Forever who have committed to $5,000 in replacement trees over the next 3 years.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Golf Fees, and DRA funding.

$ —	$ —	TOTAL	$ 30,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the removal of the planter box, resurfacing of cart area and foundation leak repair as the final phase to complete the basement moisture issues. As a last phase for the basement leak project, this would address the significant crack and subsequent leak located in the golf storage section of the basement at Bunker Hill. During the foundation repair and remediation project for the other side of the facility, the inoperable large walk-in coolers were removed in the basement revealing a significant crack in the foundation. During heavy rains, water is funneled near a planter box behind the building directing water along the building foundation where this crack exists. Removing the planter box, fixing the foundation crack and resurfacing the cart area, will solve this water leak issue for this space making it more usable as a storage area for the golf operation.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for planned preventative maintenance for Sutton pool. These projects are prioritized based on: 1. Safety 2. Operations 3. Process Improvement/Efficiencies 4. Aesthetics. This project services safety, operations and aesthetics and is for the Pool Tank resurfacing for Sutton Pool. Resurfacing the tank includes the removal and replacement of joint caulk reducing water loss and risk of injury due to separation in expansion joints. Also, maintaining clear visual markers as park of the painting process (for example: depth lines for lifeguards and depth makers for patrons) helps to prevent water incidents from occurring as well as provide clear communication markers during active save events.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%) and DRA funding.

PROJECT ADDRESS/SERVICE AREA
2525 Green St. & 1900 Hawthorne St

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the traditional maintenance for both the Flora and Sutton pools. Projects are prioritized based by: 1. Safety 2. Operations 3. Process Improvement/Efficiencies 4. Aesthetics. This project services operational needs and is for a Leak Repair from underground pipe in Flora water playground (estimated $30,000). Fixing this leak will not only reduce the amount of significant daily water loss, but will also reduce the amount/level of chemical treatment needed to maintain safe/healthy water levels.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%) and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the renovation of the fuel, data, and electrical systems located under the docks at the Port of Dubuque Marina. Located under the decking of the marina docks is a network of flexible fuel lines, plastic conduit containing the electrical systems to monitor and operate the fuel dock systems as well as the data. The docks were built to rise and lower along with the river. However, over the years the movement along with the natural wet environment, these lines have begun to show significant signs of wear. There are several cracked and even separated sections of conduit and PVC. Electrical and data lines have been chewed by animals and there are water/sewage gas leaks along the mains coming down the gangways. Many, if not all of the current issues could eventually cause the marina to need to shut down due to operational failures or potential environmental violations in the case of a major fuel or sewer malfunction. This project will take a more proactive approach to modernize the systems under the surface to ensure another 10 to 15 years of clean operation.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

$ —	$ —	TOTAL	$ 30,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This package provides funding to replace the outdated network switches for the gas dock facility at the Port of Dubuque Marina. Since the marina project was originally constructed by the City with the intent for an outside contractor to run all operations, several of the systems were put in place separate of the City's internal network. For this reason, the current network switches at the Marina are not included as part of the IT Departments replacement schedule. However, per the City's IT Department, the network switches currently at the gas dock are obsolete and need to be replaced to keep in line with City's network system. For that reason, this funding request is separate of the IT departments FY27 replacement CIP.

RELATIONSHIP TO OTHER PROJECTS

This project is related to other network switch upgrade projects throughout the City

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for a dishwasher and water softener replacement as they are original to the venue and are past industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Repairs are becoming very costly and the repair company has warned there is quickly coming a time that they cannot fix this old dishwasher anymore. If this happens the kitchen facility would be at a shutdown. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements and replacement of the dishwasher is critical to operations.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for a consultant to evaluate the current HVAC system, software, and controllers as well as consider retrocommissioning of systems. This would be done at the same time that Five Flags is doing the same work to determine the status of the current systems and if there is any synergies of the same systems at both Grand River Center and Five Flags. The current system's vendor has shared the need for numerous updates in software and equipment to the system and the controllers. Items like replacement of the HVAC master controller would allow the staff to efficiently control and manage the entire HVAC system, optimizing building temperature and reducing energy consumption. The current system is original to the building, outdated, and difficult to service. Due to the unique, integrated design of the HVAC control system, further upgrades to ancillary controllers throughout the building is anticipated and can be addressed during this evaluation. The findings of this evaluation will allow accurate and appropriate budgeting in future years.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Five Flags renovation project.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 155,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the fire alarm panel in the Grand River Center. The current fire alarm system is original to the building and is over 20 years old. The alarm system components are outdated and no longer manufactured, making repairs increasingly difficult. This upgrade is essential to align with modern standards and ensure the safety and security of the guests.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

$ —	$ —	TOTAL	$ —	$ 65,000	$ 212,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of a connection of 20" transmission water mains on East 8th Street connection between Jackson Street (Millwork District Project 2011) and Central Avenue (Dubuque Police Building Expansion Central Avenue 2001). The project includes approximately 380 feet of 20" water main and replaces aging, smaller 6" and 12" parallel mains in this area. Connecting the transmission mains enhances the availability of water supply through the downtown area from the Eagle Point Water Treatment Plant west to the higher pressure zones.

This project is adjacent to the proposed White Street City Parking Ramp which would include the replacement of the water main in the alley east of Central Avenue between 8th and 9th Streets that ties in to this 20" transmission water main.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

$ —	$ —	TOTAL	$ —	$ 555,000	$ 555,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for water main replacement as a part of the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) overall project. The purpose of the overall project is to increase the capacity of the storm sewer from the Lower Bee Branch Creek up 17th Street to West Locust Street. A larger storm sewer and additional high-capacity storm drains will help alleviate the flash flooding frequently experienced on these streets. This funding request is for the water portion of the full reconstruction from the end of Phase 3, Heeb Street completed in 2021, to Kirkwood Street.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary Sewer, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Roadway projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

W 17th St/Locust St (from Heeb St to Kirkwood St)

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 686,400	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of a water main extension along Admiral Sheehy Drive. This project includes approximately 2,860 feet of 8" water main. The water main will create a looped system by adding water main around the south half the Chaplain Schmitt Island, supporting improved reliability and service.

This project is a component of the 2024 Chaplain Schmitt Island Development Plan. The island's water supply comes through one water main connection (12") along the E 16th St bridge. Water main does not circumnavigate the entire island. To ensure a sound, fully functioning system, a backup/redundant network of water main that circumnavigates the island is needed. It will allow water service to continue on the island while repairs or maintenance are completed at one section.

RELATIONSHIP TO OTHER PROJECTS
This project is part of the 2024 Chaplin Schmitt Island Development plan along with the Greyhound Park Rd Water Main Loop and the Hamilton St Water Main Extension to City Island

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Establish Chaplain Schmitt Island as a community and tourism destination with a variety of activity venues and experiences for residents and guests.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of installing a booster pump station along Central Avenue and connecting from existing water main in Pressure Zone 1 to Pressure Zone 2 via the proposed water main installed in the Central Avenue Water Main Extension (Pressure Zone 2 and 5 Connection) Project.

The Roosevelt Street Water Tower project (completed 2022) was designed to provide effective storage for both Pressure Zones 2 and 3 once future distribution improvements were complete. This project provides for the construction of a connection between Pressure Zone 1 and Pressure Zone 2 to allow water to fill the Roosevelt Street Water Tower from a second supply location, as recommended by the Iowa DNR and as stated in the SRF funding commitment letter for the Roosevelt Street Water Tower construction project. The related project of Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection) must be completed prior to this project. Another related project to complete the pressure zone connection is the Water Main Extension Olympic Heights (Pressure Zone 3 and 5 Connection) Project, which will allow full benefits of the Roosevelt Water Tower and this Central Avenue Booster Pump Station.

RELATIONSHIP TO OTHER PROJECTS

This project is related to City-Wide Distribution System Improvements project. Design is being completed under CIP 4281000034.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded by SRF Funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project involves upgrades to water utility infrastructure in coordination with the Central Avenue and White Street traffic study implementation. Funding will be used to replace aging infrastructure located beneath the roadway surfaces, preventing the need to excavate newly improved surfaces in the future for emergency repairs. In FY27 & 28, work will take place on Central Avenue and White Street from 14th to 17th Streets, including the replacement of six valves and associated fittings that are beyond their expected service life, as well as two lead service lines. In FY29, the project will continue from 17th to 20th Streets with the replacement of fifteen lead service lines. FY30 includes the potential relocation of four fire hydrants along the bike path on the west side of White Street. In FY31, five lead service lines will be replaced between 20th and 22nd Streets. FY32 may involve relocating three fire hydrants at the intersections of Central Avenue and White Street at 13th and 14th Streets. FY33 will address the Central Ave and White St from 4th to 14th Streets, with the scope of work to be determined.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Central White Traffic Study Implementation Plan

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of extending water main along Central Avenue (from Olympic Heights Rd to S John Deere Rd) and S John Deere Rd (from Central Ave to Tanzanite Dr) to connect the Olympic Heights Subdivision to the Pressure Zone 2. The water main extension is approximately 5,300 feet.

The Roosevelt Street Water Tower project (completed 2022) was designed to provide effective storage for both Pressure Zones 2 and 3 once future distribution improvements were complete. This project provides for the construction of a connection between Pressure Zone 5 (Olympic Heights Subdivision) and Pressure Zone 2 to effectively connect the two zones, as recommended by the Iowa DNR and as stated in the SRF funding commitment letter for the Roosevelt Street Water Tower construction project. A related projects to complete the pressure zone connection is the Olympic Heights Water Main Extension (Pressure Zone 3 and 5 Connection) Project, which will allow full benefits of the Roosevelt Water Tower. A related project to complete the Central Ave Booster Pump Station (Pressure Zone 1 and 2 Connection) will allow an additional method to supply water from Pressure Zone 1 to Pressure Zones 2, 3, and 5.

This project will impact operating costs with the removal of Olympic Heights Booster Pump Station. This project optimizes the full benefits of the Roosevelt Water Tower.

RELATIONSHIP TO OTHER PROJECTS
This project is related to City-Wide Distribution System Improvements project. Design is being completed under CIP 4281000034.

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY 2027 PROJECT NO:	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the Water Distribution system combination pressure reducing & pressure sustaining valves, Pressure relief valves, Altitude valves, Modulating altitude valves, Check valves - flapper type, Swing flex check valve w/ backflow actuator and Electric check valves. These specialty valves require annual maintenance. Dorner Company of Sussex, WI has staff that are trained and certified in these specialty valves along with their Link2Valves maintenance management program. This CIP is to contract with Dorner Company for a two year period for valve cataloging, inspection, functionality, confirm stroke, clean, replace miscellaneous small fittings-if needed, and provide service report with repair suggestions. Cost is $3,500 a day cataloged, inspected, and tested. Additional parts used during repairs are estimated to be between $3,000 to $10,000 per valve depending on size and condition. Currently there are 21 specialty valves in the system and they estimate this taking three days to catalog/inspect.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

All water customers served by City water.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the protection of water mains located across and through drainage-ways and creeks. During past storm events, the water main creek crossing protection or erosion control has washed away, exposing lengths of the water distribution system. This project provides for the necessary restoration of the water main protection in and around creek crossings to prevent further exposure of the water mains. There are fifteen locations identified in need of improvements. Funding was provided in FY23 that allowed design of four critical locations with one location (Radford Rd) currently under construction to be complete in FY26. The FY27 funding represents construction of the remaining three sites designed: Seippel Rd, NW Arterial (West), and NW Arterial (East). FY31 represents design and construction of improvements at the other identified locations: Carter (950 ft south of 32nd St), Carter (at 32nd St), Cousins Rd, Fremont Ave, Louella Ln, Old Mill Rd, Pennsylvania Ave, Rockdale Rd (at Brian), Samantha Dr (at Holliday Dr), Southern Ave, and 32nd St (at Ski Slope).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

$ —	$ —	TOTAL	$ 200,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the development of a Water Distribution System Master Plan. Building on the Eagle Point Water Plant Condition Assessment, the master plan will provide both short- and long-term capital improvement planning for the City's water storage and distribution system, while also serving as a tool for interdepartmental coordination on projects and financing.

The master plan will include:

* An overview of the current distribution system, with analysis of storage and pumping capacity based on existing and projected water demands.
* A review of the hydraulic model to identify and evaluate deficiencies under both current and future conditions.
* Capital improvement recommendations with cost estimates and implementation timelines, categorized into short-term (0–5 years), medium-term (6–15 years), and long-term (16–25 years).
*Strategies to address key system challenges, including:
    *Reducing the costly process of pumping and re-pumping water between zones.
    *Addressing storage deficiencies throughout the system.
    *Developing a plan to replace or upgrade aging distribution facilities.
    *Identifying capacity constraints in planned growth areas.
    *Determining the optimal pressure zones to serve future service areas.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the new CIP-DMZ(District Metered Zone)

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of installing two regulatory monitoring/flushing stations in the distribution system. The 2025 Iowa Department of Natural Resources Sanitary Survey recommends pulling chlorine readings for all nine pressure zones. The flushing portion of the station will provide a site for water quality enhancement through chlorine residual testing, pressure monitoring, and conductivity that will be reported to the water treatment SCADA system.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Pressure zone 5 Olympic Hts, Pressure zone 8 Cottingham Rd.

$ —	$ —	TOTAL	$ 180,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides the funding to build a pilot District Metered Zone (DMZ) in the second pressure zone. The distribution flow meters will be compared to billing meters in the defined area to quantify the nonrevenue water loss in the area. Flow meters will be installed and connected to the Water SCADA system via fiber optic network. The information will be compared to the master flow meter filling the Roosevelt water tower and billing meters to pin point areas of water loss to focus distribution repairs to assist in the reduction of non-revenue water. This program will also lay the template for using the Distribution System Master Plan to map out future areas of town to isolate into DMZs allowing the tracking of non-revenue water and its elimination. The systematic quantification of water in the DMZ may also be used by the Engineering Department in their efforts to track excess sanitary flows via sanitary sewer flow metering.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Water Distribution Master Plan.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Multiple locations in the second pressure zone.

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the water construction funds in support of the City's efforts implement an enterprise asset management system through use of a computerized maintenance management system (CMMS). Enterprise asset management combines software, systems and services, and system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Sanitary, Enterprise Asset Management System Software - Water, Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Fiber

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for fire hydrant assemblies to be relocated/replaced as needed related to the City's sidewalk and curb ramp inspection and replacement program. Replacement of sidewalks, particularly those abutting the curb line at an intersection, will require the installation of curb ramps, typically fire hydrants are also located behind the curb line at an intersection and often conflict with the location where curb ramps will be located or replaced. It is anticipated in future years this program will increase with the installation of curb ramps with detectable warnings required by the Americans with Disabilities Act (ADA).

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Curb and Catch Basin Replacement Program CIP (5521000002), Sidewalk City Owned (CIP 5521000010), and Sidewalk Inspection Program (CIP 5521000006).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides fire hydrant assemblies and associated piping leading up to hydrants being relocated, replaced and installed for damaged hydrants, Water Department projects, asphalt overlay projects, replacements due to normal wear and tear, and ISO compliance. The typical number needed per year is 30, with fire hydrant life expectancy of 30 years. Hydrant cost typically increases by 10 percent each year. This was always part of the operating budget, but due to auditor guidance in FY 2025, this type of expense should now be part of the capital budget.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the installation of permanent auxiliary power emergency generators at two booster pump stations sites (Park Hill and Mt. Carmel) which do not currently have auxiliary power supplies. While there are back-up pumping facilities in each of the Pressure Zones where these stations are located, it is recommended that each station have a dedicated emergency power supply. The United States Environmental Protection Agency states that "Power loss can have devastating impacts on drinking water and wastewater utilities and the communities they serve." Funding includes relocating an existing emergency generator from the Vernon Water Tower site to the Mt. Carmel Booster Pump Station and installing a new emergency generator at the Park Hill Booster Pump Station.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for water main replacement as a part of the Sanitary Sewer Consent Decree project, which involves the reconstruction of approximately 400 LF 8-inch diameter vitrified clay sanitary sewer along Grove Terrace (from W 11th St to Wilbur St). The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan. This project shall be coordinated with storm sewer and water main improvements. The 8-inch diameter vitrified clay sanitary sewer was installed in the early 1900's and has deteriorated to the point that reconstruction is necessary. In addition, property owners have indicated their laterals need to be replaced and in some locations laterals need to be separated to ensure uninterrupted service and reduce the risk of back up.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Engineering CIP for Grove Terrace Sanitary Sewer Reconstruction (Consent Decree)

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

$ —	$ —	TOTAL	$ —	$ 140,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for water main replacement as part of the Sanitary Sewer Consent Decree project, which involves the reconstruction of approximately 400 linear feet (existing alignment) of 6-inch diameter vitrified clay sanitary sewer on Harvard Street (from Alta Vista St to Oxford St). The existing sewer has been identified as a source of inflow and infiltration with multiple offset joints and pipe fractures showing the pipe is in need of rehabilitation or replacement. Rehabilitated using trench-less methods is not an option due to the challenges associated with reinstating services on small diameter line; and is scheduled for removal and replacement with a larger diameter sewer to improve operation and future maintenance. The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS
This project is related to Engineering CIP for Harvard St Sanitary Sewer Reconstruction (Consent Decree).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Harvard Street (from Alta Vista St to Oxford St)

$ —	$ —	TOTAL	$ —	$ 320,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for water main replacement as part of the Sanitary Sewer Consent Decree project, which provides for the reconstruction of approximately 1,000 feet (existing alignment) of 8-inch diameter vitrified clay sanitary sewer on Hempstead Street (from Kaufmann Str to Lowell St). The existing clay tile sewer that was installed in 1924 has deteriorated to the extent that cracks and sags in the pipe result in poor performance. The sags and cracks require increased maintenance of the pipe and allow the inflow of extraneous groundwater into the sanitary sewer system. The current alignment places the sanitary sewer close to private property such that realignment of the sewer may be warranted. The sewer is located in Consent Decree Sanitary Sewershed 7 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Engineering CIP for Hempstead St Sanitary Sewer Reconstruction (Consent Decree)

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of water main replacement on Highway 20/Dodge St (from Devon Dr to Concord St). The majority of the water main was installed in the 1939 era. As the highway improvements have been made, including widening, the water main is now located under or adjacent to the travel lanes in certain locations. Due to several recurrent water main breaks and the challenges associated with traffic control, it is necessary to replace this section of water main. The project includes approximately 2,250 ft of 10" water main.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may be funded with State Revolving Funds and Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Hwy 20/Dodge St between Devon Dr and Concord St.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for hydraulic modeling of the City of Dubuque's drinking water distribution system to support potential large water users considering development within the City. The City maintains a hydraulic model, housed and operated by Origin Design, which simulates current system capacities and identifies deficiencies to determine any infrastructure investments needed to ensure a reliable water supply for new customers.

Requests for capacity information are typically received from the Greater Dubuque Development Corporation and may be subject to strict timelines. The funding allocated for modeling enables staff to quickly obtain the critical information necessary to support potential development opportunities.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of making modifications to the 2001 JFK Tower constructed by Landmark Towers. The existing expansion joint is in a state of disrepair and in need of replacement. This project will retrofit the water tower with a new isolation valve and associated piping to make the process of replacing the joint a serviceable component moving forward with limited impact to city services.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
JFK Water Tower

$ 25,000	$ —	TOTAL	$ 35,000	$ —	$ —	$ 35,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project is to replace the existing Leak Detection Equipment. The equipment is scheduled for replacement every five years. One unit was replaced in FY25 and the second is due for replacement in FY27. The continued use of leak detection equipment results in significant savings due to reduced time detecting the leak and improved accuracy of location and overall construction costs.

RELATIONSHIP TO OTHER PROJECTS
This project does not relate to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
The Leak Detection Survey Project consists of monitoring all accessible hydrants and or valves with sensitive listening transducers/amplifier equipment, to determine if leakage is occurring. All areas where leakage is confirmed will be further investigated with the computerized correlator to pinpoint the location of each leak. A report will be submitted containing detailed drawings of all leaks located, the estimated leak sizes, and the savings resulting from the repair of the leaks. A Contractor will provide all equipment and personnel to accomplish this survey. This is a multi-year project with approximately 50% of the distribution system surveyed each year.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

Funding for this project provides for repair or relocation of existing water mains that may be impacted by repair work associated with retaining walls that are owned or are the responsibility of the City of Dubuque. It is necessary for the department to evaluate the water mains adjacent to or crossing retaining walls as they may need to be replaced, supported, or relocated during the retaining wall repair. Access to the water mains in these locations is often difficult and a condition assessment is completed as part of this project to determine if there is strain or issues with the water main. This ongoing program allows for maintenance, repair and reconstruction of the water main in coordination with Engineering.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Stone Retaining Wall Program (CIP #5524000003).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide remaining funds for the replacement of the roof at the Municipal Services Center. The facility was constructed and opened in 2005, and the expected life of a roof is 15-20 years and has experienced extensive leaking over the last 5 years. Replacing the roof will allow the building to function as designed and continue to protect millions of dollars in equipment and vehicles housed within. Partial funding was approved by Council and City Manager in FY2026. This is the Water Department's portion of the shared cost for roof replacement with Public Works.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works Department Municipal Services Roof project, the water department is responsible for a portion.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

The Municipal Services Center is located at 925 Kerper Court.

$ —	$ —	TOTAL	$ —	$ —	$ 617,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of extending water main from Pressure Zone 5 (at the south end of Olympic Heights Rd) to Pressure Zone 3 (near W 32nd Street or Up Hill Both Ways Rd). The water main extension is approximately 2,500 feet.

The Roosevelt Street Water Tower project (completed 2022) was designed to provide effective storage for both Pressure Zones 2 and 3 once future distribution improvements were complete. This project provides for the construction of a connection between Pressure Zone 5 (Olympic Heights Subdivision) and Pressure Zone 3 to effectively connect the two zones, as recommended by the Iowa DNR and as stated in the SRF funding commitment letter for the Roosevelt Street Water Tower construction project. A related project to complete the pressure zone connection is the Water Main Extension Central Ave (Pressure Zone 3 and 5 Connection) Project, which will allow full benefits of the Roosevelt Water Tower. A related project to complete the Booster Pump Station Central Ave (Pressure Zone 1 and 2 Connection) Project will allow an additional method to supply water from Pressure Zone 1 to Pressure Zones 2, 3, and 5.

RELATIONSHIP TO OTHER PROJECTS

This project is related to City-Wide Distribution System Improvements project. Design is being completed under CIP 4281000034.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded by SRF Funding.

PROJECT ADDRESS/SERVICE AREA

$ 28,467	$ 5,946,481	TOTAL	$ 1,050,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of the removal and replacement of private lead line service lines (LSLRs) using Bipartisan infrastructure Law (BIL) funding via United States Environmental Protection Agency (EPA) and the Iowa Department of Natural Resources (DNR). The project is being presented that the Iowa DNR is offering a tentative plan where Lead Service Line applicants would receive 49% loan forgiveness on costs related to LSLR projects within qualifying census tracts, i.e. Disadvantaged communities or neighborhoods. The plan also includes 0% interest on the remaining 51% SRF loan/borrowed amount. If a LSLR site is not located within a qualifying census tract, the 0% interest loan rate will still apply without the loan forgiveness.

This request is for local funds to supplement the previously budgeted Private Lead Line Replacement Program (CIP No. 4281000050) for Phases 2 and 3. The local funds will be used to pay for construction costs that are not eligible for the Iowa State Revolving Fund (SRF) Loan and Loan Forgiveness program that are primarily funding that project. It was determined in Phase 1 that certain indoor plumbing improvements at the building entrance are required by City Ordinance to be performed at the time of service line replacement. These improvements are not eligible costs within the Iowa SRF loan program. The estimated costs for these improvements for the approximately 350 service lines to be replaced as a part of phases 2 and 3 are included for FY27. Phases 2 and 3 of the project will not be able to be constructed until this funding is allocated.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of the removal and replacement of all lead line service lines (LSLs) within the City of Dubuque Water Distribution System. Per the requirements of the United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, all service lines must be removed from the system within a 10-year period, effective November 1, 2027. In the City of Dubuque, all service lines from corporation stop (at the main) to the meter are privately-owned with portions of the line in right-of-way and on private property.

This project will build upon the tools and experience gained in the Private Lead Line Replacement Program (CIP No. 4281000050), which was programmed to remove approximately 600 LSLs in 2025 and 2026. This project will be aimed at replacing the remaining approximately 3,900 total lines within the City's system. Under this project, an implementation plan will be developed in FY27, with a multi-year series of construction projects starting in FY28 and ending by FY37. The total cost of this LSLR project has been estimated at a value of approximately $60 million.

The implementation plan will address several facets of the program, including methods for financing, phasing, design, construction, program administration, ordinances, and communication. The project includes budgeting local funds and Iowa SRF loan funds to complete the implementation plan and then administer a program to construct the replacements. **While it is intended the city will take on the investment in term SRF debt, the property owner would be responsible to make the payments by assessing their property.**

To ensure compliance with the United States Environmental Protection Agency (USEPA) final Lead and Copper Rule Improvements (LCRI), and to achieve full-service line removal within the required 10-year timeframe, the current plan is to offer low-interest State Revolving Fund (SRF) loans to voluntary participants who enroll in the program. The City will budget $1,000,000 annually for the first four fiscal years, targeting the replacement of approximately 67 service lines per year. **Beginning in FY2032, the program is scheduled to transition to an involuntary structure, increasing annual replacements to approximately 605 service lines.** The program will be evaluated each fiscal year, with voluntary participation levels closely monitored. If participation is lower than anticipated, implementation of the involuntary phase may be accelerated, and higher funding requests may be brought forward sooner than currently projected. Funding is anticipated to be secured primarily through state loan programs, with loan repayment facilitated through assessments to participating property owners.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: 2027 PROJECT NO:	TOTAL PROJECT COST
42 - Water Department	8C - Business Type	Private Lead Service Line Replacement Program (City-Wide)		$ 4,050,000

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS
This project may only be funded with State Revolving Fund Loans and Water Construction Funds. The SRF debt payments will be paid by the property owners and not the city.

PROJECT ADDRESS/SERVICE AREA
City Wide

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for the removal and replacement of the Water Department's existing public lead water mains. May Place, Union Street, Austin Street, Washington Street, and Roland Street. This project will eliminate the department's public lead line water mains that were installed in the early 1920's. Design is estimated to be completed in FY2026. Replacement of one location will be done in FY2026 with the remaining four locations to be completed in FY2027.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of extending water main along Seippel Road and Pennsylvania Avenue from an existing dead end (north of North Westbrook Drive on Seippel Road) further north approximately 1,300 ft and east approximately 1,400 ft to serve a subdivision currently being planned for development. This subdivision is included within an annexation agreement that requires extension of City water service to the property within a 1-year period following commencement of construction of public improvements on the property.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This request is for PFOA/PFAS reduction at the Eagle Point Water Treatment Plant. This option includes rehabilitating the existing gravity filters with granular activated carbon for PFAS removal instead of a straightforward, in-kind replacement of the existing sand and anthracite media. The rehabilitation of the filter underdrains and related appurtenances is also necessary as identified by performance testing completed in 2022. Environmental Protection Administration compliance date for PFAS regulations is April 26, 2029, in which systems must have implemented treatment for PFAS maximum contaminate limit. There are approximately 20 gravity filters that will be replaced in stages beginning in Fiscal Year 2028 for an anticipated cost of $10.9 million. All gravity filters are estimated to be replaced by the end of Fiscal Year 2032.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Source Water PFAS Reduction Project - Deep Well (4281000051).

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Continue to provide safe, affordable and dependable drinking water for all residents through a high performing water treatment plant.

FUNDING RESTRICTIONS

This project may only be funded with SRF Loan Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This request is for PFOA/PFAS reduction at the Eagle Point Water Treatment Plant. This option is for the construction of one new deep aquifer well to provide additional uncontaminated water supply to the Eagle Point Water Treatment Plant and reduce use of shallow aquifer wells. A PFAS settlement is being paid to the City over ten years, with $2.4 million received FY25-FY26. These settlement funds are providing funding for Water capital projects. This project was funded previously in Fiscal Year 2024 and Fiscal Year 2025 for design and engineering work.The constuction portion of the project is estimated to start in early calendar year 2028 and take approximately 12 months to construct. The overall cost to rehab the deep well is $6.2 million.

RELATIONSHIP TO OTHER PROJECTS
This project is related to Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Continue to provide safe, affordable and dependable drinking water for all residents through a high performing water treatment plant.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of water main replacement on S Algona St (from St Joseph St to Lombard St). The water main was installed in 1923 and has 8 documented breaks on a half block section of pipe from 1996 to 2024. Due to the terrain at this location, often when the main fails it undermines a portion of S Algona St and a large section of St Joesph St, which adds significant repair costs. Due to several recurrent water main breaks and the challenges associated with repairs, it is necessary to replace this section of water main. The project includes approximately 850 ft of 10" water main.

The section of water main in this project that has given the Water and Public Works Department issues for several years. In 2013 the water main and street repairs cost $73,381 and only repaired 5 feet of water main. Most of the 2013 cost was related to street repair. The water main break in 2024 replaced about 8 feet of water main and damaged and/or undermined approximately 20 concrete panels, some of which were already replaced during the 2013 repairs. Not only are the residents inconvenienced with unplanned water outages, but they are also inconvenienced with frequent street repairs limiting access to their homes and affecting their parking options.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project is for the replacement of the maintenance and supervisory vehicle with a super cab, 4X4,1500 series truck specifications. The existing vehicle is a transferred unit starting with fire and then housing. It is showing rust around the wheel wells and has engine oil leaks. The vehicle is undersized and limits the load it can carry. The vehicle replacement is in line with the original approved improvement package from FY23 for operational maintenance at pump stations including, but not limited to, delivering bulk sodium hypochlorite liquid, changing reagents for chlorine analyzers, well sampling and measurement, distribution system sampling, safety and security inspections at the tanks, towers, and delivering parts as necessary to each of the nineteen(19) remote facilities of the treatment and pumping operation. The vehicle will have a utility box for onsite repairs and maintenance work, and will have a spray in the bed liner for hauling materials and products to each site. This third vehicle is used to improve situations associated with the daily challenges of four maintenance and operations staff, two operator special assignments and two maintenance staff, managing electrical and mechanical needs which are often at odds with scheduling two vehicles and ensuring work is performed in a timely manner. This third vehicle reduces the wait and response time to perform work and improve overall efficiency within the group. This vehicle also provides available transportation for staff to deliver customer notices and the consumer confidence reports. It also provide transportation for other City business, like conferences, classes, etc., which are now being done with private vehicles. The vehicle is a 1/2 ton truck with utility box and spray in bedliner.

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of replacing water main along W 8th Street (from Bluff St to Hill St) which has experienced several breaks in the past ten years. The project includes approximately 850 ft of 8" water main. The alignment also includes a storm sewer that has been identified as failing. This Project will be coordinated with the Engineering Department to replace the water main when the storm sewer along this alignment is also replaced.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
W 8th St from Bluff St to Hill St

$ —	$ —	TOTAL	$ 37,600	$ —	$ —	$ —	$ 20,000	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This Project consists of purchase and planned regular replacement of worker safety equipment for Water Department staff. With the implementation of the flushing program and maintenance of our own water mains along with the advancement of designs in tools to complete Water Department related duties safely, we intend to purchase (1) Guillotine saw and (3) Hydrant turners. Replacement of the saw occurs every five (5) years and a replacement of a hydrant turner occurs every three (3) years. These purchases are being made to best protect the safety of our most valuable resource, our employees.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to support design and construction of water main improvements or relocations resulting from roads and street related improvements. This project is an annual program providing for the design and construction of water mains that are to be replaced or relocated as part of the general street construction repairs and related improvements. This project is to be coordinated with street projects developed in the Engineering and Public Works departments.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Street General Repairs Program, (CIP# 5521000012)

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project requests the replacement of Water Meter Registers (Piece on top of a meter that totalizes the water usage) and Water Meter Interface Units (Device that send usage totals to the billing system) used for the purpose of billing Water usage and Sewer intake. The costs per year include the replacement of the estimated number of units of MIUs and Registers based on known failure rates and the labor that may be required to replace the units when internal resources are not available. In 2009, the City of Dubuque conducted a city-wide water meter replacement program. All meters were replaced with Neptune brand water meters. Each part and product warranty varied with the meter assemblies. Meter interface units (MIUs) replacement warranty was 100% for the first 10 years. For each year thereafter, the warranty was pro-rated, and the City would be required to pay a portion of the MIU replacement. Starting in year eleven (11) the City pays 30% and each year thereafter the City's percentage goes up 5%, until the warranty is finished in 2034. Having discussed a proactive replacement program with Neptune and local supplier Ferguson Water Works, a cost-effective way to replace the meters at a lower cost to the City would be to conduct a 5-year replacement program, in lieu of replacing the MIUs over the remaining prorated warranty period. This will reset the full warranty on replaced MIUs. The project provides funding for a proactive 5-year MIU replacement program which can be funded through SRF. FY22 Funding reflects the replacement of 4557 MIUs to be replaced at a reduced cost as they would still be under full warranty, and years FY23 thru FY32 reflect the replacement of 5,000 MIUs per year to complete the project for those MIUs no longer under warranty. As part of the program, Ferguson Water Works will be making an investment estimated to be $240,000 in the necessary infrastructure to support the City's transition from the R450 system to the R900 System. The investment includes new collectors and necessary wiring and conduit at 15 sites to support the new technology. This project also provides funding for water registers. The Registers carry a 10-year full replacement warranty, after which, the City will be responsible for the costs of replacement parts. There are currently 18,067 Registers that will need to be replaced as they fail. The rate of failure is estimated at 1,350 per year equating to $137,550 per year.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the funding to evaluate efficient water storage usage and to clean, spot prime and paint the interior and exterior of the Water Storage Tanks. Painting of water tanks is a cyclical program; coatings can last up to 20-25 years. FY27 $250,000 College Tower for design and engineering of corrective actions and funding for water storage master plan. FY 28 $1.4M, College Tower construction costs for retrofit, sandblast, and paint. FY 29 $150,000 Park Hill Standpipe design and engineering of corrective actions. FY 30 $1.21M Park Hill Standpipe construction costs for retrofit, sandblast, and paint. FY 31 $150,000 Pennsylvania Standpipe design and engineering of corrective actions. FY 32 $1.35M, Pennsylvania Standpipe construction costs for retrofit, sandplast, and paint. Tank coatings required to maintain the structure of the tank, the water quality to reduce biofilm, as well as enhancing the aesthetics of the tanks. This project is related to Water Storage and Distribution master planning. This project provides $25,000 for the annual inspection of all water storage tanks and towers. Tank maintenance activities may be adjusted based on the findings and recommendations from these annual inspections, including potential operational or capital improvements.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the requested Water Distribution System Master Plan CIP

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with SRF Loan Funds and Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides the funding to systematically replace the in-tank mixers at each of the Water Storage Tanks in the distribution system. Tank contents mixing is critical to maintaining water quality in the storage and distribution system. Tank mixers are installed at ten storage tanks (reservoirs and towers) with an anticipated replacement frequency of 10 years.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for the systematic replacement of aging roofing systems at the Eagle Point Water Plant. The membrane roofing systems were inspected in September 2020 and noticeable failures were identified. FY25 funding provided for the replacement of four sections of roof covering the north plant basin 1&2, the third floor of the administration building and the lime silo penthouse. FY26 provides funding for roof replacement over the sludge plant, sludge plant wet well walkway between sludge clarifiers, sludge plant electrical room, and roof section over south plant basins and admin offices. FY28 funding will replace the roof over the North plant filter bay. FY29 funding will replace the roof over East clearwell and install new roofing membrane over west clearwell. Roofing systems will be replaced with Thermoplastic Membrane, including new vapor barrier, R30 insulation, and protective hardboard and will carry a minimum 20-year warranty. The new roofing systems provide additional insulation capable of reducing carbon emissions.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Water Treatment Plant Condition Assessment and Master Plan (CIP # 4281000026)

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for repairs and rehabilitation associated with the City's groundwater supply (wells, pumps, motors) including source water protection of the well field and the raw water transmission lines from the wells to the treatment plant. The City draws from both shallow and deep wells and each well should be inspected every 5 years and 10 years respectively, barring any known issues. The wells should be inspected, and the well screen cleaned to remove sediment or debris that may be reducing well output. FY26 funding provided for the rehabilitation of Well 10. FY27 funding provides for the rehabilitation of Wells 2 & 9. FY28 funding provides for the Rehabilitation of Well 5. The out years provides funding to continue the 5-year program maintenance. The well field from where the City draws its drinking water supply was subject to the Safe Drinking Water Act amendments of 1996, which required a Source Water Assessment. The Assessment included evaluating the level of protection that was in place to protect sources of drinking water. The well field should be evaluated to determine what improvements are necessary to ensure the City is continuing to assess the protective measures in place for the City's drinking water supply. .

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for water main extension along Seippel Rd (from N Westbrook Dr to Pennsylvania Ave) and along Middle Rd (from Seippel Rd to Jonquil Terr). The project includes approximately 11,600 ft of 12" water main and a booster pump station. The utilities have not been requested by property owners for the previously annexed areas and the City does not know when it will be necessary to construct the utilities. Due to this uncertainty, design and construction are budgeted for an initial portion of the work (approximately 6,600 ft of water main) to begin in FY28, with the remainder to be completed following FY32. If the utilities are requested prior to then, the City will adjust the budget as necessary to comply with the requests.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded with SRF Loan Funds and Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the funding to conduct an engineering and environmental analysis of the piping in the pipe gallery at the water treatment plant, and the Asbury and West Third Pump stations. This project also provides for construction funding associated with the piping rehabilitation. The current pipe protective coatings are starting to fail. The failure can be observed as the pipes and fasteners are beginning to corrode due to highly humid environment.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the replacement of aging 18 inch magnetic flow meters in the raw water supply lines to the south treatment basins. During flow verification/validation in FY24 it was recommended to update the meters due to them being less than 80% accuracy. Per Iowa Department of Natural Resources water use permit, the Water Department is required to maintain accurate water withdrawal records. Replacing the aging meters will aid in this regulatory compliance requirement.

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of extending water main along Military Rd (from Key West Dr to SW Arterial), SW Arterial (from Military Rd to Tamarack Dr), and Tamarack Dr (from SW Arterial to Silverwood Dr) to create a loop in the south extents of Pressure Zone 3. The water main extension is approximately 9,500 ft of 16-in water main, including a crossing under the SW Arterial and a storage connection at the proposed Water Tower Military Rd project.

The water main extension provides a water main loop from Key West Dr, along the SW Arterial, to the Crossroad Industrial Park, Tamarack Industrial Park, to the water main connection at US Highway 151/61. The water main will be supported by the elevated Water Tower Military Rd Project to improve supply redundancy and resiliency for the south part of Pressure Zone 3, which also supplies water to Pressure Zones 6 and 7 (Airport area).

RELATIONSHIP TO OTHER PROJECTS
This project is related to City-Wide Distribution System Improvements project (4281000034).

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded with SRF Loan Funds.

PROJECT ADDRESS/SERVICE AREA
Military Rd from Key West Dr to SW Arterial, SW Arterial from Military Rd to Tamarack Dr, and Tamarack Dr from SW Arterial to Silverwood Dr.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the systematic installation of conduit, fiber optic cable, and network connections at remote lift stations throughout the city, enabling reliable communication through the City's network and integration with the Water & Resource Recovery Center's (WRRC) SCADA system. Currently, eight of the 21 lift stations rely on an aging Alvarion 900 MHz radio system that is over 15 years old, and five lift stations have no remote communication at all.

Delayed or failed communication can prevent timely notifications of equipment failures, increasing the risk of untreated wastewater bypassing into the environment. Both cellular and radio communication methods have proven unreliable, with intermittent interruptions triggering SCADA alarms that may obscure more serious issues.

By establishing a high-speed, fiber-based connection at each lift station, WRRC staff will gain real-time access to pump status, flow data, and alarms—enhancing operational oversight, accelerating response times, and reducing the risk of environmental impacts.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the repair and replacement of HVAC equipment at the Water & Resource Recovery Center (WRRC) and sanitary sewer lift stations. The WRRC and lift station HVAC systems include components such as louvers, fans, gravity roof ventilators, rooftop units, make-up air units, gas-fired unit heaters, electric unit heaters, and water source heat pumps. Many of these components experience accelerated deterioration due to the corrosive atmosphere commonly present in wastewater facilities. Hydrogen sulfide and other gases shorten the useful life of HVAC systems, leading to higher maintenance demands and reduced reliability.

The HVAC systems at the WRRC serve multiple critical functions. Beyond maintaining proper climate control for electrical and process equipment—particularly in Motor Control Centers, where overheating can lead to system failures and process disruptions—these systems are essential for maintaining safe indoor environments. Proper ventilation mitigates the buildup of gases that, while often harmless at low concentrations, can pose health, safety, or fire risks if not adequately exhausted. Reliable HVAC operation is therefore fundamental to protecting infrastructure, ensuring continuous treatment performance, and maintaining safe working conditions for staff throughout the WRRC and its lift stations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the refurbishment and eventual replacement of the Water & Resource Recovery Center's (WRRC) mechanical bar screens, which serve as the first line of defense in the wastewater treatment process. Bar screens remove large debris and non-biodegradable materials from incoming wastewater, protecting downstream pumps, channels, and process equipment from clogging or damage.

Funding in FY25 and FY26 provided funding for minor improvements to extend their service life and maintain operational capacity. More substantial improvements will be necessary to accommodate the increased flow resulting from improvements to the Catfish Creek Interceptor, including the Old Mill Road Lift Stations scheduled to come online in FY27. These upstream improvements will expand sewer capacity to meet anticipated development demand, which will, in turn, increase influent flow to the WRRC. The higher flow rates will elevate loading on the headworks equipment, necessitating more robust bar screens designed for modern hydraulic and debris conditions.

The new bar screens are expected to generate operational savings through improved energy efficiency and reduced maintenance needs. Modern screening equipment is designed with more efficient motors and optimized cleaning mechanisms, allowing the units to operate less frequently and use less power during each cleaning cycle. Based on industry data and comparable installations, energy savings are projected at approximately 10–15% compared to the existing equipment. In addition, the new bar screens will significantly decrease maintenance costs by preventing rags and debris from bypassing the screening process. Material that currently passes through the worn screens often clogs downstream pumps and valves, requiring manual cleaning and unplanned maintenance. Reducing these events will save an estimated $5,000–$7,000 annually in labor and repair costs. Combined energy and maintenance efficiencies are projected to reduce total operating costs by approximately $8,000–$10,000 per year, while also improving system reliability and reducing the risk of process interruptions.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for facility improvements at the Water & Resource Recovery Center (WRRC) to meet nutrient reduction requirements and increase the plant's treatment capacity for biochemical oxygen demand (BOD), total suspended solids (TSS), and flow. The WRRC was issued a new NPDES permit on April 1, 2025, which—like the previous permit—includes requirements supporting the Iowa Nutrient Reduction Strategy. Specifically, the permit requires the City to prepare and submit a report evaluating the feasibility and reasonableness of reducing nitrogen and phosphorus discharges to surface waters. The report must be submitted no later than November 1, 2027, and will serve as an addendum to the Nutrient Reduction Study previously submitted to the Iowa Department of Natural Resources (IDNR).

Funding of $35,000 in FY27 is provided to prepare this updated nutrient reduction report, which will evaluate new and emerging treatment technologies for nitrogen and phosphorus removal and update the implementation schedule for achieving a 66% reduction in total nitrogen and a 75% reduction in total phosphorus, consistent with IDNR's nutrient reduction strategy.

The City is currently developing a comprehensive Facility Plan for the WRRC, expected to be completed by the end of calendar year 2027. The Facility Plan will assess future treatment needs, evaluate system capacity, and identify the timing and scale of major improvements required to meet regulatory and community demands. It is anticipated that nutrient reduction improvements may be most cost-effective when implemented in conjunction with larger facility upgrades needed to accommodate increased BOD and TSS loadings. It is also likely that advancement of preliminary design or related improvements will be necessary within the five-year CIP period to address nutrient reduction requirements and maintain permit compliance. The findings of the Facility Plan will guide the scope, sequencing, and funding of these future efforts to ensure coordinated, efficient, and sustainable investments in Dubuque's wastewater infrastructure.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement and modernization of industrial control components at the Water & Resource Recovery Center (WRRC). The WRRC relies on programmable logic controllers (PLCs) and industrial communication networks to collect, process, and transmit critical data for process monitoring and control. These systems form the backbone of the facility's automation network, ensuring that treatment processes operate safely, efficiently, and reliably.

During the COVID-19 pandemic, global supply chain disruptions and component shortages led manufacturers to discontinue production and technical support for many existing control hardware lines much earlier than anticipated. Equipment that should have remained serviceable for another decade or more effectively became obsolete as manufacturers shifted their focus and resources toward new product lines. As a result, sourcing replacement parts has become increasingly difficult, resulting in increased system interruptions and failures.

The City awarded the construction contract for the first phase of the Industrial Controls Upgrade Project in late 2025. This phase is funded through an FY26 appropriation in the amount of $2,066,000 (which includes insurance proceeds), an FY27 appropriation in the amount of $919,700. The FY28 budget appropriation includes $45,000 for engineering and design and $500,000 for construction of the second phase of the improvements. FY29 and FY30 provide additional funding for construction of the second phase, ensuring that all electrical controls at the Water & Resource Recovery Center will be replaced by the end of calendar year 2029.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: 2023 PROJECT NO: 4381500017	TOTAL PROJECT COST
43 - Water & Resource Recovery Center	8C - Business Type	Industrial Controls Upgrade		$ 7,214,701

PROJECT DESCRIPTION/JUSTIFICATION (cont.)

The project will generate operational savings by eliminating the need to source and replace obsolete control system components that are increasingly difficult and costly to obtain. The existing DeviceNet® and PLC equipment are no longer supported by the manufacturer, forcing the City to rely on aftermarket parts and specialized labor for repairs—often at premium cost and with extended lead times. Failures within these outdated systems also create operational disruptions, as interdependent controls can affect multiple treatment processes simultaneously. By replacing the obsolete systems with standardized, Ethernet-based controls and modern PLC hardware, the City will reduce repair frequency, minimize downtime, and avoid escalating costs for obsolete components. Annual operational savings are projected at approximately $15,000–$20,000, reflecting reduced parts procurement costs, avoided emergency repair expenses, and improved process stability that limits unplanned operational adjustments.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to any other capital improvement projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded by Sanitary Sewer Construction Funds or a State Revolving Fund loan.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the existing 2007 Kawasaki Mule utility vehicle with a new electric 4x4 utility terrain vehicle (UTV). The UTV is used daily by operators to access multiple areas and processes across the 14-acre Water & Resource Recovery Center (WRRC) site. It enables staff to respond quickly to operational needs, cover more ground in less time, and efficiently complete tasks across the facility. The vehicle is also used for short-distance travel to nearby facilities, including the Catfish Creek and Granger Creek Lift Stations.

The new electric UTV will offer improved reliability, reduced maintenance, and increased fuel efficiency compared to the existing gas-powered unit. The project reflects a purchase cost of $13,500 for the replacement, with revenue of approximately $500 to be recovered through the sale of the existing Mule. The new UTV supports the City’s sustainability goals by reducing emissions and aligns with the WRRC’s commitment to operational efficiency and environmental stewardship.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS
This project can be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the existing equipment trailer at the Water & Resource Recovery Center (WRRC). While the current trailer remains in good repair, it no longer meets the operational needs of the WRRC. In FY25, the WRRC purchased a compact track loader to support maintenance activities such as drying pad management, snow removal, and brush clearing or mowing on WRRC property. The equipment has improved the facility's ability to maintain the drying pad and reduce odors; however, its use is limited because the existing trailer is undersized to safely transport the loader.

The track loader is also used for maintenance at various sanitary lift stations and other WRRC sites, requiring staff to rent a trailer each time it must be moved. Replacing the current trailer with a properly sized unit will improve safety, functionality, and efficiency by allowing WRRC staff to transport the loader and attachments without delay or rental cost. This investment supports more effective site maintenance and contributes to odor reduction and overall operational reliability.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the laboratory still used to produce distilled water at the Water & Resource Recovery Center (WRRC). The WRRC's environmental laboratory is certified by the State of Iowa, meaning its test results are legally defensible for compliance with environmental regulations. Distilled water produced by the still is essential for laboratory operations, including the preparation of blanks and dilutions, as well as for cleaning glassware and analytical equipment.

The existing still is more than 20 years old. While it remains functional, it requires frequent maintenance and experiences periods of downtime during repairs, disrupting laboratory operations. Replacement with a new, energy-efficient still will improve reliability, reduce maintenance needs, and ensure the laboratory can continue to meet state certification standards and support the WRRC's regulatory compliance efforts.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the two 30-horsepower fixed-speed compressors and associated air dryer that supply compressed air to process equipment throughout the Water & Resource Recovery Center (WRRC). Compressed air is essential for the operation of numerous systems across the facility, including the centrifuges, sludge pumping systems, and various auxiliary diaphragm pumps used in multiple treatment processes.

The existing compressors have operated continuously for many years and are experiencing more frequent breakdowns and repairs, reducing system reliability and increasing maintenance costs. Replacing the existing units with modern, energy-efficient models will improve reliability, reduce maintenance demands, and ensure uninterrupted operation of critical treatment processes.

The replacement of the existing compressed air system will reduce annual maintenance and repair costs associated with the aging compressors and air dryer. The current units require frequent service due to wear and reliability issues, resulting in annual maintenance expenses ranging from $1,500 to $3,000.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the installation of new process control instrumentation to better monitor dissolved oxygen (DO) levels within the activated sludge system at the Water & Resource Recovery Center (WRRC). The improvements include the installation of three in-process DO probes, one in each of the three high-purity oxygen aeration trains, and a new vent gas DO monitor.

These instruments will provide operators with real-time data on the oxygen levels within the biological treatment process, allowing for precise control of oxygen delivery. Maintaining optimal oxygen levels ensures that sufficient oxygen is provided to sustain biological activity while avoiding excessive oxygen feed that leads to energy waste. Real-time monitoring will also allow operators to quickly identify and respond to abnormal conditions, helping to prevent process upsets and maintain consistent treatment performance.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

$ —	$ —	TOTAL	$ 40,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement and enhancement of influent and effluent monitoring equipment at the Water & Resource Recovery Center (WRRC) to support real-time process control and early detection of abnormal conditions. The improvements include installation of enhanced sampling and analysis equipment for the influent stream—providing continuous pH and conductivity monitoring—and replacement of existing effluent monitoring equipment to provide continuous, real-time data for process control.

Currently, influent monitoring relies on daily composite sampling for BOD and TSS and grab samples for pH. While this approach is the industry standard and meets regulatory requirements, it does not provide immediate feedback when influent conditions change. Real-time influent data will alert operators to potential issues as they occur, allowing timely adjustments to maintain stable treatment conditions. Monitoring conductivity in real time adds a valuable early-warning capability: sudden changes in conductivity can indicate industrial discharges, chemical releases, or dilution events entering the collection system—alerting staff that “something different” is coming into the plant before it impacts treatment performance.

Upgrading both influent and effluent monitoring systems will give operators actionable, continuous data to optimize treatment processes, detect anomalies early, and respond quickly to prevent system upsets. The improvements will enhance process reliability, operational awareness, and compliance assurance while supporting the WRRC’s broader goals of data-driven decision-making and proactive process management.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the existing hoist in the Water & Resource Recovery Center (WRRC) maintenance shop. The hoist is used by maintenance staff to lift and position heavy equipment such as pumps, motors, and other mechanical components for repair and service. The existing unit is aging and lacks a safety latch on the hook—an essential feature that prevents a suspended load from slipping off the hook.

Because the current hoist does not meet OSHA safety standards, maintenance activities must often be performed without its use, resulting in less efficient and more labor-intensive work practices. Replacing the hoist with a new, OSHA-compliant model will improve workplace safety, enhance efficiency, and reduce the physical strain on maintenance personnel while ensuring safe handling of heavy equipment throughout the WRRC.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

$ —	$ —	TOTAL	$ 77,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the two scum pit pumps and their two backup pumps that serve the final clarifiers at the Water & Resource Recovery Center (WRRC). These pumps are critical components of the solids removal process, transferring collected scum and floatable material from the clarifiers for further treatment and disposal.

The existing pumps were installed in 1990 and have reached the end of their useful life. Due to significant wear and age, they can no longer be effectively rebuilt, and repairs have become increasingly difficult and costly. The pumps fail frequently, resulting in additional maintenance demands and occasional operational interruptions.

Replacement of these pumps with modern, high-efficiency units will restore system reliability, reduce unplanned downtime, and ensure proper removal and management of floatable materials from the treatment process. This improvement will help maintain consistent effluent quality, reduce maintenance costs, and enhance overall plant performance.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Sanitary Sewer Construction Funds.

$ —	$ —	TOTAL	$ 45,000	$ 30,000	$ 15,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project establishes funding for the timely replacement of critical equipment at the Water & Resource Recovery Center (WRRC) that fails during the year and is more cost-effective to replace than repair. The continuous operation of WRRC systems is essential to maintaining compliance with the facility's National Pollutant Discharge Elimination System (NPDES) permit and protecting the integrity of the wastewater treatment process. Many mechanical and electrical assets operate in harsh environments that can lead to unexpected equipment failure. When this occurs, immediate replacement is often necessary to avoid treatment disruption or potential noncompliance. This CIP provides a flexible funding source to address these unplanned needs as they arise throughout the fiscal year.

Funding is programmed for a three-year period, with allocations decreasing each year as the WRRC's Computerized Maintenance Management System (CMMS) becomes fully functional. The CMMS will enable proactive scheduling of repairs and replacements based on asset condition and maintenance history, reducing the need for contingency replacement funding. Until that system is fully implemented, this project ensures WRRC staff have the means to promptly replace failed equipment and maintain uninterrupted treatment performance.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Facility Management Plan Update which includes the development of a CMMS.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to repair and restore treatment system infrastructure at the Water & Resource Recovery Center (WRRC) that is currently out of service or operating unreliably due to age, wear, or deferred maintenance. The work focuses on restoring the mechanical and electrical assets that support the City's treatment processes—including pumps, valves, motors, actuators, and other associated equipment—so that redundant and standby systems can be brought back into reliable service.

Over the past several years, a tipping point occurred where the balance of maintenance work at the WRRC shifted from preventive maintenance to reactive repairs. As equipment issues increased, maintenance staff were required to focus primarily on emergency and urgent repairs, leaving less time available for preventive maintenance. This cycle has compounded over time, resulting in additional unplanned outages and diminished reliability. To help reverse this trend, the WRRC intends to hire qualified mechanical contractors to perform much of the repair and restoration work necessary to address the existing maintenance backlog. Engaging outside contractors will allow the City to complete high-priority repairs more efficiently while enabling in-house maintenance staff to concentrate on preventive maintenance and routine operational support. The goal of this project is to restore balance—returning maintenance operations to a primarily preventive focus. If this can be accomplished over the next 12 to 18 months, the City will be in a stronger position to re-evaluate long-term maintenance staffing levels or other structural changes needed to sustain a proactive maintenance program.

By investing in treatment system infrastructure restoration, the WRRC will enhance operational reliability, reduce odor risk, and ensure that the facility can continue to meet permit obligations while maintaining safe, efficient, and sustainable operations. The project is expected to generate measurable operational savings by reducing the frequency of emergency repairs and unplanned equipment failures. As critical treatment infrastructure is restored and redundant systems are brought back online, maintenance activities will transition from reactive to preventive work. These improvements are projected to reduce annual maintenance costs by approximately 5–10%, or about $50,000 per year, once full reliability and preventive maintenance efficiencies are achieved.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the existing drum thickener room doors in Building 75 (Solids Handling Building) at the Water & Resource Recovery Center (WRRC). The existing doors have deteriorated significantly due to prolonged exposure to hydrogen sulfide (H_2S) and the corrosive environment created within the solids handling area. Because the current doors are not constructed of stainless steel, the H_2S has corroded the metal, resulting in visible holes, thinning, and material loss around the edges and seams.

The deteriorated doors compromise both the integrity and safety of the facility, allowing the potential for air leakage, contributing to odor issues, and increasing maintenance requirements. This project will replace the existing doors with stainless steel units specifically designed to withstand the corrosive effects of hydrogen sulfide and other gases common in wastewater treatment environments.

Replacing the doors will improve the building's structural integrity, reduce odor migration, and ensure long-term resistance to corrosion—enhancing safety and protecting the City's investment in the WRRC's solids handling infrastructure.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to any other capital improvement projects.

$ —	$ —	TOTAL	$ 84,000	$ 22,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to hire a qualified safety consultant to develop a comprehensive, WRRC-specific safety program within a 12–18-month period. The consultant will prepare the full suite of written safety documentation required under the City's Safety Program Responsibilities, including hazard assessments, emergency procedures, safe-work practices, PPE requirements, chemical safety documentation, contractor safety protocols, inspection schedules, and incident-reporting processes. Scope will include the development of Standard Operating Procedures (SOPs) and safe-work practices for all WRRC buildings, processes, and operational environments, including off-site lift stations. Work will include evaluating hazards associated with anaerobic digesters, high-purity oxygen systems, biogas piping, chemical feed systems, electrical systems, laboratory operations, sludge handling equipment, confined spaces, mechanical equipment, and other WRRC treatment infrastructure. It will include the development of facility-specific safety manuals for contractors that perform work at the facility to ensure they understand the hazards and requirements for each building.

The WRRC currently does not have a comprehensive, facility-specific safety program that meets the full requirements of the City's Safety Program Responsibilities. These responsibilities require each department to maintain written procedures, hazard assessments, training systems, contractor protocols, PPE evaluations, and emergency procedures that accurately reflect the hazards present in each workplace. For an industrial utility with the complexity of the WRRC, this level of documentation requires significant technical expertise and dedicated time that existing staff cannot provide while maintaining essential 24/7 treatment operations. While WRRC staff are committed to advancing safety, developing a program of this scale internally would take several years and would divert critical operational and maintenance resources.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to any other capital improvement projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Recruit, hire, develop and retain a diverse, top-quality City workforce dedicated to City goals, mission and core values.

PROJECT DESCRIPTION/JUSTIFICATION

The Relocate Taxiway Alpha program at DBQ is scheduled to be completed over seven fiscal years and six construction phases. The program began in FY22 to complete programmatic planning documents which included an environmental documented categorical exclusion, topographic and utility survey, geotechnical exploration, a detailed schematic design plan, and construction phasing and budget. FY25 – FY28 Taxiway A Relocation construction (construction Phases 3 – 5) are on the SE end of the Airport at the Runway 31 end. Each of these phases includes approximately 1,300 LF of Taxiway A relocation, working to the NW at a standard parallel offset distance of 400 feet from Runway 13/31. Construction Phase 5 is planned for FY 27 and connects Phase 4 and Phase 2, completing the taxiway relocation. Generally all construction phases include earth moving (grading), storm sewer drainage and underdrains, concrete paving, taxiway edge lighting and airfield signage, pavement markings, and turfgrass stabilization.

PROJECT DESCRIPTION/JUSTIFICATION

This will provide for asphalt repairs to the aircraft hangar area. These types of projects are coordinated with the Engineering Department to determine which repairs are needed. FY27 and FY28 funds will provide for replacing the pavement in the corporate hangar and T-hangar areas identified in the most recently completed Airport Pavement Management System. Work includes, but is not limited to, full and partial depth patching and joint/crack sealing to prolong the life of the pavement. Iowa Department of Transportation Airport Improvement Program funds will also be used for these projects. Maintaining the airfield pavement is included as a sponsor grant assurance when receiving Federal Aviation Administration funds. FY31 funds will provide for repairing the general aviation entrance road. This project is partially being funded by a state grant which is yet approved.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the rehabilitation of existing corporate hangars and buildings. Rehabilitation includes large corporate hangars as well as existing, leased T-hangars as they continue to age and will need structural repairs such as roofing, heating, flooring, and door repairs/replacement. Tenants of these hangars generate fuel sales for the Dubuque Jet Center. FY27 funds ($100,000) will be used to replace a large corporate hangar door on one of the facilities currently leased by University of Dubuque which is in need of extensive repairs.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), DRA Funding, or Airport Operating Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an Airport Pavement Management System (APMS) update, which is a review and analysis of all airfield pavement to document pavement condition and develop a strategy for airfield pavement maintenance. This study is required by the Federal Aviation Administration as justification for all airfield reconstruction or rehabilitation projects and facilitates capital improvement planning. Formerly, airports were required to report runway strength as a pavement condition number (PCN). The Federal Aviation Administration has updated this requirement to be in alignment with International Civil Aviation Organization guidelines and now requires airports to report runway strength as a pavement classification rating (PCR). Aircraft operators and airports use/compare these numbers to aircraft classification ratings (ACR) to determine if a pavement is suitable to operate a given aircraft on. This APMS is required every three years by the Federal Aviation Administration.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA Funding, or Airport Operating Funds and FAA Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project will provide for construction of approximately 1,700 feet of taxiway between the terminal building and Runway 31. This project will increase efficiency by allowing aircraft to taxi directly to Runway 31 in lieu of back-taxiing and will significantly increase safety by not requiring aircraft to cross Runway 13/31 midfield. This project will consist of grading, storm sewer drainage and underdrains, concrete paving, taxiway edge lighting and airfield signage, pavement markings, and turf grass stabilization.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the milling of ten (10) centerline miles of asphalt streets. This project provides for the hiring of a private milling contractor to grind a full-street-width pass to remove up to two (2) inches of old asphalt from the street. The millings are then loaded onto city trucks and hauled to a local asphalt plant to be recycled into new hot mix asphalt. All milling is done by a private contractor with cleanup, hauling, and repaving of the streets completed by Public Works department crews. Keeping road pavement in good shape saves money and energy and reduces greenhouse gas emissions, more than offsetting pollution generated during road construction, according to a new study.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the ADA curb ramp replacement project (#5421000002), curb replacement project (#5421000001), and tri-top catchbasin replacement project (NEW).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for an annual program to install ADA curb ramps at various locations throughout the city in conjunction with the Public Works ten (10) centerline mile asphalt overlay program. In July of 2013, the Iowa Department of Transportation (IDOT) received additional information from the Federal Department of Justice further clarifying what constitutes resurfacing. Based on these clarifications, as of January 1, 2014, any alterations to an existing street's crosswalk, including asphalt resurfacing and "mill and fill" projects, require that existing curb ramps adhere to the latest ADA standards. While many of these corners have existing ramps, only a few of Dubuque's streets and alleys have curb ramps that meet current ADA standards. This project ensures that each intersection would be retrofitted with ADA-mandated curb ramps when a street receives a maintenance overlay. With the installation and upgrade to the ADA curb ramps as part of the asphalt overlay program, we improve accessibility for those with disabilities in our community as well as pedestrians seeking to travel the streets and sidewalks safely.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the asphalt milling program project (#5421000003).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an annual program to replace deteriorated curb, gutter and related pavement at locations throughout the city. Priority is given to streets scheduled for the Public Works Department's asphalt paving program and projects associated with improvements to sidewalks and driveways by homeowners. All work is done by private contractors. This project supplements the Public Works Department's regular curb reconstruction program. There are many streets in Dubuque that have good driving surfaces but have badly deteriorated limestone or concrete curbing. This program provides for hiring private contractors to replace curbing in poor condition on streets that are not scheduled, or anticipated to be scheduled, for reconstruction. Priority is also given to replacing poor curbing on streets where ADA curb ramps are being installed. On any given year, the Public Works Department receives numerous curb replacement requests related to the asphalt overlay program and property owner projects that are not able to be completed due to workloads.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Asphalt Milling Program (542900003) and the ADA Curb Ramp Program (5429900002).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%), Stormwater Construction Fund, and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for 8 panel replacement projects through hiring private contractors to remove and replace, or assist the Public Works Department in removing and replacing, deteriorated concrete panels in concrete streets. All work is closely coordinated with, or under the direction of, the Engineering Department and its street reconstruction program. Many concrete streets in the City are in need of full-depth concrete section replacement. Defects such as offset or spalling transverse joints create a poor riding surface. Surface and joint defects usually lead to other pavement deformation, such as pavement blow ups, settlements, cracks, and/or potholes. Timely panel replacements and section repairs extend the life of these concrete streets and usually preclude the need for asphalt overlays or total reconstruction projects.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an annual program to perform post-flood repairs and maintenance required by the Corps of Engineers along the City's flood control protection system. This project supplements the Public Works Department's floodwall operations activity budget by providing funding that would allow for post-flood and required infrastructure repairs. As the floodwall's infrastructure age and the frequency of flood events continues to increase, the need for extraordinary repairs also has increased. This request would provide adequate funds to perform timely repairs, which in turn assures the integrity of the flood control system. Repairs may include rip-rap replacement, pump overhauls, gate repairs, pump house repairs, floodwall, and levee repairs, dredging, debris removal, and associated storm sewer outlet remedial work.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce potential flooding through flood plain management, mitigation and protection through a well-maintained, operational stormwater system.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for repairing, replacing, and/or installing hand railings, staircases, and wall-top fencing on city properties. Because of its hilly terrain, Dubuque's infrastructure includes many large retaining walls and pedestrian staircases. Due to the high curbing, a few ADA ramps are also constructed with handrails. The hand railing's close location to the street make them subject to vehicular damage. While many of the walls are in good condition, many staircases, and the accompanying metal hand railings are not. Also, citizens and staff have become aware and concerned with securing the tops of tall city walls. The purpose of this program is to facilitate timely remedial action as staff is made aware of needs or deficiencies. Private contractors would perform the work under the direction of the Engineering Department or Public Works Department.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%).

PROJECT ADDRESS/SERVICE AREA

Citywide

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Municipal Services Center Access System Replacement			YEAR FIRST SUBMITTED: FY 2027 PROJECT NO: 5429900034		TOTAL PROJECT COST $ 61,200

$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project request provides funding to implement a recommendation from the Fleet Operations Assessment conducted by a third-party vendor on best practices. Best practice states for each technician, a maintenance shop should have 1.5 bays available. This leaves Fleet Division within the Public Works Department short by 3 maintenance bays. The current shop layout includes 11 bays for 9 technicians. Additional bays allows for vehicle diagnostics without hindering continued preventive maintenance needs by occupying the necessary bays to safely conduct work. Technician capabilities allow for larger projects, but space restrictions cause an increase of 124.7% labor rate to outsource these projects instead.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by General Fund and Garage funds.

$ —	$ —	TOTAL	$ 616,875	$ 537,469	$ 564,343	$ 592,560	$ —	$ 2,311,247

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for hiring private contractors to construct 10-foot, paved shoulders in four phases, along the Northwest Arterial from US Highway 20 to IA 3. All work is closely coordinated with, or under the direction of, the Engineering Department. The shoulders along the Northwest Arterial currently are a majority of gravel shoulders. Each rain storm, this gravel is washed out on to the street, or the parallel trails along this highway. Gravel shoulders increase hazards for crews to maintain shoulders by grading and regrading multiple times a year, as well as drivers utilizing the Northwest Arterial.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

$ —	$ —	TOTAL	$ 54,338	$ 353,194	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the necessary funds to repair the underwater section of the municipal boat ramp in AY McDonald Park at the east end of Hawthorne Street. In 1997, this boat ramp was reconstructed above its Mississippi River water line. As part of that project, new concrete panels were joined to the ramp's existing concrete panels below the water line. In recent years, there has been accelerated deterioration of the underwater section of the boat ramp. On several occasions, sections of steel edging, iron rebar, and broken concrete have been removed to eliminate the underwater hazards they presented to boaters. Also, whenever the Mississippi River experiences low water levels, boaters have been having problems with their boat trailers dropping off the submerged end of the boat ramp. This project will involve installing a cofferdam around the underwater portion of the ramp, replacing the deteriorated and previously submerged concrete panels, and also adding additional panels to extend the ramp further into the river. The southeast portion of the ramp is unusable due to safety concerns and has been barricaded until reconstruction is approved and completed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%).

PROJECT DESCRIPTION/JUSTIFICATION
This project will provide remaining funds for the replacement of the roof at the Municipal Services Center. The facility was constructed and opened in 2005, and the expected life of a roof is 15-20 years and has experienced extensive leaking over the last 5 years. Replacing the roof will allow the building to function as designed and continue to protect millions of dollars in equipment and vehicles housed within. Partial funding was approved by Council and City Manager in FY2026.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Water department Municipal Services Center Roof Replacement which is the portion that Water department is responsible for.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%), Garage, Refuse and Road Use Tax funds.

PROJECT ADDRESS/SERVICE AREA
The Municipal Services Center is located at 925 Kerper Court.

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: 3255 - Wheel Loader Purchase			YEAR FIRST SUBMITTED: 2022 PROJECT NO:		TOTAL PROJECT COST $ 305,865

$ —	$ —	TOTAL	$ —	$ 305,865	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project would provide for the replacement of two (2) wheel loaders, unit #3255, a 2007 John Deere 624J wheel loader. The replacement wheel loader will be equipped with a front-mount snow plow with plow gate attachment. During the warm weather months, wheel loaders are used to lift and load stone, asphalt, and demolition materials on various street and sewer maintenance repair projects. During the winter months, wheel loaders are used to not only plow streets and cul-de-sacs during major winter snow storms, but also subsequently remove snow accumulations from downtown streets and residential cul-de-sacs.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

$ —	$ —	TOTAL	$ 290,466	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the Public Works Department's only mechanical street sweeper. Unit # 4007 is a three-wheel street sweeper that is now past 2X its useful service life. A seven-year work life for this type of unit is considered the industry norm, balancing warranties, depreciation, reliability, and trade-in value. However, the Public Works Department has a total of three sweepers in its fleet, two of which are air vacuum sweepers which do the majority of sweeping in the City. This unit is used mainly for the clean-up of asphalt millings from our asphalt paving program and fall leaf sweeping. The City's three street sweepers are used to clean Dubuque's streets, downtown alleys, green alleys, and municipal parking lots. These sweepers clean the downtown every two days, arterial streets every two weeks, and the remaining streets every two months. These sweepers are also used to sweep Dubuque's "green alleys" on a regular basis to ensure that they perform as designed. City streets are swept Monday through Friday, year-round, whenever weather permits. By sweeping litter, dirt, debris, leaves, etc. from city streets and green alleys, Dubuque's air quality and surface waters are protected and aesthetics improved. Replacing this machine will also help Dubuque comply with its Federal Phase II stormwater permit obligations.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Asphalt Milling Program (#5421000003)

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales tax Fund (30%) and Road Use Tax Funding.

$ —	$ —	TOTAL	$ 393,121	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of one of the two Public Works Department's air vacuum street sweepers. Unit # 4002 is a Schwartze A98E regenerative air street sweeper and would normally be requested to be replaced after eight (8) years of service in FY2031. However, due to operational challenges and fleet-operations mis-match, we are requesting to replace this unit sooner. A seven-year work life for this type of unit is considered the industry norm, balancing warranties, depreciation, reliability, and trade-in value. The Public Works Department has a total of three sweepers in its fleet, two of which are air vacuum sweepers. However, the current unit has showed many safety and incompatibility issues with operations due to Dubuque's topography. Since being placed in service, this vehicle has service costs of $73,845. The City's three street sweepers are used to clean Dubuque's streets, downtown alleys, green alleys, and municipal parking lots. These sweepers clean the downtown every two days, arterial streets every two weeks, and the remaining streets every two months. These sweepers are also used to sweep Dubuque's newly-constructed "green alleys" four times each year to ensure that they perform as designed. City streets are swept Monday through Friday year-round whenever weather permits. By sweeping litter, dirt, debris, leaves, etc. from city streets and green alleys, Dubuque's air quality and surface waters are protected, and aesthetics are improved. Replacing these machines will also help Dubuque comply with its federal Phase II stormwater permit obligations. This sweeper, while not past its service life breaks down frequently due to only having one engine instead of the standard two engines. With one engine, the truck can either run the street sweeper brushes and vacuum or go up hill. The single engine is not sufficient to do both simultaneously.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funds for the replacement of sewer maintenance unit # 2730. This unit is utilized for off-road sewer maintenance areas that are unable to be reached via on-road vehicles. The unit has various types of attachments and hooks to the street jet with various cleaner heads to remove debris and roots form Dubuque’s sanitary sewer system to prevent basement backups and above-ground overflows. This unit is also used to clean storm sewer pipes, intakes and litter control baskets along the Bee Branch waterway. Replacing this unit in FY2027 will provide the Public Works Department with a reliable unit for maintaining Dubuque's sanitary sewer system, as required by the United States Environmental Protection Agency (EPA) and the federal Clean Water Act.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary or Storm Sewer Construction Fund

PROJECT ADDRESS/SERVICE AREA
This unit is used citywide

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: New CCTV Camera			YEAR FIRST SUBMITTED: FY 2027 PROJECT NO: 5429900028		TOTAL PROJECT COST $ 40,000
2025 EXPENSE	2026 BUDGET	PROJECT BUDGET	2027	2028	2029	2030	2031	2032
		A. EXPENDITURE ITEMS						
$ —	$ —	Equipment	$ 40,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 40,000	$ —	$ —	$ —	$ —	$ —
		B. PROJECT FINANCING						
$ —	$ —	Sanitary Sewer Construction Fund	$ 20,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	Stormwater Construction Fund	$ 20,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 40,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to purchase a backup CCTV camera. With the environments the current unit enters, it is constantly being sent off for repairs due to exposure to water, roots, and other debris in the sewer lines. This backup camera would ensure maintenance downtime is minimal while one unit is being repaired offsite, this unit would be deployed. These units allow crews to televise underground sewer system infrastructure as part of the DOJ/EPA Consent Decree required maintenance programs.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This can only be funded utilizing stormwater and sanitary sewer funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the replacement of one of the Public Works Department's seven (7) 58,000 gross vehicle weight (GVW) street maintenance/snow and ice control dump trucks. These replacement trucks will be purchased with 58,000 GVW chassis and equipped with combination dump/spreader boxes, front plow mounts and wing snowplow blades, along with other related snow and ice control equipment. This project provides funding to replace asset number 4004. This particular unit was purchased with CNG alt-fuel option, but due to temperature sensitivity on CNG pumps, we cannot run this asset for snow & ice operations. When purchasing the replacement vehicle, this unit will be replaced with a diesel engine. These unit types are used year-round for both street maintenance projects and snow and ice control. In the winter months, these trucks are used to apply deicer material and plow snow accumulations during, and immediately after, winter storms. The trucks are also used to haul snow during cleanup operations after winter storms. During the warm weather months, these units are used to haul asphalt for our street paving program, and stone, rock, curb, and concrete for other street maintenance projects. After eight years of continuous use, the trucks will be due for replacement to minimize downtime during high utilization time periods.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project can only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

This project provides funds for the replacement of one (1) of the nine (9) Public Works Department's 35,000 - 44,000 gross vehicle weight (GVW) street maintenance and snow/ice control dump trucks. These trucks are equipped in various configurations to provide operators with the tools to meet the goals of Dubuque's snow and ice control program. Unit 3212 recommended for replacement based on an eight (8) year replacement schedule. The unit will be replaced with 44,000 GVW and will be equipped with a combination dump/spreader box and front-mounted snowplow. Some will also be equipped with a wing blade plow. All of these trucks are used year-round, with warm weather work dedicated to street paving and repair. They are used in the winter of plowing and deicing operations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This project would provide funding to replace the fleet service sweeper to ensure a safe and clean floor for technicians to conduct job duties, removing silt oil and other debris from work areas. The current fleet service sweeper has broken down beyond repair.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Garage Fund.

$ —	$ —	TOTAL	$ 151,500	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide funds for the replacement and reconfiguration of the Fleet Service Truck. The current fleet service truck is a 2012 flatbed truck that includes a crane, air compressor, and toolbox. This funding would replace the current 15-year old vehicle that was due for replacement in FY2020. The fleet service truck purchased would be a cab and chassis with a crane service truck body. This truck is used by our fleet technicians to perform necessary maintenance and repairs to all city-owned vehicles and equipment both in the shop and out in the field (service calls).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Garage Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funds to hire a private contractor to chemically treat up to 12,000 lineal feet of sanitary sewer lines throughout the city each year. Tree roots in sanitary sewer lines are one of the major causes of sanitary sewer clogs, backups into homes, and overflows onto streets and private properties. Tree roots are extremely invasive when seeking moisture and typically invade sanitary sewer pipes through cracks and open joints. They then grow into thick natural curtains, collecting solids and greases and eventually causing major clogs, backups, and overflows. In-pipe chemical treatment of roots kills the invasive roots and mitigates future root growth for up to five years. This annual program reduces the number of sanitary sewer overflows and the number of private homes damaged due to sewer backups each year. This program is also noted in the City's Capacity, Management, Operations, and Maintenance (CMOM) Program, which was approved by the United States Environmental Protection Agency in 2012.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by the Sanitary Sewer Construction Fund.

$ —	$ —	TOTAL	$ 395,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This annual project provides for the replacement of one (1) solid waste collection vehicles in FY2027 (#3410). The different styles of trucks will be used to collect customers' trash, bulky items, recyclables, and organics manually and/or by using a hydraulic lifting system for tipper carts. The city will continue to phase in automated side loaders. Phasing in automated collection trucks will help improve collection efficiency, improve workers' safety, and increase neighborhood aesthetics through reduced litter associated with the use of garbage bags. These trucks will be eight to ten years old by their proposed replacement years.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project may only be funded by Refuse Collection Fund.

$ —	$ 136,942	TOTAL	$ 75,000	$ 100,000	$ 100,000	$ 100,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides supplemental funds for the Landfill Waste Minimization Grants Project due to funds being reduced by the Board to $75,000 per year until FY2026 in order to support the UD Campus Sustainability Position ($25,000). The DMASWA offers funding of up to $25,000 to successful applicants whose efforts result in effective waste minimization and/or related education in Dubuque County. Waste minimization efforts for the purposes of this grant include, but are not limited to: composting, hazardous materials disposal and alternatives, recycling, reuse methods, source reduction.

RELATIONSHIP TO OTHER PROJECTS
This is not related to other projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project can only be funded by DMASWA Funds

$ —	$ 85,000	TOTAL	$ 85,000	$ 85,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This improvement package is to replace portable litter fencing which has reached the end of its service life and provide additional portable units to be used near the open face area at the landfill. Containing litter within the working area is the most effective way to manage litter caused by lightweight plastic materials, such as bags and films, which often come in loose loads to the facility.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project can only be funded using DMASWA funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funds for the purchase of a brush mower.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project can only be funded using DMASWA Funds.

PROJECT ADDRESS/SERVICE AREA
101 Airborne Road/ DMASWA Landfill Facility

PROJECT DESCRIPTION/JUSTIFICATION
This CIP provides for the unanticipated replacement of stormwater management facilities within the City's storm sewer system. While efforts are taken to identify and prioritize and proactively replace storm sewer facilities (intakes, manholes, storm sewer pipes, culverts, ditches, detention basins, etc.), this funding allows for addressing facilities found to have deteriorated to the extent that they are more likely to fail if not replaced in the short term. This CIP also accounts for the need to extend either storm sewer or drain tile to locations where there are icing or nuisance flooding concerns that need to be addressed quickly and are not part of a dedicated CIP.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the stormwater sewer utility in support of the City's efforts to meeting the City Council goal of implementing an enterprise asset management system through use of a computerized maintenance management system (CMMS). Enterprise asset management combines software, systems and services, and system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

This is a comprehensive plan item for the stormwater utility.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Sanitary, Enterprise Asset Management System Software - Water, and Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Fiber

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Funds.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Stormwater Management Program			YEAR FIRST SUBMITTED: 2026 PROJECT NO: 5586500045		TOTAL PROJECT COST $ 1,000,000

PROJECT DESCRIPTION/JUSTIFICATION

This project is in support of the City's efforts to meeting the City Council goal to reduce potential flooding through floodplain management, mitigation, and protection through a well-maintained and operational stormwater system. In 2001, the City hired a consultant to generate a citywide stormwater hydraulic model and to identify/delineate the major drainage basins within the City. This Drainage Basin Master Plan was utilized and updated in 2013 to include the multiple phases of the Bee Branch Watershed Flood Mitigation Project. This project is intended to expand upon these previous efforts by the City to more effectively evaluate and implement stormwater improvements to meet the City's goals to provide floodplain management, mitigation and protection throughout the City.

Management of the City's Municipal Separate Storm Sewer System (MS4) Program requires an understanding of how the infrastructure is performing and how potential, rapid expansion related to growth might impact the system. To maximize the return on investment as to how all stormwater sewer utility dollars are spent in combination with constrained capital and operating budgets, a stormwater management program that identifies and helps prioritize necessary improvements in the short-, mid-, and long-term helps to ensure the system continues to meet the needs of the community and to provide planning level budgets for all recommendations.

The project will assist City staff in establishing a strategic and proactive plan for the management of the sanitary sewer system that shall:

- Develop repeatable and dynamic processes that enable staff to quickly evaluate asset data to assess condition, level of service, and criticality.
- Rank stormwater capital improvement projects based on risk analysis and system performance.
- Identify stormwater utility staffing and resource needs.
- Optimize existing operations and maintenance procedures.
- Evaluate system capacity and improvement requirements to facilitate future city growth areas identified in the Annexation Study.

This is a comprehensive plan item for the stormwater utility. This project will also contribute to the planning for City Council top priority of mitigating neighborhood flooding.

PROJECT DESCRIPTION/JUSTIFICATION
CIP request is for flow meter equipment replacements as part of the inflow and infiltration reduction and Consent Decree programs. Current City flow metering equipment (20 total) purchased in 2010 have exceeded manufacturer design life and require replacement. Funding request includes replacement of 10 flow meters per year for FY27. These are estimated to have at least a 5-year lifespan.

This project is in support of the comprehensive plan for the storm and sanitary sewer utilities.

RELATIONSHIP TO OTHER PROJECTS
This is related to Sanitary Asset Management Program (5581500026), I&I Reduction Program (5581500019) and Stormwater I&I Elimination Program (5586500006).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This can only be funded by Stormwater Construction Funds.

PROJECT ADDRESS/SERVICE AREA

DEPARTMENT:		STATE PROGRAM:	PROJECT TITLE:			YEAR FIRST SUBMITTED: FY27 PROJECT NO: 5586500049		TOTAL PROJECT COST
55 - Engineering / Stormwater		8C - Business Type	Confined Space Drone					$ 100,000
2025 EXPENSE	**2026 BUDGET**	**PROJECT BUDGET**	**2027**	**2028**	**2029**	**2030**	**2031**	**2032**
		A. EXPENDITURE ITEMS						
$ —	$ —	Inspection Equipment	$ 100,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —
		B. PROJECT FINANCING						
$ —	$ —	Stormwater Construction Fund	$ 100,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
Confined space entry presents significant risks including oxygen deficiency, toxic gases, limited mobility, and structural hazards. The use of a confined space drone will reduce the need for human entry during initial inspections, significantly reducing staff exposure to dangerous environments and compliance risk related to OSHA 29 CFR 1910.146 (Permit-Required Confined Spaces).

This project proposes the acquisition of a confined space inspection drone to improve the safety, efficiency, and quality of inspections in hazardous, difficult-to-access, or regulated environments such as tanks, tunnels, boilers, ducts, underground utilities, and other confined spaces. This drone will be integrated into our maintenance and asset management workflows, reducing the need for personnel entry into confined spaces and providing high-resolution visual and LiDAR-based data for accurate condition assessments. This drone will predominantly be utilized for large diameter storm sewer inspection, particularly those with annual inspection requirements associated with the US Army Corps Flood Protection Levee system.

High quality inspection and measurement data for the stormwater or sanitary assets inspected that is collected by the confined space drone will be incorporated with the City's ongoing asset management efforts. Investing in a confined space inspection drone aligns with our commitment to safety, operational excellence, and smart capital planning. The technology not only protects personnel but enhances our ability to manage critical infrastructure efficiently and responsibly.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Sanitary Sewer Asset Management Program (CIP #5581500023) and the Stormwater Management Program (CIP #5586500045).

OUTCOME
Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Funds or Sanitary Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This CIP is for the ongoing maintenance, rehabilitation, and necessary upgrades of existing stormwater detention basins throughout the jurisdiction. Stormwater detention basins play a critical role in flood mitigation, water quality improvement, and erosion control by temporarily storing stormwater runoff during rain events and releasing it at controlled rates. Over time, these basins accumulate sediment, vegetation overgrowth, and debris, which can reduce their capacity and effectiveness, compromise structural integrity, and lead to regulatory noncompliance under local, state, and federal stormwater regulations (e.g., MS4 permits).

This CIP will help ensure the proper functioning of detention basins through a proactive maintenance program that includes:

- Sediment and debris removal
- Vegetation management and invasive species control
- Repair of structural components (e.g., inlets, outlets, embankments, and spillways)
- Regrading and erosion repair
- Inspection and condition assessment reports
- Compliance with NPDES/MS4 requirements

The funding will support a combination of in-house maintenance efforts and contracted services as needed. Improvements made through this program will extend the service life of the basins, reduce downstream flooding risk, improve water quality, and ensure compliance with environmental standards.

PROJECT DESCRIPTION/JUSTIFICATION

This CIP provides for the systematic maintenance, rehabilitation, and repair of stormwater runoff drainage channels throughout the jurisdiction. These open channels—ranging from natural streams, valleys and ditches to engineered swales and concrete-lined conveyances—are essential components of the community's stormwater management system. They safely convey stormwater runoff from developed areas to detention basins, creeks, and rivers, helping to prevent localized flooding and protect water quality.

Over time, drainage channels can become obstructed by sediment, debris, vegetation overgrowth, erosion, and structural damage. Without regular maintenance and repair, these issues reduce flow capacity, increase flood risk, and cause property damage, infrastructure degradation, and environmental harm.

This CIP will help support a proactive and sustainable approach to stormwater channel maintenance by funding:

- Sediment and debris removal
- Erosion control and bank stabilization
- Vegetation management and invasive species removal
- Structural repairs to lined channels, headwalls, culverts, and outfalls
- Regrading and reshaping to restore flow characteristics
- Channel inspections and condition assessments
- Compliance with stormwater management and environmental permitting requirements (e.g., MS4, NPDES)

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the construction of a new stormwater pumping station on Kerper Boulevard so that the City can decommission the existing pump station system installed as part of the John C. Culver Floodwall/Levee system that prevents the Mississippi from flooding the Bee Branch Watershed. The new facility will include a new flood gate, four new 90,000 gallon per minute pumps (roughly double the capacity of the existing facility), new electrical service, and the installation of an back-up generators. The improvements will provide a system that can accommodate the flooding that has been occurring since 1999, flooding that has resulted in six presidential disaster declarations due to public and private property damage, impacting more than 1,300 homes and businesses. It also provides for additional resiliency options as rainstorms increase in both depth and intensity. This project is Phase 5 of the Bee Branch Watershed Flood Mitigation Project.

RELATIONSHIP TO OTHER PROJECTS

This project is one phase of the Bee Branch Watershed Flood Mitigation Project whose phases are as follows: Phase 1 - Carter Road Detention Basin; Phase 2 - W.32nd Street Detention Basin; Phase 3 - Historic Millwork District; Phase 4 - Lower Bee Branch Creek Restoration; Phase 5 - Bee Branch Flood Mitigation Gate Replacement Project; Phase 6 - Impervious Surface Reduction (Previous Pavement Systems); Phase 7 - Upper Bee Branch Creek Restoration; Phase 8 - 22nd St/ Kaufmann Ave Storm Sewer Improvements; Phase 9 - Flood Maintenance Facility; Phase 10 - North End Storm Sewer Improvements; Phase 11 - Water Plant Flood Protection System; Phase 12 - 17th St/W. Locust Street Storm Sewer Improvements.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:		TOTAL PROJECT COST

$ —	$ —	TOTAL	$ —	$ —	$ 450,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for lining and associated grouting of approximately 550 linear feet of the existing large diameter stormwater sewer main located within the limits of the new Schmitt Island Amphitheater project. Lining a sewer pipe results in a new pipe (inside the old) with a useful life of 50 years or more. Lining a pipe can be far more cost effective as it does not require excavation and associated surface restoration. Pipe lining improves flow characteristics, mitigates maintenance issues such as intrusive roots and debris buildup, and can provide structural stability to aging or failing pipe.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Schmitt Island Amphitheater (CIP# 5575000022) project.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Stormwater sewer system improvements will be made to the existing system on Chaplain Schmitt Island adjacent to the proposed Amphitheater.

PROJECT DESCRIPTION/JUSTIFICATION

The purpose of this project is to increase the capacity of the storm sewer from the Lower Bee Branch Creek up 17th Street to West Locust Street. A larger storm sewer and additional high-capacity storm drains will help alleviate the flash flooding frequently experienced on these streets. This funding request is for the stormwater portion of the full reconstruction from the end of Phase 3, Heeb Street completed in 2021, to Kirkwood Street. This project will also address sanitary sewer capacity concerns within the Consent Decree Sewershed 11. The Grant is yet to be awarded.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Roadway projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded through stormwater construction funds, state revolving loan funds or federal grant opportunities.

PROJECT ADDRESS/SERVICE AREA

W 17th St/Locust St from Heeb St to Kirkwood St

PROJECT DESCRIPTION/JUSTIFICATION
This Capital Improvement Plan (CIP) proposes the engineering design and construction of stormwater management infrastructure for the area bounded by Pennsylvania Drive, Keymont Court, and Keyway Drive. Since the construction of the subdivision, the natural drainage way behind residential properties along North Fork Catfish Creek has experienced significant erosion.

A contributing factor to this issue is improper filling practices by private land developers, who placed unstable fill materials within the floodplain and natural drainage area. These poor-quality materials have since eroded, causing severe undercutting—now reaching less than 10 feet from some residential foundations—raising substantial health and safety concerns.

This CIP request focuses on a City-owned parcel within the affected area that includes the drainage way and floodplain. The proposed improvements include the installation of energy dissipation structures to reduce downstream erosion, realignment of the drainage way to increase separation from nearby homes, and slope stabilization to protect adjacent properties and ensure resident safety.

This project will be designed all at once, but bid for construction in phases as funding allows.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME

$ —	$ —	TOTAL	$ —	$ —	$ 240,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Plan (CIP) proposes the engineering design and construction of stormwater management infrastructure for the Pebble Cove subdivision. During the heavy rainfall events of summer 2024 and 2025, the area experienced widespread and recurring damage due to inadequate stormwater conveyance systems. Following a detailed hydraulic analysis, the City identified multiple phases of improvements aimed at both repairing past damage and mitigating future stormwater-related issues.

The first phase focuses on a City-owned parcel located on Peach Tree Lane. Originally designated as a future park site, the parcel has remained undevelopable due to severe erosion caused by uncontrolled stormwater runoff. As the farthest upstream source of stormwater discharge in the subdivision, this site has been prioritized for initial improvements. This CIP funding request seeks to implement energy dissipation measures at this location to reduce downstream erosion and stabilize the area. These improvements will also prepare the site for future park development.

Funding for future phases of improvements will be requested in later years as needed.

$ —	$ —	TOTAL	$ —	$ —	$ 252,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for streambank stabilization where stormwater enters the NW Arterial Detention Basin from the west. Currently, stormwater flows into the basin over a rip-rap rock flume, which has repeatedly been washed out during heavy rains, causing erosion and damage to the basin and leading to increasingly high maintenance and repair costs. The proposed stabilization work will address these recurring issues by reinforcing the streambank, reducing erosion, and minimizing long-term maintenance needs. While the project was previously budgeted, the cost of the recommended improvements exceeded the original allocation. The project name has also been updated from NW Arterial Detention Basin Improvements to Teddy Bear Park Streambank Stabilization. Following the mid-July storms, multiple residents in the area submitted service requests related to erosion concerns, further underscoring the need for these improvements.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed in the vicinity of Teddy Bear Park.

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 320,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project includes the removal and replacement of approximately 800 linear feet of undersized storm sewer located west of Harvest View Drive and south of the residential properties along Millstone Drive. The existing storm sewer has been identified as under sized, with no underground storage due to the shallow depths, and has been unable to adequately serve the adjacent properties. Several adjacent properties experienced significant flooding damage during rain storms in 2024 and 2025 when the stormwater runoff was unable to enter the overfull storm sewer, surcharging into the adjacent property basements. This project will upsize the undersized storm sewer and replace deeper, to allow for additional storage capacity in the system. The project will also include some localized regrading within the stormwater drainage easement to promote non erosive conveyance of the contributing stormwater runoff.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION
This project involves repairing a storm sewer located between 545 Primrose Court and 565 Primrose Court. In late July 2025, City staff received a service request from a resident concerning a 15-inch storm pipe running adjacent to his backyard, and upon inspection, staff identified multiple offset joints and significant erosion issues associated with the pipe. To address these concerns, the project will clear brush in the affected area, repair or replace damaged sections of the storm pipe, and install outlet protection to prevent future erosion, thereby restoring the integrity of the storm sewer system and safeguarding nearby properties.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Stormwater Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

The City sanitary sewer system includes more than 7,500 manholes and 300 miles of pipeline. With a typical design life of 60 to 70 years, a large portion of the City's sewer system has exceeded their expected service life, with approximately 10% of the system over 100 years old. Every year, in the course of their daily maintenance activities inspecting manholes and sewer mains, the Public Works Department identifies manholes and pipelines in need of repair or replacement, either due to structural/safety issues or due to excessive levels of inflow and infiltration (I&I). The City has initiated efforts to inspect and characterize the condition of the 300+ mile sanitary sewer system in order to prioritize high risk section sewers through the Sanitary Sewer Asset Management Program (CIP #5581500026). However, this project provides funds for the unplanned or emergency replacement of the City's sanitary sewer system when significant and potentially hazardous defects are discovered and require immediate attention.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Asset Management Program (CIP 5581500026).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

Management of the City's sanitary sewer collection system requires an understanding of how its aging infrastructure is performing in older areas of the City and how potential, rapid expansion related to growth from the completion of the Southwest Arterial and newly annexed areas might impact the system. To maximize the return on investment as to how all sewer utility dollars are spent in combination with constrained capital and operating budgets, an asset management plan that identifies and helps prioritize the sewer improvements necessary in the short-, mid-, and long-term to ensure the system continues to meet the needs of the community and to provide planning level budgets for all recommendations. The consultant will assist City staff in establishing a strategic and proactive plan for the management of the sanitary sewer system that shall:

- Develop repeatable and dynamic processes that enable staff to quickly evaluate asset data to assess condition, level of service, and criticality.
- Rank sanitary sewer capital improvement projects based on risk analysis and system performance.
- Identify sanitary sewer utility staffing and resource needs.
- Optimize existing operations and maintenance procedures.
- Evaluate system capacity and improvement requirements to facilitate future City growth areas identified in the Annexation Study.

The City has retained the services of a consultant engineer starting FY24 and is nearing the completion of the major task items that were identified in the program roadmap and staff have begun utilizing program results in CIP budgetary requests. The recurring funding requested is for annual hydraulic and risk model maintenance and updates for project reprioritization as data is collected each year. Model updates will aid the City in CIP planning. Funds may also be utilized for additional, future task orders that were identified in the program road map.

This is a Comprehensive Plan Item for the sanitary utility.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the sanitary sewer utility in support of the City's efforts to meeting the City Council Goal of implementing an enterprise asset management system through use of a computerized maintenance management system (CMMS). Enterprise asset management combines software, systems and services, and system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

This is a Comprehensive Plan Item for the sanitary utility.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Stormwater, Enterprise Asset Management System Software - Water, Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Fiber (all currently unfunded)

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides Phase 1 for a new lift station within the Catfish Creek Interceptor Sewershed near Old Mill Road and 5,100 feet of new force main between the lift station and the Water & Resource Recovery Center (W&RRC). The improvements include a 20 million gallon per day (MGD) lift station, dual force main pipe to the Water & Recourse Recovery Center (W&RRC), and improvements at the W&RRC to accommodate the additional flow at the headworks of the treatment system. The existing Catfish Creek Lift Station (CCLS) will remain in place, primarily serving the Granger Creek sewershed and properties along HWY 151-61.

The existing CCLS and W&RRC, were originally constructed in the late 1960's. Since then, the community has grown and expanded. While the W&RRC was updated in 2010, the CCLS was last studied and updated in 1995 based on a 25-year planning period. Based on the actual growth that has occurred since 1995, the wastewater flows to the lift station are slightly higher than what was anticipated. Operating beyond the 25-year planning period, it was time to reevaluate the CCLS. FY22 funding provided for the development of a facility plan to evaluate the existing CCLS and identify the need for potential upgrades. Multiple options were considered, including upgrades to the existing lift station. The engineering analysis ultimately identified a preferred alternative: the Old Mill Road Lift Station and Force Main improvements. Increased construction costs for FY25-26 was included to account for up to date equipment pricing and revised force main alignments required from archeological review.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Catfish Creek Sewershed Interceptor Sewer Improvements projects (not funded yet).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for systematic upgrades to the Catfish Creek Sanitary Interceptor Sewer system which branches out along the Middle Fork Catfish creek. The system will be upsized along the Middle Fork Catfish Creek from Old Mill Road 9.9 miles to the Dubuque Industrial Center West. The Catfish Creek Interceptor Sewer was constructed circa 1960. Extending westward from the Water & Resource Recovery Center, it has allowed for the development of nearly 2,500 acres over the last two decades which includes residential subdivisions, the Dubuque Industrial Center West, and service to the Dubuque Metro Solid Waste Agency. The existing sanitary sewer was identified as being at or exceeding capacity.

This third phase of improvement will provide for the design, permitting, easement acquisition, and construction services for sewer upsizing along the Middle Fork interceptor from Old Mill Road to Brunskill Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Master Plan Asset Management (CIP# 5581500026) and the SWA Middle Interchange Sewer Extension projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for systematic upgrades to the Catfish Creek Sanitary Interceptor Sewer system which branches out along the South Fork Catfish creek. The sewer system will be upsized from Old Mill Road along the South Fork Catfish Creek 6.9 miles to the Dubuque Metropolitan Solid Waste Agency. The Catfish Creek Interceptor Sewer was constructed circa 1960. Extending westward from the Water & Resource Recovery Center, it has allowed for the development of nearly 2,500 acres over the last two decades which includes residential subdivisions, the Dubuque Industrial Center West, and service to the Dubuque Metro Solid Waste Agency. The existing sanitary sewer was identified as being at or exceeding capacity.

This fourth phase of improvement will provide for the design, permitting, easement acquisition, and construction services for sewer upsizing along the South Fork interceptor from Old Mill Road to North Cascade Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Master Plan Asset Management (CIP# 5581500026) and the SWA Middle Interchange Sewer Extension projects.

PROJECT DESCRIPTION/JUSTIFICATION

This project addresses reliability improvements to the existing gravity sanitary sewer system and to the Dog Track Sanitary Lift Station located on Chaplain Schmitt Island. This project will also address the maintenance concerns regarding reversed slopes and reduce the inflow and infiltration identified within the Island sewer service area. In addition, this project will provide for the evaluation of the City owned lift station and pressurized force main system for improvements that would support the anticipated developments that have been identified as part of the Chaplain Schmitt Island Master Plan project.

Project construction was delayed due to unanticipated costs of historic landfill disposal fees, as well as new feedback from Island stakeholders to relocate the proposed lift station. Design changes requested are significant and will not allow the construction to meet the original targeted schedule. Project funding requests is for future year funding to construct the revised sanitary system design with SRF loan funds in a year that no other Island development is ongoing that would impede construction schedule. Temporary flow control measures will be implemented as needed in the interim to maintain adequate capacity service for the existing and active developments to account for the delay in correcting the inadequate existing sewer.

This project meets the requirements of the planned developments for the Chaplain Schmitt Island Master Plan.

RELATIONSHIP TO OTHER PROJECTS

This project relates to the Chaplain Schmitt Island construction.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

$ —	$ —	TOTAL	$ 80,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This CIP request is for a sanitary sewer sedimentation filter or trap to be installed in line with the existing sanitary sewer system within the Water Treatment Plant property, which discharges to the existing system along Kerper Boulevard. In current practices, the drainage and sediment from the Water Treatment Plant Washout Facility is currently discharged directly to the sanitary sewer. There has been excessive sedimentation identified in the sanitary sewer along Kerper Boulevard, exceeding half the pipe capacity, which has incurred an extraneous need for recurring cleaning of the pipe and potential impacts to downstream pumping equipment. This project will place a new sediment trap within the existing sewer so that maintenance crews can capture and remove the washed out sediment in one location and prevent it from impacting downstream sewer.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Trackline Sanitary Sewer Reconstruction (CIP #5581500034) projects

OUTCOME

Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Kerper Boulevard, near the Water Treatment Plant

$ —	$ —	TOTAL	$ 50,000	$ 500,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the relocation of sanitary sewer running through the center of Parcel # 1027151018 off of JFK Road. Currently the sanitary sewer serves properties on both sides of JFK Rd and runs through the center of this undeveloped parcel, limiting future development potential. Over the years there has been filling of the vacant lot, causing the existing 8 inch sewer to fail in several locations as well as being over 30 ft in depth, making it inaccessible for maintenance or cost effective repairs. This project will provide for the replacement of failed sections of sewer and realignment of the sewer in an alignment that would facilitate future development of the lot.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded by Sanitary Sewer Construction Funds or State Revolving Loan Fund

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the existing Key West Lift Station off of Gateway Dr. The new lift station will be located near the existing lift station. The existing lift station was constructed in 1989 and is nearing the end of its expected useful life. The existing lift station has been identified by maintenance staff as being in need of replacement, incurring extraneous maintenance costs to maintain service. The existing lift station cannot be upgraded within the constraints of the existing structure and accommodate existing and future flow within the service area limits. The existing lift station will be removed upon completion of the new lift station, force main, and gravity sewer.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded by Sanitary Sewer Construction Funds or State Revolving Loan Fund

PROJECT ADDRESS/SERVICE AREA

Lake Eleanoor Road, just east of Timothy St.

PROJECT DESCRIPTION/JUSTIFICATION

The Sanitary Sewer Asset Management Program (CIP #5581500026) has identified this service area (SSAMP Service Area 3-8-1-1) as a high risk sanitary sewer basin, within the top 20 highest risk basins of the City out of approximately 160 identified by the SSAMP. This basin is located in the North Fork Catfish Creek sewershed, and has both recently and historically been measured to have elevated levels of inflow and infiltration (I&I), contributing to the Catfish Creek sanitary sewer capacity constraints downstream.

This project will provide for a detailed analysis of the sanitary sewer within the service area limits. The first two years of this project will include the closed circuit television (CCTV) inspection of every pipe to document current condition, detailed I&I study within the service area to include activities such as smoke testing, dye testing, and flow monitoring activities to establish baseline pre-project completion flows, and the development of a phased improvement facility plan that would address identified defects within the service area. As part of this analysis, there will also be an evaluation of the adjacent City owned infrastructure and utilities so that improvements to those could be completed in conjunction with the sanitary improvements. The construction of the first or second phases of identified improvements would be completed in the second or third year pending funding availability. The remaining identified phases would be budgeted in future years as funding allows.

Taking a risk based approach, basin by basin, as identified by the SSAMP has allowed the City to consolidate general CIP requests and target those funds in areas that have the most need and benefit of addressing.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION

The Sanitary Sewer Asset Management Program (CIP #5581500026) has identified the South Port area of the Terminal St Lift Station service area as a high risk sanitary sewer basin. There are multiple sewer basins immediately adjacent to the Terminal St LS located in the South Port area that have both recently and historically been measured to have elevated levels of inflow and infiltration (I&I), contributing to capacity related issues with the Terminal St LS.

This project will provide for a detailed analysis of the sanitary sewer within the service area limits. The first two years of this project will include the closed circuit television (CCTV) inspection of every pipe to document current condition, detailed I&I study within the service area to include activities such as smoke testing, dye testing, and flow monitoring activities to establish baseline pre project completion flows, and the development of a phased improvement facility plan that would address identified defects within the service area. As part of this analysis, there will also be an evaluation of the adjacent City owned infrastructure and utilities so that improvements to those could be completed in conjunction with the sanitary improvements. The construction of the first or second phases of identified improvements would be completed in the second or third year pending funding availability. The remaining identified phases would be budgeted in future years as funding allows.

The identified phases of this project will also address the reliability improvements needed to the Terminal Street Lift Station, as well as, the associated 30-inch diameter Cedar Street and 42-inch diameter Terminal Street force mains that connect the two lift stations to the Water & Resource Recovery Center (WRRC). The existing lift station is in need of rehabilitation or replacement, as identified by the 2019 analysis, as well as multiple recent failures requiring the station to be placed on bypass.

This project will coordinate phases of improvements to address high risk sanitary sewer, accommodate the South Port Redevelopment Master Plan, and address potential need for Terminal St LS relocation pending the upcoming Iowa Department of Transportation (IDOT) Julien Dubuque Bridge replacement project.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY27 PROJECT NO:	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of a section of the effluent line from the Water & Resource Recovery Center (W&RRC), including 20 linear feet of 42-inch diameter gravity sewer and 50 linear feet of 54-inch diameter gravity sewer. In June 2011, during the construction of the WRRC, the effluent outfall sewer was inspected and found to be in poor condition and need of repair.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of approximately 400 linear feet of 8-inch diameter vitrified clay sanitary sewer along Grove Terrace. The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan. This project shall be coordinated with storm sewer and water main improvements. The 8-inch diameter vitrified clay sanitary sewer was installed in the early 1900's and has deteriorated to the point that reconstruction is necessary. In addition, property owners have indicated their laterals need to be replaced and in some locations laterals need to be separated to ensure uninterrupted service and reduce the risk of back up.

RELATIONSHIP TO OTHER PROJECTS
This project is related Grove Terrace Sanitary Sewer Reconstruction (Consent Decree Support - Water).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary Sewer Construction Funds or an SRF loan.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the phased relocation of 5,150 feet of the 12-inch diameter sanitary sewer that runs along the railroad tracks from Hawthorne Street to Fengler Street. The existing clay tile sewer that was installed in the 1920's still functions; however, the influx of sand and proximity of the adjacent railroad tracks has increasingly made the sewer difficult to maintain and indicates that groundwater is infiltrating into the pipe. The sewer has multiple failing sections and is undersized from hydraulic modeling results. Proximity to the adjacent railroad prohibits access for maintenance or rehabilitation activities. The sewer requires relocation to City right of way, with redirection of private laterals. The project is located adjacent to Consent Decree Sewershed 10.

The design, permitting, and easement acquisition for the relocation of the track line sewer located between Hawthorne St and Roosevelt St began in FY26 and will continue through FY27. The funding in FY28 will provide for the actual relocation of the track line sewer located between Hawthorne St and Roosevelt St.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 1,050 feet (existing alignment) of 6-inch diameter vitrified clay sanitary sewer along Maiden Lane, Cooper Place, and Raymond Place. The existing 6-inch sewer will be replaced with 8-inch diameter PVC sanitary sewer. The existing 6-inch diameter vitrified clay sanitary sewer has been identified as a source of inflow and infiltration. There are multiple offset joints and pipe fractures showing the pipe is in need of rehabilitation or replacement. The sewer is not able to be rehabilitated using trench-less methods due to the challenges associated with reinstating services on small diameter line; and is scheduled for removal and replacement with a larger diameter sewer to improve operation and future maintenance. The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

$ —	$ —	TOTAL	$ 200,000	$ 550,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 1,000 feet (existing alignment) of 8-inch diameter vitrified clay sanitary sewer on Hempstead Street from Kaufmann Street to Lowell Street. The existing clay tile sewer that was installed in 1924 has deteriorated to the extent that cracks and sags in the pipe result in poor performance. The sags and cracks require increased maintenance of the pipe and allow the inflow of extraneous groundwater into the sanitary sewer system. The current alignment places the sanitary sewer close to private property such that realignment of the sewer may be warranted. The sewer is located in Consent Decree Sanitary Sewershed 7 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS

This project is related Hempstead Reconstruction (Consent Decree Support - Water), Hempstead Reconstruction (Consent Decree Support - Stormwater), and Hempstead Reconstruction (Consent Decree Support - Roadway).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction funds or SRF funds.

PROJECT ADDRESS/SERVICE AREA

Hempstead Street from Kaufmann Street to Lowell Street

$ —	$ —	TOTAL	$ —	$ 50,000	$ 500,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of 1,200 feet of 8-inch diameter clay sewer with an 8-inch ductile iron sewer. The age of the existing clay sewer runs through a wooded area that has resulted in root intrusions and defects in the pipe. The project will result in a watertight line that will prevent inflow and infiltration (I & I) from getting into the sewer system.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA
Project involves the reconstruction of the sanitary sewer that runs behind the houses on Knob Hill Drive, from 2575 Knob Hill to 2499 Knob Hill.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY27	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION

The purpose of this project is to increase the capacity of the storm sewer from the Lower Bee Branch Creek up 17th Street to West Locust Street. A larger storm sewer and additional high-capacity storm drains will help alleviate the flash flooding frequently experienced on these streets. This funding request is for the sanitary portion of the full reconstruction from the end of Phase 3, Heeb Street completed in 2021, to Kirkwood Street. This project will also address sanitary sewer capacity concerns within the Consent Decree Sewershed 11.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater, 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Roadway projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded through sanitary construction funds, state revolving loan funds or federal grant opportunities.

PROJECT DESCRIPTION/JUSTIFICATION

This project was identified by the City Council as a 2024 - 2026 Top Priority. The City was awarded a $2.28 million US DOT RAISE Infrastructure Planning grant and a $25 million RAISE Capital grant to assist in funding for the project entitled “Building Bridges to Elevate Employment (B2E2)”. The multi-year funding for this project will provide for the planning, design, and construction of a multimodal transportation corridor project for proposed improvements to the Elm Street corridor, the 16th Street corridor, the Kerper Boulevard corridor, Chaplain Schmitt Island corridor, and the proposed 14th Street railroad (vehicular and pedestrian) overpass bridge project.

The improved multimodal transportation corridors will connect vulnerable neighborhoods and low-income residents with economic opportunities, recreational amenities and key community resources in the Kerper Boulevard Industrial Park, on Chaplain Schmitt Island, in downtown Dubuque and its Historic Millwork District, and on the west side of the City via the downtown Intermodal Transportation Center.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY2024	TOTAL PROJECT COST
55 - Engineering / Street	2C - Public Works	14th Street Overpass	PROJECT NO: 5521000009	$ 36,144,000

PROJECT DESCRIPTION/JUSTIFICATION (cont.)
Improving safety for all users is a key goal of the B2E2 project. The impending increase in train traffic due to the merger of the Canadian Pacific and Kansas City Southern railroads is projected to double the number of trains passing daily through the downtown urban core of the City from 9 trains to 18 trains by 2027. A primary focus of the B2E2 project is the elimination of an at-grade rail crossing conflict on 14th Street and provide for a proposed vehicular and pedestrian overpass bridge which will connect downtown residents to job opportunities while avoiding train crossing delays that negatively impact the safe and efficient movement of people and goods to and from the Kerper Boulevard Industrial Park and Chaplain Schmitt Island.

The entire B2E2 project has been broken down into 15 separate elements with 9 elements needing to be delayed to future phases, and 6 elements were included and awarded as part of the RAISE Capital grant. The project will focus on multimodal transportation corridors with “complete streets enhancements” along the Elm Street and 16th Street corridors, an improved pedestrian/bike shared use path on the existing 16th Street Peosta Channel bridge to Chaplain Schmitt Island, proposed roundabout intersections at 16th/Sycamore and at 16th/Greyhound Park/Admiral Sheehy Drive intersection, and vehicular and pedestrian overpass bridge on 14th Street over the railroad tracks.

RELATIONSHIP TO OTHER PROJECTS
U.S. Department of Transportation (USDOT) RAISE Infrastructure Planning Grant, and Schmitt Island Master Plan

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project is identified in the comprehensive plan and is a City Council 2025 - 2027 High Priority. This project will provide funding to implement recommendations outlined in the adopted Central Avenue Streetscape Master Plan along Central Avenue between 11th and 22nd Streets, as well as recommendations from the traffic study for the Central and White Street corridors

The Central Avenue and White Street corridor traffic study was completed in January 2025. Current funding is for the Central Ave & White St Design phase I, which includes design work for

1. Restriping the whole corridor (pavement markings) for transition for future construction and visual changes to the corridor,
2. On-Street Parking removal analysis for any off-street needs,
3. Construction design for Central Ave, White St, and the side streets in multiple sections (bite size pieces) from 14th St to 22nd St. and
4. Construction Design for the Cycle Track along the west side of White St.

The FY26 includes $400,000 for engineering design services and $1 million to create proposed new public parking opportunities to replace on street spaces lost on Central and White Streets, if applicable. FY27 is funding for the restripe design of the entire Central Avenue and White Street corridor, 4th-22nd, and continue the FY26 design work. FY28 is improvements from 14th - 17th Street. FY29 is improvements from 17th - 20th Street, and continue improvements to 14th -17th Streets. FY30 is funding for construction of the Cycle Track on the west side of White Street from 5th to 19th Street, and to continue improvements from 17th - 20th Streets. FY2031 and beyond will require $14 million in additional investment to do 20th - 22nd, and 4th -14th Street on Central Avenue and White Street.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2023	TOTAL PROJECT COST
55 - Engineering / Street	2C - Public Works	Central Avenue White Street Corridor Master Plan Design and Implementation Improvements 4th - 22nd Street	PROJECT NO:	5521000065	$ 9,770,000

PROJECT DESCRIPTION/JUSTIFICATION (cont.)

The Corridor is beginning to see private investment in building improvements and business location. The implementation of public infrastructure improvements is needed to support and leverage that private investment by creating a more pedestrian-friendly, complete streets corridor and attracting residents from other areas of the community.

It is anticipated that this project may have an impact on operating costs associated with infrastructure improvements, although those costs are unknown until the specific improvements and amenities in the corridor are identified and implemented. These costs will be integrated into the budgets of departments whose staff will be maintaining these improvements, as progress is made. This effort addresses the Comprehensive Plan goal of creating walkable, mixed-use areas.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the adopted Central Avenue Streetscape Master Plan, the Central Avenue / White Street Traffic Study for 1-Way to 2-Way Conversion (Project #5524000038), Central Avenue Streetscape Design 1-Way to 2-Way (Project #5521000017), and Central Avenue Corridor Streetscape Master Plan Implementation (Project #6051000001).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Increase the visual appeal and beauty of the city with attractive gateways, corridors, streetscapes/ landscaping.

FUNDING RESTRICTIONS

Downtown TIF, G.O. Debt (GDTIF), Sales Tax 30%, Road Use Tax

PROJECT DESCRIPTION/JUSTIFICATION

In 2022, the Iowa Department of Transportation (Iowa DOT) completed a study to evaluate operational and capacity improvements along US20, between Cresent Ridge and Old Highway, with a specific emphasis on the US20 / Northwest Arterial intersection. Several concepts and design variations were vetted, and a preferred alternative was selected. The proposed improvements recommend closing all at-grade accesses on the south side of US 20 between Old Highway and Crescent Ridge, close the south leg of the NW Arterial intersection, and add a new south side frontage road between Old Highway and Crescent Ridge. The plan also recommends closing all at-grade accesses on the north side of US 20 between Old Highway and Northwest Arterial and provide a new north side frontage road extending east from Old Highway intersection. Additionally, the project proposes adding dual eastbound left turn lanes onto the Northwest Arterial, adding a westbound bypass right turn lane onto the Northwest Arterial, and operational reconfiguration at the Northwest Arterial and Crescent Ridge intersections. In partnership with the Iowa DOT, the City has identified approximately $6 million to assist in funding the proposed US20 / Northwest Arterial intersection improvements, which will leverage a $12 million allocation from the Iowa DOT. The $18 million operational and capacity improvements have been recommended by Iowa DOT staff for consideration in the Iowa DOT's past FY25-29 and FY26-30 Transportation Improvement Programs, however, did not get funded. Iowa DOT staff will submit the project again in FY27-31 for Iowa DOT Commission consideration. The grant is yet to be awarded.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the STREETS Project (5524000018)

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30%, Road Use Tax, DMATS STBG, State and Federal Grants

PROJECT DESCRIPTION/JUSTIFICATION

The City Council listed the East - West Corridor Capacity Improvement Implementation as a “High Priority” in its 2025 - 2027 Goals and Priorities. In an effort to advance this priority, the City has already completed the following improvements:

2016 - Property Acquisition for $853,000
2017 - Grandview / Delhi Roundabout for $827,000
2018 - Loras / Grandview Traffic Signals for $370,300
2019 - University / Grandview Roundabout for $1,200,000
TOTAL $3,250,300 in improvements to date.

The City and consultant team are currently working to complete the planning, preliminary engineering design and the NEPA environmental clearance phase to advance the development of East-West Corridor Capacity Improvements along University Avenue. In February 2025, the City hosted an open house public information meeting for the East-West Corridor Capacity Improvements. The preliminary design and results of the environmental study were presented to stakeholders and the public for review and provide input. The project team is currently using that feedback as they continue to refine the preliminary design for the corridor improvements. A second public information meeting will be held in summer of 2026.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2010	TOTAL PROJECT COST
55 - Engineering / Street	2C - Public Works	East - West Corridor Capacity Improvements	PROJECT:	5521000001	
				300-1039, 360-1039	$ 18,600,000

PROJECT DESCRIPTION/JUSTIFICATION (Continued)
In December 2023, the City received official guidance from the Iowa DOT that the DMATS STBG funds allocated for the east-west corridor project can only be used for eligible construction costs moving forward. This significant change in the use of federal and state transportation funds has created obstacles and challenges for completion of this project.

Since the City previously budgeted the east-west corridor project was based on grant funds to assist with all phases of project development, including final design, property acquisition, and construction, the City will need to evaluate how this shift in funding eligibility has impacted the City's ability to develop and advance the project. The City must identify local funding or grants to complete final design, conduct property acquisition, and construct the proposed corridor improvements. The adopted FY26 budget included $1 million dollars to continue to advance the development of East-West Corridor Capacity Improvements along University Avenue.

In January 2026, the USDOT issued the Notice of Funding Opportunity (NOFO) for the 2026 Better Utilizing Investments to Leverage Development (BUILD) Grant Program. In February 2026, the City submitted an $18.5 million BUILD grant application for the East-West Corridor Capacity Improvements Project. We have not yet received the grant.

The BUILD grant requested funding will support improvements to a 0.6-mile corridor along University Avenue, from Pennsylvania Avenue to Delhi, and will include final design, property acquisition, construction, and grant administration. The University “Overlap Section” will be transformed into a Complete Street corridor with new roundabouts at Pennsylvania Avenue, Asbury Road, Loras Boulevard, and Delhi; enhanced crosswalks near the roundabouts; pedestrian and bike accommodations along the segment.

The FY27-31 proposed budget provides funding which aligns with the proposed project development schedule as outlined in the BUILD grant application. If the City is fortunate enough to be awarded a BUILD grant, the total project cost estimate is $18.5 million, and the federal awarded funding would cover 80% of eligible costs ($14.4 million), which is included in this budget request. The City’s 20% local match ($4.1 million), in addition to other City project administrative expenses that would be considered as non-eligible costs, are also included in this budget request.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), Road Use Tax, Greater Downtown TIF, DMATS STBG funding and other eligible Federal and State grant funding.

PROJECT ADDRESS/SERVICE AREA
University Avenue, from Pennsylvania Avenue to Delhi

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to be used throughout the City for the reconstruction of alleys using pervious pavements. This will fund one alley per year as property owners agree to an assessable project. This project addresses alleys not in the Bee Branch Watershed. Potential funding includes the Storm Water Utility. This project helps with the reconstruction of alleys that are badly deteriorated and help reduce the stormwater runoff from these areas. The pavement system allows the water to infiltrate the pavement and recharge the water table rather than be diverted to the storm sewer system and discharged to the river.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce potential flooding through flood plain management, mitigation and protection through a well-maintained, operational stormwater system.

FUNDING RESTRICTIONS
This project is restricted to Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax, along with SRF Clean water funds can be used if available.

PROJECT ADDRESS/SERVICE AREA
Non Bee Branch alleys throughout the city

PROJECT DESCRIPTION/JUSTIFICATION

This annual recurring budget provides for pavement markings on City streets. Markings typically include centerlines, lane lines, edge lines, curb medians, diagonal gore markings, crosswalks, stop bars, arrows, word messages, railroad crossings, and disability symbols. Bike lanes and other multi- mobility elements are included in the annual pavement marking program. In 2016 the City entered into an agreement with the Iowa Department of Transportation (DOT) to include pavement markings on DOT-designated roadway segments within the City, and the Iowa DOT would reimburse the City for actual costs incurred. The City follows Statewide Urban Design and Specification (SUDAS), Iowa DOT, and the Manual on Uniform Traffic Control Devices (MUTCD) standards when implementing the annual pavement marking program throughout the City.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves street maintenance which is a 2025 - 2027 City Council Top Priority. This annual reoccurring budget provides funding to either purchase material for Public Works to perform joint sealing or contract for the routing, cleaning and sealing of pavement joints around the City of Dubuque. It is very important to seal cracks in asphalt and concrete pavements as a proactive preservation practice to minimize water intrusion to extend the service life of the pavement. This will also include crack sealing of trail pavements. This project funding would supplement the work Public Works currently performs. In FY 27 this work includes sealing joints on the Northwest Arterial bike trail. This also includes work to re-surface the bike trail. It's been 19 years since the trail was paved and needs maintenance.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works annual overlay program (5421000003), Street Construction General Repairs (5521000012), Pavement Rehabilitation - Concrete Street Repair, Mill and Asphalt Resurfacing (5521000018), Pavement Rehabilitation - Dowel Bar Concrete Joint Repair

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves street maintenance and pavement rehabilitation which is a 2025 - 2027 City Council Top Priority. This annual reoccurring budget provides funding to complete pavement rehabilitation on concrete and asphalt streets that are in a deteriorating condition. The streets applicable for pavement rehabilitation are exhibiting significant slab and joint deterioration. Public Works staff has performed street patching maintenance; however, the pavements require major rehabilitation to extend the service life and reduce annual maintenance. Common Hot Mix Asphalt (HMA) and Portland Cement Concrete (PCC) pavement rehabilitation alternatives which will extend the life of the pavement and provide a more acceptable surface ride may include but not limited to: partial and full-depth repairs; pavement milling and resurfacing; slab stabilization; diamond grinding.

Citizens have contacted staff to express their concerns and dissatisfaction with the poor condition of the streets. On an annual basis, the Engineering Department performed a pavement distress condition assessment for the streets network and establish a condition rating of fair, poor, and very poor. The Engineering and Public Works departments are using this pavement condition information to develop plans for the Public Works asphalt overlay program, the City's annual pavement rehabilitation and resurfacing program, and prepare recommended budgetary funds to be programmed in the City's 5-year capital improvement program.

Utilizing the current and future years programmed funding, the City is evaluating street rehabilitation projects at several locations citywide.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works annual overlay program (5421000003), Street Construction General Repairs (5521000012), Pavement Preservation Joint Sealing (5521000034), Pavement Rehabilitation - Dowel Bar Concrete Joint Repair

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves pavement rehabilitation which is a 2025 - 2027 City Council Top Priority. This project provides funding to complete pavement rehabilitation on concrete streets that are experiencing faulting of the transverse pavement joints which will extend the life of the pavement and provide a more acceptable surface ride. The pavement rehabilitation method recommended is to perform full depth pavement patching where the joint separation is greater than ¾" while also performing dowel bar reinforcement repairs to all transverse joints to improve traffic load transfer. Once the pavement repairs are made, the concrete pavement will be resurfaced using a conventional diamond grinding method which will provide a more acceptable ride. The identified streets are as follows: 2027. Pennsylvania Ave (University - Chaney), 2028. Crescent Ridge (US20 – Cedar Cross).

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide for the installation of flashing LED traffic signs and crosswalk warning devices at one location per year. The City receives several requests each year for flashing stop signs and flashing pedestrian crossings. These devices would be solar-powered LED lights which use less power than traditional bulbs. The device utilizes super-bright LED technology and a "stutter flash" that would flash at motorists 190 times in 30 seconds when activated called a Rectangular Rapid Flashing Beacons (RRFBs). Results have shown that more than 90% of motorists stop when the LED stutter lights are activated by the pedestrian. When the activation button is pushed, a friendly voice explains to pedestrians how to use the crosswalk. At night the button placards are illuminated so pedestrians can see them. Upon activation, the entire area is illuminated, including where the pedestrian is standing, the pedestrian street signs, and the center of the roadway in divided highways so the motorist can clearly see the entire crossing. The system would be radio-controlled and solar powered for maximum efficiency.

On the other years where a flashing cross-walk sign is not requested or installed, funding could be used for flashing yield and stop signs as needed around the City for additional reinforcement for the sign. The availability of these flashing crosswalks at select intersections, midblock crossings or high pedestrian walk-ways will continue to increase the connectivity and complete street elements throughout the City. This project funding will include money allocated for the foundations, poles, signage and installation costs.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves street maintenance and pavement rehabilitation which is a 2025 - 2027 City Council Top Priority. This annual recurring budget provides funding to perform design and construction for general street construction-related improvements. In prior years, the City had an annual capital improvement budget that would collectively fund all construction-related improvements and the 5-Year Annual Street Construction Program. This policy has been changed, and now the Annual Street Construction Program is budgeted as individual CIP's. As a result, an annual program is needed to provide a funding mechanism to allow for the construction for general street construction repairs and related improvements as miscellaneous projects develop. The Engineering Department routinely works on miscellaneous repair projects that occur, require a quick response and that are both unexpected and not budgeted. This annual program will provide a funding source to cover the construction costs for those unanticipated small repair projects.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works annual overlay program, Pavement Rehabilitation - Concrete Street Repair, Mill and Asphalt Resurfacing (5521000018), Pavement Preservation Joint Sealing (5521000034), Pavement Rehabilitation - Dowel Bar Concrete Joint Repair

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of 17th Street, from Heeb to the intersection of West Locust, and the reconstruction of West Locust from 17th to Kirkwood. With the reconstruction of all underground utilities, including water main, sanitary sewer, and storm sewer, this will require the complete reconstruction of the street pavement, curb & gutter, and sidewalks within the proposed project limits.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater, 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded through Sales Tax 30%, Road Use Tax funds, or federal grant opportunities.

PROJECT DESCRIPTION/JUSTIFICATION

This project is for Safe Routes to School-related safety improvements at various school locations throughout the City. The City in coordination with our Metropolitan Planning Organization (MPO), which is the Dubuque Metropolitan Area Transportation Study (DMATS), and the Dubuque Community School District have established a Safe Routes to School committee for the implementation of safety improvements at select elementary schools per the 2009 Dubuque Area Safe Routes to School Plan. A multi-year phased approach is anticipated to complete all schools that are ready for recommended improvements. The Safe Routes to School-related improvements can be pavement markings, flashing crosswalk signage, pedestrian countdown timers for signals and/or speed limit school zone signage. If it is a safe route for students/kids/teens, it is a safe route for everyone.

In FY27, the first phase of school areas to be considered is Carver Elementary with pedestrian crossing improvements at Radford/Saratoga/Camelot intersection. In FY28, the second phase of school areas to be considered are Irving Elementary with mobility improvements at Pennsylvania/Green intersection and crossing improvements at Pennsylvania/University intersection (East-West Corridor Study).

Prescott Elementary would be evaluated during the engagement and design of the specific design phase of Central and White Corridor that Prescott is in, along with conversation with the proposed cycle track on the west side of White St.

Lincoln, Bryant, and Eisenhower will be evaluated for future improvements. Federal and state grants may potentially be an alternate source of funding, and the City and DMATS will continue to consider these grant opportunities.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION
This annual reoccurring budget provides funding to make spot repairs to the streets, sidewalks, alleys, or public spaces in the City that are constructed with brick pavers. This project will address any settled, irregular or defective pavers in the Historic Millwork District, the Bee Branch, the Grand River Center, along 8th Street, and in Green Alleys as needed and as identified by City staff.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a multi-year program for the installation and reconstruction of public sidewalks adjacent to City-owned property and City-owned infrastructures (i.e., catch basins, hydrants, signals, financial assistance). This appropriation also provides for tree and stump removal when trees need to be removed as part of the reconstruction of the sidewalks within public right of way or City property. This project may also include the installation and reconstruction of curb ramps which is required by the Americans with Disabilities Act (ADA). The reconstruction of public sidewalks is necessary for the safety of pedestrians and to keep the City's liability to a minimum. ADA requires installation of curb ramps whenever a sidewalk is repaired at an intersection and a ramp is not currently constructed. With the recent Iowa Supreme Court ruling, the City is liable for all sidewalk defects in the public right of way. When defects are brought to our attention, we have an obligation to remove the liability.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of curbs and catch basins related to the sidewalk inspection and replacement program. Replacement of sidewalks, particularly those abutting the curb line or an intersection, frequently requires replacement of curbs and catch basins. It is anticipated in future years this program will increase with the installation of curb ramps with detectable warnings required by the Americans with Disabilities Act (ADA). Without funding for replacement of the curbs and catch basins, the program is restricted or delayed until funding can be secured. With funding earmarked for curb and catch basin replacement, the program can move forward on an established schedule. With an increase in curb and catch basin inspections at time of sidewalk inspections, additional curb and catch basins are identified for replacement, especially if the street is to be overlaid in the near future. The anticipated cost for curb and catch basin repairs has been increasing over the past few years and is anticipated to continue when the ramps needing walls, foundations, railings, and special designs are addressed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to City-Owned Sidewalk Replacements (project #5521000010) and needs to be scheduled in the same fiscal years as that project. This project may also impact the Water Department due to hydrant relocations- project #4281000018, Fire Hydrant Replacement.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of defective sidewalks by private contractors. City Ordinances #41-102 through #41-105 provide that a property owner be given a thirty day notice to replace a hazardous or defective sidewalk and, if they fail to do so, the City will have the repair made and the cost assessed to the property owner. In Fiscal Year 1989, the City began an inspection and reconstruction program for City sidewalks. Reconstruction is required on these walks when defective conditions are found. These funds enable the City to have the reconstruction done by contractors if the property owner does not make the corrections after proper notice and reasonable time. These costs are then placed as liens against the properties and property tax receipts are collected in the next fiscal year in the amount of the original expenditure.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

The annual Bridge Repair and Maintenance program allocates funding for the maintenance, inspection, and load rating of bridges & culverts throughout the City. The periodic maintenance efforts are intended to maximize the serviceable life of these structures and mitigate any premature deterioration which would ultimately result in costly replacements. Some of the most common repair efforts include concrete rehabilitation of bridge decks, substructure, barrier rails, and various culvert components. Other activities include the painting of steel elements, sealing of concrete cracks on bridge decks and railings, and expansion joint maintenance and repairs. The installation and reconstruction of erosion and scour countermeasure systems are also included in this program. This funding also provides for the inspection, program management, and load rating efforts required to comply with the federally-mandated National Bridge Inspection Standards (NBIS). The City's bridges are currently inspected on a biennial basis with one structure requiring an underwater inspection every 60 months. The City currently has 27 structures under its jurisdiction, which includes 18 bridges and 9 culverts. The last inspection, dated October 2025, indicated the City has no structures classified as functionally obsolete, or fracture critical, with one structure classified as structurally deficient. Several bridge structures will require preventive rehabilitation or within the next five years and several other structures will require routine maintenance and repair efforts so that the bridges remain in good condition. The annual Bridge Repair and Maintenance program funding has been increased to account for the changing bridge load rating requirements and to allow for the increased preventative maintenance and repair needs of bridges and culverts throughout the City.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides multi-year funding to support the City's efforts to meet the City Council goal of implementing an infrastructure enterprise (citywide) asset management system through use of a computerized maintenance management system (CMMS). This specific CIP project provides a share of funding for roadway, bridge and sidewalk related infrastructure assets. Other Department or Divisions are also separately budgeting multi-year funding for water main, storm sewer, sanitary sewer, fiber network, and traffic operations related infrastructure assets.

Enterprise asset management combines software, system asset inventory, services, and support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to inventory and manage infrastructure asset inventory, generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate utility CMM software applications for different functions or assets, and a single vendor application solution for a consistent CMMS citywide deployment for each utility's enterprise asset management is desired.

RELATIONSHIP TO OTHER PROJECTS

This CIP includes use of Bridge, Roadway and Sidewalk funds. There are additional CIPs to fund the Enterprise Asset Management Software from Water, Storm, Sanitary and Fiber funds.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30%, and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This annual funding provides for maintenance and repair of existing retaining walls that are owned by or are the responsibility of the City of Dubuque in various locations throughout the City. This annual program will allow for maintenance, repair and reconstruction of city-owned retaining walls as needed. Based on the recommendation of the City's Legal Department, there are a significant number of private-owner retaining walls which are adjacent to City right-of-way in which a mutual benefit could be established through litigation. As a result, the annual funding for retaining wall maintenance, repair and reconstruction has been increased to address this potential liable cost to the City. This annual program would provide for proactive maintenance, reconstruction and emergency repairs to city-owned retaining walls.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

$ —	$ —	TOTAL	$ 28,000	$ 42,000	$ 42,000	$ 40,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the permanent installation of street-closure infrastructure in areas that support the highest levels of pedestrian activity, beginning in the Millwork District and followed by the Farmers' Market corridor. Phase 1 constructs fixed bollard systems in the Millwork District, including E. 10th Street between Jackson Street and Washington Street, as well as segments south of E. 9th Street along Jackson Street and E. 8th Street. These installations will provide multiple controlled access points to support flexible event layouts and reliable vehicle-mitigation measures.

Phase 2 extends improvements to the Farmers' Market area, with bollard installations along Iowa Street from W. 13th Street to W. 10th Street at key closure locations that serve regular market operations. Additional future phases may include the closure of 7th Street between Bluff Street and Locust Street near the Dubuque Museum of Art (DuMA), coordinated with ongoing redevelopment planning in that area. Further locations will be evaluated through the special event review process.

This phased construction approach strengthens long-term safety, reduces reliance on temporary equipment, and creates durable infrastructure to support major public events throughout the downtown district.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Provide accessible recreational, library, culture and arts programs/activities and parks amenities that are responsive to the emerging workforce/community expectation.

PROJECT DESCRIPTION/JUSTIFICATION

Within the City of Dubuque there are 12 existing at-grade railroad crossings through the downtown urban core. With the merger of the Canadian Pacific and Kansas City Southern railroads, train traffic is projected to double through the city by 2027.

Based on the forecasted increase in train traffic, the City partnered with the DMATS, the City of Peosta, Dubuque County, and the City of East Dubuque to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within each respective municipality's jurisdictional areas.

The planning level cost estimate for safety improvements at the 12 existing at-grade crossings through downtown is $3,700,000. If the City could implement the required safety improvements at all the grade crossings, the City could then request from the Federal Railroad Administration (FRA) a Quite Zone designation.

Based on the results of the rail corridor diagnostic study, the City applied for two (2) Federal Railroad Administration (FRA) grants, a Consolidated Rail Infrastructure and Safety Improvements grant, and a Railroad Crossing Elimination grant. Unfortunately, the City was not successful in either grant application. The City will continue to apply for any eligible grants to fund railroad crossing safety improvements.

Another factor that would need to be taken into consideration is for any proposed safety improvements to the railroad-grade crossing facilities would need to be designed and completed by both CN and CPKC railroads. The City would then need to pay (reimburse) each respective railroad for both design and construction. The City would be responsible for any proposed safety improvements to the approach roadway on either side of the railroad crossing.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2020	TOTAL PROJECT COST
55 - Engineering / Miscellaneous	6C - General Government	Railroad Crossing Safety Improvements and Quiet Zone Implementation	PROJECT NO:	5529900001 250-1201	$ 853,185

PROJECT DESCRIPTION/JUSTIFICATION (continued)
Per the City Managers directive and input from the City Council during the Goal Setting Process, the proposed funding in FY2027 – 2028 will allow the City to retain and collaborate with both CN and CPKC railroads to complete the design railroad crossing safety improvements.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the RAISE Planning Grant, RAISE Capital Grant, and 14th Street Overpass Project (No. 5521000009)

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), Road Use Tax, Greater Downtown TIF and DRA Distribution

PROJECT DESCRIPTION/JUSTIFICATION

This project is being funded by a grant from the U.S. Department of Transportation's (DOT) charging and fueling infrastructure (CFI) funds to install electric vehicle (EV) charging infrastructures at five locations in the downtown area of Dubuque. The five locations were determined by the outcomes of the on-going Smart Parking & Mobility Management Plan project and other community input. Site 1 is located in the parking lot at the corner of 22nd and Price Streets; Site 2 is located in a parking lot behind the Hilton Garden Inn on Chaplain Schmitt Island; Site 3 is located in a parking lot at the corner of East 12th Street and Elm Street; Site 4 is located at the corner of Jones Street and Harrison Street; Site 5 is located just off Main Street near the River City Church. This project is still a viable project according to the Federal Highway Administration. The grant has been paused but not cancelled.

RELATIONSHIP TO OTHER PROJECTS

Smart Parking & Mobility Management Plan (CIP # 4683000005).

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

PROJECT DESCRIPTION/JUSTIFICATION

This annual recurring Harbor Area Dredging Capital Improvement Program (CIP) budget provides for maintenance dredging at multiple riverfront locations to maintain adequate harbor and channel depths for recreational and transient boat navigation. This funding allows for annual riverfront maintenance dredging as required at Schmitt Island and AY McDonald Park public boat ramp launch locations; River's Edge Plaza and along the Riverwalk lower pier wall to accommodate excursion boat mooring; Ice Harbor gates; and Port of Dubuque Marina.

The City also has a contractual obligation to maintain city-owned and leased property under current lease terms to perform maintenance dredging at Dubuque Marina (Pleasure Boat Harbor) and at Dubuque Yacht Basin (Schmitt Harbor) to maintain adequate harbor depth for recreational and transient boat navigational access. While not contractually obligated, there are areas outside the City’s Lease obligation to maintain that need dredging to create a safe open water way channel for navigating vessels from the Peosta Channel and Mississippi River to and from the marina harbor locations. Assuming the marinas are willing to partner and provide matching funds, and if in the public’s best interests, the City will consider applying for an Iowa Department of Natural Recourses (Iowa DNR) Boating Infrastructure Tier 1 Grant (BIG Tier 1) Grant to assist in performing maintenance dredging. The Grant has been recieved in the years 2022 & 2024. The grants for future years are yet to be awarded.

Due to abnormally low river levels over the past several years, staff anticipates needed to perform more frequent maintenance dredging along the Port of Dubuque riverfront to accommodate excursion boat docking.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

$ —	$ —	TOTAL	$ 20,000	$ —	$ 20,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project is for the replacement and changes needed for the City's current vehicular wayfinding signage. There are 6 City districts with 2 "others:" College-Grandview (19), Downtown (37), Eagle Point (40), Port of Dubuque (7), Southend (6) and Westend (19), along with the Intermodal (5) wayfinding signage and the DOT (37), which is along US 20 & US 151/61. The City is working with Schmitt Island on redistricting some signage to coordinate with the new development on Schmitt Island.

The replacement of faded and/or outdated signage is needed. These construction costs will include the labor, equipment and materials with our Public Works department along with the cost of the signs. The first priority would be faded and incorrect/outdated signage that has been determined for each district. With previous modifications made to the 40 signs in the Eagle Point District, a simple name change can be around $20,000.

Since work is being done with Schmitt Island for wayfinding signage, the Eagle Point District is going to have less signs as some will be transferred to the Island District.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to another capital project.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project can only be funded by Sales Tax Fund (30%).

PROJECT DESCRIPTION/JUSTIFICATION
This project will fund 10 portable speed shields a year to be used along various streets in the community. The speed shields are used to bring awareness to drivers on their speed and helps reduce speeds in areas known to have speeding issues. The speed shields are installed and managed by the Dubuque Police Department to assist in enforcement. This project also allows funding for residential speed humps/bumps/tables to be installed in the non-winter months for speed management on frequently requested local streets with speeding issues and enforcement low priority.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax (20%), and Sales Tax Fund (30%) and DRA Distribution

$ —	$ —	TOTAL	$ —	$ 327,540	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project would provide funds for the replacement of one aerial bucket truck equipped with an electrical-hydraulic boom system. The unit being replaced is unit #3230, a 2019 Ford F 550 4x4 with an aerial bucket unit, after 8 years of service. This truck is used by our traffic signal technicians to perform necessary maintenance and repairs to all city-owned traffic control equipment, streetlights, security camera equipment, and related electrical systems. It is estimated that this truck will be driven over 100,000 miles before its tentative trade-in date. It is important that this unit is replaced on a timely basis to ensure that it retains fair trade-in value and is always ready to perform timely repairs to Dubuque's growing number of signalized intersections, expanding security camera system, and numerous city-owned street lights.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Funds (30%) or Road Use Tax Funds

PROJECT DESCRIPTION/JUSTIFICATION

This program will fund the expansion of communication duct and fiber that will significantly enhance public safety, improve a wide-range of city services and enable equitable and universal access to broadband (high-speed internet). The City will collaborate with other public entities and private carriers and specifically target its funds to "last block" undertakings, ranging from connecting widely-dispersed city facilities and assets to specifically connecting low income or geographically stranded neighborhoods that the private sector cannot/will not connect.

This program will leverage significantly larger private sector investments in Dubuque (usually 5X to 7X city investment), provides City infrastructure that reduces costs/improves services for multiple City agencies and create public assets which can in turn be leased or licensed to private partners to recover costs and support future broadband expansion and innovation. Incorporated into this project are several traditional, stand-alone CIP's such as extending the City's fiber backbone from 27th and Elm up to Jackson and 32nd and over to Central and 32nd. This brings broadband and surveillance infrastructure to this area of the City. These types of projects have been folded into this request in order to be positioned to reduce costs through public/private partnerships.

RELATIONSHIP TO OTHER PROJECTS

This capital improvement project is related to the Water SCADA Overhaul (project #42810000001).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project may only be funded with Sales Tax Fund (30%), Road Use Tax, and TIF funding in TIF districts.

PROJECT ADDRESS/SERVICE AREA

This project spans the City but includes many low/moderate income areas and will promote broadband access to these areas.

PROJECT DESCRIPTION/JUSTIFICATION

Emergency Preemption equipment was originally started in 2000, but this project request is for the installation of GPS-based equipment at new locations and the replacement of equipment at older intersections. This system can be used by fire, ambulance and police units responding to emergencies to provide for quicker response times by removing stopped traffic due to red signals at busy intersections. It will also improve safety for the community and emergency personnel. The optical system provides the capability of placing this on other vehicles, such as snow plows, allowing them to hold green lights to expedite the task of snow removal, but does not allow the snowplow driver to change the light from red to green. It also has the capability of supervision so that there is a record of units using the preemption system. The priority can be set into this system which would allow emergency vehicles to have priority over non-emergency vehicles using the system. The City of Dubuque is currently using Optical Preemption while new GPS technologies are now more popular and minimize roadway delays by only preempting the direction (straight or left) as needed. Current optical preemption disrupts the opposing lane because it always brings up both the left and the through for the direction of travel. New equipment is tied to the direction on the vehicle and will not disrupt the left turn if not needed. New replacement equipment for the older optical equipment can operate both optical or GPS-based communications.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This program would fund the purchase and implementation of a fiber infrastructure management program. Currently fiber infrastructure is documented on spreadsheets and drawings located in various locations throughout the City. This program will consolidate all this information into one software program with the ability to include network information that documents failover redundancy paths and Virtual Local Area Networks within the City. This program would also be used to document and assist in the exchange of assets to grow broadband in the Dubuque area via public/private partnerships to help cover underserved neighborhoods. Documentation of this information is crucial for the maintenance and operation of a fiber communications network that will be used to serve all departments along with public/private partnerships. Fiber communications is becoming a critical driver of economic growth in the City of Dubuque. This request would also help cover employees' time with fiber data collection.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Broadband Acceleration and Universal Access (#5524000019), Water SCADA Overhaul (#42810000001) and City Information and Network Security projects (#77699000006), Fiber Optic Conduit - Misc (5524000011)

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project provides an annual program for installing conduit for fiber optic in miscellaneous projects throughout the community. Installation of fiber conduit into existing infrastructure typically ranges from $25 to $50 a linear foot when installed in a stand alone project. When combined with other projects, the cost can drop to around $10 to $20 a linear foot. This improvement item funds the installation of fiber conduit along other unscheduled city projects and in conjunction with other private utility projects where it is convenient and at a cost savings to the community.

This conduit will be upsized to a multi-duct conduit system so that it can be utilized as part of the City's Fiber Optic Network project that will enhance public safety, improve a wide range of city services and enable equitable and universal access to broadband. During construction of this conduit, the City will collaborate with other public entities and private carriers to leverage private sector investments in Dubuque to reduce right-of-way usage by utilizing a "dig once" policy to install a multipath fiber duct that reduces costs and improves services for multiple city agencies and creates public assets which can in turn be licensed to private partners to recover costs and support future broadband expansion and innovation. This budgeted item would extend fiber optic conduit as part of the city-wide effort to create a network of city-owned fiber optic systems and will also aid linking adjacent projects together and can be shared with public/private partnerships. This fiber, once installed, is used by many city entities including the Information Technology, Fire, and Police Departments.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water SCADA Overhaul (#4281000001) and the Broadband Acceleration and Universal Access projects (#5524000019).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the maintenance and expansion of the Traffic Management Center's Intelligent Transportation System (ITS) improvements, including remote management and monitoring of the City's traffic signals, automated vehicle counters, cameras, classifiers, connected vehicle infrastructure, roadside units broadcasting SPaT data, and variable message boards along key city corridors. In addition, funds support ITS equipment located within the Traffic Management Center at City Hall and serve as matching funds for joint projects recommended by the Iowa Department of Transportation. Using state-of-the-art electronics, ITS technologies enhance traffic efficiency, reduce congestion, improve air quality, and promote safer and greener travel throughout the community. Previous fiscal year funding was used to purchase LiDAR detection equipment for deployment along the Locust Connector to improve traffic monitoring and detection accuracy. FY 20 funds were used to install roadside units along US 20 signalized intersections, broadcasting signal phasing and timing (SPaT) data to connected vehicles—making Dubuque the first city in Iowa to implement this technology. Future funds will continue supporting connected vehicle advancements and the replacement of aging ITS equipment.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

In 2001-2002, the city traffic signals were converted from 150-watt incandescent bulbs to 10 watt LED lamps. This conversion also included a large rebate incentive from the local power company along with drastically reduced electrical consumption. These new LED fixtures have a lifespan of 5 - 7 years. This appropriation will provide for the re-lamping of approximately 1/10th of the City-owned traffic signal lamps in each year. Currently the City has 115 traffic signals that with an average of about 40 lamps per intersection. Each lamp runs approximately $70 each. New LED signal heads can be purchased with a 15-year warranty. This project will reduce maintenance problems (burnouts/failures) with traffic signals in future years. These existing LED's have lasted approximately twice their warrantied lifespan, and instead of burning out, they dim over time and become non-compliant with MUTCD guidelines. This capital improvement program will systematically replace these lamps by corridor starting with the oldest LED's.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the improvement of existing traffic signals, replacement of signal controllers, removal of traffic signals where no longer needed, and/or the signalization of additional intersections as the need may arise. This project also covers engineering staff time related to additional signals and is combined with other programs such as the Traffic Signal Intersection Reconstruction and the Traffic Signal Interconnect to make a project viable. Each year appropriations are intended to fund the signalization of intersections through the City as the need may arise. New signals will be given consideration utilizing the warrants established in the Iowa Manual on Uniform Traffic Control Devices. Currently, each new signal installation can cost approximately $300,000 and there are multiple locations under consideration.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Traffic Signal Intersection Reconstruction (#55240000008) and Traffic Signal Mastarm Retrofit (#55240000004).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement request will be used to purchase and track replacement traffic control and street lighting equipment and would be used as a depository to track insurance claims. The City of Dubuque replaces equipment that is damaged or destroyed due to accidents and weather-related activities. Many of the new traffic cabinets along the major corridors may contain $60,000 to $75,000 of equipment. In some instances, this equipment is purchased to replace equipment that was damaged due to an accident in which there is an insurance claim. Insurance reimbursements are put back into the project to fund expenditures which helps track the costs due to accidents and how much the City spends on hit-and-run or uninsured accidents. Major storm events due to lightning alone can expend the budget.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

		C. IMPACT - OPERATIONS						
		Operating Cost (Savings)	$ 62,634	$ 73,584	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the equipment, installation and software license for the placement of fixed cameras at $2,500 each, to be installed near roadways, alleys and signalized intersections throughout the City of Dubuque. Currently, the Traffic Operations Center has communication lines throughout the City along major and minor arterials, city streets and near signalized intersections. Engineering uses these cameras to remotely monitor and adjust traffic operations. Over the last few years, Engineering and Police have worked together using these cameras to aid the police in accident and crime investigations on a daily basis making them an integral part of public safety. These funds would also be available to add fiber optics communications lines to areas in need of cameras and to replace existing cameras as they age and as technology advances.

The increased operating costs represent the ongoing software licensing, storage expansion and maintenance for new camera integrations.

With IMON's public-private partnership with the fiber-to-the-home projects, the communications infrastructure has increased location opportunities for camera locations. We have collaborated with other departments on proposed camera locations and have gotten those locations placed with those public-private partnerships. Clarke Drive and Grandview Avenue are high priority.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a replacement program of the existing 30-foot white streetlights and some traffic signals located in downtown Dubuque. Currently, there are approximately 60 white streetlights remaining. The project would replace all remaining white poles and install lighting controllers with meters. In certain cases, these would be replaced with historical streetlights. Many of the streetlights in the downtown area were installed in the early 1950's. These are the white 30-foot style found along Central, Main, Iowa, Locust and Bluff Streets. Many of these streetlights utilize a direct burial style feed and unique service panel which makes it very difficult and costly to maintain. The new downtown streetlights will be capable of having banners brackets added. This project would also fund LED replacement luminaries throughout the City. Currently when street light fixtures burn out, they are replaced with matching style, high pressure sodium streetlights. This program would promote the use of highly efficient, long life LED street lighting throughout the City of Dubuque which saves energy and operating expenses. Current locations of interest include the Port of Dubuque Riverwalk, Bridge Lighting locations and miscellaneous subdivision locations. This project also initiates a scheduled replacement of older streetlights throughout the City and will also include the installation of new streetlights when conditions warrant. Currently, the City owns approximately 2,500 streetlights. In many older subdivisions, the entire light fixture, base, pole, and conduits need replacing. Currently there are around 60 lights in 24 locations outside of the downtown lights that are in need of replacement. Average cost of reconstruction is around $1,500 to $2,000 each.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%), Greater Downtown TIF, CDBG, and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Varies throughout the City. Mostly in the downtown area

PROJECT DESCRIPTION/JUSTIFICATION

This project will cover the City staff, engineering, and administrative costs associated with the STREETS (Smart Traffic Routing with Efficient and Effective Traffic Signals) project. This program will also be used to fund match funding required for grants associated with this project. Once STREETS is implemented and US 52 is rerouted, this program will study traffic patterns in the downtown to determine which streets may be converted into two-way streets and if any signalized intersections can be removed. FY 2022-23 costs cover consulting services to improve the efficiency of the STREETS system. FY24 was the starting point for Phase I after delays with the Department of Transportation. Starting in FY26, City staff is applying for a secondary grant for Phase II of the STREETS project, which covers more downtown signals. This project is legally required as this project fulfills the City's match obligation to the ICAAP Grant and DMATS funding agreements.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by state grants, Sales Tax Fund (30%), Road Use Tax Fund, and DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

This project would add additional surge protection to the 115 traffic signals and miscellaneous camera systems currently operated by the City of Dubuque. Newer Intelligent Transportation Systems (ITS) signalized intersections are becoming more complex with advanced communications networks, battery backup systems, preemption equipment, cameras and high-end detection equipment -- a recipe which makes these units more susceptible to lightning, surge and grounding issues. This project would fund the retrofitting of these signals and cameras systems with surge protection ranging from $500 to $2000 at each intersection (depending on the degree of equipment at each location). During the summer of 2011, twenty intersections were struck by lightning during two storm events that caused an estimated $100,000 in damages. All newly installed intersections and camera locations will be designed with this additional surge protection to prevent a similar occurrence. This program has proven successful with a lower rate of damaged equipment after installation of this surge equipment. This surge equipment does require frequent analysis to ensure it continues to protect as it ages and often times will need replacement after multiple storm events. Typically these existing units get replaced as they fail or as they age out with the equipment they are protecting.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides needed traffic control at signalized intersections during times of power outages. This project will provide for the purchase and installation of battery backup systems by City traffic signal technicians in existing traffic signal controllers at various locations throughout the City. These battery backups will provide backup power to run each intersection on in full colors for up to eight hours during power outages. When power is restored, the controllers will automatically reset and go back into service. These battery backup units also serve as lighting controllers and can be placed midblock in the Central Business District to serve two intersections with one battery backup system. Each battery backup system costs between $13,000 to $20,500. This project will fund the addition of 2 to 3 BBS per year. In the City of Dubuque, there are 115 traffic controllers located at various intersections and crosswalks throughout the city. During times of power outages, crews are dispatched to the signalized intersections to place portable stop signs. Depending on when these power outages occur, the response time for crews to load stop signs and place them averages thirty minutes to one hour. The response time is even longer when outages occur at night and/or on a weekend. During this time, police officers are dispatched to direct traffic until stop signs can be placed. When major outages occur, many intersections at one time can be affected, which endangers public safety and severely interrupts both police and maintenance operations. This project allows the City of Dubuque to provide normal traffic control at intersections during power outages, with the least interruption to the driving public, police and maintenance operations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project initiates a scheduled replacement of the older traffic signal controllers throughout the City. This project would provide for the replacement of approximately 2-3 of the City's 115 traffic signal controllers per year. The new controllers are needed for signal coordination, traffic cameras, and compatibility with the preemption program for the traffic signals being proposed by the Fire and Police Departments. All new intersections are currently compatible. The cost of a single controller is approximately $22,000 plus $13,000 for a battery backup system. Recently, the cost of these cabinets has increased due to advanced technical equipment within the cabinet. This replacement schedule would also keep up with the replacement needs for the older controllers, purely from a maintenance perspective. High priority intersections in need of new controllers and cabinets include: Iowa at 5th, Iowa at 7th, 10th at Bluff, 5th and Bluff, Loras at Jackson, Loras at Elm, 16th at Elm, Locust at Charter, and Carter and Chaney on Asbury Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Street Camera Installation (#5524000016).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for reconstruction of a portion of the underground wiring system for the traffic signal interconnect system. It will also tie in some miscellaneous intersections that were not part of the original interconnect. Although the focus of this program is to connect traffic signals, the conduit will be upsized to a multi-duct conduit system so that it can be utilized as part of the City's Fiber Optic Network that will enhance public safety, improve a wide range of city services and enable fair and universal access to broadband. During construction of this conduit, the City will collaborate with other public entities and private carriers to leverage private sector investments in Dubuque to reduce right-of-way usage by utilizing a "dig once" policy to install a multipath fiber duct. This will reduce costs and improve services for multiple city agencies and create public assets which can in turn be licensed to private partners to recover costs and support future broadband expansion and innovation. Much of the underground galvanized steel conduit and wiring is in excess of 25 years old and is in need of replacement. Currently, annual repairs are needed to maintain the traffic signal coordination system operating in the downtown area. Much of the system is corroded to the extent that new wiring cannot be pulled through the old conduit, thereby requiring several spotted areas of conduit removal and replacement each year. The majority of the new conduit would be bored under the streets and sidewalks to minimize the need for street patches. When this interconnect fails, traffic lights go out of coordination and run free. Many times the power feed is also interrupted. This fiber conduit allows for the coordination of traffic signals and will also be used to leverage private/public partnerships for broadband expansion. High priority signals to interconnect include: Asbury at Carter and at Chaney and St. Ambrose; 14th at Elm and Jackson; Locust at Charter; and Bryant and Mt. Loretta.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water System SCADA Buildout (#42810000001), Community Broadband Expansion Project (#6100200044), Traffic Signal Synchronization/STREETS Program (#5524000018), and Traffic Camera System (#5524000016).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of one intersection in the downtown every two years or the removal if no longer needed. New findings have prompted the City to accelerate this program. Much of the underground galvanized steel conduit and wiring is in excess of 25 years old and is in need of replacement. Many times when repairs are needed, the conduit at the intersection is corroded to the extent that new wiring cannot be pulled through, therefore requiring several spotted areas of conduit to be removed and replaced each year. Anchor bolts and bases are often times corroded or rusted off, requiring new foundations and equipment during which time the signal remains down or in an "all red" flash status. New findings this year have demonstrated a potentially urgent situation. Mastarms that were installed in the early 1980's as part of a major signalization effort are now in need of replacement. Most of these poles are the white painted signal poles in the area of White, Main, Elm, Iowa and Bluff Streets. These poles and transformer bases are rusting from the inside out, and it was found that many of the transformer bases looked adequate from the outside but were nearly completely rusted through. Many additional intersections are in need of rebuilding. New mastarm equipment is fully galvanized with many of the attached parts composed of plastic, aluminum or stainless steel which virtually eliminates this type of corrosion problem. These newly rebuilt intersections will include standard ITS equipment. Future high priority intersections in the downtown are: Iowa at 7th, Bluff at 9th, Bluff at 10th, 14th Street signals west of White, Charter at Locust and various improvements in the 1-way to 2-way corridors.

RELATIONSHIP TO OTHER PROJECTS

This project could be related to the Central Ave & White St Corridor Traffic Improvements CIP # 5521000017 (started FY26).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This program would provide for reconstruction of intersection mastarm retrofit for key intersections in the Central Business District. White and Central Avenue contain a mix of different styles of traffic signalization. Some locations have pedestal mounted signal heads, while other locations have mastarm mounted heads. The differing location of the traffic signals sometimes causes motorists to react to the 2nd signal ahead as opposed to their nearer intersection. This program would provide for installing mastarm mounted signals along Loras, White, Jackson, Elm and Central Corridors. Intersections included in this project are: 4th & Locust, 7th & Iowa, 9th & Bluff, 10th & Bluff,14th at Jackson, 14th and Elm, 16th & Elm. This would standardize the location of the signal heads along the major arterial routes. This project has been extended out to cover increased costs. High priority locations are signals along Loras Boulevard including Jackson, and Elm.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

PROJECT DESCRIPTION/JUSTIFICATION

This will be an annual project that provides for the necessary fiber optics communications cabling and equipment to be installed along key corridors. This will allow for the interconnection network of traffic signals via fiber optics back to the Traffic Operations Center at City Hall and the Traffic Shop located at the Municipal Service Center. Fiber to the signals allow for remote management of the signal and allows for the addition of cameras at the signal to feed back to the Traffic Operations Center and Dispatch. It also allows improved security via network monitoring and improves coordination of traffic signals (thus lowering carbon emissions) and will also be used to leverage private/public partnerships for broadband expansion. Although this fiber is installed for traffic operations, it is oversized to accommodate all city department needs in the future. All new traffic signal installations since 2007 have been installed to be fiber ready. Now there are communications standards in place, and the City will be installing fiber optics and communication equipment throughout the City starting with the major traffic corridors including US 20, NW Arterial, Central Ave, White Street, Loras Blvd, Locust Connector, and US 61/151. One of the primary goals of this project is to complete fiber optic communications loops around the City utilizing US 20, NW Arterial, Pennsylvania, Asbury Road and US 52 down to Central to Locust and back onto US 20. Fiber optics communications will also replace the existing Central Business District traffic 7 wire interconnect. This change-out to fiber will occur over the upcoming years. There are many older signals throughout the City that need to be updated prior to going on this new system. These signals will be added to the system as they are updated. Many of these will be in partnership with ImOn Communications as they extend fiber throughout the community over the next 3 years.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water Department's SCADA Overhaul project (#4281000001).

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the conversion of approximately two signalized intersections per year to advanced LiDAR- and radar-based vehicle detection systems. Reliable detection is essential for reducing delay, improving signal coordination, and supporting future connected-vehicle applications. Many older intersections currently operate without detection or rely on outdated inductive loops that have deteriorated over time.

The City is transitioning to non-intrusive radar and LiDAR systems that provide higher precision, longer service life, and enhanced detection capabilities across multiple lanes and vehicle types. These technologies perform reliably in adverse weather and low-visibility conditions, offering significant improvements over traditional in-pavement and standalone video systems.

In addition, video analytics will be fused with LiDAR and radar detection, allowing these systems to share and validate data in real time. This multi-sensor approach enables the network to make smarter, more informed signal decisions—improving safety, optimizing timing, and generating valuable traffic performance data for future analysis and adaptive signal control.

Each intersection upgrade typically costs about $30,000, with the number of intersections completed annually dependent on funding levels.

The initial intersections targeted for upgrades include:

- Locust Street at Charter Street
- Locust Street at Dodge Street
- Locust Street at the Locust Connector
- Locust Street at U.S. 151
- U.S. 151 at Jones Street

These upgrades represent one of the most cost-effective ways to enhance signal performance, reliability, and safety, while positioning Dubuque’s traffic network for future integration with smart-city analytics and connected-vehicle infrastructure.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the systematic replacement of deteriorating streetlight poles along Chavenelle Road and adjacent industrial corridors. The existing poles have shown significant rust and structural degradation due to years of exposure to winter road treatments and the use of inferior, non-galvanized materials. To ensure reliability and safety, the City will replace all aging poles with galvanized and powder-coated steel poles designed to withstand harsh environmental conditions and provide long-term corrosion resistance.

A total of 57 poles have been identified for replacement in this program, with 32 poles scheduled for replacement in the first year, and the remaining poles replaced over the following two fiscal years. Each replacement, including installation and LED fixture, is estimated at $3,050 per pole, for a total program cost of approximately $174,000.

This proactive replacement plan will prevent future failures, improve lighting uniformity and energy efficiency, and ensure consistent aesthetics along key industrial and commercial routes including Chavenelle Road, Chavenelle Court, Innovation Drive, Synergy Court, and Seippel Road. The phased approach minimizes disruption while allowing the City to maintain a sustainable and predictable annual replacement cycle.

PROJECT DESCRIPTION/JUSTIFICATION

This project would replace the rusting poles that are failing along Iowa St from 4th St to 9th St. The current white poles are rusting from variable of factors, including, quality, age, and winter solutions. This would include the replacement of 16 poles with foundations and new conduit for power, along with light fixtures and pull boxes.

These replacements will help by being proactive on failing infrastructure in the downtown area.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Street Light Replacement and New Installation (5523000003).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the fiber utility in support of the City's efforts of implementing an Enterprise Asset Management System through use of a Computerized Maintenance Management System (CMMS). Enterprise asset management combines software, systems and services, system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal Enterprise Infrastructure Assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more.The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Stormwater, Enterprise Asset Management System Software - Water, and Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Sanitary

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%)

PROJECT DESCRIPTION/JUSTIFICATION

This project will cover the City staff, engineering, and administrative costs associated with the STREETS (Smart Traffic Routing with Efficient and Effective Traffic Signals) project Phase 2. This program will also be used to cover match funding required for grants associated with this project. The City of Dubuque, East Central Intergovernmental Association (ECIA), the Dubuque Metropolitan Area Transportation Study (DMATS) and the Iowa Department of Transportation (Iowa DOT) have partnered to develop the Smart Traffic Routing with Efficient & Effective Traffic Systems (STREETS) project. The goal of the STREETS project is to develop a smart, next generation traffic management and control system that will provide sound information to the stakeholders and serve as a framework for the deployment of similar systems in small urban areas with populations under 100,000. The City of Dubuque is applying for $1.1 million in Iowa Clean Air Attainment Program (ICAAP) funding to implement Phase II of the streets project after completion of the Phase I in April 2024. This project includes 77 additional signals mostly in the downtown area that were not covered by phase 1 of STREETS. This project is legally required as this project fulfills the City's match obligation to the ICAAP Grant and DMATS funding agreements.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the STREETS Traffic Control Project Phase 1 (#5524000018).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by state grants, Sales Tax Fund (30%), Road Use Tax Fund, and DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

In 2008, significant updates to the Historic Federal Building were completed to improve its overall condition and to ensure it remained as a historic structure anchoring downtown. Tthis historic building requires additional funding to ensure it remains in solid condition. Due to the COVID-19 pandemic, funding in past fiscal years has been reduced from this capital improvement project budget. The listed funding request attempts to replenish building components currently in deferred maintenance status and address emerging concerns.

From FY26 through FY32, this funding request supports engaging consultants to evaluate the building's MEP systems and develop plans for a remodel that reflects the most effective improvement strategy. Early-year funding is dedicated to initiating major HVAC upgrades to replace equipment that has exceeded its service life and is increasingly prone to frequent or potentially severe failures. Funding in subsequent years will continue supporting additional phases of the HVAC project.

FY26 and FY27 funds will also be directed toward the Federal Building Loading Dock Refurbishment. The loading dock is currently in disrepair, allowing water intrusion into the basement IT room beneath it.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA Funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team. In the past two years, more city employees are biking to work and are parking their bikes inside the building of their assigned work space. This is causing several problems for the Facilities Team. On bad weather days, bikes are bringing additional rain and snow into the buildings that can increase risk of slip-and-fall incidents. Bikes stored haphazardly in hallways can also interfere with emergency egress walkways. Some bikers can own bikes costing as much as $10,000 and thus are reluctant to store them in the open air at exterior bike racks. Weatherized bike lockers will provide riders with the needed protection and security to allow bikes not to be stored indoors.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy & Safe: Have a walkable and bikeable community that supports a healthy lifestyle.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30% and Downtown TIF.

$ —	$ —	TOTAL	$ 20,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for radon mitigation in City Hall. The west and east ends of the basement at City Hall were tested for radon during normal occupancy for a period of 48 hours. The west end came in at 6.5 pCi/L (picocuries per liter) and the east end came in at 4.3 pCi/L. Basic monitoring meters were also placed in Finance and the City Clerk's office on the first floor for 7 days. The average levels were 4.24 pCi/L for Finance and 2.27 pCi/l for the Clerks office

While OSHA sets the worker limit at 100 pCi/L, the EPA recommends action for homes at 4 pCi/L or higher, and other organizations, like the World Health Organization, suggest even lower levels of 2.7 pCi/L. Currently, there are no federal, enforceable regulations to control indoor radon levels—only guidelines with recommendations and a national goal.

It is recommended to use the EPA standards of 4 pCi/L and proceed with installation of a Radon Mitigation System in City Hall to reduce radon levels. This project is a City Manager directive.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax 20% and DRA.

PROJECT DESCRIPTION/JUSTIFICATION

CIP 6052000002 – Greater Downtown Rehabilitation and Housing Incentive Program

This program consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. Funded through tax increment proceeds, the program aligns with the City of Dubuque's 2029 vision for Livable Neighborhoods and Housing and the City Council's high-priority focus on workforce retention and attraction.

The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing.

Program Components:

- Housing Incentives: Grants of $10,000 per new multi-residential housing unit created in existing buildings. Eligible projects include adaptive reuse of non-residential structures or units vacant for at least three years. In alignment with the former CIP 6052000009, additional flexibility is provided for Central Avenue corridor projects (11th to 22nd Street), where units may qualify even if recently occupied, provided the project involves substantial rehabilitation and includes at least four units. All projects must accept all sources of income for otherwise eligible tenants.
- Façade and Planning Grants: A 1:1 match for transformational façade improvements and related planning or financial consulting work. This component receives the highest volume of inquiries among Economic Development programs and complements efforts led by Dubuque Main Street, Ltd.

Geographic Focus:

While funds are not exclusively reserved for Central Avenue, projects located along this corridor are prioritized to support City Council goals. The program also removes barriers to housing by increasing inventory in low-income census tracts with high walkability and access to public transit—critical in areas where up to 22% of households lack access to a vehicle.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2020	TOTAL PROJECT COST
60 - Economic Development	5C - Community & Economic Development	Greater Downtown Rehabilitation and Housing Incentive Program - previously Downtown Rehabilitation Grant Program - Includes Central Avenue, Historic Millwork District, and Washington Neighborhood	PROJECT NO:	6052000002 241-1942	$ 5,724,793

PROJECT DESCRIPTION/JUSTIFICATION (continued)

Recent and Potential Projects Include:

- 333 E. 10th Street: Novelty Iron Works Condos (34 units)
- 1248 Iowa Street (13 units)
- 1527 Central Avenue (11 units)
- 1701 Central Avenue (4 units)
- 1739-1763 Central Avenue (7 units)
- 2541 Central Avenue (4 units)
- 5–6 smaller projects annually (10–20 units each)

Funding Outlook:

This $1,110,000 allocation supports a flexible mix of housing and façade grants. Applicants may receive funding through either or both programs. While the structure allows for a wide range of combinations, we aim to maintain a reasonable and impactful distribution. For example, it would not be practical to fund only one housing unit. Instead, we anticipate combinations such as 10–12 façades alongside 60–75 housing units, depending on project readiness, location, and community impact.

This consolidation enhances program efficiency and impact by unifying administration under a single CIP, while preserving the intent and flexibility of the original programs

Now that the city will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, the program has seen a significant funding reduction.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Greater Downtown Housing Creation Grant (project #6052000004). These grants are typically used on the same properties simultaneously.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF funding.

$ —	$ —	TOTAL	$ 100,000	$ 100,000	$ 100,000	$ 100,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

Dubuque's downtown, and the Central Avenue corridor in particular between 14th and 22nd Streets, has been identified by City Council as a priority reinvestment area. Persistent ground-floor vacancies reduce foot traffic, diminish the corridor's commercial vitality, and undermine the public and private investments already being made in the neighborhood.

The challenge is not just finding interested businesses — it is that the upfront cost of entering a commercial space (security deposits, early rent payments, and modest build-out) is often the single barrier that prevents an otherwise viable small business from signing a lease. This new program targets that specific gap. This program dedicates $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

This new program complements the Economic Development Downtown Rehabilitation Grant program, which is used to facilitate exterior facade improvements.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Greater Downtown Rehab Grant (project #6052000002). These grants may be used on the same properties simultaneously.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

The Greater Dubuque Development Corporation (GDDC) has embarked on the Greater Dubuque 2027 Campaign, which will conclude in 2027. FY27 is the 5th year of the campaign. The main focus during the five-year campaign is the retention, recruitment and creation of workforce in the Greater Dubuque area. The creation of workforce includes connecting to the unemployed and underemployed population, disproportionately minority, and connecting those citizens with educational opportunities through Opportunity Dubuque in partnership with Northeast Iowa Community College. Upon completion of the participants' certificate of training, GDDC will work with community employers and provide livable wage employment. The five-year goals for the initiative include: population growth to 105,000 from 99,266; employment growth to 64,000 from 58,733; median household income increased to $76,000 from $63,031; residential and commercial construction of $1 billion; reduce the number of households below the Dubuque County Supplemental Poverty Measurement by 5 percent. This CIP supports the City Council goal of a Robust Local Economy. Workforce Development is a crucial component of growing the local economy in a sustainable manner. Existing labor force participants, through this CIP, are able to gain additional skills allowing them to advance in their careers. The City has a formal agreement with Greater Dubuque Development Corporation for this annual support.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Maintain and enhance an effective partnership with GDDC to grow the regional Dubuque economy.

FUNDING RESTRICTIONS

This project may only be funded by Dubuque Industrial Center West land sales and TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

The Jule applied for the FY23 FTA 5339 Bus and Bus Facilities Low or No Emission Grant in April and was notified by the FTA June 21, 2023 The Jule was awarded $2,359,072 in grant funding towards transitioning The Jule fleet to a zero-emission bus fleet. The project is for the purchase of two 35-foot electric buses, the acquisition and installation of bus charging infrastructure, and workforce development training. Current bus lead time is 16- 18 months from the placement of the order. City staff training will take place prior to delivery and upon delivery of the buses. These electric buses will replace diesel burning fleet buses and reduce carbon emissions.

RELATIONSHIP TO OTHER PROJECTS

This is not related to other capital improvement projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Transit Capital Fund, Sales Tax Fund (20%), and DRA funding. The project may be eligible for state and federal grant funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project requests funds for Wayfinding signage. FY 28 funds will be used to replace Wayfinding Signs throughout the City of Dubuque. Wayfinding signs provide directions to City buildings, facilities, and locations. Wayfinding signs are important to assist the public and visitors in navigating the city. The existing signage is older and needs to be replaced, as sign retroreflectivity (reflectiveness in light) decreases with age. As City facilities and amenities expand, new wayfinding is needed. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project is restricted to the Parking Construction Fund and/or Greater Downtown TIF.

PROJECT ADDRESS/SERVICE AREA

Various Parking Ramps/Wayfinding Signage throughout the City

PROJECT DESCRIPTION/JUSTIFICATION

This project funds major repairs at City Parking ramps. The projects that are listed were part of the Condition Assessment Reports for each Parking Ramp, completed by an outside engineering consultant. This list includes the largest repair costs but does not list all repairs. The project funds are required for major renovation work needed at the Locust Street Parking Garage ($666,500.00 Elevator Repairs, Structural Repair Items and Waterproofing Maintenance) , 5th Street Parking Garage ($540,000.00, Stairwell Painting and Repair, Window Replacement, Lighting Replacement, Exterior Steel/Concrete Painting), Five Flags Parking Garage ($201,000.00, Waterproofing Maintenance), 10th and Central Avenue Parking Facility ($279,000.00, Waterproofing Maintenance), and Intermodal Parking Ramp ($74,000.00, MEP Maintenance). Funding will address structural repair items to the concrete beams, columns and slabs, stairwell maintenance, waterproofing, elevator system repairs and upgrades to the mechanical, electrical and plumbing systems.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project is restricted to the Parking Construction Fund and/or Greater Downtown TIF

PROJECT ADDRESS/SERVICE AREA

Locust Street Parking Garage at 830 Bluff Street, 5th Street Parking Garage at 501 Iowa Street, Five Flags Parking Garage at 100 W. 4th Street, 10th and Central Parking Garage at 975 Central Avenue, Port of Dubuque Parking Garage at 351 Bell Street and the Intermodal Parking Garage at 830 Elm Street

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project is restricted to Parking Fees and Greater Downtown TIF funding.

PROJECT ADDRESS/SERVICE AREA

All at-grade, city-owned parking lots.

PROJECT DESCRIPTION/JUSTIFICATION

This project covers major repairs and maintenance issues for the Port of Dubuque Parking Ramp. The Diamond Jo contributes an annual amount as determined by their development agreement with the City and adjusted annually by Consumer Price Index. Prioritized projects will be identified in the CIP budget, and major ramp maintenance projects will be budgeted on an as-needed basis. Although there is no impact on the operating budget, operating revenue is manufactured by an ongoing maintenance program. Maintenance and repairs extend the life of the ramps and reduce costs by repairing degraded areas prior to damage becoming serious. Major repair maintenance programs are funded on an annual basis. All expenses related to the ramp are reimbursed to the City by the Diamond Jo. The capital improvement project balance accumulates to fund future parking maintenance projects.

Available funding in FY24 was used to conduct a major concrete slab crack-sealing investigation and the associated repairs. Due to the ramp being permanently classified as an open structure, an investigation of the sprinkler system will be conducted to see if some sections can be taken off line in order to save on long-term system maintenance and replacement costs. The project listed under the Project Description/Justification was part of a Condition Assessment Report that was completed for this Parking Ramp by an outside engineering consultant. This list includes the largest repair costs but does not list all repairs. The project funds are required for major renovation work needed at the Port of Dubuque Parking Garage. ($479,500.00, Structural Repairs, Waterproofing Maintenance, Mechanical, Electrical, and Plumbing Maintenance).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project is restricted to Private Participant funding.

PROJECT DESCRIPTION/JUSTIFICATION

The City administers a number of programs of federal and state-provided financial assistance for low-moderate income households (earning less than 80% of area median income) to achieve this. This Program provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund. The program offers approximately $30,000 to subsidize rehabilitation. This program helps maintain the City's affordable housing stock, supports strong neighborhoods, and provide quality and affordable housing options for Dubuque workforce and community both for homeownership and for rental.

This program is offered to households below 80% of median income as an incentive to purchase and improve properties citywide. Consideration will be given to increasing the amounts for purchase of rental properties converted to owner-occupied. Beginning in 2008, selective purchases have been made. Certain properties are targeted to be voluntarily acquired, for reason of poor maintenance and the inability or refusal of the owner to make improvements. These are then resold to qualifying owner-occupied households committed to the restoration of the home. This program helps support the Four Mounds HEART program partnership. This is a ten-year TIF which requires 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. This Housing TIF revenue can be used for City initiatives other than Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Urban Renewal area.

PROJECT DESCRIPTION/JUSTIFICATION

The Homeowner Rehabilitation Program provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978. This project contributes to the City Council goal of Livable Neighborhoods and Housing: A Great Place to Live - Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse. This program strengthens our existing housing stock and contributes to quality affordable housing, which are needs identified in the City's Comprehensive Plan and CDBG Consolidated Plan.

PROJECT DESCRIPTION/JUSTIFICATION
This program funds the City of Dubuque Downtown Urban Renewal District ADA Assistance Program. The program supports residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafes, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 25% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Healthy & Safe: Be a community in which all feel welcome, included and belonging.

PROJECT DESCRIPTION/JUSTIFICATION

This Program takes a comprehensive approach to addressing multiple diseases and injuries for those who are low-to-moderate income and at high risk in the home by focusing on housing-related hazards in a coordinated fashion using the Eight Healthy Homes Principles: 1. Keep it dry; 2. Keep it clean; 3. Keep it Safe; 4. Keep it well-ventilated; 5. Keep it pest-free; 6. Keep it contaminant-free; 7. Keep your home maintained; 8. Thermally-controlled. The high-risk population contains, but is not limited to: children, older adults and families with persons with disabilities. Creating healthier housing promotes the healthy growth and development of children and has the potential to save billions in health care costs. All units served must be the residence of families with income at or below 80% of the area median income. All addresses within the City of Dubuque are eligible. This program seeks to complete construction on 126 units and ends September 2025.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Lead and Health Homes project (CIP #6100100054). If healthy homes funding is exhausted in the Lead and Healthy Homes grant, this grant may be utilized in partnership with that grant to provide both the removal of lead hazards and healthy homes principles to the same unit.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

This project may only be funded by Federal Grants provided by HUD.

PROJECT DESCRIPTION/JUSTIFICATION
This program was created as revolving loan fund available on a competitive basis to property owners in the Jackson Park, Cathedral, W 11th Street, Old Main and Langworthy Historic Preservation and Conservation Districts. Low interest loans are made to support exterior rehabilitation projects that result in saving, restoring or reconstructing original building elements using original materials that reflect the architectural character or significance of the building. This program provides a financial resource to property owners in the City's historic district and acts as an incentive to maintain and improve the community's architectural heritage. There is no requirement that an applicant is low-moderate income.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS
This project may only be funded by UDAG Loan Repayments

PROJECT DESCRIPTION/JUSTIFICATION

This project is for the Lead and Healthy Homes Production Grant that was awarded to Dubuque in 2025 and will continue for 48 months. This grant will assist 90-100 residential units with remediating any lead based paint hazards present in the unit. This grant targets units that house children under the age of 6, as well as units that have a child under the age of 6 frequently visiting. This grant helps prevent childhood lead poisoning which has irreversible effects on a child. The City of Dubuque experiences 5-10 cases of lead poisoned children each year, with blood lead levels over 15 ugl. Their is no acceptable level of lead in the blood, but the EPA considers any level over 3.5ugl as elevated and requires action. Structures built before 1978 often contain lead based paint, and the City housing stock consists of mostly structures built prior to this, requiring continued efforts to remediate the hazards.

RELATIONSHIP TO OTHER PROJECTS

This grant is used in conjunction with the Healthy Homes Production Grant and the Homeowner Rehab program to make the biggest impact for residents.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

Federal Grant and CDBG Funding Only

PROGRAM ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION
The goal of the Older Adult Home Modification Program is to enable low-income elderly persons to remain in their homes through low-cost, low barrier, high impact home modifications to reduce older senior's risk of falling, improve general safety, increase accessibility and to improve their functional abilities in their home. This will enable seniors to remain in their homes, that is, to "age in place," rather than move to nursing homes or other assisted care facilities.

RELATIONSHIP TO OTHER PROJECTS
Run by the HUD Lead Hazard Control and Healthy Homes Division

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS
This project may only be funded by Federal Grants provided by HUD

PROJECT DESCRIPTION/JUSTIFICATION

This project is for preparation of a Downtown Master Plan. The Downtown Master Plan Update will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core. It will focus on enhancing livability, economic vitality, historic preservation, and connectivity to ensure a vibrant urban center for all. The Downtown Master Plan Update has been identified as a City Council High Priority for FY 2025-2027.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

This project may only be funded by General Fund, Local Option Sales Tax 20%, DRA and Greater Downtown TIF

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide funding for the City to hire a consultant to update the community's greenhouse gas (GHG) inventory and community climate action plan (every three years). The community inventory was first completed in 2011, and best practices indicate it should be updated every three years. The updated inventory will track progress towards the 50% by 2030 Community Climate Action & Resiliency Plan approved by City Council in 2013. The contract would request a consultant to work closely with City departments to collect data regarding building energy use, fleet operations, and other GHG-emitting municipal sources. The contract would also request a consultant to work with the City and other community partners to update the community's GHG inventory and ensure complete final documentation to comply with the City's national commitments, including the Compact of Mayors. In 2015, then Mayor Buol signed on to the Compact of Mayors, which commits Dubuque to developing a GHG mitigation and climate adaptation plan within three years. Part of this requirement is reporting municipal and community data via an internationally-recognized reporting protocol such as the Carbon Disclosure Project. Lastly, the hired consultant would work with a community-based steering committee to update the community climate action plan, which should be updated on a regular basis. The City's last GHG inventory was completed in 2022 and funding in FY2026 will support completion during current fiscal year. This funding may also be used for a municipal-only inventory, communitywide inventory, plan implementation, as well as exploration of a goal that is science-based and goes beyond the initial 2030 timeframe. This project is a part of the Imagine Dubuque Comprehensive Plan under the Sustainable Environment section.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project request is to install solar renewable energy on a city-owned facility (Multicultural Family Center or MFC) to reduce energy costs and reduce greenhouse gas emissions. Estimated annual energy savings: $13,418/year; Estimated avoided emissions: 65.6 MtCO2.

The 50% by 2030 Plan calls to increase distributed renewable energy by 21 Megawatts (MW) by 2030. Strategy 1 in Buildings and Energy is to increase solar on City facilities. With this funding, the City can set an example while experiencing significant savings in both money and energy. Energy costs have risen 28% in the past 7 years and continue to rise. Solar will offer city-owned buildings consistent savings in energy costs which equates to saving taxpayers' dollars.

Also important to note: if this project is completed by the end of 2027, the City is eligible to file for a direct pay provision tax credit up to 30% of project cost, estimated at $176,300 approximately $52,890 could be filed for and returned to City.

The project was proposed when the direct pay filing for previous renewable energy and electric vehicle projects was received as a part of the Inflation Reduction Act.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project request is to install solar renewable energy on a city-owned facility (Library) to reduce energy costs and reduce greenhouse gas emissions. Estimated annual energy savings: $6,645/year; Estimated avoided emissions: 41.9 MtCO2

The 50% by 2030 Plan calls to increase distributed renewable energy by 21 Megawatts (MW) by 2030. Strategy 1 in Buildings and Energy is to increase solar on City facilities. With this funding, the City can set an example while experiencing significant savings in both money and energy. Energy costs have risen 28% in the past 7 years and continue to rise. Solar will offer city-owned buildings consistent savings in energy costs which equates to saving taxpayers' dollars.

Also important to note: if this project is completed by the end of 2027, the City is eligible to file for a direct pay provision tax credit up to 30% of project cost, estimated at $122,672, approximately $36,801 could be filed for and returned to City.

The project was proposed when the direct pay filing for previous renewable energy and electric vehicle projects was received as a part of the Inflation Reduction Act.

PROJECT DESCRIPTION/JUSTIFICATION

This project will replace network switches and related battery backup equipment on an 8-year cycle. Network switches are crucial components of computer networks, responsible for routing and managing data traffic between connected devices. The lifespan of a network switch is typically determined by reaching end of life (EOL), environmental factors or maxing out capacity in terms of connections or bandwidth and is usually 5 to 10 years. Proper power management, including the use of surge protectors and uninterruptible power supplies (UPS), can also help prevent damage from power surges and outages, which can shorten the lifespan of network switches. Many of the City switches are past their life span, including some of the City switches that are 12+ years old. A regular yearly rotation of replacing switches will minimize possible downtime. Switch downtime usually entails several hours, possibly days, of lost network connectivity for a user. Any switches that are end of life (EOL), also becomes a security risk when the manufacturer stops supplying security patches. This could possibly affect our cybersecurity insurance. This project would replace approximately 20 switches each year, along with their associated UPS's, for a total of over 160 switches over 8 years and then repeat the cycle. This would allow us to maintain all the City's core switch infrastructure on a regular replacement schedule and avoid any issues with EOL, security risks, or unsupported equipment, while maximizing uptime for all users.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This funding is requested for the completion of a bi-yearly aerial orthophotography project. Aerial orthophotography will be flown in Spring 2028 on our current flight schedule and covers the City of Dubuque, the 2-mile development review area, and the Dubuque Regional Airport. The updated photography continually assists in a number of organizational activities, including mapping, land management, urban planning, environmental monitoring, economic development, public safety, and requirements by the Federal Aviation Administration for the electronic airport layout plan (eALP).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This project would perform a full network penetration test of existing network assets every three years. A penetration test (or pen test) is a simulated cyberattack conducted by security professionals to identify and exploit vulnerabilities in information technology systems, networks, or applications. The goal is to assess how well existing security controls can withstand real-world attack scenarios and to uncover weaknesses before malicious actors do. A standard pen test typically includes external testing of internet-facing assets, internal testing to simulate insider threats or compromised credentials, manual and automated techniques to identify exploitable flaws and reporting with prioritized remediation guidance. Performing a pen test can help with risk reduction by proactively identifying and fixing vulnerabilities that could lead to data breaches, ransomware attacks, or service disruptions. Many information technology standards, regulations, and insurance providers require regular penetration testing as part of a broader cybersecurity program. Testing also confirms whether firewalls, endpoint protections, and access controls are configured and functioning correctly. A pen test also reveals how quickly and effectively the City team can detect and respond to threats, helping refine response plans. Follow-up assessments and testing of effectiveness of changes made are recommended for future years.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of computers and printers for all City departments except those funded through Community Development Block Grant or Housing grant funds. This reflects a four-year replacement schedule for computers, a five-year replacement schedule for printers and a two-year replacement schedule for computer tablets. Software capabilities continue to outpace hardware and also provide continued opportunity for productivity enhancement. In the past we tried to maintain a five-year replacement schedule; however, this has been ineffective and is at least a year too long based on the pace of hardware and software industries.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This project will replace network switches and related battery backup equipment on an 8-year cycle. Network switches are crucial components of computer networks, responsible for routing and managing data traffic between connected devices. The lifespan of a network switch is typically determined by reaching end of life (EOL), environmental factors or maxing out capacity in terms of connections or bandwidth and is usually 5 to 10 years. Proper power management, including the use of surge protectors and uninterruptible power supplies (UPS), can also help prevent damage from power surges and outages, which can shorten the lifespan of network switches. Many of the City switches are past their life span, including some of the City switches that are 12+ years old. A regular yearly rotation of replacing switches will minimize possible downtime. Switch downtime usually entails several hours, possibly days, of lost network connectivity for a user. Any switches that are end of life (EOL), also becomes a security risk when the manufacturer stops supplying security patches. This could possibly affect our cybersecurity insurance. This project would replace approximately 20 switches each year, along with their associated UPS's, for a total of over 160 switches over 8 years and then repeat the cycle. This would allow us to maintain all the City's core switch infrastructure on a regular replacement schedule and avoid any issues with EOL, security risks, or unsupported equipment, while maximizing uptime for all users.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY2026	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of computers and printers for all enterprise-type City departments. This reflects a five-year replacement schedule for computers, a six-year replacement schedule for printers and a three-year replacement schedule for computer tablets. Software capabilities continue to outpace hardware and also provide continued opportunity for productivity enhancement. In the past we tried to maintain a five-year replacement schedule; however, this has been ineffective and is at least a year too long based on the pace of hardware and software industries.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Fiscal Year 2027 Recommended Budget

DATE: April 2, 2026

The strong foundation of this budget recommendation is the Mayor and City Council Goals and Priorities adopted in September, 2025:

FIVE-YEAR GOALS

- Healthy and Safe Community
- Financially Responsible, High-Performance City Organization:
  Sustainable, Equitable, and Effective Service Delivery
- Robust Local Economy:
  Diverse Businesses and Jobs with Economic Prosperity
- Livable Neighborhoods and Housing:
  Great Place to Live
- Sustainable Environment:
  Preserving and Enhancing Natural Resources
- Connected Community:
  Equitable Transportation, Technology Infrastructure, and Mobility
- Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

2025-2027 Priorities:

Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other Projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

The theme for the Fiscal Year 2027 budget recommendation is a comprehensive, future-focused investment in Dubuque's core infrastructure and community assets – prioritizing safety, streets, and access to quality services. The budget aims to ensure that Dubuque remains a safe, healthy, and vibrant place while preparing for growth and evolving community needs.

For Fiscal Year 2027 I respectfully recommend a 1.00% increase in the property tax rate, which increases the property tax rate from $10.0637 in FY26 to $10.1648 in FY 27. This would represent a 3.00% or $26.68 property tax increase for the average Dubuque homeowner.

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$10.0637	$10.1648	1.00%	$0.10
Property Tax Asking	$29,872,253	$31,940,934	6.93%	$2,068,681

Since 1989, the average homeowner has averaged an annual increase in costs in the City portion of their property taxes of +1.52%, or about +$9.92 a year. If the State had been fully funding the Homestead Tax Credit, the increase would have averaged about +$7.32 a year.

Based on the information the city has today, it appears if the City Council approves this recommendation the City of Dubuque would still have the lowest property tax rate of the eleven cities in the State of Iowa with a population over 50,000.

In the current fiscal year, FY2026, the average of the other 10 cities was 55% higher than Dubuque's property tax rate, and the highest city, Waterloo, had a rate 116% higher than Dubuque.

I asked city assessor Troy Patzner for some information about the assessed value of residential properties in the North End. He responded as follows:

"The below data shows the percentage change of value on residential from three different revaluation cycles, 2015, 2021, and 2025. I had the north end neighborhoods separated from the rest of the City. It looks like in 2015 the north end hardly changed at +.3%, as compared to the rest of the city which went up 3.14% as compared to ten years later when they increased slightly more than the rest of the city neighborhoods at 9.66%."

Assessed Value Changes

Area	Assessment 2024/2025 % Change	Assessment 2020/2021 % Change	Assessment 2014/2015 % Change
North End	+9.66 %	+9.48 %	+0.30 %
Rest of City	+8.98 %	+10.25 %	+3.14 %

Some of the increase in assessed value in the North End can be attributed to the fact that the city and others have been investing hundreds of millions of dollars in the North End. Some significant examples include the $250 million invested in the Bee Branch Creek Watershed Flood Mitigation Project, millions of dollars into Comiskey Park, a new roundabout at Kerper Boulevard and Kerper Court, new sanitary sewers on Kerper Boulevard, millions of dollars into Crescent Community Health Center, $80 million in Chaplin Schmidt Island, soon to be almost $50 million in the 14th St. Railroad Overpass and Elm Street and 16th Street complete streets. The city also had financial assistance programs to help those who had experienced flooding replace furnaces, water heaters, and repair homes. All of this has led to the homes increasing in value, which means one of the most valuable assets a resident possesses is becoming more valuable.

For FY2027 there are $2,968,870 in general fund improvement package requests. This budget recommendation includes $597,760 for recurring improvement packages and $1,120,636 for non-recurring improvement packages. The non-recurring improvement packages are funded by Inflation Reduction Act rebate in the amount of $188,737 for the Climate Action Coordinator and the energy savers program, and $931,899 of non-recurring improvement packages are funded from the $5.3 million in internal loan repayments from the Greater Downtown TIF and Dubuque Industrial Center TIF Districts. The additional nine firefighters recommended are funded by a Federal SAFER grant and previously approved ambulance fee increases. The remaining $349,684 in recommended recurring improvement packages are funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. If the City Council does not approve claiming only 75% of the Downtown TIF revenues beginning in Fiscal Year 2028 we will need to eliminate all but the 9 new Firefighters from the recurring improvement packages and cut $702,793 from the Fiscal Year 2027 general fund operating budget. In the case of the 9 new Firefighter positions they would be funded from a Federal SAFER Grant, ambulance fees, and eventually property taxes.

The current recommendation for Fiscal Year 2027 is a 3% increase in property tax cost to the average homeowner, which generates $2.1 million in additional property tax revenue over Fiscal Year 2026. Each 1% reduction in the cost increase represents approximately $300,000 less in property tax revenue.

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %
Commercial: $150,000 value & below	433	381	$716.01	$679.03	-$36.98	-5.2 %
Commercial: $150,001-$300,000 value	232	225	$2,074.61	$2,051.27	-$23.34	-1.1 %
Commercial: $300,001-$450,000	147	167	$3,433.21	$3,423.52	-$9.69	-0.3 %
Commercial: Avg. Value = $624,927	588	636	$4,253.76	$5,023.81	$770.05	18.1 %

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Industrial: $150,000 value & below	8	8	$716.01	$679.03	-$36.98	-5.2 %
Industrial: $150,001-$300,000 value	11	9	$2,074.61	$2,051.28	-$23.33	-1.1 %
Industrial: $300,001-$450,000	4	3	$3,433.21	$3,423.52	-$9.69	-0.3 %
Industrial: Avg. Value = $731,693	58	58	$5,090.27	$6,000.54	$910.27	+17.9 %

If the City Council chooses an amount of less than 3%, it could impact the recommendations to fund improvement packages, and the ability of the city to fund programs that provide grants to outside agencies.

In the March 23, 2026, property tax public hearing interest was expressed in lowering the property tax increase. In Fiscal Year 2027 we face many special opportunities and challenges. I ask that we not add to the challenges side of this equation, potentially squandering the opportunities, by using one-time revenues, to pay for recurring expenses. Doing this without a long-term funding plan only digs a budget hole to dig out of in future budget years. It creates a future self-inflicted budget crisis. Using general fund reserves to pay for recurring expenses is one of the way that using one-time revenues to pay for recurring expenses is a poor financial planning strategy. **I respect the right of the Mayor and City Council to reduce budget expenditures to reduce the recommended property tax levy. I just ask that those reductions be recurring general fund expenditures.**

What needs to be ever present in our minds is that the State of Iowa elected leaders have made it clear that they intend to enact property tax reform legislation that will negatively affect the Fiscal Year 2028 (beginning July 1, 2027) local government budgets. We do not want to do anything in Fiscal Year 2027 that will create additional funding issues in Fiscal Year 2028.

I am recommending increases in the Enterprise Funds as follows:

Enterprise Fund Utility Rates

	FY 2026 Rate	Recommended FY 2027 Rate	% Change
Water*	$22.50	$23.17	3 %
Sanitary Sewer	$31.84	$34.73	9 %
Curbside Collection	$18.11	$19.74	9 %
Stormwater	$11.03	$12.02	9 %

*3,200 gallons per month is the average residential user with a 5/8 inch water meter.

One important point is that low-income customers receive a 50% discount on their base city utility rates.

During Fiscal Year 2026 the position of Economic Mobility and Neighborhood Support Director became vacant when Anderson Sainci was promoted to the Director of Strategic Partnership position. The Economic Mobility and Neighborhood Support Department was evaluated. I have eliminated the position of Economic Mobility and Neighborhood Support Director. I have also eliminated the Department of Economic Mobility and Neighborhood Support, while ensuring those important responsibilities are still being carried out.

The Department of Economic Mobility and Neighborhood Support Administrative Support Professional also provided support to the Information Technology Department and to the Human Rights Department. The position has been transferred to the Information Technology Department and will continue to provide support to the Information Technology Department and the Human Rights Department. The Administrative Support Professional also now provides support to the 911 Emergency Communications Department.

The Department of Economic Mobility and Neighborhood Support Community Engagement Coordinator Temwa Phiri responsible for neighborhood support has been transferred to the Community Impact Department. That department will now be called the Community Impact and Neighborhood Support Department.

The Department of Economic Mobility and Neighborhood Support grant funded position of Economic Mobility Special Assistant, held by Corrine Rothblum, has also been transferred to the Community Impact and Neighborhood Support Department.

I am recommending that beginning in Fiscal Year 2028 the city begin claiming only 75% of the Downtown TIF District revenues. From the unclaimed 25% taxing bodies would begin receiving on an annual basis the following:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

In Fiscal Year 2027 the Downtown Urban Renewal TIF District would repay to the City of Dubuque internal loans in the amount of $5,060,682 and Dubuque Industrial Center TIF District would repay internal loans in the amount of $332,307 for a total of $5,392,989. These funds would be used as follows:

Fiscal Year 2027 general fund operating expenses - $1,808,693
Fiscal Year 2027 general fund non-recurring improvement packages - $929,712
Fiscal year 2027-2030 internal loans to Refuse Collections Fund - $587,638
Fiscal year 2027 internal loans to Garage Service Fund - $180,693

The remaining $1.9 million would be held in reserve in case needed to help transition the city budget in Fiscal Year 2028 from any Fiscal Year 2028 State of Iowa property tax reform legislation.

If the City Council chooses to not add to the City reserves to be prepared for Fiscal Year 2028 State of Iowa Property Tax Reform, I would ask that any use of these funds be for non-recurring expenses.

The reduction in Downtown TIF revenues beginning in Fiscal Year 2028 by only claiming 75% is:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	—%
2028	$10,162,871	-$3,361,348	-24.85%
2029	$10,137,372	-$3,386,847	-33.33%
2030	$10,111,873	-$3,412,346	-33.66%
2031	$10,111,873	-$3,412,346	-33.75%

Even with the reduction in revenues available to the Downtown TIF District, the budget recommendation was able to increase funding for the Central/White Street Corridor Project, maintain funding for the 14th Street Railroad Overpass Project and create a new program to assist with filling up vacant downtown commercial spaces. Unfortunately, there did need to be some project funding reductions like for Five Flags and for developer incentives.

Project Funding

Project	FY2026-FY2030	FY2026-FY2031	$ Change
Five Flags Renovation	$23,464,000	$7,055,088	-$16,408,912
Downtown Rehab Grant Program	$6,275,000	$2,524,793	-$3,750,207
Downtown Storefront Retention Program	$—	$400,000	$400,000
Central/White Street	$8,170,000	$11,170,000	$3,000,000
14th Street Overpass	$39,351,910	$51,183,326	$11,831,416
East-West Corridor	$1,240,275	$6,000,321	$4,760,046
Total	$78,501,185	$78,333,528	($167,657)

General Obligation (GO) debt is an important part of the Fiscal Year 2027 budget recommendation:

New General Obligation Debt

General Obligation Debt	FY2027	FY2028	FY2029	FY2030	FY2031	Total
New G.O. Debt	$12,991,499	$16,756,114	$15,288,879	$16,520,648	$15,114,208	$76,671,348

Much of this General Obligation debt is Essential Corporate Purpose debt and can be issued by a vote of the City Council. Some of this debt can be issued by a vote of the City Council, but is subject to a reverse referendum where residents can circulate a petition and then a referendum vote is required. Some of the G.O. debt would be recommended as a voter referendum.

There are many decisions to be made over the next few years on major projects that will require debt that the scope, scale, and cost of the project are not known at this time. The most significant item that is in this category is the implementation of the Parks and Recreation Master Plan that was recently adopted by the Mayor and City Council. The Aquatics Center feasibility study has already begun, and other studies are recommended to begin with approval of this budget.

Some of these capital projects will require a voter referendum. Following is a list of voter referendums in Dubuque County since 1979:

Year	Bond	P/F
1979	Courthouse bond and addition	failed
1979	NICC Levy	failed
1980	NICC Levy	passed
1982	DUBUQUE-TAX LEVY FOR PARK ON CITY ISLAND	passed
1984	City Bond Dog Racing	passed
1984	NICC Levy	passed
1985	Dubuque Band Levy	failed
1986	DBQ school tax levy	passed
1986	LOST & Service Tax	failed
1987	Wheel Tax	failed
1988	Local sales and service	passed
1988	E991	passed
1988	WD Bond	failed
1989	Dubuque Pool	passed
1989	GAMBLING	passed
1989	WD Bond	failed
1990	WD Bond	failed
1990	Dubuque School Instructional support levy	failed
1991	WD Bond	passed
1991	DBQ Hotel tax	passed
1992	DBQ Golf Bond	failed
1993	DBQ Library tax	failed
1993	DBQ Gas Company	passed
1993	Interstate Power Company	passed
1994	DBQ school tax levy	passed
1994	NICC Levy	passed
1994	Gambling Boat	passed
1994	E911 surcharge	passed
1995	DBQ school tax levy	failed
1996	DBQ School renewal of physical plant levy	passed
1997	NICC Levy	failed
1997	DCSD Support Levy	failed
1998	NICC Levy	passed
1999	LOST & Service Tax	failed
2000	County Jail Bond	passed
2000	WD Bond	failed
2000	WD Levy and Bond	failed
2000	$4 million City/County Jail Expansion	passed
2003	Baseball Stadium	failed
2005	Establish Municipal Utility	passed
2022	County Conservation Measure	failed
2023	School Board - Public Measure	failed
2025	School Board - Public Measure HB	failed

The City is also using the Iowa Finance Authority State Revolving Loan Fund (SRF) low interest debt program for sewer and water projects.

A recent report from McKinsey and Company talks about the current State of potable water and sanitary sewer water infrastructure. The report says “As critical water infrastructure ages, maintenance expenditures go up.” The report further says, “…our research shows the U.S. water utility sector faced an estimated $110 billion annual funding gap in 2024, primarily driven by significant investments in aging infrastructure, operating expenses, and water-quality regulations. By 2030, this gap could increase to approximately $194 billion.”

In 2025 the American Society for Civil Engineers issued a report title, “A comprehensive Assessment of American’s Infrastructure.” They issued a national report card:

Drinking Water “C-“: Funding gap = $309 billion
Public Parks “C-“: Funding gap = $44 billion
Solid Waste “C+”: Funding gap = $16 billion
Transit “D”: Funding gap = $152 billion
Stormwater “D”/ Wastewater “D+” (including sanitary sewer): Combined funding gap=$690 billion

Nationally, as the City of Dubuque faces locally, the biggest funding challenges are in wastewater and stormwater.

While there are several major capital improvement projects in this budget recommendation, some that have already been mentioned, the Catfish Creek sanitary sewer projects, the stormwater projects on 17th/Locust Street, the 14th Street railroad overpass, and the digging of a new deep well for the water department are some of the largest.

If the City Council feels the projected stormwater rate increase needs to be lowered, we could look at delaying some stormwater projects as we pursue federal grant funding opportunities.

The City’s top priority in operating the Water & Resource Recovery Center is to consistently meet its permit requirements and protect the environment and public health. At the same time, wastewater collection and treatment systems will inherently generate some level of odor. Organic material begins to decompose in the sewer system before it reaches the facility, and the biological processes used to remove pollutants naturally produce gases that can at times be detected offsite. Odor conditions can also fluctuate due to weather patterns, the characteristics of incoming wastewater, and normal variations in treatment system performance. While odors cannot be fully eliminated, the City is committed to minimizing their frequency, intensity, and duration through a comprehensive, multi-faceted approach.

That approach focuses on controlling odor at its source through targeted chemical dosing, improving the reliability of treatment infrastructure, enhancing operational practices and data-driven decision-making, and advancing long-term planning. The following outlines the actions the City has already taken and the additional investments proposed in FY27 to continue reducing odor impacts while maintaining reliable treatment performance.

The City has implemented targeted chemical dosing strategies to directly reduce odor-causing compounds within the treatment process. Hydrogen peroxide dosing at the primary clarifiers is achieving approximately a 50 percent reduction in hydrogen sulfide, with limited additional benefit observed at higher doses. In parallel, ferric chloride dosing within the anaerobic digesters has reduced hydrogen sulfide concentrations from approximately 13,000 ppm to as low as 490 ppm, over a 90% reduction, and decreased struvite formation potential from approximately 330 pounds per day to around 40 pounds per day, again approaching a 90% reduction. Dosing is currently at approximately 140 gallons per day and is being incrementally increased toward an optimal range of 160 to 200 gallons per day. The goal is to have zero struvite formation. The City has budgeted approximately $460,000 annually for this program and is continuing to evaluate more cost-effective upstream dosing opportunities, including hydrogen peroxide application prior to digestion and at the Terminal Street Lift Station, to further reduce hydrogen sulfide loading to the facility.

Improving equipment and system reliability remains a central focus, as many odor issues are tied to treatment systems not operating as designed. A key example is the activated sludge system, where challenges have contributed to elevated hydrogen sulfide emissions since last fall. Current efforts are focused on restoring all mixers to full operation and preparing to clean the worst-performing of the three treatment trains to stabilize process performance.

Building on this work, the Fiscal Year 2027 budget includes an improvement package to clean all three activated sludge trains over a three-year period, with funding of $42,500 annually to complete one train each year. This planned approach is intended to increase treatment efficiency, improve oxygen transfer, and reduce conditions that contribute to odor formation.

The City is also advancing a proactive approach to digester management, with Fiscal Year 2026 funding supporting the cleaning of Digester #4 in June 2026. The Fiscal Year 2027 budget establishes annual funding to clean one digester each year. Routine cleaning, combined with ongoing chemical control, is expected to reduce future costs while improving performance and minimizing odor potential.

The Fiscal Year 2027 budget also includes targeted investments to further improve system reliability and reduce the risk of odor-generating conditions. This includes $1,380,000 to improve overall system resiliency. These funds will allow the City to restore redundant systems and to maintain an inventory of critical spare parts to avoid extended outages caused by long procurement times. In addition, the budget includes $135,000 for process control monitoring improvements—specifically dissolved oxygen monitoring within the activated sludge system—to provide real-time visibility into system performance and support timely operational adjustments. The budget also includes $40,000 for real-time influent monitoring to better detect and respond to changes in incoming wastewater that could interfere with treatment processes. Together, these investments strengthen the City’s ability to proactively manage the treatment system and reduce the likelihood of process upsets that contribute to odors.

The City is also advancing a comprehensive Facility Plan update that will guide how the WRRC meets community needs over the next two decades, with odor mitigation incorporated as a key consideration in evaluating future treatment and infrastructure options. In addition to long-term planning, this effort includes a focused evaluation of existing systems to ensure they are operating as intended and that operators have the knowledge and tools needed to effectively manage the treatment process. This includes enhanced training, improved process control strategies, and the development of data dashboards to better understand system performance in real time. In parallel, the City has transitioned from paper-based records to digital systems and is expanding its use of software integrated with SCADA data. SCADA (Supervisory Control and Data Acquisition) is a computer-based system that allows operators to monitor, control, and respond to equipment and processes in real time—helping ensure systems like the wastewater treatment plant running safely and efficiently. These efforts are strengthening data-driven decision-making and improving the City's ability to proactively identify and respond to conditions that could contribute to odor events.

In addition, the City is making a significant investment in modernizing electrical controls across the WRRC through a $7.2 million program designed to enhance system reliability and operational performance. Phase 1 is already underway, with approximately $2.36 million under contract to replace motor control centers—the "brains" of the facility—in two of the seven process control buildings. The FY27–31 budget continues this progress by funding upgrades to the remaining buildings, positioning the WRRC with a strong, modern control foundation that supports consistent operations and long-term service to the community.

The City is also advancing the Hauled High Strength Waste Improvements Project, an $8.1 million investment that will strengthen how hauled waste is received and integrated into the treatment process. This project will provide dedicated infrastructure and controls to ensure these waste streams are introduced in a manner that supports stable, effective operation of the anaerobic digesters as they were designed to function. The project is fully funded through hauled waste user fees and a federal grant, aligning system improvements directly with the users of the service while enhancing overall treatment reliability and performance.

Together, these efforts, supported by the Fiscal Year 2027 budget, position the City to respond to odor challenges in the short term while proactively managing and reducing them over the long term, all while maintaining reliable, compliant treatment operations.

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

The City Council at their December 1, 2025, meeting approved adding five Firefighter/Paramedic positions in the current fiscal year (FY 2026). The authorized strength of the Dubuque Fire Department, including civilian and sworn positions, was 92.16 FTE in FY 2022 and is 109.16 FTE as of FY 2026, an 18.5% (17 FTE) increase in staffing over that four-year period. The addition of nine additional positions in FY 2027 will make it a 28% (26 FTE) increase in staffing since Fiscal Year 2022.

The city will apply for a SAFER grant later this calendar year when the application process opens, then it is expected it would be several months before the city would learn of the results of the application. The results could be that all nine of the positions receive SAFER grant funding, some of the positions receive grant funding, or none of the positions receive grant funding. Based on Fire Chief Amy Scheller's experience in the SAFER grant process she believes Dubuque will have a very competitive application. If the city does not receive the SAFER grant in calendar year 2026 (FY 2027) to help with funding the nine new Firefighter/Paramedic positions the City Council has the options of reapplying for the SAFER grant in calendar year 2027 (FY 2028), phasing implementation of the nine new Firefighter/Paramedic positions (since the Fire Department has three 24 hour shifts that would most likely be three positions a year, one on each shift, for three years, leaving open the option to apply for a SAFER grant in future years for the positions not added in the first and/or second year), or decide to modify the funding plan to maintain the hiring schedule through a mid-fiscal year amendment of the FY 2027 city budget, which would take an evaluation of other approved general fund expenses. I am sure there are other options that could be explored.

The Parks and Recreation Master Plan identifies the need for seven additional positions to fully support its implementation. While adding all seven positions was not financially feasible in Fiscal Year 2027, the budget recommends moving forward with two park maintenance technician positions at this time. These technicians would take responsibility for comprehensive park maintenance across the system.

Including the position added for Eagle Point Park in the current fiscal year, this brings the total to three new park maintenance positions within a two-year period—demonstrating continued progress toward meeting the maintenance and service goals outlined in the Master Plan.

In Dubuque Public Safety is a Citywide Commitment.

Public safety in Dubuque is not the work of one department or a single set of responders. It is a shared responsibility woven into the daily operations of every service area across the City. From infrastructure and clean water to communications, planning, and community engagement, each department plays a crucial role in creating a safe, resilient, and thriving Dubuque. Together, their efforts demonstrate that safety is not only about reacting to emergencies—it is about preventing them, preparing for them, and creating the conditions that allow people to live their lives with confidence, stability, and trust.

Safety in the Air, on the Ground, and Throughout Daily Life

At the Dubuque Regional Airport, safety begins long before a plane takes off or lands. Staff complete rigorous daily inspections, manage weather and wildlife hazards, maintain critical systems, and collaborate with pilots and emergency responders to ensure 24/7 protection for travelers. This proactive approach exemplifies how safety is embedded into operations, not simply responded to in moments of crisis.

That same focus on prevention is found across the City. Public Works crews keep roads clear in severe weather, maintain stormwater and sewer systems, and care for the fleet that emergency responders depend on. Water Department staff run hundreds of tests every day to ensure clean drinking water, protect public health, and ensure firefighting capacity. At the Water & Resource Recovery Center, millions of gallons of wastewater are safely treated daily while programs like Industrial Pretreatment and FOG prevent hazardous backups and protect people, property, and the Mississippi River.

These systems—airfield safety, streets and utilities, water and wastewater—may operate largely out of public view, but they are the backbone of a safe and functioning community. When they work well, residents can move, work, and live without disruption. When incidents do occur, this strong foundation ensures that responders can act quickly and effectively.

Safety Through Law, Regulation, and Responsible Growth

Many of the City's departments protect residents by shaping safe environments long before emergencies or hazards occur. Planning Services enforces the Unified Development Code to maintain safe building practices, guide responsible land use, and ensure emergency access. Floodplain regulation, subdivision review, and zoning enforcement keep people out of harm's way and reduce long-term risks.

Similarly, the City Attorney's Office plays a vital behind-the-scenes role by enforcing building, nuisance, and animal control codes; supporting criminal and civil proceedings; reviewing contracts and specifications for public safety components; and providing guidance across departments. The City Clerk's Office contributes through civil service hiring processes that ensure police and fire roles are filled with qualified professionals, by overseeing background checks, and by coordinating safe community events.

Housing & Community Development reinforces safety through rental licensing, inspections, and environmental health programs—addressing lead hazards, structural issues, and fire risks. Their work helps reduce unsafe living conditions while improving long-term housing stability, a factor closely tied to overall community safety.

Sustainability efforts, too, are essential to public safety. They address the long-term threats of extreme weather, air quality, and climate impacts. By protecting resources, lowering risks, and strengthening resilience, sustainability work ensures that Dubuque remains safe not only today but for generations.

Safety Through Community Connection, Equity, and Support

Several departments focus on the human and social aspects of safety. The Community Impact & Neighborhood Support Department builds stability by reducing financial stress, connecting residents to resources, and supporting neighborhood-led improvements. These upstream interventions can prevent crises, reduce involvement with the legal system, and strengthen protective factors within families and neighborhoods.

The Human Rights Department promotes psychological and physical safety by enforcing anti-discrimination laws, reducing threats and harassment, ensuring access to housing and services, and building trust between residents and City government. When people feel protected and respected, they are more likely to cooperate with authorities, report concerns, and participate in community life.

The Carnegie-Stout Public Library provides safe public space for all residents—a place to learn, connect, cool down, warm up, or simply rest. Its educational programs and inclusive environment foster emotional, social, and economic stability.

Parks and Recreation also contributes by maintaining safe, welcoming outdoor spaces. Parks offer physical activity, mental relief, and community connection. Through collaboration with police, engineering, public works, and other departments, park safety is supported year-round.

These departments highlight that safety is not only physical; it is also social, emotional, and environmental. When residents have stable housing, welcoming spaces, and equitable treatment, public safety strengthens across the entire community.

Safety in Emergency Response, Technology, and Coordination

Several City departments are directly involved in emergency response. The Dubuque Fire Department responds to thousands of calls annually, from medical emergencies to hazardous materials incidents, while also conducting inspections, fire prevention programs, and rigorous training. Investments in equipment, staffing, and modernized tools ensure firefighters remain prepared for both routine calls and complex events.

The Dubuque Police Department protects residents through law enforcement, problem solving, community partnerships, and the use of technology to address crime and neighborhood concerns. Highly trained personnel and strong community relationships are central to their mission.

The 911 Emergency Communications Center is the first critical link in any emergency. Dispatchers gather essential information, coordinate multi-agency responses, use advanced technology to pinpoint locations, and provide lifesaving instructions until help arrives. They also support after-hours communications for multiple City departments and maintain vital situational awareness through citywide cameras and cross-jurisdictional connections.

Communications staff support emergency response by coordinating crisis messaging, issuing public alerts, staffing the Emergency Operations Center, and managing the AlertIowa notification system. Their work ensures residents receive timely, accurate, and accessible information when it matters most.

Information Technology protects the digital infrastructure that all of these departments rely on—safeguarding against cyber threats, maintaining communications systems, supporting public safety software, and ensuring uninterrupted connectivity between departments.

Transportation Services supports community safety by providing reliable transit that reduces congestion, improves mobility for vulnerable residents, and offers safe travel during severe weather.

Together, these departments form Dubuque's operational readiness network—preventing harm, responding to emergencies, and ensuring continuity during crises.

A Community Protected by Everyone

What becomes clear across every department is a shared philosophy: **public safety is everyone's responsibility.**

It is expressed through:
- the engineering controls that prevent crashes and floods
- the code enforcement that ensures safe housing
- the communications that keep residents informed during crises
- the economic and social programs that reduce instability
- the infrastructure that moves water, protects roads, and maintains technology
- the emergency responders who arrive when every second counts
- the parks, libraries, and public spaces that offer refuge and belonging

Safety is not the work of one department—it is the woven fabric of all City operations. Because of this collective effort, Dubuque is not just safer in emergencies; it is safer every day, in ways many may never see but all benefit from.

The City of Dubuque is a Community Built on Service, Safety, Stewardship & Shared Purpose.

Across Dubuque's government, one theme rises above all else: **people serving people.** From the moment person becomes a resident to the moment water flows safely from a tap, dozens of teams work together — often quietly, often unseen — to keep our community moving, thriving, and welcoming. These departments form an interconnected ecosystem of service, each contributing to a Dubuque built intentionally, compassionately, and with an eye toward the future.

At our **regional airport**, staff operate not just a transportation hub, but a gateway to opportunity. Their work helps businesses recruit talent, supports medical transport when minutes matter, and welcomes visitors home with professionalism and hospitality. The airport connects Dubuque to the wider world — and connects the world to us.

In **City Clerk services**, residents find their first point of contact with local government — a place to access public records, participate in council proceedings, pursue licenses and permits, and engage in meaningful civic involvement. The Clerk's Office safeguards the historical record of our governing body while creating clear pathways for the public to understand, influence, and participate in their government.

The **Communications Office** ensures that residents receive timely, trustworthy, accessible information amid today's whirlwind of noise, rumors, and viral misinformation. Their work protects the credibility of local government, helps residents understand and access city services, and keeps transparency at the forefront even in a fast-moving digital environment.

Through **Community Impact & Neighborhood Support**, Dubuque embraces a bigger vision: that opportunity should never be accidental. This department aligns data, resident voice, and neighborhood engagement to remove barriers and help families move toward stability and long-term economic mobility. Their mission is not just to run programs, but to strengthen the entire ecosystem of community support.

The **Economic Development Department** works quietly but powerfully behind the scenes — turning ideas into storefronts, revitalizing underused spaces, supporting local entrepreneurs, and aligning public tools with private investment. Their work helps shape a local economy rooted in resilience, creativity, and shared prosperity.

Our **911 Emergency Communications** team — the dispatchers who answer calls in crisis — serve with empathy, professionalism, and genuine human care. In a newly improved communications center, they continue to support residents with focus and compassion, inspired by the community they serve.

In the **Engineering Department**, staff act as the city's in-house engineering firm, designing and maintaining streets, sidewalks, traffic systems, sewers, stormwater networks, and fiber infrastructure. Much of their work may be invisible to residents, but it shapes every trip made in Dubuque and ensures that movement throughout the city is safe, efficient, and reliable.

For the **Fire Department**, the heart of their message is simple: their greatest strength is their people. Highly trained, deeply compassionate, and unwaveringly dedicated, these individuals show up on the worst days of people's lives with skill, steadiness, and humanity. They see people, not incidents — and their service reflects Dubuque's core values: integrity, responsibility, and care.

The **Housing & Community Development Department** works directly with residents to improve safety, stability, and quality of life. Through permitting, inspections, rental licensing, rehabilitation, and neighborhood revitalization, they build trust through personal interaction and help ensure that every person has access to safe, supported housing.

The **Health Services team** protects community wellbeing through food inspections, animal control, and investigations that prevent illness and injury before they occur. Their efforts reduce avoidable healthcare costs, prevent disease, and promote a healthier, safer community — much of it quietly, diligently, and behind the scenes.

Human Resources supports the people who support the public. They recruit talented employees, provide training, ensure compliance with employment laws, and help maintain safe, respectful, workplaces. Their mission is to build a capable workforce that delivers reliable, high-quality service citywide, while creating a sense of belonging.

Dubuque's **Office of Human Rights** ensures that every resident has access to safety, dignity, fairness, and equal opportunity. Going beyond enforcing nondiscrimination laws, the office provides education, outreach, dispute resolution, and guidance that fosters a community where everyone belongs.

The **Information Technology Department** serves as the city's hidden backbone — the "wizard behind the curtain" ensuring systems run smoothly, securely, and reliably. They solve problems before disruptions occur, strengthen cybersecurity, and make digital complexity feel seamless for residents and staff.

The **Carnegie-Stout Public Library**, approaching its 125th anniversary, continues to be a cornerstone of literacy, learning, curiosity, and safe public space. It nurtures psychological, social, and economic wellbeing through accessible resources, programming, and a welcoming environment.

In **Parks & Recreation**, the city is turning community feedback into a decade-long plan to enhance quality of life. The new master plan invites residents to dream, imagine, and collaborate as the department invests in spaces and programs that bring joy, health, and connection.

Planning Services blends data, imagination, and community input to guide how Dubuque grows. Like urban storytellers, they help shape neighborhoods that feel connected and welcoming, ensure development is safe and sustainable, and paint the next strokes of the city's evolving landscape.

The **Police Department** remains committed to disciplined operational excellence, strong partnerships, strategic innovation, and high-quality personnel — all in pursuit of keeping Dubuque as one of the safest places to live in the country.

In **Public Works**, deeply skilled operators, technicians, and field staff maintain the physical backbone of the city. Their work is essential, demanding, and often invisible — from clearing storm drains to maintaining streets to ensuring emergency response is possible. They steward the infrastructure that keeps Dubuque functioning, safe, and resilient.

Sustainability touches every aspect of daily life, from air and water quality to transportation, health, biodiversity, waste, and food systems. The city's sustainability work encourages residents to think broadly about how the community can thrive while protecting long-term environmental health.

The city's transportation system, **The Jule**, connects people to possibility. Every bus route expands access to jobs, education, services, and opportunity. In FY27, The Jule continues its commitment to sustainability and community connection — because when mobility expands, community wellbeing expands with it.

The **Water Department** works with precision and scientific rigor to ensure safe, clean, reliable drinking water. Through extensive daily and monthly testing, they safeguard public health, support essential amenities, and ensure Dubuque meets the highest standards of safety and emergency readiness.

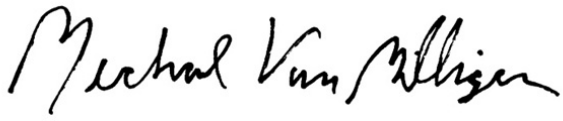
Without the **Finance Department** nothing runs. Managing a $250 million annual budget, paying bills, making payroll, purchasing goods, and keeping employees safe is a big and important job. In addition to financial responsibilities, the Finance Department oversees the implementation of the City's organization-wide safety program. The City is committed to providing a safe and healthy workplace for all employees, and safety is treated as a core value at every level of operations. To strengthen this commitment, the City has established a multi-department safety committee and completed a comprehensive review of all safety policies and procedures to ensure alignment with OSHA standards and best practices.

The **Water & Resource Recovery Center** operates around the clock, using chemistry, biology, engineering, and continual monitoring to protect the environment and public health. Their team blends technical excellence with a commitment to workplace culture, investing in reliability, innovation, and people as they prepare for the future.

Finally, the **City Attorney's Office** and the **City Manager's Office** work closely with the Mayor and City Council to ensure departments have the tools they need to carry out the goals and priorities established by the City Council.

There will be seven City Council special meetings prior to the adoption of the FY 2027 budget before the state-mandated deadline of April 30, 2026. I want to thank Chief Financial Officer Jennifer Larson, Assistant City Manager Cori Burbach, Public Information Officer Randy Gehl, Budget Manager Laura Bendorf, Budget/Financial Analyst Shannon Soppe, Budget/Financial Analyst Nikesh Shah, Budget/Financial Analyst Nathan Kelleher, and Executive Assistant Stephanie Valentine for all their hard work and dedication in preparation of this budget recommendation.

I respectfully recommend Mayor and City Council adoption of the Fiscal Year 2027 Budget recommendation, and I look forward to the multiple public input meetings to come.



Michael C. Van Milligen
City Manager
