TO: Mike Van Milligen, City Manager

FROM: Amy Scheller, Fire Chief
Martin FitzPatrick, Bureau Chief of Training

SUBJECT: Completion of Georgia Smoke Diver Program

DATE: March 23, 2026

INTRODUCTION:

The purpose of this memorandum is to formally recognize Fire Equipment Operator (FEO) Chris Kluesner for his outstanding achievement in successfully completing the highly demanding Georgia Smoke Diver Program. This accomplishment reflects exceptional dedication, resilience, and commitment to the fire service profession and brings great distinction to both the Dubuque Fire Department and the community we serve.

DISCUSSION:

The Georgia Smoke Diver Program is widely regarded as one of the most physically and mentally demanding training programs in the fire service. Established to enhance firefighter survivability and operational effectiveness in extreme fireground conditions, the program pushes participants well beyond conventional training limits.
Spanning multiple days of continuous, high-intensity scenarios, candidates are subjected to rigorous evolutions designed to simulate real-world, worst-case fireground environments. These include:

- Prolonged interior firefighting operations in zero-visibility conditions
- Complex search and rescue scenarios requiring advanced problem-solving under stress
- Heavy physical exertion while operating in full protective gear and self-contained breathing apparatus (SCBA)
- Limited rest and recovery periods, testing endurance, mental toughness, and decision-making capacity
- Team-based evolutions that demand trust, communication, and accountability under extreme fatigue

The program is intentionally structured to identify and develop firefighters who can perform effectively when conditions are at their most dangerous and unpredictable. Attrition rates are significant, and successful completion is considered a rare and distinguished accomplishment within the fire service.

FEO Kluesner's ability to persevere through this environment speaks to his exceptional physical fitness, mental resilience, technical proficiency, and unwavering commitment to excellence. His performance not only reflects personal achievement but also demonstrates the caliber of training and professionalism within the Dubuque Fire Department.

FEO Kluesner's graduation from the Georgia Smoke Diver Program represents more than an individual milestone, it enhances the operational readiness and capability of our entire organization. The knowledge, skills, and leadership qualities gained through this experience will be shared with fellow members, strengthening our collective ability to respond safely and effectively to high-risk incidents.

His accomplishment serves as an inspiration to others within the department and reinforces our organizational commitment to continuous improvement, advanced training, and firefighter safety.

RECOMMENDATION:

It is recommended that the City recognize Fire Equipment Operator Chris Kluesner for this significant professional achievement. His dedication to advancing his skills and representing the Dubuque Fire Department at the highest level exemplifies the values of professionalism, responsibility, and excellence.

Please join me in congratulating FEO Kluesner on this outstanding accomplishment.

CITY OF DUBUQUE, IOWA
CITY COUNCIL PROCEEDINGS
SPECIAL SESSION

The Dubuque City Council met in special session at 6:30 p.m. on March 23, 2026, in the second-floor Council Chambers of the Historic Federal Building, 350 W. 6th Street.

Present: Mayor Cavanagh; Council Members Leyendecker (attended virtually), Resnick, Roussell, Sprank, Staver, Wethal; City Manager Van Milligen, City Attorney Brumwell.

Mayor Cavanagh read the call and stated this is a special session of the City Council called for the purpose of holding a public hearing on the Fiscal Year 2027 Proposed Property Tax Rate.

PUBLIC HEARING

1. Public Hearing for the Fiscal Year 2027 Amount of Proposed Property Tax Rate and Dollars and the Fiscal Year 2027 Budget and Fiscal Policy Guidelines: Motion by Roussell to receive and file the documents and adopt Resolution No. 99-26 Approving the Maximum Property Tax Dollars Requested for Fiscal Year July 1, 2026-June 30, 2027. Breitfelder stated that written input was received by Chris Luchsinger, 716 Peru Rd.; Mary Sand, 880 Goethe St.; and Rob McDonald, 3399 Eagle Point Dr. Brumwell reviewed the options in her memo to Council for how the Council can hold improvement packages for separate discussion during departmental budget meetings. Brumwell advised that if the Council wishes to review held items at every meeting, the topic should be included as a standing agenda item. Council agreed that no final action will be taken on any held improvement packages until the April 28 public hearing on the budget, though discussion in the interim may provide direction to staff. Council Members concurred on using the second option listed in Brumwell's memo for their budget meeting process. Per that option, if a single Council Member requests that an item be held for separate discussion, an informal poll will be taken. If a majority support holding the item, it will be set aside for discussion. Brumwell noted she will revise her memo to Council to focus solely on this option and include it with each budget meeting agenda. Chief Financial Officer Jennifer Larson and Van Milligen addressed questions regarding the general fund reserve and Tax Increment Financing (TIF). Van Milligen clarified that although the City's tax rate is uniform for all homeowners, differing assessed values may lead to inequitable tax impacts. Roussell proposed adding a discussion on the potential use of cash reserves to fund certain City services to the standing agenda item for budget items held for separate discussion. An informal poll showed support from a majority of Council Members for including this topic. Council Members also discussed the maximum property tax rate and the implications of the goal-setting process on the budget. Motion carried 4-3 with Staver, Resnick, and Leyendecker voting nay.

ACTION ITEMS:

ADVISORY REVIEW

Location:	4th Street between Bluff Street and the Fenelon Place elevator
Applicant:	Hills & Dales, 1101 Davis St.
Owner:	*located on a City of Dubuque street*
Project:	Temporary mural on street surface in the public right of way
District:	Cathedral Historic District

Staff member Happ Olson introduced the project. Hills & Dales seeks to paint a mural on the West 4th Street surface between Bluff Street and the Fenelon Place elevator, in the locally designated Cathedral Historic District. As this project is in the Public Right of Way (PROW), the organization brings the request to the Historic Preservation Commission for advisory review.

She described that Hills & Dales reached out to Planning Staff following discussion with our Engineering Department about the possibility of painting a mural on the West 4th

Street surface between Bluff Street and the Fenelon Place elevator. The project is described in an enclosed brochure, proposed for the PROW along 4th Street. The PROW is a piece of land, including streets, sidewalks, alleys, and utility corridors, over which the public has a legal right of passage or use.

Happ Olson presented imagery from the staff report for the location and surrounds to give context. She stated that in most cases, the Commission's advisory review for a project in the Public Right of Way would come into play when the City is undertaking a project, but in this case, the City is considering providing permission to Hills & Dales to take on this project. The Commission should review the project and make a recommendation to City Council for consideration.

She stated that the mural request does not impact visibility of historic resources in the district, it is not being applied to a historic surface or resource and is planned as a temporary installation with a plan for removal after one year. It will not permanently affect or damage any historic resources.

She then referred to the architectural guideline analysis, which only related to the public art section. She stated that the project meets the recommendations in those guidelines.

Happ Olson stated that her report was complete and reminded the Commission that they should evaluate the project and will be making a recommendation directly to City Council. She referred to the applicant.

Jack Mescher, CEO of Hills & Dales, spoke at the podium. He described the organization, their mission and role in the community, and described the mural project as one that anyone, even someone using a wheelchair, can participate in. He stated they are currently seeking an artist to lead the project and have a local coordinator that is versed in murals and community engagement. He stated that it would be a project which welcomes the community to be involved in, in addition to the Hills and Dales community.

Commissioners led questions and comments for the applicant.

- Schwendinger ask if there is going to be any signage describing the mural, and the applicant replied that issue had yet had not been determined, and they would take the idea into consideration.
- Doyle stated his belief that this is the kind of project the Commission would like to encourage, which was generally agreed upon by the Commission.
- Witthoeft expressed his desire that when it is removed, the organization research an environmentally neutral approach to doing so.

Motion by Schwendinger, seconded by Witthoeft, to provide findings to City Council that the planned project follows the City's Architectural Guidelines for public art. Motion carried by the following vote: Aye – Janice Esser, Bill Doyle, Tim Gau, Heidi Pettitt, Rick Stuter, Chad Witthoeft, Adam Schwendinger, Christy Monk; Nay – none.

ITEMS FROM COMMISSION:

MINUTES
ZONING ADVISORY COMMISSION
REGULAR SESSION
6:00 p.m.
Wednesday, March 4, 2026
City Council Chambers, Historic Federal Building

Commissioners Present: Commission Members Martha Christ, Carrie Lohrmann, Rich Russell, and Teri Zuccaro (attended virtually)

Commissioners Excused: Matt Mulligan, Troy Froistad, and Pat Norton

Commissioners Unexcused: None

Staff Members Present: Wally Wernimont, Shena Moon, and Travis Schrobilgen

CALL TO ORDER: The meeting was called to order by Vice Chairperson Russell at 6:00 p.m.

MINUTES: Motion by Christ, seconded by Zuccaro, to approve the minutes of the February 4, 2026 meeting. Motion carried by the following vote: Aye – Christ, Lohrmann, Russell, and Zuccaro; Nay – none.

ACTION ITEMS/WAIVER: Application of Joel Callahan of YC6, LLC to waive specific requirements of Chapter 13 of the Unified Development Code for property located at 4488 Dodge Street.

Logan Yager, Callahan Construction, spoke in favor of the request. He noted they are looking to construct a cold storage building at the rear of the property. He said that the size of the building requires the entire site to be brought up to current standards. He said the requirement is understandable but noted that the new building is located at the rear of the property behind the existing building. He stated that a frontage road is planned in the future along the front of the property and that it would have impacts to the site including requiring reconstruction of the front parking lot and relocating of existing signage.

Staff Member Schrobilgen detailed the staff report. He outlined the Unified Development Code (UDC) design standards stating that the size of the structure is 25% of the existing building which triggers the entire site to be brought into compliance with current regulations. He noted that the most current plans from the Iowa Department of Transportation proposes extending the frontage road to the east which would impact the north portion of the site. He summarized the applicant's requested waiver which included allowing a rock/gravel drive aisles in lieu of the required hard surfaced aisles, requesting relief from parking lot landscape requirements, requesting relief from

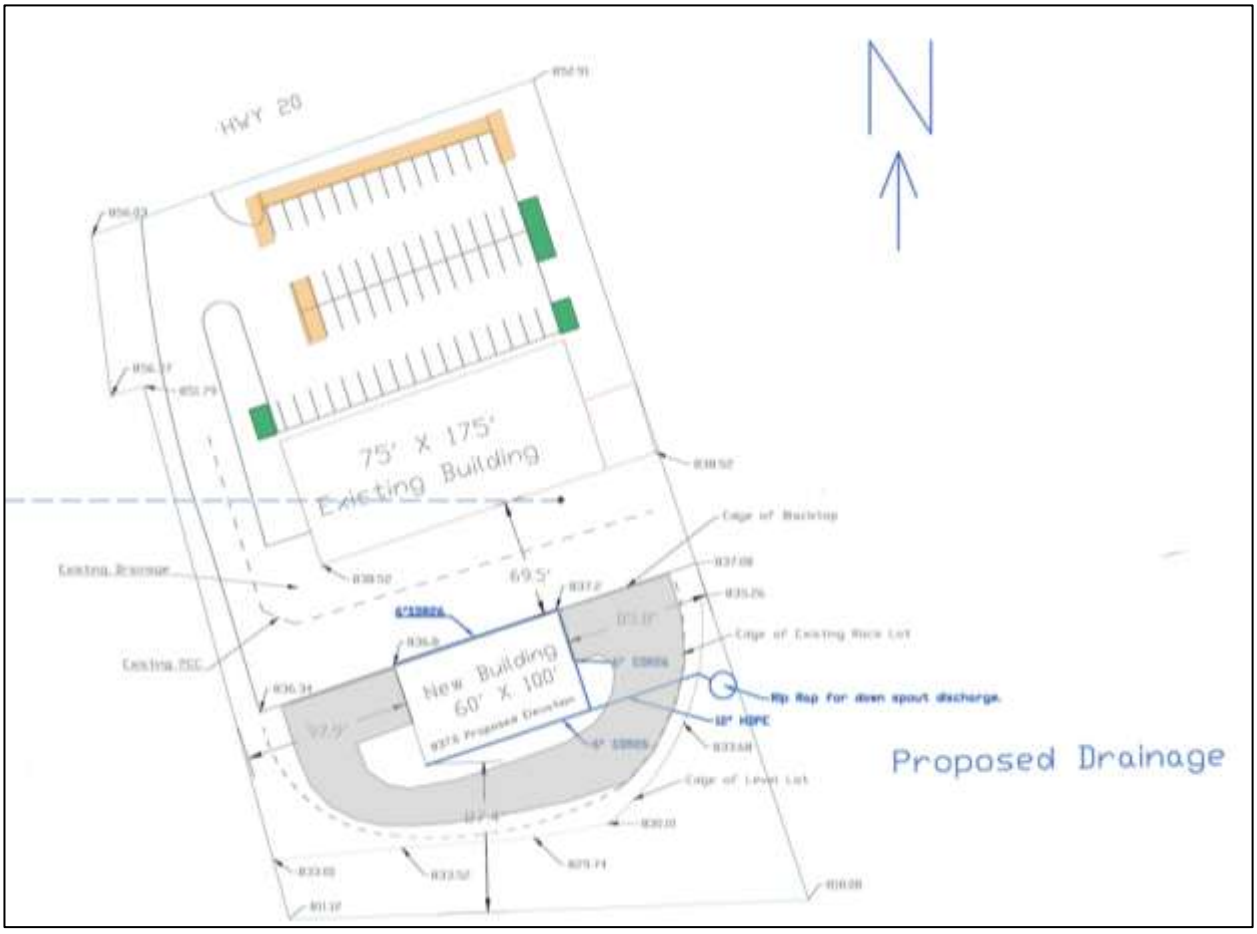
providing the minimum required quantity of trees and shrubs on the site, and requesting relief from providing a parking lot landscape buffer yard. Staff Member Schrobilgen displayed the staff report which included a chart summarizing the requested waivers and a site exhibit showing the areas of the site plan that are impacted by the waiver request.

The Commissioners discussed the proposal and asked for clarification regarding the landscaping requirements and sought clarification as to how they might proceed with approving portions of the request.

Staff Member Schrobilgen clarified that landscaping is defined as ornamental grasses and trees, flowers, shrubs, etc. and not just sod. He stated that the Commission could approve all, portions, or none of the requested waivers and that it takes affirmative votes of four members of the commission to pass a waiver.

The Commissioners continued discussion, noting that the existing parking lot would likely need to be modified since it would be impacted by the future frontage road. The Commission reviewed the standards outlined in Chapter 13 of the Unified Development Code (UDC) and found that they could support approving three of the five waiver requests as submitted, and portions of two other waiver requests.

Motion by Christ, seconded by Lohrmann, to approve waiving specific code standards as outlined in the exhibit and chart below.



UDC Code Section		Required	Proposal	Decision
13-3.6(A)	**Parking Lot Layout (Hard Surface Drive Aisles)**	All parking lots and driveways shall be hard surfaced. Parking on gravel, dirt or unreinforced turf is prohibited.	Rock/gravel at the rear only. Hard-surfaced for remainder.	Not Waived.
13-3.6(D)	**Parking Lot Layout (Endcap - Landscaped Islands)**	Parking bays in excess of eleven (11) spaces in length shall provide landscaping at the ends of each aisle in accordance with subsection 16-13-4-6C of this chapter.	One island not installed and no landscaping on all end aisles.	Waived areas in orange. Still required in green areas.
13-4.4 (F)(1)	**Site Landscaping (Trees)**	Minimum tree planting requirements shall be one tree per one thousand six hundred (1,600) square feet of required permeable area. (16 required.)	5 Existing Trees to remain	Waived.
13-4.4 (F)(2)	**Site Landscaping (Shrubs)**	Minimum shrub requirements at the time of planting shall be six (6) shrubs, or one shrub per one thousand (1,000) square feet of required permeable area, whichever is greater. (26 required.)	None.	Waived.
13-4.10(C)	**Parking Lot Layout (10' landscaped Buffer)**	A landscaped buffer strip shall be provided along the frontage of all surface parking areas at least ten feet (10') wide along the public right of way.	None.	Waived

Motion carried by the following vote: Aye – Christ, Lohrmann, Russell, and Zuccaro; Nay – none.

PUBLIC HEARING/PUD AMENDMENT: To rezone property from ID Institutional to R-1 Single-Family Residential zoning district.

The Commission noted a letter submitted by the applicant requesting to table the rezoning request to the April meeting in order to allow more time to work with the State of Iowa. The Commission found the request reasonable.

Motion by Christ, seconded by Lohrmann, to table the request to the April meeting. Motion carried by the following vote: Aye – Christ, Lohrmann, Russell, and Zuccaro; Nay – none.

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Recommendation to Add Two Purchasing and Safety Interns

DATE: March 31, 2026

Chief Financial Officer Jennifer Larson recommends that the City Council approve two interns to provide dedicated support to the Safety and Purchasing functions. These internships will provide immediate operational benefits by addressing current workload needs and will also contribute to the long-term objective of enhancing citywide performance and sustainability in both purchasing and safety operations.

Each intern would work 40% of a full-time schedule (0.40 FTE), totaling 0.80 FTE or 1,664 work hours combined for the year. Both interns would be paid at the NB03 step 4 pay rate under the general employee wage plan, which is $20.74 per hour. The total cost for both interns over a full year would be $40,409. Due to current office capacity, the interns would not be hired until the Accounting, Payroll, and Budget functions of the Finance Department moves to 7850 Chavenelle. We expect the hiring dates to be May/June 2026. Fiscal Year 2026 estimated cost is a maximum of $6,735.

Funding for these positions will come from savings in workers' compensation, which totals $138,961 for the rest of fiscal year 2026. These intern positions are included in the Fiscal Year 2027 budget in maintenance level. If City Council does not approve the request, the cost will be removed from the FY27 budget.

I concur with the recommendation and respectfully request Mayor and City Council approval.

SUBJECT: Recommendation to Add Two Purchasing and Safety Interns

INTRODUCTION

The purpose of this memo is to recommend the approval of two intern positions dedicated to supporting the Safety and Purchasing functions. These internships will provide immediate operational benefits by addressing current workload needs and will also contribute to the long-term objective of enhancing citywide performance and sustainability in both purchasing and safety operations.

DISCUSSION

Both the Safety and Purchasing functions are currently facing increased workloads due to expanded operational needs, stricter regulatory requirements, and ongoing efforts to improve processes. Although the current staff manages essential duties effectively, their limited capacity restricts their ability to address outstanding tasks, update documentation, and make further progress on process enhancements.

The Safety team would benefit from additional support in key areas such as tracking data, conducting safety audits, maintaining training records, following up on incident reports, and preparing for compliance reviews. While these activities are crucial, they are also time-consuming and often take experienced staff away from more strategic responsibilities.

In the Purchasing team, interns would provide valuable assistance with maintaining vendor data, analyzing spending, and controlling documentation. These tasks are vital for effective cost management and strong supplier performance, and they offer excellent learning opportunities for interns.

Bringing interns on board is a cost-effective way to strengthen both Safety and Purchasing operations. Interns can handle administrative, analytical, and project-based work at a lower cost, which allows full-time staff to focus on high-priority, strategic tasks that have a greater impact.

With the City's safety programs recently completed, the next step is to review and ensure compliance. This phase usually requires additional staffing or hiring a consultant, but utilizing interns can achieve these goals at a significantly reduced cost. This strategy balances operational needs with responsible budgeting and supports long-term planning.

The Finance Department has successfully used interns for similar roles in the past, and we expect equally positive results from interns in Safety and Purchasing positions.

BUDGET IMPACT

We are requesting approval to hire two Safety and Purchasing interns. Each intern would work 40% of a full-time schedule (0.40 FTE), totaling 0.80 FTE or 1,664 work hours combined for the year. Both interns would be paid at the NB03 step 4 pay rate under the general employee wage plan, which is $20.74 per hour. The total cost for both interns over a full year would be $40,409.

Due to current office capacity, the interns would not be hired until the Accounting, Payroll, and Budget functions of the Finance Department moves to 7850 Chavenelle. We expect the hiring dates to be May/June 2026. Fiscal Year 2026 estimated cost is a maximum of $6,735.

Funding for these positions will come from savings in workers' compensation, which totals $138,961 for the rest of fiscal year 2026. These intern positions are included in the Fiscal Year 2027 budget in maintenance level. If City Council does not approve the request, the cost will be removed from the FY27 budget.

RECOMMENDATION

We recommend approving the hiring of two interns to support Safety and Purchasing. These roles will provide essential operational support, helping to manage current workloads and enabling existing staff to concentrate on strategic improvements. By bringing on interns, the City will increase productivity, drive ongoing process enhancements, and promote the long-term sustainability of these critical functions.

Exceptions to this rule may be granted by city staff after a review of the particular property and the mobile food vendor has been able to make arrangements to ensure safe and sanitary conditions, including, but not limited to, employee access to restrooms, adequate access for fire and police personnel/vehicles, the site is free from hazards or dangerous conditions, and compliance with other city code requirements.

G. No mobile food unit may operate within one hundred feet (100') of a permanent restaurant or business offering food or beverage services unless the mobile food vendor has received the express written consent of the restaurant or business owner. A city approved special event is exempt from this provision.

H. The window or area where a patron orders and receives the food or beverage purchased shall be located so as to not require a patron to stand or create a line that may cause pedestrians to be in the public right of way, vehicle travel lane, including parking lot drive aisles, or similar situation that may create a potential safety hazard. Adequate safe space for patrons waiting for an order must be available on the property where the mobile food unit is located.

I. All mobile food units, and any signage, garbage receptacles, or other equipment associated therewith, must be located in such a manner as not to create a safety hazard, such as blocking emergency access to buildings and the site, obstructing access to fire hydrants, impeding entering and exiting from a building, or creating a visual impediment for the motoring public at drive entrances, intersections, or pedestrian crossings.

J. No mobile food unit may be parked in or otherwise impact access to or from ADA (Americans with Disability Act) parking stalls.

K. Mobile food vendors must comply with all applicable provisions of City Code § 6-5 regarding noise.

L. Placement of signage for a mobile food unit within the public right-of-way is limited to one portable, free-standing, self-supporting sign, with a maximum area of eight (8) square feet and a maximum height of five feet (5').

M. A mobile food vendor with a mobile food vending unit legally parked in a metered space must pay the required meter fee while operating in an area with metered parking.

N. No alcoholic beverages may be sold by a mobile food vendor.

O. The mobile food vendor is responsible for keeping the area around and within ten feet (10') of the mobile food vendor unit free from trash, debris, garbage, and other hazardous conditions at all times, including material spilled on the public right-of-way as a direct result of the mobile food unit operation. Trash from mobile food vendor units must be disposed of by private means and not in any publicly provided trash receptacles.

P. A valid driver's license is required for any person operating a mobile food unit if the mobile food unit is operated as a motor vehicle while vending or traveling to vending locations.

Q. If a mobile food unit is operating in a manner that obstructs or otherwise adversely impacts the public right-of-way or any city-owned property, city staff may require immediate relocation of the mobile food unit. (Ord. 3-26, 2-2-2026)

4-9-11: **PROPERTY OWNER RESPONSIBILITY:**

By allowing the mobile food unit on private property, the property owner is also responsible for ensuring that the performance standards listed in this article and the safety of pedestrians and access of emergency vehicles to and around the mobile food unit site are maintained. Failure to do so may result in the property owner being subject to an enforcement action and penalties allowed by law. (Ord. 3-26, 2-2-2026)

Other lamps are permissible if no red light is directed towards the front, nor white light to the rear.

B. The use of sirens or whistles on a bicycle is prohibited.

C. No person shall drive a bicycle unless it is equipped with a functional brake. Unicycles are exempt from the brake requirement.

D. A person propelling a bicycle on the streets, sidewalks, highways, parks, or multi-use trails of the city shall not ride other than upon or astride a permanent and regular seat attached to the bicycle.

E. Each bicycle driven along the streets, sidewalks, highways, parks, or multi-use trails of the city shall have such other equipment, and the equipment shall be in such condition, as will allow it to be operated safely. (Ord. 48-09, 9-21-2009; amd. Ord. 43-25, 11-27-2025)

7-7-7: REQUIRED METHOD OF RIDING A BICYCLE:

A. No bicycle shall be used by either the driver or any passenger to carry more passengers than the number for which it is designed or equipped.

B. An adult riding a bicycle may carry a child securely attached to the person in a backpack or sling.

6. When driving on a sidewalk as permitted by section 7-7-18 of this chapter.

B. If any person drives a bicycle so slow as to impede or block the normal and legal forward movement of traffic proceeding immediately behind such vehicle, then such person shall drive within the right four feet (4') of the street until such

impeded traffic has passed by, except when reasonably necessary for safety. A person driving on a one-way street may satisfy this requirement by driving in the left four feet (4') of the street.

A person making a left turn under the provisions of this subsection may do so only after complying with all the obligations of drivers of vehicles approaching in the new direction on the other roadway. (Ord. 48-09, 9-21-2009)

7-7-14: PASSING ON RIGHT:

A. The overtaking vehicle is a bicycle in a bike lane.

B. The overtaking vehicle is a bicycle that is traveling to the right of vehicles stopped or moving in the right hand lane of travel, but the bicycle may not pass the first vehicle stopped at an intersection unless the bicycle is preparing to turn right and the vehicle is not signaling a right turn, nor may the bicycle pass a

moving vehicle that is signaling a right turn, nor may the bicycle pass vehicles within an intersection except a vehicle signaling a left turn. (Ord. 48-09, 9-21-2009)

C. Persons driving bicycles across a street and along a crosswalk from a sidewalk or bike path have all the duties applicable to pedestrians under the same circumstances and similarly have such rights, but only when the approach and

(Ord. 44-08, 6-16-2008)

9-8-321.330: **PEDESTRIAN SAFETY; USE OF CERTAIN MEDIANS PROHIBITED:**

A. Intent and Purpose.

1. The purpose of this section is to protect the health, safety, and welfare of all pedestrians, motor vehicle drivers, motor vehicle passengers, and other individuals who utilize the public rights-of-way within the city.

2. As the primary purpose of roadway medians in to enhance the safety of and free flow of traffic on roadways by separating opposing lanes of vehicular traffic, channeling traffic for turning purposes, calming traffic, and in some cases providing a temporary refuge for pedestrians crossing busy or wide roadways, the city council finds that there exist within the city certain medians that are not designed or suitable for pedestrian use because of their narrowness or contour.

3. Pedestrian use of these medians on Higher Volume Roadway or on Higher Speed Roadways or use of these medians on any roadway within two hundred feet (200') of an intersection with a Minor Arterial, Collector, or Local roadway poses a safety hazard to the user and passing motor vehicle traffic from an increased risk of a pedestrian and motor vehicle collision and can inhibit the free flow of traffic.

4. The intent of these regulations is eliminating these safety hazards by prohibiting pedestrian use of certain narrow or domed medians located on higher volume or higher speed roadways within the city.

9-8-321.330

B. Definitions.

COLLECTOR:	The collector street system provides both land access and traffic circulation within residential neighborhoods and commercial and industrial areas. It differs from the arterial system in that facilities on the collector system may penetrate residential neighborhoods, distributing trips from the arterials through the area to their ultimate destinations. Conversely, the collector street also collects traffic from local streets in residential neighborhoods and channels it into the arterial system. In the central business district, and in other areas of similar development and traffic density, the collector system may include the entire street grid.
FLAT:	A maximum difference in cross-slope of eight and three-tenths percent (8.3%) or less throughout.
HIGHER SPEED ROADWAY:	A roadway with a posted speed limit of thirty (30) miles per hour or greater.
HIGHER VOLUME ROADWAY:	A roadway classified as an Interstate or Other Principal Arterial, on the Federal Functional Classifications Map as established by the Dubuque Metropolitan Area Transportation Study (DMATS).
INTERSTATE:	A highway that is part of the Dwight D. Eisenhower National System of Interstate and Defense Highways.
LOCAL:	Streets allowing direct access to abutting land and connections to the higher order street systems offering the lowest level of mobility and deliberately discourage major through traffic movements.
MEDIAN:	a. The area between two (2) roadways of a divided street or highway measured from the edge of the travelled way to the edge of the traveled way including areas between traffic lanes for control and channelization of vehicular movements. Such an area may be physically defined by curbing, landscaping, or other physical obstacles to the area's use by motor vehicles. b. Median that is not designed or suitable for pedestrian use" shall mean:

9-8-321.330

(1) Any median along any higher speed or higher volume roadway,

(2) Any median within two hundred feet (200') of the intersection of a Minor Arterial, Collector, or Local roadway with a Higher Speed Roadway or Higher Volume Roadway within the city that is six feet (6') or less in width or that does not possess a flat cross-slope area regardless of width.

MINOR ARTERIAL: Inter-connections with and augmentations to the major arterial system. It accommodates trips of moderate length at a somewhat lower level of travel mobility than major arterials. This system places more emphasis on land access but still has specific limits on access points. A minor arterial may carry local bus routes and provide intra- community continuity but ideally does not penetrate identifiable neighborhoods. This system includes urban connections to rural collector roads where such connections have not been classified as urban major arterials.

OTHER PRINCIPAL ARTERIAL: The major (principal) arterial system carries most of the trips entering and leaving the area as well as most of the through movements bypassing the central city. In addition, significant intra-area travel such as between central business districts and outlining residential areas, between major inner-city communities, and between major suburban centers, is served by major arterials. Frequently, the major arterial carries important intra-urban as well as inter-city bus routes. Finally, in urbanized areas, this system provides continuity for all rural arterials that intercept the urban boundary.

C. Prohibition. It shall be unlawful for any person to access, use, occupy, congregate, or assemble on or about any median that is not designed or suitable for pedestrian use. Any violation of this section shall be punished as provided in section 1-4-2 of this Code.

D. Exemptions. This section does not apply to:

1. Local, state, or federal law enforcement, parking enforcement personnel, and emergency responders, while performing official duties.

2. Employees or contractors of the city, state, or other political subdivision, when engaged in construction, maintenance, repair, or for other authorized municipal purposes in the public right-of-way

3. Employees or contractors of an entity authorized by permit or license from the city state, or other political subdivision to access the median to install, repair, maintain, or remove any utility, communication, cable, or other type of infrastructure; and

4. Any individual responding to an emergency in the street. (Ord. 38-16, 8-1-2016; amd. Ord. 42-25, 1-20-2026)

9-8-321.331: **SOLICITATION OF RIDES:**

A. No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any private vehicle.

B. Nothing in this section or title shall be construed so as to prevent any pedestrian from standing on that portion of the street or highway, not ordinarily used for vehicular traffic, for the purpose of soliciting a ride from the driver of any vehicle. (Ord. 44-08, 6-16-2008)

9-8-321.332: **WHITE CANES RESTRICTED TO BLIND PERSONS:**

For the purpose of guarding against accidents in traffic on the public thoroughfares, it shall be unlawful for any person except persons wholly or partially blind to carry or use on the streets, highways, and public places of the city any white canes or walking sticks which are white in color or white tipped with red. (Ord. 44-08, 6-16-2008)

9-8-321.333: **DUTY OF DRIVERS UPON APPROACHING BLIND PERSONS:**

Any driver of a vehicle or operator of a motor driven vehicle who approaches or comes in contact with a person wholly or partially blind carrying a cane or walking stick white in color or white tipped with red or being led by a guide dog wearing a harness and walking on either side of or slightly in front of said blind person shall immediately come to a complete stop and take such precautions as may be necessary to avoid accident or injury to the person carrying a cane or walking stick white in color or white tipped with red or being led by a guide dog. City of Dubuque On-Call Architectural and Engineering Services (Hourly) Task Order

ATTN: Alex Stein and Jim Bousley

CLIENT: City of Dubuque
50 W. 13th Street
Dubuque, IA 52001-4864

PROJECT: City of Dubuque On-Call Architectural and Engineering Services

TASK ORDER: Dubuque Federal Bldg Loading Dock

PROJECT LOCATION: Dubuque, IA

DATE OF TASK ORDER AGREEMENT: March 9, 2026

TASK ORDER DESCRIPTION

The City of Dubuque is planning refurbishment of certain exterior components of the loading dock at the Federal Building. Under this task order, which will become part of the existing (October 31, 2023) City of Dubuque On-Call Architecture and Engineering Services (Hourly) Professional Service Agreement (herein after referred to as the On-Call Service Agreement), Shive-Hattery will assist the City with design of the following items that are anticipated to be part of the renovations.

- Remove and replace the concrete topping, in general, back to the face of the existing exterior columns. Assuming the structural concrete below the topping is good condition and will not require refurbishment.
- Repair or replace stairs as well as handrails.
- Repair face of loading dock exterior wall as well as replace bumpers and anchors.
- Replace soffit of the underside of the canopy.
- Replace canopy membrane roofing.
- Develop new canopy scupper detail, assuming down spouts, flashing at the walls, and similar will remain the same size and/or arrangement.
- Replace lighting.
- Replace electrical power and conduits at the exterior of the loading dock and include provisions for downspout heating power. It is assumed that the main power feeding these components as well as interior wiring, conduit, and associated items is sufficient. Also, assumes new lifting platform, if included in the project (see below) will have similar power requirements as existing and not require electrical upgrades than what is planned.
- As determined by the City and Post Office, maintain the existing lifting platform or replace with new platform. If new platform, assumes Post Office will define platform make and model to include in the project. Assumes City will lead coordination with Post Office.
- Recoat loading dock area currently painted and refurbished by the project as well as the existing loading dock/canopy exterior columns.
- Assumes City will lead coordination of the City's historic review for aesthetics for the above improvements.
- As appropriate, include asbestos and lead testing informational data, based on results of City's testing and sampling results. Actual abatement will be by City or City's contractor.

SCOPE OF SERVICES

We will provide the following services as part of this Task Order: Architecture, Structural, and Electrical Engineering.

These services will consist of:

1. Coordinate with the City and the proposed improvements to the building parking lot.
2. Schematic Evaluation: Based on site visit, existing information, evaluation, and city provided data, develop schematic level drawings showing anticipated renovation of the loading dock and include a budgetary opinion of cost for the improvements. Submit and review with the City (virtual review meeting) to discuss findings, concepts, budgets, and general timeline for construction. Adress comments as appropriate and document decisions for the construction scope of the renovations with the City.
    - One (1) site visit has already been performed, including one (1) additional site visit by Architect or Structural team member.
    - New scupper detail is included, but assumes down spout, wall flashing, and similar existing provisions will in general remain the same size and configuration, both above and below ground and interior to the building.
    - Assumes City will lead historic coordination and that one (1) set of inputs/decisions will be provided for our use in design development and contract documents.
    - Assume Post Office will provide one (1) set of inputs/decisions on lifting platform, and if replaced, Post Office will provide specifics to the make and model of the platform for our use to include in design development and construction documents. Further assumes, City will lead coordination with Post Office.
    - Assumes lead and asbestos testing and results, as performed by the City, will be provided prior to start of design development and construction documents.
3. Design Development: Based on the conclusions of Schematic Design, develop design drawings of the renovations of the loading dock (approximately 60% design complete) drawings. Update opinion of cost. Submit and review with the City (virtual review meeting), address comments as appropriate. Assumes one (1) round of review/comments.
4. Construction Documents: Finalize design in drawings. It is anticipated the drawings will include notes and technical specifications covering the design technical requirements. A Project Manual is not anticipated at this time.
5. Submit to the City for review and address comments as appropriate. Assumes one (1) round of review/comments.
6. Finalize construction drawings and submit to the City for the City's use in bidding and constructing the project.

SHOP DRAWING REVIEW

If, as part of this Agreement S-H reviews and approves Contractor submittals, such as shop drawings, product data, samples and other data, as required by S-H, these reviews and approvals shall be only for the limited purpose of checking for conformance with the design concept and the information expressed in the contract documents. This review shall not include review of the accuracy or completeness of details, such as quantities, dimensions, weights or gauges, fabrication processes, construction means or methods, coordination of the work with other trades or construction safety precautions, all of which are the sole responsibility of the Contractor. S-H's review shall be conducted with reasonable promptness while allowing sufficient time in S-H's judgment to permit adequate review. Review of a specific item shall not indicate that S-H has reviewed the entire assembly of which the item is a component. S-H shall not be responsible for any deviations from the contract documents not brought to the attention of S-H in writing by the Contractor. S-H shall not be required to review partial submissions or those for which submissions of correlated items have not been received.

OPINIONS OF PROBABLE COST

If, as part of this Agreement S-H is providing opinions of probable construction cost, the CLIENT understands that S-H has no control over costs or the price of labor, equipment or materials, or over the Contractor's method of pricing, and that S-H's opinions of probable construction costs are to be made on the basis of S-H's qualifications and experience. S-H makes no warranty, expressed or implied, as to the accuracy of such opinions as compared to bid or actual costs.

CONSTRUCTION OBSERVATION

If, as part of this Agreement S-H is providing construction observation services, S-H shall visit the project at appropriate intervals during construction to become generally familiar with the progress and quality of the contractors' work and to determine if the work is proceeding in general accordance with the Contract Documents. Unless otherwise specified in the Agreement, the CLIENT has not retained S-H to make detailed inspections or to provide exhaustive or continuous project review and observation services. S-H does not guarantee the performance of, and shall have no responsibility for, the acts or omissions of any contractor, its subcontractors, employees, agents, consultants, suppliers or any other entities furnishing materials or performing any work on the project.

S-H shall advise the CLIENT if S-H observes that the contractor is not performing in general conformance of Contract Documents. CLIENT shall determine if work of contractor should be stopped to resolve any problems.

OTHER SERVICES

The CLIENT may direct S-H to provide other services including, but not limited to, any additional services identified in S-H's proposal. If S-H agrees to provide these services, then the schedule shall be reasonably adjusted to allow S-H to provide these services. Compensation for such services shall be at S-H's Standard Hourly Fee Schedule in effect at the time the work is performed unless there is a written Amendment to Agreement that contains an alternative compensation provision.

OWNERSHIP & REUSE OF INSTRUMENTS OF SERVICE

All reports, plans, specifications, field data and notes and other documents, including all documents on electronic media, prepared by S-H as instruments of service shall remain the property of S-H. The CLIENT shall not reuse or make any modifications to the plans and specifications without the prior written authorization of S-H. The CLIENT agrees, to the fullest extent permitted by law, to defend, indemnify and hold harmless S-H its officers, directors, shareholders, employees, agents, subconsultants and affiliated companies, and any of them from any and all claims, losses, costs or damages of any nature whatsoever arising out of, resulting from or in any way related to any unauthorized reuse or modifications of the construction documents by the CLIENT or any person or entity that acquires or obtains the plans and specifications from or through the CLIENT without the written authorization of S-H.

DISPUTE RESOLUTION

If a dispute arises between S-H and CLIENT, the executives of the parties having authority to resolve the dispute shall meet within thirty (30) days of the notification of the dispute to resolve the dispute. If the dispute is not resolved within such thirty (30) day time period, CLIENT and S-H agree to submit to non-binding mediation prior to commencement of any litigation and that non-binding mediation is a precondition to any litigation. Any costs incurred directly for a mediator, shall be shared equally between the parties involved in the mediation.

EXCUSABLE EVENTS

S-H shall not be responsible or liable to CLIENT or CLIENT’s contractors, consultants, or other agents for any of the following events or circumstances, or the resulting delay in S-H’s services, additional costs and expenses in S-H’s performance of its services, or other effects in S-H’s services, stemming in whole or part from such events and circumstances (collectively, “Excusable Events” or, singularly, an “Excusable Event”): a change in law, building code or applicable standards; actions or inactions by a governmental authority; the presence or encounter of hazardous or toxic materials on the Project; war (declared or undeclared) or other armed conflict; terrorism; sabotage; vandalism; riot or other civil disturbance; blockade or embargos; explosion; abnormal weather; unanticipated or unknown site conditions; epidemic or pandemic (including but not limited to COVID-19), delays or other effects arising from government-mandated or government-recommended quarantines, closure of

business, access, or travel; strike or labor dispute, lockout, work slowdown or stoppage; accident; act of God; failure of any governmental or other regulatory authority to act in a timely manner; acts or omissions by CLIENT or by any CLIENT's contractors, consultants or agents of any level on the project (including, without limitation, failure of the CLIENT to furnish timely information or approve or disapprove of S-H's services or work product promptly, delays in the work caused by CLIENT, CLIENT's suspension, breach or default of this Agreement, or delays caused by faulty performance by the CLIENT or by CLIENT's contractors, consultants, or agents of any level); or any delays or events outside the reasonable control of S-H. When an Excusable Event occurs, the CLIENT agrees S-H is not responsible for any actual or claimed damages incurred by CLIENT or CLIENT's contractors, consultants, or agents, S-H shall not be deemed to be in default of this Agreement, and S-H shall be entitled to a change order to equitably increase and extend S-H's time for performance of its services, as well as equitably increase the contract sum to compensate S-H for its increased labor, expenses, and other costs to perform its services, due to the Excusable Event.

ASSIGNMENT

Neither party to this Agreement shall transfer, sublet or assign any rights under or interest in this Agreement (including but not limited to monies that are due or monies that may be due) without the prior written consent of the other party.

SEVERABILITY, SURVIVAL AND WAIVER

Any provision of this Agreement later held to be unenforceable for any reason shall be deemed void, and all remaining provisions shall continue in full force and effect. All obligations arising prior to the termination of this Agreement and all provisions of this Agreement allocating responsibility or liability between the CLIENT and S-H shall survive the completion of the services hereunder and the termination of this Agreement. The failure of a party to insist upon strict compliance of any term hereof shall not constitute a waiver by that party of its rights to insist upon strict compliance at a subsequent date.

GOVERNING LAW

This Agreement shall be governed pursuant to the laws in the state of the locale of the S-H office address written in this Agreement.

EQUAL EMPLOYMENT OPPORTUNITY

It is the policy of S-H to provide equal employment opportunities for all. This Agreement constitutes the entire and integrated agreement between the CLIENT and S-H and supersedes all prior negotiations, representations and agreements, whether oral or written. In the event the CLIENT issues a Purchase Order of which this Agreement becomes a part, or the CLIENT and S-H otherwise execute or enter into a contract into which this Agreement is incorporated, the parties expressly agree that, to the extent the terms of this Agreement conflict with or are otherwise inconsistent with such Purchase Order, or any other contract, this Agreement shall supersede and override the terms of the aforementioned documents, and this Agreement shall solely govern in those regards.

EXCESS FOLLOW-FORM AND UMBRELLA LIABILITY INSURANCE

THIS POLICY, IN PART, PROVIDES FOLLOW-FORM LIABILITY COVERAGE.

COVERAGE WILL APPLY ON A CLAIMS-MADE BASIS WHEN FOLLOWING CLAIMS-MADE UNDERLYING INSURANCE.

COVERAGE WILL APPLY ON A DEFENSE-WITHIN-LIMITS BASIS WHEN FOLLOWING UNDERLYING INSURANCE UNDER WHICH DEFENSE EXPENSES ARE PAYABLE WITHIN, AND NOT IN ADDITION TO, THE LIMITS OF INSURANCE. WHEN FOLLOWING SUCH UNDERLYING INSURANCE, PAYMENT OF DEFENSE EXPENSES UNDER THIS POLICY WILL REDUCE, AND MAY EXHAUST, THE LIMITS OF INSURANCE OF THIS POLICY.

PLEASE READ THE ENTIRE POLICY CAREFULLY.

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy, the words "you" and "your" refer to the Named Insured shown in the Declarations and any other person or organization qualifying as a Named Insured under this policy. The words "we", "us" and "our" refer to the company providing this insurance.

The word "insured" means any person or organization qualifying as such under **SECTION II – WHO IS AN INSURED**.

Other words and phrases that appear in quotation marks have special meaning. Refer to **SECTION VI – DEFINITIONS**.

SECTION I – COVERAGES

A. COVERAGE A – EXCESS FOLLOW-FORM LIABILITY

1. We will pay on behalf of the insured those sums, in excess of the "applicable underlying limit", that the insured becomes legally obligated to pay as damages to which Coverage **A** of this insurance applies, provided that the "underlying insurance" would apply to such damages but for the exhaustion of its applicable limits of insurance. If a sublimit is specified in any "underlying insurance", Coverage **A** of this insurance applies to damages that are in excess of that sublimit only if such sublimit is shown for that "underlying insurance" in the Schedule Of Underlying Insurance.

2. Coverage **A** of this insurance is subject to the same terms, conditions, agreements, exclusions and definitions as the "underlying insurance", except with respect to any provisions to the contrary contained in this insurance.

3. The amount we will pay for damages is limited as described in **SECTION III – LIMITS OF INSURANCE**.

4. For the purposes of Paragraph **1.** above:

a. The applicable limit of insurance stated for the policies of "underlying insurance" in the Schedule Of Underlying Insurance will be considered to be reduced or exhausted only by the following payments:

(1) Payments of judgments or settlements for damages that are covered by that "underlying insurance". However, if such "underlying insurance" has a policy period which differs from the policy period of this Excess Follow-Form And Umbrella Liability Insurance, any such payments for damages that would not be covered by this Excess

© 2016 The Travelers Indemnity Company. All rights reserved.

Follow-Form And Umbrella Liability Insurance because of its different policy period will not reduce or exhaust the applicable limit of insurance stated for such "underlying insurance";

(2) Payments of "medical expenses" that are covered by that "underlying insurance" and are incurred for "bodily injury" caused by an accident that takes place during the policy period of this Excess Follow-Form And Umbrella Liability Insurance; or

(3) Payments of defense expenses that are covered by that "underlying insurance", only if such "underlying insurance" includes such payments within the limits of insurance. However, if such "underlying insurance" has a policy period which differs from the policy period of this Excess Follow-Form And Umbrella Liability Insurance, any such payments for defense expenses that would not be covered by this Excess Follow-Form And Umbrella Liability Insurance because of its different policy period will not reduce or exhaust the applicable limit of insurance stated for such "underlying insurance".

If the applicable limit of insurance stated for the policies of "underlying insurance" in the Schedule Of Underlying Insurance is actually reduced or exhausted by other payments, Coverage **A** of this insurance is not invalidated. However, in the event of a loss, we will pay only to the extent that we would have paid had such limit not been actually reduced or exhausted by such other payments.

b. If any "underlying insurance" has a limit of insurance greater than the amount shown for that insurance in the Schedule of Underlying Insurance, this insurance will apply in excess of that greater amount. If any "underlying insurance" has a limit of insurance, prior to any reduction or exhaustion by payment of damages, "medical expenses" or defense expenses described in Paragraph **a.** above, that is less than the amount shown for that insurance in the Schedule Of Underlying Insurance, this insurance will apply in excess of the amount shown for such insurance in the Schedule Of Underlying Insurance.

5. When the "underlying insurance" applies on a claims-made basis and includes a retroactive date provision, the retroactive date for Coverage **A** of this insurance is the same as the retroactive date of that "underlying insurance".

B. COVERAGE B – UMBRELLA LIABILITY

1. We will pay on behalf of the insured those sums in excess of the "self-insured retention" that the insured becomes legally obligated to pay as damages because of "bodily injury", "property damage", "personal injury" or "advertising injury" to which Coverage **B** of this insurance applies.

2. Coverage **B** of this insurance applies to "bodily injury" or "property damage" only if:

a. The "bodily injury" or "property damage" is caused by an "occurrence" that takes place anywhere in the world;

b. The "bodily injury" or "property damage" occurs during the policy period; and

c. Prior to the policy period, no insured listed under Paragraph **1.** in Paragraph **B.**, **COVERAGE B – UMBRELLA LIABILITY**, of **SECTION II – WHO IS AN INSURED** and no "employee" authorized by you to give or receive notice of an "occurrence" or claim, knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, in whole or in part, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

3. Coverage **B** of this insurance applies to "personal injury" or "advertising injury" caused by an offense arising out of your business, but only if the offense was committed during the policy period anywhere in the world.

4. The amount we will pay for damages is limited as described in **SECTION III – LIMITS OF INSURANCE**.

5. "Bodily injury" or "property damage":

a. Which occurs during the policy period; and

b. Which was not prior to, but was during, the policy period known to have occurred by any insured listed under Paragraph **1.** in Paragraph **B.**, **COVERAGE B –**

© 2016 The Travelers Indemnity Company. All rights reserved.

UMBRELLA LIABILITY of **SECTION II – WHO IS AN INSURED**, or any "employee" authorized by you to give notice of an "occurrence" or claim;

includes any continuation, change or resumption of the "bodily injury" or "property damage" after the end of the policy period.

6. "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any insured listed under Paragraph **1.** in Paragraph **B.**, **COVERAGE B – UMBRELLA LIABILITY**, of **SECTION II – WHO IS AN INSURED** or any "employee" authorized by you to give or receive notice of an "occurrence" or claim:

a. Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;

b. Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage"; or

c. Becomes aware by any other means that the "bodily injury" or "property damage" has occurred or has begun to occur.

7. Damages because of "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury".

8. Coverage **B** of this insurance does not apply to damages covered by any "underlying insurance" or that would have been covered by any "underlying insurance" but for the exhaustion of its applicable limit of insurance.

C. COVERAGE C – CRISIS MANAGEMENT SERVICE EXPENSES

1. We will reimburse the insured, or pay on the insured's behalf, "crisis management service expenses" to which Coverage **C** applies.

2. Coverage **C** of this insurance applies to "crisis management service expenses" that:

a. Arise out of a "crisis management event" that first commences during the policy period;

b. Are incurred by the insured, after a "crisis management event" first commences and before such event ends; and

c. Are submitted to us within 180 days after the "crisis management advisor" advises you that the "crisis management event" no longer exists.

3. A "crisis management event" will be deemed to:

a. First commence at the time when any "executive officer" first becomes aware of an "event" or "occurrence" that leads to that "crisis management event"; and

b. End when we decide that the crisis no longer exists or when the Crisis Management Service Expenses Limit has been exhausted, whichever occurs first.

4. The amount we will pay for "crisis management service expenses" is limited as described in **SECTION III – LIMITS OF INSURANCE**.

5. A "self-insured retention" does not apply to "crisis management service expenses".

6. Any payment of "crisis management service expenses" that we make will not be determinative of our obligations under this insurance with respect to any claim or "suit" or create any duty to defend or indemnify any insured for any claim or "suit".

D. DEFENSE AND SUPPLEMENTARY PAYMENTS

1. We will have the right and duty to defend the insured:

a. Under Coverage **A**, against a "suit" seeking damages to which such coverage applies, if:

(1) The "applicable underlying limit" is the applicable limit of insurance stated for a policy of "underlying insurance" in the Schedule Of Underlying Insurance and such limit has been exhausted solely due to payments as permitted in Paragraphs **4.a.(1)**, **(2)** and **(3)** of **COVERAGE A – EXCESS FOLLOW-FORM LIABILITY** of **SECTION I – COVERAGES**; or

(2) The "applicable underlying limit" is the applicable limit of any "other insurance" and such limit has been exhausted by payments of judgments, settlements or medical expenses, or related costs or expenses (if such costs or expenses reduce such limits).

For any "suit" for which we have the right and duty to defend the insured under Coverage **A**, defense expenses will be within the limits of insurance of this policy when such expenses are within the limits of insurance of the applicable "underlying insurance"; or

b. Under Coverage **B**, against a "suit" seeking damages to which such coverage applies.

 © 2016 The Travelers Indemnity Company. All rights reserved.

2. We have no duty to defend any insured against any "suit":

a. Seeking damages to which this insurance does not apply; or

b. If any other insurer has a duty to defend.

3. When we have the duty to defend, we may, at our discretion, investigate and settle any claim or "suit". In all other cases, we may, at our discretion, participate in the investigation, defense and settlement of any claim or "suit" for damages to which this insurance may apply. If we exercise such right to participate, all expenses we incur in doing so will not reduce the applicable limits of insurance.

4. Our duty to defend ends when we have used up the applicable limit of insurance in the payment of judgments or settlements, or defense expenses if such expenses are within the limits of insurance of this policy.

5. We will pay, with respect to a claim we investigate or settle, or "suit" against an insured we defend:

a. All expenses we incur.

b. The cost of:

(1) Bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which this insurance applies; or

(2) Appeal bonds and bonds to release attachments;

but only for bond amounts within the applicable limit of insurance. We do not have to furnish these bonds.

c. All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of such claim or "suit", including actual loss of earnings up to $1,000 a day because of time off from work.

d. All court costs taxed against the insured in the "suit". However, these payments do not include attorneys' fees or attorneys' expenses taxed against the insured.

e. Prejudgment interest awarded against the insured on that part of the judgment we pay. If we make an offer to pay the applicable limit of insurance, we will not pay any prejudgment interest based on that period of time after the offer.

f. All interest that accrues on the full amount of any judgment after entry of the judgment and before we have paid, offered to pay or deposited in court the part of the judgment that is within the applicable limit of insurance. If we do not pay part of the judgment for any reason other than it is more than the applicable limit of insurance, we will not pay any interest that accrues on that portion of the judgment.

With respect to a claim we investigate or settle, or "suit" against an insured we defend under **COVERAGE A – EXCESS FOLLOW-FORM LIABILITY**, these payments will not reduce the applicable limits of insurance, but only if the applicable "underlying insurance" provides for such payments in addition to its limits of insurance. With respect to a claim we investigate or settle, or "suit" against an insured we defend under **COVERAGE B – UMBRELLA LIABILITY**, these payments will not reduce the applicable limits of insurance.

SECTION II – WHO IS AN INSURED

A. COVERAGE A – EXCESS FOLLOW-FORM LIABILITY

With respect to Coverage **A**, the following persons and organizations qualify as insureds:

1. The Named Insured shown in the Declarations; and

2. Any other person or organization qualifying as an insured in the "underlying insurance". If you have agreed to provide insurance for that person or organization in a written contract or agreement:

a. The limits of insurance afforded to such person or organization will be:

(1) The amount by which the minimum limits of insurance you agreed to provide such person or organization in that written contract or agreement exceed the total limits of insurance of all applicable "underlying insurance"; or

(2) The limits of insurance of this policy;

whichever is less; and

b. Coverage under this policy does not apply to such person or organization if the minimum limits of insurance you agreed to provide such person or organization in that written contract or agreement are wholly within the total limits of insurance of all available applicable "underlying insurance".

B. COVERAGE B – UMBRELLA LIABILITY

With respect to Coverage **B**:

1. The Named Insured shown in the Declarations is an insured.

2. If you are:

© 2016 The Travelers Indemnity Company. All rights reserved.

a. An individual, your spouse is also an insured, but only with respect to the conduct of a business of which you are the sole owner.

b. A partnership or joint venture, your members, your partners and their spouses are also insureds, but only with respect to the conduct of your business.

c. A limited liability company, your members are also insureds, but only with respect to the conduct of your business. Your managers are also insureds, but only with respect to their duties as your managers.

d. An organization other than a partnership, joint venture or limited liability company, your "officers" and directors are also insureds, but only with respect to their duties as your "officers" or directors. Your stockholders are also insureds, but only with respect to their liability as stockholders.

e. A trust, your trustees are also insureds, but only with respect to their duties as trustees.

3. Each of the following is also an insured:

a. Your "volunteer workers" only while performing duties related to the conduct of your business, or your "employees", other than either your "officers" (if you are an organization other than a partnership, joint venture or limited liability company) or your managers (if you are a limited liability company), but only for acts within the scope of their employment by you or while performing duties related to the conduct of your business. However, none of these "employees" or "volunteer workers" are insureds for:

(1) "Bodily injury" or "personal injury":

(a) To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to a co-"employee" while in the course of his or her employment or performing duties related to the conduct of your business, or to your other "volunteer workers" while performing duties related to the conduct of your business;

(b) To the spouse, child, parent, brother or sister of that co-"employee" or "volunteer worker" as a consequence of Paragraph **(1)(a)** above;

(c) For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraph **(1)(a)** or **(b)** above; or

2. A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured. We will not be liable for damages that:

a. Are not payable under the terms of this insurance; or

b. Are in excess of the applicable limit of insurance.

An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

L. MAINTENANCE OF UNDERLYING INSURANCE

1. The insurance afforded by each policy of "underlying insurance" will be maintained for the full policy period of this Excess Follow-Form And Umbrella Liability Insurance. This provision does not apply to the reduction or exhaustion of the aggregate limit or limits of such "underlying insurance" solely by payments as permitted in Paragraphs **4.a.(1)**, **(2)** and **(3)** of **COVERAGE A – EXCESS FOLLOW-FORM LIABILITY** of **SECTION I – COVERAGES**. As such policies expire, you will renew them at limits and with coverage at least equal to the expiring limits of insurance. If you fail to comply with the above requirements, Coverage **A** is not invalidated. However, in the event of a loss, we will pay only to the extent that we would have paid had you complied with the above requirements.

2. The first Named Insured shown in the Declarations must give us written notice of any change in the "underlying insurance" as respects:

a. Coverage;

b. Limits of insurance;

c. Termination of any coverage; or

d. Exhaustion of aggregate limits.

3. If you are unable to recover from any "underlying insurer" because you fail to comply with any term or condition of the "underlying insurance", Coverage **A** is not invalidated. However, we will pay for any loss only to the extent that we would have paid had you complied with that term or condition in that "underlying insurance".

M. OTHER INSURANCE

This insurance is excess over any valid and collectible "other insurance" whether such "other insurance" is stated to be primary, contributing,

excess, contingent or otherwise. This provision does not apply to a policy bought specifically to apply as excess of this insurance.

However, if you specifically agree in a written contract or agreement that the insurance provided to any person or organization that qualifies as an insured under this insurance must apply on a primary basis, or a primary and non-contributory basis, then insurance provided under Coverage **A** is subject to the following provisions:

1. This insurance will apply before any "other insurance" that is available to such additional insured which covers that person or organization as a named insured, and we will not share with that "other insurance", provided that the injury or damage for which coverage is sought is caused by an "event" that takes place or is committed subsequent to the signing of that contract or agreement by you.

2. This insurance is still excess over any valid and collectible "other insurance", whether primary, excess, contingent or otherwise, which covers that person or organization as an additional insured or as any other insured that does not qualify as a named insured.

N. PREMIUM

1. The first Named Insured shown in the Declarations is responsible for the payment of all premiums and will be the payee for any return premiums.

2. If the premium is a flat charge, it is not subject to adjustment except as provided in Paragraph **4.** below.

3. If the premium is other than a flat charge, it is an advance premium only. The earned premium will be computed at the end of the policy period, or at the end of each year of the policy period if the policy period is two years or longer, at the rate shown in the Declarations, subject to the Minimum Premium.

4. Additional premium may become payable when coverage is provided for additional insureds under the provisions of **SECTION II – WHO IS AN INSURED**.

O. PREMIUM AUDIT

The premium for this policy is the amount stated in Item **5.** of the Declarations. The premium is a flat charge unless it is specified in the Declarations as adjustable.

P. PROHIBITED COVERAGE – UNLICENSED INSURANCE

1. With respect to loss sustained by any insured in a country or jurisdiction in which we are not licensed to provide this insurance, this insurance does not apply to the extent that insuring such loss would violate the laws or regulations of such country or jurisdiction.

2. We do not assume responsibility for:

a. The payment of any fine, fee, penalty or other charge that may be imposed on any person or organization in any country or jurisdiction because we are not licensed to provide insurance in such country or jurisdiction; or

b. The furnishing of certificates or other evidence of insurance in any country or jurisdiction in which we are not licensed to provide insurance.

Q. PROHIBITED COVERAGE – TRADE OR ECONOMIC SANCTIONS

We will provide coverage for any loss, or otherwise will provide any benefit, only to the extent that providing such coverage or benefit does not expose us or any of our affiliated or parent companies to:

1. Any trade or economic sanction under any law or regulation of the United States of America; or

2. Any other applicable trade or economic sanction, prohibition or restriction.

R. REPRESENTATIONS

By accepting this insurance, you agree:

1. The statements in the Declarations and any subsequent notice relating to "underlying insurance" are accurate and complete;

2. Those statements are based upon representations you made to us; and

3. We have issued this insurance in reliance upon your representations.

S. SEPARATION OF INSUREDS

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this policy to the first Named Insured shown in the Declarations, this insurance applies:

1. As if each Named Insured were the only Named Insured; and

2. Separately to each insured against whom claim is made or "suit" is brought.

© 2016 The Travelers Indemnity Company. All rights reserved.

T. WAIVER OR TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US

1. If the insured has rights to recover all or part of any payment we have made under this insurance, those rights are transferred to us and the insured must do nothing after loss to impair them. At our request, the insured will bring suit or transfer those rights to us and help us, and with respect to Coverage **A**, the "underlying insurer", enforce them.

If the insured has agreed in a contract or agreement to waive that insured's right of recovery against any person or organization, we waive our right of recovery against that person or organization, but only for payments we make because of an "event" that takes place or is committed subsequent to the execution of that contract or agreement by such insured.

2. Reimbursement of any amount recovered will be made in the following order:

a. First, to any person or organization (including us or the insured) who has paid any amount in excess of the applicable limit of insurance;

b. Next, to us; and

c. Then, to any person or organization (including the insured and with respect to Coverage **A**, the "underlying insurer") that is entitled to claim the remainder, if any.

3. Expenses incurred in the process of recovery will be divided among all persons or organizations receiving amounts recovered according to the ratio of their respective recoveries.

U. TRANSFER OF YOUR RIGHTS AND DUTIES UNDER THIS INSURANCE

1. Your rights and duties under this insurance may not be transferred without our written consent except in the case of death of an individual Named Insured.

2. If you die, your rights and duties will be transferred to your legal representative but only while acting within the scope of duties as your legal representative. Until your legal representative is appointed, anyone having proper temporary custody of your property will have your rights and duties but only with respect to that property.

V. UNINTENTIONAL OMISSION OR ERROR

The unintentional omission of, or unintentional error in, any information provided by you which we relied upon in issuing this policy will not prejudice your rights under this insurance. However, this provision does not affect our right to collect additional premium or to exercise our rights of cancellation or nonrenewal in accordance with applicable insurance laws or regulations.

W. WHEN LOSS IS PAYABLE

If we are liable under this insurance, we will pay for injury, damage or loss after:

1. The insured's liability is established by:

a. A court decision; or

b. A written agreement between the claimant, the insured, any "underlying insurer" and us; and

2. The amount of the "applicable underlying limit" or "self-insured retention" is paid by or on behalf of the insured.

We will pay up to $75 for towing and labor costs incurred each time a covered "auto" that is a "private passenger type", light truck or medium truck is disabled. However, the labor must be performed at the place of disablement.

As used in this provision, "private passenger type" means a private passenger or station wagon type "auto" and includes an "auto" of the pickup or van type if not used for business purposes.

G. Extended Glass Coverage

The following is added to Paragraph **A.3.a.** of the **Physical Damage Coverage** Section:

If glass must be replaced, the deductible shown in the Declarations will apply. However, if glass can be repaired and is actually repaired rather than replaced, the deductible will be waived. You have the option of having the glass repaired rather than replaced.

The **Coverage Extension** for **Loss Of Use Expenses** in the **Physical Damage Coverage** Section is replaced by the following:

Loss Of Use Expenses

(2) In or on a covered "auto".

b. Subject to Paragraph **a.** above, the amount to be paid for "loss" to personal effects will be based on the lesser of:

(1) The reasonable cost to replace; or

(2) The actual cash value.

c. The coverage provided in Paragraphs **a.** and **b.** above, only applies in the event of a total theft of a covered "auto". No deductible applies to this coverage. However, we will not pay for "loss" to personal effects of any of the following:

(2) Bullion, gold, silver, platinum, or other precious alloys or metals; furs or fur garments; jewelry, watches, precious or semi-precious stones.

(3) Paintings, statuary and other works of art.

(4) Contraband or property in the course of illegal transportation or trade.

(5) Tapes, records, discs or other similar devices used with audio, visual or data electronic equipment.

Any coverage provided by this Provision is excess over any other insurance coverage available for the same "loss".

J. Tapes, Records and Discs Coverage

1. The Exclusion in Paragraph **B.4.a.** of **Section III – Physical Damage Coverage** in the Business Auto Coverage Form and the Exclusion in Paragraph **B.2.c.** of **Section IV – Physical Damage Coverage** in the Motor Carrier Coverage Form does not apply.

2. The following is added to Paragraph **1.a. Comprehensive Coverage** under the **Coverage** Provision of the **Physical Damage Coverage** Section:

We will pay for "loss" to tapes, records, discs or other similar devices used with audio, visual or data electronic equipment. We will pay only if the tapes, records, discs or other similar audio, visual or data electronic devices:

(a) Are the property of an "insured"; and

(b) Are in a covered "auto" at the time of "loss".

The most we will pay for such "loss" to tapes, records, discs or other similar devices is $500. The **Physical Damage Coverage Deductible** Provision does not apply to such "loss".

K. Airbag Coverage

The Exclusion in Paragraph **B.3.a.** of **Section III – Physical Damage Coverage** in the Business Auto Coverage Form and the Exclusion in Paragraph **B.4.a.** of **Section IV – Physical Damage Coverage** in the Motor Carrier Coverage Form does not apply to the accidental discharge of an airbag.

1. If the deductible on this policy or Coverage Form is the smaller (or smallest) deductible, it will be waived; or

2. If the deductible on this policy or Coverage Form is not the smaller (or smallest) deductible, it will be reduced by the amount of the smaller (or smallest) deductible.

M. Temporary Substitute Autos – Physical Damage

1. The following is added to **Section I – Covered Autos**:

Temporary Substitute Autos – Physical Damage

If Physical Damage Coverage is provided by this Coverage Form on your owned covered "autos", the following types of vehicles are also covered "autos" for Physical Damage Coverage:

Any "auto" you do not own when used with the permission of its owner as a temporary substitute for a covered "auto" you do own but is out of service because of its:

The deductible for the temporary substitute "auto" will be the same as the deductible for the covered "auto" it replaces.

N. Amended Duties In The Event Of Accident, Claim, Suit Or Loss

Paragraph **a.** of the **Duties In The Event Of Accident, Claim, Suit Or Loss** Condition is replaced by the following:

a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident", claim, "suit" or "loss". However, these duties only apply when the "accident", claim, "suit" or "loss" is known to you (if you are an individual), a partner (if you are a partnership), a member (if you are a limited liability company) or an executive officer or insurance manager (if you are a corporation). The failure of any agent, servant or employee of the "insured" to notify us of any "accident", claim, "suit" or "loss" shall not invalidate the insurance afforded by this policy.

Include, as soon as practicable:

(1) How, when and where the "accident" or "loss" occurred and if a claim is made or "suit" is brought, written notice of the claim or "suit" including, but not limited to, the date and details of such claim or "suit";

(2) The "insured's" name and address; and

(3) To the extent possible, the names and addresses of any injured persons and witnesses.

If you report an "accident", claim, "suit" or "loss" to another insurer when you should have reported to us, your failure to report to us will not be seen as a violation of these amended duties provided you give us notice as soon as practicable after the fact of the delay becomes known to you.

O. Waiver of Transfer Of Rights Of Recovery Against Others To Us

The following is added to the **Transfer Of Rights Of Recovery Against Others To Us** Condition:

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

This Condition does not apply to the extent required of you by a written contract, executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of operations contemplated by such contract. This waiver only applies to the person or organization designated in the contract.

P. Employee Hired Autos – Physical Damage

Paragraph **b.** of the **Other Insurance** Condition in the Business Auto Coverage Form and Paragraph **f.** of the **Other Insurance – Primary and Excess Insurance Provisions** Condition in the Motor Carrier Coverage Form are replaced by the following:

For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented under a written contract or written agreement entered into by an "employee" or elected or appointed official with your permission while being operated within the course and scope of that "employee's" employment by you or that elected or appointed official's duties as respect their obligations to you.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

Q. Unintentional Failure to Disclose Hazards

The following is added to the **Concealment, Misrepresentation Or Fraud** Condition:

However, we will not deny coverage under this Coverage Form if you unintentionally:

(1) Fail to disclose any hazards existing at the inception date of this Coverage Form; or

You must notify us as soon as possible after the discovery of any hazards or any other information that was not provided to us prior to the acceptance of this policy.

We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

V. Replacement of a Private Passenger Auto with a Hybrid or Alternative Fuel Source Auto

The following is added to Paragraph **A. Coverage** of the **Physical Damage Coverage** Section:

In the event of a total "loss" to a covered "auto" of the private passenger type that is replaced with a hybrid "auto" or "auto" powered by an alternative fuel source of the private passenger type, we will pay an additional 10% of the cost of the replacement "auto", excluding tax, title, license, other fees and any aftermarket vehicle upgrades, up to a maximum of $2500. The covered "auto" must be replaced by a hybrid "auto" or an "auto" powered by an alternative fuel source within 60 calendar days of the payment of the "loss" and evidenced by a bill of sale or new vehicle lease agreement.

To qualify as a hybrid "auto", the "auto" must be powered by a conventional gasoline engine and another source of propulsion power. The other source of propulsion power must be electric, hydrogen, propane, solar or natural gas, either compressed or liquefied. To qualify as an "auto" powered by an alternative fuel source, the "auto" must be powered by a source of propulsion power other than a conventional gasoline engine. An "auto" solely propelled by biofuel, gasoline or diesel fuel or any blend thereof is not an "auto" powered by an alternative fuel source.

W. Return of Stolen Automobile

The following is added to the **Coverage Extension** Provision of the **Physical Damage Coverage** Section:

If a covered “auto” is stolen and recovered, we will pay the cost of transport to return the “auto” to you. We will pay only for those covered “autos" for which you carry either Comprehensive or Specified Causes of Loss Coverage.

Policy No. GLO0203929	Effective Date: 10/01/2025

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

A. Section **II – Who Is An Insured** is amended to include as an additional insured any person or organization whom you are required to add as an additional insured under a written contract or written agreement executed by you, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" and subject to the following:

1. If such written contract or written agreement specifically requires that you provide that the person or organization be named as an additional insured under one or both of the following endorsements:

a. The Insurance Services Office (ISO) ISO CG 20 10 (10/01 edition); or

b. The ISO CG 20 37 (10/01 edition),

such person or organization is then an additional insured with respect to such endorsement(s), but only to the extent that "bodily injury", "property damage" or "personal and advertising injury" arises out of:

(1) Your ongoing operations, with respect to Paragraph **1.a.** above; or

(2) "Your work", with respect to Paragraph **1.b.** above,

which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **1.**, insurance afforded to such additional insured:

(a) Only applies if the "bodily injury", "property damage" or "personal and advertising injury" offense occurs during the policy period and subsequent to your execution of the written contract or written agreement; and

(b) Does not apply to "bodily injury" or "property damage" caused by "your work" and included within the "products-completed operations hazard" unless the written contract or written agreement specifically requires that you provide such coverage to such additional insured.

2. If such written contract or written agreement specifically requires that you provide that the person or organization be named as an additional insured under one or both of the following endorsements:

a. The Insurance Services Office (ISO) ISO CG 20 10 (07/04 edition); or

b. The ISO CG 20 37 (07/04 edition),

such person or organization is then an additional insured with respect to such endorsement(s), but only to the extent that "bodily injury", "property damage" or "personal and advertising injury" is caused, in whole or in part, by:

(1) Your acts or omissions; or

(2) The acts or omissions of those acting on your behalf,

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

in the performance of:

(a) Your ongoing operations, with respect to Paragraph **2.a.** above; or

(b) "Your work" and included in the "products-completed operations hazard", with respect to Paragraph **2.b.** above,

which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **2.**, insurance afforded to such additional insured:

(i) Only applies if the "bodily injury", "property damage" or "personal and advertising injury" offense occurs during the policy period and subsequent to your execution of the written contract or written agreement; and

(ii) Does not apply to "bodily injury" or "property damage" caused by "your work" and included within the "products-completed operations hazard" unless the written contract or written agreement specifically requires that you provide such coverage to such additional insured.

3. If neither Paragraph **1.** nor Paragraph **2.** above apply and such written contract or written agreement requires that you provide that the person or organization be named as an additional insured:

a. Under the ISO CG 20 10 (04/13 edition, any subsequent edition or if no edition date is specified); or

b. With respect to ongoing operations (if no form is specified),

such person or organization is then an additional insured only to the extent that "bodily injury", "property damage" or "personal and advertising injury" is caused, in whole or in part by:

(1) Your acts or omissions; or

(2) The acts or omissions of those acting on your behalf,

in the performance of your ongoing operations, which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **3.**, insurance afforded to such additional insured:

(a) Only applies to the extent permitted by law;

(b) Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured; and

(c) Only applies if the "bodily injury", "property damage" or "personal and advertising injury" offense occurs during the policy period and subsequent to your execution of the written contract or written agreement.

4. If neither Paragraph **1.** nor Paragraph **2.** above apply and such written contract or written agreement requires that you provide that the person or organization be named as an additional insured:

a. Under the ISO CG 20 37 (04/13 edition, any subsequent edition or if no edition date is specified); or

b. With respect to the "products-completed operations hazard" (if no form is specified),

such person or organization is then an additional insured only to the extent that "bodily injury" or "property damage" is caused, in whole or in part by "your work" and included in the "products-completed operations hazard", which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **4.**, insurance afforded to such additional insured:

(1) Only applies to the extent permitted by law;

(2) Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured;

(3) Only applies if the "bodily injury" or "property damage" occurs during the policy period and subsequent to your execution of the written contract or written agreement; and

B. Solely with respect to the insurance afforded to any additional insured referenced in Section **A.** of this endorsement, the following additional exclusion applies:

1. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

2. Supervisory, inspection, architectural or engineering activities.

This provision does not apply to insurance on which the additional insured is a Named Insured if the written contract or written agreement requires that this coverage be primary and non-contributory.

D. Solely with respect to the coverage provided by this endorsement:

1. The following is added to the **Other Insurance** Condition of Section **IV – Commercial General Liability Conditions**:

Primary and Noncontributory insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured provided that:

2. The following paragraph is added to Paragraph **4.b.** of the **Other Insurance** Condition under Section **IV – Commercial General Liability Conditions**:

This insurance is excess over:

Any of the other insurance, whether primary, excess, contingent or on any other basis, available to an additional insured, in which the additional insured on our policy is also covered as an additional insured on another policy providing coverage for the same "occurrence", offense, claim or "suit". This provision does not apply to any policy in which the additional insured is a Named Insured on such other policy and where our policy is required by a written contract or written agreement to provide coverage to the additional insured on a primary and non-contributory basis.

E. This endorsement does not apply to an additional insured which has been added to this Coverage Part by an endorsement showing the additional insured in a Schedule of additional insureds, and which endorsement applies specifically to that identified additional insured.

Under this Program, the City has selected Contractor to perform work at eligible residential properties within the City. Contractor shall bill the City for approved Program work as provided in this Agreement and Exhibit B. Those property owners participating in the Program (the "Property Owners") are responsible only for the costs that exceed the Program thresholds described in SECTION 13, and for any non-Program work. For purposes of this Agreement, each individual installation undertaken by Contractor at an eligible residential property under the Program shall be referred to as a "Project."

SECTION 3. EFFECTIVE DATE. This Agreement has no force or effect unless and until the date of the last signature below (the "Effective Date"). Contractor shall not be compensated by the City for work commenced or materials purchased for or delivered before the Effective Date or before written authorization as required by this Agreement.

SECTION 4. INDEPENDENT CONTRACTOR. Contractor is an independent contractor and not an employee, agent, partner, or joint venturer of the City.

SECTION 6. COMPLIANCE WITH LAWS. Contractor shall comply with all applicable federal, state, and local laws, statutes, rules, regulations, and ordinances relating to the performance of Contractor's obligations under this Agreement. Without limiting the foregoing, Contractor shall comply with the legal requirements identified in Exhibit A, to the extent applicable to the Services and/or to the extent such requirements are triggered by the funding source or nature of the Program. Contractor represents and warrants that Contractor is in compliance with such applicable requirements as of the Effective Date and further represents that Contractor will remain in compliance throughout the term of this Agreement. Contractor shall require all contractors and subcontractors performing services under this Agreement to certify compliance with this Section.

Contractor further represents and warrants that Contractor has obtained all necessary business permits and licenses required to carry out Contractor's obligations under this Agreement, including any permits and licenses required by state or local law, and Contractor agrees to maintain, at Contractor's sole expense, all such required permits and licenses for the duration of the term of this Agreement.

SECTION 7. SCOPE OF SERVICES & PROGRAM REQUIREMENTS. Contractor shall perform installation and related services consistent with Exhibit B, all applicable codes and laws, and manufacturer specifications. Contractor acknowledges the City expects Contractor to ensure that installed equipment qualifies under the Program and meets applicable efficiency/type requirements described in Exhibit B. SECTION 8. EXCLUSIONS. Air conditioning is not included in the Program. Contractor shall not, as part of Program work, change or replace an A-coil or perform any air conditioning repairs. If a homeowner or landlord participating in the Program (a "Property Owner") requests any air-conditioning-related work, Contractor must treat it as non-Program work, separate it from Program scope and documentation, and bill it directly to the Property Owner.

SECTION 9. QUALITY OF WORK.

9.1 **Materials.** All work and materials shall be of the quality required by the Contract Documents. Contractor shall remove and replace any materials rejected as defective or improper and shall correct nonconforming work at Contractor's expense.

Contractor shall pass through to the Property Owner applicable manufacturer warranties for equipment installed.

SECTION 10. PERMITS. Contractor shall obtain all necessary HVAC and/or plumbing permits and ensure all Program work is performed and completed in compliance with applicable code and permit requirements.

SECTION 11. INSPECTIONS. The City shall be permitted to examine and inspect the work for this Project on a continuing basis through Project completion. Contractor shall coordinate inspections in accordance with Exhibit B. Contractor shall coordinate inspection scheduling, and the Property Owner shall allow timely and prompt access to the Property for inspections.

Following each installation, Contractor shall contact Shane Hoeper, Combination Inspector, at 563-690-6091 or shoeper@cityofdubuque.org for an inspection and shall promptly correct any deficiencies required for inspection approval.

SECTION 12. LEAD PAINT. Contractor acknowledges that many residential properties in Dubuque may contain lead-based paint. If Contractor observes conditions at a Property that Contractor reasonably believes present a safety risk, including visible deteriorated paint (e.g., significant chipping/peeling) or paint dust, or circumstances that would require drilling, sanding, or otherwise disturbing painted surfaces in a manner that could create lead dust in the work area, Contractor may pause or decline to perform the affected work. Contractor shall then promptly notify the City of the condition and the basis for the pause/declination. The City will determine next steps for that Project, including whether the Project will be deferred, modified, or reassigned.

SECTION 13. MODIFICATIONS. No modification of this Agreement shall be made except by written amendment signed by both parties.

Additional services outside the scope described in Exhibit B may be requested on an as-needed basis and paid by the City upon completion only if authorized in writing in advance by the City and supported by an invoice meeting the requirements of SECTION 14.1.

SECTION 14. PRICING.

14.1 **City Payment.** Contractor shall submit invoices to the City's Office of Sustainability following installation. Invoices must, at a minimum, identify (i) the Property address, (ii) installed equipment make/model/serial, (iii) total labor charge, (iv) total equipment/materials charge, and (v) any amounts billed directly to the Property Owner as an Overage or non-Program work. Contractor shall itemize invoices to show labor versus

materials to the extent reasonably practicable. The City will pay Contractor only for approved Program work performed in accordance with the Contract Documents.

14.2 **Program Thresholds.** If Contractor's service cost for a heat source/furnace replacement exceeds $7,500, or if Contractor's service cost for a water heater replacement exceeds $5,500, the Property Owner is responsible for paying the difference (the "Overage"). Contractor may require payment of the Overage up front before work on the associated property begins. The City is not responsible for Overages or any non-Program work.

14.3 **Separation of Charges.** Contractor shall clearly separate (i) City-paid Program work and (ii) any Overage and/or non-Program work to be paid by the Property Owner.

14.4 **Payment Terms.** Subject to SECTION 14.1 and compliance with the Contract Documents, the City shall pay Contractor for approved Program work within thirty (30) days after final inspection approval for the applicable Project and receipt of a proper invoice and any supporting documentation reasonably requested by the City for Program administration. The City may withhold payment for work that does not pass inspection or does not comply with the Contract Documents.

SECTION 15. UTILITY REBATES. Contractor shall:

(a) Prioritize purchasing qualified equipment under the Alliant Energy Instant Discounts program when feasible and consistent with Program eligibility;
(b) Provide the City all information/materials needed for program participants to apply for the Black Hills Energy Iowa Residential Rebate Program (including, without limitation, model number, serial number, energy rating (UEF), and rated efficiency (AFUE)), consistent with Exhibit B; and
(c) Cooperate with the City's and Property Owner's rebate/assignment process required by the Owner participation agreement, including providing documentation reasonably requested by the City to ensure rebates are properly credited/assigned and the Program does not result in a double benefit.
(d) Contractor may use the equipment proposed in Contractor's bid, provided it meets the Program eligibility and efficiency requirements for the applicable Project.

SECTION 16. NOTICE TO PROCEED. If the City issues a written "Notice to Proceed" or similar written authorization for any City-directed work under this Agreement, Contractor shall not commence that work until such written authorization is issued. Work commenced prior to written authorization is unauthorized and performed at Contractor's sole risk.

SECTION 17. INSURANCE. Prior to commencing any work under this Agreement and during the term of this Agreement, Contractor shall procure and maintain insurance meeting the City's requirements and shall provide certificates/endorsements consistent with Exhibit C (Insurance Schedule F). Failure to obtain or maintain required insurance constitutes a material breach of this Agreement.

SECTION 18. INDEMNIFICATION. To the fullest extent permitted by law, Contractor shall defend, indemnify, and hold harmless the City, its elected and appointed officials, officers, employees, and agents from and against third-party claims, damages, losses, and expenses (including attorneys' fees) arising out of or resulting from performance of the work, but only to the extent caused in whole or in part by negligent acts or omissions of Contractor or those for whom Contractor is responsible.

SECTION 19. NON-DISCRIMINATION. In carrying out the project, Contractor shall not discriminate against any employee or applicant for employment because of age, color, familial status, gender identity, marital status, mental/physical disability, national origin, race, religion/creed, sex, or sexual orientation.

SECTION 20. RECORDS. Contractor shall maintain records reasonably necessary to support the City's administration of the Program for at least three (3) years after the end of the Program, or final payment for the applicable Project (whichever is later), including invoices, permit numbers, final inspection approvals, and equipment identifiers reasonably necessary for Program administration. Contractor shall provide such records to the City upon reasonable request.

SECTION 21. DEFAULT. If Contractor defaults or neglects to carry out work in accordance with the Contract Documents, the City may, after seven (7) days' written notice to the Contractor and without prejudice to any other remedy it may have, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor. If the unpaid balance of the contract sum exceeds the expense of finishing or correcting the work, such excess shall be paid to the Contractor.

SECTION 22. TERMINATION. The City may terminate this Agreement for cause, including material breach, repeated noncompliance with Exhibit B, permitting/inspection violations, or failure to maintain required insurance. The City may also terminate this Agreement due to loss of funding supporting the Program or for other reasons permitted by City policy, upon written notice.

SECTION 23. NOTICES. All notices required or permitted to this Agreement shall be in writing and (i) delivered personally, (ii) sent by registered or certified mail, return receipt requested, (iii) by electronic mail, if an electronic mail address is provided below, or (iv) by generally recognized, prepaid, overnight air courier services, to the address and individual set forth below. All such notices shall be deemed to have been provided when delivered, if delivered personally or by electronic mail, four (4) days after mailed, if sent by registered or certified mail, or the next business day, if sent by generally recognized, prepaid, overnight air courier services.

SECTION 24. ENTIRE AGREEMENT. This Agreement and the Contract Documents constitute the entire agreement between the parties regarding the subject matter and supersede all prior negotiations, representations, and agreements, whether written or oral.

SECTION 25. SEVERABILITY. If any provision of this Agreement is determined to be invalid or unenforceable, the remainder shall remain in full force and effect.

SECTION 26. WAIVER. No waiver of any provision shall be effective unless in writing and signed by the party against whom the waiver is asserted. A waiver on one occasion shall not operate as a waiver on any other occasion.

SECTION 27. NO THIRD-PARTY BENEFICIARIES. Nothing in this Agreement is intended to create, nor shall it be construed to create, any rights in any third party.

SECTION 28. SIGNATORY AUTHORITY. Each person signing this Agreement represents and warrants that they are duly authorized to bind the party on whose behalf they sign.

SECTION 29. ASSIGNMENT. Contractor shall not assign this Agreement or subcontract material portions of the work in a manner inconsistent with the Contract Documents without the City's prior written consent.

SECTION 30. FORCE MAJEURE. A delay in or failure of performance of any party shall not constitute a default hereunder nor be the basis for, or give rise to, any claims for damages, if, and to the extent such delay or failure is caused by an Event of Force Majeure. Provided, however, that the party who is delayed or prevented from performing by an Event of Force Majeure shall, within a period not to exceed fourteen (14) calendar days after the occurrence or detection of any such event, give notice to the other party setting forth in reasonable detail the nature thereof and the anticipated extent of the delay, and shall remedy such cause as soon as reasonably possible, or as mutually agreed between the parties. Notwithstanding the foregoing, in no event shall a party's failure to make payments due hereunder be excusable due to an Event of Force Majeure.

For purposes of this Section, an "Event of Force Majeure" means an act of God or the public enemy; compliance with any order, rule, regulation, decree, or request of any governmental authority or agency or person purporting to act therefor; acts of war, public disorder, rebellion, terrorism, or sabotage; floods, hurricanes, or other storms; strikes or labor disputes; pandemic or epidemic; or any other cause, whether or not of the class or kind specifically named or referred to herein, not within the reasonable control of the party affected and which by the exercise of due diligence could not have been reasonably prevented or overcome.

SECTION 31. GOVERNING LAW. This Agreement shall be governed by the laws of the State of Iowa. Venue for any action arising out of this Agreement shall lie in Dubuque County, Iowa.

No person or organization is an insured with respect to the conduct of any current or past partnership, joint venture or limited liability company that is not shown as a Named Insured in the Declarations.

D. LIABILITY AND MEDICAL EXPENSES LIMITS OF INSURANCE

1. The Most We Will Pay

The Limits of Insurance shown in the Declarations and the rules below fix the most we will pay regardless of the number of:

a. Insureds;

b. Claims made or "suits" brought; or

c. Persons or organizations making claims or bringing "suits".

2. Aggregate Limits

The most we will pay for:

a. Damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard" is the Products-Completed Operations Aggregate Limit shown in the Declarations.

b. Damages because of all other "bodily injury", "property damage" or "personal and advertising injury", including medical expenses, is the General Aggregate Limit shown in the Declarations.

This General Aggregate Limit applies separately to each of your "locations" owned by or rented to you.

"Location" means premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway or right-of-way of a railroad.

This General Aggregate limit does not apply to "property damage" to premises while rented to you or temporarily occupied by you with permission of the owner, arising out of fire, lightning or explosion.

3. Each Occurrence Limit

Subject to **2.a.** or **2.b** above, whichever applies, the most we will pay for the sum of all damages because of all "bodily injury", "property damage" and medical expenses arising out of any one "occurrence" is the Liability and Medical Expenses Limit shown in the Declarations.

The most we will pay for all medical expenses because of "bodily injury" sustained by any one person is the Medical Expenses Limit shown in the Declarations.

4. Personal And Advertising Injury Limit

Subject to **2.b.** above, the most we will pay for the sum of all damages because of all "personal and advertising injury" sustained by any one person or organization is the Personal and Advertising Injury Limit shown in the Declarations.

In the case of damage by fire, lightning or explosion, the Damage to Premises Rented To You Limit applies to all damage proximately caused by the same event, whether such damage results from fire, lightning or explosion or any combination of these.

6. How Limits Apply To Additional Insureds

The most we will pay on behalf of a person or organization who is an additional insured under this Coverage Part is the lesser of:

a. The limits of insurance specified in a written contract, written agreement or permit issued by a state or political subdivision; or

b. The Limits of Insurance shown in the Declarations.

Such amount shall be a part of and not in addition to the Limits of Insurance shown in the Declarations and described in this Section.

If more than one limit of insurance under this policy and any endorsements attached thereto applies to any claim or "suit", the most we will pay under this policy and the endorsements is the single highest limit of liability of all coverages applicable to such claim or "suit". However, this paragraph does not apply to the Medical Expenses limit set forth in Paragraph **3.** above.

The Limits of Insurance of this Coverage Part apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

If a claim is made or "suit" is brought against any insured, you or any additional insured must:

(1) Immediately record the specifics of the claim or "suit" and the date received; and

(2) Notify us as soon as practicable.

You or any additional insured must see to it that we receive a written notice of the claim or "suit" as soon as practicable.

c. Assistance And Cooperation Of The Insured

You and any other involved insured must:

(1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

(2) Authorize us to obtain records and other information;

(3) Cooperate with us in the investigation, settlement of the claim or defense against the "suit"; and

(4) Assist us, upon our request, in the enforcement of any right against any person or organization that may be liable to the insured because of injury or damage to which this insurance may also apply.

d. Obligations At The Insured's Own Cost

No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

e. Additional Insured's Other Insurance

If we cover a claim or "suit" under this Coverage Part that may also be covered by other insurance available to an additional insured, such additional insured must submit such claim or "suit" to the other insurer for defense and indemnity.

However, this provision does not apply to the extent that you have agreed in a written contract, written agreement or permit that this insurance is primary and non-contributory with the additional insured's own insurance.

f. Knowledge Of An Occurrence, Offense, Claim Or Suit

Paragraphs **a.** and **b.** apply to you or to any additional insured only when such "occurrence", offense, claim or "suit" is known to:

(1) You or any additional insured that is an individual;

(2) Any partner, if you or an additional insured is a partnership;

(3) Any manager, if you or an additional insured is a limited liability company;

(4) Any "executive officer" or insurance manager, if you or an additional insured is a corporation;

(5) Any trustee, if you or an additional insured is a trust; or

(6) Any elected or appointed official, if you or an additional insured is a political subdivision or public entity.

This Paragraph **f.** applies separately to you and any additional insured.

3. Financial Responsibility Laws

a. When this policy is certified as proof of financial responsibility for the future under the provisions of any motor vehicle financial responsibility law, the insurance provided by the policy for "bodily injury" liability and "property damage" liability will comply with the provisions of the law to the extent of the coverage and limits of insurance required by that law.

b. With respect to "mobile equipment" to which this insurance applies, we will provide any liability, uninsured motorists, underinsured motorists, no-fault or other coverage required by any motor vehicle law. We will provide the required limits for those coverages.

4. Legal Action Against Us

No person or organization has a right under this Coverage Form:

a. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or

b. To sue us on this Coverage Form unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this insurance or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

5. Separation Of Insureds

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this policy to the first Named Insured, this insurance applies:

a. As if each Named Insured were the only Named Insured; and

b. Separately to each insured against whom a claim is made or "suit" is brought.

6. Representations

a. When You Accept This Policy

By accepting this policy, you agree:

(1) The statements in the Declarations are accurate and complete;

(2) Those statements are based upon representations you made to us; and

(3) We have issued this policy in reliance upon your representations.

b. Unintentional Failure To Disclose Hazards

If unintentionally you should fail to disclose all hazards relating to the conduct of your business at the inception date of this Coverage Part, we shall not deny any coverage under this Coverage Part because of such failure.

7. Other Insurance

If other valid and collectible insurance is available for a loss we cover under this Coverage Part, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when **b.** below applies. If other insurance is also primary, we will share with all that other insurance by the method described in **c.** below.

b. Excess Insurance

This insurance is excess over any of the other insurance, whether primary, excess, contingent or on any other basis:

(1) Your Work

That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";

(2) Premises Rented To You

That is fire, lightning or explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;

(3) Tenant Liability

That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises rented to you or temporarily occupied by you with permission of the owner;

(4) Aircraft, Auto Or Watercraft

If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion **g.** of Section **A.** – Coverages.

(5) Property Damage To Borrowed Equipment Or Use Of Elevators

If the loss arises out of "property damage" to borrowed equipment or the use of elevators to the extent not subject to Exclusion **k.** of Section **A.** – Coverages.

(6) When You Are Added As An Additional Insured To Other Insurance

That is other insurance available to you covering liability for damages arising out of the premises or operations, or products and completed operations, for which you have been added as an additional insured by that insurance; or

(7) When You Add Others As An Additional Insured To This Insurance

That is other insurance available to an additional insured.

However, the following provisions apply to other insurance available to any person or organization who is an additional insured under this Coverage Part:

(a) Primary Insurance When Required By Contract

This insurance is primary if you have agreed in a written contract, written agreement or permit that this insurance be primary. If other insurance is also primary, we will share with all that other insurance by the method described in **c.** below.

(b) Primary And Non-Contributory To Other Insurance When Required By Contract

If you have agreed in a written contract, written agreement or permit that this insurance is primary and non-contributory with the additional insured's own insurance, this insurance is primary and we will not seek contribution from that other insurance.

Paragraphs **(a)** and **(b)** do not apply to other insurance to which the additional insured has been added as an additional insured.

When this insurance is excess, we will have no duty under this Coverage Part to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

(1) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

(2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Method Of Sharing

If all the other insurance permits contribution by equal shares, we will follow this method also. Under this approach, each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

8. Transfer Of Rights Of Recovery Against Others To Us

a. Transfer Of Rights Of Recovery

If the insured has rights to recover all or part of any payment, including Supplementary Payments, we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them. This condition does not apply to Medical Expenses Coverage.

b. Waiver Of Rights Of Recovery (Waiver Of Subrogation)

If the insured has waived any rights of recovery against any person or organization for all or part of any payment, including Supplementary Payments, we have made under this Coverage Part, we also waive that right, provided the insured waived their rights of recovery against such person or organization in a contract, agreement or permit that was executed prior to the injury or damage.

LABORATORY SERVICES AGREEMENT

This Agreement is between_ The City of Dubuque Water & Resource Recovery Center_ (hereinafter referred to as "COMPANY") with principal offices at 795 Julien Dubuque Drive, Dubuque, IA 52003, and Eurofins Environment Testing North Central, LLC. (hereinafter referred to as "LABORATORY"), a Delaware limited liability company with a principal place of business located at 180 S. Van Buren Avenue, Barberton, OH 44203.

RECITALS

1. COMPANY requires analytical services regarding groundwater, surface water, soil, sediment, air and various other materials at COMPANY's sites.

2. LABORATORY has special expertise and experience in providing analytical laboratory, and consulting services, in support of such requirements.

THE PARTIES THEREFORE AGREE AS FOLLOWS:

1. SCOPE OF SERVICES: LABORATORY shall perform such analytical services as requested by COMPANY and accepted by LABORATORY as described in Section 3 ("Services"). Orders for Services may be made by: a) submission of a written Task Order; or b) submitting samples for analysis with a completed Chain-of-Custody form. All such orders for Services shall be governed by this Agreement, notwithstanding any additional Terms and Conditions contained on COMPANY's documentation. Where conflicts exist, precedence will be given to this Agreement, and then to any printed Terms and Conditions on COMPANY's paperwork. Only authorized officers of LABORATORY may alter this Agreement, or agree to be bound by additional Terms and Conditions.

2. COMPENSATION: LABORATORY shall be compensated for Services provided to COMPANY, by specific quote, if one is requested. Quoted prices do not include sales tax. Applicable sales tax will be added to invoices where required by law. Invoices shall be submitted to COMPANY upon completion of any sample delivery group. Billing corrections must be requested within thirty (30) days of invoice date. COMPANY shall pay invoices, without retainage, net 45 days from the date of LABORATORY's invoice. COMPANY shall be responsible for payment (without deduction or offset from the total invoice amount) and payment shall not be contingent upon the receipt of funds from third parties. All overdue payments are subject to interest charges of one and one-half percent (1.5%) (or the maximum rate permissible by law, whichever is less) per month or portion thereof from the due date until the date of payment. All fees are charged or billed directly to COMPANY. The billing of a third party will not be accepted without a statement, signed by the third party, acknowledging and accepting

payment responsibility in accordance with these payment terms. If COMPANY fails to make timely payment of its invoices, LABORATORY reserves the right to pursue all appropriate remedies, including withdrawing certifications, suspending Services and withholding delivery of data under any order without recourse. COMPANY shall be responsible for all reasonable fees, expenses, and costs of collection including but not limited to, arbitrator's and attorney's fees. LABORATORY reserves the right to refuse to proceed with Services at any time based upon an unfavorable COMPANY credit report.

3. INITIATION OF SERVICES: COMPANY shall provide one week advance notice of the sample delivery schedule, or any changes to the schedule, whenever possible. Upon timely delivery of samples, LABORATORY will use its best efforts to meet mutually agreed upon turnaround times. All turnaround times will be calculated from the date of Sample Delivery Acceptance. Sample Delivery Acceptance is the point in time when LABORATORY has determined that it can proceed with defined Services following receipt, inspection of samples, and resolution of any discrepancies in Chain-of-Custody forms and project guidance regarding Services to be done. LABORATORY reserves the right, exercisable at any time, to refuse or revoke Sample Delivery Acceptance for any sample which in the sole judgment of LABORATORY: a) is of unsuitable volume; b) may pose a risk or become unsuitable for handling, transport, or processing for any health, safety, environmental or other reason, whether or not due to the presence in the sample of any hazardous substance and whether or not such presence has been disclosed to LABORATORY by COMPANY; or c) holding times cannot be met, due to the passage of more than 48 hours from the time of sampling, or one-half the holding time for the test, whichever is less.

In addition, Sample Delivery Acceptance is contingent upon the resolution of inconsistencies in the Sample Chain-of-Custody forms, breakage, receipt of sufficient documentation and project guidance regarding Services to be performed.

Upon changes in the sample delivery schedule by COMPANY, prior to Sample Delivery Acceptance, LABORATORY reserves the right to modify its turnaround time commitment, to change the date upon which LABORATORY will accept samples, or refuse Sample Delivery Acceptance for the affected samples. Rush turnaround times not requested in advance of the delivery of samples and specifically agreed to by LABORATORY are not guaranteed.

Prior to Sample Delivery Acceptance, the entire risk of loss or damage to samples remains with COMPANY, except where LABORATORY provides courier Services. In no event will LABORATORY have any responsibility or liability for the action or inaction of any carrier shipping or delivering any sample to or from LABORATORY's premises. COMPANY is responsible for assuring that any sample that contains or may contain any hazardous substance to be delivered to LABORATORY's premises is properly packaged, labeled, transported and delivered, all in accordance with applicable laws.

4. LABORATORY'S WARRANTIES: LABORATORY warrants that it possesses and maintains all licenses and certifications required to perform the Services ordered by COMPANY, provided that such requirements are specified in writing to LABORATORY prior to Sample

Delivery Acceptance. LABORATORY will notify COMPANY in writing of any decertification or revocation of any license, or notice of either, which affects Services in process.

Where applicable, LABORATORY will use appropriate and approved analytical test methods. LABORATORY has referenced these methods in its Laboratory Quality Manuals and has documented them in Standard Operating Procedures. LABORATORY reserves the right based on its reasonable judgment to deviate from these methodologies as necessary or appropriate to the extent required by the nature and composition of the sample, which deviations, if any, will be made on a basis consistent with recognized standards of the industry and/or LABORATORY's Laboratory Quality Manuals. COMPANY may request that LABORATORY perform according to a mutually agreed Quality Assurance Project Plan (QAPP). If samples arrive prior to agreement on a QAPP, LABORATORY will proceed with analyses under its standard Quality Manuals then in effect. LABORATORY will not be responsible for any resampling or other charges if Services must be repeated to comply with a subsequently finalized QAPP.

LABORATORY shall start preparation and/or analysis of samples within holding times, provided that Sample Delivery Acceptance occurs within 48 hours of sampling or one-half of the holding time for the test, whichever is less, unless COMPANY has specifically requested that LABORATORY hold the samples without preparation or other processing. Where resolution of inconsistencies leading to Sample Delivery Acceptance does not occur within this period, LABORATORY will use its best efforts to meet holding times and will proceed with the Services provided that, in LABORATORY’s judgment, the Chain-of-Custody or definition of the Scope of Work provide sufficient guidance. Reanalyses of samples to comply with LABORATORY's Quality Manuals will be deemed to have met holding times provided the initial analysis was performed within the applicable holding time.

These warranties are the sole and exclusive warranties, express or implied, given by LABORATORY in connection with any Services performed by LABORATORY, or any results generated from such Services, and LABORATORY gives and makes NO OTHER REPRESENTATION OR WARRANTY OF ANY KIND, EXPRESS OR IMPLIED. No representative of LABORATORY is authorized to give or make any other representation or warranty or modify this warranty in any way.

5. CHANGES: COMPANY may initiate changes to the Scope of Work after Sample Delivery Acceptance, including but not limited to, increasing or decreasing the Services, changing test and analysis specifications, or acceleration in the performance of the Services. Such changes must be documented in writing and may result in a change in cost or turnaround time commitment. LABORATORY's acceptance of such changes are contingent upon technical feasibility and operational capacity. LABORATORY may initiate changes to the scope of Services, price or result delivery date, after Sample Delivery Acceptance, due to any condition which conflicts with analytical, quality assurance, or other protocols warranted in this Agreement. LABORATORY will not proceed with such changes until an agreement with COMPANY is reached on the amount of any cost, schedule change or technical change to the scope of Services, and such agreement is documented in writing.

Suspension or termination of all or any part of the Services may be initiated by COMPANY. LABORATORY will be compensated consistent with Section 2 of these terms. LABORATORY will complete all work in progress and be paid in full for all Services completed.

6. RESULTS / WORK PRODUCT: Results, whether data generated by LABORATORY from the analysis of samples or work product generated in the performance of consulting Services, are provided by LABORATORY strictly for the use of COMPANY, and LABORATORY is not responsible for use of such results by COMPANY or third parties. All results should be considered in their entirety, and LABORATORY is in no way responsible for the separation, detachment, or other use of any portion of the Results.

At LABORATORY's sole discretion, preliminary results may be given in advance of the written report of results. Such preliminary results are tentative results only, subject to confirmation or change based on final review.

Should the results delivered by LABORATORY be used by COMPANY, even though subsequently determined not to meet the warranties described in Section 4, then the compensation for those Services only, as described in Section 2, will be adjusted based upon mutual agreement. In no case shall COMPANY unreasonably withhold LABORATORY's right to independently defend its data.

Any and all data or information provided to LABORATORY or generated by Services performed under this agreement shall become the property of COMPANY upon receipt in full by LABORATORY of payment for the Services. LABORATORY's analytical methods, instruments, techniques, laboratory information management system, QA/QC protocols and program plans, scientific procedures and know-how are proprietary and belong solely to LABORATORY whether or not developed, modified or amended in the course of Services to COMPANY. COMPANY shall not disclose such information to any third party without LABORATORY’s express prior consent.

Unless a different time period is agreed to in an order under these Terms, LABORATORY agrees to retain all records for five (5) years.

If LABORATORY is required to respond to legal process related to Services for COMPANY, COMPANY agrees to reimburse LABORATORY for hourly charges for personnel involved in the response and attorney fees reasonably incurred in obtaining advice concerning the response, preparation to testify, and appearances related to the legal process, travel and all reasonable expenses associated with the litigation. Additional consulting beyond that normally associated with lab reports will be billed at LABORATORY’s current published rates.

7. REMEDIES: COMPANY's sole and exclusive remedy for the breach of warranty in connection with any Services performed by LABORATORY, will be limited to repeating any Services performed, contingent on COMPANY's providing, at the request of LABORATORY and at COMPANY's expense, additional sample(s), if necessary. Any reanalysis request by COMPANY generating results consistent with the original results will be at COMPANY's

expense. In the event that LABORATORY can demonstrate that sample matrix interference is the primary cause for nonconformance to LABORATORY's warranties in Section 4, as set forth in LABORATORY's Quality Assurance Plans, these remedies are not available. If resampling is necessary, LABORATORY's liability for resampling costs will be limited of actual cost or one hundred and fifty dollars ($150) per sample, whichever is less.

LABORATORY shall not be liable for failure or delay in performance which results, directly or indirectly, in whole or in part, from any cause or circumstance beyond the reasonable control of LABORATORY. Such causes and circumstances include, but are not limited to, acts of God, acts of COMPANY, acts or orders of any governmental authority, strikes or other labor disputes, natural disasters, accidents, wars, civil disturbances, power outages, difficulties or delays in transportation, mail or delivery Services, breakdown of equipment, matrix interference or unknown highly contaminated samples that impact instrument operations, unavailability of supplies from LABORATORY's usual sources, or any other cause beyond LABORATORY's reasonable control.

LABORATORY's liability for any and all causes of action arising hereunder for breach of contract shall be limited to $100,000. Under no circumstances shall LABORATORY be responsible for loss of use, loss of profits, or for any special, indirect, incidental or consequential damages occasioned by the Services performed or by application or use of the reports prepared.

8. INSURANCE: LABORATORY shall maintain in force during the performance of Services under this Agreement insurance as described in Attachment A Insurance Schedule.

9. INDEMNIFICATION: LABORATORY and COMPANY shall indemnify, defend, and hold each other harmless from claims, demands, and causes of action asserted against indemnitee by any third person for personal injury or death or for loss of or damage to property and resulting from the indemnitor's negligence or willful misconduct hereunder.

COMPANY shall indemnify and hold harmless LABORATORY from and against any and all claims or suits (including but not limited to liability to a third party) arising out of: a) the presence of hazardous substances in any sample of COMPANY, regardless of whether COMPANY has informed LABORATORY; b) accidents occurring during the transport of any sample of COMPANY, except where LABORATORY is the courier; c) events or delays caused by COMPANY or otherwise beyond LABORATORY's control; or d) negligence by COMPANY in the use, evaluation, or application of the Results provided by LABORATORY.

10. AUDITS: Upon prior notice to LABORATORY, COMPANY may audit and inspect LABORATORY's records and accounts covering reimbursable costs related to Services performed for COMPANY, for a period of two (2) years after completion of the Services. The purpose of any such audit shall be only for verification of such costs, and LABORATORY shall not be required to provide access to cost records where prices are expressed as fixed fees or published unit prices.

11. COMPLIANCE WITH ENVIRONMENTAL LAWS: COMPANY shall provide complete written disclosure of the presence of any hazardous substances known or suspected by COMPANY, to precede or accompany affected samples. Where highly contaminated samples which were not accompanied by the required disclosure, cause interruptions in the lab's ability to process work due to contamination of instruments or work areas, COMPANY will be responsible for the costs of clean up and recovery. In addition, COMPANY shall properly package, label, transport, and deliver any sample containing hazardous substances, in accordance with applicable laws.

LABORATORY will dispose of non-hazardous samples, sample extracts and digestates 30 days after the final analytical report is issued, unless instructed to store them for an alternate period of time or to return such samples to COMPANY, in a manner consistent with U. S. Environmental Protection Agency regulations, or other applicable federal, state or local requirements. Charges for disposal will be billed to the COMPANY. Alternatively, samples can be returned to the COMPANY for disposal. Cost of return shipping will be billable to COMPANY. Air samples in Summa canisters and tedlar bags are used and the containers cleaned immediately after testing, such that those samples are not retained. Longer storage periods may be requested and may be accommodated if space allows, and for an additional charge. Any samples for projects that are cancelled or not accepted, or for which return was requested, will be returned to COMPANY at its own expense. LABORATORY reserves the right to return to COMPANY any sample or unused portion of a sample that is not within LABORATORY's permitted capability or the capabilities of LABORATORY's designated waste disposal vendor(s). ALL DIOXIN, MIXED WASTE, AND RADIOACTIVE SAMPLES WILL BE RETURNED TO COMPANY, unless prior arrangements for disposal are made.

Either party may terminate this agreement at any time, with or without cause, upon 30 days written notice to the other party. LABORATORY will complete all Services in progress and will be paid in full for all Services completed, including all costs incurred and reasonable profit margin, even if Laboratory does not issue a final or partial report. Upon any termination LABORATORY shall cooperate in returning all data or information supplied by COMPANY. TRAINING

Garratt-Callahan's goal is to guide your personnel in the successful operation of your, water softeners, boilers, and cooling water systems. Because a successful water treatment program is highly dependent on proper understanding of product application, Garratt-Callahan's Operator and Management Training Program focuses on the following areas: monitoring/control, general prevention and response training regarding boilers, softeners, & cooling systems, and safety training.

Control Training

In the statistical sense, control refers to a condition, which describes a process from which all special causes of variation have been eliminated. We know that special causes of variation are unpredictable and that these variations can result in the intermittent drift of water quality or other parameters that can drastically impact system operation. Garratt-Callahan recognizes the potential for variations and recommends control ranges for each level of chemical treatment. Once treatment ranges are established, they must be monitored to guarantee that sufficient product is being supplied to protect the system. Therefore, Garratt-Callahan thoroughly trains operating personnel in the chemical testing techniques necessary to successfully monitor the system.

Prevention Training

Garratt-Callahan's program helps you minimize the repair and maintenance costs associated with replacement and cleaning of equipment. In addition, our preventative orientated strategy addresses the root cause of potential problems in your system and teaches how to prevent vs. react to them. Prevention Training includes educating operating personnel on those components of the system, which may be limiting the overall performance of the system. Garratt-Callahan has the capability of helping you diagnose any inadequacies that may exist in the system. Your Garratt-Callahan Territory Manager can then assist you in determining the cost/benefit associated with any system modifications.

Response Training

For your operators to run your facility efficiently, they must recognize problems before they cause a shutdown and be able to take appropriate corrective action should an upset occur.

Garratt-Callahan's Response Training instructs operators how to make temporary adjustments to their treatment program when an upset occurs. Since many times, a variety of changes may result from a
single response, we believe that it is crucial that the operator understand the downstream impact of each of his actions. Once the operators have a good understanding of the cause/effect relationship, they are equipped to take the proper corrective action immediately.

LABORATORY CAPABILITIES

Garratt-Callahan has one of the most extensive in-house laboratories in the water treatment industry. Our lab can perform a wide array of analytical work to facilitate monitoring, control, and troubleshooting of our customer's systems.

Findings/Recommendations/Consequences:
REVIEW OF WATER CHEMISTRY

Overview of the basin water chemistry is showing stable conditions across all required levels today. Both systems have cycled back up into the recommend ranges, therefore as stated in last weeks report NO changes will be required to the bleed rate at this time. All equipment is operational and functioning properly. Dip slides pulled last week were allowed to incubate for 100hrs, and showed zero bacteria activity.

Mark and I spent approx. 2 hrs reviewing the basics of the water treatment program, this educational training will be ongoing in efforts to bring Mark up to speed quickly regarding all aspect of the treatment system and operation of the control equipment.

Chemical delivery will take place next week in both MER's for product GC 2260. 300 gallons in MER 1 and 100 gallons in MER 3.

Thank you.

AMENDMENT NO. 1
TO PROFESSIONAL SERVICES AGREEMENT

This is Amendment number 1 dated March 18, 2026 to the agreement between City of Dubuque ("Client") and Kimley-Horn and Associates, Inc. ("Consultant") dated December 16, 2024 (“the Agreement") concerning City of Dubuque Leisure Services Comprehensive Master Plan (the "Project").

The Consultant has entered into the Agreement with Client for the furnishing of professional services, and the parties now desire to amend the Agreement.

The Agreement is amended to include services to be performed by Consultant for compensation as set forth below in accordance with the terms of the Agreement.

Now therefore, the Client and Consultant agree the amended compensation for services shall be increased by the following:

Consultant will develop an Aquatics Feasibility Study to complement the systemwide Parks and Recreation Comprehensive Master Plan. As part of this study, the Consultant will perform the following services:

TASK 1 - Data Collection

Prior to beginning this task, the City will furnish the Consultant any existing information available on the potential sites including topographic surveys, geotechnical reports, as-built plans, data and maps from prior master plans, and plats with utility easements and locations shown. This task includes an in-person visit from the Consultant and team members. The City will also provide the Consultant with existing funding sources and operational data.

1.1 Project Management & Engagement Plan

Prior to and during this task the Consultant will finalize timelines with the City, set up communication protocol, and hold a project kick-off meeting. Details of this task will include:

A. A kick-off meeting with staff members to confirm goals and objectives, define the definition of success for the City, determine key stakeholders and set up a schedule for engagement of the key stakeholders.

B. Provide project status reports and updates as determined in the kick-off meeting.

1.2 Sites Visit

The Consultant will need to become familiar with the locations, conditions, and programming offered at up to 5 locations that could potentially be used for a future aquatic facility.

The basic approach to this task will consist of the following:

A. Prior to visiting the sites– the City will provide the Consultant any existing information on the potential sites including known condition issues, utility availability, and any site master plans or future development considerations.

B. The Consultant will visit the potential sites (up to 5) and perform a general visual evaluation of the condition of each site. Consideration will be made as it relates to topography, floodplain, environmental/cultural resources, vehicular access, parking, utility availability, location and surrounding land use compatibility.

C. The sites will be photographed, and a site suitability matrix will be developed. The findings will be documented in the form of site tour book and brief report.

D. A shortlist of up to two (2) sites will be used for concept development.

1.3 Aquatic Area Providers Study

The Consultant will study other area aquatic providers including schools, municipal, and private developments within a 30-minute drive time to better understand the aquatic services and facilities that are provided in the region and the fees that are being charged for those services. This information will also be used as a benchmark when comparing any potential services offered by the City of Dubuque. Other municipal facilities in up to 10 other large Iowa cities will also be included in this study.

1.4 Meetings

Meetings will include a one-day meeting to include the kick-off meeting and site visits from the CONSULTANT and a follow-up virtual meeting to review and discuss findings with the City. The City's project manager and any pertinent staff will attend meetings and site visits with the Consultant.

TASK 2 - Public Input, Stakeholder Meetings and Programming

2.1 Local Community Stakeholder Input

The Consultant will lead virtual stakeholder meetings to analyze needs and determine objectives. This discussion will include images and/or video presentations with commentary on the existing pools and features of other aquatic centers that could be considered for this project; background information on historic and contemporary issues in the industry; and an open-forum question-and-answer session to discuss concerns and needs of those

individuals and groups attending the meeting. These materials will be available in a printable format for staff to conduct additional in-person meetings as appropriate.

Additionally, the Consultant will utilize a comprehensive online platform to allow the community to engage in the planning process and provide feedback via survey.

A matrix of programming priorities will be developed and discussed to prioritize programming and facility features. The Consultant will use the results of the interviews and public input to develop a needs profile.

2.2 Programming

Based upon the findings, a program for the proposed aquatic facility will be developed from the community meetings, City staff, facilitated focus groups, and interviews. The program will reflect the desires submitted by these groups.

2.3 Meetings

The Consultant will attend up to one (1) virtual public workshop and up to four (4) virtual stakeholder meetings.

TASK 3 - Conceptual Designs

3.1 Conceptual Designs

The Consultant will provide up to four (4) conceptual layouts of a proposed aquatic facility identified through the needs analysis and programming. The plan will illustrate ways to organize the spaces in a functional arrangement and confirm that the facility footprint will contain the areas proposed in the design program. Concepts with varying space requirements will be identified along with budgeting considerations. Concepts may include new structures or potential renovations based on existing site conditions. The concepts will be color rendered and overlaid on and aerial photograph for each site. Based on results of the meetings and programming sessions – conceptual plans will be developed that could address:

A. Spray grounds or splash pad additions.
B. Swimming pool additions for competition, practice, leisure, therapeutic and instructional uses
C. Waterslides, Spray/Play Features, Lazy Rivers
D. Shade Structures
E. Support Buildings (locker room, restroom, operations, mechanical)

An rough order of magnitude cost estimate will be developed for each concept plan. Because the Consultant does not control the cost of labor, materials, equipment, or services furnished by others, methods of determining prices, or competitive bidding or market conditions, any opinions rendered as to costs, including but not limited to opinions as to the costs of construction and materials, shall be made on the basis of its experience and represent its judgment as an experienced and qualified professional, familiar with the industry. The Consultant cannot and does not guarantee that proposals, bids, or actual costs will not vary from its opinions of cost. Escalation factors may be added based on desired design and construction timeline.

3.2 Meetings

The Consultant will attend up to three (3) virtual meetings during this task.

TASK 4 - Rough Order of Magnitude (ROM) Development

4.1 ROM Development

Based upon any final public and City comments - the Consultant will finalize the analysis of the economic impact of the facilities to the Parks and Recreation Department. In this segment of the study the following will be researched, analyzed, and reported and developed:

A. An opinion of probable costs based on approved concept.

B. Identification of lifecycle renewal and replacement expenses.

C. Required staff estimates (positions needed, as labor costs may vary).

1. PERFORMANCE: The Contractor shall well and faithfully observe, perform, fulfill, and abide by each and every covenant, condition, and part of said Contract and Contract Documents, by reference made a part hereof, for the project, and shall indemnify and save harmless the Owner from all outlay and expense incurred by the Owner by reason of the Contractor's default of failure to perform as required. The Contractor shall also be responsible for the default or failure to perform as required under the Contract and Contract Documents by all its subcontractors, suppliers, agents, or employees furnishing materials or providing labor in the performance of the Contract.

2. PAYMENT: The Contractor and the Surety on this Bond hereby agreed to pay all just claims submitted by persons, firms, subcontractors, and corporations furnishing materials for or performing labor in the performance of the Contract on account of which this Bond is given, including but not limited to claims for all amounts due for labor, materials, lubricants, oil, gasoline, repairs on machinery, equipment, and tools, consumed or used by the Contractor or any subcontractor, wherein the same are not satisfied out of the portion of the contract price the Owner is required to retain until completion of the improvement, but the Contractor and Surety shall not be liable to said persons, firms, or corporations unless the claims of said

3. MAINTENANCE: The Contractor and the Surety on this Bond hereby agree, at their own expense:

   A. To remedy any and all defects that may develop in or result from work to be performed under the Contract Documents within the period of **two (2) year(s)** from the date of acceptance of the work under the Contract, by reason of defects in workmanship, equipment installed, or materials used in construction of said work;

   B. To keep all work in continuous good repair; and

   A. To consent without notice to any extension of time authorized in approved change orders to the Contractor in which to perform the Contract.

   B.    D. That no provision of this Bond or of any other contract shall be valid that limits to less than five (5) years after the acceptance of the work under the Contract the right to sue on this Bond.

E. That as used herein, the phrase "all outlay and expense" is not to be limited in any way but shall include the actual and reasonable costs and expenses incurred by the Owner including interest, benefits, and overhead where applicable. All rights, powers, and remedies of the Owner hereunder shall be cumulative and not alternative and shall be in addition to all rights, powers, and remedies given to the Owner, by law. The Owner may proceed against surety for any amount guaranteed hereunder whether action is brought against the Contractor or whether Contractor is joined in any such action(s) or not.

NOW THEREFORE, the condition of this obligation is such that if said Principal shall faithfully perform all the promises of the Principal, as set forth and provided in the Contract, in the Contract Documents, and in this Bond, then this obligation shall be null and void, otherwise it shall remain in full force and effect.

When a work, term, or phrase is used in this Bond, it shall be interpreted or construed first as defined in this Bond, the Contract, or the Contract Documents; second, if not defined in the Bond, Contract, or Contract Documents, it shall be interpreted or construed as defined in applicable provisions of the Iowa Code; third, if not defined in the Iowa Code, it shall be interpreted or construed according to its generally accepted meaning in the construction industry; and fourth, if it has no generally accepted meaning in the construction industry, it shall be interpreted or construed according to its common or customary usage.

Failure to specify or particularize shall not exclude terms or provisions not mentioned and shall not limit liability hereunder. The Contract and Contract Documents are hereby made a part of this Bond.

PERFORMANCE, PAYMENT AND MAINTENANCE BOND

SECTION 00600

KNOW ALL BY THESE PRESENTS:

That we, Midwest Concrete, Inc., as Principal (hereinafter the "Contractor" or "Principal") and West Bend Insurance Company, as Surety are held and firmly bound unto the City of Dubuque, Iowa, as Obligee (hereinafter referred to as "Owner"), and to all persons who may be injured by any breach of any of the conditions of this Bond in the penal sum of eighty-seven thousand, one hundred three dollars and zero cents ($87,103.00), lawful money of the United States, for the payment of which sum, well and truly to be made, we bind ourselves, our heirs, legal representatives and assigns, jointly or severally, firmly by these presents.

The conditions of the above obligations are such that whereas said Contractor entered into a contract with the Owner, bearing date the 20th day of March, 2026, (hereinafter the "Contract") wherein said Contractor undertakes and agrees to construct the following project in accordance with the Contract Documents, and to faithfully perform all the terms and requirements of said Contract within the time therein specified, in a good and workmanlike manner, and in accordance with the Contract Documents. The Contract Documents for 2026 PUBLIC WORKS ASPHALT OVERLAY PROGRAM, SIDEWALK CURB RAMP PROJECT - BID PACKAGE 2 detail the following described improvements:

> The scope of the Project is as follows: all labor, equipment, and materials to install 10 ADA accessible curb ramps along University Ave. from Pennsylvania Ave. to Loras Blvd. In relation to the curb ramp work, adjacent pavement, sidewalk and landscape restoration work are included with the project.

It is expressly understood and agreed by the Contractor and Surety in this Bond that the following provisions are a part of this Bond and are binding upon said Contractor and Surety, to-wit:

1. PERFORMANCE: The Contractor shall well and faithfully observe, perform, fulfill, and abide by each and every covenant, condition, and part of said Contract and Contract Documents, by reference made a part hereof, for the project, and shall indemnify and save harmless the Owner from all outlay and expense incurred by the Owner by reason of the Contractor's default of failure to perform as required. The Contractor shall also be responsible for the default or failure to perform as required under the Contract and Contract Documents by all its subcontractors, suppliers, agents, or employees furnishing materials or providing labor in the performance of the Contract.

2. PAYMENT: The Contractor and the Surety on this Bond hereby agreed to pay all just claims submitted by persons, firms, subcontractors, and corporations furnishing materials for or performing labor in the performance of the Contract on account of which this Bond is given, including but not limited to claims for all amounts due for labor, materials, lubricants, oil, gasoline, repairs on machinery, equipment, and tools, consumed or used by the Contractor or any subcontractor, wherein the same are not satisfied out of the portion of the contract price the Owner is required to retain until completion of the improvement, but the Contractor and Surety shall not be liable to said persons, firms, or corporations unless the claims of said claimants against said portion of the contract price shall have been established as provided

by law. The Contractor and Surety hereby bind themselves to the obligations and conditions set forth in Chapter 573 of the Iowa Code, which by this reference is made a part hereof as though fully set out herein.

3. MAINTENANCE: The Contractor and the Surety on this Bond hereby agree, at their own expense:

   A. To remedy any and all defects that may develop in or result from work to be performed under the Contract Documents within the period of **two (2) year(s)** from the date of acceptance of the work under the Contract, by reason of defects in workmanship, equipment installed, or materials used in construction of said work;

   B. To keep all work in continuous good repair; and

   C. To pay the Owner's reasonable costs of monitoring and inspection to assure that any defects are remedied, and to repay the Owner all outlay and expense incurred as a result of Contractor's and Surety's failure to remedy any defect as required by this section.

   Contractor's and Surety's Contract herein made extends to defects in workmanship or materials not discovered or known to the Owner at the time such work was accepted.

4. GENERAL: Every Surety on this Bond shall be deemed and held bound, any contract to the contrary notwithstanding, to the following provisions:

   A. To consent without notice to any extension of time authorized in approved change orders to the Contractor in which to perform the Contract.

   B. To consent without notice to any change in the Contract or Contract Documents, authorized in approved change orders which thereby increases the total contract price and the penal sum of this Bond, provided that all such changes do not, in the aggregate, involve an increase of more than twenty percent (20%) of the total contract price, and that this Bond shall then be released as to such excess increase.

   C. To consent without notice that this Bond shall remain in full force and effect until the Contract is completed, whether completed within the specified contract period, within an extension thereof, or within a period of time after the contract period has elapsed and the liquidated damage penalty is being charged against the Contractor.

The Contractor and every Surety on the Bond shall be deemed and held bound, any contract to the contrary notwithstanding, to the following provisions:

   D. That no provision of this Bond or of any other contract shall be valid that limits to less than five (5) years after the acceptance of the work under the Contract the right to sue on this Bond.

E. That as used herein, the phrase "all outlay and expense" is not to be limited in any way but shall include the actual and reasonable costs and expenses incurred by the Owner including interest, benefits, and overhead where applicable. Accordingly, "all outlay and expense" would include but not be limited to all contract or employee expense, all equipment usage or rental, materials, testing, outside experts, attorney's fees (including overhead expenses of the Owner's staff attorneys), and all costs and expenses of litigation as they are incurred by the Owner. It is intended the Contractor and Surety will defend and indemnify the Owner on all claims made against the Owner on account of Contractor's failure to perform as required in the Contract and Contract Documents, that all agreements and promises set forth in the Contract and Contract Documents, in approved change orders, and in this Bond will be fulfilled, and that the Owner will be fully indemnified so that it will be put into the position it would have been in had the Contract been performed in the first instance as required.

In the event the Owner incurs any "outlay and expense" in defending itself against any claim as to which the Contractor or Surety should have provided the defense, or in the enforcement of the promises given by the Contractor in the Contract, Contract Documents, or approved change orders, or in the enforcement of the promises given by the Contractor and Surety in this Bond, the Contractor and Surety agree that they will make the Owner whole for all such outlay and expense, provided that the Surety's obligation under this Bond shall not exceed one hundred twenty-five percent (125%) of the penal sum of this Bond.

In the event that any actions or proceedings are initiated regarding this Bond, the parties agree that the venue thereof shall be Dubuque County, State of Iowa. If legal action is required by the Owner to enforce the provisions of this Bond or to collect the monetary obligation incurring to the benefit of the Owner, the Contractor and the Surety agree, jointly, and severally, to pay the Owner all outlay and expense incurred therefor by the Owner. All rights, powers, and remedies of the Owner hereunder shall be cumulative and not alternative and shall be in addition to all rights, powers, and remedies given to the Owner, by law. The Owner may proceed against surety for any amount guaranteed hereunder whether action is brought against the Contractor or whether Contractor is joined in any such action(s) or not.

NOW THEREFORE, the condition of this obligation is such that if said Principal shall faithfully perform all the promises of the Principal, as set forth and provided in the Contract, in the Contract Documents, and in this Bond, then this obligation shall be null and void, otherwise it shall remain in full force and effect.

When a work, term, or phrase is used in this Bond, it shall be interpreted or construed first as defined in this Bond, the Contract, or the Contract Documents; second, if not defined in the Bond, Contract, or Contract Documents, it shall be interpreted or construed as defined in applicable provisions of the Iowa Code; third, if not defined in the Iowa Code, it shall be interpreted or construed according to its generally accepted meaning in the construction industry; and fourth, if it has no generally accepted meaning in the construction industry, it shall be interpreted or construed according to its common or customary usage.

Failure to specify or particularize shall not exclude terms or provisions not mentioned and shall not limit liability hereunder. The Contract and Contract Documents are hereby made a part of this Bond.

DATE: March 30, 2026

INTRODUCTION

This memorandum presents for City Council consideration and action the attached resolution approving a First Amendment to Development Agreement by and between the City of Dubuque and FitzGerald EnterpriZes, LLC for the rehabilitation of 2400 Central Avenue.

BACKGROUND

The Downtown Rehabilitation Loan Program (DRLP) provides several incentives from the Economic Development department for the rehabilitation of historic buildings in our greater downtown.

This program has had a positive impact in the appearance and livability of our downtown, which leads to a more attractive business and residential environment. As such, the Economic Development Department finds these programs to be great tools for attracting and retaining a quality workforce for our businesses.

On May 5, 2025, the Dubuque City Council entered into a Development Agreement with FitzGerald EnterpriZes, LLC by Resolution No. 156-25. The Development Agreement included a housing creation grant in the amount of $30,000 and a 15-year tax increment financing incentive. The original agreement required an outside closing date of May 31, 2025 and the minimum improvements to the property be completed by December 31, 2025.

DISCUSSION

The rehabilitation of 2400 Central Avenue is progressing. However, unexpected building issues, increased material costs, and a tough financing market for development have pushed the project behind schedule. FitzGerald EnterpriZes, LLC has been in regular communication with our department on the status of the project throughout this rehabilitation process. FitzGerald EnterpriZes, LLC has requested an updated closing date of April 8, 2026 and an amended completion date of December 31, 2026. This will allow time for the project to be completed and properly inspected.

SUBJECT: CDBG Subrecipient Agreement – Crescent Community Health Center-Mobile Dental Unit

DATE: March 30, 2026

Introduction
The attached memorandum transmits the subrecipient agreement for Community Development Block Grant (CDBG) funds to assist Crescent Community Health Center with the acquisition of a Mobile Dental Unit.

Background
On Tuesday, March 24, Community Development Advisory Commission (CDAC) approved $413,119 in CDBG funding to support the acquisition of a mobile dental unit and the renovation and equipment for a dedicated imaging room. These additions will enable Crescent to better serve residents who face barriers to accessing care.

The attached CDBG Subrecipient Agreement pertains specifically to the acquisition of the Mobile Dental Unit. The total project budget for the Mobile Dental Unit is $398,098, including $234,976 from other funding sources, with $163,119 in CDBG funds serving as gap funding necessary to complete the project.

Discussion
Crescent Community Health Center is seeking CDBG support to expand service delivery and community outreach for oral health services. The mobile dental unit responds to persistent barriers to oral healthcare access, particularly lack of transportation and mobility limitations, which disproportionately affect seniors and individuals with disabilities.

Crescent's initial service plan focuses on establishing agreements with nursing homes and long-term care facilities to serve residents who have significant oral health needs but limited ability to travel to a dental clinic. The Mobile Dental Unit will improve access to care for these residents and expand Crescent's outreach capacity.

This activity meets the CDBG National Objective of Low- and Moderate-Income (LMI) clientele under the presumed benefit for elderly persons and qualifies as Eligible

Activity 03P – Health Facilities..

Recommendation
I respectfully request the City Council approve the attached CDBG Subrecipient Agreement with Crescent Community Health Center and authorize the Mayor to execute the agreement on behalf of the City.

Agencies that had total expenses of less than $150,000 on the audit for the most recently audited fiscal year and had no deficiencies or findings on that audit or subsequent monitoring visits may be eligible to submit an audit every other year subject to written approval from the City. This written approval, if granted, will be included in Exhibit D. Additionally, if the agency meets the thresholds established in 2 CFR Part 200, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards Subpart F the audit will be performed as a Single Audit. The subrecipient agrees to follow any other audit procedures as established by the City.
