SPECIAL SESSION

DOCUMENTS INCLUDED FOR REFERENCE

1. **Recommended Capital Improvement Program for Fiscal Years 2027 - 2031**

2. **Resident's Budget Guide**

BUDGET PRESENTATIONS

Residents are invited to address the City Council regarding the following agenda items. Please come to the podium and state your name and address when the item you wish to speak to is being considered.

1. **City Manager's Office Fiscal Year 2027 Budget Presentation**

2. **City Council Fiscal Year 2027 Budget Presentation**

3. **City Clerk's Office Fiscal Year 2027 Budget Presentation**

4. **City Attorney's Office Fiscal Year 2027 Budget Presentation**

ACTION ITEM

For this item, discussion is held by the City Council - public comments are not allowed except where authorized by the Mayor.

1. **Budget Items Identified for Separate Discussion**
   Discussion and possible direction regarding improvement packages, cash reserves, and any related budgetary items identified by a majority of the City Council for separate discussion.

2. **Civil Service Commission – Certified List for Police Chief**
   Civil Service Commission submitting the certified list for the position of Police Chief
   Suggested Disposition: Receive and File; Make Matter of Record

ADJOURNMENT

The agenda with supporting documents may be accessed at www.cityofdubuque.org or at the City Clerk's Office at ctyclerk@cityofdubuque.org or by mail to 50 W. 13th Street, during regular business hours.

This notice is given pursuant to Chapter 21, Code of Iowa, and applicable local regulations of the City of Dubuque, Iowa and/or governmental body holding the meeting.

Written comments regarding the above items may be submitted to the City Clerk's Office at ctyclerk@cityofdubuque.org or by mail to 50 W. 13th St., Dubuque, IA 52001, before said time of meeting.

Individuals requiring special assistance should contact the City Clerk's Office as soon as feasible at (563) 589-4100, ctyclerk@cityofdubuque.org. Deaf or hard-of-hearing individuals can use Relay Iowa by dialing 711 or (800) 735-2942.

Recommended for Fiscal Years

2027 - 2031

CITY OF DUBUQUE

CITY OF DUBUQUE, IOWA
Fiscal Year 2027-2031 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2027-2031 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 28, 2026, at the same time as the public hearing on the Fiscal Year 2027 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the $1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City was successful in obtaining several large grants and now will be implementing those projects, especially the Bee Branch Flood Mitigation Project, 16th Street Pumping Station, and the 14th Street Overpass project.

A particular emphasis in this five-year CIP is modernization of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond. In the current fiscal year (FY 2026), the City will have allocated $22,026,250 and in this new five-year CIP, the City will have allocated an additional $74,871,571 for a total of $96,897,821 from July 2025 through December 2031.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $221,888,207 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements , for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. The greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	$(13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58%
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Water Projects	$ —	$ 7,302,707	$ 11,563,870	$ 6,806,000	$ 2,055,000	$ 27,727,577
Total New Debt	**$ 26,579,333**	**$ 43,133,602**	**$ 45,254,925**	**$ 35,996,472**	**$ 25,669,405**	**$ 176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the change in debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	$ 26,579,333	$ 43,133,602	$ 45,254,925	$ 35,996,472	$ 25,669,405	$ 176,633,737
Retired Debt	-$25,371,787	-$28,057,116	-$29,480,446	-$30,454,045	-$28,910,190	-$142,273,584
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027**. In FY 16 the City was at 86.13% of statutory debt limit, so **33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The history of the City's use of the statutory debt limit is as follows:

FY15	FY16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
83.87%	86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	36.48%	35.85%	34.10%	35.58%

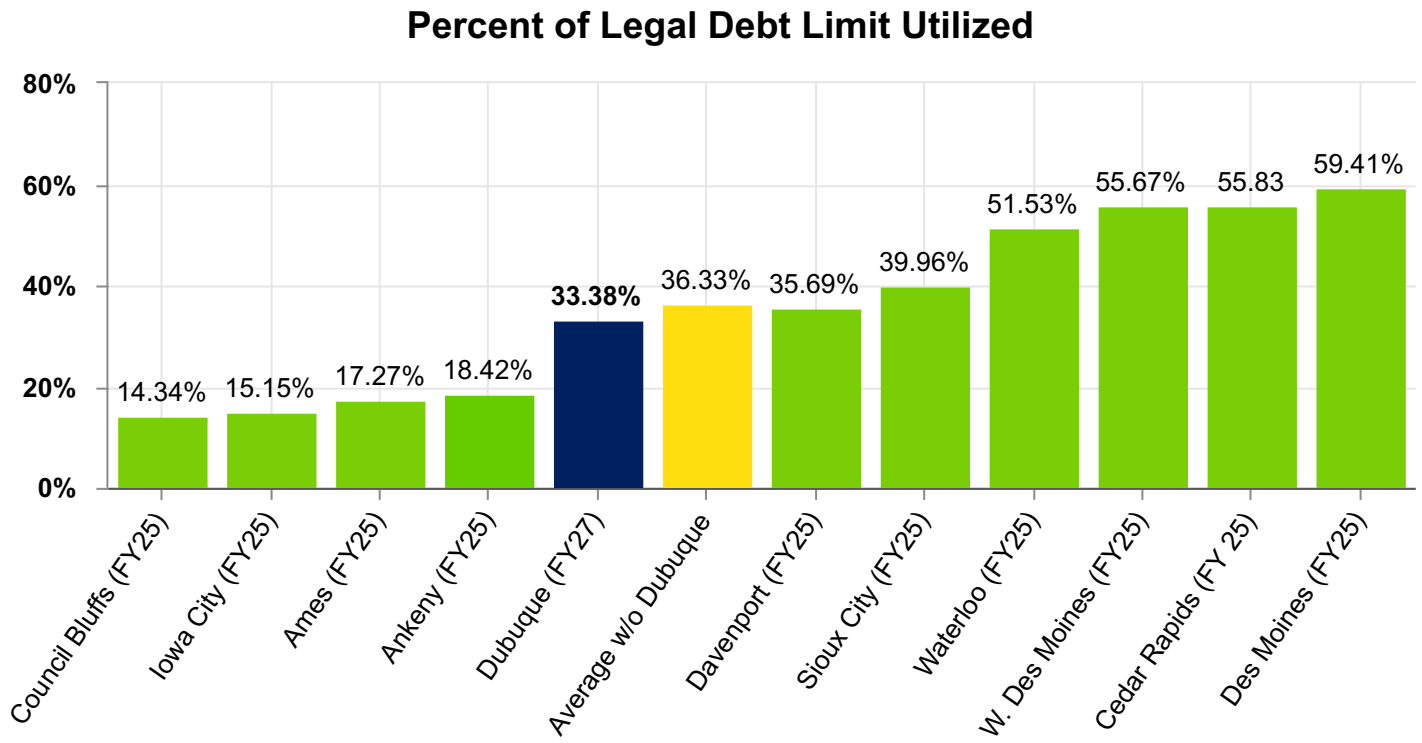

The five year projection of the City's use of the statutory debt limit from Fiscal Year 2027–2031 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2027 is as follows:

FY 27	FY 28	FY 29	FY 30	FY 31
33.38%	34.45%	34.96%	35.31%	35.59%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$ 964,798,967	$ 573,230,000	59.41 %

2	Iowa City (FY25)	$ 435,367,793	$ 65,945,000	15.15 %
1	Council Bluffs (FY25)	$ 427,559,692	$ 61,320,000	14.34 %
	Average w/o Dubuque			**36.33 %**

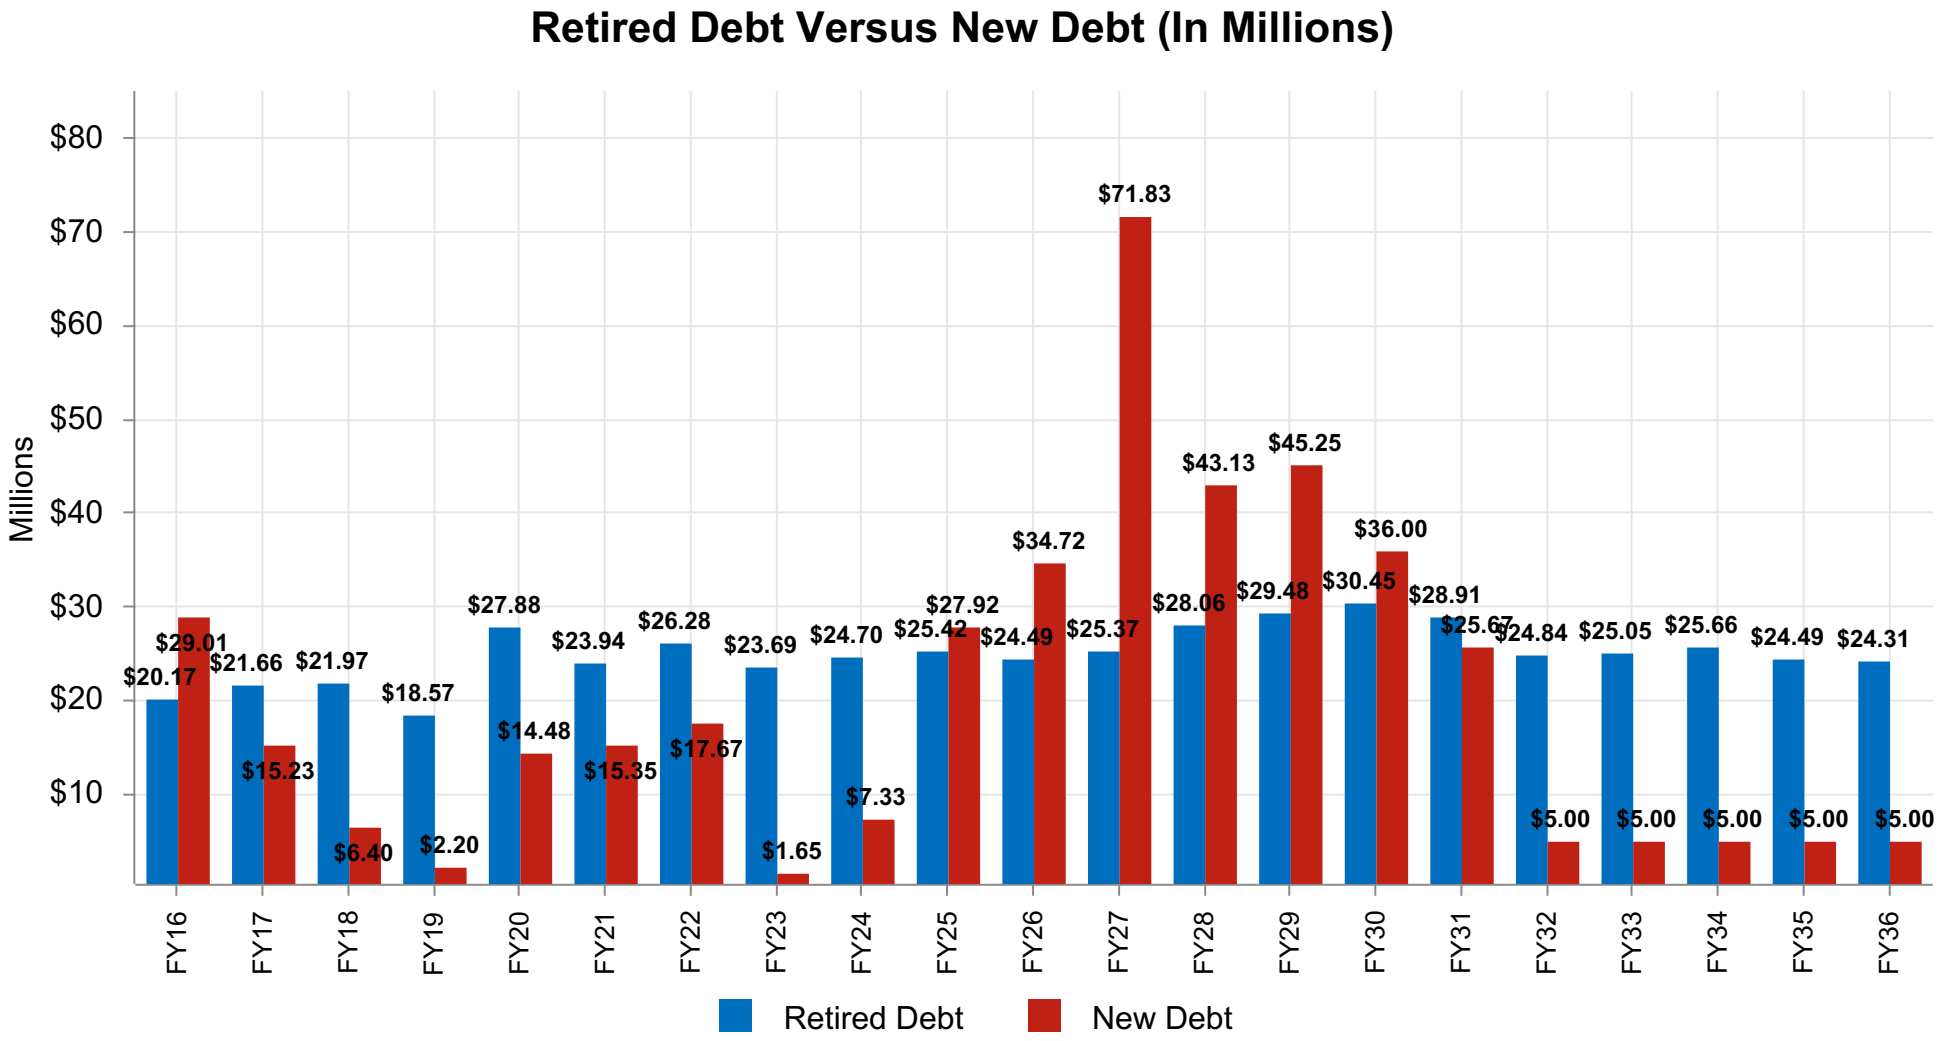

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities. **The average (36.33%) is 8.84% higher than Dubuque (33.38%).**

Retired Debt Versus New Debt

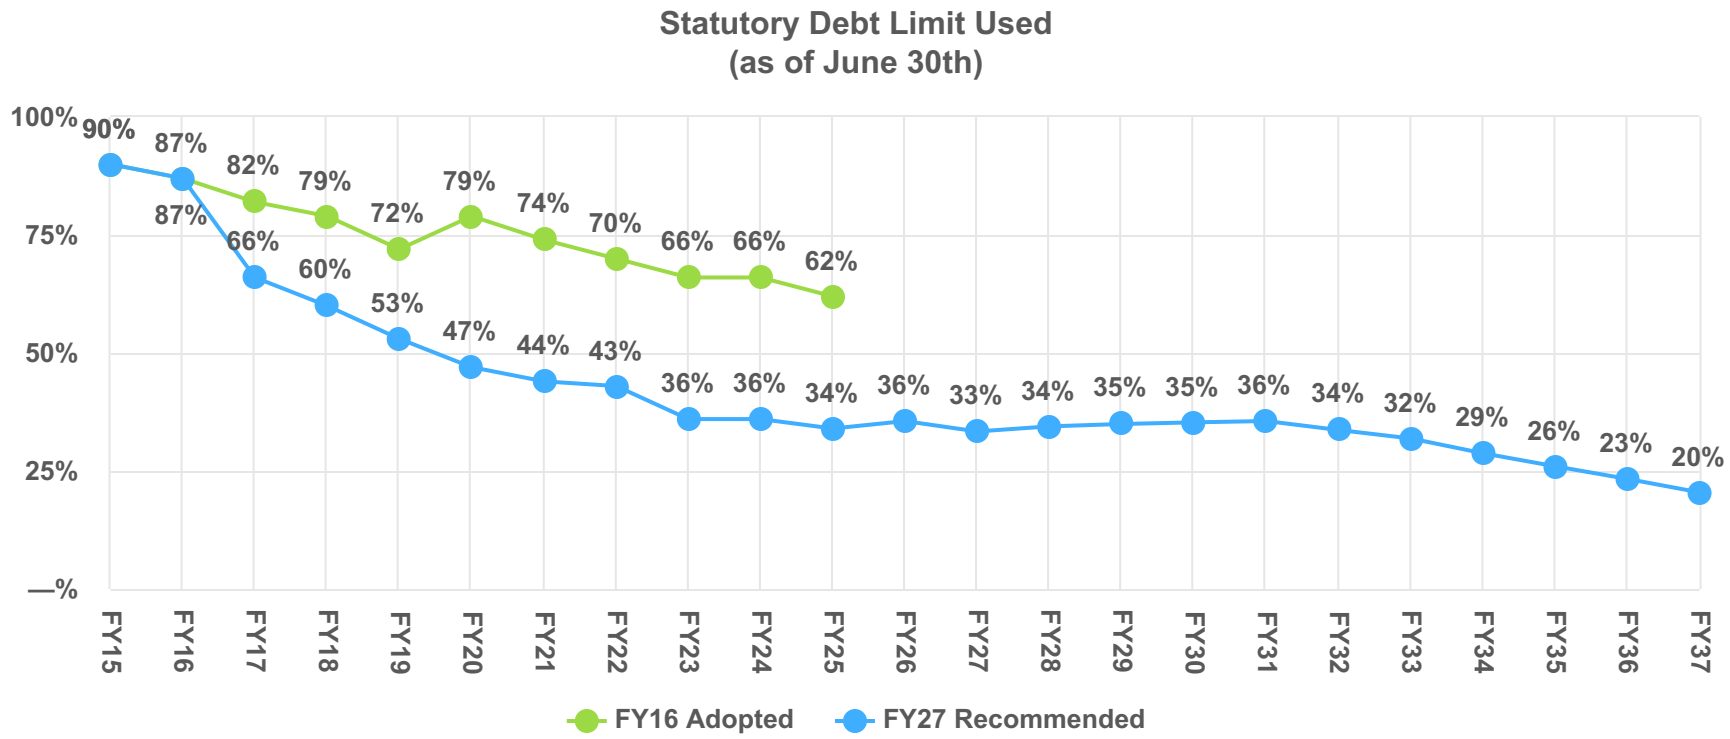

The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

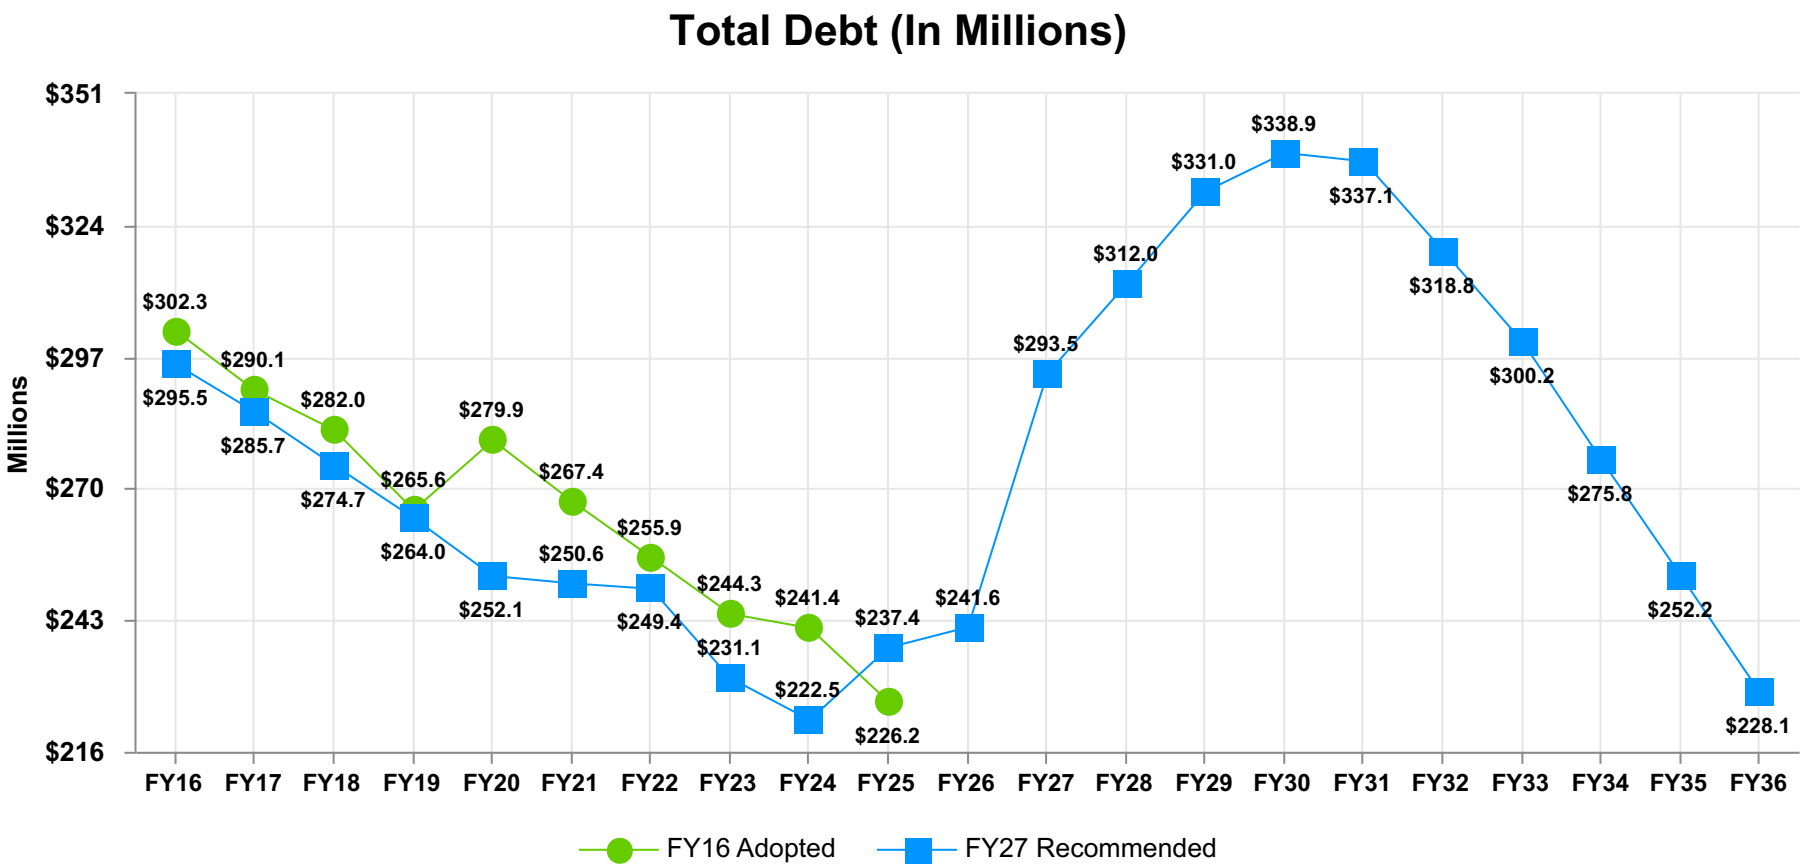

Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS mitigation, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements. However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit. Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit.** This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $337.15 million (35.59% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit or** $228.14 million total amount of debt.

General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 35% General Fund Operating Reserve for “AA” rated cities.

In January 2025, Moody’s Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody’s credit analysis states, “the City of Dubuque’s local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs.” According to Moody’s, the Aa2 issuer rating for the City of Dubuque’s bonds reflects the city’s healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody’s Investor Service upgraded the City’s outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody’s Investors Service (“Moodys”) released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio (“AFBR”) = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio (“LR”) = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

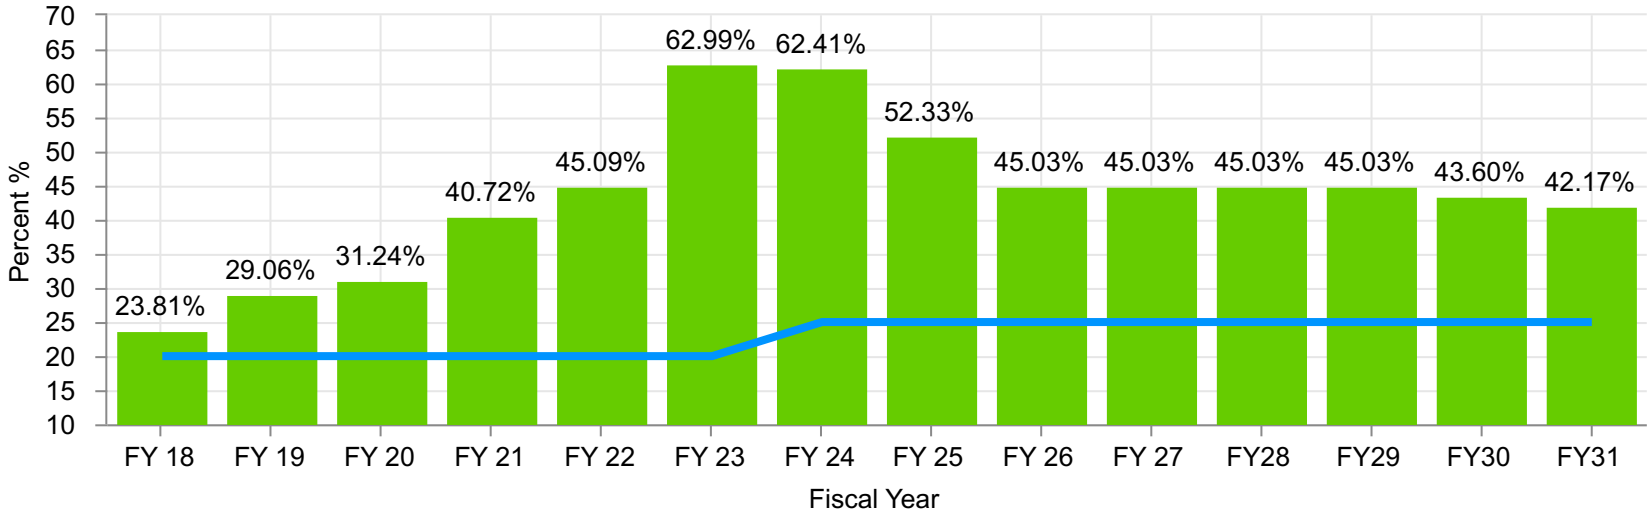

The City was evaluated by Moody’s under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody’s calculated the City’s AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City’s general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City’s ratings.

In May 2021, Moody’s Investor Service upgraded the City’s Water Enterprise’s outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	40.53%	52.33%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2026	27.00%	45.03%	Decrease due to spend down of American Rescue Plan Act funds.

Fund Reserve as a Percent of General Fund and Enterprise Fund Revenue
New Moody's Methodology

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve balance is projected to be $25,412,743 on June 30, 2026. The general fund reserve balance exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed on a cash basis. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031
Contribution	$4,419,668	$—	$—	$—	$—	$—	$—	$—
City's Spendable General Fund Cash Reserve Fund Balance	$43,826,193	$38,026,193	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743
% of Projected Revenue (Cash Basis)	51.19%	40.53%	27.00%	27.00%	27.00%	27.00%	27.00%	27.00%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low annual interest rate based on 75% of the average daily Bloomberg BVAL General Obligation Municipal AAA ("BVAL") for the calendar month immediately preceding the effective date. In addition there is an annual servicing fee of 0.25%**. The interest rate effective until March 31, 2026 is 3.15% with the 0.25% servicing fee included.

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes. This program no longer exists.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs were reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

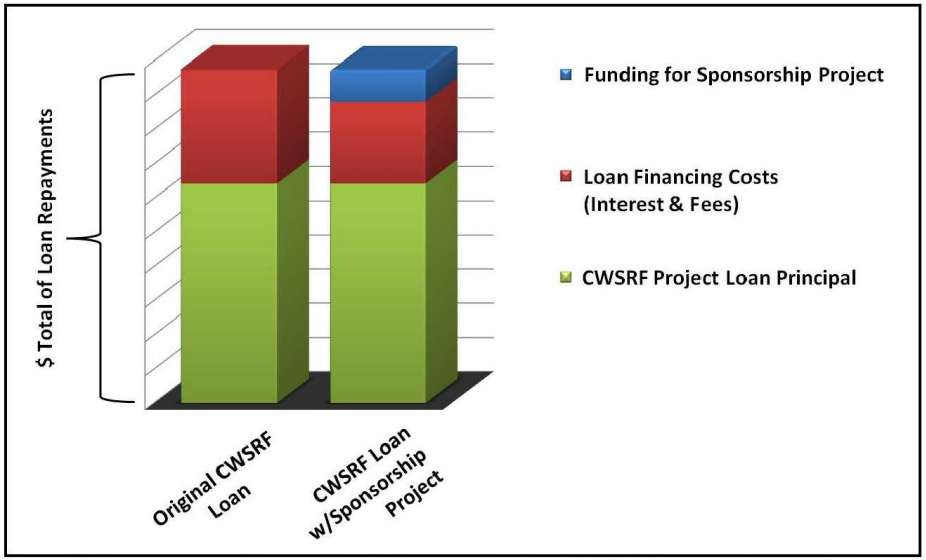

Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded $9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from $64,885,000 to $75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of $11.4 million. The State of Iowa has discontinued the sponsored project option for future debt issuances.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of $29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was $5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded $1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the $1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to $30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.38 million less than the original loan.**

In May 2018, the City was awarded $1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the $1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to $17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.05 million less than the original loan.**

In February 2019, the City was awarded $276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the $276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted**. On a gross basis, the borrowing costs for the new loan were $278,000 less than if there was not a sponsorship project included.**

The United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, requires all lead service lines to be removed from the system within a ten year period, effective November 1, 2027. Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. On

November 15, 2021, the Bipartisan Infrastructure Law (BIL) was signed by President Biden, which includes $50 billion to the Environmental Protection Agency (EPA) to strengthen the nation's drinking water and wastewater systems—the single largest investment in clean water that the federal government has ever made. The BIL funds are being administered locally through the Iowa Department of Natural Resources' State Revolving Fund (Iowa SRF) program, with 49% of construction costs being forgivable. The City of Dubuque is taking part in a unique opportunity to assist approximately 585 homes in three phases (owner occupied or rented) within the city with the functional replacement of private lead-water service lines by trenching or pull-through methods to prevent the potential for drinking water contamination at a house-by-house level. Phase 1 of the pilot program is 100% voluntary and is open to those residents with a verified drinking water lead service line meeting the socioeconomic guidelines established by the Bipartisan Infrastructure Law. In September 2025, the City was awarded a 0% interest State Revolving Fund Loan in the amount of $1,941,000 for the Private Lead Service Line Replacement Pilot Program - Phase 1. The non-premise related construction costs are 49% forgivable at the completion of Phase I.The scope of work in the first phase includes the replacement of approximately 200 lead service lines identified throughout the City's water distribution service area. The nature of the replacements will vary by site, ranging from full replacements (public water main to interior plumbing) to partial replacements (a portion of the service line between the public water main and the interior plumbing). Work will be conducted within the City's right-of-way and on private properties with authorization from property owners.

Phase 2 of the Private Lead Line Replacement Program will be voluntary enrollment with a target of approximately 67 lead service lines replaced each year. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced.he city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. Phase 3 of the Private Lead Line Replacement Program will be mandatory with an estimated 605 lead service lines replaced annually. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

In March 2026, the State of Iowa passed rules possibly allowing the City of Dubuque to obtain some forgivable SRF loan dollars to do PFAS related projects.

The five-year CIP adopted through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and will be $352,840,562. This is a $1,246,009 (0.35%) increase.

FY 2026-2030 Capital Improvement Program (CIP) compared to the FY 2027-2031 Capital Improvement Program is as follows:

	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
FY26 CIP	$91,803,749	$64,823,518	$69,843,768	$74,478,605	$50,644,913	—	$351,594,553
FY27 CIP	—	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$352,840,562
$ Difference	—	+$15,810,220	+$8,840,154	+$12,693,285	+$10,980,084	—	$1,246,009
% Change	—	+24.39%	+12.66%	+17.04%	+21.68%	—	0.35%

Further information about the changes to capital improvement projects can be found on pages xxii-xxxv.

Fiscal Year 2027 will be the twentieth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

The Stormwater Utility was formed on July 1, 2003, to update and expand the City’s aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. T**he City’s has been able to garner support from local, state, and**

federal partners with over $169 million in outside funding to help offset the cost of the overall $250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Construction
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12A	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.
12B	17th Street / W. Locust Street Reconstruction	Complete Design in ‘26, Construct in ‘27

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated $582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the **Dubuque Five-Year (2025-2027) City Council Goals and 2025-2027 Policy Agenda, established by the City Council August, 2025.**

Dubuque Five-Year City Council Goals

Healthy and Safe Community
Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity
Livable Neighborhoods and Housing: Great Place to Live
Sustainable Environment: Preserving and Enhancing Natural Resources
Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility
Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Policy Agenda 2025 - 2027

Top Priority (in alphabetical order)

- Commercial Air Service Future: Strategy an Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priority

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2027 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2027-2031 CIP is substantially the same as previous fiscal years. First, an index referencing the 2027-2031 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2025 and the adopted budget in Fiscal Year 2026. In Section A of the project form entitled “Expenditure Items”, project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled “Project Financing”, the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled “Impact – Operations,” the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2032". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2032" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2031." If a project is annual, the "2032" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque's commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2028 through Fiscal Year 2031 projects, as well as to add projects for Fiscal Year 2032.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available.

Notable FY2027 Capital Improvement Projects

Department	Project Title	Total City Investment FY2027-FY2031	Page
Fire	Outdoor Warning Siren Repair/Replace	$54,000	5
Fire	Fire Station Expansion	$8,791,700	6
Fire	2027 Ambulance Replacement (1914)	$500,000	9
Fire	Portable Radio Replacements	$490,000	12
Fire	2030 Fire Engine Replacement (1910)	$1,288,408	13
Fire	2030 Ambulance Replacement (1915)	$635,000	14
Fire	2031 Ambulance Replacement (130010)	$665,000	15
Parks	Jeffris Grant	$2,060,394	22
Civic Center	Five Flags Building Improvements	$5,844,678	29
Conference Center	Roof Restoration	$1,383,000	44
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000	48
Water	Admiral Sheehy Drive Water Main Loop	$686,400	49
Water	Central Ave Booster Station	$1,020,000	50

City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000	358
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759	368
Information Technology	Network Switch Replacement	$607,500	364
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906	372

There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs ($87,131,865). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	DLEC Upgrades and Maintenance	$ 208,300
Fire	Install HVAC Systems at Fire Station 5 and 6	$ 100,000
Parks	Chaplain Schmitt Island Environmental Restoration	$ 430,000
Parks	Eagle Point Park / Jeffris Grant	$ 2,060,394
Parks	Eagle Point Park Master Plan	$ 165,000
Parks	Park Office - Replace Roof	$ 12,000
Parks	Trail Maintenance/Repair	$ 100,000
Parks	Mechanic Shop-Replace Roof	$ 35,000
Recreation	Community Center Master Plan	$ 80,000
Recreation	Bunker Hill Administrative Office Lead Remediation Project	$ 30,000
Recreation	Bunker Hill Basement Leak Repair and Planter Box Removal	$ 30,000
Recreation	F&S Site Repair/Replacement-Leak Repair	$ 30,000
Recreation	Marina-Dock Fuel & Electrical System	$ 50,000
Conference Center	HVAC System Evaluation	$ 35,000
Water	8th St 20" Transmission Water Main Connection (Jackson to Central)	$ 277,000
Water	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water	$ 1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$ 686,400
Water	Central Avenue Booster Station	$ 1,020,000
Water	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	$ 245,000
Water	Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection)	$ 965,000
Water	Water Distribution System Master Plan	$ 200,000
Water	Distribution System Regulatory Monitoring/Flushing Stations	$ 150,000
Water	Water District Metered Zone (DMZ) Pilot	$ 180,000
Water	Eagle Point Water Treatment Plant Lime Sludge Drain Sediment Trap - Water	$ 50,000
Water	Eagle Point Water Treatment Plant Railroad Building Study	$ 20,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$ 205,000
Water	Grove Terrace Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 130,000

Department	New Project	Total CIP
Water	Harvard St Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 140,000
Water	Hempstead St Sanitary Sewer Reconstruction (Consent Decree) - Water	$ 320,000
Water	Hwy 20/Dodge St Water Main Relocation - Devon Drive to Concord St	$ 1,000,000
Water	Water Distribution System Hydraulic Modeling	$ 50,000
Water	JFK Tower Interior Piping and Expansion Joint Replacement	$ 50,000
Water	Leak Detection Survey	$ 130,000
Water	North Grandview Ave Water Repairs	$ 80,000
Water	Water Main Extension Olympic Heights Rd (Pressure Zone 3 and 5 Connection)	$ 617,000
Water	Water Main Extension Pennsylvania Ave (Annex Agreement WM A)	$ 545,000
Water	Private Lead Service Line Replacement Program (City-Wide)	$ 4,050,000
Water	Rockdale Road Reconstruction (Old Mill to Twin Valley Drive) - Water	$ 400,000
Water	Water Main Extension Seippel Rd and Pennsylvania Ave (Annex Agreement WM B)	$ 585,000
Water	Source Water PFAS Reduction Project-Granular Activated Carbon Filter Rehabilitation	$ 10,900,000
Water	South Algona 12" Water Main Replacement (St Joseph to Lombard St)	$ 793,000
Water	Water Repairs Sunnyslope Street Project	$ 390,000
Water	Water Main Replacement W 8th St (Bluff St to Hill St)	$ 395,000
Water	Safety Equipment for Water Distribution Staff	$ 57,600
Water	Water Treatment Plant South Plan Flow Meter Replacement	$ 60,000
Water	Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Extension	$ 2,475,000
Water & Resource Recovery Center	WRRC Compressed Air System Improvements	$ 69,500
Water & Resource Recovery Center	Process Control Instrumentation Improvements - Dissolved Oxygen Monitoring	$ 135,000
Water & Resource Recovery Center	WRRC Influent and Effluent Monitoring Improvements	$ 40,000
Water & Resource Recovery Center	WRRC Treatment System Infrastructure Restoration and Reliability Improvements	$ 2,047,550
Water & Resource Recovery Center	WRRC Safety Program Development	$ 106,000
Airport	Taxiway D Extension (formerly Taxiway H)	$ 2,940,000

Department	New Project	Total CIP
Airport	Taxiway J Improvements	$ 7,145,600
Public Works	Tri-top Catch Basin Replacement Project	$ 335,162
Public Works	Municipal Services Center Access System Replacement	$ 85,000
Public Works	Municipal Services Center Fleet Maintenance Bay Extension	$ 100,000
Public Works	NW Arterial Shoulder Paving Project	$ 2,311,247
Public Works	Hawthorne Street Boat Ramp Repair	$ 407,532
Public Works	3255 - Wheel Loader Purchase	$ 305,865
Public Works	2730 - Portable Jet	$ 50,000
Public Works	Mechanical Sweeper Replacement	$ 290,466
Public Works	New CCTV Camera	$ 40,000
Public Works	2727-Off-Road Vehicle	$ 25,000
Public Works	Off Road Vehicle CCTV Slide-in Unit	$ 145,000
Public Works	Fleet Service Sweeper	$ 25,000
Landfill	Landfill Permit Renewal Project	$ 55,204
Landfill	Landfill Website Redesign Project	$ 20,000
Landfill	Landfill Alternative Energy Project	$ 50,000
Landfill	3C Wheel Loader	$ 275,000
Landfill	Sweeper	$ 95,000
Landfill	Brush Mower	$ 15,000
Landfill	3451 Hook Truck	$ 335,223
Landfill	Water Truck	$ 200,000
Engineering	Confined Space Drone	$ 100,000
Engineering	General Stormwater Detention Basin Maintenance & Repair	$ 1,000,000
Engineering	Schmitt Island Stormwater Rehabilitation	$ 450,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater	$ 5,300,000
Engineering	North Catfish Creek Trail Stabilization	$ 500,000
Engineering	Pebble Cove Drainage Basin Improvements	$ 240,000
Engineering	Harvest View Storm Sewer Improvements	$ 320,000
Engineering	Primrose Court Storm Sewer Repair	$ 120,000
Engineering	Manhole Inspection Equipment (2 Cameras)	$ 28,000
Engineering	Kerper Boulevard Sanitary Sediment Trap	$ 80,000

Department	New Project	Total CIP
Engineering	JFK Yiannias Place Sanitary Sewer Relocation	$ 550,000
Engineering	Key West Sanitary Lift Station Replacement	$ 1,535,000
Engineering	Sanitary Basin Analysis - Steger Heights Area (SSAMP Service Area 3-8-1-1)	$ 1,540,000
Engineering	Sanitary Basin Analysis - Quigley's Sub Area (SSAMP Service Area 3-8-0-1B-1)	$ 1,520,000
Engineering	Sanitary Basin Analysis - South Port & Terminal St LS	$ 10,800,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary	$ 1,100,000
Engineering	US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements, Iowa Department of Transportation	$ 6,000,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street	$ 4,765,000
Engineering	Port of Dubuque Streets Extension	$ 100,000
Engineering	Safe Routes to School	$ 120,000
Engineering	NW Arterial Trail Drainage	$ 150,000
Engineering	Pedestrian Safety with Permanent Bollards/Barricades	$ 152,000
Engineering	Way finding Signage	$ 40,000
Engineering	Chavenelle Street Light Replacement Project	$ 182,850
Engineering	Iowa St Streetlight Replacement Project	$ 138,000
Engineering	City Hall - Radon Mitigation System	$ 161,000
Economic Development	Downtown Storefront Activation Program	$ 400,000
Planning	Downtown Master Plan Update	$ 150,000
City Manager's Office	Municipal Solar Project - MFC	$ 176,300
City Manager's Office	Municipal Solar Project - Library	$ 122,672
	TOTAL	**$ 87,131,865**

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total $8,619,951. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP
Fire	Fire Department Bunk Room Remodel(s)	$ 1,489,918
Parks	Eagle Point Park - Riverfront Pavilion Restoration	$ 230,000
Parks	All Parks - Renovate Water Systems	$ 57,000
Parks	Eagle Point Park - Restroom Renovation	$ 124,900
Parks	Eagle Point Park - Stone Work	$ 105,000
Parks	Eagle Point Park - Renovate Log Cabin	$ 60,000
Recreation	Sutton Pool Zero Depth Survey & Remediation	$ 60,000
Conference Center	Banquet Chair Replacement	$ 313,500
Conference Center	Paint Exterior Metal	$ 132,000
Conference Center	Concrete Restoration, Raising & Caulk	$ 240,000
Conference Center	Replace Fabric Wall Covering	$ 227,000
Conference Center	Replace Carpet	$ 485,000
Library	Library Landscaping and Plaza Redesign	$ 103,601
Water & Resource Recovery Center	High Strength Waste Receiving and Storage	$ 939,984
Engineering	Pine Street Extension from 7th to 9th	$ 1,980,000
Engineering	Decorative Concrete Maintenance Program	$ 300,000
Engineering	Hillcrest Road Sidewalk	$ 250,000
Engineering	Port of Dubuque Security Camera Expansion	$ 60,000
Engineering	City Facility Integrated Access Control and Security System Upgrade	$ 270,126
Engineering	City Hall Landscape Enhancement Project	$ 29,500
Housing & Community Development	Washington Neighborhood Homebuyer Program	$ 952,422
Planning	Historic Preservation Technical Assistance Program	$ 110,000
City Manager's Office	Municipal Energy Reinvestment Fund	$ 20,000
City Manager's Office	Renew DBQ: Low-Income Solar Pilot Project	$ 80,000
	Total	**$ 8,619,951**

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP ($67,599,429). CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP
Police	Rescue Vehicle	$451,829
Fire	Fire Department Dock/Boathouse	$450,000
Fire	Update Hendrix Storage Building 880 Central (LOT 1024482020)	$510,000
Fire	Kitchen Remodel at Fire Station 2	$187,500
Parks	Pebble Cove Park Development	$360,000
Parks	Second Dog Park Planning	$60,000
Parks	Ham House Improvements	$90,000
Parks	Murphy Park-Bennett Pavilion Roof Replacement	$165,000
Parks	Hillcrest Park - Replace Play Unit	$225,000
Parks	Allison Henderson - Replace Roof	$20,000
Parks	EB Lyons Carpet Replacement	$85,000
Parks	Silver Oaks Park Development	$320,000
Parks	Ecological Restoration	$50,000
Parks	EB Lyons Center - Stain, Patio, Ridge Beam	$170,000
Parks	Chaplain Schmitt Island-Landscaping	$50,000
Parks	Chaplain Schmitt Island-Entrance Sign	$72,500
Parks	Flora Park-Tennis Courts Replace Lights/ADA Access	$225,000
Parks	Ham House Exterior Repairs	$135,000
Parks	Hilltop Park - Replace Play Unit	$221,000
Parks	Marshall Park - Replace Play Unit	$230,000
Parks	Teddy Bear Park - Play Equipment	$205,000
Parks	Paint Railings	$60,000
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	$83,000
Parks	North Fork Trail Park Development	$305,000
Parks	Eagle Point Park - Accessible Walkway to the Log Cabin Pavilion	$405,000
Parks	Eagle Point Park Trail Project- Invasive Remediation	$93,000
Parks	Eagle Point Park - Light Trolley Line Trail	$165,000
Parks	Eagle Point Park - Native American Room Restoration	$122,000

Department	New Project Not Funded	Total CIP
Parks	Eagle Point Park - Develop Wading Pool Replacement Plans	$440,000
Parks	Valley High Park - Replace Play Unit	$210,000
Parks	Pinard Park-Replace Playground	$194,000
Parks	Linwood Cemetery- Assessment	$110,000
Parks	Pave Parking Lots	$95,000
Parks	Murphy Park - Replace Roof on Rest Room Building by the Tennis Courts	$17,000
Parks	EPP-Replace Roof on Eagles View Pavilion	$56,000
Parks	Greenhouse Shop Roof Replacement	$75,000
Parks	Forestry Building - Replace Roof	$87,000
Parks	HWY 20 Trees/Invasive Removal	$55,000
Parks	Chaplain Schmitt Island Campground Entrance Enhancement	$52,500
Parks	EB Lyons Center - Roof Rehabilitation	$60,000
Parks	Comprehensive Street Tree Inventory	$250,000
Parks	Network Switches - Parks	$25,000
Parks	HVAC Upgrade - Greenhouse	$15,000
Parks	HVAC Upgrade - Forestry	$25,000
Parks	Mini Track Loader	$58,000
Parks	Park Signage Study	$55,000
Parks	Trail Connection Study	$60,000
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement - Shade Structures	$125,000
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement-Diving Boards	$70,000
Recreation	Flora and Sutton Swimming Pools Renovate Locker Rooms	$726,000
Recreation	Flora and Sutton Swimming Pools Water Playground Replacements	$315,000
Recreation	Flora & Sutton Pool Operational Projects - Electrical	$50,000
Recreation	F&S Pool Operations - UV Replacement	$85,000
Recreation	F&S Pool Operations - Chemical Distribution System Replacement	$60,000

Department	New Project Not Funded	Total CIP
Recreation	F&S Pool Operations - Water Slide Pump Replacements	$85,000
Recreation	Bunker Hill Golf Course - Range Project	$230,000
Recreation	Bunker - Sand Trap Repair/Removal	$50,000
Recreation	Port of Dubuque - Signage Replacement	$20,000
Recreation	Comiskey Building Restroom Expansion	$112,500
Recreation	McAleece Irrigation Renovation	$100,000
Recreation	Marina Dock Pedestal Replacements	$75,000
Recreation	Marina Gas Dock Fuel Tank Monitoring System Replacement	$19,000
Recreation	McAleece Scoreboard Replacements	$36,000
Recreation	McAleece Softball Field Repair	$54,000
Recreation	Flora & Sutton Pool Water Slide Complete Restoration	$470,000
Recreation	Mobile Special Event Trailer	$37,000
Recreation	Parks & Recreation Fee Study	$35,000
Conference Center	Security Camera System	$175,000
Conference Center	Furniture and Decor Replacement	$84,000
Conference Center	Wi-Fi Upgrades	$99,000
Conference Center	Access Control System	$55,000
Conference Center	Elevator Passenger and Freight Car Replacement	$267,500
Conference Center	AV Rental Upgrades	$32,500
Conference Center	Trash Compactor Rehab	$38,000
Conference Center	Window Panel Replacements	$20,300
Ice Center	Security Camera System Replacement	$216,000
Ice Center	Ice Resurfacer Refurbish	$62,500
Ice Center	Locker Room Ventilation Replacement	$429,050
Ice Center	ASME Storage Tank Replacement	$13,750
Ice Center	New Northwest Corner Service Bar	$271,000
Ice Center	TPO Roof Replacement	$191,500
Ice Center	Addition-New Women's Locker Room	$40,500
Library	Bookdrop Waterproofing	$59,740
Library	3rd Floor Mechanical Room Water Pipe Replacements	$140,195
Library	Refrigerant Leak Detection Upgrade	$21,360

Department	New Project Not Funded	Total CIP
Library	Rear Exterior Painting	$38,588
Library	Sidewalk Replacement Around Library	$113,191
Water	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Water	$2,400,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000
Airport	Terminal Apron Lighting Conversion	$43,000
Airport	Westside Airfield Development	$1,179,000
Airport	AFFF Transition Plan	$258,400
Public Works	Vacuum Street Sweeper Replacement	$361,613
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Stormwater	$10,605,000
Engineering	N Booth St Property Acquisition	$1,000,000
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Sanitary	$2,570,000
Engineering	N.Grandview - Kane to W. 32nd Reconstruction	$2,100,000
Engineering	Embassy West Dr. and Camelot Dr. Reconstruction	$1,800,000
Engineering	Sunnyslope Dr. and Hummingbird Dr. Reconstruction	$1,770,000
Engineering	N.Star Dr. - Long View Dr. - Angel View Dr. - Little Valley Dr. Reconstruction	$1,890,000
Engineering	Colonel Dr. - Camelot Dr. East of Embassy West Dr. Reconstruction	$1,940,000
Engineering	Pennsylvania Ave. Reconstruction - Sandpiper Ln. to Bergfeld Trail	$5,820,000
Engineering	Kerper Blvd Trail (12th - 16th)	$425,000
Engineering	Cedar Cross Road Reconstruction	$5,000,000
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Street	$10,070,000
Engineering	Mobility Improvements Implementation	$144,000
Engineering	Port of Dubuque Recognition Wall	$40,000
Engineering	City Hall First Floor Renovation	$588,138
Engineering	City Hall Annex Renovation	$993,775
Engineering	Traffic Center Aux Cooling	$15,000
Engineering	Old Engine House - Rock Fall Protection	$55,000
Engineering	City-wide Facilities Assessment	$110,000

Department	New Project Not Funded	Total CIP
Engineering	City Hall Elevator Modernization	$161,000
Economic Development	Arts & Culture Master Plan Update	$100,000
Economic Development	Greater Downtown Infill Housing Creation Grant Program	$2,500,000
Information Technology	Enterprise Firewall Replacement	$212,000
Information Technology	IT Office Security Alarm	$50,000
Information Technology	Data Center Second UPS	$350,000
Information Technology	Data Center Cabinet Card Access Controls	$65,000
Information Technology	Data Center Second Generator	$150,000
Information Technology	JOTC AV Equipment Replacement	$50,000
	Total	**$67,599,429**

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2027-2031 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer Jennifer Larson; Budget Manager Laura Bendorf; Budget/Financial Analysts Shannon Soppe, Nikesh Shah, and Nathan Kelleher; Assistant City Manager Cori Burbach, Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; Finance A/R & A/P Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

ATTACHMENTS – PROVIDE OVERVIEW OF THE FISCAL YEAR 2027-2031 CAPITAL IMPROVEMENT PROGRAM

Attachment 1

FISCAL YEARS 2027-2031 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2027	2028	2029	2030	2031	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	15,000	15,000	15,000	15,000	—	60,000	0.02 %
Homeownership Loan Repayments	5,000	5,000	5,000	5,000	—	20,000	0.01 %
Historic Preservation Loan Repayments	7,000	5,000	5,000	5,000	—	22,000	0.01 %
Washington Neighborhood Loan Repayments	30,000	30,000	30,000	30,000	30,000	150,000	0.04 %
Insurance and Other Reimbursements	10,000	10,000	10,000	10,000	10,000	50,000	0.01 %
Golf Revenue	40,000	10,000	—	—	—	50,000	0.01 %
Subtotal Current Revenue	**107,000**	**75,000**	**65,000**	**65,000**	**40,000**	**352,000**	**0.10 %**
Cable TV	1,700	1,900	3,600	—	1,700	8,900	0.00 %
Internal Service Funds-City Garage	286,950	1,950	6,750	1,950	25,950	323,550	0.09 %
Landfill Fund	1,479,181	530,519	714,726	1,266,601	852,640	4,843,667	1.37 %
Transit Fund	408,660	1,580	11,590	—	—	421,830	0.12 %

The State Mandated Budget Program Areas and the City Departments/Activities that fall under each of these areas are as follows:

Public Safety – Police, Emergency Communication Center, Fire, Disaster Services, Health Services: Animal Control, Public Works: Flood Control, Housing: Code Inspection and Construction Services
Public Works – Airport, Public Works, Engineering
Health and Social Services – Human Rights, Health Services, Purchase of Services
Culture and Recreation – Parks, Civic Center, Conference Center, Ice Center, Recreation, AmeriCorps, Multicultural Family Center, Library, Arts and Cultural Affairs
Community and Economic Development - Economic Development, Housing and Community Development, Planning Services, Purchase of Services
General Government – Engineering: Facilities Management: City Hall/Annex Maintenance/Grand River Center Maintenance, City Council, City Manager, Communications, Human Resources, Sustainability, City Clerk, Finance, Media Services, City Attorney , Information Technology
Business Type – Water, Water Resource & Recovery Center, Parking, Transit, Public Works: Landfill, Refuse, Salt Operations, Engineering: Sewer, Stormwater

FISCAL YEAR 2027 - 2031 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

Goal	Project	Description	Departments	CIP Page
Healthy & Safe Community	Fire Department Building Maintenance	Updates to restore six fire stations to preventative maintenance-level condition	Fire	3
Healthy & Safe Community	Outdoor Warning Siren Repair/Replace	Upgrades to 17-unit outdoor warning siren system	Fire	5
Healthy & Safe Community	Fire Station Expansion/Relocation	Implements fire station location plan for improved emergency response	Fire	6
Healthy & Safe Community	Fire Engine and Ambulance Replacements	Scheduled replacements for reliable emergency response fleet	Fire	8,9,11,13, 14,15
Healthy & Safe Community	Portable Radio Replacements	Modernizing communication equipment for first responders	Fire/Police/Airport	12
Financially Responsible, High-Performance City	Enterprise Asset Management System (Water, Sanitary, Stormwater, Roadways, Fiber)	Citywide CMMS for asset optimization and service delivery	Multiple Depts.	62, 210, 234, 292, 332
Financially Responsible, High-Performance City	Leak Detection Equipment and Survey	Investments in technology to reduce water loss and improve efficiency	Water	72, 73
Financially Responsible, High-Performance City	Network Switch Replacement	Regular replacement of network infrastructure for cybersecurity	IT Dept.	365, 371
Robust Local Economy	8th Street 20" Transmission Water Main Connection	Infrastructure expansion to support economic development	Water	48
Robust Local Economy	Central Avenue Booster Station	Enhancing water supply reliability for economic growth	Water	50
Robust Local Economy	Workforce Development	Partnership with GDDC for workforce retention, recruitment, creation	Economic Develop	343
Robust Local Economy	Downtown Storefront Activation Program	Financial assistance to activate vacant storefronts	Economic Develop	341
Livable Neighborhoods & Housing	Low/Mod Income Area Park Improvements	Upgrades to parks in low/moderate income areas	Parks	19
Livable Neighborhoods & Housing	Homeowner Rehabilitation Program	Loans for maintenance and rehabilitation of owner-occupied homes	Housing	351
Livable Neighborhoods & Housing	Assistance for Homeownership	Programs to support affordable homeownership	Housing	349
Livable Neighborhoods & Housing	Healthy Homes Production Grant & Lead and Healthy Homes Grant	Addressing housing-related health hazards	Housing	354, 356
Sustainable Environment	Source Water PFAS Reduction Projects	Water treatment investments for safe drinking water	Water	86, 87

Goal	Project	Description	Departments	CIP Page
Sustainable Environment	Municipal Solar Projects (MFC & Library)	Solar arrays on city facilities to reduce energy costs and emissions	City Manager's Office	361, 363
Sustainable Environment	Bee Branch Gate & Pump Replacement Project	Major stormwater infrastructure to mitigate flooding	Engineering/ Stormwater	220
Sustainable Environment	Landfill Waste Minimization Grant Project	Grants for waste reduction, recycling, composting	Public Works	183
Connected Community	14th Street Overpass (B2E2 Project)	Multimodal corridor improvements, rail crossing elimination	Engineering/Street	265
Connected Community	East-West Corridor Capacity Improvements	Upgrades to University Avenue and related corridors	Engineering/Street	270
Connected Community	Public Electric Vehicle Chargers	EV charging infrastructure at key downtown locations	Engineering/Traffic	300
Connected Community	Smart Parking System	Technology for improved parking management and wayfinding	Transportation Services	345
Diverse Arts, Culture, Parks, Recreation	Five Flags Building Improvements	Upgrades to arena, theater, lobby for cultural/ recreational use	Civic Center	29
Diverse Arts, Culture, Parks, Recreation	Chaplain Schmitt Island Environmental Restoration	Restoration of natural areas as part of development plan	Parks	20
Diverse Arts, Culture, Parks, Recreation	Eagle Point Park Master Plan & Improvements	Comprehensive planning and upgrades for signature park	Parks	23
Diverse Arts, Culture, Parks, Recreation	Community Center Master Plan	Planning for expanded indoor recreation and programming	Parks	34
Policy Agenda Top Priority	DLEC Upgrades and Maintenance	Law Enforcement Center upgrades for operational readiness	Police	1
Policy Agenda Top Priority	Old Mill Road Lift Station & Force Main (Phases 1–4)	Major sanitary sewer investments	Engineering/ Sanitary Sewer	235, 237, 239, 241
Policy Agenda Top Priority	Bee Branch Gate & Pump Replacement Project	Stormwater management investments	Engineering/ Stormwater	220
Policy Agenda Top Priority	Pavement Rehabilitation, ADA Curb Ramp Program, etc.	Street maintenance/rehabilitation program	Engineering/Street	275, 136
Policy Agenda High Priority	Central Avenue White Street Corridor Master Plan	Central Avenue revitalization	Engineering/Street	267
Policy Agenda High Priority	Downtown Master Plan Update	Comprehensive downtown planning	Planning Services	358
Policy Agenda High Priority	Chaplain Schmitt Island Development	Environmental, water, sanitary, and stormwater improvements	Multiple Depts.	20, 49, 222, 243
Policy Agenda High Priority	Parks and Recreation Master Plan Adoption	Community Center, Eagle Point Park, and other park improvements	Parks	23, 34
Policy Agenda High Priority	WRRC Plant Nutrient Reduction Improvements	Water Resource and Recovery Center upgrades	Water & Resource Recovery Center	109

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2025 - 2027 Management in Progress and Major Projects by the City Council and are included in the 2027 CIP budget according to one of the Council's goals.

2025 - 2027 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Business Incentives Policy/Processes Review
- Chaplain Schmitt Island Development: Hotel Project

- Comprehensive Hotel Attraction/Incentive Policy
- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions
- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing: Great Place to Live

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming

- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods and Housing: Great Place to Live

- (none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Auburn St and Custer St Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St and Central Ave
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No.7 Rehabilitation
- Water Department New Deep Well No. 7 Rehabilitation (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- 14th St Railroad Overpass and 16th St Corridor Complete Streets Improvements

- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System
- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

Source of Funds and Important Details

The Fiscal Year 2027-2031 CIP presents a financial plan that reflects a $287,495 general fund property tax levy supported annual debt service for the purchase of a replacement pumper truck ($1,035,000) and the franchise fee litigation settlement judgment bond ($2,800,000). The Fire Station Expansion/Relocation project included in the Fiscal Year 2027-2031 CIP will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time. It is anticipated that other borrowing from non-utility funds can and will be minimized by using other sources of funds such as sales tax revenue.

The following important details are about the source of funds:

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over $163 million in outside funding to help offset the cost of the overall $254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach $9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes includes an additional $5,121,112 for the Flood Mitigation Gate and Pump Replacement, a key component of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Combined with funding allocated in prior fiscal years (FY24-FY26), the total project investment is $28,456,106.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes $12,275,000 shared across four funding sources to complete final design work in Fiscal Year 2027 and begin construction in Fiscal Year 2028 for the 17th/W. Locust Street Reconstruction Project, part of the Bee Branch Creek Restoration Project (Phase 12B of the Bee Branch Watershed Flood Mitigation Project). Design for this project was largely completed in the late 2010s and early 2020s, but progress was paused due to funding challenges during the COVID-19 pandemic.

Fiscal Year 2027 will be the nineteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The Fiscal Year 2027-2031 CIP anticipates $4,174,231 in Fiscal Year 2027, $3,623,407 in Fiscal Year 2028, $1,793,632 in Fiscal Year 2029, $2,312,622 in Fiscal Year 2030, and $1,676,919 in Fiscal Year 2031.

Water State Revolving Fund Loans will be used to finance water projects in FY 2027-2031 as follows: $0 FY 2027; $7,302,707 FY 2028; $11,563,870 FY 2029; $6,806,000 FY 2030; and $2,055,000 FY 2031. The debt service related to the total $27,727,577 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, West End Annexation Phase II, 17th/Locust St Reconstruction Phase 4 (Heeb to Kirkwood), Private Lead Service Line Replacement Program (City-Wide), Central Ave Booster Station, Central Ave Water Main Extension, South Algona 12" Water Main Replacement, Water Main Replacement W 8th St (Bluff to Hill), Water Storage Rehabilitation Program, HWY 20/Dodge St Water Main Relocation - Devon Drive to Concord Street, Water Main Extension Olympic Heights Road, and Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Installation.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Water Fund will support 18.01% of administrative overhead.

The water fees in FY 2027 are recommended to increase 3.0%.

Sewer
Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines. The Fiscal Year 2027-2031 CIP anticipates $26,300,608 in Fiscal Year 2027, $19,579,781 in Fiscal Year 2028, $19,532,176 in Fiscal Year 2029, $15,269,824 in Fiscal Year 2030 and $11,750,197 in Fiscal Year 2031.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2027-2031 as follows: $12,232,834 FY 2027; $17,579,781 FY 2028; $17,132,176 FY 2029; $12,669,824 FY 2030; and $8,500,197 FY 2031. The debt service related to the total $68,114,812 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Catfish Creek Sewer shed Interceptor Improvements (South Fork and Middle Fork), South West Arterial Middle Interchange Sewer Extension, Old Mill Road Lift Station & Force Main Phases (1 and 2), Track Line Sewer Reconstruction, Schmitt Island Sanitary Improvements, Grove Terrace Sanitary Sewer Reconstruction, Cooper Pl & Maiden Ln Sanitary Sewer Reconstruction, Harvard Sanitary Sewer, Hempstead Reconstruction, Knob Hill-Duggan Drive Sanitary Sewer Reconstruction, JFK Yiannias Pl Sanitary Sewer Relocation, Key West Sanitary Lift Station Replacement, Sanitary Basin Analysis - Steger Heights, Quigley's Sub and South Port/Terminal St, 17th/Locust St Reconstruction Phase 4, W&RRC Plant Nutrient Reduction Improvements, W&RRC Industrial Control Upgrade, W&RRC Headworks Bar Screen Replacement, and W&RRC Treatment System Infrastructure Restoration and Reliability Improvements.

The sewer fees in FY 2027 are recommended to increase 9.0%.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Sanitary Sewer Fund will support 18.01% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A $4.15 million Greater Downtown TIF borrowing is anticipated in FY 2027-2031 for parking ramp major maintenance. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related debt in the downtown as follows: $2,014,000 in FY 2027; $2,010,750 in FY 2028; $2,012,625 in FY 2029; $2,013,875 in FY 2030; and $2,014,125 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2027, the Parking Fund will support 2.86% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The Fiscal Year 2027-2031 CIP anticipates $460,000 in FY 2027, $469,250 in FY 2028; $423,679 in FY 2029; $646,544 in FY 2030; and $772,500 in FY 2031. The Solid Waste Collection Fund is anticipated to have a deficit balance of $587,638 at the close of FY 2027, which will be offset by an internal loan from a portion of the $5.3 million loan repayment from the Greater Downtown TIF fund to the General Fund. The Solid Waste Collection Fund will begin repaying the General Fund in the Fiscal Year that there is no longer a deficit balance, which is estimated to be FY 2031.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: $460,000 in FY 2027; $463,250 in FY 2028; $408,879 in FY 2029; $640,544 in FY 2030 ; $766,500 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Solid Waste Fund will support 18.75% of the administrative overhead.

The solid waste collection fees in FY 2027 are recommended to increase 9%.

GENERAL FUND

The current revenue amount of $352,000 (0.10% of CIP Total) during the five-year period represents $50,000 in golf funds for improvements to the Bunker Hill Golf Course, $22,000 in Historic Preservation Loan repayments, $60,000 in Rental Dwelling Rehab Repayments, $150,000 in Washington Neighborhood Loan Repayments, $50,000 in insurance and other reimbursements, and $20,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax (20%)” totals $844,281 and represents 0.24% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax/Street Projects (30 percent)” and totals $16,417,822, or 4.65% of the total CIP.

GAMING

DRA payments represent 0% in FY 2027 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations ($0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections ($0 or 0.00% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2029, 10% in FY 2030 and 15% in FY 2031. **In Fiscal Year 2027, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Years 2024-2026 which is a change from past practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois. Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

FEDERAL FUNDING

Community Development Block Grant (CDBG)
The Fiscal year 2027-2031 CIP anticipates that Community Development Block Grant (CDBG) funds will be $650,000 in FY 2027; $650,000 in 2028; $450,000 in FY 2029; $450,000 in FY 2030; and $200,000 in FY 2031 (0.68% of the total CIP).

Federal Aviation Administration (FAA)
The FAA funding of $18,140,035 (5.14% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2027-2031 budget includes Reconstruct Taxiway A, Taxiway J Improvements, Taxiway D Extension, and Update Airport Pavement Management System.

Federal Lead Paint/Healthy Homes Grant (0.83% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Lead Paint/Healthy Homes Grant funds will be $1,900,000 in FY 2027; $1,036,600 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.83% of the total CIP).

Healthy Homes Production Grant (0.32% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Healthy Homes Production Grant funds will be $2,995,200 in FY 2027; $1,658,050 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.32% of the total CIP).

Federal Assistance
Federal Assistance funding of $45,351,606 (12.85% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2027-2031 budget includes Bee Branch Creek Gate and Pump Replacement, Public Electric Vehicle Chargers, Electric Buses, 14th Street Overpass, and East-West Corridor Capacity Improvements.

Federal STP Funds
Federal STP Funds funding of $14,845,453 (4.21% of the total CIP) includes DMATS funds for 14th Street Overpass, STREETS Phase 2, and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax
Road Use Tax Funds (RUTF) of $3,174,227 (0.90% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031, all used for operations.

Sales Tax Increment Revenue
The City secured a $98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, $50,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (0.69% of Total CIP)
State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of $2,445,000 are anticipated over the five-year program.

Iowa Finance Authority funding of $1,013,268 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District
In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2027-2031 CIP includes $1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, $182,850 for the Chavenelle Street Light Replacement Project.

Annexation Initiatives
As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)
With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer (SRO) Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic pausing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers were approved. In late 2024, the Precision Policing Center (PPC) was established. It is expected to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. This is also supporting officer safety. The PPC is staffed by five non-sworn (civilian) employees in three roles: three Precision Policing Center Technicians, one Crime Analyst, and one Criminal Computer Forensics.

Fire Station and Additional Firefighters/Paramedics
An additional west end fire station is currently projected to be designed in FY 2030 and built in FY 2031.In April 2026, the City began a study of all stations and future needs. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City well to develop an annexation plan and begin the process of annexation in the future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, and furniture. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 an additional EMS Captain and an additional EMS Bureau Chief were approved. In FY 2026, 5 firefighter/paramedic positions were added and additional employees may be added in future years. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Water and Sanitary Sewer Service
The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements and replacing undersized sanitary sewers along with new lift stations. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of $2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District
This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Now that the City will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, resources for these capital projects are significantly reduced. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following charts shows the amount of TIF revenue reduction in GDTIF due to claiming 25% less in TIF revenue:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$ 13,524,219	$ —	— %
2028	$ 10,162,871	$ -3,361,348	-24.85 %
2029	$ 10,137,372	$ -3,386,847	-33.33 %
2030	$ 10,111,873	$ -3,412,346	-33.66 %
2031	$ 10,111,873	$ -3,412,346	-33.75 %

Claiming 25% less in Greater Downtown TIF revenue will provide additional general fund levy tax dollars due to the growth that the improvements created in the GDTIF District. The additional general fund levy tax dollars estimated to be returned to all taxing bodies in Fiscal Year 2028 based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 1,284,104
City of Dubuque	36.26 %	$ 1,233,420
Dubuque County	19.96 %	$ 678,959
Northeast Iowa Community College	2.75 %	$ 93,544
Sunnycrest Manor County Hospital	1.89 %	$ 64,290
Dubuque Agricultural Extension	0.41 %	$ 13,947
Dubuque City Assessor	0.98 %	$ 33,336
Total	100.00 %	$ 3,401,600

The following are projects included in the FY 2027-2031 CIP:

Downtown Master Plan Update (page 357) - This project ($150,000) provides for the preparation of a Downtown Master Plan that will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core.

Jackson Park Restroom Building (page 24) - This project ($100,000) provides for additional funding for the Jackson Park restroom building. Initial funding was approved in FY 2020, but due to COVID-19, the project was put on hold.

Five Flags Building Improvements (page 29) – This project ($5,869,457) provides funding for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. With existing funds of $1,206,410, there is $5,869,457 available. This is a substantial decrease from the approximately $24 million previously available.

Five Flags Marquee Replacement (page 30) – This project ($133,500) provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The life expectancy is 7-9 years. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

Five Flags Boiler Replacement (page 31) – This project ($410,000) provides funding for replacement of three 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient.

Five Flags Recirculating Pump Replacement (page 32) – This project ($40,700) provides for the replacement of two recirculating pumps that are responsible for keeping the warm water for sinks readily available by circulating the hot water.

Five Flags Emergency Generator Replacement (page 33) – This project ($870,400) provides for replacement of the emergency standby generator located at 5th Street which provides power to critical systems inside of the building during a sudden loss of power. The current generator was installed in 2000 and is nearing the end of life expectancy of 30 years. A new generator would be more efficient and environmentally friendly.

Grand River Center Dishwasher and Water Softener Replacement (page 43) - This project ($263,000) provides for a dishwasher and water softener replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

Grand River Center Roof Restoration (page 44) - This project ($1,383,000) provides for restoration of the roof on the Grand River Center. The roof was installed in 2002 and restoration is critical to prevent expensive damage if the roof begins leaking.

Grand River Center HVAC System Evaluation (page 45) - This project ($35,000) provides for a consultant to evaluate the HVAC system, software, and controllers. The current system is original to the building, outdated, and difficult to service.

Port of Dubuque Street Extension (page 281) - The city is moving forward with further development in the Port of Dubuque. Specifically, there is approximately 13 acres of vacant property on the north side of 5th Street. These funds ($100,000) will provide money to create an entry road to that site and to plan for the potential future realignment of Ice Harbor Drive to line up with that entry road.

Railroad Crossing Safety Improvements and Quiet Zone Implementation (page 297) - This project ($833,104) provides funding to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within jurisdictional areas.

Federal Building Renovation (page 334) - This project ($8,645,473) provides funding in FY27 for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY28 and FY29 provides funding for the second phase of HVAC upgrades.

Downtown Bike Lockers (page 336) - This project ($30,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team.

Greater Downtown Rehabilitation and Housing Incentive Program (page 338) – This program ($1,970,403) consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing. This is a substantial reduction from previous available funding.

Downtown Storefront Activation Program (page 340) - This new project ($400,000) provides for $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

Smart Parking System Implementation (page 344) - This project ($1,490,175) provides funds for way finding signage throughout the City of Dubuque. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

Parking Ramp Major Maintenance Repairs (page 345) - This project ($9,161,567) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical & plumbing repairs.

Municipal Parking Lot Maintenance (page 346) - This project ($196,182) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces of municipal parking lots.

Homeowner Rehabilitation Program (page 350) - This project ($2,741,588) provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978.

Downtown ADA Assistance Program (page 352) - This project ($185,000) provides assistance to residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafés, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property.

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income(LMI) residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City

initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expired in FY 2025 and all certified debt has been collected.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 589,631
City of Dubuque	36.26 %	$ 566,358
Dubuque County	19.96 %	$ 311,763
Northeast Iowa Community College	2.75 %	$ 42,953
Sunnycrest Manor County Hospital	1.89 %	$ 29,521
Dubuque Agricultural Extension	0.41 %	$ 6,404
Dubuque City Assessor	0.98 %	$ 15,307
Total	100.00 %	$ 1,561,937

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2026.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$ 226,916
City of Dubuque	36.26 %	$ 217,960
Dubuque County	19.96 %	$ 119,980
Northeast Iowa Community College	2.75 %	$ 16,530
Sunnycrest Manor County Hospital	1.89 %	$ 11,361
Dubuque Agricultural Extension	0.41 %	$ 2,465
Dubuque City Assessor	0.98 %	$ 5,891
Total	100.00 %	$ 601,103

South Pointe Housing TIF District
In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2031 due to a three year extension.

Rustic Point Housing TIF District
In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2028.

N Grandview Housing TIF District
In FY 2021, the City created a housing TIF district in the North Grandview subdivision off of North Grandview Avenue. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in 2033.

MISCELLANEOUS SOURCES

Private Participation (1.10% of Total CIP)
Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance ($467,157); Street Lighting and Traffic Signal Knockdown insurance reimbursements ($50,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project ($1,000,000); Milling sales from the Asphalt Milling Program ($375,000); Private Marina Companies contribution for Harbor Area Maintenance Dredging ($200,000); Jeffris Family Foundation contribution for the restoration of Eagle Point Park structures ($1,852,354); and IDOT reimbursement for the Pavement Marking program ($125,000).

Special Assessments (0.08% of Total CIP)
Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The $285,000 amount breaks down: (a) $250,000 for sidewalk lien special assessments, and (b) $35,000 for green alleys (non Bee Branch) special assessments.

PROJECT DESCRIPTION/JUSTIFICATION

Dubuque Law Enforcement Center (DLEC) Upgrades and Maintenance: Dubuque County Sheriff Joe Kennedy is advising the DLEC will need some major maintenance upgrades in FY27. The DLEC Memorandum of Understanding (MOU) states the City will pay for 29.3% of major projects. The HVAC system is failing and is using technology from the original 1970's build. Total cost of this project is estimated at $600,000 with the City's contribution being $176,000. Additionally, the carpet in the 855 Central building is 20 years old and worn out. This is shared space with the County. The City's contribution to this is $13,200. The County is going to a Countywide door card reader system which will match the City's door card reader system. The City's contribution to this is $19,100. This CIP represents only the City's portion of the funding.

The total cost to the City is $208,300:

- $176,000 HVAC Upgrades
- $13,200 Carpet
- $19,100 Card Reader System

RELATIONSHIP TO OTHER PROJECTS

This is not related to any other Capital Improvement Projects

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds updates to restore the Fire Department's six stations—each over 50 years old—to a preventative maintenance-level condition. While the operating budget covers routine upkeep, this CIP addresses deferred repairs and upgrades needed to bring the facilities back to a sustainable standard. The project will include a station condition assessment which will complement the annual safety inspection reporting to establish priority projects and group high level maintenance projects for increased efficiency in project management and funding.

Notable progress at Stations 4 and 6 has brought them close to maintenance-level condition. The department will now focus on the remaining four stations, using lessons learned to address critical needs and prioritize projects for maximum impact.

Annual fire station condition and safety inspections guide funding decisions by identifying deficiencies and prioritizing updates. Projects include window and door replacements, garage door repairs, flooring, siding, painting, trim, caulking, tuckpointing, landscaping, driveways or sidewalks, kitchen and bathroom upgrades, office furniture, and workspace improvements.

This work aligns with the Fire Department's strategic plan, supporting operational readiness, resiliency, workforce retention, health and safety, job satisfaction, and pride. Once all facilities reach preventative maintenance-level status, the CIP will be scaled back or closed.

Allocating an average of $16,000 per building for these targeted updates prevents further deterioration and ensures the department's facilities remain safe, efficient, and ready to support emergency operations for years to come.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

PROJECT DESCRIPTION/JUSTIFICATION

This project seeks to continue a multi-year effort to maintain and enhance the City of Dubuque's 17-unit outdoor warning siren system. Now in its fourth year, the program focuses on extending the service life of critical components and ensuring reliable outdoor warning coverage for the community. Maintaining this system is essential to supporting public safety and keeping residents informed during emergencies.

Completed work includes replacing siren modules, wiring, and backup batteries; upgrading electrical and control components; improving cabinet enclosures; and refining maintenance and testing procedures. As part of the program, any usable components that have been replaced have been inventoried, refurbished, and stored to establish a cache of spare parts for the older siren systems, improving the ability to complete emergency repairs quickly and cost-effectively until all are upgraded.

Future efforts will continue modernizing the system, expanding the spare-parts inventory, upgrading cabinets, and evaluating siren locations to confirm optimal coverage across the city. This ongoing investment ensures the outdoor warning network remains dependable, sustainable, and capable of supporting public safety for years to come.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

The Dubuque Fire Department (DFD) is requesting funding to move from data analysis to implementation of a fire station location/ re-location plan. Specifically, this CIP requests funding to engage a specialized fire station planning and construction expert in FY2027, secure or hold strategic parcels of land for future stations in FY2028, and begin architecture, engineering, construction procurement, and technology updates with this firm (if continuation is confirmed) in FY2029.

Over the past several years, the City of Dubuque has invested in a series of studies to evaluate fire station locations, coverage areas, response data and community growth trends including the 2006 Matrix Fire Station Location Study, Darkhorse Software analysis, City Planning and Development data, 2018 Annexation Study growth projections, and the Imagine Dubuque Master Plan. These analyses confirm that strategically located stations and modernized infrastructure are essential to maintaining fast, balanced, and reliable emergency services as the community grows and the City of Dubuque is in a position to confirm the information and data by moving into the implementation phase. Specifically by contracting with an expert station location, feasibility, project management, architecture, construction company. Moving from evaluation to implementation ensures that Dubuque is prepared to address future needs, preserve response times, and enhance community safety.

This project funds the identification and contracting of a station location, design, and construction expert in FY2027 to confirm data analysis to location study exercises, guide feasibility, site selection, design, and construction. The expert resource will confirm data, validate site and station needs, and ensure all planning follows national best practices and process and manage all aspects of the fire station(s) location/ construction project. The project will also fund the acquisition or holding of strategic parcels of land for future fire station(s); advance architecture, engineering, and construction procurement; and support critical technology updates including CAD, mapping, and GIS to reflect future coverage areas. Staffing models will be reassessed one year before any new or relocated station opens to ensure adequate personnel and apparatus are in place.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY 2007	TOTAL PROJECT COST
13 - Fire	1C - Public Safety	Fire Station Expansion/Relocation	PROJECT NO: 1315000005	$ 8,791,700

PROJECT DESCRIPTION/JUSTIFICATION (continued)

Currently, the DFD operates six stations balanced across the city and responds to about 8,000 incidents annually, deploying 18,500 fire vehicle units roughly 25 daily incidents requiring 58 vehicle responses. Our current average response time for all emergency incidents is 7 minutes and 49 seconds, compared to our goal of 6 minutes for EMS calls and 6 minutes 20 seconds for fire incidents (which allows for additional time to don protective gear). Maintaining and improving these response times, reducing property loss, and saving lives remain at the core of our Strategic Plan and Standard of Cover documents and this station location CIP request.

By moving forward with this CIP initiative, the City will ensure the long-term ability to maintain and improve response times, safeguard quality of life, and uphold Dubuque's reputation for reliable, balanced public safety services. This approach provides a clear roadmap: confirm and engage expertise in FY2027, secure land and design by FY2028, and target construction completion and operational readiness in FY2030. The project will strengthen resiliency, ensure modern and sustainable fire stations, and position the DFD to meet the community's growing needs well into the future.

This project will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA Distribution/Gaming**, or by increasing property taxes through a referendum vote or reverse referendum.**

PROJECT ADDRESS/SERVICE AREA

Fire Station coverage area will include all areas from John F Kennedy RD./Cedar Cross RD. & Kelly Lane West and South to City Limits.

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of fire engine 1907 in accordance with the department's established 20-year service-life schedule for pumpers. The program ensures safe, reliable, and mission-ready apparatus while minimizing long-term maintenance costs.

The scheduled replacement involves the department's 2007 Simon rescue pumper (Vehicle 1907), which has served 17 years in front-line service and 3 years in reserve. After a comprehensive evaluation, the vehicle was recommended for replacement to maintain reliability and operational readiness. This replacement was approved for CIP funding in Fiscal Year 2027, with authorization to pre-pay in Fiscal Year 2026. Pre-payment secures the build slot, accommodates the extended 18–24-month build time, and achieves an estimated $90,000 cost reduction compared to future pricing.

The requested funding reflects the pre-payment adjustment that occurred in FY2026 while maintaining $20,000 in contingency funds to cover potential change orders, modifications, upfitting, and other costs related to final delivery and commissioning. This approach ensures timely, cost-effective procurement and a reliable fleet to meet the community's emergency response needs. Pre-payment vehicle cost was $845,060.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

Entire City as fire department fleet replacements

DEPARTMENT: 13 - Fire		STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: 2027 Ambulance Replacement (1914)			YEAR FIRST SUBMITTED: / PROJECT NO:	FY 2025 / 1315000062	TOTAL PROJECT COST $ 500,000

$ —	$ —	TOTAL	$ 500,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of an ambulance in accordance with the department's established 10–12-year service-life schedule. The program is designed to ensure safe, reliable, and mission-ready ambulances while minimizing long-term maintenance costs and keeping pace with changing industry standards.

The ambulance slated for replacement is the department's 2016 AEV Ambulance (Vehicle 1914), which has served eight years in front-line service and an additional two years in reserve. Following a comprehensive evaluation, the vehicle was recommended for replacement to maintain reliability and operational readiness.

The replacement ambulance will also include a new power cot and load system as these components approach their end of service life. By integrating these systems into the build process, vendors can install and validate them during construction, reducing in-service time and eliminating multiple post-delivery steps. The department intends to continue incorporating these major systems into future replacement CIPs to improve efficiency and ensure consistency across the fleet.

The current environment for ordering and building ambulances has changed significantly in recent years. Build times now extend to at least 18 months, and vendors frequently implement multiple price increases annually. These conditions make budgeting and delivery prediction more difficult. Identifying vehicles scheduled for replacement and obtaining approval from Vehicle Services in advance allows the department to order in a staggered manner, preventing large spikes in replacement requests and costs.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

$ —	$ 950,000	TOTAL	$ —	$ 20,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of fire engine 1905 in accordance with the department's established 20-year service-life schedule for pumpers. The program ensures safe, reliable, and mission-ready apparatus while minimizing long-term maintenance costs.

The scheduled replacement involves the department's 2008 Simon rescue pumper (Vehicle 1905), which has served 17 years in front-line service and three years in reserve. After a comprehensive evaluation, the vehicle was recommended for replacement to maintain reliability and operational readiness. This replacement is approved for CIP funding in Fiscal Year 2028, with authorization to pre-pay in Fiscal Year 2027. Pre-payment secures the build slot, accommodates the extended 18–24-month build time, and achieves an estimated cost reduction compared to future pricing.

Both the FY2027 (1907) and FY2028 (1905) engine replacements were purchased and funded together in FY2026 to maximize pre-payment savings and secure production slots. Because of extended build timelines, the exact delivery date will be finalized later in the process, but current expectations are for delivery in FY2028.

The requested funding reflects the pre-payment adjustment while maintaining $20,000 in contingency funds to cover potential change orders, modifications, upfitting, and other costs related to final delivery and commissioning. This approach ensures timely, cost-effective procurement and a reliable fleet to meet the community's emergency response needs.

$ 1,741	$ 437,830	TOTAL	$ 490,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) supports the phased replacement of the City's inventory of portable radios. The Fire Department has successfully completed its portion of the project across Fiscal Years 2025 and 2026, replacing its full inventory of end-of-service-life portable radios. This included all portable radios assigned to fire response vehicles, staff officers, and reserve units to ensure operational readiness and consistent technology across the department.
With the Fire Department's portable radios now modernized, the project has transitioned to the Police Department and the Airport to replace their aging radios using the remaining allocated funds across Fiscal Years 2026 and 2027. This coordinated approach allows all first responders to maintain compatible, reliable communication equipment while absorbing costs over multiple years.
The project scope includes antennas, P25 trunking and Phase 2 features, over-the-air programming, chargers, belt clips, batteries, radios, speaker microphones, and standard programming. By updating these systems in a unified, phased approach, the City is ensuring that its public safety agencies remain equipped with current, interoperable communications technology.

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of fire apparatus in accordance with the department's established 20-year service-life schedule for pumpers. The program is designed to ensure safe, reliable, and mission-ready apparatus while minimizing long-term maintenance costs.

This engine will replace the department's 2010 Simon rescue pumper (Vehicle 1910) in 2031. The vehicle will have served 17 years in front-line capacity and another three years in reserve at the time of replacement. Due to extended lead times, the purchasing process now requires orders to be placed before the vehicle is added to the manufacturer's build list and assigned a production number. This step is typically completed 18–36 months in advance and often spans multiple budget years.

The current environment for ordering and building fire apparatus has changed significantly in recent years. Departments can no longer order and receive delivery within 12 months; build times now range from 18–24 months and in some cases extend to 36–48 months. Vendors also implement multiple price increases each year, making it more challenging to budget and predict delivery costs. To address this, the department identifies vehicles scheduled for replacement and seeks approval from Vehicle Services in advance, allowing for staggered orders to prevent large spikes in replacement requests and expenditures.

RELATIONSHIP TO OTHER PROJECTS

This Project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

FUNDING RESTRICTIONS

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 635,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) funds the replacement of an ambulance in accordance with the department's established 10–12-year service-life schedule. The program is designed to ensure safe, reliable, and mission-ready ambulances while minimizing long-term maintenance costs.

This ambulance will replace the department's 2017 Dodge Ram AEV Ambulance (Vehicle 1915), which will have served eight years in front-line capacity and an additional two to six years in reserve by the time of replacement. This strategy maintains a reliable and modern ambulance fleet capable of meeting the community's emergency medical needs while controlling costs and reducing downtime.

The replacement ambulance will also include a new power cot and load system as these components approach their end of service life. By integrating these systems into the build process, vendors can install and validate them during construction, reducing in-service time and eliminating multiple post-delivery steps. The department intends to continue incorporating these major systems into future replacement CIPs to improve efficiency and ensure consistency across the fleet.

The current environment for ordering and building apparatus has changed significantly in recent years. Departments can no longer order and receive delivery within 12 months; build times for ambulances are now at least 18 months. Vendors also implement multiple price increases each year, creating challenges for budgeting and predicting delivery costs. To address this, the department identifies vehicles scheduled for replacement and secures approvals from Vehicle Services in advance, allowing for staggered orders and preventing large spikes in replacement requests and expenditures.

$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Project (CIP) requests funding to install comprehensive heating, ventilation, and air conditioning (HVAC) systems at Fire Station 5 and Fire Station 6. Currently, neither building is equipped with a centralized HVAC system, and personnel must rely on window-mounted air conditioning units to maintain tolerable conditions within the stations, including dormitory areas. This approach limits climate control, energy efficiency, and indoor air quality, affecting both the comfort and health of on-duty personnel and the longevity of the facilities.

The Department has a unique opportunity to leverage existing HVAC components already in its possession. These components were purchased during emergency repairs at Fire Headquarters and include compressors that are only two years old with many years of useful service life remaining. By integrating these components into the new systems for Stations 5 and 6, the City can reduce costs while upgrading both stations to modern HVAC standards.

Additionally, this project provides the chance to coordinate with the upcoming station bunk room improvements. Installing the appropriate ductwork and system infrastructure now will ensure seamless integration with the bunk room project, minimize future disruptions, and optimize both projects for cost-effectiveness and efficiency.

When complete, both Fire Station 5 and Fire Station 6 will feature modern, reliable HVAC systems that enhance energy efficiency, improve indoor air quality, and provide a safer, more comfortable environment for fire department personnel. This proactive investment addresses long-standing facility gaps while maximizing available resources and aligning with ongoing station upgrades.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the repair and improvement of neighborhood parks located in the low/moderate income areas. These improvements would include the addition of safety elements (lighting, fencing, shelter, cameras, etc), address accessibility issues (pathways, non-compliant play features, parking, water, etc.) and the replacement/repair of play amenities that are well beyond their lifecycle. Many of these park spaces are utilized by the department for neighborhood programs. These programs provide safe places and spaces for youth in our community to learn throughout the summer months as well as develop relationships with their peers and City staff. These programs range in time from a couple of hours to full-day activity/supervision. In addition, many of these programs offer 2 free meals per day. Parks with play structures in poor condition or a lack of amenities typically have little to no participants. The result is the need to move City staffing resources to parks with greater participation and need. Parks without suitable shelter are cancelled due to rain. Other than not having that fun place to go, another result of this cancellation is that meals will not be distributed to participants on those days. Investing in these park spaces would encourage participation in programs and promote passive recreation by neighborhood individuals increasing interaction amongst community members and decreasing the opportunity for negative activity within these park spaces.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded with Community Development Block Grant (CDBG) funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the planning and grant writing consultant services related to environmental restoration of the Heron Pond and King Rail Woods identified projects outlined in the Chaplain Schmitt Island Development Plan. A certified arborist would identify higher quality trees to remain, removal of invasive species and weedy species with replanting of native, drought and flood tolerant species as examples of work to be planned and permitted as necessary. This planning would allow for shovel ready projects that can be applied for REAP grants. The state grant is yet to be approved and recieved.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for replacing water lines throughout Eagle Point Park. The water system at Eagle Point park is failing. The galvanized piping in the system has begun to fail and there are numerous leaks throughout the park. Replacement of these lines is necessary to not only conserve water but to keep the correct water pressure within the system. A small portion (phase 1) of the water lines were replaced in FY19 with savings from two capital projects and use of other current capital projects related to Eagle Point Park. The remaining phases need to be completed. Funding was approved in FY2025 but later removed.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for trail maintenance and repair. The park division is responsible for over 30 miles of paved trails in the City. Funding is needed for crack sealing, seal coating, striping and asphalt/concrete repairs. Many of the trails are over 10 years old and need maintenance to preserve and extend the life of the trail.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. This would be used on the current facility at its current footprint in its current state. The building is in need of numerous upgrades including roof replacement, HVAC equipment systems and controls, upgrades to concession stands and seating, upgrades to building technology, and more. All projects listed have been submitted previously as individual projects with the oldest continuously submitted in the budget process since 2003 and the majority have been submitted and cut from the budget for 20 years. Civic Center opened its doors in 1979, alongside the restored Theater with $3.7 million bond. Additional upgrades and renovations were completed in 2005 for just over $2.0 million. Now that the city will be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, the CIP has been reduced from previous allocation of approximately $24 million.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The current marquee is beyond the life expectancy of 7-9 years and has been in need of many repairs the last year. Light panels continue to go out. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to hire a parks and recreation consulting firm to develop a community center master plan for the department. As referenced in the Council adopted Parks & Recreation Comprehensive Master Plan, there is a strong need for expanded programming and passive indoor recreation. Currently the department does not have nor manages a large community indoor space. In order to meet these needs, the plan recommends the addition of a community recreation center(s). This study would focus on community engagement around the development of a center(s), what programs and services would meet the most needs of the community, potential location, design and cost elements based on this feedback as well as how such a facility could be funded for construction followed by operation.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

$ 11,232	$ —	TOTAL	$ 30,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for construction of asphalt cart paths on areas heavily used by motorized carts. With the increasing use of golf carts, several sections of the golf course, particularly the grass areas, are being damaged. As a result of the grass being destroyed, erosion takes place causing an increase in maintenance expense. Asphalt paths enable the City to regulate usage of carts on the golf course and reduce maintenance costs. Phasing the project as proposed will allow the areas of greatest need to be constructed each year. The paths constructed in previous fiscal years greatly improved both the appearance and ability to maintain those areas. Repair of existing cart paths as needed is also included in this project.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the removal of over 20 trees located within the field of play at the Bunker Hill Golf Course. There are currently 24 trees throughout the golf course which have been identified by the Departments Urban Forester as either a safety hazard and/or potential detriment to the golf course itself. Due to the location and size of the many of these trees, the department will have to contract with a local tree service for their removal. This project is also in partnership with Dubuque Trees Forever who have committed to $5,000 in replacement trees over the next 3 years.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

$ —	$ —	TOTAL	$ 30,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the removal of the planter box, resurfacing of cart area and foundation leak repair as the final phase to complete the basement moisture issues. As a last phase for the basement leak project, this would address the significant crack and subsequent leak located in the golf storage section of the basement at Bunker Hill. During the foundation repair and remediation project for the other side of the facility, the inoperable large walk-in coolers were removed in the basement revealing a significant crack in the foundation. During heavy rains, water is funneled near a planter box behind the building directing water along the building foundation where this crack exists. Removing the planter box, fixing the foundation crack and resurfacing the cart area, will solve this water leak issue for this space making it more usable as a storage area for the golf operation.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for planned preventative maintenance for Sutton pool. These projects are prioritized based on: 1. Safety 2. Operations 3. Process Improvement/Efficiencies 4. Aesthetics. This project services safety, operations and aesthetics and is for the Pool Tank resurfacing for Sutton Pool. Resurfacing the tank includes the removal and replacement of joint caulk reducing water loss and risk of injury due to separation in expansion joints. Also, maintaining clear visual markers as park of the painting process (for example: depth lines for lifeguards and depth makers for patrons) helps to prevent water incidents from occurring as well as provide clear communication markers during active save events.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

$ —	$ —	TOTAL	$ 50,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for the renovation of the fuel, data, and electrical systems located under the docks at the Port of Dubuque Marina. Located under the decking of the marina docks is a network of flexible fuel lines, plastic conduit containing the electrical systems to monitor and operate the fuel dock systems as well as the data. The docks were built to rise and lower along with the river. However, over the years the movement along with the natural wet environment, these lines have begun to show significant signs of wear. There are several cracked and even separated sections of conduit and PVC. Electrical and data lines have been chewed by animals and there are water/sewage gas leaks along the mains coming down the gangways. Many, if not all of the current issues could eventually cause the marina to need to shut down due to operational failures or potential environmental violations in the case of a major fuel or sewer malfunction. This project will take a more proactive approach to modernize the systems under the surface to ensure another 10 to 15 years of clean operation.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA
450 E 3rd St.

$ —	$ —	TOTAL	$ 30,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This package provides funding to replace the outdated network switches for the gas dock facility at the Port of Dubuque Marina. Since the marina project was originally constructed by the City with the intent for an outside contractor to run all operations, several of the systems were put in place separate of the City's internal network. For this reason, the current network switches at the Marina are not included as part of the IT Departments replacement schedule. However, per the City's IT Department, the network switches currently at the gas dock are obsolete and need to be replaced to keep in line with City's network system. For that reason, this funding request is separate of the IT departments FY27 replacement CIP.

RELATIONSHIP TO OTHER PROJECTS

This project is related to other network switch upgrade projects throughout the City

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for a dishwasher and water softener replacement as they are original to the venue and are past industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Repairs are becoming very costly and the repair company has warned there is quickly coming a time that they cannot fix this old dishwasher anymore. If this happens the kitchen facility would be at a shutdown. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements and replacement of the dishwasher is critical to operations.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

$ —	$ —	TOTAL	$ 35,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for a consultant to evaluate the current HVAC system, software, and controllers as well as consider retrocommissioning of systems. This would be done at the same time that Five Flags is doing the same work to determine the status of the current systems and if there is any synergies of the same systems at both Grand River Center and Five Flags. The current system's vendor has shared the need for numerous updates in software and equipment to the system and the controllers. Items like replacement of the HVAC master controller would allow the staff to efficiently control and manage the entire HVAC system, optimizing building temperature and reducing energy consumption. The current system is original to the building, outdated, and difficult to service. Due to the unique, integrated design of the HVAC control system, further upgrades to ancillary controllers throughout the building is anticipated and can be addressed during this evaluation. The findings of this evaluation will allow accurate and appropriate budgeting in future years.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Five Flags renovation project.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 155,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the fire alarm panel in the Grand River Center. The current fire alarm system is original to the building and is over 20 years old. The alarm system components are outdated and no longer manufactured, making repairs increasingly difficult. This upgrade is essential to align with modern standards and ensure the safety and security of the guests.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Have well-built, well-maintained, upgraded and expanded parks, park amenities and recreational/park facilities.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

$ —	$ —	TOTAL	$ —	$ 65,000	$ 212,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of a connection of 20" transmission water mains on East 8th Street connection between Jackson Street (Millwork District Project 2011) and Central Avenue (Dubuque Police Building Expansion Central Avenue 2001). The project includes approximately 380 feet of 20" water main and replaces aging, smaller 6" and 12" parallel mains in this area. Connecting the transmission mains enhances the availability of water supply through the downtown area from the Eagle Point Water Treatment Plant west to the higher pressure zones.

This project is adjacent to the proposed White Street City Parking Ramp which would include the replacement of the water main in the alley east of Central Avenue between 8th and 9th Streets that ties in to this 20" transmission water main.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

E. 8th St from Central Ave to Jackson St

$ —	$ —	TOTAL	$ —	$ 555,000	$ 555,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for water main replacement as a part of the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) overall project. The purpose of the overall project is to increase the capacity of the storm sewer from the Lower Bee Branch Creek up 17th Street to West Locust Street. A larger storm sewer and additional high-capacity storm drains will help alleviate the flash flooding frequently experienced on these streets. This funding request is for the water portion of the full reconstruction from the end of Phase 3, Heeb Street completed in 2021, to Kirkwood Street.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary Sewer, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Roadway projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

W 17th St/Locust St (from Heeb St to Kirkwood St)

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 686,400	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of a water main extension along Admiral Sheehy Drive. This project includes approximately 2,860 feet of 8" water main. The water main will create a looped system by adding water main around the south half the Chaplain Schmitt Island, supporting improved reliability and service.

This project is a component of the 2024 Chaplain Schmitt Island Development Plan. The island's water supply comes through one water main connection (12") along the E 16th St bridge. Water main does not circumnavigate the entire island. To ensure a sound, fully functioning system, a backup/redundant network of water main that circumnavigates the island is needed. It will allow water service to continue on the island while repairs or maintenance are completed at one section.

RELATIONSHIP TO OTHER PROJECTS
This project is part of the 2024 Chaplin Schmitt Island Development plan along with the Greyhound Park Rd Water Main Loop and the Hamilton St Water Main Extension to City Island

OUTCOME
Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Establish Chaplain Schmitt Island as a community and tourism destination with a variety of activity venues and experiences for residents and guests.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of installing a booster pump station along Central Avenue and connecting from existing water main in Pressure Zone 1 to Pressure Zone 2 via the proposed water main installed in the Central Avenue Water Main Extension (Pressure Zone 2 and 5 Connection) Project.

The Roosevelt Street Water Tower project (completed 2022) was designed to provide effective storage for both Pressure Zones 2 and 3 once future distribution improvements were complete. This project provides for the construction of a connection between Pressure Zone 1 and Pressure Zone 2 to allow water to fill the Roosevelt Street Water Tower from a second supply location, as recommended by the Iowa DNR and as stated in the SRF funding commitment letter for the Roosevelt Street Water Tower construction project. The related project of Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection) must be completed prior to this project. Another related project to complete the pressure zone connection is the Water Main Extension Olympic Heights (Pressure Zone 3 and 5 Connection) Project, which will allow full benefits of the Roosevelt Water Tower and this Central Avenue Booster Pump Station.

RELATIONSHIP TO OTHER PROJECTS

This project is related to City-Wide Distribution System Improvements project. Design is being completed under CIP 4281000034.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded by SRF Funding.

PROJECT ADDRESS/SERVICE AREA

$ —	$ —	TOTAL	$ 75,000	$ 50,000	$ 50,000	$ 50,000	$ 20,000	$ 20,000

PROJECT DESCRIPTION/JUSTIFICATION
This project involves upgrades to water utility infrastructure in coordination with the Central Avenue and White Street traffic study implementation. Funding will be used to replace aging infrastructure located beneath the roadway surfaces, preventing the need to excavate newly improved surfaces in the future for emergency repairs. In FY27 & 28, work will take place on Central Avenue and White Street from 14th to 17th Streets, including the replacement of six valves and associated fittings that are beyond their expected service life, as well as two lead service lines. In FY29, the project will continue from 17th to 20th Streets with the replacement of fifteen lead service lines. FY30 includes the potential relocation of four fire hydrants along the bike path on the west side of White Street. In FY31, five lead service lines will be replaced between 20th and 22nd Streets. FY32 may involve relocating three fire hydrants at the intersections of Central Avenue and White Street at 13th and 14th Streets. FY33 will address the Central Ave and White St from 4th to 14th Streets, with the scope of work to be determined.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Central White Traffic Study Implementation Plan

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

$ —	$ —	TOTAL	$ —	$ —	$ 965,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of extending water main along Central Avenue (from Olympic Heights Rd to S John Deere Rd) and S John Deere Rd (from Central Ave to Tanzanite Dr) to connect the Olympic Heights Subdivision to the Pressure Zone 2. The water main extension is approximately 5,300 feet.

The Roosevelt Street Water Tower project (completed 2022) was designed to provide effective storage for both Pressure Zones 2 and 3 once future distribution improvements were complete. This project provides for the construction of a connection between Pressure Zone 5 (Olympic Heights Subdivision) and Pressure Zone 2 to effectively connect the two zones, as recommended by the Iowa DNR and as stated in the SRF funding commitment letter for the Roosevelt Street Water Tower construction project. A related projects to complete the pressure zone connection is the Olympic Heights Water Main Extension (Pressure Zone 3 and 5 Connection) Project, which will allow full benefits of the Roosevelt Water Tower. A related project to complete the Central Ave Booster Pump Station (Pressure Zone 1 and 2 Connection) will allow an additional method to supply water from Pressure Zone 1 to Pressure Zones 2, 3, and 5.

This project will impact operating costs with the removal of Olympic Heights Booster Pump Station. This project optimizes the full benefits of the Roosevelt Water Tower.

RELATIONSHIP TO OTHER PROJECTS
This project is related to City-Wide Distribution System Improvements project. Design is being completed under CIP 4281000034.

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the Water Distribution system combination pressure reducing & pressure sustaining valves, Pressure relief valves, Altitude valves, Modulating altitude valves, Check valves - flapper type, Swing flex check valve w/ backflow actuator and Electric check valves. These specialty valves require annual maintenance. Dorner Company of Sussex, WI has staff that are trained and certified in these specialty valves along with their Link2Valves maintenance management program. This CIP is to contract with Dorner Company for a two year period for valve cataloging, inspection, functionality, confirm stroke, clean, replace miscellaneous small fittings-if needed, and provide service report with repair suggestions. Cost is $3,500 a day cataloged, inspected, and tested. Additional parts used during repairs are estimated to be between $3,000 to $10,000 per valve depending on size and condition. Currently there are 21 specialty valves in the system and they estimate this taking three days to catalog/inspect.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

All water customers served by City water.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the protection of water mains located across and through drainage-ways and creeks. During past storm events, the water main creek crossing protection or erosion control has washed away, exposing lengths of the water distribution system. This project provides for the necessary restoration of the water main protection in and around creek crossings to prevent further exposure of the water mains. There are fifteen locations identified in need of improvements. Funding was provided in FY23 that allowed design of four critical locations with one location (Radford Rd) currently under construction to be complete in FY26. The FY27 funding represents construction of the remaining three sites designed: Seippel Rd, NW Arterial (West), and NW Arterial (East). FY31 represents design and construction of improvements at the other identified locations: Carter (950 ft south of 32nd St), Carter (at 32nd St), Cousins Rd, Fremont Ave, Louella Ln, Old Mill Rd, Pennsylvania Ave, Rockdale Rd (at Brian), Samantha Dr (at Holliday Dr), Southern Ave, and 32nd St (at Ski Slope).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the development of a Water Distribution System Master Plan. Building on the Eagle Point Water Plant Condition Assessment, the master plan will provide both short- and long-term capital improvement planning for the City's water storage and distribution system, while also serving as a tool for interdepartmental coordination on projects and financing.

The master plan will include:

* An overview of the current distribution system, with analysis of storage and pumping capacity based on existing and projected water demands.
* A review of the hydraulic model to identify and evaluate deficiencies under both current and future conditions.
* Capital improvement recommendations with cost estimates and implementation timelines, categorized into short-term (0–5 years), medium-term (6–15 years), and long-term (16–25 years).
*Strategies to address key system challenges, including:
    *Reducing the costly process of pumping and re-pumping water between zones.
    *Addressing storage deficiencies throughout the system.
    *Developing a plan to replace or upgrade aging distribution facilities.
    *Identifying capacity constraints in planned growth areas.
    *Determining the optimal pressure zones to serve future service areas.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the new CIP-DMZ(District Metered Zone)

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: 2027 PROJECT NO:	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of installing two regulatory monitoring/flushing stations in the distribution system. The 2025 Iowa Department of Natural Resources Sanitary Survey recommends pulling chlorine readings for all nine pressure zones. The flushing portion of the station will provide a site for water quality enhancement through chlorine residual testing, pressure monitoring, and conductivity that will be reported to the water treatment SCADA system.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Pressure zone 5 Olympic Hts, Pressure zone 8 Cottingham Rd.

$ —	$ —	TOTAL	$ 180,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides the funding to build a pilot District Metered Zone (DMZ) in the second pressure zone. The distribution flow meters will be compared to billing meters in the defined area to quantify the nonrevenue water loss in the area. Flow meters will be installed and connected to the Water SCADA system via fiber optic network. The information will be compared to the master flow meter filling the Roosevelt water tower and billing meters to pin point areas of water loss to focus distribution repairs to assist in the reduction of non-revenue water. This program will also lay the template for using the Distribution System Master Plan to map out future areas of town to isolate into DMZs allowing the tracking of non-revenue water and its elimination. The systematic quantification of water in the DMZ may also be used by the Engineering Department in their efforts to track excess sanitary flows via sanitary sewer flow metering.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Water Distribution Master Plan.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Multiple locations in the second pressure zone.

DEPARTMENT:		STATE PROGRAM:	PROJECT TITLE:			YEAR FIRST SUBMITTED: FY 2027 PROJECT NO: 4281000076		TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the water construction funds in support of the City's efforts implement an enterprise asset management system through use of a computerized maintenance management system (CMMS). Enterprise asset management combines software, systems and services, and system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Sanitary, Enterprise Asset Management System Software - Water, Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Fiber

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for fire hydrant assemblies to be relocated/replaced as needed related to the City's sidewalk and curb ramp inspection and replacement program. Replacement of sidewalks, particularly those abutting the curb line at an intersection, will require the installation of curb ramps, typically fire hydrants are also located behind the curb line at an intersection and often conflict with the location where curb ramps will be located or replaced. It is anticipated in future years this program will increase with the installation of curb ramps with detectable warnings required by the Americans with Disabilities Act (ADA).

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Curb and Catch Basin Replacement Program CIP (5521000002), Sidewalk City Owned (CIP 5521000010), and Sidewalk Inspection Program (CIP 5521000006).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides fire hydrant assemblies and associated piping leading up to hydrants being relocated, replaced and installed for damaged hydrants, Water Department projects, asphalt overlay projects, replacements due to normal wear and tear, and ISO compliance. The typical number needed per year is 30, with fire hydrant life expectancy of 30 years. Hydrant cost typically increases by 10 percent each year. This was always part of the operating budget, but due to auditor guidance in FY 2025, this type of expense should now be part of the capital budget.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the installation of permanent auxiliary power emergency generators at two booster pump stations sites (Park Hill and Mt. Carmel) which do not currently have auxiliary power supplies. While there are back-up pumping facilities in each of the Pressure Zones where these stations are located, it is recommended that each station have a dedicated emergency power supply. The United States Environmental Protection Agency states that "Power loss can have devastating impacts on drinking water and wastewater utilities and the communities they serve." Funding includes relocating an existing emergency generator from the Vernon Water Tower site to the Mt. Carmel Booster Pump Station and installing a new emergency generator at the Park Hill Booster Pump Station.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for water main replacement as a part of the Sanitary Sewer Consent Decree project, which involves the reconstruction of approximately 400 LF 8-inch diameter vitrified clay sanitary sewer along Grove Terrace (from W 11th St to Wilbur St). The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan. This project shall be coordinated with storm sewer and water main improvements. The 8-inch diameter vitrified clay sanitary sewer was installed in the early 1900's and has deteriorated to the point that reconstruction is necessary. In addition, property owners have indicated their laterals need to be replaced and in some locations laterals need to be separated to ensure uninterrupted service and reduce the risk of back up.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Engineering CIP for Grove Terrace Sanitary Sewer Reconstruction (Consent Decree)

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

$ —	$ —	TOTAL	$ —	$ 140,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for water main replacement as part of the Sanitary Sewer Consent Decree project, which involves the reconstruction of approximately 400 linear feet (existing alignment) of 6-inch diameter vitrified clay sanitary sewer on Harvard Street (from Alta Vista St to Oxford St). The existing sewer has been identified as a source of inflow and infiltration with multiple offset joints and pipe fractures showing the pipe is in need of rehabilitation or replacement. Rehabilitated using trench-less methods is not an option due to the challenges associated with reinstating services on small diameter line; and is scheduled for removal and replacement with a larger diameter sewer to improve operation and future maintenance. The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS
This project is related to Engineering CIP for Harvard St Sanitary Sewer Reconstruction (Consent Decree).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

$ —	$ —	TOTAL	$ —	$ 320,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for water main replacement as part of the Sanitary Sewer Consent Decree project, which provides for the reconstruction of approximately 1,000 feet (existing alignment) of 8-inch diameter vitrified clay sanitary sewer on Hempstead Street (from Kaufmann Str to Lowell St). The existing clay tile sewer that was installed in 1924 has deteriorated to the extent that cracks and sags in the pipe result in poor performance. The sags and cracks require increased maintenance of the pipe and allow the inflow of extraneous groundwater into the sanitary sewer system. The current alignment places the sanitary sewer close to private property such that realignment of the sewer may be warranted. The sewer is located in Consent Decree Sanitary Sewershed 7 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Engineering CIP for Hempstead St Sanitary Sewer Reconstruction (Consent Decree)

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of water main replacement on Highway 20/Dodge St (from Devon Dr to Concord St). The majority of the water main was installed in the 1939 era. As the highway improvements have been made, including widening, the water main is now located under or adjacent to the travel lanes in certain locations. Due to several recurrent water main breaks and the challenges associated with traffic control, it is necessary to replace this section of water main. The project includes approximately 2,250 ft of 10" water main.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may be funded with State Revolving Funds and Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Hwy 20/Dodge St between Devon Dr and Concord St.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for hydraulic modeling of the City of Dubuque's drinking water distribution system to support potential large water users considering development within the City. The City maintains a hydraulic model, housed and operated by Origin Design, which simulates current system capacities and identifies deficiencies to determine any infrastructure investments needed to ensure a reliable water supply for new customers.

Requests for capacity information are typically received from the Greater Dubuque Development Corporation and may be subject to strict timelines. The funding allocated for modeling enables staff to quickly obtain the critical information necessary to support potential development opportunities.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of making modifications to the 2001 JFK Tower constructed by Landmark Towers. The existing expansion joint is in a state of disrepair and in need of replacement. This project will retrofit the water tower with a new isolation valve and associated piping to make the process of replacing the joint a serviceable component moving forward with limited impact to city services.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

$ 25,000	$ —	TOTAL	$ 35,000	$ —	$ —	$ 35,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project is to replace the existing Leak Detection Equipment. The equipment is scheduled for replacement every five years. One unit was replaced in FY25 and the second is due for replacement in FY27. The continued use of leak detection equipment results in significant savings due to reduced time detecting the leak and improved accuracy of location and overall construction costs.

RELATIONSHIP TO OTHER PROJECTS
This project does not relate to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
The Leak Detection Survey Project consists of monitoring all accessible hydrants and or valves with sensitive listening transducers/amplifier equipment, to determine if leakage is occurring. All areas where leakage is confirmed will be further investigated with the computerized correlator to pinpoint the location of each leak. A report will be submitted containing detailed drawings of all leaks located, the estimated leak sizes, and the savings resulting from the repair of the leaks. A Contractor will provide all equipment and personnel to accomplish this survey. This is a multi-year project with approximately 50% of the distribution system surveyed each year.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

Funding for this project provides for repair or relocation of existing water mains that may be impacted by repair work associated with retaining walls that are owned or are the responsibility of the City of Dubuque. It is necessary for the department to evaluate the water mains adjacent to or crossing retaining walls as they may need to be replaced, supported, or relocated during the retaining wall repair. Access to the water mains in these locations is often difficult and a condition assessment is completed as part of this project to determine if there is strain or issues with the water main. This ongoing program allows for maintenance, repair and reconstruction of the water main in coordination with Engineering.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Stone Retaining Wall Program (CIP #5524000003).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide remaining funds for the replacement of the roof at the Municipal Services Center. The facility was constructed and opened in 2005, and the expected life of a roof is 15-20 years and has experienced extensive leaking over the last 5 years. Replacing the roof will allow the building to function as designed and continue to protect millions of dollars in equipment and vehicles housed within. Partial funding was approved by Council and City Manager in FY2026. This is the Water Department's portion of the shared cost for roof replacement with Public Works.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works Department Municipal Services Roof project, the water department is responsible for a portion.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

The Municipal Services Center is located at 925 Kerper Court.

$ —	$ —	TOTAL	$ —	$ —	$ 617,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of extending water main from Pressure Zone 5 (at the south end of Olympic Heights Rd) to Pressure Zone 3 (near W 32nd Street or Up Hill Both Ways Rd). The water main extension is approximately 2,500 feet.

The Roosevelt Street Water Tower project (completed 2022) was designed to provide effective storage for both Pressure Zones 2 and 3 once future distribution improvements were complete. This project provides for the construction of a connection between Pressure Zone 5 (Olympic Heights Subdivision) and Pressure Zone 3 to effectively connect the two zones, as recommended by the Iowa DNR and as stated in the SRF funding commitment letter for the Roosevelt Street Water Tower construction project. A related project to complete the pressure zone connection is the Water Main Extension Central Ave (Pressure Zone 3 and 5 Connection) Project, which will allow full benefits of the Roosevelt Water Tower. A related project to complete the Booster Pump Station Central Ave (Pressure Zone 1 and 2 Connection) Project will allow an additional method to supply water from Pressure Zone 1 to Pressure Zones 2, 3, and 5.

RELATIONSHIP TO OTHER PROJECTS
This project is related to City-Wide Distribution System Improvements project. Design is being completed under CIP 4281000034.

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded by SRF Funding.

PROJECT ADDRESS/SERVICE AREA
Olympic Heights Rd west to W 32nd St and Up Hill Both Ways Rd

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of the removal and replacement of private lead line service lines (LSLRs) using Bipartisan infrastructure Law (BIL) funding via United States Environmental Protection Agency (EPA) and the Iowa Department of Natural Resources (DNR). The project is being presented that the Iowa DNR is offering a tentative plan where Lead Service Line applicants would receive 49% loan forgiveness on costs related to LSLR projects within qualifying census tracts, i.e. Disadvantaged communities or neighborhoods. The plan also includes 0% interest on the remaining 51% SRF loan/borrowed amount. If a LSLR site is not located within a qualifying census tract, the 0% interest loan rate will still apply without the loan forgiveness.

This request is for local funds to supplement the previously budgeted Private Lead Line Replacement Program (CIP No. 4281000050) for Phases 2 and 3. The local funds will be used to pay for construction costs that are not eligible for the Iowa State Revolving Fund (SRF) Loan and Loan Forgiveness program that are primarily funding that project. It was determined in Phase 1 that certain indoor plumbing improvements at the building entrance are required by City Ordinance to be performed at the time of service line replacement. These improvements are not eligible costs within the Iowa SRF loan program. The estimated costs for these improvements for the approximately 350 service lines to be replaced as a part of phases 2 and 3 are included for FY27. Phases 2 and 3 of the project will not be able to be constructed until this funding is allocated.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of the removal and replacement of all lead line service lines (LSLs) within the City of Dubuque Water Distribution System. Per the requirements of the United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, all service lines must be removed from the system within a 10-year period, effective November 1, 2027. In the City of Dubuque, all service lines from corporation stop (at the main) to the meter are privately-owned with portions of the line in right-of-way and on private property.

This project will build upon the tools and experience gained in the Private Lead Line Replacement Program (CIP No. 4281000050), which was programmed to remove approximately 600 LSLs in 2025 and 2026. This project will be aimed at replacing the remaining approximately 3,900 total lines within the City's system. Under this project, an implementation plan will be developed in FY27, with a multi-year series of construction projects starting in FY28 and ending by FY37. The total cost of this LSLR project has been estimated at a value of approximately $60 million.

The implementation plan will address several facets of the program, including methods for financing, phasing, design, construction, program administration, ordinances, and communication. The project includes budgeting local funds and Iowa SRF loan funds to complete the implementation plan and then administer a program to construct the replacements. **While it is intended the city will take on the investment in term SRF debt, the property owner would be responsible to make the payments by assessing their property.**

To ensure compliance with the United States Environmental Protection Agency (USEPA) final Lead and Copper Rule Improvements (LCRI), and to achieve full-service line removal within the required 10-year timeframe, the current plan is to offer low-interest State Revolving Fund (SRF) loans to voluntary participants who enroll in the program. The City will budget $1,000,000 annually for the first four fiscal years, targeting the replacement of approximately 67 service lines per year. **Beginning in FY2032, the program is scheduled to transition to an involuntary structure, increasing annual replacements to approximately 605 service lines.** The program will be evaluated each fiscal year, with voluntary participation levels closely monitored. If participation is lower than anticipated, implementation of the involuntary phase may be accelerated, and higher funding requests may be brought forward sooner than currently projected. Funding is anticipated to be secured primarily through state loan programs, with loan repayment facilitated through assessments to participating property owners.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: 2027 PROJECT NO:	TOTAL PROJECT COST
42 - Water Department	8C - Business Type	Private Lead Service Line Replacement Program (City-Wide)		$ 4,050,000

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS
This project may only be funded with State Revolving Fund Loans and Water Construction Funds. The SRF debt payments will be paid by the property owners and not the city.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for the removal and replacement of the Water Department's existing public lead water mains. May Place, Union Street, Austin Street, Washington Street, and Roland Street. This project will eliminate the department's public lead line water mains that were installed in the early 1920's. Design is estimated to be completed in FY2026. Replacement of one location will be done in FY2026 with the remaining four locations to be completed in FY2027.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of extending water main along Seippel Road and Pennsylvania Avenue from an existing dead end (north of North Westbrook Drive on Seippel Road) further north approximately 1,300 ft and east approximately 1,400 ft to serve a subdivision currently being planned for development. This subdivision is included within an annexation agreement that requires extension of City water service to the property within a 1-year period following commencement of construction of public improvements on the property.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This request is for PFOA/PFAS reduction at the Eagle Point Water Treatment Plant. This option includes rehabilitating the existing gravity filters with granular activated carbon for PFAS removal instead of a straightforward, in-kind replacement of the existing sand and anthracite media. The rehabilitation of the filter underdrains and related appurtenances is also necessary as identified by performance testing completed in 2022. Environmental Protection Administration compliance date for PFAS regulations is April 26, 2029, in which systems must have implemented treatment for PFAS maximum contaminate limit. There are approximately 20 gravity filters that will be replaced in stages beginning in Fiscal Year 2028 for an anticipated cost of $10.9 million. All gravity filters are estimated to be replaced by the end of Fiscal Year 2032.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Source Water PFAS Reduction Project - Deep Well (4281000051).

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Continue to provide safe, affordable and dependable drinking water for all residents through a high performing water treatment plant.

FUNDING RESTRICTIONS

This project may only be funded with SRF Loan Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This request is for PFOA/PFAS reduction at the Eagle Point Water Treatment Plant. This option is for the construction of one new deep aquifer well to provide additional uncontaminated water supply to the Eagle Point Water Treatment Plant and reduce use of shallow aquifer wells. A PFAS settlement is being paid to the City over ten years, with $2.4 million received FY25-FY26. These settlement funds are providing funding for Water capital projects. This project was funded previously in Fiscal Year 2024 and Fiscal Year 2025 for design and engineering work.The constuction portion of the project is estimated to start in early calendar year 2028 and take approximately 12 months to construct. The overall cost to rehab the deep well is $6.2 million.

RELATIONSHIP TO OTHER PROJECTS
This project is related to Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Continue to provide safe, affordable and dependable drinking water for all residents through a high performing water treatment plant.

FUNDING RESTRICTIONS
This project may only be funded with SRF Loan Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of water main replacement on S Algona St (from St Joseph St to Lombard St). The water main was installed in 1923 and has 8 documented breaks on a half block section of pipe from 1996 to 2024. Due to the terrain at this location, often when the main fails it undermines a portion of S Algona St and a large section of St Joesph St, which adds significant repair costs. Due to several recurrent water main breaks and the challenges associated with repairs, it is necessary to replace this section of water main. The project includes approximately 850 ft of 10" water main.

The section of water main in this project that has given the Water and Public Works Department issues for several years. In 2013 the water main and street repairs cost $73,381 and only repaired 5 feet of water main. Most of the 2013 cost was related to street repair. The water main break in 2024 replaced about 8 feet of water main and damaged and/or undermined approximately 20 concrete panels, some of which were already replaced during the 2013 repairs. Not only are the residents inconvenienced with unplanned water outages, but they are also inconvenienced with frequent street repairs limiting access to their homes and affecting their parking options.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project is for the replacement of Standard Utility Service Van to a Standard Utility Service Truck, regular cab, 4X4, 4500 series Water Distribution service/ emergency response truck specifications. This vehicle will include rear crane lift, heated service truck box and hydraulic pump. The existing vehicle is showing signs of rust around the wheel wells and has several mechanical issues during its time in service. The vehicle is undersized for the load it carries. The vehicle replacement is for operational adjustments which includes a more diverse service worker for better efficiency and response times, employee safety in performing water distribution system maintenance, and responding to emergency calls affecting the health and safety of the residents of the City of Dubuque.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy & Safe: Provide high-quality emergency services that are accredited and uses best practices.

PROJECT DESCRIPTION/JUSTIFICATION

This project is for the replacement of the maintenance and supervisory vehicle with a super cab, 4X4,1500 series truck specifications. The existing vehicle is a transferred unit starting with fire and then housing. It is showing rust around the wheel wells and has engine oil leaks. The vehicle is undersized and limits the load it can carry. The vehicle replacement is in line with the original approved improvement package from FY23 for operational maintenance at pump stations including, but not limited to, delivering bulk sodium hypochlorite liquid, changing reagents for chlorine analyzers, well sampling and measurement, distribution system sampling, safety and security inspections at the tanks, towers, and delivering parts as necessary to each of the nineteen(19) remote facilities of the treatment and pumping operation. The vehicle will have a utility box for onsite repairs and maintenance work, and will have a spray in the bed liner for hauling materials and products to each site. This third vehicle is used to improve situations associated with the daily challenges of four maintenance and operations staff, two operator special assignments and two maintenance staff, managing electrical and mechanical needs which are often at odds with scheduling two vehicles and ensuring work is performed in a timely manner. This third vehicle reduces the wait and response time to perform work and improve overall efficiency within the group. This vehicle also provides available transportation for staff to deliver customer notices and the consumer confidence reports. It also provide transportation for other City business, like conferences, classes, etc., which are now being done with private vehicles. The vehicle is a 1/2 ton truck with utility box and spray in bedliner.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to support design and construction of water main improvements or relocations resulting from roads and street related improvements. This project is an annual program providing for the design and construction of water mains that are to be replaced or relocated as part of the general street construction repairs and related improvements. This project is to be coordinated with street projects developed in the Engineering and Public Works departments.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Street General Repairs Program, (CIP# 5521000012)

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project requests the replacement of Water Meter Registers (Piece on top of a meter that totalizes the water usage) and Water Meter Interface Units (Device that send usage totals to the billing system) used for the purpose of billing Water usage and Sewer intake. The costs per year include the replacement of the estimated number of units of MIUs and Registers based on known failure rates and the labor that may be required to replace the units when internal resources are not available. In 2009, the City of Dubuque conducted a city-wide water meter replacement program. All meters were replaced with Neptune brand water meters. Each part and product warranty varied with the meter assemblies. Meter interface units (MIUs) replacement warranty was 100% for the first 10 years. For each year thereafter, the warranty was pro-rated, and the City would be required to pay a portion of the MIU replacement. Starting in year eleven (11) the City pays 30% and each year thereafter the City's percentage goes up 5%, until the warranty is finished in 2034. Having discussed a proactive replacement program with Neptune and local supplier Ferguson Water Works, a cost-effective way to replace the meters at a lower cost to the City would be to conduct a 5-year replacement program, in lieu of replacing the MIUs over the remaining prorated warranty period. This will reset the full warranty on replaced MIUs. The project provides funding for a proactive 5-year MIU replacement program which can be funded through SRF. FY22 Funding reflects the replacement of 4557 MIUs to be replaced at a reduced cost as they would still be under full warranty, and years FY23 thru FY32 reflect the replacement of 5,000 MIUs per year to complete the project for those MIUs no longer under warranty. As part of the program, Ferguson Water Works will be making an investment estimated to be $240,000 in the necessary infrastructure to support the City's transition from the R450 system to the R900 System. The investment includes new collectors and necessary wiring and conduit at 15 sites to support the new technology. This project also provides funding for water registers. The Registers carry a 10-year full replacement warranty, after which, the City will be responsible for the costs of replacement parts. There are currently 18,067 Registers that will need to be replaced as they fail. The rate of failure is estimated at 1,350 per year equating to $137,550 per year.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the funding to evaluate efficient water storage usage and to clean, spot prime and paint the interior and exterior of the Water Storage Tanks. Painting of water tanks is a cyclical program; coatings can last up to 20-25 years. FY27 $250,000 College Tower for design and engineering of corrective actions and funding for water storage master plan. FY 28 $1.4M, College Tower construction costs for retrofit, sandblast, and paint. FY 29 $150,000 Park Hill Standpipe design and engineering of corrective actions. FY 30 $1.21M Park Hill Standpipe construction costs for retrofit, sandblast, and paint. FY 31 $150,000 Pennsylvania Standpipe design and engineering of corrective actions. FY 32 $1.35M, Pennsylvania Standpipe construction costs for retrofit, sandplast, and paint. Tank coatings required to maintain the structure of the tank, the water quality to reduce biofilm, as well as enhancing the aesthetics of the tanks. This project is related to Water Storage and Distribution master planning. This project provides $25,000 for the annual inspection of all water storage tanks and towers. Tank maintenance activities may be adjusted based on the findings and recommendations from these annual inspections, including potential operational or capital improvements.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the requested Water Distribution System Master Plan CIP

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with SRF Loan Funds and Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides the funding to systematically replace the in-tank mixers at each of the Water Storage Tanks in the distribution system. Tank contents mixing is critical to maintaining water quality in the storage and distribution system. Tank mixers are installed at ten storage tanks (reservoirs and towers) with an anticipated replacement frequency of 10 years.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for the systematic replacement of aging roofing systems at the Eagle Point Water Plant. The membrane roofing systems were inspected in September 2020 and noticeable failures were identified. FY25 funding provided for the replacement of four sections of roof covering the north plant basin 1&2, the third floor of the administration building and the lime silo penthouse. FY26 provides funding for roof replacement over the sludge plant, sludge plant wet well walkway between sludge clarifiers, sludge plant electrical room, and roof section over south plant basins and admin offices. FY28 funding will replace the roof over the North plant filter bay. FY29 funding will replace the roof over East clearwell and install new roofing membrane over west clearwell. Roofing systems will be replaced with Thermoplastic Membrane, including new vapor barrier, R30 insulation, and protective hardboard and will carry a minimum 20-year warranty. The new roofing systems provide additional insulation capable of reducing carbon emissions.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Water Treatment Plant Condition Assessment and Master Plan (CIP # 4281000026)

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for repairs and rehabilitation associated with the City's groundwater supply (wells, pumps, motors) including source water protection of the well field and the raw water transmission lines from the wells to the treatment plant. The City draws from both shallow and deep wells and each well should be inspected every 5 years and 10 years respectively, barring any known issues. The wells should be inspected, and the well screen cleaned to remove sediment or debris that may be reducing well output. FY26 funding provided for the rehabilitation of Well 10. FY27 funding provides for the rehabilitation of Wells 2 & 9. FY28 funding provides for the Rehabilitation of Well 5. The out years provides funding to continue the 5-year program maintenance. The well field from where the City draws its drinking water supply was subject to the Safe Drinking Water Act amendments of 1996, which required a Source Water Assessment. The Assessment included evaluating the level of protection that was in place to protect sources of drinking water. The well field should be evaluated to determine what improvements are necessary to ensure the City is continuing to assess the protective measures in place for the City's drinking water supply. .

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for water main extension along Seippel Rd (from N Westbrook Dr to Pennsylvania Ave) and along Middle Rd (from Seippel Rd to Jonquil Terr). The project includes approximately 11,600 ft of 12" water main and a booster pump station. The utilities have not been requested by property owners for the previously annexed areas and the City does not know when it will be necessary to construct the utilities. Due to this uncertainty, design and construction are budgeted for an initial portion of the work (approximately 6,600 ft of water main) to begin in FY28, with the remainder to be completed following FY32. If the utilities are requested prior to then, the City will adjust the budget as necessary to comply with the requests.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded with SRF Loan Funds and Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the funding to conduct an engineering and environmental analysis of the piping in the pipe gallery at the water treatment plant, and the Asbury and West Third Pump stations. This project also provides for construction funding associated with the piping rehabilitation. The current pipe protective coatings are starting to fail. The failure can be observed as the pipes and fasteners are beginning to corrode due to highly humid environment.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the replacement of aging 18 inch magnetic flow meters in the raw water supply lines to the south treatment basins. During flow verification/validation in FY24 it was recommended to update the meters due to them being less than 80% accuracy. Per Iowa Department of Natural Resources water use permit, the Water Department is required to maintain accurate water withdrawal records. Replacing the aging meters will aid in this regulatory compliance requirement.

PROJECT DESCRIPTION/JUSTIFICATION
This project consists of extending water main along Military Rd (from Key West Dr to SW Arterial), SW Arterial (from Military Rd to Tamarack Dr), and Tamarack Dr (from SW Arterial to Silverwood Dr) to create a loop in the south extents of Pressure Zone 3. The water main extension is approximately 9,500 ft of 16-in water main, including a crossing under the SW Arterial and a storage connection at the proposed Water Tower Military Rd project.

The water main extension provides a water main loop from Key West Dr, along the SW Arterial, to the Crossroad Industrial Park, Tamarack Industrial Park, to the water main connection at US Highway 151/61. The water main will be supported by the elevated Water Tower Military Rd Project to improve supply redundancy and resiliency for the south part of Pressure Zone 3, which also supplies water to Pressure Zones 6 and 7 (Airport area).

RELATIONSHIP TO OTHER PROJECTS
This project is related to City-Wide Distribution System Improvements project (4281000034).

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded with SRF Loan Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the systematic installation of conduit, fiber optic cable, and network connections at remote lift stations throughout the city, enabling reliable communication through the City's network and integration with the Water & Resource Recovery Center's (WRRC) SCADA system. Currently, eight of the 21 lift stations rely on an aging Alvarion 900 MHz radio system that is over 15 years old, and five lift stations have no remote communication at all.

Delayed or failed communication can prevent timely notifications of equipment failures, increasing the risk of untreated wastewater bypassing into the environment. Both cellular and radio communication methods have proven unreliable, with intermittent interruptions triggering SCADA alarms that may obscure more serious issues.

By establishing a high-speed, fiber-based connection at each lift station, WRRC staff will gain real-time access to pump status, flow data, and alarms—enhancing operational oversight, accelerating response times, and reducing the risk of environmental impacts.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the repair and replacement of HVAC equipment at the Water & Resource Recovery Center (WRRC) and sanitary sewer lift stations. The WRRC and lift station HVAC systems include components such as louvers, fans, gravity roof ventilators, rooftop units, make-up air units, gas-fired unit heaters, electric unit heaters, and water source heat pumps. Many of these components experience accelerated deterioration due to the corrosive atmosphere commonly present in wastewater facilities. Hydrogen sulfide and other gases shorten the useful life of HVAC systems, leading to higher maintenance demands and reduced reliability.

The HVAC systems at the WRRC serve multiple critical functions. Beyond maintaining proper climate control for electrical and process equipment—particularly in Motor Control Centers, where overheating can lead to system failures and process disruptions—these systems are essential for maintaining safe indoor environments. Proper ventilation mitigates the buildup of gases that, while often harmless at low concentrations, can pose health, safety, or fire risks if not adequately exhausted. Reliable HVAC operation is therefore fundamental to protecting infrastructure, ensuring continuous treatment performance, and maintaining safe working conditions for staff throughout the WRRC and its lift stations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the refurbishment and eventual replacement of the Water & Resource Recovery Center's (WRRC) mechanical bar screens, which serve as the first line of defense in the wastewater treatment process. Bar screens remove large debris and non-biodegradable materials from incoming wastewater, protecting downstream pumps, channels, and process equipment from clogging or damage.

Funding in FY25 and FY26 provided funding for minor improvements to extend their service life and maintain operational capacity. More substantial improvements will be necessary to accommodate the increased flow resulting from improvements to the Catfish Creek Interceptor, including the Old Mill Road Lift Stations scheduled to come online in FY27. These upstream improvements will expand sewer capacity to meet anticipated development demand, which will, in turn, increase influent flow to the WRRC. The higher flow rates will elevate loading on the headworks equipment, necessitating more robust bar screens designed for modern hydraulic and debris conditions.

The new bar screens are expected to generate operational savings through improved energy efficiency and reduced maintenance needs. Modern screening equipment is designed with more efficient motors and optimized cleaning mechanisms, allowing the units to operate less frequently and use less power during each cleaning cycle. Based on industry data and comparable installations, energy savings are projected at approximately 10–15% compared to the existing equipment. In addition, the new bar screens will significantly decrease maintenance costs by preventing rags and debris from bypassing the screening process. Material that currently passes through the worn screens often clogs downstream pumps and valves, requiring manual cleaning and unplanned maintenance. Reducing these events will save an estimated $5,000–$7,000 annually in labor and repair costs. Combined energy and maintenance efficiencies are projected to reduce total operating costs by approximately $8,000–$10,000 per year, while also improving system reliability and reducing the risk of process interruptions.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for facility improvements at the Water & Resource Recovery Center (WRRC) to meet nutrient reduction requirements and increase the plant's treatment capacity for biochemical oxygen demand (BOD), total suspended solids (TSS), and flow. The WRRC was issued a new NPDES permit on April 1, 2025, which—like the previous permit—includes requirements supporting the Iowa Nutrient Reduction Strategy. Specifically, the permit requires the City to prepare and submit a report evaluating the feasibility and reasonableness of reducing nitrogen and phosphorus discharges to surface waters. The report must be submitted no later than November 1, 2027, and will serve as an addendum to the Nutrient Reduction Study previously submitted to the Iowa Department of Natural Resources (IDNR).

Funding of $35,000 in FY27 is provided to prepare this updated nutrient reduction report, which will evaluate new and emerging treatment technologies for nitrogen and phosphorus removal and update the implementation schedule for achieving a 66% reduction in total nitrogen and a 75% reduction in total phosphorus, consistent with IDNR's nutrient reduction strategy.

The City is currently developing a comprehensive Facility Plan for the WRRC, expected to be completed by the end of calendar year 2027. The Facility Plan will assess future treatment needs, evaluate system capacity, and identify the timing and scale of major improvements required to meet regulatory and community demands. It is anticipated that nutrient reduction improvements may be most cost-effective when implemented in conjunction with larger facility upgrades needed to accommodate increased BOD and TSS loadings. It is also likely that advancement of preliminary design or related improvements will be necessary within the five-year CIP period to address nutrient reduction requirements and maintain permit compliance. The findings of the Facility Plan will guide the scope, sequencing, and funding of these future efforts to ensure coordinated, efficient, and sustainable investments in Dubuque's wastewater infrastructure.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement and modernization of industrial control components at the Water & Resource Recovery Center (WRRC). The WRRC relies on programmable logic controllers (PLCs) and industrial communication networks to collect, process, and transmit critical data for process monitoring and control. These systems form the backbone of the facility's automation network, ensuring that treatment processes operate safely, efficiently, and reliably.

During the COVID-19 pandemic, global supply chain disruptions and component shortages led manufacturers to discontinue production and technical support for many existing control hardware lines much earlier than anticipated. Equipment that should have remained serviceable for another decade or more effectively became obsolete as manufacturers shifted their focus and resources toward new product lines. As a result, sourcing replacement parts has become increasingly difficult, resulting in increased system interruptions and failures.

The City awarded the construction contract for the first phase of the Industrial Controls Upgrade Project in late 2025. This phase is funded through an FY26 appropriation in the amount of $2,066,000 (which includes insurance proceeds), an FY27 appropriation in the amount of $919,700. The FY28 budget appropriation includes $45,000 for engineering and design and $500,000 for construction of the second phase of the improvements. FY29 and FY30 provide additional funding for construction of the second phase, ensuring that all electrical controls at the Water & Resource Recovery Center will be replaced by the end of calendar year 2029.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: 2023 PROJECT NO: 4381500017	TOTAL PROJECT COST
43 - Water & Resource Recovery Center	8C - Business Type	Industrial Controls Upgrade		$ 7,214,701

PROJECT DESCRIPTION/JUSTIFICATION (cont.)

The project will generate operational savings by eliminating the need to source and replace obsolete control system components that are increasingly difficult and costly to obtain. The existing DeviceNet® and PLC equipment are no longer supported by the manufacturer, forcing the City to rely on aftermarket parts and specialized labor for repairs—often at premium cost and with extended lead times. Failures within these outdated systems also create operational disruptions, as interdependent controls can affect multiple treatment processes simultaneously. By replacing the obsolete systems with standardized, Ethernet-based controls and modern PLC hardware, the City will reduce repair frequency, minimize downtime, and avoid escalating costs for obsolete components. Annual operational savings are projected at approximately $15,000–$20,000, reflecting reduced parts procurement costs, avoided emergency repair expenses, and improved process stability that limits unplanned operational adjustments.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to any other capital improvement projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded by Sanitary Sewer Construction Funds or a State Revolving Fund loan.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the existing 2007 Kawasaki Mule utility vehicle with a new electric 4x4 utility terrain vehicle (UTV). The UTV is used daily by operators to access multiple areas and processes across the 14-acre Water & Resource Recovery Center (WRRC) site. It enables staff to respond quickly to operational needs, cover more ground in less time, and efficiently complete tasks across the facility. The vehicle is also used for short-distance travel to nearby facilities, including the Catfish Creek and Granger Creek Lift Stations.

The new electric UTV will offer improved reliability, reduced maintenance, and increased fuel efficiency compared to the existing gas-powered unit. The project reflects a purchase cost of $13,500 for the replacement, with revenue of approximately $500 to be recovered through the sale of the existing Mule. The new UTV supports the City’s sustainability goals by reducing emissions and aligns with the WRRC’s commitment to operational efficiency and environmental stewardship.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS
This project can be funded by Sanitary Sewer Construction Funds.

$ —	$ —	TOTAL	$ 16,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the existing equipment trailer at the Water & Resource Recovery Center (WRRC). While the current trailer remains in good repair, it no longer meets the operational needs of the WRRC. In FY25, the WRRC purchased a compact track loader to support maintenance activities such as drying pad management, snow removal, and brush clearing or mowing on WRRC property. The equipment has improved the facility's ability to maintain the drying pad and reduce odors; however, its use is limited because the existing trailer is undersized to safely transport the loader.

The track loader is also used for maintenance at various sanitary lift stations and other WRRC sites, requiring staff to rent a trailer each time it must be moved. Replacing the current trailer with a properly sized unit will improve safety, functionality, and efficiency by allowing WRRC staff to transport the loader and attachments without delay or rental cost. This investment supports more effective site maintenance and contributes to odor reduction and overall operational reliability.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the laboratory still used to produce distilled water at the Water & Resource Recovery Center (WRRC). The WRRC's environmental laboratory is certified by the State of Iowa, meaning its test results are legally defensible for compliance with environmental regulations. Distilled water produced by the still is essential for laboratory operations, including the preparation of blanks and dilutions, as well as for cleaning glassware and analytical equipment.

The existing still is more than 20 years old. While it remains functional, it requires frequent maintenance and experiences periods of downtime during repairs, disrupting laboratory operations. Replacement with a new, energy-efficient still will improve reliability, reduce maintenance needs, and ensure the laboratory can continue to meet state certification standards and support the WRRC's regulatory compliance efforts.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the two 30-horsepower fixed-speed compressors and associated air dryer that supply compressed air to process equipment throughout the Water & Resource Recovery Center (WRRC). Compressed air is essential for the operation of numerous systems across the facility, including the centrifuges, sludge pumping systems, and various auxiliary diaphragm pumps used in multiple treatment processes.

The existing compressors have operated continuously for many years and are experiencing more frequent breakdowns and repairs, reducing system reliability and increasing maintenance costs. Replacing the existing units with modern, energy-efficient models will improve reliability, reduce maintenance demands, and ensure uninterrupted operation of critical treatment processes.

The replacement of the existing compressed air system will reduce annual maintenance and repair costs associated with the aging compressors and air dryer. The current units require frequent service due to wear and reliability issues, resulting in annual maintenance expenses ranging from $1,500 to $3,000.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the installation of new process control instrumentation to better monitor dissolved oxygen (DO) levels within the activated sludge system at the Water & Resource Recovery Center (WRRC). The improvements include the installation of three in-process DO probes, one in each of the three high-purity oxygen aeration trains, and a new vent gas DO monitor.

These instruments will provide operators with real-time data on the oxygen levels within the biological treatment process, allowing for precise control of oxygen delivery. Maintaining optimal oxygen levels ensures that sufficient oxygen is provided to sustain biological activity while avoiding excessive oxygen feed that leads to energy waste. Real-time monitoring will also allow operators to quickly identify and respond to abnormal conditions, helping to prevent process upsets and maintain consistent treatment performance.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

$ —	$ —	TOTAL	$ 40,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement and enhancement of influent and effluent monitoring equipment at the Water & Resource Recovery Center (WRRC) to support real-time process control and early detection of abnormal conditions. The improvements include installation of enhanced sampling and analysis equipment for the influent stream—providing continuous pH and conductivity monitoring—and replacement of existing effluent monitoring equipment to provide continuous, real-time data for process control.

Currently, influent monitoring relies on daily composite sampling for BOD and TSS and grab samples for pH. While this approach is the industry standard and meets regulatory requirements, it does not provide immediate feedback when influent conditions change. Real-time influent data will alert operators to potential issues as they occur, allowing timely adjustments to maintain stable treatment conditions. Monitoring conductivity in real time adds a valuable early-warning capability: sudden changes in conductivity can indicate industrial discharges, chemical releases, or dilution events entering the collection system—alerting staff that “something different” is coming into the plant before it impacts treatment performance.

Upgrading both influent and effluent monitoring systems will give operators actionable, continuous data to optimize treatment processes, detect anomalies early, and respond quickly to prevent system upsets. The improvements will enhance process reliability, operational awareness, and compliance assurance while supporting the WRRC’s broader goals of data-driven decision-making and proactive process management.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the existing hoist in the Water & Resource Recovery Center (WRRC) maintenance shop. The hoist is used by maintenance staff to lift and position heavy equipment such as pumps, motors, and other mechanical components for repair and service. The existing unit is aging and lacks a safety latch on the hook—an essential feature that prevents a suspended load from slipping off the hook.

Because the current hoist does not meet OSHA safety standards, maintenance activities must often be performed without its use, resulting in less efficient and more labor-intensive work practices. Replacing the hoist with a new, OSHA-compliant model will improve workplace safety, enhance efficiency, and reduce the physical strain on maintenance personnel while ensuring safe handling of heavy equipment throughout the WRRC.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

$ —	$ —	TOTAL	$ 77,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the replacement of the two scum pit pumps and their two backup pumps that serve the final clarifiers at the Water & Resource Recovery Center (WRRC). These pumps are critical components of the solids removal process, transferring collected scum and floatable material from the clarifiers for further treatment and disposal.

The existing pumps were installed in 1990 and have reached the end of their useful life. Due to significant wear and age, they can no longer be effectively rebuilt, and repairs have become increasingly difficult and costly. The pumps fail frequently, resulting in additional maintenance demands and occasional operational interruptions.

Replacement of these pumps with modern, high-efficiency units will restore system reliability, reduce unplanned downtime, and ensure proper removal and management of floatable materials from the treatment process. This improvement will help maintain consistent effluent quality, reduce maintenance costs, and enhance overall plant performance.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to any other capital improvement projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

$ —	$ —	TOTAL	$ 45,000	$ 30,000	$ 15,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project establishes funding for the timely replacement of critical equipment at the Water & Resource Recovery Center (WRRC) that fails during the year and is more cost-effective to replace than repair. The continuous operation of WRRC systems is essential to maintaining compliance with the facility's National Pollutant Discharge Elimination System (NPDES) permit and protecting the integrity of the wastewater treatment process. Many mechanical and electrical assets operate in harsh environments that can lead to unexpected equipment failure. When this occurs, immediate replacement is often necessary to avoid treatment disruption or potential noncompliance. This CIP provides a flexible funding source to address these unplanned needs as they arise throughout the fiscal year.

Funding is programmed for a three-year period, with allocations decreasing each year as the WRRC's Computerized Maintenance Management System (CMMS) becomes fully functional. The CMMS will enable proactive scheduling of repairs and replacements based on asset condition and maintenance history, reducing the need for contingency replacement funding. Until that system is fully implemented, this project ensures WRRC staff have the means to promptly replace failed equipment and maintain uninterrupted treatment performance.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Facility Management Plan Update which includes the development of a CMMS.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to repair and restore treatment system infrastructure at the Water & Resource Recovery Center (WRRC) that is currently out of service or operating unreliably due to age, wear, or deferred maintenance. The work focuses on restoring the mechanical and electrical assets that support the City's treatment processes—including pumps, valves, motors, actuators, and other associated equipment—so that redundant and standby systems can be brought back into reliable service.

Over the past several years, a tipping point occurred where the balance of maintenance work at the WRRC shifted from preventive maintenance to reactive repairs. As equipment issues increased, maintenance staff were required to focus primarily on emergency and urgent repairs, leaving less time available for preventive maintenance. This cycle has compounded over time, resulting in additional unplanned outages and diminished reliability. To help reverse this trend, the WRRC intends to hire qualified mechanical contractors to perform much of the repair and restoration work necessary to address the existing maintenance backlog. Engaging outside contractors will allow the City to complete high-priority repairs more efficiently while enabling in-house maintenance staff to concentrate on preventive maintenance and routine operational support. The goal of this project is to restore balance—returning maintenance operations to a primarily preventive focus. If this can be accomplished over the next 12 to 18 months, the City will be in a stronger position to re-evaluate long-term maintenance staffing levels or other structural changes needed to sustain a proactive maintenance program.

By investing in treatment system infrastructure restoration, the WRRC will enhance operational reliability, reduce odor risk, and ensure that the facility can continue to meet permit obligations while maintaining safe, efficient, and sustainable operations. The project is expected to generate measurable operational savings by reducing the frequency of emergency repairs and unplanned equipment failures. As critical treatment infrastructure is restored and redundant systems are brought back online, maintenance activities will transition from reactive to preventive work. These improvements are projected to reduce annual maintenance costs by approximately 5–10%, or about $50,000 per year, once full reliability and preventive maintenance efficiencies are achieved.

$ —	$ —	TOTAL	$ 17,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the existing drum thickener room doors in Building 75 (Solids Handling Building) at the Water & Resource Recovery Center (WRRC). The existing doors have deteriorated significantly due to prolonged exposure to hydrogen sulfide (H_2S) and the corrosive environment created within the solids handling area. Because the current doors are not constructed of stainless steel, the H_2S has corroded the metal, resulting in visible holes, thinning, and material loss around the edges and seams.

The deteriorated doors compromise both the integrity and safety of the facility, allowing the potential for air leakage, contributing to odor issues, and increasing maintenance requirements. This project will replace the existing doors with stainless steel units specifically designed to withstand the corrosive effects of hydrogen sulfide and other gases common in wastewater treatment environments.

Replacing the doors will improve the building's structural integrity, reduce odor migration, and ensure long-term resistance to corrosion—enhancing safety and protecting the City's investment in the WRRC's solids handling infrastructure.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to any other capital improvement projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

$ —	$ —	TOTAL	$ 84,000	$ 22,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to hire a qualified safety consultant to develop a comprehensive, WRRC-specific safety program within a 12–18-month period. The consultant will prepare the full suite of written safety documentation required under the City's Safety Program Responsibilities, including hazard assessments, emergency procedures, safe-work practices, PPE requirements, chemical safety documentation, contractor safety protocols, inspection schedules, and incident-reporting processes. Scope will include the development of Standard Operating Procedures (SOPs) and safe-work practices for all WRRC buildings, processes, and operational environments, including off-site lift stations. Work will include evaluating hazards associated with anaerobic digesters, high-purity oxygen systems, biogas piping, chemical feed systems, electrical systems, laboratory operations, sludge handling equipment, confined spaces, mechanical equipment, and other WRRC treatment infrastructure. It will include the development of facility-specific safety manuals for contractors that perform work at the facility to ensure they understand the hazards and requirements for each building.

The WRRC currently does not have a comprehensive, facility-specific safety program that meets the full requirements of the City's Safety Program Responsibilities. These responsibilities require each department to maintain written procedures, hazard assessments, training systems, contractor protocols, PPE evaluations, and emergency procedures that accurately reflect the hazards present in each workplace. For an industrial utility with the complexity of the WRRC, this level of documentation requires significant technical expertise and dedicated time that existing staff cannot provide while maintaining essential 24/7 treatment operations. While WRRC staff are committed to advancing safety, developing a program of this scale internally would take several years and would divert critical operational and maintenance resources.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION

The Relocate Taxiway Alpha program at DBQ is scheduled to be completed over seven fiscal years and six construction phases. The program began in FY22 to complete programmatic planning documents which included an environmental documented categorical exclusion, topographic and utility survey, geotechnical exploration, a detailed schematic design plan, and construction phasing and budget. FY25 – FY28 Taxiway A Relocation construction (construction Phases 3 – 5) are on the SE end of the Airport at the Runway 31 end. Each of these phases includes approximately 1,300 LF of Taxiway A relocation, working to the NW at a standard parallel offset distance of 400 feet from Runway 13/31. Construction Phase 5 is planned for FY 27 and connects Phase 4 and Phase 2, completing the taxiway relocation. Generally all construction phases include earth moving (grading), storm sewer drainage and underdrains, concrete paving, taxiway edge lighting and airfield signage, pavement markings, and turfgrass stabilization.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

PROJECT DESCRIPTION/JUSTIFICATION

This will provide for asphalt repairs to the aircraft hangar area. These types of projects are coordinated with the Engineering Department to determine which repairs are needed. FY27 and FY28 funds will provide for replacing the pavement in the corporate hangar and T-hangar areas identified in the most recently completed Airport Pavement Management System. Work includes, but is not limited to, full and partial depth patching and joint/crack sealing to prolong the life of the pavement. Iowa Department of Transportation Airport Improvement Program funds will also be used for these projects. Maintaining the airfield pavement is included as a sponsor grant assurance when receiving Federal Aviation Administration funds. FY31 funds will provide for repairing the general aviation entrance road. This project is partially being funded by a state grant which is yet approved.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the rehabilitation of existing corporate hangars and buildings. Rehabilitation includes large corporate hangars as well as existing, leased T-hangars as they continue to age and will need structural repairs such as roofing, heating, flooring, and door repairs/replacement. Tenants of these hangars generate fuel sales for the Dubuque Jet Center. FY27 funds ($100,000) will be used to replace a large corporate hangar door on one of the facilities currently leased by University of Dubuque which is in need of extensive repairs.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an Airport Pavement Management System (APMS) update, which is a review and analysis of all airfield pavement to document pavement condition and develop a strategy for airfield pavement maintenance. This study is required by the Federal Aviation Administration as justification for all airfield reconstruction or rehabilitation projects and facilitates capital improvement planning. Formerly, airports were required to report runway strength as a pavement condition number (PCN). The Federal Aviation Administration has updated this requirement to be in alignment with International Civil Aviation Organization guidelines and now requires airports to report runway strength as a pavement classification rating (PCR). Aircraft operators and airports use/compare these numbers to aircraft classification ratings (ACR) to determine if a pavement is suitable to operate a given aircraft on. This APMS is required every three years by the Federal Aviation Administration.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

PROJECT DESCRIPTION/JUSTIFICATION
This project will provide for construction of approximately 1,700 feet of taxiway between the terminal building and Runway 31. This project will increase efficiency by allowing aircraft to taxi directly to Runway 31 in lieu of back-taxiing and will significantly increase safety by not requiring aircraft to cross Runway 13/31 midfield. This project will consist of grading, storm sewer drainage and underdrains, concrete paving, taxiway edge lighting and airfield signage, pavement markings, and turf grass stabilization.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), or DRA and FAA Funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project includes construction of approximately 3,200 feet of taxiway on the west side of the airfield from Runway 13 to the mid-point of Runway 18/36. This project facilitates development of the west side of the airfield as the east side is nearly built out. This project would include grading, storm sewer drainage and underdrains in preparation for paving and installing edge lights and pavement markings.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Westside Airfield Development Project.

OUTCOME
Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Have residents and businesses receiving service value for their taxes and fees by providing services in a cost-effective and financially responsible manner.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), or DRA and FAA Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the milling of ten (10) centerline miles of asphalt streets. This project provides for the hiring of a private milling contractor to grind a full-street-width pass to remove up to two (2) inches of old asphalt from the street. The millings are then loaded onto city trucks and hauled to a local asphalt plant to be recycled into new hot mix asphalt. All milling is done by a private contractor with cleanup, hauling, and repaving of the streets completed by Public Works department crews. Keeping road pavement in good shape saves money and energy and reduces greenhouse gas emissions, more than offsetting pollution generated during road construction, according to a new study.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the ADA curb ramp replacement project (#5421000002), curb replacement project (#5421000001), and tri-top catchbasin replacement project (NEW).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for an annual program to install ADA curb ramps at various locations throughout the city in conjunction with the Public Works ten (10) centerline mile asphalt overlay program. In July of 2013, the Iowa Department of Transportation (IDOT) received additional information from the Federal Department of Justice further clarifying what constitutes resurfacing. Based on these clarifications, as of January 1, 2014, any alterations to an existing street's crosswalk, including asphalt resurfacing and "mill and fill" projects, require that existing curb ramps adhere to the latest ADA standards. While many of these corners have existing ramps, only a few of Dubuque's streets and alleys have curb ramps that meet current ADA standards. This project ensures that each intersection would be retrofitted with ADA-mandated curb ramps when a street receives a maintenance overlay. With the installation and upgrade to the ADA curb ramps as part of the asphalt overlay program, we improve accessibility for those with disabilities in our community as well as pedestrians seeking to travel the streets and sidewalks safely.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the asphalt milling program project (#5421000003).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an annual program to replace deteriorated curb, gutter and related pavement at locations throughout the city. Priority is given to streets scheduled for the Public Works Department's asphalt paving program and projects associated with improvements to sidewalks and driveways by homeowners. All work is done by private contractors. This project supplements the Public Works Department's regular curb reconstruction program. There are many streets in Dubuque that have good driving surfaces but have badly deteriorated limestone or concrete curbing. This program provides for hiring private contractors to replace curbing in poor condition on streets that are not scheduled, or anticipated to be scheduled, for reconstruction. Priority is also given to replacing poor curbing on streets where ADA curb ramps are being installed. On any given year, the Public Works Department receives numerous curb replacement requests related to the asphalt overlay program and property owner projects that are not able to be completed due to workloads.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Asphalt Milling Program (542900003) and the ADA Curb Ramp Program (5429900002).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%), Stormwater Construction Fund, and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for 8 panel replacement projects through hiring private contractors to remove and replace, or assist the Public Works Department in removing and replacing, deteriorated concrete panels in concrete streets. All work is closely coordinated with, or under the direction of, the Engineering Department and its street reconstruction program. Many concrete streets in the City are in need of full-depth concrete section replacement. Defects such as offset or spalling transverse joints create a poor riding surface. Surface and joint defects usually lead to other pavement deformation, such as pavement blow ups, settlements, cracks, and/or potholes. Timely panel replacements and section repairs extend the life of these concrete streets and usually preclude the need for asphalt overlays or total reconstruction projects.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for an annual program to perform post-flood repairs and maintenance required by the Corps of Engineers along the City's flood control protection system. This project supplements the Public Works Department's floodwall operations activity budget by providing funding that would allow for post-flood and required infrastructure repairs. As the floodwall's infrastructure age and the frequency of flood events continues to increase, the need for extraordinary repairs also has increased. This request would provide adequate funds to perform timely repairs, which in turn assures the integrity of the flood control system. Repairs may include rip-rap replacement, pump overhauls, gate repairs, pump house repairs, floodwall, and levee repairs, dredging, debris removal, and associated storm sewer outlet remedial work.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce potential flooding through flood plain management, mitigation and protection through a well-maintained, operational stormwater system.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%) and Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA
Along the 5.8 mile Flood Control System

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for repairing, replacing, and/or installing hand railings, staircases, and wall-top fencing on city properties. Because of its hilly terrain, Dubuque's infrastructure includes many large retaining walls and pedestrian staircases. Due to the high curbing, a few ADA ramps are also constructed with handrails. The hand railing's close location to the street make them subject to vehicular damage. While many of the walls are in good condition, many staircases, and the accompanying metal hand railings are not. Also, citizens and staff have become aware and concerned with securing the tops of tall city walls. The purpose of this program is to facilitate timely remedial action as staff is made aware of needs or deficiencies. Private contractors would perform the work under the direction of the Engineering Department or Public Works Department.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%).

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Municipal Services Center Fleet Maintenance Bay Extension			YEAR FIRST SUBMITTED: 2026 PROJECT NO: 5429900032		TOTAL PROJECT COST $ 100,000
2025 EXPENSE	**2026 BUDGET**	**PROJECT BUDGET**	**2027**	**2028**	**2029**	**2030**	**2031**	**2032**
		A. EXPENDITURE ITEMS						
$ —	$ —	Engineering	$ 100,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —
		B. PROJECT FINANCING						
$ —	$ —	Garage Service Fund	$ 100,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project request provides funding to implement a recommendation from the Fleet Operations Assessment conducted by a third-party vendor on best practices. Best practice states for each technician, a maintenance shop should have 1.5 bays available. This leaves Fleet Division within the Public Works Department short by 3 maintenance bays. The current shop layout includes 11 bays for 9 technicians. Additional bays allows for vehicle diagnostics without hindering continued preventive maintenance needs by occupying the necessary bays to safely conduct work. Technician capabilities allow for larger projects, but space restrictions cause an increase of 124.7% labor rate to outsource these projects instead.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by General Fund and Garage funds.

$ —	$ —	TOTAL	$ 616,875	$ 537,469	$ 564,343	$ 592,560	$ —	$ 2,311,247

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for hiring private contractors to construct 10-foot, paved shoulders in four phases, along the Northwest Arterial from US Highway 20 to IA 3. All work is closely coordinated with, or under the direction of, the Engineering Department. The shoulders along the Northwest Arterial currently are a majority of gravel shoulders. Each rain storm, this gravel is washed out on to the street, or the parallel trails along this highway. Gravel shoulders increase hazards for crews to maintain shoulders by grading and regrading multiple times a year, as well as drivers utilizing the Northwest Arterial.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

$ —	$ —	TOTAL	$ 54,338	$ 353,194	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the necessary funds to repair the underwater section of the municipal boat ramp in AY McDonald Park at the east end of Hawthorne Street. In 1997, this boat ramp was reconstructed above its Mississippi River water line. As part of that project, new concrete panels were joined to the ramp's existing concrete panels below the water line. In recent years, there has been accelerated deterioration of the underwater section of the boat ramp. On several occasions, sections of steel edging, iron rebar, and broken concrete have been removed to eliminate the underwater hazards they presented to boaters. Also, whenever the Mississippi River experiences low water levels, boaters have been having problems with their boat trailers dropping off the submerged end of the boat ramp. This project will involve installing a cofferdam around the underwater portion of the ramp, replacing the deteriorated and previously submerged concrete panels, and also adding additional panels to extend the ramp further into the river. The southeast portion of the ramp is unusable due to safety concerns and has been barricaded until reconstruction is approved and completed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%).

PROJECT ADDRESS/SERVICE AREA

AY McDonald Park

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Municipal Services Center Roof Replacement			YEAR FIRST SUBMITTED: 2023 PROJECT NO: 5429900021		TOTAL PROJECT COST $ 885,043

PROJECT DESCRIPTION/JUSTIFICATION
This project will provide remaining funds for the replacement of the roof at the Municipal Services Center. The facility was constructed and opened in 2005, and the expected life of a roof is 15-20 years and has experienced extensive leaking over the last 5 years. Replacing the roof will allow the building to function as designed and continue to protect millions of dollars in equipment and vehicles housed within. Partial funding was approved by Council and City Manager in FY2026.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Water department Municipal Services Center Roof Replacement which is the portion that Water department is responsible for.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%), Garage, Refuse and Road Use Tax funds.

PROJECT ADDRESS/SERVICE AREA
The Municipal Services Center is located at 925 Kerper Court.

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: 3255 - Wheel Loader Purchase			YEAR FIRST SUBMITTED: PROJECT NO:	2022	TOTAL PROJECT COST $ 305,865

$ —	$ —	TOTAL	$ —	$ 305,865	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project would provide for the replacement of two (2) wheel loaders, unit #3255, a 2007 John Deere 624J wheel loader. The replacement wheel loader will be equipped with a front-mount snow plow with plow gate attachment. During the warm weather months, wheel loaders are used to lift and load stone, asphalt, and demolition materials on various street and sewer maintenance repair projects. During the winter months, wheel loaders are used to not only plow streets and cul-de-sacs during major winter snow storms, but also subsequently remove snow accumulations from downtown streets and residential cul-de-sacs.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

$ —	$ —	TOTAL	$ 290,466	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the Public Works Department's only mechanical street sweeper. Unit # 4007 is a three-wheel street sweeper that is now past 2X its useful service life. A seven-year work life for this type of unit is considered the industry norm, balancing warranties, depreciation, reliability, and trade-in value. However, the Public Works Department has a total of three sweepers in its fleet, two of which are air vacuum sweepers which do the majority of sweeping in the City. This unit is used mainly for the clean-up of asphalt millings from our asphalt paving program and fall leaf sweeping. The City's three street sweepers are used to clean Dubuque's streets, downtown alleys, green alleys, and municipal parking lots. These sweepers clean the downtown every two days, arterial streets every two weeks, and the remaining streets every two months. These sweepers are also used to sweep Dubuque's "green alleys" on a regular basis to ensure that they perform as designed. City streets are swept Monday through Friday, year-round, whenever weather permits. By sweeping litter, dirt, debris, leaves, etc. from city streets and green alleys, Dubuque's air quality and surface waters are protected and aesthetics improved. Replacing this machine will also help Dubuque comply with its Federal Phase II stormwater permit obligations.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Asphalt Milling Program (#5421000003)

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales tax Fund (30%) and Road Use Tax Funding.

		B. PROJECT FINANCING						
$ —	$ —	Road Use Tax Fund	$ 393,121	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 393,121	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of one of the two Public Works Department's air vacuum street sweepers. Unit # 4002 is a Schwartze A98E regenerative air street sweeper and would normally be requested to be replaced after eight (8) years of service in FY2031. However, due to operational challenges and fleet-operations mis-match, we are requesting to replace this unit sooner. A seven-year work life for this type of unit is considered the industry norm, balancing warranties, depreciation, reliability, and trade-in value. The Public Works Department has a total of three sweepers in its fleet, two of which are air vacuum sweepers. However, the current unit has showed many safety and incompatibility issues with operations due to Dubuque's topography. Since being placed in service, this vehicle has service costs of $73,845. The City's three street sweepers are used to clean Dubuque's streets, downtown alleys, green alleys, and municipal parking lots. These sweepers clean the downtown every two days, arterial streets every two weeks, and the remaining streets every two months. These sweepers are also used to sweep Dubuque's newly-constructed "green alleys" four times each year to ensure that they perform as designed. City streets are swept Monday through Friday year-round whenever weather permits. By sweeping litter, dirt, debris, leaves, etc. from city streets and green alleys, Dubuque's air quality and surface waters are protected, and aesthetics are improved. Replacing these machines will also help Dubuque comply with its federal Phase II stormwater permit obligations. This sweeper, while not past its service life breaks down frequently due to only having one engine instead of the standard two engines. With one engine, the truck can either run the street sweeper brushes and vacuum or go up hill. The single engine is not sufficient to do both simultaneously.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funds for the replacement of sewer maintenance unit # 2730. This unit is utilized for off-road sewer maintenance areas that are unable to be reached via on-road vehicles. The unit has various types of attachments and hooks to the street jet with various cleaner heads to remove debris and roots form Dubuque’s sanitary sewer system to prevent basement backups and above-ground overflows. This unit is also used to clean storm sewer pipes, intakes and litter control baskets along the Bee Branch waterway. Replacing this unit in FY2027 will provide the Public Works Department with a reliable unit for maintaining Dubuque's sanitary sewer system, as required by the United States Environmental Protection Agency (EPA) and the federal Clean Water Act.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project is related 2727 - Off-Road Vehicle CCTV Slide-in Unit Replacement

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary or Storm Sewer Construction Fund

PROJECT ADDRESS/SERVICE AREA
This unit is used citywide

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Off Road Vehicle CCTV Slide-in Unit Replacement			YEAR FIRST SUBMITTED: FY 2027 PROJECT NO:		TOTAL PROJECT COST $ 145,000

$ —	$ —	TOTAL	$ —	$ 145,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to replace the current off road CCTV slide in unit. The current unit is over 20 years old and allows crews to televise underground sewer system infrastructure as part of the DOJ/EPA Consent Decree required maintenance programs.

RELATIONSHIP TO OTHER PROJECTS
This project is related 2727 - Off-Road Vehicle

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This can only be funded utilizing stormwater and sanitary sewer funds.

$ —	$ —	TOTAL	$ 318,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the replacement of one of the Public Works Department's seven (7) 58,000 gross vehicle weight (GVW) street maintenance/snow and ice control dump trucks. These replacement trucks will be purchased with 58,000 GVW chassis and equipped with combination dump/spreader boxes, front plow mounts and wing snowplow blades, along with other related snow and ice control equipment. This project provides funding to replace asset number 4004. This particular unit was purchased with CNG alt-fuel option, but due to temperature sensitivity on CNG pumps, we cannot run this asset for snow & ice operations. When purchasing the replacement vehicle, this unit will be replaced with a diesel engine. These unit types are used year-round for both street maintenance projects and snow and ice control. In the winter months, these trucks are used to apply deicer material and plow snow accumulations during, and immediately after, winter storms. The trucks are also used to haul snow during cleanup operations after winter storms. During the warm weather months, these units are used to haul asphalt for our street paving program, and stone, rock, curb, and concrete for other street maintenance projects. After eight years of continuous use, the trucks will be due for replacement to minimize downtime during high utilization time periods.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project can only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the replacement of one (1) of the nine (9) Public Works Department's 35,000 - 44,000 gross vehicle weight (GVW) street maintenance and snow/ice control dump trucks. These trucks are equipped in various configurations to provide operators with the tools to meet the goals of Dubuque's snow and ice control program. Unit 3241 is recommended for replacement based on an eight (8) year replacement schedule. The unit will be replaced with 44,000 GVW and will be equipped with a combination dump/spreader box and front-mounted snowplow. Some will also be equipped with a wing blade plow. All of these trucks are used year-round, with warm weather work dedicated to street paving and repair. They are used in the winter of plowing and deicing operations.

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide funds for the replacement and reconfiguration of the Fleet Service Truck. The current fleet service truck is a 2012 flatbed truck that includes a crane, air compressor, and toolbox. This funding would replace the current 15-year old vehicle that was due for replacement in FY2020. The fleet service truck purchased would be a cab and chassis with a crane service truck body. This truck is used by our fleet technicians to perform necessary maintenance and repairs to all city-owned vehicles and equipment both in the shop and out in the field (service calls).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Garage Fund.

$ 12,562	$ 25,000	TOTAL	$ 30,000	$ 30,750	$ 31,519	$ 32,307	$ 33,115	$ 33,943

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funds to hire a private contractor to chemically treat up to 12,000 lineal feet of sanitary sewer lines throughout the city each year. Tree roots in sanitary sewer lines are one of the major causes of sanitary sewer clogs, backups into homes, and overflows onto streets and private properties. Tree roots are extremely invasive when seeking moisture and typically invade sanitary sewer pipes through cracks and open joints. They then grow into thick natural curtains, collecting solids and greases and eventually causing major clogs, backups, and overflows. In-pipe chemical treatment of roots kills the invasive roots and mitigates future root growth for up to five years. This annual program reduces the number of sanitary sewer overflows and the number of private homes damaged due to sewer backups each year. This program is also noted in the City's Capacity, Management, Operations, and Maintenance (CMOM) Program, which was approved by the United States Environmental Protection Agency in 2012.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by the Sanitary Sewer Construction Fund.

$ —	$ —	TOTAL	$ 395,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This annual project provides for the replacement of one (1) solid waste collection vehicles in FY2027 (#3410). The different styles of trucks will be used to collect customers' trash, bulky items, recyclables, and organics manually and/or by using a hydraulic lifting system for tipper carts. The city will continue to phase in automated side loaders. Phasing in automated collection trucks will help improve collection efficiency, improve workers' safety, and increase neighborhood aesthetics through reduced litter associated with the use of garbage bags. These trucks will be eight to ten years old by their proposed replacement years.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project may only be funded by Refuse Collection Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides supplemental funds for the Landfill Waste Minimization Grants Project due to funds being reduced by the Board to $75,000 per year until FY2026 in order to support the UD Campus Sustainability Position ($25,000). The DMASWA offers funding of up to $25,000 to successful applicants whose efforts result in effective waste minimization and/or related education in Dubuque County. Waste minimization efforts for the purposes of this grant include, but are not limited to: composting, hazardous materials disposal and alternatives, recycling, reuse methods, source reduction.

RELATIONSHIP TO OTHER PROJECTS
This is not related to other projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project can only be funded by DMASWA Funds

2025 EXPENSE	**2026 BUDGET**	**PROJECT BUDGET**	**2027**	**2028**	**2029**	**2030**	**2031**	**2032**
		A. EXPENDITURE ITEMS						
$ —	$ —	Equipment Rebuild	$ 450,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 450,000	$ —	$ —	$ —	$ —	$ —
		B. PROJECT FINANCING						
$ —	$ —	DMASWA Fund	$ 450,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 450,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides fund to rebuild the Landfill compactor, unit #3471. Project replaces/repairs all critical operating components including the powertrain and supporting components.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project can only be funded using DMASWA funds.

PROJECT ADDRESS/SERVICE AREA
101 Airborne Road/ DMASWA Landfill Facility

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Landfill Portable Litter Fencing			YEAR FIRST SUBMITTED: FY2024 PROJECT NO: 8284000027		TOTAL PROJECT COST $ 255,000
2025 EXPENSE	**2026 BUDGET**	**PROJECT BUDGET**	**2027**	**2028**	**2029**	**2030**	**2031**	**2032**
		A. EXPENDITURE ITEMS

$ —	$ 85,000	TOTAL	$ 85,000	$ 85,000	$ —	$ —	$ —	$ —
		B. PROJECT FINANCING						
$ —	$ 85,000	DMASWA Fund	$ 85,000	$ 85,000	$ —	$ —	$ —	$ —
$ —	$ 85,000	TOTAL	$ 85,000	$ 85,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This improvement package is to replace portable litter fencing which has reached the end of its service life and provide additional portable units to be used near the open face area at the landfill. Containing litter within the working area is the most effective way to manage litter caused by lightweight plastic materials, such as bags and films, which often come in loose loads to the facility.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce waste and increase diversion, recycling and composting opportunities.

FUNDING RESTRICTIONS
This project can only be funded using DMASWA funds.

PROJECT DESCRIPTION/JUSTIFICATION
This CIP provides for the unanticipated replacement of stormwater management facilities within the City's storm sewer system. While efforts are taken to identify and prioritize and proactively replace storm sewer facilities (intakes, manholes, storm sewer pipes, culverts, ditches, detention basins, etc.), this funding allows for addressing facilities found to have deteriorated to the extent that they are more likely to fail if not replaced in the short term. This CIP also accounts for the need to extend either storm sewer or drain tile to locations where there are icing or nuisance flooding concerns that need to be addressed quickly and are not part of a dedicated CIP.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the stormwater sewer utility in support of the City's efforts to meeting the City Council goal of implementing an enterprise asset management system through use of a computerized maintenance management system (CMMS). Enterprise asset management combines software, systems and services, and system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

This is a comprehensive plan item for the stormwater utility.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Sanitary, Enterprise Asset Management System Software - Water, and Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Fiber

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project is in support of the City's efforts to meeting the City Council goal to reduce potential flooding through floodplain management, mitigation, and protection through a well-maintained and operational stormwater system. In 2001, the City hired a consultant to generate a citywide stormwater hydraulic model and to identify/delineate the major drainage basins within the City. This Drainage Basin Master Plan was utilized and updated in 2013 to include the multiple phases of the Bee Branch Watershed Flood Mitigation Project. This project is intended to expand upon these previous efforts by the City to more effectively evaluate and implement stormwater improvements to meet the City's goals to provide floodplain management, mitigation and protection throughout the City.

Management of the City's Municipal Separate Storm Sewer System (MS4) Program requires an understanding of how the infrastructure is performing and how potential, rapid expansion related to growth might impact the system. To maximize the return on investment as to how all stormwater sewer utility dollars are spent in combination with constrained capital and operating budgets, a stormwater management program that identifies and helps prioritize necessary improvements in the short-, mid-, and long-term helps to ensure the system continues to meet the needs of the community and to provide planning level budgets for all recommendations.

The project will assist City staff in establishing a strategic and proactive plan for the management of the sanitary sewer system that shall:

- Develop repeatable and dynamic processes that enable staff to quickly evaluate asset data to assess condition, level of service, and criticality.
- Rank stormwater capital improvement projects based on risk analysis and system performance.
- Identify stormwater utility staffing and resource needs.
- Optimize existing operations and maintenance procedures.
- Evaluate system capacity and improvement requirements to facilitate future city growth areas identified in the Annexation Study.

This is a comprehensive plan item for the stormwater utility. This project will also contribute to the planning for City Council top priority of mitigating neighborhood flooding.

PROJECT DESCRIPTION/JUSTIFICATION
CIP request is for flow meter equipment replacements as part of the inflow and infiltration reduction and Consent Decree programs. Current City flow metering equipment (20 total) purchased in 2010 have exceeded manufacturer design life and require replacement. Funding request includes replacement of 10 flow meters per year for FY27. These are estimated to have at least a 5-year lifespan.

This project is in support of the comprehensive plan for the storm and sanitary sewer utilities.

RELATIONSHIP TO OTHER PROJECTS
This is related to Sanitary Asset Management Program (5581500026), I&I Reduction Program (5581500019) and Stormwater I&I Elimination Program (5586500006).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This can only be funded by Stormwater Construction Funds.

PROJECT ADDRESS/SERVICE AREA

DEPARTMENT:		STATE PROGRAM:	PROJECT TITLE:			YEAR FIRST SUBMITTED: FY27 PROJECT NO: 5586500049		TOTAL PROJECT COST
55 - Engineering / Stormwater		8C - Business Type	Confined Space Drone					$ 100,000
2025 EXPENSE	**2026 BUDGET**	**PROJECT BUDGET**	**2027**	**2028**	**2029**	**2030**	**2031**	**2032**
		A. EXPENDITURE ITEMS						
$ —	$ —	Inspection Equipment	$ 100,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —
		B. PROJECT FINANCING						
$ —	$ —	Stormwater Construction Fund	$ 100,000	$ —	$ —	$ —	$ —	$ —
$ —	$ —	TOTAL	$ 100,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
Confined space entry presents significant risks including oxygen deficiency, toxic gases, limited mobility, and structural hazards. The use of a confined space drone will reduce the need for human entry during initial inspections, significantly reducing staff exposure to dangerous environments and compliance risk related to OSHA 29 CFR 1910.146 (Permit-Required Confined Spaces).

This project proposes the acquisition of a confined space inspection drone to improve the safety, efficiency, and quality of inspections in hazardous, difficult-to-access, or regulated environments such as tanks, tunnels, boilers, ducts, underground utilities, and other confined spaces. This drone will be integrated into our maintenance and asset management workflows, reducing the need for personnel entry into confined spaces and providing high-resolution visual and LiDAR-based data for accurate condition assessments. This drone will predominantly be utilized for large diameter storm sewer inspection, particularly those with annual inspection requirements associated with the US Army Corps Flood Protection Levee system.

High quality inspection and measurement data for the stormwater or sanitary assets inspected that is collected by the confined space drone will be incorporated with the City's ongoing asset management efforts. Investing in a confined space inspection drone aligns with our commitment to safety, operational excellence, and smart capital planning. The technology not only protects personnel but enhances our ability to manage critical infrastructure efficiently and responsibly.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Sanitary Sewer Asset Management Program (CIP #5581500023) and the Stormwater Management Program (CIP #5586500045).

OUTCOME
Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Funds or Sanitary Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This CIP is for the ongoing maintenance, rehabilitation, and necessary upgrades of existing stormwater detention basins throughout the jurisdiction. Stormwater detention basins play a critical role in flood mitigation, water quality improvement, and erosion control by temporarily storing stormwater runoff during rain events and releasing it at controlled rates. Over time, these basins accumulate sediment, vegetation overgrowth, and debris, which can reduce their capacity and effectiveness, compromise structural integrity, and lead to regulatory noncompliance under local, state, and federal stormwater regulations (e.g., MS4 permits).

This CIP will help ensure the proper functioning of detention basins through a proactive maintenance program that includes:

- Sediment and debris removal
- Vegetation management and invasive species control
- Repair of structural components (e.g., inlets, outlets, embankments, and spillways)
- Regrading and erosion repair
- Inspection and condition assessment reports
- Compliance with NPDES/MS4 requirements

The funding will support a combination of in-house maintenance efforts and contracted services as needed. Improvements made through this program will extend the service life of the basins, reduce downstream flooding risk, improve water quality, and ensure compliance with environmental standards.

PROJECT DESCRIPTION/JUSTIFICATION

This CIP provides for the systematic maintenance, rehabilitation, and repair of stormwater runoff drainage channels throughout the jurisdiction. These open channels—ranging from natural streams, valleys and ditches to engineered swales and concrete-lined conveyances—are essential components of the community's stormwater management system. They safely convey stormwater runoff from developed areas to detention basins, creeks, and rivers, helping to prevent localized flooding and protect water quality.

Over time, drainage channels can become obstructed by sediment, debris, vegetation overgrowth, erosion, and structural damage. Without regular maintenance and repair, these issues reduce flow capacity, increase flood risk, and cause property damage, infrastructure degradation, and environmental harm.

This CIP will help support a proactive and sustainable approach to stormwater channel maintenance by funding:

- Sediment and debris removal
- Erosion control and bank stabilization
- Vegetation management and invasive species removal
- Structural repairs to lined channels, headwalls, culverts, and outfalls
- Regrading and reshaping to restore flow characteristics
- Channel inspections and condition assessments
- Compliance with stormwater management and environmental permitting requirements (e.g., MS4, NPDES)

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the construction of a new stormwater pumping station on Kerper Boulevard so that the City can decommission the existing pump station system installed as part of the John C. Culver Floodwall/Levee system that prevents the Mississippi from flooding the Bee Branch Watershed. The new facility will include a new flood gate, four new 90,000 gallon per minute pumps (roughly double the capacity of the existing facility), new electrical service, and the installation of an back-up generators. The improvements will provide a system that can accommodate the flooding that has been occurring since 1999, flooding that has resulted in six presidential disaster declarations due to public and private property damage, impacting more than 1,300 homes and businesses. It also provides for additional resiliency options as rainstorms increase in both depth and intensity. This project is Phase 5 of the Bee Branch Watershed Flood Mitigation Project.

RELATIONSHIP TO OTHER PROJECTS

This project is one phase of the Bee Branch Watershed Flood Mitigation Project whose phases are as follows: Phase 1 - Carter Road Detention Basin; Phase 2 - W.32nd Street Detention Basin; Phase 3 - Historic Millwork District; Phase 4 - Lower Bee Branch Creek Restoration; Phase 5 - Bee Branch Flood Mitigation Gate Replacement Project; Phase 6 - Impervious Surface Reduction (Previous Pavement Systems); Phase 7 - Upper Bee Branch Creek Restoration; Phase 8 - 22nd St/ Kaufmann Ave Storm Sewer Improvements; Phase 9 - Flood Maintenance Facility; Phase 10 - North End Storm Sewer Improvements; Phase 11 - Water Plant Flood Protection System; Phase 12 - 17th St/W. Locust Street Storm Sewer Improvements.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:		TOTAL PROJECT COST
55 - Engineering / Stormwater	8C - Business Type	Bee Branch Gate & Pump Replacement Project (Phase 5 of Bee Branch Watershed Flood Mitigation Project)	PROJECT NO:	5586500007 720-2608, 340-2608	$ 28,463,825

FUNDING RESTRICTIONS

This project is restricted to the Stormwater Construction Fund, EDA grant funds, SRF, DRA, and Sales Tax Increment funds.

PROJECT ADDRESS/SERVICE AREA

Project improvements to be constructed on the west side of Kerper Boulevard between 12th and 16th Streets.

$ —	$ —	TOTAL	$ —	$ —	$ 450,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for lining and associated grouting of approximately 550 linear feet of the existing large diameter stormwater sewer main located within the limits of the new Schmitt Island Amphitheater project. Lining a sewer pipe results in a new pipe (inside the old) with a useful life of 50 years or more. Lining a pipe can be far more cost effective as it does not require excavation and associated surface restoration. Pipe lining improves flow characteristics, mitigates maintenance issues such as intrusive roots and debris buildup, and can provide structural stability to aging or failing pipe.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the Schmitt Island Amphitheater (CIP# 5575000022) project.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Funds.

PROJECT ADDRESS/SERVICE AREA
Stormwater sewer system improvements will be made to the existing system on Chaplain Schmitt Island adjacent to the proposed Amphitheater.

PROJECT DESCRIPTION/JUSTIFICATION

The purpose of this project is to increase the capacity of the storm sewer from the Lower Bee Branch Creek up 17th Street to West Locust Street. A larger storm sewer and additional high-capacity storm drains will help alleviate the flash flooding frequently experienced on these streets. This funding request is for the stormwater portion of the full reconstruction from the end of Phase 3, Heeb Street completed in 2021, to Kirkwood Street. This project will also address sanitary sewer capacity concerns within the Consent Decree Sewershed 11. The Grant is yet to be awarded.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Roadway projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded through stormwater construction funds, state revolving loan funds or federal grant opportunities.

PROJECT ADDRESS/SERVICE AREA

W 17th St/Locust St from Heeb St to Kirkwood St

$ —	$ —	TOTAL	$ 300,000	$ 200,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This Capital Improvement Plan (CIP) proposes the engineering design and construction of stormwater management infrastructure for the area bounded by Pennsylvania Drive, Keymont Court, and Keyway Drive. Since the construction of the subdivision, the natural drainage way behind residential properties along North Fork Catfish Creek has experienced significant erosion.

A contributing factor to this issue is improper filling practices by private land developers, who placed unstable fill materials within the floodplain and natural drainage area. These poor-quality materials have since eroded, causing severe undercutting—now reaching less than 10 feet from some residential foundations—raising substantial health and safety concerns.

This CIP request focuses on a City-owned parcel within the affected area that includes the drainage way and floodplain. The proposed improvements include the installation of energy dissipation structures to reduce downstream erosion, realignment of the drainage way to increase separation from nearby homes, and slope stabilization to protect adjacent properties and ensure resident safety.

This project will be designed all at once, but bid for construction in phases as funding allows.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This Capital Improvement Plan (CIP) proposes the engineering design and construction of stormwater management infrastructure for the Pebble Cove subdivision. During the heavy rainfall events of summer 2024 and 2025, the area experienced widespread and recurring damage due to inadequate stormwater conveyance systems. Following a detailed hydraulic analysis, the City identified multiple phases of improvements aimed at both repairing past damage and mitigating future stormwater-related issues.

The first phase focuses on a City-owned parcel located on Peach Tree Lane. Originally designated as a future park site, the parcel has remained undevelopable due to severe erosion caused by uncontrolled stormwater runoff. As the farthest upstream source of stormwater discharge in the subdivision, this site has been prioritized for initial improvements. This CIP funding request seeks to implement energy dissipation measures at this location to reduce downstream erosion and stabilize the area. These improvements will also prepare the site for future park development.

Funding for future phases of improvements will be requested in later years as needed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

$ —	$ —	TOTAL	$ —	$ —	$ 252,000	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for streambank stabilization where stormwater enters the NW Arterial Detention Basin from the west. Currently, stormwater flows into the basin over a rip-rap rock flume, which has repeatedly been washed out during heavy rains, causing erosion and damage to the basin and leading to increasingly high maintenance and repair costs. The proposed stabilization work will address these recurring issues by reinforcing the streambank, reducing erosion, and minimizing long-term maintenance needs. While the project was previously budgeted, the cost of the recommended improvements exceeded the original allocation. The project name has also been updated from NW Arterial Detention Basin Improvements to Teddy Bear Park Streambank Stabilization. Following the mid-July storms, multiple residents in the area submitted service requests related to erosion concerns, further underscoring the need for these improvements.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA
Improvements to be constructed in the vicinity of Teddy Bear Park.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Harvest View Storm Sewer Improvements			YEAR FIRST SUBMITTED: FY27 PROJECT NO:		TOTAL PROJECT COST $ 320,000

$ —	$ —	TOTAL	$ —	$ —	$ —	$ 320,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project includes the removal and replacement of approximately 800 linear feet of undersized storm sewer located west of Harvest View Drive and south of the residential properties along Millstone Drive. The existing storm sewer has been identified as under sized, with no underground storage due to the shallow depths, and has been unable to adequately serve the adjacent properties. Several adjacent properties experienced significant flooding damage during rain storms in 2024 and 2025 when the stormwater runoff was unable to enter the overfull storm sewer, surcharging into the adjacent property basements. This project will upsize the undersized storm sewer and replace deeper, to allow for additional storage capacity in the system. The project will also include some localized regrading within the stormwater drainage easement to promote non erosive conveyance of the contributing stormwater runoff.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Stormwater Construction Funds.

$ —	$ —	TOTAL	$ —	$ —	$ —	$ —	$ 120,000	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project involves repairing a storm sewer located between 545 Primrose Court and 565 Primrose Court. In late July 2025, City staff received a service request from a resident concerning a 15-inch storm pipe running adjacent to his backyard, and upon inspection, staff identified multiple offset joints and significant erosion issues associated with the pipe. To address these concerns, the project will clear brush in the affected area, repair or replace damaged sections of the storm pipe, and install outlet protection to prevent future erosion, thereby restoring the integrity of the storm sewer system and safeguarding nearby properties.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded by Stormwater Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

The City sanitary sewer system includes more than 7,500 manholes and 300 miles of pipeline. With a typical design life of 60 to 70 years, a large portion of the City's sewer system has exceeded their expected service life, with approximately 10% of the system over 100 years old. Every year, in the course of their daily maintenance activities inspecting manholes and sewer mains, the Public Works Department identifies manholes and pipelines in need of repair or replacement, either due to structural/safety issues or due to excessive levels of inflow and infiltration (I&I). The City has initiated efforts to inspect and characterize the condition of the 300+ mile sanitary sewer system in order to prioritize high risk section sewers through the Sanitary Sewer Asset Management Program (CIP #5581500026). However, this project provides funds for the unplanned or emergency replacement of the City's sanitary sewer system when significant and potentially hazardous defects are discovered and require immediate attention.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Asset Management Program (CIP 5581500026).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

Management of the City's sanitary sewer collection system requires an understanding of how its aging infrastructure is performing in older areas of the City and how potential, rapid expansion related to growth from the completion of the Southwest Arterial and newly annexed areas might impact the system. To maximize the return on investment as to how all sewer utility dollars are spent in combination with constrained capital and operating budgets, an asset management plan that identifies and helps prioritize the sewer improvements necessary in the short-, mid-, and long-term to ensure the system continues to meet the needs of the community and to provide planning level budgets for all recommendations. The consultant will assist City staff in establishing a strategic and proactive plan for the management of the sanitary sewer system that shall:

- Develop repeatable and dynamic processes that enable staff to quickly evaluate asset data to assess condition, level of service, and criticality.
- Rank sanitary sewer capital improvement projects based on risk analysis and system performance.
- Identify sanitary sewer utility staffing and resource needs.
- Optimize existing operations and maintenance procedures.
- Evaluate system capacity and improvement requirements to facilitate future City growth areas identified in the Annexation Study.

The City has retained the services of a consultant engineer starting FY24 and is nearing the completion of the major task items that were identified in the program roadmap and staff have begun utilizing program results in CIP budgetary requests. The recurring funding requested is for annual hydraulic and risk model maintenance and updates for project reprioritization as data is collected each year. Model updates will aid the City in CIP planning. Funds may also be utilized for additional, future task orders that were identified in the program road map.

This is a Comprehensive Plan Item for the sanitary utility.

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the sanitary sewer utility in support of the City's efforts to meeting the City Council Goal of implementing an enterprise asset management system through use of a computerized maintenance management system (CMMS). Enterprise asset management combines software, systems and services, and system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

This is a Comprehensive Plan Item for the sanitary utility.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides Phase 1 for a new lift station within the Catfish Creek Interceptor Sewershed near Old Mill Road and 5,100 feet of new force main between the lift station and the Water & Resource Recovery Center (W&RRC). The improvements include a 20 million gallon per day (MGD) lift station, dual force main pipe to the Water & Recourse Recovery Center (W&RRC), and improvements at the W&RRC to accommodate the additional flow at the headworks of the treatment system. The existing Catfish Creek Lift Station (CCLS) will remain in place, primarily serving the Granger Creek sewershed and properties along HWY 151-61.

The existing CCLS and W&RRC, were originally constructed in the late 1960's. Since then, the community has grown and expanded. While the W&RRC was updated in 2010, the CCLS was last studied and updated in 1995 based on a 25-year planning period. Based on the actual growth that has occurred since 1995, the wastewater flows to the lift station are slightly higher than what was anticipated. Operating beyond the 25-year planning period, it was time to reevaluate the CCLS. FY22 funding provided for the development of a facility plan to evaluate the existing CCLS and identify the need for potential upgrades. Multiple options were considered, including upgrades to the existing lift station. The engineering analysis ultimately identified a preferred alternative: the Old Mill Road Lift Station and Force Main improvements. Increased construction costs for FY25-26 was included to account for up to date equipment pricing and revised force main alignments required from archeological review.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Catfish Creek Sewershed Interceptor Sewer Improvements projects (not funded yet).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for systematic upgrades to the Catfish Creek Sanitary Interceptor Sewer system which branches out along the Middle Fork Catfish creek. The system will be upsized along the Middle Fork Catfish Creek from Old Mill Road 9.9 miles to the Dubuque Industrial Center West. The Catfish Creek Interceptor Sewer was constructed circa 1960. Extending westward from the Water & Resource Recovery Center, it has allowed for the development of nearly 2,500 acres over the last two decades which includes residential subdivisions, the Dubuque Industrial Center West, and service to the Dubuque Metro Solid Waste Agency. The existing sanitary sewer was identified as being at or exceeding capacity.

This third phase of improvement will provide for the design, permitting, easement acquisition, and construction services for sewer upsizing along the Middle Fork interceptor from Old Mill Road to Brunskill Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Master Plan Asset Management (CIP# 5581500026) and the SWA Middle Interchange Sewer Extension projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for systematic upgrades to the Catfish Creek Sanitary Interceptor Sewer system which branches out along the South Fork Catfish creek. The sewer system will be upsized from Old Mill Road along the South Fork Catfish Creek 6.9 miles to the Dubuque Metropolitan Solid Waste Agency. The Catfish Creek Interceptor Sewer was constructed circa 1960. Extending westward from the Water & Resource Recovery Center, it has allowed for the development of nearly 2,500 acres over the last two decades which includes residential subdivisions, the Dubuque Industrial Center West, and service to the Dubuque Metro Solid Waste Agency. The existing sanitary sewer was identified as being at or exceeding capacity.

This fourth phase of improvement will provide for the design, permitting, easement acquisition, and construction services for sewer upsizing along the South Fork interceptor from Old Mill Road to North Cascade Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Master Plan Asset Management (CIP# 5581500026) and the SWA Middle Interchange Sewer Extension projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project addresses reliability improvements to the existing gravity sanitary sewer system and to the Dog Track Sanitary Lift Station located on Chaplain Schmitt Island. This project will also address the maintenance concerns regarding reversed slopes and reduce the inflow and infiltration identified within the Island sewer service area. In addition, this project will provide for the evaluation of the City owned lift station and pressurized force main system for improvements that would support the anticipated developments that have been identified as part of the Chaplain Schmitt Island Master Plan project.

Project construction was delayed due to unanticipated costs of historic landfill disposal fees, as well as new feedback from Island stakeholders to relocate the proposed lift station. Design changes requested are significant and will not allow the construction to meet the original targeted schedule. Project funding requests is for future year funding to construct the revised sanitary system design with SRF loan funds in a year that no other Island development is ongoing that would impede construction schedule. Temporary flow control measures will be implemented as needed in the interim to maintain adequate capacity service for the existing and active developments to account for the delay in correcting the inadequate existing sewer.

This project meets the requirements of the planned developments for the Chaplain Schmitt Island Master Plan.

RELATIONSHIP TO OTHER PROJECTS

This project relates to the Chaplain Schmitt Island construction.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY2025	TOTAL PROJECT COST

$ —	$ —	TOTAL	$ 80,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This CIP request is for a sanitary sewer sedimentation filter or trap to be installed in line with the existing sanitary sewer system within the Water Treatment Plant property, which discharges to the existing system along Kerper Boulevard. In current practices, the drainage and sediment from the Water Treatment Plant Washout Facility is currently discharged directly to the sanitary sewer. There has been excessive sedimentation identified in the sanitary sewer along Kerper Boulevard, exceeding half the pipe capacity, which has incurred an extraneous need for recurring cleaning of the pipe and potential impacts to downstream pumping equipment. This project will place a new sediment trap within the existing sewer so that maintenance crews can capture and remove the washed out sediment in one location and prevent it from impacting downstream sewer.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Trackline Sanitary Sewer Reconstruction (CIP #5581500034) projects

OUTCOME

Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Kerper Boulevard, near the Water Treatment Plant

$ —	$ —	TOTAL	$ 50,000	$ 500,000	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the relocation of sanitary sewer running through the center of Parcel # 1027151018 off of JFK Road. Currently the sanitary sewer serves properties on both sides of JFK Rd and runs through the center of this undeveloped parcel, limiting future development potential. Over the years there has been filling of the vacant lot, causing the existing 8 inch sewer to fail in several locations as well as being over 30 ft in depth, making it inaccessible for maintenance or cost effective repairs. This project will provide for the replacement of failed sections of sewer and realignment of the sewer in an alignment that would facilitate future development of the lot.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded by Sanitary Sewer Construction Funds or State Revolving Loan Fund

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the existing Key West Lift Station off of Gateway Dr. The new lift station will be located near the existing lift station. The existing lift station was constructed in 1989 and is nearing the end of its expected useful life. The existing lift station has been identified by maintenance staff as being in need of replacement, incurring extraneous maintenance costs to maintain service. The existing lift station cannot be upgraded within the constraints of the existing structure and accommodate existing and future flow within the service area limits. The existing lift station will be removed upon completion of the new lift station, force main, and gravity sewer.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded by Sanitary Sewer Construction Funds or State Revolving Loan Fund

PROJECT DESCRIPTION/JUSTIFICATION

The Sanitary Sewer Asset Management Program (CIP #5581500026) has identified this service area (SSAMP Service Area 3-8-1-1) as a high risk sanitary sewer basin, within the top 20 highest risk basins of the City out of approximately 160 identified by the SSAMP. This basin is located in the North Fork Catfish Creek sewershed, and has both recently and historically been measured to have elevated levels of inflow and infiltration (I&I), contributing to the Catfish Creek sanitary sewer capacity constraints downstream.

This project will provide for a detailed analysis of the sanitary sewer within the service area limits. The first two years of this project will include the closed circuit television (CCTV) inspection of every pipe to document current condition, detailed I&I study within the service area to include activities such as smoke testing, dye testing, and flow monitoring activities to establish baseline pre-project completion flows, and the development of a phased improvement facility plan that would address identified defects within the service area. As part of this analysis, there will also be an evaluation of the adjacent City owned infrastructure and utilities so that improvements to those could be completed in conjunction with the sanitary improvements. The construction of the first or second phases of identified improvements would be completed in the second or third year pending funding availability. The remaining identified phases would be budgeted in future years as funding allows.

Taking a risk based approach, basin by basin, as identified by the SSAMP has allowed the City to consolidate general CIP requests and target those funds in areas that have the most need and benefit of addressing.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Asset Management Program (CIP #5581500026).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

The Sanitary Sewer Asset Management Program (CIP #5581500026) has identified the South Port area of the Terminal St Lift Station service area as a high risk sanitary sewer basin. There are multiple sewer basins immediately adjacent to the Terminal St LS located in the South Port area that have both recently and historically been measured to have elevated levels of inflow and infiltration (I&I), contributing to capacity related issues with the Terminal St LS.

This project will provide for a detailed analysis of the sanitary sewer within the service area limits. The first two years of this project will include the closed circuit television (CCTV) inspection of every pipe to document current condition, detailed I&I study within the service area to include activities such as smoke testing, dye testing, and flow monitoring activities to establish baseline pre project completion flows, and the development of a phased improvement facility plan that would address identified defects within the service area. As part of this analysis, there will also be an evaluation of the adjacent City owned infrastructure and utilities so that improvements to those could be completed in conjunction with the sanitary improvements. The construction of the first or second phases of identified improvements would be completed in the second or third year pending funding availability. The remaining identified phases would be budgeted in future years as funding allows.

The identified phases of this project will also address the reliability improvements needed to the Terminal Street Lift Station, as well as, the associated 30-inch diameter Cedar Street and 42-inch diameter Terminal Street force mains that connect the two lift stations to the Water & Resource Recovery Center (WRRC). The existing lift station is in need of rehabilitation or replacement, as identified by the 2019 analysis, as well as multiple recent failures requiring the station to be placed on bypass.

This project will coordinate phases of improvements to address high risk sanitary sewer, accommodate the South Port Redevelopment Master Plan, and address potential need for Terminal St LS relocation pending the upcoming Iowa Department of Transportation (IDOT) Julien Dubuque Bridge replacement project.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY27	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of approximately 400 linear feet of 8-inch diameter vitrified clay sanitary sewer along Grove Terrace. The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan. This project shall be coordinated with storm sewer and water main improvements. The 8-inch diameter vitrified clay sanitary sewer was installed in the early 1900's and has deteriorated to the point that reconstruction is necessary. In addition, property owners have indicated their laterals need to be replaced and in some locations laterals need to be separated to ensure uninterrupted service and reduce the risk of back up.

RELATIONSHIP TO OTHER PROJECTS
This project is related Grove Terrace Sanitary Sewer Reconstruction (Consent Decree Support - Water).

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary Sewer Construction Funds or an SRF loan.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the phased relocation of 5,150 feet of the 12-inch diameter sanitary sewer that runs along the railroad tracks from Hawthorne Street to Fengler Street. The existing clay tile sewer that was installed in the 1920's still functions; however, the influx of sand and proximity of the adjacent railroad tracks has increasingly made the sewer difficult to maintain and indicates that groundwater is infiltrating into the pipe. The sewer has multiple failing sections and is undersized from hydraulic modeling results. Proximity to the adjacent railroad prohibits access for maintenance or rehabilitation activities. The sewer requires relocation to City right of way, with redirection of private laterals. The project is located adjacent to Consent Decree Sewershed 10.

The design, permitting, and easement acquisition for the relocation of the track line sewer located between Hawthorne St and Roosevelt St began in FY26 and will continue through FY27. The funding in FY28 will provide for the actual relocation of the track line sewer located between Hawthorne St and Roosevelt St.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 1,050 feet (existing alignment) of 6-inch diameter vitrified clay sanitary sewer along Maiden Lane, Cooper Place, and Raymond Place. The existing 6-inch sewer will be replaced with 8-inch diameter PVC sanitary sewer. The existing 6-inch diameter vitrified clay sanitary sewer has been identified as a source of inflow and infiltration. There are multiple offset joints and pipe fractures showing the pipe is in need of rehabilitation or replacement. The sewer is not able to be rehabilitated using trench-less methods due to the challenges associated with reinstating services on small diameter line; and is scheduled for removal and replacement with a larger diameter sewer to improve operation and future maintenance. The sewer is located in Consent Decree Sanitary Sewershed 12 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction funds or SRF funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 1,000 feet (existing alignment) of 8-inch diameter vitrified clay sanitary sewer on Hempstead Street from Kaufmann Street to Lowell Street. The existing clay tile sewer that was installed in 1924 has deteriorated to the extent that cracks and sags in the pipe result in poor performance. The sags and cracks require increased maintenance of the pipe and allow the inflow of extraneous groundwater into the sanitary sewer system. The current alignment places the sanitary sewer close to private property such that realignment of the sewer may be warranted. The sewer is located in Consent Decree Sanitary Sewershed 7 and was identified to be completed by the United States Environmental Protection Agency in the Consent Decree Corrective Action Plan.

RELATIONSHIP TO OTHER PROJECTS

This project is related Hempstead Reconstruction (Consent Decree Support - Water), Hempstead Reconstruction (Consent Decree Support - Stormwater), and Hempstead Reconstruction (Consent Decree Support - Roadway).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction funds or SRF funds.

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of 1,200 feet of 8-inch diameter clay sewer with an 8-inch ductile iron sewer. The age of the existing clay sewer runs through a wooded area that has resulted in root intrusions and defects in the pipe. The project will result in a watertight line that will prevent inflow and infiltration (I & I) from getting into the sewer system.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA
Project involves the reconstruction of the sanitary sewer that runs behind the houses on Knob Hill Drive, from 2575 Knob Hill to 2499 Knob Hill.

PROJECT DESCRIPTION/JUSTIFICATION

The purpose of this project is to increase the capacity of the storm sewer from the Lower Bee Branch Creek up 17th Street to West Locust Street. A larger storm sewer and additional high-capacity storm drains will help alleviate the flash flooding frequently experienced on these streets. This funding request is for the sanitary portion of the full reconstruction from the end of Phase 3, Heeb Street completed in 2021, to Kirkwood Street. This project will also address sanitary sewer capacity concerns within the Consent Decree Sewershed 11.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater, 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Roadway projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project can be funded through sanitary construction funds, state revolving loan funds or federal grant opportunities.

PROJECT ADDRESS/SERVICE AREA

W 17th St/Locust St from Heeb St to Kirkwood St

PROJECT DESCRIPTION/JUSTIFICATION

This project was identified by the City Council as a 2024 - 2026 Top Priority. The City was awarded a $2.28 million US DOT RAISE Infrastructure Planning grant and a $25 million RAISE Capital grant to assist in funding for the project entitled “Building Bridges to Elevate Employment (B2E2)”. The multi-year funding for this project will provide for the planning, design, and construction of a multimodal transportation corridor project for proposed improvements to the Elm Street corridor, the 16th Street corridor, the Kerper Boulevard corridor, Chaplain Schmitt Island corridor, and the proposed 14th Street railroad (vehicular and pedestrian) overpass bridge project.

The improved multimodal transportation corridors will connect vulnerable neighborhoods and low-income residents with economic opportunities, recreational amenities and key community resources in the Kerper Boulevard Industrial Park, on Chaplain Schmitt Island, in downtown Dubuque and its Historic Millwork District, and on the west side of the City via the downtown Intermodal Transportation Center.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED: FY2024	TOTAL PROJECT COST
55 - Engineering / Street	2C - Public Works	14th Street Overpass	PROJECT NO: 5521000009	$ 36,144,000

PROJECT DESCRIPTION/JUSTIFICATION (cont.)
Improving safety for all users is a key goal of the B2E2 project. The impending increase in train traffic due to the merger of the Canadian Pacific and Kansas City Southern railroads is projected to double the number of trains passing daily through the downtown urban core of the City from 9 trains to 18 trains by 2027. A primary focus of the B2E2 project is the elimination of an at-grade rail crossing conflict on 14th Street and provide for a proposed vehicular and pedestrian overpass bridge which will connect downtown residents to job opportunities while avoiding train crossing delays that negatively impact the safe and efficient movement of people and goods to and from the Kerper Boulevard Industrial Park and Chaplain Schmitt Island.

The entire B2E2 project has been broken down into 15 separate elements with 9 elements needing to be delayed to future phases, and 6 elements were included and awarded as part of the RAISE Capital grant. The project will focus on multimodal transportation corridors with “complete streets enhancements” along the Elm Street and 16th Street corridors, an improved pedestrian/bike shared use path on the existing 16th Street Peosta Channel bridge to Chaplain Schmitt Island, proposed roundabout intersections at 16th/Sycamore and at 16th/Greyhound Park/Admiral Sheehy Drive intersection, and vehicular and pedestrian overpass bridge on 14th Street over the railroad tracks.

RELATIONSHIP TO OTHER PROJECTS
U.S. Department of Transportation (USDOT) RAISE Infrastructure Planning Grant, and Schmitt Island Master Plan

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may be funded by Sales Tax (20%), Sales Tax Fund (30%), Road Use Tax, Greater Downtown TIF, DRA Distribution, State and Federal Grants

PROJECT DESCRIPTION/JUSTIFICATION

This project is identified in the comprehensive plan and is a City Council 2025 - 2027 High Priority. This project will provide funding to implement recommendations outlined in the adopted Central Avenue Streetscape Master Plan along Central Avenue between 11th and 22nd Streets, as well as recommendations from the traffic study for the Central and White Street corridors

The Central Avenue and White Street corridor traffic study was completed in January 2025. Current funding is for the Central Ave & White St Design phase I, which includes design work for

1. Restriping the whole corridor (pavement markings) for transition for future construction and visual changes to the corridor,
2. On-Street Parking removal analysis for any off-street needs,
3. Construction design for Central Ave, White St, and the side streets in multiple sections (bite size pieces) from 14th St to 22nd St. and
4. Construction Design for the Cycle Track along the west side of White St.

The FY26 includes $400,000 for engineering design services and $1 million to create proposed new public parking opportunities to replace on street spaces lost on Central and White Streets, if applicable. FY27 is funding for the restripe design of the entire Central Avenue and White Street corridor, 4th-22nd, and continue the FY26 design work. FY28 is improvements from 14th - 17th Street. FY29 is improvements from 17th - 20th Street, and continue improvements to 14th -17th Streets. FY30 is funding for construction of the Cycle Track on the west side of White Street from 5th to 19th Street, and to continue improvements from 17th - 20th Streets. FY2031 and beyond will require $14 million in additional investment to do 20th - 22nd, and 4th -14th Street on Central Avenue and White Street.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2023	TOTAL PROJECT COST
55 - Engineering / Street	2C - Public Works	Central Avenue White Street Corridor Master Plan Design and Implementation Improvements 4th - 22nd Street	PROJECT NO:	5521000065	$ 9,770,000

PROJECT DESCRIPTION/JUSTIFICATION (cont.)

The Corridor is beginning to see private investment in building improvements and business location. The implementation of public infrastructure improvements is needed to support and leverage that private investment by creating a more pedestrian-friendly, complete streets corridor and attracting residents from other areas of the community.

It is anticipated that this project may have an impact on operating costs associated with infrastructure improvements, although those costs are unknown until the specific improvements and amenities in the corridor are identified and implemented. These costs will be integrated into the budgets of departments whose staff will be maintaining these improvements, as progress is made. This effort addresses the Comprehensive Plan goal of creating walkable, mixed-use areas.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the adopted Central Avenue Streetscape Master Plan, the Central Avenue / White Street Traffic Study for 1-Way to 2-Way Conversion (Project #5524000038), Central Avenue Streetscape Design 1-Way to 2-Way (Project #5521000017), and Central Avenue Corridor Streetscape Master Plan Implementation (Project #6051000001).

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Increase the visual appeal and beauty of the city with attractive gateways, corridors, streetscapes/ landscaping.

FUNDING RESTRICTIONS

Downtown TIF, G.O. Debt (GDTIF), Sales Tax 30%, Road Use Tax

PROJECT DESCRIPTION/JUSTIFICATION

In 2022, the Iowa Department of Transportation (Iowa DOT) completed a study to evaluate operational and capacity improvements along US20, between Cresent Ridge and Old Highway, with a specific emphasis on the US20 / Northwest Arterial intersection. Several concepts and design variations were vetted, and a preferred alternative was selected. The proposed improvements recommend closing all at-grade accesses on the south side of US 20 between Old Highway and Crescent Ridge, close the south leg of the NW Arterial intersection, and add a new south side frontage road between Old Highway and Crescent Ridge. The plan also recommends closing all at-grade accesses on the north side of US 20 between Old Highway and Northwest Arterial and provide a new north side frontage road extending east from Old Highway intersection. Additionally, the project proposes adding dual eastbound left turn lanes onto the Northwest Arterial, adding a westbound bypass right turn lane onto the Northwest Arterial, and operational reconfiguration at the Northwest Arterial and Crescent Ridge intersections. In partnership with the Iowa DOT, the City has identified approximately $6 million to assist in funding the proposed US20 / Northwest Arterial intersection improvements, which will leverage a $12 million allocation from the Iowa DOT. The $18 million operational and capacity improvements have been recommended by Iowa DOT staff for consideration in the Iowa DOT's past FY25-29 and FY26-30 Transportation Improvement Programs, however, did not get funded. Iowa DOT staff will submit the project again in FY27-31 for Iowa DOT Commission consideration. The grant is yet to be awarded.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the STREETS Project (5524000018)

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30%, Road Use Tax, DMATS STBG, State and Federal Grants

PROJECT DESCRIPTION/JUSTIFICATION

The City Council listed the East - West Corridor Capacity Improvement Implementation as a “High Priority” in its 2025 - 2027 Goals and Priorities. In an effort to advance this priority, the City has already completed the following improvements:

2016 - Property Acquisition for $853,000
2017 - Grandview / Delhi Roundabout for $827,000
2018 - Loras / Grandview Traffic Signals for $370,300
2019 - University / Grandview Roundabout for $1,200,000
TOTAL $3,250,300 in improvements to date.

The City and consultant team are currently working to complete the planning, preliminary engineering design and the NEPA environmental clearance phase to advance the development of East-West Corridor Capacity Improvements along University Avenue. In February 2025, the City hosted an open house public information meeting for the East-West Corridor Capacity Improvements. The preliminary design and results of the environmental study were presented to stakeholders and the public for review and provide input. The project team is currently using that feedback as they continue to refine the preliminary design for the corridor improvements. A second public information meeting will be held in summer of 2026.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2010	TOTAL PROJECT COST
55 - Engineering / Street	2C - Public Works	East - West Corridor Capacity Improvements	PROJECT:	5521000001 300-1039, 360-1039	$ 18,600,000

PROJECT DESCRIPTION/JUSTIFICATION (Continued)
In December 2023, the City received official guidance from the Iowa DOT that the DMATS STBG funds allocated for the east-west corridor project can only be used for eligible construction costs moving forward. This significant change in the use of federal and state transportation funds has created obstacles and challenges for completion of this project.

Since the City previously budgeted the east-west corridor project was based on grant funds to assist with all phases of project development, including final design, property acquisition, and construction, the City will need to evaluate how this shift in funding eligibility has impacted the City's ability to develop and advance the project. The City must identify local funding or grants to complete final design, conduct property acquisition, and construct the proposed corridor improvements. The adopted FY26 budget included $1 million dollars to continue to advance the development of East-West Corridor Capacity Improvements along University Avenue.

In January 2026, the USDOT issued the Notice of Funding Opportunity (NOFO) for the 2026 Better Utilizing Investments to Leverage Development (BUILD) Grant Program. In February 2026, the City submitted an $18.5 million BUILD grant application for the East-West Corridor Capacity Improvements Project. We have not yet received the grant.

The BUILD grant requested funding will support improvements to a 0.6-mile corridor along University Avenue, from Pennsylvania Avenue to Delhi, and will include final design, property acquisition, construction, and grant administration. The University “Overlap Section” will be transformed into a Complete Street corridor with new roundabouts at Pennsylvania Avenue, Asbury Road, Loras Boulevard, and Delhi; enhanced crosswalks near the roundabouts; pedestrian and bike accommodations along the segment.

The FY27-31 proposed budget provides funding which aligns with the proposed project development schedule as outlined in the BUILD grant application. If the City is fortunate enough to be awarded a BUILD grant, the total project cost estimate is $18.5 million, and the federal awarded funding would cover 80% of eligible costs ($14.4 million), which is included in this budget request. The City’s 20% local match ($4.1 million), in addition to other City project administrative expenses that would be considered as non-eligible costs, are also included in this budget request.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), Road Use Tax, Greater Downtown TIF, DMATS STBG funding and other eligible Federal and State grant funding.

PROJECT ADDRESS/SERVICE AREA
University Avenue, from Pennsylvania Avenue to Delhi

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding to be used throughout the City for the reconstruction of alleys using pervious pavements. This will fund one alley per year as property owners agree to an assessable project. This project addresses alleys not in the Bee Branch Watershed. Potential funding includes the Storm Water Utility. This project helps with the reconstruction of alleys that are badly deteriorated and help reduce the stormwater runoff from these areas. The pavement system allows the water to infiltrate the pavement and recharge the water table rather than be diverted to the storm sewer system and discharged to the river.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce potential flooding through flood plain management, mitigation and protection through a well-maintained, operational stormwater system.

FUNDING RESTRICTIONS
This project is restricted to Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax, along with SRF Clean water funds can be used if available.

PROJECT DESCRIPTION/JUSTIFICATION

This annual recurring budget provides for pavement markings on City streets. Markings typically include centerlines, lane lines, edge lines, curb medians, diagonal gore markings, crosswalks, stop bars, arrows, word messages, railroad crossings, and disability symbols. Bike lanes and other multi- mobility elements are included in the annual pavement marking program. In 2016 the City entered into an agreement with the Iowa Department of Transportation (DOT) to include pavement markings on DOT-designated roadway segments within the City, and the Iowa DOT would reimburse the City for actual costs incurred. The City follows Statewide Urban Design and Specification (SUDAS), Iowa DOT, and the Manual on Uniform Traffic Control Devices (MUTCD) standards when implementing the annual pavement marking program throughout the City.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves street maintenance which is a 2025 - 2027 City Council Top Priority. This annual reoccurring budget provides funding to either purchase material for Public Works to perform joint sealing or contract for the routing, cleaning and sealing of pavement joints around the City of Dubuque. It is very important to seal cracks in asphalt and concrete pavements as a proactive preservation practice to minimize water intrusion to extend the service life of the pavement. This will also include crack sealing of trail pavements. This project funding would supplement the work Public Works currently performs. In FY 27 this work includes sealing joints on the Northwest Arterial bike trail. This also includes work to re-surface the bike trail. It's been 19 years since the trail was paved and needs maintenance.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works annual overlay program (5421000003), Street Construction General Repairs (5521000012), Pavement Rehabilitation - Concrete Street Repair, Mill and Asphalt Resurfacing (5521000018), Pavement Rehabilitation - Dowel Bar Concrete Joint Repair

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

This project addresses pavement conditions citywide

PROJECT DESCRIPTION/JUSTIFICATION

This project involves street maintenance and pavement rehabilitation which is a 2025 - 2027 City Council Top Priority. This annual reoccurring budget provides funding to complete pavement rehabilitation on concrete and asphalt streets that are in a deteriorating condition. The streets applicable for pavement rehabilitation are exhibiting significant slab and joint deterioration. Public Works staff has performed street patching maintenance; however, the pavements require major rehabilitation to extend the service life and reduce annual maintenance. Common Hot Mix Asphalt (HMA) and Portland Cement Concrete (PCC) pavement rehabilitation alternatives which will extend the life of the pavement and provide a more acceptable surface ride may include but not limited to: partial and full-depth repairs; pavement milling and resurfacing; slab stabilization; diamond grinding.

Citizens have contacted staff to express their concerns and dissatisfaction with the poor condition of the streets. On an annual basis, the Engineering Department performed a pavement distress condition assessment for the streets network and establish a condition rating of fair, poor, and very poor. The Engineering and Public Works departments are using this pavement condition information to develop plans for the Public Works asphalt overlay program, the City's annual pavement rehabilitation and resurfacing program, and prepare recommended budgetary funds to be programmed in the City's 5-year capital improvement program.

Utilizing the current and future years programmed funding, the City is evaluating street rehabilitation projects at several locations citywide.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works annual overlay program (5421000003), Street Construction General Repairs (5521000012), Pavement Preservation Joint Sealing (5521000034), Pavement Rehabilitation - Dowel Bar Concrete Joint Repair

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves pavement rehabilitation which is a 2025 - 2027 City Council Top Priority. This project provides funding to complete pavement rehabilitation on concrete streets that are experiencing faulting of the transverse pavement joints which will extend the life of the pavement and provide a more acceptable surface ride. The pavement rehabilitation method recommended is to perform full depth pavement patching where the joint separation is greater than ¾" while also performing dowel bar reinforcement repairs to all transverse joints to improve traffic load transfer. Once the pavement repairs are made, the concrete pavement will be resurfaced using a conventional diamond grinding method which will provide a more acceptable ride. The identified streets are as follows: 2027. Pennsylvania Ave (University - Chaney), 2028. Crescent Ridge (US20 – Cedar Cross).

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide for the installation of flashing LED traffic signs and crosswalk warning devices at one location per year. The City receives several requests each year for flashing stop signs and flashing pedestrian crossings. These devices would be solar-powered LED lights which use less power than traditional bulbs. The device utilizes super-bright LED technology and a "stutter flash" that would flash at motorists 190 times in 30 seconds when activated called a Rectangular Rapid Flashing Beacons (RRFBs). Results have shown that more than 90% of motorists stop when the LED stutter lights are activated by the pedestrian. When the activation button is pushed, a friendly voice explains to pedestrians how to use the crosswalk. At night the button placards are illuminated so pedestrians can see them. Upon activation, the entire area is illuminated, including where the pedestrian is standing, the pedestrian street signs, and the center of the roadway in divided highways so the motorist can clearly see the entire crossing. The system would be radio-controlled and solar powered for maximum efficiency.

On the other years where a flashing cross-walk sign is not requested or installed, funding could be used for flashing yield and stop signs as needed around the City for additional reinforcement for the sign. The availability of these flashing crosswalks at select intersections, midblock crossings or high pedestrian walk-ways will continue to increase the connectivity and complete street elements throughout the City. This project funding will include money allocated for the foundations, poles, signage and installation costs.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves street maintenance and pavement rehabilitation which is a 2025 - 2027 City Council Top Priority. This annual recurring budget provides funding to perform design and construction for general street construction-related improvements. In prior years, the City had an annual capital improvement budget that would collectively fund all construction-related improvements and the 5-Year Annual Street Construction Program. This policy has been changed, and now the Annual Street Construction Program is budgeted as individual CIP's. As a result, an annual program is needed to provide a funding mechanism to allow for the construction for general street construction repairs and related improvements as miscellaneous projects develop. The Engineering Department routinely works on miscellaneous repair projects that occur, require a quick response and that are both unexpected and not budgeted. This annual program will provide a funding source to cover the construction costs for those unanticipated small repair projects.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Public Works annual overlay program, Pavement Rehabilitation - Concrete Street Repair, Mill and Asphalt Resurfacing (5521000018), Pavement Preservation Joint Sealing (5521000034), Pavement Rehabilitation - Dowel Bar Concrete Joint Repair

$ —	$ —	TOTAL	$ —	$ 2,055,000	$ 2,270,000	$ 440,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides for the reconstruction of 17th Street, from Heeb to the intersection of West Locust, and the reconstruction of West Locust from 17th to Kirkwood. With the reconstruction of all underground utilities, including water main, sanitary sewer, and storm sewer, this will require the complete reconstruction of the street pavement, curb & gutter, and sidewalks within the proposed project limits.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water, the 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater, 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary, and 17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project can be funded through Sales Tax 30%, Road Use Tax funds, or federal grant opportunities.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project is for Safe Routes to School-related safety improvements at various school locations throughout the City. The City in coordination with our Metropolitan Planning Organization (MPO), which is the Dubuque Metropolitan Area Transportation Study (DMATS), and the Dubuque Community School District have established a Safe Routes to School committee for the implementation of safety improvements at select elementary schools per the 2009 Dubuque Area Safe Routes to School Plan. A multi-year phased approach is anticipated to complete all schools that are ready for recommended improvements. The Safe Routes to School-related improvements can be pavement markings, flashing crosswalk signage, pedestrian countdown timers for signals and/or speed limit school zone signage. If it is a safe route for students/kids/teens, it is a safe route for everyone.

In FY27, the first phase of school areas to be considered is Carver Elementary with pedestrian crossing improvements at Radford/Saratoga/Camelot intersection. In FY28, the second phase of school areas to be considered are Irving Elementary with mobility improvements at Pennsylvania/Green intersection and crossing improvements at Pennsylvania/University intersection (East-West Corridor Study).

Prescott Elementary would be evaluated during the engagement and design of the specific design phase of Central and White Corridor that Prescott is in, along with conversation with the proposed cycle track on the west side of White St.

Lincoln, Bryant, and Eisenhower will be evaluated for future improvements. Federal and state grants may potentially be an alternate source of funding, and the City and DMATS will continue to consider these grant opportunities.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a multi-year program for the installation and reconstruction of public sidewalks adjacent to City-owned property and City-owned infrastructures (i.e., catch basins, hydrants, signals, financial assistance). This appropriation also provides for tree and stump removal when trees need to be removed as part of the reconstruction of the sidewalks within public right of way or City property. This project may also include the installation and reconstruction of curb ramps which is required by the Americans with Disabilities Act (ADA). The reconstruction of public sidewalks is necessary for the safety of pedestrians and to keep the City's liability to a minimum. ADA requires installation of curb ramps whenever a sidewalk is repaired at an intersection and a ramp is not currently constructed. With the recent Iowa Supreme Court ruling, the City is liable for all sidewalk defects in the public right of way. When defects are brought to our attention, we have an obligation to remove the liability.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of curbs and catch basins related to the sidewalk inspection and replacement program. Replacement of sidewalks, particularly those abutting the curb line or an intersection, frequently requires replacement of curbs and catch basins. It is anticipated in future years this program will increase with the installation of curb ramps with detectable warnings required by the Americans with Disabilities Act (ADA). Without funding for replacement of the curbs and catch basins, the program is restricted or delayed until funding can be secured. With funding earmarked for curb and catch basin replacement, the program can move forward on an established schedule. With an increase in curb and catch basin inspections at time of sidewalk inspections, additional curb and catch basins are identified for replacement, especially if the street is to be overlaid in the near future. The anticipated cost for curb and catch basin repairs has been increasing over the past few years and is anticipated to continue when the ramps needing walls, foundations, railings, and special designs are addressed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to City-Owned Sidewalk Replacements (project #5521000010) and needs to be scheduled in the same fiscal years as that project. This project may also impact the Water Department due to hydrant relocations- project #4281000018, Fire Hydrant Replacement.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of defective sidewalks by private contractors. City Ordinances #41-102 through #41-105 provide that a property owner be given a thirty day notice to replace a hazardous or defective sidewalk and, if they fail to do so, the City will have the repair made and the cost assessed to the property owner. In Fiscal Year 1989, the City began an inspection and reconstruction program for City sidewalks. Reconstruction is required on these walks when defective conditions are found. These funds enable the City to have the reconstruction done by contractors if the property owner does not make the corrections after proper notice and reasonable time. These costs are then placed as liens against the properties and property tax receipts are collected in the next fiscal year in the amount of the original expenditure.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

PROJECT DESCRIPTION/JUSTIFICATION

The annual Bridge Repair and Maintenance program allocates funding for the maintenance, inspection, and load rating of bridges & culverts throughout the City. The periodic maintenance efforts are intended to maximize the serviceable life of these structures and mitigate any premature deterioration which would ultimately result in costly replacements. Some of the most common repair efforts include concrete rehabilitation of bridge decks, substructure, barrier rails, and various culvert components. Other activities include the painting of steel elements, sealing of concrete cracks on bridge decks and railings, and expansion joint maintenance and repairs. The installation and reconstruction of erosion and scour countermeasure systems are also included in this program. This funding also provides for the inspection, program management, and load rating efforts required to comply with the federally-mandated National Bridge Inspection Standards (NBIS). The City's bridges are currently inspected on a biennial basis with one structure requiring an underwater inspection every 60 months. The City currently has 27 structures under its jurisdiction, which includes 18 bridges and 9 culverts. The last inspection, dated October 2025, indicated the City has no structures classified as functionally obsolete, or fracture critical, with one structure classified as structurally deficient. Several bridge structures will require preventive rehabilitation or within the next five years and several other structures will require routine maintenance and repair efforts so that the bridges remain in good condition. The annual Bridge Repair and Maintenance program funding has been increased to account for the changing bridge load rating requirements and to allow for the increased preventative maintenance and repair needs of bridges and culverts throughout the City.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides multi-year funding to support the City's efforts to meet the City Council goal of implementing an infrastructure enterprise (citywide) asset management system through use of a computerized maintenance management system (CMMS). This specific CIP project provides a share of funding for roadway, bridge and sidewalk related infrastructure assets. Other Department or Divisions are also separately budgeting multi-year funding for water main, storm sewer, sanitary sewer, fiber network, and traffic operations related infrastructure assets.

Enterprise asset management combines software, system asset inventory, services, and support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal enterprise infrastructure assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to inventory and manage infrastructure asset inventory, generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more. The City currently utilizes several separate utility CMM software applications for different functions or assets, and a single vendor application solution for a consistent CMMS citywide deployment for each utility's enterprise asset management is desired.

RELATIONSHIP TO OTHER PROJECTS

This CIP includes use of Bridge, Roadway and Sidewalk funds. There are additional CIPs to fund the Enterprise Asset Management Software from Water, Storm, Sanitary and Fiber funds.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30%, and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This annual funding provides for maintenance and repair of existing retaining walls that are owned by or are the responsibility of the City of Dubuque in various locations throughout the City. This annual program will allow for maintenance, repair and reconstruction of city-owned retaining walls as needed. Based on the recommendation of the City's Legal Department, there are a significant number of private-owner retaining walls which are adjacent to City right-of-way in which a mutual benefit could be established through litigation. As a result, the annual funding for retaining wall maintenance, repair and reconstruction has been increased to address this potential liable cost to the City. This annual program would provide for proactive maintenance, reconstruction and emergency repairs to city-owned retaining walls.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

$ —	$ —	TOTAL	$ 28,000	$ 42,000	$ 42,000	$ 40,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the permanent installation of street-closure infrastructure in areas that support the highest levels of pedestrian activity, beginning in the Millwork District and followed by the Farmers' Market corridor. Phase 1 constructs fixed bollard systems in the Millwork District, including E. 10th Street between Jackson Street and Washington Street, as well as segments south of E. 9th Street along Jackson Street and E. 8th Street. These installations will provide multiple controlled access points to support flexible event layouts and reliable vehicle-mitigation measures.

Phase 2 extends improvements to the Farmers' Market area, with bollard installations along Iowa Street from W. 13th Street to W. 10th Street at key closure locations that serve regular market operations. Additional future phases may include the closure of 7th Street between Bluff Street and Locust Street near the Dubuque Museum of Art (DuMA), coordinated with ongoing redevelopment planning in that area. Further locations will be evaluated through the special event review process.

This phased construction approach strengthens long-term safety, reduces reliance on temporary equipment, and creates durable infrastructure to support major public events throughout the downtown district.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Experiences and Activities: Provide accessible recreational, library, culture and arts programs/activities and parks amenities that are responsive to the emerging workforce/community expectation.

PROJECT DESCRIPTION/JUSTIFICATION

Within the City of Dubuque there are 12 existing at-grade railroad crossings through the downtown urban core. With the merger of the Canadian Pacific and Kansas City Southern railroads, train traffic is projected to double through the city by 2027.

Based on the forecasted increase in train traffic, the City partnered with the DMATS, the City of Peosta, Dubuque County, and the City of East Dubuque to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within each respective municipality's jurisdictional areas.

The planning level cost estimate for safety improvements at the 12 existing at-grade crossings through downtown is $3,700,000. If the City could implement the required safety improvements at all the grade crossings, the City could then request from the Federal Railroad Administration (FRA) a Quite Zone designation.

Based on the results of the rail corridor diagnostic study, the City applied for two (2) Federal Railroad Administration (FRA) grants, a Consolidated Rail Infrastructure and Safety Improvements grant, and a Railroad Crossing Elimination grant. Unfortunately, the City was not successful in either grant application. The City will continue to apply for any eligible grants to fund railroad crossing safety improvements.

Another factor that would need to be taken into consideration is for any proposed safety improvements to the railroad-grade crossing facilities would need to be designed and completed by both CN and CPKC railroads. The City would then need to pay (reimburse) each respective railroad for both design and construction. The City would be responsible for any proposed safety improvements to the approach roadway on either side of the railroad crossing.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2020	TOTAL PROJECT COST
55 - Engineering / Miscellaneous	6C - General Government	Railroad Crossing Safety Improvements and Quiet Zone Implementation	PROJECT NO:	5529900001 250-1201	$ 853,185

PROJECT DESCRIPTION/JUSTIFICATION (continued)
Per the City Managers directive and input from the City Council during the Goal Setting Process, the proposed funding in FY2027 – 2028 will allow the City to retain and collaborate with both CN and CPKC railroads to complete the design railroad crossing safety improvements.

RELATIONSHIP TO OTHER PROJECTS
This project is related to the RAISE Planning Grant, RAISE Capital Grant, and 14th Street Overpass Project (No. 5521000009)

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

PROJECT DESCRIPTION/JUSTIFICATION

This project is being funded by a grant from the U.S. Department of Transportation's (DOT) charging and fueling infrastructure (CFI) funds to install electric vehicle (EV) charging infrastructures at five locations in the downtown area of Dubuque. The five locations were determined by the outcomes of the on-going Smart Parking & Mobility Management Plan project and other community input. Site 1 is located in the parking lot at the corner of 22nd and Price Streets; Site 2 is located in a parking lot behind the Hilton Garden Inn on Chaplain Schmitt Island; Site 3 is located in a parking lot at the corner of East 12th Street and Elm Street; Site 4 is located at the corner of Jones Street and Harrison Street; Site 5 is located just off Main Street near the River City Church. This project is still a viable project according to the Federal Highway Administration. The grant has been paused but not cancelled.

RELATIONSHIP TO OTHER PROJECTS

Smart Parking & Mobility Management Plan (CIP # 4683000005).

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

PROJECT DESCRIPTION/JUSTIFICATION

This annual recurring Harbor Area Dredging Capital Improvement Program (CIP) budget provides for maintenance dredging at multiple riverfront locations to maintain adequate harbor and channel depths for recreational and transient boat navigation. This funding allows for annual riverfront maintenance dredging as required at Schmitt Island and AY McDonald Park public boat ramp launch locations; River's Edge Plaza and along the Riverwalk lower pier wall to accommodate excursion boat mooring; Ice Harbor gates; and Port of Dubuque Marina.

The City also has a contractual obligation to maintain city-owned and leased property under current lease terms to perform maintenance dredging at Dubuque Marina (Pleasure Boat Harbor) and at Dubuque Yacht Basin (Schmitt Harbor) to maintain adequate harbor depth for recreational and transient boat navigational access. While not contractually obligated, there are areas outside the City’s Lease obligation to maintain that need dredging to create a safe open water way channel for navigating vessels from the Peosta Channel and Mississippi River to and from the marina harbor locations. Assuming the marinas are willing to partner and provide matching funds, and if in the public’s best interests, the City will consider applying for an Iowa Department of Natural Recourses (Iowa DNR) Boating Infrastructure Tier 1 Grant (BIG Tier 1) Grant to assist in performing maintenance dredging. The Grant has been recieved in the years 2022 & 2024. The grants for future years are yet to be awarded.

Due to abnormally low river levels over the past several years, staff anticipates needed to perform more frequent maintenance dredging along the Port of Dubuque riverfront to accommodate excursion boat docking.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 1980	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION
This project is for the replacement and changes needed for the City's current vehicular wayfinding signage. There are 6 City districts with 2 "others:" College-Grandview (19), Downtown (37), Eagle Point (40), Port of Dubuque (7), Southend (6) and Westend (19), along with the Intermodal (5) wayfinding signage and the DOT (37), which is along US 20 & US 151/61. The City is working with Schmitt Island on redistricting some signage to coordinate with the new development on Schmitt Island.

The replacement of faded and/or outdated signage is needed. These construction costs will include the labor, equipment and materials with our Public Works department along with the cost of the signs. The first priority would be faded and incorrect/outdated signage that has been determined for each district. With previous modifications made to the 40 signs in the Eagle Point District, a simple name change can be around $20,000.

Since work is being done with Schmitt Island for wayfinding signage, the Eagle Point District is going to have less signs as some will be transferred to the Island District.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to another capital project.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS
This project can only be funded by Sales Tax Fund (30%).

PROJECT DESCRIPTION/JUSTIFICATION
This annual reoccurring project provides for the management of Riverfront leasehold properties, legal services, appraisal services, environmental assessments and mitigation, property condition assessments, structure demolition, and other related property improvement to the City's leased properties along the riverfront. These funds also allow for the clean-up of vacant city properties in preparation for redevelopment.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA Funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project will fund 10 portable speed shields a year to be used along various streets in the community. The speed shields are used to bring awareness to drivers on their speed and helps reduce speeds in areas known to have speeding issues. The speed shields are installed and managed by the Dubuque Police Department to assist in enforcement. This project also allows funding for residential speed humps/bumps/tables to be installed in the non-winter months for speed management on frequently requested local streets with speeding issues and enforcement low priority.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax (20%), and Sales Tax Fund (30%) and DRA Distribution

PROJECT ADDRESS/SERVICE AREA

$ —	$ —	TOTAL	$ —	$ 327,540	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project would provide funds for the replacement of one aerial bucket truck equipped with an electrical-hydraulic boom system. The unit being replaced is unit #3230, a 2019 Ford F 550 4x4 with an aerial bucket unit, after 8 years of service. This truck is used by our traffic signal technicians to perform necessary maintenance and repairs to all city-owned traffic control equipment, streetlights, security camera equipment, and related electrical systems. It is estimated that this truck will be driven over 100,000 miles before its tentative trade-in date. It is important that this unit is replaced on a timely basis to ensure that it retains fair trade-in value and is always ready to perform timely repairs to Dubuque's growing number of signalized intersections, expanding security camera system, and numerous city-owned street lights.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Funds (30%) or Road Use Tax Funds

PROJECT DESCRIPTION/JUSTIFICATION

This program will fund the expansion of communication duct and fiber that will significantly enhance public safety, improve a wide-range of city services and enable equitable and universal access to broadband (high-speed internet). The City will collaborate with other public entities and private carriers and specifically target its funds to "last block" undertakings, ranging from connecting widely-dispersed city facilities and assets to specifically connecting low income or geographically stranded neighborhoods that the private sector cannot/will not connect.

This program will leverage significantly larger private sector investments in Dubuque (usually 5X to 7X city investment), provides City infrastructure that reduces costs/improves services for multiple City agencies and create public assets which can in turn be leased or licensed to private partners to recover costs and support future broadband expansion and innovation. Incorporated into this project are several traditional, stand-alone CIP's such as extending the City's fiber backbone from 27th and Elm up to Jackson and 32nd and over to Central and 32nd. This brings broadband and surveillance infrastructure to this area of the City. These types of projects have been folded into this request in order to be positioned to reduce costs through public/private partnerships.

RELATIONSHIP TO OTHER PROJECTS

This capital improvement project is related to the Water SCADA Overhaul (project #42810000001).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project may only be funded with Sales Tax Fund (30%), Road Use Tax, and TIF funding in TIF districts.

PROJECT ADDRESS/SERVICE AREA

This project spans the City but includes many low/moderate income areas and will promote broadband access to these areas.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2020	TOTAL PROJECT COST

PROJECT DESCRIPTION/JUSTIFICATION

Emergency Preemption equipment was originally started in 2000, but this project request is for the installation of GPS-based equipment at new locations and the replacement of equipment at older intersections. This system can be used by fire, ambulance and police units responding to emergencies to provide for quicker response times by removing stopped traffic due to red signals at busy intersections. It will also improve safety for the community and emergency personnel. The optical system provides the capability of placing this on other vehicles, such as snow plows, allowing them to hold green lights to expedite the task of snow removal, but does not allow the snowplow driver to change the light from red to green. It also has the capability of supervision so that there is a record of units using the preemption system. The priority can be set into this system which would allow emergency vehicles to have priority over non-emergency vehicles using the system. The City of Dubuque is currently using Optical Preemption while new GPS technologies are now more popular and minimize roadway delays by only preempting the direction (straight or left) as needed. Current optical preemption disrupts the opposing lane because it always brings up both the left and the through for the direction of travel. New equipment is tied to the direction on the vehicle and will not disrupt the left turn if not needed. New replacement equipment for the older optical equipment can operate both optical or GPS-based communications.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This program would fund the purchase and implementation of a fiber infrastructure management program. Currently fiber infrastructure is documented on spreadsheets and drawings located in various locations throughout the City. This program will consolidate all this information into one software program with the ability to include network information that documents failover redundancy paths and Virtual Local Area Networks within the City. This program would also be used to document and assist in the exchange of assets to grow broadband in the Dubuque area via public/private partnerships to help cover underserved neighborhoods. Documentation of this information is crucial for the maintenance and operation of a fiber communications network that will be used to serve all departments along with public/private partnerships. Fiber communications is becoming a critical driver of economic growth in the City of Dubuque. This request would also help cover employees' time with fiber data collection.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Broadband Acceleration and Universal Access (#5524000019), Water SCADA Overhaul (#42810000001) and City Information and Network Security projects (#77699000006), Fiber Optic Conduit - Misc (5524000011)

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project provides an annual program for installing conduit for fiber optic in miscellaneous projects throughout the community. Installation of fiber conduit into existing infrastructure typically ranges from $25 to $50 a linear foot when installed in a stand alone project. When combined with other projects, the cost can drop to around $10 to $20 a linear foot. This improvement item funds the installation of fiber conduit along other unscheduled city projects and in conjunction with other private utility projects where it is convenient and at a cost savings to the community.

This conduit will be upsized to a multi-duct conduit system so that it can be utilized as part of the City's Fiber Optic Network project that will enhance public safety, improve a wide range of city services and enable equitable and universal access to broadband. During construction of this conduit, the City will collaborate with other public entities and private carriers to leverage private sector investments in Dubuque to reduce right-of-way usage by utilizing a "dig once" policy to install a multipath fiber duct that reduces costs and improves services for multiple city agencies and creates public assets which can in turn be licensed to private partners to recover costs and support future broadband expansion and innovation. This budgeted item would extend fiber optic conduit as part of the city-wide effort to create a network of city-owned fiber optic systems and will also aid linking adjacent projects together and can be shared with public/private partnerships. This fiber, once installed, is used by many city entities including the Information Technology, Fire, and Police Departments.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water SCADA Overhaul (#4281000001) and the Broadband Acceleration and Universal Access projects (#5524000019).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the maintenance and expansion of the Traffic Management Center's Intelligent Transportation System (ITS) improvements, including remote management and monitoring of the City's traffic signals, automated vehicle counters, cameras, classifiers, connected vehicle infrastructure, roadside units broadcasting SPaT data, and variable message boards along key city corridors. In addition, funds support ITS equipment located within the Traffic Management Center at City Hall and serve as matching funds for joint projects recommended by the Iowa Department of Transportation. Using state-of-the-art electronics, ITS technologies enhance traffic efficiency, reduce congestion, improve air quality, and promote safer and greener travel throughout the community. Previous fiscal year funding was used to purchase LiDAR detection equipment for deployment along the Locust Connector to improve traffic monitoring and detection accuracy. FY 20 funds were used to install roadside units along US 20 signalized intersections, broadcasting signal phasing and timing (SPaT) data to connected vehicles—making Dubuque the first city in Iowa to implement this technology. Future funds will continue supporting connected vehicle advancements and the replacement of aging ITS equipment.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

In 2001-2002, the city traffic signals were converted from 150-watt incandescent bulbs to 10 watt LED lamps. This conversion also included a large rebate incentive from the local power company along with drastically reduced electrical consumption. These new LED fixtures have a lifespan of 5 - 7 years. This appropriation will provide for the re-lamping of approximately 1/10th of the City-owned traffic signal lamps in each year. Currently the City has 115 traffic signals that with an average of about 40 lamps per intersection. Each lamp runs approximately $70 each. New LED signal heads can be purchased with a 15-year warranty. This project will reduce maintenance problems (burnouts/failures) with traffic signals in future years. These existing LED's have lasted approximately twice their warrantied lifespan, and instead of burning out, they dim over time and become non-compliant with MUTCD guidelines. This capital improvement program will systematically replace these lamps by corridor starting with the oldest LED's.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the improvement of existing traffic signals, replacement of signal controllers, removal of traffic signals where no longer needed, and/or the signalization of additional intersections as the need may arise. This project also covers engineering staff time related to additional signals and is combined with other programs such as the Traffic Signal Intersection Reconstruction and the Traffic Signal Interconnect to make a project viable. Each year appropriations are intended to fund the signalization of intersections through the City as the need may arise. New signals will be given consideration utilizing the warrants established in the Iowa Manual on Uniform Traffic Control Devices. Currently, each new signal installation can cost approximately $300,000 and there are multiple locations under consideration.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Traffic Signal Intersection Reconstruction (#55240000008) and Traffic Signal Mastarm Retrofit (#55240000004).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement request will be used to purchase and track replacement traffic control and street lighting equipment and would be used as a depository to track insurance claims. The City of Dubuque replaces equipment that is damaged or destroyed due to accidents and weather-related activities. Many of the new traffic cabinets along the major corridors may contain $60,000 to $75,000 of equipment. In some instances, this equipment is purchased to replace equipment that was damaged due to an accident in which there is an insurance claim. Insurance reimbursements are put back into the project to fund expenditures which helps track the costs due to accidents and how much the City spends on hit-and-run or uninsured accidents. Major storm events due to lightning alone can expend the budget.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the equipment, installation and software license for the placement of fixed cameras at $2,500 each, to be installed near roadways, alleys and signalized intersections throughout the City of Dubuque. Currently, the Traffic Operations Center has communication lines throughout the City along major and minor arterials, city streets and near signalized intersections. Engineering uses these cameras to remotely monitor and adjust traffic operations. Over the last few years, Engineering and Police have worked together using these cameras to aid the police in accident and crime investigations on a daily basis making them an integral part of public safety. These funds would also be available to add fiber optics communications lines to areas in need of cameras and to replace existing cameras as they age and as technology advances.

The increased operating costs represent the ongoing software licensing, storage expansion and maintenance for new camera integrations.

With IMON's public-private partnership with the fiber-to-the-home projects, the communications infrastructure has increased location opportunities for camera locations. We have collaborated with other departments on proposed camera locations and have gotten those locations placed with those public-private partnerships. Clarke Drive and Grandview Avenue are high priority.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a replacement program of the existing 30-foot white streetlights and some traffic signals located in downtown Dubuque. Currently, there are approximately 60 white streetlights remaining. The project would replace all remaining white poles and install lighting controllers with meters. In certain cases, these would be replaced with historical streetlights. Many of the streetlights in the downtown area were installed in the early 1950's. These are the white 30-foot style found along Central, Main, Iowa, Locust and Bluff Streets. Many of these streetlights utilize a direct burial style feed and unique service panel which makes it very difficult and costly to maintain. The new downtown streetlights will be capable of having banners brackets added. This project would also fund LED replacement luminaries throughout the City. Currently when street light fixtures burn out, they are replaced with matching style, high pressure sodium streetlights. This program would promote the use of highly efficient, long life LED street lighting throughout the City of Dubuque which saves energy and operating expenses. Current locations of interest include the Port of Dubuque Riverwalk, Bridge Lighting locations and miscellaneous subdivision locations. This project also initiates a scheduled replacement of older streetlights throughout the City and will also include the installation of new streetlights when conditions warrant. Currently, the City owns approximately 2,500 streetlights. In many older subdivisions, the entire light fixture, base, pole, and conduits need replacing. Currently there are around 60 lights in 24 locations outside of the downtown lights that are in need of replacement. Average cost of reconstruction is around $1,500 to $2,000 each.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%), Greater Downtown TIF, CDBG, and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Varies throughout the City. Mostly in the downtown area

PROJECT DESCRIPTION/JUSTIFICATION

This project will cover the City staff, engineering, and administrative costs associated with the STREETS (Smart Traffic Routing with Efficient and Effective Traffic Signals) project. This program will also be used to fund match funding required for grants associated with this project. Once STREETS is implemented and US 52 is rerouted, this program will study traffic patterns in the downtown to determine which streets may be converted into two-way streets and if any signalized intersections can be removed. FY 2022-23 costs cover consulting services to improve the efficiency of the STREETS system. FY24 was the starting point for Phase I after delays with the Department of Transportation. Starting in FY26, City staff is applying for a secondary grant for Phase II of the STREETS project, which covers more downtown signals. This project is legally required as this project fulfills the City's match obligation to the ICAAP Grant and DMATS funding agreements.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by state grants, Sales Tax Fund (30%), Road Use Tax Fund, and DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

This project would add additional surge protection to the 115 traffic signals and miscellaneous camera systems currently operated by the City of Dubuque. Newer Intelligent Transportation Systems (ITS) signalized intersections are becoming more complex with advanced communications networks, battery backup systems, preemption equipment, cameras and high-end detection equipment -- a recipe which makes these units more susceptible to lightning, surge and grounding issues. This project would fund the retrofitting of these signals and cameras systems with surge protection ranging from $500 to $2000 at each intersection (depending on the degree of equipment at each location). During the summer of 2011, twenty intersections were struck by lightning during two storm events that caused an estimated $100,000 in damages. All newly installed intersections and camera locations will be designed with this additional surge protection to prevent a similar occurrence. This program has proven successful with a lower rate of damaged equipment after installation of this surge equipment. This surge equipment does require frequent analysis to ensure it continues to protect as it ages and often times will need replacement after multiple storm events. Typically these existing units get replaced as they fail or as they age out with the equipment they are protecting.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides needed traffic control at signalized intersections during times of power outages. This project will provide for the purchase and installation of battery backup systems by City traffic signal technicians in existing traffic signal controllers at various locations throughout the City. These battery backups will provide backup power to run each intersection on in full colors for up to eight hours during power outages. When power is restored, the controllers will automatically reset and go back into service. These battery backup units also serve as lighting controllers and can be placed midblock in the Central Business District to serve two intersections with one battery backup system. Each battery backup system costs between $13,000 to $20,500. This project will fund the addition of 2 to 3 BBS per year. In the City of Dubuque, there are 115 traffic controllers located at various intersections and crosswalks throughout the city. During times of power outages, crews are dispatched to the signalized intersections to place portable stop signs. Depending on when these power outages occur, the response time for crews to load stop signs and place them averages thirty minutes to one hour. The response time is even longer when outages occur at night and/or on a weekend. During this time, police officers are dispatched to direct traffic until stop signs can be placed. When major outages occur, many intersections at one time can be affected, which endangers public safety and severely interrupts both police and maintenance operations. This project allows the City of Dubuque to provide normal traffic control at intersections during power outages, with the least interruption to the driving public, police and maintenance operations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project initiates a scheduled replacement of the older traffic signal controllers throughout the City. This project would provide for the replacement of approximately 2-3 of the City's 115 traffic signal controllers per year. The new controllers are needed for signal coordination, traffic cameras, and compatibility with the preemption program for the traffic signals being proposed by the Fire and Police Departments. All new intersections are currently compatible. The cost of a single controller is approximately $22,000 plus $13,000 for a battery backup system. Recently, the cost of these cabinets has increased due to advanced technical equipment within the cabinet. This replacement schedule would also keep up with the replacement needs for the older controllers, purely from a maintenance perspective. High priority intersections in need of new controllers and cabinets include: Iowa at 5th, Iowa at 7th, 10th at Bluff, 5th and Bluff, Loras at Jackson, Loras at Elm, 16th at Elm, Locust at Charter, and Carter and Chaney on Asbury Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Street Camera Installation (#5524000016).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for reconstruction of a portion of the underground wiring system for the traffic signal interconnect system. It will also tie in some miscellaneous intersections that were not part of the original interconnect. Although the focus of this program is to connect traffic signals, the conduit will be upsized to a multi-duct conduit system so that it can be utilized as part of the City's Fiber Optic Network that will enhance public safety, improve a wide range of city services and enable fair and universal access to broadband. During construction of this conduit, the City will collaborate with other public entities and private carriers to leverage private sector investments in Dubuque to reduce right-of-way usage by utilizing a "dig once" policy to install a multipath fiber duct. This will reduce costs and improve services for multiple city agencies and create public assets which can in turn be licensed to private partners to recover costs and support future broadband expansion and innovation. Much of the underground galvanized steel conduit and wiring is in excess of 25 years old and is in need of replacement. Currently, annual repairs are needed to maintain the traffic signal coordination system operating in the downtown area. Much of the system is corroded to the extent that new wiring cannot be pulled through the old conduit, thereby requiring several spotted areas of conduit removal and replacement each year. The majority of the new conduit would be bored under the streets and sidewalks to minimize the need for street patches. When this interconnect fails, traffic lights go out of coordination and run free. Many times the power feed is also interrupted. This fiber conduit allows for the coordination of traffic signals and will also be used to leverage private/public partnerships for broadband expansion. High priority signals to interconnect include: Asbury at Carter and at Chaney and St. Ambrose; 14th at Elm and Jackson; Locust at Charter; and Bryant and Mt. Loretta.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water System SCADA Buildout (#42810000001), Community Broadband Expansion Project (#6100200044), Traffic Signal Synchronization/STREETS Program (#5524000018), and Traffic Camera System (#5524000016).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Increase availability, accessible and affordable broadband and redundancy through public-private partnerships.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of one intersection in the downtown every two years or the removal if no longer needed. New findings have prompted the City to accelerate this program. Much of the underground galvanized steel conduit and wiring is in excess of 25 years old and is in need of replacement. Many times when repairs are needed, the conduit at the intersection is corroded to the extent that new wiring cannot be pulled through, therefore requiring several spotted areas of conduit to be removed and replaced each year. Anchor bolts and bases are often times corroded or rusted off, requiring new foundations and equipment during which time the signal remains down or in an "all red" flash status. New findings this year have demonstrated a potentially urgent situation. Mastarms that were installed in the early 1980's as part of a major signalization effort are now in need of replacement. Most of these poles are the white painted signal poles in the area of White, Main, Elm, Iowa and Bluff Streets. These poles and transformer bases are rusting from the inside out, and it was found that many of the transformer bases looked adequate from the outside but were nearly completely rusted through. Many additional intersections are in need of rebuilding. New mastarm equipment is fully galvanized with many of the attached parts composed of plastic, aluminum or stainless steel which virtually eliminates this type of corrosion problem. These newly rebuilt intersections will include standard ITS equipment. Future high priority intersections in the downtown are: Iowa at 7th, Bluff at 9th, Bluff at 10th, 14th Street signals west of White, Charter at Locust and various improvements in the 1-way to 2-way corridors.

RELATIONSHIP TO OTHER PROJECTS

This project could be related to the Central Ave & White St Corridor Traffic Improvements CIP # 5521000017 (started FY26).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION
This program would provide for reconstruction of intersection mastarm retrofit for key intersections in the Central Business District. White and Central Avenue contain a mix of different styles of traffic signalization. Some locations have pedestal mounted signal heads, while other locations have mastarm mounted heads. The differing location of the traffic signals sometimes causes motorists to react to the 2nd signal ahead as opposed to their nearer intersection. This program would provide for installing mastarm mounted signals along Loras, White, Jackson, Elm and Central Corridors. Intersections included in this project are: 4th & Locust, 7th & Iowa, 9th & Bluff, 10th & Bluff,14th at Jackson, 14th and Elm, 16th & Elm. This would standardize the location of the signal heads along the major arterial routes. This project has been extended out to cover increased costs. High priority locations are signals along Loras Boulevard including Jackson, and Elm.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This will be an annual project that provides for the necessary fiber optics communications cabling and equipment to be installed along key corridors. This will allow for the interconnection network of traffic signals via fiber optics back to the Traffic Operations Center at City Hall and the Traffic Shop located at the Municipal Service Center. Fiber to the signals allow for remote management of the signal and allows for the addition of cameras at the signal to feed back to the Traffic Operations Center and Dispatch. It also allows improved security via network monitoring and improves coordination of traffic signals (thus lowering carbon emissions) and will also be used to leverage private/public partnerships for broadband expansion. Although this fiber is installed for traffic operations, it is oversized to accommodate all city department needs in the future. All new traffic signal installations since 2007 have been installed to be fiber ready. Now there are communications standards in place, and the City will be installing fiber optics and communication equipment throughout the City starting with the major traffic corridors including US 20, NW Arterial, Central Ave, White Street, Loras Blvd, Locust Connector, and US 61/151. One of the primary goals of this project is to complete fiber optic communications loops around the City utilizing US 20, NW Arterial, Pennsylvania, Asbury Road and US 52 down to Central to Locust and back onto US 20. Fiber optics communications will also replace the existing Central Business District traffic 7 wire interconnect. This change-out to fiber will occur over the upcoming years. There are many older signals throughout the City that need to be updated prior to going on this new system. These signals will be added to the system as they are updated. Many of these will be in partnership with ImOn Communications as they extend fiber throughout the community over the next 3 years.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water Department's SCADA Overhaul project (#4281000001).

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the conversion of approximately two signalized intersections per year to advanced LiDAR- and radar-based vehicle detection systems. Reliable detection is essential for reducing delay, improving signal coordination, and supporting future connected-vehicle applications. Many older intersections currently operate without detection or rely on outdated inductive loops that have deteriorated over time.

The City is transitioning to non-intrusive radar and LiDAR systems that provide higher precision, longer service life, and enhanced detection capabilities across multiple lanes and vehicle types. These technologies perform reliably in adverse weather and low-visibility conditions, offering significant improvements over traditional in-pavement and standalone video systems.

In addition, video analytics will be fused with LiDAR and radar detection, allowing these systems to share and validate data in real time. This multi-sensor approach enables the network to make smarter, more informed signal decisions—improving safety, optimizing timing, and generating valuable traffic performance data for future analysis and adaptive signal control.

Each intersection upgrade typically costs about $30,000, with the number of intersections completed annually dependent on funding levels.

The initial intersections targeted for upgrades include:

- Locust Street at Charter Street
- Locust Street at Dodge Street
- Locust Street at the Locust Connector
- Locust Street at U.S. 151
- U.S. 151 at Jones Street

These upgrades represent one of the most cost-effective ways to enhance signal performance, reliability, and safety, while positioning Dubuque’s traffic network for future integration with smart-city analytics and connected-vehicle infrastructure.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the systematic replacement of deteriorating streetlight poles along Chavenelle Road and adjacent industrial corridors. The existing poles have shown significant rust and structural degradation due to years of exposure to winter road treatments and the use of inferior, non-galvanized materials. To ensure reliability and safety, the City will replace all aging poles with galvanized and powder-coated steel poles designed to withstand harsh environmental conditions and provide long-term corrosion resistance.

A total of 57 poles have been identified for replacement in this program, with 32 poles scheduled for replacement in the first year, and the remaining poles replaced over the following two fiscal years. Each replacement, including installation and LED fixture, is estimated at $3,050 per pole, for a total program cost of approximately $174,000.

This proactive replacement plan will prevent future failures, improve lighting uniformity and energy efficiency, and ensure consistent aesthetics along key industrial and commercial routes including Chavenelle Road, Chavenelle Court, Innovation Drive, Synergy Court, and Seippel Road. The phased approach minimizes disruption while allowing the City to maintain a sustainable and predictable annual replacement cycle.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Street Light Replacement and New Installation (5523000003).

PROJECT DESCRIPTION/JUSTIFICATION

This project is to provide a share of funding from the fiber utility in support of the City's efforts of implementing an Enterprise Asset Management System through use of a Computerized Maintenance Management System (CMMS). Enterprise asset management combines software, systems and services, system support to maintain and optimize the functionality of operational assets across the lifecycle of an asset. Municipal Enterprise Infrastructure Assets refer to the physical and digital assets owned and managed by local governments for which they are accountable.

A CMMS is utilized to generate work orders and preventative maintenance schedules, track equipment usage and maintenance history, generate alerts for needed action, track spare parts, maintain asset condition assessment data, and much more.The City currently utilizes several separate CMM software for different functions or assets, and a broader scope or single vendor solution for a consistent CMMS tracking each utility's enterprise assets is desired.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Enterprise Asset Management System Software - Stormwater, Enterprise Asset Management System Software - Water, and Enterprise Asset Management System Software - Roadway. and Enterprise Asset Management System Software - Sanitary

PROJECT DESCRIPTION/JUSTIFICATION

This project will cover the City staff, engineering, and administrative costs associated with the STREETS (Smart Traffic Routing with Efficient and Effective Traffic Signals) project Phase 2. This program will also be used to cover match funding required for grants associated with this project. The City of Dubuque, East Central Intergovernmental Association (ECIA), the Dubuque Metropolitan Area Transportation Study (DMATS) and the Iowa Department of Transportation (Iowa DOT) have partnered to develop the Smart Traffic Routing with Efficient & Effective Traffic Systems (STREETS) project. The goal of the STREETS project is to develop a smart, next generation traffic management and control system that will provide sound information to the stakeholders and serve as a framework for the deployment of similar systems in small urban areas with populations under 100,000. The City of Dubuque is applying for $1.1 million in Iowa Clean Air Attainment Program (ICAAP) funding to implement Phase II of the streets project after completion of the Phase I in April 2024. This project includes 77 additional signals mostly in the downtown area that were not covered by phase 1 of STREETS. This project is legally required as this project fulfills the City's match obligation to the ICAAP Grant and DMATS funding agreements.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the STREETS Traffic Control Project Phase 1 (#5524000018).

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have well-designed, well maintained Complete Streets – full use of ROW including streets, sidewalks and bike lanes throughout our Dubuque community.

FUNDING RESTRICTIONS

This project may only be funded by state grants, Sales Tax Fund (30%), Road Use Tax Fund, and DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

In 2008, significant updates to the Historic Federal Building were completed to improve its overall condition and to ensure it remained as a historic structure anchoring downtown. Tthis historic building requires additional funding to ensure it remains in solid condition. Due to the COVID-19 pandemic, funding in past fiscal years has been reduced from this capital improvement project budget. The listed funding request attempts to replenish building components currently in deferred maintenance status and address emerging concerns.

From FY26 through FY32, this funding request supports engaging consultants to evaluate the building's MEP systems and develop plans for a remodel that reflects the most effective improvement strategy. Early-year funding is dedicated to initiating major HVAC upgrades to replace equipment that has exceeded its service life and is increasingly prone to frequent or potentially severe failures. Funding in subsequent years will continue supporting additional phases of the HVAC project.

FY26 and FY27 funds will also be directed toward the Federal Building Loading Dock Refurbishment. The loading dock is currently in disrepair, allowing water intrusion into the basement IT room beneath it.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA Funding.

PROJECT DESCRIPTION/JUSTIFICATION
This project funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team. In the past two years, more city employees are biking to work and are parking their bikes inside the building of their assigned work space. This is causing several problems for the Facilities Team. On bad weather days, bikes are bringing additional rain and snow into the buildings that can increase risk of slip-and-fall incidents. Bikes stored haphazardly in hallways can also interfere with emergency egress walkways. Some bikers can own bikes costing as much as $10,000 and thus are reluctant to store them in the open air at exterior bike racks. Weatherized bike lockers will provide riders with the needed protection and security to allow bikes not to be stored indoors.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Healthy & Safe: Have a walkable and bikeable community that supports a healthy lifestyle.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax 20%, Sales Tax 30% and Downtown TIF.

$ —	$ —	TOTAL	$ 20,000	$ —	$ —	$ —	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION
This project provides funding for radon mitigation in City Hall. The west and east ends of the basement at City Hall were tested for radon during normal occupancy for a period of 48 hours. The west end came in at 6.5 pCi/L (picocuries per liter) and the east end came in at 4.3 pCi/L. Basic monitoring meters were also placed in Finance and the City Clerk's office on the first floor for 7 days. The average levels were 4.24 pCi/L for Finance and 2.27 pCi/l for the Clerks office

While OSHA sets the worker limit at 100 pCi/L, the EPA recommends action for homes at 4 pCi/L or higher, and other organizations, like the World Health Organization, suggest even lower levels of 2.7 pCi/L. Currently, there are no federal, enforceable regulations to control indoor radon levels—only guidelines with recommendations and a national goal.

It is recommended to use the EPA standards of 4 pCi/L and proceed with installation of a Radon Mitigation System in City Hall to reduce radon levels. This project is a City Manager directive.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Healthy & Safe: Leverage and use technology to create a safe community including cybersecurity, drones and cameras.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax 20% and DRA.

PROJECT DESCRIPTION/JUSTIFICATION

CIP 6052000002 – Greater Downtown Rehabilitation and Housing Incentive Program

This program consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. Funded through tax increment proceeds, the program aligns with the City of Dubuque's 2029 vision for Livable Neighborhoods and Housing and the City Council's high-priority focus on workforce retention and attraction.

The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing.

Program Components:

- Housing Incentives: Grants of $10,000 per new multi-residential housing unit created in existing buildings. Eligible projects include adaptive reuse of non-residential structures or units vacant for at least three years. In alignment with the former CIP 6052000009, additional flexibility is provided for Central Avenue corridor projects (11th to 22nd Street), where units may qualify even if recently occupied, provided the project involves substantial rehabilitation and includes at least four units. All projects must accept all sources of income for otherwise eligible tenants.
- Façade and Planning Grants: A 1:1 match for transformational façade improvements and related planning or financial consulting work. This component receives the highest volume of inquiries among Economic Development programs and complements efforts led by Dubuque Main Street, Ltd.

Geographic Focus:

While funds are not exclusively reserved for Central Avenue, projects located along this corridor are prioritized to support City Council goals. The program also removes barriers to housing by increasing inventory in low-income census tracts with high walkability and access to public transit—critical in areas where up to 22% of households lack access to a vehicle.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:	FY 2020	TOTAL PROJECT COST
60 - Economic Development	5C - Community & Economic Development	Greater Downtown Rehabilitation and Housing Incentive Program - previously Downtown Rehabilitation Grant Program - Includes Central Avenue, Historic Millwork District, and Washington Neighborhood	PROJECT NO:	6052000002 241-1942	$ 5,724,793

PROJECT DESCRIPTION/JUSTIFICATION (continued)

Recent and Potential Projects Include:

- 333 E. 10th Street: Novelty Iron Works Condos (34 units)
- 1248 Iowa Street (13 units)
- 1527 Central Avenue (11 units)
- 1701 Central Avenue (4 units)
- 1739-1763 Central Avenue (7 units)
- 2541 Central Avenue (4 units)
- 5–6 smaller projects annually (10–20 units each)

Funding Outlook:

This $1,110,000 allocation supports a flexible mix of housing and façade grants. Applicants may receive funding through either or both programs. While the structure allows for a wide range of combinations, we aim to maintain a reasonable and impactful distribution. For example, it would not be practical to fund only one housing unit. Instead, we anticipate combinations such as 10–12 façades alongside 60–75 housing units, depending on project readiness, location, and community impact.

This consolidation enhances program efficiency and impact by unifying administration under a single CIP, while preserving the intent and flexibility of the original programs

Now that the city will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, the program has seen a significant funding reduction.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Greater Downtown Housing Creation Grant (project #6052000004). These grants are typically used on the same properties simultaneously.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF funding.

$ —	$ —	TOTAL	$ 100,000	$ 100,000	$ 100,000	$ 100,000	$ —	$ —

PROJECT DESCRIPTION/JUSTIFICATION

Dubuque's downtown, and the Central Avenue corridor in particular between 14th and 22nd Streets, has been identified by City Council as a priority reinvestment area. Persistent ground-floor vacancies reduce foot traffic, diminish the corridor's commercial vitality, and undermine the public and private investments already being made in the neighborhood.

The challenge is not just finding interested businesses — it is that the upfront cost of entering a commercial space (security deposits, early rent payments, and modest build-out) is often the single barrier that prevents an otherwise viable small business from signing a lease. This new program targets that specific gap. This program dedicates $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

This new program complements the Economic Development Downtown Rehabilitation Grant program, which is used to facilitate exterior facade improvements.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Greater Downtown Rehab Grant (project #6052000002). These grants may be used on the same properties simultaneously.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Expand the infrastructure and facilities capacity to support economic development and growth.

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

The Greater Dubuque Development Corporation (GDDC) has embarked on the Greater Dubuque 2027 Campaign, which will conclude in 2027. FY27 is the 5th year of the campaign. The main focus during the five-year campaign is the retention, recruitment and creation of workforce in the Greater Dubuque area. The creation of workforce includes connecting to the unemployed and underemployed population, disproportionately minority, and connecting those citizens with educational opportunities through Opportunity Dubuque in partnership with Northeast Iowa Community College. Upon completion of the participants' certificate of training, GDDC will work with community employers and provide livable wage employment. The five-year goals for the initiative include: population growth to 105,000 from 99,266; employment growth to 64,000 from 58,733; median household income increased to $76,000 from $63,031; residential and commercial construction of $1 billion; reduce the number of households below the Dubuque County Supplemental Poverty Measurement by 5 percent. This CIP supports the City Council goal of a Robust Local Economy. Workforce Development is a crucial component of growing the local economy in a sustainable manner. Existing labor force participants, through this CIP, are able to gain additional skills allowing them to advance in their careers. The City has a formal agreement with Greater Dubuque Development Corporation for this annual support.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity: Maintain and enhance an effective partnership with GDDC to grow the regional Dubuque economy.

FUNDING RESTRICTIONS

This project may only be funded by Dubuque Industrial Center West land sales and TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

The Jule applied for the FY23 FTA 5339 Bus and Bus Facilities Low or No Emission Grant in April and was notified by the FTA June 21, 2023 The Jule was awarded $2,359,072 in grant funding towards transitioning The Jule fleet to a zero-emission bus fleet. The project is for the purchase of two 35-foot electric buses, the acquisition and installation of bus charging infrastructure, and workforce development training. Current bus lead time is 16- 18 months from the placement of the order. City staff training will take place prior to delivery and upon delivery of the buses. These electric buses will replace diesel burning fleet buses and reduce carbon emissions.

RELATIONSHIP TO OTHER PROJECTS

This is not related to other capital improvement projects.

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project may only be funded by Transit Capital Fund, Sales Tax Fund (20%), and DRA funding. The project may be eligible for state and federal grant funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project requests funds for Wayfinding signage. FY 28 funds will be used to replace Wayfinding Signs throughout the City of Dubuque. Wayfinding signs provide directions to City buildings, facilities, and locations. Wayfinding signs are important to assist the public and visitors in navigating the city. The existing signage is older and needs to be replaced, as sign retroreflectivity (reflectiveness in light) decreases with age. As City facilities and amenities expand, new wayfinding is needed. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project is restricted to the Parking Construction Fund and/or Greater Downtown TIF.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds major repairs at City Parking ramps. The projects that are listed were part of the Condition Assessment Reports for each Parking Ramp, completed by an outside engineering consultant. This list includes the largest repair costs but does not list all repairs. The project funds are required for major renovation work needed at the Locust Street Parking Garage ($666,500.00 Elevator Repairs, Structural Repair Items and Waterproofing Maintenance) , 5th Street Parking Garage ($540,000.00, Stairwell Painting and Repair, Window Replacement, Lighting Replacement, Exterior Steel/Concrete Painting), Five Flags Parking Garage ($201,000.00, Waterproofing Maintenance), 10th and Central Avenue Parking Facility ($279,000.00, Waterproofing Maintenance), and Intermodal Parking Ramp ($74,000.00, MEP Maintenance). Funding will address structural repair items to the concrete beams, columns and slabs, stairwell maintenance, waterproofing, elevator system repairs and upgrades to the mechanical, electrical and plumbing systems.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

FUNDING RESTRICTIONS

This project is restricted to the Parking Construction Fund and/or Greater Downtown TIF

PROJECT ADDRESS/SERVICE AREA

Locust Street Parking Garage at 830 Bluff Street, 5th Street Parking Garage at 501 Iowa Street, Five Flags Parking Garage at 100 W. 4th Street, 10th and Central Parking Garage at 975 Central Avenue, Port of Dubuque Parking Garage at 351 Bell Street and the Intermodal Parking Garage at 830 Elm Street

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects

OUTCOME

Connected Community: Equitable Transportation, Technology, Infrastructure and Mobility: Have safe, available, equitable and accessible daily travel through multiple mobility mode for all Dubuque residents.

FUNDING RESTRICTIONS

This project is restricted to Parking Fees and Greater Downtown TIF funding.

PROJECT ADDRESS/SERVICE AREA

All at-grade, city-owned parking lots.

PROJECT DESCRIPTION/JUSTIFICATION

This project covers major repairs and maintenance issues for the Port of Dubuque Parking Ramp. The Diamond Jo contributes an annual amount as determined by their development agreement with the City and adjusted annually by Consumer Price Index. Prioritized projects will be identified in the CIP budget, and major ramp maintenance projects will be budgeted on an as-needed basis. Although there is no impact on the operating budget, operating revenue is manufactured by an ongoing maintenance program. Maintenance and repairs extend the life of the ramps and reduce costs by repairing degraded areas prior to damage becoming serious. Major repair maintenance programs are funded on an annual basis. All expenses related to the ramp are reimbursed to the City by the Diamond Jo. The capital improvement project balance accumulates to fund future parking maintenance projects.

Available funding in FY24 was used to conduct a major concrete slab crack-sealing investigation and the associated repairs. Due to the ramp being permanently classified as an open structure, an investigation of the sprinkler system will be conducted to see if some sections can be taken off line in order to save on long-term system maintenance and replacement costs. The project listed under the Project Description/Justification was part of a Condition Assessment Report that was completed for this Parking Ramp by an outside engineering consultant. This list includes the largest repair costs but does not list all repairs. The project funds are required for major renovation work needed at the Port of Dubuque Parking Garage. ($479,500.00, Structural Repairs, Waterproofing Maintenance, Mechanical, Electrical, and Plumbing Maintenance).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have well-designed and well-maintained public infrastructure and facilities serving neighborhoods.

PROJECT DESCRIPTION/JUSTIFICATION

The City administers a number of programs of federal and state-provided financial assistance for low-moderate income households (earning less than 80% of area median income) to achieve this. This Program provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund. The program offers approximately $30,000 to subsidize rehabilitation. This program helps maintain the City's affordable housing stock, supports strong neighborhoods, and provide quality and affordable housing options for Dubuque workforce and community both for homeownership and for rental.

This program is offered to households below 80% of median income as an incentive to purchase and improve properties citywide. Consideration will be given to increasing the amounts for purchase of rental properties converted to owner-occupied. Beginning in 2008, selective purchases have been made. Certain properties are targeted to be voluntarily acquired, for reason of poor maintenance and the inability or refusal of the owner to make improvements. These are then resold to qualifying owner-occupied households committed to the restoration of the home. This program helps support the Four Mounds HEART program partnership. This is a ten-year TIF which requires 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. This Housing TIF revenue can be used for City initiatives other than Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Urban Renewal area.

PROJECT DESCRIPTION/JUSTIFICATION

The Homeowner Rehabilitation Program provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978. This project contributes to the City Council goal of Livable Neighborhoods and Housing: A Great Place to Live - Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse. This program strengthens our existing housing stock and contributes to quality affordable housing, which are needs identified in the City's Comprehensive Plan and CDBG Consolidated Plan.

PROJECT DESCRIPTION/JUSTIFICATION
This program funds the City of Dubuque Downtown Urban Renewal District ADA Assistance Program. The program supports residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafes, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 25% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Healthy & Safe: Be a community in which all feel welcome, included and belonging.

FUNDING RESTRICTIONS
This project may only be funded by Sales Tax Fund (20%), DRA Distribution/Gaming, or TIF.

PROJECT DESCRIPTION/JUSTIFICATION

This Program takes a comprehensive approach to addressing multiple diseases and injuries for those who are low-to-moderate income and at high risk in the home by focusing on housing-related hazards in a coordinated fashion using the Eight Healthy Homes Principles: 1. Keep it dry; 2. Keep it clean; 3. Keep it Safe; 4. Keep it well-ventilated; 5. Keep it pest-free; 6. Keep it contaminant-free; 7. Keep your home maintained; 8. Thermally-controlled. The high-risk population contains, but is not limited to: children, older adults and families with persons with disabilities. Creating healthier housing promotes the healthy growth and development of children and has the potential to save billions in health care costs. All units served must be the residence of families with income at or below 80% of the area median income. All addresses within the City of Dubuque are eligible. This program seeks to complete construction on 126 units and ends September 2025.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Lead and Health Homes project (CIP #6100100054). If healthy homes funding is exhausted in the Lead and Healthy Homes grant, this grant may be utilized in partnership with that grant to provide both the removal of lead hazards and healthy homes principles to the same unit.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

This project may only be funded by Federal Grants provided by HUD.

PROJECT DESCRIPTION/JUSTIFICATION
This program was created as revolving loan fund available on a competitive basis to property owners in the Jackson Park, Cathedral, W 11th Street, Old Main and Langworthy Historic Preservation and Conservation Districts. Low interest loans are made to support exterior rehabilitation projects that result in saving, restoring or reconstructing original building elements using original materials that reflect the architectural character or significance of the building. This program provides a financial resource to property owners in the City's historic district and acts as an incentive to maintain and improve the community's architectural heritage. There is no requirement that an applicant is low-moderate income.

RELATIONSHIP TO OTHER PROJECTS
This project is not related to other capital projects.

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS
This project may only be funded by UDAG Loan Repayments

PROJECT DESCRIPTION/JUSTIFICATION

This project is for the Lead and Healthy Homes Production Grant that was awarded to Dubuque in 2025 and will continue for 48 months. This grant will assist 90-100 residential units with remediating any lead based paint hazards present in the unit. This grant targets units that house children under the age of 6, as well as units that have a child under the age of 6 frequently visiting. This grant helps prevent childhood lead poisoning which has irreversible effects on a child. The City of Dubuque experiences 5-10 cases of lead poisoned children each year, with blood lead levels over 15 ugl. Their is no acceptable level of lead in the blood, but the EPA considers any level over 3.5ugl as elevated and requires action. Structures built before 1978 often contain lead based paint, and the City housing stock consists of mostly structures built prior to this, requiring continued efforts to remediate the hazards.

RELATIONSHIP TO OTHER PROJECTS

This grant is used in conjunction with the Healthy Homes Production Grant and the Homeowner Rehab program to make the biggest impact for residents.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

Federal Grant and CDBG Funding Only

PROJECT DESCRIPTION/JUSTIFICATION
The goal of the Older Adult Home Modification Program is to enable low-income elderly persons to remain in their homes through low-cost, low barrier, high impact home modifications to reduce older senior's risk of falling, improve general safety, increase accessibility and to improve their functional abilities in their home. This will enable seniors to remain in their homes, that is, to "age in place," rather than move to nursing homes or other assisted care facilities.

RELATIONSHIP TO OTHER PROJECTS
Run by the HUD Lead Hazard Control and Healthy Homes Division

OUTCOME
Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS
This project may only be funded by Federal Grants provided by HUD

PROJECT DESCRIPTION/JUSTIFICATION

This project is for preparation of a Downtown Master Plan. The Downtown Master Plan Update will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core. It will focus on enhancing livability, economic vitality, historic preservation, and connectivity to ensure a vibrant urban center for all. The Downtown Master Plan Update has been identified as a City Council High Priority for FY 2025-2027.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Great Place to Live: Have a vibrant Dubuque Downtown with an increase in housing opportunities both market-rate and affordable and adaptive reuse.

FUNDING RESTRICTIONS

This project may only be funded by General Fund, Local Option Sales Tax 20%, DRA and Greater Downtown TIF

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide funding for the City to hire a consultant to update the community's greenhouse gas (GHG) inventory and community climate action plan (every three years). The community inventory was first completed in 2011, and best practices indicate it should be updated every three years. The updated inventory will track progress towards the 50% by 2030 Community Climate Action & Resiliency Plan approved by City Council in 2013. The contract would request a consultant to work closely with City departments to collect data regarding building energy use, fleet operations, and other GHG-emitting municipal sources. The contract would also request a consultant to work with the City and other community partners to update the community's GHG inventory and ensure complete final documentation to comply with the City's national commitments, including the Compact of Mayors. In 2015, then Mayor Buol signed on to the Compact of Mayors, which commits Dubuque to developing a GHG mitigation and climate adaptation plan within three years. Part of this requirement is reporting municipal and community data via an internationally-recognized reporting protocol such as the Carbon Disclosure Project. Lastly, the hired consultant would work with a community-based steering committee to update the community climate action plan, which should be updated on a regular basis. The City's last GHG inventory was completed in 2022 and funding in FY2026 will support completion during current fiscal year. This funding may also be used for a municipal-only inventory, communitywide inventory, plan implementation, as well as exploration of a goal that is science-based and goes beyond the initial 2030 timeframe. This project is a part of the Imagine Dubuque Comprehensive Plan under the Sustainable Environment section.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Preserving and Enhancing Natural Resources: Reduce the community's carbon footprint (50% by 2030) and explore science-based outcomes in the future.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project request is to install solar renewable energy on a city-owned facility (Multicultural Family Center or MFC) to reduce energy costs and reduce greenhouse gas emissions. Estimated annual energy savings: $13,418/year; Estimated avoided emissions: 65.6 MtCO2.

The 50% by 2030 Plan calls to increase distributed renewable energy by 21 Megawatts (MW) by 2030. Strategy 1 in Buildings and Energy is to increase solar on City facilities. With this funding, the City can set an example while experiencing significant savings in both money and energy. Energy costs have risen 28% in the past 7 years and continue to rise. Solar will offer city-owned buildings consistent savings in energy costs which equates to saving taxpayers' dollars.

Also important to note: if this project is completed by the end of 2027, the City is eligible to file for a direct pay provision tax credit up to 30% of project cost, estimated at $176,300 approximately $52,890 could be filed for and returned to City.

The project was proposed when the direct pay filing for previous renewable energy and electric vehicle projects was received as a part of the Inflation Reduction Act.

RELATIONSHIP TO OTHER PROJECTS

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project request is to install solar renewable energy on a city-owned facility (Library) to reduce energy costs and reduce greenhouse gas emissions. Estimated annual energy savings: $6,645/year; Estimated avoided emissions: 41.9 MtCO2

The 50% by 2030 Plan calls to increase distributed renewable energy by 21 Megawatts (MW) by 2030. Strategy 1 in Buildings and Energy is to increase solar on City facilities. With this funding, the City can set an example while experiencing significant savings in both money and energy. Energy costs have risen 28% in the past 7 years and continue to rise. Solar will offer city-owned buildings consistent savings in energy costs which equates to saving taxpayers' dollars.

Also important to note: if this project is completed by the end of 2027, the City is eligible to file for a direct pay provision tax credit up to 30% of project cost, estimated at $122,672, approximately $36,801 could be filed for and returned to City.

The project was proposed when the direct pay filing for previous renewable energy and electric vehicle projects was received as a part of the Inflation Reduction Act.

PROJECT DESCRIPTION/JUSTIFICATION

This project will replace network switches and related battery backup equipment on an 8-year cycle. Network switches are crucial components of computer networks, responsible for routing and managing data traffic between connected devices. The lifespan of a network switch is typically determined by reaching end of life (EOL), environmental factors or maxing out capacity in terms of connections or bandwidth and is usually 5 to 10 years. Proper power management, including the use of surge protectors and uninterruptible power supplies (UPS), can also help prevent damage from power surges and outages, which can shorten the lifespan of network switches. Many of the City switches are past their life span, including some of the City switches that are 12+ years old. A regular yearly rotation of replacing switches will minimize possible downtime. Switch downtime usually entails several hours, possibly days, of lost network connectivity for a user. Any switches that are end of life (EOL), also becomes a security risk when the manufacturer stops supplying security patches. This could possibly affect our cybersecurity insurance. This project would replace approximately 20 switches each year, along with their associated UPS's, for a total of over 160 switches over 8 years and then repeat the cycle. This would allow us to maintain all the City's core switch infrastructure on a regular replacement schedule and avoid any issues with EOL, security risks, or unsupported equipment, while maximizing uptime for all users.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This funding is requested for the completion of a bi-yearly aerial orthophotography project. Aerial orthophotography will be flown in Spring 2028 on our current flight schedule and covers the City of Dubuque, the 2-mile development review area, and the Dubuque Regional Airport. The updated photography continually assists in a number of organizational activities, including mapping, land management, urban planning, environmental monitoring, economic development, public safety, and requirements by the Federal Aviation Administration for the electronic airport layout plan (eALP).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

PROJECT DESCRIPTION/JUSTIFICATION

This project would perform a full network penetration test of existing network assets every three years. A penetration test (or pen test) is a simulated cyberattack conducted by security professionals to identify and exploit vulnerabilities in information technology systems, networks, or applications. The goal is to assess how well existing security controls can withstand real-world attack scenarios and to uncover weaknesses before malicious actors do. A standard pen test typically includes external testing of internet-facing assets, internal testing to simulate insider threats or compromised credentials, manual and automated techniques to identify exploitable flaws and reporting with prioritized remediation guidance. Performing a pen test can help with risk reduction by proactively identifying and fixing vulnerabilities that could lead to data breaches, ransomware attacks, or service disruptions. Many information technology standards, regulations, and insurance providers require regular penetration testing as part of a broader cybersecurity program. Testing also confirms whether firewalls, endpoint protections, and access controls are configured and functioning correctly. A pen test also reveals how quickly and effectively the City team can detect and respond to threats, helping refine response plans. Follow-up assessments and testing of effectiveness of changes made are recommended for future years.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of computers and printers for all City departments except those funded through Community Development Block Grant or Housing grant funds. This reflects a four-year replacement schedule for computers, a five-year replacement schedule for printers and a two-year replacement schedule for computer tablets. Software capabilities continue to outpace hardware and also provide continued opportunity for productivity enhancement. In the past we tried to maintain a five-year replacement schedule; however, this has been ineffective and is at least a year too long based on the pace of hardware and software industries.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of computers and printers for all enterprise-type City departments. This reflects a five-year replacement schedule for computers, a six-year replacement schedule for printers and a three-year replacement schedule for computer tablets. Software capabilities continue to outpace hardware and also provide continued opportunity for productivity enhancement. In the past we tried to maintain a five-year replacement schedule; however, this has been ineffective and is at least a year too long based on the pace of hardware and software industries.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery: Keep pace and leverage information technology and artificial intelligence to enhance City service delivery, City processes and project planning and to enhance cybersecurity.

DEPARTMENT:	STATE PROGRAM:	PROJECT TITLE:	YEAR FIRST SUBMITTED:		TOTAL PROJECT COST

CITY of DUBUQUE, IOWA

RESIDENT'S GUIDE

to the
RECOMMENDED
FISCAL YEAR 2027 Budget

CITY MISSION STATEMENT

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

2040 VISION STATEMENT

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy, and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

City of Dubuque
Iowa

For the Fiscal Year Beginning

July 01, 2025

Executive Director

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to City of Dubuque, Iowa, for its Annual Budget for the fiscal year beginning July 1, 2025. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

This City of Dubuque has been awarded this honor for the past 20 years in a row.

CITY MANAGER'S BUDGET MESSAGE

This page intentionally left blank.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

BUDGET INTRODUCTION

Attached for your review is the

Fiscal Year 2027 Recommended Budget.

The Budget and Fiscal Policy Guidelines are developed and adopted by City Council early in the budgeting process in order to provide targets or parameters within which the budget recommendation is to be formulated.

The budget recommendation presented by the City Manager may not meet all of these targets due to changing conditions and updated information during budget preparation. To the extent the adopted budget varies from the guidelines, an explanation is provided following the Budget Transmittal Message.

The following Fiscal Year 2027 Budget Transmittal Message is written in March as recommended by the City Manager to the Honorable Mayor and City Council.

A series of Budget Hearings take place following the presentation of the recommended budget, to allow for public input and analysis.

This budget was presented on April 6, 2026
to the Honorable Mayor and City Council.

This page intentionally left blank.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Fiscal Year 2027 Recommended Budget

DATE: April 3, 2026

The strong foundation of this budget recommendation is the Mayor and City Council Goals and Priorities adopted in September, 2025:

FIVE-YEAR GOALS

- Healthy and Safe Community
- Financially Responsible, High-Performance City Organization:
  Sustainable, Equitable, and Effective Service Delivery
- Robust Local Economy:
  Diverse Businesses and Jobs with Economic Prosperity
- Livable Neighborhoods and Housing:
  Great Place to Live
- Sustainable Environment:
  Preserving and Enhancing Natural Resources
- Connected Community:
  Equitable Transportation, Technology Infrastructure, and Mobility
- Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

2025-2027 Priorities:

Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other Projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

The theme for the Fiscal Year 2027 budget recommendation is a comprehensive, future-focused investment in Dubuque's core infrastructure and community assets – prioritizing safety, streets, and access to quality services. The budget aims to ensure that Dubuque remains a safe, healthy, and vibrant place while preparing for growth and evolving community needs.

For Fiscal Year 2027 I respectfully recommend a 1.00% increase in the property tax rate, which increases the property tax rate from $10.0637 in FY26 to $10.1648 in FY 27. This would represent a 3.00% or $26.68 property tax increase for the average Dubuque homeowner.

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$10.0637	$10.1648	1.00%	$0.10
Property Tax Asking	$29,872,253	$31,940,934	6.93%	$2,068,681

Since 1989, the average homeowner has averaged an annual increase in costs in the City portion of their property taxes of +1.52%, or about +$9.92 a year. If the State had been fully funding the Homestead Tax Credit, the increase would have averaged about +$7.32 a year.

Based on the information the city has today, it appears if the City Council approves this recommendation the City of Dubuque would still have the lowest property tax rate of the eleven cities in the State of Iowa with a population over 50,000.

In the current fiscal year, FY2026, the average of the other 10 cities was 55% higher than Dubuque's property tax rate, and the highest city, Waterloo, had a rate 116% higher than Dubuque.

I asked city assessor Troy Patzner for some information about the assessed value of residential properties in the North End. He responded as follows:

"The below data shows the percentage change of value on residential from three different revaluation cycles, 2015, 2021, and 2025. I had the north end neighborhoods separated from the rest of the City. It looks like in 2015 the north end hardly changed at +.3%, as compared to the rest of the city which went up 3.14% as compared to ten years later when they increased slightly more than the rest of the city neighborhoods at 9.66%."

Assessed Value Changes

Area	Assessment 2024/2025 % Change	Assessment 2020/2021 % Change	Assessment 2014/2015 % Change
North End	+9.66 %	+9.48 %	+0.30 %
Rest of City	+8.98 %	+10.25 %	+3.14 %

Some of the increase in assessed value in the North End can be attributed to the fact that the city and others have been investing hundreds of millions of dollars in the North End. Some significant examples include the $250 million invested in the Bee Branch Creek Watershed Flood Mitigation Project, millions of dollars into Comiskey Park, a new roundabout at Kerper Boulevard and Kerper Court, new sanitary sewers on Kerper Boulevard, millions of dollars into Crescent Community Health Center, $80 million in Chaplin Schmidt Island, soon to be almost $50 million in the 14th St. Railroad Overpass and Elm Street and 16th Street complete streets. The city also had financial assistance programs to help those who had experienced flooding replace furnaces, water heaters, and repair homes. All of this has led to the homes increasing in value, which means one of the most valuable assets a resident possesses is becoming more valuable.

For FY2027 there are $2,968,870 in general fund improvement package requests. This budget recommendation includes $597,760 for recurring improvement packages and $1,120,636 for non-recurring improvement packages. The non-recurring improvement packages are funded by Inflation Reduction Act rebate in the amount of $188,737 for the Climate Action Coordinator and the energy savers program, and $931,899 of non-recurring improvement packages are funded from the $5.3 million in internal loan repayments from the Greater Downtown TIF and Dubuque Industrial Center TIF Districts. The additional nine firefighters recommended are funded by a Federal SAFER grant and previously approved ambulance fee increases. The remaining $349,684 in recommended recurring improvement packages are funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. If the City Council does not approve claiming only 75% of the Downtown TIF revenues beginning in Fiscal Year 2028 we will need to eliminate all but the 9 new Firefighters from the recurring improvement packages and cut $702,793 from the Fiscal Year 2027 general fund operating budget. In the case of the 9 new Firefighter positions they would be funded from a Federal SAFER Grant, ambulance fees, and eventually property taxes.

The current recommendation for Fiscal Year 2027 is a 3% increase in property tax cost to the average homeowner, which generates $2.1 million in additional property tax revenue over Fiscal Year 2026. Each 1% reduction in the cost increase represents approximately $300,000 less in property tax revenue.

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %
Commercial: $150,000 value & below	433	381	$716.01	$679.03	-$36.98	-5.2 %
Commercial: $150,001-$300,000 value	232	225	$2,074.61	$2,051.27	-$23.34	-1.1 %
Commercial: $300,001-$450,000	147	167	$3,433.21	$3,423.52	-$9.69	-0.3 %
Commercial: Avg. Value = $624,927	588	636	$4,253.76	$5,023.81	$770.05	18.1 %

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Industrial: $150,000 value & below	8	8	$716.01	$679.03	-$36.98	-5.2 %
Industrial: $150,001-$300,000 value	11	9	$2,074.61	$2,051.27	-$23.34	-1.1 %
Industrial: $300,001-$450,000	4	3	$3,433.21	$3,423.52	-$9.69	-0.3 %
Industrial: Avg. Value = $731,693	58	58	$5,090.27	$6,000.54	$910.27	+17.9 %

If the City Council chooses an amount of less than 3%, it could impact the recommendations to fund improvement packages, and the ability of the city to fund programs that provide grants to outside agencies.

In the March 23, 2026, property tax public hearing interest was expressed in lowering the property tax increase. In Fiscal Year 2027 we face many special opportunities and challenges. I ask that we not add to the challenges side of this equation, potentially squandering the opportunities, by using one-time revenues, to pay for recurring expenses. Doing this without a long-term funding plan only digs a budget hole to dig out of in future budget years. It creates a future self-inflicted budget crisis. Using general fund reserves to pay for recurring expenses is one of the way that using one-time revenues to pay for recurring expenses is a poor financial planning strategy. **I respect the right of the Mayor and City Council to reduce budget expenditures to reduce the recommended property tax levy. I just ask that those reductions be recurring general fund expenditures.**

What needs to be ever present in our minds is that the State of Iowa elected leaders have made it clear that they intend to enact property tax reform legislation that will negatively affect the Fiscal Year 2028 (beginning July 1, 2027) local government budgets. We do not want to do anything in Fiscal Year 2027 that will create additional funding issues in Fiscal Year 2028.

I am recommending increases in the Enterprise Funds as follows:

Enterprise Fund Utility Rates

	FY 2026 Rate	Recommended FY 2027 Rate	% Change
Water*	$22.50	$23.17	3 %
Sanitary Sewer	$31.84	$34.73	9 %
Curbside Collection	$18.11	$19.74	9 %
Stormwater	$11.03	$12.02	9 %

*3,200 gallons per month is the average residential user with a 5/8 inch water meter.

One important point is that low-income customers receive a 50% discount on their base city utility rates.

During Fiscal Year 2026 the position of Economic Mobility and Neighborhood Support Director became vacant when Anderson Sainci was promoted to the Director of Strategic Partnership position. The Economic Mobility and Neighborhood Support Department was evaluated. I have eliminated the position of Economic Mobility and Neighborhood Support Director. I have also eliminated the Department of Economic Mobility and Neighborhood Support, while ensuring those important responsibilities are still being carried out.

The Department of Economic Mobility and Neighborhood Support Administrative Support Professional also provided support to the Information Technology Department and to the Human Rights Department. The position has been transferred to the Information Technology Department and will continue to provide support to the Information Technology Department and the Human Rights Department. The Administrative Support Professional also now provides support to the 911 Emergency Communications Department.

The Department of Economic Mobility and Neighborhood Support Community Engagement Coordinator Temwa Phiri responsible for neighborhood support has been transferred to the Community Impact Department. That department will now be called the Community Impact and Neighborhood Support Department.

The Department of Economic Mobility and Neighborhood Support grant funded position of Economic Mobility Special Assistant, held by Corrine Rothblum, has also been transferred to the Community Impact and Neighborhood Support Department.

I am recommending that beginning in Fiscal Year 2028 the city begin claiming only 75% of the Downtown TIF District revenues. From the unclaimed 25% taxing bodies would begin receiving on an annual basis the following:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

In Fiscal Year 2027 the Downtown Urban Renewal TIF District would repay to the City of Dubuque internal loans in the amount of $5,060,682 and Dubuque Industrial Center TIF District would repay internal loans in the amount of $332,307 for a total of $5,392,989. These funds would be used as follows:

Fiscal Year 2027 general fund operating expenses - $1,808,693
Fiscal Year 2027 general fund non-recurring improvement packages - $929,712
Fiscal year 2027-2030 internal loans to Refuse Collections Fund - $587,638
Fiscal year 2027 internal loans to Garage Service Fund - $180,693

The remaining $1.9 million would be held in reserve in case needed to help transition the city budget in Fiscal Year 2028 from any Fiscal Year 2028 State of Iowa property tax reform legislation.

If the City Council chooses to not add to the City reserves to be prepared for Fiscal Year 2028 State of Iowa Property Tax Reform, I would ask that any use of these funds be for non-recurring expenses.

The reduction in Downtown TIF revenues beginning in Fiscal Year 2028 by only claiming 75% is:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	—%
2028	$10,162,871	-$3,361,348	-24.85%
2029	$10,137,372	-$3,386,847	-33.33%
2030	$10,111,873	-$3,412,346	-33.66%
2031	$10,111,873	-$3,412,346	-33.75%

Even with the reduction in revenues available to the Downtown TIF District, the budget recommendation was able to increase funding for the Central/White Street Corridor Project, maintain funding for the 14th Street Railroad Overpass Project and create a new program to assist with filling up vacant downtown commercial spaces. Unfortunately, there did need to be some project funding reductions like for Five Flags and for developer incentives.

Project Funding

Project	FY2026-FY2030	FY2026-FY2031	$ Change
Five Flags Renovation	$23,464,000	$7,055,088	-$16,408,912
Downtown Rehab Grant Program	$5,500,000	$5,504,390	$4,390
Downtown Storefront Retention Program	$—	$400,000	$400,000
Central/White Street	$8,170,000	$11,170,000	$3,000,000
14th Street Overpass	$39,351,910	$51,183,326	$11,831,416
East-West Corridor	$1,240,275	$6,000,321	$4,760,046
Total	$77,726,185	$81,313,125	$3,586,940

General Obligation (GO) debt is an important part of the Fiscal Year 2027 budget recommendation:

New General Obligation Debt

General Obligation Debt	FY2027	FY2028	FY2029	FY2030	FY2031	Total
New G.O. Debt	$12,991,499	$16,756,114	$15,288,879	$16,520,648	$15,114,208	$76,671,348

Much of this General Obligation debt is Essential Corporate Purpose debt and can be issued by a vote of the City Council. Some of this debt can be issued by a vote of the City Council, but is subject to a reverse referendum where residents can circulate a petition and then a referendum vote is required. Some of the G.O. debt would be recommended as a voter referendum.

There are many decisions to be made over the next few years on major projects that will require debt that the scope, scale, and cost of the project are not known at this time. The most significant item that is in this category is the implementation of the Parks and Recreation Master Plan that was recently adopted by the Mayor and City Council. The Aquatics Center feasibility study has already begun, and other studies are recommended to begin with approval of this budget.

Some of these capital projects will require a voter referendum. Following is a list of voter referendums in Dubuque County since 1979:

Year	Bond	P/F
1979	Courthouse bond and addition	failed
1979	NICC Levy	failed
1980	NICC Levy	passed
1982	DUBUQUE-TAX LEVY FOR PARK ON CITY ISLAND	passed
1984	City Bond Dog Racing	passed
1984	NICC Levy	passed
1985	Dubuque Band Levy	failed
1986	DBQ school tax levy	passed
1986	LOST & Service Tax	failed
1987	Wheel Tax	failed
1988	Local sales and service	passed
1988	E991	passed
1988	WD Bond	failed
1989	Dubuque Pool	passed
1989	GAMBLING	passed
1989	WD Bond	failed
1990	WD Bond	failed
1990	Dubuque School Instructional support levy	failed
1991	WD Bond	passed
1991	DBQ Hotel tax	passed
1992	DBQ Golf Bond	failed
1993	DBQ Library tax	failed
1993	DBQ Gas Company	passed
1993	Interstate Power Company	passed
1994	DBQ school tax levy	passed
1994	NICC Levy	passed
1994	Gambling Boat	passed
1994	E911 surcharge	passed
1995	DBQ school tax levy	failed
1996	DBQ School renewal of physical plant levy	passed
1997	NICC Levy	failed
1997	DCSD Support Levy	failed
1998	NICC Levy	passed
1999	LOST & Service Tax	failed
2000	County Jail Bond	passed
2000	WD Bond	failed
2000	WD Levy and Bond	failed
2000	$4 million City/County Jail Expansion	passed
2003	Baseball Stadium	failed
2005	Establish Municipal Utility	passed
2022	County Conservation Measure	failed
2023	School Board - Public Measure	failed
2025	School Board - Public Measure HB	failed

The City is also using the Iowa Finance Authority State Revolving Loan Fund (SRF) low interest debt program for sewer and water projects.

A recent report from McKinsey and Company talks about the current State of potable water and sanitary sewer water infrastructure. The report says “As critical water infrastructure ages, maintenance expenditures go up.” The report further says, “…our research shows the U.S. water utility sector faced an estimated $110 billion annual funding gap in 2024, primarily driven by significant investments in aging infrastructure, operating expenses, and water-quality regulations. By 2030, this gap could increase to approximately $194 billion.”

In 2025 the American Society for Civil Engineers issued a report title, “A comprehensive Assessment of American’s Infrastructure.” They issued a national report card:

Drinking Water “C-“: Funding gap = $309 billion
Public Parks “C-“: Funding gap = $44 billion
Solid Waste “C+”: Funding gap = $16 billion
Transit “D”: Funding gap = $152 billion
Stormwater “D”/ Wastewater “D+” (including sanitary sewer): Combined funding gap=$690 billion

Nationally, as the City of Dubuque faces locally, the biggest funding challenges are in wastewater and stormwater.

While there are several major capital improvement projects in this budget recommendation, some that have already been mentioned, the Catfish Creek sanitary sewer projects, the stormwater projects on 17th/Locust Street, the 14th Street railroad overpass, and the digging of a new deep well for the water department are some of the largest.

If the City Council feels the projected stormwater rate increase needs to be lowered, we could look at delaying some stormwater projects as we pursue federal grant funding opportunities.

The City’s top priority in operating the Water & Resource Recovery Center is to consistently meet its permit requirements and protect the environment and public health. At the same time, wastewater collection and treatment systems will inherently generate some level of odor. Organic material begins to decompose in the sewer system before it reaches the facility, and the biological processes used to remove pollutants naturally produce gases that can at times be detected offsite. Odor conditions can also fluctuate due to weather patterns, the characteristics of incoming wastewater, and normal variations in treatment system performance. While odors cannot be fully eliminated, the City is committed to minimizing their frequency, intensity, and duration through a comprehensive, multi-faceted approach.

That approach focuses on controlling odor at its source through targeted chemical dosing, improving the reliability of treatment infrastructure, enhancing operational practices and data-driven decision-making, and advancing long-term planning. The following outlines the actions the City has already taken and the additional investments proposed in FY27 to continue reducing odor impacts while maintaining reliable treatment performance.

The City has implemented targeted chemical dosing strategies to directly reduce odor-causing compounds within the treatment process. Hydrogen peroxide dosing at the primary clarifiers is achieving approximately a 50 percent reduction in hydrogen sulfide, with limited additional benefit observed at higher doses. In parallel, ferric chloride dosing within the anaerobic digesters has reduced hydrogen sulfide concentrations from approximately 13,000 ppm to as low as 490 ppm, over a 90% reduction, and decreased struvite formation potential from approximately 330 pounds per day to around 40 pounds per day, again approaching a 90% reduction. Dosing is currently at approximately 140 gallons per day and is being incrementally increased toward an optimal range of 160 to 200 gallons per day. The goal is to have zero struvite formation. The City has budgeted approximately $460,000 annually for this program and is continuing to evaluate more cost-effective upstream dosing opportunities, including hydrogen peroxide application prior to digestion and at the Terminal Street Lift Station, to further reduce hydrogen sulfide loading to the facility.

Improving equipment and system reliability remains a central focus, as many odor issues are tied to treatment systems not operating as designed. A key example is the activated sludge system, where challenges have contributed to elevated hydrogen sulfide emissions since last fall. Current efforts are focused on restoring all mixers to full operation and preparing to clean the worst-performing of the three treatment trains to stabilize process performance.

Building on this work, the Fiscal Year 2027 budget includes an improvement package to clean all three activated sludge trains over a three-year period, with funding of $42,500 annually to complete one train each year. This planned approach is intended to increase treatment efficiency, improve oxygen transfer, and reduce conditions that contribute to odor formation.

The City is also advancing a proactive approach to digester management, with Fiscal Year 2026 funding supporting the cleaning of Digester #4 in June 2026. The Fiscal Year 2027 budget establishes annual funding to clean one digester each year. Routine cleaning, combined with ongoing chemical control, is expected to reduce future costs while improving performance and minimizing odor potential.

The Fiscal Year 2027 budget also includes targeted investments to further improve system reliability and reduce the risk of odor-generating conditions. This includes $1,380,000 to improve overall system resiliency. These funds will allow the City to restore redundant systems and to maintain an inventory of critical spare parts to avoid extended outages caused by long procurement times. In addition, the budget includes $135,000 for process control monitoring improvements—specifically dissolved oxygen monitoring within the activated sludge system—to provide real-time visibility into system performance and support timely operational adjustments. The budget also includes $40,000 for real-time influent monitoring to better detect and respond to changes in incoming wastewater that could interfere with treatment processes. Together, these investments strengthen the City’s ability to proactively manage the treatment system and reduce the likelihood of process upsets that contribute to odors.

The City is also advancing a comprehensive Facility Plan update that will guide how the WRRC meets community needs over the next two decades, with odor mitigation incorporated as a key consideration in evaluating future treatment and infrastructure options. In addition to long-term planning, this effort includes a focused evaluation of existing systems to ensure they are operating as intended and that operators have the knowledge and tools needed to effectively manage the treatment process. This includes enhanced training, improved process control strategies, and the development of data dashboards to better understand system performance in real time. In parallel, the City has transitioned from paper-based records to digital systems and is expanding its use of software integrated with SCADA data. SCADA (Supervisory Control and Data Acquisition) is a computer-based system that allows operators to monitor, control, and respond to equipment and processes in real time—helping ensure systems like the wastewater treatment plant running safely and efficiently. These efforts are strengthening data-driven decision-making and improving the City's ability to proactively identify and respond to conditions that could contribute to odor events.

In addition, the City is making a significant investment in modernizing electrical controls across the WRRC through a $7.2 million program designed to enhance system reliability and operational performance. Phase 1 is already underway, with approximately $2.36 million under contract to replace motor control centers—the "brains" of the facility—in two of the seven process control buildings. The FY27–31 budget continues this progress by funding upgrades to the remaining buildings, positioning the WRRC with a strong, modern control foundation that supports consistent operations and long-term service to the community.

The City is also advancing the Hauled High Strength Waste Improvements Project, an $8.1 million investment that will strengthen how hauled waste is received and integrated into the treatment process. This project will provide dedicated infrastructure and controls to ensure these waste streams are introduced in a manner that supports stable, effective operation of the anaerobic digesters as they were designed to function. The project is fully funded through hauled waste user fees and a federal grant, aligning system improvements directly with the users of the service while enhancing overall treatment reliability and performance.

Together, these efforts, supported by the Fiscal Year 2027 budget, position the City to respond to odor challenges in the short term while proactively managing and reducing them over the long term, all while maintaining reliable, compliant treatment operations.

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

The City Council at their December 1, 2025, meeting approved adding five Firefighter/Paramedic positions in the current fiscal year (FY 2026). The authorized strength of the Dubuque Fire Department, including civilian and sworn positions, was 92.16 FTE in FY 2022 and is 109.16 FTE as of FY 2026, an 18.5% (17 FTE) increase in staffing over that four-year period. The addition of nine additional positions in FY 2027 will make it a 28% (26 FTE) increase in staffing since Fiscal Year 2022.

The city will apply for a SAFER grant later this calendar year when the application process opens, then it is expected it would be several months before the city would learn of the results of the application. The results could be that all nine of the positions receive SAFER grant funding, some of the positions receive grant funding, or none of the positions receive grant funding. Based on Fire Chief Amy Scheller's experience in the SAFER grant process she believes Dubuque will have a very competitive application. If the city does not receive the SAFER grant in calendar year 2026 (FY 2027) to help with funding the nine new Firefighter/Paramedic positions the City Council has the options of reapplying for the SAFER grant in calendar year 2027 (FY 2028), phasing implementation of the nine new Firefighter/Paramedic positions (since the Fire Department has three 24 hour shifts that would most likely be three positions a year, one on each shift, for three years, leaving open the option to apply for a SAFER grant in future years for the positions not added in the first and/or second year), or decide to modify the funding plan to maintain the hiring schedule through a mid-fiscal year amendment of the FY 2027 city budget, which would take an evaluation of other approved general fund expenses. I am sure there are other options that could be explored.

The Parks and Recreation Master Plan identifies the need for seven additional positions to fully support its implementation. While adding all seven positions was not financially feasible in Fiscal Year 2027, the budget recommends moving forward with two park maintenance technician positions at this time. These technicians would take responsibility for comprehensive park maintenance across the system.

Including the position added for Eagle Point Park in the current fiscal year, this brings the total to three new park maintenance positions within a two-year period—demonstrating continued progress toward meeting the maintenance and service goals outlined in the Master Plan.

In Dubuque Public Safety is a Citywide Commitment.

Public safety in Dubuque is not the work of one department or a single set of responders. It is a shared responsibility woven into the daily operations of every service area across the City. From infrastructure and clean water to communications, planning, and community engagement, each department plays a crucial role in creating a safe, resilient, and thriving Dubuque. Together, their efforts demonstrate that safety is not only about reacting to emergencies—it is about preventing them, preparing for them, and creating the conditions that allow people to live their lives with confidence, stability, and trust.

Safety in the Air, on the Ground, and Throughout Daily Life

At the Dubuque Regional Airport, safety begins long before a plane takes off or lands. Staff complete rigorous daily inspections, manage weather and wildlife hazards, maintain critical systems, and collaborate with pilots and emergency responders to ensure 24/7 protection for travelers. This proactive approach exemplifies how safety is embedded into operations, not simply responded to in moments of crisis.

That same focus on prevention is found across the City. Public Works crews keep roads clear in severe weather, maintain stormwater and sewer systems, and care for the fleet that emergency responders depend on. Water Department staff run hundreds of tests every day to ensure clean drinking water, protect public health, and ensure firefighting capacity. At the Water & Resource Recovery Center, millions of gallons of wastewater are safely treated daily while programs like Industrial Pretreatment and FOG prevent hazardous backups and protect people, property, and the Mississippi River.

These systems—airfield safety, streets and utilities, water and wastewater—may operate largely out of public view, but they are the backbone of a safe and functioning community. When they work well, residents can move, work, and live without disruption. When incidents do occur, this strong foundation ensures that responders can act quickly and effectively.

Safety Through Law, Regulation, and Responsible Growth

Many of the City's departments protect residents by shaping safe environments long before emergencies or hazards occur. Planning Services enforces the Unified Development Code to maintain safe building practices, guide responsible land use, and ensure emergency access. Floodplain regulation, subdivision review, and zoning enforcement keep people out of harm's way and reduce long-term risks.

Similarly, the City Attorney's Office plays a vital behind-the-scenes role by enforcing building, nuisance, and animal control codes; supporting criminal and civil proceedings; reviewing contracts and specifications for public safety components; and providing guidance across departments. The City Clerk's Office contributes through civil service hiring processes that ensure police and fire roles are filled with qualified professionals, by overseeing background checks, and by coordinating safe community events.

Housing & Community Development reinforces safety through rental licensing, inspections, and environmental health programs—addressing lead hazards, structural issues, and fire risks. Their work helps reduce unsafe living conditions while improving long-term housing stability, a factor closely tied to overall community safety.

Sustainability efforts, too, are essential to public safety. They address the long-term threats of extreme weather, air quality, and climate impacts. By protecting resources, lowering risks, and strengthening resilience, sustainability work ensures that Dubuque remains safe not only today but for generations.

Safety Through Community Connection, Equity, and Support

Several departments focus on the human and social aspects of safety. The Community Impact & Neighborhood Support Department builds stability by reducing financial stress, connecting residents to resources, and supporting neighborhood-led improvements. These upstream interventions can prevent crises, reduce involvement with the legal system, and strengthen protective factors within families and neighborhoods.

The Human Rights Department promotes psychological and physical safety by enforcing anti-discrimination laws, reducing threats and harassment, ensuring access to housing and services, and building trust between residents and City government. When people feel protected and respected, they are more likely to cooperate with authorities, report concerns, and participate in community life.

The Carnegie-Stout Public Library provides safe public space for all residents—a place to learn, connect, cool down, warm up, or simply rest. Its educational programs and inclusive environment foster emotional, social, and economic stability.

Parks and Recreation also contributes by maintaining safe, welcoming outdoor spaces. Parks offer physical activity, mental relief, and community connection. Through collaboration with police, engineering, public works, and other departments, park safety is supported year-round.

These departments highlight that safety is not only physical; it is also social, emotional, and environmental. When residents have stable housing, welcoming spaces, and equitable treatment, public safety strengthens across the entire community.

Safety in Emergency Response, Technology, and Coordination

Several City departments are directly involved in emergency response. The Dubuque Fire Department responds to thousands of calls annually, from medical emergencies to hazardous materials incidents, while also conducting inspections, fire prevention programs, and rigorous training. Investments in equipment, staffing, and modernized tools ensure firefighters remain prepared for both routine calls and complex events.

The Dubuque Police Department protects residents through law enforcement, problem solving, community partnerships, and the use of technology to address crime and neighborhood concerns. Highly trained personnel and strong community relationships are central to their mission.

The 911 Emergency Communications Center is the first critical link in any emergency. Dispatchers gather essential information, coordinate multi-agency responses, use advanced technology to pinpoint locations, and provide lifesaving instructions until help arrives. They also support after-hours communications for multiple City departments and maintain vital situational awareness through citywide cameras and cross-jurisdictional connections.

Communications staff support emergency response by coordinating crisis messaging, issuing public alerts, staffing the Emergency Operations Center, and managing the AlertIowa notification system. Their work ensures residents receive timely, accurate, and accessible information when it matters most.

Information Technology protects the digital infrastructure that all of these departments rely on—safeguarding against cyber threats, maintaining communications systems, supporting public safety software, and ensuring uninterrupted connectivity between departments.

Transportation Services supports community safety by providing reliable transit that reduces congestion, improves mobility for vulnerable residents, and offers safe travel during severe weather.

Together, these departments form Dubuque's operational readiness network—preventing harm, responding to emergencies, and ensuring continuity during crises.

A Community Protected by Everyone

What becomes clear across every department is a shared philosophy: **public safety is everyone's responsibility.**

It is expressed through:
- the engineering controls that prevent crashes and floods
- the code enforcement that ensures safe housing
- the communications that keep residents informed during crises
- the economic and social programs that reduce instability
- the infrastructure that moves water, protects roads, and maintains technology
- the emergency responders who arrive when every second counts
- the parks, libraries, and public spaces that offer refuge and belonging

Safety is not the work of one department—it is the woven fabric of all City operations. Because of this collective effort, Dubuque is not just safer in emergencies; it is safer every day, in ways many may never see but all benefit from.

The City of Dubuque is a Community Built on Service, Safety, Stewardship & Shared Purpose.

Across Dubuque's government, one theme rises above all else: **people serving people.** From the moment person becomes a resident to the moment water flows safely from a tap, dozens of teams work together — often quietly, often unseen — to keep our community moving, thriving, and welcoming. These departments form an interconnected ecosystem of service, each contributing to a Dubuque built intentionally, compassionately, and with an eye toward the future.

At our **regional airport**, staff operate not just a transportation hub, but a gateway to opportunity. Their work helps businesses recruit talent, supports medical transport when minutes matter, and welcomes visitors home with professionalism and hospitality. The airport connects Dubuque to the wider world — and connects the world to us.

In **City Clerk services**, residents find their first point of contact with local government — a place to access public records, participate in council proceedings, pursue licenses and permits, and engage in meaningful civic involvement. The Clerk's Office safeguards the historical record of our governing body while creating clear pathways for the public to understand, influence, and participate in their government.

The **Communications Office** ensures that residents receive timely, trustworthy, accessible information amid today's whirlwind of noise, rumors, and viral misinformation. Their work protects the credibility of local government, helps residents understand and access city services, and keeps transparency at the forefront even in a fast-moving digital environment.

Through **Community Impact & Neighborhood Support**, Dubuque embraces a bigger vision: that opportunity should never be accidental. This department aligns data, resident voice, and neighborhood engagement to remove barriers and help families move toward stability and long-term economic mobility. Their mission is not just to run programs, but to strengthen the entire ecosystem of community support.

The **Economic Development Department** works quietly but powerfully behind the scenes — turning ideas into storefronts, revitalizing underused spaces, supporting local entrepreneurs, and aligning public tools with private investment. Their work helps shape a local economy rooted in resilience, creativity, and shared prosperity.

Our **911 Emergency Communications** team — the dispatchers who answer calls in crisis — serve with empathy, professionalism, and genuine human care. In a newly improved communications center, they continue to support residents with focus and compassion, inspired by the community they serve.

In the **Engineering Department**, staff act as the city's in-house engineering firm, designing and maintaining streets, sidewalks, traffic systems, sewers, stormwater networks, and fiber infrastructure. Much of their work may be invisible to residents, but it shapes every trip made in Dubuque and ensures that movement throughout the city is safe, efficient, and reliable.

For the **Fire Department**, the heart of their message is simple: their greatest strength is their people. Highly trained, deeply compassionate, and unwaveringly dedicated, these individuals show up on the worst days of people's lives with skill, steadiness, and humanity. They see people, not incidents — and their service reflects Dubuque's core values: integrity, responsibility, and care.

The **Housing & Community Development Department** works directly with residents to improve safety, stability, and quality of life. Through permitting, inspections, rental licensing, rehabilitation, and neighborhood revitalization, they build trust through personal interaction and help ensure that every person has access to safe, supported housing.

The **Health Services team** protects community wellbeing through food inspections, animal control, and investigations that prevent illness and injury before they occur. Their efforts reduce avoidable healthcare costs, prevent disease, and promote a healthier, safer community — much of it quietly, diligently, and behind the scenes.

Human Resources supports the people who support the public. They recruit talented employees, provide training, ensure compliance with employment laws, and help maintain safe, respectful, workplaces. Their mission is to build a capable workforce that delivers reliable, high-quality service citywide, while creating a sense of belonging.

Dubuque's **Office of Human Rights** ensures that every resident has access to safety, dignity, fairness, and equal opportunity. Going beyond enforcing nondiscrimination laws, the office provides education, outreach, dispute resolution, and guidance that fosters a community where everyone belongs.

The **Information Technology Department** serves as the city's hidden backbone — the "wizard behind the curtain" ensuring systems run smoothly, securely, and reliably. They solve problems before disruptions occur, strengthen cybersecurity, and make digital complexity feel seamless for residents and staff.

The **Carnegie-Stout Public Library**, approaching its 125th anniversary, continues to be a cornerstone of literacy, learning, curiosity, and safe public space. It nurtures psychological, social, and economic wellbeing through accessible resources, programming, and a welcoming environment.

In **Parks & Recreation**, the city is turning community feedback into a decade-long plan to enhance quality of life. The new master plan invites residents to dream, imagine, and collaborate as the department invests in spaces and programs that bring joy, health, and connection.

Planning Services blends data, imagination, and community input to guide how Dubuque grows. Like urban storytellers, they help shape neighborhoods that feel connected and welcoming, ensure development is safe and sustainable, and paint the next strokes of the city's evolving landscape.

The **Police Department** remains committed to disciplined operational excellence, strong partnerships, strategic innovation, and high-quality personnel — all in pursuit of keeping Dubuque as one of the safest places to live in the country.

In **Public Works**, deeply skilled operators, technicians, and field staff maintain the physical backbone of the city. Their work is essential, demanding, and often invisible — from clearing storm drains to maintaining streets to ensuring emergency response is possible. They steward the infrastructure that keeps Dubuque functioning, safe, and resilient.

Sustainability touches every aspect of daily life, from air and water quality to transportation, health, biodiversity, waste, and food systems. The city's sustainability work encourages residents to think broadly about how the community can thrive while protecting long-term environmental health.

The city's transportation system, **The Jule**, connects people to possibility. Every bus route expands access to jobs, education, services, and opportunity. In FY27, The Jule continues its commitment to sustainability and community connection — because when mobility expands, community wellbeing expands with it.

The **Water Department** works with precision and scientific rigor to ensure safe, clean, reliable drinking water. Through extensive daily and monthly testing, they safeguard public health, support essential amenities, and ensure Dubuque meets the highest standards of safety and emergency readiness.

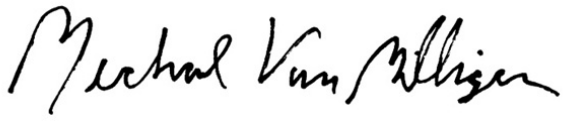

Without the **Finance Department** nothing runs. Managing a $250 million annual budget, paying bills, making payroll, purchasing goods, and keeping employees safe is a big and important job. In addition to financial responsibilities, the Finance Department oversees the implementation of the City's organization-wide safety program. The City is committed to providing a safe and healthy workplace for all employees, and safety is treated as a core value at every level of operations. To strengthen this commitment, the City has established a multi-department safety committee and completed a comprehensive review of all safety policies and procedures to ensure alignment with OSHA standards and best practices.

The **Water & Resource Recovery Center** operates around the clock, using chemistry, biology, engineering, and continual monitoring to protect the environment and public health. Their team blends technical excellence with a commitment to workplace culture, investing in reliability, innovation, and people as they prepare for the future.

Finally, the **City Attorney's Office** and the **City Manager's Office** work closely with the Mayor and City Council to ensure departments have the tools they need to carry out the goals and priorities established by the City Council.

There will be seven City Council special meetings prior to the adoption of the FY 2027 budget before the state-mandated deadline of April 30, 2026. I want to thank Chief Financial Officer Jennifer Larson, Assistant City Manager Cori Burbach, Public Information Officer Randy Gehl, Budget Manager Laura Bendorf, Budget/Financial Analyst Shannon Soppe, Budget/Financial Analyst Nikesh Shah, Budget/Financial Analyst Nathan Kelleher, and Executive Assistant Stephanie Valentine for all their hard work and dedication in preparation of this budget recommendation.

I respectfully recommend Mayor and City Council adoption of the Fiscal Year 2027 Budget recommendation, and I look forward to the multiple public input meetings to come.

Michael C. Van Milligen
City Manager

DIFFERENCES OF FISCAL YEAR 2027 RECOMMENDED BUDGET FROM MAXIMUM PROPERTY TAX DOLLARS RESOLUTION

Tax Asking

The proposed property tax dollars resolution approved by the City Council on March 23, 2026 totaled $31,281,296 (including the debt service levy of $282,630). The recommended tax asking was unchanged from the proposed property tax dollars tax asking.

Property Tax Paid by Average Homeowner

The proposed property tax dollars resolution included a 3.00% increase for the average homeowner property tax payment for the City portion of their property tax bill assuming the Homestead Property Tax Credit is fully funded. The recommendation included in this budget provides a 3.00% increase.

Property Tax Paid by Average Commercial Property

The proposed property tax dollars resolution included a 18.10% increase for the average commercial property owner. The recommendation included in this budget is a 18.10% increase for the average commercial property owner.

Property Tax Paid by Average Industrial Property

The proposed property tax dollars resolution included a 17.88% increase for the average industrial property owner. The recommendation included in this budget is a 17.88% increase for the average industrial property owner.

Tax Rate

The Fiscal Year 2027 “City” portion of the tax rate is being increased by $0.10108 from the Fiscal Year 2026 rate of $10.06372 to a tax rate of $10.16480 per $1,000 of taxable assessed valuation. The proposed property tax dollars resolution established by City Council included a rate of $10.16480. The recommendation included in this budget is a rate of $10.16480 (1.00% more than FY 2026).

MANAGEMENT PHILOSOPHY

Mike Van Milligen
Dubuque City Manager

As a leader, it is my responsibility to not only manage tasks and processes but also to understand and support the emotional well-being of our team members. Emotional intelligence is the cornerstone of effective leadership. Through self-awareness, managing our own emotions, and exercising empathy for ourselves and others, we create a work environment where everyone feels valued and understood. This approach not only fosters collaboration and innovation but also drives long-term success. Let us lead with empathy, nurture a culture of trust, and empower our teams to thrive both personally and professionally.

Dubuque
2007•2012•2013
2017★2019

ABOUT MIKE

I learned my secrets to success from my parents:

- Work hard
- Have a good attitude
- Be humble and kind
- Make good choices
- Family is all about love and respect

"The conductor of an orchestra does not make a sound. He depends, for his power, on his ability to make other people powerful."

- Benjamin Zander, Conductor, Boston Philharmonic

Guiding Principles

1. Be curious.

Curiosity leads to a culture of learning and continuous improvement for our self and our organization.

- Be approachable and open to the input of others.
- Being curious about various cultural approaches and backgrounds allows us to improve communication, navigate conflict, and helps everyone feel like they belong.
- Strive to continually improve methods, process and policies

2. Be problem solvers.

Team members' approaches to issues should be to focus on what can be done to solve the problem.

- Create processes that allow for creativity and innovation.
- Be willing to ask for help and create a culture that supports risk-taking.
- Adapt decision-making processes to include a variety of voices and communication styles.
- Be data-driven and focus on improving community outcomes for all.

3. Develop Partnerships

Team members can be more effective by developing partnerships with other departments, residents, and other organizations.

- Form teams that capitalize on individuals' strengths.
- Develop shared goals, objectives, and decision-making processes.
- Form partnerships that reflect the variety of backgrounds and interests in the community we serve.

4. Hold each other accountable.

Two-way accountability involves both parties taking personal responsibility for their actions and commitments in a constructive and supportive manner.

- Relationships are built at the speed of trust.
- Self-accountability involves holding ourselves to a high standard and demonstrating the behaviors and characteristics we desire.
- Mutual accountability requires consistent communication, and creates an environment where feedback is welcomed and the team works together towards common objectives.

Dubuque operates under the council-manager form of local government.
The City Council are elected by residents and hold policy-making power. They appoint a professional, non-partisan city manager to oversee the day-to-day operations of the city. The council-manager form of government was adopted by citizen referendum in 1920.

BUDGET PROCESS

This page intentionally left blank.

OVERVIEW OF BUDGETING

INTRODUCTION

The review and adoption of the budget is the single most important thing that a City Council does each year. The budget sets the tempo, capabilities, commitments and direction of the city government for an entire year. It is the yardstick against which the city operations can be evaluated. But what is a budget?

The purpose of this narrative is to identify:

a) what a budget is;

b) why we prepare a budget;

c) alternative types of budgets;

d) major characteristics of the Dubuque budget system; and

e) roles and responsibilities in preparing the annual budget.

WHAT IS A BUDGET?

A budget is several things:

1. The budget is a fiscal plan setting out anticipated revenue and expenditures for accomplishing a variety of services over a given time frame. The fiscal plan includes:

   a) an explanation of the services, activities, programs and projects to be provided by the City to the residents;

   b) the resultant expenditure requirements; and

   c) the resources available for meeting the expenditure requirements.

2. The budget is a process concerned with the allocation of available resources among alternatives and competing departments, activities and programs. Cities rarely have enough money to be able to appropriate all the funds requested to all departments and activities and, as a result, there is considerable competition for whatever money is available. Budgeting, as a process, is concerned with developing an acceptable mix or balance between costs and services and represents the decisions made with respect to:

   a) quality and quantity of activities and projects to be undertaken; and

   b) financing of those activities and projects.

3. The budget is a policy document which:

   a) establishes the authority to spend funds, and levy and collect property taxes;

   b) represents a commitment to provide a specific level of service within a given amount of resources; and establishes criteria (objectives, measures and dollar limits) for evaluating and controlling expenditures, revenue collections and performance. Through the budget, policies are made, put into effect, and controlled.

4. The budget is a legal requirement. State law requires the City Manager to prepare the annual budget and the City Council to adopt the annual budget and certify it to the County Auditor by April 30th of each year preceding the beginning of the fiscal year on July 1st. The budget must be on a program - performance basis and show:

   a) expenditures for each program;

   b) income from sources other than property taxes;

   c) amount to be raised by the property taxation and the property tax rate expressed in dollars per thousand of assessed value; and

   d) comparisons between expenditures in each program and between levels of service.

WHY DO WE BUDGET? WHY IS IT IMPORTANT?

Why do we go through the agony and the work? There are several reasons:

1. To meet the legal requirement.
2. To establish spending and income-raising authority.
3. To establish a work program for the fiscal year (objectives) and present it to the public.
4. To manage and control resources and their use.
5. To assure the proper mix of costs and services.
6. To assure the most effective and efficient use of available resources.
7. To set the tempo and direction of the city government.
8. To prioritize policies and objectives.
9. To link dollars with results.

ALTERNATIVE TYPES OF BUDGETS

Line-Item Budget

The most commonly used budget format in local government today is the line-item budget. A line- item budget is one which allocates money for specific expense items or objects of expenditure without reference to the purpose, activities or program they will serve. This type of budget lists expenditures by such categories as full-time salaries, overtime, office supplies, postage, travel, rental expense, maintenance of buildings and grounds, office furniture and equipment, etc. The principal advantage of a line-item budget is that it is easy to prepare and facilitates expenditure control. However, this form of budget tells very little about the purposes, activities and programs of the city it serves. For example, it shows the amount of money that has been budgeted for personnel, but it does not show the nature of the services such personnel are to provide.

Furthermore, the traditional line-item approach does not show comparative costs and benefits of competing programs, thus making it difficult for the City Council and management to evaluate individual activities and allocate resources. These characteristics limit its usefulness as a device for giving direction and purpose to public service activities and programs.

Program Budget

Local governments usually spend money to accomplish something more than purchasing goods and services. They are also concerned about programs, missions, or functions. A budget organized on the basis of its intended purpose is called a program budget. A program budget allocates money to functions or activities rather than to specific items of costs. A municipal budget of this type lists expenditures for such cost categories as protective services, leisure time opportunities, and administration.

Few, if any, budgets are prepared exclusively on a program basis. Instead, program costs are usually broken into line items.

The primary advantage of a program budget is that it shows the broad goals and purposes for which we are spending money and allows for setting priorities. The disadvantage is that it does not show the level of services that will be produced by the functions for which money has been allocated. This characteristic weakens its value as a tool for managing the quality and quantity of public service programs.

Performance Budgeting

Performance budgeting goes a step further than program budgeting by requiring the breakdown of service into workload or units of performance and the assigning of unit costs. A system of work measurement is used to evaluate productivity and effectiveness.

The principal advantage of the performance type budget is that it shows both the activities of the city and the service levels of those activities and their respective costs. Thus, it can be a useful tool for regulating in a positive way, both the quality and quantity of city services. This characteristic makes the performance type budget the most useful of those types mentioned so far. However, it is also the most difficult to prepare. There are three reasons for this. First, it is difficult to define the units by which the work of the department or an activity or program can be measured. Second, even when the work unit can be defined, it may not be easy to establish a system, which will supply a reliable measure of the work output. And third, it requires much thought and study to establish acceptable service levels for various activities and programs.

Zero Base Budgeting

Traditional budgeting, whether line-item or program-oriented, tends to focus on how much you spent last year as a beginning point for budget preparation. That is to say that it is incremental, it adds an increment on top of last year's spending level generally without challenge and without consideration of alternatives or trade-offs.

Zero Base Budgeting (ZBB) is a system whereby each activity or program, regardless of whether it is a new or existing program, must be justified in its entirety each time a new budget is formulated. Rather than using the previous year's budget as a base, ZBB assumes no base; all activities old and new must be explained and justified each year. The agency starts at zero.

ZBB measures the desirability, need and beneficiaries of services as well as the reasonableness of the proposed costs, alternatives to the activity, and trade-offs between partial achievement of goals and the ability to fund all proposed budget expenditures. ZBB accomplishes this by dividing all the proposed activities or services of the governmental body into units of manageable size, subjecting them to detailed examination, and ranking them according to their importance.

Revenues are matched against the list of services according to their rank. High-priority services are funded first. If money runs out, the low-priority services are not funded.

The characteristics of ZBB can be summarized as follows:

1. Scrutiny of old or existing activities as closely as new or proposed activities;

2. Reallocation of resources from low-priority activities to high-priority activities;

3. Emphasis on alternatives (levels of expenditures and services and methods of providing services); and

4. Allowance for budget reduction or expansion in a planned, logical manner.

Dubuque Budget Approach

The budget system being utilized by the City of Dubuque incorporates aspects of each of the several budget alternative types discussed here. The major characteristics of our budget system are:

1. It has line items for control and fiscal management purposes.

2. It is organized by program, department and fund.

3. It attempts to identify, analyze, and articulate the fundamental purposes and objectives of the Dubuque City government. This approach is intended to place emphasis upon commitments, accomplishments, and activities performed rather than upon items purchased and to provide for the establishment of priorities. It attempts to identify, quantify, and analyze the demands on and accomplishments of organizational units in terms of established goals, objectives, and purposes. Are we achieving our goals and living up to our promises? This requires the establishment of workload and demand indicators and evaluation criterion. It is performance that counts.

4. It attempts to identify all costs of each department, activity, and program, including capital expenditure, debt service, and employee benefit costs. What does an activity or department really cost?

5. It presents alternative service and funding levels for all activities in the operating budget. The purpose is to provide the City Council with the widest possible range of alternatives to maximize their opportunity for making policy decisions, assigning priorities and allocating scarce resources to accomplish their policy objectives.

   The City's budget approach involves the preparation of three budget documents. **The Policy Budget,** the **Capital Improvement Program (CIP) Budget**, and the **Resident's Guide**.

   The Policy Budget includes the City department detail, by defining goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted. The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

   The Capital Improvement Program (CIP) Budget represents the City of Dubuque's five year physical development effort, attempts to address a variety of needs, which the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP Budget reflects the City's comprehensive plan and the goals and priorities established by the City Council. The first year of the five-year CIP Budget goes into the budget for the next year and deserves the most attention. The CIP Budget is updated each year so that City Council has the opportunity to change the next four years and add a new year.

   The Resident's Guide pulls the entire budget together through visuals, narratives and summaries. It explains the budget, provides revenue, expenditure and personnel summaries and provides the City Council vision, goals and priorities on which the budget is based.

ROLES AND RESPONSIBILITIES

Budget preparation and administration is a shared responsibility between the City Council, City Manager, Finance Department, department manager, division manager, and supervisor. Each plays an important role in the fiscal management system and the quality of and satisfaction derived from the fiscal management system is a direct result of the efforts of the several participants. Lack of attention, failure to follow procedures and/or poor follow through at any level can undermine the best fiscal management system.

Let's look at the roles each plays.

City Council

In a very real sense, budget preparation and administration begins and ends with the City Council. The City Council has the following responsibilities:

1. Establish City goals and major performance objectives.
2. Approve guidelines for preparing the annual operating budget.
3. Establish through adoption of an annual budget what services and the level of services to be provided and how they will be financed.
4. Establish rules for the conduct of the City's fiscal operations.
5. Monitor progress toward achievement of objectives.
6. Require independent audit of fiscal records and transactions.

The City Manager

The City Manager is responsible to the City Council for the day-to-day operation and administration of the City government. In terms of fiscal management, the City Manager has the following responsibilities:

1. Develop policy guidelines for City Council review and adoption.
2. Develop Maximum Property Tax Levy Resolution for City Council review and adoption.
3. Prepare and submit an annual operating budget and a five-year Capital Improvement Budget premised upon Council guidelines and goals and major performance objectives.
4. Ensure the adopted budget is properly administered.
5. Supervise the performance of all contracts for work to be done by the City. Authorize and direct the purchase of all supplies and materials used by the City.
6. Keep Council fully advised on financial conditions of the City.
7. Establish rules for conduct of fiscal operations for which they are responsible.

Finance Department

The Finance Department becomes an extension of the City Manager's Office for purposes of performing the delegated responsibilities. The responsibilities of the Finance Department include the following:

1. Administer the approved budget on a day-to-day basis to see that funds are being expended for the purposes approved and that all claims are supported by proper documentation.
2. Supervise sale of bond issues.
3. Administer centralized payroll system.
4. Administer decentralized purchase order system.
5. Assist the City Manager’s Office in preparing the budget.

Department Managers, Division Managers, and Supervisors

The critical role in the fiscal management system is performed by department managers and their division managers and supervisors. The fiscal management system will be only as good as they make it. Their role includes:

1. Responsibility for the efficient and effective operation of the activities and tasks under their direction. Line supervisors are expected to control costs and achieve results.
2. Responsibility for preparation of budget requests, which emphasize objectives and service levels as well as traditional line item explanations and justifications for various funding levels and development of measures for evaluating progress toward objectives. What is the level of accomplishment, which can be expected from various funding levels, and how do we measure it? It is absolutely essential in our approach to budget preparation that accomplishments, objectives, and estimated costs be established by those in the organization who know the most about it and can be held accountable. Those are the department managers and their division managers and supervisors.
3. Responsibility for recommending and explaining needs and opportunities for service changes; reductions as well as expansions.
4. Responsibility for providing the planned and approved service level within budget limitations.
5. Responsibility for day-to-day department and activity budget administration.

BUDGET CYCLE

The budget cycle is a sequence of events covering the life of a budget from beginning to end; from the City Manager's review of prior year accomplishments and future initiatives, to the City Council approval of the final budget amendment. The budget cycle is approximately twelve months long. The critical dates are spelled out in State law: April 30th is when the budget for the following fiscal year must be adopted by the City Council; and July 1st as the beginning of the fiscal year. Throughout the entire budget cycle, public input is encouraged to insure the adopted budget is resident-based. The budget cycle can be summarized as follows:

SPRING	**City Council** formulates negotiation strategy for collective bargaining.
JULY - AUGUST	**City Manager** recommends budget carryover amendment for City Council approval at a public hearing. **City Manager,** along with Department Managers, review fiscal year accomplishments and identify future initiatives for City Council consideration during goal setting.
SEPTEMBER - OCTOBER	**City Council** holds 2-day goal setting to develop Vision and Mission statements, identify 5 year goals and establish Policy agenda including Top Priorities for upcoming fiscal year and Management Agenda/ special projects.
SEPTEMBER OCTOBER	**City departments** prepare Capital Improvement project information and budget requests for review by City Manager.
OCTOBER NOVEMBER DECEMBER	**City departments** prepare operating budget and other budget requests for review by City Manager. **City Manager** holds Public Input meetings to review issues and priorities for the capital budget and the operating budget.
JANUARY FEBRUARY	**City Manager, Chief Financial Officer, and Budget Manager** analyze, review and balance capital and operating budget requests and prepare final budget recommendation.
MARCH	**City Manager** presents draft Policy guidelines and Maximum Property Tax Resolution to City Council for City Council approval.
MARCH APRIL	**City Council** holds public meetings to review recommended budget by department. Meetings are held in the evening and are available for live viewing on City Channel Dubuque.
APRIL	**City Council** holds final public hearing on the recommended budget. The meeting is held in the evening and is available for live viewing on City Channel Dubuque. **City Council** adopts budget and city staff certifies budget by April 30 in compliance with State law.
APRIL MAY	**Budget Manager** reviews budgeted revenues and expenses and recommends adjustments to more accurately reflect the anticipated revenues and expenses for the fiscal year ending June 30. **City Council** reviews and approves an amended fiscal year budget and city staff certifies the budget amendments by May 31 in compliance with State law.

BUDGET AMENDMENT PROCESS

Budget estimates may be amended and increased as the need arises to permit appropriation and expenditure of unexpended cash balances on hand and unanticipated revenues. Such amendment may be considered and adopted at any time during the fiscal year covered by the budget (but prior to May 31) by filing the amendments and upon publishing them and giving notice of the public hearing in the manner required in the State Code. Within ten days of the decision or order of the City Council, the proposed amendment of the budget is subject to protest, hearing on the protest, appeal to the state appeal board, and review by that body. A local budget must be amended by May 31 of the current fiscal year-to allow time for a protest hearing to be held and a decision to be rendered before June 30.

Except as specifically provided elsewhere in the Iowa Administrative Code rules, all appropriation transfers between programs or funds are budget amendments and shall be prepared as provided in Iowa Code section 384.16. The program reference means any one of the following nine major areas of public service that the City Finance Committee requires cities in Iowa to use in defining its program structure: Public Safety, Public Works, Health & Social Services, Culture & Recreation, Community & Economic Development, General Government, Debt Service/Capital Improvement Projects, Business Type, and Non-Program.

BUDGET ACCOUNTING BASIS

The operating budget of the City of Dubuque is written so that available resources and anticipated expenditures are equal. The City's accounting and budget records for general governmental operations are maintained on a modified accrual basis, with the revenue being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities incurred. Accounting records for the Enterprise and Internal Service Funds are maintained on the accrual basis, while the budget records are maintained on the modified accrual basis.

Differences between budgetary policies and Generally Accepted Accounting Principles (GAAP) in the Enterprise and Internal Service Funds exist for several reasons. One reason is that existing procedures have worked well and continue to work well for administrative and control purposes. Some other reasons for differences between budget and GAAP are the treatment of interfund transfers, departmental capital outlay, debt service principal payments, and depreciation. The City's budgeting practices include interfund transfers as revenue and expenditures, while GAAP classifies interfund transactions as other financing sources and uses. Also City management desires an operating statement budget line item for each anticipated cash outflow, including debt service and capital outlay. If the City budgeted the enterprise funds on a full accrual basis, capital outlay and debt service payments would not be reported in the operating statement.

Depreciation expense, which is recognized in the accounting records, is not budgeted. Not providing for depreciation in the budget is a policy decision that has not adversely affected the funds.

FUND ACCOUNTING BASIS

The accounts of the City are organized on the basis of funds and groups of accounts, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, equities, revenues and expenditures or expenses.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Employee Benefits Fund* is used to account for pension and related employee benefit costs for those employees paid wages from the General Fund.

The *Community Development Fund* is used to account for the use of Community Development Block Grant funds as received from federal and state governmental agencies.

The *Street Construction Fund* is used to account for the resources and costs related to street capital improvements.

The *General Construction Fund* is used to account for the resources and costs related to nonassignable capital improvements.

The City reports the following major proprietary funds:

The *Sewage Disposal Works Fund* is used to account for the operations of the City's sewage disposal works and services.

The *Water Utility Fund* is used to account for the operations of the City's water facilities and services.

The *Stormwater Utility Fund* is used to account for the operations of the City's stormwater services.

The *Parking Facilities Fund* is used to account for the operations of the City-owned parking ramps and other parking facilities.

The *America's River Project* is used to account for the construction of all projects covered by the Vision Iowa Grant, including all matching funds.

The City reports the following non-major governmental funds:

Airport Construction Fund - This fund is used to account for the resources and costs related to airport capital improvements.

Sales Tax Construction Fund - This fund is used to account for the resources and costs related to capital improvements financed through the local option sales tax.

Road Use Tax Fund - This fund is used to account for state revenues allocated to the City for maintenance and improvement of City streets.

Section VIII Housing Fund - This fund is used to account for the operations of federal Section VIII existing, voucher, and moderate rehabilitation projects.

Tort Liability Fund - This fund is used to collect a special property tax levy which is then transferred to the General Fund. The General Fund accounts for the administration and payment of damage claims against the City.

Special Assessments Fund - This fund is used to account for the financing of public improvements that are deemed to benefit primarily the properties against which special assessments are levied and to accumulate monies for the payment of principal and interest on the outstanding long-term debt service.

Tax Increment Financing Fund - This fund is used to account for the receipt of property taxes, for the payment of projects within the tax increment financing district, and for the payment of remaining principal and interest costs on the tax increment financing districts' long-term debt service.

Cable TV Fund - This fund is used to account for the monies and related costs as set forth in the cable franchise agreement between the City of Dubuque and the cable franchisee.

Library Expendable Gifts Trust - This fund is used to account for contributions given to the library to be spent for specific purposes.

IFA Housing Trust - This fund is used to account for funds received under the Iowa Finance Authority State Housing Trust Fund Program.

Debt service fund – This fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Ella Lyons Peony Trail Trust Fund - This fund is used for dividends and maintenance cost related to the City Peony Trail, per trust agreement.

Library Gifts Trust Fund - This fund is used to account for testamentary gifts to the City.

The City reports the following non-major proprietary funds:

Refuse Collection Fund - This fund is used to account for the operations of the City's refuse collection services.

Transit System Fund - This fund is used to account for the operations of the City's bus and other transit services.

Governmental Fund Types (Budgetary)

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position. The following are the City's governmental fund types:

- **The General Fund** is the principal operating fund of the City and accounts for all financial transactions not accounted for in other funds. The general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are financed through revenues received by the General Fund.
- **Special Revenue Funds** are used to account for revenues derived from specific taxes, governmental grants, or other revenue sources, which are restricted to finance particular functions or activities of the City. The City's special revenue funds include such funds as Road Use Tax, Community Development, UDAG Repayments, Section 8 Housing, Lead Paint Grant, State Rental Rehab, Cable TV, Special Assessment, Expendable Library Gifts Trust, Tort Liability, Employee Benefits, and TIF funds.
- **Debt Service Funds** are used to account for the accumulation of resources for, and the payment of, principal, interest, and other related costs of the City's general obligation debt. The City uses this fund to pay some of the debt service paid from other funds with the revenue transferred in.

- **Permanent Funds** are used to account for resources that are legally restricted to the extent that only the earnings, and not principal, may be used for purposes that support the reporting of governmental programs. The City's permanent funds include: Lyons Peony Trust and Library Gifts Trusts.
- **Capital Improvement Funds** are used to account for financial resources segregated for the acquisition or construction of major capital facilities. (Even if a capital project fund is used, not all capital acquisitions need be accounted for in the fund). For example, the routine purchases of capitalizable items (e.g., police vehicles, copy equipment) are typically budgeted and reported in the General Fund or other governmental fund.

Proprietary Fund Types (Budgetary)

The City also has proprietary fund types, which are different from governmental fund types in that their focus is on the determination of net income or loss. The revenue from these funds is assumed to be adequate to fund the operation of the funds. The City's proprietary funds are as follows:

- **Enterprise Funds** are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through use charges or where the periodic determination of net income or loss is deemed appropriate. The City's enterprise funds include Water, Sewer, Stormwater, Refuse/Solid Waste, Transit, Parking and America's River Project.
- The **Internal Service Fund** accounts for the financing of goods and/or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost reimbursement basis. The City's Internal Service Funds include Engineering Service, Garage Service, General Service and Stores/Printing.

Self-Insurance Funds (Non-Budgetary)

- The **Self Insurance Funds** are considered Internal Service Funds, are not budgeted, but are summarized in the audited financial statements. These include Health Insurance Reserve and Workers' Compensation Insurance Reserve.

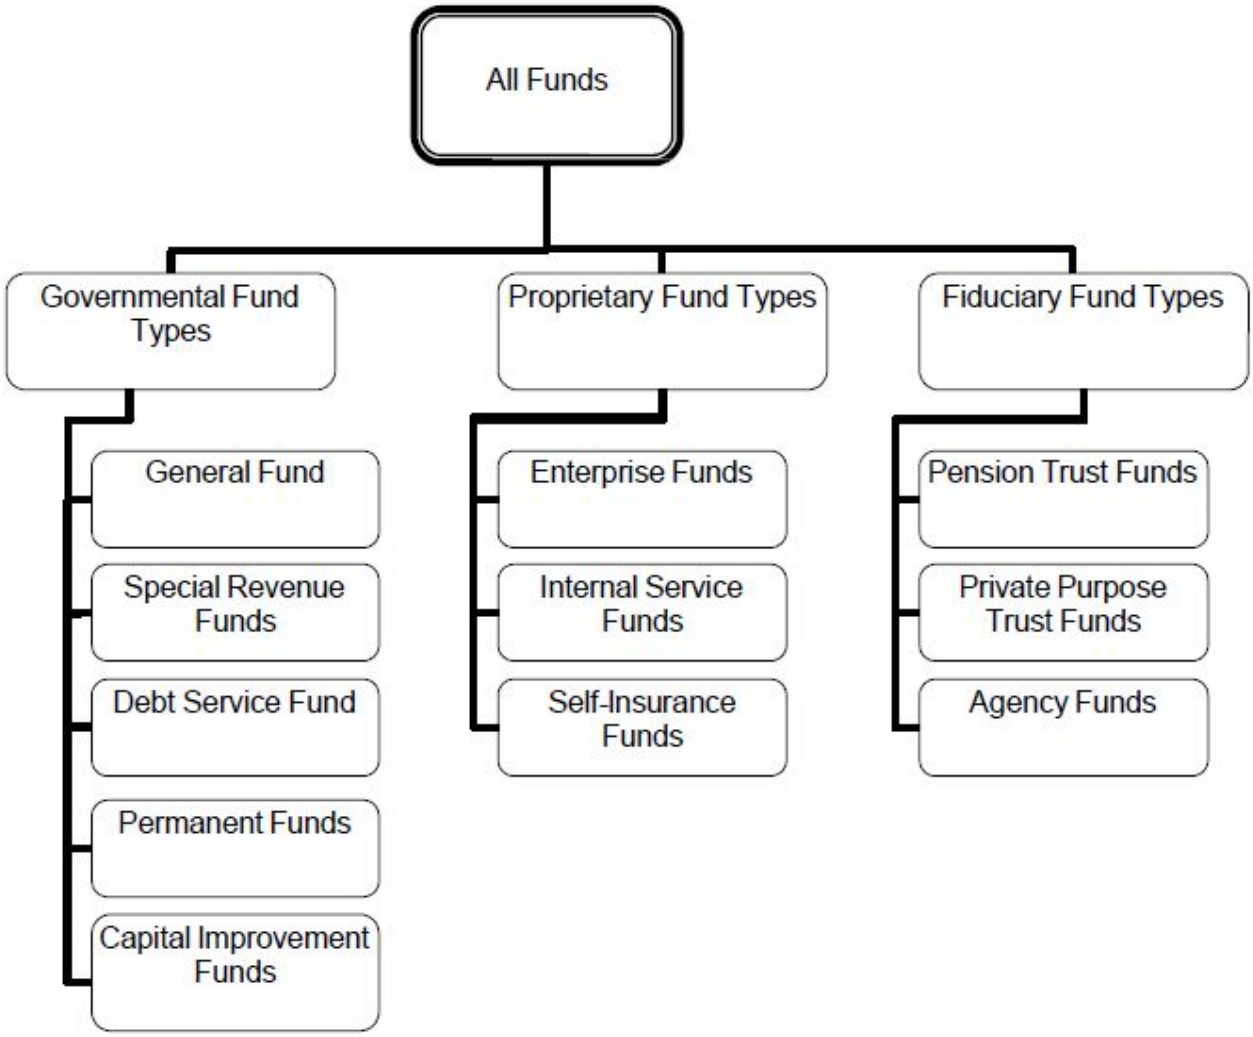

Fiduciary Fund Types (Non-Budgetary)

The City also has fiduciary fund types, which account for assets in a trustee or custodial capacity:

- **Pension Trust Funds** account for assets of pension plans held by a government in a trustee capacity. The City of Dubuque has no such funds.
- **Private Purpose Trust Funds** account for trust arrangements, including those for escheat property, where principal and income benefit individuals, private organizations, or other governments. The major use of private purpose funds is for escheat property. The City has no such funds.
- **Agency Funds** account for those assets held solely in a custodial capacity by the City as an agent for individuals, private organizations, other governmental units, and/or other funds. The City's Agency Funds include the Cable Equipment Fund (monies received from Mediacom through the Cable Franchise Agreement for distribution), and the Dubuque Metropolitan Area Solid Waste Agency General and DNR Planning. These funds are not budgeted.

FUND - DEPARTMENT RELATIONSHIP

The various funds are grouped by type in the budget. The following fund types are used by the City:

The following table shows each City department and its associated funds.

KEY TERMS FOR UNDERSTANDING DUBUQUE'S BUDGET

Program

Programs are presented as general statements, which define a major purpose of City government. Each program is divided into several departments and activities representing a separate and significant segment of the program of which it is an integral part. The state budget law requires that the budget be certified on a program basis. The City of Dubuque uses the following nine programs:

1. **Public Safety:** Police Department, Emergency Communication Center, Fire Department, Disaster Services, Health Services-Animal Control activity, Public Works-Flood Control activity, Building Services-Inspection activities.
2. **Public Works:** Airport Department, Public Works Department, Engineering Department.
3. **Health and Social Services:** Human Rights Department, Health Services Department, Purchase of Services.
4. **Culture and Recreation:** Parks Division, Recreation Division, Ice Center Division, Civic Center Division, Conference Center, Library Department, Economic Development-Arts and Cultural Affairs activity.
5. **Community and Economic Development:** Economic Development Department, Housing and Community Development Department, Planning Services, Purchase of Services, Community Impact-Neighborhood Development activity.
6. **General Government:** Building Services-City Hall/Annex Maintenance, City Council, City Manager, City Clerk, Finance Department, Cable TV Division, City Attorney Department, Information Technology Department.
7. **Debt Service** and **Capital Projects** in programs 1-6 for governmental funds.
8. **Business Type (includes business type operating, capital and debt service):** Water Department, Water Resources and Recovery Department, Parking Division, Transit Division, Public Works-Landfill activities and Garage internal service fund activities, Engineering-Sewer and Stormwater activities, Finance-Utility Meter Reads activity and Stores internal service fund activities.
9. **Non-Program:** City Manager-Health and Worker's Compensation Insurance Reserve fund activities and Public Works-Dubuque Metropolitan Area Solid Waste activities.

* Prior to Fiscal Year 2004, the State of Iowa, City Finance Committee changed the number of programs from 4 to 9 on the expenditure side.

Operating Budget

The Operating Budget represents the various recurring activities and services provided by the several departments in the City government. The Operating Budget provides those services normally associated with the City government (e.g., police, fire, street maintenance, recreation) and involves expenditures which benefit the current fiscal year. (That is, items purchased are used up during the current fiscal period.) Expenditures in the Operating Budget are for such categories as Employee Expense, Supplies and Services, and Debt Service. Funding of the Operating Budget includes property taxes, shared state and federal revenues, fees, fines, licenses, permits, user charges and cash balances.

Capital Budget

The Capital Budget represents major "permanent" capital improvement projects requiring the nonrecurring expenditures of public funds for the acquisition of property or easement, construction, renovation or replacement of a physical asset of the City and any studies, engineering or surveys which are an integral part thereof. The Capital Budget is multi-year in scope, is updated annually and includes project-funding information. The first year of the Capital Budget (or Capital Improvement Program) is included with the Operating Budget for the same year to arrive at a total or gross budget amount. Capital budget financing comes primarily from bond proceeds, state and federal grants, Road Use Tax funds, Dubuque Racing Association profit distribution, and utility depreciation funds.

Expenditure Category

Expenditure category or classification is the basis for classifying and codifying costs. Categories of expense include: (a) Employee Expense; (b) Supplies and Services; (c) Capital Outlay (Machinery and Equipment); (d) Debt Service; and (e) Capital Improvements. Categories of expense consist of various expense accounts. For example, Employee Expense is divided into expense accounts such as full-time, part-time & seasonal employees, overtime pay, holiday pay, social security expense and health insurance. Supplies and Services include accounts such as postage, telephone expense, office supplies, dues and memberships, utility expense - electricity, motor vehicle expense - fuel, library books, and architectural services.

Revenue Category

Revenue category or classification is a basis for classifying and codifying revenue. There are eight major categories or revenue, each divided into specific revenue items.

The eight major categories of revenue are as follows:

1. Taxes
2. Licenses and permits
3. Use of Money and Property
4. Intergovernmental Revenue
5. Charges for services
6. Special Assessments
7. Miscellaneous Revenue
8. Other Financing Sources

An example of the specific revenue items would include the following items in the licenses and permits revenue category: business licenses, cigarette licenses, beer permits, building permits, plumbing permits, heating permits, etc.

Alternative Budget Levels

The Dubuque budget system utilizes a variation of the zero-based budget (ZBB) approach utilizing three alternative funding or budget levels: Maintenance Budget Level, Base Budget Level and Improvement Level.

Each alternative funding level includes specific objectives to be accomplished (service levels to be offered) and associated costs. The budget decision becomes one of selecting alternatives, which maximize the achievements of City objectives according to established priorities within the context of limited resources and City Council policy.

BUDGET IN BRIEF

This page intentionally left blank.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

BUDGET IN BRIEF

The City Council will approve the fiscal year 2027 operating and capital budgets on April 28, 2026. The recommended FY 27 budget is balanced and includes a 3.00% property tax increase to the average homeowner for the City portion of their taxes.

The keys to the City of Dubuque's financial success include a continued growth in assessed property valuation (5.89% in FY 27); efficient operation with a 16.18% increase in the City's workforce since the 1980's; increased use of Federal and State grants; diversified revenue streams; minimal property tax supported debt; increased public and private partnerships; entrepreneurial City Council policy decisions; and caring residents, committed elected officials, hard-working not-for-profits, and talented city employees.

The City's five-year capital improvement plan (CIP) continues to allocate funding for the maintenance and refurbishment of city facilities. The approved five-year CIP totals $352,840,562.

This budget in brief is intended to provide the residents of Dubuque with an overview of the approved operating and capital budgets. Throughout this document, you will find highlighted sections noting the location of detailed information in the approved budget document. Detailed information related to the approved budget can also be found on the City's website at www.cityofdubuque.org.

Fee Increases for Fiscal Year 2027

Various fee increases will be implemented beginning on July 1, 2026. These fee increases are intended to provide additional revenues to maintain and expand the level of service in various areas. The following is a summary of the increased fees:

Water, Sewer, & Stormwater Increases - Fee increases for water, sewer, and stormwater will be effective July 1, 2026: sewer rates will increase by $2.88 per month for an average residential customer, water rates will increase by $0.67 per month for an average residential customer; solid waste collection rates will increase by $1.63 per month for an average residential customer; and stormwater rates will increase $0.99 per month per standard family unit (SFU) equivalent.

Recreation Fee Increases - Annual golf fee increases/decreases to maintain 100% self-support guideline $50 increase to the season cart passes.

City Clerk Fee Increases - Increase multiple business license and permit fees to accurately reflect the cost of providing service.

FY27 RECOMMENDED BUDGET

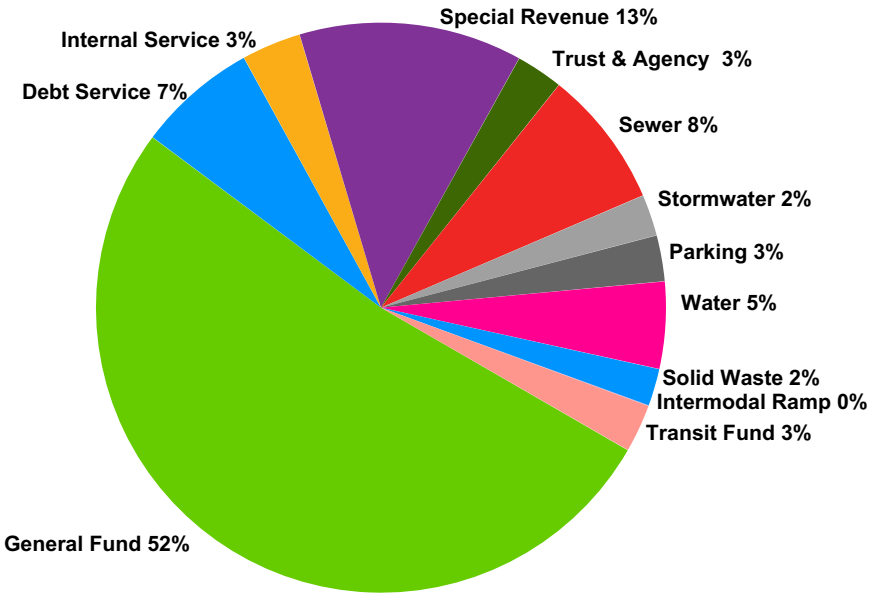

The City's recommended budget provides estimated revenues and expenditures for programs and services to be provided during the fiscal year from July 1, 2026 through June 30, 2027. A separate capital budget includes appropriations for infrastructure related to projects, such as roads, buildings, and equipment that may require more than one fiscal year to complete or to acquire.

OPERATING & CAPITAL BUDGET SUMMARY					
OPERATING	$	184,630,982	CAPITAL	$	80,633,738
General Fund	$	95,693,628	General Fund	$	776,154
Special Revenue Funds	$	23,379,614	Special Revenue Funds	$	4,460,468
Debt Service Fund	$	12,584,115	Capital Projects Funds	$	32,698,414
Enterprise Funds	$	41,842,039	Enterprise Funds	$	40,932,571
Internal Service Funds	$	6,204,411	Internal Service Funds	$	286,950
Trust & Agency Funds	$	4,927,175	Trust & Agency Funds	$	1,479,181

APPROPRIATED BUDGET BY FUND

The City's total appropriated operating budget of $184.6 million is made up of the general, special revenue, debt service, enterprise, internal service, and trust and agency funds. A complete self-contained budget, including both revenues and expenses, is prepared for each of these funds.

FY27 Operating Appropriations by Fund

Transfers from one fund to another, such as a transfer from the general fund to a capital project fund to offset costs of a capital project, are shown as an expense (or transfer) for the entity fund providing the funding and as revenue to the fund receiving the transfer. In order to determine the actual amount of expenditures authorized by the budget, the transfer amount must be excluded.

All funds are balanced in fiscal year 2027. The City's general fund is balanced in fiscal year 2027.

Utility funds are balanced in fiscal year 2027 as a result of rate increases.

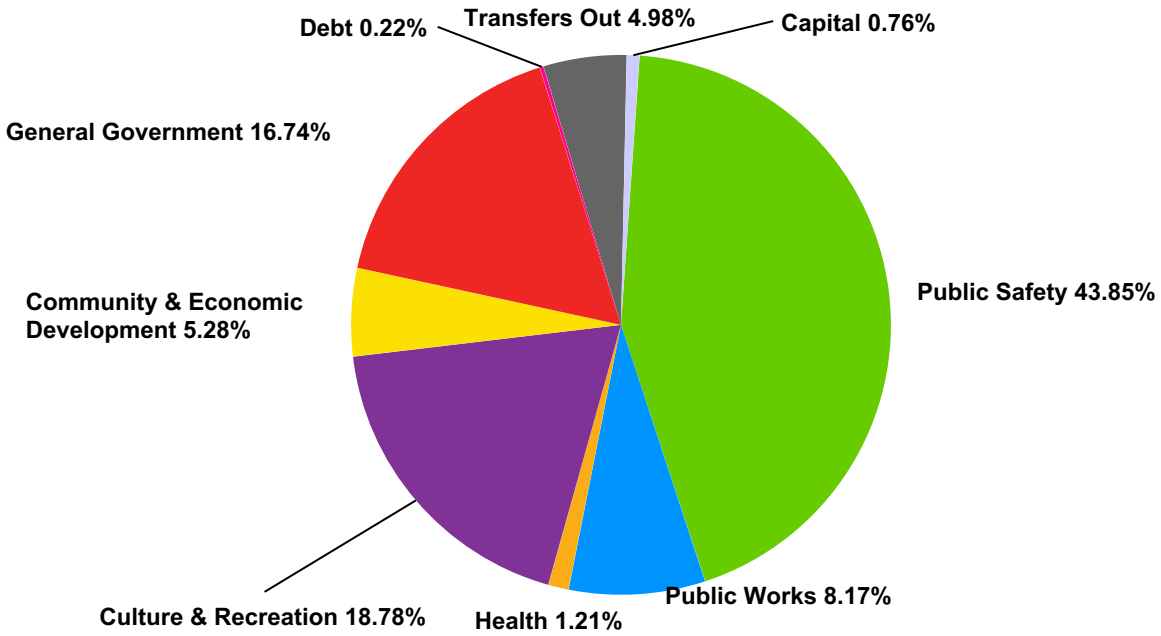

For additional information on the amount of funding included for each fund, total funding by department, and detailed information on reserves, see the Financial Summaries section.

How General Fund Money is Spent

The general fund is the operating fund of the City for general service departments. The general fund has an operating budget of $95.7 million and a capital budget of $0.8 million. This fund encompasses the bulk of activities that are traditionally considered basic governmental services such as public safety, culture & recreation, health & social services, and general government.

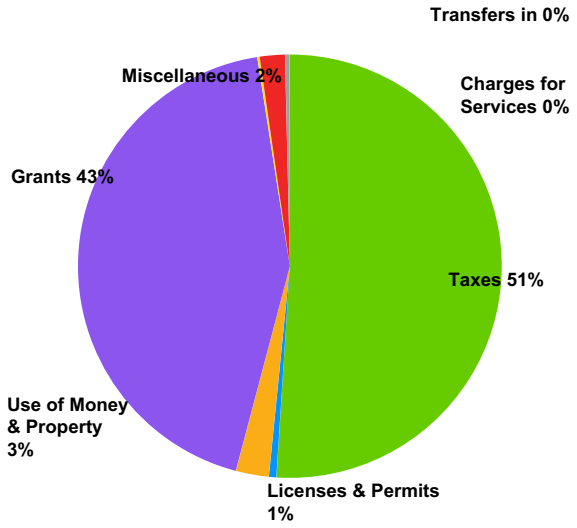

43.8 %	PUBLIC SAFETY	(animal control, building inspections, crime prevention, emergency management, flood control, fire, police, etc.)
18.8 %	CULTURE & RECREATION	(AmeriCorps, arts & cultural affairs, civic center, conference center, library, marina, parks, recreation, etc.)
16.7 %	GENERAL GOVERNMENT	(city attorney & legal services, city clerk, city council, city hall & general buildings, city manager, finance, information technology, etc.)
8.2 %	PUBLIC WORKS	(airport, maintenance of streets, bridges, and sidewalks, snow removal, street cleaning, street lighting, traffic control, etc.)
5.3 %	COMMUNITY & ECONOMIC DEVELOPMENT	(economic development, housing and community development, neighborhood development, planning and zoning, etc.)
5.0 %	TRANSFERS OUT	(to funds other than General Fund)
0.8 %	CAPITAL PROJECTS	(City infrastructure improvements or major equipment purchases)
1.2 %	HEALTH & SOCIAL SERVICES	(community health, health regulation and inspection, human rights, etc.)
0.2 %	DEBT SERVICE	(government capital projects, tax-increment financing [TIF] capital projects)

FY27
How General Fund Money is Spent

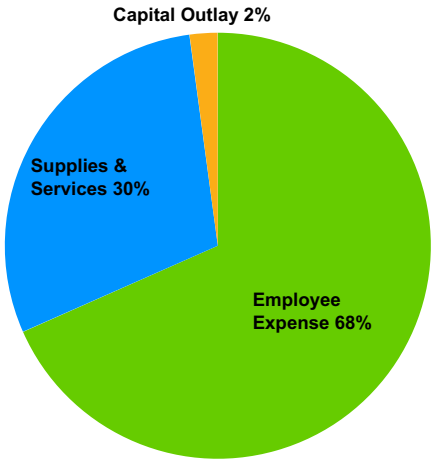

GENERAL FUND REVENUE & EXPENDITURES

General Fund Operating Sources

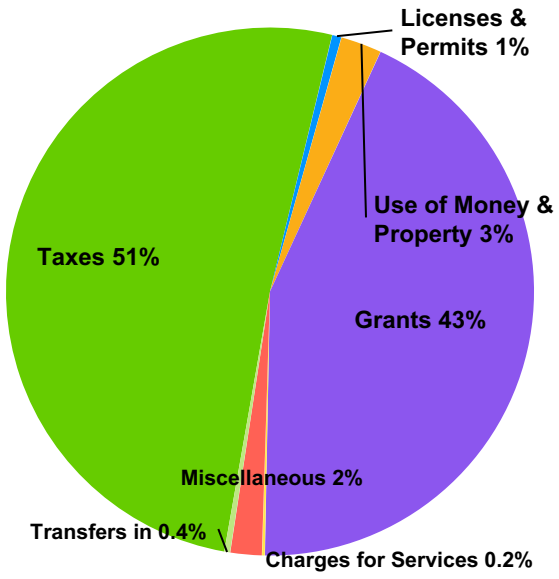

General Fund Operating Uses

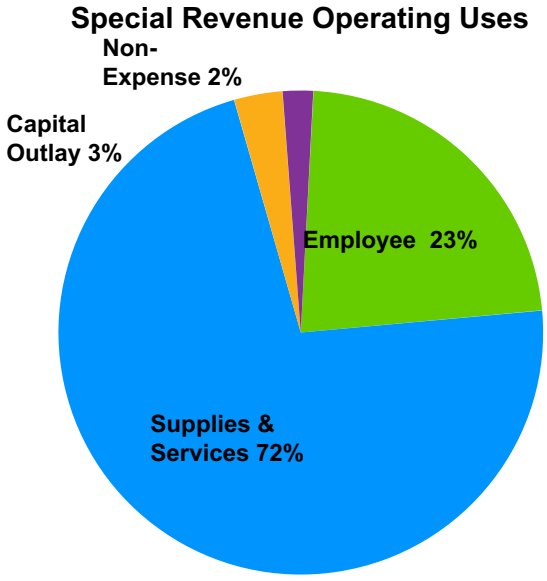

SPECIAL REVENUE FUNDS

The special revenue funds have an operating budget of $23.4 million and a capital budget of $4.5 million. Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The City's special revenue funds include: Employee Benefits; Community Development; Road Use Tax; Section 8 Housing; Tort Liability; Special Assessments; Tax Increment Financing; HUD Disaster Relief; Housing Trust; Cable TV; and Library Expendable Gifts.

Special Revenue Operating Sources

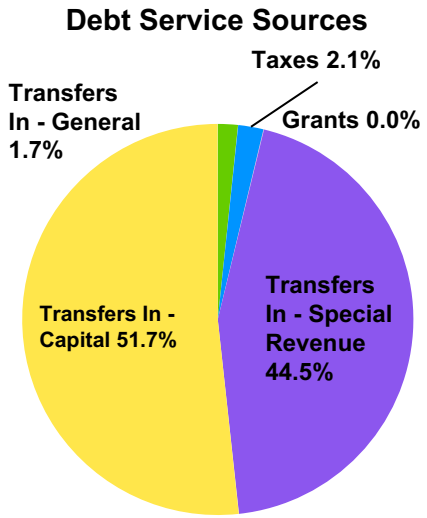

Special Revenue Operating Uses

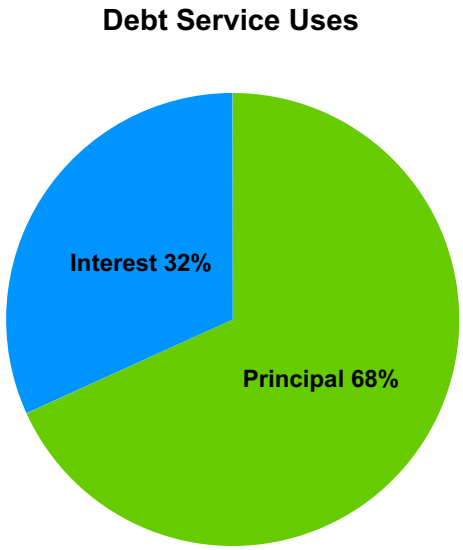

Special Revenue Funds budgets are shown in the Financial Summaries section.

DEBT SERVICE FUND

The debt service fund has an operating budget of $12.6 million. The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Additional information on the Debt Service Fund is shown in the Debt Summaries section.

ENTERPRISE FUNDS

Enterprise funds are expected to be self-supporting and expected to be funded entirely from user fees for services. Except for Transit, no tax revenues are used for these activities in the FY 2027 budget. A transfer from the general fund to the Transit fund is budgeted to fund transit operations in the City. Each utility transfers revenue to the general fund for general government services. Transfers from the utilities in FY 2027 to support general government services total $10,429,057.

- Sewer Utility $2,468,674
- Stormwater Utility $2,325,790
- Parking $390,583
- Water Utility $2,468,673
- Solid Waste $2,031,622
- Landfill $743,715

Enterprise Funds budgets are shown in the Financial Summaries section.

INTERNAL SERVICE FUNDS

Internal service funds provide goods or services to other department within the City, with full costs to be recovered. An example of this would be the City's Garage Service. These expenses are included in both the department budget providing the service, as well as in the budget of the department receiving the service. To avoid double counting, the appropriated budget includes only the budgets for the departments receiving internal services (Engineering Service $2,555,457 and Garage Service $3,648,954).

STAFFING CHANGES

The City of Dubuque has 795.44 (FTE) employees budgeted in FY 2027. This represents a net increase of 19.58 FTE's from FY 2026. Since 1981, the city has minimized the number of positions added. The recommended budget provides funding for a net increase of 19.58 FTE's related to general fund departments. Funding has been changes to include the following changes to FTE's:

- Airport had the following changes: removed one part-time Laborer (-0.23 FTE) and one part-time custodian (-0.68 FTE).
- The City Attorney's Office had the following changes: removed full-time Civil Rights Specialist (-1.00 FTE), full-time Paralegal (-1.00 FTE), and full-time Legal Administrative Assistant (-1.00 FTE). Added full-time Assistant City Attorney I (+1.00 FTE), full-time Administrative Support Professional (+1.00 FTE), and full-time Lead Administrative Support Professional (+1.00 FTE).
- The Communications Office had the following change: removed the Geographic Information Systems (GIS) division (-2.25 FTE).
- Community Impact added one full-time Community Engagement Coordinator (+1.00 FTE), one part-time Program Member Support (+0.50 FTE) and added one limited term, full-time Economic Mobility Opportunity Specialist (+1.00 FTE).
- Economic Development eliminated one Economic Development Intern (-0.25 FTE).
- Office of Economic Mobility had the following changes: removed one full-time Director of Economic Mobility (-1.00 FTE), one full-time Data Analyst (-1.00 FTE), one full-time Community Engagement Coordinator (-1.00 FTE), and one full-time Administrative Support Professional (-1.00 FTE).
- Engineering had the following changes: added three full-time Traffic Signal Technicians (+3.00 FTE) and one full-time Engineering Technician (+1.00 FTE). Removed OSHA Intern (-0.25 FTE) and Architect Intern (-0.50 FTE) positions.
- Fire added nine full-time Firefighter/Paramedic (+14.00 FTE) positions.
- Finance added two part-time Purchasing & Safety Interns (+0.80 FTE) positions.
- Health Services had the following changes: removed one full-time Environmental Sanitarian (-1.00 FTE) and added one full-time Lead Environmental Sanitarian (+1.00 FTE).
- The Housing department added one limited-term full-time Housing Inspector (+1.00 FTE), one full-time Grants Supervisor (+1.00 FTE) and one full-time Administrative Support Professional (+1.00 FTE).

- The Human Resources Department had the following changes: added a full-time Human Resources Employment Specialist (+1.00 FTE) and removed a part-time Human Resources Employment Specialist (-0.75 FTE).
- The Information Technology department had the following changes: added one full-time Data Analyst (+1.00 FTE), Geographic Information division (+2.25 FTE), and one full-time Administrative Support Professional (+1.00 FTE).
- Parks division added one full-time Environmental Justice Tree Coordinator (+1.00 FTE) and two full-time Maintenance Technicians (+2.00 FTE).
- Parking had the following changes: reduced Parking Revenue Collector (-0.23 FTE), removed a part-time Parking Enforcement Officer (-0.50 FTE) and added a part-time Custodian (+0.15 FTE).
- Police eliminated a part-time Records Clerk (-0.54 FTE) position.
- The Public Works department removed three full-time Traffic Signal Technicians (-3.00 FTE).
- Recreation eliminated temporary Recreation Leader and Coordinator (-0.58 FTE) positions.
- The Transit division reduced part-time Bus Operators (-0.75 FTE) and added a part-time Bus Attendant (+0.50 FTE).
- The Water & Resource Recovery Center had the following changes: added an Engineering Intern (+.40 FTE) through the FY 2026 budget process and added a temporary increase in Equipment Mechanics (+0.08 FTE).

HOW IS THE BUDGET FUNDED?

Property Taxes

General fund, transit, payroll benefit costs, and general liability insurance expenses are supported by property tax dollars. The property tax rate for fiscal year 2027 is $10.16480 per $1,000 of taxable valuation. It is estimated that a total of $31,940,934 will be received from property taxes in FY 2027. This is increase from fiscal year 2026. For FY 2027 there is a 3.00% or $26.67 property tax increase for the City portion of property taxes paid by the average homeowner.

Other Taxes

Other taxes that the City collects include local option sales tax, hotel/motel tax, and tax on agricultural land. In 2027, approximately $12,540,866 will be received in local option sales tax. This decreased (2.83)% under FY 2026. Of this amount, 50% is for property tax relief ($6,372,758), 20% is for City facilities maintenance ($2,549,103), and 30% is for special assessment relief ($3,823,655). In 2027 approximately $3,513,001 will be received in hotel/motel tax. By resolution, 50% of this amount is to be used for promotion and encouragement of tourism and convention business and the remaining 50% goes into the General Fund for property tax relief.

Licenses and Permits

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous. The City estimates $4,706,776 in licenses and permits in FY 2027. Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas & 5% electric). The FY 2027 projection for cable franchise fees is $256,734 and utility franchise fee projection is $7,102,341. The utility franchise fees are all used for property tax relief.

Use of Money and Property

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue, which is estimated at $21,265,760 in FY 2027. The gaming related leases generate the most revenue. The lease with the Dubuque Racing Association (DRA) includes collection of 1.5% of coin-in (1% prior to 1/1/22), 4.8% of gross revenue from table games, 0.5% of sports wagering, and a distribution of profit from the DRA of 50%. Diamond Jo also pays a parking lease. City Council's policy is to use 100% of the DRA distribution of profit to support the Capital Improvement Budget and the total received from DRA operating and taxes is split 100% for property tax relief and —% for capital projects. Gaming leases are projected to be $7,079,186 in FY 2027. Riverfront leases are expected to generate $4,374,313 in FY 2027.

Intergovernmental Revenue

Intergovernmental revenues are projected to decrease (5.14)% from FY 2026. The city is estimated to receive $53,729,895 in Federal and State grants, State Road Use Tax Funds, and County Contributions. Prior years included large increases due to American Rescue Plan Act Funds.

Charges for Services

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, Transit, Parking and Landfill. Rate increases have been incorporated into all utilities (as shown on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising, additional capital projects to support additional debt service and to meet revenue bond covenants. Utility charges are projected to be $48,776,628. Other charges for services include copy charges, sales of maps and publications, street, sidewalk, and curb repairs, special Police services, Library services, Recreation programs, etc. Other charges for services are estimated at $12,958,497 in FY 2027.

Special Assessments

Special assessments are an additional tax levied on private property for public improvements that enhance the value of the property. In FY 2027, special assessment revenue is estimated at $40,000.

Miscellaneous Revenue

This category includes internal charges for services, proceeds from bonds, and revenues of a non-recurring nature. Miscellaneous revenues are estimated at $40,584,173 in FY 2027.

RECOMMENDED CAPITAL IMPROVEMENT PLAN

The City of Dubuque's Capital Improvement Plan (CIP) represents the City's five-year plan for capital improvements and totals $352,840,562. Appropriations of funding are made on an annual basis. The capital budget is therefore the first year of the five-year CIP. The approved capital budget for fiscal year 2027 totals $80,633,738.

The recommended CIP reflects the City's comprehensive plan and the goals and priorities established by the City Council. Funding required to meet the capital needs for FY 2027 totals $80.6 million. Approximately 32.96% ($26.6 million) of this will be provided by issuance of new debt, primarily for sewer utility related projects ($12.2 million) and Greater Downtown TIF related projects ($6.1 million). Another funding source representing approximately 26.87% of total sources is operating receipts. Operating receipts come from current year revenues and essentially represent the amount of "cash" or pay as you go financing provided by each enterprise operation.

A major focus of the capital budget and capital improvement plan is the maintenance and refurbishment of existing city facilities. To this end, significant resources are dedicated for these types of projects including, Bee Branch Creek Watershed, Airport, Fire facilities, Civic Center, Grand River Center and Street, Sanitary and Water Improvements.

The following page provides a listing of some of the highlighted projects in the fiscal year 2027 capital budget.

The Capital Budget in the Resident's Guide includes a summary by department of all projects planned through FY 2031.

FY27 RECOMMENDED CAPITAL BUDGET HIGHLIGHTS

Department	Project Title	Total City Investment FY2027-FY2031
Fire	Outdoor Warning Siren Repair/Replace	$54,000
Fire	Fire Station Expansion	$8,791,700
Fire	2027 Ambulance Replacement (1914)	$500,000
Fire	Portable Radio Replacements	$490,000
Fire	2030 Fire Engine Replacement (1910)	$1,288,408
Fire	2030 Ambulance Replacement (1915)	$635,000
Fire	2031 Ambulance Replacement (130010)	$665,000
Parks	Jeffris Grant	$2,060,394
Civic Center	Five Flags Building Improvements	$5,844,678
Conference Center	Roof Restoration	$1,383,000
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Ave Booster Station	$1,020,000
Water	Water Main Extension Central Ave	$965,000
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Private Lead Line Replacement Program	$1,050,000
Water	Private Lead Service Line Replacement Program	$4,050,000
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	Source Water PFAS Reduction Project	$1,121,199
Water	Water Meter Replacement Program	$687,750
Water	Water Storage Maintenance Program	$3,336,000
Water	West End Annexation Phase II	$2,000,000
Water	Southwest Arterial 16" Water Main Extension	$2,475,000
W&RRC	Bar Screen Replacement	$2,500,000
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000
W&RRC	Industrial Controls Upgrade	$6,114,700
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550
Airport	Reconstruct Taxiway A	$9,969,994
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000
Airport	Taxiway D Extension	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Asphalt Milling Program	$873,547
Public Works	Curb Ramp Program	$4,883,000
Publics Works	Concrete Street Section Repair Program	$1,641,038
Public Works	NW Arterial Should Paving Project	$2,311,247
Engineering	Storm Sewer General Replacements	$1,500,000
Engineering	Stormwater Management Program	$800,000

Department	Project Title	Total City Investment FY2027-FY2031
Engineering	Detention Basin Maintenance & Repair	$1,000,000
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630
Engineering	Old Mill Road Lift Station & Force Main - Phase 3	$19,891,034
Engineering	Old Mill Road Lift Station & Force Main - Phase 4	$19,506,258
Engineering	Schmitt Island Sanitary Improvements	$4,000,000
Engineering	South West Arterial Interchange Sewer Extension	$4,829,838
Engineering	Sanitary Basis Analysis - South Port & Terminal St LS	$10,800,000
Engineering	Track Line Sanitary Sewer Reconstruction	$3,500,000
Engineering	14th St Overpass	$36,144,000
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation Improvements 11th - 22nd Street	$9,770,000
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	$6,000,000
Engineering	East - West Corridor Capacity Improvements	$18,600,000
Engineering	17th/Locust Street Reconstruction Phase 4	$4,765,000
Engineering	Bridge Repairs/Maintenance	$2,640,000
Engineering	Fiber Infrastructure Management System	$330,000
Engineering	Traffic Signal Network Communications Program	$445,000
Engineering	STREETS Traffic Control Project Phase 2	$1,029,000
Engineering	Federal Building Renovation	$5,395,000
Economic Development	Downtown Rehab Grant Program	$1,700,000
Economic Development	Workforce Development	$1,857,500
Transportation	Smart Parking System	$780,000
Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200
Housing	Assistance for Homeownership	$1,026,082
Housing	Homeowner Rehabilitation Program	$2,476,588
Housing	Healthy Homes Production Grant	$1,326,250
Housing	Lead and Healthy Homes Grant	$3,136,600
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759
Information Technology	Network Switch Replacement	$607,500
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007 • 2012 2013 • 2017

Dubuque is Iowa's oldest city and is among the oldest settlements west of the Mississippi River. The first permanent settler to the area was French-Canadian fur trader Julien Dubuque. When he arrived in 1785, the Mesquakie (Fox) Indians occupied the region which included an abundant amount of lead mines. On June 1, 1833, the land was opened for settlement by the United States government under the Black Hawk Purchase Treaty and came to be known as the city of Dubuque.

Dubuque has long been a historical and cultural center with its numerous historic sites, architectural Historic Districts with well-preserved buildings and homes, a revitalized main street, history and art museums, live theaters, ballet troupes, a symphony, three private colleges, two seminaries, a Bible college, libraries and a local history research center, recreational and sports venues, beautiful parks, a state park and nature interpretive center, miles of hiking and biking trails and the great Mississippi River.

Recent recognitions include being named an Iowa Thriving Community for using innovative solutions to enhance housing offerings to residents of all income levels, one of the 100 Best Communities for Young People, the Most Livable Small City in the US, an Iowa Great Place, an All-America City five times between 2007 and 2019, and a LEED- Certified City (Leadership in Energy and Environmental Design). Dubuque scored 100 out of 100 on the 2021 Municipal Equality Index, issued by the Human Rights Campaign (HRC), based on the inclusiveness of its laws, policies, and services for lesbian, gay, bisexual, transgender, and queer (LGBTQ) residents. Dubuque was named the 2024 Iowa Community of Character by the Robert D. and Billie Ray Center at Drake University as part of its annual Iowa Character Awards, which annually recognize Iowa individuals, organizations, and communities which demonstrate the six pillars of CHARACTER COUNTS®: trustworthiness, respect, responsibility, fairness, caring, and good citizenship.Dubuque is truly a "Masterpiece on the Mississippi."

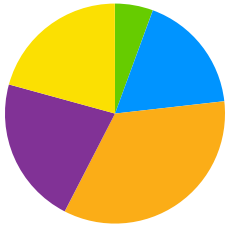

ACCORDING TO THE 2024 AMERICAN COMMUNITY SURVEY (ACS), THE CITY OF DUBUQUE'S DEMOGRAPHICS INCLUDE THE FOLLOWING:

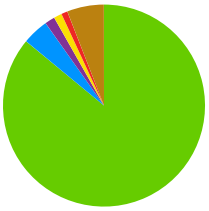

AGE

- Under 5 Years 5.8%
- 5-19 Years 17.5%
- 20-44 Years 34%
- 45-64 Years 22.3%
- 65 years and better 20.4%

RACE

- White or Caucasian 85.9%
- Black or African American 4.2%
- American Indian and Alaska Native 0%
- Asian 1.6%
- Hawaiian & Other Pacific Islander 1.3%
- Some Other Race 1.0%
- Two or More Races 5.9%

POPULATION

Total Population: 59,174
- Female Population: 50.5%
- Male Population: 49.5%

Average Household Size: 2.12
- Family Households: 49.6%
- Non-Family Households: 50.4%

Average Family Size: 2.80
Median Age: 38.1 years

HOUSING

Total Housing Units: 27,832
- Housing Occupancy: 93.9%
- Owner-Occupied: 65.8%
- Renter-Occupied: 34.2%

INCOME

- Median Household Income: $65,845
- Median Family Income: $89,443
- Families below poverty: 7.8%
- Individuals below poverty: 12.7%

DUBUQUE'S LOCATION

Situated at the intersection of Iowa, Illinois, and Wisconsin, the community of Dubuque, Iowa, stands among the Mississippi River bluffs as a metropolitan service area for seven surrounding counties.

Dubuque is connected by four-lane highways to Davenport, Des Moines, Madison and Minneapolis. The majority of the way to Chicago is also four-lane highway. Dubuque is centrally located amongst several major metropolitan areas.

The Dubuque Regional Airport serves both business and leisure travelers. Private and corporate jets also make use of the great central location of the airport as well.

Land Area: 32.0 square miles
Riverfront shoreline: 8.8 miles

Current Land Use

A review of existing land use within the Dubuque city limits (as of 2017) shows a balance of development among commercial, industrial, and institutional uses. (See Figure 9-2)

- Residential uses, separated as single-family and multi-family categories when combined are 5,355 acres, or 31% of Dubuque's total land area.
- Large swaths of agricultural land, particularly in the western portion of Dubuque, total 3,529 acres. Many of these agricultural properties were annexed into the city with the intent of being developed for another use in the future.
- An Existing Land Use Map can be found in Figure 9.1.

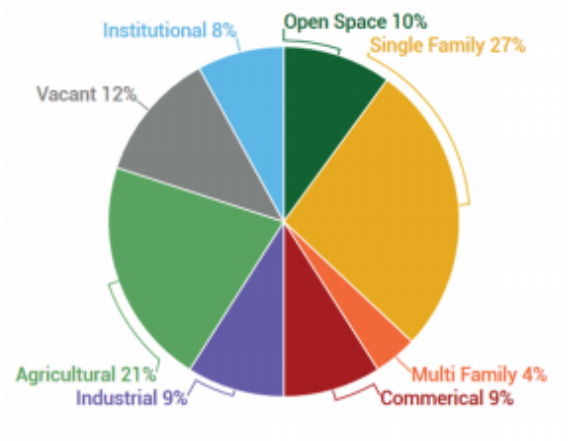

Current Zoning

Existing land use and current zoning are similar, but not the same. Within the city limits of Dubuque, land is 100% zoned -- including vacant land. Most land is zoned for its current use, but not always.

- Using the same broad categories examined for existing land use, the most prevalent zoning is 8,105 acres (48%) of single-family residential (which includes the small amount of two-family residential).
- The rest of the current zoning in Dubuque is divided about equally among agricultural with 3,067 acres (18%), commercial at 2,629 acres (15%), and industrial with 2,253 acres (13%). Multi-family zoning encompasses only 636 acres (4%) and institutional only 314 acres (2%).
- A breakdown of current zoning is shown in Figure 9.3. A current zoning map can be found in the Appendix.

FIGURE 9.2

Current Land Use in Acres

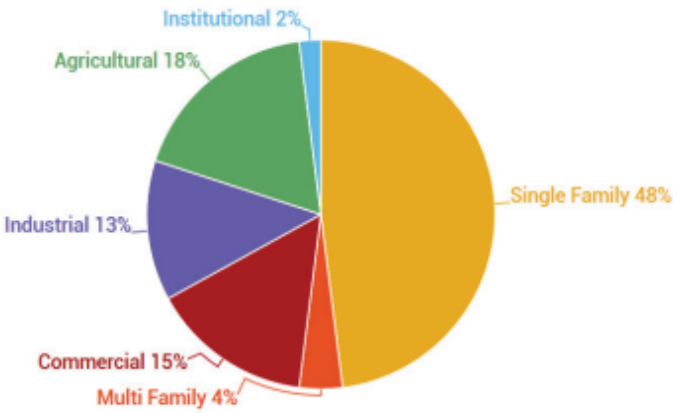

10% Open Space (1,777 Acres)
9% Industrial (1,438 Acres)
27% Single Family (4,661 Acres)
21% Agricultural (3,529 Acres)
4% Multi Family (694 Acres)
8% Institutional (1,286 Acres)
9% Commercial (1,507 Acres)
12% Vacant (2,110 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

FIGURE 9.3

Current Zoning in Acres

18% Agricultural (3,067 Acres)
15% Commercial (2,629 Acres)
48% Single Family (8,105Acres)
13% Industrial (2,253 Acres)
4% Multi Family (636 Acres)
2% Institutional (314 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

RECREATION OPPORTUNITIES

55 parks with 1,247 acres
31 park shelters
15 tennis courts
9 pickle ball courts
6 combination volleyball/pickle ball courts
22 restroom buildings
4 accessible fishing piers
3 skate parks
1 pet park
288 units of play equipment
1 disc golf course
1 in-line hockey rink
10 softball fields
1 all-inclusive baseball field
1 baseball field
4,500 street trees
45 miles of on/off street trails
1,000 picnic tables
7 basketball courts
8 half basketball courts
2 amphitheaters
17 horseshoe pits
1 splash pad

CULTURAL AMENITIES

In Dubuque there are over 45 non-profit arts and cultural organizations that provide year-round cultural programming in Dubuque and the surrounding area. Dubuque is home to a world-class Symphony Orchestra and Arboretum, two Smithsonian Affiliates - the Dubuque Museum of Art and the National Mississippi River Museum and Aquarium, the Julien Dubuque International Film Festival (JDIFF), multiple community theater groups including Grand Opera House, Bell Tower, Rising Star and Fly By Night. There are on average over 125 special events throughout the year from community festivals to outdoor music venues to parades and neighborhood events.

WORKFORCE

Today there are over 12,000 employees working in downtown Dubuque. Dubuque leads the State in downtown rehabilitation and development with over $896 million of public and private investment since 1985.

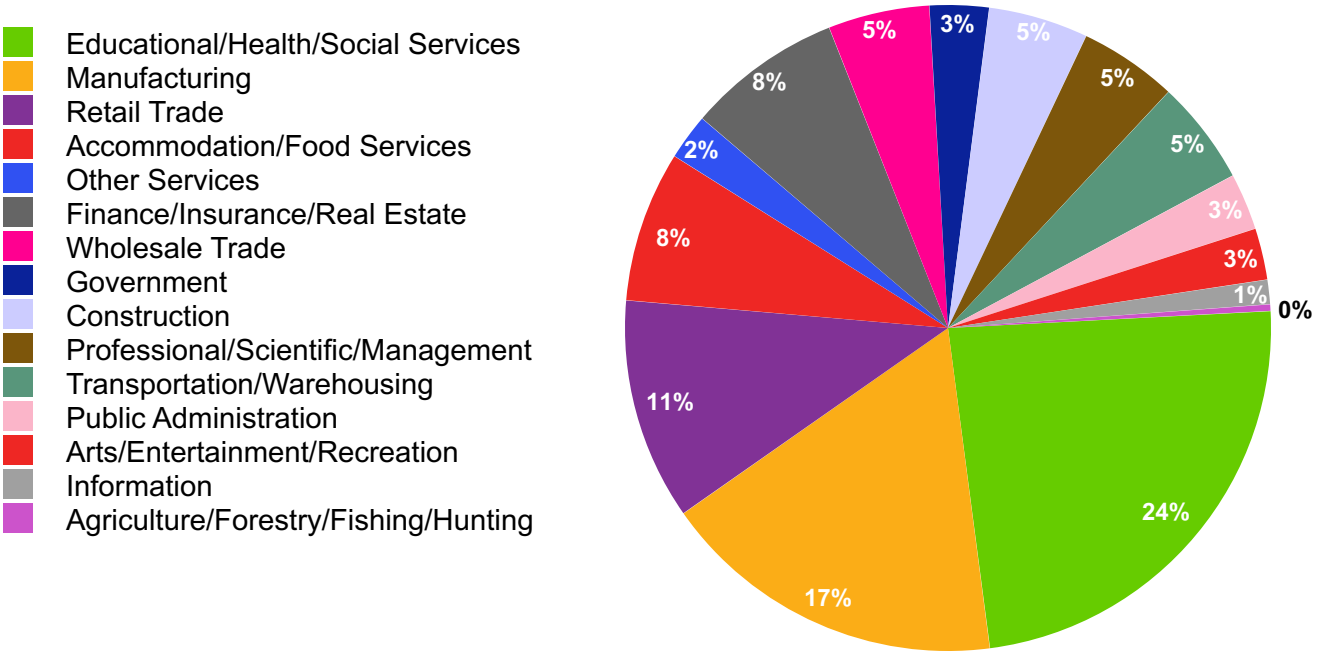

According to the latest data from Iowa Workforce Development (December 2025), Dubuque's employment is at 60,600. Dubuque County's unemployment rate for December 2025 was 3.4% while Iowa's rate was 3.5% and the nation's was 4.4%.

The top ten employers in the area employ less than 21% of the total workforce. Peninsula Gaming Co. LLC, the greatest revenue source among all taxpayers, contributes approximately 2% of the City's taxable valuation.

City of Dubuque Mayor and City Council Non-profit & Partner Board Representation

As elected officials, the Mayor and City Council serve as a City Council Representative on a number of local, not-for-profit and partner organizations. Appointments must be outlined in the organizations' Bylaws, Articles of Agreement, or other applicable contracts. These appointments are affirmed every year by the City Council at an official meeting.

Dubuque County Conference Board
Dubuque Area Convention & Visitor's Bureau - Travel Dubuque - Board of Directors
Dubuque Area Convention & Visitor's Bureau - Travel Dubuque - Sister City Committee
County Resource Enhancement and Protection Act (REAP) Committee

Greater Dubuque Development Corporation (GDDC)

City of Dubuque
Boards and Commissions

Individuals serving on Boards and Commissions play an important role in advising the City Council on matters of interest to our community and its future. The City Clerk's Office accepts applications for any Board or Commission at any time, and the application stays active for one year from the date of receipt in the Clerk's Office. Applicants must be a resident of the City of Dubuque. Some boards and commissions may require compliance with the State of Iowa Gender Balance Law.

2025-2027 CITY COUNCIL GOALS & PRIORITIES

The Dubuque City Council completed its annual goal-setting sessions on Thursday, Sept. 25, 2025. Over the course of three evening sessions, City Council members affirmed the 15-year vision statement and mission statement and identified seven five-year goals for the city. They also identified top and high priorities for a 2025-2026 policy agenda as well as in-progress projects and capital projects for 2025-2026.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

POLICY AGENDA

Policy agenda items are issues that need direction or a policy decision by the City Council, or need a major funding decision by the City Council, or issues that need City Council leadership in the community or with other governmental bodies. The policy agenda is divided into top priorities and high priorities.

2025 - 2027 Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

2025 - 2027 High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

VISION & MISSION

2040 Vision Statement

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

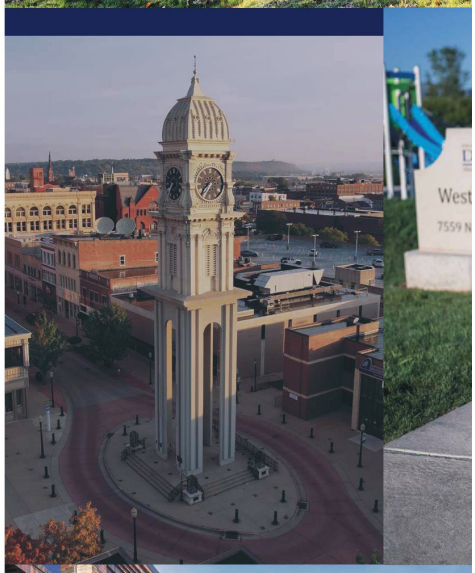

Mission Statement

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

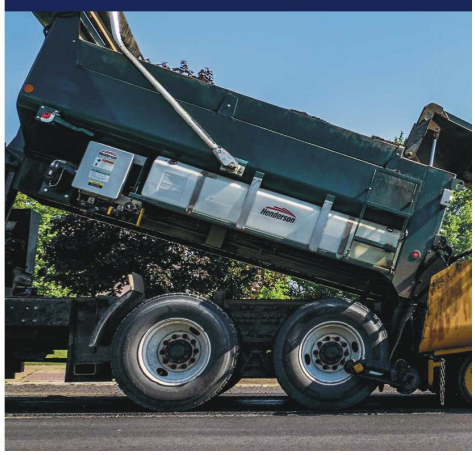

FIVE-YEAR GOALS

- **Healthy and Safe Community**
- **Financially Responsible, High-Performance City Organization:** Sustainable, Equitable, and Effective Service Delivery
- **Robust Local Economy:** Diverse Businesses and Jobs with Economic Prosperity
- **Livable Neighborhoods and Housing:** Great Place to Live
- **Sustainable Environment:** Preserving and Enhancing Natural Resources
- **Connected Community:** Equitable Transportation, Technology Infrastructure, and Mobility
- **Diverse Arts, Culture, Parks, and Recreation Experiences and Activities**

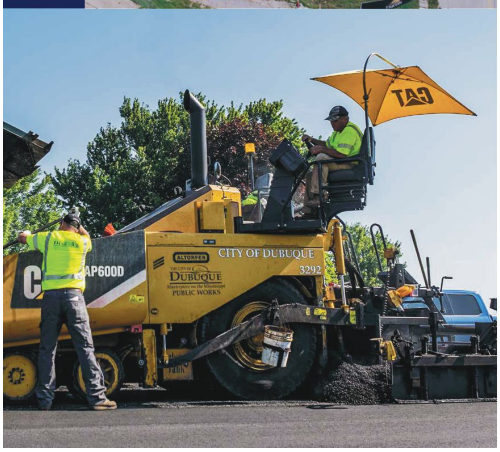

www.cityofdubuque.org/citycouncil

MANAGEMENT IN PROGRESS & MAJOR PROJECTS

Under each City Council goal are items listed as **Management in Progress** and **Major Projects**. These are items and projects that are underway and budgeted. Staff is implementing and providing updates to City Council.

Healthy and Safe Community

Management in Progress

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System Implementation
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Major Projects

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High-Performance City Organization

Management in Progress

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation Plan
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Major Projects

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy

Management in Progress

- Business Incentives Policies and Processes Review
- Chaplain Schmitt Island Development: Hotel Project
- Comprehensive Hotel Attraction/Incentive Policy

(Continued on page 4.)

- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions
- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing

Management in Progress

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/ Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment

Management in Progress

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Major Projects

- Auburn St. and Custer St. Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St. and Central Ave.
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No. 7 Rehabilitation
- Water Department New Deep Well No. 11 (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community

Management in Progress

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System and Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Major Projects

- 14th St. Railroad Overpass and 16th St. Corridor Complete Streets Improvements
- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks, & Recreation Experiences & Activities

Management in Progress

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming
- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System
- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

COUN008-102125

REVENUE CATEGORY EXPLANATIONS

PROPERTY TAXES

All property taxes collected for the City are levied on the assessed valuation of real and personal property as determined by the City Assessor. For Fiscal Year 2027, the total tax collection of $31,940,934 is a 6.93% increase as compared to FY 2026. The total tax collection includes $10,396 for agricultural land. The overall levy is made up of five parts as described below.

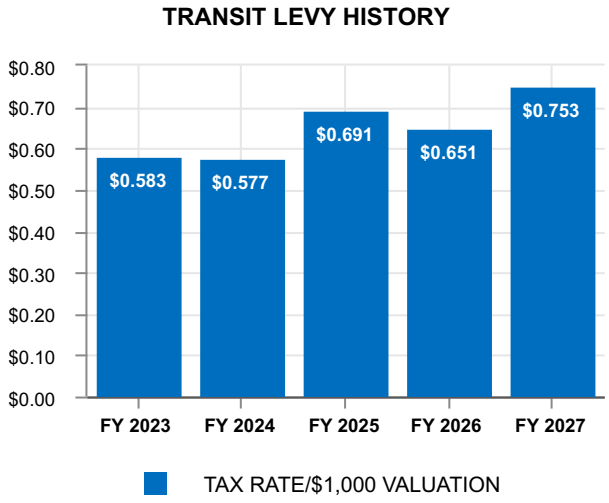

GENERAL LEVY HISTORY

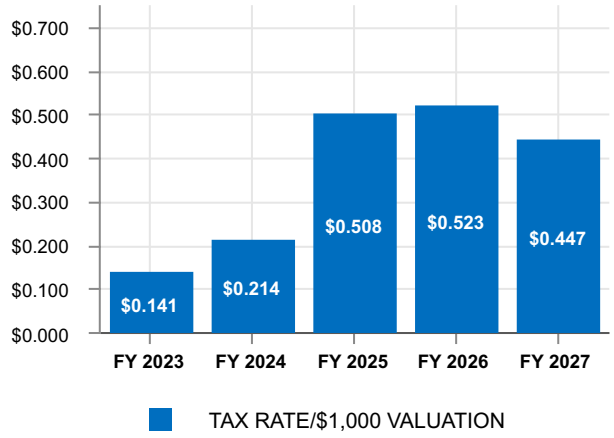

The **General Levy** for the general fund is limited by the State of Iowa to 2% or 3% growth each year, depending on the trigger hit, except for specific levies authorized outside the limit. The City of Dubuque general levy for FY 2027 is just $3.54090, which is up from $3.41552 the year before. The General Levy is certified with the State of Iowa at the maximum levy allowed by moving eligible Employee Trust & Agency expenses (allowable in the Trust & Agency Levy) into the General Levy.

The State of Iowa requires this shift to maximize the General Levy first. Also, 50% of the one cent local option sales tax and 100% of the gaming revenues (taxes and lease) is applied for property tax relief which has created a savings in the total City tax rate of $3.17042/$1,000 valuation.

Outside of the General Fund levy, a **Transit Levy** can be used without the vote of the electors to fund the operations of a municipal transit system. This levy may not exceed 95 cents/$1,000 valuation. The levy is collected in the General Fund, and then transferred to the Transit Fund. The FY 2027 levy of 0.752860 cents will generate $2,361,869 which is a 8.92% increase from FY 2026.

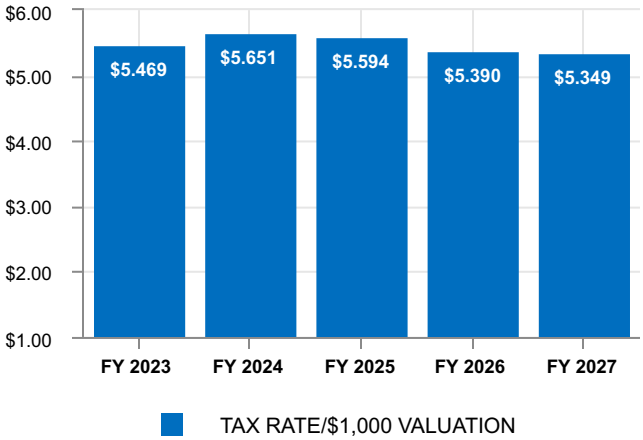

TORT LIABILITY LEVY HISTORY

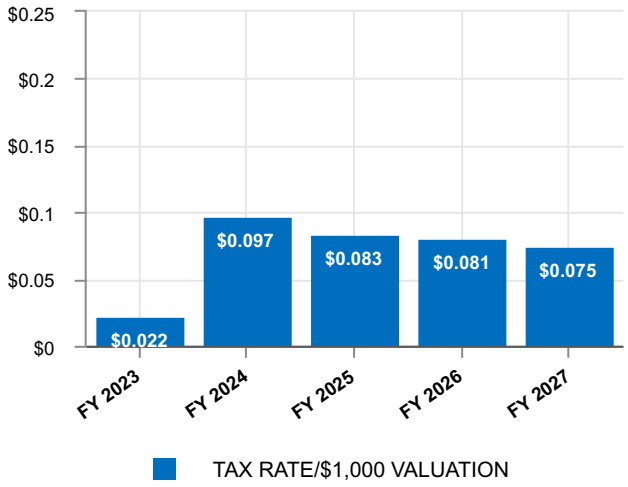

Outside of the General Fund levy, a **Tort Liability Levy** can be used without the vote of the electors to fund the cost of general liability insurance to the total amount necessary. The levy is collected in the Tort Liability fund and then transferred into the General Fund to pay general liability insurance expense. The FY 2027 levy of 0.44658 cents generates $1,401,004. The City is a member of the Iowa Community Assurance Pool (ICAP) which is a local government risk-sharing pool in the State of Iowa. The tort liability levy request changes based on risk adjustments received from ICAP.

The **Trust and Agency Levy** is available for payroll benefit costs (as defined by the City Finance Committee) including Retirement (IPERS), Municipal Fire and Police Retirement (MFPRSI), Police Pensions, Social Security/ Medicare, Police and Fire medical costs, Health Insurance, Worker's Compensation, Life Insurance, and Unemployment. The total payroll benefit costs allowable in this levy are $16,782,114. The trust and agency levy has decreased to $5.34942 in FY 2027 .

TRUST & AGENCY LEVY HISTORY

DEBT SERVICE LEVY HISTORY

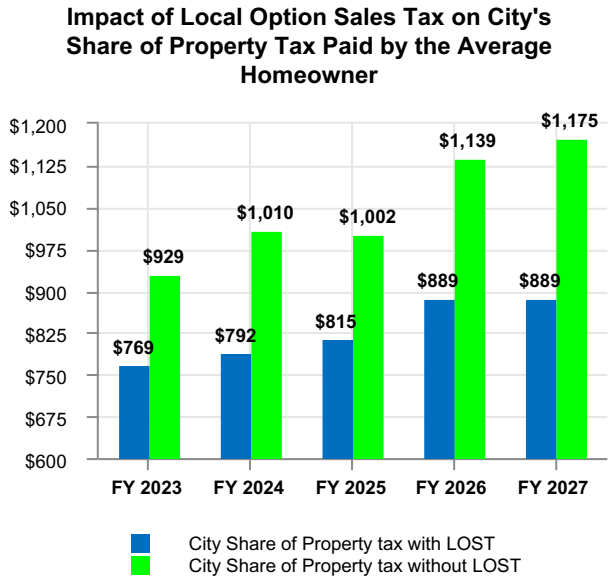

The final portion of the levy is for **Debt Service**. This levy is restricted to General Obligation (GO) bond debt and judgments. The City of Dubuque has a GO bond issuance for the replacement of fire trucks and an ambulance for $1,355,500 and a franchise fee judgment bond ifor $2,800,000 with debt service abated by the debt service levy of $287,495 in FY 2027.

OTHER TAXES

Local Option Sales Tax (LOST)

Beginning April 1, 1988, an additional 1% local option sales tax is applied to all goods and services delivered within the City of Dubuque, to which the State of Iowa sales tax already applies. This was approved by the voters in February of 1988. Of the total received, 50% of the funds are marked for property tax relief; 20% for City facilities maintenance (upkeep of City-owned property, transit equipment, riverfront and wetland development, and economic development); and 30% for special assessment relief (street special assessments and the maintenance and repair of streets). Annually the State sends the City an estimate of the amount of local option sales tax it will receive monthly for the year. The amount is 95% of the estimated collection and then in November, the City will receive an adjustment to actual for the prior year. This estimate along with actual receipt and sales growth trends, are used to budget. The budget for FY 2027 decreased 1.24% compared to FY 2026, which reflects stabilized sales growth.

In FY 2027 approximately $6,372,758 will be generated for property tax relief. This translates into a reduction of the City share of property tax paid by the Average Homeowner of $259.30. This chart illustrates the amount the total levy would have to be if the Local Option Sales Tax had not been approved.

Hotel/Motel Tax

Beginning in November of 1991, a referendum was passed to increase hotel/motel tax from 5% to 7% (limit). This tax is levied upon the occupancy of any room furnished by a hotel/motel in the City. By Resolution, 50% of the hotel/motel tax is to be used for promotion and encouragement of tourism and convention business. City Council's policy is to provide 50% of the past 4 quarters actual receipts to the Convention & Visitors Bureau (CVB) in the next fiscal year's budget. The remaining 50% goes into the General Fund for property tax relief.

Hotel/motel tax has increased gradually over the years until FY 2004, when a 35% increase was realized. This was due to the addition of several new hotel/motels in Dubuque. FY 2027 is budgeted with a decrease of 10.16% under FY 2026, which reflects the actual trend.

Other Taxes

Other taxes include tax on agricultural land (state levy limit is $3.00375), military service, county monies & credits, gaming taxes (Greyhound Park and Casino para-mutual and slot machine tax and Diamond Jo riverboat tax on bets), mobile home tax, and tax increment property tax revenues.

LICENSES AND PERMITS

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous.

Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas and 5% electric) – with a increase of 12.91% in FY 2027. The Fiscal Year 2027 projection for Cable Franchise Fees is $256,734. The Utility Franchise Fees from Electric and Natural Gas FY 2027 projection is $7,102,341, all for property tax relief.

USE OF MONEY AND PROPERTY

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue. The gaming related leases generate the most revenue. In 1984, the residents of Dubuque approved a referendum allowing dog racing. In 1987, this expanded to include riverboat gaming and in 1994 slot machines at the dog track. The Greyhound Park and Casino expanded with a bigger and better facility and in June 2005, slot machines were added to go from 600 to 1,000 and in March 2006, table games were added.

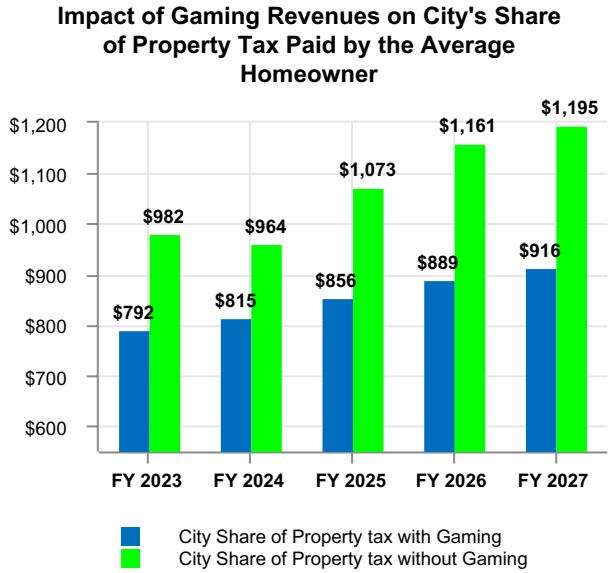

Effective April 1, 2004 the lease with the Dubuque Racing Association (DRA) was revised to collect 1% of coin-in and unadjusted drop from .5% previously, and its end date changed from 2009 to 2018. The City receives a distribution of profit from the DRA annually that was previously split 40% to the City, 30% to local charities and 30 % retained by the DRA. A lease amendment in FY 2010 changed this split to 50% City / 50% Charities / DRA. In addition, this lease amendment changed the unadjusted drop from .5% for table games to 4.8% of adjusted gross receipts.

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055. The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5%t of coin in from slot machines (previously 1%), 4.8% of gross revenue from table games, and 0.5% of sports wagering. Diamond Jo admissions are also collected through their lease.

In Fiscal Year 2022, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. The split of annual distribution was changed from 50% City/ 50% charity to one third City, one third charity, one third Chaplain Schmitt Island Development Fund. In addition, the amended lease has an expiration date of December 31, 2036.

In Fiscal Year 2023, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows $1.5 million of cash reserve fund as a down payment of a construction loan in FY23. The DRA is required to establish a debt reserve fund equal to one year of debt payments, almost $7 million.

City Council policy is to use 100% of the DRA distribution of profit to support the Capital Improvement budget, however in Fiscal Years 2024-2027, 100% of DRA distribution of profit was used for the operating budget. City Council policy for the total received from the DRA operating lease and taxes, and the Diamond Jo admissions and taxes, is to split it 100% for property tax relief in the General Fund and 0% to support the Capital Improvement program.

In 2027, 100% of the total or approximately $6,372,758 is projected to be generated and reduce the amount paid by the average homeowner by $279.59. This chart illustrates the total the average homeowner would have to pay without the contribution of gaming revenue. FY 2027 and beyond gaming projections include the impact of the renovated Q Casino and additional casinos opening in Illinois, Wisconsin, and Iowa.

INTERGOVERNMENTAL REVENUE

Intergovernmental revenues include Federal grants and reimbursements, State grants and reimbursements, State shared revenues, and County or other local grants and reimbursements. Many of these revenues are construction project related and thus significantly increase and decrease with the timing of projects. Federal and State grants received by the City are listed on the 'Summary of How Budgeted Expenditures are Funded by Source of Income" under the Financial Summaries tab.

In FY 03/04, the State of Iowa discontinued State shared recurring revenues (liquor tax, personal property tax replacement, municipal assistance, and state funded monies and credits) due to a budget crisis at the State level. This caused a shortfall of $1,051,625 in the City of Dubuque's General Fund. Then in FY 04/05 the bank franchise tax was eliminated by the State causing a shortfall of $145,000. This was addressed by making cuts, shifting funding and increasing revenues by adding a 2% gas and electric franchise fee.

The Iowa Department of Transportation (IDOT) provides annual projections on the amount of Road Use Tax Funds the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031.

CHARGES FOR SERVICES

Utility Charges

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, and Landfill. Rate increases have been incorporated in all utilities (as listed on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising (fuel, gas/electric, supplies), additional capital projects, to support additional debt service, and to meet revenue bond covenants.

Other Charges for Services

This includes revenue from all charges for current services exclusive of utilities, such as:

General Government - Copy charges, sale of maps and publications, zoning adjustment fees, sub plat review fees, plan check fees, and temporary use fees.

Highways/Streets/Sanitation – Street, sidewalk, and curb repairs, engineering and inspection fees, and weed cutting charges.

Public Safety – Special Police services and ambulance fees.

Municipal Enterprises – Library services, transit services, airport charges and fuel sales, and parking meters and lot collections.

Recreation – Recreation programs, golf course fees, aquatics, and park fees.

SPECIAL ASSESSMENTS

Special Assessments are an additional tax levied on private property for public improvements that enhance the value of the property. Principal and interest payments received on special assessments are included in this revenue category.

OTHER FINANCING SOURCES

Other financing sources includes proceeds from sale of bonds and State Revolving Fund (SRF) loans.

TRANSFERS IN

This is for the transfer of money between City funds.

MISCELLANEOUS REVENUE

Internal Charges

These are the charges for labor, equipment, materials, printing, and messenger service which City departments pay to internal services departments or to other City departments.

Miscellaneous Revenue

This includes revenues of a non-recurring nature which are not assigned above.

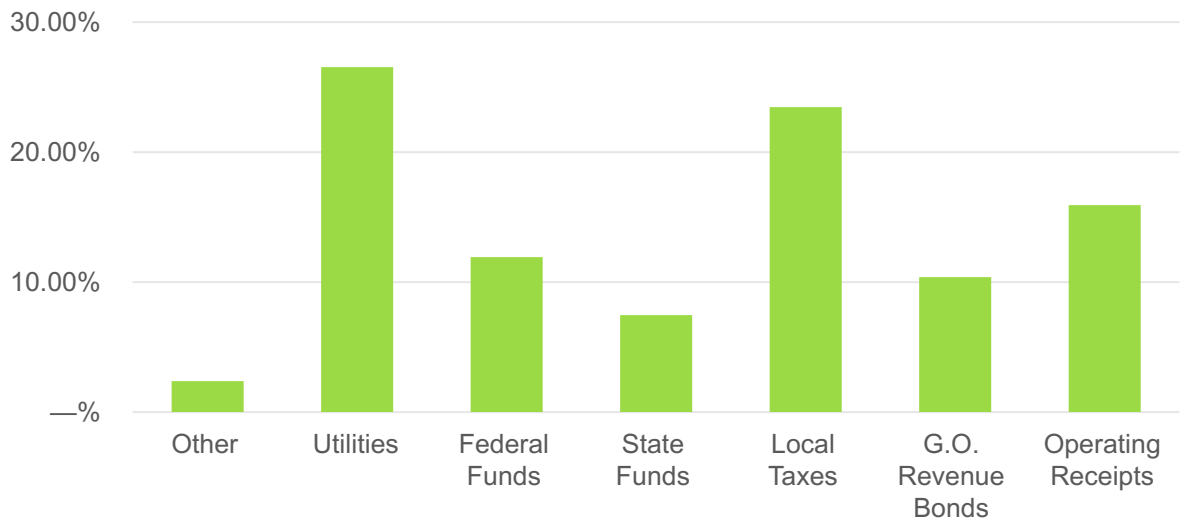

REVENUE HIGHLIGHTS

REVENUE PROJECTIONS

The revenue projection process starts with five year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year's actual and current year-to-date amounts are used to project both the current year and next four year's revenues. Information received from the State, County, and Iowa League of Municipalities is utilized to project recent trends and anticipated amounts. The City Manager and the Chief Financial Officer review estimates, with input from the Human Resources Director, to make informed judgments on all revenues city wide. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer reviews all detail, discusses with Departments, makes appropriate adjustments and prepares the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

WHERE THE MONEY COMES FROM
FY 2027 RECOMMENDED
TOTAL BUDGET

Total Recommended Budget $265,322,342

*Excludes Transfers

The major resource assumptions used in preparing the Fiscal Year 2027 Recommended budget include the following:

a) **Cash Balance.** Unencumbered funds or cash balances of $200,000 will be available in FY 2027 and each succeeding year to support the operating budget.

b) **Interest Revenue.** Interest revenue decreased from $2,300,097 in FY 2026 to $1,620,974 in FY 2027. The FY 2027 budget is based on projected general fund cash balance, and projected declining interest rates.

c) **Sales Tax Revenue.** By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2027. Sales tax receipts are projected to decrease 0.74% under FY 2026 actual of $12,465,961 based on FY 2026 revised revenue estimate which includes actuals through February 2026, and then increase at an annual rate of 2.00% percent per year beginning in FY 2028. The following chart shows the past four years of actual sales tax funds and projected FY 2027 for the General Fund:

Sales Tax Funds	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
PY Q4	$475,037	$451,920	$574,416	$635,746	$654,818
Quarter 1	$1,177,196	$1,545,777	$1,592,834	$1,610,911	$1,659,238
Quarter 2	$1,522,885	$1,596,421	$1,605,397	$1,302,193	$1,341,258
Quarter 3	$1,443,097	$1,524,508	$1,490,640	$1,576,480	$1,623,774
Quarter 4	$1,110,593	$979,209	$969,694	$1,061,815	$1,093,669
Reconciliation	$371,388	$—	$—	$—	$—
Total	$ 6,100,196	$ 6,097,835	$ 6,232,981	$ 6,187,145	$ 6,372,757
% Change	**-4.00%**	**-0.04%**	**+2.22%**	**-0.74%**	**+3.00%**

d) **Hotel/Motel Tax Revenue.** Hotel/motel tax receipts are projected to increase 5.00% ($167,286) over FY 2026 re-estimated receipts of $3,345,715, and then increase at an annual rate of 3.00% per year.

e) **FTA Revenue.** Federal Transportation Administration (FTA) transit operating assistance decreased from $598,167 in FY 2026 to $443,500 in FY 2027. The FY 2027 budget is based on the revised FY 2026 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

f) **Ambulance Revenue.** Ambulance Ground Emergency Medical Transport Payments increased from $2,413,018 in FY 2026 to $2,714,947 in FY 2027. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2021. FY 2027 is based on calculated projections using historical averages. This revenue is projected using the first quarter of performance in FY 2025 and the previous 11 quarters of performance. Based on that formula, the 3-year quarterly average growth of Medicaid transports is 0.8%. The projected number of transports for FY 2025 is 1,084 and for FY 2026 is 1,092. The FY 2024 actual was 1,075. Based on the unaudited FY 2024 cost report, the FY 2026 revenue per transport is estimated to be $2,209.18. This line item is offset by GEMT Pay to Other Agency expense for local match of $904,973 resulting in net revenue of $1,809,974.

Ambulance Fees increased from $1,756,870 in FY 2026 to $2,778,351 in FY 2027 based on calculated projections using historical averages and Council approved advanced life support and basic life support service fees to match the third-party cost report. The FY 2025 actual was $2,026,670.

As the City Council approved in 2025, these funds are being used to add five firefighter positions in Fiscal Year 2026 and should the City receive a SAFER grant, nine more firefighter positions in Fiscal Year 2027.

g) **Miscellaneous Revenue.** Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2026.

h) **Building Fee Revenue.** Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase $101,389 from $1,099,857 in FY 2026 to $1,201,246 in FY 2027.

i) **DRA Revenue.** Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to decrease $134,176 from $7,213,362 in FY 2026 to $7,079,186 in FY 2027 based on revised projections from the DRA. This follows a $192,217 decrease from budget in FY 2026 and a $2,283,319 increase from budget in FY 2025.

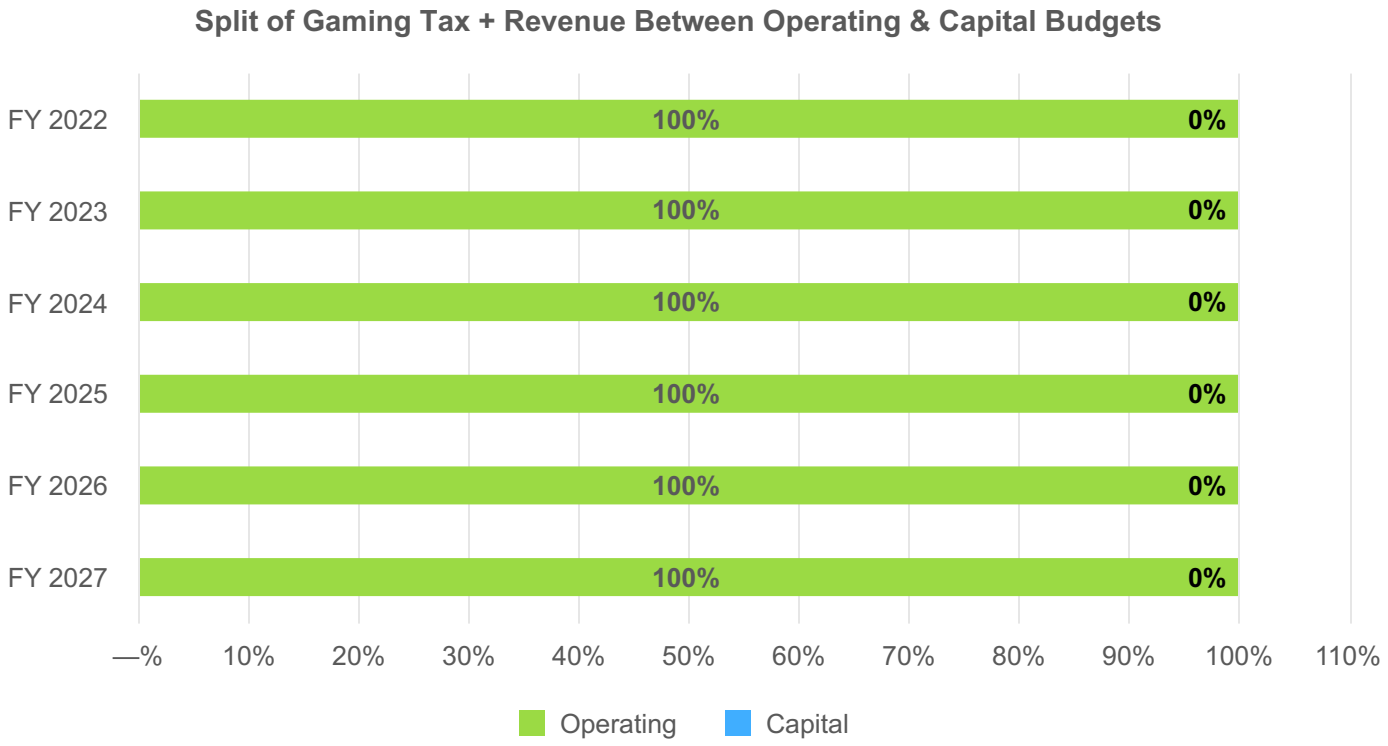

The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease Payments	$ Change	% Change
FY 2027 Projected	$7,079,186	$ 127,716	2%
FY 2026 Revised	$6,951,470	$ (261,892)	-4%
FY 2026 Budget	$7,213,362	$ 349,629	5%
FY 2025 Actual	$6,863,733	$ 589,707	9%
FY 2024 Actual	$6,274,026	$ (917,449)	-13%
FY 2023 Actual	$7,191,475	$ 583,944	9%
FY 2022 Actual	$6,607,531	$ 2,645,535	67%
FY 2021 Actual	$3,961,996	$ (1,187,192)	-23%
FY 2020 Actual	$5,149,188	$ 293,177	6%
FY 2019 Actual	$4,856,011	$ 18,879	0%
FY 2018 Actual	$4,837,132	$ (195,083)	-4%
FY 2017 Actual	$5,032,215	$ (155,297)	-3%
FY 2016 Actual	$5,187,512	$ (158,104)	-2%

The Diamond Jo payment related to the revised parking agreement increased from $687,003 in FY 2026 to $731,657 in 2027 based on estimated Consumer Price Index adjustment.

j) **DRA Gaming.** The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2027 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2022– FY2027:

k) Diamond Jo Revenue. The Diamond Jo Patio lease ($25,000 in FY 2027) and the Diamond Jo parking privileges ($731,657 in FY 2027) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

l) Residential Rollback. The residential rollback factor will decrease from 47.4316% in 2026 to 44.5345% or a 6.11% decrease in FY 2027. The rollback has been estimated to remain the same from Fiscal Years 2028 through 2031.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2027, residential property had more growth than agricultural property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average residential property value increased 8.50%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from $93,207 to $94,952 (+1.87%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This increased taxable value for the average homeowner ($91,067 taxable value in FY 2026 and $94,952 taxable value in 2027) results in more taxes to be paid per $1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 44.5345 percent in Fiscal Year 2027. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2026, the City's tax rate would have been $6.18 per $1,000 of assessed value instead of $10.06 in FY 2026.

m) State Equalization Order/Property Tax Reform. There was not an equalization order for commercial, industrial or multi-residential property in Fiscal Year 2027. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average commercial and industrial property values increased 16%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from $540,594 to $624,927 (+16%). This revaluation of industrial property resulted in the taxable value for the average industrial calculation to increase from $632,952 to $731,693 (+16%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2027 State backfill for property tax loss is estimated to be $484,830 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds).**

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2027	$ (97,981)
2028	$ (97,981)
2029	$ (97,981)
2030	$ (97,981)
Total	**$ (391,924)**

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties ($432,475 Commercial / $599,500 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of $148 in FY 2015, $693 in FY 2016, $982 in FY 2017, $959 in FY 2018, $843 in FY 2019, $861 in FY 2020, $779 in FY 2021, $780 in FY 2022, and $722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.

The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the first-tier assessment limitation in FY27 is estimated to be $170,000.

n) **Multi-Residential Property Class/Eliminated State Shared Revenue.** Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239
FY 2018	82.50%	$ 472,127
FY 2019	78.75%	$ 576,503
FY 2020	75.00%	$ 691,640
FY 2021	71.25%	$ 952,888
FY 2022	67.50%	$ 752,366
FY 2023	63.75%	$ 662,821
FY 2024	54.65%	$ 1,186,077
Total		**$ 5,625,661**

This annual loss in tax revenue of $1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost $5,625,661 in total, meaning landlords paid that much less in property taxes. The State did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

A. Machinery and Equipment Tax Replacement in FY 2003 (-$200,000)
B. Personal Property Tax Replacement in FY 2004 (-$350,000)
C. Municipal Assistance in FY 2004 (-$300,000)
D. Liquor Sales Revenue in FY 2004 (-$250,000)
E. Bank Franchise Tax in FY 2005 (-$145,000)
F. Alcohol License Revenue in FY 2023 (-$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

o) **Taxable Value** FY 2027 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+3.51 %
Commercial	+15.63 %
Industrial	+8.22 %
Overall	+5.89 %

*Overall taxable value increased 5.89% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2027.

p) Greater Downtown Tax Increment Financing

- In Fiscal Year 2027, $5,392,989 million in internal loans will be repaid by the Greater Downtown Tax Increment Financing Fund and the Dubuque Industrial Center Tax Increment Financing Fund to the General Fund. $702,793 of the repayment is recommended to be used for general property tax relief in Fiscal Year 2027. $931,899 of the internal loan repayment is recommended to fund non-recurring improvement packages. and $349,684 is recommend to fund recurring improvement packages in the general fund. $587,638 will be used as an internal loan to the Refuse Collection enterprise fund. $180,693 will be used as an internal loan to the Garage Services internal service fund.The balance will be reserved for the Fiscal Year 2028 budget process as the City needs to be prepared for property tax reform being considered in the State legislative session.

◦ Beginning in Fiscal Year 2028, the Greater Downtown Tax Increment Financing District will no longer collect 100% of revenues. Instead, the Greater Downtown TIF District will begin collecting 75% of revenues. The remaining 25% will be returned to the general funds of all taxing bodies (Dubuque Community School District, City of Dubuque, Dubuque County, Northeast Iowa Community College, and Independent). Based on Fiscal Year 2027 valuations and the Fiscal Year 2026 consolidated tax rate, collecting only 75% in the Greater Downtown TIF District will annually return approximately $1.3 million to Dubuque Community School District, $1.2 million annually to the City of Dubuque, $678 thousand annually to Dubuque County, $93 thousand annually to Northeast Iowa Community College, and $111 thousand annually to Independent taxing bodies. This also means that beginning in Fiscal Year 2028, the Greater Downtown TIF District will have $3,250,000 less each year for programs and projects.

q) Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by $101,268 in FY 2027 to $4,374,313 due to the estimated consumer price index.

r) Franchise Fees. Natural Gas franchise fees are based on FY 2025 actual of $1,743,494. Also, Electric franchise fees are based on FY 2026 budget of $5,075,053 plus rate increases of 5.6%. The franchise fee revenues are projected to increase at an annual rate of 4 percent per year from FY 2028 through FY 2031.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

s) Property Tax Rate. For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2027.

t) Police & Fire Protection. FY 2027 reflects the fifteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2027, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

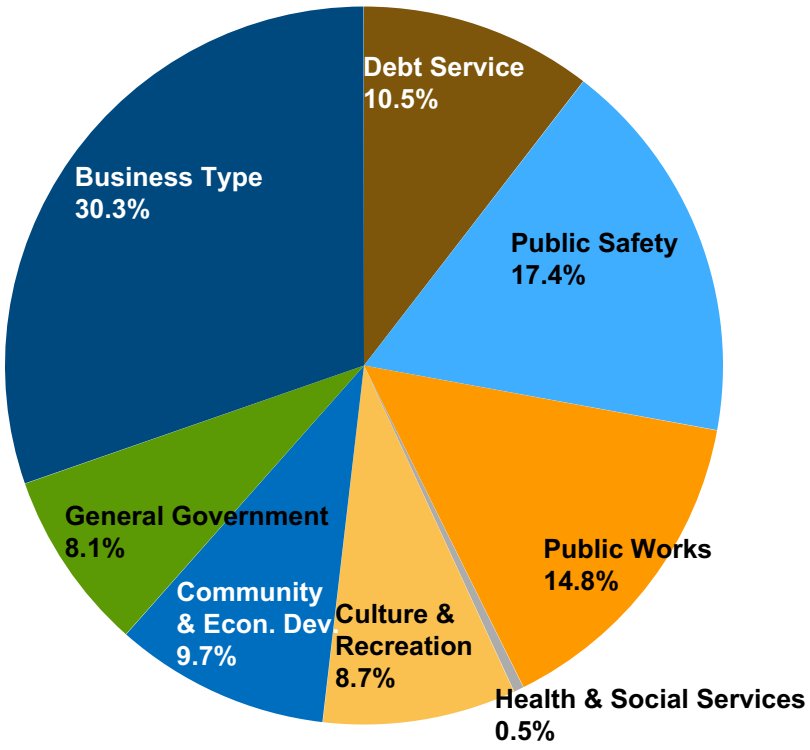

EXPENDITURE HIGHLIGHTS

EXPENDITURE PROJECTIONS

The expenditure projection process starts with 5 year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year actuals and current year-to-date amounts are used to project both the current year and next four year's revenues. The City Manager and the Chief Financial Officer review estimates, with input from the Finance Director, to make informed judgments on expenditure trends and economic conditions. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer, Budget Manager, and Budget Analysts review all details, discusses with Departments, makes appropriate adjustments and prepare the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, Budget Manager, Budget Analysts, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

HOW THE MONEY IS SPENT
RECOMMENDED FY2027 BUDGET

TOTAL RECOMMENDED BUDGET $265,322,342

*Excludes transfers and non-program expense for self-insurance, Metro Landfill accounts & Agency Fund accounts.

The major requirement assumptions used in preparing the Fiscal Year 2027 recommended budget include the following:

Employee Expense ($+5,393,056/ +6.40% over FY 2026 Adopted Budget)

a) **Pension Systems.**

i) The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.56% percent in FY 2026 to 21.86% percent in FY 2027 (general fund savings of $80,480 for Police and $75,845 for Fire or a total savings of $156,325.

ii) The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2026 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2026 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b) **Collective Bargaining.** The already approved collective bargaining agreements for Dubuque Professional Fire Fighters Association includes a 4% increase, International Union of Operating Engineers includes a 3.25% wage increase, the Dubuque Police Protective Association includes a 5% wage increase, and the Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 include a 3% increase. Non-represented employees include a 3.00% wage increase. Fiscal Year 2027 includes the cost of the multi-year implementation of the classification and compensation study. A classification and compensation study analyzes the job positions (not individuals) in an organization. The purpose of a classification and compensation study is to ensure jobs with comparable minimum qualifications, job responsibilities, supervisory expectations, working conditions and environments are grouped closely in a compensation plan. Salary ranges are competitive within the identified market, and to equip the human resources team to consistently administer classification and compensation programs on an ongoing basis. The City's strategy through this study has been to recommend a new compensation strategy in which the City is competitive at the 50% percentile of employers. Total cost of the wage increases for collective bargaining and non-represented employees, and continued classification and compensation study implementation is $3,509,780 to the General Fund.

c) **Health Insurance.** The City portion of health insurance expense is projected to increase from $1,119 per month per contract to $1,175 per month per contract (based on 662 contracts) in FY 2027 (increase of $589,333 to the general fund). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings.There was a decrease of $639,758 in prescription drug cost in FY 2022. Based on FY 2026 actual experience, Fiscal Year 2027 is projected to have a 5.35% increase in health insurance costs. Estimates for FY 2028 were increased 5.36%; FY 2029 were increased 5.37%; FY 2030 were increased 5.38%; and FY 2031 were increased 5.38%. Effective January 1, 2027, employee contributions will increase.

d) **Five-Year Retiree Sick Leave Payout.** FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2026 was $288,742 as compared to FY 2027 of $228,836, based on qualifying employees officially giving notice of retirement.

e) **50% Sick Leave Payout.** Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2026 was $128,496 as compared to FY 2027 of $141,764, based on FY 2026 year-to-date expense.

f) **Parental Leave.** Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

Supplies and Service ($-1,399,126 / (2.23)% under 2026 Adopted Budget)

g) **Supplies & Services.** General operating supplies and services are estimated to increase 2% over actual in FY 2025. A 2% increase is estimated in succeeding years.

h) **Electricity.** Electrical energy expense is estimated to increase 4% over FY 2025 actual expense, then 2% per year beyond.

i) **Natural Gas.** Natural gas expense is estimated to increase 0% over FY 2025 actual then 2% per year beyond.

j) **Travel Dubuque.** The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k) **Equipment & Machinery.** Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget, then remain constant per year beyond.

l) **Debt Service.** Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m) **Unemployment.** Unemployment expense in the General Fund decreased from $23,824 in FY 2026 to $27,007 in FY 2027 based on estimated premium for FY 2026.

n) **Motor Vehicle Fuel.** Motor vehicle fuel is estimated to decrease 30% under the FY 2026 budget based on the City fuel island fully operational in FY 2027and no longer purchasing from retail gas stations, then increase 2.0% per year beyond.

o) **Motor Vehicle Maintenance.** Motor vehicle maintenance is based on the FY 2026 budget, then increase 2.0% per year and beyond.

p) Public Transit. The increase in property tax support for Transit from FY 2026 to FY 2027 is $434,533, which reflects a decrease in Federal Transportation Administration Operating revenue ($154,667); a decrease in Federal Transportation Administration Capital ($344,329), an increase in employee expense ($111,155); decrease in supplies and services ($120,569); a reduction in equipment replacements ($99,615), a decrease in passenger fare revenue ($2,579).

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
2027 Projection	$ 2,361,869	22.55 %
2026 Budget	$ 1,927,336	(1.74)%
2025 Actual	$ 1,961,488	26.70 %
2024 Actual	$ 1,548,127	(1.52)%
2023 Actual	$ 1,571,981	(1.83)%
2022 Actual	$ 1,601,290	(2.09)%
2021 Actual	$ 1,635,441	4.94 %
2020 Actual	$ 1,558,460	(0.82)%
2019 Actual	$ 1,571,307	(0.10)%
2018 Actual	$ 1,572,825	34.10 %
2017 Actual	$ 1,172,885	24.41 %
2016 Actual	$ 942,752	(13.00)%

q) Shipping & Postage. Postage rates for FY 2027 are estimated to increase 5% over FY 2025 actual expense and proposed cost increases by United States Postal Service. A 3.0 percent increase is estimated in succeeding years.

r) Insurance. Insurance costs are estimated to change as follows:

- Workers Compensation is decreasing 44.18% based on rate change.
- General Liability is decreasing 3.06% based on rate change.
- Damage claims is decreasing 6.86% based on a three year average.
- Property insurance is increasing based on FY 2026 actual over 2%.

s) Housing. The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease $69,521 in FY 2027. The budgeted administrative cost of the Housing Choice Voucher Program decreased from $1,129,462 in FY 2026 to $988,895 in FY 2027. Administrative revenue of the Housing Choice Voucher Program decreased from $912,012 in FY 2026 to $827,089 in FY 2027. The resulting Housing Choice Voucher Program deficit decreased from $217,450 in FY 2026 to $161,806 in FY 2027. This deficit is funded by property taxes.

t) Communications Department. In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, was no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position was recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions were recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

u) Communications Department. In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, will no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position is recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions are recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

v) Greater Dubuque Development Corporation. Greater Dubuque Development Corporation support of $836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2027, with $26,500 for Targeted Neighborhood Reinvestment strategy paid from the Greater Downtown TIF. In FY 2028 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

Capital Outlay ($-673,867 / (14.67)% under FY 2026 Adopted Budget)

w) Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget based on equipment replacement schedules, then remain constant per year beyond

Debt Service ($-1,545,954 / (5.27)% under FY 2026 Adopted Budget)

x) Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement

*These projections do not include any anticipated tax burden shifts as a result of state-issued equalization orders or rollback factors.
The projections for the cost of municipal services are based on average water usage for residential single family is 3,200 gallons per month and assessed value on the home in FY 2027 of $196,508 (before rollback). State increased property taxes to the average homeowner by underfunding the Homestead property tax credit. FY 2020-2027 residential property tax projections assume Homestead property tax credit funded 100%, which has happened since FY 2014. The Utility Franchise Fee for gas and electric is calculated for all years using the FY 2015 electric gas rates for average residential customers.

RATES AND COMPARISONS

Water Rate Comparison for Largest Iowa Cities with Water Softening

Rank	City	Water Rate
7	Cedar Rapids (FY27)	34.05
6	Ames (FY27)	27.97

Net Property Tax	$	2,678.77

*The chart to the left is based upon an average home assessment of $196,508. The inset box provides a summary of how your City property tax is calculated.

Property taxes are certified July 1 with the first half due on or before September 30 and the second half due on or before March 31. The first half taxes becomes delinquent on October 1 and the second half taxes become delinquent on April 1. There is a 1.5% per month penalty for delinquency. Taxes are collected by the County and distributed to the City monthly in proportion of its levy to all levies.

City Property Tax Rate Comparison for Eleven Largest Iowa Cities

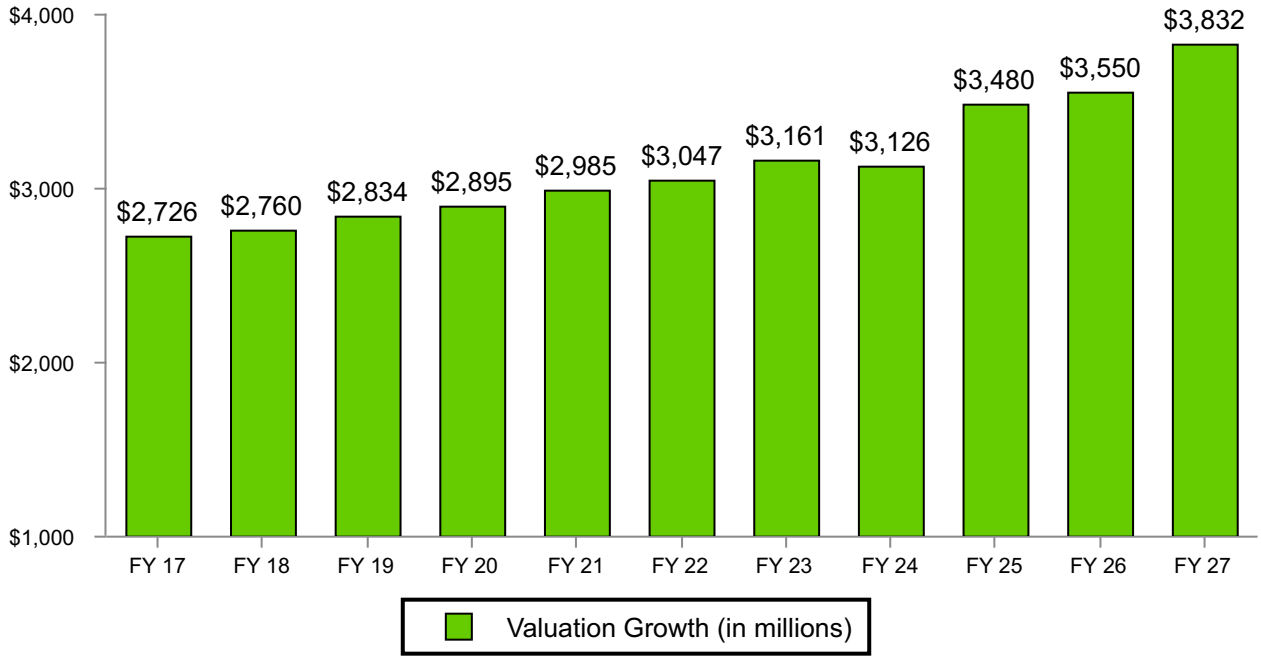

Rank	City	Tax Rate
11	Waterloo (FY27)	$ 24.02
10	Des Moines (FY27)*	$ 17.56
9	Council Bluffs (FY27)	$ 17.48
8	Cedar Rapids (FY27)	$ 16.66
7	Davenport (FY27)	$ 16.58
6	Sioux City (FY27)	$ 15.60
5	Iowa City (FY27)	$ 15.43
4	West Des Moines (FY27)*	$ 11.75
3	Ankeny (FY27)*	$ 10.53
2	Ames (FY27)	$ 10.27
1	**Dubuque (FY27)**	**$ 10.16**
	AVERAGE w/o Dubuque	$ 15.59

Dubuque has the LOWEST property tax rate as compared to the eleven largest cities in the state. The highest rate (Waterloo (FY27)) is 136.28% higher than Dubuque's rate, and the average is 53.35% higher than Dubuque. Dubuque's adopted FY 2027 property tax is $10.16 (increase of 1.00% from FY 2026)

*Includes the transit tax levy adopted by the Des Moines Area Regional Transit Authority for comparability.

VALUATION GROWTH

History of Taxable Debt Valuation (in millions)

The FY 2027 budget is based upon a 7.93% increase ($281,377,081) to the taxable debt valuation for the City. Without Tax Increment Financing there is a 5.89% increase in the taxable valuation for all other levies (General Fund property tax levy). The total taxable debt valuation of $3,831,798,549 is made up of the following components:

Valuation by Class of Property	Taxable Debt Valuation	Percentage of Valuation	Change from Prior Year
Residential & Ag property	$ 2,139,000,770	55.82 %	3.51 %
Ag Land & building	3,458,250	0.09 %	— %
Commercial property	1,485,347,469	38.76 %	15.63 %
Industrial property	168,152,430	4.39 %	8.22 %
Railroad bridge	4,777,321	0.12 %	2.91 %
Other	566,419	0.01 %	(0.76)%
Utilities	65,123,490	1.70 %	(6.46)%
Less: Veterans credit	(31,169,350)	(0.81)%	1.00 %
Ag Land & building	(3,458,250)	(0.09)%	— %
Total	$ 3,831,798,549	100 %	7.93 %
Tax Increment Financing (TIF)	($694,617,071)		18.16 %
Taxable Levy	$ 3,137,181,478		5.89 %

Utilities - Excise Tax

Legislation in FY 2001 changed the taxation of utilities from a property tax to an excise tax. The City's tax rate/$1,000 is first calculated on a valuation which includes utilities, then those calculated rates are used against a valuation figure with utilities removed. The excise tax makes up the difference in each levy.

Rollback

The growth in the valuation for the City of Dubuque continues to be impacted by the State of Iowa rollback adjustment. The State adjusts taxable valuations based upon a formula using the growth of the value of agricultural land. In the late 1980's the rollback was 80.6%, meaning only 80.6% of the value was taxable. For FY 2027 the State issued rollback for residential property is 46.34%.

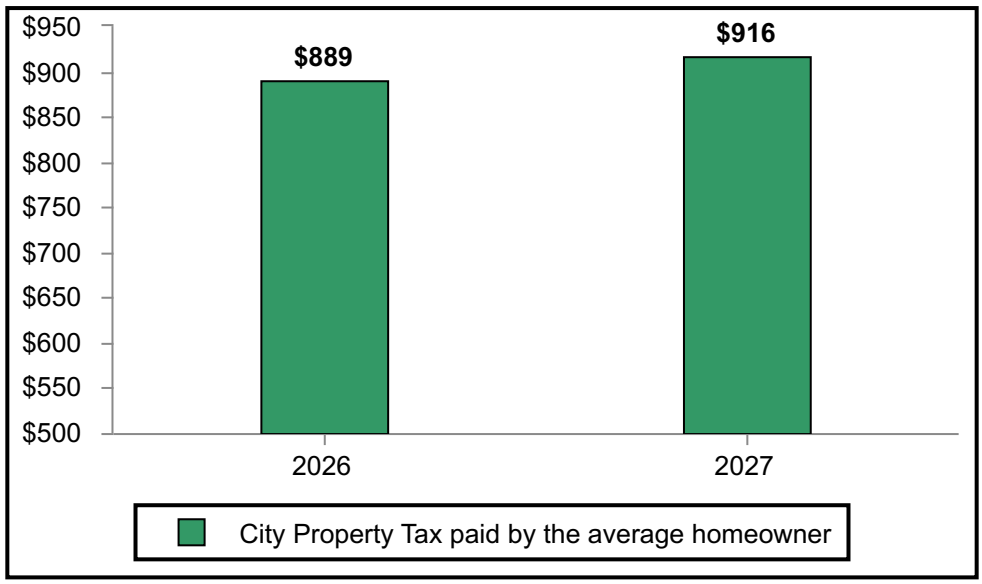

Comparison for Eleven Largest Iowa Cities
Taxable Value per Capita

Rank	City	Taxes Per Capita	Tax Rate	2020 Census Population	Taxable Value With Gas & Electric
11	West Des Moines	$ 1,419.67	$ 11.7500	68,723	8,303,317,423
10	Council Bluffs	$ 1,232.24	$ 17.4800	62,799	4,426,964,995
8	Waterloo	$ 1,115.87	$ 24.0178	67,314	3,127,420,037
9	Cedar Rapids	$ 1,061.86	$ 16.6562	137,710	8,779,262,836
7	Ankeny	$ 1,015.92	$ 10.5296	67,887	6,549,880,659
6	Iowa City	$ 999.75	$ 15.4331	74,828	4,847,306,943
5	Davenport	$ 961.56	$ 16.5823	101,724	5,898,709,945
4	Des Moines	$ 934.05	$ 17.5600	214,133	11,390,122,019
3	Sioux City	$ 819.88	$ 15.5956	85,797	4,510,460,866
2	**Dubuque**	**$ 653.37**	**$ 10.1648**	**59,667**	**3,835,259,385**
1	Ames	$ 604.59	$ 10.2727	66,427	3,909,496,088
	AVERAGE w/o Dubuque	$ 1,016.54	$ 15.59	94,734	6,174,294,181

Dubuque is the SECOND LOWEST taxes per capita as compared to the eleven largest cities in the state. The highest (West Des Moines) is 117.28% higher than Dubuque's taxes per capita, and the average is 68.14% higher than Dubuque.

FISCAL YEAR 2027

SUMMARY OF ALL DECISION (IMPROVEMENT) PACKAGES WITH PROPERTY TAX IMPACT

There were 145 improvement level decision packages requested in Fiscal Year 2027, of which 117 were recommended for funding.

The recurring general fund expenditures total $597,760 and will also impact future budget years. The non-recurring general fund expenditures total $2,187. The remaining improvement packages adopted for funding from non-property tax support total $1,507,077.

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
RECURRING DECISION PACKAGE COSTS				**GENERAL FUND**	
City Attorney's Office	Annual and recurring license that would give the City Attorney's Office direct access to Police Department records. Records are often needed for traffic court, simple misdemeanors and municipal infractions.	R	600	469	131
City Clerk	Business license and permits fee increases. These updates are intended to reflect administrative time and compliance oversight required to manage these licenses and permits.	R	—	2,145	(2,145)
City Manager's Office	Growing Sustainable Communities Conference elimination due to significant cost increases and reduced momentum in sponsorships.	R	(91,145)	79,302	(11,843)
Community Impact	Increase city's financial support for Community Impact Administrative Support position by 0.58 FTE. Historically, this portion of the position has been funded by the AmeriCorps grant. Due to the expanding of the department, additional duties have emerged that are unrelated to the AmeriCorps operational needs.	R	43,157		43,157
Economic Development	SlideRoom Grant Application Software is essential for managing applications and post-grant reports for Arts & Cultural Affairs grant programs. This software ensures a fair and efficient process.	R	3,000		3,000
Economic Development	Bringing in a Arts Grants Consultant for grant eligibility and financial review process. Hiring a consultant would eliminate the need for a 0.25 FTE intern position and provide cost savings.	R	(7,417)		(7,417)
Emergency Communications	911 Public Safety Applicants testing software upgrade. This softwares allows to administer an unlimited number of online tests to applicants at home.	R	2,368	1,184	1,184
Emergency Communications	Software to track training requirements for 911 Dispatch staff	R	3,000	1,500	1,500
Emergency Communications	Emergency Communications Vehicle. Due to the new center location, staff are traveling more for in-person meetings. 75% of the vehicle use would be for City purposes and 25% for the Emergency Communications purposes.	R	40,000	5,000	35,000
Engineering	Full size cargo van equipped with storage racking, tools and supplies for Facilities Maintenance.	R	62,000		62,000
Engineering	1.0 FTE Maintenance worker for all City Buildings. Current staffing levels are not sufficient to maintain buildings in a safe, reliable, and cost-effective manner.	R	86,439		86,439
Engineering	1.0 FTE Custodian I for the Bright Minds Campus on Chavenelle Rd location. A portion of the costs for this position will be shared between other tenants of the facility.	R	77,793	40,581	37,212
Engineering	New truck for the Engineering Technician position. The addition of this truck will ensure the new Engineering Technician position can perform duties efficiently and safely without relying on shared or personal vehicles.	R	49,500		49,500

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Engineering	Increased funding for the partnership with the East Central Intergovernmental Association to maintain Dubuque's traffic modeling system.	R	50,000		50,000
Fire	New Position for Fire Code Official / Fire Prevention & Plan Review Manager. The cost of this package includes wage, benefits, vehicle, equipment and office set up. This position is designed to strengthen citywide fire and life safety code compliance, improve efficiency in the development review process, and enhance collaboration amount key departments and private stakeholders.	R	195,202		195,202
Fire	Addition of a new Computer Workstation at Fire station 4. There are currently two shared computer workstations, one used by the company officer who manages daily station operations, administrative duties, and incident reporting, and a second shared amount the four firefighter paramedics assigned to the station.	R	2,075		2,075
Fire	Annual Generator Maintenance. The generators were purchased in FY2025 and were under warranty for one year and will now transition to regular annual service. Each generator will receive an annual check and service to replace worn parts which will keep each generator functioning.	R	3,120		3,120
Fire	Firefighter 1: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 2: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 3: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 4: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 5: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 6: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Fire	Firefighter 7: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 8: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 9: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Incorporating Scenario-based assessments promotional testing process which occurs once every two years. The addition of an assessment center component will enhance the evaluation of candidates by requiring them to demonstrate practical leadership and decision-making skills in simulated environments.	R	9,000		9,000
Fire	Creation of Dubuque Fire Explorer Post Program for youth ages 14-18. Initially submitted as recurring but recommended as non-recurring.	R	10,000		10,000
Health	CitizenServe Permitting and Inspection (7) software licenses. This software can be configured to reflect City of Dubuque health and animal control codes, associated citations, fines and reporting.	R	10,500		10,500
Health	Part-Time Animal Control Officer to enhance weekday and weekend service coverage and support the successful implementation of the City's new animal licensing program. Currently, the program operates with two full-time Animal Control Officers.	R	50,822		50,822
Housing	Two ICC Premium Complete subscriptions, which provide full online access to ICC's code library. Premium Complete access includes all published ICC code books, many referenced standards, official code interpretations, and advanced search tools. It also allows printing of code sections to share with citizens, providing clearer communications and helping them better understand applicable code requirements.	R	1,300		1,300
Housing	Housing and Community Development Administrative Support Professional (Requests in General Fund and Lead Fund).	R	69,548		69,548
Information Technology	User Technology Support Specialist to support the increased demand for IT infrastructure and support services. Timely and effective technical support is crucial to maintain productivity and minimize disruptions. The IT department currently has two User Technology Support Specialists.	R	91,867		91,867
Information Technology	Lead Applications Network Analyst. This position primarily focuses on all City application support with increased software and artificial intelligence use. The IT department currently has three Lead Applications Network Analysts, with two of these positions primarily focused on public safety.	R	105,435		105,435

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Information Technology	IT Service Management Software - combines several pieces of software that IT currently uses under one umbrella. This new software includes advanced security features to protect our data, safeguard against cyber threats, and ensure compliance with industry standards. It automates routine tasks such as software updates, patch management, and device provisioning, reducing manual workload and minimizing downtime.	R	141,197	75,000	66,197
Information Technology	Addition of a second IT vehicle. The current vehicle is checked out and shared between 18 staff members. A second vehicle would alleviate more staff needing to use their personal vehicles and claiming mileage costs. With the IT staff relocation to the new offices, this issue is compounded with staff need to drive additional distance to every City building, incurring more mileage.	R	40,000		40,000
Parks	1,510 (.72 FTE) additional hours for temporary Park Rangers during the park season. Currently there is one Park Ranger scheduled for evenings Monday through Thursday and two Park Rangers scheduled for evenings on Friday, Saturday and Sunday. The increased hours would provide for two Park Rangers on Monday through Thursday evenings and additional daytime hours on Saturdays and Sundays. The hours would also decrease time needed by the Police Department to respond to calls that park rangers can handle.	R	39,865		39,865
Parks	1.0 FTE Forestry Technician. The Forestry Laborer positions have been difficult to fill due the requirement of a commercial drivers license to operate the forestry equipment. This does not allow for forestry staff to efficiently perform their duties especially during storm response. The Forestry activity has seen an increased workload due to more frequent storms, tree plantings, and additional training and work requirements. There are currently Forestry Technicians (2.0 FTE) in the Forestry Activity. Funds are also budgeted for (2) Temporary Forestry Laborers (1.0 FTE).	R	73,586		73,586
Parks	1.0 FTE Maintenance Technician responsible for all areas of park maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Assistant Field Operations Manager to ease the administrative burden and support the Parks Division Manager as recommended by the Parks and Recreation Comprehensive Master Plan.	R	106,120		106,120
Parks	1.0 FTE Maintenance Technician responsible for all areas of park maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Maintenance Technician responsible for all areas of trail maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Assistant Horticulturist to support the landscaped areas in roundabouts, new parks and City owned landscape improvements. This position is recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Police	New Crime Analyst Intern Position (0.25 FTE). Several instructors with various colleges in the area have reached out inquiring about internships in criminal analytics. In 2025, a full-time Crime Analyst position was created to improve data-driven decision-making. As this position has grown, a growing need has been identified that could be filled by an intern position.	R	9,011		9,011

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Public Works	Fleet A/C Machine (R-1234yf). Around 2013–2017, most new vehicles began adopting R-1234yf, a low-global-warming-potential (GWP) refrigerant replacing R-134a. The city-owned vehicles that fall within this category, currently require a dealer due to city equipment not being compatible.	R			—
Public Works	Street Maintenance overtime for Barricades/Bollards during Special Events	R	10,000		10,000
Public Works	Fleet Service Coordinator (1.0 FTE). The responsibilities for this position would be split from the Fleet Purchasing & Service Coordinator to improve workflow reliability, strengthen communication and align Public Works with APWA Accreditation standards.	R	79,462		79,462
Public Works	Fleet A/C Machine (R-1234yf). Around 2013–2017, most new vehicles began adopting R-1234yf, a low-global-warming-potential (GWP) refrigerant replacing R-134a. The city-owned vehicles that fall within this category, currently require a dealer due to city equipment not being compatible.	R	9,750		9,750
Recreation	Golf cart passes increased $50 (from $650 to $700). These passes are sold separately from the annual Golf Pass which covers the pass holder's daily rounds.	R	—	2,600	(2,600)
Recreation	Reallocation and reduction of temporary employee expenses (-0.50 FTE). Within the budget activities of Youth Sports, Recreation Classes, and Therapeutic Recreation, the program are being corrected based on current operations.	R	(26,659)		(26,659)
Recreation	Mobile Event Trailer - 0.1 FTE and income increase. Since the addition of the mobile Rec & Roll trailer program, the department consistently receives inquiries as to the option to rent out the trailer. This IP depends on the approval of the related CIP for an additional Rec & Roll Trailer.	R	2,641	2,700	(59)
Recreation	Full-time Community Outreach & Public Communications Coordinator (1.0 FTE, NB-11). Recommended from Parks & Rec master plan. This position is needed due to citizens not being aware of Parks and Recreation offerings.	R	106,668		106,668
Transportation Services - Transit	Part-time Bus Attendant Position (0.50 FTE, NB-05). This position is needed due to safety concerns with students on the afternoon buses.	R	26,251		26,251

1. Use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program.
2. Tax Increment & Reserve Fund use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program and to repay internal loans for developing the City's industrial parks / technology parks.
3. UDAG Repayments Fund use of fund balance will be used for Economic Development initiatives.
4. Section 8 Fund use of balance is reserved for housing assistance payments.
5. Cable TV & Equipment Fund use of fund balance will be used for future capital projects.
6. Expendable Library Gift Trusts Fund use of fund balance will be used for programs and speakers at the Library.
7. Increase in fund balance is required to maintain the operating reserve requirement of 25% of operating expenditures.
8. Stormwater Operation Fund use of fund balance represents spending down cash balance due to debt being issued for the Bee Branch project at a much slower time line which reduced debt service costs and increased fund balance.
9. Refuse Collection Fund use of fund balance will be used for future capital projects.
10. Service Fund Charges addition to fund balance will be used to purchase equipment in future years.
11. Salt Operations Fund addition to fund balance will be used to fund future capital purchases.
12. Passenger Facility Charge Fund balance will be used to pay for debt issued for the new Airport terminal project.
13. Customer Facility Charge Fund balance will be used to pay for parking lot improvements at the Airport.
14. Expendable Police Gift Trusts Fund use of fund balance will be used for maintenance of 1948 Stylemaster and canine expenses.
15. Veteran's Memorial Fund balance will be used for maintenance of the Veteran's Memorial.
16. Special Assessments fund balance is expected to be zero, revenues are transferred to the funds that paid for projects.
17. State Rental Rehab Fund will decline as capital projects spend down the fund balance.
18. Airport Construction Fund balance will be used for future capital projects.
19. The Transit Fund is expected to decrease as one time funding from prior grants are expended on capital projects.
20. The Intermodal Fund is expected to increase due to heightened usage of the ramp.
21. Police Evidence Fund will fluctuate based on active cases in the Police Department.

DISTRIBUTION OF COMMUNITY DEVELOPMENT FUNDS

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City 2007•2012•2013 2017★2019

FY 27 ANNUAL PLAN
Pre-Allocation

FOR USE OF PROGRAM YEAR 2026

COMMUNITY DEVELOPMENT BLOCK GRANT

(CDBG) FUNDS

For Inclusion in the Fiscal Year 2027 City Budget.
This document is subject to revision due to the estimated allocation amount.

***Contingency Provision:** If Actual Allocation is an increase from Pre-Allocation, funds up to 15% of previous year program income and the current year entitlement, will increase the allocation of Neighborhood Recreation Programs. If Actual Allocation is a decrease from Pre-Allocation, funds will decrease the allocation of Housing Rehabilitation Services and Staff.

PREPARED BY THE CITY OF DUBUQUE HOUSING & COMMUNITY DEVELOPMENT DEPARTMENT

CITY OF DUBUQUE, IOWA
FY 2027 ANNUAL ACTION PLAN
FOR THE USE OF PROGRAM YEAR 2026
COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS

The City of Dubuque distinguishes between four different but complementary areas of program development in its overall CDBG program: Administration, Housing Development, Neighborhood Development, and Public Facilities. The following description of activities summarizes the projects to be completed in the FY 2027 Annual Action Plan with the use of CDBG funds.

RESOURCES

CDBG Estimated Entitlement FY 2027 **$1,037,080**

Program Income **$194,868**
Program income projections are based on forecast for loan repayments based on the loan portfolio and program income generated from CDBG funded programs.

TOTAL RESOURCES **$1,231,948**

ADMINISTRATION **$246,390**

CDBG regulations limit expenditure on planning and administrative funds to 20% of the current year program income plus the current entitlement. The proposed resources for administration support the plan's current requirements.

CDBG Planning, Monitoring, & Budgeting **$90,000**
Staff support for general management. Oversight and coordination of the Community Development Block Grant program; assures compliance with federal regulations and reporting requirements.

Housing & Community Development Administration **$156,390**
On-going staff support for general management, oversight, and coordination of the Community Development Block Grant housing programs.

Priority:	High
Objective/Outcome:	Provide Decent Affordable Housing/Affordability

HOUSING DEVELOPMENT **$630,000**

Housing Activities **$250,000**
This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential Activities include homeowner rehab, roof replacement, and accessibility improvements.

National Objective:	Low- and Moderate-Income Housing
Location:	City wide
Proposed Accomplishments:	20 Housing Units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Lead & Healthy Homes Grant Match (2024) **$100,000**
This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential activities include lead assessment and lead paint reduction of abatement with forgivable loans to low- and moderate-income residents. This activity is match funding for the Lead and Healthy Homes Grant awarded in FY25.

National Objective:	Low- and Moderate-Income Housing

Location:	City wide
Proposed Accomplishments:	20 Housing units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Healthy Homes Grant Match (2024) **$100,000**

This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential activities include roof replacement with forgivable loans to low- and moderate-income residents. This activity is match funding for the Healthy Homes Grant awarded in FY25.

National Objective:	Low- and Moderate-Income Housing
Location:	City wide
Proposed Accomplishments:	20 Housing units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Housing Rehabilitation Services and Staff **$180,000**

This project includes staff support for program management activities, technical assistance, and loan packaging for the city's Community Development programs.

Priority:	High
Objective/Outcome:	Decent Housing/Affordability

NEIGHBORHOOD DEVELOPMENT $155,558

Public Services activities are restricted to 15% of the previous year program income and the current year entitlement. Public Service activities in this plan represent 15% of the proposed expenditures.

Neighborhood Recreation Programs- Public Services **$146,848**

This project includes enhanced recreation programing offered in low- and moderate-income areas and to low and moderate income residents. Potential activities include expanded after-school programs, community partnerships, and scholarships.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide
Proposed Accomplishments:	300 Persons
Priority:	High
Objective/Outcome:	Suitable Living/Accessibility

Zoning Enforcement **$8,710**

This project provides funding for inspection/enforcement staff services to low/mod income areas for zoning ordinance infractions and to provide support for neighborhood clean-up efforts. Potential activities include staff enforcement for zoning ordinance infractions, and/or housing inspection staff.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide, Low and Mod Area
Proposed Accomplishments:	100 Housing Units
Priority:	High
Objective/Outcome:	Suitable Living/Sustainability

PUBLIC FACILITIES $200,000

Low-Mod Area Park Updates **$200,000**

New playground equipment at low- and moderate- income area parks based on community input.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide, Low and Mod Area
Proposed Accomplishments:	Park Design/Community Input
Priority:	High
Objective/Outcome:	Suitable Living/Sustainability

Grand Total: CDBG Funding Proposed for FY 2027	**$1,231,948**

DEBT MANAGEMENT

This page intentionally left blank.

DEBT SERVICE FUND

The Debt Service Fund is a legally required fund. The fund administers the payments for all of the City's general obligation debt. Revenue bonds, other than those from tax increment revenues, are administered in the enterprise fund that is securing the debt.

For the majority of projects funded through general obligation debt, the City usually issues twenty-year general obligation bonds. In Fiscal Year 2027, there is anticipated to be an additional $12,991,499 in general obligation debt issued that would apply against the statutory debt limit and $13,959,099 in principal retired will be applied against the statutory debt limit.

In fiscal year 2027, debt service expense related to general obligation bonds that counts against the statutory debt limit will increase 6.18% under fiscal year 2026 in the debt service fund. New general obligation bond debt which counts against the statutory debt limit planned to be issued (non-enterprise fund) in fiscal year 2027 is as follows:

Department	Project	Amount of Debt Issue	FY 2027 Debt Service
Airport	Reconstruct Taxiway Alpha - LOST 20%	$804,999	
Economic Development	Downtown Rehabilitation Grant Program - GDTIF	$800,000	
Engineering Facilities	Federal Building Renovation - GDTIF	$1,365,000	
Engineering - Facilities	Radon Mitigation - City Hall- LOST 20%	$20,000	$1,522
Engineering - Misc	Sidewalk Program - Assessable- LOST 20%	$10,000	$760
Engineering - Streets	14th Street Overpass - LOST 30%	$552,108	
Engineering - Streets	Central Ave White St Corridor Master Plan Design and Implementation Improvements 4th-22nd St - LOST 30%	$330,000	
Engineering - Streets	East - West Corridor Capacity Improvements- LOST 30%	$100,000	
Fire	2027 Ambulance Replacement (1914) - LOST 20%	$500,000	
Fire	2027 Fire Engine Replacement (1907) - LOST 20%	$20,000	
Fire	Building Maintenance - GO Debt - LOST 20%	$99,136	
Fire	Fire Station Expansion/Relocation - LOST 20%	$100,000	
Fire	Install HVAC Systems at Fire Station 5 &6 - LOST 20%	$100,000	
Fire	Outdoor Warning Siren Repair/Replace- LOST 20%	$54,000	
Fire	Portable Radio Replacements - LOST 20%	$490,000	
Five Flags Civic Center	Five Flags Building Improvements - GDTIF	$2,750,000	
Information Technology	Network Security Risk Assessment - LOST 20%	$25,000	
Parks	Eagle Point Park Master Plan - LOST 20%	$165,000	
Parks	EPP-Jeffris Grant Construction- LOST 20%	$61,814	
Parks	Jackson Park-Restroom Building- GDTIF	$100,000	
Parks	Mechanic Shop - Replace Roof - LOST 20%	$35,000	
Parks	Park Office-Replace Roof - LOST 20%	$12,000	
Police	DLEC Upgrades & Maintenance - LOST 20%	$208,300	

Department	Project	Amount of Debt Issue	FY 2027 Debt Service
Public Works	ADA Curb Ramp Program 10M - LOST 30%	$402,204	
Public Works	Concrete Street Section Repair Program - - LOST 30%	$565,500

Recreation	Bunker Hill Basement Leak Repair - LOST 20%	$30,000	
Recreation	Flora & Sutton Leak Repair - LOST 20%	$30,000	
Recreation	Flora & Sutton Pool Tank Resurfacing - LOST 20%	$135,000	
Recreation	Marina - Dock Fuel & Electrical System Rehab - LOST 20%	$50,000	
Recreation	Marina Gas Dock Network Switch - LOST 20%	$30,000	
Transportation - Parking	Ramp Major Maintenance - GDTIF	$1,085,000	
	GRAND TOTAL	**$12,991,499**	**$ 2,282**

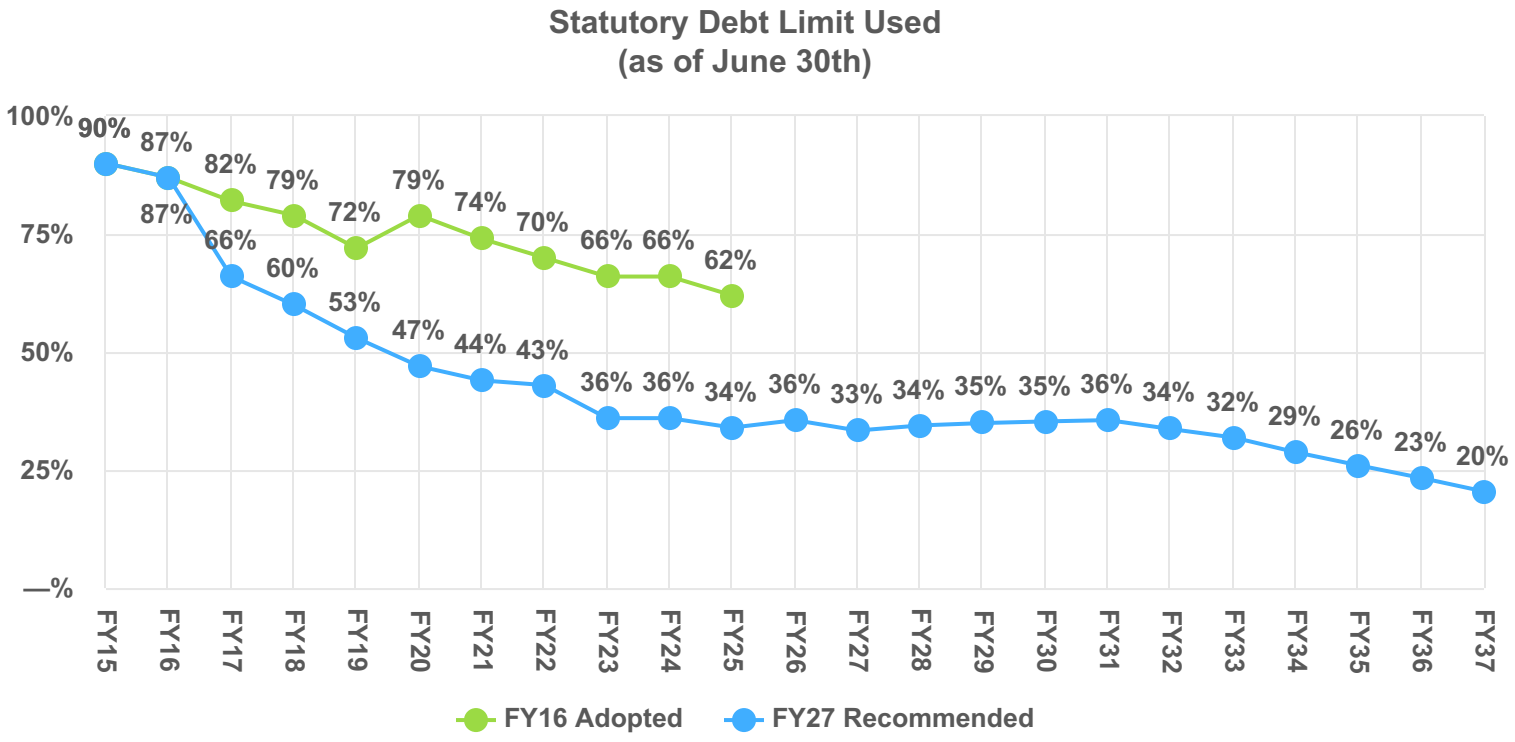

Most of the new debt issued in fiscal year 2027 will be issued in April, which delays principal payments until fiscal year 2028.

The debt service property tax levy finances the bond and interest payments that are not being secured from other revenue sources. The levy rate for debt service will decrease by -0.01 to 0.07503 in fiscal year 2027. The debt service property tax levy represents the repayment of bonds related to the Fire Department pumper truck replacement and the franchise fee litigation judgment bond.

Funding sources other than property taxes are also used to repay general obligation debt. The City's general obligation debt is also funded by other revenues including water, sewer and tax increment financing. One percent of the City's general obligation debt service is funded from the debt service property tax levy. Other revenues being used to repay debt service are shown as transfers in.

Statutory Debt Limit

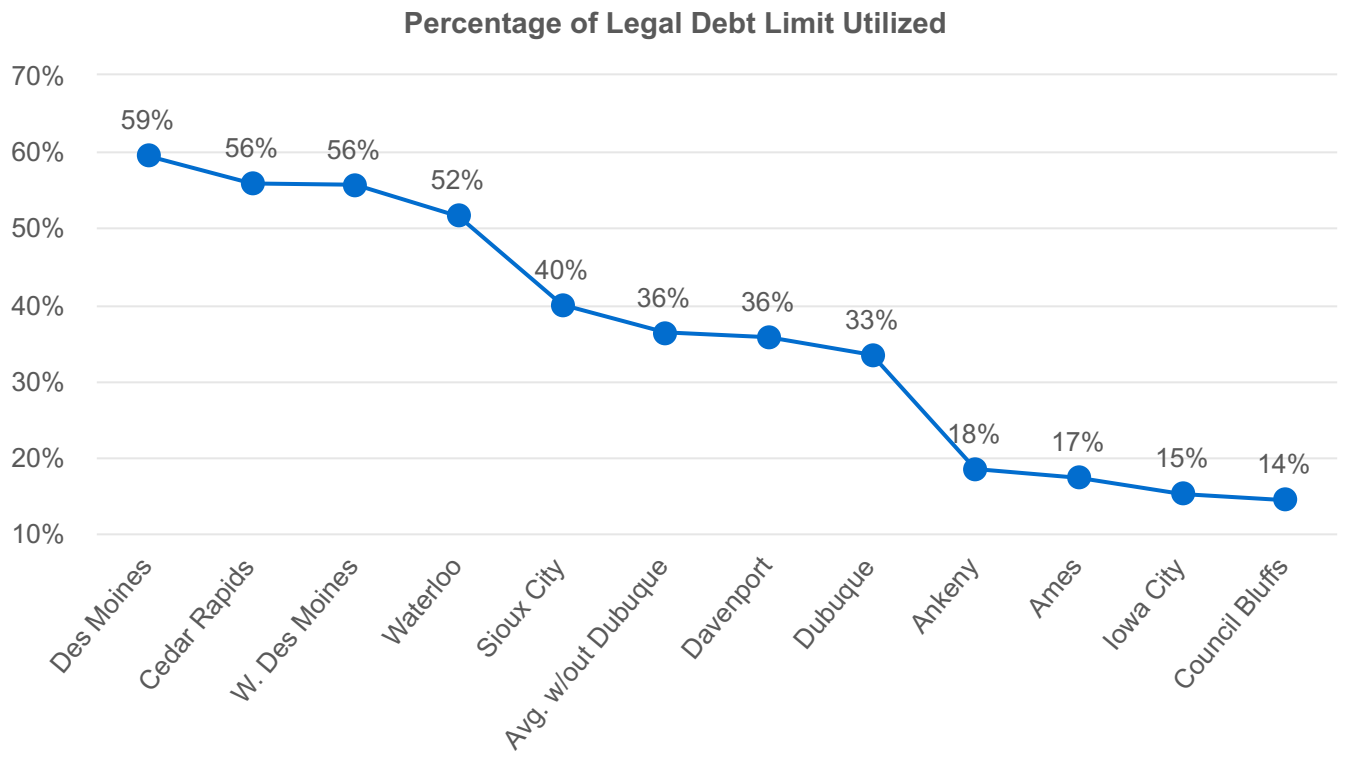

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements.However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit. Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016**.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$964,798,967	$573,230,000	59.41%
10	Cedar Rapids (FY 25)	$551,635,692	$307,090,000	55.67%
9	W. Des Moines (FY25)	$767,559,335	$428,550,000	55.83%
8	Waterloo (FY25)	$267,626,798	$137,905,065	51.53%
7	Sioux City (FY25)	$493,660,291	$176,195,000	35.69%
6	Davenport (FY25)	$367,743,172	$146,935,000	39.96%
5	Dubuque (FY27)	$358,374,258	$115,136,523	33.38%
4	Ankeny (FY25)	$529,988,951	$97,645,000	18.42%
3	Ames (FY25)	$328,345,527	$56,710,000	17.27%
2	Iowa City (FY25)	$435,367,793	$65,945,000	15.15%
1	Council Bluffs (FY25)	$427,559,692	$61,320,000	14.34%
	Average w/o Dubuque			36.33%

STATUTORY DEBT CAPACITY

FISCAL YEAR 2027 RECOMMENDED BUDGET

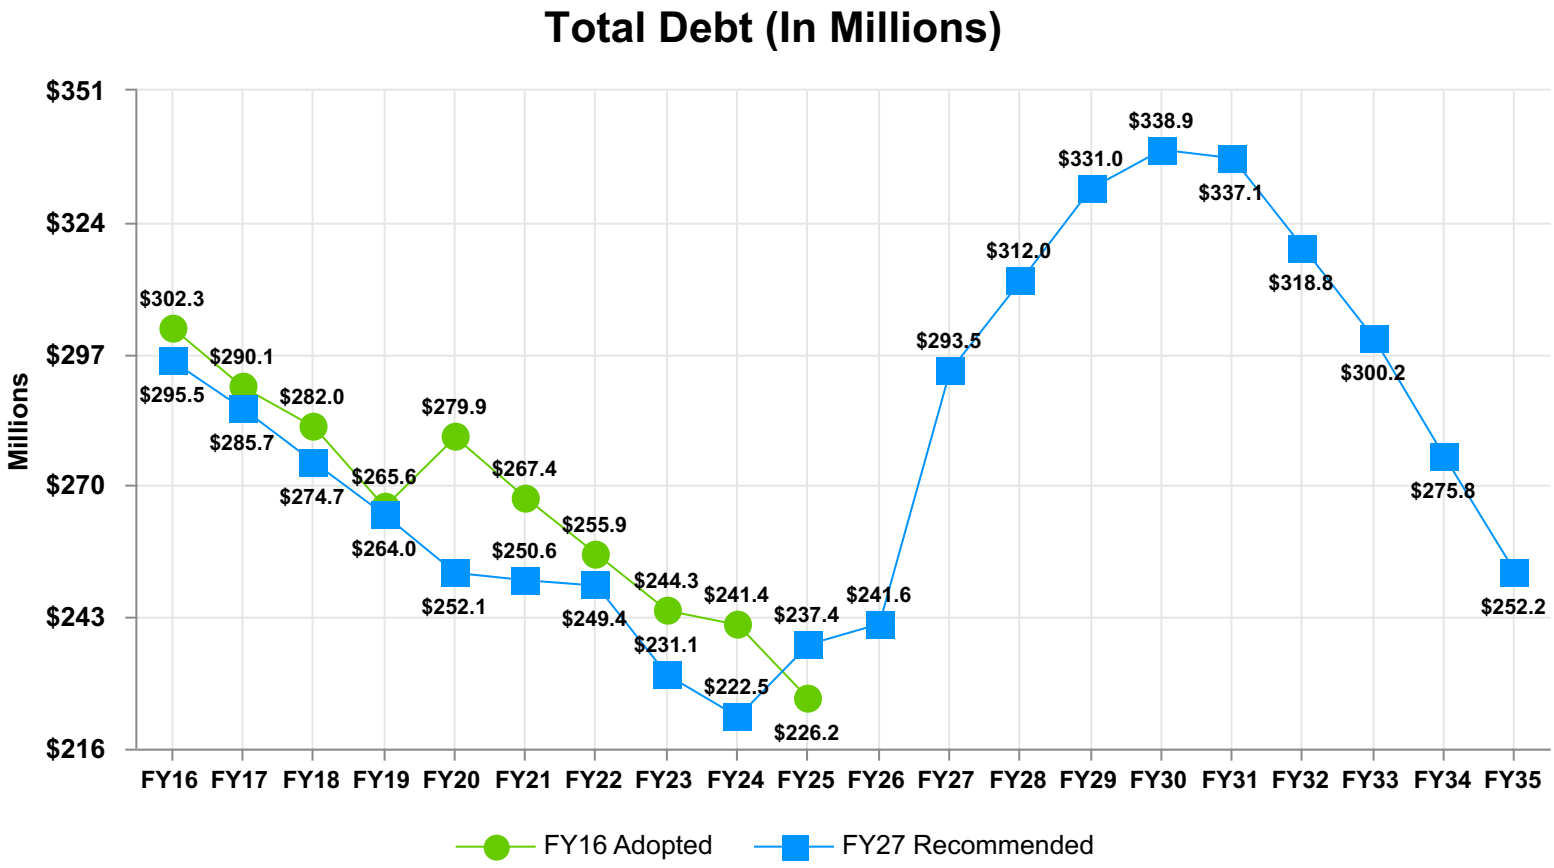

The Iowa Constitution (Article XI, Section 3) stipulates that the debt of a community may not exceed five percent of the Actual Assessed Value of Taxable Property (debt levy) within the city or town.

General Obligations, TIF debt (bonds, notes and rebates), and leases paid from the general fund are included as indebtedness of the City under the statutory debt limit.

		January 1, 2025 FY 2027
ASSESSED VALUE OF REAL PROPERTY	$	6,749,381,987
Less Veterans' Exemption		(31,169,350)
Subtotal		6,718,212,637
UTILITIES ASSESSED VALUE		449,272,514
TOTAL ASSESSED VALUE OF TAXABLE PROPERTY		7,167,485,151
		June 30, 2027
STATUTORY DEBT (5% OF TOTAL ASSESSED VALUE)		358,374,258
Less Outstanding G.O. Debt, TIF Debt & Lease Obligations paid from General Fund		119,617,156
STATUTORY DEBT CAPACITY	$	238,757,102
PERCENT OF LEGAL DEBT MARGIN UTILIZED		33.38 %

Total Debt Outstanding

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $338.87 million (35.31% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit**, and the projection is to be at $252.16 million (26.00% of statutory debt limit) within 10 years.

General Obligation Debt Per Capita

General Obligation Debt Per Capita reflects all general obligation bonds, both tax supported and enterprise fund supported.

Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

Bond Rating

The City's General Obligation Debt ratings with Moody's Investors Service is Aa2. In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1.

Credit Strengths:

- Regional economic center
- Solid resident income and full value per capita
- Financial operations are strong
- Revenue raising flexibility remains strong

Moody's Investors Service Rating Scale

FY 2027 Moody's Investors Service Bond Ratings Comparison for Iowa Cities

Ranking	City	Rating
1	Iowa City	AAA
	West Des Moines	AAA
	Cedar Falls	AAA
2	Cedar Rapids	Aa1
	Ames	Aa1
	Ankeny	Aa1
	Clive	Aa1
	Urbandale	Aa1
	Marion	Aa1
3	**Dubuque**	**Aa2**
	Des Moines	Aa2
	Davenport	Aa2
	Waterloo	Aa2
	Sioux City	Aa2
	Bettendorf	Aa2
	Council Bluffs	Aa2

In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City's available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

CAPITAL BUDGET

This page intentionally left blank.

CAPITAL IMPROVEMENTS PROGRAM (CIP)

The City's five-year Capital Improvement Program (CIP), contained in a separate document, and is used to plan for major changes to the City's infrastructure and other capital improvements. Departments propose projects in the fall and a draft of the CIP is developed before operational budgets are submitted. The CIP by department is reviewed with the operating budgets during budget hearings with City Council in February. The CIP is approved in March with the operating budget.

The CIP document has a page for every project and the format includes description of the project, City Council Goals & Priority outcome, funding restrictions, effect on operations, and relationship to other projects. The CIP recommendation reflects the City's comprehensive plan and the goals and priorities established by City Council.

The FY 2027 recommended capital projects are incorporated into the budget as capital programs. They are found at the end of each applicable program section. Projects which have an effect on operations are noted. The City's CIP Policies are shown in the Policy Budget documents.

The five-year CIP recommended through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and is $352,840,562. This is a $1,246,009, or 0.35% increase.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $176,633,737 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, street improvement), East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements, for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. By far the greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	($13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017.01
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58 %
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Total New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the net reduction of debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	$26,579,333	$43,133,602	$45,254,925	$35,996,472	$25,669,405	$176,633,737
Retired Debt	-$25,371,787	-$28,057,116	-$29,480,446	-$30,454,045	-$28,910,190	-$142,273,584
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

Capital improvement activities have been established in the City's budget to separate CIP projects and project expense (i.e., Storm Sewer Capital Improvement Activity, Street Capital Improvement Activity, Park Capital Improvement Activity) from operating expense (i.e., supplies, insurance salaries). The State of Iowa budget law requires that a city's budget be prepared and certified on a program basis. This means that each activity must fall under one of the State mandated budget program areas.

Table 1 below shows a summary of the five-year CIP by State Program. This is a increase of $1,246,009 from the FY 2026-2030 total CIP budget of $351,594,553.

TABLE 1 - FISCAL YEAR 2027-2031 CIP CAPITAL IMPROVEMENT PROGRAM

EXPENDITURES	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	TOTAL

CITY OF DUBUQUE, IOWA

Fiscal Year 2027-2031 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2027-2031 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 28, 2026, at the same time as the public hearing on the Fiscal Year 2027 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the $1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City was successful in obtaining several large grants and now will be implementing those projects, especially the Bee Branch Flood Mitigation Project, 16th Street Pumping Station, and the 14th Street Overpass project.

A particular emphasis in this five-year CIP is modernization of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond. In the current fiscal year (FY 2026), the City will have allocated $22,026,250 and in this new five-year CIP, the City will have allocated an additional $74,871,571 for a total of $96,897,821 from July 2025 through December 2031.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $221,888,207 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements , for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. The greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	($13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017.01
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58%
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Total New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the net reduction of debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**
Retired Debt	**-$25,371,787**	**-$28,057,116**	**-$29,480,446**	**-$30,454,045**	**-$28,910,190**	**-$142,273,584**
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027. In FY 16 the City was at 86.13% of statutory debt limit, so 33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	36.48%	35.85%	34.10%	35.58%

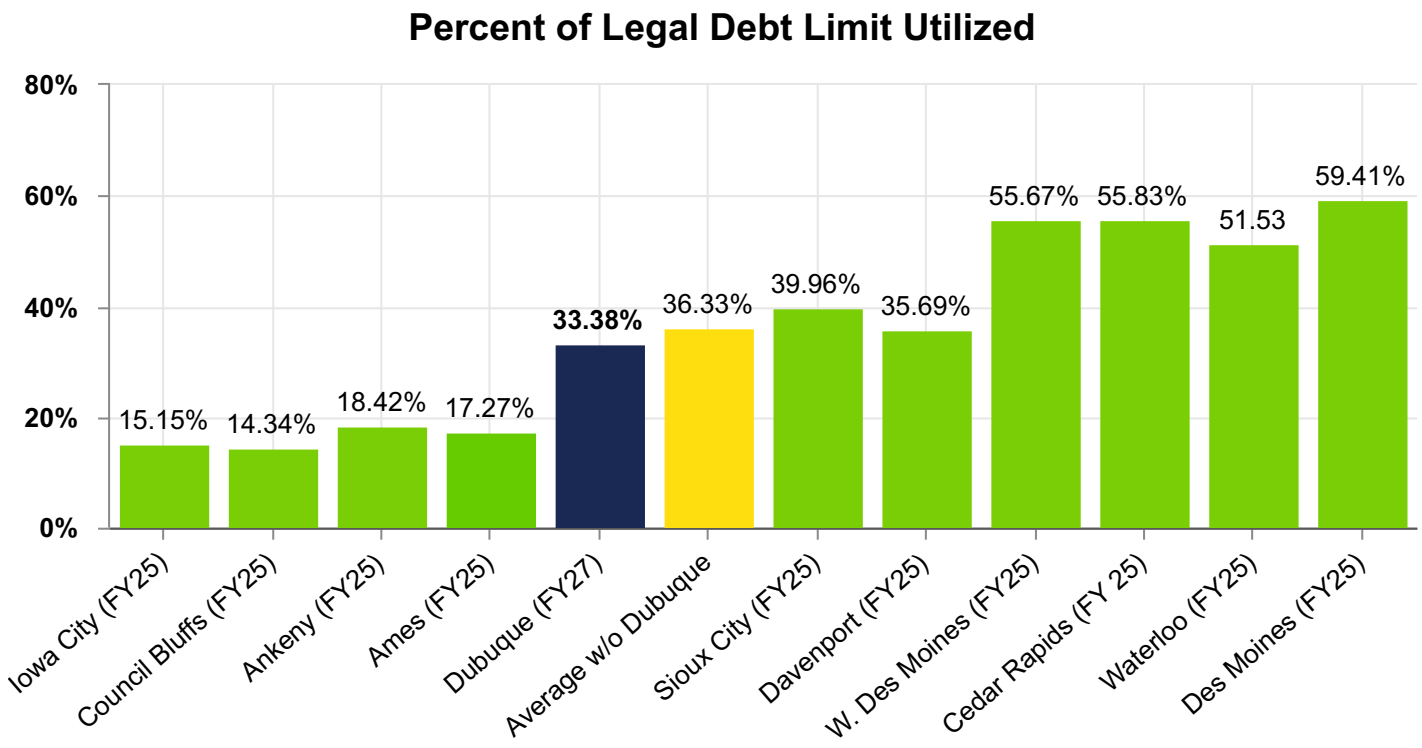

The five year projection of the City's use of the statutory debt limit from Fiscal Year 2027–2031 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2027 is as follows:

FY 27	FY 28	FY 29	FY 30	FY 31
33.38%	33.38%	34.45%	34.96%	35.59%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$964,798,967	$573,230,000	59.41%
10	W. Des Moines (FY25)	$551,635,692	$307,090,000	55.67%
9	Cedar Rapids (FY 25)	$767,559,335	$428,550,000	55.83%
8	Waterloo (FY25)	$267,626,798	$137,905,065	51.53%
7	Davenport (FY25)	$493,660,291	$176,195,000	35.69%
6	Sioux City (FY25)	$367,743,172	$146,935,000	39.96%
5	Dubuque (FY27)	$358,374,258	$115,136,523	33.38%
4	Ankeny (FY25)	$529,988,951	$97,645,000	18.42%
3	Ames (FY25)	$328,345,527	$56,710,000	17.27%
2	Iowa City (FY25)	$435,367,793	$65,945,000	15.15%
1	Council Bluffs (FY25)	$427,559,692	$61,320,000	14.34%
	Average w/o Dubuque			36.33%

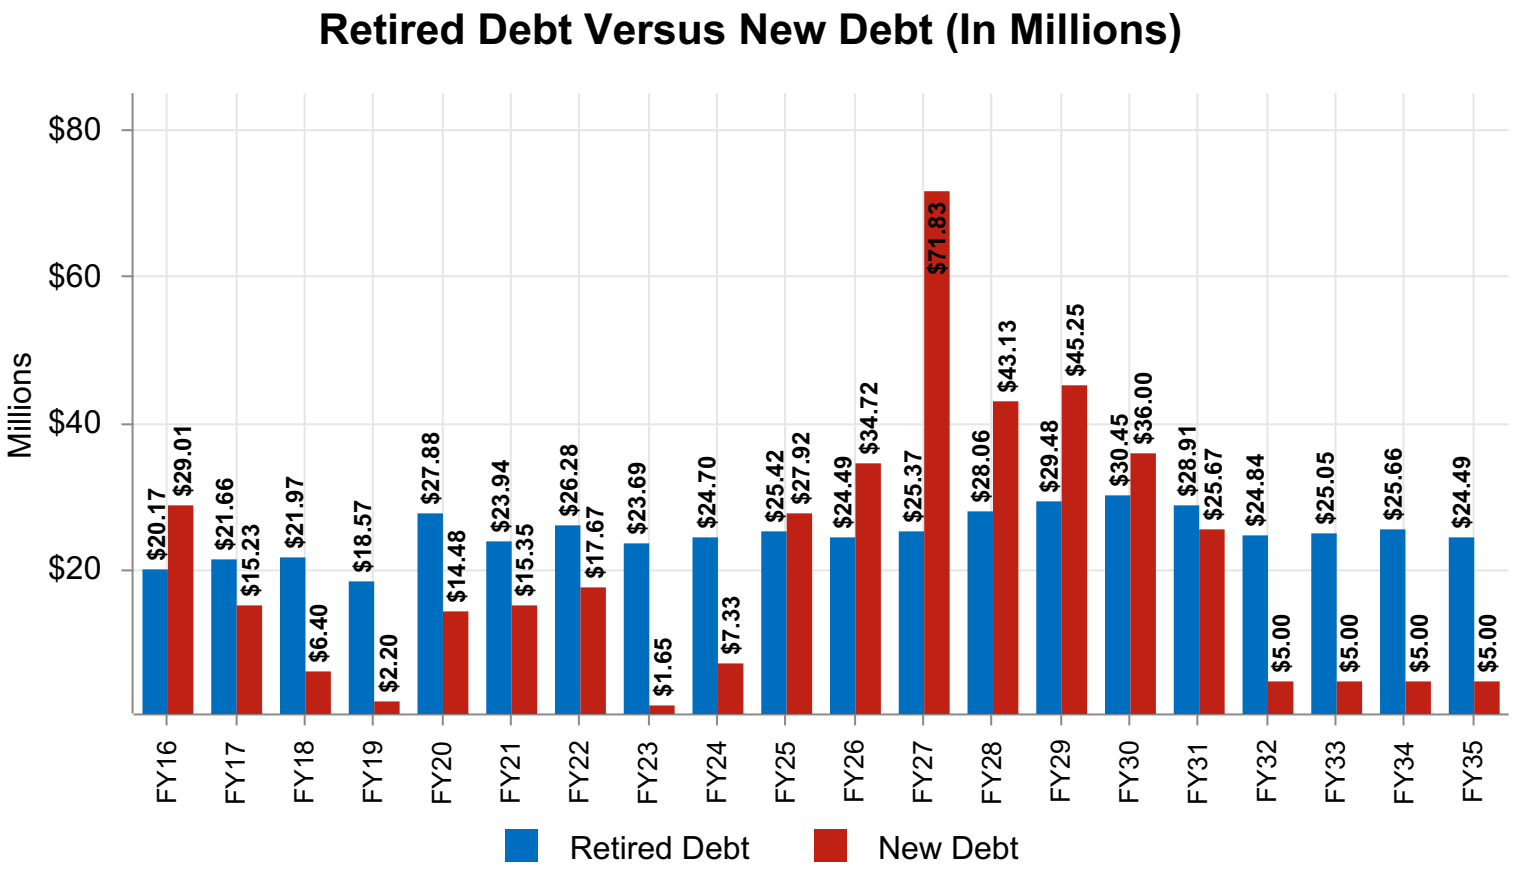

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities. **The average (36.33%) is 8.84% higher than Dubuque (33.38%).**

Retired Debt Versus New Debt

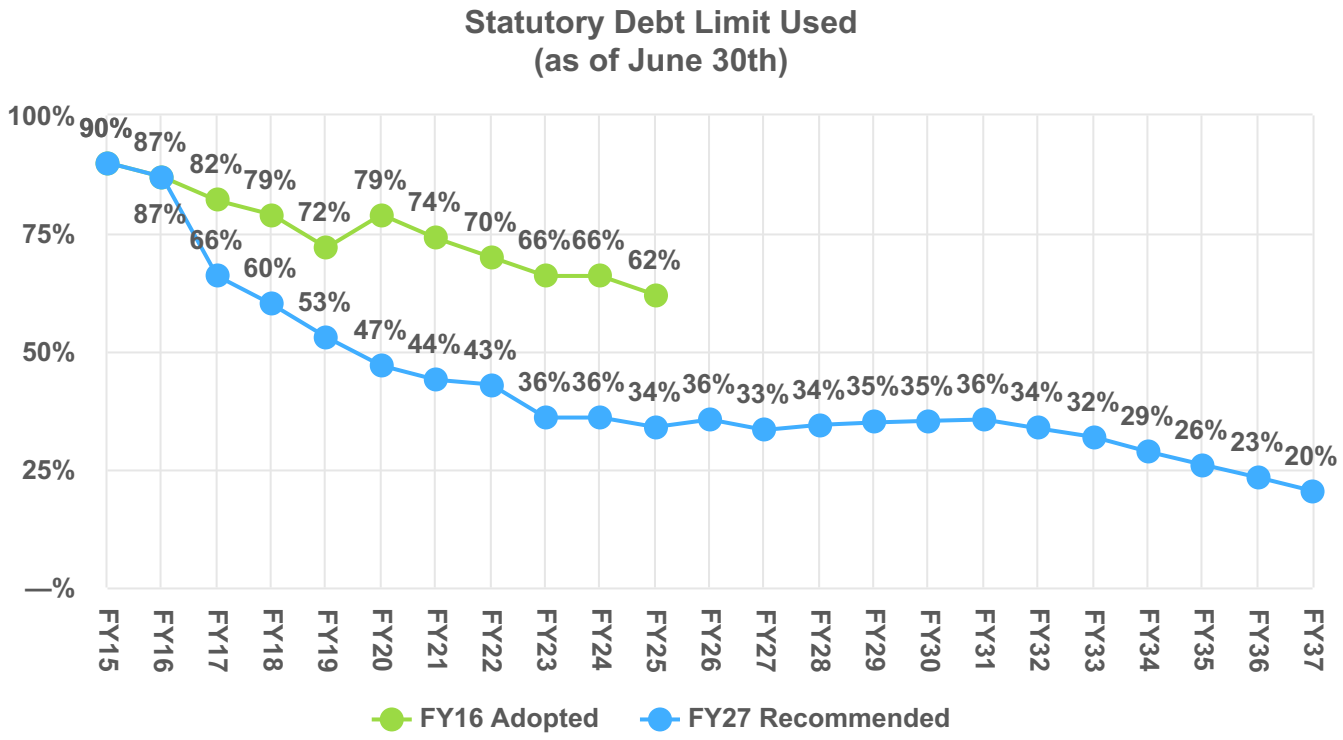

The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

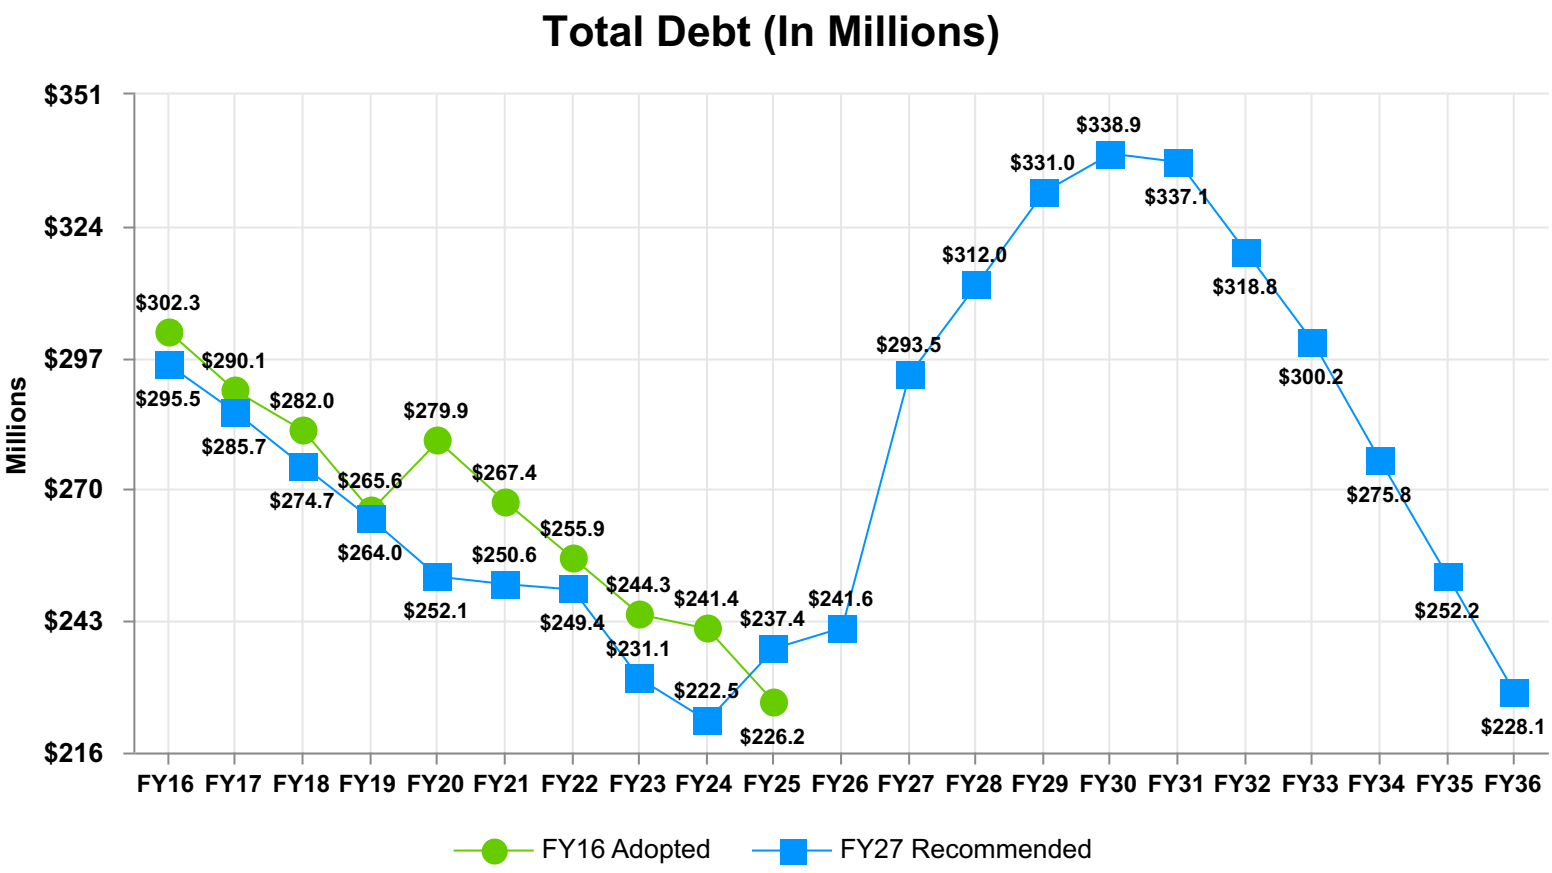

Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS mitigation, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements. However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit.** Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $337.15 million (35.59% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit or $228.14 million total amount of debt.**

General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 35% General Fund Operating Reserve for "AA" rated cities.

In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moodys") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

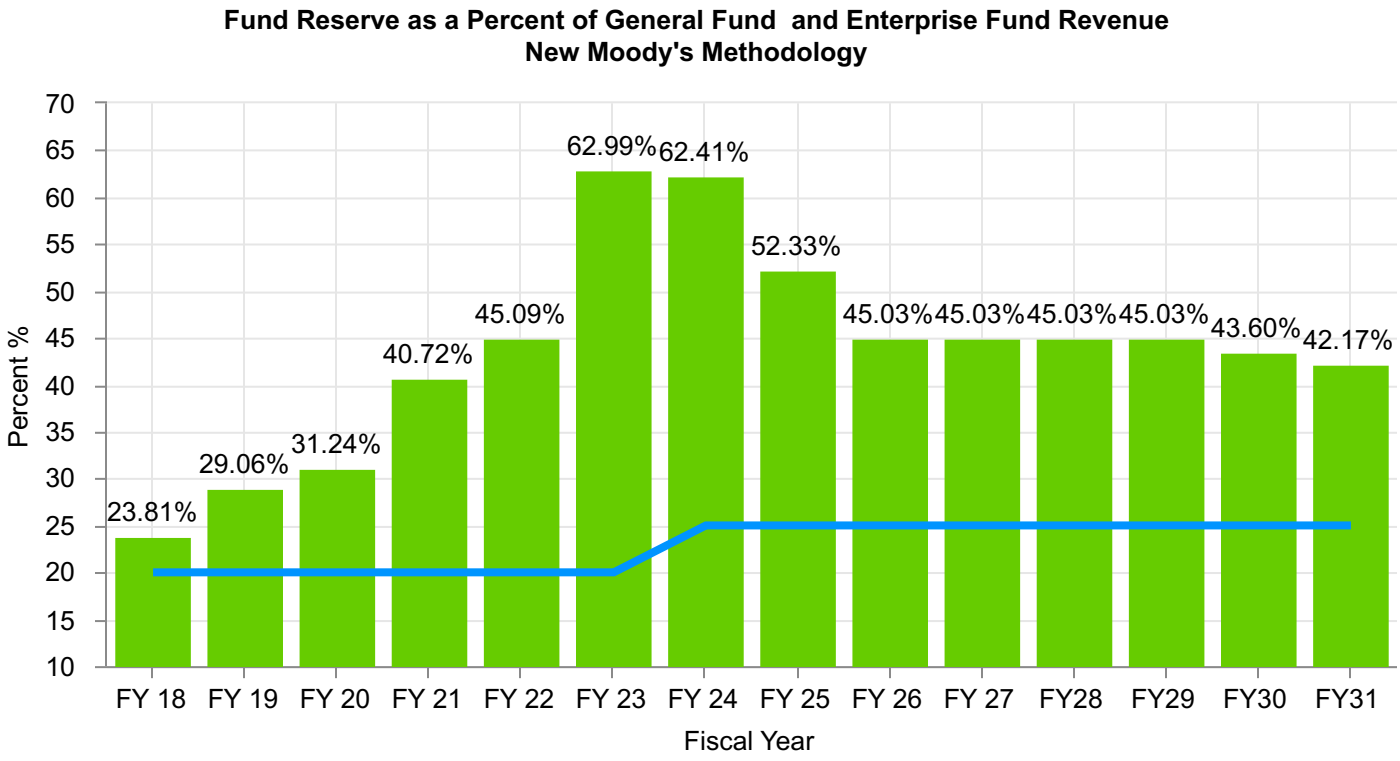

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	40.53%	52.33%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2026	27.00%	45.03%	Decrease due to spend down of American Rescue Plan Act funds.

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve balance is projected to be $25,412,743 on June 30, 2026. The general fund reserve balance exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed on a cash basis. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.

	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031
Contribution	$4,419,668	$—	$—	$—	$—	$—	$—	$—
City's Spendable General Fund Cash Reserve Fund Balance	$43,826,193	$38,026,193	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743
% of Projected Revenue (Moody's)	51.19%	40.53%	27.00%	27.00%	27.00%	27.00%	27.00%	27.00%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low annual interest rate based on 75% of the average daily Bloomberg BVAL General Obligation Municipal AAA ("BVAL") for the calendar month immediately preceding the effective date. In addition there is an annual servicing fee of 0.25%.** The interest rate effective until March 31, 2026 is 3.15% with the 0.25% servicing fee included.

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes. This program no longer exists.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs were reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

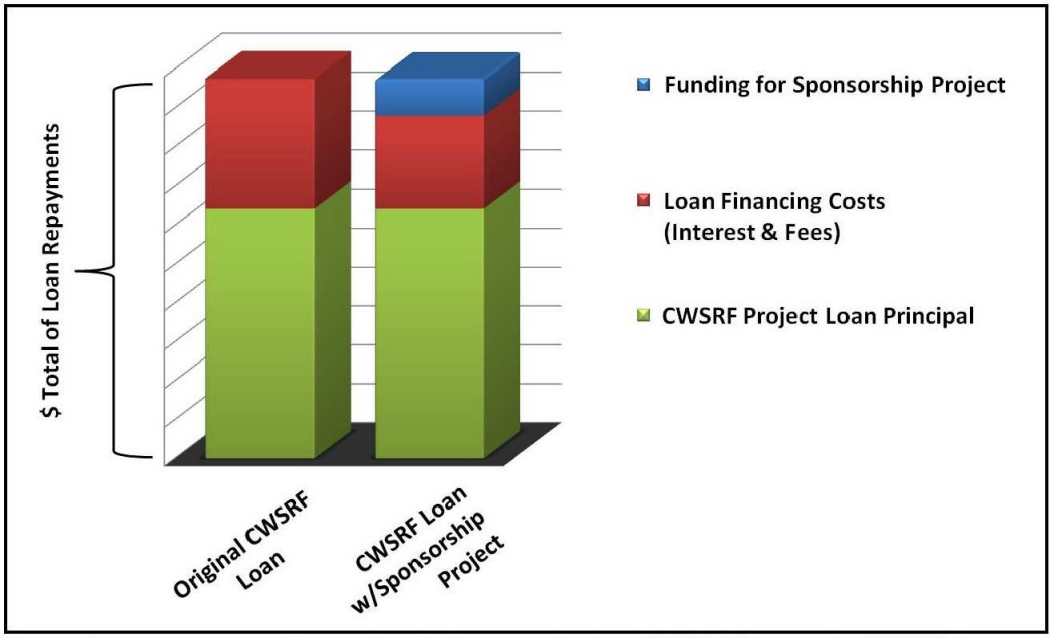

Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded $9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from $64,885,000 to $75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of $11.4 million. The State of Iowa has discontinued the sponsored project option for future debt issuances.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of $29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was $5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded $1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the $1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to $30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.38 million less than the original loan.**

In May 2018, the City was awarded $1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the $1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to $17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.05 million less than the original loan.**

In February 2019, the City was awarded $276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the $276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted. **On a gross basis, the borrowing costs for the new loan were $278,000 less than if there was not a sponsorship project included.**

The United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, requires all lead service lines to be removed from the system within a ten year period, effective November 1, 2027. Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. On November 15, 2021, the Bipartisan Infrastructure Law (BIL) was signed by President Biden, which includes $50 billion to the Environmental Protection Agency (EPA) to strengthen the nation's drinking water and wastewater systems—the single largest investment in clean water that the federal government has ever made. The BIL funds are being administered locally through the Iowa Department of Natural Resources' State Revolving Fund (Iowa SRF) program, with 49% of construction costs being forgivable. The City of Dubuque is taking part in a unique opportunity to assist approximately 585 homes in three phases (owner occupied or rented) within the city with the functional replacement of private lead-water service lines by trenching or pull-through methods to prevent the potential for drinking water contamination at a house-by-house level. Phase 1 of the pilot program is 100% voluntary and is open to those residents with a verified drinking water lead service line meeting the socioeconomic guidelines established by the Bipartisan Infrastructure Law. In September 2025, the City was awarded a 0% interest State Revolving Fund Loan in the amount of $1,941,000 for the Private Lead Service Line Replacement Pilot Program - Phase 1. The non-premise related construction costs are 49% forgivable at the completion of Phase I.The scope of work in the first phase includes the replacement of approximately 200 lead service lines identified throughout the City's water distribution service area. The nature of the replacements will vary by site, ranging from full replacements (public water main to interior plumbing) to partial replacements (a portion of the service line between the public water main and the interior plumbing). Work will be conducted within the City's right-of-way and on private properties with authorization from property owners.

Phase 2 of the Private Lead Line Replacement Program will be voluntary enrollment with a target of approximately 67 lead service lines replaced each year. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced.he city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. Phase 3 of the Private Lead Line Replacement Program will be mandatory with an estimated 605 lead service lines replaced annually. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

In March 2026, the State of Iowa passed rules possibly allowing the City of Dubuque to obtain some forgivable SRF loan dollars to do PFAS related projects.

The five-year CIP adopted through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The adopted five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and will be $352,840,562. This is a $1,246,009 (0.35%) increase.

FY 2026-2030 Capital Improvement Program (CIP) compared to the FY 2027-2031 Capital Improvement Program is as follows:

	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
FY26 CIP	$91,803,749	$64,823,518	$69,843,768	$74,478,605	$50,644,913	$ —	$351,594,553
FY27 CIP	$ —	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$352,840,562
$ Difference	—	+$15,810,220	+$8,840,154	+$12,693,285	+$10,980,084	—	+$1,246,009
% Change	—	+24.39%	+12.66%	+17.04%	+21.68%	—	+0.35%

Further information about the changes to capital improvement projects can be found on pages xxi-xxiv.

Fiscal Year 2027 will be the twentieth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Proposed	$ 12.02

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. The City's has been able to garner support from local, state, and federal partners with over $169 million in outside funding to help offset the cost of the overall $250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Construction
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12A	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.
12B	17th Street / W. Locust Street Reconstruction	Complete Design in ‘26, Construct in ‘27

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated $582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the Dubuque Five-Year (2025-2027) City Council Goals and 2025-2027 Policy Agenda, established by the City Council August, 2025.

Dubuque Five-Year City Council Goals

Healthy and Safe Community

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity

Livable Neighborhoods and Housing: Great Place to Live

Sustainable Environment: Preserving and Enhancing Natural Resources

Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Policy Agenda 2025 - 2027

Top Priority (in alphabetical order)

- Commercial Air Service Future: Strategy an Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priority

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2027 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2027-2031 CIP is substantially the same as previous fiscal years. First, an index referencing the 2027-2031 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2025 and the adopted budget in Fiscal Year 2026. In Section A of the project form entitled “Expenditure Items”, project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled “Project Financing”, the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled “Impact – Operations,” the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2032". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2032" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2031." If a project is annual, the "2032" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque’s commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2028 through Fiscal Year 2031 projects, as well as to add projects for Fiscal Year 2032.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available.

Notable FY2027 Capital Improvement Projects

Department	Project Title	Total City Investment FY2027-FY2031
Fire	Outdoor Warning Siren Repair/Replace	$54,000
Fire	Fire Station Expansion	$8,791,700
Fire	2027 Ambulance Replacement (1914)	$500,000
Fire	Portable Radio Replacements	$490,000
Fire	2030 Fire Engine Replacement (1910)	$1,288,408
Fire	2030 Ambulance Replacement (1915)	$635,000
Fire	2031 Ambulance Replacement (130010)	$665,000
Parks	Jeffris Grant	$2,060,394
Civic Center	Five Flags Building Improvements	$5,844,678
Conference Center	Roof Restoration	$1,383,000
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Ave Booster Station	$1,020,000
Water	Water Main Extension Central Ave	$965,000
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Private Lead Line Replacement Program	$1,050,000
Water	Private Lead Service Line Replacement Program	$4,050,000
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	Source Water PFAS Reduction Project	$1,121,199
Water	Water Meter Replacement Program	$687,750
Water	Water Storage Maintenance Program	$3,336,000
Water	West End Annexation Phase II	$2,000,000
Water	Southwest Arterial 16" Water Main Extension	$2,475,000
W&RRC	Bar Screen Replacement	$2,500,000
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000
W&RRC	Industrial Controls Upgrade	$6,114,700
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550
Airport	Reconstruct Taxiway A	$9,969,994
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000
Airport	Taxiway D Extension	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Asphalt Milling Program	$873,547
Public Works	Curb Ramp Program	$4,883,000
Publics Works	Concrete Street Section Repair Program	$1,641,038
Public Works	NW Arterial Should Paving Project	$2,311,247
Engineering	Storm Sewer General Replacements	$1,500,000
Engineering	Stormwater Management Program	$800,000
Engineering	Detention Basin Maintenance & Repair	$1,000,000
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221

Department	Project Title	Total City Investment FY2027-FY2031
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630
Engineering	Old Mill Road Lift Station & Force Main - Phase 3	$19,891,034
Engineering	Old Mill Road Lift Station & Force Main - Phase 4	$19,506,258
Engineering	Schmitt Island Sanitary Improvements	$4,415,252
Engineering	South West Arterial Interchange Sewer Extension	$4,829,838
Engineering	Sanitary Basis Analysis - South Port & Terminal St LS	$10,800,000
Engineering	Track Line Sanitary Sewer Reconstruction	$3,500,000
Engineering	14th St Overpass	$36,144,000
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation Improvements 11th - 22nd Street	$9,770,000
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	$6,000,000
Engineering	East - West Corridor Capacity Improvements	$18,600,000
Engineering	17th/Locust Street Reconstruction Phase 4	$4,765,000
Engineering	Bridge Repairs/Maintenance	$2,640,000
Engineering	Fiber Infrastructure Management System	$330,000
Engineering	Traffic Signal Network Communications Program	$445,000
Engineering	STREETS Traffic Control Project Phase 2	$1,029,000
Engineering	Federal Building Renovation	$5,395,000
Economic Development	Downtown Rehab Grant Program	$1,700,000
Economic Development	Workforce Development	$1,857,500
Transportation	Smart Parking System	$780,000
Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200
Housing	Assistance for Homeownership	$1,026,082
Housing	Homeowner Rehabilitation Program	$2,476,588
Housing	Healthy Homes Production Grant	$1,326,250
Housing	Lead and Healthy Homes Grant	$3,136,600
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759
Information Technology	Network Switch Replacement	$607,500
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906

There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs ($87,131,865). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	DLEC Upgrades and Maintenance	$208,300
Fire	Install HVAC Systems at Fire Station 5 and 6	$100,000
Parks	Chaplain Schmitt Island Environmental Restoration	$430,000
Parks	Eagle Point Park / Jeffris Grant	$2,060,394
Parks	Eagle Point Park Master Plan	$165,000
Parks	Park Office - Replace Roof	$12,000
Parks	Trail Maintenance/Repair	$100,000

Department	New Project	Total CIP
Parks	Mechanic Shop-Replace Roof	$35,000
Recreation	Community Center Master Plan	$80,000
Recreation	Bunker Hill Administrative Office Lead Remediation Project	$30,000
Recreation	Bunker Hill Basement Leak Repair and Planter Box Removal	$30,000
Recreation	F&S Site Repair/Replacement-Leak Repair	$30,000
Recreation	Marina-Dock Fuel & Electrical System	$50,000
Conference Center	HVAC System Evaluation	$35,000
Water	8th St 20" Transmission Water Main Connection (Jackson to Central)	$277,000
Water	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Avenue Booster Station	$1,020,000
Water	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	$245,000
Water	Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection)	$965,000
Water	Water Distribution System Master Plan	$200,000
Water	Distribution System Regulatory Monitoring/Flushing Stations	$150,000
Water	Water District Metered Zone (DMZ) Pilot	$180,000
Water	Eagle Point Water Treatment Plant Lime Sludge Drain Sediment Trap - Water	$50,000
Water	Eagle Point Water Treatment Plant Railroad Building Study	$20,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000
Water	Grove Terrace Sanitary Sewer Reconstruction (Consent Decree) - Water	$130,000
Water	Harvard St Sanitary Sewer Reconstruction (Consent Decree) - Water	$140,000
Water	Hempstead St Sanitary Sewer Reconstruction (Consent Decree) - Water	$320,000
Water	Hwy 20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Water Distribution System Hydraulic Modeling	$50,000
Water	JFK Tower Interior Piping and Expansion Joint Replacement	$50,000
Water	Leak Detection Survey	$130,000
Water	North Grandview Ave Water Repairs	$80,000
Water	Water Main Extension Olympic Heights Rd (Pressure Zone 3 and 5 Connection)	$617,000
Water	Water Main Extension Pennsylvania Ave (Annex Agreement WM A)	$545,000
Water	Private Lead Service Line Replacement Program (City-Wide)	$4,050,000
Water	Rockdale Road Reconstruction (Old Mill to Twin Valley Drive) - Water	$400,000
Water	Water Main Extension Seippel Rd and Pennsylvania Ave (Annex Agreement WM B)	$585,000

Department	New Project	Total CIP
Water	Source Water PFAS Reduction Project-Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	South Algona 12" Water Main Replacement (St Joseph to Lombard St)	$793,000
Water	Water Repairs Sunnyslope Street Project	$390,000
Water	Water Main Replacement W 8th St (Bluff St to Hill St)	$395,000
Water	Safety Equipment for Water Distribution Staff	$57,600
Water	Water Treatment Plant South Plan Flow Meter Replacement	$60,000
Water	Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Extension	$2,475,000
Water & Resource Recovery Center	WRRC Compressed Air System Improvements	$69,500
Water & Resource Recovery Center	Process Control Instrumentation Improvements - Dissolved Oxygen Monitoring	$135,000
Water & Resource Recovery Center	WRRC Influent and Effluent Monitoring Improvements	$40,000
Water & Resource Recovery Center	WRRC Treatment System Infrastructure Restoration and Reliability Improvements	$2,047,550
Water & Resource Recovery Center	WRRC Safety Program Development	$106,000
Airport	Taxiway D Extension (formerly Taxiway H)	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Tri-top Catch Basin Replacement Project	$335,162
Public Works	Municipal Services Center Access System Replacement	$85,000
Public Works	Municipal Services Center Fleet Maintenance Bay Extension	$100,000
Public Works	NW Arterial Shoulder Paving Project	$2,311,247
Public Works	Hawthorne Street Boat Ramp Repair	$407,532
Public Works	3255 - Wheel Loader Purchase	$305,865
Public Works	2730 - Portable Jet	$50,000
Public Works	Mechanical Sweeper Replacement	$290,466
Public Works	New CCTV Camera	$40,000
Public Works	2727-Off-Road Vehicle	$25,000
Public Works	Off Road Vehicle CCTV Slide-in Unit	$145,000
Public Works	Fleet Service Sweeper	$25,000
Landfill	Landfill Permit Renewal Project	$55,204
Landfill	Landfill Website Redesign Project	$20,000
Landfill	Landfill Alternative Energy Project	$50,000
Landfill	3C Wheel Loader	$275,000
Landfill	Sweeper	$95,000
Landfill	Brush Mower	$15,000
Landfill	3451 Hook Truck	$335,223
Landfill	Water Truck	$200,000
Engineering	Confined Space Drone	$100,000
Engineering	General Stormwater Detention Basin Maintenance & Repair	$1,000,000
Engineering	Schmitt Island Stormwater Rehabilitation	$450,000

Department	New Project	Total CIP
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater	$5,300,000
Engineering	North Catfish Creek Trail Stabilization	$500,000
Engineering	Pebble Cove Drainage Basin Improvements	$240,000
Engineering	Harvest View Storm Sewer Improvements	$320,000
Engineering	Primrose Court Storm Sewer Repair	$120,000
Engineering	Manhole Inspection Equipment (2 Cameras)	$28,000
Engineering	Kerper Boulevard Sanitary Sediment Trap	$80,000
Engineering	JFK Yiannias Place Sanitary Sewer Relocation	$550,000
Engineering	Key West Sanitary Lift Station Replacement	$1,535,000
Engineering	Sanitary Basin Analysis - Steger Heights Area (SSAMP Service Area 3-8-1-1)	$1,540,000
Engineering	Sanitary Basin Analysis - Quigley's Sub Area (SSAMP Service Area 3-8-0-1B-1)	$1,520,000
Engineering	Sanitary Basin Analysis - South Port & Terminal St LS	$10,800,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary	$1,100,000
Engineering	US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements, Iowa Department of Transportation	$6,000,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street	$4,765,000
Engineering	Port of Dubuque Streets Extension	$100,000
Engineering	Safe Routes to School	$120,000
Engineering	NW Arterial Trail Drainage	$150,000
Engineering	Pedestrian Safety with Permanent Bollards/Barricades	$152,000
Engineering	Way finding Signage	$40,000
Engineering	Chavenelle Street Light Replacement Project	$182,850
Engineering	Iowa St Streetlight Replacement Project	$138,000
Engineering	City Hall - Radon Mitigation System	$161,000
Economic Development	Downtown Storefront Activation Program	$400,000
Planning	Downtown Master Plan Update	$150,000
City Manager's Office	Municipal Solar Project - MFC	$176,300
City Manager's Office	Municipal Solar Project - Library	$122,672
	TOTAL	$87,131,865

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total $8,619,951. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP	
Fire	Fire Department Bunk Room Remodel(s)	$1,489,918	
Parks	Eagle Point Park - Riverfront Pavilion Restoration	$230,000	
Parks	All Parks - Renovate Water Systems	$57,000	*
Parks	Eagle Point Park - Restroom Renovation	$124,900	*
Parks	Eagle Point Park - Stone Work	$105,000	*
Parks	Eagle Point Park - Renovate Log Cabin	$60,000	*
Recreation	Sutton Pool Zero Depth Survey & Remediation	$60,000	*
Conference Center	Banquet Chair Replacement	$313,500	
Conference Center	Paint Exterior Metal	$132,000	*
Conference Center	Concrete Restoration, Raising & Caulk	$240,000	*
Conference Center	Replace Fabric Wall Covering	$227,000	*
Conference Center	Replace Carpet	$485,000	*
Library	Library Landscaping and Plaza Redesign	$103,601	
Water & Resource Recovery Center	High Strength Waste Receiving and Storage	$939,984	
Engineering	Pine Street Extension from 7th to 9th	$1,980,000	
Engineering	Decorative Concrete Maintenance Program	$300,000	
Engineering	Hillcrest Road Sidewalk	$250,000	
Engineering	Port of Dubuque Security Camera Expansion	$60,000	
Engineering	City Facility Integrated Access Control and Security System Upgrade	$270,126	*
Engineering	City Hall Landscape Enhancement Project	$29,500	*
Housing & Community Development	Washington Neighborhood Homebuyer Program	$952,422	
Planning	Historic Preservation Technical Assistance Program	$110,000	
City Manager's Office	Municipal Energy Reinvestment Fund	$20,000	
City Manager's Office	Renew DBQ: Low-Income Solar Pilot Project	$80,000	
	Total	**$8,619,951**	
	Total Deferred Maintenance	*$1,790,526*	

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP ($67,599,429). CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP	
Police	Rescue Vehicle	$451,829	
Fire	Fire Department Dock/Boathouse	$450,000	
Fire	Update Hendrix Storage Building 880 Central (LOT 1024482020)	$510,000	*
Fire	Kitchen Remodel at Fire Station 2	$187,500	
Parks	Pebble Cove Park Development	$360,000	
Parks	Second Dog Park Planning	$60,000	
Parks	Ham House Improvements	$90,000	
Parks	Murphy Park-Bennett Pavilion Roof Replacement	$165,000	*

Department	New Project Not Funded	Total CIP	
Parks	Hillcrest Park - Replace Play Unit	$225,000	*
Parks	Allison Henderson - Replace Roof	$20,000	*
Parks	EB Lyons Carpet Replacement	$85,000	
Parks	Silver Oaks Park Development	$320,000	
Parks	Ecological Restoration	$50,000	
Parks	EB Lyons Center - Stain, Patio, Ridge Beam	$170,000	
Parks	Chaplain Schmitt Island-Landscaping	$50,000	
Parks	Chaplain Schmitt Island-Entrance Sign	$72,500	
Parks	Flora Park-Tennis Courts Replace Lights/ADA Access	$225,000	*
Parks	Ham House Exterior Repairs	$135,000	*
Parks	Hilltop Park - Replace Play Unit	$221,000	*
Parks	Marshall Park - Replace Play Unit	$230,000	*
Parks	Teddy Bear Park - Play Equipment	$205,000	*
Parks	Paint Railings	$60,000	*
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	$83,000	
Parks	North Fork Trail Park Development	$305,000	
Parks	Eagle Point Park - Accessible Walkway to the Log Cabin Pavilion	$405,000	
Parks	Eagle Point Park Trail Project- Invasive Remediation	$93,000	
Parks	Eagle Point Park - Light Trolley Line Trail	$165,000	
Parks	Eagle Point Park - Native American Room Restoration	$122,000	*
Parks	Eagle Point Park - Develop Wading Pool Replacement Plans	$440,000	*
Parks	Valley High Park - Replace Play Unit	$210,000	*
Parks	Pinard Park-Replace Playground	$194,000	*
Parks	Linwood Cemetery- Assessment	$110,000	
Parks	Pave Parking Lots	$95,000	*
Parks	Murphy Park - Replace Roof on Rest Room Building by the Tennis Courts	$17,000	*
Parks	EPP-Replace Roof on Eagles View Pavilion	$56,000	*
Parks	Greenhouse Shop Roof Replacement	$75,000	*
Parks	Forestry Building - Replace Roof	$87,000	*
Parks	HWY 20 Trees/Invasive Removal	$55,000	
Parks	Chaplain Schmitt Island Campground Entrance Enhancement	$52,500	
Parks	EB Lyons Center - Roof Rehabilitation	$60,000	
Parks	Comprehensive Street Tree Inventory	$250,000	
Parks	Network Switches - Parks	$25,000	
Parks	HVAC Upgrade - Greenhouse	$15,000	
Parks	HVAC Upgrade - Forestry	$25,000	
Parks	Mini Track Loader	$58,000	
Parks	Park Signage Study	$55,000	
Parks	Trail Connection Study	$60,000	

Department	New Project Not Funded	Total CIP	
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement - Shade Structures	$125,000	
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement-Diving Boards	$70,000	
Recreation	Flora and Sutton Swimming Pools Renovate Locker Rooms	$726,000	*
Recreation	Flora and Sutton Swimming Pools Water Playground Replacements	$315,000	*
Recreation	Flora & Sutton Pool Operational Projects - Electrical	$50,000	*
Recreation	F&S Pool Operations - UV Replacement	$85,000	
Recreation	F&S Pool Operations - Chemical Distribution System Replacement	$60,000	*
Recreation	F&S Pool Operations - Water Slide Pump Replacements	$85,000	*
Recreation	Bunker Hill Golf Course - Range Project	$230,000	
Recreation	Bunker - Sand Trap Repair/Removal	$50,000	
Recreation	Port of Dubuque - Signage Replacement	$20,000	
Recreation	Comiskey Building Restroom Expansion	$112,500	
Recreation	McAleece Irrigation Renovation	$100,000	
Recreation	Marina Dock Pedestal Replacements	$75,000	
Recreation	Marina Gas Dock Fuel Tank Monitoring System Replacement	$19,000	
Recreation	McAleece Scoreboard Replacements	$36,000	
Recreation	McAleece Softball Field Repair	$54,000	
Recreation	Flora & Sutton Pool Water Slide Complete Restoration	$470,000	*
Recreation	Mobile Special Event Trailer	$37,000	
Recreation	Parks & Recreation Fee Study	$35,000	
Conference Center	Security Camera System	$175,000	
Conference Center	Furniture and Decor Replacement	$84,000	*
Conference Center	Wi-Fi Upgrades	$99,000	
Conference Center	Access Control System	$55,000	
Conference Center	Elevator Passenger and Freight Car Replacement	$267,500	
Conference Center	AV Rental Upgrades	$32,500	
Conference Center	Trash Compactor Rehab	$38,000	*
Conference Center	Window Panel Replacements	$20,300	*
Ice Center	Security Camera System Replacement	$216,000	*
Ice Center	Ice Resurfacer Refurbish	$62,500	*
Ice Center	Locker Room Ventilation Replacement	$429,050	*
Ice Center	ASME Storage Tank Replacement	$13,750	*
Ice Center	New Northwest Corner Service Bar	$271,000	
Ice Center	TPO Roof Replacement	$191,500	*
Ice Center	Addition-New Women's Locker Room	$40,500	
Library	Bookdrop Waterproofing	$59,740	
Library	3rd Floor Mechanical Room Water Pipe Replacements	$140,195	*
Library	Refrigerant Leak Detection Upgrade	$21,360	

Department	New Project Not Funded	Total CIP	
Library	Rear Exterior Painting	$38,588	
Library	Sidewalk Replacement Around Library	$113,191	
Water	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Water	$2,400,000	
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000	
Airport	Terminal Apron Lighting Conversion	$43,000	
Airport	Westside Airfield Development	$1,179,000	
Airport	AFFF Transition Plan	$258,400	
Public Works	Vacuum Street Sweeper Replacement	$361,613	*
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Stormwater	$10,605,000	
Engineering	N Booth St Property Acquisition	$1,000,000	
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Sanitary	$2,570,000	
Engineering	N.Grandview - Kane to W. 32nd Reconstruction	$2,100,000	
Engineering	Embassy West Dr. and Camelot Dr. Reconstruction	$1,800,000	
Engineering	Sunnyslope Dr. and Hummingbird Dr. Reconstruction	$1,770,000	
Engineering	N.Star Dr. - Long View Dr. - Angel View Dr. - Little Valley Dr. Reconstruction	$1,890,000	
Engineering	Colonel Dr. - Camelot Dr. East of Embassy West Dr. Reconstruction	$1,940,000	
Engineering	Pennsylvania Ave. Reconstruction - Sandpiper Ln. to Bergfeld Trail	$5,820,000	
Engineering	Kerper Blvd Trail (12th - 16th)	$425,000	
Engineering	Cedar Cross Road Reconstruction	$5,000,000	
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Street	$10,070,000	
Engineering	Mobility Improvements Implementation	$144,000	
Engineering	Port of Dubuque Recognition Wall	$40,000	*
Engineering	City Hall First Floor Renovation	$588,138	
Engineering	City Hall Annex Renovation	$993,775	
Engineering	Traffic Center Aux Cooling	$15,000	
Engineering	Old Engine House - Rock Fall Protection	$55,000	
Engineering	City-wide Facilities Assessment	$110,000	
Engineering	City Hall Elevator Modernization	$161,000	*
Economic Development	Arts & Culture Master Plan Update	$100,000	
Economic Development	Greater Downtown Infill Housing Creation Grant Program	$2,500,000	
Information Technology	Enterprise Firewall Replacement	$212,000	
Information Technology	IT Office Security Alarm	$50,000	
Information Technology	Data Center Second UPS	$350,000	
Information Technology	Data Center Cabinet Card Access Controls	$65,000	
Information Technology	Data Center Second Generator	$150,000	
Information Technology	JOTC AV Equipment Replacement	$50,000	
	Total	$67,599,429	

Department	New Project Not Funded	Total CIP	
	Total Deferred Maintenance	$6,755,908	

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2027-2031 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer Jennifer Larson; Budget Manager Laura Bendorf; Budget/Financial Analysts Shannon Soppe, Nikesh Shah, and Nathan Kelleher; Assistant City Manager Cori Burbach, Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; Finance A/R & A/P Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

Attachment 1

FISCAL YEARS 2027-2031 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2027	2028	2029	2030	2031	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	$ 15,000	$ 15,000	$ 15,000	$ 15,000	$ —	$ 60,000	0.02 %
Homeownership Loan Repayments	5,000	5,000	5,000	5,000	—	20,000	0.01 %

FISCAL YEAR 2027-2031 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

Goal	Project	Description	Departments	CIP Page
Healthy & Safe Community	Fire Department Building Maintenance	Updates to restore six fire stations to preventative maintenance-level condition	Fire	3
Healthy & Safe Community	Outdoor Warning Siren Repair/Replace	Upgrades to 17-unit outdoor warning siren system	Fire	5
Healthy & Safe Community	Fire Station Expansion/ Relocation	Implements fire station location plan for improved emergency response	Fire	6
Healthy & Safe Community	Fire Engine and Ambulance Replacements	Scheduled replacements for reliable emergency response fleet	Fire	8,9,11,13, 14,15
Healthy & Safe Community	Portable Radio Replacements	Modernizing communication equipment for first responders	Fire/Police/ Airport	12
Financially Responsible, High-Performance City	Enterprise Asset Management System (Water, Sanitary, Stormwater, Roadways, Fiber)	Citywide CMMS for asset optimization and service delivery	Multiple Depts.	62, 210, 234, 292, 332
Financially Responsible, High-Performance City	Leak Detection Equipment and Survey	Investments in technology to reduce water loss and improve efficiency	Water	72, 73
Financially Responsible, High-Performance City	Network Switch Replacement	Regular replacement of network infrastructure for cybersecurity	IT Dept.	365, 371
Robust Local Economy	8th Street 20" Transmission Water Main Connection	Infrastructure expansion to support economic development	Water	48
Robust Local Economy	Central Avenue Booster Station	Enhancing water supply reliability for economic growth	Water	50
Robust Local Economy	Workforce Development	Partnership with GDDC for workforce retention, recruitment, creation	Economic Develop	343
Robust Local Economy	Downtown Storefront Activation Program	Financial assistance to activate vacant storefronts	Economic Develop	341
Livable Neighborhoods & Housing	Low/Mod Income Area Park Improvements	Upgrades to parks in low/moderate income areas	Parks	19
Livable Neighborhoods & Housing	Homeowner Rehabilitation Program	Loans for maintenance and rehabilitation of owner-occupied homes	Housing	351
Livable Neighborhoods & Housing	Assistance for Homeownership	Programs to support affordable homeownership	Housing	349
Livable Neighborhoods & Housing	Healthy Homes Production Grant & Lead and Healthy Homes Grant	Addressing housing-related health hazards	Housing	354, 356
Sustainable Environment	Source Water PFAS Reduction Projects	Water treatment investments for safe drinking water	Water	86, 87

Sustainable Environment	Municipal Solar Projects (MFC & Library)	Solar arrays on city facilities to reduce energy costs and emissions	City Manager's Office	361, 363
Sustainable Environment	Bee Branch Gate & Pump Replacement Project	Major stormwater infrastructure to mitigate flooding	Engineering/ Stormwater	220
Sustainable Environment	Landfill Waste Minimization Grant Project	Grants for waste reduction, recycling, composting	Public Works	183
Connected Community	14th Street Overpass (B2E2 Project)	Multimodal corridor improvements, rail crossing elimination	Engineering/ Street	265
Connected Community	East-West Corridor Capacity Improvements	Upgrades to University Avenue and related corridors	Engineering/ Street	270
Connected Community	Public Electric Vehicle Chargers	EV charging infrastructure at key downtown locations	Engineering/ Traffic	300
Connected Community	Smart Parking System	Technology for improved parking management and wayfinding	Transportation Services	345
Diverse Arts, Culture, Parks, Recreation	Five Flags Building Improvements	Upgrades to arena, theater, lobby for cultural/recreational use	Civic Center	29
Diverse Arts, Culture, Parks, Recreation	Chaplain Schmitt Island Environmental Restoration	Restoration of natural areas as part of development plan	Parks	20
Diverse Arts, Culture, Parks, Recreation	Eagle Point Park Master Plan & Improvements	Comprehensive planning and upgrades for signature park	Parks	23
Diverse Arts, Culture, Parks, Recreation	Community Center Master Plan	Planning for expanded indoor recreation and programming	Parks	34
Policy Agenda Top Priority	DLEC Upgrades and Maintenance	Law Enforcement Center upgrades for operational readiness	Police	1
Policy Agenda Top Priority	Old Mill Road Lift Station & Force Main (Phases 1–4)	Major sanitary sewer investments	Engineering/ Sanitary Sewer	235, 237, 239, 241
Policy Agenda Top Priority	Bee Branch Gate & Pump Replacement Project	Stormwater management investments	Engineering/ Stormwater	220
Policy Agenda Top Priority	Pavement Rehabilitation, ADA Curb Ramp Program, etc.	Street maintenance/rehabilitation program	Engineering/ Street	275, 136
Policy Agenda High Priority	Central Avenue White Street Corridor Master Plan	Central Avenue revitalization	Engineering/ Street	267
Policy Agenda High Priority	Downtown Master Plan Update	Comprehensive downtown planning	Planning Services	358
Policy Agenda High Priority	Chaplain Schmitt Island Development	Environmental, water, sanitary, and stormwater improvements	Multiple Depts.	20, 49, 222, 243
Policy Agenda High Priority	Parks and Recreation Master Plan Adoption	Community Center, Eagle Point Park, and other park improvements	Parks	23, 34
Policy Agenda High Priority	WRRC Plant Nutrient Reduction Improvements	Water Resource and Recovery Center upgrades	Water & Resource Recovery Center	109

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2025 - 2027 Management in Progress and Major Projects by the City Council and are included in the 2027 CIP budget according to one of the Council's goals.

2025 - 2027 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Business Incentives Policy/Processes Review
- Chaplain Schmitt Island Development: Hotel Project
- Comprehensive Hotel Attraction/Incentive Policy
- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions

- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing: Great Place to Live

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming
- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods and Housing: Great Place to Live

- (none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Auburn St and Custer St Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St and Central Ave
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No.7 Rehabilitation
- Water Department New Deep Well No. 7 Rehabilitation (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- 14th St Railroad Overpass and 16th St Corridor Complete Streets Improvements
- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System

- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

SOURCE OF FUNDS AND IMPORTANT DETAILS

The Fiscal Year 2027-2031 CIP presents a financial plan that reflects a $287,495 general fund property tax levy supported annual debt service for the FY 2010 purchase of a replacement pumper truck ($1,035,000) and the FY 2016 franchise fee litigation settlement judgment bond ($2,800,000). The Fire Station Expansion/Relocation project included in the Fiscal Year 2027-2031 CIP will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time. It is anticipated that other borrowing from non-utility funds can and will be minimized by using other sources of funds such as sales tax revenue.

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over $163 million in outside funding to help offset the cost of the overall $254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach $9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes includes an additional $5,121,112 for the Flood Mitigation Gate and Pump Replacement, a key component of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Combined with funding allocated in prior fiscal years (FY24-FY26), the total project investment is $28,456,106.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes $12,275,000 shared across four funding sources to complete final design work in Fiscal Year 2027 and begin construction in Fiscal Year 2028 for the 17th/W. Locust Street Reconstruction Project, part of the Bee Branch Creek Restoration Project (Phase 12B of the Bee Branch Watershed Flood Mitigation Project). Design for this project was largely completed in the late 2010s and early 2020s, but progress was paused due to funding challenges during the COVID-19 pandemic.

Fiscal Year 2027 will be the nineteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The Fiscal Year 2027-2031 CIP anticipates $4,174,231 in Fiscal Year 2027, $3,623,407 in Fiscal Year 2028, $1,793,632 in Fiscal Year 2029, $2,312,622 in Fiscal Year 2030, and $1,676,919 in Fiscal Year 2031.

Water State Revolving Fund Loans will be used to finance water projects in FY 2027-2031 as follows: $0 FY 2027; $7,302,707 FY 2028; $11,563,870 FY 2029; $6,806,000 FY 2030; and $2,055,000 FY 2031. The debt service related to the total $27,727,577 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, West End Annexation Phase II, 17th/Locust St Reconstruction Phase 4 (Heeb to Kirkwood), Private Lead Service Line Replacement Program (City-Wide), Central Ave Booster Station, Central Ave Water Main Extension, South Algona 12" Water Main Replacement, Water Main Replacement W 8th St (Bluff to Hill), Water Storage Rehabilitation Program, HWY 20/Dodge St Water Main Relocation - Devon Drive to Concord Street, Water Main Extension Olympic Heights Road, and Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Installation.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Water Fund will support 18.01% of administrative overhead.

The water fees in FY 2027 are recommended to increase 3.0%.

Sewer

Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines. The Fiscal Year 2027-2031 CIP anticipates $26,300,608 in Fiscal Year 2027, $19,579,781 in Fiscal Year 2028, $19,532,176 in Fiscal Year 2029, $15,269,824 in Fiscal Year 2030 and $11,750,197 in Fiscal Year 2031.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2027-2031 as follows: $12,232,834 FY 2027; $17,579,781 FY 2028; $17,132,176 FY 2029; $12,669,824 FY 2030; and $8,500,197 FY 2031. The debt service related to the total $68,114,812 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Catfish Creek Sewer shed Interceptor Improvements (South Fork and Middle Fork), South West Arterial Middle Interchange Sewer Extension, Old Mill Road Lift Station & Force Main Phases (1 and 2), Track Line Sewer Reconstruction, Schmitt Island Sanitary Improvements, Grove Terrace Sanitary Sewer Reconstruction, Cooper Pl & Maiden Ln Sanitary Sewer Reconstruction, Harvard Sanitary Sewer, Hempstead Reconstruction, Knob Hill-Duggan Drive Sanitary Sewer Reconstruction, JFK Yiannias Pl Sanitary Sewer Relocation, Key West Sanitary Lift Station Replacement, Sanitary Basin Analysis - Steger Heights, Quigley's Sub and South Port/Terminal St, 17th/Locust St Reconstruction Phase 4, W&RRC Plant Nutrient Reduction Improvements, W&RRC Industrial Control Upgrade, W&RRC Headworks Bar Screen Replacement, and W&RRC Treatment System Infrastructure Restoration and Reliability Improvements.

The sewer fees in FY 2027 are recommended to increase 9.0%.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Sanitary Sewer Fund will support 18.01% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A $4.15 million Greater Downtown TIF borrowing is anticipated in FY 2027-2031 for parking ramp major maintenance. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related debt in the downtown as follows: $2,014,000 in FY 2027; $2,010,750 in FY 2028; $2,012,625 in FY 2029; $2,013,875 in FY 2030; and $2,014,125 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2027, the Parking Fund will support 2.86% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The Fiscal Year 2027-2031 CIP anticipates $460,000 in FY 2027, $469,250 in FY 2028; $423,679 in FY 2029; $646,544 in FY 2030; and $772,500 in FY 2031. The Solid Waste Collection Fund is anticipated to have a deficit balance of $587,638 at the close of FY 2027, which will be offset by an internal loan from a portion of the $5.3 million loan repayment from the Greater Downtown TIF fund to the General Fund. The Solid Waste Collection Fund will begin repaying the General Fund in the Fiscal Year that there is no longer a deficit balance, which is estimated to be FY 2031.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: $460,000 in FY 2027; $463,250 in FY 2028; $408,879 in FY 2029; $640,544 in FY 2030 ; $766,500 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Solid Waste Fund will support 18.75% of the administrative overhead.

The solid waste collection fees in FY 2027 are recommended to increase 9%.

GENERAL FUND

The current revenue amount of $352,000 (0.10% of CIP Total) during the five-year period represents $50,000 in golf funds for improvements to the Bunker Hill Golf Course, $22,000 in Historic Preservation Loan repayments, $60,000 in Rental Dwelling Rehab Repayments, $150,000 in Washington Neighborhood Loan Repayments, $50,000 in insurance and other reimbursements, and $20,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax (20%)” totals $844,281 and represents 0.24% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax/Street Projects (30 percent)” and totals $16,417,822, or 4.65% of the total CIP.

GAMING

DRA payments represent 0% in FY 2027 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations ($0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections ($0 or 0.00% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2029, 10% in FY 2030 and 15% in FY 2031. **In Fiscal Year 2027, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Years 2024-2026 which is a change from past practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois. Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

FEDERAL FUNDING

Community Development Block Grant (CDBG)
The Fiscal year 2027-2031 CIP anticipates that Community Development Block Grant (CDBG) funds will be $650,000 in FY 2027; $650,000 in 2028; $450,000 in FY 2029; $450,000 in FY 2030; and $200,000 in FY 2031 (0.68% of the total CIP).

Federal Aviation Administration (FAA)
The FAA funding of $18,140,035 (5.14% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2027-2031 budget includes Reconstruct Taxiway A, Taxiway J Improvements, Taxiway D Extension, and Update Airport Pavement Management System.

Federal Lead Paint/Healthy Homes Grant (0.83% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Lead Paint/Healthy Homes Grant funds will be $1,900,000 in FY 2027; $1,036,600 in 2028; $— in FY 2029; $— in FY 2030; and $— in FY 2031 (0.83% of the total CIP).

Healthy Homes Production Grant (0.32% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Healthy Homes Production Grant funds will be $2,995,200 in FY 2027; $1,658,050 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.32% of the total CIP).

Federal Assistance
Federal Assistance funding of $45,351,606 (12.85% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2027-2031 budget includes Bee Branch Creek Gate and Pump Replacement, Public Electric Vehicle Chargers, Electric Buses, 14th Street Overpass, and East-West Corridor Capacity Improvements.

Federal STP Funds
Federal STP Funds funding of $14,845,453 (4.21% of the total CIP) includes DMATS funds for 14th Street Overpass, STREETS Phase 2, and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax

Road Use Tax Funds (RUTF) of $3,174,227 (0.90% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031, all used for operations.

Sales Tax Increment Revenue

The City secured a $98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, $50,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (0.69% of Total CIP)

State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of $2,445,000 are anticipated over the five-year program.

Iowa Finance Authority funding of $1,013,268 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District

In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2027-2031 CIP includes $1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, $182,850 for the Chavenelle Street Light Replacement Project.

Annexation Initiatives

As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)

With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer (SRO) Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic pausing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers were approved. In late 2024, the Precision Policing Center (PPC) was established. It is expected to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. This is also supporting officer safety. The PPC is staffed by five non-sworn (civilian) employees in three roles: three Precision Policing Center Technicians, one Crime Analyst, and one Criminal Computer Forensics.

Fire Station and Additional Firefighters/Paramedics
An additional west end fire station is currently projected to be designed in FY 2030 and built in FY 2031.In April 2026, the City began a study of all stations and future needs. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City well to develop an annexation plan and begin the process of annexation in the future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, and furniture. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 an additional EMS Captain and an additional EMS Bureau Chief were approved. In FY 2026, 5 firefighter/paramedic positions were added and additional employees may be added in future years. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Water and Sanitary Sewer Service
The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements and replacing undersized sanitary sewers along with new lift stations. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of $2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District

This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Now that the City will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, resources for these capital projects are significantly reduced. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following charts shows the amount of TIF revenue reduction in GDTIF due to claiming 25% less in TIF revenue:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	— %
2028	$10,162,871	-$3,361,348	-24.85 %
2029	$10,137,372	-$3,386,847	-33.33 %
2030	$10,111,873	-$3,412,346	-33.66 %
2031	$10,111,873	-$3,412,346	-33.75 %

Claiming 25% less in Greater Downtown TIF revenue will provide additional general fund levy tax dollars due to the growth that the improvements created in the GDTIF District. The additional general fund levy tax dollars estimated to be returned to all taxing bodies in Fiscal Year 2028 based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

The following are projects included in the FY 2027-2031 CIP:

Downtown Master Plan Update (page 357) - This project ($150,000) provides for the preparation of a Downtown Master Plan that will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core.

Jackson Park Restroom Building (page 24) - This project ($100,000) provides for additional funding for the Jackson Park restroom building. Initial funding was approved in FY 2020, but due to COVID-19, the project was put on hold.

Five Flags Building Improvements (page 29) – This project ($5,869,457) provides funding for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. With existing funds of $1,206,410, there is $5,869,457 available. This is a substantial decrease from the approximately $24 million previously available.

Five Flags Marquee Replacement (page 30) – This project ($133,500) provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The life expectancy is 7-9 years. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

Five Flags Boiler Replacement (page 31) – This project ($410,000) provides funding for replacement of three 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient.

Five Flags Recirculating Pump Replacement (page 32) – This project ($40,700) provides for the replacement of two recirculating pumps that are responsible for keeping the warm water for sinks readily available by circulating the hot water.

Five Flags Emergency Generator Replacement (page 33) – This project ($870,400) provides for replacement of the emergency standby generator located at 5th Street which provides power to critical systems inside of the building during a sudden loss of power. The current generator was installed in 2000 and is nearing the end of life expectancy of 30 years. A new generator would be more efficient and environmentally friendly.

Grand River Center Dishwasher and Water Softener Replacement (page 43) - This project ($263,000) provides for a dishwasher and water softener replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

Grand River Center Roof Restoration (page 44) - This project ($1,383,000) provides for restoration of the roof on the Grand River Center. The roof was installed in 2002 and restoration is critical to prevent expensive damage if the roof begins leaking.

Grand River Center HVAC System Evaluation (page 45) - This project ($35,000) provides for a consultant to evaluate the HVAC system, software, and controllers. The current system is original to the building, outdated, and difficult to service.

Port of Dubuque Street Extension (page 281) - The city is moving forward with further development in the Port of Dubuque. Specifically, there is approximately 13 acres of vacant property on the north side of 5th Street. These funds ($100,000) will provide money to create an entry road to that site and to plan for the potential future realignment of Ice Harbor Drive to line up with that entry road.

Railroad Crossing Safety Improvements and Quiet Zone Implementation (page 297) - This project ($833,104) provides funding to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within jurisdictional areas.

Federal Building Renovation (page 334) - This project ($8,645,473) provides funding in FY27 for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY28 and FY29 provides funding for the second phase of HVAC upgrades.

Downtown Bike Lockers (page 336) - This project ($30,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team.

Greater Downtown Rehabilitation and Housing Incentive Program (page 338) – This program ($1,970,403) consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing. This is a substantial reduction from previous available funding.

Downtown Storefront Activation Program (page 340) - This new project ($400,000) provides for $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

Smart Parking System Implementation (page 344) - This project ($1,490,175) provides funds for way finding signage throughout the City of Dubuque. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

Parking Ramp Major Maintenance Repairs (page 345) - This project ($9,161,567) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical & plumbing repairs.

Municipal Parking Lot Maintenance (page 346) - This project ($196,182) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces of municipal parking lots.

Homeowner Rehabilitation Program (page 350) - This project ($2,741,588) provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978.

Downtown ADA Assistance Program (page 352) - This project ($185,000) provides assistance to residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafés, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income(LMI) residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expired in FY 2025 and all certified debt has been collected.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$589,631
City of Dubuque	36.26 %	$566,358
Dubuque County	19.96 %	$311,763
Northeast Iowa Community College	2.75 %	$42,953
Sunnycrest Manor County Hospital	1.89 %	$29,521
Dubuque Agricultural Extension	0.41 %	$6,404
Dubuque City Assessor	0.98 %	$15,307
Total	100.00 %	$1,561,937

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2026.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$226,916
City of Dubuque	36.26 %	$217,960
Dubuque County	19.96 %	$119,980
Northeast Iowa Community College	2.75 %	$16,530
Sunnycrest Manor County Hospital	1.89 %	$11,361
Dubuque Agricultural Extension	0.41 %	$2,465
Dubuque City Assessor	0.98 %	$5,891
Total	100.00 %	$601,103

South Pointe Housing TIF District

In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/ Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2031 due to a three year extension.

Rustic Point Housing TIF District

In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/ Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2028.

N Grandview Housing TIF District

In FY 2021, the City created a housing TIF district in the North Grandview subdivision off of North Grandview Avenue. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in 2033.

MISCELLANEOUS SOURCES

Private Participation (1.10% of Total CIP)
Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance ($467,157); Street Lighting and Traffic Signal Knockdown insurance reimbursements ($50,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project ($1,000,000); Milling sales from the Asphalt Milling Program ($375,000); Private Marina Companies contribution for Harbor Area Maintenance Dredging ($200,000); Jeffris Family Foundation contribution for the restoration of Eagle Point Park structures ($1,852,354); and IDOT reimbursement for the Pavement Marking program ($125,000).

Special Assessments (0.08% of Total CIP)
Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The $285,000 amount breaks down: (a) $250,000 for sidewalk lien special assessments, and (b) $35,000 for green alleys (non Bee Branch) special assessments.

POLICY GUIDELINES

This page intentionally left blank.

CITY OF DUBUQUE

BUDGET & FISCAL POLICY GUIDELINES

FISCAL YEAR 2027

Operating Budget Guidelines

The Policy Guidelines are developed and adopted by City Council during the budgeting process to provide targets or parameters within which the budget recommendation will be formulated, in the context of the City Council Goals and Priorities established in August 2025. The final budget presented by the City Manager may not meet all these targets due to changing conditions and updated information during budget preparation. To the extent the recommended budget varies from the guidelines, an explanation will be provided in the printed budget document. By State law, the budget that begins July 1, 2026 must be adopted by April 30, 2026.

A. RESIDENT PARTICIPATION

GUIDELINE

To encourage resident participation in the budget process, City Council will hold multiple special meetings in addition to the budget public hearing for the purpose of reviewing the budget recommendations for each City department and requesting public input following each departmental review.

The budget will be prepared in such a way as to maximize its understanding by residents. Copies of the recommended budget documents will be accessed via the following:

1. The City Clerk's office, located in City Hall (printed)
2. The government documents section at the Carnegie Stout Public Library (printed)
3. On the City's website at www.cityofdubuque.org/budget (digital)

Opportunities are provided for resident input prior to formulation of the City Manager's recommended budget and will be provided again prior to final Council adoption, both at City Council budget special meetings and at the required budget public hearing.

Timeline of Public Input Opportunities

The Budget Office conducts year-round community outreach with Balancing Act using print and digital marketing and presentations.

- **November:** The City Manager hosted an evening public budget input meeting.

Open Budget

dollarsandcents.cityofdubuque.org

During Fiscal Year 2016, the City launched a web based open data platform. The City of Dubuque's Open Budget application provides an opportunity for the public to explore and visually interact with Dubuque's operating and capital budgets. This application is in support of the five-year organizational goal of a financially responsible city government and high-performance organization and allows users with and without budget data experience, to better understand expenditures in these categories.

During Fiscal Year 2017, an additional module was added to the open data platform which included an interactive checkbook which will allow residents to view the City's payments to vendors. The final step will be adding performance measures to the open data platform to allow residents to view outcomes of the services provided by the City.

Balancing Act

During Fiscal Year 2019, the City of Dubuque launched a new interactive budget simulation tool called Balancing Act. The online simulation invites community members to learn about the City's budget process and submit their own version of a balanced budget under the same constraints faced by City Council, respond to high-priority budget input questions, and leave comments.

Taxpayer Receipt

During Fiscal Year 2019, the City launched an online application which allows users to generate an estimate of how their tax dollars are spent. The tool uses data inputted by the user such as income, age, taxable value of home, and percentage of goods purchased within City limits. The resulting customized receipt demonstrates an estimate of how much in City taxes the user contributes to Police, Fire, Library, Parks, and other city services. This tool is in support of the City Council goal of a financially responsible and high-performance organization and addresses a Council-identified outcome of providing opportunities for residents to engage in City governance and enhance transparency of City decision-making.

B. SERVICE OBJECTIVES AND SERVICE LEVELS

GUIDELINE

The budget will identify specific objectives to be accomplished during the budget year, July 1 through June 30, for each activity of the City government. The objectives serve as a commitment to the citizens from the City Council and City organization and identify the level of service which the citizen can anticipate.

C. TWO TYPES OF BUDGET DOCUMENTS TO BE PREPARED

GUIDELINE

Two types of budget documents will be prepared for public dissemination. The recommended City operating budget for Fiscal Year 2027 will consist of a Recommended City Council Policy Budget that is a collection of information that has been prepared for department hearings and a Residents Guide to the Recommended FY 2027 Budget. These documents will be available on the Friday proceeding the Budget Presentation to City Council. In FY 2027, that date is April 3, 2026.

1. **Recommended City Council Policy Budget** The purpose of this documents is to focus attention on policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions. The document will emphasize objectives, accomplishments and associated costs for the budget being recommended by the City Manager.

   The Recommended City Council Policy Budget will include the following information for each department:

   - Highlights of prior year's accomplishments and Future Year's Initiatives
   - A financial summary
   - A summary of improvement packages requested and recommended significant line items
   - Capital improvement projects in the current year and those recommended over the next five years
   - Organizational chart for larger departments and major goals, objectives and performance measures for each cost center within that department

- Line item expense and revenue financial summaries.

2. **The Residents Guide** This section of the Recommended FY 2027 Budget will be a supplementary composite of tables, financial summaries and explanations. It will include the operating and capital budget transmittal messages and the adopted City Council Budget Policy Guidelines. Through graphs, charts and tables it presents financial summaries which provide an overview of the total operating and capital budgets.

D. ADOPT A BALANCED BUDGET

GUIDELINE

The City will adopt a balanced budget in which expenditures will not be allowed to exceed reasonable estimated resources. The City will pay for all current expenditures with current revenues.

E. BALANCE BETWEEN SERVICES AND TAX BURDEN

GUIDELINE

The budget should reflect a balance between services provided and the burden of paying taxes and/or fees for those services. It is not possible or desirable for the City to provide all the services requested by individual residents. The City must consider the ability of residents to pay for services in setting service levels and priorities.

F. MAINTENANCE EXISTING LEVEL OF SERVICE

GUIDELINE

To the extent possible with the financial resources available, the City should attempt to maintain the existing level of services. As often as reasonably possible, each service should be tested against the following questions:

a) Is this service truly necessary?
b) Should the City provide it?
c) What level of service should be provided?
d) Is there a better, less costly way to provide it?
e) What is its priority compared to other services?
f) What is the level of demand for the service?
g) Should this service be supported by property tax, user fees, or a combination?

G. IMPROVE PRODUCTIVITY

GUIDELINE

Continue efforts to stretch the value of each tax dollar and maximize the level of City services purchased with tax dollars through continual improvements in efficiency and effectiveness. Developing innovative and imaginative approaches for old tasks, reducing duplication of service effort, creative application of new technologies, and more effective organizational arrangements are approaches to this challenge.

H. USE OF VOLUNTEERS

DISCUSSION

To respect residents who must pay taxes, the City must seek to expand resources and supplement service-delivery capacity by continuing to increase direct resident involvement with service delivery. Residents are encouraged to assume tasks previously performed or provided by City government. This may require the City to change and expand the approach to service delivery by providing organizational skills and training and coordinating staff, office space, meeting space, equipment, supplies and materials rather than directly providing more expensive full-time City staff. Activities in which residents can continue to take an active role include: Library, Recreation, Parks, Five Flags Center, and Police.

GUIDELINE

Future maintenance of City service levels may depend partially or largely on volunteer resident staffs. Efforts shall continue to identify and implement areas of City government where (a) volunteers can be utilized to supplement City employees to maintain service levels (i.e., Library, Recreation, Parks, Police) or (b) service delivery can be adopted by to non-government groups and sponsors -- usually with some corresponding financial support.

I. RESTRICTIONS ON INITIATING NEW SERVICE

GUIDELINE

New service shall only be considered: (a) when additional revenue or offsetting reduction in expenditures is proposed; or (b) when mandated by state or federal law.

J. SALARY INCREASES OVER THE AMOUNT BUDGETED SHALL BE FINANCED FROM BUDGET REDUCTIONS IN THE DEPARTMENT(S) OF THE BENEFITING EMPLOYEES

DISCUSSION

The recommended budget includes salary amounts for all City employees. However, experience shows that budgeted amounts are often exceeded by fact finder and/or arbitrator awards. Such "neutrals" do not consider the overall financial capabilities and needs of the community and the fact that the budget is carefully balanced and fragile. Such awards have caused overdrawn budgets, deferral of necessary budgeted expenditures, expenditure of working balances and reserves, and have generally reduced the financial condition or health of the City government. To protect the financial integrity of the City government, it is recommended the cost of any salary adjustment over the amount financed in the budget is paid for by reductions in the budget of the department(s) of the benefiting employees.

The City has five collective bargaining agreements. The current contracts expire as follows:

Bargaining Unit	Contract Expires
Teamsters Local Union No. 120	June 30, 2030
Teamsters Local Union No. 120 Bus Operators	June 30, 2030
Dubuque Professional Firefighters Association	June 30, 2027
Dubuque Police Protective Association	June 30, 2029
International Union of Operating Engineers	June 30, 2029

GUIDELINE

Salary increases over the amount budgeted for salaries shall be financed from operating budget reductions in the department(s) of the benefiting employees.

K. THE AFFORDABLE CARE ACT

GUIDELINE

The Affordable Care Act is a health care law that aims to improve the current health care system by increasing access to health coverage for Americans and introducing new protections for people who have health insurance. The Affordable Care Act (ACA) was signed into law on March 23, 2010. Under the ACA, employers with more than 50 full-time equivalent employees must provide affordable "minimum essential coverage" to full-time equivalent employees. The definition of a full-time equivalent employee under the Affordable Care Act is any employee that works 30 hours per week or more on average over a twelve-month period (1,660 hours or more). There is a twelve-month monitoring period for part-time employees. If a part-time employee meets or exceeds 30 hours per week on average during that twelve-month period, the City must provide health insurance. On July 2, 2013, the Treasury Department announced that it postponed the employer shared responsibility mandate for one year. Based on the initial requirements of the Affordable Health Care Act, the Fiscal Year 2014 budget provided for insurance coverage effective February 1, 2014 for several part-time employees. In addition, the Fiscal Year 2014 budget provided for making several part- time positions full-time on June 1, 2014. Due to the delay of the employer shared responsibility mandate for the Affordable Health Care Act, the City delayed providing insurance coverage for eligible part-time employees and delayed making eligible part- time positions full-time until January 1, 2015.The Standard Measurement Period was delayed from January 1, 2013 through December 31, 2013 to December 1, 2013 through November 30, 2014 with the first provision of health insurance date being January 1, 2015.

The impact of the Affordable Care Act on the City of Dubuque included changing nine part-time positions to full-time (Bus Operators (4), Police Clerk Typist (1), Building Services Custodians (3), and Finance Cashier (1) in Fiscal Year 2016. In addition, nine part-time positions were offered health insurance benefits due to working more than1,560 hours (Bus Operators (4), Golf Professional, Assistant Golf Professional, Golf Maintenance Worker, Parks Maintenance Worker , and Water Meter Service Worker). The number of these part-time positions with health insurance benefits has been reduced as employees in these positions accept other positions or leave employment with the City of Dubuque. As of March 17, 2026, there are no part-time positions with health insurance benefits that remains.

L. BALANCE BETWEEN CAPITAL AND OPERATING EXPENSES

GUIDELINE

The provision of City services in the most economical and effective manner requires a balance between capital (with emphasis upon replacement of equipment and capital projects involving maintenance and reconstruction) and operating expenditures. This balance should be reflected in the budget each year.

M. USER CHARGES

DISCUSSION

User charges or fees represent a significant portion of the income generated to support the operating budget. It is the policy that user charges or fees be established when possible so those who benefit from a service or activity also help pay for it. Municipal utility funds have been established for certain activities, which are intended to be self- supporting Enterprise Funds. Examples of utility funds operating as Enterprise Funds include Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund. In other cases, a user charge is established after the City Council determines the extent to which an activity must be self-supporting. Examples of this arrangement are fees for swimming, golf, recreation programs, and certain inspection programs such as rental inspections and building permits.

The Stormwater User Fund is fully funded by stormwater use fees. The General Fund will continue to provide funding for the stormwater fee subsidies which provide a 50% subsidy for the stormwater fee charged to property tax exempt properties and low-to- moderate income residents and a 75% subsidy for residential farms. The General Fund will also continue to provide funding for the refuse, water, and sanitary sewer fee subsidies which provide a 50% subsidy for the fees charged to low-to-moderate income residents.

GUIDELINE

User fees and charges should be established where possible so that those who utilize or directly benefit from a service, activity or facility also help pay for it.

User fees and charges for each utility enterprise fund (Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund) shall be set at a level that fully supports the total direct and indirect cost of the activity, including the cost of annual depreciation of capital assets, the administrative overhead to support the system and financing for future capital improvement projects.

	Percent Self-Supporting			
Activity	**FY 2024 Actual**	**FY 2025 Actual**	**FY 2026 Adopted**	**FY 2027 Rec'd**
Adult Athletics	77.2%	84.3%	61.7%	51.1%

Housing - General Inspection	95.6%	143.7%	107.6%	90.5%
Federal Building Maintenance	62.2%	83.2%	86.2%	85.7%

N. ADMINISTRATIVE OVERHEAD RECHARGES

DISCUSSION

While the Enterprise Funds have contributed to administrative overhead, the majority has been provided by the General Fund. This is not reasonable and unduly impacts property taxes, which causes a subsidy to the Enterprise Funds. Prior to FY 2013, the administrative overhead was charged by computing the operating expense budget for each enterprise fund and dividing the result by the total City-wide operating expense budget which resulted in the following percentages of administrative overhead charged to each enterprise fund: Water 5.32%; Sanitary Sewer 4.84%; Stormwater 0.55%; Solid Waste 2.83%; Parking 1.71%; and Landfill 2.71%. The adopted Fiscal Year 2013 budget changed the administrative overhead to be more evenly split between the general fund and enterprise funds and is phased in over many years.

The Fiscal Year 2018 administrative overhead formula was recommended modified. The modification removed Neighborhood Development, Economic Development and Workforce Development from all recharges to utility funds. In addition, the Landfill calculation is modified to remove Geographic Information Systems and Planning Services. The Fiscal Year 2027 administrative overhead formula is recommended to be modified to include the Landfill in Communication Department recharges.

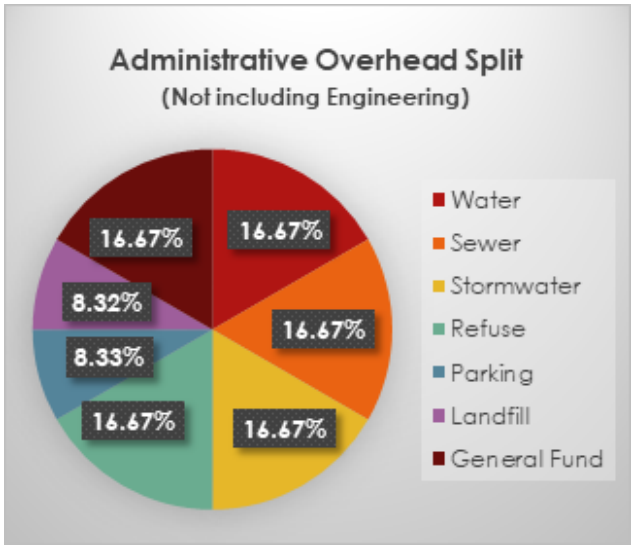

In Fiscal Year 2027, the general fund is recommended to support $2,841,058 in administrative overhead using the recharge method adopted in Fiscal Year 2013 and revised in Fiscal Year 2018.

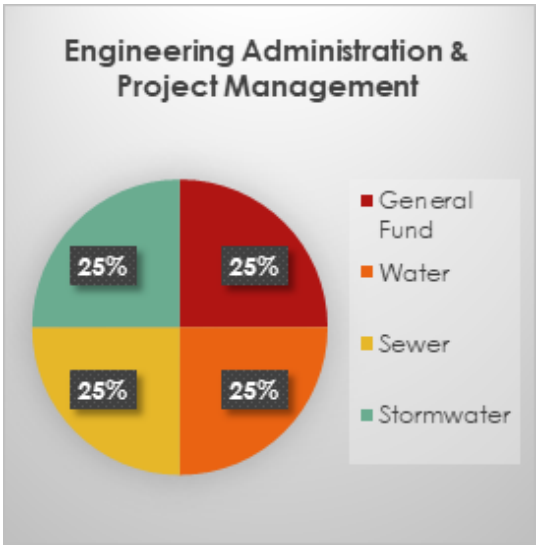

GUIDELINE

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Planning, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

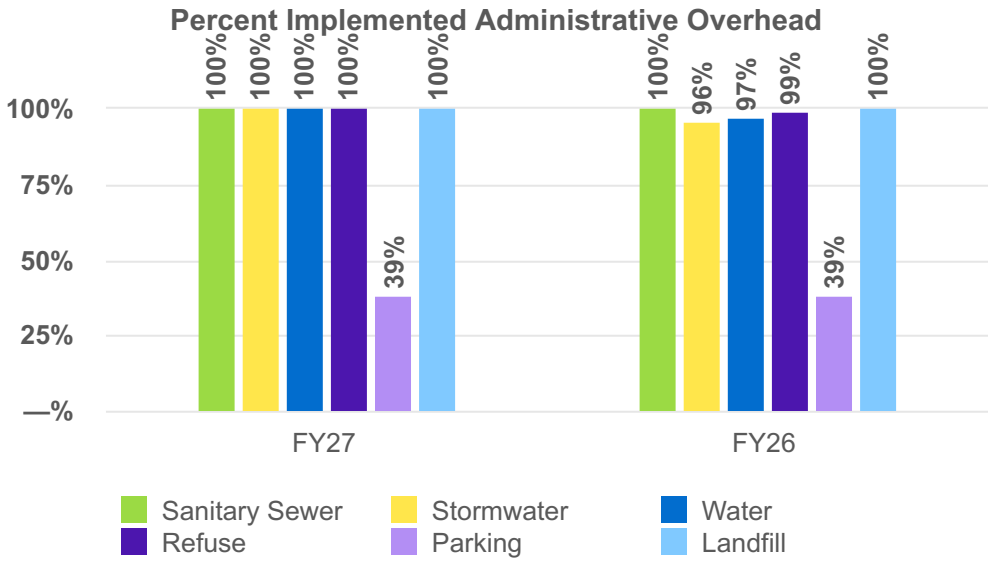

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses. In Fiscal Year 2027, the Communications Department is also recharged to the Landfill.

When the overhead recharges are fully implemented, the split of the cost of administrative overhead excluding Engineering will be as follows:

The implementation percent of the administrative overhead recharges in Fiscal Year 2026 as compared to Fiscal Year 2027 is as follows:

O. OUTSIDE FUNDING

DISCUSSION

The purpose of this guideline is to establish the policy that the City should aggressively pursue outside funding to assist in financing its operating and capital budgets.

However, the long-term commitments required for such funding must be carefully evaluated before any agreements are made. Commitments to assume an ongoing increased level of service or level of funding once the outside funding ends must be minimized.

GUIDELINE

To minimize the property tax burden, the City of Dubuque will make every effort to obtain federal, state and private funding to assist in financing its operating and capital budgets. However, commitments to guarantee a level of service or level of funding after the outside funding ends shall be minimized. Also, any matching funds required for capital grants will be identified.

P. GENERAL FUND OPERATING RESERVE (WORKING BALANCE)

DISCUSSION

An operating reserve or working balance is an amount of cash, which must be carried into a fiscal year to pay operating costs until tax money, or other anticipated revenue comes in. Without a working balance, there would not be sufficient cash in the fund to meet its obligations and money would have to be borrowed. Working balances are not available for funding a budget; they are required for cash flow (i.e., to be able to pay bills before taxes are collected).

Moody's Investor Service recommends a factor of 35 percent for “AA” rated cities. In January 2025, Moody’s Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody’s credit analysis states, “the City of Dubuque’s local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs.” According to Moody’s, the Aa2 issuer rating for the City of Dubuque’s bonds reflects the city’s healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City’s available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody’s Investor Service upgraded the City’s outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody’s Investors Service (“Moodys”) released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio (“AFBR”) = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio (“LR”) = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody’s under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody’s calculated the City’s AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City’s general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City’s ratings.

In May 2021, Moody’s Investor Service upgraded the City’s Water Enterprise’s outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As % of General Fund revenues)	New Moody's Calculation	Reason for change from previous FY
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	43.07%	58.14%	Decrease due to spend down of American Rescue Plan Act funds.

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which are adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy. Per the policy for the General Fund, the City will maintain a minimum fund balance of at least 20 percent of the sum of (a) annual operating expenditures not including interfund transfers in the General Fund less (b) the amounts levied in the Trust and Agency fund and the Tort Liability Fund ("Net General Fund Operating Cost"). The City may increase the minimum fund balance by a portion of any operating surplus above the carryover balance of $200,000 that remains in the General Fund at the close of each fiscal year. The City continued to add to the General Fund minimum balance when additional funds were available until 20 percent of Net General Fund Operating Cost was reached in Fiscal Year 2017. **During Fiscal Year 2024, the General Fund minimum balance was increased to 25 percent.**

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be $26,946,677 on June 30, 2026 as compared to the general fund reserve balance on an accrual basis of $25,412,743. The general fund reserve balance on an accrual basis exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

GUIDELINE

The guideline of the City of Dubuque is to maintain a General Fund working balance or operating reserve of 25% (27% to maintain a margin of error of 2%) in FY 2026 and beyond. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2023. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

General Fund Reserve Projections:

Fiscal Year	Contribution	City's Spendable General Fund Cash Reserve	% of Projected Revenue	Moody's New Methodology
FY2021	$ 500,000	$ 31,089,468	40.72 %	
FY2022	$	$ 41,259,518	49.16 %	45.09 %
FY2023	$ 2,717,339	$ 48,403,917	55.82 %	62.99 %
FY2024	$ 4,419,668	$ 43,826,193	51.19 %	62.41 %
FY2025	$ 415,247	$ 38,147,743	40.53 %	52.33 %
FY2026	$ 1,823,234	$ 25,412,743	27.00 %	45.03 %
FY2027	$	$ 25,412,743	27.00 %	45.03 %
FY2028	$	$ 25,412,743	27.00 %	45.03 %
FY2029	$	$ 26,388,917	27.00 %	45.03 %
FY2030	$	$ 25,412,743	27.00 %	43.60 %

* Capital projects and large equipment purchases that are not completed in the year budgeted will temporarily increase the amount of fund balance remaining at the end of the fiscal year. After resources are allocated to the next fiscal year to complete unfinished capital projects and equipment purchases, **any amount of general fund reserve balance over 27% creates resources for additional capital projects or other mid-year expenses.**

Q. STATE LEGISLATIVE ANTICIPATION RESERVE FUND

DISCUSSION

The State Legislative Anticipation Reserve Fund is a new fund and is being established in Fiscal Year 2027 using $2.4 million generated from the repayment of internal loans to the City's General Fund from the Greater Downtown TIF (GDTIF) Fund.

This reserve is being created in recognition of the significant property tax reform proposals being considered during the current State legislative session. Because these reforms could materially affect the City's future revenue structure, it is financially prudent to maintain an additional reserve to help absorb any potential impacts. Retaining this balance through the FY 2028 budget cycle ensures the City can respond responsibly should legislative changes reduce or otherwise alter revenues.

The actual total repayment was $5.3 million, with $1.2 million for property tax relief, $2,187 used to fund non-recurring General Fund improvement requests, and to make a $675,554 internal loan to the Refuse Collection enterprise fund.

If the City Council elects to use any portion of the State Legislative Anticipation Reserve Fund before FY 2028, such use must be limited strictly to non-recurring expenses. This preserves the integrity of the reserve by ensuring one-time funds are not used to support ongoing operational costs, maintaining long-term fiscal sustainability.

GUIDELINE

The guideline of the City of Dubuque is to maintain a State Legislative Anticipation Reserve Fund through Fiscal Year 2028. The reserve balance is funded with one-time revenue from the repayment of internal loans to the General Fund from the GDTIF Fund in the amount of $4.1 million.

R. USE OF UNANTICIPATED, UNOBLIGATED, NONRECURRING INCOME

DISCUSSION

Occasionally, the City receives income that was not anticipated and was not budgeted. Often, this money is non-recurring and reflects a one-time occurrence which generated the unanticipated increase in income.

Non-recurring income generally will not be spent on recurring expenses. This would result in a funding shortfall in the following budget year before even starting budget preparation. However, eligible non-recurring expenditures would include capital improvements and equipment purchases.

GUIDELINE

Nonrecurring unobligated income shall generally only be spent for nonrecurring expenses. Capital improvement projects and major equipment purchases tend to be nonrecurring expenditures.

S. USE OF "UNENCUMBERED FUND BALANCES"

DISCUSSION

Historically, 100% of a budget is not spent by the end of the fiscal year and a small unencumbered balance remains on June 30th. In addition, income sometimes exceeds revenue estimates or there are cost savings resulting in some unanticipated balances at the end of the year. These amounts of unobligated, year-end balances are "carried over" into the new fiscal year to help finance it.

The FY 2026 General Fund budget, which went into effect July 1, 2025, anticipated a "carryover balance" of $200,000 or approximately 0.7 percent of the City tax asking. For multi-year budget planning purposes, these guidelines assume a carryover balance of $200,000 in FY 2027 through FY 2031.

GUIDELINE

Carryover General Fund balance shall generally be used to help finance the next fiscal year budget and reduce the demand for increased taxation. The available carryover General Fund balance shall be anticipated not to exceed $200,000 for FY 2027 and beyond through the budget planning period. Any amount over that shall usually be programmed in the next budget cycle as part of the capital improvement budgeting process.

T. PROPERTY TAX DISCUSSION

I. ASSUMPTIONS - RESOURCES

1. Local, Federal and State Resources

a) **Cash Balance.** Unencumbered funds or cash balances of $200,000 will be available in FY 2027 and each succeeding year to support the operating budget.

b) **Interest Revenue.** Interest revenue decreased from $2,300,097 in FY 2026 to $1,620,974 in FY 2027. The FY 2027 budget is based on projected general fund cash balance, and projected declining interest rates.

c) **Sales Tax Revenue.** By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2027. Sales tax receipts are projected to decrease 0.74% under FY 2026 actual of $12,465,961 based on FY 2026 revised revenue estimate which includes actuals through February 2026, and then increase at an annual rate of 2.00% percent per year beginning in FY 2028. The following chart shows the past four years of actual sales tax funds and projected FY 2027 for the General Fund:

Sales Tax Funds	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
PY Q4	$ 475,037	$ 475,037	$ 451,920	$ 574,416	$ 635,746
Quarter 1	1,177,196	1,177,196	1,545,777	1,592,834	1,610,911
Quarter 2	1,522,885	1,522,885	1,596,421	1,605,397	1,302,193
Quarter 3	1,443,097	1,443,097	1,524,508	1,490,640	1,576,480
Quarter 4	1,110,593	1,110,593	979,209	969,694	1,061,815
Reconciliation	371,388	371,388	—	—	—
Total	$ 6,100,196	$ 6,097,835	$ 6,232,981	$ 6,187,145	$ 6,372,757
% Change	**-4.00%**	**-0.04%**	**+2.22%**	**-0.74%**	**+3.00%**

d) Hotel/Motel Tax Revenue. Hotel/motel tax receipts are projected to increase 5.00% ($167,286) over FY 2026 re-estimated receipts of $3,345,715, and then increase at an annual rate of 3.00% per year.

e) FTA Revenue. Federal Transportation Administration (FTA) transit operating assistance decreased from $598,167 in FY 2026 to $443,500 in FY 2027. The FY 2027 budget is based on the revised FY 2026 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

f) Ambulance Revenue. Ambulance Ground Emergency Medical Transport Payments increased from $2,413,018 in FY 2026 to $2,714,947 in FY 2027. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2021. FY 2027 is based on calculated projections using historical averages. This revenue is projected using the first quarter of performance in FY 2025 and the previous 11 quarters of performance. Based on that formula, the 3-year quarterly average growth of Medicaid transports is 0.8%. The projected number of transports for FY 2025 is 1,084 and for FY 2026 is 1,092. The FY 2024 actual was 1,075. Based on the unaudited FY 2024 cost report, the FY 2026 revenue per transport is estimated to be $2,209.18. This line item is offset by GEMT Pay to Other Agency expense for local match of $904,973 resulting in net revenue of $1,809,974.

Ambulance Fees increased from $1,756,870 in FY 2026 to $2,778,351 in FY 2027 based on calculated projections using historical averages and Council approved advanced life support and basic life support service fees to match the third-party cost report. The FY 2025 actual was $2,026,670.

As the City Council approved in 2025, these funds are being used to add five firefighter positions in Fiscal Year 2026 and should the City receive a SAFER grant, nine more firefighter positions in Fiscal Year 2027.

g) Miscellaneous Revenue. Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2026.

h) Building Fee Revenue. Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase $101,389 from $1,099,857 in FY 2026 to $1,201,246 in FY 2027.

i) **DRA Revenue.** Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to decrease $134,176 from $7,213,362 in FY 2026 to $7,079,186 in FY 2027 based on revised projections from the DRA. This follows a $192,217 decrease from budget in FY 2026 and a $2,283,319 increase from budget in FY 2025.

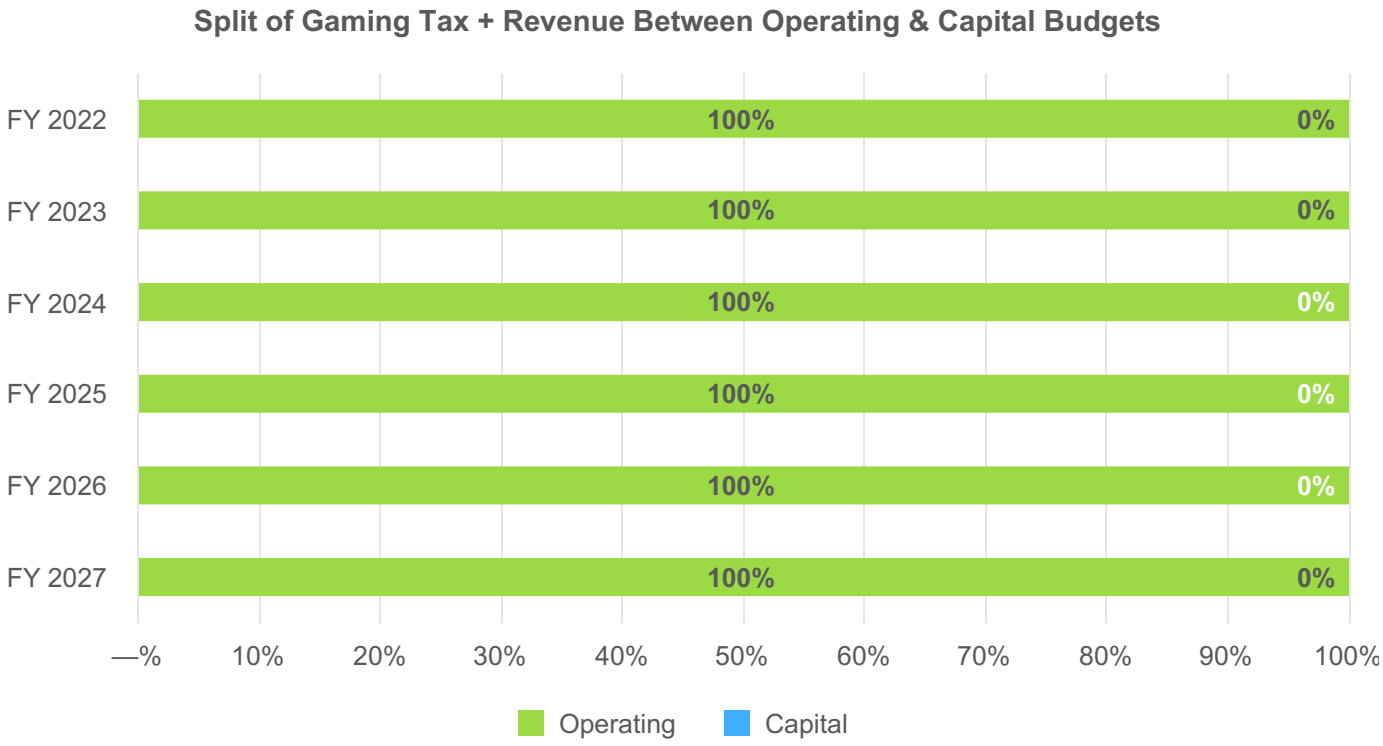

The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease Payments	$ Change	% Change
FY 2027 Projected	$ 7,079,186	$ 127,716	1.84%
FY 2026 Revised	$ 6,951,470	$ (261,892)	-3.63%
FY 2026 Budget	$ 7,213,362	$ 349,629	5.09%
FY 2025 Actual	$ 6,863,733	$ 589,707	9.40%
FY 2024 Actual	$ 6,274,026	$ (917,449)	-12.76%
FY 2023 Actual	$ 7,191,475	$ 583,944	8.84%
FY 2022 Actual	$ 6,607,531	$ 2,645,535	66.77%
FY 2021 Actual	$ 3,961,996	$ (1,187,192)	-23.06%
FY 2020 Actual	$ 5,149,188	$ 293,177	6.04%
FY 2019 Actual	$ 4,856,011	$ 18,879	0.39%
FY 2018 Actual	$ 4,837,132	$ (195,083)	-3.88%
FY 2017 Actual	$ 5,032,215	$ (155,297)	-2.99%
FY 2016 Actual	$ 5,187,512	$ (158,104)	-3.00%

The Diamond Jo payment related to the revised parking agreement increased from $687,003 in FY 2026 to $731,657 in 2027 based on estimated Consumer Price Index adjustment.

j) **DRA Gaming.** The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2027 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2022– FY2027:

k) **Diamond Jo Revenue.** The Diamond Jo Patio lease ($25,000 in FY 2027) and the Diamond Jo parking privileges ($731,657 in FY 2027) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

2. Property Taxes

l) **Residential Rollback.** The residential rollback factor will decrease from 47.4316% in 2026 to 44.5345% or a 6.11% decrease in FY 2027. The rollback has been estimated to remain the same from Fiscal Years 2028 through 2031.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2027, residential property had more growth than agricultural property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average residential property value increased 8.50%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from $93,207 to $94,952 (+1.87%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This increased taxable value for the average homeowner ($91,067 taxable value in FY 2026 and $94,952 taxable value in 2027) results in more taxes to be paid per $1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 44.5345 percent in Fiscal Year 2027. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2026, the City's tax rate would have been $6.18 per $1,000 of assessed value instead of $10.06 in FY 2026.

m) **State Equalization Order/Property Tax Reform.** There was not an equalization order for commercial, industrial or multi-residential property in Fiscal Year 2027. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average commercial and industrial property values increased 16%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from $540,594 to $624,927 (+16%). This revaluation of industrial property resulted in the taxable value for the average industrial calculation to increase from $632,952 to $731,693 (+16%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2027 State backfill for property tax loss is estimated to be $484,830 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds)**.

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2027	$ (97,981)
2028	(97,981)
2029	(97,981)
2030	(97,981)
Total	**$ (391,924)**

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties ($432,475 Commercial / $599,500 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of $148 in FY 2015, $693 in FY 2016, $982 in FY 2017, $959 in FY 2018, $843 in FY 2019, $861 in FY 2020, $779 in FY 2021, $780 in FY 2022, and $722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.

The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2027 is estimated to be $170,000.

n) Multi-Residential Property Class/Eliminated State Shared Revenue.

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239
FY 2018	82.50%	472,127
FY 2019	78.75%	576,503
FY 2020	75.00%	691,640
FY 2021	71.25%	952,888
FY 2022	67.50%	752,366
FY 2023	63.75%	662,821
FY 2024	54.65%	1,186,077
Total		**$ 5,625,661**

This annual loss in tax revenue of $1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost $5,625,661 in total, meaning landlords paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class, so the City continues to lose these revenues.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

a) Machinery and Equipment Tax Replacement in FY 2003 (-$200,000)
b) Personal Property Tax Replacement in FY 2004 (-$350,000)
c) Municipal Assistance in FY 2004 (-$300,000)
d) Liquor Sales Revenue in FY 2004 (-$250,000)
e) Bank Franchise Tax in FY 2005 (-$145,000)
f) Alcohol License Revenue in FY 2023 (-$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

o) Taxable Value. FY 2027 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+3.51 %
Commercial	+15.63 %
Industrial	+8.22 %
Overall	+5.89 %

*Overall taxable value increased +5.89% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2027.

p) Greater Downtown Tax Increment Financing

- In Fiscal Year 2027, $5.3 million in internal loans will be repaid by the Greater Downtown Tax Increment Financing Fund to the General Fund. $1.2 million of the repayment is recommended to be used for general property tax relief and recurring improvement packages in the general fund in Fiscal Year 2027. A portion of the remaining $4.1 million is recommended to fund non-recurring improvement packages of $2,187 in the general fund. $675,554 will be used as an internal loan to the Refuse Collection enterprise fund. The balance will be reserved for the Fiscal Year 2028 budget process as the City needs to be prepared for property tax reform being considered in the State legislative session.

- Beginning in Fiscal Year 2028, the Greater Downtown Tax Increment Financing District will no longer collect 100% of revenues. Instead, the Greater Downtown TIF District will begin collecting 75% of revenues. The remaining 25% will be returned to the general funds of all taxing bodies (Dubuque Community School District, City of Dubuque, Dubuque County, Northeast Iowa Community College, and Independent). Based on Fiscal Year 2027 valuations and the Fiscal Year 2026 consolidated tax rate, collecting only 75% in the Greater Downtown TIF District will annually return approximately $1.3 million to Dubuque Community School District, $1.2 million annually to the City of Dubuque, $661 thousand annually to Dubuque County, $81 thousand annually to Northeast Iowa Community College, and $81 thousand annually to Independent taxing bodies. This also means that beginning in Fiscal Year 2028, the Greater Downtown TIF District will have $3,250,000 less each year for programs and projects.

r) Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by $101,268 in FY 2027 to $4,374,313 due to the estimated consumer price index increase.

3. Fees, Tax Rates & Services

s) Franchise Fees. Natural Gas franchise fees are based on FY 2025 actual of $1,743,494. Also, Electric franchise fees are based on FY 2026 budget of $5,075,053 plus rate increases of 5.6%. The franchise fee revenues are projected to increase at an annual rate of 4 percent per year from FY 2028 through FY 2031.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

t) **Property Tax Rate.** For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2027.

u) **Police & Fire Protection.** FY 2027 reflects the fifteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2027, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

II. ASSUMPTIONS - REQUIREMENTS

a) **Pension Systems.**

- The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.56% percent in FY 2026 to 21.86% percent in FY 2027 (general fund savings of $80,480 for Police and $75,845 for Fire or a total savings of $156,325).
- The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2026 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2026 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b) **Collective Bargaining and Non-Represented.** The already approved collective bargaining agreements for Dubuque Professional Fire Fighters Association includes a 4% increase, International Union of Operating Engineers includes a 3.25% wage increase, the Dubuque Police Protective Association includes a 5% wage increase, and the Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 include a 3% increase. Non-represented employees include a 3.00% wage increase. Fiscal Year 2027 includes the cost of the multi-year implementation of the classification and compensation study. A classification and compensation study analyzes the job positions (not individuals) in an organization. The purpose of a classification and compensation study is to ensure jobs with comparable minimum qualifications, job responsibilities, supervisory expectations, working conditions and environments are grouped closely in a compensation plan. Salary ranges are competitive within the identified market, and to equip the human resources team to consistently administer classification and compensation programs on an ongoing basis. The City's strategy through this study has been to recommend a new compensation strategy in which the City is competitive at the 50% percentile of employers. Total cost of the wage increases for collective bargaining and non-represented employees, and continued classification and compensation study implementation is $3,509,780 to the General Fund.

c) **Health Insurance.** The City portion of health insurance expense is projected to increase from $1,119 per month per contract to $1,175 per month per contract (based on 662 contracts) in FY 2027 (increase of $589,333 to the general fund). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings.There was a decrease of $639,758 in prescription drug cost in FY 2022. Based on FY 2026 actual experience, Fiscal Year 2027 is projected to have a 5.35% increase in health insurance costs. Estimates for FY 2028 were increased 5.36%; FY 2029 were increased 5.37%; FY 2030 were increased 5.38%; and FY 2031 were increased 5.38%. Effective January 1, 2027, employee contributions will increase.

d) **Five-Year Retiree Sick Leave Payout.** FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2026 was $288,742 as compared to FY 2027 of $228,836, based on qualifying employees officially giving notice of retirement.

e) **50% Sick Leave Payout.** Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2026 was $128,496 as compared to FY 2027 of $141,764, based on FY 2026 year-to-date expense.

f) **Parental Leave.** Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

g) **Supplies & Services.** General operating supplies and services are estimated to increase 2% over actual in FY 2025. A 2% increase is estimated in succeeding years

h) **Electricity.** Electrical energy expense is estimated to increase 4% over FY 2025 actual expense, then 2% per year beyond.

i) **Natural Gas.** Natural gas expense is based on FY 2025 actual then 2% per year beyond.

j) **Travel Dubuque.** The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k) **Equipment & Machinery.** Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget based on equipment replacement schedules, then remain constant per year beyond.

l) **Debt Service.** Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m) **Unemployment.** Unemployment expense in the General Fund decreased from $23,824 in FY 2026 to $27,007 in FY 2027 based on estimated premium for FY2026.

n) **Motor Vehicle Fuel.** Motor vehicle fuel is estimated to decrease 30% under the FY 2026 budget based on the City fuel island fully operational in FY 2027and no longer purchasing from retail gas stations, then increase 2.0% per year beyond.

o) **Motor Vehicle Maintenance**. Motor vehicle maintenance is based on the FY 2026 budget, then increase 2.0% per year and beyond.

p) **Public Transit.** The increase in property tax support for Transit from FY 2026 to FY 2027 is $434,533, which reflects a decrease in Federal Transportation Administration Operating revenue ($154,667); a decrease in Federal Transportation Administration Capital ($344,329), an increase in employee expense ($111,155); decrease in supplies and services ($120,569); a reduction in equipment replacements ($99,615), a decrease in passenger fare revenue ($2,579).

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
2027 Projection	$ 2,361,869	22.55 %
2026 Budget	$ 1,927,336	(1.74)%
2025 Actual	$ 1,961,488	26.70 %
2024 Actual	$ 1,548,127	(1.52)%
2023 Actual	$ 1,571,981	(1.83)%
2022 Actual	$ 1,601,290	(2.09)%
2021 Actual	$ 1,635,441	4.94 %
2020 Actual	$ 1,558,460	(0.82)%
2019 Actual	$ 1,571,307	(0.10)%
2018 Actual	$ 1,572,825	34.10 %
2017 Actual	$ 1,172,885	24.41 %
2016 Actual	$ 942,752	(13.00)%

q) **Shipping & Postage.** Postage rates for FY 2027 are estimated to increase 5% over FY 2025 actual expense and proposed cost increases by United States Postal Service. A 3.0 percent increase is estimated in succeeding years.

r) **Insurance.** Insurance costs are estimated to change as follows:

- Workers Compensation is decreasing 44.18% based on rate change.
- General Liability is decreasing 3.06% based on rate change.
- Damage claims is decreasing 6.86% based on a three year average.
- Property insurance is increasing based on FY 2026 actual over 2%.

s) **Housing.** The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease $69,521 in FY 2027. The budgeted administrative cost of the Housing Choice Voucher Program decreased from $1,129,462 in FY 2026 to $988,895 in FY 2027. Administrative revenue of the Housing Choice Voucher Program decreased from $912,012 in FY 2026 to $827,089 in FY 2027. The resulting Housing Choice Voucher Program deficit decreased from $217,450 in FY 2026 to $161,806 in FY 2027. This deficit is funded by property taxes.

t) **Communications Department.** In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, was no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position was recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions were recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

u) **Greater Dubuque Development Corporation.** Greater Dubuque Development Corporation support of $836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2027, with $26,500 for Targeted Neighborhood Reinvestment strategy paid from the Greater Downtown TIF. In FY 2028 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

PROPERTY TAX IMPACT

The recommended Fiscal Year 2027 property tax rate increased 1.38% and will have the following impact:

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$ 10.0637	$ 10.1648	1.00%	$ 0.10
Property Tax Asking	$ 29,872,253	$ 31,940,934	6.93%	$ 2,068,681

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %

FY 2030	"City" Property Tax	$ 999.06	+1.80%	$ -4.69
FY 2031	"City" Property Tax	$ 1,086.50	+2.32%	$ +23.59

* Denotes year of State-issued equalization orders.
^ Impact to average homeowner if the State funds the Homestead Property Tax Credit at 62%.
(1) The FY 2006 property tax calculation considers the 6.2% valuation increase for the average residential homeowner as determined by the reappraisal.
(2) Offsets the impact of the State reduced Homestead Property Tax Credit in FY 2005 & 2006.
(3) The City adopted a budget in FY 2011 and 2012 that provided no increase to the average homeowner. The State of Iowa underfunded the Homestead Property Tax Credit in both years costing the average homeowner an additional $18.59 in FY 2012 and $11.51 in FY 2013. This provided no additional revenues to the City, as this money would have come to the City from the State if they appropriated the proper amount of funds.

Homestead Property Tax Credit

The Homestead Property Tax Credit was established by the state legislature to reduce the amount of property tax collected. The intent of the credit was to be a form of tax relief and provide an incentive for home ownership. The State Homestead Property Tax Credit works by discounting the tax collected on the first $4,850 of a property's taxable value. This has no impact on what the City receives from property tax collections, but provides tax relief for the average homeowner.

Beginning FY 2004, the State of Iowa did not fully fund the State Homestead Property Tax Credit resulting in the average homeowner paying the unfunded portion. Again, this has no impact on what the City receives, however as a result has caused the average homeowner to pay more taxes.

IMPACT ON COMMERCIAL PROPERTY - EXAMPLE

ACTUAL - HISTORICAL		CITY TAX CALCULATION *	BUSINESS PROPERTY TAX CREDIT	DOLLAR CHANGE	PERCENT CHANGE
FY 1989	"City" Property Tax	$2,106.42		-$384.19	-15.43%

*Net of Business Property Tax Credit

The average annual dollar change in commercial property taxes from 1989-2026 is a increase of $46.40. The average annual dollar change over the last five years is a increase of +$216.89.

Projected impact on average commercial property:

PROJECTED		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2027	“City” Property Tax	$5,023.81	+$770.05	+18.10%
FY 2028	“City” Property Tax	$5,408.69	+$384.88	+7.66%
FY 2029	“City” Property Tax	$5,505.84	+$97.15	+1.80%
FY 2030	“City” Property Tax	$5,505.84	+$97.15	+1.76%
FY 2031	“City” Property Tax	$5,959.77	+$479.63	+8.71%

(1) The FY 2006 property tax calculation considers the 19.9% valuation increase for industrial property as determined by the reappraisal.
(2) The Business Property Tax Credit was $148 and rollback to 95% in FY 2015.
(3) The Business Property Tax Credit was $693 and rollback to 90% in FY 2016.
(4) The Business Property Tax Credit was $982 and rollback to 90% in FY 2017.
(5) The Business Property Tax Credit was $959 and rollback to 90% in FY 2018.
(6) The Business Property Tax Credit was $843 and rollback to 90% in FY 2019.
(7) The Business Property Tax Credit was $861 and rollback to 90% in FY 2020.
(8) The Business Property Tax Credit was $779 and rollback to 90% in FY 2021.
(9) The Business Property Tax Credit was $780 and rollback to 90% in FY 2022.
(10) The Business Property Tax Credit was $722 and rollback to 90% in FY 2023.
(11)From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. Beginning in FY 2024, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated. The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2024 is estimated to be $587,446.

IMPACT ON MULTI-RESIDENTIAL PROPERTY - EXAMPLE

ACTUAL – HISTORICAL		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2015	"City" Property Tax	$2,349.34		
FY 2016	"City" Property Tax	$2,225.69	-$123.65	-5.26%
FY 2017	"City" Property Tax	$2,160.39	-$65.30	-2.93%
FY 2018	"City" Property Tax	$2,015.48	-$144.91	-6.71%
FY 2019	"City" Property Tax	$1,870.21	-$145.27	-7.21%
FY 2020	"City" Property Tax	$1,737.92	-$132.29	-7.07%
FY 2021	"City" Property Tax	$1,896.65	+$158.73	+9.13%
FY 2022	"City" Property Tax	$1,751.66	-$144.99	-7.64%
FY 2023	"City" Property Tax	$1,625.55	-$126.11	-7.20%
FY 2024	"City" Property Tax	$1,419.97	-$205.58	-12.65%
Average FY 2016-FY 2024			**-$103.26**	**-5.28%**

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa will not backfill property tax loss from the rollback on multi-residential property. The rollback will occur as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239.03
FY 2018	82.50%	472,126.87
FY 2019	78.75%	576,503.10
FY 2020	75.00%	691,639.58
FY 2021	71.25%	952,887.71
FY 2022	67.50%	752,366.11
FY 2023	63.75%	662,820.79
FY 2024	+54.65%	1,186,077.35
Total		$ 5,625,661.00

*54.65% = Current residential rollback

This annual loss in tax revenue of $1,186,077 from multi-residential property when fully implemented in FY 2024 will not be backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City will lose $5,625,661 in total, meaning landlords will have paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

HISTORY OF INCREASES IN PROPERTY TAX ASKINGS

Year	Tax Askings	% Change in Tax Askings	Impact on Homeowner**

Average FY 1989-2026		**+2.79%**	**+1.04%**

**Does not reflect State unfunded portion of Homestead Credit.

IMPACT ON TAX ASKINGS AND AVERAGE RESIDENTIAL PROPERTY

To maintain the current level of service based on the previous assumptions would require the following property tax asking increases:

Fiscal Year	"City" Property Tax Askings	% Change in Tax Askings	% Impact on Avg. Residential Property	$ Impact on Avg. Residential Property
FY 2027	$31,940,934	+6.93%	+3.00%	+$26.67
FY 2028	$35,051,083	+9.74%	+7.66%	+$70.17
FY 2029	$36,391,827	+3.83%	+1.80%	+$17.71
FY 2030	$36,830,993	+1.21%	-0.47%	-$4.69
FY 2031	$41,128,960	+11.67%	+2.32%	+$23.59

GUIDELINE

The recommended guideline is a 3.00% or $26.67 increase for the average residential property owner assuming the Homestead Property Tax Credit is fully funded. A one percent increase in the tax rate will generate approximately $315,717.

These guidelines include an estimated $597,760 for recurring and $2,187 for non-recurring improvement packages funded by a portion of the $5.3 million in internal loans repaid to the General Fund by the Greater Downtown TIF District and increased ambulance fees. Future years of the recurring improvement packages will be funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. The amount of improvement packages funded may change as the FY2027 budget is not yet finalized.

Iowa House File 718 passed during the 2023 legislative sessions, replaces previous changes made through Iowa Senate File 634 passed during the 2019 legislative sessions, makes changes to Iowa city and county budgets and taxes for Fiscal Year 2025 and later. Additional steps have been added to the budget approval process. The City of Dubuque is specifically impacted by the following steps of this new legislation:

1. Limits the General Fund levy by constraining growth by 2% or 3% each year, depending on the trigger hit:

   Non-TIF taxable growth under 3%, no reduction
   Non-TIF taxable growth over 3% but less than 6%, 2% reduction factor applied
   Non-TIF taxable growth over 6%, 3% reduction factor is applied

   The City of Dubuque Non-TIF taxable growth for FY2027 is 5.89%, the General Fund levy is constrained by a growth reduction factor of 2%. The General Fund levy for FY2027 is $7.78547 instead of the maximum levy of $8.10.

   Although the City is restricted to $7.63281 in the General Fund levy, the City has the flexibility to levy up to $16.8 million or a levy rate of $5.3643 in the Special Revenue Levies for employee benefits. In Fiscal Year 2026, the Special Revenue levy was $1.02401 and totaled $3.0 million. Any reduction in the General Fund levy can be in the Special Revenue levies.

2. March 5: Cities must file a report with Iowa Department of Management containing information specified by new law to be contained in mailings.

3. March 20: County Auditor must send each property owner or taxpayer with the county by regular mail an individual statement with the specified information broken out by political subdivision comprising the taxpayer's district.

4. Taxpayer Statements must include:

    - Total Current Year Tax Rate and Dollars
    - Combined effective property tax rate for the city calculated using the sum of the current fiscal year's actual property tax certified for levy of all of city's levies
    - Proposed Budget Year Tax Rate and Dollars
    - If the Proposed Budget Property Tax Dollars exceed the current fiscal year's actual property tax dollars, a detailed statement of the major reasons for the increase, including the specific purposes or programs for which the city is proposing an increase
    - An example comparing the amount of property taxes on a residential property with an actual value of $100,000 in the current fiscal year and such amount on the residential property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
    - An example comparing the amount of property taxes on a commercial property with an actual value of $100,000 in the current fiscal year and such amount on the commercial property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
    - The city's percentage of total property taxes certified for levy in the owner's or taxpayer's taxing district in the current fiscal year amount all taxing authorities.
    - The date, time, and location of the city's public hearing on the information contained in the statements.
    - Information on how to access the city's internet site, the city's statements, and other budget documents for prior fiscal years.

5. Public hearing on proposed property tax amounts for the budget year and new taxpayer statements.

    - In addition to public hearing to adopt the budget.
    - Replaces maximum property tax dollars public hearing held in prior years.
    - Must be separate from any other meeting of City Council, including any other meeting or hearing related to the budget.
    - City Council can decrease, but not increase, the proposed property tax amount to be included in the budget.

6. Budget Certification deadline to Iowa Department of Management is April 30th instead of March 31st.

    - If City is issuing new debt that uses the debt service levy, budget must be adopted by April 15th.

CAPITAL IMPROVEMENT BUDGET GUIDELINES

U. INTEGRATION OF CAPITAL RESOURCES

GUIDELINE

To obtain maximum utilization, coordination and impact of all capital improvement resources available to the City, state and federal block and categorical capital grants and funds shall be integrated into a comprehensive five-year Capital Improvement Program (CIP) for the City of Dubuque.

V. INTEGRITY OF CIP PROCESS

GUIDELINE

The City shall make all capital improvements in accordance with an adopted Capital Improvement Program (CIP). If conditions change and projects must be added and/or removed from the CIP, the changes require approval by the City Council.

W. RENOVATION AND MAINTENANCE

GUIDELINE

Capital improvement expenditures should concentrate on renovating and maintaining existing facilities to preserve prior community investment.

X. NEW CAPITAL FACILITIES

GUIDELINE

Construction of new or expanded facilities which would result in new or substantially increased operating costs will be considered only if:

1) their necessity has been clearly demonstrated

2) their operating cost estimates and plans for providing those operating costs have been developed

3) they can be financed in the long term; and

4) they can be coordinated and supported within the entire system.

Y. COOPERATIVE PROJECTS

GUIDELINE

Increased efforts should be undertaken to enter mutually beneficial cooperative capital improvement projects with the county, school district and private groups. Examples include cost-sharing to develop joint-use facilities and cost-sharing to improve roads and bridges are examples.

Z. USE OF GENERAL OBLIGATION BONDS

DISCUSSION

The Iowa Constitution limits the General Obligation debt of any city to 5% of the actual value of the taxable property within the city. The Iowa legislature has determined that the value for calculating the debt limit shall be the actual value of the taxable property prior to any "rollback" mandated by state statute.

On October 15, 2012, the City Council adopted a formal Debt Management Policy for the City of Dubuque. An amendment to this policy was adopted by City Council on December 15, 2025. Prior to adoption of the formal policy, the City had already been practicing much of the policy, although the formal policy included some new additions. The most significant components of the Debt Management Policy include an internal policy of maintaining the City's general obligation outstanding debt at no more than 95% (except as a result of disasters) of the limit prescribed by the State constitution as of June 30th of each year. It is projected as of June 30, 2026 the City will be at 35.58%. City will not use short-term borrowing to finance operating needs except in the case of an extreme financial emergency which is beyond its control or reasonable ability to forecast. Currently there is no such debt, and none will be recommended in this process.

Bond Financing Stipulations

Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:

- Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:
- Bond financing should not be used if the aggregate cost of projects to be financed by the bond issue is less than $500,000
- City will consider long-term financing for the construction, acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five years
- City shall strive to repay 20 percent of the principal amount of its general obligation debt within five years and at least 40 percent within ten years.
- The City shall strive to repay 40 percent of the principal amount of its revenue debt within ten years.

Bond Ratings In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City's available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moodys") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

General Obligation Debt

Fiscal Year 2026 Debt

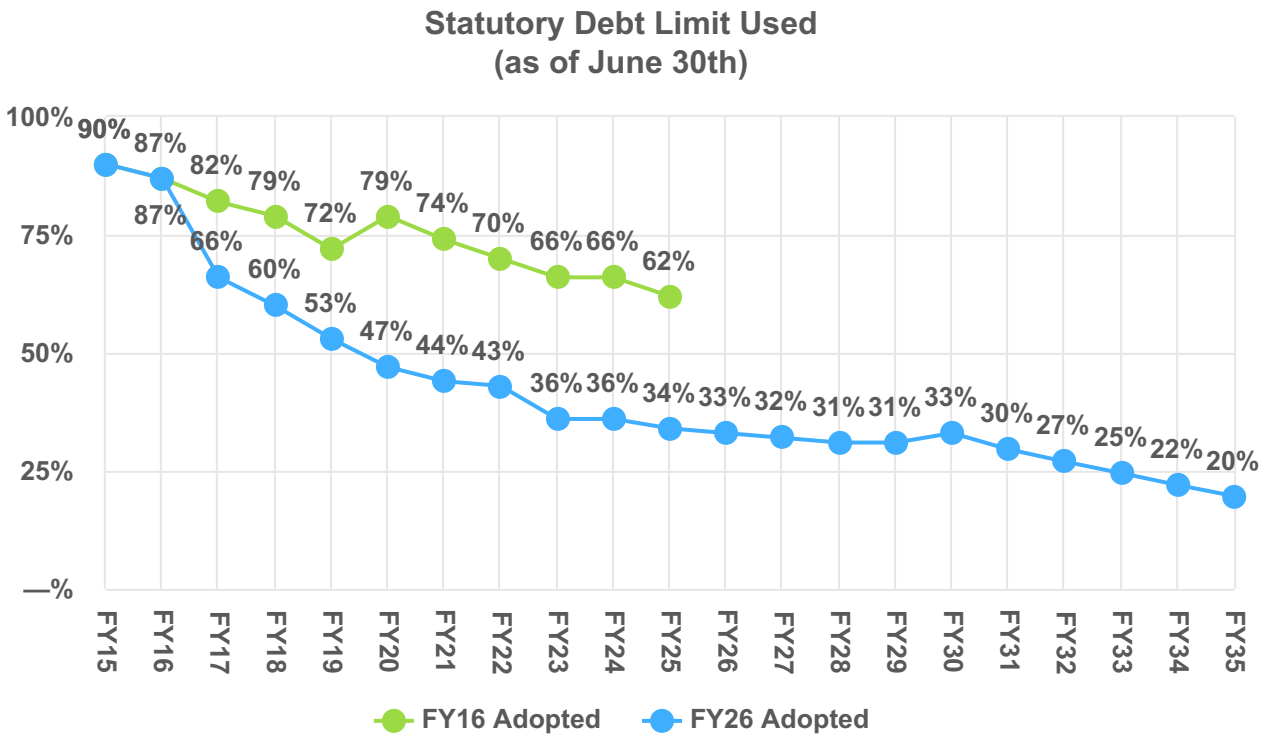

FY 2026 Debt Limit: The FY 2024 assessable value of the community for calculating the statutory debt limit is $6,472,591,693, which at 5%, indicates a total General Obligation debt capacity of $323,629,585, which at 5%, indicates a total General Obligation debt capacity of $323,629,585.

Based on Outstanding G.O. debt (including tax increment debt, remaining payments on economic development TIF rebates, and general fund lease agreement) on June 30, 2026 will be $115,136,523 (35.58% of the statutory debt limit) leaving an available debt capacity of $208,493,062 (64.42%).

It should be noted that most of the City of Dubuque's outstanding debt is not paid for with property taxes (except TIF), but is abated from other revenues. Exceptions include one issuance for the replacement of a Fire Pumper truck in the amount of $1,410,000 with debt service of $83,700 in FY 2026 and one issuance for the franchise fee litigation settlement in the amount of $2,800,000 with debt service of $145,000 in FY 2026. Included in the debt is $4,379,506 of property tax rebates to businesses creating and retaining jobs and investing in their businesses.

Statutory Debt Limit

Fiscal Year	Statutory Debt Limit	Amount of Debt Subject to Statutory Debt Limit	% Debt Limit Used
2026	$323,629,585	$115,136,523	35.58%

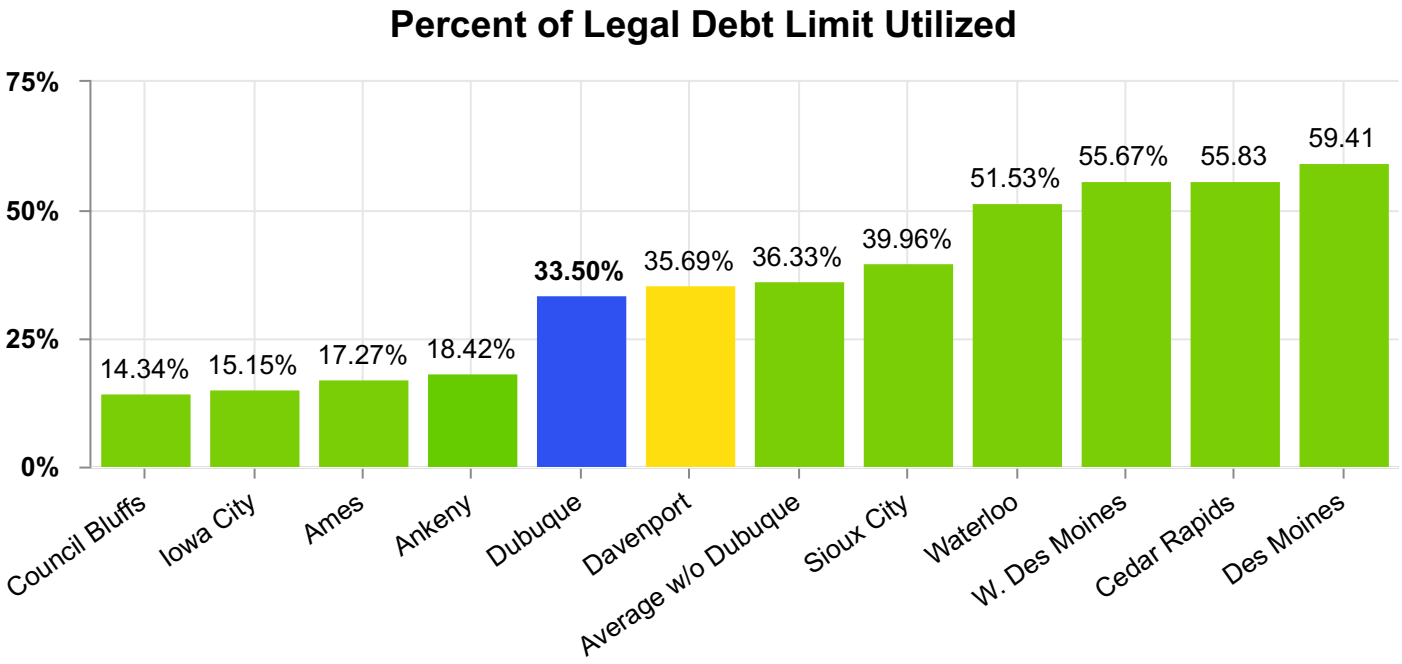

The City also has debt that is not subject to the statutory debt limit. This debt includes revenue bonds. Outstanding revenue bonds payable by water, sewer and stormwater fees on June 30, 2026 will have a balance of $126,443,555. The total City indebtedness as of June 30, 2026, is projected to be $241,580,078. The total City indebtedness as of June 30, 2025, was $237,396,942. **In FY 2026, the City will have a projected $4,183,136 or 1.76% more in debt.** The City is using debt to accomplish necessary projects and to take advantage of the attractive interest rates in the current market.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2026 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

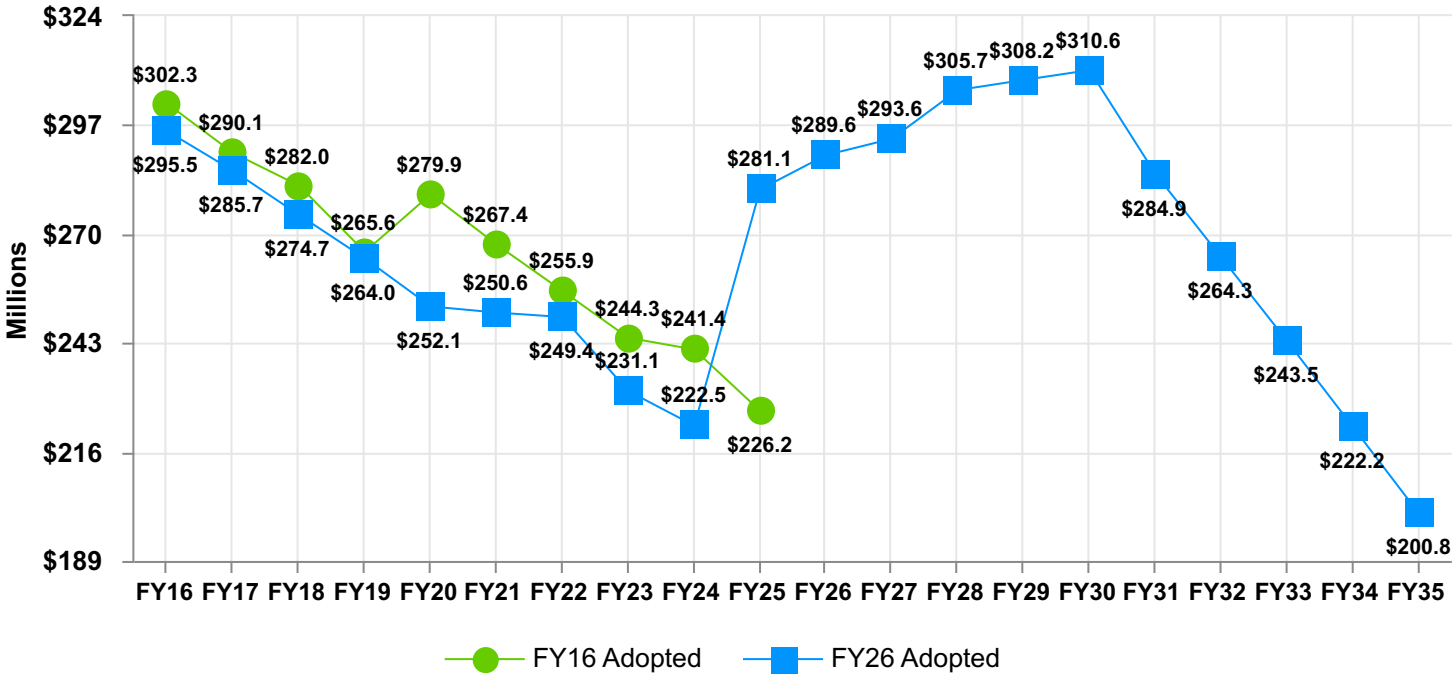

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$ 964,798,967	$ 573,230,000	59.41 %
10	Cedar Rapids (FY 25)	$ 767,559,335	$ 428,550,000	55.83 %
9	W. Des Moines (FY25)	$ 551,635,692	$ 307,090,000	55.67 %
8	Waterloo (FY25)	$ 267,626,798	$ 137,905,065	51.53 %
7	Sioux City (FY25)	$ 367,743,172	$ 146,935,000	39.96 %
6	Davenport (FY25)	$ 493,660,291	$ 176,195,000	35.69 %
5	**Dubuque (FY27)**	**$ 358,374,258**	**$ 119,617,156**	**33.38 %**
4	Ankeny (FY25)	$ 529,988,951	$ 97,645,000	18.42 %
3	Ames (FY25)	$ 328,345,527	$ 56,710,000	17.27 %
2	Iowa City (FY25)	$ 435,367,793	$ 65,945,000	15.15 %
1	Council Bluffs (FY25)	$ 427,559,692	$ 61,320,000	14.34 %
	Average w/o Dubuque		$ 205,152,507	36.33 %

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000. The average of the other cities (36.33%) is 8.8% higher than Dubuque (33.38%).

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $310.62 million (32.90% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2035 show the City of Dubuque at 19.66% of the statutory debt limit**, and the projection is to be at $200.79 million (19.66% of statutory debt limit) within 10 years.

Total Debt (In Millions)

The escalation observed in Fiscal Year 2025 is attributable to the City's decision to issue budgetary debt for both Fiscal Year 2024 and Fiscal Year 2025 within a single fiscal period. This approach resulted in a significant increase in the aggregate debt reported for Fiscal Year 2025.

Part of the City's FY 2014 debt was in the form of a grant from the Iowa Flood Mitigation Program. Through a new state program, the City is able to issue $28.25 million in revenue bonds payable from the 5 percent State Sales Tax increment for projects in the Bee Branch Watershed allowing the City to complete the Bee Branch Creek Restoration, construct permeable alleys, replace the Bee Branch flood gates, complete North End Storm Sewers, construct a Flood Control Maintenance Facility, install Water Plant Flood Control and complete 17th Street Storm Sewer over the next twenty years.

The ten year history of the City's use of the statutory debt limit is as follows:

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027**. In FY 16 the City was at 86.13% of statutory debt limit, so **33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	39.36%	40.07%	34.85%	33.50%

As we approach the preparation of the FY 2027-2031 Capital Improvement Program (CIP) the challenge is not the City's capacity to borrow money but (a) how to identify, limit, and prioritize projects which justify the interest payments and; (b) how to balance high-priority projects against their impact on the property tax rate.

GUIDELINE

There are many high priority capital improvement projects which must be constructed during the FY 2027 - FY 2031 period. The potential of partially forgivable State Revolving Fund Loans and an increase in grant funding may impact the need to borrow for projects. As in the past, debt will be required on several major capital projects, including the Bee Branch Watershed Project, Airport Improvements, Park Improvements, Sidewalk and Street Improvements, Sanitary Sewer Fund, Parking Fund, and Water Fund. Borrowings will also include smaller projects and equipment replacements such as Park developments and Public Works equipment. These smaller borrowings will be for a term not exceeding the life of the asset and not less than six years in accordance to the Debt Management Policy. Alternative sources of funds will always be evaluated (i.e. State Revolving Loan Funds) to maintain the lowest debt service cost.

AA. ROAD USE TAX FUND

DISCUSSION

Actual Road Use Tax Fund receipts are as follows:

The FY 2026 budget was based on receiving $8,400,000 in Road Use Tax funds. In FY 2026, 100% of the Road Use Tax income is in the operating budget. The State of Iowa increased the gas tax 10 cents per gallon in FY 2016.

With increases in City DMATS and State Road Use Tax funds, the City will be able to substantially add to the number of street lights and continue with major road improvements.

GUIDELINE

It is preferable to shift Road Use Tax funds to the capital budget for street maintenance and repair to reduce the need to borrow funds for routine street maintenance and improvements. This shift cannot occur until there are increased revenues or reduced expense that would allow this shift without a property tax impact. The City does use 30% of the local option sales tax for street projects and maintenance of City buildings.

BB. COMMERCIAL AND INDUSTRIAL DEVELOPMENT

GUIDELINE

Current City, commercial and industrial development efforts should be continued to (a) preserve current jobs and create new job opportunities and (b) enlarge and diversify the economic base. Financing these efforts and programs should continue to be a high priority.

CC. HOUSING

GUIDELINE

To maintain an adequate supply of safe and decent housing, the City should strive to preserve existing single family and rental housing that is not substandard and provide opportunities for development of new housing, including owner occupied, within the City's corporate limits for all residents, particularly for people of low and moderate income. Workforce rental housing is becoming increasingly important and the City provides incentives for building rehabilitations. In 2023, the City Council adopted housing incentive programs through the use of Tax Abatement and Tax Increment Financing.

DD. SALES TAX

GUIDELINE

Sales Tax revenue shall be used according to the following split:

Sales Tax 50%: Property Tax Relief

Sales Tax 30%:
(a) The reduction by at least 75% of street special assessments.
(b) The maintenance and repair of streets.

Sales Tax 20%:
(a) The upkeep of City-owned property such as sidewalks, steps, storm sewers, walls, curbs, traffic signals and signs, bridges, buildings, and facilities (e.g. Airport, Five Flags Center, Library, Law Enforcement Center, City Hall, Fire Stations, Parks, and Swimming Pools).
(b) Transit equipment, such as buses
(c) Riverfront and wetland development
(d) Economic Development Projects

EE. NET CASH PROCEEDS (SURPLUS DISTRIBUTION) FROM THE DUBUQUE RACING ASSOCIATION

DISCUSSION

The contract with the Dubuque Racing Association calls for distribution at the end of its fiscal year, December 31st, of 50 percent of its net cash operating funds to the City of Dubuque. In early-February, the City receives payment of proceeds to be distributed. These proceeds are then allocated for capital improvements, with the highest priority given to reducing the City's annual borrowing.

The Dubuque Racing Association provides the City with projections of future distributions. Since gaming is a highly volatile industry, the estimates are discounted prior to including them in the City's Five-Year CIP.

The February 2027 DRA distributions will be used in Fiscal Year 2027 to fund property tax relief. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2027 operations. All of DRA distributions were used in operations in Fiscal Years 2024 through 2026. A change from past use of DRA distributions, 0% of the February 2027 projections of operating surplus have been anticipated as resources to support the Fiscal Year 2027 capital improvement projects. The estimates received from the DRA will be reduced by 5 percent for FY 2029 resources, 10 percent for FY 2030, and 15 percent for FY 2031 resources, to provide a margin of error in case the estimates are not realized.

GUIDELINE

$1,286,001 of February 2027 DRA distributions will be used for FY2027 property tax relief. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2027 operations.In Fiscal Year 2026 and beyond, the City anticipates distribution of a significant amount of net cash proceeds for use in the Capital Improvement Program. These amounts will be budgeted in the Five-Year CIP in the year they are received and will be used to reduce required General Obligation borrowing. The three out-years will be discounted by 5 percent, 10 percent, and 15 percent respectively.

FF. EMPHASIS ON INITIATIVES THAT REDUCE FUTURE OPERATING BUDGET EXPENSE

GUIDELINE

Capital improvement expenditures that will reduce future maintenance and operating expense will receive priority funding and these types of initiatives will be encouraged in all departments and funding sources as a means of maximizing the use of available resources. This emphasis reflects fiscally responsible long-range planning efforts.

GG. USE OF GAMING-RELATED RECEIPTS

DISCUSSION

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

The following shows the historical split of DRA gaming taxes and rents between the City’s operating and capital budgets:

Notable Changes:

***FY 2004** A new lease took effect with the Dubuque Racing Association for lease of the Dubuque Greyhound Park and Casino. This new lease was negotiated after the FY 2005 budget was approved and raised the lease payment from 0.5% of coin-in to 1% of coin-in. This new lease and the expansion of gaming at Dubuque Greyhound Park and Casino, from 600 gaming positions to 1,000 gaming positions, effective August 1, 2005, provided additional revenues to the City of Dubuque.

****FY 2009** The Diamond Jo expanded to a land-based barge casino facility and increased to 1,100 slots on December 1, 2008. This expansion was projected to decrease the Q gaming market and correspondingly the coin-in by just over 21 percent. Based on the projected market share loss, the City did not receive a distribution of cash flows from the Dubuque Racing Association (DRA) in Fiscal Years 2009 and 2010.

*****FY 2010** The operating portion of the split now includes the debt service required on the 2002 general obligation bonds for the America's River Project that was previously considered as part of the capital portion of the DRA lease. Debt obligations are considered a continuing annual expense and are more accurately reflected as part of the operating portion of the DRA lease.

******FY 2011** DRA distributions restarted in FY 2011 instead of the projected year of FY 2012.

*******FY 2016** A reduction in revenue in the Greater Downtown TIF urban renewal area resulted in reduced revenues to make debt payments and it was necessary for the general fund to support $84,104 in FY 2015 and $78,242 in FY 2016 of debt service payments, which were funded by reducing the amount of gaming revenues from taxes and DRA lease that goes to capital recommended in FY 2016.

********FY 2021** A lease amendment took effect with the Dubuque Racing Association for the lease of the Q Casino. This lease amendment added a payment equal to 0.5% of monthly sports wagering conducted on Q Sportsbook retail or Q advance deposit sports wagering internet site.

*******FY 2022** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the amended lease has an expiration date of December 31, 2036.

********FY 2023** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows $1.5 million of cash reserve fund as a down payment of a construction loan in FY23. The DRA is required to establish a debt reserve fund equal to one year of debt payments, almost $7 million.

The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5 percent of coin in from slot machines, 4.8 percent of gross revenue from table games, and 0.5 percent of sports wagering.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois.

Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

The 50¢ per patron tax previously received from the Diamond Jo was replaced by a $500,000 fixed payment based on their revised parking agreement which expires June 16, 2029.

GLOSSARY

This page intentionally left blank.

28E Agreement: Chapter 28, Section E of the Iowa Code which establishes intergovernmental agreements for two or more governmental agencies to cooperate on an issue/activity.

Accounting System: Records and procedures which are used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis of Accounting: A basis of accounting in which transactions are recognized at the time they are incurred, as opposed to when cash is received or spent.

Activity: A specific type of work or group of tasks performed by one or more organized units of the government. An example would be Street Maintenance.

Ad Valorem Taxes: Commonly referred to as property taxes, are levied on both real and personal property according to the property's valuation and tax rate.

Allot: To divide an appropriation into amounts which may be encumbered or expended during an allotment period.

Alternatives: This term means other possible activities or uses of funding besides those already decided upon or being considered. It also suggests the comparison between two or more possible approaches toward fulfilling the same purpose, goal or objective.

Amortization: The gradual elimination of an asset or liability, such as a bond premium, over a specified period of time.

Annualize: Taking changes that occurred mid- year and calculating their cost for a full year, for the purpose of preparing an annual budget.

Appropriation: A legal authorization to incur obligations and to make expenditures for specific purposes.

Assessed Valuation: A value established for real property for use as a basis for levying property taxes.

Assessment Ratio: The ratio at which the tax rate is applied to the tax base.

Assets: Resources owned or held by the City which has a monetary value.

Attrition: A method of achieving a reduction in personnel by not refilling the positions vacated through resignation, reassignment, transfer, retirement, or means other than layoffs.

Audit: Examination by an independent party of the City's financial books, records, accounts, funds, and securities for purposes of determining evidence of the accuracy and correctness of financial statements and ensuring management has effectively and efficiently performed responsibilities.

Authorized Positions: Employee positions which are authorized in the adopted budget to be filled during the year.

Balanced Budget: Occurs when planned expenditures equal anticipated revenues.

Base Budget: Cost of continuing the existing levels of service in the current budget year.

Bond Funds: Resources derived from issuance of bonds for specific purposes and related Federal project grants used to finance capital expenditures.

Bond Rating: A rating (made by an established bond rating company) from a schedule of grades indicating the probability of timely repayment of principal and interest on bonds issued. City of Dubuque has an Aa2 rating from Moody's Investor Services.

Bond: A long-term promise to pay a sum of money (the face amount of the bond) on a specific date(s) (the bond maturity date) at a specified interest rate.

Bonding Capacity - Debt Capacity: The State limit for general obligation debt is 5% of assessed valuation.

Bond Refinancing: The payoff and re-issuance of bonds, to obtain better interest rates and/or bond conditions.

Budget: A plan of financial operation and estimated expenditures for a specific period of time, and the monies to be used to finance the expenditures. The City of Dubuque Operating Budget is a plan for the period form July 1 through June 30.

Budget Amendment: Any change in expenditure budgets, which result in a net increase or decrease in the total dollar amount budgeted at the fund level.

Budgetary Basis: This refers to the basis of accounting used to estimate financing sources and uses in the budget. This generally takes one of three forms: GAAP, cash, or modified accrual.

Budget Calendar: The schedule of key dates or milestones, which the City follows in the preparation and adoption of the budget.

Budget Carryover: Funds unused during a financial year which are transferred to the budget for the following year.

Budgetary Control: The control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

Budget Document (Program and Financial Plan): The official written statement prepared by the City staff reflecting the decisions made by the Council in their budget deliberations.

Budget Message: The City Manager's summary of the salient issues of the budget he is recommending to the City Council for their adoption. The message highlights the City Manager's views of the major aspects of the budget and provides the city Council with an overview of the major fiscal policies incorporated in the recommended budget, or which may impact future recommended budgets.

Capital Assets: Asset of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Expenditures: Purchases of building, improvements other than buildings, machinery, and equipment with a value over $500 and a useful life in excess of one year.

Capital Improvements: Expenditures related to the acquisition, expansion or rehabilitation of an element of the government's physical plant; sometimes referred to as infrastructure.

Capital Improvement Program (CIP): A long- range plan for providing the capital outlays necessary to insure that adequate services are provided to the residents of the City. The plan includes improvements to, or the acquisition of, structural improvements and major equipment purchases.

Capital Improvement Projects: The specific projects that make up the Capital Improvements Program. The projects involve the construction, purchase, or renovation of city facilities or property. They are generally nonrecurring major improvements to the City's physical plant, which necessitate long-term financing and are permanent in nature.

Capital Outlay: Expenditures for fixed assets, such as equipment, remodeling, minor building improvements, and vehicles, that are funded from the operating budget. Since long-term financing is not necessary and expenditures of this type are of such recurring character, these items are not part of the Capital Improvement Program.

Capital Project: A major expenditure for a public improvement that is of such magnitude as to be considered a part of the City's five-year Capital Improvement Program. Such expenditures typically include City infrastructure construction projects, and would normally have an estimated useful life of a minimum of 10-15 years. Capital projects are summarized in the City's Operating Budget and detailed in the City's Capital Improvement Program document.

Capital Projects Funds: These funds account for the financial resources to be used for the acquisition and/or construction of major facilities (usually over $10,000), other than those financed by proprietary funds. Each year the City appropriates money for the work to be completed that fiscal year; fund balances are designated for the completion of the projects over a period of years. Examples are fire stations, streets, water and sewer lines, etc. These funds use the modified accrual basis of accounting. Revenues are recognized in Capital Projects Funds when they become measurable and available to finance expenditures for the current period (such as when bonds are sold). Expenditures are recognized when the related liability is incurred.

Capital Reserve: An account used to segregate a portion of the government's equity to be used for future capital program expenditures. The amount of capital reserve is roughly equal to the government's annual equipment depreciation and an amount identified as being needed for future capital acquisition.

Cash: For purposes of our financial management system, cash refers to money, revenue, or fund balances available in the City treasury for financing an activity or project.

Cash Basis of Accounting: The basis of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Clearing Account: An intermediary account used to initially accumulate direct expenditures for subsequent charging to other officially reported accounts. These accounts are used in situations in which allocations are made to the reporting accounts on a percentage basis, and usually involve the ultimate distribution of expenses to a number of different accounts.

Collective Bargaining Agreement: A legal contract between the employer and a verified representative of a recognized bargaining unit for specific terms and conditions of employment (e.g., hours, working conditions, salary, fringe benefits, and matters affecting health and safety of employees.)

Commission of Accreditation for Law Enforcement Agencies (CALEA): Credentialing authority (accreditation), based in the United States, whose primary mission is to accredit public safety agencies, namely law enforcement agencies, training academies, communications centers, and campus public safety agencies.

Commodities: Items or supplies needed for routine maintenance and operations. They include cleaning, maintenance and office supplies, repair materials, minor equipment, and tools.

Community Development Block Grant (CDBG): A grant that is funded by the federal government through the Housing and Urban Development agency to the State of Iowa and then administered through the Iowa Department of Economic Development.

Community Orientated Policing Services (COPS): component of the U.S. Department of Justice responsible for advancing the practice of community policing by the nation's state, local, territorial, and tribal law enforcement agencies through information and grant resources.

Comprehensive Annual Financial Report (CAFR): the financial report of a state, municipal or other governmental entity that complies with the accounting requirements promulgated by the Government Accounting Standards Board (GASB). GASB provides standards for the content of a CAFR in its annually updated publication Codification of Governmental Accounting and Financial Reporting Standards. A CAFR is compiled by a state, municipal or other governmental accounting staff and audited by an external American Institute of Certified Public Accountants (AICPA) certified accounting firm utilizing GASB requirements. It is composed of three sections: introductory, financial and statistical. It combines the financial information of fund accounting and enterprise authorities accounting.

Constant or Real Dollars: The presentation of dollar amounts adjusted for inflation to reflect the real purchasing power of money as compared to a certain point in time in the past.

Consumer Price Index: A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e. economic inflation).

Contingency Funds: A reserve of monies set aside within the General Fund for emergency or unexpected expenditures. This is also called the Emergency Reserve.

Contractual Services: Services rendered to a government by private firms, individuals, or other governmental agencies. Examples include utilities, rent, maintenance agreement, and professional consulting services.

Cost-of-living Adjustment (COLA): an increase in salaries to offset the adverse effect of inflation on compensation.

Debt Retirement/Redemption: The expenditure of funds for the retirement of all, or a portion of, the principal amount of a long-term financial obligation of the City.

Debt Service Fund: The fund which accounts for the payment of interest and principal on all general obligation debt other than that payable from special assessments and revenue debt issued for a governmental enterprise.

Dedicated Tax: A tax levy to support a specific government program or purpose.

Deferred Compensation: Income deferred until retirement age.

Deficit: the excess of an entity's liabilities over its assets or the excess of expenditures or expenses over revenues during a single accounting period.

Department: The basic organizational unit of government which is functionally unique in its delivery of services.

Depreciation: Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence.

Development-related fees: Those fees and charges generated by building, development and growth in a community. Included are building and street permits, development review fees, and zoning, platting and subdivision fees.

Direct Revenues: Revenues earned by a specific General Fund division in the course of performing their assigned duties.

Disbursement: The expenditure of monies from an account.

Distinguished Budget Presentation Awards Program: A voluntary awards program administered by the Government Finance Officers Association to encourage governments to prepare effective budget documents.

Division: A major administrative organizational unit of the City which indicates overall management responsibility of one or more activities.

Employee (or Fringe) Benefits: Contributions made by a government to meet commitments or obligations for employee fringe benefits. Included are the government's share of costs for Social Security and the various pension, medical, and life insurance plans.

Encumbrances: Obligations in the form of purchase orders, contracts or salary commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved by an accounting entry.

Enterprise Fund: Those funds established to finance and account for acquisition, operation and maintenance of governmental operations which are predominantly self-supporting by user charges. Such operations must be run in a manner similar to private business. Examples are the Water Utility Operation and Solid Waste Collection.

Entitlements: Payments to which local governmental units are entitled, pursuant to an allocation formula determined by the agency providing the monies, usually the state or the federal government.

Expenditures: Funds spent in accordance with budgeted appropriations on goods and services obtained.

Expense: Charges incurred (whether paid immediately or unpaid) for operations, maintenance, interest or other charges.

Federal Emergency Management Agency (FEMA): Coordinates the federal government's role in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters, whether natural or man-made, including acts of terror.

Fiscal Policy: A government's policies with respect to revenues, spending, and debt management as these relate to government services, programs and capital investment. Fiscal policy provides an agreed-upon set of principles for the planning and programming of government budgets and their funding.

Fiscal Year (FY): The 12-month period to which the operating budget applies, and the period of time at the end of which the government determines it financial condition. For the City of Dubuque, this is July 1 through June 30.

Fixed Assets: Assets of a long-term character, which are intended to be held or used, such as land, buildings, machinery, furniture and other equipment.

Full Faith and Credit: A pledge of a government's taxing power to repay debt obligations.

Full-Time Equivalent (F.T.E.): A measure of authorized personnel calculated by equating 2,080 hours of work per year with the F.T.E. of one position.

Function: A group of related activities aimed at accomplishing a major service or regulatory program for which a government is responsible (e.g. public safety).

Fund: An accounting term referring to a group of accounts recording all financial resources together with correspondence liabilities, which has a distinct balance and is used to segregate specific activities and functions from those of other groups of accounts.

Fund Balance: The balance that remains in a fund on a given date after all expenditures have been made. This balance shows the fund equity.

General Fund: The fund used to account for all financial resources and liabilities that are not required to be accounted for in another fund.

General Obligation Bonds: Bonds backed by the full faith and credit of the issuing government. Repayment of these bonds is based on the government's ability to tax its residents for such purposes.

General Revenues: Revenues deposited in the General Fund and shared by the General Fund divisions.

Generally Accepted Accounting Principles (GAAP): Accounting principles that are commonly used in preparing financial statements and generally accepted by the readers of those statements.

Geographic Information System (GIS): System designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data.

Global Positioning System (GPS): Satellite-based radio navigation system owned by the United States Government and operated by the United States Air Force. It is a global navigation satellite system that provides geolocation and time information to a GPS receiver anywhere on or near the Earth where there is unobstructed line of sight to four or more GPS satellites.

Goal: A desirable end, condition, accomplishment and/or development, the attainment of which may never be fully realized, towards which organizational effort is expended according to assigned responsibilities, available resources and prepared plans. Goals are attained by means of objectives. Goals are broadly stated and useful in evaluating resource allocation decisions. For example, the Goal for the Park Areas and Maintenance Activity of the Park Division of Parks and Recreation s Department is to develop and maintain safe, clean, functional and attractive park and recreational facilities to meet the passive and active leisure time needs for all residents and visitors.

Government Accounting Standards Board (GASB): They are the authoritative source of GAAP for state and local government.

Governmental Funds: Funds generally used to account for tax-supported activities. There are five different types of governmental funds: the general fund, special revenue funds, debt service funds, capital project funds, and permanent funds.

Grant: A contribution by a government or other organization to support a particular function. Grants may be classified as either operational or capital, depending upon the grantee.

Improvement Package: One or more objectives of an activity, which represents a standalone alternative or decision. For example, the Base Level Increment of a particular activity may have twelve objectives. Some of these objectives may be interrelated and the twelve objectives may represent only four choices or stand alone improvement packages. You may have one improvement package with one objective, two improvement packages with four objectives each and one improvement package with three objectives. The important thing is that the improvement package includes one or more stand alone objectives and is not dependent upon the approval of any other improvement package.

Indirect Cost: A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

Infrastructure: The physical assets of a government (e.g. streets, water, sewer, public buildings, and parks).

Interfund Transfers: A transfer from a fund receiving the revenue, to a fund through which the authorized expenditure is to be made. An example would be a transfer of revenue from the Road Use Tax Fund to the Street Construction Fund.

Intergovernmental Revenue: Funds received from federal, state and other local government sources in the form of grants, shared revenues, and payments in lieu of taxes.

Internal Service Charges: Goods or services provided by one department to others within the same government or to other governments, on a user fee basis, with full costs to be recovered. An example of this would be the City's Garage Service.

International City/County Management Association (ICMA): Advances professional local government through leadership, management, innovation, and ethics. Provides member support; publications; data and information; peer and results-orientated assistance; and training and professional development to over 11,000 city, town, and county managers, their staffs, and other individuals and organizations throughout the world.

Iowa Communities Assurance Pool (ICAP): The organization the City holds membership to cover its liability insurance.

Iowa Department of Natural Resources (IDNR): Agency that manages fish and wildlife programs, ensures the health of Iowa's forests and prairies, and provides recreational opportunities in Iowa's state parks. The DNR carries out state and federal laws that protect air, land and water through technical assistance, permitting and compliance programs. The IDNR also encourages the enjoyment and stewardship of natural resources among Iowans through outreach and education.

Iowa Department of Transportation (IDOT): Agency that is responsible for the organization, construction, and maintenance of the primary highway system. Located in Ames, IA, the IDOT is also responsible for licensing drivers and programming and planning for aviation, rail and public transit.

Iowa Economic Development Authority (IEDA): Mission is to strengthen economic and community vitality by building partnerships and leveraging resources to make Iowa the choice for people and business. Two main divisions, business development and community development. IEDA administers several state and federal programs to meet its goal of assisting individuals, communities and businesses.

Iowa League of Cities (ILC): Through membership services, research, publications, trainings and other collaborations, the Iowa League of Cities provides guidance and serves as the resource for member cities.

Iowa Municipal Finance Officers Association (IMFOA): An association of city clerks and municipal finance officers in Iowa. The purpose of IMFOA is to conduct regular instructional and informational meetings, as often as deemed necessary by the Board of Directors, for the purpose of educating municipal officers in the keeping of public records and for any other purpose deemed to be in the best interest of the public.

Lapsing Appropriation: An appropriation made for a certain period of time, generally for the budget year. At the end of the specified period, and unexpected or unencumbered balance lapses or ends, unless otherwise provided by law.

Levy: The amount of taxes, assessments or service charges imposed by a government. The maximum General Fund property tax levy allowed in Iowa is $8.10 per $1,000 of assessed valuation. Other levies may be imposed in addition to this.

Liabilities: Debts or other legal obligations arising out of transactions in the past, which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

Line-item Budget: A budget prepared along departmental lines that focuses on what is to be bought.

Local Option Sales Tax: A tax approved by a majority of the City’s registered voters, which collects revenue according to a percentage of the value of goods and services delivered within the corporate limits. In Dubuque, the local option sales tax applies to those goods and services to which the State of Iowa sales tax applies.

Long-term Debt: Debt with maturity of more than one year after the date of issuance.

Major Fund: Governmental fund or enterprise fund reported as a separate column in a governmental entity's basic fund financial statements and subject to a separate opinion in the independent auditor's report.

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each $1,000 of assessed property valuation.

Modified Accrual Accounting: The accrual basis of accounting modified to the governmental fund type spending measurement focus. Under it, revenues are recognized when they become both “measurable” and “available to finance expenditures of the current period.” Expenditures are recognized when the related fund liability is incurred except for: (1) prepaid insurance and similar items; (2) accumulated unpaid vacation, sick pay, and other employee benefit amounts which need not be recognized in the current period, but for which larger-than- normal accumulations must be disclosed in the notes to the financial statements; and (3) principal and interest on long-term debt which are generally recognized when due.

Municipal Fire and Police Retirement System of Iowa (MFPRSI): Provides pension benefits for municipal police officers and fire fighters in Iowa. MFPRSI is a defined benefit public retirement system created by Iowa statute.

Net Budget: The legally adopted budget less all interfund transfers and interdepartmental charges.

Nominal Dollars: The presentation of dollar amounts not adjusted for inflation. Adjusting for inflation would be done to reflect the real purchasing power of money today.

Non-Major Fund: Funds are considered non-major funds if they are less than 10% of Borough assets, liabilities, revenues and expenditures.

Object of Expenditure: An expenditure classification, referring to the lowest and most detailed level of classification, such as electricity, office supplies, asphalt, and furniture.

Objective: A statement of results to be accomplished during the fiscal year in support of the broader goal. Objectives are major steps towards accomplishing established goals. An Objective should state the result to be achieved or accomplished, the time frame, the cost and the action step.

Obligations: Amounts which a government may be legally required to meet out of its resources. They include not only actual liabilities, but also encumbrances not yet paid.

Operating Budget: The City’s financial plan that outlines proposed expenditures for the coming fiscal year and estimates the revenues which will be used to finance them.

Operating Expenses: Those expenses from a fund which are directly related to accomplishing the fund’s primary functions. Payroll would be one example of an operating expense.

Operating Revenues: Funds that the government receives as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services.

Other Post-Employment Benefits (OPEB): All types of post-employment benefits not offered as an integral part of a pension plan, as well as all forms of post-employment health care.

Output Indicator: A unit of work accomplished, without reference to the resources required to do the work (e.g. number of permits issued, number of refuse collections made, or number of burglary arrests made). Output indicators do not reflect the effectiveness or efficiency of the work performed.

Pay-as-you-go Basis: A term used to describe a financial policy by which capital outlays are financed from current revenues rather than through borrowing.

Pay Plan: Classifications and corresponding salary ranges of positions within the City government.

PILOT: Payment in lieu of taxes. These are payments, primarily from enterprise fund operations, that reimburse the general fund for the property tax that would have been paid if the enterprise funds were for-profit companies.

Performance Budget: A budget wherein expenditures are based primarily upon measurable performance of activities and work programs.

Performance Indicators: Specific quantitative and qualitative measures of work performed as an objective of specific departments or programs.

Performance Measures: Numbers that transmit some information about the quality or quantity of services provided by the City government. The primary reasons for attempting to measure performance are to (1) Provide information for making better decisions; (2) Report on progress made toward established objectives; (3) Improve performance, suggest improvements and change priorities; and (4) Serve as an early warning device by indicating problem areas when they first begin to develop.

Permanent Fund: Fund for resources that are restricted to the extent that only earnings, and not principal, may be used for the benefit of the state or its citizenry. Permanent funds include endowments where the funds or property donated to the City are required by contract, agreement, or trust instrument to be maintained in tact.

Personal Services: A General Fund expenditure category that includes all wages and benefits paid to employees.

Post-Employment Benefits: Payments made directly to former employees or their beneficiaries, or to third parties on their behalf as compensation for services rendered while they were still active employees.

Prior-Year Encumbrance: Obligations from previous fiscal years in the form of purchase orders, contacts or salary commitments which are chargeable to an appropriation, and for which a part of the appropriation is reserved. They cease to be encumbrance when the obligations are paid or otherwise terminated.

Program: A grouping of related work tasks or activities into a large organizational unit. An example of a program is the Public Safety Program.

Program Budget: A budget which allocates money to the functions or activities of a government rather than to specific items of cost or to specific departments.

Program Performance Budget: A method of budgeting whereby the services provided to the residents are broken down in identifiable service programs or performance units. A unit can be a department, a division, or a work group. Each program has an identifiable service or output and objectives to effectively provide the service. The effectiveness and efficiency of providing the service by the program is measured by performance indicators.

Program Revenue (Income): Revenues earned by a program, including fees for services, license and permit fees, and fines.

Property Taxes: An ad valorem tax levied on both real and personal property according to the property's valuation and the tax rate.

Proprietary Funds: Funds that focus on the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. There are two types of proprietary funds: enterprise funds and internal service funds.

Public Transit Fund: This fund is a subfund of the General Fund, and is used to account for the receipt and disbursement of property taxes generated by the levy authorized under Section 384.12(19) of the Code of Iowa. The purpose of the levy is to aid Jule Transit.

Purchasing Card (P-Card): This is the City's procurement card program of credit cards for individual City employees.

Purpose: A broad statement of the goals, in terms of meeting public service needs, that a department is organized to meet.

Refunding: The issuance of long term debt in exchange for, or to provide funds for, the retirement of long-term debt already outstanding. Refunding is essentially the “refinancing” of long-term debt.

Reserves: Amounts used to hold certain portions of a fund or types of assets as unappropriated for expenditures, or as legally set aside for a specific purpose.

Resolution: A special or temporary order of a legislative body; and order of a legislative body requiring less legal formality than an ordinance or statute.

Resources: Total amounts available for appropriation including estimated revenues, fund transfers, and beginning balances.

Revenue: Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, shared revenues, and interest income.

Revenue Bonds: Bonds which are repaid in both principal and interest from the earnings of an enterprise fund operation. Storm Water Utility Revenue Bonds would be one example.

Revitalize Iowa’s Sound Economy: (RISE) grant that is funded by the Iowa Department of Transportation for the purpose of providing infrastructure for economic development projects.

Risk Management: The identification and control of risk and liabilities incurred by a local government to conserve resources from accidental loss.

Road Use Tax Fund: This fund accounts for the receipt of state revenues, allocated to the City by the State under a formula, for expenditure within the City for street maintenance/improvement/supervision.

Rollback: The State of Iowa annually adjusts the rollback percentage which is the percentage of the residential assessed valuation which is taxable.

Service Lease: A lease under which the lessor maintains and services the asset.

Service Level: Services or products which comprise actual or expected output of a given program. Focus on results, not measures of workload.

Services and Charges: A category of expenditures used for the purchase of services provided by individuals, businesses or agencies that are not in the direct employ of the City.

Sinking Funds: These funds are used to accumulate monies in order to have adequate amounts available to make required periodic debt service payments. Sinking funds are used in enterprise funds that have outstanding long- term debt.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A levy against a property to pay for all or part of the cost of an improvement benefiting that property.

Special Revenue Funds: Special revenue funds are used to account to the proceeds of specific revenue sources that are legally restricted to expenditures for particular purposes.

Subsidy: Financial aid given to a governmental unit by another governmental unit.

Supplies and Services: Expendable materials and operating supplies necessary to conduct departmental operations.

Target Budget: Desirable expenditure levels provided to departments in developing the coming year's recommended budget. Based on the prior year's adopted budget, excluding one- time expenditures, projected revenues, and reserve requirements.

Tax Increment Financing Funds: These funds are used to account for receipt of property taxes allocated to various tax increment financing districts and used to pay the principal and interest on tax increment debt, as well as to make major infrastructure expenditures.

Tax Levy: The resultant product when the tax rate per $1,000 is multiplied by the tax base.

Tax Rate: The amount of tax stated in terms of a unit of the tax base, for example, dollars per $1,000 of assessed valuation.

Taxes: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people. This term does not include specific charges made against particular persons or property for current or permanent benefit, such as special assessments.

Tort Liability: A tort is a wrong against an individual or property that is neither a crime nor a violation of contract. A court could find the City liable or responsible when a tort occurs on City property, as a result of the actions of a City employee, or the function of a City operated activity. The City levies a special tax to purchase tort liability and to cover the cost of tort damages for which the City is found responsible.

Transfers: Involves the movement of money between City funds.

Trust and Agency Funds: Funds used to account for assets held by the government in a trustee capacity, for individuals or other groups associated with the government. Agency monies or assets are held by a government. Agency monies or assets are held by a government acting as an agent acting as an agent for others, i.e. Landfill.

Unamortized Premium and Discount: when bonds are sold, the difference in the price above par or face value (premium) or below par (discount) is recognized over the life of the bonds. The amount of the premium or discount not yet recognized is called the unamortized premium or discount.

Unencumbered Balance: The amount of an appropriation that is neither expended nor encumbered. It is essentially the amount of money still available for future purposes.

Unreserved Fund Balance: The portion of a fund's balance that is not restricted for a specific purpose and is available for general appropriations.

User Charges: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

Variable Cost: A cost that increases/decreases with increases/decreases in the amount of service provided such as the payment of a salary.

Valuation: The official value established for various properties within set State guidelines, for taxation purposes. The assessed valuation of property is that portion of the property's value upon which taxes are levied.

Working Cash: Excess of readily available assets over current liabilities or cash on hand equivalents which may be used to satisfy cash flow needs.

Workload Indicator: A unit of work to be done (e.g. number of permit applications received, the number of households receiving refuse collection service, or the number of burglaries to be investigated).

Work Years: The amount of personnel resources required for a program expressed in terms of the "full-time equivalent" number of employees. One "work year" is equal to one full- time, year round employee. For most categories, this equals 2,080 hours per year (40 hours per week times 52 weeks). The number of hours a part-time employee is budgeted to work during the year is divided by 2,080 to arrive at the equivalent number of "work years" for the position.

CITY of DUBUQUE, IOWA

RESIDENT'S GUIDE

to the
RECOMMENDED
FISCAL YEAR 2027 Budget

CITY MISSION STATEMENT

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

2040 VISION STATEMENT

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy, and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

City of Dubuque
Iowa

For the Fiscal Year Beginning

July 01, 2025

Executive Director

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to City of Dubuque, Iowa, for its Annual Budget for the fiscal year beginning July 1, 2025. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

This City of Dubuque has been awarded this honor for the past 20 years in a row.

CITY MANAGER'S BUDGET MESSAGE

This page intentionally left blank.

BUDGET INTRODUCTION

Attached for your review is the

Fiscal Year 2027 Recommended Budget.

The Budget and Fiscal Policy Guidelines are developed and adopted by City Council early in the budgeting process in order to provide targets or parameters within which the budget recommendation is to be formulated.

The budget recommendation presented by the City Manager may not meet all of these targets due to changing conditions and updated information during budget preparation. To the extent the adopted budget varies from the guidelines, an explanation is provided following the Budget Transmittal Message.

The following Fiscal Year 2027 Budget Transmittal Message is written in March as recommended by the City Manager to the Honorable Mayor and City Council.

A series of Budget Hearings take place following the presentation of the recommended budget, to allow for public input and analysis.

This budget was presented on April 6, 2026
to the Honorable Mayor and City Council.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Fiscal Year 2027 Recommended Budget

DATE: April 3, 2026

The strong foundation of this budget recommendation is the Mayor and City Council Goals and Priorities adopted in September, 2025:

FIVE-YEAR GOALS

- Healthy and Safe Community
- Financially Responsible, High-Performance City Organization:
  Sustainable, Equitable, and Effective Service Delivery
- Robust Local Economy:
  Diverse Businesses and Jobs with Economic Prosperity
- Livable Neighborhoods and Housing:
  Great Place to Live
- Sustainable Environment:
  Preserving and Enhancing Natural Resources
- Connected Community:
  Equitable Transportation, Technology Infrastructure, and Mobility
- Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

2025-2027 Priorities:

Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other Projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

The theme for the Fiscal Year 2027 budget recommendation is a comprehensive, future-focused investment in Dubuque's core infrastructure and community assets – prioritizing safety, streets, and access to quality services. The budget aims to ensure that Dubuque remains a safe, healthy, and vibrant place while preparing for growth and evolving community needs.

For Fiscal Year 2027 I respectfully recommend a 1.00% increase in the property tax rate, which increases the property tax rate from $10.0637 in FY26 to $10.1648 in FY 27. This would represent a 3.00% or $26.68 property tax increase for the average Dubuque homeowner.

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$10.0637	$10.1648	1.00%	$0.10
Property Tax Asking	$29,872,253	$31,940,934	6.93%	$2,068,681

Since 1989, the average homeowner has averaged an annual increase in costs in the City portion of their property taxes of +1.52%, or about +$9.92 a year. If the State had been fully funding the Homestead Tax Credit, the increase would have averaged about +$7.32 a year.

Based on the information the city has today, it appears if the City Council approves this recommendation the City of Dubuque would still have the lowest property tax rate of the eleven cities in the State of Iowa with a population over 50,000.

In the current fiscal year, FY2026, the average of the other 10 cities was 55% higher than Dubuque's property tax rate, and the highest city, Waterloo, had a rate 116% higher than Dubuque.

I asked city assessor Troy Patzner for some information about the assessed value of residential properties in the North End. He responded as follows:

"The below data shows the percentage change of value on residential from three different revaluation cycles, 2015, 2021, and 2025. I had the north end neighborhoods separated from the rest of the City. It looks like in 2015 the north end hardly changed at +.3%, as compared to the rest of the city which went up 3.14% as compared to ten years later when they increased slightly more than the rest of the city neighborhoods at 9.66%."

Assessed Value Changes

Area	Assessment 2024/2025 % Change	Assessment 2020/2021 % Change	Assessment 2014/2015 % Change
North End	+9.66 %	+9.48 %	+0.30 %
Rest of City	+8.98 %	+10.25 %	+3.14 %

Some of the increase in assessed value in the North End can be attributed to the fact that the city and others have been investing hundreds of millions of dollars in the North End. Some significant examples include the $250 million invested in the Bee Branch Creek Watershed Flood Mitigation Project, millions of dollars into Comiskey Park, a new roundabout at Kerper Boulevard and Kerper Court, new sanitary sewers on Kerper Boulevard, millions of dollars into Crescent Community Health Center, $80 million in Chaplin Schmidt Island, soon to be almost $50 million in the 14th St. Railroad Overpass and Elm Street and 16th Street complete streets. The city also had financial assistance programs to help those who had experienced flooding replace furnaces, water heaters, and repair homes. All of this has led to the homes increasing in value, which means one of the most valuable assets a resident possesses is becoming more valuable.

For FY2027 there are $2,968,870 in general fund improvement package requests. This budget recommendation includes $597,760 for recurring improvement packages and $1,120,636 for non-recurring improvement packages. The non-recurring improvement packages are funded by Inflation Reduction Act rebate in the amount of $188,737 for the Climate Action Coordinator and the energy savers program, and $931,899 of non-recurring improvement packages are funded from the $5.3 million in internal loan repayments from the Greater Downtown TIF and Dubuque Industrial Center TIF Districts. The additional nine firefighters recommended are funded by a Federal SAFER grant and previously approved ambulance fee increases. The remaining $349,684 in recommended recurring improvement packages are funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. If the City Council does not approve claiming only 75% of the Downtown TIF revenues beginning in Fiscal Year 2028 we will need to eliminate all but the 9 new Firefighters from the recurring improvement packages and cut $702,793 from the Fiscal Year 2027 general fund operating budget. In the case of the 9 new Firefighter positions they would be funded from a Federal SAFER Grant, ambulance fees, and eventually property taxes.

The current recommendation for Fiscal Year 2027 is a 3% increase in property tax cost to the average homeowner, which generates $2.1 million in additional property tax revenue over Fiscal Year 2026. Each 1% reduction in the cost increase represents approximately $300,000 less in property tax revenue.

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Residential: Avg. value - $213,211			$889.20	$915.87	$26.67	3.0 %
Commercial: $150,000 value & below	433	381	$716.01	$679.03	-$36.98	-5.2 %
Commercial: $150,001-$300,000 value	232	225	$2,074.61	$2,051.27	-$23.34	-1.1 %
Commercial: $300,001-$450,000	147	167	$3,433.21	$3,423.52	-$9.69	-0.3 %
Commercial: Avg. Value = $624,927	588	636	$4,253.76	$5,023.81	$770.05	18.1 %

Property Type	FY26 Properties	FY27 Properties	FY26 City Property Tax Payment	FY27 City Property Tax Payment	$ Change	% Change
Industrial: $150,000 value & below	8	8	$716.01	$679.03	-$36.98	-5.2 %
Industrial: $150,001-$300,000 value	11	9	$2,074.61	$2,051.27	-$23.34	-1.1 %
Industrial: $300,001-$450,000	4	3	$3,433.21	$3,423.52	-$9.69	-0.3 %
Industrial: Avg. Value = $731,693	58	58	$5,090.27	$6,000.54	$910.27	+17.9 %

If the City Council chooses an amount of less than 3%, it could impact the recommendations to fund improvement packages, and the ability of the city to fund programs that provide grants to outside agencies.

In the March 23, 2026, property tax public hearing interest was expressed in lowering the property tax increase. In Fiscal Year 2027 we face many special opportunities and challenges. I ask that we not add to the challenges side of this equation, potentially squandering the opportunities, by using one-time revenues, to pay for recurring expenses. Doing this without a long-term funding plan only digs a budget hole to dig out of in future budget years. It creates a future self-inflicted budget crisis. Using general fund reserves to pay for recurring expenses is one of the ways that using one-time revenues to pay for recurring expenses is a poor financial planning strategy. **I respect the right of the Mayor and City Council to reduce budget expenditures to reduce the recommended property tax levy. I just ask that those reductions be recurring general fund expenditures.**

What needs to be ever present in our minds is that the State of Iowa elected leaders have made it clear that they intend to enact property tax reform legislation that will negatively affect the Fiscal Year 2028 (beginning July 1, 2027) local government budgets. We do not want to do anything in Fiscal Year 2027 that will create additional funding issues in Fiscal Year 2028.

I am recommending increases in the Enterprise Funds as follows:

Enterprise Fund Utility Rates

	FY 2026 Rate	Recommended FY 2027 Rate	% Change
Water*	$22.50	$23.17	3 %
Sanitary Sewer	$31.84	$34.71	9 %
Curbside Collection	$18.11	$19.74	9 %
Stormwater	$11.03	$12.02	9 %

*3,200 gallons per month is the average residential user with a 5/8 inch water meter.

One important point is that low-income customers receive a 50% discount on their base city utility rates.

During Fiscal Year 2026 the position of Economic Mobility and Neighborhood Support Director became vacant when Anderson Sainci was promoted to the Director of Strategic Partnership position. The Economic Mobility and Neighborhood Support Department was evaluated. I have eliminated the position of Economic Mobility and Neighborhood Support Director. I have also eliminated the Department of Economic Mobility and Neighborhood Support, while ensuring those important responsibilities are still being carried out.

The Department of Economic Mobility and Neighborhood Support Administrative Support Professional also provided support to the Information Technology Department and to the Human Rights Department. The position has been transferred to the Information Technology Department and will continue to provide support to the Information Technology Department and the Human Rights Department. The Administrative Support Professional also now provides support to the 911 Emergency Communications Department.

The Department of Economic Mobility and Neighborhood Support Community Engagement Coordinator Temwa Phiri responsible for neighborhood support has been transferred to the Community Impact Department. That department will now be called the Community Impact and Neighborhood Support Department.

The Department of Economic Mobility and Neighborhood Support grant funded position of Economic Mobility Special Assistant, held by Corrine Rothblum, has also been transferred to the Community Impact and Neighborhood Support Department.

I am recommending that beginning in Fiscal Year 2028 the city begin claiming only 75% of the Downtown TIF District revenues. From the unclaimed 25% taxing bodies would begin receiving on an annual basis the following:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

In Fiscal Year 2027 the Downtown Urban Renewal TIF District would repay to the City of Dubuque internal loans in the amount of $5,060,682 and Dubuque Industrial Center TIF District would repay internal loans in the amount of $332,307 for a total of $5,392,989. These funds would be used as follows:

Fiscal Year 2027 general fund operating expenses - $1,808,693
Fiscal Year 2027 general fund non-recurring improvement packages - $929,712
Fiscal year 2027-2030 internal loans to Refuse Collections Fund - $587,638
Fiscal year 2027 internal loans to Garage Service Fund - $180,693

The remaining $2.6 million would be held in reserve in case needed to help transition the city budget in Fiscal Year 2028 from any Fiscal Year 2028 State of Iowa property tax reform legislation.

If the City Council chooses to not add to the City reserves to be prepared for Fiscal Year 2028 State of Iowa Property Tax Reform, I would ask that any use of these funds be for non-recurring expenses.

The reduction in Downtown TIF revenues beginning in Fiscal Year 2028 by only claiming 75% is:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	—%
2028	$10,162,871	-$3,361,348	-24.85%
2029	$10,137,372	-$3,386,847	-33.33%
2030	$10,111,873	-$3,412,346	-33.66%
2031	$10,111,873	-$3,412,346	-33.75%

Even with the reduction in revenues available to the Downtown TIF District, the budget recommendation was able to increase funding for the Central/White Street Corridor Project, maintain funding for the 14th Street Railroad Overpass Project and create a new program to assist with filling up vacant downtown commercial spaces. Unfortunately, there did need to be some project funding reductions like for Five Flags and for developer incentives.

Project Funding

Project	FY2026-FY2030	FY2026-FY2031	$ Change
Five Flags Renovation	$23,464,000	$7,055,088	-$16,408,912
Downtown Rehab Grant Program	$5,500,000	$5,504,390	$4,390
Downtown Storefront Retention Program	$—	$400,000	$400,000
Central/White Street	$8,170,000	$11,170,000	$3,000,000
14th Street Overpass	$39,351,910	$51,183,326	$11,831,416
East-West Corridor	$1,240,275	$6,000,321	$4,760,046
Total	$77,726,185	$81,313,125	$3,586,940

General Obligation (GO) debt is an important part of the Fiscal Year 2027 budget recommendation:

New General Obligation Debt

General Obligation Debt	FY2027	FY2028	FY2029	FY2030	FY2031	Total
New G.O. Debt	$12,991,499	$16,756,114	$15,288,879	$16,520,648	$15,114,208	$76,671,348

Much of this General Obligation debt is Essential Corporate Purpose debt and can be issued by a vote of the City Council. Some of this debt can be issued by a vote of the City Council, but is subject to a reverse referendum where residents can circulate a petition and then a referendum vote is required. Some of the G.O. debt would be recommended as a voter referendum.

There are many decisions to be made over the next few years on major projects that will require debt that the scope, scale, and cost of the project are not known at this time. The most significant item that is in this category is the implementation of the Parks and Recreation Master Plan that was recently adopted by the Mayor and City Council. The Aquatics Center feasibility study has already begun, and other studies are recommended to begin with approval of this budget.

Some of these capital projects will require a voter referendum. Following is a list of voter referendums in Dubuque County since 1979:

Year	Bond	P/F
1979	Courthouse bond and addition	failed
1979	NICC Levy	failed
1980	NICC Levy	passed
1982	DUBUQUE-TAX LEVY FOR PARK ON CITY ISLAND	passed
1984	City Bond Dog Racing	passed
1984	NICC Levy	passed
1985	Dubuque Band Levy	failed
1986	DBQ school tax levy	passed
1986	LOST & Service Tax	failed
1987	Wheel Tax	failed
1988	Local sales and service	passed
1988	E991	passed
1988	WD Bond	failed
1989	Dubuque Pool	passed
1989	GAMBLING	passed
1989	WD Bond	failed
1990	WD Bond	failed
1990	Dubuque School Instructional support levy	failed
1991	WD Bond	passed
1991	DBQ Hotel tax	passed
1992	DBQ Golf Bond	failed
1993	DBQ Library tax	failed
1993	DBQ Gas Company	passed
1993	Interstate Power Company	passed
1994	DBQ school tax levy	passed
1994	NICC Levy	passed
1994	Gambling Boat	passed
1994	E911 surcharge	passed
1995	DBQ school tax levy	failed
1996	DBQ School renewal of physical plant levy	passed
1997	NICC Levy	failed
1997	DCSD Support Levy	failed
1998	NICC Levy	passed
1999	LOST & Service Tax	failed
2000	County Jail Bond	passed
2000	WD Bond	failed
2000	WD Levy and Bond	failed
2000	$4 million City/County Jail Expansion	passed
2003	Baseball Stadium	failed
2005	Establish Municipal Utility	passed
2022	County Conservation Measure	failed
2023	School Board - Public Measure	failed
2025	School Board - Public Measure HB	failed

The City is also using the Iowa Finance Authority State Revolving Loan Fund (SRF) low interest debt program for sewer and water projects.

A recent report from McKinsey and Company talks about the current State of potable water and sanitary sewer water infrastructure. The report says “As critical water infrastructure ages, maintenance expenditures go up.” The report further says, “…our research shows the U.S. water utility sector faced an estimated $110 billion annual funding gap in 2024, primarily driven by significant investments in aging infrastructure, operating expenses, and water-quality regulations. By 2030, this gap could increase to approximately $194 billion.”

In 2025 the American Society for Civil Engineers issued a report title, “A comprehensive Assessment of American’s Infrastructure.” They issued a national report card:

Drinking Water “C-“: Funding gap = $309 billion
Public Parks “C-“: Funding gap = $44 billion
Solid Waste “C+”: Funding gap = $16 billion
Transit “D”: Funding gap = $152 billion
Stormwater “D”/ Wastewater “D+” (including sanitary sewer): Combined funding gap=$690 billion

Nationally, as the City of Dubuque faces locally, the biggest funding challenges are in wastewater and stormwater.

While there are several major capital improvement projects in this budget recommendation, some that have already been mentioned, the Catfish Creek sanitary sewer projects, the stormwater projects on 17th/Locust Street, the 14th Street railroad overpass, and the digging of a new deep well for the water department are some of the largest.

If the City Council feels the projected stormwater rate increase needs to be lowered, we could look at delaying some stormwater projects as we pursue federal grant funding opportunities.

The City’s top priority in operating the Water & Resource Recovery Center is to consistently meet its permit requirements and protect the environment and public health. At the same time, wastewater collection and treatment systems will inherently generate some level of odor. Organic material begins to decompose in the sewer system before it reaches the facility, and the biological processes used to remove pollutants naturally produce gases that can at times be detected offsite. Odor conditions can also fluctuate due to weather patterns, the characteristics of incoming wastewater, and normal variations in treatment system performance. While odors cannot be fully eliminated, the City is committed to minimizing their frequency, intensity, and duration through a comprehensive, multi-faceted approach.

That approach focuses on controlling odor at its source through targeted chemical dosing, improving the reliability of treatment infrastructure, enhancing operational practices and data-driven decision-making, and advancing long-term planning. The following outlines the actions the City has already taken and the additional investments proposed in FY27 to continue reducing odor impacts while maintaining reliable treatment performance.

The City has implemented targeted chemical dosing strategies to directly reduce odor-causing compounds within the treatment process. Hydrogen peroxide dosing at the primary clarifiers is achieving approximately a 50 percent reduction in hydrogen sulfide, with limited additional benefit observed at higher doses. In parallel, ferric chloride dosing within the anaerobic digesters has reduced hydrogen sulfide concentrations from approximately 13,000 ppm to as low as 490 ppm, over a 90% reduction, and decreased struvite formation potential from approximately 330 pounds per day to around 40 pounds per day, again approaching a 90% reduction. Dosing is currently at approximately 140 gallons per day and is being incrementally increased toward an optimal range of 160 to 200 gallons per day. The goal is to have zero struvite formation. The City has budgeted approximately $460,000 annually for this program and is continuing to evaluate more cost-effective upstream dosing opportunities, including hydrogen peroxide application prior to digestion and at the Terminal Street Lift Station, to further reduce hydrogen sulfide loading to the facility.

Improving equipment and system reliability remains a central focus, as many odor issues are tied to treatment systems not operating as designed. A key example is the activated sludge system, where challenges have contributed to elevated hydrogen sulfide emissions since last fall. Current efforts are focused on restoring all mixers to full operation and preparing to clean the worst-performing of the three treatment trains to stabilize process performance.

Building on this work, the Fiscal Year 2027 budget includes an improvement package to clean all three activated sludge trains over a three-year period, with funding of $42,500 annually to complete one train each year. This planned approach is intended to increase treatment efficiency, improve oxygen transfer, and reduce conditions that contribute to odor formation.

The City is also advancing a proactive approach to digester management, with Fiscal Year 2026 funding supporting the cleaning of Digester #4 in June 2026. The Fiscal Year 2027 budget establishes annual funding to clean one digester each year. Routine cleaning, combined with ongoing chemical control, is expected to reduce future costs while improving performance and minimizing odor potential.

The Fiscal Year 2027 budget also includes targeted investments to further improve system reliability and reduce the risk of odor-generating conditions. This includes $1,380,000 to improve overall system resiliency. These funds will allow the City to restore redundant systems and to maintain an inventory of critical spare parts to avoid extended outages caused by long procurement times. In addition, the budget includes $135,000 for process control monitoring improvements—specifically dissolved oxygen monitoring within the activated sludge system—to provide real-time visibility into system performance and support timely operational adjustments. The budget also includes $40,000 for real-time influent monitoring to better detect and respond to changes in incoming wastewater that could interfere with treatment processes. Together, these investments strengthen the City’s ability to proactively manage the treatment system and reduce the likelihood of process upsets that contribute to odors.

The City is also advancing a comprehensive Facility Plan update that will guide how the WRRC meets community needs over the next two decades, with odor mitigation incorporated as a key consideration in evaluating future treatment and infrastructure options. In addition to long-term planning, this effort includes a focused evaluation of existing systems to ensure they are operating as intended and that operators have the knowledge and tools needed to effectively manage the treatment process. This includes enhanced training, improved process control strategies, and the development of data dashboards to better understand system performance in real time. In parallel, the City has transitioned from paper-based records to digital systems and is expanding its use of software integrated with SCADA data. SCADA (Supervisory Control and Data Acquisition) is a computer-based system that allows operators to monitor, control, and respond to equipment and processes in real time—helping ensure systems like the wastewater treatment plant running safely and efficiently. These efforts are strengthening data-driven decision-making and improving the City's ability to proactively identify and respond to conditions that could contribute to odor events.

In addition, the City is making a significant investment in modernizing electrical controls across the WRRC through a $7.2 million program designed to enhance system reliability and operational performance. Phase 1 is already underway, with approximately $2.36 million under contract to replace motor control centers—the "brains" of the facility—in two of the seven process control buildings. The FY27–31 budget continues this progress by funding upgrades to the remaining buildings, positioning the WRRC with a strong, modern control foundation that supports consistent operations and long-term service to the community.

The City is also advancing the Hauled High Strength Waste Improvements Project, an $8.1 million investment that will strengthen how hauled waste is received and integrated into the treatment process. This project will provide dedicated infrastructure and controls to ensure these waste streams are introduced in a manner that supports stable, effective operation of the anaerobic digesters as they were designed to function. The project is fully funded through hauled waste user fees and a federal grant, aligning system improvements directly with the users of the service while enhancing overall treatment reliability and performance.

Together, these efforts, supported by the Fiscal Year 2027 budget, position the City to respond to odor challenges in the short term while proactively managing and reducing them over the long term, all while maintaining reliable, compliant treatment operations.

An important part of this budget relates to the requirement from the U.S. Environmental Protection Agency (EPA). Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced. After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

The City Council at their December 1, 2025, meeting approved adding five Firefighter/Paramedic positions in the current fiscal year (FY 2026). The authorized strength of the Dubuque Fire Department, including civilian and sworn positions, was 92.16 FTE in FY 2022 and is 109.16 FTE as of FY 2026, an 18.5% (17 FTE) increase in staffing over that four-year period. The addition of nine additional positions in FY 2027 will make it a 28% (26 FTE) increase in staffing since Fiscal Year 2022.

The city will apply for a SAFER grant later this calendar year when the application process opens, then it is expected it would be several months before the city would learn of the results of the application. The results could be that all nine of the positions receive SAFER grant funding, some of the positions receive grant funding, or none of the positions receive grant funding. Based on Fire Chief Amy Scheller's experience in the SAFER grant process she believes Dubuque will have a very competitive application. If the city does not receive the SAFER grant in calendar year 2026 (FY 2027) to help with funding the nine new Firefighter/Paramedic positions the City Council has the options of reapplying for the SAFER grant in calendar year 2027 (FY 2028), phasing implementation of the nine new Firefighter/Paramedic positions (since the Fire Department has three 24 hour shifts that would most likely be three positions a year, one on each shift, for three years, leaving open the option to apply for a SAFER grant in future years for the positions not added in the first and/or second year), or decide to modify the funding plan to maintain the hiring schedule through a mid-fiscal year amendment of the FY 2027 city budget, which would take an evaluation of other approved general fund expenses. I am sure there are other options that could be explored.

The Parks and Recreation Master Plan identifies the need for seven additional positions to fully support its implementation. While adding all seven positions was not financially feasible in Fiscal Year 2027, the budget recommends moving forward with two park maintenance technician positions at this time. These technicians would take responsibility for comprehensive park maintenance across the system.

Including the position added for Eagle Point Park in the current fiscal year, this brings the total to three new park maintenance positions within a two-year period—demonstrating continued progress toward meeting the maintenance and service goals outlined in the Master Plan.

In Dubuque Public Safety is a Citywide Commitment.

Public safety in Dubuque is not the work of one department or a single set of responders. It is a shared responsibility woven into the daily operations of every service area across the City. From infrastructure and clean water to communications, planning, and community engagement, each department plays a crucial role in creating a safe, resilient, and thriving Dubuque. Together, their efforts demonstrate that safety is not only about reacting to emergencies—it is about preventing them, preparing for them, and creating the conditions that allow people to live their lives with confidence, stability, and trust.

Safety in the Air, on the Ground, and Throughout Daily Life

At the Dubuque Regional Airport, safety begins long before a plane takes off or lands. Staff complete rigorous daily inspections, manage weather and wildlife hazards, maintain critical systems, and collaborate with pilots and emergency responders to ensure 24/7 protection for travelers. This proactive approach exemplifies how safety is embedded into operations, not simply responded to in moments of crisis.

That same focus on prevention is found across the City. Public Works crews keep roads clear in severe weather, maintain stormwater and sewer systems, and care for the fleet that emergency responders depend on. Water Department staff run hundreds of tests every day to ensure clean drinking water, protect public health, and ensure firefighting capacity. At the Water & Resource Recovery Center, millions of gallons of wastewater are safely treated daily while programs like Industrial Pretreatment and FOG prevent hazardous backups and protect people, property, and the Mississippi River.

These systems—airfield safety, streets and utilities, water and wastewater—may operate largely out of public view, but they are the backbone of a safe and functioning community. When they work well, residents can move, work, and live without disruption. When incidents do occur, this strong foundation ensures that responders can act quickly and effectively.

Safety Through Law, Regulation, and Responsible Growth

Many of the City's departments protect residents by shaping safe environments long before emergencies or hazards occur. Planning Services enforces the Unified Development Code to maintain safe building practices, guide responsible land use, and ensure emergency access. Floodplain regulation, subdivision review, and zoning enforcement keep people out of harm's way and reduce long-term risks.

Similarly, the City Attorney's Office plays a vital behind-the-scenes role by enforcing building, nuisance, and animal control codes; supporting criminal and civil proceedings; reviewing contracts and specifications for public safety components; and providing guidance across departments. The City Clerk's Office contributes through civil service hiring processes that ensure police and fire roles are filled with qualified professionals, by overseeing background checks, and by coordinating safe community events.

Housing & Community Development reinforces safety through rental licensing, inspections, and environmental health programs—addressing lead hazards, structural issues, and fire risks. Their work helps reduce unsafe living conditions while improving long-term housing stability, a factor closely tied to overall community safety.

Sustainability efforts, too, are essential to public safety. They address the long-term threats of extreme weather, air quality, and climate impacts. By protecting resources, lowering risks, and strengthening resilience, sustainability work ensures that Dubuque remains safe not only today but for generations.

Safety Through Community Connection, Equity, and Support

Several departments focus on the human and social aspects of safety. The Community Impact & Neighborhood Support Department builds stability by reducing financial stress, connecting residents to resources, and supporting neighborhood-led improvements. These upstream interventions can prevent crises, reduce involvement with the legal system, and strengthen protective factors within families and neighborhoods.

The Human Rights Department promotes psychological and physical safety by enforcing anti-discrimination laws, reducing threats and harassment, ensuring access to housing and services, and building trust between residents and City government. When people feel protected and respected, they are more likely to cooperate with authorities, report concerns, and participate in community life.

The Carnegie-Stout Public Library provides safe public space for all residents—a place to learn, connect, cool down, warm up, or simply rest. Its educational programs and inclusive environment foster emotional, social, and economic stability.

Parks and Recreation also contributes by maintaining safe, welcoming outdoor spaces. Parks offer physical activity, mental relief, and community connection. Through collaboration with police, engineering, public works, and other departments, park safety is supported year-round.

These departments highlight that safety is not only physical; it is also social, emotional, and environmental. When residents have stable housing, welcoming spaces, and equitable treatment, public safety strengthens across the entire community.

Safety in Emergency Response, Technology, and Coordination

Several City departments are directly involved in emergency response. The Dubuque Fire Department responds to thousands of calls annually, from medical emergencies to hazardous materials incidents, while also conducting inspections, fire prevention programs, and rigorous training. Investments in equipment, staffing, and modernized tools ensure firefighters remain prepared for both routine calls and complex events.

The Dubuque Police Department protects residents through law enforcement, problem solving, community partnerships, and the use of technology to address crime and neighborhood concerns. Highly trained personnel and strong community relationships are central to their mission.

The 911 Emergency Communications Center is the first critical link in any emergency. Dispatchers gather essential information, coordinate multi-agency responses, use advanced technology to pinpoint locations, and provide lifesaving instructions until help arrives. They also support after-hours communications for multiple City departments and maintain vital situational awareness through citywide cameras and cross-jurisdictional connections.

Communications staff support emergency response by coordinating crisis messaging, issuing public alerts, staffing the Emergency Operations Center, and managing the AlertIowa notification system. Their work ensures residents receive timely, accurate, and accessible information when it matters most.

Information Technology protects the digital infrastructure that all of these departments rely on—safeguarding against cyber threats, maintaining communications systems, supporting public safety software, and ensuring uninterrupted connectivity between departments.

Transportation Services supports community safety by providing reliable transit that reduces congestion, improves mobility for vulnerable residents, and offers safe travel during severe weather.

Together, these departments form Dubuque's operational readiness network—preventing harm, responding to emergencies, and ensuring continuity during crises.

A Community Protected by Everyone

What becomes clear across every department is a shared philosophy: **public safety is everyone's responsibility.**

It is expressed through:
- the engineering controls that prevent crashes and floods
- the code enforcement that ensures safe housing
- the communications that keep residents informed during crises
- the economic and social programs that reduce instability
- the infrastructure that moves water, protects roads, and maintains technology
- the emergency responders who arrive when every second counts
- the parks, libraries, and public spaces that offer refuge and belonging

Safety is not the work of one department—it is the woven fabric of all City operations. Because of this collective effort, Dubuque is not just safer in emergencies; it is safer every day, in ways many may never see but all benefit from.

The City of Dubuque is a Community Built on Service, Safety, Stewardship & Shared Purpose.

Across Dubuque's government, one theme rises above all else: **people serving people.** From the moment person becomes a resident to the moment water flows safely from a tap, dozens of teams work together — often quietly, often unseen — to keep our community moving, thriving, and welcoming. These departments form an interconnected ecosystem of service, each contributing to a Dubuque built intentionally, compassionately, and with an eye toward the future.

At our **regional airport**, staff operate not just a transportation hub, but a gateway to opportunity. Their work helps businesses recruit talent, supports medical transport when minutes matter, and welcomes visitors home with professionalism and hospitality. The airport connects Dubuque to the wider world — and connects the world to us.

In **City Clerk services**, residents find their first point of contact with local government — a place to access public records, participate in council proceedings, pursue licenses and permits, and engage in meaningful civic involvement. The Clerk's Office safeguards the historical record of our governing body while creating clear pathways for the public to understand, influence, and participate in their government.

The **Communications Office** ensures that residents receive timely, trustworthy, accessible information amid today's whirlwind of noise, rumors, and viral misinformation. Their work protects the credibility of local government, helps residents understand and access city services, and keeps transparency at the forefront even in a fast-moving digital environment.

Through **Community Impact & Neighborhood Support**, Dubuque embraces a bigger vision: that opportunity should never be accidental. This department aligns data, resident voice, and neighborhood engagement to remove barriers and help families move toward stability and long-term economic mobility. Their mission is not just to run programs, but to strengthen the entire ecosystem of community support.

The **Economic Development Department** works quietly but powerfully behind the scenes — turning ideas into storefronts, revitalizing underused spaces, supporting local entrepreneurs, and aligning public tools with private investment. Their work helps shape a local economy rooted in resilience, creativity, and shared prosperity.

Our **911 Emergency Communications** team — the dispatchers who answer calls in crisis — serve with empathy, professionalism, and genuine human care. In a newly improved communications center, they continue to support residents with focus and compassion, inspired by the community they serve.

In the **Engineering Department**, staff act as the city's in-house engineering firm, designing and maintaining streets, sidewalks, traffic systems, sewers, stormwater networks, and fiber infrastructure. Much of their work may be invisible to residents, but it shapes every trip made in Dubuque and ensures that movement throughout the city is safe, efficient, and reliable.

For the **Fire Department**, the heart of their message is simple: their greatest strength is their people. Highly trained, deeply compassionate, and unwaveringly dedicated, these individuals show up on the worst days of people's lives with skill, steadiness, and humanity. They see people, not incidents — and their service reflects Dubuque's core values: integrity, responsibility, and care.

The **Housing & Community Development Department** works directly with residents to improve safety, stability, and quality of life. Through permitting, inspections, rental licensing, rehabilitation, and neighborhood revitalization, they build trust through personal interaction and help ensure that every person has access to safe, supported housing.

The **Health Services team** protects community wellbeing through food inspections, animal control, and investigations that prevent illness and injury before they occur. Their efforts reduce avoidable healthcare costs, prevent disease, and promote a healthier, safer community — much of it quietly, diligently, and behind the scenes.

Human Resources supports the people who support the public. They recruit talented employees, provide training, ensure compliance with employment laws, and help maintain safe, respectful, workplaces. Their mission is to build a capable workforce that delivers reliable, high-quality service citywide, while creating a sense of belonging.

Dubuque's **Office of Human Rights** ensures that every resident has access to safety, dignity, fairness, and equal opportunity. Going beyond enforcing nondiscrimination laws, the office provides education, outreach, dispute resolution, and guidance that fosters a community where everyone belongs.

The **Information Technology Department** serves as the city's hidden backbone — the "wizard behind the curtain" ensuring systems run smoothly, securely, and reliably. They solve problems before disruptions occur, strengthen cybersecurity, and make digital complexity feel seamless for residents and staff.

The **Carnegie-Stout Public Library**, approaching its 125th anniversary, continues to be a cornerstone of literacy, learning, curiosity, and safe public space. It nurtures psychological, social, and economic wellbeing through accessible resources, programming, and a welcoming environment.

In **Parks & Recreation**, the city is turning community feedback into a decade-long plan to enhance quality of life. The new master plan invites residents to dream, imagine, and collaborate as the department invests in spaces and programs that bring joy, health, and connection.

Planning Services blends data, imagination, and community input to guide how Dubuque grows. Like urban storytellers, they help shape neighborhoods that feel connected and welcoming, ensure development is safe and sustainable, and paint the next strokes of the city's evolving landscape.

The **Police Department** remains committed to disciplined operational excellence, strong partnerships, strategic innovation, and high-quality personnel — all in pursuit of keeping Dubuque as one of the safest places to live in the country.

In **Public Works**, deeply skilled operators, technicians, and field staff maintain the physical backbone of the city. Their work is essential, demanding, and often invisible — from clearing storm drains to maintaining streets to ensuring emergency response is possible. They steward the infrastructure that keeps Dubuque functioning, safe, and resilient.

Sustainability touches every aspect of daily life, from air and water quality to transportation, health, biodiversity, waste, and food systems. The city's sustainability work encourages residents to think broadly about how the community can thrive while protecting long-term environmental health.

The city's transportation system, **The Jule**, connects people to possibility. Every bus route expands access to jobs, education, services, and opportunity. In FY27, The Jule continues its commitment to sustainability and community connection — because when mobility expands, community wellbeing expands with it.

The **Water Department** works with precision and scientific rigor to ensure safe, clean, reliable drinking water. Through extensive daily and monthly testing, they safeguard public health, support essential amenities, and ensure Dubuque meets the highest standards of safety and emergency readiness.

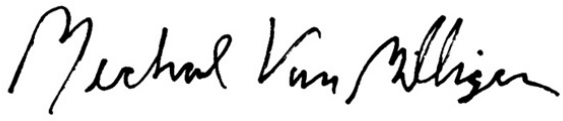

Without the **Finance Department** nothing runs. Managing a $250 million annual budget, paying bills, making payroll, purchasing goods, and keeping employees safe is a big and important job. In addition to financial responsibilities, the Finance Department oversees the implementation of the City's organization-wide safety program. The City is committed to providing a safe and healthy workplace for all employees, and safety is treated as a core value at every level of operations. To strengthen this commitment, the City has established a multi-department safety committee and completed a comprehensive review of all safety policies and procedures to ensure alignment with OSHA standards and best practices.

The **Water & Resource Recovery Center** operates around the clock, using chemistry, biology, engineering, and continual monitoring to protect the environment and public health. Their team blends technical excellence with a commitment to workplace culture, investing in reliability, innovation, and people as they prepare for the future.

Finally, the **City Attorney's Office** and the **City Manager's Office** work closely with the Mayor and City Council to ensure departments have the tools they need to carry out the goals and priorities established by the City Council.

There will be seven City Council special meetings prior to the adoption of the FY 2027 budget before the state-mandated deadline of April 30, 2026. I want to thank Chief Financial Officer Jennifer Larson, Assistant City Manager Cori Burbach, Public Information Officer Randy Gehl, Budget Manager Laura Bendorf, Budget/Financial Analyst Shannon Soppe, Budget/Financial Analyst Nikesh Shah, Budget/Financial Analyst Nathan Kelleher, and Executive Assistant Stephanie Valentine for all their hard work and dedication in preparation of this budget recommendation.

I respectfully recommend Mayor and City Council adoption of the Fiscal Year 2027 Budget recommendation, and I look forward to the multiple public input meetings to come.

Michael C. Van Milligen
City Manager

DIFFERENCES OF FISCAL YEAR 2027 RECOMMENDED BUDGET FROM MAXIMUM PROPERTY TAX DOLLARS RESOLUTION

Tax Asking

The proposed property tax dollars resolution approved by the City Council on March 23, 2026 totaled $31,281,296 (including the debt service levy of $282,630). The recommended tax asking was unchanged from the proposed property tax dollars tax asking.

Property Tax Paid by Average Homeowner

The proposed property tax dollars resolution included a 3.00% increase for the average homeowner property tax payment for the City portion of their property tax bill assuming the Homestead Property Tax Credit is fully funded. The recommendation included in this budget provides a 3.00% increase.

Property Tax Paid by Average Commercial Property

The proposed property tax dollars resolution included a 18.10% increase for the average commercial property owner. The recommendation included in this budget is a 18.10% increase for the average commercial property owner.

Property Tax Paid by Average Industrial Property

The proposed property tax dollars resolution included a 17.88% increase for the average industrial property owner. The recommendation included in this budget is a 17.88% increase for the average industrial property owner.

Tax Rate

The Fiscal Year 2027 “City” portion of the tax rate is being increased by $0.10108 from the Fiscal Year 2026 rate of $10.06372 to a tax rate of $10.16480 per $1,000 of taxable assessed valuation. The proposed property tax dollars resolution established by City Council included a rate of $10.16480. The recommendation included in this budget is a rate of $10.16480 (1.00% more than FY 2026).

MANAGEMENT PHILOSOPHY

Mike Van Milligen
Dubuque City Manager

As a leader, it is my responsibility to not only manage tasks and processes but also to understand and support the emotional well-being of our team members. Emotional intelligence is the cornerstone of effective leadership. Through self-awareness, managing our own emotions, and exercising empathy for ourselves and others, we create a work environment where everyone feels valued and understood. This approach not only fosters collaboration and innovation but also drives long-term success. Let us lead with empathy, nurture a culture of trust, and empower our teams to thrive both personally and professionally.

ABOUT MIKE

I learned my secrets to success from my parents:

- Work hard
- Have a good attitude
- Be humble and kind
- Make good choices
- Family is all about love and respect

"The conductor of an orchestra does not make a sound. He depends, for his power, on his ability to make other people powerful."

- Benjamin Zander, Conductor, Boston Philharmonic

Guiding Principles

1. Be curious.

Curiosity leads to a culture of learning and continuous improvement for our self and our organization.

- Be approachable and open to the input of others.
- Being curious about various cultural approaches and backgrounds allows us to improve communication, navigate conflict, and helps everyone feel like they belong.
- Strive to continually improve methods, process and policies

2. Be problem solvers.

Team members' approaches to issues should be to focus on what can be done to solve the problem.

- Create processes that allow for creativity and innovation.
- Be willing to ask for help and create a culture that supports risk-taking.
- Adapt decision-making processes to include a variety of voices and communication styles.
- Be data-driven and focus on improving community outcomes for all.

3. Develop Partnerships

Team members can be more effective by developing partnerships with other departments, residents, and other organizations.

- Form teams that capitalize on individuals' strengths.
- Develop shared goals, objectives, and decision-making processes.
- Form partnerships that reflect the variety of backgrounds and interests in the community we serve.

4. Hold each other accountable.

Two-way accountability involves both parties taking personal responsibility for their actions and commitments in a constructive and supportive manner.

- Relationships are built at the speed of trust.
- Self-accountability involves holding ourselves to a high standard and demonstrating the behaviors and characteristics we desire.
- Mutual accountability requires consistent communication, and creates an environment where feedback is welcomed and the team works together towards common objectives.

Dubuque operates under the council-manager form of local government.
The City Council are elected by residents and hold policy-making power. They appoint a professional, non-partisan city manager to oversee the day-to-day operations of the city. The council-manager form of government was adopted by citizen referendum in 1920.

BUDGET PROCESS

This page intentionally left blank.

OVERVIEW OF BUDGETING

INTRODUCTION

The review and adoption of the budget is the single most important thing that a City Council does each year. The budget sets the tempo, capabilities, commitments and direction of the city government for an entire year. It is the yardstick against which the city operations can be evaluated. But what is a budget?

The purpose of this narrative is to identify:

a) what a budget is;

b) why we prepare a budget;

c) alternative types of budgets;

d) major characteristics of the Dubuque budget system; and

e) roles and responsibilities in preparing the annual budget.

WHAT IS A BUDGET?

A budget is several things:

1. The budget is a fiscal plan setting out anticipated revenue and expenditures for accomplishing a variety of services over a given time frame. The fiscal plan includes:

   a) an explanation of the services, activities, programs and projects to be provided by the City to the residents;

   b) the resultant expenditure requirements; and

   c) the resources available for meeting the expenditure requirements.

2. The budget is a process concerned with the allocation of available resources among alternatives and competing departments, activities and programs. Cities rarely have enough money to be able to appropriate all the funds requested to all departments and activities and, as a result, there is considerable competition for whatever money is available. Budgeting, as a process, is concerned with developing an acceptable mix or balance between costs and services and represents the decisions made with respect to:

   a) quality and quantity of activities and projects to be undertaken; and

   b) financing of those activities and projects.

3. The budget is a policy document which:

   a) establishes the authority to spend funds, and levy and collect property taxes;

   b) represents a commitment to provide a specific level of service within a given amount of resources; and establishes criteria (objectives, measures and dollar limits) for evaluating and controlling expenditures, revenue collections and performance. Through the budget, policies are made, put into effect, and controlled.

4. The budget is a legal requirement. State law requires the City Manager to prepare the annual budget and the City Council to adopt the annual budget and certify it to the County Auditor by April 30th of each year preceding the beginning of the fiscal year on July 1st. The budget must be on a program - performance basis and show:

   a) expenditures for each program;

   b) income from sources other than property taxes;

   c) amount to be raised by the property taxation and the property tax rate expressed in dollars per thousand of assessed value; and

   d) comparisons between expenditures in each program and between levels of service.

WHY DO WE BUDGET? WHY IS IT IMPORTANT?

Why do we go through the agony and the work? There are several reasons:

1. To meet the legal requirement.
2. To establish spending and income-raising authority.
3. To establish a work program for the fiscal year (objectives) and present it to the public.
4. To manage and control resources and their use.
5. To assure the proper mix of costs and services.
6. To assure the most effective and efficient use of available resources.
7. To set the tempo and direction of the city government.
8. To prioritize policies and objectives.
9. To link dollars with results.

ALTERNATIVE TYPES OF BUDGETS

Line-Item Budget

The most commonly used budget format in local government today is the line-item budget. A line- item budget is one which allocates money for specific expense items or objects of expenditure without reference to the purpose, activities or program they will serve. This type of budget lists expenditures by such categories as full-time salaries, overtime, office supplies, postage, travel, rental expense, maintenance of buildings and grounds, office furniture and equipment, etc. The principal advantage of a line-item budget is that it is easy to prepare and facilitates expenditure control. However, this form of budget tells very little about the purposes, activities and programs of the city it serves. For example, it shows the amount of money that has been budgeted for personnel, but it does not show the nature of the services such personnel are to provide.

Furthermore, the traditional line-item approach does not show comparative costs and benefits of competing programs, thus making it difficult for the City Council and management to evaluate individual activities and allocate resources. These characteristics limit its usefulness as a device for giving direction and purpose to public service activities and programs.

Program Budget

Local governments usually spend money to accomplish something more than purchasing goods and services. They are also concerned about programs, missions, or functions. A budget organized on the basis of its intended purpose is called a program budget. A program budget allocates money to functions or activities rather than to specific items of costs. A municipal budget of this type lists expenditures for such cost categories as protective services, leisure time opportunities, and administration.

Few, if any, budgets are prepared exclusively on a program basis. Instead, program costs are usually broken into line items.

The primary advantage of a program budget is that it shows the broad goals and purposes for which we are spending money and allows for setting priorities. The disadvantage is that it does not show the level of services that will be produced by the functions for which money has been allocated. This characteristic weakens its value as a tool for managing the quality and quantity of public service programs.

Performance Budgeting

Performance budgeting goes a step further than program budgeting by requiring the breakdown of service into workload or units of performance and the assigning of unit costs. A system of work measurement is used to evaluate productivity and effectiveness.

The principal advantage of the performance type budget is that it shows both the activities of the city and the service levels of those activities and their respective costs. Thus, it can be a useful tool for regulating in a positive way, both the quality and quantity of city services. This characteristic makes the performance type budget the most useful of those types mentioned so far. However, it is also the most difficult to prepare. There are three reasons for this. First, it is difficult to define the units by which the work of the department or an activity or program can be measured. Second, even when the work unit can be defined, it may not be easy to establish a system, which will supply a reliable measure of the work output. And third, it requires much thought and study to establish acceptable service levels for various activities and programs.

Zero Base Budgeting

Traditional budgeting, whether line-item or program-oriented, tends to focus on how much you spent last year as a beginning point for budget preparation. That is to say that it is incremental, it adds an increment on top of last year's spending level generally without challenge and without consideration of alternatives or trade-offs.

Zero Base Budgeting (ZBB) is a system whereby each activity or program, regardless of whether it is a new or existing program, must be justified in its entirety each time a new budget is formulated. Rather than using the previous year's budget as a base, ZBB assumes no base; all activities old and new must be explained and justified each year. The agency starts at zero.

ZBB measures the desirability, need and beneficiaries of services as well as the reasonableness of the proposed costs, alternatives to the activity, and trade-offs between partial achievement of goals and the ability to fund all proposed budget expenditures. ZBB accomplishes this by dividing all the proposed activities or services of the governmental body into units of manageable size, subjecting them to detailed examination, and ranking them according to their importance.

Revenues are matched against the list of services according to their rank. High-priority services are funded first. If money runs out, the low-priority services are not funded.

The characteristics of ZBB can be summarized as follows:

1. Scrutiny of old or existing activities as closely as new or proposed activities;

2. Reallocation of resources from low-priority activities to high-priority activities;

3. Emphasis on alternatives (levels of expenditures and services and methods of providing services); and

4. Allowance for budget reduction or expansion in a planned, logical manner.

Dubuque Budget Approach

The budget system being utilized by the City of Dubuque incorporates aspects of each of the several budget alternative types discussed here. The major characteristics of our budget system are:

1. It has line items for control and fiscal management purposes.

2. It is organized by program, department and fund.

3. It attempts to identify, analyze, and articulate the fundamental purposes and objectives of the Dubuque City government. This approach is intended to place emphasis upon commitments, accomplishments, and activities performed rather than upon items purchased and to provide for the establishment of priorities. It attempts to identify, quantify, and analyze the demands on and accomplishments of organizational units in terms of established goals, objectives, and purposes. Are we achieving our goals and living up to our promises? This requires the establishment of workload and demand indicators and evaluation criterion. It is performance that counts.

4. It attempts to identify all costs of each department, activity, and program, including capital expenditure, debt service, and employee benefit costs. What does an activity or department really cost?

5. It presents alternative service and funding levels for all activities in the operating budget. The purpose is to provide the City Council with the widest possible range of alternatives to maximize their opportunity for making policy decisions, assigning priorities and allocating scarce resources to accomplish their policy objectives.

   The City's budget approach involves the preparation of three budget documents. **The Policy Budget,** the **Capital Improvement Program (CIP) Budget**, and the **Resident's Guide**.

   The Policy Budget includes the City department detail, by defining goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted. The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

   The Capital Improvement Program (CIP) Budget represents the City of Dubuque's five year physical development effort, attempts to address a variety of needs, which the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP Budget reflects the City's comprehensive plan and the goals and priorities established by the City Council. The first year of the five-year CIP Budget goes into the budget for the next year and deserves the most attention. The CIP Budget is updated each year so that City Council has the opportunity to change the next four years and add a new year.

   The Resident's Guide pulls the entire budget together through visuals, narratives and summaries. It explains the budget, provides revenue, expenditure and personnel summaries and provides the City Council vision, goals and priorities on which the budget is based.

ROLES AND RESPONSIBILITIES

Budget preparation and administration is a shared responsibility between the City Council, City Manager, Finance Department, department manager, division manager, and supervisor. Each plays an important role in the fiscal management system and the quality of and satisfaction derived from the fiscal management system is a direct result of the efforts of the several participants. Lack of attention, failure to follow procedures and/or poor follow through at any level can undermine the best fiscal management system.

Let's look at the roles each plays.

City Council

In a very real sense, budget preparation and administration begins and ends with the City Council. The City Council has the following responsibilities:

1. Establish City goals and major performance objectives.
2. Approve guidelines for preparing the annual operating budget.
3. Establish through adoption of an annual budget what services and the level of services to be provided and how they will be financed.
4. Establish rules for the conduct of the City's fiscal operations.
5. Monitor progress toward achievement of objectives.
6. Require independent audit of fiscal records and transactions.

The City Manager

The City Manager is responsible to the City Council for the day-to-day operation and administration of the City government. In terms of fiscal management, the City Manager has the following responsibilities:

1. Develop policy guidelines for City Council review and adoption.
2. Develop Maximum Property Tax Levy Resolution for City Council review and adoption.
3. Prepare and submit an annual operating budget and a five-year Capital Improvement Budget premised upon Council guidelines and goals and major performance objectives.
4. Ensure the adopted budget is properly administered.
5. Supervise the performance of all contracts for work to be done by the City. Authorize and direct the purchase of all supplies and materials used by the City.
6. Keep Council fully advised on financial conditions of the City.
7. Establish rules for conduct of fiscal operations for which they are responsible.

Finance Department

The Finance Department becomes an extension of the City Manager's Office for purposes of performing the delegated responsibilities. The responsibilities of the Finance Department include the following:

1. Administer the approved budget on a day-to-day basis to see that funds are being expended for the purposes approved and that all claims are supported by proper documentation.
2. Supervise sale of bond issues.
3. Administer centralized payroll system.
4. Administer decentralized purchase order system.
5. Assist the City Manager’s Office in preparing the budget.

Department Managers, Division Managers, and Supervisors

The critical role in the fiscal management system is performed by department managers and their division managers and supervisors. The fiscal management system will be only as good as they make it. Their role includes:

1. Responsibility for the efficient and effective operation of the activities and tasks under their direction. Line supervisors are expected to control costs and achieve results.
2. Responsibility for preparation of budget requests, which emphasize objectives and service levels as well as traditional line item explanations and justifications for various funding levels and development of measures for evaluating progress toward objectives. What is the level of accomplishment, which can be expected from various funding levels, and how do we measure it? It is absolutely essential in our approach to budget preparation that accomplishments, objectives, and estimated costs be established by those in the organization who know the most about it and can be held accountable. Those are the department managers and their division managers and supervisors.
3. Responsibility for recommending and explaining needs and opportunities for service changes; reductions as well as expansions.
4. Responsibility for providing the planned and approved service level within budget limitations.
5. Responsibility for day-to-day department and activity budget administration.

BUDGET CYCLE

The budget cycle is a sequence of events covering the life of a budget from beginning to end; from the City Manager's review of prior year accomplishments and future initiatives, to the City Council approval of the final budget amendment. The budget cycle is approximately twelve months long. The critical dates are spelled out in State law: April 30th is when the budget for the following fiscal year must be adopted by the City Council; and July 1st as the beginning of the fiscal year. Throughout the entire budget cycle, public input is encouraged to insure the adopted budget is resident-based. The budget cycle can be summarized as follows:

SPRING	**City Council** formulates negotiation strategy for collective bargaining.
JULY - AUGUST	**City Manager** recommends budget carryover amendment for City Council approval at a public hearing. **City Manager,** along with Department Managers, review fiscal year accomplishments and identify future initiatives for City Council consideration during goal setting.
SEPTEMBER - OCTOBER	**City Council** holds 2-day goal setting to develop Vision and Mission statements, identify 5 year goals and establish Policy agenda including Top Priorities for upcoming fiscal year and Management Agenda/ special projects.
SEPTEMBER OCTOBER	**City departments** prepare Capital Improvement project information and budget requests for review by City Manager.
OCTOBER NOVEMBER DECEMBER	**City departments** prepare operating budget and other budget requests for review by City Manager. **City Manager** holds Public Input meetings to review issues and priorities for the capital budget and the operating budget.
JANUARY FEBRUARY	**City Manager, Chief Financial Officer, and Budget Manager** analyze, review and balance capital and operating budget requests and prepare final budget recommendation.
MARCH	**City Manager** presents draft Policy guidelines and Maximum Property Tax Resolution to City Council for City Council approval.
MARCH APRIL	**City Council** holds public meetings to review recommended budget by department. Meetings are held in the evening and are available for live viewing on City Channel Dubuque.
APRIL	**City Council** holds final public hearing on the recommended budget. The meeting is held in the evening and is available for live viewing on City Channel Dubuque. **City Council** adopts budget and city staff certifies budget by April 30 in compliance with State law.
APRIL MAY	**Budget Manager** reviews budgeted revenues and expenses and recommends adjustments to more accurately reflect the anticipated revenues and expenses for the fiscal year ending June 30. **City Council** reviews and approves an amended fiscal year budget and city staff certifies the budget amendments by May 31 in compliance with State law.

BUDGET AMENDMENT PROCESS

Budget estimates may be amended and increased as the need arises to permit appropriation and expenditure of unexpended cash balances on hand and unanticipated revenues. Such amendment may be considered and adopted at any time during the fiscal year covered by the budget (but prior to May 31) by filing the amendments and upon publishing them and giving notice of the public hearing in the manner required in the State Code. Within ten days of the decision or order of the City Council, the proposed amendment of the budget is subject to protest, hearing on the protest, appeal to the state appeal board, and review by that body. A local budget must be amended by May 31 of the current fiscal year-to allow time for a protest hearing to be held and a decision to be rendered before June 30.

Except as specifically provided elsewhere in the Iowa Administrative Code rules, all appropriation transfers between programs or funds are budget amendments and shall be prepared as provided in Iowa Code section 384.16. The program reference means any one of the following nine major areas of public service that the City Finance Committee requires cities in Iowa to use in defining its program structure: Public Safety, Public Works, Health & Social Services, Culture & Recreation, Community & Economic Development, General Government, Debt Service/Capital Improvement Projects, Business Type, and Non-Program.

BUDGET ACCOUNTING BASIS

The operating budget of the City of Dubuque is written so that available resources and anticipated expenditures are equal. The City's accounting and budget records for general governmental operations are maintained on a modified accrual basis, with the revenue being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities incurred. Accounting records for the Enterprise and Internal Service Funds are maintained on the accrual basis, while the budget records are maintained on the modified accrual basis.

Differences between budgetary policies and Generally Accepted Accounting Principles (GAAP) in the Enterprise and Internal Service Funds exist for several reasons. One reason is that existing procedures have worked well and continue to work well for administrative and control purposes. Some other reasons for differences between budget and GAAP are the treatment of interfund transfers, departmental capital outlay, debt service principal payments, and depreciation. The City's budgeting practices include interfund transfers as revenue and expenditures, while GAAP classifies interfund transactions as other financing sources and uses. Also City management desires an operating statement budget line item for each anticipated cash outflow, including debt service and capital outlay. If the City budgeted the enterprise funds on a full accrual basis, capital outlay and debt service payments would not be reported in the operating statement.

Depreciation expense, which is recognized in the accounting records, is not budgeted. Not providing for depreciation in the budget is a policy decision that has not adversely affected the funds.

FUND ACCOUNTING BASIS

The accounts of the City are organized on the basis of funds and groups of accounts, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, equities, revenues and expenditures or expenses.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Employee Benefits Fund* is used to account for pension and related employee benefit costs for those employees paid wages from the General Fund.

The *Community Development Fund* is used to account for the use of Community Development Block Grant funds as received from federal and state governmental agencies.

The *Street Construction Fund* is used to account for the resources and costs related to street capital improvements.

The *General Construction Fund* is used to account for the resources and costs related to nonassignable capital improvements.

The City reports the following major proprietary funds:

The *Sewage Disposal Works Fund* is used to account for the operations of the City's sewage disposal works and services.

The *Water Utility Fund* is used to account for the operations of the City's water facilities and services.

The *Stormwater Utility Fund* is used to account for the operations of the City's stormwater services.

The *Parking Facilities Fund* is used to account for the operations of the City-owned parking ramps and other parking facilities.

The *America's River Project* is used to account for the construction of all projects covered by the Vision Iowa Grant, including all matching funds.

The City reports the following non-major governmental funds:

Airport Construction Fund - This fund is used to account for the resources and costs related to airport capital improvements.

Sales Tax Construction Fund - This fund is used to account for the resources and costs related to capital improvements financed through the local option sales tax.

Road Use Tax Fund - This fund is used to account for state revenues allocated to the City for maintenance and improvement of City streets.

Section VIII Housing Fund - This fund is used to account for the operations of federal Section VIII existing, voucher, and moderate rehabilitation projects.

Tort Liability Fund - This fund is used to collect a special property tax levy which is then transferred to the General Fund. The General Fund accounts for the administration and payment of damage claims against the City.

Special Assessments Fund - This fund is used to account for the financing of public improvements that are deemed to benefit primarily the properties against which special assessments are levied and to accumulate monies for the payment of principal and interest on the outstanding long-term debt service.

Tax Increment Financing Fund - This fund is used to account for the receipt of property taxes, for the payment of projects within the tax increment financing district, and for the payment of remaining principal and interest costs on the tax increment financing districts' long-term debt service.

Cable TV Fund - This fund is used to account for the monies and related costs as set forth in the cable franchise agreement between the City of Dubuque and the cable franchisee.

Library Expendable Gifts Trust - This fund is used to account for contributions given to the library to be spent for specific purposes.

IFA Housing Trust - This fund is used to account for funds received under the Iowa Finance Authority State Housing Trust Fund Program.

Debt service fund – This fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Ella Lyons Peony Trail Trust Fund - This fund is used for dividends and maintenance cost related to the City Peony Trail, per trust agreement.

Library Gifts Trust Fund - This fund is used to account for testamentary gifts to the City.

The City reports the following non-major proprietary funds:

Refuse Collection Fund - This fund is used to account for the operations of the City's refuse collection services.

Transit System Fund - This fund is used to account for the operations of the City's bus and other transit services.

Governmental Fund Types (Budgetary)

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position. The following are the City's governmental fund types:

- **The General Fund** is the principal operating fund of the City and accounts for all financial transactions not accounted for in other funds. The general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are financed through revenues received by the General Fund.
- **Special Revenue Funds** are used to account for revenues derived from specific taxes, governmental grants, or other revenue sources, which are restricted to finance particular functions or activities of the City. The City's special revenue funds include such funds as Road Use Tax, Community Development, UDAG Repayments, Section 8 Housing, Lead Paint Grant, State Rental Rehab, Cable TV, Special Assessment, Expendable Library Gifts Trust, Tort Liability, Employee Benefits, and TIF funds.
- **Debt Service Funds** are used to account for the accumulation of resources for, and the payment of, principal, interest, and other related costs of the City's general obligation debt. The City uses this fund to pay some of the debt service paid from other funds with the revenue transferred in.

- **Permanent Funds** are used to account for resources that are legally restricted to the extent that only the earnings, and not principal, may be used for purposes that support the reporting of governmental programs. The City's permanent funds include: Lyons Peony Trust and Library Gifts Trusts.
- **Capital Improvement Funds** are used to account for financial resources segregated for the acquisition or construction of major capital facilities. (Even if a capital project fund is used, not all capital acquisitions need be accounted for in the fund). For example, the routine purchases of capitalizable items (e.g., police vehicles, copy equipment) are typically budgeted and reported in the General Fund or other governmental fund.

Proprietary Fund Types (Budgetary)

The City also has proprietary fund types, which are different from governmental fund types in that their focus is on the determination of net income or loss. The revenue from these funds is assumed to be adequate to fund the operation of the funds. The City's proprietary funds are as follows:

- **Enterprise Funds** are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through use charges or where the periodic determination of net income or loss is deemed appropriate. The City's enterprise funds include Water, Sewer, Stormwater, Refuse/Solid Waste, Transit, Parking and America's River Project.
- The **Internal Service Fund** accounts for the financing of goods and/or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost reimbursement basis. The City's Internal Service Funds include Engineering Service, Garage Service, General Service and Stores/Printing.

Self-Insurance Funds (Non-Budgetary)

- The **Self Insurance Funds** are considered Internal Service Funds, are not budgeted, but are summarized in the audited financial statements. These include Health Insurance Reserve and Workers' Compensation Insurance Reserve.

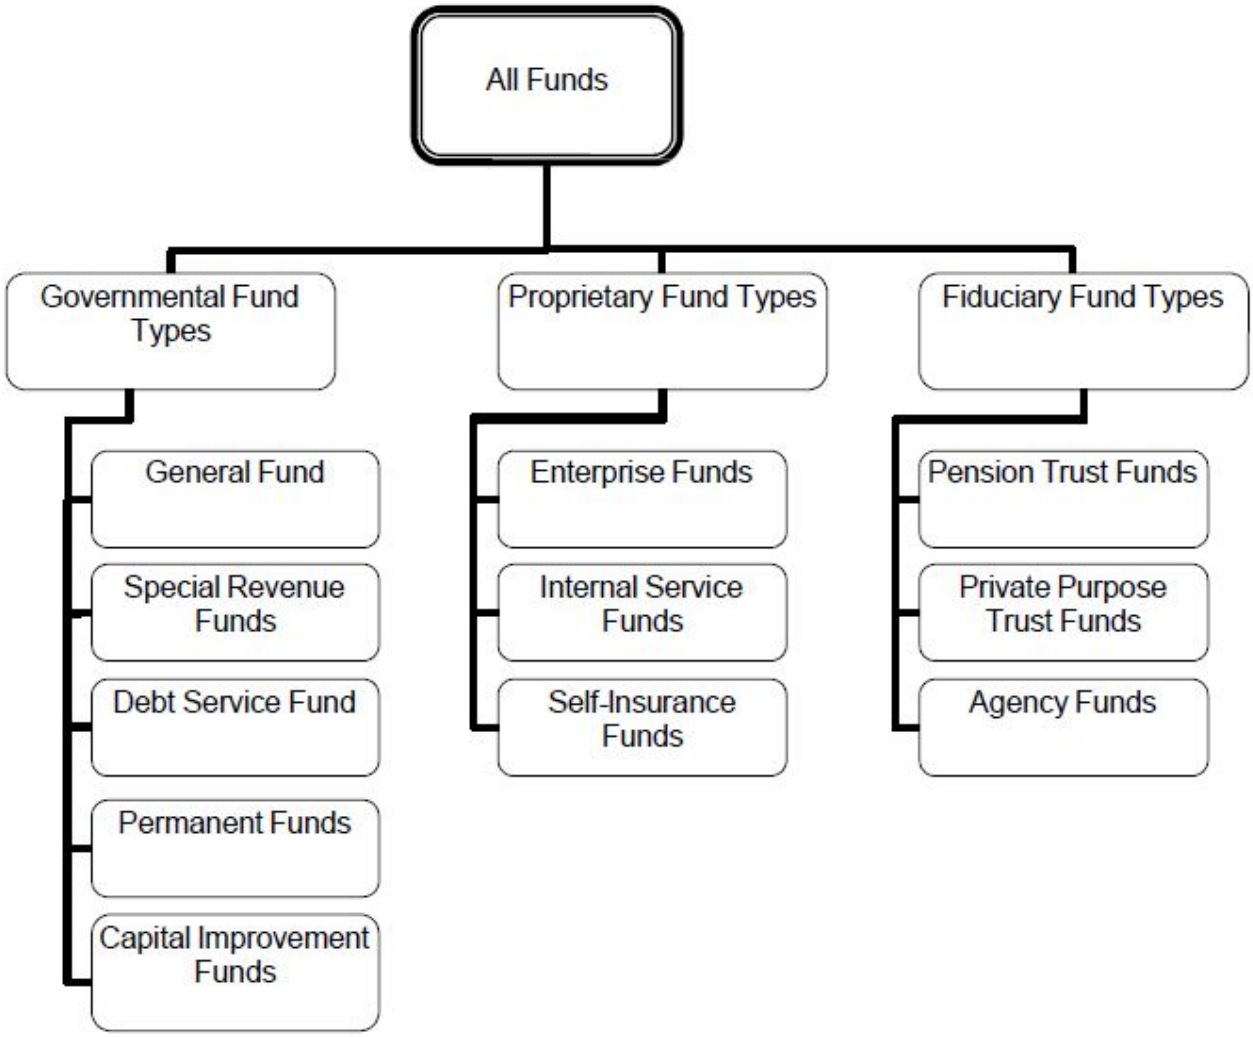

Fiduciary Fund Types (Non-Budgetary)

The City also has fiduciary fund types, which account for assets in a trustee or custodial capacity:

- **Pension Trust Funds** account for assets of pension plans held by a government in a trustee capacity. The City of Dubuque has no such funds.
- **Private Purpose Trust Funds** account for trust arrangements, including those for escheat property, where principal and income benefit individuals, private organizations, or other governments. The major use of private purpose funds is for escheat property. The City has no such funds.
- **Agency Funds** account for those assets held solely in a custodial capacity by the City as an agent for individuals, private organizations, other governmental units, and/or other funds. The City's Agency Funds include the Cable Equipment Fund (monies received from Mediacom through the Cable Franchise Agreement for distribution), and the Dubuque Metropolitan Area Solid Waste Agency General and DNR Planning. These funds are not budgeted.

FUND - DEPARTMENT RELATIONSHIP

The various funds are grouped by type in the budget. The following fund types are used by the City:

The following table shows each City department and its associated funds.

		Special Revenue																Construction						Enterprise									Internal Service				Perm-anent		Debt
Department	**General Fund**	**Road Use Tax**	**Customer Facility Charge**	**CDBG**	**State Rental Rehab**	**Section 8**	**HUD Disaster Relief**	**Housing Trust**	**CIRCLES Donations**	**Cable TV**	**Tax Increment Finance**	**Special Assessments**	**UDAG**	**Lead Paint**	**Veteran's Memorial**	**Expendable Library Gifts**	**Expendable Police Trust**	**Street Construction**	**Sales Tax Increment**	**Sales Tax Construction**	**General Construction**	**Golf Construction**	**Airport Construction**	**Transit**	**Sanitary Sewer**	**Stormwater**	**Parking**	**Water**	**Refuse**	**Salt Operations**	**Landfill**	**Engineering Service**	**Garage Service**	**General Service**	**Stores/Printing**	**Lyons Peony Trust**	**Library Gift Trust**	**Debt Service**

KEY TERMS FOR UNDERSTANDING DUBUQUE'S BUDGET

Program

Programs are presented as general statements, which define a major purpose of City government. Each program is divided into several departments and activities representing a separate and significant segment of the program of which it is an integral part. The state budget law requires that the budget be certified on a program basis. The City of Dubuque uses the following nine programs:

1. **Public Safety:** Police Department, Emergency Communication Center, Fire Department, Disaster Services, Health Services-Animal Control activity, Public Works-Flood Control activity, Building Services-Inspection activities.
2. **Public Works:** Airport Department, Public Works Department, Engineering Department.
3. **Health and Social Services:** Human Rights Department, Health Services Department, Purchase of Services.
4. **Culture and Recreation:** Parks Division, Recreation Division, Ice Center Division, Civic Center Division, Conference Center, Library Department, Economic Development-Arts and Cultural Affairs activity.
5. **Community and Economic Development:** Economic Development Department, Housing and Community Development Department, Planning Services, Purchase of Services, Community Impact-Neighborhood Development activity.
6. **General Government:** Building Services-City Hall/Annex Maintenance, City Council, City Manager, City Clerk, Finance Department, Cable TV Division, City Attorney Department, Information Technology Department.
7. **Debt Service** and **Capital Projects** in programs 1-6 for governmental funds.
8. **Business Type (includes business type operating, capital and debt service):** Water Department, Water Resources and Recovery Department, Parking Division, Transit Division, Public Works-Landfill activities and Garage internal service fund activities, Engineering-Sewer and Stormwater activities, Finance-Utility Meter Reads activity and Stores internal service fund activities.
9. **Non-Program:** City Manager-Health and Worker's Compensation Insurance Reserve fund activities and Public Works-Dubuque Metropolitan Area Solid Waste activities.

* Prior to Fiscal Year 2004, the State of Iowa, City Finance Committee changed the number of programs from 4 to 9 on the expenditure side.

Operating Budget

The Operating Budget represents the various recurring activities and services provided by the several departments in the City government. The Operating Budget provides those services normally associated with the City government (e.g., police, fire, street maintenance, recreation) and involves expenditures which benefit the current fiscal year. (That is, items purchased are used up during the current fiscal period.) Expenditures in the Operating Budget are for such categories as Employee Expense, Supplies and Services, and Debt Service. Funding of the Operating Budget includes property taxes, shared state and federal revenues, fees, fines, licenses, permits, user charges and cash balances.

Capital Budget

The Capital Budget represents major "permanent" capital improvement projects requiring the nonrecurring expenditures of public funds for the acquisition of property or easement, construction, renovation or replacement of a physical asset of the City and any studies, engineering or surveys which are an integral part thereof. The Capital Budget is multi-year in scope, is updated annually and includes project-funding information. The first year of the Capital Budget (or Capital Improvement Program) is included with the Operating Budget for the same year to arrive at a total or gross budget amount. Capital budget financing comes primarily from bond proceeds, state and federal grants, Road Use Tax funds, Dubuque Racing Association profit distribution, and utility depreciation funds.

Expenditure Category

Expenditure category or classification is the basis for classifying and codifying costs. Categories of expense include: (a) Employee Expense; (b) Supplies and Services; (c) Capital Outlay (Machinery and Equipment); (d) Debt Service; and (e) Capital Improvements. Categories of expense consist of various expense accounts. For example, Employee Expense is divided into expense accounts such as full-time, part-time & seasonal employees, overtime pay, holiday pay, social security expense and health insurance. Supplies and Services include accounts such as postage, telephone expense, office supplies, dues and memberships, utility expense - electricity, motor vehicle expense - fuel, library books, and architectural services.

Revenue Category

Revenue category or classification is a basis for classifying and codifying revenue. There are eight major categories or revenue, each divided into specific revenue items.

The eight major categories of revenue are as follows:

1. Taxes
2. Licenses and permits
3. Use of Money and Property
4. Intergovernmental Revenue
5. Charges for services
6. Special Assessments
7. Miscellaneous Revenue
8. Other Financing Sources

An example of the specific revenue items would include the following items in the licenses and permits revenue category: business licenses, cigarette licenses, beer permits, building permits, plumbing permits, heating permits, etc.

Alternative Budget Levels

The Dubuque budget system utilizes a variation of the zero-based budget (ZBB) approach utilizing three alternative funding or budget levels: Maintenance Budget Level, Base Budget Level and Improvement Level.

Each alternative funding level includes specific objectives to be accomplished (service levels to be offered) and associated costs. The budget decision becomes one of selecting alternatives, which maximize the achievements of City objectives according to established priorities within the context of limited resources and City Council policy.

BUDGET IN BRIEF

This page intentionally left blank.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007★2012★2013 2017★2019

BUDGET IN BRIEF

The City Council will approve the fiscal year 2027 operating and capital budgets on April 28, 2026. The recommended FY 27 budget is balanced and includes a 3.00% property tax increase to the average homeowner for the City portion of their taxes.

The keys to the City of Dubuque's financial success include a continued growth in assessed property valuation (5.89% in FY 27); efficient operation with a 16.18% increase in the City's workforce since the 1980's; increased use of Federal and State grants; diversified revenue streams; minimal property tax supported debt; increased public and private partnerships; entrepreneurial City Council policy decisions; and caring residents, committed elected officials, hard-working not-for-profits, and talented city employees.

The City's five-year capital improvement plan (CIP) continues to allocate funding for the maintenance and refurbishment of city facilities. The approved five-year CIP totals $352,840,562.

This budget in brief is intended to provide the residents of Dubuque with an overview of the approved operating and capital budgets. Throughout this document, you will find highlighted sections noting the location of detailed information in the approved budget document. Detailed information related to the approved budget can also be found on the City's website at www.cityofdubuque.org.

Fee Increases for Fiscal Year 2027

Various fee increases will be implemented beginning on July 1, 2026. These fee increases are intended to provide additional revenues to maintain and expand the level of service in various areas. The following is a summary of the increased fees:

Water, Sewer, & Stormwater Increases - Fee increases for water, sewer, and stormwater will be effective July 1, 2026: sewer rates will increase by $2.88 per month for an average residential customer, water rates will increase by $0.67 per month for an average residential customer; solid waste collection rates will increase by $1.63 per month for an average residential customer; and stormwater rates will increase $0.99 per month per standard family unit (SFU) equivalent.

Recreation Fee Increases - Annual golf fee increases/decreases to maintain 100% self-support guideline $50 increase to the season cart passes.

City Clerk Fee Increases - Increase multiple business license and permit fees to accurately reflect the cost of providing service.

FY27 RECOMMENDED BUDGET

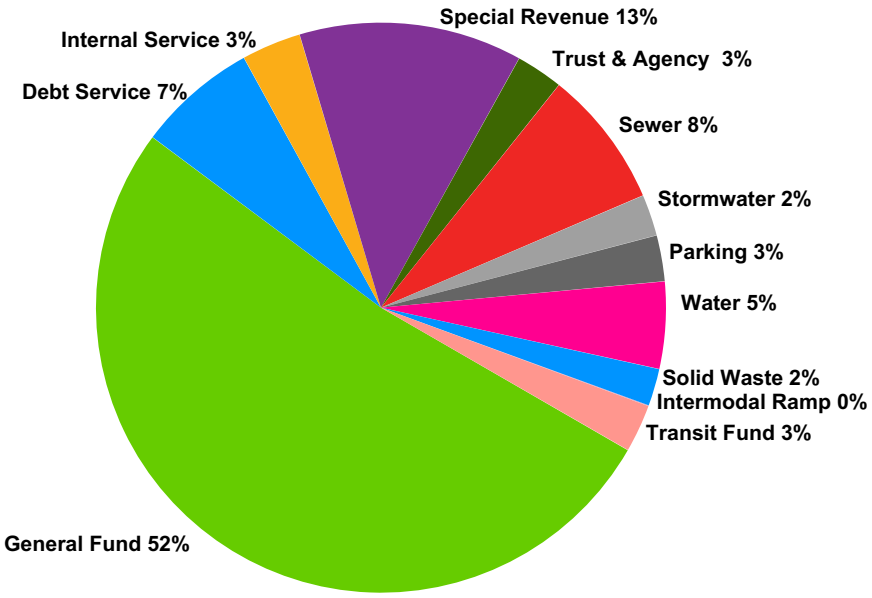

The City's recommended budget provides estimated revenues and expenditures for programs and services to be provided during the fiscal year from July 1, 2026 through June 30, 2027. A separate capital budget includes appropriations for infrastructure related to projects, such as roads, buildings, and equipment that may require more than one fiscal year to complete or to acquire.

OPERATING & CAPITAL BUDGET SUMMARY					
OPERATING	$	184,630,982	CAPITAL	$	80,633,738
General Fund	$	95,693,628	General Fund	$	776,154
Special Revenue Funds	$	23,379,614	Special Revenue Funds	$	4,460,468
Debt Service Fund	$	12,584,115	Capital Projects Funds	$	32,698,414
Enterprise Funds	$	41,842,039	Enterprise Funds	$	40,932,571
Internal Service Funds	$	6,204,411	Internal Service Funds	$	286,950
Trust & Agency Funds	$	4,927,175	Trust & Agency Funds	$	1,479,181

APPROPRIATED BUDGET BY FUND

The City's total appropriated operating budget of $184.6 million is made up of the general, special revenue, debt service, enterprise, internal service, and trust and agency funds. A complete self-contained budget, including both revenues and expenses, is prepared for each of these funds.

FY27 Operating Appropriations by Fund

Transfers from one fund to another, such as a transfer from the general fund to a capital project fund to offset costs of a capital project, are shown as an expense (or transfer) for the entity fund providing the funding and as revenue to the fund receiving the transfer. In order to determine the actual amount of expenditures authorized by the budget, the transfer amount must be excluded.

All funds are balanced in fiscal year 2027. The City's general fund is balanced in fiscal year 2027.

Utility funds are balanced in fiscal year 2027 as a result of rate increases.

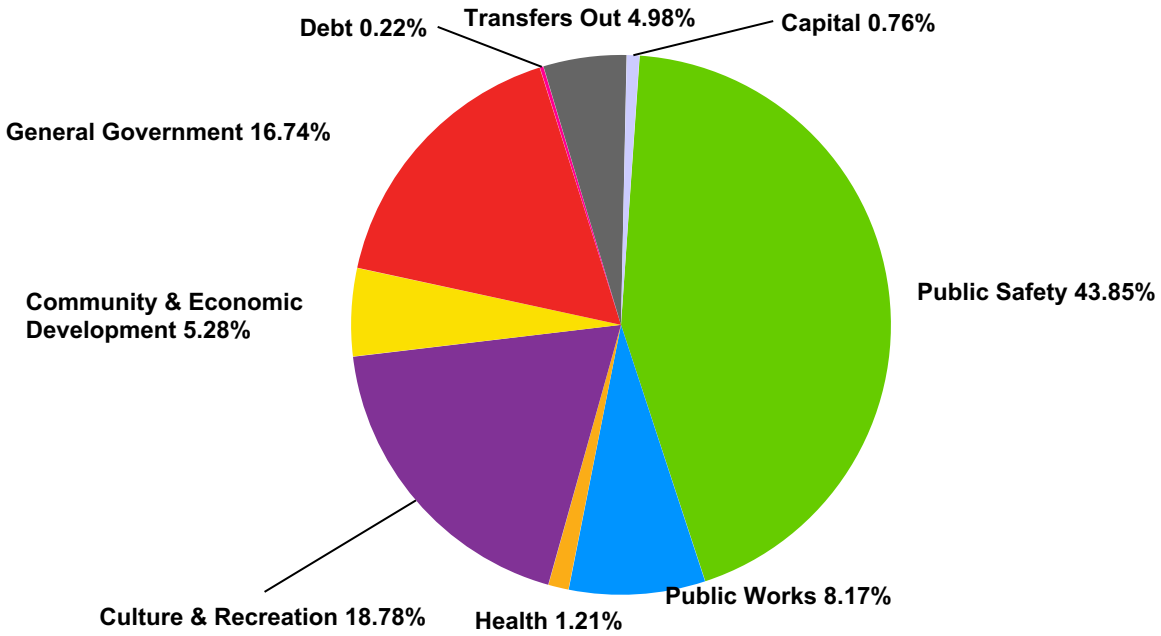

For additional information on the amount of funding included for each fund, total funding by department, and detailed information on reserves, see the Financial Summaries section.

How General Fund Money is Spent

The general fund is the operating fund of the City for general service departments. The general fund has an operating budget of $95.7 million and a capital budget of $0.8 million. This fund encompasses the bulk of activities that are traditionally considered basic governmental services such as public safety, culture & recreation, health & social services, and general government.

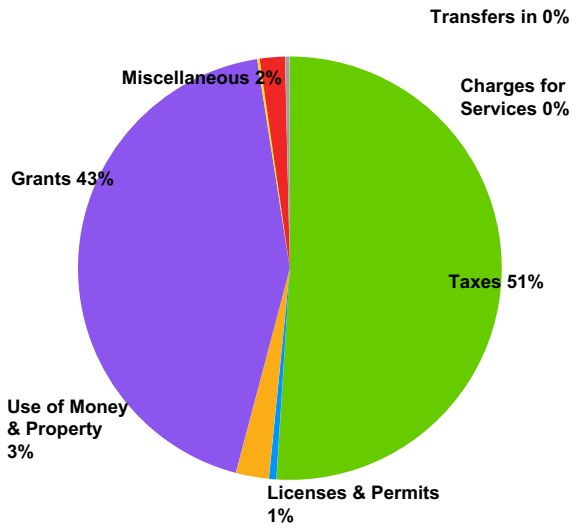

43.8 %	PUBLIC SAFETY	(animal control, building inspections, crime prevention, emergency management, flood control, fire, police, etc.)
18.8 %	CULTURE & RECREATION	(AmeriCorps, arts & cultural affairs, civic center, conference center, library, marina, parks, recreation, etc.)
16.7 %	GENERAL GOVERNMENT	(city attorney & legal services, city clerk, city council, city hall & general buildings, city manager, finance, information technology, etc.)
8.2 %	PUBLIC WORKS	(airport, maintenance of streets, bridges, and sidewalks, snow removal, street cleaning, street lighting, traffic control, etc.)
5.3 %	COMMUNITY & ECONOMIC DEVELOPMENT	(economic development, housing and community development, neighborhood development, planning and zoning, etc.)
5.0 %	TRANSFERS OUT	(to funds other than General Fund)
0.8 %	CAPITAL PROJECTS	(City infrastructure improvements or major equipment purchases)
1.2 %	HEALTH & SOCIAL SERVICES	(community health, health regulation and inspection, human rights, etc.)
0.2 %	DEBT SERVICE	(government capital projects, tax-increment financing [TIF] capital projects)

FY27
How General Fund Money is Spent

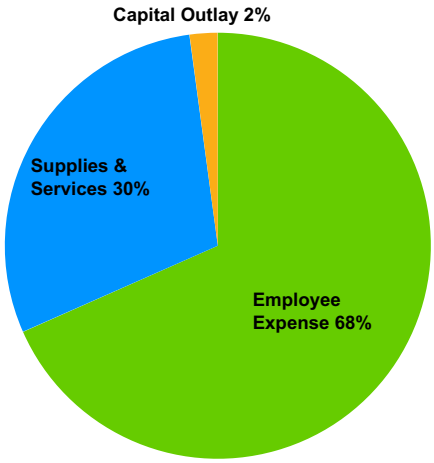

GENERAL FUND REVENUE & EXPENDITURES

General Fund Operating Sources

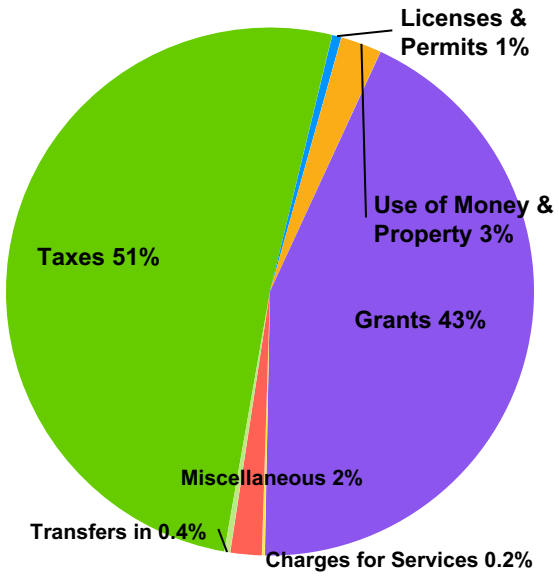

General Fund Operating Uses

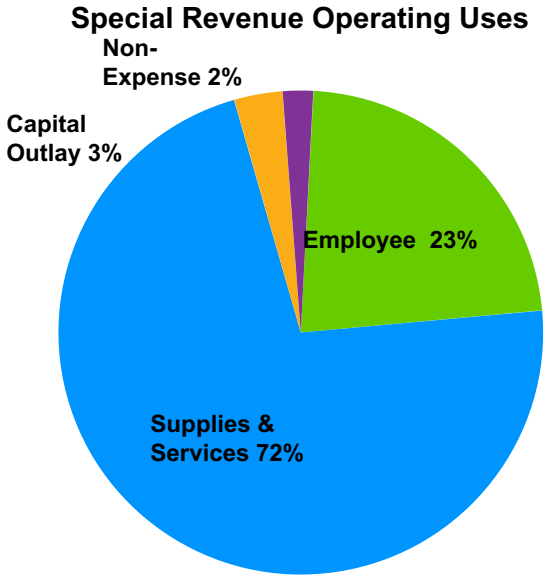

SPECIAL REVENUE FUNDS

The special revenue funds have an operating budget of $23.4 million and a capital budget of $4.5 million. Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The City's special revenue funds include: Employee Benefits; Community Development; Road Use Tax; Section 8 Housing; Tort Liability; Special Assessments; Tax Increment Financing; HUD Disaster Relief; Housing Trust; Cable TV; and Library Expendable Gifts.

Special Revenue Operating Sources

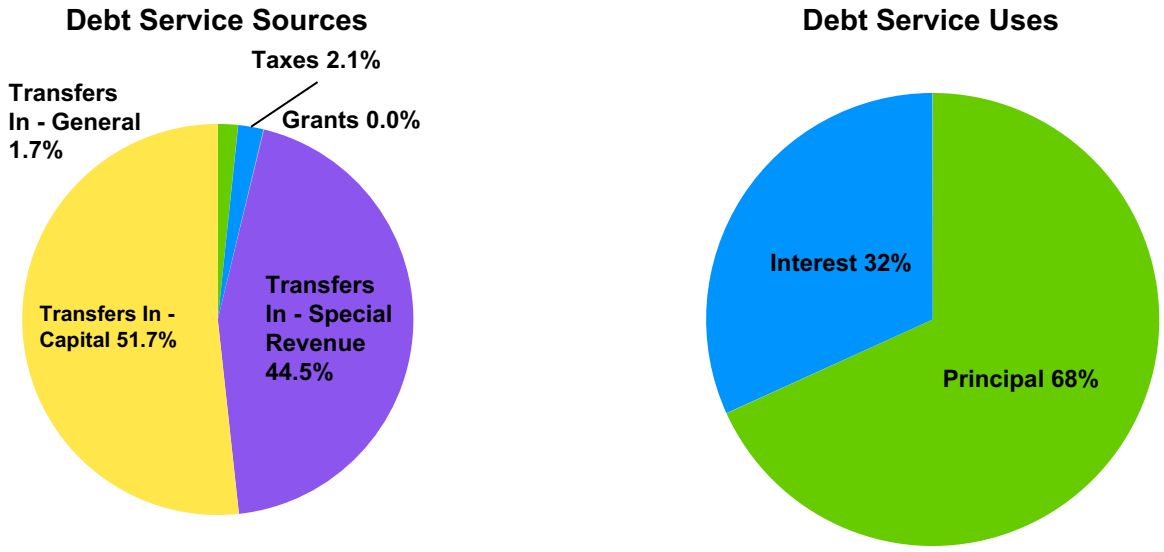

Special Revenue Operating Uses

Special Revenue Funds budgets are shown in the Financial Summaries section.

DEBT SERVICE FUND

The debt service fund has an operating budget of $12.6 million. The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Additional information on the Debt Service Fund is shown in the Debt Summaries section.

ENTERPRISE FUNDS

Enterprise funds are expected to be self-supporting and expected to be funded entirely from user fees for services. Except for Transit, no tax revenues are used for these activities in the FY 2027 budget. A transfer from the general fund to the Transit fund is budgeted to fund transit operations in the City. Each utility transfers revenue to the general fund for general government services. Transfers from the utilities in FY 2027 to support general government services total $10,429,057.

- Sewer Utility $2,468,674
- Stormwater Utility $2,325,790
- Parking $390,583
- Water Utility $2,468,673
- Solid Waste $2,031,622
- Landfill $743,715

Enterprise Funds budgets are shown in the Financial Summaries section.

INTERNAL SERVICE FUNDS

Internal service funds provide goods or services to other department within the City, with full costs to be recovered. An example of this would be the City's Garage Service. These expenses are included in both the department budget providing the service, as well as in the budget of the department receiving the service. To avoid double counting, the appropriated budget includes only the budgets for the departments receiving internal services (Engineering Service $2,555,457 and Garage Service $3,648,954).

STAFFING CHANGES

The City of Dubuque has 795.44 (FTE) employees budgeted in FY 2027. This represents a net increase of 19.58 FTE's from FY 2026. Since 1981, the city has minimized the number of positions added. The recommended budget provides funding for a net increase of 19.58 FTE's related to general fund departments. Funding has been changes to include the following changes to FTE's:

- Airport had the following changes: removed one part-time Laborer (-0.23 FTE) and one part-time custodian (-0.68 FTE).
- The City Attorney's Office had the following changes: removed full-time Civil Rights Specialist (-1.00 FTE), full-time Paralegal (-1.00 FTE), and full-time Legal Administrative Assistant (-1.00 FTE). Added full-time Assistant City Attorney I (+1.00 FTE), full-time Administrative Support Professional (+1.00 FTE), and full-time Lead Administrative Support Professional (+1.00 FTE).
- The Communications Office had the following change: removed the Geographic Information Systems (GIS) division (-2.25 FTE).
- Community Impact added one full-time Community Engagement Coordinator (+1.00 FTE), one part-time Program Member Support (+0.50 FTE) and added one limited term, full-time Economic Mobility Opportunity Specialist (+1.00 FTE).
- Economic Development eliminated one Economic Development Intern (-0.25 FTE).
- Office of Economic Mobility had the following changes: removed one full-time Director of Economic Mobility (-1.00 FTE), one full-time Data Analyst (-1.00 FTE), one full-time Community Engagement Coordinator (-1.00 FTE), and one full-time Administrative Support Professional (-1.00 FTE).
- Engineering had the following changes: added three full-time Traffic Signal Technicians (+3.00 FTE) and one full-time Engineering Technician (+1.00 FTE). Removed OSHA Intern (-0.25 FTE) and Architect Intern (-0.50 FTE) positions.
- Fire added nine full-time Firefighter/Paramedic (+14.00 FTE) positions.
- Finance added two part-time Purchasing & Safety Interns (+0.80 FTE) positions.
- Health Services had the following changes: removed one full-time Environmental Sanitarian (-1.00 FTE) and added one full-time Lead Environmental Sanitarian (+1.00 FTE).
- The Housing department added one limited-term full-time Housing Inspector (+1.00 FTE), one full-time Grants Supervisor (+1.00 FTE) and one full-time Administrative Support Professional (+1.00 FTE).

- The Human Resources Department had the following changes: added a full-time Human Resources Employment Specialist (+1.00 FTE) and removed a part-time Human Resources Employment Specialist (-0.75 FTE).
- The Information Technology department had the following changes: added one full-time Data Analyst (+1.00 FTE), Geographic Information division (+2.25 FTE), and one full-time Administrative Support Professional (+1.00 FTE).
- Parks division added one full-time Environmental Justice Tree Coordinator (+1.00 FTE) and two full-time Maintenance Technicians (+2.00 FTE).
- Parking had the following changes: reduced Parking Revenue Collector (-0.23 FTE), removed a part-time Parking Enforcement Officer (-0.50 FTE) and added a part-time Custodian (+0.15 FTE).
- Police eliminated a part-time Records Clerk (-0.54 FTE) position.
- The Public Works department removed three full-time Traffic Signal Technicians (-3.00 FTE).
- Recreation eliminated temporary Recreation Leader and Coordinator (-0.58 FTE) positions.
- The Transit division reduced part-time Bus Operators (-0.75 FTE) and added a part-time Bus Attendant (+0.50 FTE).
- The Water & Resource Recovery Center had the following changes: added an Engineering Intern (+.40 FTE) through the FY 2026 budget process and added a temporary increase in Equipment Mechanics (+0.08 FTE).

Total FTE's FY 2026	**775.86**

HOW IS THE BUDGET FUNDED?

Property Taxes

General fund, transit, payroll benefit costs, and general liability insurance expenses are supported by property tax dollars. The property tax rate for fiscal year 2027 is $10.16480 per $1,000 of taxable valuation. It is estimated that a total of $31,940,934 will be received from property taxes in FY 2027. This is increase from fiscal year 2026. For FY 2027 there is a 3.00% or $26.67 property tax increase for the City portion of property taxes paid by the average homeowner.

Other Taxes

Other taxes that the City collects include local option sales tax, hotel/motel tax, and tax on agricultural land. In 2027, approximately $12,540,866 will be received in local option sales tax. This decreased (2.83)% under FY 2026. Of this amount, 50% is for property tax relief ($6,372,758), 20% is for City facilities maintenance ($2,549,103), and 30% is for special assessment relief ($3,823,655). In 2027 approximately $3,513,001 will be received in hotel/motel tax. By resolution, 50% of this amount is to be used for promotion and encouragement of tourism and convention business and the remaining 50% goes into the General Fund for property tax relief.

Licenses and Permits

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous. The City estimates $4,706,776 in licenses and permits in FY 2027. Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas & 5% electric). The FY 2027 projection for cable franchise fees is $256,734 and utility franchise fee projection is $7,102,341. The utility franchise fees are all used for property tax relief.

Use of Money and Property

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue, which is estimated at $21,265,760 in FY 2027. The gaming related leases generate the most revenue. The lease with the Dubuque Racing Association (DRA) includes collection of 1.5% of coin-in (1% prior to 1/1/22), 4.8% of gross revenue from table games, 0.5% of sports wagering, and a distribution of profit from the DRA of 50%. Diamond Jo also pays a parking lease. City Council's policy is to use 100% of the DRA distribution of profit to support the Capital Improvement Budget and the total received from DRA operating and taxes is split 100% for property tax relief and —% for capital projects. Gaming leases are projected to be $7,079,186 in FY 2027. Riverfront leases are expected to generate $4,374,313 in FY 2027.

Intergovernmental Revenue

Intergovernmental revenues are projected to decrease (5.14)% from FY 2026. The city is estimated to receive $53,729,895 in Federal and State grants, State Road Use Tax Funds, and County Contributions. Prior years included large increases due to American Rescue Plan Act Funds.

Charges for Services

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, Transit, Parking and Landfill. Rate increases have been incorporated into all utilities (as shown on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising, additional capital projects to support additional debt service and to meet revenue bond covenants. Utility charges are projected to be $48,776,628. Other charges for services include copy charges, sales of maps and publications, street, sidewalk, and curb repairs, special Police services, Library services, Recreation programs, etc. Other charges for services are estimated at $12,958,497 in FY 2027.

Special Assessments

Special assessments are an additional tax levied on private property for public improvements that enhance the value of the property. In FY 2027, special assessment revenue is estimated at $40,000.

Miscellaneous Revenue

This category includes internal charges for services, proceeds from bonds, and revenues of a non-recurring nature. Miscellaneous revenues are estimated at $40,584,173 in FY 2027.

RECOMMENDED CAPITAL IMPROVEMENT PLAN

The City of Dubuque's Capital Improvement Plan (CIP) represents the City's five-year plan for capital improvements and totals $352,840,562. Appropriations of funding are made on an annual basis. The capital budget is therefore the first year of the five-year CIP. The approved capital budget for fiscal year 2027 totals $80,633,738.

The recommended CIP reflects the City's comprehensive plan and the goals and priorities established by the City Council. Funding required to meet the capital needs for FY 2027 totals $80.6 million. Approximately 32.96% ($26.6 million) of this will be provided by issuance of new debt, primarily for sewer utility related projects ($12.2 million) and Greater Downtown TIF related projects ($6.1 million). Another funding source representing approximately 26.87% of total sources is operating receipts. Operating receipts come from current year revenues and essentially represent the amount of "cash" or pay as you go financing provided by each enterprise operation.

A major focus of the capital budget and capital improvement plan is the maintenance and refurbishment of existing city facilities. To this end, significant resources are dedicated for these types of projects including, Bee Branch Creek Watershed, Airport, Fire facilities, Civic Center, Grand River Center and Street, Sanitary and Water Improvements.

The following page provides a listing of some of the highlighted projects in the fiscal year 2027 capital budget.

The Capital Budget in the Resident's Guide includes a summary by department of all projects planned through FY 2031.

FY27 RECOMMENDED CAPITAL BUDGET HIGHLIGHTS

Department	Project Title	Total City Investment FY2027-FY2031
Fire	Outdoor Warning Siren Repair/Replace	$54,000
Fire	Fire Station Expansion	$8,791,700
Fire	2027 Ambulance Replacement (1914)	$500,000
Fire	Portable Radio Replacements	$490,000
Fire	2030 Fire Engine Replacement (1910)	$1,288,408
Fire	2030 Ambulance Replacement (1915)	$635,000
Fire	2031 Ambulance Replacement (130010)	$665,000
Parks	Jeffris Grant	$2,060,394
Civic Center	Five Flags Building Improvements	$5,844,678
Conference Center	Roof Restoration	$1,383,000
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Ave Booster Station	$1,020,000
Water	Water Main Extension Central Ave	$965,000
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Private Lead Line Replacement Program	$1,050,000
Water	Private Lead Service Line Replacement Program	$4,050,000

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

Dubuque All-America City NATIONAL CIVIC LEAGUE 2007 • 2012 2013 • 2017

Dubuque is Iowa's oldest city and is among the oldest settlements west of the Mississippi River. The first permanent settler to the area was French-Canadian fur trader Julien Dubuque. When he arrived in 1785, the Mesquakie (Fox) Indians occupied the region which included an abundant amount of lead mines. On June 1, 1833, the land was opened for settlement by the United States government under the Black Hawk Purchase Treaty and came to be known as the city of Dubuque.

Dubuque has long been a historical and cultural center with its numerous historic sites, architectural Historic Districts with well-preserved buildings and homes, a revitalized main street, history and art museums, live theaters, ballet troupes, a symphony, three private colleges, two seminaries, a Bible college, libraries and a local history research center, recreational and sports venues, beautiful parks, a state park and nature interpretive center, miles of hiking and biking trails and the great Mississippi River.

Recent recognitions include being named an Iowa Thriving Community for using innovative solutions to enhance housing offerings to residents of all income levels, one of the 100 Best Communities for Young People, the Most Livable Small City in the US, an Iowa Great Place, an All-America City five times between 2007 and 2019, and a LEED- Certified City (Leadership in Energy and Environmental Design). Dubuque scored 100 out of 100 on the 2021 Municipal Equality Index, issued by the Human Rights Campaign (HRC), based on the inclusiveness of its laws, policies, and services for lesbian, gay, bisexual, transgender, and queer (LGBTQ) residents. Dubuque was named the 2024 Iowa Community of Character by the Robert D. and Billie Ray Center at Drake University as part of its annual Iowa Character Awards, which annually recognize Iowa individuals, organizations, and communities which demonstrate the six pillars of CHARACTER COUNTS®: trustworthiness, respect, responsibility, fairness, caring, and good citizenship.Dubuque is truly a "Masterpiece on the Mississippi."

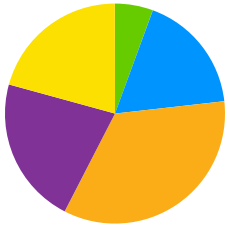

ACCORDING TO THE 2024 AMERICAN COMMUNITY SURVEY (ACS), THE CITY OF DUBUQUE'S DEMOGRAPHICS INCLUDE THE FOLLOWING:

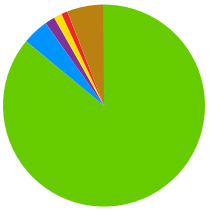

AGE

- Under 5 Years 5.8%
- 5-19 Years 17.5%
- 20-44 Years 34%
- 45-64 Years 22.3%
- 65 years and better 20.4%

RACE

- White or Caucasian 85.9%
- Black or African American 4.2%
- American Indian and Alaska Native 0%
- Asian 1.6%
- Hawaiian & Other Pacific Islander 1.3%
- Some Other Race 1.0%
- Two or More Races 5.9%

POPULATION

Total Population: 59,174
- Female Population: 50.5%
- Male Population: 49.5%

Average Household Size: 2.12
- Family Households: 49.6%
- Non-Family Households: 50.4%

Average Family Size: 2.80
Median Age: 38.1 years

HOUSING

Total Housing Units: 27,832
- Housing Occupancy: 93.9%
- Owner-Occupied: 65.8%
- Renter-Occupied: 34.2%

INCOME

- Median Household Income: $65,845
- Median Family Income: $89,443
- Families below poverty: 7.8%
- Individuals below poverty: 12.7%

DUBUQUE'S LOCATION

Situated at the intersection of Iowa, Illinois, and Wisconsin, the community of Dubuque, Iowa, stands among the Mississippi River bluffs as a metropolitan service area for seven surrounding counties.

Dubuque is connected by four-lane highways to Davenport, Des Moines, Madison and Minneapolis. The majority of the way to Chicago is also four-lane highway. Dubuque is centrally located amongst several major metropolitan areas.

The Dubuque Regional Airport serves both business and leisure travelers. Private and corporate jets also make use of the great central location of the airport as well.

Land Area: 32.0 square miles
Riverfront shoreline: 8.8 miles

Current Land Use

A review of existing land use within the Dubuque city limits (as of 2017) shows a balance of development among commercial, industrial, and institutional uses. (See Figure 9-2)

- Residential uses, separated as single-family and multi-family categories when combined are 5,355 acres, or 31% of Dubuque's total land area.
- Large swaths of agricultural land, particularly in the western portion of Dubuque, total 3,529 acres. Many of these agricultural properties were annexed into the city with the intent of being developed for another use in the future.
- An Existing Land Use Map can be found in Figure 9.1.

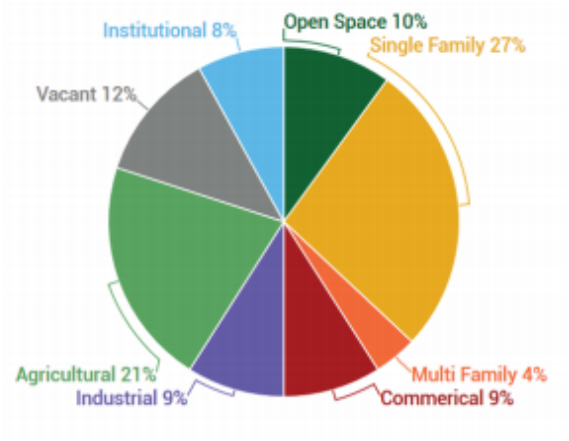

Current Zoning

Existing land use and current zoning are similar, but not the same. Within the city limits of Dubuque, land is 100% zoned -- including vacant land. Most land is zoned for its current use, but not always.

- Using the same broad categories examined for existing land use, the most prevalent zoning is 8,105 acres (48%) of single-family residential (which includes the small amount of two-family residential).
- The rest of the current zoning in Dubuque is divided about equally among agricultural with 3,067 acres (18%), commercial at 2,629 acres (15%), and industrial with 2,253 acres (13%). Multi-family zoning encompasses only 636 acres (4%) and institutional only 314 acres (2%).
- A breakdown of current zoning is shown in Figure 9.3. A current zoning map can be found in the Appendix.

FIGURE 9.2

Current Land Use in Acres

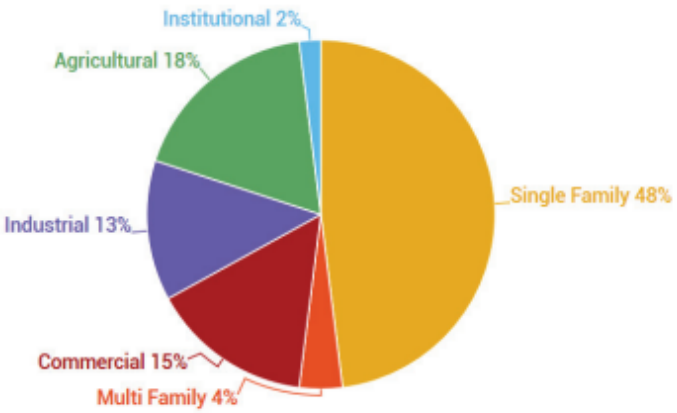

10% Open Space (1,777 Acres)
9% Industrial (1,438 Acres)
27% Single Family (4,661 Acres)
21% Agricultural (3,529 Acres)
4% Multi Family (694 Acres)
8% Institutional (1,286 Acres)
9% Commercial (1,507 Acres)
12% Vacant (2,110 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

FIGURE 9.3

Current Zoning in Acres

18% Agricultural (3,067 Acres)
15% Commercial (2,629 Acres)
48% Single Family (8,105Acres)
13% Industrial (2,253 Acres)
4% Multi Family (636 Acres)
2% Institutional (314 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

31 park shelters
15 tennis courts
9 pickle ball courts
6 combination volleyball/pickle ball courts
22 restroom buildings
4 accessible fishing piers
3 skate parks
1 pet park
288 units of play equipment
1 disc golf course
1 in-line hockey rink
10 softball fields
1 all-inclusive baseball field
1 baseball field
4,500 street trees
45 miles of on/off street trails
1,000 picnic tables
7 basketball courts
8 half basketball courts
2 amphitheaters
17 horseshoe pits
1 splash pad

CULTURAL AMENITIES

In Dubuque there are over 45 non-profit arts and cultural organizations that provide year-round cultural programming in Dubuque and the surrounding area. Dubuque is home to a world-class Symphony Orchestra and Arboretum, two Smithsonian Affiliates - the Dubuque Museum of Art and the National Mississippi River Museum and Aquarium, the Julien Dubuque International Film Festival (JDIFF), multiple community theater groups including Grand Opera House, Bell Tower, Rising Star and Fly By Night. There are on average over 125 special events throughout the year from community festivals to outdoor music venues to parades and neighborhood events.

WORKFORCE

Today there are over 12,000 employees working in downtown Dubuque. Dubuque leads the State in downtown rehabilitation and development with over $896 million of public and private investment since 1985.

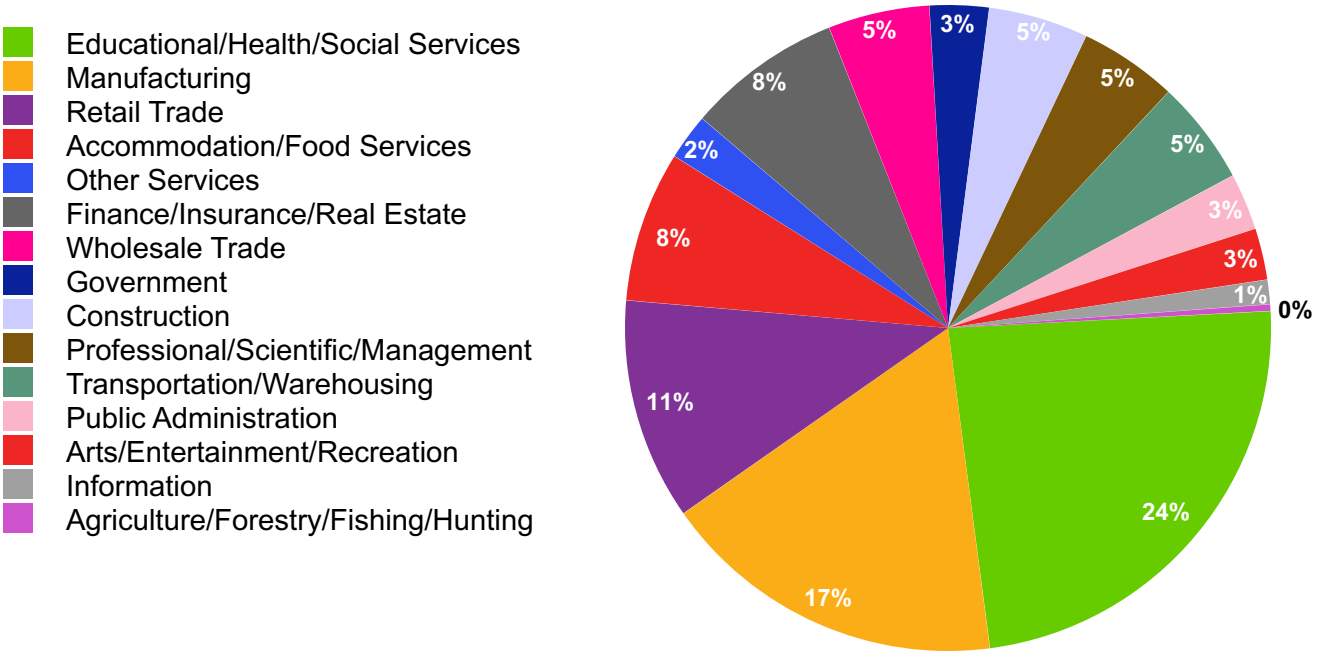

According to the latest data from Iowa Workforce Development (December 2025), Dubuque's employment is at 60,600. Dubuque County's unemployment rate for December 2025 was 3.4% while Iowa's rate was 3.5% and the nation's was 4.4%.

The top ten employers in the area employ less than 21% of the total workforce. Peninsula Gaming Co. LLC, the greatest revenue source among all taxpayers, contributes approximately 2% of the City's taxable valuation.

City of Dubuque Mayor and City Council Non-profit & Partner Board Representation

As elected officials, the Mayor and City Council serve as a City Council Representative on a number of local, not-for-profit and partner organizations. Appointments must be outlined in the organizations' Bylaws, Articles of Agreement, or other applicable contracts. These appointments are affirmed every year by the City Council at an official meeting.

Dubuque County Conference Board
Dubuque Area Convention & Visitor's Bureau - Travel Dubuque - Board of Directors
Dubuque Area Convention & Visitor's Bureau - Travel Dubuque - Sister City Committee
County Resource Enhancement and Protection Act (REAP) Committee
Dubuque County Early Childhood Board
Dubuque County Emergency Management Commission
Dubuque Initiatives
Dubuque Main Street
Dubuque Metropolitan Area Solid Waste Agency
Dubuque Metropolitan Area Transportation Study (DMATS)
Dubuque Racing Association
East Central Development Corporation (ECDC)
East Central Intergovernmental Association (ECIA) Council
Each Central Intergovernmental Association (ECIA) Executive Committee
Four Mounds Foundation

Greater Dubuque Development Corporation (GDDC)

City of Dubuque
Boards and Commissions

Individuals serving on Boards and Commissions play an important role in advising the City Council on matters of interest to our community and its future. The City Clerk's Office accepts applications for any Board or Commission at any time, and the application stays active for one year from the date of receipt in the Clerk's Office. Applicants must be a resident of the City of Dubuque. Some boards and commissions may require compliance with the State of Iowa Gender Balance Law.

2025-2027 CITY COUNCIL GOALS & PRIORITIES

The Dubuque City Council completed its annual goal-setting sessions on Thursday, Sept. 25, 2025. Over the course of three evening sessions, City Council members affirmed the 15-year vision statement and mission statement and identified seven five-year goals for the city. They also identified top and high priorities for a 2025-2026 policy agenda as well as in-progress projects and capital projects for 2025-2026.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

POLICY AGENDA

Policy agenda items are issues that need direction or a policy decision by the City Council, or need a major funding decision by the City Council, or issues that need City Council leadership in the community or with other governmental bodies. The policy agenda is divided into top priorities and high priorities.

2025 - 2027 Top Priorities *(in alphabetical order)*

- Commercial Air Service Future: Strategy and Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

2025 - 2027 High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

VISION & MISSION

2040 Vision Statement

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

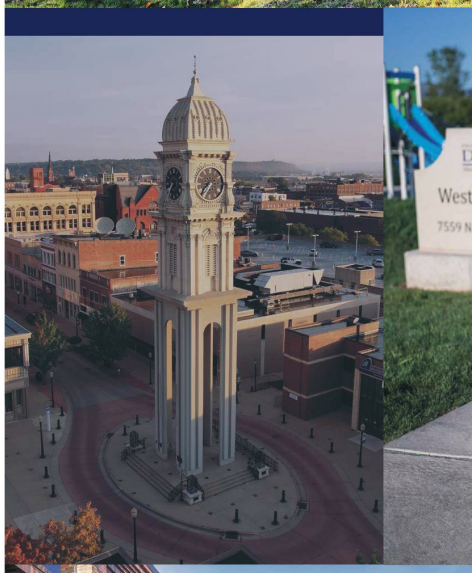

Mission Statement

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

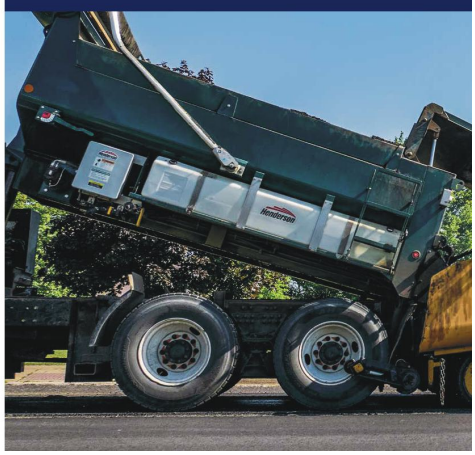

FIVE-YEAR GOALS

- **Healthy and Safe Community**
- **Financially Responsible, High-Performance City Organization:** Sustainable, Equitable, and Effective Service Delivery
- **Robust Local Economy:** Diverse Businesses and Jobs with Economic Prosperity
- **Livable Neighborhoods and Housing:** Great Place to Live
- **Sustainable Environment:** Preserving and Enhancing Natural Resources
- **Connected Community:** Equitable Transportation, Technology Infrastructure, and Mobility
- **Diverse Arts, Culture, Parks, and Recreation Experiences and Activities**

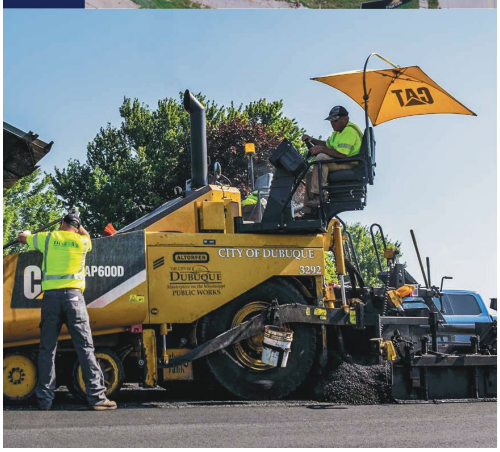

www.cityofdubuque.org/citycouncil

MANAGEMENT IN PROGRESS & MAJOR PROJECTS

Under each City Council goal are items listed as **Management in Progress** and **Major Projects**. These are items and projects that are underway and budgeted. Staff is implementing and providing updates to City Council.

Healthy and Safe Community

Management in Progress

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System Implementation
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Major Projects

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High-Performance City Organization

Management in Progress

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation Plan
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Major Projects

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy

Management in Progress

- Business Incentives Policies and Processes Review
- Chaplain Schmitt Island Development: Hotel Project
- Comprehensive Hotel Attraction/Incentive Policy

(Continued on page 4.)

- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions
- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing

Management in Progress

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/ Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment

Management in Progress

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Major Projects

- Auburn St. and Custer St. Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St. and Central Ave.
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No. 7 Rehabilitation
- Water Department New Deep Well No. 11 (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community

Management in Progress

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System and Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Major Projects

- 14th St. Railroad Overpass and 16th St. Corridor Complete Streets Improvements
- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks, & Recreation Experiences & Activities

Management in Progress

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming
- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System
- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

COUN008-102125

REVENUE CATEGORY EXPLANATIONS

PROPERTY TAXES

All property taxes collected for the City are levied on the assessed valuation of real and personal property as determined by the City Assessor. For Fiscal Year 2027, the total tax collection of $31,940,934 is a 6.93% increase as compared to FY 2026. The total tax collection includes $10,396 for agricultural land. The overall levy is made up of five parts as described below.

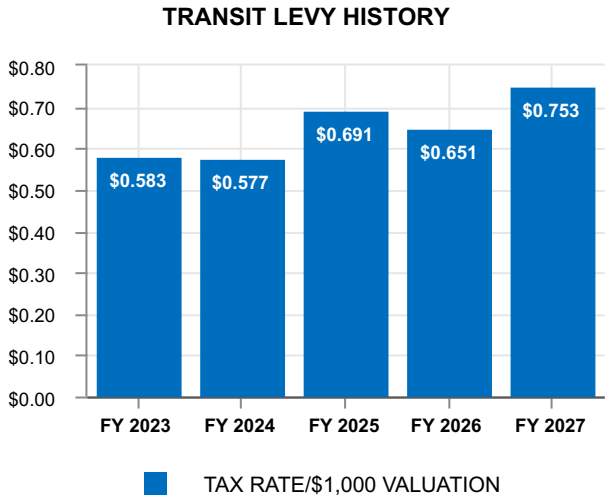

GENERAL LEVY HISTORY

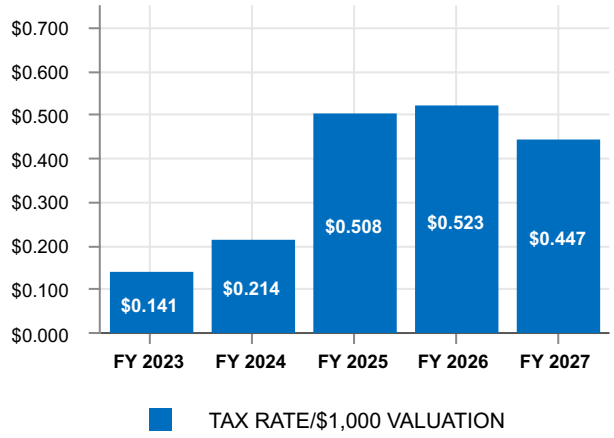

The **General Levy** for the general fund is limited by the State of Iowa to 2% or 3% growth each year, depending on the trigger hit, except for specific levies authorized outside the limit. The City of Dubuque general levy for FY 2027 is just $3.54090, which is up from $3.41552 the year before. The General Levy is certified with the State of Iowa at the maximum levy allowed by moving eligible Employee Trust & Agency expenses (allowable in the Trust & Agency Levy) into the General Levy.

The State of Iowa requires this shift to maximize the General Levy first. Also, 50% of the one cent local option sales tax and 100% of the gaming revenues (taxes and lease) is applied for property tax relief which has created a savings in the total City tax rate of $3.17428/$1,000 valuation.

Outside of the General Fund levy, a **Transit Levy** can be used without the vote of the electors to fund the operations of a municipal transit system. This levy may not exceed 95 cents/$1,000 valuation. The levy is collected in the General Fund, and then transferred to the Transit Fund. The FY 2027 levy of 0.752860 cents will generate $2,361,869 which is a 8.92% increase from FY 2026.

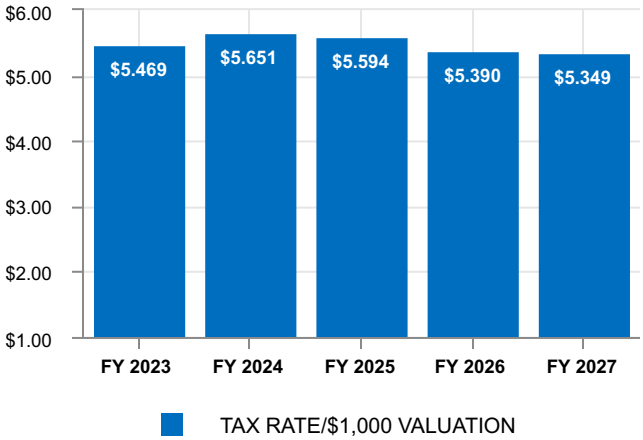

TORT LIABILITY LEVY HISTORY

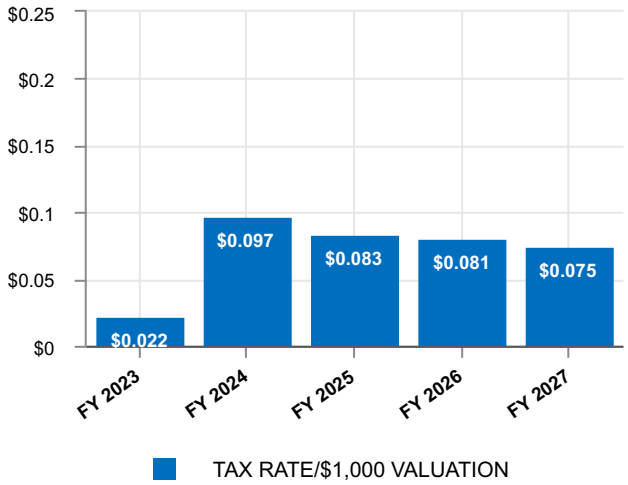

Outside of the General Fund levy, a **Tort Liability Levy** can be used without the vote of the electors to fund the cost of general liability insurance to the total amount necessary. The levy is collected in the Tort Liability fund and then transferred into the General Fund to pay general liability insurance expense. The FY 2027 levy of 0.44658 cents generates $1,401,004. The City is a member of the Iowa Community Assurance Pool (ICAP) which is a local government risk-sharing pool in the State of Iowa. The tort liability levy request changes based on risk adjustments received from ICAP.

The **Trust and Agency Levy** is available for payroll benefit costs (as defined by the City Finance Committee) including Retirement (IPERS), Municipal Fire and Police Retirement (MFPRSI), Police Pensions, Social Security/ Medicare, Police and Fire medical costs, Health Insurance, Worker's Compensation, Life Insurance, and Unemployment. The total payroll benefit costs allowable in this levy are $16,782,114. The trust and agency levy has decreased to $5.34942 in FY 2027 .

TRUST & AGENCY LEVY HISTORY

DEBT SERVICE LEVY HISTORY

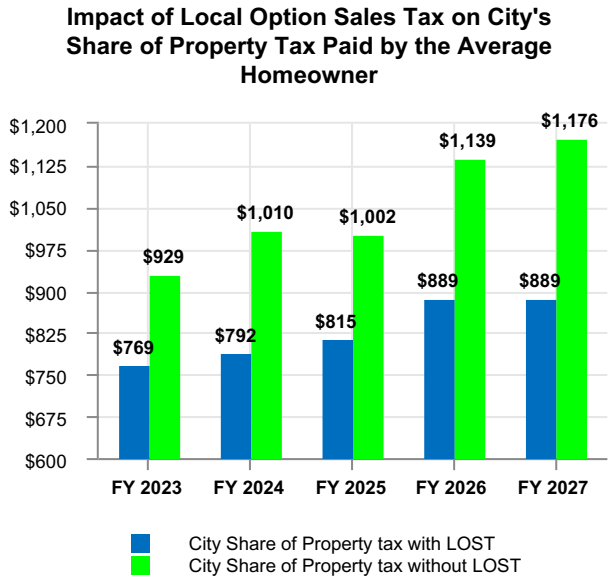

The final portion of the levy is for **Debt Service**. This levy is restricted to General Obligation (GO) bond debt and judgments. The City of Dubuque has a GO bond issuance for the replacement of fire trucks and an ambulance for $1,355,500 and a franchise fee judgment bond ifor $2,800,000 with debt service abated by the debt service levy of $287,495 in FY 2027.

OTHER TAXES

Local Option Sales Tax (LOST)

Beginning April 1, 1988, an additional 1% local option sales tax is applied to all goods and services delivered within the City of Dubuque, to which the State of Iowa sales tax already applies. This was approved by the voters in February of 1988. Of the total received, 50% of the funds are marked for property tax relief; 20% for City facilities maintenance (upkeep of City-owned property, transit equipment, riverfront and wetland development, and economic development); and 30% for special assessment relief (street special assessments and the maintenance and repair of streets). Annually the State sends the City an estimate of the amount of local option sales tax it will receive monthly for the year. The amount is 95% of the estimated collection and then in November, the City will receive an adjustment to actual for the prior year. This estimate along with actual receipt and sales growth trends, are used to budget. The budget for FY 2027 decreased 1.24% compared to FY 2026, which reflects stabilized sales growth.

In FY 2027 approximately $6,372,758 will be generated for property tax relief. This translates into a reduction of the City share of property tax paid by the Average Homeowner of $259.65. This chart illustrates the amount the total levy would have to be if the Local Option Sales Tax had not been approved.

Hotel/Motel Tax

Beginning in November of 1991, a referendum was passed to increase hotel/motel tax from 5% to 7% (limit). This tax is levied upon the occupancy of any room furnished by a hotel/motel in the City. By Resolution, 50% of the hotel/motel tax is to be used for promotion and encouragement of tourism and convention business. City Council's policy is to provide 50% of the past 4 quarters actual receipts to the Convention & Visitors Bureau (CVB) in the next fiscal year's budget. The remaining 50% goes into the General Fund for property tax relief.

Hotel/motel tax has increased gradually over the years until FY 2004, when a 35% increase was realized. This was due to the addition of several new hotel/motels in Dubuque. FY 2027 is budgeted with a decrease of 10.16% under FY 2026, which reflects the actual trend.

Other Taxes

Other taxes include tax on agricultural land (state levy limit is $3.00375), military service, county monies & credits, gaming taxes (Greyhound Park and Casino para-mutual and slot machine tax and Diamond Jo riverboat tax on bets), mobile home tax, and tax increment property tax revenues.

LICENSES AND PERMITS

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous.

Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas and 5% electric) – with a increase of 12.91% in FY 2027. The Fiscal Year 2027 projection for Cable Franchise Fees is $256,734. The Utility Franchise Fees from Electric and Natural Gas FY 2027 projection is $7,102,341, all for property tax relief.

USE OF MONEY AND PROPERTY

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue. The gaming related leases generate the most revenue. In 1984, the residents of Dubuque approved a referendum allowing dog racing. In 1987, this expanded to include riverboat gaming and in 1994 slot machines at the dog track. The Greyhound Park and Casino expanded with a bigger and better facility and in June 2005, slot machines were added to go from 600 to 1,000 and in March 2006, table games were added.

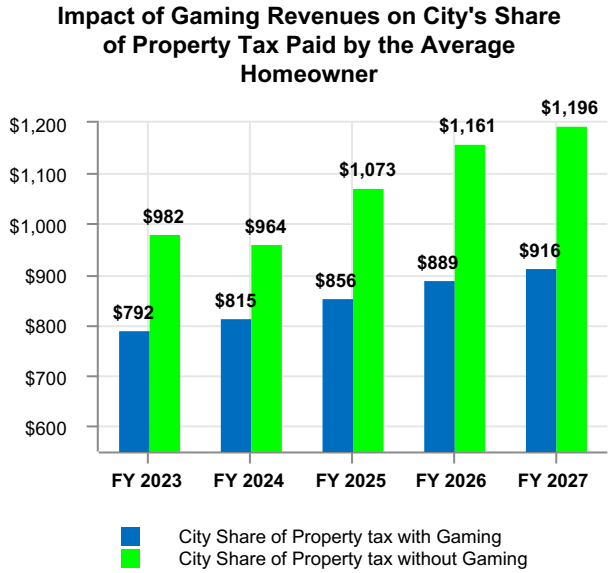

Effective April 1, 2004 the lease with the Dubuque Racing Association (DRA) was revised to collect 1% of coin-in and unadjusted drop from .5% previously, and its end date changed from 2009 to 2018. The City receives a distribution of profit from the DRA annually that was previously split 40% to the City, 30% to local charities and 30 % retained by the DRA. A lease amendment in FY 2010 changed this split to 50% City / 50% Charities / DRA. In addition, this lease amendment changed the unadjusted drop from .5% for table games to 4.8% of adjusted gross receipts.

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055. The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5%t of coin in from slot machines (previously 1%), 4.8% of gross revenue from table games, and 0.5% of sports wagering. Diamond Jo admissions are also collected through their lease.

In Fiscal Year 2022, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. The split of annual distribution was changed from 50% City/ 50% charity to one third City, one third charity, one third Chaplain Schmitt Island Development Fund. In addition, the amended lease has an expiration date of December 31, 2036.

In Fiscal Year 2023, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows $1.5 million of cash reserve fund as a down payment of a construction loan in FY23. The DRA is required to establish a debt reserve fund equal to one year of debt payments, almost $7 million.

City Council policy is to use 100% of the DRA distribution of profit to support the Capital Improvement budget, however in Fiscal Years 2024-2027, 100% of DRA distribution of profit was used for the operating budget. City Council policy for the total received from the DRA operating lease and taxes, and the Diamond Jo admissions and taxes, is to split it 100% for property tax relief in the General Fund and 0% to support the Capital Improvement program.

In 2027, 100% of the total or approximately $6,372,758 is projected to be generated and reduce the amount paid by the average homeowner by $279.94. This chart illustrates the total the average homeowner would have to pay without the contribution of gaming revenue. FY 2027 and beyond gaming projections include the impact of the renovated Q Casino and additional casinos opening in Illinois, Wisconsin, and Iowa.

INTERGOVERNMENTAL REVENUE

Intergovernmental revenues include Federal grants and reimbursements, State grants and reimbursements, State shared revenues, and County or other local grants and reimbursements. Many of these revenues are construction project related and thus significantly increase and decrease with the timing of projects. Federal and State grants received by the City are listed on the 'Summary of How Budgeted Expenditures are Funded by Source of Income" under the Financial Summaries tab.

In FY 03/04, the State of Iowa discontinued State shared recurring revenues (liquor tax, personal property tax replacement, municipal assistance, and state funded monies and credits) due to a budget crisis at the State level. This caused a shortfall of $1,051,625 in the City of Dubuque's General Fund. Then in FY 04/05 the bank franchise tax was eliminated by the State causing a shortfall of $145,000. This was addressed by making cuts, shifting funding and increasing revenues by adding a 2% gas and electric franchise fee.

The Iowa Department of Transportation (IDOT) provides annual projections on the amount of Road Use Tax Funds the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031.

CHARGES FOR SERVICES

Utility Charges

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, and Landfill. Rate increases have been incorporated in all utilities (as listed on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising (fuel, gas/ electric, supplies), additional capital projects, to support additional debt service, and to meet revenue bond covenants.

Other Charges for Services

This includes revenue from all charges for current services exclusive of utilities, such as:

General Government - Copy charges, sale of maps and publications, zoning adjustment fees, sub plat review fees, plan check fees, and temporary use fees.

Highways/Streets/Sanitation – Street, sidewalk, and curb repairs, engineering and inspection fees, and weed cutting charges.

Public Safety – Special Police services and ambulance fees.

Municipal Enterprises – Library services, transit services, airport charges and fuel sales, and parking meters and lot collections.

Recreation – Recreation programs, golf course fees, aquatics, and park fees.

SPECIAL ASSESSMENTS

Special Assessments are an additional tax levied on private property for public improvements that enhance the value of the property. Principal and interest payments received on special assessments are included in this revenue category.

OTHER FINANCING SOURCES

Other financing sources includes proceeds from sale of bonds and State Revolving Fund (SRF) loans.

TRANSFERS IN

This is for the transfer of money between City funds.

MISCELLANEOUS REVENUE

Internal Charges

These are the charges for labor, equipment, materials, printing, and messenger service which City departments pay to internal services departments or to other City departments.

Miscellaneous Revenue

This includes revenues of a non-recurring nature which are not assigned above.

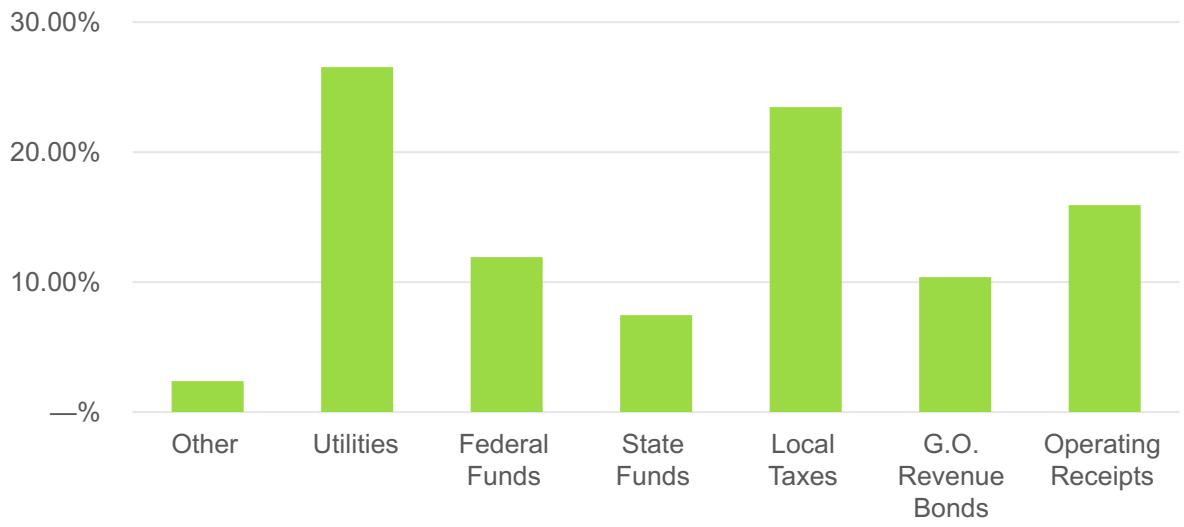

REVENUE HIGHLIGHTS

REVENUE PROJECTIONS

The revenue projection process starts with five year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year's actual and current year-to-date amounts are used to project both the current year and next four year's revenues. Information received from the State, County, and Iowa League of Municipalities is utilized to project recent trends and anticipated amounts. The City Manager and the Chief Financial Officer review estimates, with input from the Human Resources Director, to make informed judgments on all revenues city wide. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer reviews all detail, discusses with Departments, makes appropriate adjustments and prepares the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

WHERE THE MONEY COMES FROM
FY 2027 RECOMMENDED
TOTAL BUDGET

Total Recommended Budget $265,322,342

*Excludes Transfers

The major resource assumptions used in preparing the Fiscal Year 2027 Recommended budget include the following:

a) **Cash Balance.** Unencumbered funds or cash balances of $200,000 will be available in FY 2027 and each succeeding year to support the operating budget.

b) **Interest Revenue.** Interest revenue decreased from $2,300,097 in FY 2026 to $1,620,974 in FY 2027. The FY 2027 budget is based on projected general fund cash balance, and projected declining interest rates.

c) **Sales Tax Revenue.** By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2027. Sales tax receipts are projected to decrease 0.74% under FY 2026 actual of $12,465,961 based on FY 2026 revised revenue estimate which includes actuals through February 2026, and then increase at an annual rate of 2.00% percent per year beginning in FY 2028. The following chart shows the past four years of actual sales tax funds and projected FY 2027 for the General Fund:

Sales Tax Funds	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
PY Q4	$475,037	$451,920	$574,416	$635,746	$654,818
Quarter 1	$1,177,196	$1,545,777	$1,592,834	$1,610,911	$1,659,238
Quarter 2	$1,522,885	$1,596,421	$1,605,397	$1,302,193	$1,341,258
Quarter 3	$1,443,097	$1,524,508	$1,490,640	$1,576,480	$1,623,774
Quarter 4	$1,110,593	$979,209	$969,694	$1,061,815	$1,093,669
Reconciliation	$371,388	$—	$—	$—	$—
Total	$ 6,100,196	$ 6,097,835	$ 6,232,981	$ 6,187,145	$ 6,372,757
% Change	**-4.00%**	**-0.04%**	**+2.22%**	**-0.74%**	**+3.00%**

d) **Hotel/Motel Tax Revenue.** Hotel/motel tax receipts are projected to increase 5.00% ($167,286) over FY 2026 re-estimated receipts of $3,345,715, and then increase at an annual rate of 3.00% per year.

e) **FTA Revenue.** Federal Transportation Administration (FTA) transit operating assistance decreased from $598,167 in FY 2026 to $443,500 in FY 2027. The FY 2027 budget is based on the revised FY 2026 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

f) **Ambulance Revenue.** Ambulance Ground Emergency Medical Transport Payments increased from $2,413,018 in FY 2026 to $2,714,947 in FY 2027. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2021. FY 2027 is based on calculated projections using historical averages. This revenue is projected using the first quarter of performance in FY 2025 and the previous 11 quarters of performance. Based on that formula, the 3-year quarterly average growth of Medicaid transports is 0.8%. The projected number of transports for FY 2025 is 1,084 and for FY 2026 is 1,092. The FY 2024 actual was 1,075. Based on the unaudited FY 2024 cost report, the FY 2026 revenue per transport is estimated to be $2,209.18. This line item is offset by GEMT Pay to Other Agency expense for local match of $904,973 resulting in net revenue of $1,809,974.

Ambulance Fees increased from $1,756,870 in FY 2026 to $2,778,351 in FY 2027 based on calculated projections using historical averages and Council approved advanced life support and basic life support service fees to match the third-party cost report. The FY 2025 actual was $2,026,670.

As the City Council approved in 2025, these funds are being used to add five firefighter positions in Fiscal Year 2026 and should the City receive a SAFER grant, nine more firefighter positions in Fiscal Year 2027.

g) **Miscellaneous Revenue.** Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2026.

h) **Building Fee Revenue.** Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase $101,389 from $1,099,857 in FY 2026 to $1,201,246 in FY 2027.

i) **DRA Revenue.** Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to decrease $134,176 from $7,213,362 in FY 2026 to $7,079,186 in FY 2027 based on revised projections from the DRA. This follows a $192,217 decrease from budget in FY 2026 and a $2,283,319 increase from budget in FY 2025.

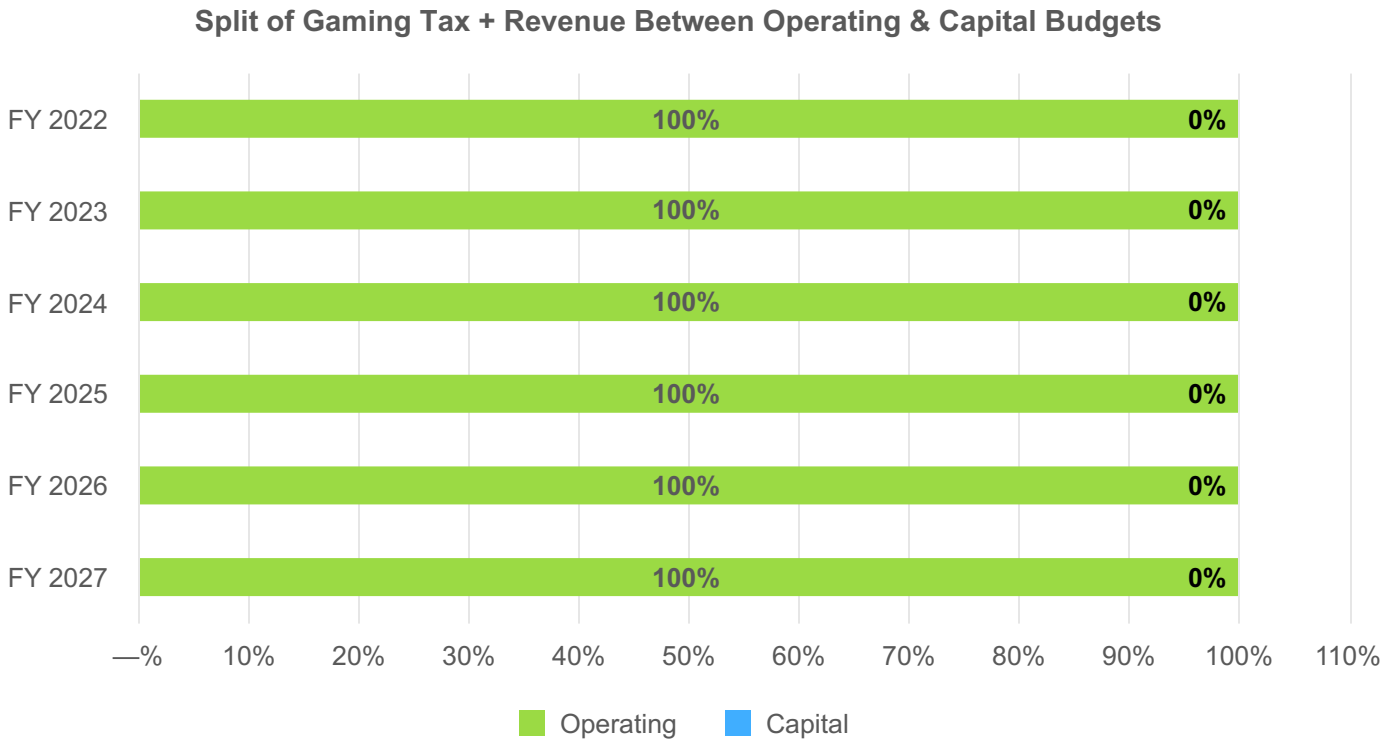

The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease Payments	$ Change	% Change
FY 2027 Projected	$7,079,186	$ 127,716	2%
FY 2026 Revised	$6,951,470	$ (261,892)	-4%
FY 2026 Budget	$7,213,362	$ 349,629	5%
FY 2025 Actual	$6,863,733	$ 589,707	9%
FY 2024 Actual	$6,274,026	$ (917,449)	-13%
FY 2023 Actual	$7,191,475	$ 583,944	9%
FY 2022 Actual	$6,607,531	$ 2,645,535	67%
FY 2021 Actual	$3,961,996	$ (1,187,192)	-23%
FY 2020 Actual	$5,149,188	$ 293,177	6%
FY 2019 Actual	$4,856,011	$ 18,879	0%
FY 2018 Actual	$4,837,132	$ (195,083)	-4%
FY 2017 Actual	$5,032,215	$ (155,297)	-3%
FY 2016 Actual	$5,187,512	$ (158,104)	-2%

The Diamond Jo payment related to the revised parking agreement increased from $687,003 in FY 2026 to $731,657 in 2027 based on estimated Consumer Price Index adjustment.

j) **DRA Gaming.** The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2027 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2022– FY2027:

k) Diamond Jo Revenue. The Diamond Jo Patio lease ($25,000 in FY 2027) and the Diamond Jo parking privileges ($731,657 in FY 2027) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

l) Residential Rollback. The residential rollback factor will decrease from 47.4316% in 2026 to 44.5345% or a 6.11% decrease in FY 2027. The rollback has been estimated to remain the same from Fiscal Years 2028 through 2031.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2027, residential property had more growth than agricultural property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average residential property value increased 8.50%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from $93,207 to $94,952 (+1.87%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This increased taxable value for the average homeowner ($91,067 taxable value in FY 2026 and $94,952 taxable value in 2027) results in more taxes to be paid per $1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 44.5345 percent in Fiscal Year 2027. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2026, the City's tax rate would have been $6.18 per $1,000 of assessed value instead of $10.06 in FY 2026.

m) State Equalization Order/Property Tax Reform. There was not an equalization order for commercial, industrial or multi-residential property in Fiscal Year 2027. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average commercial and industrial property values increased 16%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from $540,594 to $624,927 (+16%). This revaluation of industrial property resulted in the taxable value for the average industrial calculation to increase from $632,952 to $731,693 (+16%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2027 State backfill for property tax loss is estimated to be $484,830 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds).**

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2027	$ (97,981)
2028	$ (97,981)
2029	$ (97,981)
2030	$ (97,981)
Total	**$ (391,924)**

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties ($432,475 Commercial / $599,500 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of $148 in FY 2015, $693 in FY 2016, $982 in FY 2017, $959 in FY 2018, $843 in FY 2019, $861 in FY 2020, $779 in FY 2021, $780 in FY 2022, and $722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.

The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the first-tier assessment limitation in FY27 is estimated to be $170,000.

n) **Multi-Residential Property Class/Eliminated State Shared Revenue.** Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239
FY 2018	82.50%	$ 472,127
FY 2019	78.75%	$ 576,503
FY 2020	75.00%	$ 691,640
FY 2021	71.25%	$ 952,888
FY 2022	67.50%	$ 752,366
FY 2023	63.75%	$ 662,821
FY 2024	54.65%	$ 1,186,077
Total		**$ 5,625,661**

This annual loss in tax revenue of $1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost $5,625,661 in total, meaning landlords paid that much less in property taxes. The State did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

A. Machinery and Equipment Tax Replacement in FY 2003 (-$200,000)
B. Personal Property Tax Replacement in FY 2004 (-$350,000)
C. Municipal Assistance in FY 2004 (-$300,000)
D. Liquor Sales Revenue in FY 2004 (-$250,000)
E. Bank Franchise Tax in FY 2005 (-$145,000)
F. Alcohol License Revenue in FY 2023 (-$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

o) **Taxable Value** FY 2027 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+3.51 %
Commercial	+15.63 %
Industrial	+8.22 %
Overall	+5.89 %

*Overall taxable value increased 5.89% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2027.

p) Greater Downtown Tax Increment Financing

- In Fiscal Year 2027, $5,392,989 million in internal loans will be repaid by the Greater Downtown Tax Increment Financing Fund and the Dubuque Industrial Center Tax Increment Financing Fund to the General Fund. $702,793 of the repayment is recommended to be used for general property tax relief in Fiscal Year 2027. $931,899 of the internal loan repayment is recommended to fund non-recurring improvement packages. and $349,684 is recommend to fund recurring improvement packages in the general fund. $587,638 will be used as an internal loan to the Refuse Collection enterprise fund. $180,693 will be used as an internal loan to the Garage Services internal service fund.The balance will be reserved for the Fiscal Year 2028 budget process as the City needs to be prepared for property tax reform being considered in the State legislative session.

◦ Beginning in Fiscal Year 2028, the Greater Downtown Tax Increment Financing District will no longer collect 100% of revenues. Instead, the Greater Downtown TIF District will begin collecting 75% of revenues. The remaining 25% will be returned to the general funds of all taxing bodies (Dubuque Community School District, City of Dubuque, Dubuque County, Northeast Iowa Community College, and Independent). Based on Fiscal Year 2027 valuations and the Fiscal Year 2026 consolidated tax rate, collecting only 75% in the Greater Downtown TIF District will annually return approximately $1.3 million to Dubuque Community School District, $1.2 million annually to the City of Dubuque, $678 thousand annually to Dubuque County, $93 thousand annually to Northeast Iowa Community College, and $111 thousand annually to Independent taxing bodies. This also means that beginning in Fiscal Year 2028, the Greater Downtown TIF District will have $3,250,000 less each year for programs and projects.

q) Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by $101,268 in FY 2027 to $4,374,313 due to the estimated consumer price index.

r) Franchise Fees. Natural Gas franchise fees are based on FY 2025 actual of $1,743,494. Also, Electric franchise fees are based on FY 2026 budget of $5,075,053 plus rate increases of 5.6%. The franchise fee revenues are projected to increase at an annual rate of 4 percent per year from FY 2028 through FY 2031.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

s) Property Tax Rate. For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2027.

t) Police & Fire Protection. FY 2027 reflects the fifteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2027, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

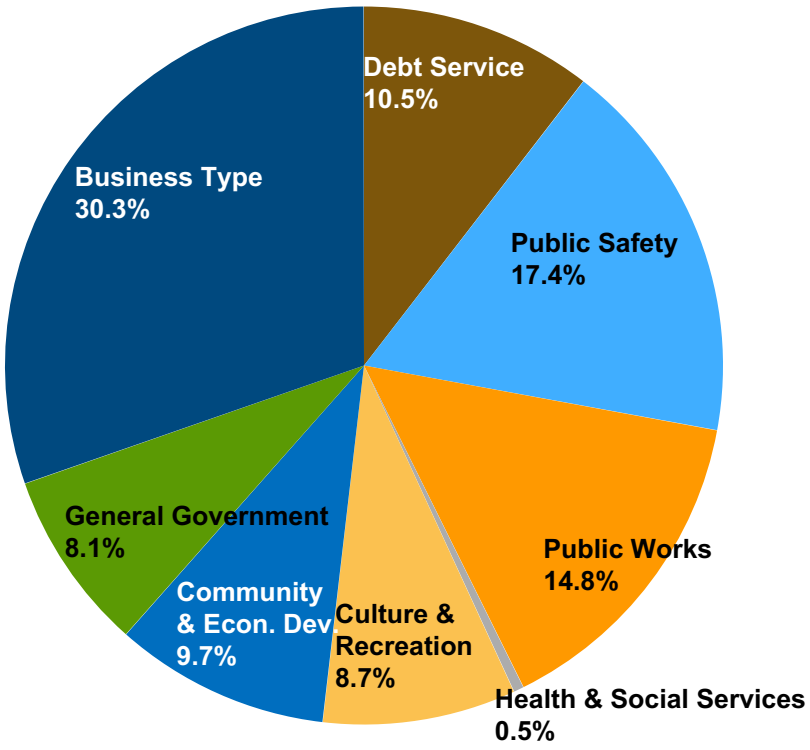

EXPENDITURE HIGHLIGHTS

EXPENDITURE PROJECTIONS

The expenditure projection process starts with 5 year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year actuals and current year-to-date amounts are used to project both the current year and next four year's revenues. The City Manager and the Chief Financial Officer review estimates, with input from the Finance Director, to make informed judgments on expenditure trends and economic conditions. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer, Budget Manager, and Budget Analysts review all details, discusses with Departments, makes appropriate adjustments and prepare the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, Budget Manager, Budget Analysts, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

HOW THE MONEY IS SPENT
RECOMMENDED FY2027 BUDGET

TOTAL RECOMMENDED BUDGET $265,322,342

*Excludes transfers and non-program expense for self-insurance, Metro Landfill accounts & Agency Fund accounts.

The major requirement assumptions used in preparing the Fiscal Year 2027 recommended budget include the following:

Employee Expense ($+5,393,056/ +6.40% over FY 2026 Adopted Budget)

a) **Pension Systems.**

i) The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.56% percent in FY 2026 to 21.86% percent in FY 2027 (general fund savings of $80,480 for Police and $75,845 for Fire or a total savings of $156,325.

ii) The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2026 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2026 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b) **Collective Bargaining.** The already approved collective bargaining agreements for Dubuque Professional Fire Fighters Association includes a 4% increase, International Union of Operating Engineers includes a 3.25% wage increase, the Dubuque Police Protective Association includes a 5% wage increase, and the Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 include a 3% increase. Non-represented employees include a 3.00% wage increase. Fiscal Year 2027 includes the cost of the multi-year implementation of the classification and compensation study. A classification and compensation study analyzes the job positions (not individuals) in an organization. The purpose of a classification and compensation study is to ensure jobs with comparable minimum qualifications, job responsibilities, supervisory expectations, working conditions and environments are grouped closely in a compensation plan. Salary ranges are competitive within the identified market, and to equip the human resources team to consistently administer classification and compensation programs on an ongoing basis. The City's strategy through this study has been to recommend a new compensation strategy in which the City is competitive at the 50% percentile of employers. Total cost of the wage increases for collective bargaining and non-represented employees, and continued classification and compensation study implementation is $3,509,780 to the General Fund.

c) **Health Insurance.** The City portion of health insurance expense is projected to increase from $1,119 per month per contract to $1,175 per month per contract (based on 662 contracts) in FY 2027 (increase of $589,333 to the general fund). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings.There was a decrease of $639,758 in prescription drug cost in FY 2022. Based on FY 2026 actual experience, Fiscal Year 2027 is projected to have a 5.35% increase in health insurance costs. Estimates for FY 2028 were increased 5.36%; FY 2029 were increased 5.37%; FY 2030 were increased 5.38%; and FY 2031 were increased 5.38%. Effective January 1, 2027, employee contributions will increase.

d) **Five-Year Retiree Sick Leave Payout.** FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2026 was $288,742 as compared to FY 2027 of $228,836, based on qualifying employees officially giving notice of retirement.

e) **50% Sick Leave Payout.** Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2026 was $128,496 as compared to FY 2027 of $141,764, based on FY 2026 year-to-date expense.

f) **Parental Leave.** Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

Supplies and Service ($-1,399,126 / (2.23)% under 2026 Adopted Budget)

g) **Supplies & Services.** General operating supplies and services are estimated to increase 2% over actual in FY 2025. A 2% increase is estimated in succeeding years.

h) **Electricity.** Electrical energy expense is estimated to increase 4% over FY 2025 actual expense, then 2% per year beyond.

i) **Natural Gas.** Natural gas expense is estimated to increase 0% over FY 2025 actual then 2% per year beyond.

j) **Travel Dubuque.** The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k) **Equipment & Machinery.** Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget, then remain constant per year beyond.

l) **Debt Service.** Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m) **Unemployment.** Unemployment expense in the General Fund decreased from $23,824 in FY 2026 to $27,007 in FY 2027 based on estimated premium for FY 2026.

n) **Motor Vehicle Fuel.** Motor vehicle fuel is estimated to decrease 30% under the FY 2026 budget based on the City fuel island fully operational in FY 2027and no longer purchasing from retail gas stations, then increase 2.0% per year beyond.

o) **Motor Vehicle Maintenance.** Motor vehicle maintenance is based on the FY 2026 budget, then increase 2.0% per year and beyond.

p) Public Transit. The increase in property tax support for Transit from FY 2026 to FY 2027 is $434,533, which reflects a decrease in Federal Transportation Administration Operating revenue ($154,667); a decrease in Federal Transportation Administration Capital ($344,329), an increase in employee expense ($111,155); decrease in supplies and services ($120,569); a reduction in equipment replacements ($99,615), a decrease in passenger fare revenue ($2,579).

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
2027 Projection	$ 2,361,869	22.55 %
2026 Budget	$ 1,927,336	(1.74)%
2025 Actual	$ 1,961,488	26.70 %
2024 Actual	$ 1,548,127	(1.52)%
2023 Actual	$ 1,571,981	(1.83)%
2022 Actual	$ 1,601,290	(2.09)%
2021 Actual	$ 1,635,441	4.94 %
2020 Actual	$ 1,558,460	(0.82)%
2019 Actual	$ 1,571,307	(0.10)%
2018 Actual	$ 1,572,825	34.10 %
2017 Actual	$ 1,172,885	24.41 %
2016 Actual	$ 942,752	(13.00)%

q) Shipping & Postage. Postage rates for FY 2027 are estimated to increase 5% over FY 2025 actual expense and proposed cost increases by United States Postal Service. A 3.0 percent increase is estimated in succeeding years.

r) Insurance. Insurance costs are estimated to change as follows:

- Workers Compensation is decreasing 44.18% based on rate change.
- General Liability is decreasing 3.06% based on rate change.
- Damage claims is decreasing 6.86% based on a three year average.
- Property insurance is increasing based on FY 2026 actual over 2%.

s) Housing. The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease $69,521 in FY 2027. The budgeted administrative cost of the Housing Choice Voucher Program decreased from $1,129,462 in FY 2026 to $988,895 in FY 2027. Administrative revenue of the Housing Choice Voucher Program decreased from $912,012 in FY 2026 to $827,089 in FY 2027. The resulting Housing Choice Voucher Program deficit decreased from $217,450 in FY 2026 to $161,806 in FY 2027. This deficit is funded by property taxes.

t) Communications Department. In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, was no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position was recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions were recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

u) Communications Department. In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, will no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position is recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions are recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

v) Greater Dubuque Development Corporation. Greater Dubuque Development Corporation support of $836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2027, with $26,500 for Targeted Neighborhood Reinvestment strategy paid from the Greater Downtown TIF. In FY 2028 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

Capital Outlay ($-673,867 / (14.67)% under FY 2026 Adopted Budget)

w) Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget based on equipment replacement schedules, then remain constant per year beyond

Debt Service ($-1,545,954 / (5.27)% under FY 2026 Adopted Budget)

x) Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement

*These projections do not include any anticipated tax burden shifts as a result of state-issued equalization orders or rollback factors.
The projections for the cost of municipal services are based on average water usage for residential single family is 3,200 gallons per month and assessed value on the home in FY 2027 of $196,508 (before rollback). State increased property taxes to the average homeowner by underfunding the Homestead property tax credit. FY 2020-2027 residential property tax projections assume Homestead property tax credit funded 100%, which has happened since FY 2014. The Utility Franchise Fee for gas and electric is calculated for all years using the FY 2015 electric gas rates for average residential customers.

RATES AND COMPARISONS

Water Rate Comparison for Largest Iowa Cities with Water Softening

Rank	City	Water Rate
7	Cedar Rapids (FY27)	34.05

8	Cedar Rapids (FY27)	$ 16.66
7	Davenport (FY27)	$ 16.58
6	Sioux City (FY27)	$ 15.60
5	Iowa City (FY27)	$ 15.43
4	West Des Moines (FY27)*	$ 11.75
3	Ankeny (FY27)*	$ 10.53
2	Ames (FY27)	$ 10.27
1	**Dubuque (FY27)**	**$ 10.16**
	AVERAGE w/o Dubuque	$ 15.59

Dubuque has the LOWEST property tax rate as compared to the eleven largest cities in the state. The highest rate (Waterloo (FY27)) is 136.28% higher than Dubuque's rate, and the average is 53.35% higher than Dubuque. Dubuque's adopted FY 2027 property tax is $10.16 (increase of 1.00% from FY 2026)

*Includes the transit tax levy adopted by the Des Moines Area Regional Transit Authority for comparability.

VALUATION GROWTH

History of Taxable Debt Valuation (in millions)

The FY 2027 budget is based upon a 7.93% increase ($281,377,081) to the taxable debt valuation for the City. Without Tax Increment Financing there is a 5.89% increase in the taxable valuation for all other levies (General Fund property tax levy). The total taxable debt valuation of $3,831,798,549 is made up of the following components:

Valuation by Class of Property	Taxable Debt Valuation	Percentage of Valuation	Change from Prior Year
Residential & Ag property	$ 2,139,000,770	55.82 %	3.51 %
Ag Land & building	3,458,250	0.09 %	— %
Commercial property	1,485,347,469	38.76 %	15.63 %
Industrial property	168,152,430	4.39 %	8.22 %
Railroad bridge	4,777,321	0.12 %	2.91 %
Other	566,419	0.01 %	(0.76)%
Utilities	65,123,490	1.70 %	(6.46)%
Less: Veterans credit	(31,169,350)	(0.81)%	1.00 %
Ag Land & building	(3,458,250)	(0.09)%	— %
Total	$ 3,831,798,549	100 %	7.93 %
Tax Increment Financing (TIF)	($694,617,071)		18.16 %
Taxable Levy	$ 3,137,181,478		5.89 %

Utilities - Excise Tax

Legislation in FY 2001 changed the taxation of utilities from a property tax to an excise tax. The City's tax rate/$1,000 is first calculated on a valuation which includes utilities, then those calculated rates are used against a valuation figure with utilities removed. The excise tax makes up the difference in each levy.

Rollback

The growth in the valuation for the City of Dubuque continues to be impacted by the State of Iowa rollback adjustment. The State adjusts taxable valuations based upon a formula using the growth of the value of agricultural land. In the late 1980's the rollback was 80.6%, meaning only 80.6% of the value was taxable. For FY 2027 the State issued rollback for residential property is 46.34%.

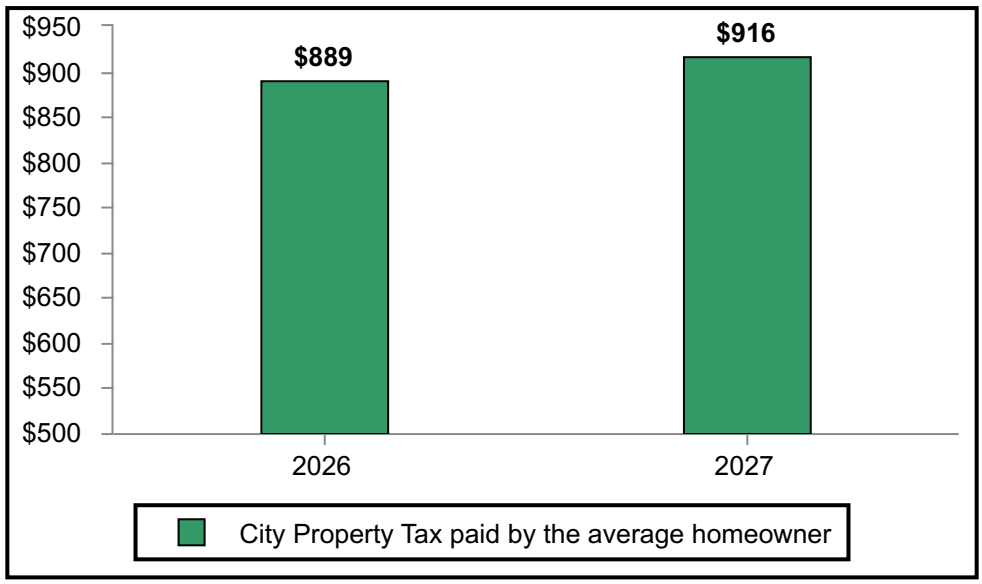

Comparison for Eleven Largest Iowa Cities
Taxable Value per Capita

Rank	City	Taxes Per Capita	Tax Rate	2020 Census Population	Taxable Value With Gas & Electric
11	West Des Moines	$ 1,419.67	$ 11.7500	68,723	8,303,317,423
10	Council Bluffs	$ 1,232.24	$ 17.4800	62,799	4,426,964,995
8	Waterloo	$ 1,115.87	$ 24.0178	67,314	3,127,420,037
9	Cedar Rapids	$ 1,061.86	$ 16.6562	137,710	8,779,262,836
7	Ankeny	$ 1,015.92	$ 10.5296	67,887	6,549,880,659
6	Iowa City	$ 999.75	$ 15.4331	74,828	4,847,306,943
5	Davenport	$ 961.56	$ 16.5823	101,724	5,898,709,945
4	Des Moines	$ 934.05	$ 17.5600	214,133	11,390,122,019
3	Sioux City	$ 819.88	$ 15.5956	85,797	4,510,460,866
2	**Dubuque**	**$ 653.37**	**$ 10.1648**	**59,667**	**3,835,259,385**
1	Ames	$ 604.59	$ 10.2727	66,427	3,909,496,088
	AVERAGE w/o Dubuque	$ 1,016.54	$ 15.59	94,734	6,174,294,181

Dubuque is the SECOND LOWEST taxes per capita as compared to the eleven largest cities in the state. The highest (West Des Moines) is 117.28% higher than Dubuque's taxes per capita, and the average is 68.14% higher than Dubuque.

FISCAL YEAR 2027

SUMMARY OF ALL DECISION (IMPROVEMENT) PACKAGES WITH PROPERTY TAX IMPACT

There were 145 improvement level decision packages requested in Fiscal Year 2027, of which 117 were recommended for funding.

The recurring general fund expenditures total $597,760 and will also impact future budget years. The non-recurring general fund expenditures total $2,187. The remaining improvement packages adopted for funding from non-property tax support total $1,507,077.

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
RECURRING DECISION PACKAGE COSTS				**GENERAL FUND**	
City Attorney's Office	Annual and recurring license that would give the City Attorney's Office direct access to Police Department records. Records are often needed for traffic court, simple misdemeanors and municipal infractions.	R	600	469	131
City Clerk	Business license and permits fee increases. These updates are intended to reflect administrative time and compliance oversight required to manage these licenses and permits.	R	—	2,145	(2,145)
City Manager's Office	Growing Sustainable Communities Conference elimination due to significant cost increases and reduced momentum in sponsorships.	R	(91,145)	79,302	(11,843)
Community Impact	Increase city's financial support for Community Impact Administrative Support position by 0.58 FTE. Historically, this portion of the position has been funded by the AmeriCorps grant. Due to the expanding of the department, additional duties have emerged that are unrelated to the AmeriCorps operational needs.	R	43,157		43,157
Economic Development	SlideRoom Grant Application Software is essential for managing applications and post-grant reports for Arts & Cultural Affairs grant programs. This software ensures a fair and efficient process.	R	3,000		3,000
Economic Development	Bringing in a Arts Grants Consultant for grant eligibility and financial review process. Hiring a consultant would eliminate the need for a 0.25 FTE intern position and provide cost savings.	R	(7,417)		(7,417)
Emergency Communications	911 Public Safety Applicants testing software upgrade. This softwares allows to administer an unlimited number of online tests to applicants at home.	R	2,368	1,184	1,184
Emergency Communications	Software to track training requirements for 911 Dispatch staff	R	3,000	1,500	1,500
Emergency Communications	Emergency Communications Vehicle. Due to the new center location, staff are traveling more for in-person meetings. 75% of the vehicle use would be for City purposes and 25% for the Emergency Communications purposes.	R	40,000	5,000	35,000
Engineering	Full size cargo van equipped with storage racking, tools and supplies for Facilities Maintenance.	R	62,000		62,000
Engineering	1.0 FTE Maintenance worker for all City Buildings. Current staffing levels are not sufficient to maintain buildings in a safe, reliable, and cost-effective manner.	R	86,439		86,439
Engineering	1.0 FTE Custodian I for the Bright Minds Campus on Chavenelle Rd location. A portion of the costs for this position will be shared between other tenants of the facility.	R	77,793	40,581	37,212
Engineering	New truck for the Engineering Technician position. The addition of this truck will ensure the new Engineering Technician position can perform duties efficiently and safely without relying on shared or personal vehicles.	R	49,500		49,500

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Engineering	Increased funding for the partnership with the East Central Intergovernmental Association to maintain Dubuque's traffic modeling system.	R	50,000		50,000
Fire	New Position for Fire Code Official / Fire Prevention & Plan Review Manager. The cost of this package includes wage, benefits, vehicle, equipment and office set up. This position is designed to strengthen citywide fire and life safety code compliance, improve efficiency in the development review process, and enhance collaboration amount key departments and private stakeholders.	R	195,202		195,202
Fire	Addition of a new Computer Workstation at Fire station 4. There are currently two shared computer workstations, one used by the company officer who manages daily station operations, administrative duties, and incident reporting, and a second shared amount the four firefighter paramedics assigned to the station.	R	2,075		2,075
Fire	Annual Generator Maintenance. The generators were purchased in FY2025 and were under warranty for one year and will now transition to regular annual service. Each generator will receive an annual check and service to replace worn parts which will keep each generator functioning.	R	3,120		3,120
Fire	Firefighter 1: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 2: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 3: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 4: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 5: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 6: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department’s minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Fire	Firefighter 7: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 8: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Firefighter 9: The Dubuque Fire Department is requesting nine (9) firefighter/paramedic positions in FY27 to enhance the department's minimum staffing levels. These positions will be pursued through a FEMA SAFER (Staffing for Adequate Fire and Emergency Response) Grant in the summer of 2026.	R	108,242	80,678	27,564
Fire	Incorporating Scenario-based assessments promotional testing process which occurs once every two years. The addition of an assessment center component will enhance the evaluation of candidates by requiring them to demonstrate practical leadership and decision-making skills in simulated environments.	R	9,000		9,000
Fire	Creation of Dubuque Fire Explorer Post Program for youth ages 14-18. Initially submitted as recurring but recommended as non-recurring.	R	10,000		10,000
Health	CitizenServe Permitting and Inspection (7) software licenses. This software can be configured to reflect City of Dubuque health and animal control codes, associated citations, fines and reporting.	R	10,500		10,500
Health	Part-Time Animal Control Officer to enhance weekday and weekend service coverage and support the successful implementation of the City's new animal licensing program. Currently, the program operates with two full-time Animal Control Officers.	R	50,822		50,822
Housing	Two ICC Premium Complete subscriptions, which provide full online access to ICC's code library. Premium Complete access includes all published ICC code books, many referenced standards, official code interpretations, and advanced search tools. It also allows printing of code sections to share with citizens, providing clearer communications and helping them better understand applicable code requirements.	R	1,300		1,300
Housing	Housing and Community Development Administrative Support Professional (Requests in General Fund and Lead Fund).	R	69,548		69,548
Information Technology	User Technology Support Specialist to support the increased demand for IT infrastructure and support services. Timely and effective technical support is crucial to maintain productivity and minimize disruptions. The IT department currently has two User Technology Support Specialists.	R	91,867		91,867
Information Technology	Lead Applications Network Analyst. This position primarily focuses on all City application support with increased software and artificial intelligence use. The IT department currently has three Lead Applications Network Analysts, with two of these positions primarily focused on public safety.	R	105,435		105,435

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Information Technology	IT Service Management Software - combines several pieces of software that IT currently uses under one umbrella. This new software includes advanced security features to protect our data, safeguard against cyber threats, and ensure compliance with industry standards. It automates routine tasks such as software updates, patch management, and device provisioning, reducing manual workload and minimizing downtime.	R	141,197	75,000	66,197
Information Technology	Addition of a second IT vehicle. The current vehicle is checked out and shared between 18 staff members. A second vehicle would alleviate more staff needing to use their personal vehicles and claiming mileage costs. With the IT staff relocation to the new offices, this issue is compounded with staff need to drive additional distance to every City building, incurring more mileage.	R	40,000		40,000
Parks	1,510 (.72 FTE) additional hours for temporary Park Rangers during the park season. Currently there is one Park Ranger scheduled for evenings Monday through Thursday and two Park Rangers scheduled for evenings on Friday, Saturday and Sunday. The increased hours would provide for two Park Rangers on Monday through Thursday evenings and additional daytime hours on Saturdays and Sundays. The hours would also decrease time needed by the Police Department to respond to calls that park rangers can handle.	R	39,865		39,865
Parks	1.0 FTE Forestry Technician. The Forestry Laborer positions have been difficult to fill due the requirement of a commercial drivers license to operate the forestry equipment. This does not allow for forestry staff to efficiently perform their duties especially during storm response. The Forestry activity has seen an increased workload due to more frequent storms, tree plantings, and additional training and work requirements. There are currently Forestry Technicians (2.0 FTE) in the Forestry Activity. Funds are also budgeted for (2) Temporary Forestry Laborers (1.0 FTE).	R	73,586		73,586
Parks	1.0 FTE Maintenance Technician responsible for all areas of park maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Assistant Field Operations Manager to ease the administrative burden and support the Parks Division Manager as recommended by the Parks and Recreation Comprehensive Master Plan.	R	106,120		106,120
Parks	1.0 FTE Maintenance Technician responsible for all areas of park maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Maintenance Technician responsible for all areas of trail maintenance as recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Parks	1.0 FTE Assistant Horticulturist to support the landscaped areas in roundabouts, new parks and City owned landscape improvements. This position is recommended by the Parks and Recreation Comprehensive Master Plan.	R	73,586		73,586
Police	New Crime Analyst Intern Position (0.25 FTE). Several instructors with various colleges in the area have reached out inquiring about internships in criminal analytics. In 2025, a full-time Crime Analyst position was created to improve data-driven decision-making. As this position has grown, a growing need has been identified that could be filled by an intern position.	R	9,011		9,011

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Public Works	Fleet A/C Machine (R-1234yf). Around 2013–2017, most new vehicles began adopting R-1234yf, a low-global-warming-potential (GWP) refrigerant replacing R-134a. The city-owned vehicles that fall within this category, currently require a dealer due to city equipment not being compatible.	R			—
Public Works	Street Maintenance overtime for Barricades/Bollards during Special Events	R	10,000		10,000
Public Works	Fleet Service Coordinator (1.0 FTE). The responsibilities for this position would be split from the Fleet Purchasing & Service Coordinator to improve workflow reliability, strengthen communication and align Public Works with APWA Accreditation standards.	R	79,462		79,462
Public Works	Fleet A/C Machine (R-1234yf). Around 2013–2017, most new vehicles began adopting R-1234yf, a low-global-warming-potential (GWP) refrigerant replacing R-134a. The city-owned vehicles that fall within this category, currently require a dealer due to city equipment not being compatible.	R	9,750		9,750
Recreation	Golf cart passes increased $50 (from $650 to $700). These passes are sold separately from the annual Golf Pass which covers the pass holder's daily rounds.	R	—	2,600	(2,600)
Recreation	Reallocation and reduction of temporary employee expenses (-0.50 FTE). Within the budget activities of Youth Sports, Recreation Classes, and Therapeutic Recreation, the program are being corrected based on current operations.	R	(26,659)		(26,659)
Recreation	Mobile Event Trailer - 0.1 FTE and income increase. Since the addition of the mobile Rec & Roll trailer program, the department consistently receives inquiries as to the option to rent out the trailer. This IP depends on the approval of the related CIP for an additional Rec & Roll Trailer.	R	2,641	2,700	(59)
Recreation	Full-time Community Outreach & Public Communications Coordinator (1.0 FTE, NB-11). Recommended from Parks & Rec master plan. This position is needed due to citizens not being aware of Parks and Recreation offerings.	R	106,668		106,668
Transportation Services - Transit	Part-time Bus Attendant Position (0.50 FTE, NB-05). This position is needed due to safety concerns with students on the afternoon buses.	R	26,251		26,251

1. Use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program.
2. Tax Increment & Reserve Fund use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program and to repay internal loans for developing the City's industrial parks / technology parks.
3. UDAG Repayments Fund use of fund balance will be used for Economic Development initiatives.
4. Section 8 Fund use of balance is reserved for housing assistance payments.
5. Cable TV & Equipment Fund use of fund balance will be used for future capital projects.
6. Expendable Library Gift Trusts Fund use of fund balance will be used for programs and speakers at the Library.
7. Increase in fund balance is required to maintain the operating reserve requirement of 25% of operating expenditures.
8. Stormwater Operation Fund use of fund balance represents spending down cash balance due to debt being issued for the Bee Branch project at a much slower time line which reduced debt service costs and increased fund balance.
9. Refuse Collection Fund use of fund balance will be used for future capital projects.
10. Service Fund Charges addition to fund balance will be used to purchase equipment in future years.
11. Salt Operations Fund addition to fund balance will be used to fund future capital purchases.
12. Passenger Facility Charge Fund balance will be used to pay for debt issued for the new Airport terminal project.
13. Customer Facility Charge Fund balance will be used to pay for parking lot improvements at the Airport.
14. Expendable Police Gift Trusts Fund use of fund balance will be used for maintenance of 1948 Stylemaster and canine expenses.
15. Veteran's Memorial Fund balance will be used for maintenance of the Veteran's Memorial.
16. Special Assessments fund balance is expected to be zero, revenues are transferred to the funds that paid for projects.
17. State Rental Rehab Fund will decline as capital projects spend down the fund balance.
18. Airport Construction Fund balance will be used for future capital projects.
19. The Transit Fund is expected to decrease as one time funding from prior grants are expended on capital projects.
20. The Intermodal Fund is expected to increase due to heightened usage of the ramp.
21. Police Evidence Fund will fluctuate based on active cases in the Police Department.

(CDBG) FUNDS

For Inclusion in the Fiscal Year 2027 City Budget.
This document is subject to revision due to the estimated allocation amount.

***Contingency Provision:** If Actual Allocation is an increase from Pre-Allocation, funds up to 15% of previous year program income and the current year entitlement, will increase the allocation of Neighborhood Recreation Programs. If Actual Allocation is a decrease from Pre-Allocation, funds will decrease the allocation of Housing Rehabilitation Services and Staff.

PREPARED BY THE CITY OF DUBUQUE HOUSING & COMMUNITY DEVELOPMENT DEPARTMENT

CITY OF DUBUQUE, IOWA
FY 2027 ANNUAL ACTION PLAN
FOR THE USE OF PROGRAM YEAR 2026
COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS

The City of Dubuque distinguishes between four different but complementary areas of program development in its overall CDBG program: Administration, Housing Development, Neighborhood Development, and Public Facilities. The following description of activities summarizes the projects to be completed in the FY 2027 Annual Action Plan with the use of CDBG funds.

RESOURCES

CDBG Estimated Entitlement FY 2027 **$1,037,080**

Program Income **$194,868**

Program income projections are based on forecast for loan repayments based on the loan portfolio and program income generated from CDBG funded programs.

TOTAL RESOURCES **$1,231,948**

ADMINISTRATION $246,390

CDBG regulations limit expenditure on planning and administrative funds to 20% of the current year program income plus the current entitlement. The proposed resources for administration support the plan's current requirements.

CDBG Planning, Monitoring, & Budgeting **$90,000**

Staff support for general management. Oversight and coordination of the Community Development Block Grant program; assures compliance with federal regulations and reporting requirements.

Housing & Community Development Administration **$156,390**

On-going staff support for general management, oversight, and coordination of the Community Development Block Grant housing programs.

Priority: High
Objective/Outcome: Provide Decent Affordable Housing/Affordability

HOUSING DEVELOPMENT $630,000

Housing Activities **$250,000**

This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential Activities include homeowner rehab, roof replacement, and accessibility improvements.

National Objective: Low- and Moderate-Income Housing
Location: City wide
Proposed Accomplishments: 20 Housing Units
Priority: High
Objective/Outcome: Decent Housing/Affordability

Lead & Healthy Homes Grant Match (2024) **$100,000**

This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential activities include lead assessment and lead paint reduction of abatement with forgivable loans to low- and moderate-income residents. This activity is match funding for the Lead and Healthy Homes Grant awarded in FY25.

National Objective: Low- and Moderate-Income Housing

Location:	City wide
Proposed Accomplishments:	20 Housing units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Healthy Homes Grant Match (2024) **$100,000**

This project includes residential repair and rehab for low- and moderate-income homeowners and renters. Potential activities include roof replacement with forgivable loans to low- and moderate-income residents. This activity is match funding for the Healthy Homes Grant awarded in FY25.

National Objective:	Low- and Moderate-Income Housing
Location:	City wide
Proposed Accomplishments:	20 Housing units
Priority:	High
Objective/Outcome:	Decent Housing/Affordability

Housing Rehabilitation Services and Staff **$180,000**

This project includes staff support for program management activities, technical assistance, and loan packaging for the city's Community Development programs.

Priority:	High
Objective/Outcome:	Decent Housing/Affordability

NEIGHBORHOOD DEVELOPMENT $155,558

Public Services activities are restricted to 15% of the previous year program income and the current year entitlement. Public Service activities in this plan represent 15% of the proposed expenditures.

Neighborhood Recreation Programs- Public Services **$146,848**

This project includes enhanced recreation programing offered in low- and moderate-income areas and to low and moderate income residents. Potential activities include expanded after-school programs, community partnerships, and scholarships.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide
Proposed Accomplishments:	300 Persons
Priority:	High
Objective/Outcome:	Suitable Living/Accessibility

Zoning Enforcement **$8,710**

This project provides funding for inspection/enforcement staff services to low/mod income areas for zoning ordinance infractions and to provide support for neighborhood clean-up efforts. Potential activities include staff enforcement for zoning ordinance infractions, and/or housing inspection staff.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide, Low and Mod Area
Proposed Accomplishments:	100 Housing Units
Priority:	High
Objective/Outcome:	Suitable Living/Sustainability

PUBLIC FACILITIES $200,000

Low-Mod Area Park Updates **$200,000**

New playground equipment at low- and moderate- income area parks based on community input.

National Objective:	Low- and Moderate-Income Benefit
Location:	City wide, Low and Mod Area
Proposed Accomplishments:	Park Design/Community Input
Priority:	High
Objective/Outcome:	Suitable Living/Sustainability

Grand Total: CDBG Funding Proposed for FY 2027	**$1,231,948**

DEBT MANAGEMENT

This page intentionally left blank.

DEBT SERVICE FUND

The Debt Service Fund is a legally required fund. The fund administers the payments for all of the City's general obligation debt. Revenue bonds, other than those from tax increment revenues, are administered in the enterprise fund that is securing the debt.

For the majority of projects funded through general obligation debt, the City usually issues twenty-year general obligation bonds. In Fiscal Year 2027, there is anticipated to be an additional $12,991,499 in general obligation debt issued that would apply against the statutory debt limit and $13,959,099 in principal retired will be applied against the statutory debt limit.

In fiscal year 2027, debt service expense related to general obligation bonds that counts against the statutory debt limit will increase 6.18% under fiscal year 2026 in the debt service fund. New general obligation bond debt which counts against the statutory debt limit planned to be issued (non-enterprise fund) in fiscal year 2027 is as follows:

Department	Project	Amount of Debt Issue	FY 2027 Debt Service
Airport	Reconstruct Taxiway Alpha - LOST 20%	$804,999	
Economic Development	Downtown Rehabilitation Grant Program - GDTIF	$800,000	
Engineering Facilities	Federal Building Renovation - GDTIF	$1,365,000	
Engineering - Facilities	Radon Mitigation - City Hall- LOST 20%	$20,000	$1,522

Transportation - Parking	Ramp Major Maintenance - GDTIF	$1,085,000	
	GRAND TOTAL	**$12,991,499**	**$ 2,282**

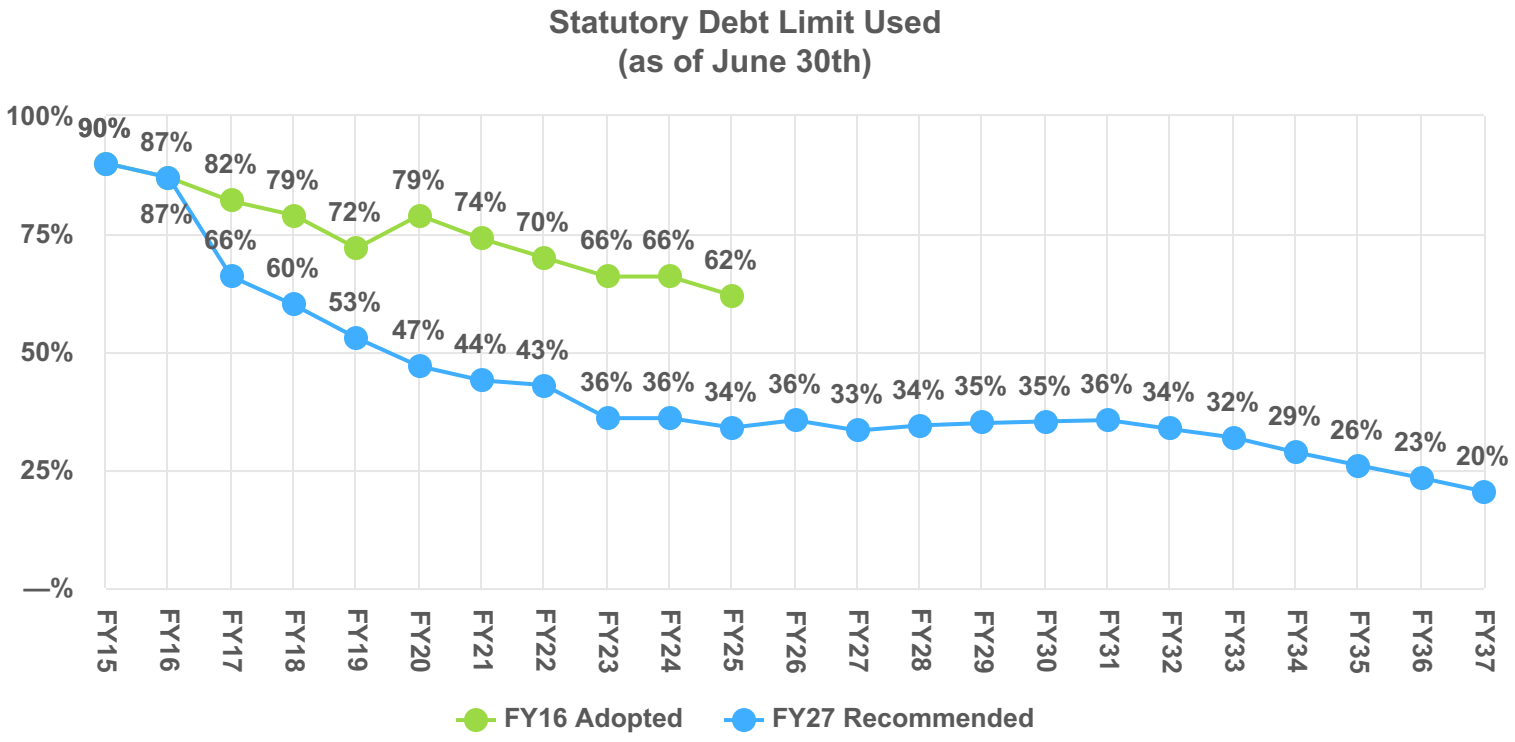

Most of the new debt issued in fiscal year 2027 will be issued in April, which delays principal payments until fiscal year 2028.

The debt service property tax levy finances the bond and interest payments that are not being secured from other revenue sources. The levy rate for debt service will decrease by -0.01 to 0.07503 in fiscal year 2027. The debt service property tax levy represents the repayment of bonds related to the Fire Department pumper truck replacement and the franchise fee litigation judgment bond.

Funding sources other than property taxes are also used to repay general obligation debt. The City's general obligation debt is also funded by other revenues including water, sewer and tax increment financing. One percent of the City's general obligation debt service is funded from the debt service property tax levy. Other revenues being used to repay debt service are shown as transfers in.

Statutory Debt Limit

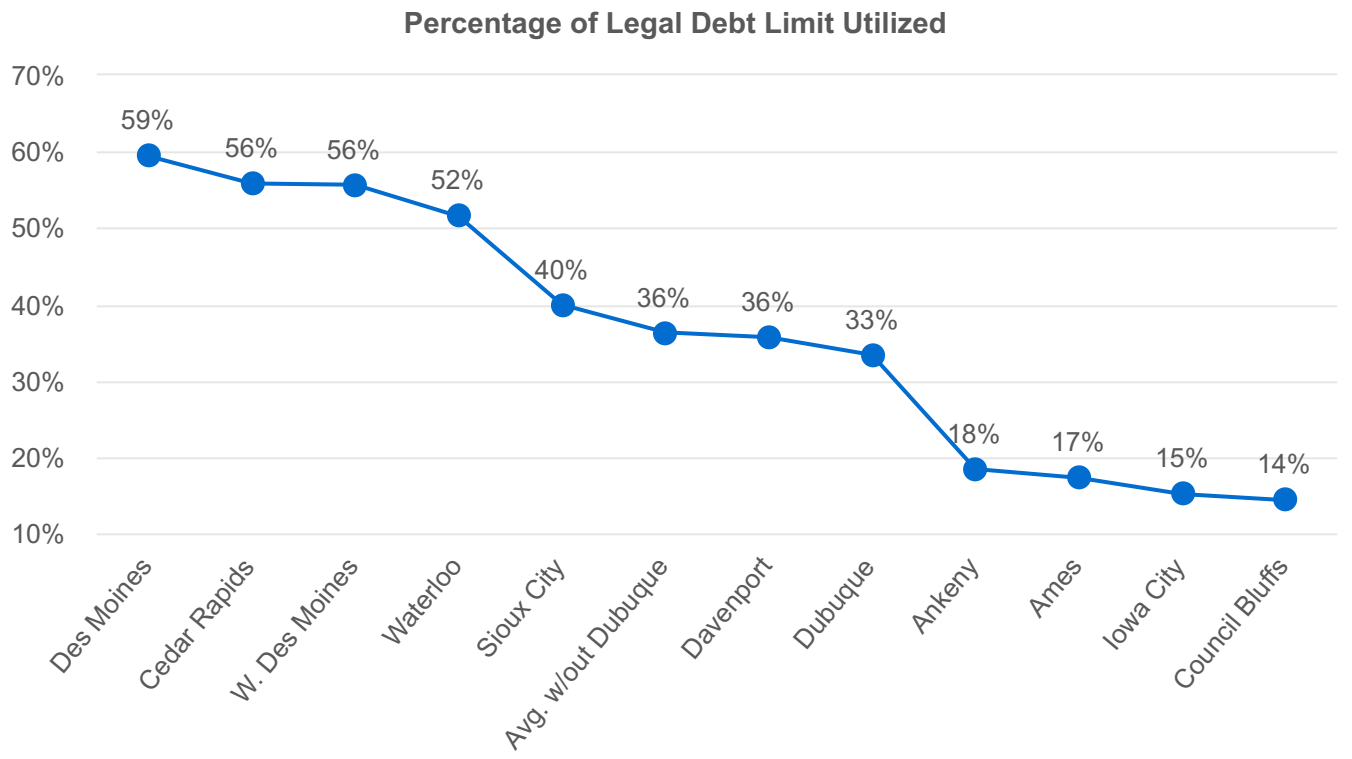

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements.However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit. Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016**.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$964,798,967	$573,230,000	59.41%
10	Cedar Rapids (FY 25)	$551,635,692	$307,090,000	55.67%
9	W. Des Moines (FY25)	$767,559,335	$428,550,000	55.83%
8	Waterloo (FY25)	$267,626,798	$137,905,065	51.53%
7	Sioux City (FY25)	$493,660,291	$176,195,000	35.69%
6	Davenport (FY25)	$367,743,172	$146,935,000	39.96%
5	Dubuque (FY27)	$358,374,258	$115,136,523	33.38%
4	Ankeny (FY25)	$529,988,951	$97,645,000	18.42%

2	Iowa City (FY25)	$435,367,793	$65,945,000	15.15%
1	Council Bluffs (FY25)	$427,559,692	$61,320,000	14.34%
	Average w/o Dubuque			36.33%

STATUTORY DEBT CAPACITY

FISCAL YEAR 2027 RECOMMENDED BUDGET

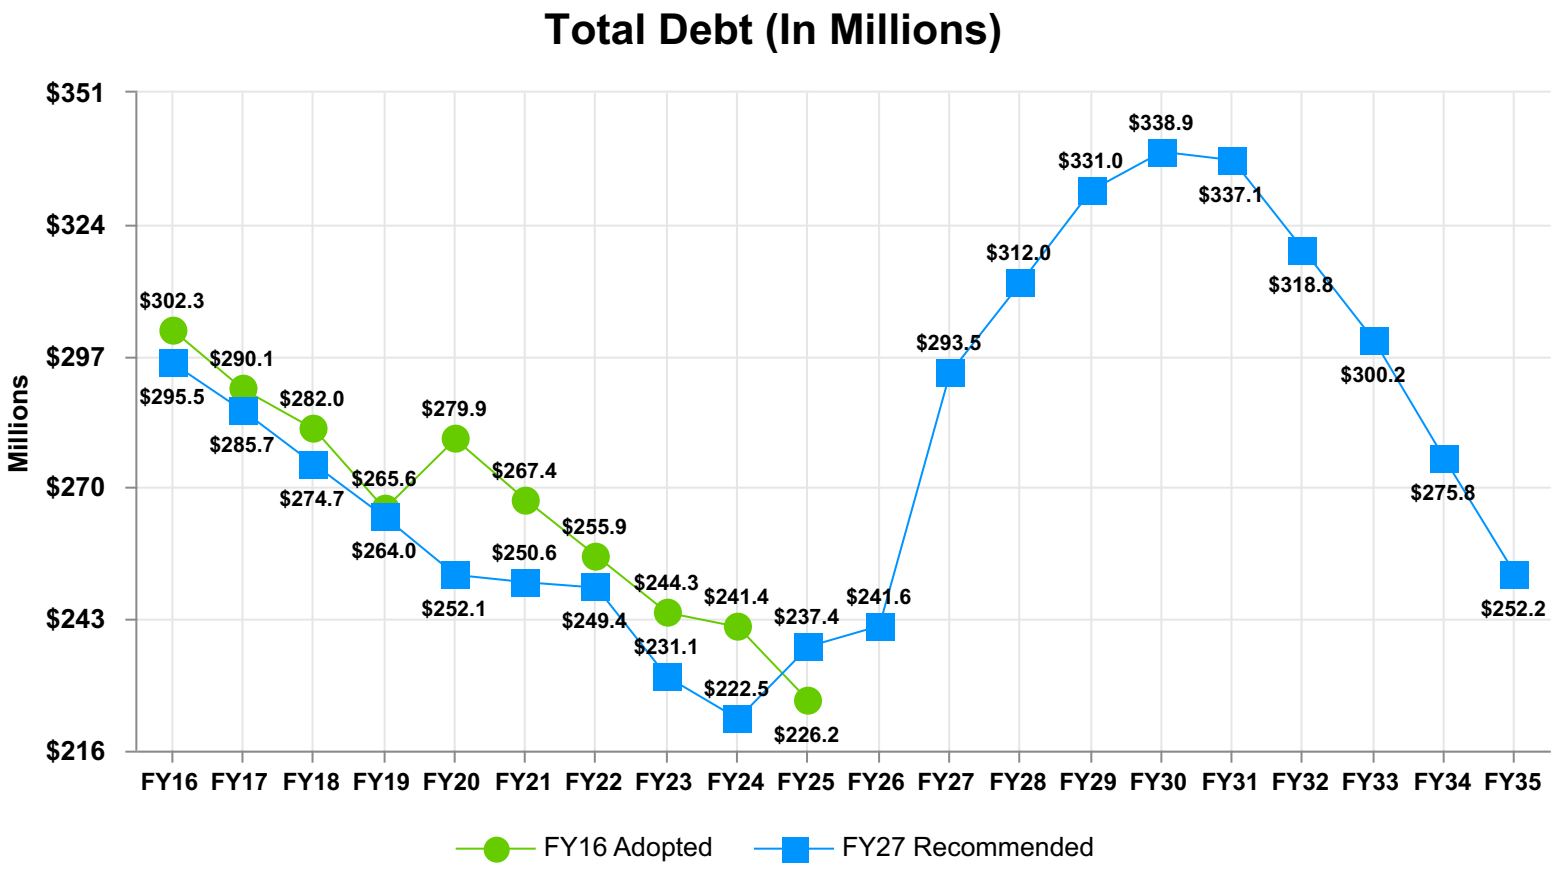

The Iowa Constitution (Article XI, Section 3) stipulates that the debt of a community may not exceed five percent of the Actual Assessed Value of Taxable Property (debt levy) within the city or town.

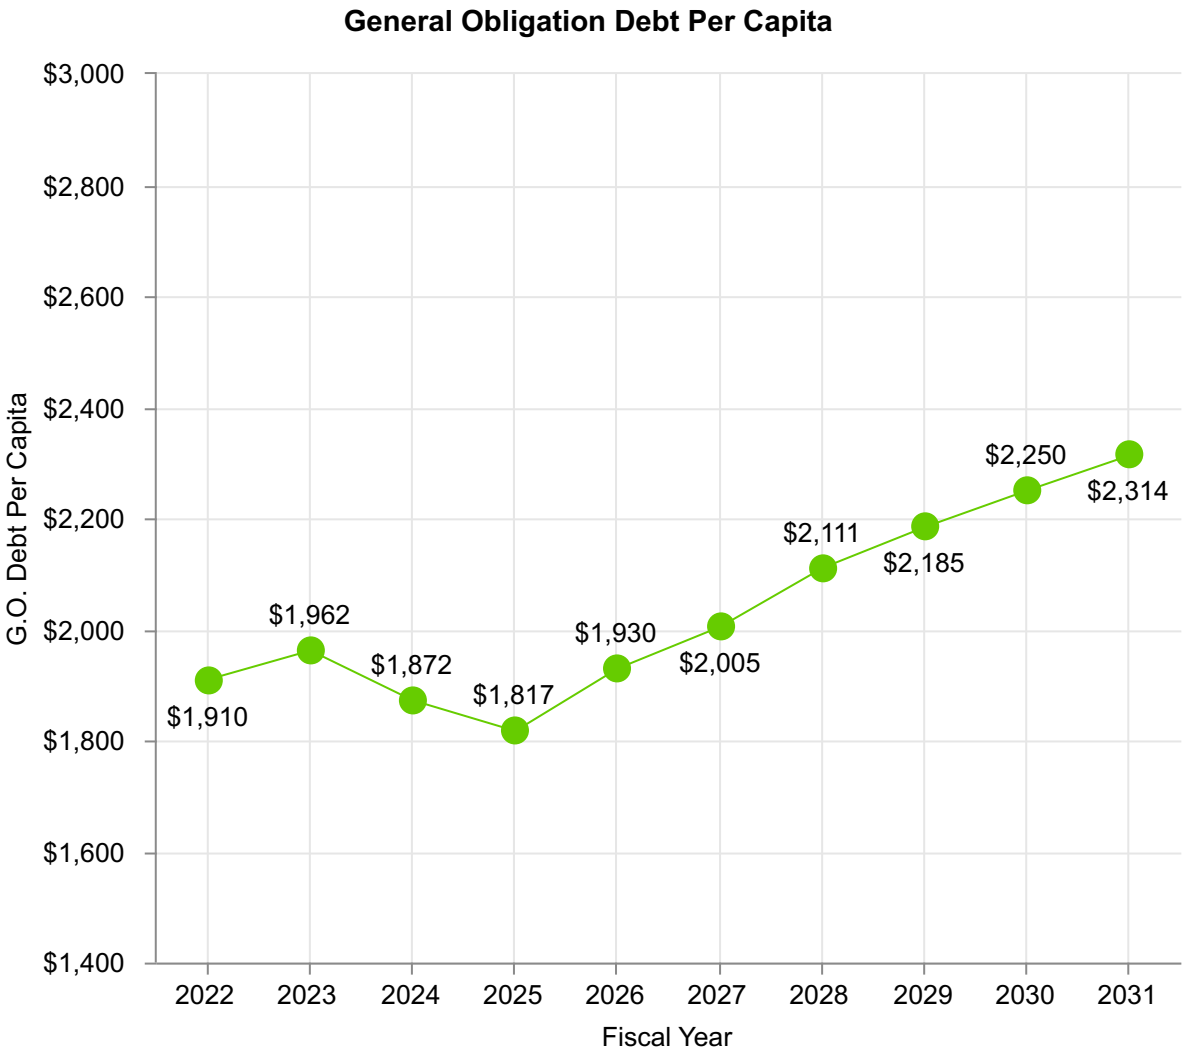

General Obligations, TIF debt (bonds, notes and rebates), and leases paid from the general fund are included as indebtedness of the City under the statutory debt limit.

		January 1, 2025 FY 2027
ASSESSED VALUE OF REAL PROPERTY	$	6,749,381,987
Less Veterans' Exemption		(31,169,350)
Subtotal		6,718,212,637
UTILITIES ASSESSED VALUE		449,272,514
TOTAL ASSESSED VALUE OF TAXABLE PROPERTY		7,167,485,151
		June 30, 2027
STATUTORY DEBT (5% OF TOTAL ASSESSED VALUE)		358,374,258
Less Outstanding G.O. Debt, TIF Debt & Lease Obligations paid from General Fund		119,617,156
STATUTORY DEBT CAPACITY	$	238,757,102
PERCENT OF LEGAL DEBT MARGIN UTILIZED		33.38 %

Total Debt Outstanding

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $338.87 million (35.31% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit**, and the projection is to be at $252.16 million (26.00% of statutory debt limit) within 10 years.

General Obligation Debt Per Capita reflects all general obligation bonds, both tax supported and enterprise fund supported.

Remaining Debt Capacity					$208,493,062			$238,757,101.

Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

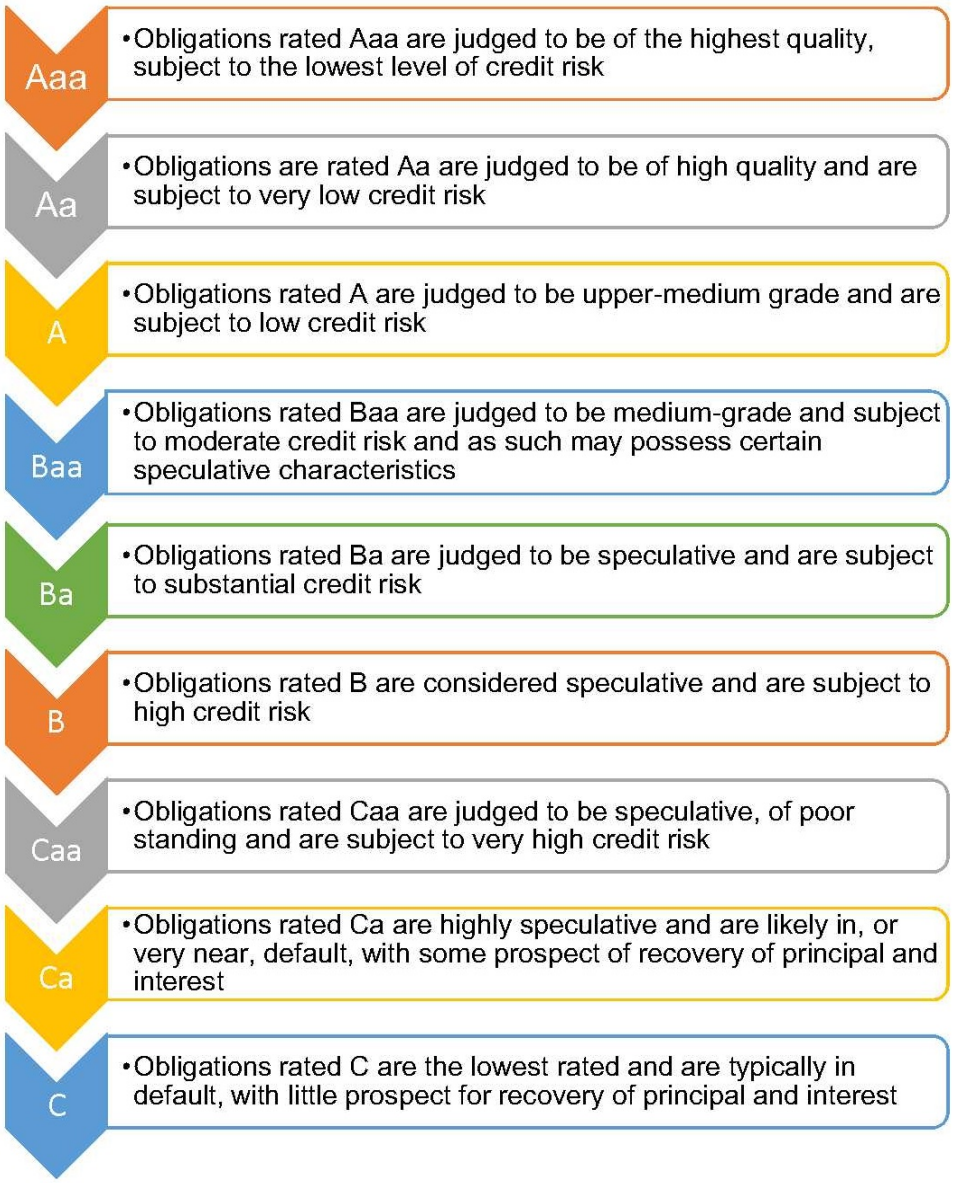

Bond Rating

The City's General Obligation Debt ratings with Moody's Investors Service is Aa2. In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1.

Credit Strengths:

- Regional economic center
- Solid resident income and full value per capita
- Financial operations are strong
- Revenue raising flexibility remains strong

Moody's Investors Service Rating Scale

FY 2027 Moody's Investors Service Bond Ratings Comparison for Iowa Cities

Ranking	City	Rating
1	Iowa City	AAA
	West Des Moines	AAA
	Cedar Falls	AAA
2	Cedar Rapids	Aa1
	Ames	Aa1
	Ankeny	Aa1
	Clive	Aa1
	Urbandale	Aa1
	Marion	Aa1
3	**Dubuque**	**Aa2**
	Des Moines	Aa2
	Davenport	Aa2
	Waterloo	Aa2
	Sioux City	Aa2
	Bettendorf	Aa2
	Council Bluffs	Aa2

In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City's available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

CAPITAL BUDGET

This page intentionally left blank.

CAPITAL IMPROVEMENTS PROGRAM (CIP)

The City's five-year Capital Improvement Program (CIP), contained in a separate document, and is used to plan for major changes to the City's infrastructure and other capital improvements. Departments propose projects in the fall and a draft of the CIP is developed before operational budgets are submitted. The CIP by department is reviewed with the operating budgets during budget hearings with City Council in February. The CIP is approved in March with the operating budget.

The CIP document has a page for every project and the format includes description of the project, City Council Goals & Priority outcome, funding restrictions, effect on operations, and relationship to other projects. The CIP recommendation reflects the City's comprehensive plan and the goals and priorities established by City Council.

The FY 2027 recommended capital projects are incorporated into the budget as capital programs. They are found at the end of each applicable program section. Projects which have an effect on operations are noted. The City's CIP Policies are shown in the Policy Budget documents.

The five-year CIP recommended through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and is $352,840,562. This is a $1,246,009, or 0.35% increase.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $176,633,737 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, street improvement), East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements, for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. By far the greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	($13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017.01
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58 %
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the net reduction of debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	$26,579,333	$43,133,602	$45,254,925	$35,996,472	$25,669,405	$176,633,737
Retired Debt	-$25,371,787	-$28,057,116	-$29,480,446	-$30,454,045	-$28,910,190	-$142,273,584
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

Capital improvement activities have been established in the City's budget to separate CIP projects and project expense (i.e., Storm Sewer Capital Improvement Activity, Street Capital Improvement Activity, Park Capital Improvement Activity) from operating expense (i.e., supplies, insurance salaries). The State of Iowa budget law requires that a city's budget be prepared and certified on a program basis. This means that each activity must fall under one of the State mandated budget program areas.

Table 1 below shows a summary of the five-year CIP by State Program. This is a increase of $1,246,009 from the FY 2026-2030 total CIP budget of $351,594,553.

TABLE 1 - FISCAL YEAR 2027-2031 CIP CAPITAL IMPROVEMENT PROGRAM

CITY OF DUBUQUE, IOWA

Fiscal Year 2027-2031 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2027-2031 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 28, 2026, at the same time as the public hearing on the Fiscal Year 2027 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the $1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City was successful in obtaining several large grants and now will be implementing those projects, especially the Bee Branch Flood Mitigation Project, 16th Street Pumping Station, and the 14th Street Overpass project.

A particular emphasis in this five-year CIP is modernization of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond. In the current fiscal year (FY 2026), the City will have allocated $22,026,250 and in this new five-year CIP, the City will have allocated an additional $74,871,571 for a total of $96,897,821 from July 2025 through December 2031.

The Fiscal Year 2027 CIP budget recommendation of $80,633,738 is a 12.17% decrease from the Fiscal Year 2026 CIP budget of $91,803,749.

The City will issue $221,888,207 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, park improvements, public works truck replacements, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water system projects, stormwater improvements, parking maintenance, renovation of Five Flags, East - West Corridor Capacity Improvements, 14th Street Overpass, and Central Avenue improvements , for a total of $221,888,207 of debt in FY 2027-2031. **The City will retire $142,273,584 of existing debt, increasing the amount of City debt by $79,614,623. The greatest use of debt over the next five years is for sanitary sewer maintenance and improvements ($74,871,571).**

For Fiscal Year 2027, the use of the statutory debt limit would be 35.58%, and by the end of the Recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.31% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 26.00% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that was being made available. Most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready. In addition, modernization, maintenance, and extension of the City sanitary sewer system to accommodate the growth the City is currently experiencing, and anticipating in the next few years and beyond.

The debt principal outstanding projected as of June 30, 2026, is currently $241,580,078. The breakdown of the debt principle outstanding as of June 30, 2026, is as follows:

Debt Obligation	**6/30/2026 Principle Outstanding**
General Obligation Essential Corporate Purpose	$93,656,000
Less General Obligation Debt Subject to Annual Appropriation	($13,369,544)
Tax Increment Notes and Bonds	$14,720,000
Economic Development TIF Rebate Agreements	$4,379,506
Other Revenue-Backed Loans	$2,381,017.01
Total Indebtedness Subject to Statutory Debt Limit of $323,629,585	$101,766,979
Percent of Statutory Debt Limit Used as of June 30, 2026	35.58%
Revenue Bonds	$126,443,555
Less Revenue Bonds Subject to Annual Appropriation	($9,581,282)
Add Debt Subject to Annual Appropriation	$22,950,826
Total City Indebtedness as of June 30, 2026	**$241,580,078**

The City will issue $176,633,737 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement ($3,672,408), fire station improvements, fire station expansion ($8,791,700), airport improvements, park improvements, public works truck replacements ($1,533,747), Federal Building renovations ($5,395,000), solid waste collection vehicles ($2,739,173), sanitary sewer improvements ($68,114,812), water system projects ($27,727,577), stormwater improvements ($4,120,000), parking maintenance ($4,150,000), renovation of Five Flags ($6,200,000), street improvements ($15,122,206), East - West Corridor Capacity Improvements ($4,280,000), 14th Street Overpass ($3,571,293), and Central Avenue improvements ($9,770,000).

Water Projects	$—	$7,302,707	$11,563,870	$6,806,000	$2,055,000	$27,727,577
						$—
Total New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**

The City will retire $142,273,584 of existing debt over the next five-years (FY27-FY31).

The following chart shows the net reduction of debt from Fiscal Year 2027 - Fiscal Year 2031:

Project	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
New Debt	**$26,579,333**	**$43,133,602**	**$45,254,925**	**$35,996,472**	**$25,669,405**	**$176,633,737**
Retired Debt	**-$25,371,787**	**-$28,057,116**	**-$29,480,446**	**-$30,454,045**	**-$28,910,190**	**-$142,273,584**
Net Debt Increase (Reduction)	**$1,207,546**	**$15,076,486**	**$15,774,479**	**$5,542,427**	**-$3,240,785**	**$34,360,153**

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027. In FY 16 the City was at 86.13% of statutory debt limit, so 33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	36.48%	35.85%	34.10%	35.58%

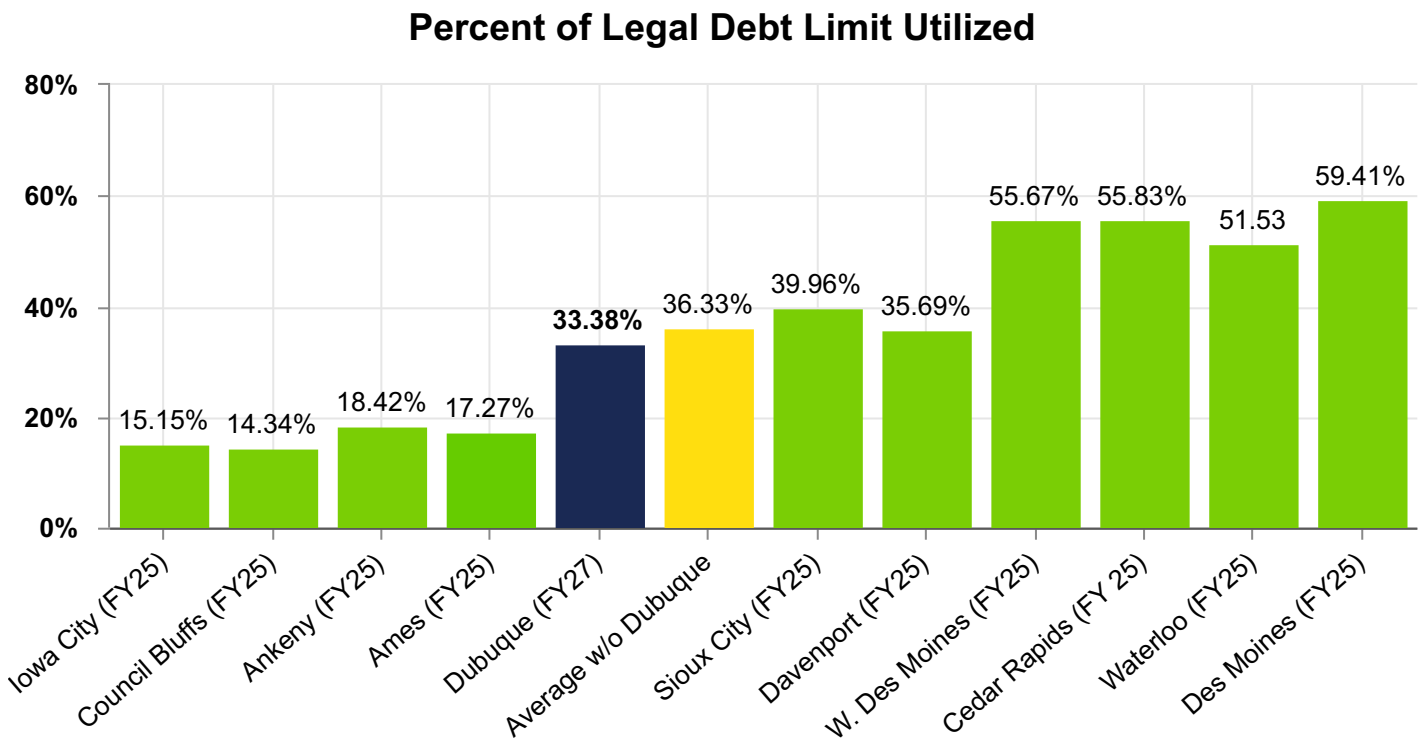

The five year projection of the City's use of the statutory debt limit from Fiscal Year 2027–2031 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2027 is as follows:

FY 27	FY 28	FY 29	FY 30	FY 31
33.38%	33.38%	34.45%	34.96%	35.59%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2027 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$964,798,967	$573,230,000	59.41%
10	W. Des Moines (FY25)	$551,635,692	$307,090,000	55.67%
9	Cedar Rapids (FY 25)	$767,559,335	$428,550,000	55.83%
8	Waterloo (FY25)	$267,626,798	$137,905,065	51.53%
7	Davenport (FY25)	$493,660,291	$176,195,000	35.69%
6	Sioux City (FY25)	$367,743,172	$146,935,000	39.96%
5	Dubuque (FY27)	$358,374,258	$115,136,523	33.38%
4	Ankeny (FY25)	$529,988,951	$97,645,000	18.42%
3	Ames (FY25)	$328,345,527	$56,710,000	17.27%
2	Iowa City (FY25)	$435,367,793	$65,945,000	15.15%
1	Council Bluffs (FY25)	$427,559,692	$61,320,000	14.34%
	Average w/o Dubuque			36.33%

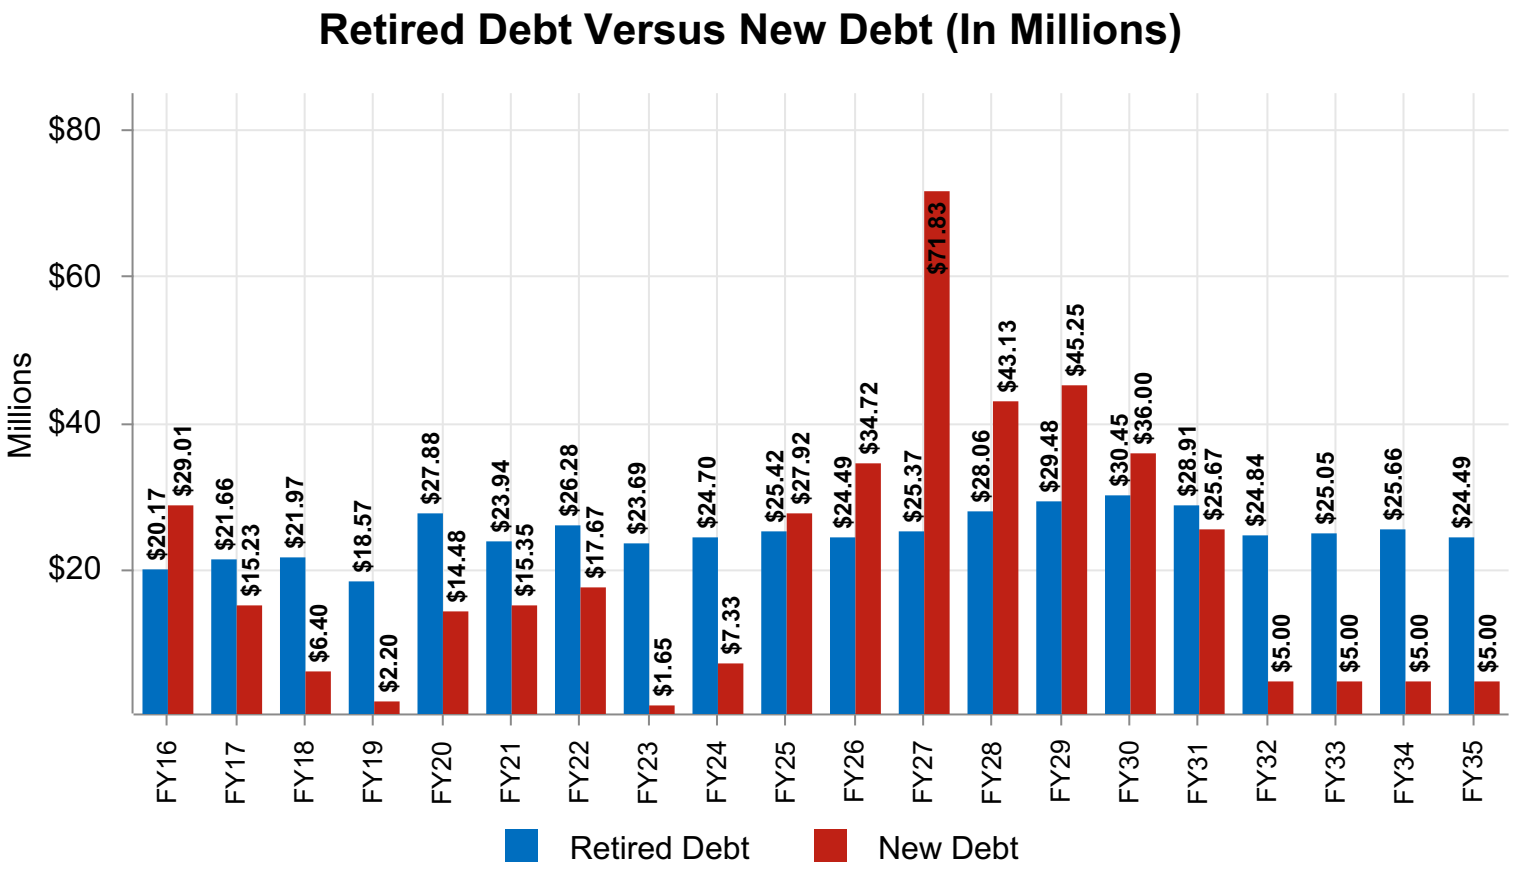

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities. **The average (36.33%) is 8.84% higher than Dubuque (33.38%).**

Retired Debt Versus New Debt

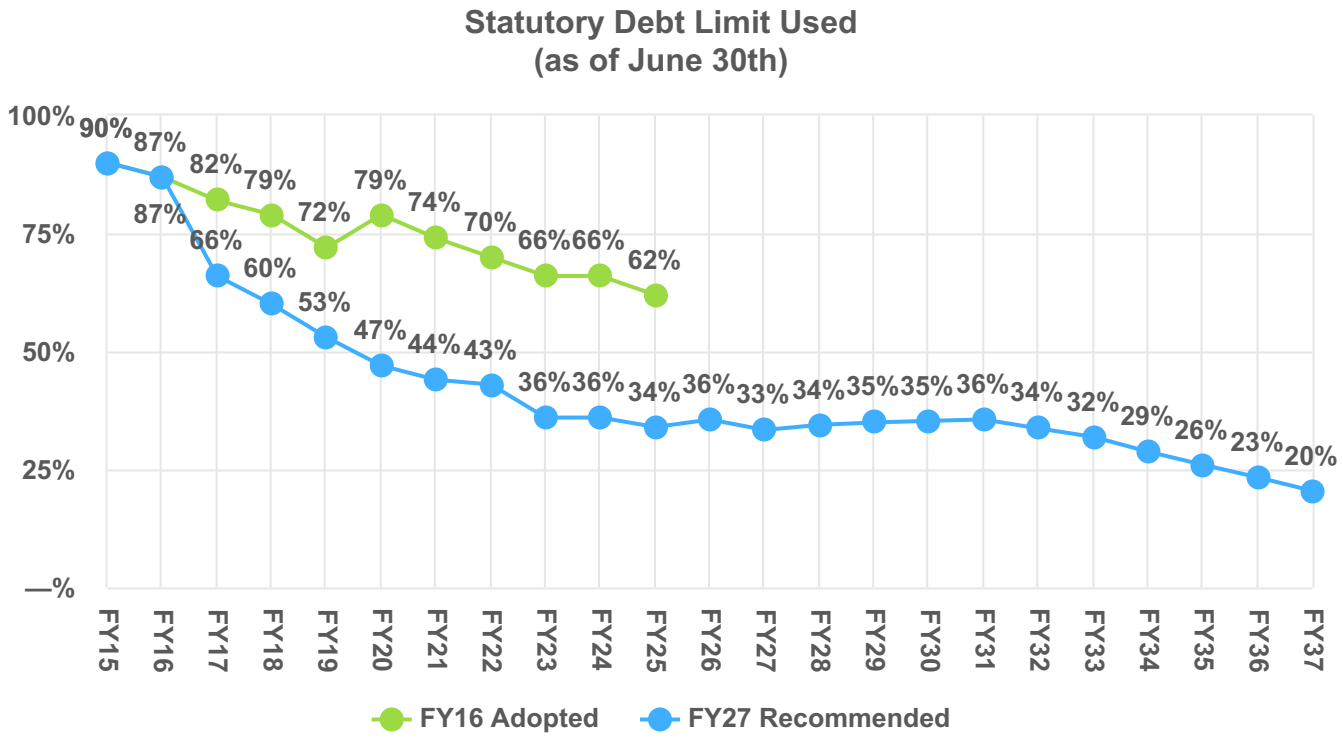

The total City indebtedness as of June 30, 2027, is projected to be $293,516,535 (33.38% of statutory debt limit).

Based on the timing of projects, the City issued very little debt in FY23 ($0.48 million) and FY24 ($7.99 million), so the FY25 debt issuance was a combination of three years of debt funding for projects. In that three-year period, the City retired $60.72 million in debt and issued $84.11 million in debt. The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

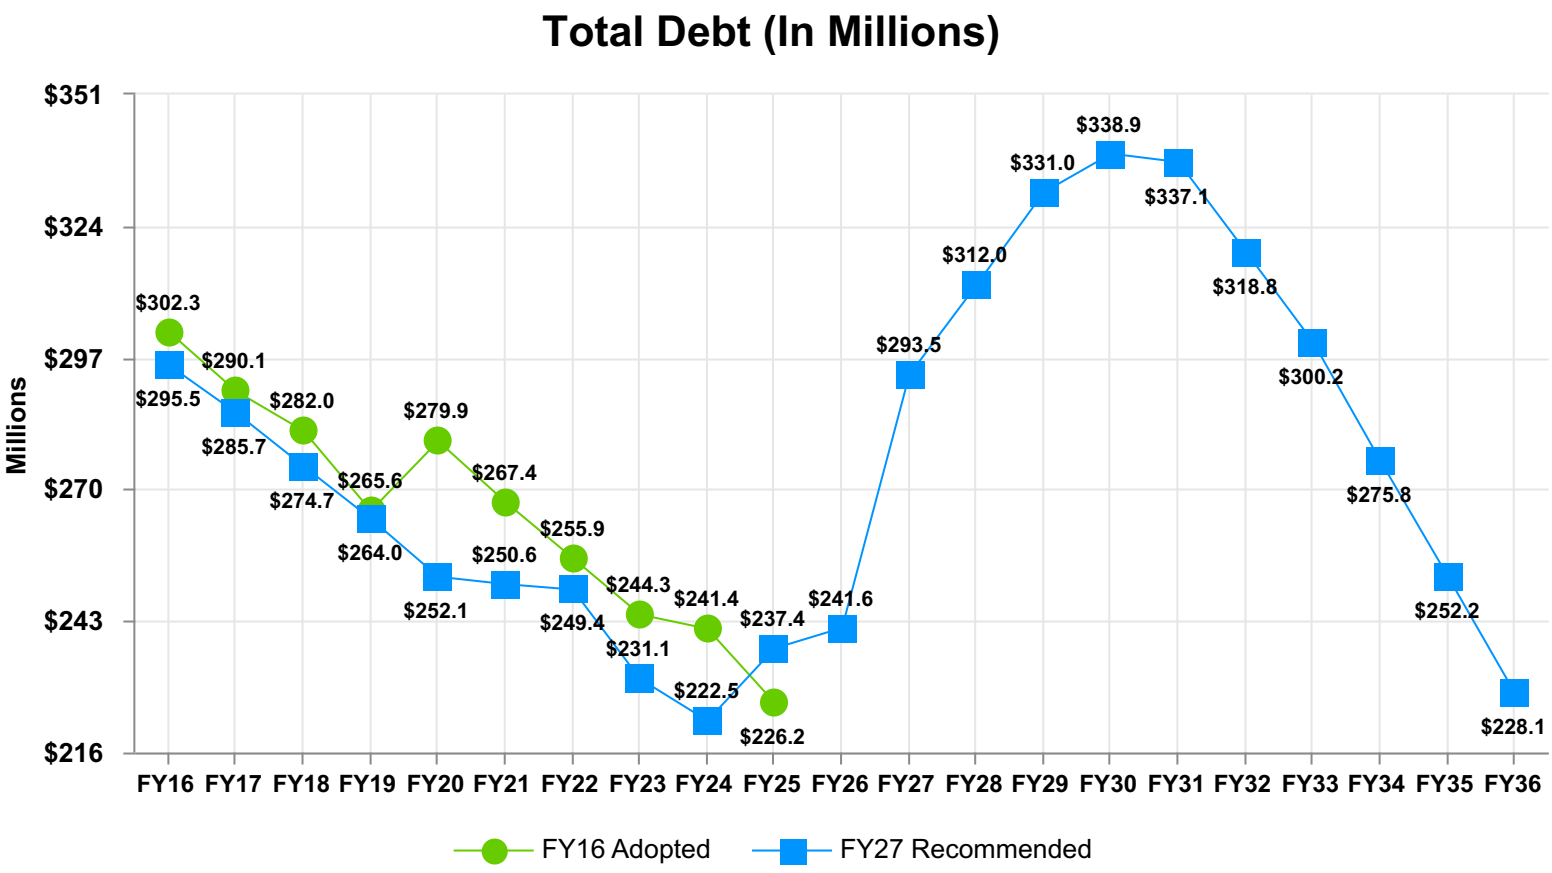

Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2027 budget will exceed that target in FY 2027, FY 2028, and FY 2029, and FY 2030 due to issuing necessary debt for 17th/Locust St Storm Improvements, Fire Equipment and Station Improvements, Five Flags, 14th Street Overpass, East - West Corridor Capacity Improvements, Street and Bridge Improvements, Central Avenue Corridor Improvements, Solid Waste Trucks, PFAS mitigation, Private Lead Service Lines, Catfish Creek Sewer shed Interceptor Sewer Improvements, Old Mill Road Lift Station and Force Main Improvements, WRRC Industrial Control Upgrade, Sanitary Basin Analysis in South Port and Terminal, and Park Improvements. However, Fiscal Year 2031 will meet the target. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2027, the use of the statutory debt limit would be 33.38%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2031, the City of Dubuque would be at 35.59% of the statutory debt limit.** Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $337.15 million (35.59% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2036 show the City of Dubuque at 23.33% of the statutory debt limit or $228.14 million total amount of debt.**

General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 35% General Fund Operating Reserve for "AA" rated cities.

In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moodys") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

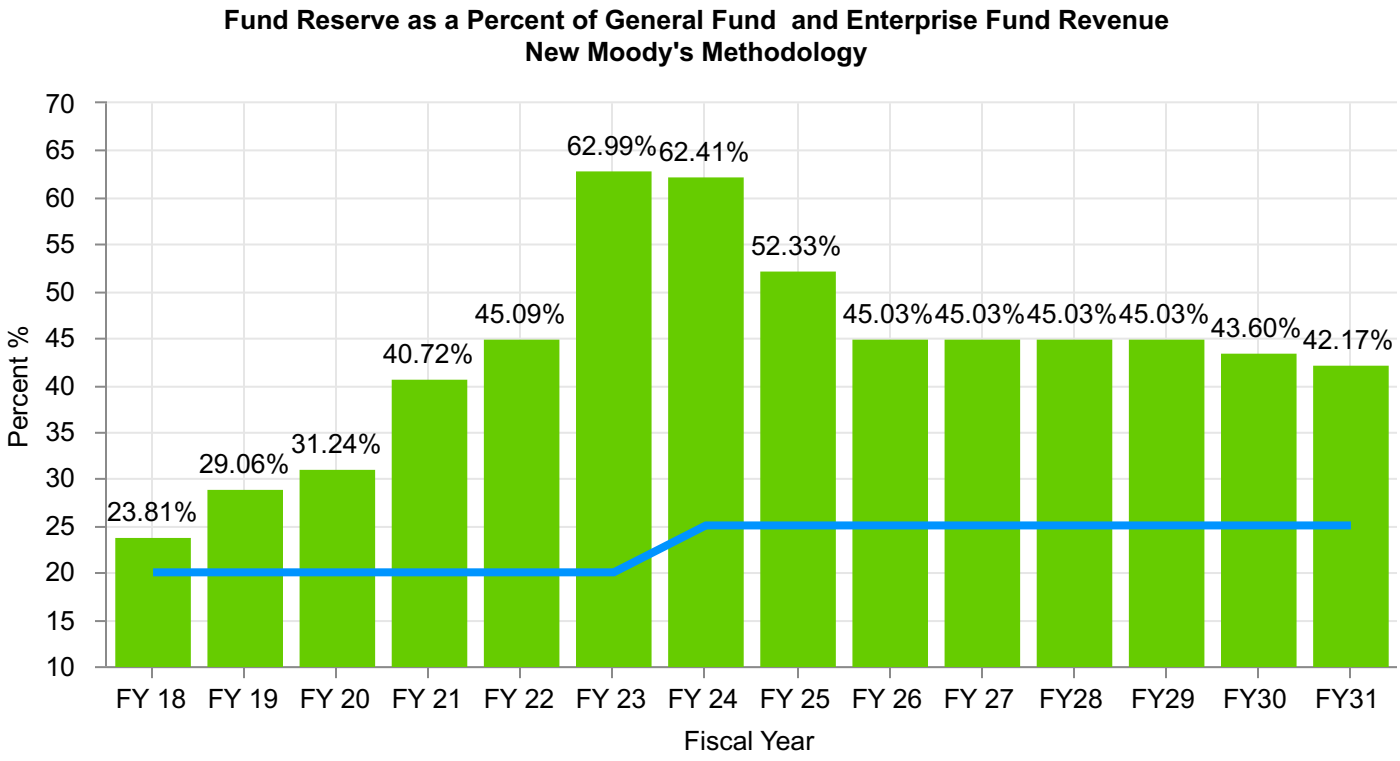

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	40.53%	52.33%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2026	27.00%	45.03%	Decrease due to spend down of American Rescue Plan Act funds.

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve balance is projected to be $25,412,743 on June 30, 2026. The general fund reserve balance exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed on a cash basis. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.

	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031
Contribution	$4,419,668	$—	$—	$—	$—	$—	$—	$—
City's Spendable General Fund Cash Reserve Fund Balance	$43,826,193	$38,026,193	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743	$25,412,743
% of Projected Revenue (Cash)	51.19%	40.53%	27.00%	27.00%	27.00%	27.00%	27.00%	27.00%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low annual interest rate based on 75% of the average daily Bloomberg BVAL General Obligation Municipal AAA ("BVAL") for the calendar month immediately preceding the effective date. In addition there is an annual servicing fee of 0.25%.** The interest rate effective until March 31, 2026 is 3.15% with the 0.25% servicing fee included.

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes. This program no longer exists.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs were reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

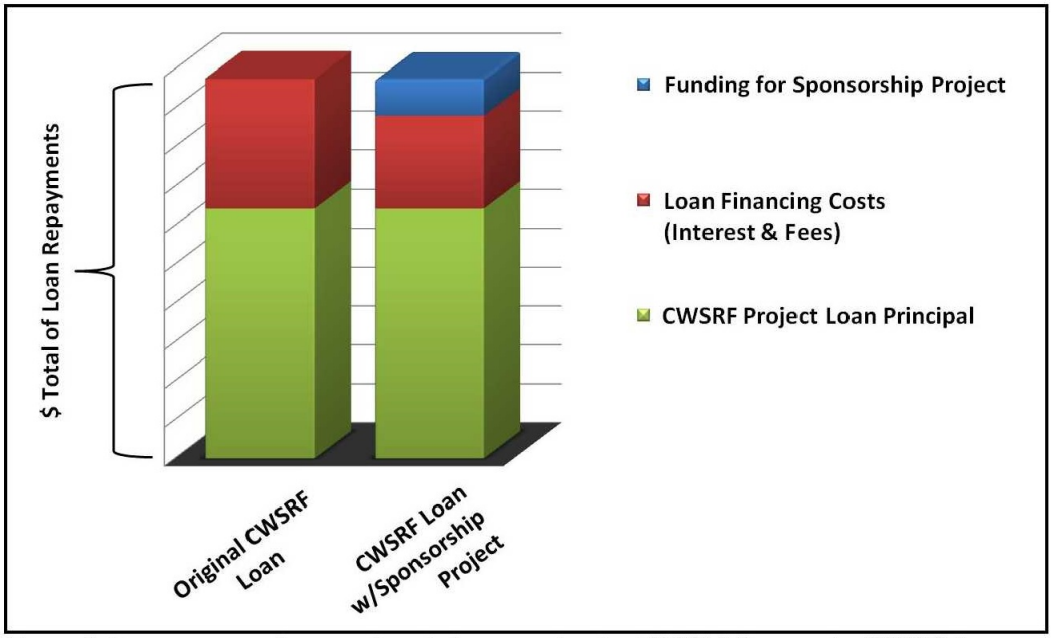

Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded $9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from $64,885,000 to $75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of $11.4 million. The State of Iowa has discontinued the sponsored project option for future debt issuances.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of $29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was $5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded $1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the $1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to $30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.38 million less than the original loan.**

In May 2018, the City was awarded $1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the $1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to $17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were $1.05 million less than the original loan.**

In February 2019, the City was awarded $276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the $276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted. **On a gross basis, the borrowing costs for the new loan were $278,000 less than if there was not a sponsorship project included.**

The United States Environmental Protection Agency (USEPA) in the final Lead and Copper Rule Improvements (LCRI) regulations, requires all lead service lines to be removed from the system within a ten year period, effective November 1, 2027. Within 10 years all private lead water service laterals must be replaced. The total cost of a project of this magnitude exceeds $60 million for almost 4,000 total private water service laterals. On November 15, 2021, the Bipartisan Infrastructure Law (BIL) was signed by President Biden, which includes $50 billion to the Environmental Protection Agency (EPA) to strengthen the nation's drinking water and wastewater systems—the single largest investment in clean water that the federal government has ever made. The BIL funds are being administered locally through the Iowa Department of Natural Resources' State Revolving Fund (Iowa SRF) program, with 49% of construction costs being forgivable. The City of Dubuque is taking part in a unique opportunity to assist approximately 585 homes in three phases (owner occupied or rented) within the city with the functional replacement of private lead-water service lines by trenching or pull-through methods to prevent the potential for drinking water contamination at a house-by-house level. Phase 1 of the pilot program is 100% voluntary and is open to those residents with a verified drinking water lead service line meeting the socioeconomic guidelines established by the Bipartisan Infrastructure Law. In September 2025, the City was awarded a 0% interest State Revolving Fund Loan in the amount of $1,941,000 for the Private Lead Service Line Replacement Pilot Program - Phase 1. The non-premise related construction costs are 49% forgivable at the completion of Phase I.The scope of work in the first phase includes the replacement of approximately 200 lead service lines identified throughout the City's water distribution service area. The nature of the replacements will vary by site, ranging from full replacements (public water main to interior plumbing) to partial replacements (a portion of the service line between the public water main and the interior plumbing). Work will be conducted within the City's right-of-way and on private properties with authorization from property owners.

Phase 2 of the Private Lead Line Replacement Program will be voluntary enrollment with a target of approximately 67 lead service lines replaced each year. It is proposed for the next 5 years the city offer help with financing and implementation for property owners who volunteer to have their lateral replaced.he city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

After that 5 year period the city would need to implement a mandatory program to meet the EPA compliance deadlines. Phase 3 of the Private Lead Line Replacement Program will be mandatory with an estimated 605 lead service lines replaced annually. The city would assist with financing by accessing low interest long-term borrowing through the SRF program. Property owners would be assessed to make the payments.

Since the lead service laterals cause no issues because the city treats the water to prevent lead leaching into the water the city will continue to advocate to the federal government to eliminate the 10 year requirement.

In March 2026, the State of Iowa passed rules possibly allowing the City of Dubuque to obtain some forgivable SRF loan dollars to do PFAS related projects.

The five-year CIP adopted through the current year (Fiscal Year 2026) budget process covered Fiscal Year 2026 through 2030 and is $351,594,553. The adopted five-year CIP for the upcoming budget process (Fiscal Year 2027) will cover Fiscal Year 2027 through 2031 and will be $352,840,562. This is a $1,246,009 (0.35%) increase.

FY 2026-2030 Capital Improvement Program (CIP) compared to the FY 2027-2031 Capital Improvement Program is as follows:

	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
FY26 CIP	$91,803,749	$64,823,518	$69,843,768	$74,478,605	$50,644,913	$ —	$351,594,553
FY27 CIP	$ —	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$352,840,562
$ Difference	—	+$15,810,220	+$8,840,154	+$12,693,285	+$10,980,084	—	+$1,246,009
% Change	—	+24.39%	+12.66%	+17.04%	+21.68%	—	+0.35%

Further information about the changes to capital improvement projects can be found on pages xxi-xxiv.

Fiscal Year 2027 will be the twentieth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted Per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Proposed	$ 12.02

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. The City's has been able to garner support from local, state, and federal partners with over $169 million in outside funding to help offset the cost of the overall $250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Construction
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12A	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.
12B	17th Street / W. Locust Street Reconstruction	Complete Design in ‘26, Construct in ‘27

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated $582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the Dubuque Five-Year (2025-2027) City Council Goals and 2025-2027 Policy Agenda, established by the City Council August, 2025.

Dubuque Five-Year City Council Goals

Healthy and Safe Community

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity

Livable Neighborhoods and Housing: Great Place to Live

Sustainable Environment: Preserving and Enhancing Natural Resources

Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

Policy Agenda 2025 - 2027

Top Priority (in alphabetical order)

- Commercial Air Service Future: Strategy an Action Plan to Sustain and Expand
- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
- Sports Complex Development
- Stormwater Management Investments and Implementation
- Street Maintenance/Rehabilitation Program

High Priority

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2027 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2027-2031 CIP is substantially the same as previous fiscal years. First, an index referencing the 2027-2031 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2025 and the adopted budget in Fiscal Year 2026. In Section A of the project form entitled “Expenditure Items”, project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled “Project Financing”, the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled “Impact – Operations,” the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2032". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2032" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2031." If a project is annual, the "2032" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque’s commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2028 through Fiscal Year 2031 projects, as well as to add projects for Fiscal Year 2032.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available.

Notable FY2027 Capital Improvement Projects

Department	Project Title	Total City Investment FY2027-FY2031
Fire	Outdoor Warning Siren Repair/Replace	$54,000
Fire	Fire Station Expansion	$8,791,700
Fire	2027 Ambulance Replacement (1914)	$500,000
Fire	Portable Radio Replacements	$490,000
Fire	2030 Fire Engine Replacement (1910)	$1,288,408
Fire	2030 Ambulance Replacement (1915)	$635,000
Fire	2031 Ambulance Replacement (130010)	$665,000
Parks	Jeffris Grant	$2,060,394
Civic Center	Five Flags Building Improvements	$5,844,678
Conference Center	Roof Restoration	$1,383,000
Water	17th/Locust Street Reconstruction Phase 4	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Ave Booster Station	$1,020,000
Water	Water Main Extension Central Ave	$965,000
Water	Highway20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Private Lead Line Replacement Program	$1,050,000
Water	Private Lead Service Line Replacement Program	$4,050,000
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	Source Water PFAS Reduction Project	$1,121,199
Water	Water Meter Replacement Program	$687,750
Water	Water Storage Maintenance Program	$3,336,000
Water	West End Annexation Phase II	$2,000,000
Water	Southwest Arterial 16" Water Main Extension	$2,475,000
W&RRC	Bar Screen Replacement	$2,500,000
W&RRC	WRRC Plant Nutrient Reduction Improvements and BOD/Flow Capacity Improvements	$1,535,000
W&RRC	Industrial Controls Upgrade	$6,114,700
W&RRC	Treatment System Infrastructure Restoration & Reliability Improvements	$2,047,550
Airport	Reconstruct Taxiway A	$9,969,994
Airport	Asphalt Pavement Repair/T-Hangar Apron Rehabilitation	$950,000
Airport	Taxiway D Extension	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Asphalt Milling Program	$873,547
Public Works	Curb Ramp Program	$4,883,000
Publics Works	Concrete Street Section Repair Program	$1,641,038
Public Works	NW Arterial Should Paving Project	$2,311,247
Engineering	Storm Sewer General Replacements	$1,500,000
Engineering	Stormwater Management Program	$800,000
Engineering	Detention Basin Maintenance & Repair	$1,000,000
Engineering	Bee Branch Creek Gate & Pump Replacement	$5,121,112
Engineering	17th/Locust Street Reconstruction Phase 4	$5,300,000
Engineering	Old Mill Road Lift Station & Force Main - Phase 1	$1,009,221

Department	Project Title	Total City Investment FY2027-FY2031
Engineering	Old Mill Road Lift Station & Force Main - Phase 2	$6,978,630
Engineering	Old Mill Road Lift Station & Force Main - Phase 3	$19,891,034
Engineering	Old Mill Road Lift Station & Force Main - Phase 4	$19,506,258
Engineering	Schmitt Island Sanitary Improvements	$4,415,252
Engineering	South West Arterial Interchange Sewer Extension	$4,829,838
Engineering	Sanitary Basis Analysis - South Port & Terminal St LS	$10,800,000
Engineering	Track Line Sanitary Sewer Reconstruction	$3,500,000
Engineering	14th St Overpass	$36,144,000
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation Improvements 11th - 22nd Street	$9,770,000
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	$6,000,000
Engineering	East - West Corridor Capacity Improvements	$18,600,000
Engineering	17th/Locust Street Reconstruction Phase 4	$4,765,000
Engineering	Bridge Repairs/Maintenance	$2,640,000
Engineering	Fiber Infrastructure Management System	$330,000
Engineering	Traffic Signal Network Communications Program	$445,000
Engineering	STREETS Traffic Control Project Phase 2	$1,029,000
Engineering	Federal Building Renovation	$5,395,000
Economic Development	Downtown Rehab Grant Program	$1,700,000
Economic Development	Workforce Development	$1,857,500
Transportation	Smart Parking System	$780,000
Transportation	Parking Ramp Major Maintenance Repairs	$5,997,200
Housing	Assistance for Homeownership	$1,026,082
Housing	Homeowner Rehabilitation Program	$2,476,588
Housing	Healthy Homes Production Grant	$1,326,250
Housing	Lead and Healthy Homes Grant	$3,136,600
City Manager's Office	Community Green House Gas Inventory and Climate Action Planning	$50,000
Information Technology	City-Wide Computer and Printer Replacements - General Gov	$3,132,759
Information Technology	Network Switch Replacement	$607,500
Information Technology	City-Wide Computer and Printer Replacements- Business	$361,906

There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs ($87,131,865). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	DLEC Upgrades and Maintenance	$208,300
Fire	Install HVAC Systems at Fire Station 5 and 6	$100,000
Parks	Chaplain Schmitt Island Environmental Restoration	$430,000
Parks	Eagle Point Park / Jeffris Grant	$2,060,394
Parks	Eagle Point Park Master Plan	$165,000
Parks	Park Office - Replace Roof	$12,000
Parks	Trail Maintenance/Repair	$100,000

Department	New Project	Total CIP
Parks	Mechanic Shop-Replace Roof	$35,000
Recreation	Community Center Master Plan	$80,000
Recreation	Bunker Hill Administrative Office Lead Remediation Project	$30,000
Recreation	Bunker Hill Basement Leak Repair and Planter Box Removal	$30,000
Recreation	F&S Site Repair/Replacement-Leak Repair	$30,000
Recreation	Marina-Dock Fuel & Electrical System	$50,000
Conference Center	HVAC System Evaluation	$35,000
Water	8th St 20" Transmission Water Main Connection (Jackson to Central)	$277,000
Water	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Water	$1,110,000
Water	Admiral Sheehy Drive Water Main Loop	$686,400
Water	Central Avenue Booster Station	$1,020,000
Water	Central Ave and White St Water Utility Improvements for the Traffic Study Implementation Plan	$245,000
Water	Water Main Extension Central Ave (Pressure Zone 2 and 5 Connection)	$965,000
Water	Water Distribution System Master Plan	$200,000
Water	Distribution System Regulatory Monitoring/Flushing Stations	$150,000
Water	Water District Metered Zone (DMZ) Pilot	$180,000
Water	Eagle Point Water Treatment Plant Lime Sludge Drain Sediment Trap - Water	$50,000
Water	Eagle Point Water Treatment Plant Railroad Building Study	$20,000
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000
Water	Grove Terrace Sanitary Sewer Reconstruction (Consent Decree) - Water	$130,000
Water	Harvard St Sanitary Sewer Reconstruction (Consent Decree) - Water	$140,000
Water	Hempstead St Sanitary Sewer Reconstruction (Consent Decree) - Water	$320,000
Water	Hwy 20/Dodge St Water Main Relocation - Devon Drive to Concord St	$1,000,000
Water	Water Distribution System Hydraulic Modeling	$50,000
Water	JFK Tower Interior Piping and Expansion Joint Replacement	$50,000
Water	Leak Detection Survey	$130,000
Water	North Grandview Ave Water Repairs	$80,000
Water	Water Main Extension Olympic Heights Rd (Pressure Zone 3 and 5 Connection)	$617,000
Water	Water Main Extension Pennsylvania Ave (Annex Agreement WM A)	$545,000
Water	Private Lead Service Line Replacement Program (City-Wide)	$4,050,000
Water	Rockdale Road Reconstruction (Old Mill to Twin Valley Drive) - Water	$400,000
Water	Water Main Extension Seippel Rd and Pennsylvania Ave (Annex Agreement WM B)	$585,000

Department	New Project	Total CIP
Water	Source Water PFAS Reduction Project-Granular Activated Carbon Filter Rehabilitation	$10,900,000
Water	South Algona 12" Water Main Replacement (St Joseph to Lombard St)	$793,000
Water	Water Repairs Sunnyslope Street Project	$390,000
Water	Water Main Replacement W 8th St (Bluff St to Hill St)	$395,000
Water	Safety Equipment for Water Distribution Staff	$57,600
Water	Water Treatment Plant South Plan Flow Meter Replacement	$60,000
Water	Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Extension	$2,475,000
Water & Resource Recovery Center	WRRC Compressed Air System Improvements	$69,500
Water & Resource Recovery Center	Process Control Instrumentation Improvements - Dissolved Oxygen Monitoring	$135,000
Water & Resource Recovery Center	WRRC Influent and Effluent Monitoring Improvements	$40,000
Water & Resource Recovery Center	WRRC Treatment System Infrastructure Restoration and Reliability Improvements	$2,047,550
Water & Resource Recovery Center	WRRC Safety Program Development	$106,000
Airport	Taxiway D Extension (formerly Taxiway H)	$2,940,000
Airport	Taxiway J Improvements	$7,145,600
Public Works	Tri-top Catch Basin Replacement Project	$335,162
Public Works	Municipal Services Center Access System Replacement	$85,000
Public Works	Municipal Services Center Fleet Maintenance Bay Extension	$100,000
Public Works	NW Arterial Shoulder Paving Project	$2,311,247
Public Works	Hawthorne Street Boat Ramp Repair	$407,532
Public Works	3255 - Wheel Loader Purchase	$305,865
Public Works	2730 - Portable Jet	$50,000
Public Works	Mechanical Sweeper Replacement	$290,466
Public Works	New CCTV Camera	$40,000
Public Works	2727-Off-Road Vehicle	$25,000
Public Works	Off Road Vehicle CCTV Slide-in Unit	$145,000
Public Works	Fleet Service Sweeper	$25,000
Landfill	Landfill Permit Renewal Project	$55,204
Landfill	Landfill Website Redesign Project	$20,000
Landfill	Landfill Alternative Energy Project	$50,000
Landfill	3C Wheel Loader	$275,000
Landfill	Sweeper	$95,000
Landfill	Brush Mower	$15,000
Landfill	3451 Hook Truck	$335,223
Landfill	Water Truck	$200,000
Engineering	Confined Space Drone	$100,000
Engineering	General Stormwater Detention Basin Maintenance & Repair	$1,000,000
Engineering	Schmitt Island Stormwater Rehabilitation	$450,000

Department	New Project	Total CIP
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Stormwater	$5,300,000
Engineering	North Catfish Creek Trail Stabilization	$500,000
Engineering	Pebble Cove Drainage Basin Improvements	$240,000
Engineering	Harvest View Storm Sewer Improvements	$320,000
Engineering	Primrose Court Storm Sewer Repair	$120,000
Engineering	Manhole Inspection Equipment (2 Cameras)	$28,000
Engineering	Kerper Boulevard Sanitary Sediment Trap	$80,000
Engineering	JFK Yiannias Place Sanitary Sewer Relocation	$550,000
Engineering	Key West Sanitary Lift Station Replacement	$1,535,000
Engineering	Sanitary Basin Analysis - Steger Heights Area (SSAMP Service Area 3-8-1-1)	$1,540,000
Engineering	Sanitary Basin Analysis - Quigley's Sub Area (SSAMP Service Area 3-8-0-1B-1)	$1,520,000
Engineering	Sanitary Basin Analysis - South Port & Terminal St LS	$10,800,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Sanitary	$1,100,000
Engineering	US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements, Iowa Department of Transportation	$6,000,000
Engineering	17th/Locust Street Reconstruction Phase 4 (Heeb to Kirkwood) - Street	$4,765,000
Engineering	Port of Dubuque Streets Extension	$100,000
Engineering	Safe Routes to School	$120,000
Engineering	NW Arterial Trail Drainage	$150,000
Engineering	Pedestrian Safety with Permanent Bollards/Barricades	$152,000
Engineering	Way finding Signage	$40,000
Engineering	Chavenelle Street Light Replacement Project	$182,850
Engineering	Iowa St Streetlight Replacement Project	$138,000
Engineering	City Hall - Radon Mitigation System	$161,000
Economic Development	Downtown Storefront Activation Program	$400,000
Planning	Downtown Master Plan Update	$150,000
City Manager's Office	Municipal Solar Project - MFC	$176,300
City Manager's Office	Municipal Solar Project - Library	$122,672
	TOTAL	$87,131,865

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total $8,619,951. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP	
Fire	Fire Department Bunk Room Remodel(s)	$1,489,918	
Parks	Eagle Point Park - Riverfront Pavilion Restoration	$230,000	
Parks	All Parks - Renovate Water Systems	$57,000	*
Parks	Eagle Point Park - Restroom Renovation	$124,900	*
Parks	Eagle Point Park - Stone Work	$105,000	*
Parks	Eagle Point Park - Renovate Log Cabin	$60,000	*
Recreation	Sutton Pool Zero Depth Survey & Remediation	$60,000	*
Conference Center	Banquet Chair Replacement	$313,500	
Conference Center	Paint Exterior Metal	$132,000	*
Conference Center	Concrete Restoration, Raising & Caulk	$240,000	*
Conference Center	Replace Fabric Wall Covering	$227,000	*
Conference Center	Replace Carpet	$485,000	*
Library	Library Landscaping and Plaza Redesign	$103,601	
Water & Resource Recovery Center	High Strength Waste Receiving and Storage	$939,984	
Engineering	Pine Street Extension from 7th to 9th	$1,980,000	
Engineering	Decorative Concrete Maintenance Program	$300,000	
Engineering	Hillcrest Road Sidewalk	$250,000	
Engineering	Port of Dubuque Security Camera Expansion	$60,000	
Engineering	City Facility Integrated Access Control and Security System Upgrade	$270,126	*
Engineering	City Hall Landscape Enhancement Project	$29,500	*
Housing & Community Development	Washington Neighborhood Homebuyer Program	$952,422	
Planning	Historic Preservation Technical Assistance Program	$110,000	
City Manager's Office	Municipal Energy Reinvestment Fund	$20,000	
City Manager's Office	Renew DBQ: Low-Income Solar Pilot Project	$80,000	
	Total	**$8,619,951**	
	Total Deferred Maintenance	*$1,790,526*	

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP ($67,599,429). CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP	
Police	Rescue Vehicle	$451,829	
Fire	Fire Department Dock/Boathouse	$450,000	
Fire	Update Hendrix Storage Building 880 Central (LOT 1024482020)	$510,000	*
Fire	Kitchen Remodel at Fire Station 2	$187,500	
Parks	Pebble Cove Park Development	$360,000	
Parks	Second Dog Park Planning	$60,000	
Parks	Ham House Improvements	$90,000	
Parks	Murphy Park-Bennett Pavilion Roof Replacement	$165,000	*

Department	New Project Not Funded	Total CIP	
Parks	Hillcrest Park - Replace Play Unit	$225,000	*
Parks	Allison Henderson - Replace Roof	$20,000	*
Parks	EB Lyons Carpet Replacement	$85,000	
Parks	Silver Oaks Park Development	$320,000	
Parks	Ecological Restoration	$50,000	
Parks	EB Lyons Center - Stain, Patio, Ridge Beam	$170,000	
Parks	Chaplain Schmitt Island-Landscaping	$50,000	
Parks	Chaplain Schmitt Island-Entrance Sign	$72,500	
Parks	Flora Park-Tennis Courts Replace Lights/ADA Access	$225,000	*
Parks	Ham House Exterior Repairs	$135,000	*
Parks	Hilltop Park - Replace Play Unit	$221,000	*
Parks	Marshall Park - Replace Play Unit	$230,000	*
Parks	Teddy Bear Park - Play Equipment	$205,000	*
Parks	Paint Railings	$60,000	*
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	$83,000	
Parks	North Fork Trail Park Development	$305,000	
Parks	Eagle Point Park - Accessible Walkway to the Log Cabin Pavilion	$405,000	
Parks	Eagle Point Park Trail Project- Invasive Remediation	$93,000	
Parks	Eagle Point Park - Light Trolley Line Trail	$165,000	
Parks	Eagle Point Park - Native American Room Restoration	$122,000	*
Parks	Eagle Point Park - Develop Wading Pool Replacement Plans	$440,000	*
Parks	Valley High Park - Replace Play Unit	$210,000	*
Parks	Pinard Park-Replace Playground	$194,000	*
Parks	Linwood Cemetery- Assessment	$110,000	
Parks	Pave Parking Lots	$95,000	*
Parks	Murphy Park - Replace Roof on Rest Room Building by the Tennis Courts	$17,000	*
Parks	EPP-Replace Roof on Eagles View Pavilion	$56,000	*
Parks	Greenhouse Shop Roof Replacement	$75,000	*
Parks	Forestry Building - Replace Roof	$87,000	*
Parks	HWY 20 Trees/Invasive Removal	$55,000	
Parks	Chaplain Schmitt Island Campground Entrance Enhancement	$52,500	
Parks	EB Lyons Center - Roof Rehabilitation	$60,000	
Parks	Comprehensive Street Tree Inventory	$250,000	
Parks	Network Switches - Parks	$25,000	
Parks	HVAC Upgrade - Greenhouse	$15,000	
Parks	HVAC Upgrade - Forestry	$25,000	
Parks	Mini Track Loader	$58,000	
Parks	Park Signage Study	$55,000	
Parks	Trail Connection Study	$60,000	

Department	New Project Not Funded	Total CIP	
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement - Shade Structures	$125,000	
Recreation	Flora and Sutton Swimming Pools Site Repair/ Replacement-Diving Boards	$70,000	
Recreation	Flora and Sutton Swimming Pools Renovate Locker Rooms	$726,000	*
Recreation	Flora and Sutton Swimming Pools Water Playground Replacements	$315,000	*
Recreation	Flora & Sutton Pool Operational Projects - Electrical	$50,000	*
Recreation	F&S Pool Operations - UV Replacement	$85,000	
Recreation	F&S Pool Operations - Chemical Distribution System Replacement	$60,000	*
Recreation	F&S Pool Operations - Water Slide Pump Replacements	$85,000	*
Recreation	Bunker Hill Golf Course - Range Project	$230,000	
Recreation	Bunker - Sand Trap Repair/Removal	$50,000	
Recreation	Port of Dubuque - Signage Replacement	$20,000	
Recreation	Comiskey Building Restroom Expansion	$112,500	
Recreation	McAleece Irrigation Renovation	$100,000	
Recreation	Marina Dock Pedestal Replacements	$75,000	
Recreation	Marina Gas Dock Fuel Tank Monitoring System Replacement	$19,000	
Recreation	McAleece Scoreboard Replacements	$36,000	
Recreation	McAleece Softball Field Repair	$54,000	
Recreation	Flora & Sutton Pool Water Slide Complete Restoration	$470,000	*
Recreation	Mobile Special Event Trailer	$37,000	
Recreation	Parks & Recreation Fee Study	$35,000	
Conference Center	Security Camera System	$175,000	
Conference Center	Furniture and Decor Replacement	$84,000	*
Conference Center	Wi-Fi Upgrades	$99,000	
Conference Center	Access Control System	$55,000	
Conference Center	Elevator Passenger and Freight Car Replacement	$267,500	
Conference Center	AV Rental Upgrades	$32,500	
Conference Center	Trash Compactor Rehab	$38,000	*
Conference Center	Window Panel Replacements	$20,300	*
Ice Center	Security Camera System Replacement	$216,000	*
Ice Center	Ice Resurfacer Refurbish	$62,500	*
Ice Center	Locker Room Ventilation Replacement	$429,050	*
Ice Center	ASME Storage Tank Replacement	$13,750	*
Ice Center	New Northwest Corner Service Bar	$271,000	
Ice Center	TPO Roof Replacement	$191,500	*
Ice Center	Addition-New Women's Locker Room	$40,500	
Library	Bookdrop Waterproofing	$59,740	
Library	3rd Floor Mechanical Room Water Pipe Replacements	$140,195	*
Library	Refrigerant Leak Detection Upgrade	$21,360	

Department	New Project Not Funded	Total CIP	
Library	Rear Exterior Painting	$38,588	
Library	Sidewalk Replacement Around Library	$113,191	
Water	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Water	$2,400,000	
Water	Greeley St Sanitary Sewer Reconstruction - Water	$205,000	
Airport	Terminal Apron Lighting Conversion	$43,000	
Airport	Westside Airfield Development	$1,179,000	
Airport	AFFF Transition Plan	$258,400	
Public Works	Vacuum Street Sweeper Replacement	$361,613	*
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Stormwater	$10,605,000	
Engineering	N Booth St Property Acquisition	$1,000,000	
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Sanitary	$2,570,000	
Engineering	N.Grandview - Kane to W. 32nd Reconstruction	$2,100,000	
Engineering	Embassy West Dr. and Camelot Dr. Reconstruction	$1,800,000	
Engineering	Sunnyslope Dr. and Hummingbird Dr. Reconstruction	$1,770,000	
Engineering	N.Star Dr. - Long View Dr. - Angel View Dr. - Little Valley Dr. Reconstruction	$1,890,000	
Engineering	Colonel Dr. - Camelot Dr. East of Embassy West Dr. Reconstruction	$1,940,000	
Engineering	Pennsylvania Ave. Reconstruction - Sandpiper Ln. to Bergfeld Trail	$5,820,000	
Engineering	Kerper Blvd Trail (12th - 16th)	$425,000	
Engineering	Cedar Cross Road Reconstruction	$5,000,000	
Engineering	22nd/Kaufmann Street Reconstruction Phase 4 (Main to Kane) - Street	$10,070,000	
Engineering	Mobility Improvements Implementation	$144,000	
Engineering	Port of Dubuque Recognition Wall	$40,000	*
Engineering	City Hall First Floor Renovation	$588,138	
Engineering	City Hall Annex Renovation	$993,775	
Engineering	Traffic Center Aux Cooling	$15,000	
Engineering	Old Engine House - Rock Fall Protection	$55,000	
Engineering	City-wide Facilities Assessment	$110,000	
Engineering	City Hall Elevator Modernization	$161,000	*
Economic Development	Arts & Culture Master Plan Update	$100,000	
Economic Development	Greater Downtown Infill Housing Creation Grant Program	$2,500,000	
Information Technology	Enterprise Firewall Replacement	$212,000	
Information Technology	IT Office Security Alarm	$50,000	
Information Technology	Data Center Second UPS	$350,000	
Information Technology	Data Center Cabinet Card Access Controls	$65,000	
Information Technology	Data Center Second Generator	$150,000	
Information Technology	JOTC AV Equipment Replacement	$50,000	
	Total	$67,599,429	

Department	New Project Not Funded	Total CIP	
	Total Deferred Maintenance	$6,755,908	

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2027-2031 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer Jennifer Larson; Budget Manager Laura Bendorf; Budget/Financial Analysts Shannon Soppe, Nikesh Shah, and Nathan Kelleher; Assistant City Manager Cori Burbach, Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; Finance A/R & A/P Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

Attachment 1

FISCAL YEARS 2027-2031 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2027	2028	2029	2030	2031	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	$ 15,000	$ 15,000	$ 15,000	$ 15,000	$ —	$ 60,000	0.02 %
Homeownership Loan Repayments	5,000	5,000	5,000	5,000	—	20,000	0.01 %
Historic Preservation Loan Repayments	7,000	5,000	5,000	5,000	—	22,000	0.01 %
Washington Neighborhood Loan Repayments	30,000	30,000	30,000	30,000	30,000	150,000	0.04 %
Insurance and Other Reimbursements	10,000	10,000	10,000	10,000	10,000	50,000	0.01 %
Golf Revenue	40,000	10,000	—	—	—	50,000	0.01 %
Subtotal Current Revenue	**107,000**	**75,000**	**65,000**	**65,000**	**40,000**	**352,000**	**0.10 %**
Cable TV	1,700	1,900	3,600	—	1,700	8,900	0.00 %

Business Type	44,332,102	36,895,031	37,917,690	29,379,104	19,202,394	167,726,321	47.5%
TOTAL	$80,633,738	$78,683,922	$87,171,890	$61,624,997	$44,726,015	$ 352,840,562	100%

The State Mandated Budget Program Areas and the City Departments/Activities that fall under each of these areas are as follows:

Public Safety – Police, Emergency Communication Center, Fire, Disaster Services, Health Services: Animal Control, Public Works: Flood Control, Housing: Code Inspection and Construction Services
Public Works – Airport, Public Works, Engineering
Health and Social Services – Human Rights, Health Services, Purchase of Services
Culture and Recreation – Parks, Civic Center, Conference Center, Ice Center, Recreation, AmeriCorps, Multicultural Family Center, Library, Arts and Cultural Affairs
Community and Economic Development - Economic Development, Housing and Community Development, Planning Services, Purchase of Services
General Government – Engineering: Facilities Management: City Hall/Annex Maintenance/Grand River Center Maintenance, City Council, City Manager, Communications, Human Resources, Sustainability, City Clerk, Finance, Media Services, City Attorney , Information Technology
Business Type – Water, Water Resource & Recovery Center, Parking, Transit, Public Works: Landfill, Refuse, Salt Operations, Engineering: Sewer, Stormwater

Attachment 3

FISCAL YEAR 2027-2031 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

Goal	Project	Description	Departments	CIP Page
Healthy & Safe Community	Fire Department Building Maintenance	Updates to restore six fire stations to preventative maintenance-level condition	Fire	3
Healthy & Safe Community	Outdoor Warning Siren Repair/Replace	Upgrades to 17-unit outdoor warning siren system	Fire	5
Healthy & Safe Community	Fire Station Expansion/ Relocation	Implements fire station location plan for improved emergency response	Fire	6
Healthy & Safe Community	Fire Engine and Ambulance Replacements	Scheduled replacements for reliable emergency response fleet	Fire	8,9,11,13, 14,15
Healthy & Safe Community	Portable Radio Replacements	Modernizing communication equipment for first responders	Fire/Police/ Airport	12
Financially Responsible, High-Performance City	Enterprise Asset Management System (Water, Sanitary, Stormwater, Roadways, Fiber)	Citywide CMMS for asset optimization and service delivery	Multiple Depts.	62, 210, 234, 292, 332
Financially Responsible, High-Performance City	Leak Detection Equipment and Survey	Investments in technology to reduce water loss and improve efficiency	Water	72, 73
Financially Responsible, High-Performance City	Network Switch Replacement	Regular replacement of network infrastructure for cybersecurity	IT Dept.	365, 371
Robust Local Economy	8th Street 20" Transmission Water Main Connection	Infrastructure expansion to support economic development	Water	48
Robust Local Economy	Central Avenue Booster Station	Enhancing water supply reliability for economic growth	Water	50
Robust Local Economy	Workforce Development	Partnership with GDDC for workforce retention, recruitment, creation	Economic Develop	343
Robust Local Economy	Downtown Storefront Activation Program	Financial assistance to activate vacant storefronts	Economic Develop	341
Livable Neighborhoods & Housing	Low/Mod Income Area Park Improvements	Upgrades to parks in low/moderate income areas	Parks	19
Livable Neighborhoods & Housing	Homeowner Rehabilitation Program	Loans for maintenance and rehabilitation of owner-occupied homes	Housing	351
Livable Neighborhoods & Housing	Assistance for Homeownership	Programs to support affordable homeownership	Housing	349
Livable Neighborhoods & Housing	Healthy Homes Production Grant & Lead and Healthy Homes Grant	Addressing housing-related health hazards	Housing	354, 356
Sustainable Environment	Source Water PFAS Reduction Projects	Water treatment investments for safe drinking water	Water	86, 87

Sustainable Environment	Municipal Solar Projects (MFC & Library)	Solar arrays on city facilities to reduce energy costs and emissions	City Manager's Office	361, 363
Sustainable Environment	Bee Branch Gate & Pump Replacement Project	Major stormwater infrastructure to mitigate flooding	Engineering/ Stormwater	220
Sustainable Environment	Landfill Waste Minimization Grant Project	Grants for waste reduction, recycling, composting	Public Works	183
Connected Community	14th Street Overpass (B2E2 Project)	Multimodal corridor improvements, rail crossing elimination	Engineering/ Street	265
Connected Community	East-West Corridor Capacity Improvements	Upgrades to University Avenue and related corridors	Engineering/ Street	270
Connected Community	Public Electric Vehicle Chargers	EV charging infrastructure at key downtown locations	Engineering/ Traffic	300
Connected Community	Smart Parking System	Technology for improved parking management and wayfinding	Transportation Services	345
Diverse Arts, Culture, Parks, Recreation	Five Flags Building Improvements	Upgrades to arena, theater, lobby for cultural/recreational use	Civic Center	29
Diverse Arts, Culture, Parks, Recreation	Chaplain Schmitt Island Environmental Restoration	Restoration of natural areas as part of development plan	Parks	20
Diverse Arts, Culture, Parks, Recreation	Eagle Point Park Master Plan & Improvements	Comprehensive planning and upgrades for signature park	Parks	23
Diverse Arts, Culture, Parks, Recreation	Community Center Master Plan	Planning for expanded indoor recreation and programming	Parks	34
Policy Agenda Top Priority	DLEC Upgrades and Maintenance	Law Enforcement Center upgrades for operational readiness	Police	1
Policy Agenda Top Priority	Old Mill Road Lift Station & Force Main (Phases 1–4)	Major sanitary sewer investments	Engineering/ Sanitary Sewer	235, 237, 239, 241
Policy Agenda Top Priority	Bee Branch Gate & Pump Replacement Project	Stormwater management investments	Engineering/ Stormwater	220
Policy Agenda Top Priority	Pavement Rehabilitation, ADA Curb Ramp Program, etc.	Street maintenance/rehabilitation program	Engineering/ Street	275, 136
Policy Agenda High Priority	Central Avenue White Street Corridor Master Plan	Central Avenue revitalization	Engineering/ Street	267
Policy Agenda High Priority	Downtown Master Plan Update	Comprehensive downtown planning	Planning Services	358
Policy Agenda High Priority	Chaplain Schmitt Island Development	Environmental, water, sanitary, and stormwater improvements	Multiple Depts.	20, 49, 222, 243
Policy Agenda High Priority	Parks and Recreation Master Plan Adoption	Community Center, Eagle Point Park, and other park improvements	Parks	23, 34
Policy Agenda High Priority	WRRC Plant Nutrient Reduction Improvements	Water Resource and Recovery Center upgrades	Water & Resource Recovery Center	109

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2025 - 2027 Management in Progress and Major Projects by the City Council and are included in the 2027 CIP budget according to one of the Council's goals.

2025 - 2027 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Access, Belonging and Community Action Plans
- Community Risk Reduction Program Implementation
- Fire Explorer Program Development
- License Plate Reader Camera Deployments
- New Emergency Responder Computer-Aided Dispatch (CAD) System
- Police Radios Upgrade Implementation
- Public Health Preparedness Emergency Response Plan Update
- Traffic and Security Camera Deployments and Upgrades

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Adopt-A-Spot/Volunteer Management Hub Site GIS Application
- City Bond Rating: Updated Credit Rating and Bond Sale
- City Departments Safety Program: Funding for OSHA Compliance
- City Facilities Integrated Access Control Project
- City Hall and City Hall Annex Renovations
- City Website ADA Compliance
- Enterprise Asset Management System and Work Order System Funding and Implementation
- Enterprise Resource Planning (ERP) Software Implementation
- Federal Legislative Advocacy Agenda and Action Plan
- Historic Federal Building Upgrades
- Human Resources Information System (HRIS) Implementation
- Multicultural Family Center Management and Staffing Review
- Organizational Culture Continuous Improvement: Exit Interviews
- State Legislative Advocacy Agenda and Action Plan 2026
- Succession Plan for Intergovernmental Relations Position

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Business Incentives Policy/Processes Review
- Chaplain Schmitt Island Development: Hotel Project
- Comprehensive Hotel Attraction/Incentive Policy
- Electronic Bidding Software Implementation
- Field of Dreams: Next Steps for City Support
- Minority and/or Women-owned Business Enterprise (MWBE) Procurement Policy
- Port of Dubuque New Hotel Development: City Actions

- Poverty Prevention and Reduction Plan Update
- River Cruise Ship Docking Project

Livable Neighborhoods and Housing: Great Place to Live

- Unified Development Code Update and Adoption
- Historic Millwork District Development Update
- Neighborhood Associations Development: Activation/Expansion
- Terminus Software Implementation for City Permits
- Permitting and Inspection Software Implementation
- New Housing Development Status Updates

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Acquisition and Charging Station
- Emerald Ash Borer Recovery: Funding for Stump Removal, Planting, and Related Sidewalk Replacement
- Green Alley Maintenance and Performance Evaluation
- Sewer System Infrastructure Asset Master Plan Development and Adoption
- Branching Out Dubuque Tree Planting Program
- Water Department 2025 Consumer Confidence Report
- Water and Resource Recovery Center (WRRC) 2025 Explosion Recovery Completion
- WRRC Fats, Oils, and Greases (FOG) Program Review
- WRRC High-Strength Waste Receiving and Storage Project
- WRRC HVAC Mini-Split System Installation
- WRRC State-Certified Lab Expansion

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- Jule Federal Transportation Administration Areas of Persistent Poverty Planning Grant
- Parking System Technology Upgrade and Installation
- Smart Parking and Mobility Study Implementation
- STREETS (Smart Traffic Routing with Efficient and Effective Traffic System) Program Funding and Implementation

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Comiskey Park Phase 2 Upgrades: Parking and Amenities
- Community Cultural Experiences and Programming
- Historic Millwork District Green Space Plan
- Eagle Point Park Historic Structures Assessment and Report
- Friends of Eagle Point Park Organization Development
- Eagle Point Park Fall 2025 Clean-Up

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2026 and proposed FY 2027 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Healthy & Safe Community

- Fire Stations Improvement Projects
- Crescent Community Health Center Facilities and Services Expansion

Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery

- Multicultural Family Center Elevator
- City Data Center Phase 2

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods and Housing: Great Place to Live

- (none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Auburn St and Custer St Water Main, Sanitary Sewer, and Street Reconstruction
- City-Wide Fiber Project: Water Department Pump, Stations, Tanks, and Towers
- Green Alley Project: 15th St. to 17th St. between Iowa St and Central Ave
- Lead Water Service Lines Replacement Phase 1
- N. Cascade Rd./Southwest Arterial Water and Sewer Main Extensions from Edval Ln. to N. English Mill Rd.
- Rockdale Rd. Stormwater Project
- Water Department Deep Well No.7 Rehabilitation
- Water Department New Deep Well No. 7 Rehabilitation (part of PFAS Remediation Plan)
- Water Department SCADA (Supervisory Control and Data Acquisition) Overhaul
- Water Main Creek Crossing Restoration Project

Connected Community: Equitable Transportation, Technology, Infrastructure, & Mobility

- 14th St Railroad Overpass and 16th St Corridor Complete Streets Improvements
- Airport General Aviation Apron Reconstruction
- Airport Taxiway Alpha Construction
- Chaplain Schmitt Island Trail Project (Federal Community Project Grant)
- Fiber Optic Connections to Data Center
- Relocation of Fiber Optics on Julien Dubuque Bridge
- Southwest Arterial Intelligent Transportation System (ITS) Project
- US 20/Northwest Arterial Intersection Iowa DOT Project
- Wildwood Dr. Bridge Replacement

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Jackson Park Restrooms
- ImOn Ice Arena Dehumidification System

- Rustic Point Park Completion
- South Pointe Park Completion
- Eagle Point Park Water Tower Destruction
- Chaplain Schmitt Island Amphitheater

Attachment 4

SOURCE OF FUNDS AND IMPORTANT DETAILS

The Fiscal Year 2027-2031 CIP presents a financial plan that reflects a $287,495 general fund property tax levy supported annual debt service for the FY 2010 purchase of a replacement pumper truck ($1,035,000) and the FY 2016 franchise fee litigation settlement judgment bond ($2,800,000). The Fire Station Expansion/Relocation project included in the Fiscal Year 2027-2031 CIP will be funded through the issuance of General Obligation (G.O.) bonds. The debt will be repaid through the City's debt service property tax levy. As a result, this project will increase property taxes to support the repayment of bonds over time. It is anticipated that other borrowing from non-utility funds can and will be minimized by using other sources of funds such as sales tax revenue.

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over $163 million in outside funding to help offset the cost of the overall $254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to $9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing $98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach $9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach $9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes includes an additional $5,121,112 for the Flood Mitigation Gate and Pump Replacement, a key component of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Combined with funding allocated in prior fiscal years (FY24-FY26), the total project investment is $28,456,106.

The recommended Fiscal Year 2027-2031 Capital Improvement Program Budget includes $12,275,000 shared across four funding sources to complete final design work in Fiscal Year 2027 and begin construction in Fiscal Year 2028 for the 17th/W. Locust Street Reconstruction Project, part of the Bee Branch Creek Restoration Project (Phase 12B of the Bee Branch Watershed Flood Mitigation Project). Design for this project was largely completed in the late 2010s and early 2020s, but progress was paused due to funding challenges during the COVID-19 pandemic.

Fiscal Year 2027 will be the nineteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2027 Stormwater User Fee is proposed to increase from $11.03 per SFU to $12.02 per SFU, a 9.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	$ 10.00
Fiscal Year 2025 - Adopted Per Ordinance 14-24	$ 10.50
Fiscal Year 2026 - Adopted per Ordinance 14-25	$ 11.03
Fiscal Year 2027 - Recommended	$ 12.02

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The Fiscal Year 2027-2031 CIP anticipates $4,174,231 in Fiscal Year 2027, $3,623,407 in Fiscal Year 2028, $1,793,632 in Fiscal Year 2029, $2,312,622 in Fiscal Year 2030, and $1,676,919 in Fiscal Year 2031.

Water State Revolving Fund Loans will be used to finance water projects in FY 2027-2031 as follows: $0 FY 2027; $7,302,707 FY 2028; $11,563,870 FY 2029; $6,806,000 FY 2030; and $2,055,000 FY 2031. The debt service related to the total $27,727,577 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, West End Annexation Phase II, 17th/Locust St Reconstruction Phase 4 (Heeb to Kirkwood), Private Lead Service Line Replacement Program (City-Wide), Central Ave Booster Station, Central Ave Water Main Extension, South Algona 12" Water Main Replacement, Water Main Replacement W 8th St (Bluff to Hill), Water Storage Rehabilitation Program, HWY 20/Dodge St Water Main Relocation - Devon Drive to Concord Street, Water Main Extension Olympic Heights Road, and Southwest Arterial (Key West Drive to Silverwood Drive) 16" Water Main Installation.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Water Fund will support 18.01% of administrative overhead.

The water fees in FY 2027 are recommended to increase 3.0%.

Sewer

Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines. The Fiscal Year 2027-2031 CIP anticipates $26,300,608 in Fiscal Year 2027, $19,579,781 in Fiscal Year 2028, $19,532,176 in Fiscal Year 2029, $15,269,824 in Fiscal Year 2030 and $11,750,197 in Fiscal Year 2031.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2027-2031 as follows: $12,232,834 FY 2027; $17,579,781 FY 2028; $17,132,176 FY 2029; $12,669,824 FY 2030; and $8,500,197 FY 2031. The debt service related to the total $68,114,812 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Catfish Creek Sewer shed Interceptor Improvements (South Fork and Middle Fork), South West Arterial Middle Interchange Sewer Extension, Old Mill Road Lift Station & Force Main Phases (1 and 2), Track Line Sewer Reconstruction, Schmitt Island Sanitary Improvements, Grove Terrace Sanitary Sewer Reconstruction, Cooper Pl & Maiden Ln Sanitary Sewer Reconstruction, Harvard Sanitary Sewer, Hempstead Reconstruction, Knob Hill-Duggan Drive Sanitary Sewer Reconstruction, JFK Yiannias Pl Sanitary Sewer Relocation, Key West Sanitary Lift Station Replacement, Sanitary Basin Analysis - Steger Heights, Quigley's Sub and South Port/Terminal St, 17th/Locust St Reconstruction Phase 4, W&RRC Plant Nutrient Reduction Improvements, W&RRC Industrial Control Upgrade, W&RRC Headworks Bar Screen Replacement, and W&RRC Treatment System Infrastructure Restoration and Reliability Improvements.

The sewer fees in FY 2027 are recommended to increase 9.0%.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager’s Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager’s Office, Legal, Planning, Economic Development, City Clerk’s Office and Workforce Development recharged expenses based upon each enterprise fund’s percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager’s Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund’s share of the City’s administrative overhead is 18.75%. In FY 2027, the Sanitary Sewer Fund will support 18.01% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A $4.15 million Greater Downtown TIF borrowing is anticipated in FY 2027-2031 for parking ramp major maintenance. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related debt in the downtown as follows: $2,014,000 in FY 2027; $2,010,750 in FY 2028; $2,012,625 in FY 2029; $2,013,875 in FY 2030; and $2,014,125 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2027, the Parking Fund will support 2.86% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The Fiscal Year 2027-2031 CIP anticipates $460,000 in FY 2027, $469,250 in FY 2028; $423,679 in FY 2029; $646,544 in FY 2030; and $772,500 in FY 2031. The Solid Waste Collection Fund is anticipated to have a deficit balance of $587,638 at the close of FY 2027, which will be offset by an internal loan from a portion of the $5.3 million loan repayment from the Greater Downtown TIF fund to the General Fund. The Solid Waste Collection Fund will begin repaying the General Fund in the Fiscal Year that there is no longer a deficit balance, which is estimated to be FY 2031.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: $460,000 in FY 2027; $463,250 in FY 2028; $408,879 in FY 2029; $640,544 in FY 2030 ; $766,500 in FY 2031.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2027, the Solid Waste Fund will support 18.75% of the administrative overhead.

The solid waste collection fees in FY 2027 are recommended to increase 9%.

GENERAL FUND

The current revenue amount of $352,000 (0.10% of CIP Total) during the five-year period represents $50,000 in golf funds for improvements to the Bunker Hill Golf Course, $22,000 in Historic Preservation Loan repayments, $60,000 in Rental Dwelling Rehab Repayments, $150,000 in Washington Neighborhood Loan Repayments, $50,000 in insurance and other reimbursements, and $20,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax (20%)” totals $844,281 and represents 0.24% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as “Sales Tax/Street Projects (30 percent)” and totals $16,417,822, or 4.65% of the total CIP.

GAMING

DRA payments represent 0% in FY 2027 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations ($0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections ($0 or 0.00% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2029, 10% in FY 2030 and 15% in FY 2031. **In Fiscal Year 2027, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Years 2024-2026 which is a change from past practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois. Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

FEDERAL FUNDING

Community Development Block Grant (CDBG)
The Fiscal year 2027-2031 CIP anticipates that Community Development Block Grant (CDBG) funds will be $650,000 in FY 2027; $650,000 in 2028; $450,000 in FY 2029; $450,000 in FY 2030; and $200,000 in FY 2031 (0.68% of the total CIP).

Federal Aviation Administration (FAA)
The FAA funding of $18,140,035 (5.14% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2027-2031 budget includes Reconstruct Taxiway A, Taxiway J Improvements, Taxiway D Extension, and Update Airport Pavement Management System.

Federal Lead Paint/Healthy Homes Grant (0.83% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Lead Paint/Healthy Homes Grant funds will be $1,900,000 in FY 2027; $1,036,600 in 2028; $— in FY 2029; $— in FY 2030; and $— in FY 2031 (0.83% of the total CIP).

Healthy Homes Production Grant (0.32% of Total CIP)
The Fiscal year 2027-2031 CIP anticipates that Healthy Homes Production Grant funds will be $2,995,200 in FY 2027; $1,658,050 in 2028; $— in FY 2029; — in FY 2030; and — in FY 2031 (0.32% of the total CIP).

Federal Assistance
Federal Assistance funding of $45,351,606 (12.85% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2027-2031 budget includes Bee Branch Creek Gate and Pump Replacement, Public Electric Vehicle Chargers, Electric Buses, 14th Street Overpass, and East-West Corridor Capacity Improvements.

Federal STP Funds
Federal STP Funds funding of $14,845,453 (4.21% of the total CIP) includes DMATS funds for 14th Street Overpass, STREETS Phase 2, and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax

Road Use Tax Funds (RUTF) of $3,174,227 (0.90% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive $44,944,898 for FY 2027-2031, all used for operations.

Sales Tax Increment Revenue

The City secured a $98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, $50,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (0.69% of Total CIP)

State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of $2,445,000 are anticipated over the five-year program.

Iowa Finance Authority funding of $1,013,268 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District

In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2027-2031 CIP includes $1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, $182,850 for the Chavenelle Street Light Replacement Project.

Annexation Initiatives

As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)

With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer (SRO) Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic pausing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers were approved. In late 2024, the Precision Policing Center (PPC) was established. It is expected to serve as a critical "force multiplier" for the department, supporting rapid police response, informed decision-making, and proactive crime prevention. This is also supporting officer safety. The PPC is staffed by five non-sworn (civilian) employees in three roles: three Precision Policing Center Technicians, one Crime Analyst, and one Criminal Computer Forensics.

Fire Station and Additional Firefighters/Paramedics
An additional west end fire station is currently projected to be designed in FY 2030 and built in FY 2031.In April 2026, the City began a study of all stations and future needs. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City well to develop an annexation plan and begin the process of annexation in the future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, and furniture. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 an additional EMS Captain and an additional EMS Bureau Chief were approved. In FY 2026, 5 firefighter/paramedic positions were added and additional employees may be added in future years. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Water and Sanitary Sewer Service
The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements and replacing undersized sanitary sewers along with new lift stations. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of $2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District

This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Now that the City will only be claiming 75% of Greater Downtown TIF revenue beginning in FY 2028, resources for these capital projects are significantly reduced. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following charts shows the amount of TIF revenue reduction in GDTIF due to claiming 25% less in TIF revenue:

Fiscal Year	Annual GDTIF Revenue	Reduction from FY27	% Change
2027	$13,524,219	$—	— %
2028	$10,162,871	-$3,361,348	-24.85 %
2029	$10,137,372	-$3,386,847	-33.33 %
2030	$10,111,873	-$3,412,346	-33.66 %
2031	$10,111,873	-$3,412,346	-33.75 %

Claiming 25% less in Greater Downtown TIF revenue will provide additional general fund levy tax dollars due to the growth that the improvements created in the GDTIF District. The additional general fund levy tax dollars estimated to be returned to all taxing bodies in Fiscal Year 2028 based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$1,284,104
City of Dubuque	36.26 %	$1,233,420
Dubuque County	19.96 %	$678,959
Northeast Iowa Community College	2.75 %	$93,544
Sunnycrest Manor County Hospital	1.89 %	$64,290
Dubuque Agricultural Extension	0.41 %	$13,947
Dubuque City Assessor	0.98 %	$33,336
Total	100.00 %	$3,401,600

The following are projects included in the FY 2027-2031 CIP:

Downtown Master Plan Update (page 357) - This project ($150,000) provides for the preparation of a Downtown Master Plan that will provide a comprehensive vision and strategic framework to guide future development, investment, and revitalization efforts in Dubuque's downtown core.

Jackson Park Restroom Building (page 24) - This project ($100,000) provides for additional funding for the Jackson Park restroom building. Initial funding was approved in FY 2020, but due to COVID-19, the project was put on hold.

Five Flags Building Improvements (page 29) – This project ($5,869,457) provides funding for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. With existing funds of $1,206,410, there is $5,869,457 available. This is a substantial decrease from the approximately $24 million previously available.

Five Flags Marquee Replacement (page 30) – This project ($133,500) provides for replacement of the video marquee located at 4th and Locust. It is critical to relaying information to people driving or walking by the building. The current marquee was installed in 2018. The life expectancy is 7-9 years. A new marquee would have an upgraded screen with higher resolution resulting in better clarity, more user friendly, and more efficient.

Five Flags Boiler Replacement (page 31) – This project ($410,000) provides funding for replacement of three 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient.

Five Flags Recirculating Pump Replacement (page 32) – This project ($40,700) provides for the replacement of two recirculating pumps that are responsible for keeping the warm water for sinks readily available by circulating the hot water.

Five Flags Emergency Generator Replacement (page 33) – This project ($870,400) provides for replacement of the emergency standby generator located at 5th Street which provides power to critical systems inside of the building during a sudden loss of power. The current generator was installed in 2000 and is nearing the end of life expectancy of 30 years. A new generator would be more efficient and environmentally friendly.

Grand River Center Dishwasher and Water Softener Replacement (page 43) - This project ($263,000) provides for a dishwasher and water softener replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

Grand River Center Roof Restoration (page 44) - This project ($1,383,000) provides for restoration of the roof on the Grand River Center. The roof was installed in 2002 and restoration is critical to prevent expensive damage if the roof begins leaking.

Grand River Center HVAC System Evaluation (page 45) - This project ($35,000) provides for a consultant to evaluate the HVAC system, software, and controllers. The current system is original to the building, outdated, and difficult to service.

Port of Dubuque Street Extension (page 281) - The city is moving forward with further development in the Port of Dubuque. Specifically, there is approximately 13 acres of vacant property on the north side of 5th Street. These funds ($100,000) will provide money to create an entry road to that site and to plan for the potential future realignment of Ice Harbor Drive to line up with that entry road.

Railroad Crossing Safety Improvements and Quiet Zone Implementation (page 297) - This project ($833,104) provides funding to study the feasibility of implementing railroad crossing safety improvements which could facilitate establishing railroad quiet zones within jurisdictional areas.

Federal Building Renovation (page 334) - This project ($8,645,473) provides funding in FY27 for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY28 and FY29 provides funding for the second phase of HVAC upgrades.

Downtown Bike Lockers (page 336) - This project ($30,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team.

Greater Downtown Rehabilitation and Housing Incentive Program (page 338) – This program ($1,970,403) consolidates three previously separate initiatives—6052000004 (Greater Downtown Housing Creation Grant Program), 6052000002 (Downtown Rehabilitation Grant Program), and 6052000009 (Central Avenue Housing Forgivable Loan)—into a single, streamlined tool to support the revitalization of the Greater Downtown Urban Renewal District. The program supports both commercial revitalization and housing creation, with a focus on adaptive reuse, historic preservation, and equitable access to housing. This is a substantial reduction from previous available funding.

Downtown Storefront Activation Program (page 340) - This new project ($400,000) provides for $25,000/year toward City financial assistance to prospective storefront tenants for security deposits plus 25% of the first six months' rent, requiring matching financial support from the building owner (25%) and the tenant (50%) as partners in the business's success. In addition, $75,000/year will be dedicated to Dubuque Main Street's SWAP grant program ($15,000 of which is for administrative costs), which provides financial assistance for interior storefront buildout costs. The $100,000 annual allocation is anticipated to assist up to 20 businesses with the rent relief portion of the program, and up to 6 businesses with storefront buildout costs.

Smart Parking System Implementation (page 344) - This project ($1,490,175) provides funds for way finding signage throughout the City of Dubuque. With modifications to parking ramps and lots along with removing parking lots, new signage will be needed to improve traffic flow. New signs will be added and outdated signs will be removed.

Parking Ramp Major Maintenance Repairs (page 345) - This project ($9,161,567) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical & plumbing repairs.

Municipal Parking Lot Maintenance (page 346) - This project ($196,182) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces of municipal parking lots.

Homeowner Rehabilitation Program (page 350) - This project ($2,741,588) provides loans utilizing Community Development Block Grant (CDBG), Local Housing Trust Fund, and Local Match funding for loans to owner-occupied single family or duplex properties for maintenance and rehabilitation of their homes. The Program provides loans up to $40,000, at 0% interest, with affordable payments based on the applicant's income. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978.

Downtown ADA Assistance Program (page 352) - This project ($185,000) provides assistance to residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafés, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of $5,000 per property

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income(LMI) residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expired in FY 2025 and all certified debt has been collected.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$589,631
City of Dubuque	36.26 %	$566,358
Dubuque County	19.96 %	$311,763
Northeast Iowa Community College	2.75 %	$42,953
Sunnycrest Manor County Hospital	1.89 %	$29,521
Dubuque Agricultural Extension	0.41 %	$6,404
Dubuque City Assessor	0.98 %	$15,307
Total	100.00 %	$1,561,937

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2026.

The additional tax dollars estimated to be returned to all taxing bodies annually based on the estimated Fiscal Year 2027 consolidated rate is as follows:

Taxing Body	% of FY27 Consolidated Tax Rate	FY28 Additional Tax Revenue
Dubuque Community School District	37.75 %	$226,916
City of Dubuque	36.26 %	$217,960
Dubuque County	19.96 %	$119,980
Northeast Iowa Community College	2.75 %	$16,530
Sunnycrest Manor County Hospital	1.89 %	$11,361
Dubuque Agricultural Extension	0.41 %	$2,465
Dubuque City Assessor	0.98 %	$5,891
Total	100.00 %	$601,103

South Pointe Housing TIF District

In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/ Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2031 due to a three year extension.

Rustic Point Housing TIF District

In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/ Resale and can be used outside the Greater Downtown TIF Area. This district expires in FY 2028.

N Grandview Housing TIF District

In FY 2021, the City created a housing TIF district in the North Grandview subdivision off of North Grandview Avenue. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area. This district expires in 2033.

MISCELLANEOUS SOURCES

Private Participation (1.10% of Total CIP)
Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance ($467,157); Street Lighting and Traffic Signal Knockdown insurance reimbursements ($50,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project ($1,000,000); Milling sales from the Asphalt Milling Program ($375,000); Private Marina Companies contribution for Harbor Area Maintenance Dredging ($200,000); Jeffris Family Foundation contribution for the restoration of Eagle Point Park structures ($1,852,354); and IDOT reimbursement for the Pavement Marking program ($125,000).

Special Assessments (0.08% of Total CIP)
Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The $285,000 amount breaks down: (a) $250,000 for sidewalk lien special assessments, and (b) $35,000 for green alleys (non Bee Branch) special assessments.

POLICY GUIDELINES

This page intentionally left blank.

CITY OF DUBUQUE

BUDGET & FISCAL POLICY GUIDELINES

FISCAL YEAR 2027

Operating Budget Guidelines

The Policy Guidelines are developed and adopted by City Council during the budgeting process to provide targets or parameters within which the budget recommendation will be formulated, in the context of the City Council Goals and Priorities established in August 2025. The final budget presented by the City Manager may not meet all these targets due to changing conditions and updated information during budget preparation. To the extent the recommended budget varies from the guidelines, an explanation will be provided in the printed budget document. By State law, the budget that begins July 1, 2026 must be adopted by April 30, 2026.

A. RESIDENT PARTICIPATION

GUIDELINE

To encourage resident participation in the budget process, City Council will hold multiple special meetings in addition to the budget public hearing for the purpose of reviewing the budget recommendations for each City department and requesting public input following each departmental review.

The budget will be prepared in such a way as to maximize its understanding by residents. Copies of the recommended budget documents will be accessed via the following:

1. The City Clerk's office, located in City Hall (printed)
2. The government documents section at the Carnegie Stout Public Library (printed)
3. On the City's website at www.cityofdubuque.org/budget (digital)

Opportunities are provided for resident input prior to formulation of the City Manager's recommended budget and will be provided again prior to final Council adoption, both at City Council budget special meetings and at the required budget public hearing.

Timeline of Public Input Opportunities

The Budget Office conducts year-round community outreach with Balancing Act using print and digital marketing and presentations.

- **November:** The City Manager hosted an evening public budget input meeting.

Open Budget

dollarsandcents.cityofdubuque.org

During Fiscal Year 2016, the City launched a web based open data platform. The City of Dubuque's Open Budget application provides an opportunity for the public to explore and visually interact with Dubuque's operating and capital budgets. This application is in support of the five-year organizational goal of a financially responsible city government and high-performance organization and allows users with and without budget data experience, to better understand expenditures in these categories.

During Fiscal Year 2017, an additional module was added to the open data platform which included an interactive checkbook which will allow residents to view the City's payments to vendors. The final step will be adding performance measures to the open data platform to allow residents to view outcomes of the services provided by the City.

Balancing Act

During Fiscal Year 2019, the City of Dubuque launched a new interactive budget simulation tool called Balancing Act. The online simulation invites community members to learn about the City's budget process and submit their own version of a balanced budget under the same constraints faced by City Council, respond to high-priority budget input questions, and leave comments.

Taxpayer Receipt

During Fiscal Year 2019, the City launched an online application which allows users to generate an estimate of how their tax dollars are spent. The tool uses data inputted by the user such as income, age, taxable value of home, and percentage of goods purchased within City limits. The resulting customized receipt demonstrates an estimate of how much in City taxes the user contributes to Police, Fire, Library, Parks, and other city services. This tool is in support of the City Council goal of a financially responsible and high-performance organization and addresses a Council-identified outcome of providing opportunities for residents to engage in City governance and enhance transparency of City decision-making.

B. SERVICE OBJECTIVES AND SERVICE LEVELS

GUIDELINE

The budget will identify specific objectives to be accomplished during the budget year, July 1 through June 30, for each activity of the City government. The objectives serve as a commitment to the citizens from the City Council and City organization and identify the level of service which the citizen can anticipate.

C. TWO TYPES OF BUDGET DOCUMENTS TO BE PREPARED

GUIDELINE

Two types of budget documents will be prepared for public dissemination. The recommended City operating budget for Fiscal Year 2027 will consist of a Recommended City Council Policy Budget that is a collection of information that has been prepared for department hearings and a Residents Guide to the Recommended FY 2027 Budget. These documents will be available on the Friday proceeding the Budget Presentation to City Council. In FY 2027, that date is April 3, 2026.

1. **Recommended City Council Policy Budget** The purpose of this documents is to focus attention on policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions. The document will emphasize objectives, accomplishments and associated costs for the budget being recommended by the City Manager.

   The Recommended City Council Policy Budget will include the following information for each department:

   - Highlights of prior year's accomplishments and Future Year's Initiatives
   - A financial summary
   - A summary of improvement packages requested and recommended significant line items
   - Capital improvement projects in the current year and those recommended over the next five years
   - Organizational chart for larger departments and major goals, objectives and performance measures for each cost center within that department

- Line item expense and revenue financial summaries.

2. **The Residents Guide** This section of the Recommended FY 2027 Budget will be a supplementary composite of tables, financial summaries and explanations. It will include the operating and capital budget transmittal messages and the adopted City Council Budget Policy Guidelines. Through graphs, charts and tables it presents financial summaries which provide an overview of the total operating and capital budgets.

D. ADOPT A BALANCED BUDGET

GUIDELINE

The City will adopt a balanced budget in which expenditures will not be allowed to exceed reasonable estimated resources. The City will pay for all current expenditures with current revenues.

E. BALANCE BETWEEN SERVICES AND TAX BURDEN

GUIDELINE

The budget should reflect a balance between services provided and the burden of paying taxes and/or fees for those services. It is not possible or desirable for the City to provide all the services requested by individual residents. The City must consider the ability of residents to pay for services in setting service levels and priorities.

F. MAINTENANCE EXISTING LEVEL OF SERVICE

GUIDELINE

To the extent possible with the financial resources available, the City should attempt to maintain the existing level of services. As often as reasonably possible, each service should be tested against the following questions:

a) Is this service truly necessary?
b) Should the City provide it?
c) What level of service should be provided?
d) Is there a better, less costly way to provide it?
e) What is its priority compared to other services?
f) What is the level of demand for the service?
g) Should this service be supported by property tax, user fees, or a combination?

G. IMPROVE PRODUCTIVITY

GUIDELINE

Continue efforts to stretch the value of each tax dollar and maximize the level of City services purchased with tax dollars through continual improvements in efficiency and effectiveness. Developing innovative and imaginative approaches for old tasks, reducing duplication of service effort, creative application of new technologies, and more effective organizational arrangements are approaches to this challenge.

H. USE OF VOLUNTEERS

DISCUSSION

To respect residents who must pay taxes, the City must seek to expand resources and supplement service-delivery capacity by continuing to increase direct resident involvement with service delivery. Residents are encouraged to assume tasks previously performed or provided by City government. This may require the City to change and expand the approach to service delivery by providing organizational skills and training and coordinating staff, office space, meeting space, equipment, supplies and materials rather than directly providing more expensive full-time City staff. Activities in which residents can continue to take an active role include: Library, Recreation, Parks, Five Flags Center, and Police.

GUIDELINE

Future maintenance of City service levels may depend partially or largely on volunteer resident staffs. Efforts shall continue to identify and implement areas of City government where (a) volunteers can be utilized to supplement City employees to maintain service levels (i.e., Library, Recreation, Parks, Police) or (b) service delivery can be adopted by to non-government groups and sponsors -- usually with some corresponding financial support.

I. RESTRICTIONS ON INITIATING NEW SERVICE

GUIDELINE

New service shall only be considered: (a) when additional revenue or offsetting reduction in expenditures is proposed; or (b) when mandated by state or federal law.

J. SALARY INCREASES OVER THE AMOUNT BUDGETED SHALL BE FINANCED FROM BUDGET REDUCTIONS IN THE DEPARTMENT(S) OF THE BENEFITING EMPLOYEES

DISCUSSION

The recommended budget includes salary amounts for all City employees. However, experience shows that budgeted amounts are often exceeded by fact finder and/or arbitrator awards. Such "neutrals" do not consider the overall financial capabilities and needs of the community and the fact that the budget is carefully balanced and fragile. Such awards have caused overdrawn budgets, deferral of necessary budgeted expenditures, expenditure of working balances and reserves, and have generally reduced the financial condition or health of the City government. To protect the financial integrity of the City government, it is recommended the cost of any salary adjustment over the amount financed in the budget is paid for by reductions in the budget of the department(s) of the benefiting employees.

The City has five collective bargaining agreements. The current contracts expire as follows:

Bargaining Unit	Contract Expires
Teamsters Local Union No. 120	June 30, 2030
Teamsters Local Union No. 120 Bus Operators	June 30, 2030
Dubuque Professional Firefighters Association	June 30, 2027
Dubuque Police Protective Association	June 30, 2029
International Union of Operating Engineers	June 30, 2029

GUIDELINE

Salary increases over the amount budgeted for salaries shall be financed from operating budget reductions in the department(s) of the benefiting employees.

K. THE AFFORDABLE CARE ACT

GUIDELINE

The Affordable Care Act is a health care law that aims to improve the current health care system by increasing access to health coverage for Americans and introducing new protections for people who have health insurance. The Affordable Care Act (ACA) was signed into law on March 23, 2010. Under the ACA, employers with more than 50 full-time equivalent employees must provide affordable "minimum essential coverage" to full-time equivalent employees. The definition of a full-time equivalent employee under the Affordable Care Act is any employee that works 30 hours per week or more on average over a twelve-month period (1,660 hours or more). There is a twelve-month monitoring period for part-time employees. If a part-time employee meets or exceeds 30 hours per week on average during that twelve-month period, the City must provide health insurance. On July 2, 2013, the Treasury Department announced that it postponed the employer shared responsibility mandate for one year. Based on the initial requirements of the Affordable Health Care Act, the Fiscal Year 2014 budget provided for insurance coverage effective February 1, 2014 for several part-time employees. In addition, the Fiscal Year 2014 budget provided for making several part- time positions full-time on June 1, 2014. Due to the delay of the employer shared responsibility mandate for the Affordable Health Care Act, the City delayed providing insurance coverage for eligible part-time employees and delayed making eligible part- time positions full-time until January 1, 2015.The Standard Measurement Period was delayed from January 1, 2013 through December 31, 2013 to December 1, 2013 through November 30, 2014 with the first provision of health insurance date being January 1, 2015.

The impact of the Affordable Care Act on the City of Dubuque included changing nine part-time positions to full-time (Bus Operators (4), Police Clerk Typist (1), Building Services Custodians (3), and Finance Cashier (1) in Fiscal Year 2016. In addition, nine part-time positions were offered health insurance benefits due to working more than1,560 hours (Bus Operators (4), Golf Professional, Assistant Golf Professional, Golf Maintenance Worker, Parks Maintenance Worker , and Water Meter Service Worker). The number of these part-time positions with health insurance benefits has been reduced as employees in these positions accept other positions or leave employment with the City of Dubuque. As of March 17, 2026, there are no part-time positions with health insurance benefits that remains.

L. BALANCE BETWEEN CAPITAL AND OPERATING EXPENSES

GUIDELINE

The provision of City services in the most economical and effective manner requires a balance between capital (with emphasis upon replacement of equipment and capital projects involving maintenance and reconstruction) and operating expenditures. This balance should be reflected in the budget each year.

M. USER CHARGES

DISCUSSION

User charges or fees represent a significant portion of the income generated to support the operating budget. It is the policy that user charges or fees be established when possible so those who benefit from a service or activity also help pay for it. Municipal utility funds have been established for certain activities, which are intended to be self- supporting Enterprise Funds. Examples of utility funds operating as Enterprise Funds include Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund. In other cases, a user charge is established after the City Council determines the extent to which an activity must be self-supporting. Examples of this arrangement are fees for swimming, golf, recreation programs, and certain inspection programs such as rental inspections and building permits.

The Stormwater User Fund is fully funded by stormwater use fees. The General Fund will continue to provide funding for the stormwater fee subsidies which provide a 50% subsidy for the stormwater fee charged to property tax exempt properties and low-to- moderate income residents and a 75% subsidy for residential farms. The General Fund will also continue to provide funding for the refuse, water, and sanitary sewer fee subsidies which provide a 50% subsidy for the fees charged to low-to-moderate income residents.

GUIDELINE

User fees and charges should be established where possible so that those who utilize or directly benefit from a service, activity or facility also help pay for it.

User fees and charges for each utility enterprise fund (Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund) shall be set at a level that fully supports the total direct and indirect cost of the activity, including the cost of annual depreciation of capital assets, the administrative overhead to support the system and financing for future capital improvement projects.

	Percent Self-Supporting			
Activity	**FY 2024 Actual**	**FY 2025 Actual**	**FY 2026 Adopted**	**FY 2027 Rec'd**
Adult Athletics	77.2%	84.3%	61.7%	51.1%
McAleece Concessions	114.5%	116.6%	115.3%	117.0%

Animal Control	58.5%	57.8%	51.7%	48.5%
Housing - General Inspection	95.6%	143.7%	107.6%	90.5%
Federal Building Maintenance	62.2%	83.2%	86.2%	85.7%

N. ADMINISTRATIVE OVERHEAD RECHARGES

DISCUSSION

While the Enterprise Funds have contributed to administrative overhead, the majority has been provided by the General Fund. This is not reasonable and unduly impacts property taxes, which causes a subsidy to the Enterprise Funds. Prior to FY 2013, the administrative overhead was charged by computing the operating expense budget for each enterprise fund and dividing the result by the total City-wide operating expense budget which resulted in the following percentages of administrative overhead charged to each enterprise fund: Water 5.32%; Sanitary Sewer 4.84%; Stormwater 0.55%; Solid Waste 2.83%; Parking 1.71%; and Landfill 2.71%. The adopted Fiscal Year 2013 budget changed the administrative overhead to be more evenly split between the general fund and enterprise funds and is phased in over many years.

The Fiscal Year 2018 administrative overhead formula was recommended modified. The modification removed Neighborhood Development, Economic Development and Workforce Development from all recharges to utility funds. In addition, the Landfill calculation is modified to remove Geographic Information Systems and Planning Services. The Fiscal Year 2027 administrative overhead formula is recommended to be modified to include the Landfill in Communication Department recharges.

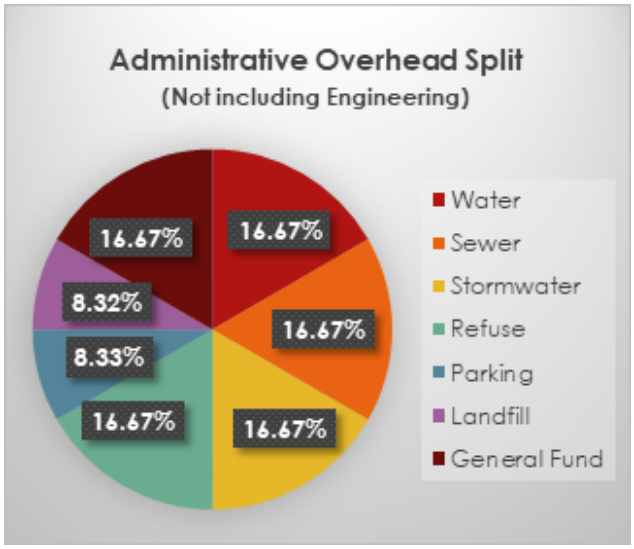

In Fiscal Year 2027, the general fund is recommended to support $2,841,058 in administrative overhead using the recharge method adopted in Fiscal Year 2013 and revised in Fiscal Year 2018.

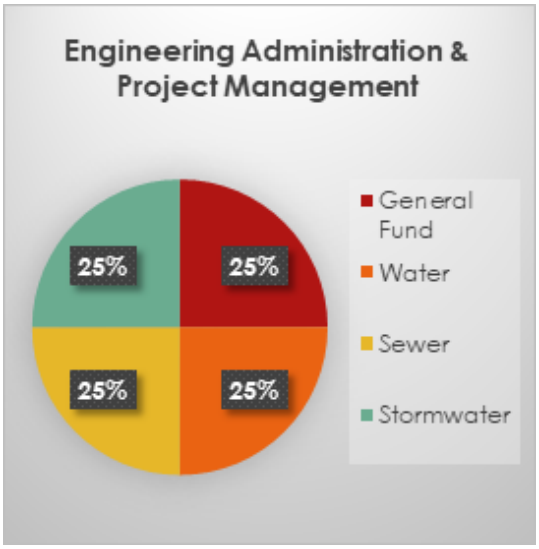

GUIDELINE

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Planning, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

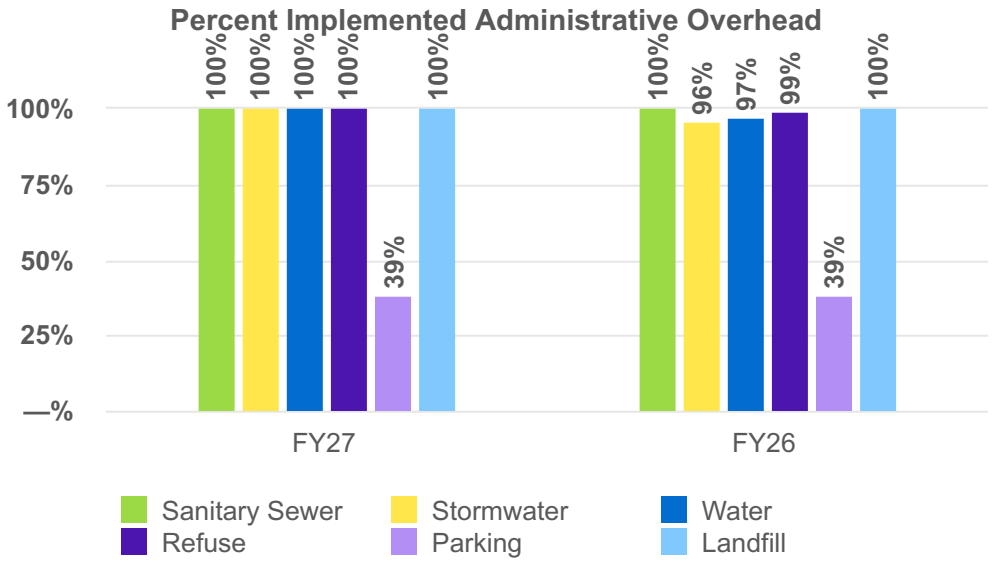

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses. In Fiscal Year 2027, the Communications Department is also recharged to the Landfill.

When the overhead recharges are fully implemented, the split of the cost of administrative overhead excluding Engineering will be as follows:

The implementation percent of the administrative overhead recharges in Fiscal Year 2026 as compared to Fiscal Year 2027 is as follows:

O. OUTSIDE FUNDING

DISCUSSION

The purpose of this guideline is to establish the policy that the City should aggressively pursue outside funding to assist in financing its operating and capital budgets.

However, the long-term commitments required for such funding must be carefully evaluated before any agreements are made. Commitments to assume an ongoing increased level of service or level of funding once the outside funding ends must be minimized.

GUIDELINE

To minimize the property tax burden, the City of Dubuque will make every effort to obtain federal, state and private funding to assist in financing its operating and capital budgets. However, commitments to guarantee a level of service or level of funding after the outside funding ends shall be minimized. Also, any matching funds required for capital grants will be identified.

P. GENERAL FUND OPERATING RESERVE (WORKING BALANCE)

DISCUSSION

An operating reserve or working balance is an amount of cash, which must be carried into a fiscal year to pay operating costs until tax money, or other anticipated revenue comes in. Without a working balance, there would not be sufficient cash in the fund to meet its obligations and money would have to be borrowed. Working balances are not available for funding a budget; they are required for cash flow (i.e., to be able to pay bills before taxes are collected).

Moody's Investor Service recommends a factor of 35 percent for “AA” rated cities. In January 2025, Moody’s Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody’s credit analysis states, “the City of Dubuque’s local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs.” According to Moody’s, the Aa2 issuer rating for the City of Dubuque’s bonds reflects the city’s healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City’s available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody’s Investor Service upgraded the City’s outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody’s Investors Service (“Moodys”) released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio (“AFBR”) = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio (“LR”) = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody’s under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody’s calculated the City’s AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City’s general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City’s ratings.

In May 2021, Moody’s Investor Service upgraded the City’s Water Enterprise’s outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As % of General Fund revenues)	New Moody's Calculation	Reason for change from previous FY
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received ($13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received ($13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	55.82%	62.99%	Increase due to American Rescue Plan Act funds not spent ($26.4 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2024	51.19%	62.41%	Decrease due to spend down of American Rescue Plan Act funds.
FY 2025	43.07%	58.14%	Decrease due to spend down of American Rescue Plan Act funds.

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which are adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy. Per the policy for the General Fund, the City will maintain a minimum fund balance of at least 20 percent of the sum of (a) annual operating expenditures not including interfund transfers in the General Fund less (b) the amounts levied in the Trust and Agency fund and the Tort Liability Fund ("Net General Fund Operating Cost"). The City may increase the minimum fund balance by a portion of any operating surplus above the carryover balance of $200,000 that remains in the General Fund at the close of each fiscal year. The City continued to add to the General Fund minimum balance when additional funds were available until 20 percent of Net General Fund Operating Cost was reached in Fiscal Year 2017. **During Fiscal Year 2024, the General Fund minimum balance was increased to 25 percent.**

After all planned expenditures in FY 2026, the City of Dubuque will have a general fund reserve of 27.00% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 45.03% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be $26,946,677 on June 30, 2026 as compared to the general fund reserve balance on an accrual basis of $25,412,743. The general fund reserve balance on an accrual basis exceeds 27% in FY 2026, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

GUIDELINE

The guideline of the City of Dubuque is to maintain a General Fund working balance or operating reserve of 25% (27% to maintain a margin of error of 2%) in FY 2026 and beyond. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2023. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

General Fund Reserve Projections:

Fiscal Year	Contribution	City's Spendable General Fund Cash Reserve	% of Projected Revenue	Moody's New Methodology
FY2021	$ 500,000	$ 31,089,468	40.72 %	
FY2022	$	$ 41,259,518	49.16 %	45.09 %
FY2023	$ 2,717,339	$ 48,403,917	55.82 %	62.99 %
FY2024	$ 4,419,668	$ 43,826,193	51.19 %	62.41 %
FY2025	$ 415,247	$ 38,147,743	40.53 %	52.33 %
FY2026	$ 1,823,234	$ 25,412,743	27.00 %	45.03 %
FY2027	$	$ 25,412,743	27.00 %	45.03 %
FY2028	$	$ 25,412,743	27.00 %	45.03 %
FY2029	$	$ 26,388,917	27.00 %	45.03 %
FY2030	$	$ 25,412,743	27.00 %	43.60 %

* Capital projects and large equipment purchases that are not completed in the year budgeted will temporarily increase the amount of fund balance remaining at the end of the fiscal year. After resources are allocated to the next fiscal year to complete unfinished capital projects and equipment purchases, **any amount of general fund reserve balance over 27% creates resources for additional capital projects or other mid-year expenses.**

Q. STATE LEGISLATIVE ANTICIPATION RESERVE FUND

DISCUSSION

The State Legislative Anticipation Reserve Fund is a new fund and is being established in Fiscal Year 2027 using $2.4 million generated from the repayment of internal loans to the City's General Fund from the Greater Downtown TIF (GDTIF) Fund.

This reserve is being created in recognition of the significant property tax reform proposals being considered during the current State legislative session. Because these reforms could materially affect the City's future revenue structure, it is financially prudent to maintain an additional reserve to help absorb any potential impacts. Retaining this balance through the FY 2028 budget cycle ensures the City can respond responsibly should legislative changes reduce or otherwise alter revenues.

The actual total repayment was $5.3 million, with $1.2 million for property tax relief, $2,187 used to fund non-recurring General Fund improvement requests, and to make a $675,554 internal loan to the Refuse Collection enterprise fund.

If the City Council elects to use any portion of the State Legislative Anticipation Reserve Fund before FY 2028, such use must be limited strictly to non-recurring expenses. This preserves the integrity of the reserve by ensuring one-time funds are not used to support ongoing operational costs, maintaining long-term fiscal sustainability.

GUIDELINE

The guideline of the City of Dubuque is to maintain a State Legislative Anticipation Reserve Fund through Fiscal Year 2028. The reserve balance is funded with one-time revenue from the repayment of internal loans to the General Fund from the GDTIF Fund in the amount of $4.1 million.

R. USE OF UNANTICIPATED, UNOBLIGATED, NONRECURRING INCOME

DISCUSSION

Occasionally, the City receives income that was not anticipated and was not budgeted. Often, this money is non-recurring and reflects a one-time occurrence which generated the unanticipated increase in income.

Non-recurring income generally will not be spent on recurring expenses. This would result in a funding shortfall in the following budget year before even starting budget preparation. However, eligible non-recurring expenditures would include capital improvements and equipment purchases.

GUIDELINE

Nonrecurring unobligated income shall generally only be spent for nonrecurring expenses. Capital improvement projects and major equipment purchases tend to be nonrecurring expenditures.

S. USE OF "UNENCUMBERED FUND BALANCES"

DISCUSSION

Historically, 100% of a budget is not spent by the end of the fiscal year and a small unencumbered balance remains on June 30th. In addition, income sometimes exceeds revenue estimates or there are cost savings resulting in some unanticipated balances at the end of the year. These amounts of unobligated, year-end balances are "carried over" into the new fiscal year to help finance it.

The FY 2026 General Fund budget, which went into effect July 1, 2025, anticipated a "carryover balance" of $200,000 or approximately 0.7 percent of the City tax asking. For multi-year budget planning purposes, these guidelines assume a carryover balance of $200,000 in FY 2027 through FY 2031.

GUIDELINE

Carryover General Fund balance shall generally be used to help finance the next fiscal year budget and reduce the demand for increased taxation. The available carryover General Fund balance shall be anticipated not to exceed $200,000 for FY 2027 and beyond through the budget planning period. Any amount over that shall usually be programmed in the next budget cycle as part of the capital improvement budgeting process.

T. PROPERTY TAX DISCUSSION

I. ASSUMPTIONS - RESOURCES

1. Local, Federal and State Resources

a) **Cash Balance.** Unencumbered funds or cash balances of $200,000 will be available in FY 2027 and each succeeding year to support the operating budget.

b) **Interest Revenue.** Interest revenue decreased from $2,300,097 in FY 2026 to $1,620,974 in FY 2027. The FY 2027 budget is based on projected general fund cash balance, and projected declining interest rates.

c) **Sales Tax Revenue.** By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2027. Sales tax receipts are projected to decrease 0.74% under FY 2026 actual of $12,465,961 based on FY 2026 revised revenue estimate which includes actuals through February 2026, and then increase at an annual rate of 2.00% percent per year beginning in FY 2028. The following chart shows the past four years of actual sales tax funds and projected FY 2027 for the General Fund:

Sales Tax Funds	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
PY Q4	$ 475,037	$ 475,037	$ 451,920	$ 574,416	$ 635,746
Quarter 1	1,177,196	1,177,196	1,545,777	1,592,834	1,610,911
Quarter 2	1,522,885	1,522,885	1,596,421	1,605,397	1,302,193
Quarter 3	1,443,097	1,443,097	1,524,508	1,490,640	1,576,480
Quarter 4	1,110,593	1,110,593	979,209	969,694	1,061,815
Reconciliation	371,388	371,388	—	—	—
Total	$ 6,100,196	$ 6,097,835	$ 6,232,981	$ 6,187,145	$ 6,372,757
% Change	**-4.00%**	**-0.04%**	**+2.22%**	**-0.74%**	**+3.00%**

d) Hotel/Motel Tax Revenue. Hotel/motel tax receipts are projected to increase 5.00% ($167,286) over FY 2026 re-estimated receipts of $3,345,715, and then increase at an annual rate of 3.00% per year.

e) FTA Revenue. Federal Transportation Administration (FTA) transit operating assistance decreased from $598,167 in FY 2026 to $443,500 in FY 2027. The FY 2027 budget is based on the revised FY 2026 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

f) Ambulance Revenue. Ambulance Ground Emergency Medical Transport Payments increased from $2,413,018 in FY 2026 to $2,714,947 in FY 2027. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2021. FY 2027 is based on calculated projections using historical averages. This revenue is projected using the first quarter of performance in FY 2025 and the previous 11 quarters of performance. Based on that formula, the 3-year quarterly average growth of Medicaid transports is 0.8%. The projected number of transports for FY 2025 is 1,084 and for FY 2026 is 1,092. The FY 2024 actual was 1,075. Based on the unaudited FY 2024 cost report, the FY 2026 revenue per transport is estimated to be $2,209.18. This line item is offset by GEMT Pay to Other Agency expense for local match of $904,973 resulting in net revenue of $1,809,974.

Ambulance Fees increased from $1,756,870 in FY 2026 to $2,778,351 in FY 2027 based on calculated projections using historical averages and Council approved advanced life support and basic life support service fees to match the third-party cost report. The FY 2025 actual was $2,026,670.

As the City Council approved in 2025, these funds are being used to add five firefighter positions in Fiscal Year 2026 and should the City receive a SAFER grant, nine more firefighter positions in Fiscal Year 2027.

g) Miscellaneous Revenue. Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2026.

h) Building Fee Revenue. Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase $101,389 from $1,099,857 in FY 2026 to $1,201,246 in FY 2027.

i) **DRA Revenue.** Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to decrease $134,176 from $7,213,362 in FY 2026 to $7,079,186 in FY 2027 based on revised projections from the DRA. This follows a $192,217 decrease from budget in FY 2026 and a $2,283,319 increase from budget in FY 2025.

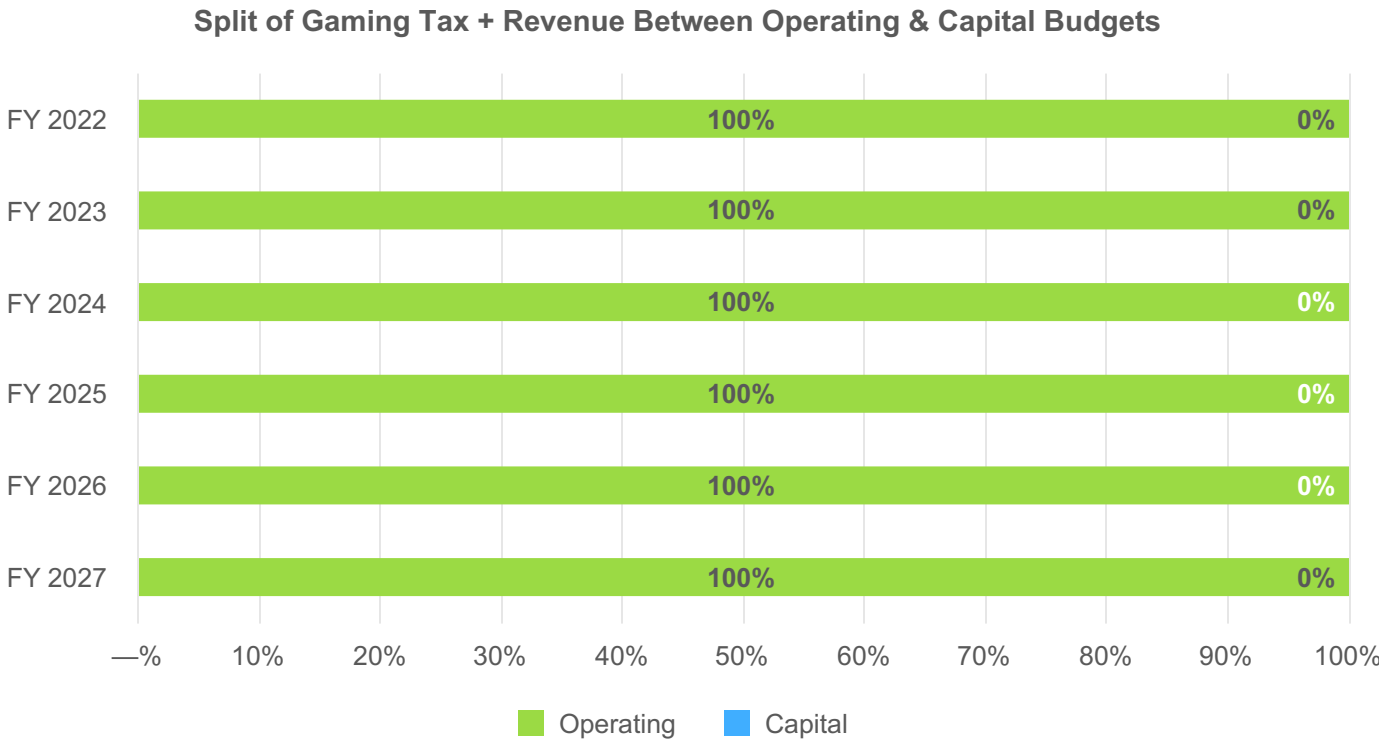

The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease Payments	$ Change	% Change
FY 2027 Projected	$ 7,079,186	$ 127,716	1.84%
FY 2026 Revised	$ 6,951,470	$ (261,892)	-3.63%
FY 2026 Budget	$ 7,213,362	$ 349,629	5.09%
FY 2025 Actual	$ 6,863,733	$ 589,707	9.40%
FY 2024 Actual	$ 6,274,026	$ (917,449)	-12.76%
FY 2023 Actual	$ 7,191,475	$ 583,944	8.84%
FY 2022 Actual	$ 6,607,531	$ 2,645,535	66.77%
FY 2021 Actual	$ 3,961,996	$ (1,187,192)	-23.06%
FY 2020 Actual	$ 5,149,188	$ 293,177	6.04%
FY 2019 Actual	$ 4,856,011	$ 18,879	0.39%
FY 2018 Actual	$ 4,837,132	$ (195,083)	-3.88%
FY 2017 Actual	$ 5,032,215	$ (155,297)	-2.99%
FY 2016 Actual	$ 5,187,512	$ (158,104)	-3.00%

The Diamond Jo payment related to the revised parking agreement increased from $687,003 in FY 2026 to $731,657 in 2027 based on estimated Consumer Price Index adjustment.

j) **DRA Gaming.** The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2027 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2022– FY2027:

k) **Diamond Jo Revenue.** The Diamond Jo Patio lease ($25,000 in FY 2027) and the Diamond Jo parking privileges ($731,657 in FY 2027) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

2. Property Taxes

l) **Residential Rollback.** The residential rollback factor will decrease from 47.4316% in 2026 to 44.5345% or a 6.11% decrease in FY 2027. The rollback has been estimated to remain the same from Fiscal Years 2028 through 2031.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2027, residential property had more growth than agricultural property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average residential property value increased 8.50%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from $93,207 to $94,952 (+1.87%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This increased taxable value for the average homeowner ($91,067 taxable value in FY 2026 and $94,952 taxable value in 2027) results in more taxes to be paid per $1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 44.5345 percent in Fiscal Year 2027. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2026, the City's tax rate would have been $6.18 per $1,000 of assessed value instead of $10.06 in FY 2026.

m) **State Equalization Order/Property Tax Reform.** There was not an equalization order for commercial, industrial or multi-residential property in Fiscal Year 2027. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2025 property assessments, which impacts the Fiscal Year 2027 budget. The average commercial and industrial property values increased 16%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from $540,594 to $624,927 (+16%). This revaluation of industrial property resulted in the taxable value for the average industrial calculation to increase from $632,952 to $731,693 (+16%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2027 State backfill for property tax loss is estimated to be $484,830 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds)**.

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2027	$ (97,981)
2028	(97,981)
2029	(97,981)
2030	(97,981)
Total	**$ (391,924)**

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties ($432,475 Commercial / $599,500 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of $148 in FY 2015, $693 in FY 2016, $982 in FY 2017, $959 in FY 2018, $843 in FY 2019, $861 in FY 2020, $779 in FY 2021, $780 in FY 2022, and $722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.

The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2027 is estimated to be $170,000.

n) Multi-Residential Property Class/Eliminated State Shared Revenue.

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239
FY 2018	82.50%	472,127
FY 2019	78.75%	576,503
FY 2020	75.00%	691,640
FY 2021	71.25%	952,888
FY 2022	67.50%	752,366
FY 2023	63.75%	662,821
FY 2024	54.65%	1,186,077
Total		**$ 5,625,661**

This annual loss in tax revenue of $1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost $5,625,661 in total, meaning landlords paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class, so the City continues to lose these revenues.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

a) Machinery and Equipment Tax Replacement in FY 2003 (-$200,000)
b) Personal Property Tax Replacement in FY 2004 (-$350,000)
c) Municipal Assistance in FY 2004 (-$300,000)
d) Liquor Sales Revenue in FY 2004 (-$250,000)
e) Bank Franchise Tax in FY 2005 (-$145,000)
f) Alcohol License Revenue in FY 2023 (-$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

o) Taxable Value. FY 2027 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+3.51 %
Commercial	+15.63 %
Industrial	+8.22 %
Overall	+5.89 %

*Overall taxable value increased +5.89% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2027.

p) Greater Downtown Tax Increment Financing

- In Fiscal Year 2027, $5.3 million in internal loans will be repaid by the Greater Downtown Tax Increment Financing Fund to the General Fund. $1.2 million of the repayment is recommended to be used for general property tax relief and recurring improvement packages in the general fund in Fiscal Year 2027. A portion of the remaining $4.1 million is recommended to fund non-recurring improvement packages of $2,187 in the general fund. $675,554 will be used as an internal loan to the Refuse Collection enterprise fund. The balance will be reserved for the Fiscal Year 2028 budget process as the City needs to be prepared for property tax reform being considered in the State legislative session.

- Beginning in Fiscal Year 2028, the Greater Downtown Tax Increment Financing District will no longer collect 100% of revenues. Instead, the Greater Downtown TIF District will begin collecting 75% of revenues. The remaining 25% will be returned to the general funds of all taxing bodies (Dubuque Community School District, City of Dubuque, Dubuque County, Northeast Iowa Community College, and Independent). Based on Fiscal Year 2027 valuations and the Fiscal Year 2026 consolidated tax rate, collecting only 75% in the Greater Downtown TIF District will annually return approximately $1.3 million to Dubuque Community School District, $1.2 million annually to the City of Dubuque, $661 thousand annually to Dubuque County, $81 thousand annually to Northeast Iowa Community College, and $81 thousand annually to Independent taxing bodies. This also means that beginning in Fiscal Year 2028, the Greater Downtown TIF District will have $3,250,000 less each year for programs and projects.

r) Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by $101,268 in FY 2027 to $4,374,313 due to the estimated consumer price index increase.

3. Fees, Tax Rates & Services

s) Franchise Fees. Natural Gas franchise fees are based on FY 2025 actual of $1,743,494. Also, Electric franchise fees are based on FY 2026 budget of $5,075,053 plus rate increases of 5.6%. The franchise fee revenues are projected to increase at an annual rate of 4 percent per year from FY 2028 through FY 2031.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

t) **Property Tax Rate.** For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2027.

u) **Police & Fire Protection.** FY 2027 reflects the fifteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2027, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

II. ASSUMPTIONS - REQUIREMENTS

a) **Pension Systems.**

- The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.56% percent in FY 2026 to 21.86% percent in FY 2027 (general fund savings of $80,480 for Police and $75,845 for Fire or a total savings of $156,325).
- The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2026 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2026 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b) **Collective Bargaining and Non-Represented.** The already approved collective bargaining agreements for Dubuque Professional Fire Fighters Association includes a 4% increase, International Union of Operating Engineers includes a 3.25% wage increase, the Dubuque Police Protective Association includes a 5% wage increase, and the Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 include a 3% increase. Non-represented employees include a 3.00% wage increase. Fiscal Year 2027 includes the cost of the multi-year implementation of the classification and compensation study. A classification and compensation study analyzes the job positions (not individuals) in an organization. The purpose of a classification and compensation study is to ensure jobs with comparable minimum qualifications, job responsibilities, supervisory expectations, working conditions and environments are grouped closely in a compensation plan. Salary ranges are competitive within the identified market, and to equip the human resources team to consistently administer classification and compensation programs on an ongoing basis. The City's strategy through this study has been to recommend a new compensation strategy in which the City is competitive at the 50% percentile of employers. Total cost of the wage increases for collective bargaining and non-represented employees, and continued classification and compensation study implementation is $3,509,780 to the General Fund.

c) **Health Insurance.** The City portion of health insurance expense is projected to increase from $1,119 per month per contract to $1,175 per month per contract (based on 662 contracts) in FY 2027 (increase of $589,333 to the general fund). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings.There was a decrease of $639,758 in prescription drug cost in FY 2022. Based on FY 2026 actual experience, Fiscal Year 2027 is projected to have a 5.35% increase in health insurance costs. Estimates for FY 2028 were increased 5.36%; FY 2029 were increased 5.37%; FY 2030 were increased 5.38%; and FY 2031 were increased 5.38%. Effective January 1, 2027, employee contributions will increase.

d) **Five-Year Retiree Sick Leave Payout.** FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2026 was $288,742 as compared to FY 2027 of $228,836, based on qualifying employees officially giving notice of retirement.

e) **50% Sick Leave Payout.** Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2026 was $128,496 as compared to FY 2027 of $141,764, based on FY 2026 year-to-date expense.

f) **Parental Leave.** Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

g) **Supplies & Services.** General operating supplies and services are estimated to increase 2% over actual in FY 2025. A 2% increase is estimated in succeeding years

h) **Electricity.** Electrical energy expense is estimated to increase 4% over FY 2025 actual expense, then 2% per year beyond.

i) **Natural Gas.** Natural gas expense is based on FY 2025 actual then 2% per year beyond.

j) **Travel Dubuque.** The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k) **Equipment & Machinery.** Equipment costs for FY 2027 are estimated to decrease 6.87% under FY 2026 budget based on equipment replacement schedules, then remain constant per year beyond.

l) **Debt Service.** Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m) **Unemployment.** Unemployment expense in the General Fund decreased from $23,824 in FY 2026 to $27,007 in FY 2027 based on estimated premium for FY2026.

n) **Motor Vehicle Fuel.** Motor vehicle fuel is estimated to decrease 30% under the FY 2026 budget based on the City fuel island fully operational in FY 2027and no longer purchasing from retail gas stations, then increase 2.0% per year beyond.

o) **Motor Vehicle Maintenance**. Motor vehicle maintenance is based on the FY 2026 budget, then increase 2.0% per year and beyond.

p) **Public Transit.** The increase in property tax support for Transit from FY 2026 to FY 2027 is $434,533, which reflects a decrease in Federal Transportation Administration Operating revenue ($154,667); a decrease in Federal Transportation Administration Capital ($344,329), an increase in employee expense ($111,155); decrease in supplies and services ($120,569); a reduction in equipment replacements ($99,615), a decrease in passenger fare revenue ($2,579).

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
2027 Projection	$ 2,361,869	22.55 %
2026 Budget	$ 1,927,336	(1.74)%
2025 Actual	$ 1,961,488	26.70 %
2024 Actual	$ 1,548,127	(1.52)%
2023 Actual	$ 1,571,981	(1.83)%
2022 Actual	$ 1,601,290	(2.09)%
2021 Actual	$ 1,635,441	4.94 %
2020 Actual	$ 1,558,460	(0.82)%
2019 Actual	$ 1,571,307	(0.10)%
2018 Actual	$ 1,572,825	34.10 %
2017 Actual	$ 1,172,885	24.41 %
2016 Actual	$ 942,752	(13.00)%

q) **Shipping & Postage.** Postage rates for FY 2027 are estimated to increase 5% over FY 2025 actual expense and proposed cost increases by United States Postal Service. A 3.0 percent increase is estimated in succeeding years.

r) **Insurance.** Insurance costs are estimated to change as follows:

- Workers Compensation is decreasing 44.18% based on rate change.
- General Liability is decreasing 3.06% based on rate change.
- Damage claims is decreasing 6.86% based on a three year average.
- Property insurance is increasing based on FY 2026 actual over 2%.

s) **Housing.** The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease $69,521 in FY 2027. The budgeted administrative cost of the Housing Choice Voucher Program decreased from $1,129,462 in FY 2026 to $988,895 in FY 2027. Administrative revenue of the Housing Choice Voucher Program decreased from $912,012 in FY 2026 to $827,089 in FY 2027. The resulting Housing Choice Voucher Program deficit decreased from $217,450 in FY 2026 to $161,806 in FY 2027. This deficit is funded by property taxes.

t) **Communications Department.** In Fiscal Year 2026, Cable Utility Franchise Tax revenue paid to the City by Mediacom and ImOn, as required by the state franchise fee agreement, was no longer be enough to support Communications Department employee expense. A vacant part-time (0.75 FTE) Communications Assistant position was recommended to be eliminated. All remaining Cable Utility Franchise Tax supported positions were recommended to be moved to the General Fund. This General Fund expense will be partially offset by administrative overhead recharges to the enterprise funds. The Cable Utility Franchise Tax revenue will support Communications Department supplies and services only going forward.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

u) **Greater Dubuque Development Corporation.** Greater Dubuque Development Corporation support of $836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2027, with $26,500 for Targeted Neighborhood Reinvestment strategy paid from the Greater Downtown TIF. In FY 2028 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

PROPERTY TAX IMPACT

The recommended Fiscal Year 2027 property tax rate increased 1.38% and will have the following impact:

	FY 2026	Proposed FY2027	% Change	$ Change
Property Tax Rate	$ 10.0637	$ 10.1648	1.00%	$ 0.10
Property Tax Asking	$ 29,872,253	$ 31,940,934	6.93%	$ 2,068,681

Average FY1989-FY2026 without Homestead Adj.				**+1.04%**	**$7.32**

The average annual dollar change in residential property tax from 1989-2026 is an increase of $9.92. The average annual dollar change over the last five years is an increase of $24.02.

Projected impact on average residential property:

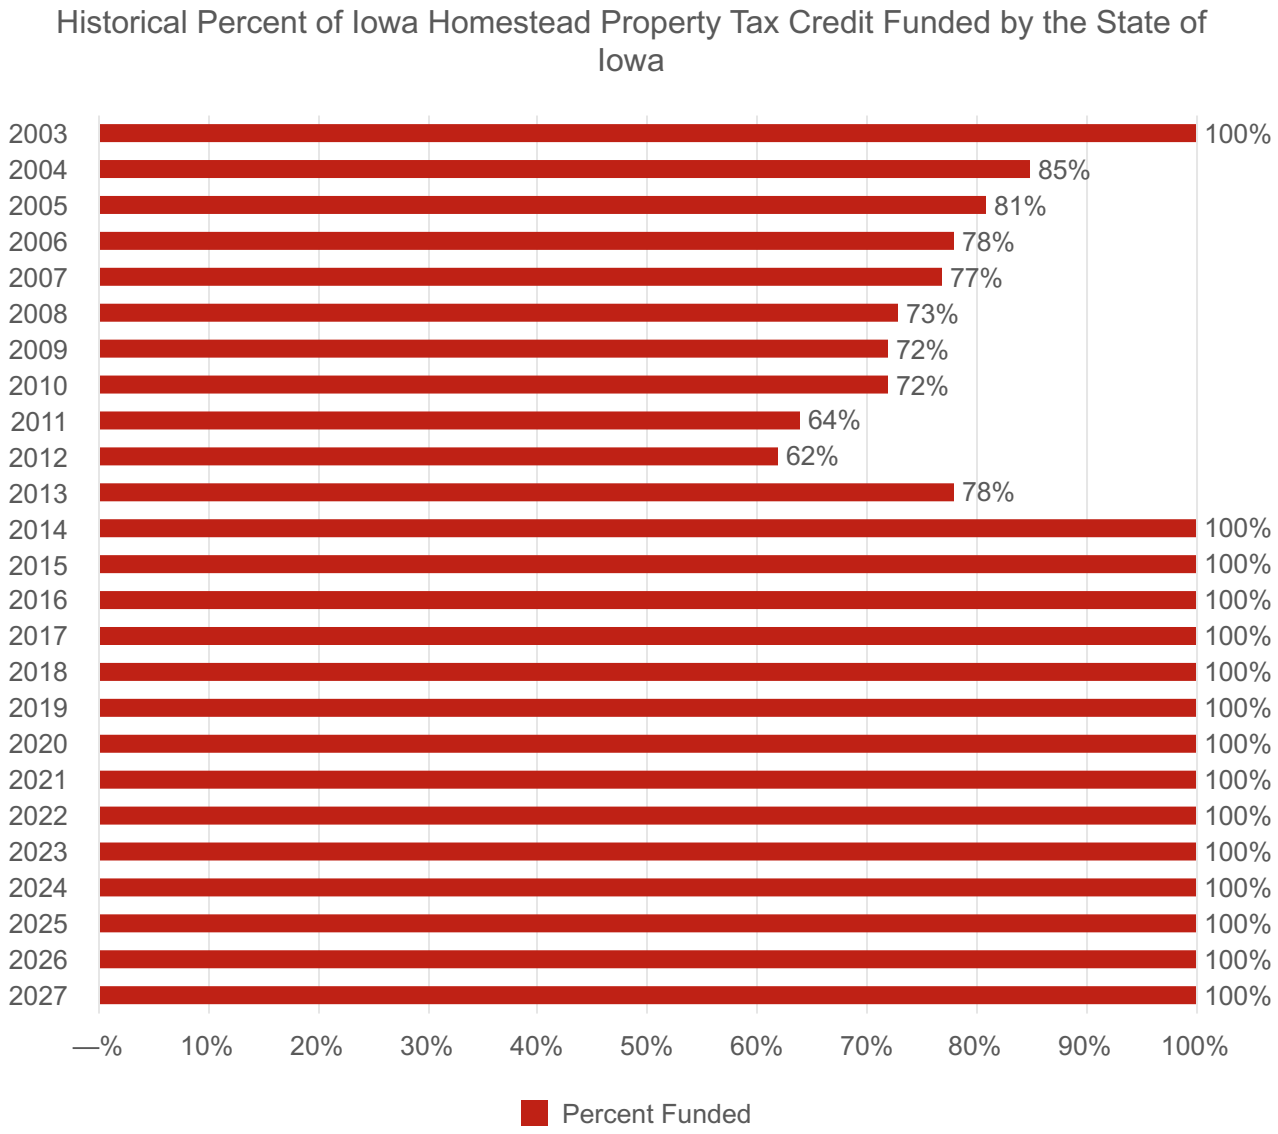

PROJECTION		CITY TAX CALCULATION		DOLLAR CHANGE
FY 2027	"City" Property Tax	$ 915.87	+3.00%	$ 26.67
FY 2028	"City" Property Tax	$ 986.04	+7.66%	$ +70.17
FY 2029	"City" Property Tax	$ 1,003.75	+1.80%	$ +17.71
FY 2030	"City" Property Tax	$ 999.06	+1.80%	$ -4.69
FY 2031	"City" Property Tax	$ 1,086.50	+2.32%	$ +23.59

* Denotes year of State-issued equalization orders.
^ Impact to average homeowner if the State funds the Homestead Property Tax Credit at 62%.
(1) The FY 2006 property tax calculation considers the 6.2% valuation increase for the average residential homeowner as determined by the reappraisal.
(2) Offsets the impact of the State reduced Homestead Property Tax Credit in FY 2005 & 2006.
(3) The City adopted a budget in FY 2011 and 2012 that provided no increase to the average homeowner. The State of Iowa underfunded the Homestead Property Tax Credit in both years costing the average homeowner an additional $18.59 in FY 2012 and $11.51 in FY 2013. This provided no additional revenues to the City, as this money would have come to the City from the State if they appropriated the proper amount of funds.

Homestead Property Tax Credit

The Homestead Property Tax Credit was established by the state legislature to reduce the amount of property tax collected. The intent of the credit was to be a form of tax relief and provide an incentive for home ownership. The State Homestead Property Tax Credit works by discounting the tax collected on the first $4,850 of a property's taxable value. This has no impact on what the City receives from property tax collections, but provides tax relief for the average homeowner.

Beginning FY 2004, the State of Iowa did not fully fund the State Homestead Property Tax Credit resulting in the average homeowner paying the unfunded portion. Again, this has no impact on what the City receives, however as a result has caused the average homeowner to pay more taxes.

FY 2025	"City" Property Tax (11)	$4,179.49		+$850.63	+25.55%
FY 2026	"City" Property Tax (11)	$4,253.76		+$74.27	+1.78%
FY 1989-2026 Average Change				**+$46.40**	**+1.67%**
2022-2026 Average Change				**+$216.89**	**+6.53%**

*Net of Business Property Tax Credit

The average annual dollar change in commercial property taxes from 1989-2026 is a increase of $46.40. The average annual dollar change over the last five years is a increase of +$216.89.

Projected impact on average commercial property:

PROJECTED		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2027	“City” Property Tax	$5,023.81	+$770.05	+18.10%
FY 2028	“City” Property Tax	$5,408.69	+$384.88	+7.66%
FY 2029	“City” Property Tax	$5,505.84	+$97.15	+1.80%
FY 2030	“City” Property Tax	$5,505.84	+$97.15	+1.76%
FY 2031	“City” Property Tax	$5,959.77	+$479.63	+8.71%

(1) The FY 2006 property tax calculation considers the 19.9% valuation increase for industrial property as determined by the reappraisal.
(2) The Business Property Tax Credit was $148 and rollback to 95% in FY 2015.
(3) The Business Property Tax Credit was $693 and rollback to 90% in FY 2016.
(4) The Business Property Tax Credit was $982 and rollback to 90% in FY 2017.
(5) The Business Property Tax Credit was $959 and rollback to 90% in FY 2018.
(6) The Business Property Tax Credit was $843 and rollback to 90% in FY 2019.
(7) The Business Property Tax Credit was $861 and rollback to 90% in FY 2020.
(8) The Business Property Tax Credit was $779 and rollback to 90% in FY 2021.
(9) The Business Property Tax Credit was $780 and rollback to 90% in FY 2022.
(10) The Business Property Tax Credit was $722 and rollback to 90% in FY 2023.
(11)From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. Beginning in FY 2024, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first $150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds $150,000 receives the same ninety percent assessment limitation it has in the past.The $125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first $150,000 of assessed value at the residential assessment limitation rate. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated. The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2024 is estimated to be $587,446.

IMPACT ON INDUSTRIAL PROPERTY - EXAMPLE

ACTUAL - HISTORICAL		CITY TAX CALCULATION *	BUSINESS PROPERTY TAX CREDIT	DOLLAR CHANGE	PERCENT CHANGE

Then in fiscal year 2030, the local government reimbursement claims will begin being prorated. The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2024 is estimated to be $587,446.

IMPACT ON MULTI-RESIDENTIAL PROPERTY - EXAMPLE

ACTUAL – HISTORICAL		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2015	"City" Property Tax	$2,349.34		
FY 2016	"City" Property Tax	$2,225.69	-$123.65	-5.26%
FY 2017	"City" Property Tax	$2,160.39	-$65.30	-2.93%
FY 2018	"City" Property Tax	$2,015.48	-$144.91	-6.71%
FY 2019	"City" Property Tax	$1,870.21	-$145.27	-7.21%
FY 2020	"City" Property Tax	$1,737.92	-$132.29	-7.07%
FY 2021	"City" Property Tax	$1,896.65	+$158.73	+9.13%
FY 2022	"City" Property Tax	$1,751.66	-$144.99	-7.64%
FY 2023	"City" Property Tax	$1,625.55	-$126.11	-7.20%
FY 2024	"City" Property Tax	$1,419.97	-$205.58	-12.65%
Average FY 2016-FY 2024			**-$103.26**	**-5.28%**

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa will not backfill property tax loss from the rollback on multi-residential property. The rollback will occur as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	$ 331,239.03
FY 2018	82.50%	472,126.87
FY 2019	78.75%	576,503.10
FY 2020	75.00%	691,639.58
FY 2021	71.25%	952,887.71
FY 2022	67.50%	752,366.11
FY 2023	63.75%	662,820.79
FY 2024	+54.65%	1,186,077.35
Total		$ 5,625,661.00

*54.65% = Current residential rollback

This annual loss in tax revenue of $1,186,077 from multi-residential property when fully implemented in FY 2024 will not be backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City will lose $5,625,661 in total, meaning landlords will have paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

HISTORY OF INCREASES IN PROPERTY TAX ASKINGS

Year	Tax Askings	% Change in Tax Askings	Impact on Homeowner**
FY 1989	$10,918,759	-12.00%	-11.40%

Average FY 1989-2026		**+2.79%**	**+1.04%**

**Does not reflect State unfunded portion of Homestead Credit.

IMPACT ON TAX ASKINGS AND AVERAGE RESIDENTIAL PROPERTY

To maintain the current level of service based on the previous assumptions would require the following property tax asking increases:

Fiscal Year	"City" Property Tax Askings	% Change in Tax Askings	% Impact on Avg. Residential Property	$ Impact on Avg. Residential Property
FY 2027	$31,940,934	+6.93%	+3.00%	+$26.67
FY 2028	$35,051,083	+9.74%	+7.66%	+$70.17
FY 2029	$36,391,827	+3.83%	+1.80%	+$17.71
FY 2030	$36,830,993	+1.21%	-0.47%	-$4.69
FY 2031	$41,128,960	+11.67%	+2.32%	+$23.59

GUIDELINE

The recommended guideline is a 3.00% or $26.67 increase for the average residential property owner assuming the Homestead Property Tax Credit is fully funded. A one percent increase in the tax rate will generate approximately $315,717.

These guidelines include an estimated $597,760 for recurring and $2,187 for non-recurring improvement packages funded by a portion of the $5.3 million in internal loans repaid to the General Fund by the Greater Downtown TIF District and increased ambulance fees. Future years of the recurring improvement packages will be funded by a portion of the 25% of Greater Downtown TIF District that will be returned to taxing bodies in Fiscal Year 2028 and beyond. The amount of improvement packages funded may change as the FY2027 budget is not yet finalized.

Iowa House File 718 passed during the 2023 legislative sessions, replaces previous changes made through Iowa Senate File 634 passed during the 2019 legislative sessions, makes changes to Iowa city and county budgets and taxes for Fiscal Year 2025 and later. Additional steps have been added to the budget approval process. The City of Dubuque is specifically impacted by the following steps of this new legislation:

1. Limits the General Fund levy by constraining growth by 2% or 3% each year, depending on the trigger hit:

   Non-TIF taxable growth under 3%, no reduction
   Non-TIF taxable growth over 3% but less than 6%, 2% reduction factor applied
   Non-TIF taxable growth over 6%, 3% reduction factor is applied

   The City of Dubuque Non-TIF taxable growth for FY2027 is 5.89%, the General Fund levy is constrained by a growth reduction factor of 2%. The General Fund levy for FY2027 is $7.78547 instead of the maximum levy of $8.10.

   Although the City is restricted to $7.63281 in the General Fund levy, the City has the flexibility to levy up to $16.8 million or a levy rate of $5.3643 in the Special Revenue Levies for employee benefits. In Fiscal Year 2026, the Special Revenue levy was $1.02401 and totaled $3.0 million. Any reduction in the General Fund levy can be in the Special Revenue levies.

2. March 5: Cities must file a report with Iowa Department of Management containing information specified by new law to be contained in mailings.

3. March 20: County Auditor must send each property owner or taxpayer with the county by regular mail an individual statement with the specified information broken out by political subdivision comprising the taxpayer's district.

4. Taxpayer Statements must include:

    - Total Current Year Tax Rate and Dollars
    - Combined effective property tax rate for the city calculated using the sum of the current fiscal year's actual property tax certified for levy of all of city's levies
    - Proposed Budget Year Tax Rate and Dollars
    - If the Proposed Budget Property Tax Dollars exceed the current fiscal year's actual property tax dollars, a detailed statement of the major reasons for the increase, including the specific purposes or programs for which the city is proposing an increase
    - An example comparing the amount of property taxes on a residential property with an actual value of $100,000 in the current fiscal year and such amount on the residential property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
    - An example comparing the amount of property taxes on a commercial property with an actual value of $100,000 in the current fiscal year and such amount on the commercial property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
    - The city's percentage of total property taxes certified for levy in the owner's or taxpayer's taxing district in the current fiscal year amount all taxing authorities.
    - The date, time, and location of the city's public hearing on the information contained in the statements.
    - Information on how to access the city's internet site, the city's statements, and other budget documents for prior fiscal years.

5. Public hearing on proposed property tax amounts for the budget year and new taxpayer statements.

    - In addition to public hearing to adopt the budget.
    - Replaces maximum property tax dollars public hearing held in prior years.
    - Must be separate from any other meeting of City Council, including any other meeting or hearing related to the budget.
    - City Council can decrease, but not increase, the proposed property tax amount to be included in the budget.

6. Budget Certification deadline to Iowa Department of Management is April 30th instead of March 31st.

    - If City is issuing new debt that uses the debt service levy, budget must be adopted by April 15th.

CAPITAL IMPROVEMENT BUDGET GUIDELINES

U. INTEGRATION OF CAPITAL RESOURCES

GUIDELINE

To obtain maximum utilization, coordination and impact of all capital improvement resources available to the City, state and federal block and categorical capital grants and funds shall be integrated into a comprehensive five-year Capital Improvement Program (CIP) for the City of Dubuque.

V. INTEGRITY OF CIP PROCESS

GUIDELINE

The City shall make all capital improvements in accordance with an adopted Capital Improvement Program (CIP). If conditions change and projects must be added and/or removed from the CIP, the changes require approval by the City Council.

W. RENOVATION AND MAINTENANCE

GUIDELINE

Capital improvement expenditures should concentrate on renovating and maintaining existing facilities to preserve prior community investment.

X. NEW CAPITAL FACILITIES

GUIDELINE

Construction of new or expanded facilities which would result in new or substantially increased operating costs will be considered only if:

1) their necessity has been clearly demonstrated

2) their operating cost estimates and plans for providing those operating costs have been developed

3) they can be financed in the long term; and

4) they can be coordinated and supported within the entire system.

Y. COOPERATIVE PROJECTS

GUIDELINE

Increased efforts should be undertaken to enter mutually beneficial cooperative capital improvement projects with the county, school district and private groups. Examples include cost-sharing to develop joint-use facilities and cost-sharing to improve roads and bridges are examples.

Z. USE OF GENERAL OBLIGATION BONDS

DISCUSSION

The Iowa Constitution limits the General Obligation debt of any city to 5% of the actual value of the taxable property within the city. The Iowa legislature has determined that the value for calculating the debt limit shall be the actual value of the taxable property prior to any "rollback" mandated by state statute.

On October 15, 2012, the City Council adopted a formal Debt Management Policy for the City of Dubuque. An amendment to this policy was adopted by City Council on December 15, 2025. Prior to adoption of the formal policy, the City had already been practicing much of the policy, although the formal policy included some new additions. The most significant components of the Debt Management Policy include an internal policy of maintaining the City's general obligation outstanding debt at no more than 95% (except as a result of disasters) of the limit prescribed by the State constitution as of June 30th of each year. It is projected as of June 30, 2026 the City will be at 35.58%. City will not use short-term borrowing to finance operating needs except in the case of an extreme financial emergency which is beyond its control or reasonable ability to forecast. Currently there is no such debt, and none will be recommended in this process.

Bond Financing Stipulations

Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:

- Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:
- Bond financing should not be used if the aggregate cost of projects to be financed by the bond issue is less than $500,000
- City will consider long-term financing for the construction, acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five years
- City shall strive to repay 20 percent of the principal amount of its general obligation debt within five years and at least 40 percent within ten years.
- The City shall strive to repay 40 percent of the principal amount of its revenue debt within ten years.

Bond Ratings In January 2025, Moody's Investor Services affirmed the Aa2 credit rating on general obligation bonds. Moody's credit analysis states, "the City of Dubuque's local economy benefits from its role as a regional economic center, with solid resident income and full value per capita. Financial operations are strong and will remain so despite declines in fund balance over the next few years, as it expends funds from the pandemic. Long-term liabilities and fixed cost ratios are moderate and will remain so despite future borrowing needs." According to Moody's, the Aa2 issuer rating for the City of Dubuque's bonds reflects the city's healthy economic base, which serves as a regional economic center. Other rationale stated for the rating include full value per capita and adjusted resident income are solid at around $109,000 and 98% respectively, though weaker than Aa peers, in part because of a large student population, available fund balance was strong at around 60% of revenue at the close of fiscal 2023 (year-end June 30), and cash was stronger at 85% of revenue. The City's available fund balance will likely remain well over 45%, despite some planned draws in fiscal 2024 and fiscal 2025 to spend down federal funds from the pandemic. Despite the state adopting new property tax restrictions, revenue raising flexibility remains strong because the City maintains significant margin in its employee benefits fund and is not utilizing its emergency levy. The long-term liabilities ratio will likely remain well under 300% inclusive of the current issuances and future borrowing plans, and fixed-costs ratio will remain well below 20%.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moodys") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

General Obligation Debt

Fiscal Year 2026 Debt

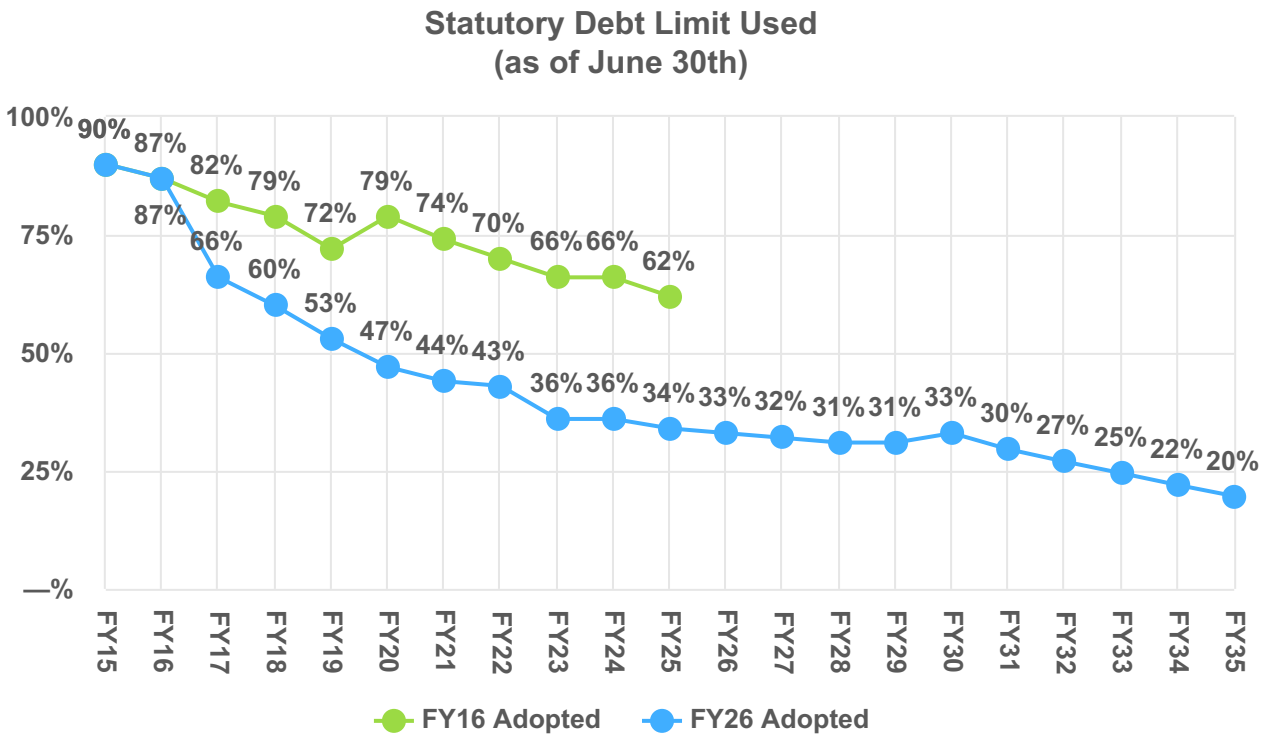

FY 2026 Debt Limit: The FY 2024 assessable value of the community for calculating the statutory debt limit is $6,472,591,693, which at 5%, indicates a total General Obligation debt capacity of $323,629,585, which at 5%, indicates a total General Obligation debt capacity of $323,629,585.

Based on Outstanding G.O. debt (including tax increment debt, remaining payments on economic development TIF rebates, and general fund lease agreement) on June 30, 2026 will be $115,136,523 (35.58% of the statutory debt limit) leaving an available debt capacity of $208,493,062 (64.42%).

It should be noted that most of the City of Dubuque's outstanding debt is not paid for with property taxes (except TIF), but is abated from other revenues. Exceptions include one issuance for the replacement of a Fire Pumper truck in the amount of $1,410,000 with debt service of $83,700 in FY 2026 and one issuance for the franchise fee litigation settlement in the amount of $2,800,000 with debt service of $145,000 in FY 2026. Included in the debt is $4,379,506 of property tax rebates to businesses creating and retaining jobs and investing in their businesses.

Statutory Debt Limit

Fiscal Year	Statutory Debt Limit	Amount of Debt Subject to Statutory Debt Limit	% Debt Limit Used
2026	$323,629,585	$115,136,523	35.58%

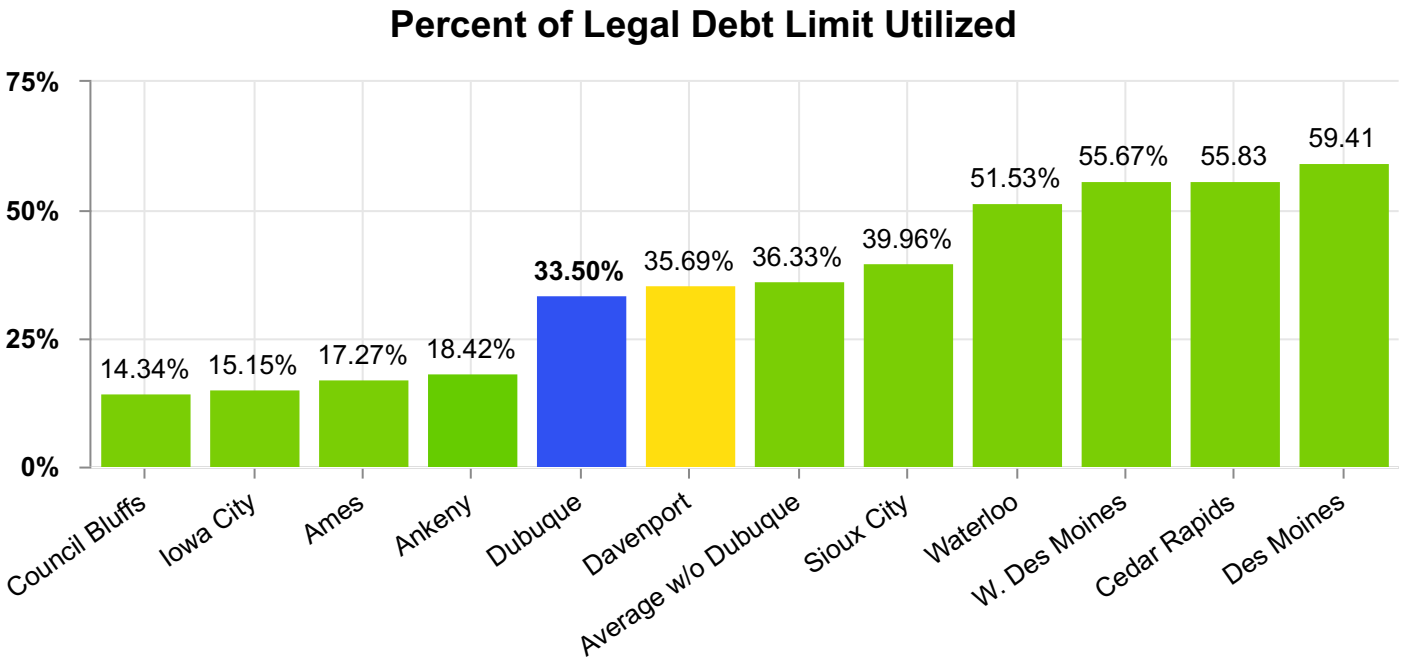

The City also has debt that is not subject to the statutory debt limit. This debt includes revenue bonds. Outstanding revenue bonds payable by water, sewer and stormwater fees on June 30, 2026 will have a balance of $126,443,555. The total City indebtedness as of June 30, 2026, is projected to be $241,580,078. The total City indebtedness as of June 30, 2025, was $237,396,942. **In FY 2026, the City will have a projected $4,183,136 or 1.76% more in debt.** The City is using debt to accomplish necessary projects and to take advantage of the attractive interest rates in the current market.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2026 compared to the other cities in Iowa for Fiscal Year 2025 with a population over 50,000:

Fiscal Year 2025 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

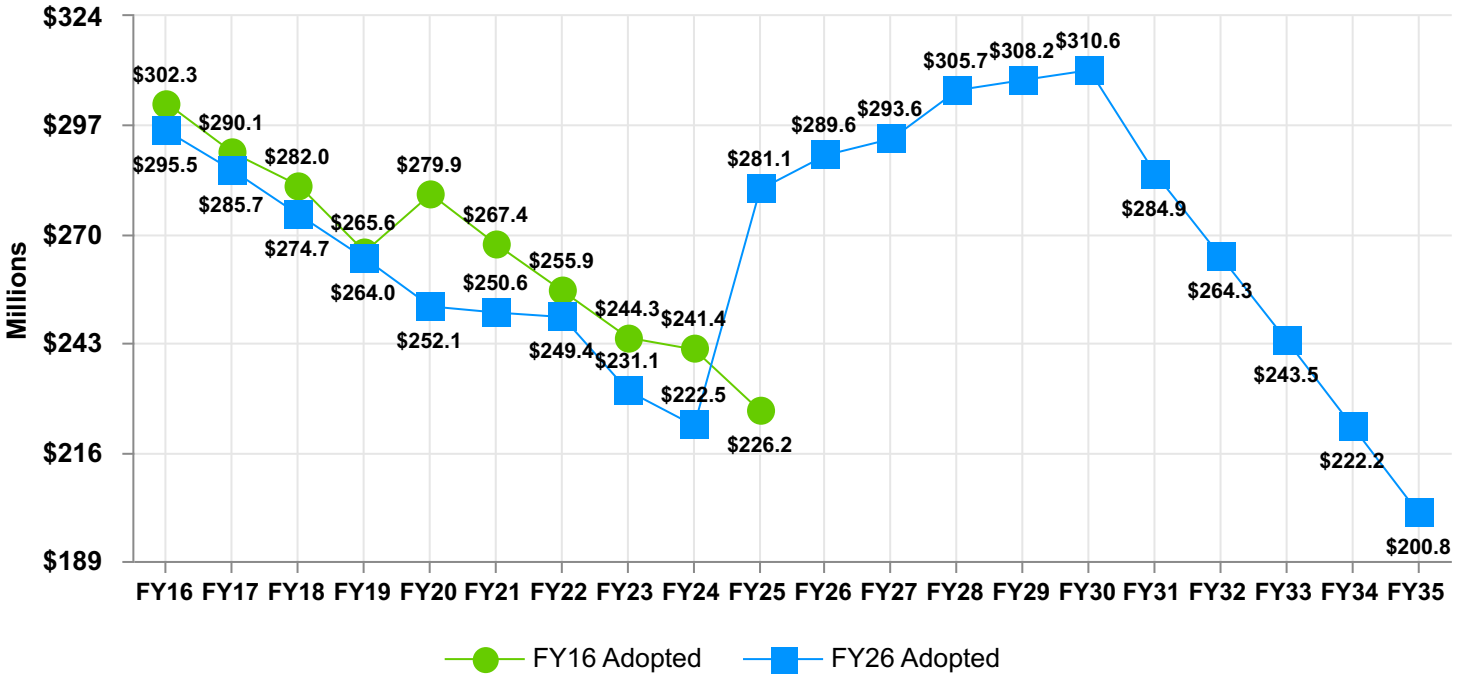

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines (FY25)	$ 964,798,967	$ 573,230,000	59.41 %
10	Cedar Rapids (FY 25)	$ 767,559,335	$ 428,550,000	55.83 %
9	W. Des Moines (FY25)	$ 551,635,692	$ 307,090,000	55.67 %
8	Waterloo (FY25)	$ 267,626,798	$ 137,905,065	51.53 %
7	Sioux City (FY25)	$ 367,743,172	$ 146,935,000	39.96 %
6	Davenport (FY25)	$ 493,660,291	$ 176,195,000	35.69 %
5	**Dubuque (FY27)**	**$ 358,374,258**	**$ 119,617,156**	**33.38 %**
4	Ankeny (FY25)	$ 529,988,951	$ 97,645,000	18.42 %
3	Ames (FY25)	$ 328,345,527	$ 56,710,000	17.27 %
2	Iowa City (FY25)	$ 435,367,793	$ 65,945,000	15.15 %
1	Council Bluffs (FY25)	$ 427,559,692	$ 61,320,000	14.34 %
	Average w/o Dubuque		$ 205,152,507	36.33 %

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000. The average of the other cities (36.33%) is 8.8% higher than Dubuque (33.38%).

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be $310.62 million (32.90% of the statutory debt limit). **Projections out 10 years to Fiscal Year 2035 show the City of Dubuque at 19.66% of the statutory debt limit**, and the projection is to be at $200.79 million (19.66% of statutory debt limit) within 10 years.

Total Debt (In Millions)

The escalation observed in Fiscal Year 2025 is attributable to the City's decision to issue budgetary debt for both Fiscal Year 2024 and Fiscal Year 2025 within a single fiscal period. This approach resulted in a significant increase in the aggregate debt reported for Fiscal Year 2025.

Part of the City's FY 2014 debt was in the form of a grant from the Iowa Flood Mitigation Program. Through a new state program, the City is able to issue $28.25 million in revenue bonds payable from the 5 percent State Sales Tax increment for projects in the Bee Branch Watershed allowing the City to complete the Bee Branch Creek Restoration, construct permeable alleys, replace the Bee Branch flood gates, complete North End Storm Sewers, construct a Flood Control Maintenance Facility, install Water Plant Flood Control and complete 17th Street Storm Sewer over the next twenty years.

The ten year history of the City's use of the statutory debt limit is as follows:

There was a 10.74% increase in assessed value effective January 1, 2025, which is the assessment the Fiscal Year 2027 statutory debt limit is based on. The statutory debt limit effective June 30, 2027 is $358,374,258. **The City will be at 33.38% of statutory debt limit by June 30, 2027**. In FY 16 the City was at 86.13% of statutory debt limit, so **33.38% in Fiscal Year 2027 is a 53.16% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24	FY25	FY26
86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	39.36%	40.07%	34.85%	33.50%

As we approach the preparation of the FY 2027-2031 Capital Improvement Program (CIP) the challenge is not the City's capacity to borrow money but (a) how to identify, limit, and prioritize projects which justify the interest payments and; (b) how to balance high-priority projects against their impact on the property tax rate.

GUIDELINE

There are many high priority capital improvement projects which must be constructed during the FY 2027 - FY 2031 period. The potential of partially forgivable State Revolving Fund Loans and an increase in grant funding may impact the need to borrow for projects. As in the past, debt will be required on several major capital projects, including the Bee Branch Watershed Project, Airport Improvements, Park Improvements, Sidewalk and Street Improvements, Sanitary Sewer Fund, Parking Fund, and Water Fund. Borrowings will also include smaller projects and equipment replacements such as Park developments and Public Works equipment. These smaller borrowings will be for a term not exceeding the life of the asset and not less than six years in accordance to the Debt Management Policy. Alternative sources of funds will always be evaluated (i.e. State Revolving Loan Funds) to maintain the lowest debt service cost.

AA. ROAD USE TAX FUND

DISCUSSION

Actual Road Use Tax Fund receipts are as follows:

The FY 2026 budget was based on receiving $8,400,000 in Road Use Tax funds. In FY 2026, 100% of the Road Use Tax income is in the operating budget. The State of Iowa increased the gas tax 10 cents per gallon in FY 2016.

With increases in City DMATS and State Road Use Tax funds, the City will be able to substantially add to the number of street lights and continue with major road improvements.

GUIDELINE

It is preferable to shift Road Use Tax funds to the capital budget for street maintenance and repair to reduce the need to borrow funds for routine street maintenance and improvements. This shift cannot occur until there are increased revenues or reduced expense that would allow this shift without a property tax impact. The City does use 30% of the local option sales tax for street projects and maintenance of City buildings.

BB. COMMERCIAL AND INDUSTRIAL DEVELOPMENT

GUIDELINE

Current City, commercial and industrial development efforts should be continued to (a) preserve current jobs and create new job opportunities and (b) enlarge and diversify the economic base. Financing these efforts and programs should continue to be a high priority.

CC. HOUSING

GUIDELINE

To maintain an adequate supply of safe and decent housing, the City should strive to preserve existing single family and rental housing that is not substandard and provide opportunities for development of new housing, including owner occupied, within the City's corporate limits for all residents, particularly for people of low and moderate income. Workforce rental housing is becoming increasingly important and the City provides incentives for building rehabilitations. In 2023, the City Council adopted housing incentive programs through the use of Tax Abatement and Tax Increment Financing.

DD. SALES TAX

GUIDELINE

Sales Tax revenue shall be used according to the following split:

Sales Tax 50%: Property Tax Relief

Sales Tax 30%:
(a) The reduction by at least 75% of street special assessments.
(b) The maintenance and repair of streets.

Sales Tax 20%:
(a) The upkeep of City-owned property such as sidewalks, steps, storm sewers, walls, curbs, traffic signals and signs, bridges, buildings, and facilities (e.g. Airport, Five Flags Center, Library, Law Enforcement Center, City Hall, Fire Stations, Parks, and Swimming Pools).
(b) Transit equipment, such as buses
(c) Riverfront and wetland development
(d) Economic Development Projects

EE. NET CASH PROCEEDS (SURPLUS DISTRIBUTION) FROM THE DUBUQUE RACING ASSOCIATION

DISCUSSION

The contract with the Dubuque Racing Association calls for distribution at the end of its fiscal year, December 31st, of 50 percent of its net cash operating funds to the City of Dubuque. In early-February, the City receives payment of proceeds to be distributed. These proceeds are then allocated for capital improvements, with the highest priority given to reducing the City's annual borrowing.

The Dubuque Racing Association provides the City with projections of future distributions. Since gaming is a highly volatile industry, the estimates are discounted prior to including them in the City's Five-Year CIP.

The February 2027 DRA distributions will be used in Fiscal Year 2027 to fund property tax relief. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2027 operations. All of DRA distributions were used in operations in Fiscal Years 2024 through 2026. A change from past use of DRA distributions, 0% of the February 2027 projections of operating surplus have been anticipated as resources to support the Fiscal Year 2027 capital improvement projects. The estimates received from the DRA will be reduced by 5 percent for FY 2029 resources, 10 percent for FY 2030, and 15 percent for FY 2031 resources, to provide a margin of error in case the estimates are not realized.

GUIDELINE

$1,286,001 of February 2027 DRA distributions will be used for FY2027 property tax relief. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2027 operations.In Fiscal Year 2026 and beyond, the City anticipates distribution of a significant amount of net cash proceeds for use in the Capital Improvement Program. These amounts will be budgeted in the Five-Year CIP in the year they are received and will be used to reduce required General Obligation borrowing. The three out-years will be discounted by 5 percent, 10 percent, and 15 percent respectively.

FF. EMPHASIS ON INITIATIVES THAT REDUCE FUTURE OPERATING BUDGET EXPENSE

GUIDELINE

Capital improvement expenditures that will reduce future maintenance and operating expense will receive priority funding and these types of initiatives will be encouraged in all departments and funding sources as a means of maximizing the use of available resources. This emphasis reflects fiscally responsible long-range planning efforts.

GG. USE OF GAMING-RELATED RECEIPTS

DISCUSSION

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

The following shows the historical split of DRA gaming taxes and rents between the City’s operating and capital budgets:

Notable Changes:

***FY 2004** A new lease took effect with the Dubuque Racing Association for lease of the Dubuque Greyhound Park and Casino. This new lease was negotiated after the FY 2005 budget was approved and raised the lease payment from 0.5% of coin-in to 1% of coin-in. This new lease and the expansion of gaming at Dubuque Greyhound Park and Casino, from 600 gaming positions to 1,000 gaming positions, effective August 1, 2005, provided additional revenues to the City of Dubuque.

****FY 2009** The Diamond Jo expanded to a land-based barge casino facility and increased to 1,100 slots on December 1, 2008. This expansion was projected to decrease the Q gaming market and correspondingly the coin-in by just over 21 percent. Based on the projected market share loss, the City did not receive a distribution of cash flows from the Dubuque Racing Association (DRA) in Fiscal Years 2009 and 2010.

*****FY 2010** The operating portion of the split now includes the debt service required on the 2002 general obligation bonds for the America's River Project that was previously considered as part of the capital portion of the DRA lease. Debt obligations are considered a continuing annual expense and are more accurately reflected as part of the operating portion of the DRA lease.

******FY 2011** DRA distributions restarted in FY 2011 instead of the projected year of FY 2012.

*******FY 2016** A reduction in revenue in the Greater Downtown TIF urban renewal area resulted in reduced revenues to make debt payments and it was necessary for the general fund to support $84,104 in FY 2015 and $78,242 in FY 2016 of debt service payments, which were funded by reducing the amount of gaming revenues from taxes and DRA lease that goes to capital recommended in FY 2016.

********FY 2021** A lease amendment took effect with the Dubuque Racing Association for the lease of the Q Casino. This lease amendment added a payment equal to 0.5% of monthly sports wagering conducted on Q Sportsbook retail or Q advance deposit sports wagering internet site.

*******FY 2022** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in.The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the $10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the amended lease has an expiration date of December 31, 2036.

********FY 2023** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows $1.5 million of cash reserve fund as a down payment of a construction loan in FY23. The DRA is required to establish a debt reserve fund equal to one year of debt payments, almost $7 million.

The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5 percent of coin in from slot machines, 4.8 percent of gross revenue from table games, and 0.5 percent of sports wagering.

In calendar year 2025, the DRA (Q Casino) reported an increase of +8.7% in gross gaming revenue (GGR), while Diamond Jo Casino experienced a slight decline of -1% compared to calendar year 2024. The overall Dubuque gaming market reached approximately $125.7 million in calendar 2025, reflecting a +2.5% increase from the $122.6 million reported in calendar year 2024. The growth in GGR at DRA (Q Casino) was anticipated, as several redeveloped outlets—including the casino floor, food and beverage (F&B) operations, and banquet facilities—were fully open during the year.

In addition to gaming revenue growth, the DRA continued to see growth in non-gaming revenue streams, particularly in food and beverage and the newly developed banquet and event space. This combined growth contributed to an overall increase in total gross revenue of approximately +9% in calendar year 2025 compared to calendar year 2024.

Looking ahead, the DRA projects that gross gaming revenue will remain relatively flat in calendar year 2027, primarily due to the anticipated opening of the Linn County (Cedar Rapids) casino on December 31, 2026. Despite this, total gross revenue is expected to increase by approximately +2.63% in 2027, driven by continued expansion in auxiliary revenue streams such as hotel operations, food and beverage, and banquet services.

Beyond 2027, the DRA forecasts moderate growth in gaming revenue, with projected increases of +3.4% in FY 2028, +2.1% in FY 2029, +1.0% in FY 2030, and +1.0% in FY 2031. Total gross revenue is expected to grow at similar but slightly higher rates, with projected increases of +3.3% in FY 2028, +2.2% in FY 2029, +1.3% in FY 2030, and +1.0% in FY 2031.

A new Hard Rock Casino has opened in Rockford, Illinois.

Additionally, the Ho-Chunk Nation has announced plans to develop a $705 million casino, hotel, and conference center in Beloit, Wisconsin, to be constructed in multiple phases. The casino component is currently scheduled for completion in the fourth quarter of 2026." Competition from these new casinos follows years of the State of Illinois allowing slot machines in taverns.

The 50¢ per patron tax previously received from the Diamond Jo was replaced by a $500,000 fixed payment based on their revised parking agreement which expires June 16, 2029.

GLOSSARY

This page intentionally left blank.

28E Agreement: Chapter 28, Section E of the Iowa Code which establishes intergovernmental agreements for two or more governmental agencies to cooperate on an issue/activity.

Accounting System: Records and procedures which are used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis of Accounting: A basis of accounting in which transactions are recognized at the time they are incurred, as opposed to when cash is received or spent.

Activity: A specific type of work or group of tasks performed by one or more organized units of the government. An example would be Street Maintenance.

Ad Valorem Taxes: Commonly referred to as property taxes, are levied on both real and personal property according to the property's valuation and tax rate.

Allot: To divide an appropriation into amounts which may be encumbered or expended during an allotment period.

Alternatives: This term means other possible activities or uses of funding besides those already decided upon or being considered. It also suggests the comparison between two or more possible approaches toward fulfilling the same purpose, goal or objective.

Amortization: The gradual elimination of an asset or liability, such as a bond premium, over a specified period of time.

Annualize: Taking changes that occurred mid- year and calculating their cost for a full year, for the purpose of preparing an annual budget.

Appropriation: A legal authorization to incur obligations and to make expenditures for specific purposes.

Assessed Valuation: A value established for real property for use as a basis for levying property taxes.

Assessment Ratio: The ratio at which the tax rate is applied to the tax base.

Assets: Resources owned or held by the City which has a monetary value.

Attrition: A method of achieving a reduction in personnel by not refilling the positions vacated through resignation, reassignment, transfer, retirement, or means other than layoffs.

Audit: Examination by an independent party of the City's financial books, records, accounts, funds, and securities for purposes of determining evidence of the accuracy and correctness of financial statements and ensuring management has effectively and efficiently performed responsibilities.

Authorized Positions: Employee positions which are authorized in the adopted budget to be filled during the year.

Balanced Budget: Occurs when planned expenditures equal anticipated revenues.

Base Budget: Cost of continuing the existing levels of service in the current budget year.

Bond Funds: Resources derived from issuance of bonds for specific purposes and related Federal project grants used to finance capital expenditures.

Bond Rating: A rating (made by an established bond rating company) from a schedule of grades indicating the probability of timely repayment of principal and interest on bonds issued. City of Dubuque has an Aa2 rating from Moody's Investor Services.

Bond: A long-term promise to pay a sum of money (the face amount of the bond) on a specific date(s) (the bond maturity date) at a specified interest rate.

Bonding Capacity - Debt Capacity: The State limit for general obligation debt is 5% of assessed valuation.

Bond Refinancing: The payoff and re-issuance of bonds, to obtain better interest rates and/or bond conditions.

Budget: A plan of financial operation and estimated expenditures for a specific period of time, and the monies to be used to finance the expenditures. The City of Dubuque Operating Budget is a plan for the period form July 1 through June 30.

Budget Amendment: Any change in expenditure budgets, which result in a net increase or decrease in the total dollar amount budgeted at the fund level.

Budgetary Basis: This refers to the basis of accounting used to estimate financing sources and uses in the budget. This generally takes one of three forms: GAAP, cash, or modified accrual.

Budget Calendar: The schedule of key dates or milestones, which the City follows in the preparation and adoption of the budget.

Budget Carryover: Funds unused during a financial year which are transferred to the budget for the following year.

Budgetary Control: The control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

Budget Document (Program and Financial Plan): The official written statement prepared by the City staff reflecting the decisions made by the Council in their budget deliberations.

Budget Message: The City Manager's summary of the salient issues of the budget he is recommending to the City Council for their adoption. The message highlights the City Manager's views of the major aspects of the budget and provides the city Council with an overview of the major fiscal policies incorporated in the recommended budget, or which may impact future recommended budgets.

Capital Assets: Asset of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Expenditures: Purchases of building, improvements other than buildings, machinery, and equipment with a value over $500 and a useful life in excess of one year.

Capital Improvements: Expenditures related to the acquisition, expansion or rehabilitation of an element of the government's physical plant; sometimes referred to as infrastructure.

Capital Improvement Program (CIP): A long- range plan for providing the capital outlays necessary to insure that adequate services are provided to the residents of the City. The plan includes improvements to, or the acquisition of, structural improvements and major equipment purchases.

Capital Improvement Projects: The specific projects that make up the Capital Improvements Program. The projects involve the construction, purchase, or renovation of city facilities or property. They are generally nonrecurring major improvements to the City's physical plant, which necessitate long-term financing and are permanent in nature.

Capital Outlay: Expenditures for fixed assets, such as equipment, remodeling, minor building improvements, and vehicles, that are funded from the operating budget. Since long-term financing is not necessary and expenditures of this type are of such recurring character, these items are not part of the Capital Improvement Program.

Capital Project: A major expenditure for a public improvement that is of such magnitude as to be considered a part of the City's five-year Capital Improvement Program. Such expenditures typically include City infrastructure construction projects, and would normally have an estimated useful life of a minimum of 10-15 years. Capital projects are summarized in the City's Operating Budget and detailed in the City's Capital Improvement Program document.

Capital Projects Funds: These funds account for the financial resources to be used for the acquisition and/or construction of major facilities (usually over $10,000), other than those financed by proprietary funds. Each year the City appropriates money for the work to be completed that fiscal year; fund balances are designated for the completion of the projects over a period of years. Examples are fire stations, streets, water and sewer lines, etc. These funds use the modified accrual basis of accounting. Revenues are recognized in Capital Projects Funds when they become measurable and available to finance expenditures for the current period (such as when bonds are sold). Expenditures are recognized when the related liability is incurred.

Capital Reserve: An account used to segregate a portion of the government's equity to be used for future capital program expenditures. The amount of capital reserve is roughly equal to the government's annual equipment depreciation and an amount identified as being needed for future capital acquisition.

Cash: For purposes of our financial management system, cash refers to money, revenue, or fund balances available in the City treasury for financing an activity or project.

Cash Basis of Accounting: The basis of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Clearing Account: An intermediary account used to initially accumulate direct expenditures for subsequent charging to other officially reported accounts. These accounts are used in situations in which allocations are made to the reporting accounts on a percentage basis, and usually involve the ultimate distribution of expenses to a number of different accounts.

Collective Bargaining Agreement: A legal contract between the employer and a verified representative of a recognized bargaining unit for specific terms and conditions of employment (e.g., hours, working conditions, salary, fringe benefits, and matters affecting health and safety of employees.)

Commission of Accreditation for Law Enforcement Agencies (CALEA): Credentialing authority (accreditation), based in the United States, whose primary mission is to accredit public safety agencies, namely law enforcement agencies, training academies, communications centers, and campus public safety agencies.

Commodities: Items or supplies needed for routine maintenance and operations. They include cleaning, maintenance and office supplies, repair materials, minor equipment, and tools.

Community Development Block Grant (CDBG): A grant that is funded by the federal government through the Housing and Urban Development agency to the State of Iowa and then administered through the Iowa Department of Economic Development.

Community Orientated Policing Services (COPS): component of the U.S. Department of Justice responsible for advancing the practice of community policing by the nation's state, local, territorial, and tribal law enforcement agencies through information and grant resources.

Comprehensive Annual Financial Report (CAFR): the financial report of a state, municipal or other governmental entity that complies with the accounting requirements promulgated by the Government Accounting Standards Board (GASB). GASB provides standards for the content of a CAFR in its annually updated publication Codification of Governmental Accounting and Financial Reporting Standards. A CAFR is compiled by a state, municipal or other governmental accounting staff and audited by an external American Institute of Certified Public Accountants (AICPA) certified accounting firm utilizing GASB requirements. It is composed of three sections: introductory, financial and statistical. It combines the financial information of fund accounting and enterprise authorities accounting.

Constant or Real Dollars: The presentation of dollar amounts adjusted for inflation to reflect the real purchasing power of money as compared to a certain point in time in the past.

Consumer Price Index: A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e. economic inflation).

Contingency Funds: A reserve of monies set aside within the General Fund for emergency or unexpected expenditures. This is also called the Emergency Reserve.

Contractual Services: Services rendered to a government by private firms, individuals, or other governmental agencies. Examples include utilities, rent, maintenance agreement, and professional consulting services.

Cost-of-living Adjustment (COLA): an increase in salaries to offset the adverse effect of inflation on compensation.

Debt Retirement/Redemption: The expenditure of funds for the retirement of all, or a portion of, the principal amount of a long-term financial obligation of the City.

Debt Service Fund: The fund which accounts for the payment of interest and principal on all general obligation debt other than that payable from special assessments and revenue debt issued for a governmental enterprise.

Dedicated Tax: A tax levy to support a specific government program or purpose.

Deferred Compensation: Income deferred until retirement age.

Deficit: the excess of an entity's liabilities over its assets or the excess of expenditures or expenses over revenues during a single accounting period.

Department: The basic organizational unit of government which is functionally unique in its delivery of services.

Depreciation: Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence.

Development-related fees: Those fees and charges generated by building, development and growth in a community. Included are building and street permits, development review fees, and zoning, platting and subdivision fees.

Direct Revenues: Revenues earned by a specific General Fund division in the course of performing their assigned duties.

Disbursement: The expenditure of monies from an account.

Distinguished Budget Presentation Awards Program: A voluntary awards program administered by the Government Finance Officers Association to encourage governments to prepare effective budget documents.

Division: A major administrative organizational unit of the City which indicates overall management responsibility of one or more activities.

Employee (or Fringe) Benefits: Contributions made by a government to meet commitments or obligations for employee fringe benefits. Included are the government's share of costs for Social Security and the various pension, medical, and life insurance plans.

Encumbrances: Obligations in the form of purchase orders, contracts or salary commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved by an accounting entry.

Enterprise Fund: Those funds established to finance and account for acquisition, operation and maintenance of governmental operations which are predominantly self-supporting by user charges. Such operations must be run in a manner similar to private business. Examples are the Water Utility Operation and Solid Waste Collection.

Entitlements: Payments to which local governmental units are entitled, pursuant to an allocation formula determined by the agency providing the monies, usually the state or the federal government.

Expenditures: Funds spent in accordance with budgeted appropriations on goods and services obtained.

Expense: Charges incurred (whether paid immediately or unpaid) for operations, maintenance, interest or other charges.

Federal Emergency Management Agency (FEMA): Coordinates the federal government's role in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters, whether natural or man-made, including acts of terror.

Fiscal Policy: A government's policies with respect to revenues, spending, and debt management as these relate to government services, programs and capital investment. Fiscal policy provides an agreed-upon set of principles for the planning and programming of government budgets and their funding.

Fiscal Year (FY): The 12-month period to which the operating budget applies, and the period of time at the end of which the government determines it financial condition. For the City of Dubuque, this is July 1 through June 30.

Fixed Assets: Assets of a long-term character, which are intended to be held or used, such as land, buildings, machinery, furniture and other equipment.

Full Faith and Credit: A pledge of a government's taxing power to repay debt obligations.

Full-Time Equivalent (F.T.E.): A measure of authorized personnel calculated by equating 2,080 hours of work per year with the F.T.E. of one position.

Function: A group of related activities aimed at accomplishing a major service or regulatory program for which a government is responsible (e.g. public safety).

Fund: An accounting term referring to a group of accounts recording all financial resources together with correspondence liabilities, which has a distinct balance and is used to segregate specific activities and functions from those of other groups of accounts.

Fund Balance: The balance that remains in a fund on a given date after all expenditures have been made. This balance shows the fund equity.

General Fund: The fund used to account for all financial resources and liabilities that are not required to be accounted for in another fund.

General Obligation Bonds: Bonds backed by the full faith and credit of the issuing government. Repayment of these bonds is based on the government's ability to tax its residents for such purposes.

General Revenues: Revenues deposited in the General Fund and shared by the General Fund divisions.

Generally Accepted Accounting Principles (GAAP): Accounting principles that are commonly used in preparing financial statements and generally accepted by the readers of those statements.

Geographic Information System (GIS): System designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data.

Global Positioning System (GPS): Satellite-based radio navigation system owned by the United States Government and operated by the United States Air Force. It is a global navigation satellite system that provides geolocation and time information to a GPS receiver anywhere on or near the Earth where there is unobstructed line of sight to four or more GPS satellites.

Goal: A desirable end, condition, accomplishment and/or development, the attainment of which may never be fully realized, towards which organizational effort is expended according to assigned responsibilities, available resources and prepared plans. Goals are attained by means of objectives. Goals are broadly stated and useful in evaluating resource allocation decisions. For example, the Goal for the Park Areas and Maintenance Activity of the Park Division of Parks and Recreation s Department is to develop and maintain safe, clean, functional and attractive park and recreational facilities to meet the passive and active leisure time needs for all residents and visitors.

Government Accounting Standards Board (GASB): They are the authoritative source of GAAP for state and local government.

Governmental Funds: Funds generally used to account for tax-supported activities. There are five different types of governmental funds: the general fund, special revenue funds, debt service funds, capital project funds, and permanent funds.

Grant: A contribution by a government or other organization to support a particular function. Grants may be classified as either operational or capital, depending upon the grantee.

Improvement Package: One or more objectives of an activity, which represents a standalone alternative or decision. For example, the Base Level Increment of a particular activity may have twelve objectives. Some of these objectives may be interrelated and the twelve objectives may represent only four choices or stand alone improvement packages. You may have one improvement package with one objective, two improvement packages with four objectives each and one improvement package with three objectives. The important thing is that the improvement package includes one or more stand alone objectives and is not dependent upon the approval of any other improvement package.

Indirect Cost: A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

Infrastructure: The physical assets of a government (e.g. streets, water, sewer, public buildings, and parks).

Interfund Transfers: A transfer from a fund receiving the revenue, to a fund through which the authorized expenditure is to be made. An example would be a transfer of revenue from the Road Use Tax Fund to the Street Construction Fund.

Intergovernmental Revenue: Funds received from federal, state and other local government sources in the form of grants, shared revenues, and payments in lieu of taxes.

Internal Service Charges: Goods or services provided by one department to others within the same government or to other governments, on a user fee basis, with full costs to be recovered. An example of this would be the City's Garage Service.

International City/County Management Association (ICMA): Advances professional local government through leadership, management, innovation, and ethics. Provides member support; publications; data and information; peer and results-orientated assistance; and training and professional development to over 11,000 city, town, and county managers, their staffs, and other individuals and organizations throughout the world.

Iowa Communities Assurance Pool (ICAP): The organization the City holds membership to cover its liability insurance.

Iowa Department of Natural Resources (IDNR): Agency that manages fish and wildlife programs, ensures the health of Iowa's forests and prairies, and provides recreational opportunities in Iowa's state parks. The DNR carries out state and federal laws that protect air, land and water through technical assistance, permitting and compliance programs. The IDNR also encourages the enjoyment and stewardship of natural resources among Iowans through outreach and education.

Iowa Department of Transportation (IDOT): Agency that is responsible for the organization, construction, and maintenance of the primary highway system. Located in Ames, IA, the IDOT is also responsible for licensing drivers and programming and planning for aviation, rail and public transit.

Iowa Economic Development Authority (IEDA): Mission is to strengthen economic and community vitality by building partnerships and leveraging resources to make Iowa the choice for people and business. Two main divisions, business development and community development. IEDA administers several state and federal programs to meet its goal of assisting individuals, communities and businesses.

Iowa League of Cities (ILC): Through membership services, research, publications, trainings and other collaborations, the Iowa League of Cities provides guidance and serves as the resource for member cities.

Iowa Municipal Finance Officers Association (IMFOA): An association of city clerks and municipal finance officers in Iowa. The purpose of IMFOA is to conduct regular instructional and informational meetings, as often as deemed necessary by the Board of Directors, for the purpose of educating municipal officers in the keeping of public records and for any other purpose deemed to be in the best interest of the public.

Lapsing Appropriation: An appropriation made for a certain period of time, generally for the budget year. At the end of the specified period, and unexpected or unencumbered balance lapses or ends, unless otherwise provided by law.

Levy: The amount of taxes, assessments or service charges imposed by a government. The maximum General Fund property tax levy allowed in Iowa is $8.10 per $1,000 of assessed valuation. Other levies may be imposed in addition to this.

Liabilities: Debts or other legal obligations arising out of transactions in the past, which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

Line-item Budget: A budget prepared along departmental lines that focuses on what is to be bought.

Local Option Sales Tax: A tax approved by a majority of the City’s registered voters, which collects revenue according to a percentage of the value of goods and services delivered within the corporate limits. In Dubuque, the local option sales tax applies to those goods and services to which the State of Iowa sales tax applies.

Long-term Debt: Debt with maturity of more than one year after the date of issuance.

Major Fund: Governmental fund or enterprise fund reported as a separate column in a governmental entity's basic fund financial statements and subject to a separate opinion in the independent auditor's report.

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each $1,000 of assessed property valuation.

Modified Accrual Accounting: The accrual basis of accounting modified to the governmental fund type spending measurement focus. Under it, revenues are recognized when they become both “measurable” and “available to finance expenditures of the current period.” Expenditures are recognized when the related fund liability is incurred except for: (1) prepaid insurance and similar items; (2) accumulated unpaid vacation, sick pay, and other employee benefit amounts which need not be recognized in the current period, but for which larger-than- normal accumulations must be disclosed in the notes to the financial statements; and (3) principal and interest on long-term debt which are generally recognized when due.

Municipal Fire and Police Retirement System of Iowa (MFPRSI): Provides pension benefits for municipal police officers and fire fighters in Iowa. MFPRSI is a defined benefit public retirement system created by Iowa statute.

Net Budget: The legally adopted budget less all interfund transfers and interdepartmental charges.

Nominal Dollars: The presentation of dollar amounts not adjusted for inflation. Adjusting for inflation would be done to reflect the real purchasing power of money today.

Non-Major Fund: Funds are considered non-major funds if they are less than 10% of Borough assets, liabilities, revenues and expenditures.

Object of Expenditure: An expenditure classification, referring to the lowest and most detailed level of classification, such as electricity, office supplies, asphalt, and furniture.

Objective: A statement of results to be accomplished during the fiscal year in support of the broader goal. Objectives are major steps towards accomplishing established goals. An Objective should state the result to be achieved or accomplished, the time frame, the cost and the action step.

Obligations: Amounts which a government may be legally required to meet out of its resources. They include not only actual liabilities, but also encumbrances not yet paid.

Operating Budget: The City’s financial plan that outlines proposed expenditures for the coming fiscal year and estimates the revenues which will be used to finance them.

Operating Expenses: Those expenses from a fund which are directly related to accomplishing the fund’s primary functions. Payroll would be one example of an operating expense.

Operating Revenues: Funds that the government receives as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services.

Other Post-Employment Benefits (OPEB): All types of post-employment benefits not offered as an integral part of a pension plan, as well as all forms of post-employment health care.

Output Indicator: A unit of work accomplished, without reference to the resources required to do the work (e.g. number of permits issued, number of refuse collections made, or number of burglary arrests made). Output indicators do not reflect the effectiveness or efficiency of the work performed.

Pay-as-you-go Basis: A term used to describe a financial policy by which capital outlays are financed from current revenues rather than through borrowing.

Pay Plan: Classifications and corresponding salary ranges of positions within the City government.

PILOT: Payment in lieu of taxes. These are payments, primarily from enterprise fund operations, that reimburse the general fund for the property tax that would have been paid if the enterprise funds were for-profit companies.

Performance Budget: A budget wherein expenditures are based primarily upon measurable performance of activities and work programs.

Performance Indicators: Specific quantitative and qualitative measures of work performed as an objective of specific departments or programs.

Performance Measures: Numbers that transmit some information about the quality or quantity of services provided by the City government. The primary reasons for attempting to measure performance are to (1) Provide information for making better decisions; (2) Report on progress made toward established objectives; (3) Improve performance, suggest improvements and change priorities; and (4) Serve as an early warning device by indicating problem areas when they first begin to develop.

Permanent Fund: Fund for resources that are restricted to the extent that only earnings, and not principal, may be used for the benefit of the state or its citizenry. Permanent funds include endowments where the funds or property donated to the City are required by contract, agreement, or trust instrument to be maintained in tact.

Personal Services: A General Fund expenditure category that includes all wages and benefits paid to employees.

Post-Employment Benefits: Payments made directly to former employees or their beneficiaries, or to third parties on their behalf as compensation for services rendered while they were still active employees.

Prior-Year Encumbrance: Obligations from previous fiscal years in the form of purchase orders, contacts or salary commitments which are chargeable to an appropriation, and for which a part of the appropriation is reserved. They cease to be encumbrance when the obligations are paid or otherwise terminated.

Program: A grouping of related work tasks or activities into a large organizational unit. An example of a program is the Public Safety Program.

Program Budget: A budget which allocates money to the functions or activities of a government rather than to specific items of cost or to specific departments.

Program Performance Budget: A method of budgeting whereby the services provided to the residents are broken down in identifiable service programs or performance units. A unit can be a department, a division, or a work group. Each program has an identifiable service or output and objectives to effectively provide the service. The effectiveness and efficiency of providing the service by the program is measured by performance indicators.

Program Revenue (Income): Revenues earned by a program, including fees for services, license and permit fees, and fines.

Property Taxes: An ad valorem tax levied on both real and personal property according to the property's valuation and the tax rate.

Proprietary Funds: Funds that focus on the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. There are two types of proprietary funds: enterprise funds and internal service funds.

Public Transit Fund: This fund is a subfund of the General Fund, and is used to account for the receipt and disbursement of property taxes generated by the levy authorized under Section 384.12(19) of the Code of Iowa. The purpose of the levy is to aid Jule Transit.

Purchasing Card (P-Card): This is the City's procurement card program of credit cards for individual City employees.

Purpose: A broad statement of the goals, in terms of meeting public service needs, that a department is organized to meet.

Refunding: The issuance of long term debt in exchange for, or to provide funds for, the retirement of long-term debt already outstanding. Refunding is essentially the “refinancing” of long-term debt.

Reserves: Amounts used to hold certain portions of a fund or types of assets as unappropriated for expenditures, or as legally set aside for a specific purpose.

Resolution: A special or temporary order of a legislative body; and order of a legislative body requiring less legal formality than an ordinance or statute.

Resources: Total amounts available for appropriation including estimated revenues, fund transfers, and beginning balances.

Revenue: Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, shared revenues, and interest income.

Revenue Bonds: Bonds which are repaid in both principal and interest from the earnings of an enterprise fund operation. Storm Water Utility Revenue Bonds would be one example.

Revitalize Iowa’s Sound Economy: (RISE) grant that is funded by the Iowa Department of Transportation for the purpose of providing infrastructure for economic development projects.

Risk Management: The identification and control of risk and liabilities incurred by a local government to conserve resources from accidental loss.

Road Use Tax Fund: This fund accounts for the receipt of state revenues, allocated to the City by the State under a formula, for expenditure within the City for street maintenance/improvement/supervision.

Rollback: The State of Iowa annually adjusts the rollback percentage which is the percentage of the residential assessed valuation which is taxable.

Service Lease: A lease under which the lessor maintains and services the asset.

Service Level: Services or products which comprise actual or expected output of a given program. Focus on results, not measures of workload.

Services and Charges: A category of expenditures used for the purchase of services provided by individuals, businesses or agencies that are not in the direct employ of the City.

Sinking Funds: These funds are used to accumulate monies in order to have adequate amounts available to make required periodic debt service payments. Sinking funds are used in enterprise funds that have outstanding long- term debt.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A levy against a property to pay for all or part of the cost of an improvement benefiting that property.

Special Revenue Funds: Special revenue funds are used to account to the proceeds of specific revenue sources that are legally restricted to expenditures for particular purposes.

Subsidy: Financial aid given to a governmental unit by another governmental unit.

Supplies and Services: Expendable materials and operating supplies necessary to conduct departmental operations.

Target Budget: Desirable expenditure levels provided to departments in developing the coming year's recommended budget. Based on the prior year's adopted budget, excluding one- time expenditures, projected revenues, and reserve requirements.

Tax Increment Financing Funds: These funds are used to account for receipt of property taxes allocated to various tax increment financing districts and used to pay the principal and interest on tax increment debt, as well as to make major infrastructure expenditures.

Tax Levy: The resultant product when the tax rate per $1,000 is multiplied by the tax base.

Tax Rate: The amount of tax stated in terms of a unit of the tax base, for example, dollars per $1,000 of assessed valuation.

Taxes: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people. This term does not include specific charges made against particular persons or property for current or permanent benefit, such as special assessments.

Tort Liability: A tort is a wrong against an individual or property that is neither a crime nor a violation of contract. A court could find the City liable or responsible when a tort occurs on City property, as a result of the actions of a City employee, or the function of a City operated activity. The City levies a special tax to purchase tort liability and to cover the cost of tort damages for which the City is found responsible.

Transfers: Involves the movement of money between City funds.

Trust and Agency Funds: Funds used to account for assets held by the government in a trustee capacity, for individuals or other groups associated with the government. Agency monies or assets are held by a government. Agency monies or assets are held by a government acting as an agent acting as an agent for others, i.e. Landfill.

Unamortized Premium and Discount: when bonds are sold, the difference in the price above par or face value (premium) or below par (discount) is recognized over the life of the bonds. The amount of the premium or discount not yet recognized is called the unamortized premium or discount.

Unencumbered Balance: The amount of an appropriation that is neither expended nor encumbered. It is essentially the amount of money still available for future purposes.

Unreserved Fund Balance: The portion of a fund's balance that is not restricted for a specific purpose and is available for general appropriations.

User Charges: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

Variable Cost: A cost that increases/decreases with increases/decreases in the amount of service provided such as the payment of a salary.

Valuation: The official value established for various properties within set State guidelines, for taxation purposes. The assessed valuation of property is that portion of the property's value upon which taxes are levied.

Working Cash: Excess of readily available assets over current liabilities or cash on hand equivalents which may be used to satisfy cash flow needs.

Workload Indicator: A unit of work to be done (e.g. number of permit applications received, the number of households receiving refuse collection service, or the number of burglaries to be investigated).

Work Years: The amount of personnel resources required for a program expressed in terms of the "full-time equivalent" number of employees. One "work year" is equal to one full- time, year round employee. For most categories, this equals 2,080 hours per year (40 hours per week times 52 weeks). The number of hours a part-time employee is budgeted to work during the year is divided by 2,080 to arrive at the equivalent number of "work years" for the position.

Percent Increase (Decrease)				3.3 %
Personnel - Authorized FTE	**10.42**	**9.67**	**9.67**	

Improvement Package Summary

1 of 4

This improvement package request is for another extension of the limited term position of the Climate Action Coordinator, currently a 1-FTE, 3-year limited term position, extended through FY26. Previous attempts to make this a permanent position have failed so this request is a one-year extension. While permanency is still desired, current funding opportunities keep this position to a limited term. This position is responsible for the implementation of the 50% by 2030 Community Climate Action and Resiliency Plan directly responsible for reduction of greenhouse gas emissions. The funding would be used to continue this position beyond the scope of the limited term. This position has greatly increased the capacity of the Office of Sustainability to implement the climate action plan, engage with residents, advance justice, build resiliency, and support departments in moving forward the actions in the 50% by 2030 Plan.

Using FY 2026 rates, the non-recurring cost of this position for wages and benefits is $103,954. This improvement package request only includes funding for wages and benefits, as technology such as a computer and iPad already exist for this position on the maintenance level. This improvement package request will be funded using Inflation Reduction Act funds.

The Climate Action Coordinator has spearheaded the Bloomberg Youth Climate Action Fund program, harnessing $150,000 for our local economy to support youth climate action. The 130+ hours spent supporting the project would not have been possible without this position. Additionally, the position supports the greenhouse gas inventory process, has completed a municipal building inventory and gathers and analyzes monthly data related to energy use for all city-owned buildings, plans and implements community-wide events, implements grant funded projects, and piloted a commercial building and residential energy efficiency program. The position has completed various other projects and

programs and supported the Sustainability Office in reaching more residents, advancing climate actions and attending to impacts of climate change.

This budget item came directly from a recommendation from the Resilient Community Advisory Commission. This improvement package supports the City Council goal of Financially Responsible, High Performance City Organization: Sustainable and Effective Service Delivery as well as Sustainable Environment: Preserving and Enhancing Natural Resources.

Related Cost:	$103,737	Inflation Reduction Act Funds	Non-Recurring	**Recommend - Yes**
Net Cost:	$103,737			
Activity: Sustainability				

2 of 4

This improvement package request is to retain a consultant to complete the transition of our organizational culture/emotional intelligence work from consultant-led to a sustainable internal management strategy, while retaining consultant support for specific services deemed inappropriate for staff to do.

For the past two years, the City has contracted with Vidl Solutions to conduct trainings for all City staff and executive coaching for department managers and leadership team. The impact of their work has transformed our organization development and professional development strategies. As the City concludes the contract with Vidl Solutions, we have identified that 1) we need to ensure that a number of City staff are certified and capable to continue to lead this organization development work, and 2) we retain the services of outside executive coaches who can deliver confidential and objective coaching services for our department managers. From 2018 to present, Police Chief Jeremy Jensen has led the development of the City's emotional intelligence (EQ) work, facilitating trainings, organizing work plans, and getting certified as an EQ coach. Chief Jensen will be retiring in August 2026.

City Core Team members are working with Vidl Solutions and Chief Jensen in FY2026 to integrate this work into future operations as we continue to prioritize organization culture and employee recruitment, development, and retention. In order to do this, this package requests non-recurring funding to aid in the transition year. The consultant would assist with curriculum and program development, build the capacity of the City's internal facilitation and training team, and complete individual executive coaching in instances where an external coach is appropriate. Coaching would focus on leadership development, strategic execution, and department performance improvement; be rooted in emotional intelligence principles; and utilize Six Seconds EQ assessment tools available to certified individuals.

This package helps to achieve the City Council Goal of a Financially Responsible, High Performing Organization and specifically helps complete work on the 2023 and 2024 Council High Priority of City Workforce Retention & Attraction.

Net Cost:	$ 8,712			
Activity: Administration				

3 of 4

This improvement package request is to eliminate the Growing Sustainable Communities Conference from the City / Sustainability budget. As staff developed updated cost estimates both significant cost increases and reduced momentum were noted following a skipped year, particularly related to sponsorships. Attendance has declined since the pandemic, with only 131 attendees paying the non-discounted registration rate at the most recent conference. Additionally, sponsorship revenue decreased by 6.2% from 2024 to 2025. These trends raise serious concerns about the City's ability to fund the conference sustainably.

Further causes for concern include the anticipated increases in space rental and catering costs; transportation challenges, particularly due to the absence of a commercial air service; and planning partner's need for a guaranteed funding level.

The long-standing value, reputation, and impact of the Growing Sustainable Communities Conference and the critical role it has played in advancing sustainability leadership remains however, given current financial constraints, rising costs, declining attendance and sponsorship revenue, the City will discontinue the Growing Sustainable Communities Conference.

This improvement package supports the City Council goal of Financially Responsible, High-Performance City Organization.

4 of 4

This improvement package request is to fund the Energy Savers Program which serves Dubuque residents who are income-eligible homeowners and landlords with income-eligible tenants. The program provides a qualified contractor and covers material and labor costs for heat source and/or water heater replacements up to certain thresholds to support replacement of outdated and inefficient heat sources & water heaters.

The program provides both financial savings to vulnerable residents while also helping to meet our greenhouse gas reduction goal. Greenhouse gas savings will be calculated for first round of participants as replacement work begins in FY26. The current program received 25 applications in the first week and a waitlist for future applicants was started.

The estimate for addressing the applicants in the queue as well as future applicants in FY27 is $85,000, requested as a non-recurring expense. This improvement package request will be funded using Inflation Reduction Act funds. Combined savings for individual households and emissions savings will be calculated as data is collected during FY26 program but is unavailable at this time.

This improvement package supports the City Council goal of Robust Local Economy (helping to reduce poverty) as well as the goal of Sustainable Environment: Preserving and Enhancing Natural Resources thought greenhouse gas reduction.

Related Cost:	$ 85,000	Inflation Reduction Act Funds	Non-Recurring	**Recommend - Yes**
Net Cost:	$ 85,000			
Activity: Sustainability				

Significant Line Items

Employee Expense

1. FY 2027 employee expense reflects a 3% wage package increase for non-bargaining employees.
2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2026. The employee contribution of 6.29% is unchanged from FY 2026.
3. The City portion of health insurance expense is increased from $1,119 in FY 2026 to $1,175 in FY 2027 per month, per contract, which results in an annual cost decreased by $(1,344) or (1)%. The increase per contract is due to the city contribution increasing 5.00% because of increasing health costs and the decrease in annual cost is due to the decreased number of contracts.
4. Overtime expense is unchanged from $3,400 FY 2026 to $3,400 in FY 2027. FY 2025 actual was $4.
5. 50% Sick Leave Payout increased from $6,374 in FY 2026 to $7,637 in FY 2027. FY 2025 actual was $7,397. Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out.

Supplies & Services

6. Other Professional Services increased from $185,494 in FY 2026 to $187,104 in FY 2027. This line item includes the annual goal setting for City Council and department managers ($38,110), Council work session meals ($8,994), and consulting for grant writing services ($110,000). The overall decrease to this line item is due to the bi-annual community survey ($13,390) and bi-annual City Council governance session ($15,000) that are scheduled in even-numbered fiscal years only, therefore, they were budgeted in FY 2026 but are not included in FY 2027.
7. Education Reimbursement is increased from $83,364 in FY 2026 to $84,350 in FY 2027. This line item represents various professional development activities for the Leadership Team, High Performance Government Ambassadors, the Grant Analyst, Sustainability staff, and Department Managers.
8. Meetings & Conferences is unchanged from $65,477 in FY 2026 to $65,477 in FY 2027. This line item represents the travel costs for official city business, which includes Northeast Iowa Regional Managers' meetings, Washington D.C. and Des Moines legislative trips, and various conferences for the City Manager, Assistant City Manager, Executive Assistant, Director of Strategic Partnerships, and Sustainability Director.
9. Speakers is decreased from $75,000 in FY 2026 to $0 in FY 2027. This line item represents the expense for hosting the bi-annual Growing Sustainable Communities Conference. The FY 2025 actual was $71,463. The expenses of hosting the conference are fully offset by the registration fees received for the conference as well as event sponsorships coordinated with community partners. Those revenues are located in the Program Fees revenue line item.
10. Pay to Other Agency increased from $10,000 in FY 2026 to $97,000 in FY 2027. In FY 2027, this line item includes the GreenCorps local match ($12,000) and the recommended Energy Savers improvement package ($85,000).
11. Grants expense unchanged from $25,000 in FY 2025 to $25,000 in FY 2026. This line represents the Sustainable Dubuque Grants program, a program that assists non-profits, businesses, clubs, organizations and groups of residents in implementing their ideas to make Dubuque a more sustainable place.

12. Association Dues decreased from $30,465 in FY 2026 to $23,868 in FY 2027. This line item includes a wide variety of memberships and dues, such as the National League of Cities membership, International City/County Management Association (ICMA) memberships, Women's Leadership Network membership, and Mississippi River Cities and Town initiatives.

13. Employee Recognition expense unchanged from $23,717 in FY 2026 to $23,717 in FY 2027. This line item represents the employee recognition luncheon and SPIRIT awards costs. The FY 2027 budget is based on FY 2025 actual cost of holding the event at the Grand River Center.

14. IT Recharges decreased from $15,912 in FY 2026 to $8,860 in FY 2027. Departments receive recharges for maintenance agreement costs on City-wide software based on the number of users in their department.

15. Technology Services increased from $1,830 in FY 2026 to $38,840 in FY 2027. This increase is due to the annual government management solution software renewal charge moving from the Communications Office budget to the City Manager's Office Budget in FY 2027. This software allows residents and stakeholders to submit comments and service requests directly to staff and departments responsible for those issues online.

Machinery & Equipment

16. Equipment replacement items include ($4,550):

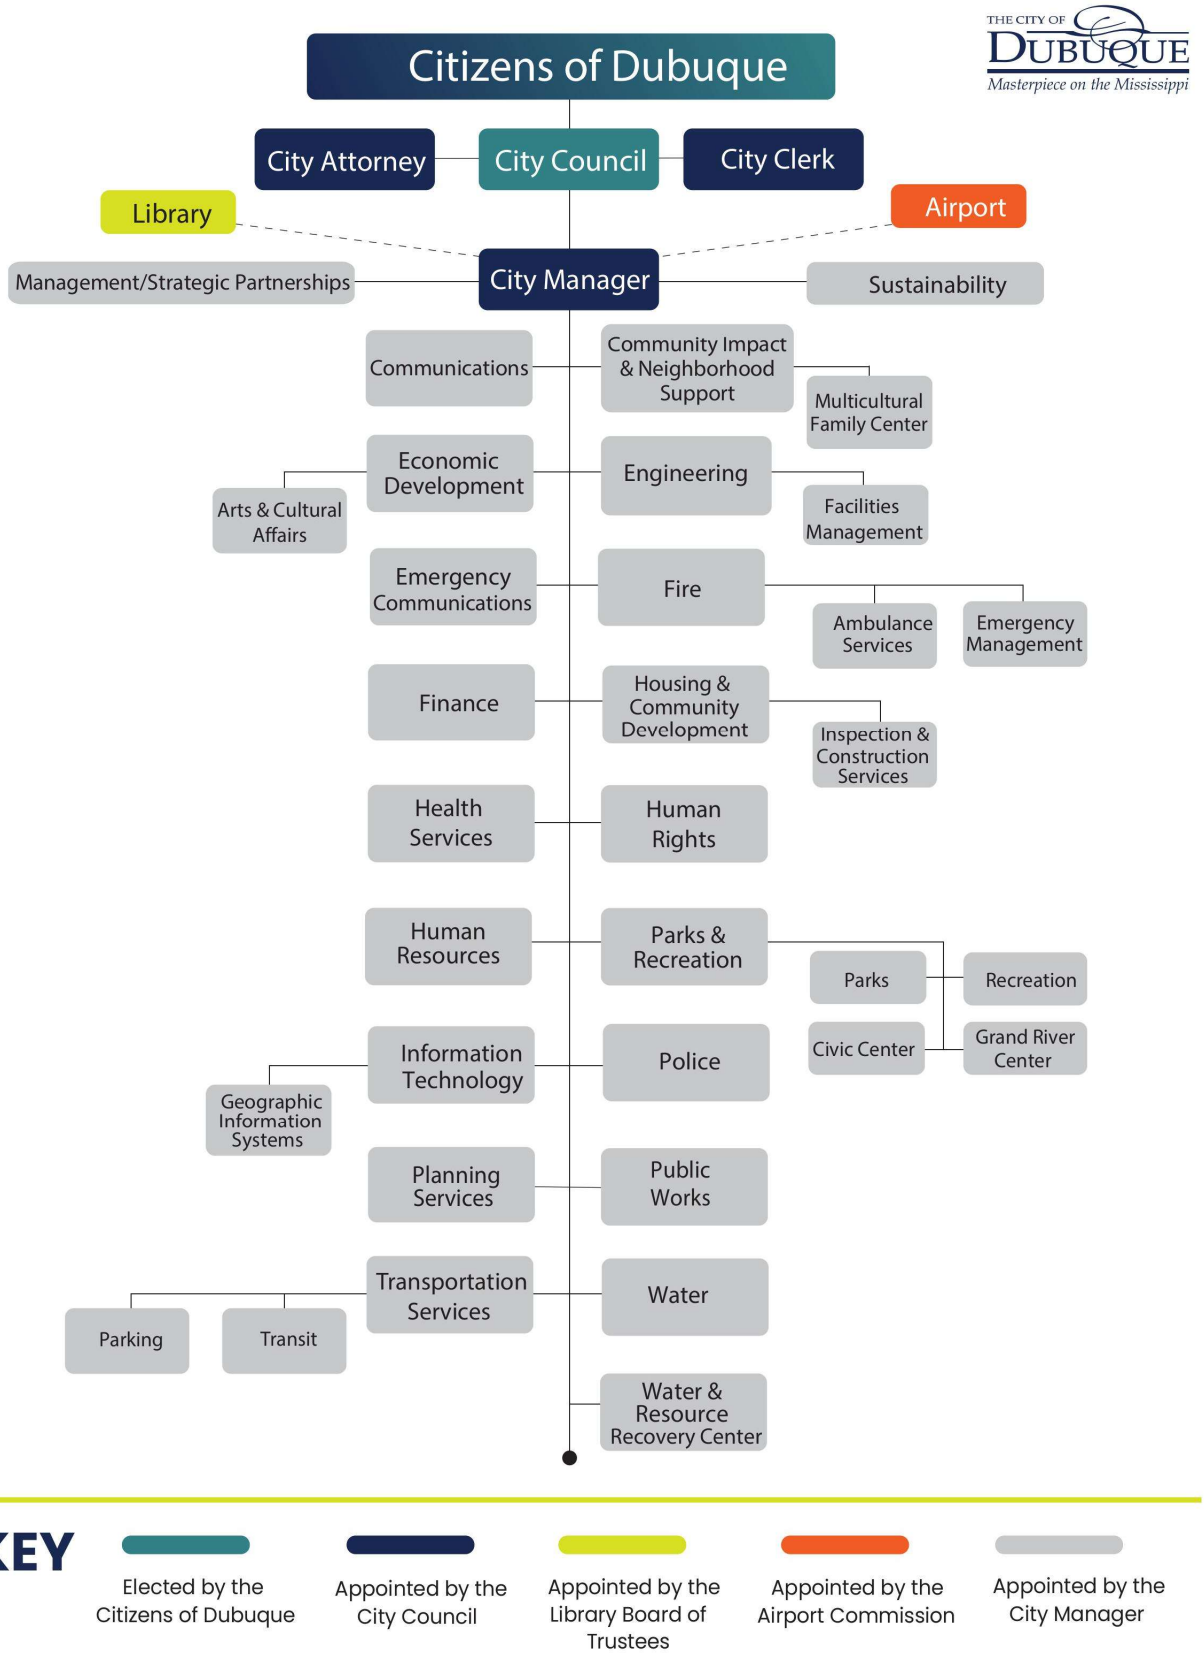

City Manager Machinery and Equipment		
Administration		
Smartphones (4)	$	1,600
Wireless Headset (1)	$	200
Chairs	$	2,350
Chair Mats	$	400
Total Equipment	**$**	**4,550**

Revenue

17. Sustainability Program Fees decreased from $75,000 in FY 2026 to $0 in FY 2027. This line item represents revenue received from the Growing Sustainable Communities Conference registration fees. This revenue fully offsets the expenses of hosting the conference, which are located in the Speakers expense line item. In FY 2026, registration fees will increase to better reflect the cost of the conference, therefore, this revenue will increase. The FY 2025 actual revenue was $27,685.

18. Revenue received from Enterprise Funds for administrative overhead charges has increased from $1,546,634 in FY 2026 to $1,546,768 in FY 2027.

CITY OF DUBUQUE ORGANIZATIONAL CHART

CM004-22326

CITY MANAGER'S OFFICE

The City Manager's Office plans, organizes and manages all activities of the City organization so as to provide leadership so that all City Council priorities, policies, and programs are successfully implemented and effectively managed. This includes the City Council Policy Agenda and Management Agenda to assure quality public services are responsive to the citizens and that we operate as a High Performing Organization.

SUCCESS IS ABOUT PEOPLE, PLANNING AND PARTNERSHIPS LEADING TO OUTCOMES

PEOPLE

- Establish a culture of quality customer service and deliver services that exceed citizen expectations.
- Invest in staff development to improve leadership capacity and increase leadership effectiveness
- Attract, engage and retain a high quality, creative and diverse workforce
- Promote and invest in employee health and safety

PLANNING

Work with all City Departments and Divisions to perform the duties and responsibilities specified in the City Charter to ensure economic prosperity, environmental/ecological integrity and social/cultural vibrancy exist throughout the community and are incorporated into daily activities.

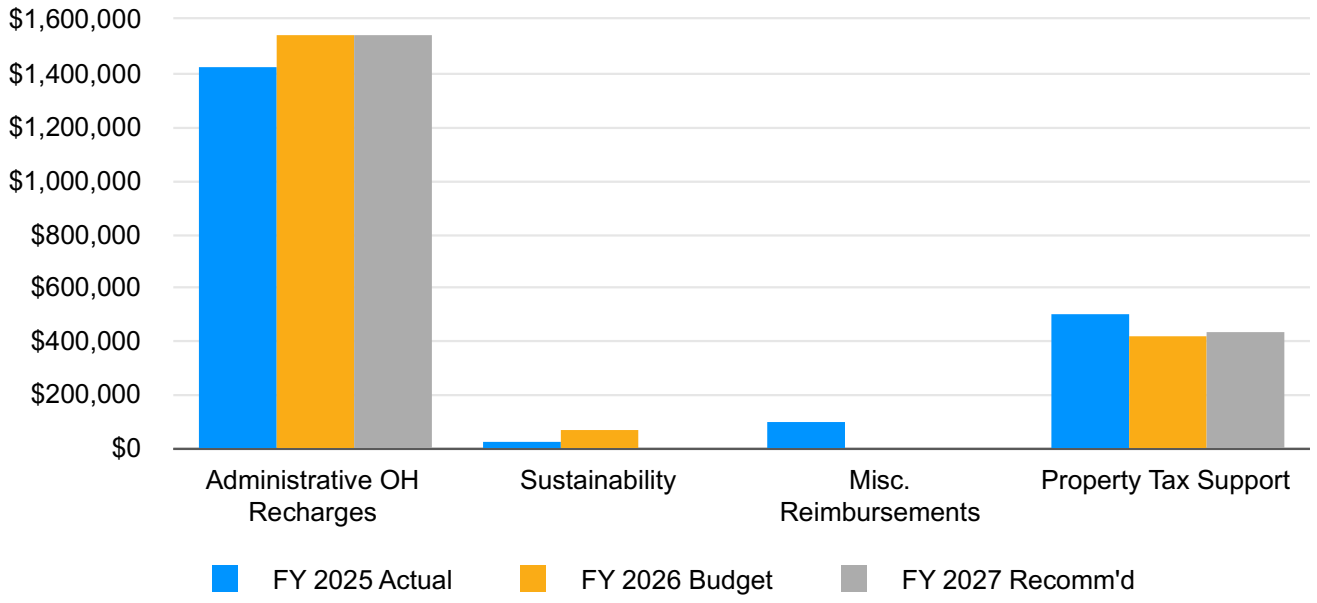

PARTNERSHIPS

- Develop and foster over 50 Local, State, Regional, Federal and National partnerships to implement the City Council's community vision.
- Increase citizen engagement in local governance processes
- Develop team-processes that lead to innovative solutions for community challenges and opportunities

	FY 2025	FY 2026	FY 2027
Full-Time Equivalent	**10.42**	**9.67**	**9.67**

Resources and Property Tax Support

The City Manager's Office is supported by 9.67 full-time equivalent employees, which accounts for 70.44% of the department expense as seen below. Overall, the department's expenses are expected to increase by 6.53% in FY 2027 compared to FY 2026.

Expenditures by Category by Fiscal Year

CITY MANAGER'S OFFICE

Management/Administrative/Legislative

Mission & Services

The City Manager is employed by the City Council to serve as the chief administrative officer of the City. In that capacity the City Manager is responsible by virtue of the Code of Iowa for all personnel functions, enforcement of all laws, advising the City Council, delivery of City services, supervision of all construction contracts and development agreements, financial management and conducting the general business affairs of the City. Management promotes the City's interests in legislative affairs, grant opportunities and active engagement in city activities for employees and the citizens of Dubuque.

Management/Administrative/Legislative Funding Summary			
	FY 2025 Actual	FY 2026 Budget	FY 2027 Requested
Expenditures	$1,592,968	$1,652,536	$1,763,713

% budgeted revenue from property taxes	N/A	11.21%	11.68%	11.75%	N/A

3 Dept. Objective: Maintain an efficient citizen response rate.

Performance Measure (KPI)	Target	CY 2024 Actual	CY25 Actual	CY26 Estimated	Performance Indicator
% of citizen issues resolved in 7 days or less (All departments)	75%	N/A*	62%	75%	**Goal Met**

4 Dept. Objective: Hire & retain a highly-skilled City workforce reflective of the Dubuque community.

Leadership Team demographics	50.3% female 8.3% non-w ('24 Census	36.4% fem, 7.4% non-w	43.2% female, 8.1% non-white	50% fem, 7.5% non-w	**Goal In Progress**

*This KPI was updated this year because of how the new Catalis software runs reports. Therefore we do not have historical data.

CITY MANAGER'S OFFICE

Sustainability

Mission & Services

The Sustainability department provides education, outreach, and coordination on sustainability issues and activities within the City organization as well as throughout the community. Sustainability Office staff work with City departments to ensure capital projects and operating programs meet the sustainability vision identified by the City Council and builds partnerships between the City of Dubuque and national, state and local entities to further sustainability initiatives and to strengthen local leadership.

The Sustainability department hosts the Green Iowa AmeriCorps program, providing energy audits, installation of efficiency products, and education to the community.

Sustainability Funding Summary

Total	**$ 1,207**	**$ —**	**$ —**	0.0%
Property Tax Support	**$ 158,813**	**$ 161,064**	**$ 170,532**	$ 9,468
Percent Increase (Decrease)				5.9%
Personnel - Authorized FTE	**3.50**	**3.50**	**3.50**	

Significant Line Items

Employee Expense

1. After a review by the Mayor and City Council Compensation Task Force, the salaries for council members was increased from $11,100 to $11,799 and the salary for the mayor increased from $14,800 to $15,732 effective January 1, 2026.

2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2026. The employee contribution of 6.29% is unchanged from FY 2026.

3. The fiscal hours budgeted is unchanged from 2,088 hours in FY 2026 to 2,088 in FY 2027. If the number of hours budgeted in a fiscal year increases or decreases, the budget for employee expenses is impacted.

Supplies & Services

4. Meetings & Conferences is unchanged from $35,729 in FY 2026 to $35,729 in FY 2027. This line item includes $1,000 per City Council member for city business meetings and approximately $4,104 per City Council member to attend 1 regional conference, the Iowa League of Cities Summer Conference, and the National League of Cities Congressional Summit in Washington, DC. In addition to these funds, members of the City Council may participate in the Chamber of Commerce Annual Washington DC Fly-in. Funding for that trip is in the Economic Development budget.

5. Association Dues increased from $22,216 in FY 2026 to $22,362 in FY 2027. This line item is based on the actual cost of the membership to Iowa League of Cities ($16,392) and the US Conference of Mayors ($5,970). The cost of these memberships tends to increase each year as the organizations increase membership prices.

6. Technology Services is unchanged from $1,920 in FY 2026 to $1,920 in FY 2027. This line item represents data plans for tablets used by City Council members. The FY 2027 budget includes data plans for 6 tablets as one council member uses a laptop which does not require a data plan.

7. Equipment Maintenance/Repair increased from $430 in FY 2026 to $443 in FY 2027 based on FY 2025 actual + 2%. This line item represents annual emergency radio/battery maintenance for the Mayor and Mayor Pro Tem.

8. Telecommunications increased from $1,596 in FY 2026 to $1,641 in FY 2027. This line item includes monthly emergency radio access fees ($771), council chambers landline ($246), and Mayor's smart phone fee ($624). The increase in this line is due to the emergency radio access fees increasing 3% effective July 1, 2026.

9. General Liability Insurance decreased from $2,786 in FY 2026 to $2,683 in FY 2027 based on information received from the Iowa Communities Assurance Pool (ICAP). The FY 2025 actual was $2,464.

10. IT Recharges increased from $1,496 in FY 2026 to $5,638 in FY 2027. This line item includes recharges for maintenance agreement costs on City-wide software based on the number of users in the department.

Revenue

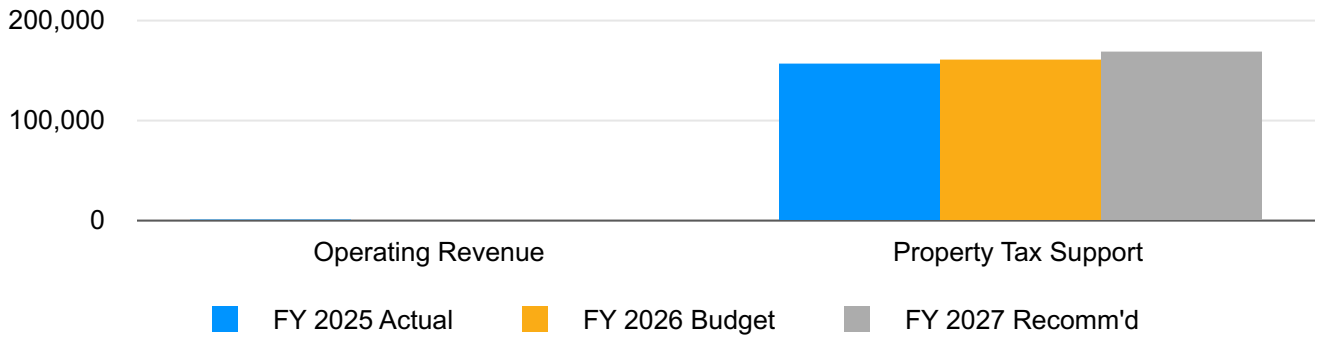

11. Reimbursements Revenue is unchanged from $0 in FY 2026 to $0 in FY 2027. The FY 2025 actual was $1,207. This revenue is unpredictable and very rare. Future revenue is not planned on and therefore not budgeted. In past years, revenue received in this line item has been associated with reimbursements from outside agencies for Mayor speaking engagements and travel expenses.

CITY COUNCIL

Dubuque operates under the council-manager form of local government, which combines the political leadership of elected officials in the form of a city council, with the managerial experience of an appointed local government manager, the city manager.

	FY 2025	FY 2026	FY 2027
Full-Time Equivalent	**3.50**	**3.50**	**3.50**

Resources and Property Tax Support

The City Council is supported by 3.50 full-time equivalent employees, which accounts for 56.32% of the department expense as seen below. Overall, the department's expenses are expected to increase by 5.88% in FY 2027 compared to FY 2026.

Expenditures by Category by Fiscal Year

2025-2027 CITY COUNCIL GOALS & PRIORITIES

The Dubuque City Council completed its annual goal-setting sessions on Thursday, Sept. 25, 2025. Over the course of three evening sessions, City Council members affirmed the 15-year vision statement and mission statement and identified seven five-year goals for the city. They also identified top and high priorities for a 2025-2026 policy agenda as well as in-progress projects and capital projects for 2025-2026.

THE CITY OF DUBUQUE
Masterpiece on the Mississippi

POLICY AGENDA

Policy agenda items are issues that need direction or a policy decision by the City Council, or need a major funding decision by the City Council, or issues that need City Council leadership in the community or with other governmental bodies. The policy agenda is divided into top priorities and high priorities.

2025 - 2027 Top Priorities *(in alphabetical order)*

- Comprehensive Fire Station Location and Facilities Study
- Fire Department Staffing Increases
- Police Department: Full Staffing and Hiring
- Sanitary Sewer Investments and Implementation
  - Catfish Creek Sanitary Sewer Project
  - Cedar Street Lift Station and Force Main
  - Chaplain Schmitt Island Sanitary Sewer
  - Cooper Place/Maiden Lane Project
  - Grove Terrace Project
  - Harvard Street Project
  - Hempstead Street Project
  - Sanitary Sewer Force Main Stabilization Project
  - Sanitary Sewer Consent Decree Compliance
  - Terminal Street Lift Station and Force Main
  - Other projects
- Sports Complex Development
- Stormwater Management Investments and Implementation:
  - 17th and Elm Street Stormwater Project
  - 17th and Locust Street Stormwater Project
  - Bee Branch Gate & Pump Station Project
  - Detention Ponds Maintenance
  - Individual Neighborhood Investments
  - Kaufmann Avenue Storm Sewer Improvements
- Street Maintenance/Rehabilitation Program

2025 - 2027 High Priorities *(in alphabetical order)*

- Continued Implementation of Central Avenue Revitalization Plan
- Downtown Master Plan Update
- Dubuque Law Enforcement Center (DLEC) Short-Term Facility Enhancements and Future Plan
- East-West Corridor/Roundabouts Projects
- Next Phases of Chaplain Schmitt Island Development
- Parks and Recreation Master Plan Adoption and Implementation
- Water Resource and Recovery Center Facility and Process Improvements and Odor Reduction

VISION & MISSION

2040 Vision Statement

Dubuque 2040 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2040 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

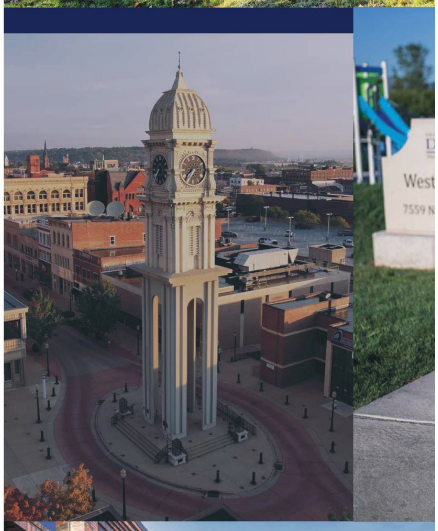

Mission Statement

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

FIVE-YEAR GOALS

- **Healthy and Safe Community**
- **Financially Responsible, High-Performance City Organization:**
  Sustainable, Equitable, and Effective Service Delivery
- **Robust Local Economy:**
  Diverse Businesses and Jobs with Economic Prosperity
- **Livable Neighborhoods and Housing:**
  Great Place to Live
- **Sustainable Environment:**
  Preserving and Enhancing Natural Resources
- **Connected Community:**
  Equitable Transportation, Technology Infrastructure, and Mobility
- **Diverse Arts, Culture, Parks, and Recreation Experiences and Activities**

Improvement Package Summary

1 of 2

This improvement package request is to upgrade the scheduled FY27 replacement of the City Clerk's Office Administrative Support Professional's computer from a desktop to a laptop. The anticipated increase in the operating budget is approximately $300 every five years. This upgrade is critical for maintaining continuity of operations during inclement weather events or other situations requiring remote work. During such events, the office typically receives a high volume of phone calls. A laptop allows staff to securely connect to the City phone system and other necessary applications remotely, ensuring they can respond promptly to questions even when City Hall is closed. This improvement package supports the City Council goal of Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery.

Related Cost:	$	300	GDTIF Loan Repay	Non-Recurring	**Recommend - Yes**
Related Revenue:	$	235	Admin Overhead	Non-Recurring	
Net Cost:	$	65			

Activity: Administration

2 of 2

This improvement package request proposes adjustments to several business licenses and permits administered through the City Clerk's Office. These updates are intended to better reflect the administrative time and compliance oversight required to manage these licenses and permits. The fees affected by this proposal have not been updated in at least a decade, with the exception of the mobile food vendor license, which was established in 2019 and has remained unchanged since.

Proposed Fee Adjustments:

- Taxi Driver Permit Fee: Increase from $10.00 to $15.05
- Nonmotorized Driver (Operator) Permit Fee: Increase from $10.00 to $15.05
- Taxicab Business License Fee: Increase from $15.00 to $25.00
- Nonmotorized Vehicle Business License Fee: Increase from $15.00 to $25.00
- Mobile Food Vendor License Fee:
    - Annual license: Increase from $100.00 to $250.00
    - Six-month license: Increase from $60.00 to $125.00

Beginning in 2025, the City began using a more comprehensive third-party background check service for applicants of all the above-mentioned license and permit types except for mobile food vendor licenses. The background check carries a separate cost of $9.95 per individual. This fee is in addition to the license or permit.

Estimated Revenue Increases from Proposed Fee Adjustments (Based on FY25 Actuals):

- Taxi Driver Permit – 95 permits - $479.95
- Nonmotorized Driver (Operator) Permit – 1 permit - $5.05
- Taxicab Business License Fee – 4 licenses - $40
- Nonmotorized Vehicle Business License – 1 license - $10
- Mobile Food Vendor License -9 annual licenses and 4 six-month licenses - $1,610

Total: $2,145

This request is related to the City Council goal of Financially Responsible, High-Performance City Organization: Sustainable, Equitable, and Effective Service Delivery, by ensuring that the cost of administering the permit fee is more accurately aligned with the resources required to manage it.

Related Revenue:	$ 2,145	Tax Funds	Recurring	**Recommend - Yes**
Net Cost:	$ (2,145)			
Property Tax Impact:	$ (0.0007)	(0.01)%		
Activity: Administration				

Significant Line Items

Employee Expense

1. FY 2027 employee expense reflects a 3% wage package increase for non-bargaining employees.
2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from the FY 2026 City contribution of 9.44%. The employee contribution of 6.29% is unchanged from FY 2026.
3. The City portion of health insurance expense is increased $1,119 in FY 2026 to $1,175 in FY 2027 per month, per contract, which results in annual cost increased by 2,684 or 5.00%. The increase per contract is due to the city contribution increasing 5.00% because of increasing health costs.
4. Overtime is unchanged from $1,500 in FY 2026 to $1,500 in FY 2027. FY 2025 actual was $682.

Supplies & Services

5. Code Supplements increased from $7,321 in FY 2026 to $7,560 in FY 2027. FY 2025 actual was $6,052. This line item includes hosting of American Legal Publication on the City's website ($500) and publishing the City ordinances quarterly ($7,060). The expected ordinance publishing cost is expected to increase based on previous fiscal year actuals.
6. Civil Service is decreased from $22,500 in FY 2026 to $0 in FY 2027. FY 2025 actual was $2,301. This decrease is due to Police and Fire departments including their respective exam costs in their own budgets as part of the transition to managing their departments' entry level examinations outside of the Civil Service Commission's scope.
7. Advertising increased from $14,987 in FY 2026 to $19,808 in FY 2027 based on FY 2025 actual of $15,307. This line item is for legal notices and publications that are required to be published in the local newspaper per Iowa Code. The City Clerk's Office covers the cost of publishing minutes, public hearing notices, and ordinances. The increase is due to the City Clerk's Office taking over the publication of expenditure, claim and receipt information previously published by the Finance Department.
8. Meetings & Conferences is unchanged from $16,120 in FY 2026 to $16,120 in FY 2027. Conferences budgeted in FY 2027 include: International Institute of Municipal Clerks ($4,000); Iowa Municipal Professionals Institute ($2,700); Iowa Municipal Finance Officers Association spring & fall conferences ($1,670); Iowa Municipal Finance Officers Board Meetings ($3,080); and other miscellaneous conferences ($4,670). The specific conferences attended each year varies depending on what conference opportunities are available.
9. Election decreased from $55,000 in FY 2026 to $0 in FY 2027 due to no election falling in FY 2027. FY 2025 actual was $0 due to no general election occurring. This line item represents the cost of implementing City elections and is typically an every-other-year expense. City elections are regularly scheduled in odd-numbered years per Iowa Code. The next election is set for the fall of 2027, which occurs in FY 2028. Three City Council seats are up for election in calendar year 2027.

Four seats were up for election in calendar year 2025, which cost the City $58,316.41. This included both a primary and a general election.

10. Refunds unchanged from $18,938 in FY 2026 to $18,938 in FY 2027. FY 2025 actual was $11,400. This line item represents special event deposit refunds and the liquor license refunds. This expense is offset by the events revenue line item.

11. Sister City Program is unchanged from $9,300 in FY 2026 to $9,300 in FY 2027. FY 2025 actual was $8,310. $7,500 is allocated to Travel Dubuque for overseeing the Sister City Program per the City's contracted services agreement. The remaining funding is for Sister City membership dues to Sister Cities International (SCI) and hosting events in support of Sister Cities.

12. Technology Services decreased from $23,095 in FY 2026 to $16,180 in FY 2027. This line item includes permitting software ($6,000) and maintenance of the agenda management software ($10,180).

Revenue

13. Beer/Liquor Combination Licenses unchanged from $100,200 in FY 2026 to $100,200 in FY 2027. FY 2025 actual was 106,382.

14. Cigarette Licenses increased from $7,500 in FY 2026 to $27,000 in FY 2027. The State mandated a new subset permit in FY 2026 called a Retail Device permit. Businesses who sell tobacco devices must also obtain this permit along with the original tobacco permit. The City receives $1,500 per Retail Device permit issued.

15. Events increased from $5,050 in FY 2026 to $9,900 in FY 2027. This increase is due to an expected increase in special event applications ($50/application) and special events requiring street closures (additional $50 fee).

16. Deposits revenue unchanged from $16,500 in FY 2026 to $16,500 in FY 2027. The FY 2025 actual was $15,150. This line item represents deposits that are collected from special event application fees. This revenue is returned to the event organizer after the event, so long as there was no damage or issues with clean up. This line item offsets the Refunds expense line item. This line item varies each year due to the number and nature of events being held.

17. Revenue received from Enterprise Funds for administrative overhead charges decreased from $318,995 in FY 2026 to $303,859 in FY 2027.

CITY CLERK'S OFFICE

The City Clerk's Office is committed to accurately recording and preserving the actions of the City Council. The City Clerk's Office prepares, maintains, and distributes records of all City Council actions and provides the necessary documents for fulfillment of City Council and City staff's respective legislative and administrative responsibilities. The City Clerk's Office administers programs covered by the State Civil Service law and issues licenses and permits for various businesses and activities as set out by city and state law.

SUCCESS IS ABOUT PLANNING, PARTNERSHIPS AND PEOPLE LEADING TO OUTCOMES

People
The City Clerk's Office serves as a main resource for general city information. The City Clerk's Office strives to provide courteous and professional service while offering access to official records and referring inquiries to the appropriate departments.

Planning
The City Clerk's Office supports all departments through assembling and classifying all department items of business that come before the City Council.

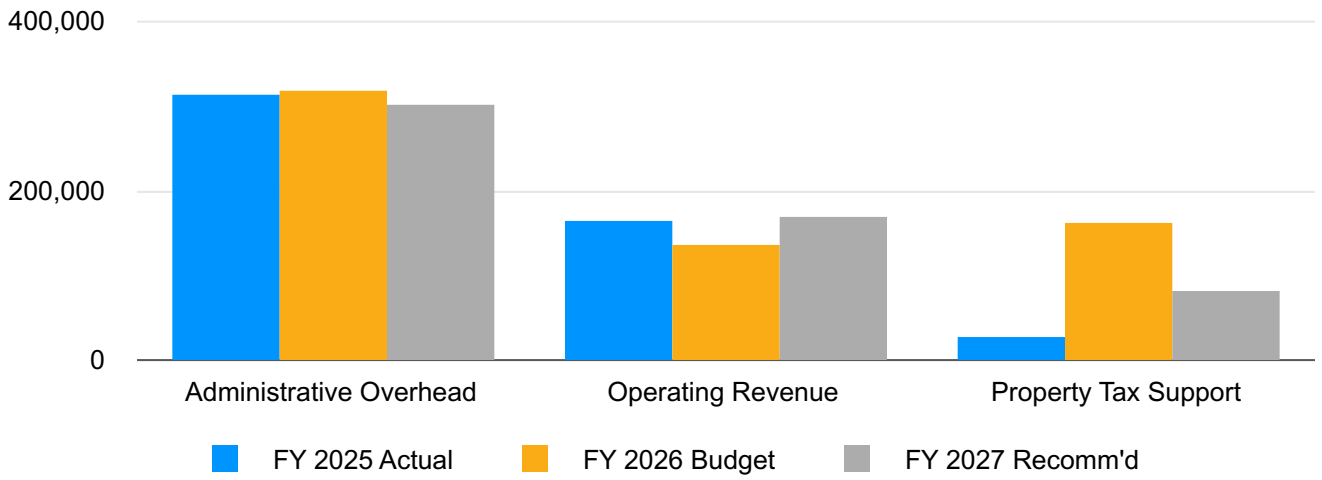

Partnerships
The City Clerk's Office partners with residents, staff, local and state agencies, and businesses to effectively conduct business. These partnerships include: State Department of Revenue, Iowa League of Cities, Dubuque Main Street, Travel Dubuque, Greater Dubuque Development Corporation, non-profit special event organizers, community service agencies, and Dubuque County offices.

CITY CLERK'S OFFICE

	FY 2025	FY 2026	FY 2027
Full-Time Equivalent	**4.00**	**4.00**	**4.00**

Resources and Property Tax Support

The City Clerks Department is supported by 4.00 full-time equivalent employees, which accounts for 80.30% of the department expense as seen below. Overall, the department's expenses are expected to decrease by 10.33% in FY 2027 compared to FY 2026.

Expenditures by Category by Fiscal Year

CITY CLERK'S OFFICE

Mission & Services

The City Clerk's Office performs administrative and clerical duties in support of the activities of the City Council, Civil Service Commission, and residents requiring certain business licenses and permits. Responsibilities include record management, processing of boards and commissions applications, administration of the Civil Service Commission, administering various licenses and permits, and serving as the city staff representative for the Sister City relationships.

City Clerk's Office

MISSION STATEMENT

The City Clerk's Office is committed to accurately recording and preserving the actions of the City Council. The City Clerk's Office prepares, administers, maintains, and distributes records of all City Council actions and provides the necessary documents for fulfillment of City Council and City staff's respective legislative and administrative responsibilities. The City Clerk's Office administers programs covered by the State Civil Service law and issues license and permits for various businesses and activities as set out by city and state law.

City Clerk's Office (4.00 Full-Time Equivalents)

City Clerk's Office Public Safety Impacts

- Civil Service Hiring

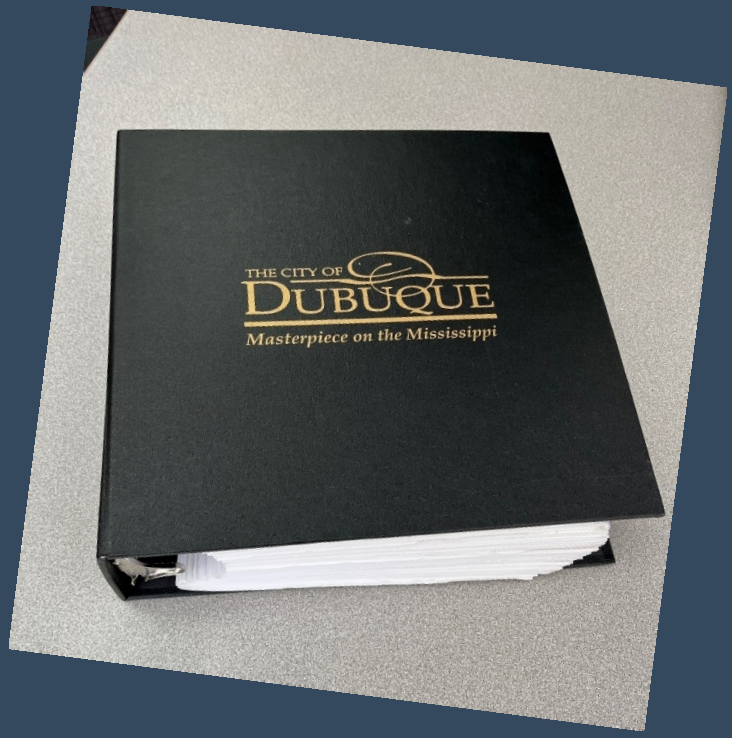

- Background Checks on License and Permit Applicants

- Special Event Permit Review Process

FISCAL YEAR 2026 HIGHLIGHTS

- Special Event Updates in City Code
- Mobile Food Vendor License Added to City Code
- Transitioned Majority of Licenses and Permits Online

FUTURE INITIATIVES

- Complete Searchable Text of Historic Council Proceedings
- Transition Boards and Commissions Agendas to CivicPlus
- Move all Mobile Food Vendors to a standardized renewal and expiration schedule

Civil Service Commission

Carla Heathcote, Chair

Miquel Jackson

Julie Bockenstedt

Otto Krueger

Randall Ludowitz

Fun Finds from Old Council Records

- Previous Occupations:
  - Lamp Lighter
  - Wood Measurer
  - Hog Weigher

- Street commissioner reported in favor of allowing $5.50 for damages caused to an out house by a rock rolling down from Bluff St. extension

- May 3, 1886 - First reading of an ordinance to restrain cows, horses and other animals from running at large

City Clerk's Office

FY 2027 REQUESTED PROPERTY TAX SUPPORT

$83,081

Net Property Tax Support

$1.28

Average homeowner's* property tax cost for the City Clerk's Office

(*Avg. home value of $196,508)

Improvement Package Summary

1 of 1

This improvement package request is for funding to purchase an annual and recurring license that would give the City Attorney's Office direct access to Police Department records. The City Attorney's Office routinely needs records for traffic court, simple misdemeanors, and municipal infractions. Currently, the City Attorney's Office must reach out to the Police Department Records Division to request an accident report, officer's narrative, or anything other than the citation itself. If the City Attorney's Office does not have the reports to accompany the citations from Records in time for court, the citation is often dismissed at the City's cost ($55.00-$95.00 per case), as there is no supporting documentation for the citation. By providing direct access to the Police Department records the City Attorney's Office can reduce work of the Records Division and efficiently prepare for each court case. This ensures improved operations and fiscal responsibility. This package helps to achieve the City Council Goal of Financially Responsible, High-Performance City Organization: Sustainable and Effective Service Delivery

Related Cost:	$ 600	Tax Funds	Recurring	**Recommend - Yes**
Related Revenue:	$ 469	Administrative Overhead	Recurring	
Net Property Tax Cost:	$ 130			
Property Tax Impact:	$ —	—%		

Activity: Administrative

Significant Line Items

Employee Expense

1. FY 2027 employee expense reflects a 3% wage package increase for non-bargaining employees.
2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from the FY 2026 City contribution of 9.44%. The employee contribution of 6.29% is unchanged from FY 2026.
3. The City portion of health insurance expense is increased from $1,119 in FY 2026 to $1,175 in FY 2027 per month, per contract, which results in annual cost increased by $3,355 or 5%. The increase is due to the city contribution increasing 5.00% because of increasing health costs.
4. Overtime expense is unchanged from $1,000 in FY 2026 to $1,000 in FY 2027. FY 2025 actual was $453.
5. Five-Year Retiree Sick Leave Payout decreased from $4,420 in FY 2026 to $0 in FY 2027.
6. During FY 2026, several positions were reclassified in the City Attorney's Office. This change was due to Iowa House File 856 and to meet the needs of the department. These changes result in cost savings for the department and total FTEs remains the same.
    i. Civil Rights Specialist position (1.0 FTE) was eliminated and a Assistant City Attorney I position (1.0 FTE) was created. Civil Rights Specialist was NB11 ($65,187.20-$85,217.60) on the compensation plan and the Assistant City Attorney I is NB15 ($86,320.00-$112,819.20).
    ii. Paralegal position (1.0 FTE) was reclassified to Administrative Support Professional (1.0 FTE). The Paralegal position was NB11 ($65,187.20-$85,217.60) on the compensation plan and the Administrative Support Professional is NB07 ($50,024.00-$65,395.20).
    iii. The existing Legal Administrative Assistant position (1.0 FTE) was reclassified to a Lead Administrative Support Professional. The Legal Administrative Assistant position was NB08 ($54,121.60-$70,761.60) on the compensation plan and the Lead Administrative Support Professional is NB09 ($58,448.00-$76,440.00).

Supplies & Services

7. Subscriptions decreased from $15,000 in FY 2026 to $13,100 in FY 2027. FY 2025 actual was $14,871. This decrease is due to switching legal research software providers for subscription cost savings.
8. Damage Claims decreased from $137,044 in FY 2026 to $127,638 in FY 2027 based on a three-year average of actual claims paid (FY 25 $113,176, FY 24 $163,082, FY 23 $106,656). The City reimburses Iowa Communities Assurance Pool (ICAP) up to $20,000 per claim.
9. Meetings & Conferences decreased from $30,000 in FY 2026 to $24,130 in FY 2027. Conferences budgeted include: International Municipal Lawyers Association Conference; International Municipal Lawyers Association Mid-Year Seminar; Iowa Public Information Board Meeting (Des Moines, IA); Upper Midwest Employment Law Institute; International Municipal Attorneys Association.

10. Administrative Judge is unchanged from $14,724 in FY 2026 to $14,724 in FY 2027. This line item represents the cost for human rights complaint investigations including the public hearing expense for an administrative law judge.

11. Rental of Space increased from $30,134 in FY 2026 to $30,362 in FY 2027. This line item includes parking for the City Attorney, Assistant City Attorneys, Senior Counsel, and Administrative Support Professionals ($2,328) and office rent ($28,034).

Machinery & Equipment

12. Equipment replacement includes ($1,600):

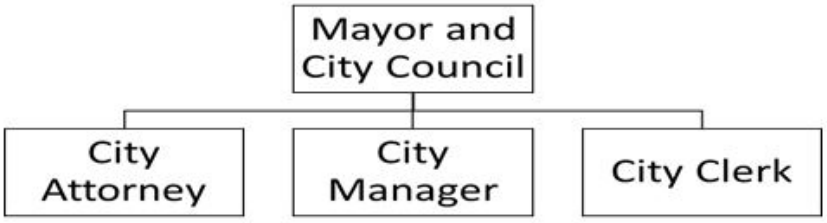

City Attorney Machinery and Equipment	
Administration	
Smartphones (4)	$ 1,600
Total Equipment	**$ 1,600**

Revenue

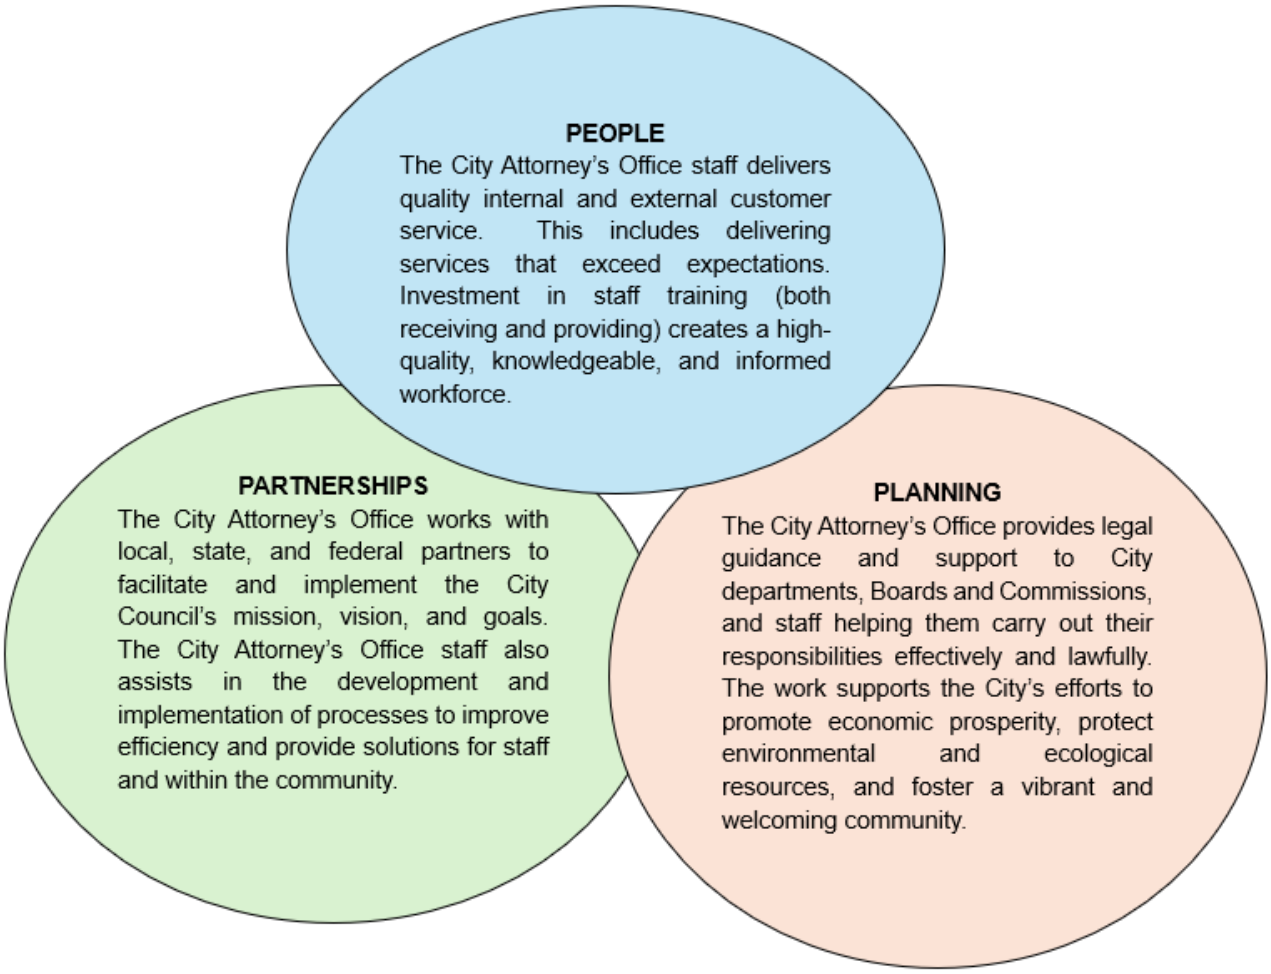

13. Revenue received from Enterprise Funds for administrative overhead charges increased from $896,712 in FY 2026 to $924,457 in FY 2027.

CITY ATTORNEY'S OFFICE

The City Attorney's Office is here to provide reliable legal guidance to the City Council, City Manager, and all City departments. By helping City leaders make informed and lawful decisions, we support high-quality services, smart planning for the future, and fair access to the resources our community needs. Our work helps ensure that your tax dollars are used wisely and that the City remains a strong, sustainable place to live, work, and thrive.

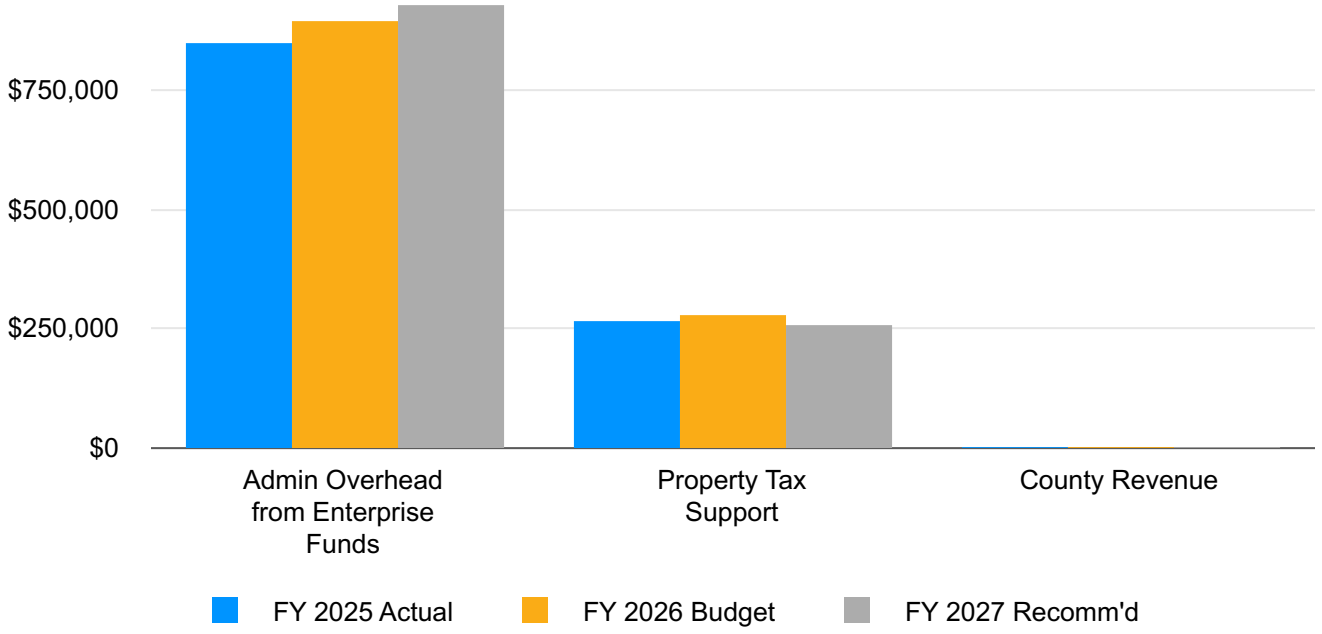

SUCCESS IS ABOUT PLANNING, PARTNERSHIPS, AND PEOPLE LEADING TO OUTCOMES

CITY ATTORNEY'S OFFICE

	FY 2025	FY 2026	FY 2027
Full-Time Equivalent	**5.62**	**5.62**	**5.62**

Resources and Property Tax Support

The City Attorney's Office is supported by 5.62 full-time equivalent employees. Overall, the department's expenses are expected to increase by 0.3% in FY 2027 compared to FY 2026.

Expenditures by Category by Fiscal Year

CITY ATTORNEY'S OFFICE

SERVICES:

- Represents the City in all cases and processes all claims and suits, and
- Provides written opinions to the City Council, boards and commissions, the City Manager, and City departments, and
- Assists in the preparation and review of legal documents, legislation, and other matters in which there is a City interest, and
- Provides legal counsel to the City Council, City Manager, and all officials and departments of the City in matters relating to their official duties, and
- Prosecutes ordinance and traffic violations, and
- Represents City boards and commissions, and
- Provides advice and legal opinions to officials, department managers, and City employees, and
- Drafts legal documents, memoranda, and opinions.

CRENNA M. BRUMWELL, ESQ.
CITY ATTORNEY

TO: **MAYOR BRAD M. CAVANAGH AND MEMBERS OF THE CITY COUNCIL**

DATE: **FEBRUARY 26, 2026**

RE: **BUDGET HEARING REMINDERS**

This is my annual budget process memo for the City Council. Sadly, there is no guidance or rules related to how individual budget hearings are handled in the state code as our process is unique and not specifically required by state law.

Previously, the City Attorneys for the largest cities in Iowa and City Clerks were polled on their processes. We asked if communities had a well-developed process for how items should be set aside during the departmental presentations/hearings for consideration/deletion/amendment at the final budget hearing. Attorneys' responding historically have included those for:

- Des Moines
- West Des Moines
- Iowa City
- Ames.

Unfortunately, none of the responding cities had a clearly outlined process for how amendments are handled.

It appears other cities handle proposed changes like any other amendment by the Council with a voice vote. If the amendment passes it becomes part of the roll call vote on the budget, as amended, at the Final Budget Hearing.

The City Council has the ability to agree upon how requests for further consideration (adding or deleting funding in the budget) will be handled. I have identified a few ways this could occur, but there may be other options with a creative bunch such as yourselves.

OFFICE OF THE CITY ATTORNEY DUBUQUE, IOWA
SUITE 330, HARBOR VIEW PLACE, 300 MAIN STREET DUBUQUE, IA 52001-6944
TELEPHONE (563) 589-4381 / FAX (563) 583-1040 / EMAIL cbrumwel@cityofdubuque.org

Options

1) Single Member Holdover: If one (1) member wants an item held for further discussion or consideration the item is held for discussion at the Final Budget Hearing.

2) Single Member Ask, Majority Agrees, Final Budget Hearing Consideration: If one (1) member wants an item held for further discussion or consideration, an informal poll of the Council occurs. If four (4) members agree the item should be held the item is held for discussion at the Final Budget Hearing.

   If there are not four (4) members in agreement to set the item aside for further consideration the item isn't held over for further consideration.

3) Single Member Ask, Majority Agrees, Budget Hearing Consideration: If one (1) member wants an item held for further discussion or consideration, an informal poll of the Council occurs. If four (4) members agree the item should be held the item is held for discussion at the end of the departmental budget hearings for the evening*.

   If there are not four (4) members in agreement to set the item aside for further consideration the item isn't held over for further consideration.

   *This would require adding an agenda item to each evening of departmental budget hearings for consideration of items held for further discussion.

4) Item by Item Motion: Members could make motions at each of the hearings for specific items to be added or deleted from a departmental budget. The prevailing vote of the Council would govern.

Option #2 above is the process that has been used historically by the City Council.

Any items that are set aside for further consideration during the process need to be discussed and resolved at, or prior to, the Final Budget Hearing prior to a vote on the Final Budget. Any changes in departmental budgets to increase funding would require an offset decreasing funding somewhere else within the budget.

State Program Information

The State does not allow the City to exceed the amount published in the public hearing notice for planned expenditures in each of the nine program areas in the final adopted budget. The nine program areas defined by the State for reporting purposes include:

- Public Safety
- Public Works
- Health and Social Services
- Culture and Recreation

- Community and Economic Development
- General Government
- Debt Service
- Capital Projects
- Business Type

The City must assign its various cost centers to one of these programs based on reporting guidelines prepared by the Iowa Department of Management. In addition, the property tax levy adopted must equal or be less than the property tax levy published in the notice of public hearing. This is in accordance with the administrative rules which are intended to implement Iowa Code chapters 384 and 388.

Note: On the state programs areas, revising the budget recommendation if the expense exceeds the state program amount published requires the budget changes to be included in the first budget amendment of the new fiscal year.

Open Meetings Reminder

As a reminder entering budget season, the standard rules for City Council meetings apply to budget work sessions and hearings. All discussions on agenda items should be public i.e. no private exchanges in any electronic formats with each other, staff, or the public. This maintains compliance with the open meetings law.

This is for informational purposes and if you have any questions, please reach out.

Honorable Mayor and
Members of the City Council

In accordance with Chapter 400 of the Code of Iowa, a written questionnaire was given to evaluate the knowledge, skills, and abilities relevant to the role of Chief of Police. We, the Civil Service Commission, hereby certify that the individuals named below have completed the written questionnaire, successfully passed the initial stage of the process, and are eligible for selection to fill this vacancy.

Chief of Police

1. Richard Fullmer
2. Joseph Messerich

Respectfully submitted,

Civil Service Commissioner
